Indecency Complaint Denied By FCC

For almost a year, Norman Markowitz has been sending letters to radio stations regarding their broadcasting of the record "Butter Boy" by Fanny. He also attacked ABC television for broadcasting the name of one of the characters in the movie Goldfinger, "Pussy Galore."

Markowitz continued his harassment by filing, in February 1976, a petition against WRC, WKYS and WINX, all Washington D.C. radio stations.

On August 11, the Commission denied Markowitz's application for review of a ruling by its Broadcast Bureau holding that language broadcast by the stations was not "indecent" within the meaning of the applicable law.

Burbank Broadcasting has paid approximately \$100,000, but Chandler still wants the remaining \$844,000 plus, that is owed.

The Bureau explained that the Commission had defined "indecent" as words that "depict sexual and excretory activities and organs in a manner patently offensive by contemporary community standards for the broadcast medium..." The Bureau ruled that in its judgement, the words used, at worst, are double entendres or innuendos and the language is not "patently offensive" as that phrase is used by the Commission

Clive Davis Announces Major Arista Artist Expansion

16) a major expansion of Arista Records. Davis explained that after the label's first two years of operation, "We at Arista have broken more new artists than the next two labels combined." City Rollers for Arista's rapid climb to its current position as the sixth largest record company in America.

Before advising the assembled members of the press of the specific artists involved in Arista's new move, Davis said, "We are moving

> Davis then proceeded to enumerate the following artist signings: Alan Parsons, Rick Danko of The Band, Mandrill, Don McLean, Randy Edelman, The Hudson Brothers, The Kinks, and Lou Reed.

And There's Still Hope!" Thanks for the memories, Bob.

NAB Favors ATS

After last week's NABET announced stand against the FCC's proposed ruling allowing the use of Automatic Transmission Systems, the National Association of Broadcasters has come out in support of the rule. The NAB said that the amendment of the rules would allow current technical knowledge to be put to use. The group also urged the Commission to adopt the rules for all broadcast stations.

AM Stereo Tests In Fall

A joint radio-electronics committee will test at least six AM stereo systems that have been developed on Eastern radio stations later this year. After testing is completed, the committee will make a recommendation on how one uniform system can be used. Phase two of AM stereo would then rely on engineering brand new AM radios that would pick up stereo.

GOP Asked To Take Stand On Equal Time

The Platform Committee of the Republican Party has been asked by CBS Inc. to support the lifting of equal time and Fairness Doctrine requirements for broadcasters. Among other topics CBS also brought up before the committee were the protection of journalists' sources and support of broadcast coverage of Congress.

PSA Out Of Radio

Pacific Southwest Airlines has announced that it is selling KEZR/San Jose as part of its move to divest itself of non-airline holdings. KEZR is the last of the PSA owned stations to be put on the sales block. Plans are to sell the remainder of its hotels as well.

Screen Gems Sale Finalized

Columbia Pictures Industries Inc. has completed the sale of their publishing holdings to British based EMI Ltd., as reported earlier. Screen Gems-Columbia Music changes hands for a total of \$23.5 million cash. EMI will make large scale investments into four Columbia movie releases as part of the financial agreement.

Legislation To Protect Broadcasters

Legislation has been introduced in the House of Representatives that would allow the FBI to come into cases of terrorism against broadcasters or journalists. Fines of up to \$100,000 and jail sentences of up to 50 years would be levied against those found guilty of attacking newspeople because of their editorial work.

FCC Denies Station Renewal

WKYZ/Madisonville, Tennessee will go off the air by November 1, after the FCC nixed their license renewal because of false billing practices. The Commission's investigation disclosed that nearly 20% of the station's gross income was obtained through double billing. WKYZ is the only station licensed to Madisonville.

New Conecticut Station

The FCC has overturned its previous ruling against a new AM outlet in Ridgefield, Connecticut. A Commission administrative law judge has now OK'd the new 850khz signal. Previously, the same judge has refused the application because the owners, Radio Ridgefield Inc. had not proved that they would serve the community needs of a neighboring city.

October Kick Off For Military Ads

Radio will be the main outlet for military recruitment ads, recently OK'd by the Defense Department. The first paid advertising for military since 1972 will have a budget of \$8.5 million. Tentatively set budgets for radio include; Army \$1.6 million, Navy \$2.7 million, Marines \$1.5 million, Air Force \$800,000.

