Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

GREENVILLE-SPARTANBURG
(10 AM; 4 FM)

Greenville County—Map Location B-3
Spartanburg County—Map Location C-4
See SRDS consumer market map and data at beginning of the State.
Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

See SRDS consumer market map and data at beginning of the State.
Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

WIVK takes the "Knox" out of Knoxville!

Covering Knoxville doesn't have to be a problem. It can be easy. It can be effective.

But only with WIVK —

No. 1 *Again*

with Men 18+, Men 18-49, Women 18+, Women 18-49

ALL DAY, ALL NIGHT

and

in all four individual day parts

When planning a big $1.7 billion market, there are a lot of hard knox dealt. But with WIVK . . . it's a breeze.

DALLAS (9 AM; 9 FM)

Plus 3 paid duplicate listings; plus 1 cross reference.

(including Grand Prairie, Highland Park)

Dallas County—Map Location F-5
See SMDS consumer market map and data at beginning of the State.
Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc., within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

YOU ASKED FOR IT!

SRDS RADIO MARKET ESTIMATOR

And Now You've got it.

With the permission of the KATZ Radio Organization, we borrowed their style and technique to create a useful, top-150-market radio cost estimator for you in SRDS Spot Radio Rates & Data.

In fact, we've taken the KATZ technique a step further. We publish our RADIO MARKET ESTIMATOR every month and update the individual tables **whenever** there is a rate change for any one of the major stations in the market. That way you can be sure your estimates are always current, always useful.

You'll find the new SRDS RADIO MARKET ESTIMATOR positioned directly below the city of license or major city designation heading, for each of the top 150 markets. Eventually we will add other markets as you need them.

See for yourself if this new addition to SRDS Spot Radio Rates & Data doesn't save you time and trouble.

You asked for it and now you've got it . . . . RADIO MARKET ESTIMATOR in SRDS.

Standard Rate & Data Service, Inc.

Washington County—Map Location C-3
See SRDS consumer market map and data at beginning of the State.
Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

(20) As of 1-1-74 the independent city of Nansemond merged with the independent city of Suffolk.
(21) Newport News County is the independent city of Newport News; as of July 1, 1958 it includes the former independent city of Warwick.
(22) Norfolk County is the independent city of Norfolk.
(23) Pittsylvania County data includes independent city of Danville data.
(24) Portsmouth County is the independent city of Portsmouth.
(25) Prince George County data includes independent cities of Hopewell and Colonial Heights data.
(26) Roanoke County data includes independent cities of Roanoke and Salem data.
(27) Rockbridge County data includes independent cities of Buena Vista and Lexington data.
(28) Rockingham County data includes independent city of Harrisonburg data.
(29) Spotsylvania County data includes independent city of Fredericksburg data.
(30) Includes portion in Mercer County, West Virginia.
(31) Virginia Beach County is the independent city of Virginia Beach. As of January 1st, 1963 it includes the former county of Princess Anne.
(32) Washington County data includes Virginia portion of independent city of Bristol data.
(33) Includes portion in Sullivan County, Tennessee.
(34) Wise County data includes independent city of Norton data.
(35) Southampton County data includes independent city of Franklin data.
(36) Greensville County data includes independent city of Emporia data.
(37) Bedford County data includes independent city of Bedford data.

(†) Consumer Market estimates for retail sales, (total and store types), do not include sales made in military commissaries, post exchanges and eating places on military posts in these counties.

VIRGINIA

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

Station	Morning Traffic (6-10 am)	Daytime (10 am-3 pm)	Afternoon Traffic (3-7 pm)	Evening (7 pm-midnight)

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

Vice-Pres. & Gen'l Mgr.—Kenneth E. Peterson.

We've changed our name... WBAY is now WGEE

But we're still the "biggest buy for your advertising buck" in Green Bay and 9 surrounding counties.
Check the April/May 1975 ARB for facts and figures — things are really "strummin'" in BIG G COUNTRY . . . WGEE.
For "total audience" domination, buy WGEE combined with WIXX, formerly WBAY-FM.

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

RADIO MARKET ESTIMATOR

Table reports one-minute rates (based on 12 per week for 13 weeks) for the four highest-cost stations (and the average thereof) in each daypart.

Product Protection
Station agrees to exercise all reasonable effort to maintain a ten-minute separation between competitive, non-network advertised products. The station will guarantee that competitive products will not be run back-to-back. For the purpose of product protection, classification of products as competitive must be approved by the station in advance of scheduling, not retroactively. Station is not responsible for conflicts with competitive network advertisers' products when the network commercials are rotated or moved beyond the scheduling control of the station, or schedule changes are received on less than two weeks' notice from the network.
Affiliated with American Information Network.

WISN Radio earned 7 of 10 awards for news, sports & public service!

Gee, aren't there any other winners in Milwaukee?

Milwaukee turns to us for the facts. WISN won the 1974 Freedom Foundation Award for "Radio Editorial" and the 1974 Northwest Broadcast News Association Awards for "Spot News" and "Radio Documentary." We swept 4 of 7 1974 radio journalism awards at the Milwaukee Press Club.

And there's more. We helped the Johnson Foundation earn the prestigious George Foster Peabody Award for "Meritorious and Superior Performance in Broadcasting" and the Freedom Foundation Award for "Public Service Programming."

