NAB MAY CONCEDE **FAIRNESS FIGHT**

While NAB congratulated itself on a legislative record of 15 wins. one loss, and eight no-decisions in lobbying issues this year, President Eddie Fritts had no position on the just-passed drug bill and admitted NAB may give up the fight against the Fairness Doctrine next year.

SALES VS. PROGRAMMING: NEW TRUCE IN OLD STRUGGLE

Sales and programming will continue to line up on different sides of certain issues, but peaceful coexistence is a plausible alternative. Chris Beck offers ways to resolve the differences, while three AC executives discuss how to close the misunderstanding gap.

JORGENSON RETIRING **Babb Set To Head Jefferson-Pilot**

Broadcast conglomerate Jefferson-Pilot Communications has elected Jim Babb to succeed Wallace Jorgenson as its new chief executive effective November 1. Jorgenson is retiring after 11 years as the company's President, but doesn't plan to leave broadcasting and is beginning his second term as Chairman of the Joint Board of the NAB.

Jorgenson began his career with Jefferson-Pilot in 1948, when it was known as Jefferson Standard Broadcasting, in the sales department of WBT/ Charlotte. He handled a variety of duties at its radio and TV properties until he was named Exec. VP in 1968. He became President in '78.

Babb joined Jefferson-Pilot in 1956 as a publicity supervisor and has since held a variety of sales and managerial positions in several of the company's divisions. He became Exec. VP in 1978. Babb is currently Chairman of the Television Bureau of Advertising and is a past Chairman of the CBS Television Network Affiliates Advisory Board. Jefferson-Pilot owns WBT &

WBCY/Charlotte, WQXI-AM & FM/Atlanta, KIMN & KYGO/ Denver, WBIG/Greensboro, WNWS & WLYF/Miami, and KSON-AM & FM/San Diego. It also has two TV stations, a broadcast computer services

company, and other associated divisions.

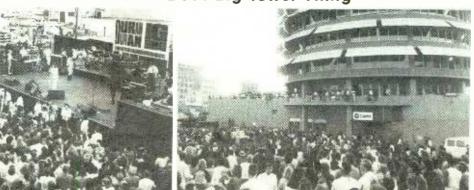

Kelly Becomes WYNY Station Manager

Former WNBC/New York VP/GM Peg Kelly has been named Station Manager at Country-formatted crosstown WYNY, which was recently taken over by Westwood One.

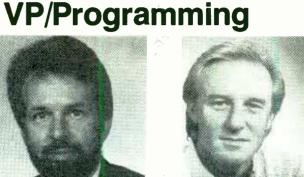

"We are delighted to have Peg join the Westwood One team," said WWI Chairman/ CEO Norm Pattiz. "Her leadership, experience, and management expertise will be invaluable assets in making WYNY an even more successful station."

Kelly also held the GSM and LSM posts at WNBC, after joining the station as an AE. She previously held sales positions at WCBS-FM/New York, and

Case Programs **KZZP**

Bob Case

Bob Case, PD/afternoon driver at WZGC (Z93)/Atlanta for the past two years, has re-signed to become PD at Nationwide Communications' KZZP/ Phoenix. He replaces Group PD Guy Zapoleon, who gives up day-to-day programming duties at the market-dominant CHR to concentrate on his group programming duties for Nationwide

Zapoleon told R&R, "We interviewed a lot of great candidates - people I consider the stars or future stars in programming - and Bob Case is our choice. He's a spectacular programmer. He has all the ingredients to improve on KZZP and take it to even higher heights. The combination of Bob Case and (newly-named GM) Dale Weber will blow away the competition. As far as I'm concerned, in Phoenix it's 'Roadrunner time."

Case, who will begin his new duties November 7 and previ-ously programmed Z93 sister station KUBE/Seattle, remarked, "What can I say except that going to work at KZZP gives me the chance to work at one of the finest broadcast companies that exist? Working with someone CASE/See Page 35

Fast PD At WMGK Greater Media's WMGK/Phila-

delphia has appointed former WMYX/Milwaukee programmer Beth Fast PD. She replaces longtime WMGK PD Bob Craig, who resigned several weeks ago. Fast told R&R, "Magic is a her-

itage AC station that kind of set the style for the format. We have to figure out the next growth step for the station and move it there. Magic is still a straight-ahead AC station; It's not as soft as a 'Format 41' station and not an aggressive CHRleaning station, either. It needs to grow and be updated.

Eastern Sold For \$65 Million

Washington, DC-based Eastern Broadcasting Corp. says it has agreed to sell its entire chain of 11 stations for \$65 million cash to a new company formed by one of its managers and two cable TV tycoons.

