ANNOUNCING
TWICE AS MANY WOMEN
AT NO EXTRA COST.

We've doubled our audience—and more than doubled our women—since our last book that showed we were the No. 1 country station in Baltimore. And we haven't raised our rates. That's efficiency.

The April-May ARB (based on 6 AM-Midnight avg. ¼ hour T.S.A.) shows Women 18+ up from 2,700 to 6,000 (+122%) and Women 25-49 up from 2,300 to 4,700 (+104%). And in Women 25-49, 10 AM-3 PM we're ranked #4. That's pretty good for a station that wasn't even in the market 9 months ago.

WPOC FM 93. BEST BUY IN THE COUNTRY.

KNOW YOUR SERVICE

Special Features of *Spot Radio Rates and Data*

Help Your Station Selection

Besides the regular individual station listings, these four specific references in the monthly edition of *Spot Radio* aid in your selection of stations by type and location:

- Metropolitan Areas—stations are listed alphabetically within each standard Metropolitan Statistical Area, as established by the Bureau of Census.
- Foreign Language Programming—stations which have at least one program are listed geographically showing the language and number of hours of foreign language programming.
- Negro Programming — listed by state, city and call letters, stations having at least one regularly scheduled program are listed showing number of Negro programming.
- Farm Programming—stations that broadcast at least one such program are listed geographically, showing total weekly broadcast hours of farm programming.

These features—kept up to date monthly—are designed to facilitate the job of station selection. See the contents page for location of these and other feature bonuses.

An unexpected child can really rock the cradle.

Photo by Rudolph Legname

Don't get us wrong.

We think children are priceless, too.

But if a child happens to be unplanned, it *could* mean financial pressures.

You see, a child is not just an extra mouth to feed. It's a whole other life to be provided for.

And that takes money.

Fact is, the cost to raise a child to age 18 ran around $25,000 (more for some, less for others, dependent on family income) in the mid-60's. And what inflation will do to the cost in the future is anybody's guess!

But no matter what the amount is, it's easy to see that the cost of rearing children is an economic reality one can't ignore. That is, if each child is to get what he or she deserves.

Which is why we advise every couple to plan how many children they want. And when they want them: when they can be a welcome addition rather than an accidental burden.

Because, as we all know, it's awfully hard to give with a full heart when one's pockets are empty.

WJFM The power to persuade

With 500,000 watts, WJFM covers 720,000 households and 2,400,000 people. And they are listening. Calls have come in from 100 miles away and mail from 41 counties.

Who are these listeners? Men and women from 18 to 49 who appreciate "music just for the two of us," who enjoy the very best — and often buy the very best.

The nation's most powerful FM station.

QUICK QUESTION:

What's the average cost for a one-minute spot (12 per week for 13 weeks) for the four highest cost stations in Chicago, during morning drive time?

QUICK ANSWER:

Check the new RADIO MARKET ESTIMATOR positioned directly below the Chicago heading in SRDS Spot Radio Rates & Data.

You can also answer that and other estimating questions for all of the top 150 markets with SRDS new RADIO MARKET ESTIMATOR. The Katz Radio Organization has permitted us to borrow their style and technique, and we're taking it one step further.

We'll be publishing the RADIO MARKET ESTIMATOR every month and updating the individual tables **whenever** there is a rate change for any one of the major stations in the market.

See for yourself if this new addition to SRDS Spot Radio Rates & Data doesn't save you time and trouble.

Number one in weekly circulation from Mid-Michigan to the Mackinac Straits.*

Plus persuasion. It begins with Mike Paulin whose zany chatter and cheerful music format has been waking up Northern Michigan listeners for 12 years from 6 A.M. to 10 A.M.

Then from 10 A.M. to 2 P.M. Dan Creighton keeps 'em going with the MOR format highlighted by his half-hour ad column of the air, TELL 'N' SELL.

And Dave Mitchell's music and features are presented with people in mind and he gives it to them from 2 P.M. to 6 P.M.

Terry Wunderlin continues the persuasion nightly with COUNTRY MUSIC and current hits from 6 P.M. to 12 midnight.

Combined with local, regional and CBS news and features, all offer a friendly setting for your message.

WWAM/WKJF (FM) is NUMBER ONE in weekly circulation for total persons 12+ (38,600) for all Northern Michigan area stations from Mid-Michigan (at Clare) north to the Straits of Mackinac.