Top 10 "Last Names"

If you've ever wondered how many other people share your last name, some statistics taken from Social Security numbers run down the top 10 names. They are, in order: Smith (with nearly 2½ million); Johnson; Williams and Williamson; Brown; Jones; Miller; Davis; Martin; Martinez and Martinson; Anderson; and Wilson.

THE FCC [So You Can Understand It]

REPORT ON RECENT FCC DEVELOPMENTS

The month of July saw a truly extraordinary outpouring of FCC rulings of significance to the entire communications industry, including radio, television and cable. Only a brief summary of all of these many FCC rulings would include the following:

FCC WILL NOT INTERFERE IN FORMAT CHANGES

The FCC in a significant action has concluded that entertainment formats are within the discretion of licensee and it would not interfere in licensee decisions to make changes. The FCC reasoned that many licensees would not undertake innovative or novel programming for fear of the costs resulting from a possible hearing.

FCC ESTABLISHES DEFINITION OF LEGALLY QUALIFIED CANDIDATES

Effective September 2, 1976, a legally qualified candidate is a person who has publicly announced that he is a candidate, or is qualified for a placed onthe ballot; is eligible under applicable law to be voted for by an appropriate method; and makes a substantial showing that he is a bona fide candidate for nomination or office.

FCC AMENDS REMOTE PICK-UP BROADCAST STATION RULES

The FCC, as part of its re-regulation, has amended effective August 31, 1976, its rules governing remote pick-up broadcast stations to provide for the licensing of base and mobile stations as a group rather than individually. Also, it has increased the frequency availability to over 100.

FCC FURTHER AMENDS STATION IDENTIFICATION RULES

Effective July 22, 1976, the FCC will permit licensees to insert the

Station frequency or channel number in its required identification announcement. Previously, the FCC permitted the broadcast of a licensee's name between the call sign and City of license.

FCC UNSYMPATHETIC TO CULTURAL NEEDS

The FCC denied a request by Educational Station WOSU-FM (Columbus, Oh.) which requested a waiver of the rules to permit an auction in order to raise funds on behalf of a local symphony orchestra. FCC ruled that this would permit the broadcast of commercial-like material on non-commercial stations, which was not permitted, unless it was for licensee's own operating expenses, not-withstanding the licensee's good intentions.

Random Thoughts

"Random Thoughts" will reflect the questions and comments of our subscribers and our editorial staff regarding the day to day activities and occurances in our industry. Your "Thoughts" are welcome.

Peterson Cites Industry's Lack Of Communication

There are a couple of things on my mind that I wanted to share with you and others in our business, so I hope you'll print this letter.

The first point regards changes in our published survey, KCBQ will continue adding any record we believe is beneficial to our programming. We will list ALL records on our survey. However, any new additions to our survey will be listed as "extras" until we determine that stock has been placed inthe San Diego market. We will keep a record in the "extra" category for a maximum of three weeks. If stock is not in representative samples of San Diego record stores within three weeks, the record will be taken off of our list.

This will hopefully have two effects. One, the record companies will take a closer look at San Diego as an individual market and not just an extension of Los Angeles. Two, it eliminates 30 to 29 jumps of new records on our list. When we add a new record with a number, until stock is inthe market, the record shows little strength as far as number jumps are concerned. A 30-29-28 move might hurt a record's chances nationally when in actuality, the record just hasn't been stocked in San Diego yet. It puts the burden right on the record companies. If they want a number—they must stock San Diego. We're hopefui this move will be beneficial to KCBQ and to all record companies.

The second point is one which concerns all program directors everywhere. It's called "breaking new records," "sticking your neck out," or "being crazy"depending on exactly how you feel about it. Today, more than ever before, it is harder for Program Directors to depend on national charts for their playlists. Markets are becoming more and more individualized and Program Directors must depend on local research to make sure the music they play is right for their market. Record promotion people are constantly on Program Directors to go on records "out of the box." That's their job—there's nothing wrong with that. In my opinion, there's nothing wrong with Program Directors taking shots occasionally, if they believe the record is right for their market. In attending the recent Columbia Convention, one of the main thrusts of the company was to break new artists in the future. The bottom line being the promo people would be pushing Program Directors on new records.