WISN Radio, Award-winning Responsible Radio. That's the way it is. And that's the way it's going to stay.

Standard Rate & Data Service

SPOT RADIO RATES AND DATA

An SRDS Publication

ABP

Published monthly by Standard Rate & Data Service, Inc., 5201 Old Orchard Rd., Skokie, Ill. 60076. Phones (Chicago) 312-583-1333; (Skokie) 312-966-8500; TWX 910-223-0806.

PUBLISHER'S EDITORIAL STATEMENT

SPOT RADIO RATES AND DATA is a monthly publication edited for the buyers of spot radio advertising. Editorial content is organized to serve buyers' information needs for AM and FM radio. Each issue contains approximately 6,000 free listing arranged in geographic/alphabetical order. Listings include: personnel, representatives, facilities, time rates, participating programs, special features, etc., arranged under ten uniform, numbered headings. Also, each issue contains annually up-dated market data estimates of population, households, income, retail and store type sales and other media/market indicators for metro areas, counties, and cities, plus related metro area rankings.

1. PERSONNEL

7-1/2"	280.00	255.00	235.00	220.00
5"	225.00	210.00	170.00	165.00

Rate holder minimum—5".

	Per Insertion
1" — minimum 6 consecutive insertions.	
With agency discount	50.00
No agency discount	42.00

TELL-ALL SPREAD

Per inch:	1 ti	6 ti	12 ti	*24 ti
60" and over	26.30	24.05	22.45	21.50
55" to 59"	26.95	25.00	23.40	22.05
50" to 54"	28.05	25.40	23.75	22.95
45" to 49"	29.05	26.70	25.10	23.75

(*) 24-time rate applies when one or more media under the same ownership uses more than 1 position for a minimum of 24 insertions during the schedule year.

One Page Tell-All Unit (per inch)

1 time	31.15	12 times	27.15
6 times	29.00	24 times	26.15

Minimum charge will be for 25 inches of advertising space.

TELL-ALL UNIT

Eight column spread unit, or multiples thereof, consisting of ad and listing, with the listing starting at the top of the first column on the left-hand page. A tell-all unit is a complete eight column spread devoted exclusively to the advertiser's listing and advertisement.

To figure the space available, add up the number of inches of listing (ten inches per column) and subtract the total from 80. The number of inches left over should be devoted to advertising space, with a minimum charge based on at least 45 inches of advertising space where one listing appears in the tell-all. If two or more listings appear, the minimum charge is based on 50 inches of display space.

In any case, the space left over after the listings are provided for is subject to charge. Colors and bleed, when used, at rates shown under those headings.

CONTINUITY DISCOUNT

A 5% discount will be given at termination of contract year to advertisers who contract in advance and then run advertising of 5 inches or larger in every issue. The discount is earned only if SRDS receives a firm order in advance of the appearance of the first insertion which starts the contract year. The 5% discount is rebated to the advertiser at the conclusion of the contract year (not applicable to color or bleed charges).

Not applicable to cover positions. Advertising of media in common ownership may not be combined to earn continuity discount.

6. COLOR RATES

Per page or fraction:		Spread
AAAA red, r.o.p., extra	180.	205.
Any other standard AAAA color, blue, green, yellow or orange), each extra	230.	270.
Any matched color, each extra	275.	315.

7. COVERS

	1 ti	6 ti	12 ti
1st cover	.....	.....	1385.
2nd or 3rd cover	780.	705.	665.
4th cover	.....	.....	890.
Backbone			510.
Cover gatefold; 2nd or 3rd cover			1780.

Rates include standard SRDS cover colors.

1st additional color on covers, extra	325.
2nd additional color on covers, extra	150.
Black plus 3 color (4/color process), extra	750.

8. INSERTS

No commission or cash discount allowed on tipping-in, back-up or other production charges.

FURNISHED BY ADVERTISER:
Regular black and white page rates apply. Back-up required if one-sided insert; send inserts ready for machine binding.

Inserting charge, extra	105.
Charge for tipping-in (if necessary)	300.
Back-up charge for 1-page insert, extra	85.

PRINTED BY SRDS (Letterpress or Offset):
Black and white regular page rates apply, plus following production charges, which are not commissionable, and subject to change:
1-page, black and standard AAAA red, including back-up and inserting:
30" unit ..... 315, 40" unit ..... 335.
2-page, black and standard AAAA red, two sides and inserting:
30" unit ..... 315, 40" unit ..... 335.
4-page, 3 or 4 columns, printed offset (any 2nd color) or printed letterpress including red color ..... 670.
Colors other than standard AAAA red, each ..... 200.

SECTION DIVIDER INSERTS
Sold complete, 2 sides only.
1 time ..... 1190, 12 times ..... 1020.
6 times ..... 1085.
AAAA red free, any other color, extra ..... 200.

9. BLEED

All advertising units available in bleed sizes.

Per spread of 2 standard or 2 four-column pages, extra	70.
Per 40" unit or fractional page, extra	50.

No extra charge for spreads that bleed into the gutter only. A "spread" is defined as a Tell-All unit or two facing 30" units or larger. No charge on inserts or covers.

10. SPECIAL POSITION

Preferred position request requiring special handling: 20% above the earned black/white space rate or 70.00 minimum charge, whichever is higher.