Eastern President and principal stockholder Roger Neuhoff announced last week that an agreement in principle had been reached with Robert Tudek, Everett Munday, and Robert Zimmerman, all of State College, PA. The stock transaction was brokered by Jack Harvey of Blackburn & Co.

The three buyers will be equal shareholders in the new broadcasting company, which will be headed by President/CEO Zimmerman. He is a longtime Eastern executive, and currently serves as both a corporate director and VP/ GM of WRSC & WQWK/State College, PA. Tudek and Mundy are the majority stockholders of Tele-Media Inc., the nation's largest privately-held cable TV company. In addition to the State College combo, the Zimmerman group will purchase WTAD & WQCY/Quincy, IL; WEST & WLEV/Easton-Allentown, PA; WRKZ/Hershey-Harrisburg-York-Lancaster, PA; and WWAZ & WWLI/Providence, RI.

In a related transaction, Eastern combo WCVS & WFMB/Springfield, IL will be spun off to its current GM — Neuhoff's son Geoffrey — for \$4.25 million. According to Blackburn & Co., the Springfield stations will be sold prior to the transfer of Eastern Broadcasting's stock to the Zimmerman group, and the sale proceeds are included as part of the entire package being purchased for \$65 million.

The deals mean a sweet paycheck for the 60-year-old Neuhoff, a former CIA operations officer who founded the chain in 1958 with the purchase of WCHV/Charlottsville, VA for \$210,000. He stands to receive about \$30.5 million for the 67.2% of the company he owns with his wife, and another \$15 million cash for a noncompete agreement. Other family members control about 22.5% of the stock, and BankBoston Ventures another 10.3%. "It was an offer that I found too difficult to refuse," Neuhoff told the Washington Post. "I thought two years ago the market had peaked and prices would start going down. Obviously, I was wrong."

Benatar's 'Dreamland' Goes Gold

Pat Benatar's "Wide Awake In Dreamland" album was recently certified gold, and Chrysalis label execs threw a party to celebrate after her show at the Ritz in New York. Marking the moment are (I-r) Chrysalis VP/Promotion Daniel Glass, VP/Marketing Billy Bass, President Mike Bone, Benatar, Benatar's husband/guitarist Neil Geraldo, and Sr. Director/AOR Promotion Kevin Sutter.

WAVG PD Allen Brown, who has been with the station since 1973, told R&R, "It was a busy week or so. It was one of the biggest challenges I've had since I've been in radio to put a station on the air in two days. The research came in last Tuesday (10/18) and we tested a lot of songs. On Wednesday, we made the decision to go with the format that Friday (10/21). The music wasn't even in-house. We had to do a lot of hustling to get the records. After considering CDs and other sources, we went with vinyl.

WAVG Drops Full-Service

Louisville has switched to an

Oldies outlet, but will keep its pres-

ent calls. The station now refers to itself as "Wave 970."

"There are a lot of oldies stores in Louisville, which indicates a heavy interest in the format. Our music was tested with a group of people who would listen to this type of music, and we're encouraged with the results."

According to Brown all the fulltime airstaff will remain in place. Drivetime newscasts have been reduced from ten minutes to five minutes.

In the spring Arbitron, WAVG ranked ninth 12+ (4.4) and was tenth (3.3) in the corresponding Birch.

NAB Reviewing Drug Bill, Takes Dive On Fairness Fight

Fritts Predicts Quick Action On Codification In 101st Congress

NAB officials say they still can't estimate the impact on broadcasters of a tough new federal drug bill that calls for station licenses to be lifted in the event of drug convictions.

The Senate passed the "Omnibus Anti-Substance Abuse Act of 1988" (H.R. 5210) at 3:16am Saturday (10/22) on a voice vote with only four senators on the floor and another in the presiding officer's chair. The bill earlier had passed the House on a vote of 346 to 11.

The bill authorizes tough new penalties for drug users, including civil fines of up to \$10,000. Under its provisions, broadcasters convicted of any drug offenses under federal or state laws - felonies or misdemeanors - could lose their FCC licenses and other federal benefits for up to five years. Repeat offenses could lead to permanent loss of licenses.

"So far as felons are already prohibited from holding broadcast licenses, the drug bill does not appear to change anything," said NAB President Eddie Fritts. He added that NAB staffers are still reviewing the scope of the measure, but he expected it would ultimately be challenged in the courts.

NAB Admits Defeat On Fairness

Another matter Fritts believes will be decided by the courts is the fate of the Fairness Doctrine. At a news briefing in Washington on Tuesday (10/25), Fritts said that while NAB won the most recent battles in Congress, the trade group now concedes it has lost the war over the Fairness Doctrine.