I've always been one of the Program Directors who would take a shot on a record. Recent developments have caused me to reflect on that and

possibly change my mind. Three cases in point:

1) KCBQ goes out of the box on the Johnny Rivers record "Outside Help." Epic Records fails to get one other radio station on the record. Three days later, Epic takes out full page ads announcing the new Johnny Nash single. After the promotional people put me on the record, the company doesn't follow through with other stations and further convinces

LITTLE RIVER BAND

Four months ago, Capitol Records released the debut album by a new, critically-acclaimed Australian group called LITTLE RIVER BAND. The feedback from AOR radio indicated an outstanding reaction to the opening cut "(IT'S A) LONG WAY THERE," an epic masterpiece reminiscent of the best work by CSN&Y. An edited version of "LONG WAY THERE" was released as a single to AOR stations to maximize AOR programming potential. Reaction to the edit/single was tremendous; after six weeks on R&R's "Progressive Singles" activity list, the enthusiasm of programmers and our own promotion men indicated a demand for the release of the single to Top 40 stations.

Initial response to the "LONG WAY THERE" single has been outstanding:

RECORD WORLD

August 21, 1976

"Australian group with a CSN&Y harmony influence has received much AOR play, but it's only the beginning. The group has the poise and the talent to hit big on these shores."

CASHBOX

August 14, 1976

'A haunting string introduction gives way to some funky rock and roll in this fully realized single from the Little River Band . . . The harmonies are deep and rich."

BILLBOARD

August 14, 1976

"There's a Crosby,
Stills, Nash & Young
feel as it shifts from a
symphonic, airy opening to guitar-dominated
mid-rock base. Carefully honed folk rock
vocals throughout."

BILL GAVIN'S PERSONAL PICKS

August 6, 1976

"Import from Australia opens with an ear-catching baroque styled intro, followed by a gutbucket guitar and a highly professional performance by the singers."

Immediate secondary market acceptance has Capitol Records excited by the prospect of breaking this single and fully establishing LITTLE RIVER BAND as a major new group in the U.S. Promotion and marketing plans are now geared to total commitment. Believe it.

At WAOK in Atlanta, one of the most important R&B stations in the country, "Love Ballad" went from "hitbound" to #9 in one week. It was picked, added, and charted at almost every other R&B station nationwide. It's selling out of racks, one-stops, and retails at an incredible rate. From every source it's being called a "monster." The word on the street is that "L.T.D.'s time has come!" If that isn't a hit, what is?

FCC MODIFIES AM ANTENNA MONITOR RULES

The FCC has amended its rules effective August 11, 1976 by eliminating the requirement that antenna monitors for AM broadcast stations having directional antenna systems be designed for remote control use.

FCC CENSORS LICENSEE FOR IMPROPER CONTEST

The FCC censored Station WRKT (Cocoa, Fla.) for its lack of control and supervision over a contest which was designed to deceive contestants by making it almost impossible for them to win the contest.

FCC REFUSES TO RESTRICT BROADCAST OF RODEOS

The FCC denied a petition by the U.S. Humane Society to prohibit the broadcast of rodeos or to require announcements that artifical devices are used to force the animals to act wild on the basis that there was no factual data establishing that the public was being deceived as to the nature of the rodec events.

FCC FINES FOR OPERATIONAL VIOLATIONS

A. The FCC fined Station WVOE (Chadbourn, N.C.) \$750 for failure to file financial reports and maintain proper power.

B. In an unusual action, the FCC reduced a \$2,000 fine to \$1,000 levied against Station KANA (Anaconda, Mt.) for operating with full power during pre-sunrise hours.

C. The FCC denied a request for rejection of a \$500 fine against Station WASA (Havre de Grace, Md.) for improper logging.

D. The FCC fined Station KVOV (Henderson, Nev.) \$1,500 for failure to log the duration of commercial matter and to establish proper procedures for monitoring its foreign language broadcasts.

E. The FCC fined Station KHJ (Los Angeles) \$2,000 for failure to give sponsorship identification of commercials.

BROADCAST OPERATOR HANDBOOK PUBLISHED

A new **Broadcast Operator Handbook** is now available from the Government Printing Office. It was compiled by the staff of the Field Operations Bureau and is intended to serve as a comprehensive study guide for persons wishing to qualify for the Radiotelephone Third Class Operator Permit and the Broadcast Endorsement.

Chapters 1 and 2 of the 112 page handbook cover basic radio law and operating practice. Applicants must pass an examination on these subjects to qualify for the third class permit. The remaining 14 chapters of the handbook are devoted to the fundamentals of broadcast station operation and are designed to prepare applicants for examination element nine (Broadcast Endorsement). In addition to the text the handbook contains numerous diagrams, illustrations, and a 20 question sample examination.

me that they aren't interested in what's happening in San Diego by nationally advertising another single that hasn't yet been released.