11. CLASSIFIED AND READING NOTICES

You are There-In SRDS

You or your representative would like to be on hand every time a radio buy is being considered in your market — but you can't always be. SRDS **can** and **is**, so the best thing you can do to cover every selling situation is to put your selling story in SRDS to support and substitute for your representative.

Spot Radio Rates and Data is designed to provide complete, current, accurate data on 6,300 commercially licensed radio stations in the U. S. Our publication is used by agency buyers/planners of media and national/regional advertisers. These people rely heavily on all the vital, up-to-date information Spot Radio Rates and Data provides each month:

- list of station representatives
- stations regularly scheduling farm, foreign language, Negro programs
- coded contract regulations
- consumer market data summary: states, census divisions, U. S.
- composite ranking of all U. S. metros by market data categories
- specific rankings of all metros by market data categories, including the actual data
- radio stations in Standard Metropolitan Statistical Areas
- farm market data summary; states, census divisions, U. S.
- farm income by commodities and commodity groups
- 400 leading farm counties ranked by population, gross income and number of farms
- Negro population totals for all U. S. metros plus counties for nine states
- 100 leading metros ranked by Negro population
- Spanish population totals for selected metros and counties in eight states
- regional radio networks and groups

AND — in each State section:

- state media/market map
- consumer market data (CSI, TRS, etc.) for state, all counties, metros and cities
- Negro population data for metros and selected counties in nine states
- state networks and groups

BINDING METHOD

Perfect.

PRINTING SPECIFICATIONS

Halftones for body pages 85-line screen preferred, maximum 100-line screen with highlights deep etched to .0035 inches and tone contrasts exaggerated. For covers and inserts—up to 133 screen. Ben Day screens exceeding 50% density are not recommended.
Reverse: Reverse plates acceptable but fine line art elements, or type involving fine line serifs or strokes not advisable for good reproduction.
Original plates produce best results. If electros are furnished they should be unused, clean, sharply molded, made from properly etched original plates. Electros must be mounted and not exceed maximum dimensions, including tacking edge or flush mount. Mounting, mortising, repairs, etc., and making of plates charged to advertiser. Can use mats, but printing results from stereotypes not guaranteed. Color register guaranteed only when engraver's proofs are furnished.
No charge for composition from available SRDS typefaces on material received by scheduled set-copy closing date.
Outside composition and late set copy is charged at cost plus handling.
All plates destroyed 12 months after publication unless instructed otherwise.

INSERTS

Furnish 3 column unit (30") inserts trimmed to 8-1/8" in width (8-1/8" x 11-1/2"). This allows for 1/8" trim at the binding edge (for Perfect Binding) 1/4" trim at the top and 1/4" trim at the bottom.
Furnish 40" inserts untrimmed (10-15/16" x 11-(1/2"). This allows for 1/8" trim at the binding edge (for Perfect Binding) 1/4" trim at top, 1/2" at side, and 1/4" at bottom.
In both cases, keep important type and illustrations at least 1/2" from gutter and 1/4" from trim edges.
Insert stock: Uncoated book paper, maximum weight 70 lbs. (25 x 38 basis) should caliper not to exceed .0055. Coated book paper, maximum weight 70 lbs (25 x 38 basis) should caliper not to exceed .0035. SRDS requests paper samples for inserts supplied by the advertiser for use in SRDS.
Ship all spread inserts unfolded. Allow 1/4" space in the gutter for trim-off in the Perfect Binding process.
Minimum quantity required 5,100.

BLEED

	Inches		Inches
40"	10-7/16	x	11-1/4
30" (vertical)	7-9/16	x	11-1/4
30" (horizontal)	10-7/16	x	8-1/4
20" (vertical)	5-3/16	x	11-1/4
20" (horizontal)	7-9/16	x	7-3/8
20" (horizontal)	10-7/16	x	5-3/4
15" (vertical)	5-3/16	x	8-1/4
15" (horizontal)	7-9/16	x	5-3/4
15" (horizontal)	10-7/16	x	4-1/2
10" (vertical)	2-13/16	x	11-1/4
10" (horizontal)	7-9/16	x	4-1/16
10" (square)	5-3/16	x	5-3/4
7-1/2" (horizontal)	7-9/16	x	3-1/4
5" (vertical)	2-13/16	x	5-3/4
5" (horizontal)	7-9/16	x	2-3/8
5" (square)	5-3/16	x	3-1/4

Type and design matter should be kept a minimum of 3/8" from bleed plate edges to allow for trim.

