More Information Through 15,000 Aids To Media Buying

Last Year, more than 15,000 Service-Ads (more than one thousand per month) appeared in Standard Rate.

Service-Advertisers supplied the qualitative media information designed for your use . . . designed to make evaluating and buying more effective.

Each month, Service-Advertisers present useful material, condensed, and qualitatively edited, to provide you with as complete a media picture as is possible.

Service-Ads include ready-to-use information on:

household income characteristics • coverage by county and other civil divisions • market maps • area characteristics • rural and/or incorporated areas • audience or circulation data • rate comparisons • special services • audiences or reader characteristics • retail sales potential • sales influence and case histories • awards for excellence • major crops and/or industries • community growth • audience or circulation growth • consumer spendable income figures • market index figures • market data by sales characteristics • market group or network affiliations • staff members and number of years serving community •

Service-Ads can aid you in market and media evaluation . . . supply the additional data you need to make that process easier . . . provide the facts with which to support your final decision.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

TRUTH IN NUMBERS.

We've got 782,200 adults every Sunday.

Right here in the middle of the broadcast section of SRDS we want to put in a good word for newspapers.

We're convinced, and we think we can prove it with numbers, that any effective buy in Atlanta must include the Atlanta Journal and Constitution.

As a matter of fact we might even be able to help you with your broadcast buy.

Our research department has more information on the Atlanta market, who's who, and who buys what, than any other source in town.

For example: Of the total adults in the 15-county Atlanta area, 58% read our dailies, and 78% of the adults read us at least three days during a five-day period; 71% read our Sunday paper; and 82% read us three out of four Sundays.

Write us and we'll send you the truth in numbers about Atlanta.

Readership: Belden Continuing Audience Study.

KNOW YOUR SERVICE

Special Features of *Spot Radio Rates and Data* Help Your Station Selection

Besides the regular individual station listings, these four specific references in the monthly edition of *Spot Radio* aid in your selection of stations by type and location:

- Metropolitan Areas—stations are listed alphabetically within each Standard Metropolitan Statistical Area, as established by the Bureau of Census.
- Foreign Language Programming—stations which have at least one program are listed geographically showing the language and number of hours of foreign language programming.
- Negro Programming — listed by state, city and call letters, stations having at least one regularly scheduled program are listed showing number of Negro hours programmed per week.
- Farm Programming—stations that broadcast at least one such program are listed geographically, showing total weekly broadcast hours of farm programming.

These features—kept up to date monthly—are designed to make your job of station selection easier through an ever increasing use of SRDS. See the Contents page for the location of these and other special features to be found every month.

(Hawaii County)

See SRDS consumer market map and data at beginning of the State.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

QUICK QUESTION:

What's the average cost for a one-minute spot (12 per week for 13 weeks) for the four highest cost stations in Chicago, during morning drive time?

QUICK ANSWER:

Check the new RADIO MARKET ESTIMATOR positioned directly below the Chicago heading in SRDS Spot Radio Rates & Data.

You can also answer that and other estimating questions for all of the top 150 markets with SRDS new RADIO MARKET ESTIMATOR. The Katz Radio Organization has permitted us to borrow their style and technique, and we're taking it one step further.

We publish the RADIO MARKET ESTIMATOR every month and update the individual tables **whenever** there is a rate change for any one of the major stations in the market.

See for yourself if this new addition to SRDS Spot Radio Rates & Data doesn't save you time and trouble.

Because radio reps can help you . . .

SRDS helps YOU find THEM

For your convenience, there's a complete and up-to-the-minute list of radio station representatives at the beginning of every issue of Spot Radio Rates & Data. Company names are arranged alphabetically, and the list includes addresses and telephone numbers of sales offices.

Next time you need first-hand information about a station's market . . . areas where retail sales are best . . . places where dealers and wholesalers really use tie-in copy and point-of-purchase displays . . . and, of course, information on station policies and programming, check our list for the representative nearest you. Then check with him.

In most large corporations, verbal contact is not always possible, especially on higher management levels. Often company improvements are begun by a simple, handwritten note, placed in the suggestion box.

The SRDS suggestion box is the U.S. mail. If you think something needs changing, jot down the idea, and send it in. SRDS depends on your suggestions. The only way we can give you exactly what you need is for you to tell us exactly what you want.

Our suggestion box will cost you a little time and a postage stamp. In the long run, it may save you a lot of time — and money.

IF YOU DON'T SEE WHAT YOU WANT... ASK FOR IT!