KCBQ goes on a cut selected by Atlantic records from the new AWB album. Four weeks later, Atlantic releases another cut as the single.

3) KCBQ goes on "Let It Out" from Gary Wright's album due to listener requests. Eight days later, Warner Brothers releases another cut as the single.

I don't want you to misunderstand my intentions. I don't have an ax to grind. I'm just saying that when I believe in a record and the promotional people feel the same way, I would like to be backed up by the record company. What happens is a lack of communication or belief on the part of the A&R people or the company execs, leaving the promotional people with egg on their faces and the Program Director pissed off. I guess what I'm saying is that if you're going to bust our balls in going on new product, do us a favor by backing us up when we do go.

Too many people in record companies, most promo people excepted, don't understand that a Program Director's job is on the line every time he adds a new record. The safest thing for an PD to do is to play only fifteen records so he won't be taking any chances. A Program Director gets NOTHING for going on records early. Promo and A&R people get bonuses. Program Directors only get the satisfaction of knowing they were right in believing a record was right for their market.

Record companies have been screaming for longer lists for years, claiming radio people were cheating their audience with short lists. I for one have agreed. However, the recent developments I've mentioned plus others I haven't mentioned, have led me to the conclusion that it's not radio, but record companies who are responsible for the short lists by not fully backing promo people who talk PD's into taking a shot. If he convinces a PD to take a shot and gets no record compnay backing, he'll not get another chance with that Program Director.

Again, I have no ax to grind. KCBQ has a great relationship with most record companies. I'm just trying to let the record companies know that they MUST develope a better line of communication between managers, A&R and promo people or the industry will continue to suffer.

Gerry Peterson Program Director KCBQ Radio

BUSINESS NEWS

Continued from Page 6

Hauptman Appointed To New ABC Post

Michael Hauptman has been appointed Senior Vice President of ABC Radio, a newly created position. Hauptman will be involved in the day to day administration of all the ABC operations.

Music Hall May Kick Off

Unless the management of New York's Radio City Music Hall finds a way to cut labor costs, the 42 year old showplace may close its doors. Current negotiation with unions will try to avoid a closedown next month

Brooks Brothers To Beef Stew

More and more American men are now in the status of "homemakers," according to a recently released survey. 15% of all men surveyed held this status, which means that they are the "major purchasing agent of food and household products for the home." Breaking down this percentage, the study finds that 30% of these men are single, 35% married, and the remaining 35% divorced, widowed or seperated.

Big "Dough" For Pizzas

Shakey's pizza parlors will introduce a new, as yet undisclosed, product this fall. The major network TV push will include a partial sponsorship of NBC-TV's "Gone With The Wind" airing in November. After the initial TV campaign, multi-media advertising will be kicked off nationwide.

Coke: One Sip Is Not Enough

As the Coca Cola-Pepsi taste test ad battle continues, Coke is now airing spots in New York that tell viewers that "one taste is not enough." the two spots both hit hard at Pepsi methodology in their recent tasting ads, again stating that some letters are more appealing than others. The labeling of Pepsi's taste testing is one of the points that Coke has used in their competitive battle. Some industry people say that Coke's current campaign is designed to totally confuse ad viewers, in order for Coke's traditional number one standing in the market to remain.

New Look For Alka-Seltzer Plus

A 30% ad budget boost is planned for Miles Laboratories "Alka Seltzer Plus" cold remedy. Radio spots will be used in the introduction of a newly formulated Alka Seltzer, which contains more antihistamine. Total spending for the campaign could reach \$3.5 million.

Chrysalis Leaves WB

Chrysalis Records will leave the Warner Brothers distribution arm September 1. The label will go to independent distribution nationwide, a step which President Terry Ellis says has been planned for some time.

Cigarette Ads Via Phone

One New York company that supplies recorded telephone announcements on race results has been given the go ahead to solicit for cigarette advertising on its lines. The Federal Communications Commission has no jurisdiction to stop the advertising, since the phone lines are only available to New York telephones, and therefore cannot come under the 1971 interstate rules banning such ads.

New Top-Of-The-Line Razor

Schick will introduce their new "Super II Classic" razor to the marketplace soon, a \$12.95 hand crafted pewter-finished model. This entry is in contrast to two other companies' recent 25¢ disposable razor items. Ads in women's magazines in December will introduce the model, which will be sold in retail stores that carry Shick's Hot Lather machines.