TELLING

Tell Buyers What They Need To Know . . . hard facts about your station and your market to serve the buyer at the point of purchase! Here are some of the points most buyers say they want to know about your radio station:

Your Station

Coverage - Audience Characteristics

- Station coverage by measured contours (0.5 MV/M and 0.1 MV/M), by ARB and/or Pulse survey areas
- composition of audience — urban, farm; by age, sex, income, education; by ethnic/language groups
- population, income, sales by designated areas
- special penetration studies

Programming - Ratings

- programming structure, daytime and nighttime (e.g. talk, news, pop/light/serious music
- amount and kind of sports/news/recreational programming
- amount of simulcast AM / FM programming
- station personalities and special-audience programs (farm, teen, foreign language)
- programs available for participation or full sponsorship
- comparative rating data by dayparts (drivetimes, daytime, late evening); comparisons of shares, ratings, quarter-hour of cume audiences for single or combined dayparts
- breakouts by age/sex demographics
- audience data against previous years

Identification, Policies, Facilities, Time Costs

- ownership, network or group affiliation
- channel, frequency and power
- studio and mobile facilities
- discount availabilities, package plans
- cost-per-thousand listeners

Advertiser Acceptance

- number of national and local sponsors; prestige accounts
- sponsor-renewal trend in current, past years
- mail or telephone response to commercials, offers, contests
- test market campaigns and results

Special Services

- special station studies or surveys on market potential, buying habits
- all media reach/impact comparisons with radio, newspapers, etc.
- merchandising services to all advertisers

Your Market

Market Area Map

- engineering contour map showing daytime and/or nighttime coverage by measured contours
- coverage data based on accepted research and sourced
- county lines, major cities, urban, suburban, and farm areas outlined

Market Size, Population & Households

- totals within coverage areas plus breakdowns by urban, farm, ethnic, etc.
- ranking within state, nation or metro area
- per cent of state, regional, U. S. population (also gain in per cent)
- characteristics (age patterns by sex, education; economic data by census tracts, age groups)
- home ownership data

Economic Factors—Consumer Spendable Income and Retail Sales

- totals by designated areas; all households, per household
- ranking (national, state, metro area)
- per cent of U. S., region, state (also gain in per cent)
- gross farm income by area totals, gains, comparison with other farm markets, and by ranking
- totals by type of retail outlet (drug, food, automotive, service station)
- comparisons of city, county, metro sales-to-CSI ratios vs. other markets
- sales by ethnic groups (Spanish, Negro, etc.)

Special Market Characteristics

- marketing patterns (retail trade activity and special factors, such as tourist trade)
- estimates of sales to non-residents
- industry diversification (types, number of plants, total wage earners in each)
- new and expanded industry; leading manufacturers; payroll and wage average
- military installations (number of military and civilian personnel)
- transportation facilities, utilities, schools and universities, banking institutions

SELLING

The best way to reach planners and buyers of radio is with an ad next to your listing in SRDS Spot Radio. Your ad will be noticed and read by the people **actually making a buy** in your market. Research has proven this time and time again.

For example, in an ongoing 1974 report of spot radio buying activity, conducted nation-wide by phone, every single respondent was actively engaged in planning or buying spot radio. Of these planners and buyers, 99% confirmed they use Spot Radio Rates & Data, and 75% said they use it **daily or weekly.**

SRDS Spot Radio in 1973 far surpassed every other competing publication in the advertising categories surveyed:

— Maintained 1-1/2 times as many radio station accounts as the number two publication.

— Was selected by 58% of all radio station accounts which ran in only one publication, exclusively.

— Ran more insertions than all other publication **combined** — 67% of the total.

— Carried more than 40% of all ad pages **run** in all publications **combined.**

— Carried 57 of the 58 12-time, once-a-month radio station ad schedules.

Spot radio planners and buyers use — and re-use — Spot Radio Rates & Data. A Service-Ad next to your listing will sell your market and medium when and where it counts.

Selling Time Thru Space . . . Whatever you can say to help buyers buy time on your station **should** be said in SRDS. This literature spells out the advantages of advertising in SRDS. It's yours for the asking.

Patterns of Success
Want a larger share of the advertising dollars that will be spent this year? Four studies of advertising/sales relationships made during four recession periods show parallel "Patterns of Success" in competitive markets that may have great significance for sellers of advertising.

Change Creates Opportunity
Change means re-evaluation and re-evaluation means SRDS is used. Apply SRDS aggressively as a competitive weapon. Take advantage of any change in the economy in order to keep your competitor off balance.

Do You Sometimes Wonder if Media Sales Promotion Pays Off?
Here's a presentation of the John E. Morill study of business advertising effectiveness, showing that product preference, share of customers and dollars are **greater** when sales of advertising work together, than when sales calls work alone.

WIXY/WOOK-FM
A discussion about the portion of the total sales communication WIXY and WOOK-FM assign to SRDS and how well it works for them.

Here is How Some Media Sellers Have Solved Sales Problems
A folder of exceptional SRDS Service-Ads showing how alert media sellers have taken advantage of the unique marketplace SRDS makes available to them.

Sellers of Advertising . . . No Shoeless Shoemakers' Children They
Realizing the total sales communication task cannot be accomplished by personal contacts alone, 1700 media sellers know THEY ARE THERE when they advertise in SRDS.

The Loneliest Man in Town
A saga of the lonely Spot Radio buyer's ONLY companion in his moment of decision throughout the planning/buying process — Spot Radio Rates and Data!

What's in SRDS for You?
For the man with space or time to sell, exposure to the traffic in SRDS makes your service-ad an enterprising selling tool, appearing at the times your prospects are taking positive buying actions.

KIOA Case History
Two top men responsible for generating profitable sales volumes for KIOA discuss the contribution of Standard Rate ads to KIOA's successful sales effort.

In SRDS, You Are There . . . selling by helping people buy.