** Number one for Northern Michigan area stations of license from Clare to the Mackinac Straits (27 counties)*

CAUTION—page numbers break here

No pages are missing!

Should you detect a break in the continuity of page numbers between this page and the succeeding one, you need not be concerned. There have been no pages omitted—*only page numbers.* The break in page numbers is the result of a production procedure designed to step up the production of *Spot Radio Rates and Data,* so it will reach you at the *earliest* possible moment after its forms close.

Similar breaks in page numbers will occur at about this point in future issues. It will not indicate that any pages are missing.

We think you will agree that the contents and the cutting of production time of *Spot Radio Rates and Data* are far more important to you than maintaining the continuity of page numbers.

Note that, in this issue, the first page after number 444 is page number 501.

Standard Rate & Data Service makes every effort to secure information from reliable sources and to be correct in everything it publishes but assumes no liability if any inaccuracies are contained herein.

SALES BEGIN WITH A KNOCK AT THE RIGHT DOOR

When only reliable information will do, depend on the source the experts do. Top salesmen depend on The Standard Directory of Advertisers to direct them to the right door to make the sale.

"The Advertisers Redbook," published in two editions, Classified and Geographical, provides all necessary data for selling to the 17,000 listed companies and their agencies, doing national and regional advertising. 80,000 executives are listed by title for direct contact. The Classified Edition arranges companies in 51 classifications for contact by line of business. The Geographical Edition shows companies by state and city for territorial contact. A pocket size Geographical Index comes as a cross reference with the Classified Edition. The Monthly Supplement, issued 9 times a year, is a cumulative updating of changes in advertiser companies, advertising agency appointments and newly advertised products.

When making a sale depends on knocking on the right door . . . depend on the Standard Directory of Advertisers to get you there.

CHANGE BULLETIN

CAUTION—page numbers break here

No pages are missing!

Should you detect a break in the continuity of page numbers between this page and the preceding one, you need not be concerned. There have been no pages omitted—*only page numbers*. The break in page numbers is the result of a production procedure designed to step up the production of *Spot Radio Rates and Data*, so it will reach you at the *earliest* possible moment after its forms close.

Similar breaks in page numbers will occur at about this point in future issues. It will not indicate that any pages are missing.

We think you will agree that the contents and the cutting of production time of *Spot Radio Rates and Data* are far more important to you than maintaining the continuity of page numbers.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

WE TOLD YOU SO!

TOTAL PERSONS 12+

	Jan/Feb 1974	April/May 1975
KDWB	16,100	28,800
Station "Twone"	29,700	26,500
Station DG	18,000	12,700
Station U	N/A	10,500

We told you it was happening. The trends showed it. And now, with a whopping increase of almost 79% since the 1974 Jan/Feb ARB (despite a fourth station that made everything just a little bit harder; and some *contradictory claims by other stations who've pieced together day and week parts to "boost" their ratings),* KDWB is the number 1 music station in the Twin Cities. And don't forget, we told you so.

WCCO Radio outpulls TV 15 to 1!

At WCCO Radio, we are starting our second 50 years of broadcasting in great style. With a tradition of delivering bigger average quarter-hour (AQH) audiences than any television station in the Minneapolis-St. Paul market. Fact is, this is the seventh consecutive year we've done it—this time topping TV in 15 out of 16 points of comparison.

That's a lot of muscle in a strong market like the Twin Cities. But it's to be expected when you have strong arms pulling for you. Like WCCO Radio's lineup of talented personalities presenting full-size, complete programming. It's the kind of radio that attracts and holds the widest possible audience rather than appealing only to some narrow segment.

How strong are we? Here's a few highlights from our show of strength in the 1974 ARB averages:

PERSONS 11+ AQH 6 AM–MIDNIGHT, M-S	
WCCO Radio	122,400
Best TV Station	120,200
ADULTS 18+ AQH 6 AM-6 PM, M-F	
WCCO Radio	166,900
Best TV Station	62,500
WOMEN 18+ AQH PRIME TIME, M-F	
WCCO Radio (6-10 am)	140,800
Best TV Station (6:30-10:30 pm)	105,300

WCCO Radio also wins 12 out of 13 other points of comparisons. Want to hear the full story for yourself and have WCCO Radio pulling for you? Call your WCCO Radio or CBS Radio Spot Sales Representative. They really know the ropes.