Hitachi Audio Campaign

Hitachi Sales Corp. of America will kick off a half-million dollar campaign for its new audio components in September. 60 second radio spots in 20 markets, including the American Contemporary Network, will use the theme "Look At Us Now." Ads will feature the company's new receivers, turntables, and cassette tape decks.

Questionnaire Codes Don't Affect Consumers

Consumer surveyors have been arguing for some time about the pros and cons of placing codes on survey questionnaires. Some research companies have been placing hidden codes on questionnaires to obtain more data, but recent findings by the nation's biggest mail surveyer, Erdos and Morgan Inc., disclose that as long as consumers are informed that their forms are coded, responses are kept at a high level. Previously, industry experts have felt that if those surveyed knew that they could be identified through the use of codes, responses received might drop 10%.

CAB Halts Overbooking Plan

The Civil Aeronautics Board has put a 90 day suspension on a proposed plan by airlines to solve the overbooking problem. The plan would allow airlines to tell passengers with confirmed reservations that they may still not be able to be seated without fear of those customers sueing the airlines. The Supreme Court has recently ruled that citizens have the right to sue in these cases. The CAB says that it needs more time to study the situation before setting up rules.

Chart Summary

STARSHIP, ROD, and MIL. LER remain the strong one, two, three punch of AOR turntables. RONSTADT was the week's highest debut and one of the highest debuts in this chart's recent history. TAYLOR had a tremendous week. CHICAGO maintained. AWB and GINO turned in another strong week. HEART again made huge gains, adding to last week's impressive showing. BOZ is enjoying a resurgence that most newer albums would envy. YA-MASHTA was strong and stable. FUNK had a good week. FLYER flew onto the chart in a rather high position its first week out. OR-LEANS and PARIS also debuted impressively. AERO-SMITH was stable. DINNER debuted. JOAN nudged up. MAC remains. LIGHTFOOT inched up. FIREFALL and PARSONS bounced back onto the chart. SPIRIT came on strong. CHRISTINE and MAYALL debuted. CARLY bounced back onto the chart. WAYLON debuted. COUN-TRY JOE McDONALD and CITY BOY almost made the chart, in that order.

This chart is based solely on airplay and does not attempt to fabricate a trend. The artists in Italics are those receiving the most rapid gain in airplay.

Epic recording artist Charlie Daniels (r) trades roles with Bruce Garraway, Program Director of WNOR-FM, Norfolk, when he stopped at the station during Garraway's afternoon program recently.

Send your station logo to R&R to be included in the Album Activity pages. Please send to Mike Harrison, 6430 Sunset Blvd., Suite 1221, Hollywood, CA 90028.

To The Trade

Mark-Almond's first album in two years has taken up where they left off:

It's an AOR-MOR smash with bullets in all three trades.

It's very strong among the 18-35 audience with good teen reponse.

It marks the ABC debut of producer Roy Halee, head of A&R.

And a single is forthcoming: the unforgettable "New York State Of Mind."

To The Heart (ABCD 945)

IS STARZ THE HOTTEST NEW TOURING BA ASK WMMS!

Mr. Ray Tusken August 12, 1976 Capitol Records 1750 Vine Street Hollywood, CA. 90028

Dear Ray:

First, a big "thank you" to you and everyone at Capitol--especially Bruce Ravid -- for making Starz' Cleveland concert debut a success. WMMS got behind the band with airplay and promotion and delivered the crowd--but it was Starz that gave them the show they came for.

Also, kudos to everyone at Aucoin Management who lent a hand. Allen Theater premiere of Starz was great exposure for Capitol, the band, and, of course, WMMS. Thanks for bringing the premiere performance of Starz here in Cleveland to WMMS -- they're punks after our own hearts.

Mike Harrison **Editor**

R&R/Friday, August 6, 1976

Ever since WMMS received national acclaim for chalking up a whopping 9.7 (12 plus, 6am to 12 midnight, Mon-Sun, 1/4 hour average) in the recent Arbitron, placing them on the top of the extremely competitive Cleveland radio pile and establishing them as the highest rated major market AOR station in the country, the station has been the object of extreme interest on the part of record companies (as you can well imagine) and radio people alike.