SPOT RADIO RATES and DATA

Listings in SRDS' SPOT RADIO Are Governed by Established Criteria

TO PROTECT YOU, the user, SRDS has established certain criteria which must be met by those who are listed in its rates and data editions. In order that you would realize the conditions of eligibility which govern editorial treatment, we present the guidelines followed by SRDS for radio station listings in its SPOT RADIO RATES AND DATA.

SRDS' policy is to list, without charge, commercially-licensed radio stations (AM and FM) according to the city of license as assigned by the Federal Communications Commission. These stations are listed alphabetically and follow this sequence:

(1) alphabetical by state,
(2) alphabetical by city within state,
(3) alphabetical by call letters.

Because of the continuing evolution of modern marketing concepts as practiced by the SRDS user, there have been certain refinements made in the conventional listing format by FCC city of license (alphabetical by city within state). These refinements follow.

(1) Urban Area Designation

Applicable only to licensees in the five (5) urbanized areas of metropolitan New York, Los Angeles, Chicago, Philadelphia and Detroit. The listing format shall be, first, to identify all stations licensed to urbanized places from the major city (e.g. "Stations in Chicago Urban Area"). In both arrangements, the stations will be identified in alphabetical sequence of call letters.

All stations within cities whose center of town is 25 or less miles from the major city's downtown area (e.g. the "loop" in Chicago or "midtown" Manhattan in New York) are eligible for listing under the Urban Area Designation. For those stations within cities beyond the 25 mile (direct measurement), there must be evidence of contiguity—in this sense, an uninterrupted series of urbanized areas emanating from the major city.

The urban area designations immediately follow the final station listing licensed to the major city. The name of the city of license appears directly beneath the station's call letters. A free cross reference is provided under the city of license. A station has the option to have its listing appear under the Urban Area heading or under its city of license. A station which has its listing under an urban area may also qualify for a duplicate listing under the major city heading provided it places a 10 MV/M signal over 70% of the corporate area of the major city.

A station that qualifies for a listing under an urban area may purchase either a paid cross reference or a duplicate listing under the urban area with the basic free listing under the city of license.

(2) Combination City Designation

In describing the alternative policies which govern the Combination City Headings—as set forth below—the classic use of the word "contiguous" (a series of things in contiguous connection) is intended to convey its application in modern marketing as "an uninterrupted series of urbanized areas."

Phase A

1. Where two or more cities of comparable size are contiguous, and where one of the stations requests a combined heading, the cities are combined in one heading and the city heading sequence will be determined by descending population size.

2. The following paragraph is to be inserted following the combination city heading and immediately preceding the call letters of the first listing:

3. "Stations (licensed to cities) located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time-buying function to determine the extent of individual station coverage, audience delivered, etc. within the area."

Phase B

1. Where the population figures vary widely and the smallest city's population is less than 1/3 the population of the largest, it will be shown as ..... (including .....).

2. The following paragraph is to be inserted following the combined city headings which contain the word "including." It will immediately precede the call letters of the first listing.

3. "Stations (licensed to cities) contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area of cities involved. It is part of the time-buying function to determine the extent of individual station coverage, audience delivered, etc. within the area."

NOTE: A service free cross reference showing the location of the listings, will be used under the respective city of license. Paid cross references and/or paid duplicate listings are not permitted for stations whose basic listings appear under combined city headings.

(3) Routine Listing Service

Available to stations satisfying the following criteria:

a) Population Size
The FCC city of license has a corporate city population of 25,000 or more ('70 Census), or the licensee is in a city contiguous to the major city and consolidated under the major city heading.
e.g. COLUMBUS (including Worthington), Ohio
e.g. TULSA (including Sand Springs), Okla.

b) Advertising Acceptance, National and Regional Spot Radio
A station provides evidence of sufficient advertising acceptance (National and Regional Spot) in accordance with the minimum criteria established by SRDS.

c) Advertising Solicitation, National and Regional Spot Radio
A station actively solicits National and Regional Spot radio advertising and includes SRDS in its marketing plan.

Other radio stations' data have been compacted to serve minimum user requirements.

(4) Duplicate Listings

(a) Where an AM station is licensed to one city, but places a daytime 10 MV/M signal over 70% of the corporate area of a second city, we would grant a paid duplicate listing under the second city. Engineering contour maps showing the 10 MV/M signal strength must be forwarded for measurement purposes.

(b) The requirement for a paid duplicate listing for an FM Station is a daytime 1 MV/M signal over 70% of the corporate area of the second city. Engineering contour maps showing the 1 MV/M signal strength must be forwarded for measurement purposes.

(c) Whenever a station, AM or FM, receives a dual city of identification grant from the FCC, it may purchase a paid duplicate under the second city named in the dual identification. No reference is made within either listing to reflect the dual city of identification grant.

(5) Cross References

For a paid cross reference under other than city of license, the station must be (a) a designated outlet for a network system (statement from network is a requirement), and/or (b) maintain a business office and/or studio in the city other than city of license.

The paid cross reference would include either or both of the following, according to the method under which the station would qualify.

a. Call letters, address, and telephone number of office or studio in adjoining city, and a standard reference referring to the basic listing.

b. Call letters, national network affiliation, and a standard reference to the basic listing.