RECORD WORLD AUGUST 14, 1976

There's a riot going on; and it's not on Sunset Strip, in front of Dick Clark's star, but in downtown Cleveland, the r&r breakout market of the western world, where WMMS, Ohio's answer to Lee Abrams, sponsored a free concert featuring Bill Aucoin's latest sensation-Starz. All 3,200 seats at the Allen Theater were filled with overzealous and underaged Starz fans but 1,000 just as zealous, underaged but more outraged fans refused to clear Euclid Avenue. Aucoin called to tell us that altho' the tickets were freebies, scalpers were getting ten bucks plus for them. When it was apparent that the crowd wasn't going to disappear in some seconal haze, the men in blue were summoned to restore some order. Michael Lee Smith, the lead singer of the band didn't seem at all surprised at the mass display of affection, nor was he offended when someone accused Starz of playing punk rock. "We are punk, but with metaphysical sensibilities and broken hearts," he retorted. The band is indeed making some noise, in fact their song "Pull The Plug" (based on Karen Ann Quinlan) was banned on WNEW in New York, but is the most requested tune on WMMS.

1. SUPER SALES FOLLOW EVERY CONCERT! **CURRENTLY #15 ON WMMS'** SALES SURVEY.

2. LATE FLASH! **NEW ON WRIF-**ROCK 'N' STEREO/DETROIT.

3. NOW ON TOUR WITH AEROSMITH.

COUNTRY

Direct From Duncan

Just spent three days last week in "Music City U.S.A." The R&R Country section went down to Nashville to gather some information on the directions of Country music in 1976 for an upcoming special feature. A special "thank you" to JERRY SEABOLT, National Country Promotion for United.Artist Records and Playboy (and/or person) Record's NICK HUNTER for making our trip most comfortable and enjoyable. To pass the time, between the hours and hours of endless fun and excitement we found in Nashville, Seabolt and I got into a pretty heavy pong competition. After about 4,000 games Seabolt can be officially proclaimed Nashville's KING PONG. (Yes, Virginia, you might say Seabolt went "ape" over the game).

Really love to see those Country radio stations number one in a market. When I say "number one" I mean total audience "number one." Such is the case in the recent Arbitrons for Tucson, Arizona; Madison, Wisconsin and Terre Haute, Indiana. Congratulations this week to ANDY WITT and crew at WTSO, Madison, Wisconsin, who showed an overwhelming number one rating in their first rating book ever as a Country station. JIM SLONE, President, and BOB ENGLISH, Program Director of KCUB, Tucson; and the entire staff of WTHI, Terre Haute, Indiana, deserve equal congratulations on their recent "number one" ratings in their respective markets.

Let it be known that KVOO, Tulsa, all night jock BILLY PARKER does NOT own SCR Records. The company in fact is owned by BART "The General" BARTON of Richardson, Texas. Parker just records for the label and does not own it as I mentioned in last week's column. My apologies for any conflict this might have caused.

Best wishes to DON LANGFORD for continued success. As you can read in this week's Country section of R&R, Langford was officially appointed Operations Director for KLAC, Los Angeles to replace HAL SMITH, who is now with KNEW, Oakland-San Francisco. Langford used to do traffic reports under the name of Mike Scott for my morning show in San Diego at KSON. Now he is my boss, since I do some weekend work on KLAC...MIKE HANES is no longer Program Director of WKDA, Nashville. According to BOBBY DENTON, PD of WIVK, Knoxville, who will be helping to consult the station, a new Program Director will be named very soon...ELLIE DYLAN, evening personality of WMAQ, Chicago, continues to get more national exposure. She recently appeared on the NBC-TV "Tomorrow" show with host TOM SNYDER. Next thing you know, Ellie will have her own bus.

WHYD, Columbus, Georgia, will be changing their format to all Gospel music. The change will occur in about four weeks...LANCE CARSON, Program Director of WWUN, Jackson, Mississippi, reports his station will be getting new studios at the Jackson Hilton Hotel in the middle of September. (I wonder if that includes being able to use the pool)... JONATHAN O'NEAL is now Program Director and Music Director of WFRL, Freeport, Illinois...Was talking with BILL WADE, the famed Rock air personality, and he mentioned he has just purchased a mediummarket station here in California and will be changing the format to Country. If you are interested in being a part of a first class operation, send your tapes and resumes to Wade at another one of his stations: KMEN, P.O. Box 1290, San Bernardino, California 92402. By the way KMEN is NOT the station to be changed to Country.

PROMOTIONS: ROSS MARANTI, morning jock on WIXZ, Pittsburgh, recently had himself locked up in an effort to raise \$300 for the local Muscular Dystrophy organization. A mockup jail was set up on a local shoping mall and Maranti vowed to stay in the cage until the money was raised...KRZY, Albuquerque and KXRB, Sioux Falls, South Dakota, both have run "Teddy Bear" contests in the last few weeks as a tie-in with the RED SOVINE single...WHOO, Orlando, just held a "Pie-A-Thon" at Busch Gardens. WHOO listeners were invited to come to the famed beer garden and throw pies at the WHOO jockies. They in turn gave away free t-shirts and albums..."WISZ (Baltimoe) will give you a piece of Mars." So reads the promo for a new contest on WISZ. At the sound of the Martian's digging, listeners call in and win. (Probably a Mars candy bar)...KNIX, Phoenix, has just started to run "Texas Country Week-'On Saturday nights the station is playing some of the Country-Rock, Progressive Country music they normally would not play during the week. So far the response has been good, according to CHARLIE OCHS, KNIX Music Director...In New York, WHN, according to Program Director ED SALAMON, is holding the "First Annual WHN Listener Choice Awards." With 18 million people in New York City alone, Salamon claims this to be the biggest Country awards in existence. Each week the station picks up a category, such as male or female vocalist. WHN "friends and neighbors" are invited to call in and vote, via a code-a-phone, for their favorite in that category. If a jock picks up the phone during a call in, that caller will win a WHN belt buckle or other surprise... WOKO, Albany, New York, is running a "Numbers Game." The WOKO personalities call out numbers between 10 and 63. Listeners win five dollars if their telephone number ads up to that hour's number. In other words 466-9561 would equal "37" and if they called "37" I would win. (I wish those guys in Albany would speak up a little louder, I still haven't heard my number yet.)

Finally, I come to my close. (Famous last words of Lady Godiva). Did you hear about the gal who was still a virgin even after being married three times? The first guy was a psychiatrist and all he wanted to do was talk about it. The second fellow was a gynecologist and all he did was look at it. The third chap was a gourmet. (Hey, what's fordinger?)

Billy Sherrill, Vice President, A&R, CBS Records, Nashville, has announced the signing of singer/songwriter Harlan Sanders to the Epic Records label. Pictured above following the signing ceremonies, Sanders (front) stances on the Epic starting block with, left to right: Ron Bledsoe, Vice President, Talent Acquistion, CBS Records, Nashville; Roy Wunsch, Associate Director, National Sales and Promotion, Epic Records and the Associated Labels; Tony Martell, Vice President, Marketing, CBS Records, Nashville; and co-producer Ben Tallent and Teddy Irwin of Sams Creek Productions. Sanders kick-off release is entitled "Honky Tonker" and his first Epic LP, scheduled for September release, is entitled "Off And Running."

Backstage at The Other End in New York, guests toasted John Austin Paycheck's performance, his latest single "11 Months and 29 Days," and his soon-to-be-released album by the same title. Pictured left to right are Dan Beck, Director, Press & Public Information, Epic Records & Associated Labels; Ray Free, Local Promotion Manager, New York, Epic Records and The Associated Labels; John Austin Paycheck; Pam Green, Music Director, WHN; and WHN disc jockey Lee Arnold.

Recording artist Red Simpson was the featured guest for the three day event and the shows were MC'd by Hamilton. Since this event, as you may know, KPOK changed their format to beautiful music.

Jimmy Jay, General Manager of United Talent, Inc., has announced that Sonny James has joined the agency for representation. Prior to joining Untied Talent, James was represented by the William Morris Agency. Pictured at the recent signing are (left to right): Reggie Mac; Sonny James; Luther Wood, James' manager; and Jimmy Jay.

RADIO ROW: Congrats To WSIX's DOUG DICKENS, just named Operations Mgr. for both WSIX AM & FM here. Doug has PD'd the very successful "Metropolitan Country format on the FM for years...T. TOMMY CUTRER dropped his seven year-old syndicated "Music City USA" radio daily to run for Congress. Don't be surprised to hear he's coming back...ROY ACUFF, the Dean of the Opry, is back, and everybody agrees it's as it should be. He's rarin' to go, a little thinner, but a happy 72, he says...and WSM's Friday and Saturday nights somehow seem right again...MIKE HOYER's groovin' again on the other side of the day up in Fargo. Says the honeymoon is over when he stops helping with the dishes (and does them himself!)...