SRDS Spot Radio Coded Contract Regulations

Coded Format for Spot Radio

A code program designed to make it easier to estimate and buy Spot Radio

Regulations, operating policies and procedures common to the greater number of radio stations have been arranged in code form for efficiency in usage by advertising agency personnel and to extend to every radio station the opportunity of listing all of the standard provisions that apply in the handling of national accounts.

The station rate policies and practices represented by code numbers and letters have been selected based on uniformity and frequency of appearance in station listings. Provisions not readily adaptable to the coding procedure and those not appearing in sufficient frequency to warrant codes are retained in station listings.

The SRDS Radio Coded Contract Regulations guarantee that every standard regulation can be quickly identified by number and letter. Regulations have been grouped insofar as possible under related headings. The numbers and letters in each group will come to be associated with their respective headings (such as code 61 under Continuing Discounts).

Numbered codes based on the numbers and letters encircled by station officials appear in each radio station listing under the listing segment number "5: GENERAL ADVERTISING." Note following example:

5. GENERAL ADVERTISING See coded regulations,
General: 1b. 3a. 3d. 4a. 5. 6b. 7b. 8
Rate Protection: 10c. 11c. 12c. 13c. 14b. 16.
Basic Rates: 20b. 21a. 21c. 24a. 27. 29a. 30.
Contracts: 40a. 41. 42a. 44b. 46. 51b. 51c.
Comb.: Cont. Discounts: 60d. 60e. 60f. 61a. 61b. 62a 62d.
Cancellation: 70a. 70c. 71a. 72. 73b.
Production Services: 80. 82.

The headings for the categories shown in the Code are repeated (as indicated above) in the individual code in each station listing for ready reference.

Station Approval/Acceptability of Products
Acceptability of Programming

1a. Length of commercial copy: In accordance with NAB standards.

1b. Length of commercial copy: In accordance with NAB standards subject to specified exceptions.

2a. This rate card is published for the convenient reference of advertisers and agencies and is not an offer of facilities.

2b. A contract for time between station and client is subject to the terms and conditions of licenses of station from any governmental authority, and to all federal, state or municipal laws and regulations now and hereafter in force.

3a. All programs and announcements subject to approval.

3b. Consult station management concerning products and services considered unacceptable.

3c. Type of audience and program balance may affect acceptability of product, program or continuity for specific time periods. Check with station and/or representatives in advance of order.

3d. Station reserves the right to refuse or discontinue any advertising for reasons satisfactory to itself.

Alcoholic Beverages:

4a. Beer and wine advertising acceptable.

4b. Beer and wine advertising not acceptable.

4c. Hard liquor advertising acceptable.

4d. Hard liquor advertising not acceptable.

5. Political: Regular rates apply. Payment in advance. Time and facilities sold on the basis of conformity with station policies, the Communications Act and governmental rules and regulations.

6a. Sponsored religious programs carried.

6b. Sponsored religious programs not carried.

7a. Foreign language programs acceptable.

7b. Foreign language programs not acceptable.

8. Per Inquiry: "P.I." advertising not acceptable.

Rate Protection

10. Rate protection—ANNOUNCEMENTS (Fixed)
To continuous advertisers from effective date of increase:

a. 12 months	d. 26 weeks	g. 90 days
b. 6 months	e. 13 weeks	h. 30 days
c. 3 months	f. 4 weeks	i. 28 days

11. Rate Protection—ANNOUNCEMENTS (Preemptible)
To continuous advertisers from effective date of increase:

a. 12 months	d. 26 weeks	g. 90 days
b. 6 months	e. 13 weeks	h. 30 days
c. 3 months	f. 4 weeks	i. 28 days

12. Rate Protection—PLANS
To continuous advertisers from effective date of increase:

a. 12 months	d. 26 weeks	g. 90 days
b. 6 months	e. 13 weeks	h. 30 days
c. 3 months	f. 4 weeks	i. 28 days

13. Rate Protection—PARTICIPATIONS
To continuous advertisers from effective date of increase:

a. 12 months	d. 26 weeks	g. 90 days
b. 6 months	e. 13 weeks	h. 30 days
c. 3 months	f. 4 weeks	i. 28 days

14. Rate Protection—PROGRAMS
To continuous advertisers from effective date of increase:

a. 12 months	d. 26 weeks	g. 90 days
b. 6 months	e. 13 weeks	h. 30 days
c. 3 months	f. 4 weeks	i. 28 days

15a. Rate protection allowed to alternate week program advertisers.

SRDS Spot Radio Coded Contract Regulations

15b. Rate protection guaranteed for duration of contract.

15c. Protection period as stated, exception of the provision requiring continuous advertising.

15d. 52-Week Guarantee: Advertiser who places an order for 52 consecutive weeks of advertising (minimum per week: 6 one-minute announcements or a total of 15 minutes in program units) will be guaranteed for those 52 consecutive weeks the rate card(s) stipulated at the start of schedule. Advertiser will also be protected for 6 months from date of any rate increase effective during the second 26 of the 52 consecutive weeks of advertising.

15e. Rate protection guarantee: To consecutive week or A.I.D. Plan advertisers, rates will be guaranteed for the duration of that contract (not to exceed one year) or 13 weeks from the effective date of a new rate, whichever is longer. A hiatus, if part of the original order, will not be considered an interruption in schedule.