LOTSA LUCK: RED SOVINE, the week his "Teddy Bear" is certified Gold, breaks his leg by falling off the Deadwood stage! Fact! Asked Red who will be the next superstar, he said "Me!! I got as good a chance of being the next superstar as I did of cuttin' a million selling record in 1976!"...TAMMY due out of the hospital this week. GEORGE JONES worked a date or two for her last week...RONNIE MILSAP will record his first "live" album next Thursday afternoon (26th) while starring in the daily Opryland "Starbust" at the Opry House. TOM COL-LINS will produce...RONNIE PROPHET named the "Celebrity Rescuer Of The Year" (1975). Prophet, a year and a half ago, rushed a 65 yearold tourist from Brooklyn to the hospital from a service station where Ronnie had been getting his car serviced. Nobody knew anything about it until the man, DOMINIC MAURO, wrote the Heart Association and told them about it. Salute!

SHOWCASE: Swan Song KENNY LOGGINS and JIM MESSINA wrapped their team with a Swan Song at Nashville's summer resort Hermitage Landing last Sunday night. It was their final performance as the. successful duet team that's sold millions of records...BOBBY BORCHERS showcases his stuff at the Alley's Western Room...FARON YOUNG's Jailhouse headlined GENE WATSON and ROBIN YOUNG this week...LIT-TLE ESTHER PHILLIPS last weekended at the financially troubled Exit-In. Five Nashville radio stations are combining efforts to help bolster the bankruptcy-bound showcasi Gospel music spec last weekend at the Tennessee Walking Horse National Celebration grounds (whew!) CLOSER: Fact; Driving through Mississippi without a C.B. after a shortcut had gotten me completely lost on State Farm Road 24, I stopped beside a farmer, leaning on his mailbox and asked: "Which way to Vicksburg?" He answered, "I don't know." "Does this road go to Jackson?" He spoke again, "I don't know." My third futile question: "Which direction is the Mississippi River?" Once again he said, "I don't know!" I HAD to say it: "Man, you don't know nothin' do you??" His final answer, "I ain't lost!!!" (An unemployed DJ?)

POP/ **ADULT**

The John Handy record continues to show heavy impact in the Philadelphia market according to Dean Tyler, PD of WIP. The station has been playing the record for several months and it always shows up strong with not only phone requests, but sales. A few other areas showing activity include WJNO/West Palm Beach; WTMJ/Milwaukee; WATR/

The brand new Beach Boys record "It's O.K." is off to an early airplay start...see New & Active. .

"You Are The Woman" by Firefall is starting to come on with good new airplay at WIP, WMAL and KRMG.

Bob Duckman, Music Director at WASH, is the latest to fall in love with Michael Franks and his unique record "Popsicle Toes." As KMPC morning man Dick Whittinghill pointed out onthe air last week "...l don't know what he's talking about, but I sure like his style.

About three years ago, Atlantic released a record called "She's Gone" by Hall & Oates. Nothing much happened except for a good sales pattern in the Philadelphia-Baltimore-Washington area. Last year the Sylvers had a pretty good national hit with the song for Capitol, Now Atlantic has re-issued the original by H&O and it appears that the second time around will show much better results for the record. It jumps 37-32 on this week's Pop/Adult 40. Also check New & Active for new airplay.

rlie Rich just out and went right on WLW...it's called "Road Song. Mickey Gilley's version of "Bring It On Home To Me" continues to get more Pop/Adult airplay...add K101, WJNO and WKHM.

The Rick Dees "Disco Duck" record is getting heavy phone action at WGN. A few changes at WCBM...Dave Arlington moves from the all-night show to full time production. Ken Merson will be the new "Prince of Darkness" in Baltimore with Jack Diamond replacing Ken as weekend and utility man.

Jack Lee who has programmed WTMJ for six years has accepted the General Manager position across town at WEMP. The change is to take effect August 29. No replacement for Lee was named at presstime.

KMPC has lined up an all-star "guest disc jockey" list while Dick Whittinghill vacations. Getting their chance to be DJ for a day are Johnny Mathis, Glen Campbell, Dennis James, Los Angeles Rams coach Chuck Knox, Bobby Vinton, channel 4 anchorman Paul Moyer, and all this is capped off with Los Angeles Mayor Tom Bradley.

We appreciate all the great comments about the April/May ARB pullout that came out with last week's edition. All programmers that I talked with said that it's one of the most valuable reference tools they have.