16. All rate protection prevails so long as a frequency of not less than 1 broadcast per week is maintained.

Basic Rates and Discounts

20a. Rates subject to change without notice.

20b. Station reserves the right to change its rates effective on such date as it may announce.

21a. Basic rates include transmitter services of one staff announcer and recorded music for commercials. Basic rate does not cover programs or announcements using live talent, extra personnel or extra production facilities.

21b. Basic rates quoted do not include special facilities (studio, remote charges) or talent, announcers, directors, or special technical facilities.

21c. Rates show net costs after deduction of all applicable discounts.

21d. Rates and discounts apply to the products of a single advertiser.

22a. Rates quoted are for time only.

22b. Rates include presentation of commercial transcriptions.

23a. Rates include music copyright fees.

23b. Time rates include music performing rights fees only on compositions which station approves and for which station assumes liability.

Rates and discounts based—

24a. on consecutive weeks of broadcasting.

24b. on number of broadcasts per year.

24c. on the number of broadcasts per week.

Announcements between rate classifications—

25a. take the higher rate.

25b. take the later rate.

25c. take the lower rate.

26. Rates for periods longer than 1 hour in exact proportion to the 1-hour rate.

27. Starting time of announcements determines rate classification.

28a. Discounts allowed retroactively on number of broadcasts given within 1 year.

28b. No retroactive discounts allowed.

28c. No cash rebates.

29a. Frequency discounts must be earned within 1 year from initial broadcast.

29b. Frequency discounts for announcements are contingent upon completion of entire contracted schedule in consecutive weeks within 1 year.

30. Plans must be so designated at time of purchase.

31. All plans must run on a consecutive weekly basis.

32a. Contiguous rates granted on non-contiguous programs.

32b. Contiguous rate purchases not allowed.

Rateholder — Minimum schedule of:

33a. 1 announcement per week.

33b. 3 announcements per week.

33c. 5 announcements per week.

33d. 6 announcements per week.

Contracts, Acceptance/Requirements

40a. Accepts AAAA copyrighted contract.

40b. Does not accept AAAA copyrighted contract. Station contract forms available.

40c. Accepts AAAA copyrighted contracts with certain exceptions; modified contract forms available.

41. All proposals subject to prior sale.

Contracts accepted not more than—

42a. 30 days in advance.

42b. 60 days in advance.

42c. Firm contracts for programs or announcements of 13 weeks or more will be accepted not more than 30 days in advance of starting date.

42d. Firm contracts for programs or announcements of 13 weeks or more accepted not more than 60 days in advance of initial broadcast.

43. Schedules must start within 30 days of contract date.

44a. One year contracts will be accepted for the purpose of earning frequency discounts.

44b. 52 week contracts will be accepted for the purpose of earning frequency discounts.

45. Maximum length of contract 1 year.

46. No periods sold in bulk for resale.

47a. All program units 30 seconds less than indicated.

47b. All program units 35 seconds less than indicated.

47c. All program units 40 seconds less than indicated.

47d. All program units 42 seconds less than indicated.

47e. All program units 60 seconds less than indicated.

48. Announcements and station breaks may be moved to other periods on 24 hours' notice. If a mutually agreeable substitute time and/or day cannot be determined the specific time period may be cancelled without affecting the balance of the contract.

49. Advertisers participating in group broadcasts are required to make individual contracts subject to card rates and regulations.

50. Programs and longer length announcements take priority over shorter programs and announcements.

51a. Rates applicable on any contract are those rates in effect on the date of the first broadcast.

51b. Additions to schedules will be sold on the current rate card in effect at the time the additions are ordered and confirmed.

51c. Station will not split rate cards. Advertisers must abide by rates and conditions of only 1 card during protection periods when more than 1 card may be in effect.

Combinability

60a. Programs and announcements cannot be combined to earn discounts.

60b. Programs and announcements may be combined to earn discount on announcements only.

60c. Announcements and programs of five minutes or more cannot be combined to earn discounts.

60d. Participations and announcements may be combined to earn discounts.

60e. 1-minute, 30-second, 20-second and ID announcements may be combined to earn discounts.

60f. All announcements, regardless of length or classification, may be combined to determine discounts.

60g. 1-minute, 20/30-second announcements may be counted to earn frequency for 10-second (ID) announcements, but not vice-versa.

60h. All plans can be combined for greater frequency discount.

60i. Multiple products of same parent company may combine for all applicable discounts.

60j. Programs and announcements may be combined to earn lower rates.

60k. One minute and thirty second announcements may be combined to earn higher discount rate.

Continuing Discounts/Renewal

61a. Schedules maintained without interruption after one year period will continue to be billed at earned discounts. After first year advertiser may continue at same discount until schedule is reduced or interrupted. This schedule is not subject to short rate.

61b. Service which has been maintained for 52 consecutive weeks and continues weekly, without lapse, will receive same frequency or the frequency applicable to that portion of the service which continues.

61c. To earn continuing discounts advertiser must begin new contract period for quantity discount purposes.

62a. Renewal: Advertisers must renew 4 weeks prior to the last scheduled broadcast date to insure broadcast without lapse.

62b. Contracts may be renewed providing there is no interruption in service on 28 days' written notice for programs; 14 days' for announcements.

62c. Contracts may be renewed providing there is no interruption in service on 35 days' written notice for programs; 28 days' for announcements.

62d. Contract renewals subject to rates in effect at time of renewal.

62e. In the event of revision of station rates or discounts any continuous broadcasts may be extended at the same rates and discounts for a period of 52 weeks from the effective date of revision.

Cancellation/Preemption

(Programs)

Program contracts subject to cancellation—

70a. on 28 days' prior written notice.

70b. on 28 days' prior written notice but no such termination shall be effective until 13 weeks after the start of broadcasting.

(Announcements)

Announcement contracts subject to cancellation—

70c. on 14 days' prior written notice.

70d. on 14 days' prior written notice but no such termination shall be effective until 4 weeks after the start of broadcasting.

70e. Schedules may be terminated by either party giving the other two weeks' prior notice, but no such termination shall be effective until two full broadcast weeks, as contracted for, have been broadcast following receipt of such notice.

71a. Cancelled contracts subject to short rate.

71b. Cancelled contracts not subject to short rate.

72. In the event that the station finds it necessary to preempt all or any part of the service for which an advertiser has contracted, without previous notice, it is understood that cancellation of charges for same will be the maximum liability of station. Station is to have sole discretion as to necessity for such preemption.

73a. All programs and announcements subject to cancellation by the station for broadcasts of significant events in the public interest.

73b. All programs and announcements are subject to interruption or cancellation for broadcasts of significant events without affecting rate of frequency discount to which advertiser would otherwise be entitled.

Production Services

80. Advisory services of the program and technical departments in arranging and presenting programs are available to clients at no charge. A charge will be made for programs requiring special production.

81. Talent, mimeographing of scripts and continuity and related production services are subject to extra charges.

82. Remote pick-up facilities, mobile units, extra.

YOU ASKED FOR IT!

SRDS RADIO MARKET ESTIMATOR

And Now You've got it.

With the permission of the KATZ Radio Organization, we borrowed their style and technique to create a useful, top-150-market radio cost estimator for you in SRDS Spot Radio Rates and Data.

In fact, we've taken the KATZ technique a step further. We'll be publishing our RADIO MARKET ESTIMATOR every month and updating the individual tables **whenever** there is a rate change for any one of the major stations in the market. That way you can be sure your estimates are always current, always useful.

You'll find the new SRDS RADIO MARKET ESTIMATOR positioned directly below the city of license or major city designation heading, for each of the top 150 markets. Eventually we will add other markets as you need them.

See for yourself if this new addition to SRDS Spot Radio Rates & Data doesn't save you time and trouble.

You asked for it and now you've got it . . . .

RADIO MARKET ESTIMATOR in SRDS.

Three factors make SRDS a necessity for buyers of media:

FREQUENCY

Change is part of the basic nature of all media. That's why SRDS publishes over 5,000 pages every month. It's a full-time, overtime, all-the-time occupation processing the daily changes that pour into SRDS—thousands of changes each month. To save time, Standard Rate sets its own type, makes most of its own plates and binds its own books, eliminating the back and forth traffic involved in outside shop operations. Seven linotype machines work two shifts at full capacity to keep the listing information current.

ACCURACY

As each Standard Rate Service comes off the press, tear sheets are mailed to publishers and station managers. The necessary changes in the listings flow back to the supervisor in charge of each edition, and further query is made when needed. Each month proofs of the listings of over 14,500 media are revised, with five separate checks made for every change. These changes are checked against inconsistencies in the listing, other listings for the same media and Service-Ad copy. Then, page by page, the new issue is made up, proofread and given a line check to make sure no line of type has been dropped out. Continual corrections and new proofs are made until 100% accuracy is achieved.

RELIABILITY

Good organization, half a century of experience, and the teamwork of trained operators are responsible for the SRDS reputation of reliability. To be sure of the uniform excellence and usability of the information that is tabulated, everything is processed to conform to an accurate, understandable, easy-to-use standard. All the information is carefully indexed on a continuous basis, and no changes in format are undertaken without sufficient notification to readers.

More than 31,000 copies of SRDS are mailed each month to subscribers in advertising agencies, advertiser companies and in media. Standard Rate is an essential day-to-day working tool for the people responsible for buying over $18 billion dollars of advertising annually . . .

The national authority serving the media-buying function...

Radio, adflation fighter.

Beat the rising cost of advertising. Use a lot more Radio. You'll sell fast and protect profits.

Radio can help control ad budget inflation at a time when other media are raising rates rapidly. Agency media directors predict Radio prices will rise far less than other media.*

Fewer Raw Materials

With its minimal raw-material needs, Radio can remain cost-efficient today. It can protect your bottom line against adflation. Since ad budgets are as large as profits in many businesses, using a lot more of an advertising medium that delivers sales economically makes good sense. You stretch your ad budget and profits.

Radio Targets Customers

While all media work, Radio is really efficient at targeting the widest variety of customer groups. And it can outsell higher-priced media.

Radio Moves Fast

To get more information, use the coupon. We have dozens of case histories—national, regional and local. All types of advertisers find Radio sells and sells fast. It's also a medium in which campaigns can be changed overnight. Radio's ability to move fast means real profit protection in an economy like this.

Send us the coupon. We'll send the proof.

*Media Decisions magazine annual all-media forecast 8/74.