MCA Reports Increased

Revenue For Third

Quarter

MCA Inc. has reported increased

revenues, operating income, and net

income for the third guarter of 1988.

Revenues for the quarter ended Sep-

tember 30, 1988 were \$806,727,000

compared to \$770,598,000 for the

same period in 1987. Operating in-

come was up 28% to \$102.635,000

from \$80,151,000 for 1987. Income

before taxes was \$83,460,000

versus \$66,947,000 for 1987, and

net income was up 15% to

\$54,260,000 or 74 cents per share

from \$47,347,000 or 62 cents per

share for the same period in 1987.

NEWS BRIEFS

"So far as felons are already prohibited from holding broadcast licenses, the drug bill does not appear to change anything." -Eddie Fritts,

NAB President

Fritts predicted that passage of legislation to write the Fairness Doctrine into law will be "the first order of business" when the 101st Congress convenes in late January. Opposition to such legislation, Fritts hinted, would be futile.

"It doesn't take a rocket scientist to count votes," Fritts said. "The question becomes, 'How much blood do you want to spill in a fight you are destined to lose?'

Fritts said he believes the Fairness Doctrine will become law no matter who occupies the White House next year. Democratic candidate Michael Dukakis has expressed support for the Fairness Doctrine and would be likely to sign a bill making it law. While Republican standardbearer George Bush opposes the policy, Fritts said Congressional support for codification is so strong a Bush veto probably would be overridden by the lawmakers. Earlier this year, NAB won a victory when Congress failed to override President Reagan's veto of a Fairness Doctrine codification measure.

WASHINGTON REPORT

Asked if NAB would mount any opposition to Fairness Doctrine codification, Fritts said that question would be discussed and resolved at the January meeting of the NAB board.

Ironically, NAB's admission of defeat in the Fairness fight came during a press briefing called by the trade association to trumpet its successes during the 100th Congress, which adjourned last week. In the estimation of NAB Exec. VP/Government Relations James May, NAB had a near-perfect record during the just-concluded legis-

• Defeat of proposals to tax the

transfer of broadcast licenses. · Passage of legislation that

allows broadcasters to carry advertising for legal lotteries.

 Rejection of tax code changes that would have limited broadcasters' ability to depreciate such

ring the Forest Service from raising land use fees for broadcasters with facilities on federal land. (The last-minute measure did not pass, but did play a role in stalling fee hikes for at least a year.)

 Defeat of a proposal that would have forced broadcasters to give political candidates a deep discount when they buy air time.

NAB/BFMA Surveys Sum Up **Bottom Lines, Pay Rates**

A pair of recently-released surveys prepared by the NAB and the Broadcast Financial Management Association provide an in-depth look at the business side of radio. According to the 1988 edition of

the "Radio Financial Report," the average FM station had 1987 net revenues of \$1,353,210, up 8.5% from 1986. The average AM saw its net revenue increase six percent last year to \$1,071,419. However, the average AM/FM combo's 1987 net revenue of \$1,216,179 represented a decline of .4% from the 1986 level.

These figures represent "weighted averages" produced by NAB and BFM's efforts to compensate for the fact that larger stations are more likely to respond to surveys and are thus over-represented in the raw data gleaned in the study. The "Radio Financial Report" includes both weighted and unweighted figures.

The 1920 stations that participated in the NAB/BFM survey sold 77.6% of their time to local advertisers and 20.9% to national and regional clients. Another 1.6% went to network compensation.

On the expense side, the participating stations identified "general and administrative" costs as their single largest expense, eating up 41.2% of expenditures. Programming finished second at 20.8%, followed closely by sales at 19.8%. Stations spent the smallest percentages on engineering (4.5%) and news (4.2%).

Compensation Report Covers Salaries

The NAB/BFM "Radio Employee Compensation & Fringe Benefits

 Defeat of a measure requiring broadcasters to carry governmentsponsored anti-drug PSAs at their lowest unit rate.

NAB's self-described one loss came at the hands of Sen. Jesse Helms (R-NC), who managed to win approval of an amendment requiring the FCC to enforce its indecency guidelines 24 hours a day, thereby eliminating the midnight-6am "safe harbor" for adult programming. That measure passed both houses and was signed into law with virtually no debate. NAB and other broadcast industry groups are planning a court challenge to the Helms amendment.

Among the currently dead issues that NAB believes may be resurrected when the lawmakers reconvene are attempts to codify the FCC's former rule requiring broadcasters to hold a station three years before selling it; legislation requiring lengthy disclosure statements in airline advertising; and broadcast license renewal reform. NAB officials hope the tentative,

ultimately fruitless discussions of license reform that took place during the 100th Congress will serve as groundwork for some type of legislative action next year.

somewhat suspect According to the NAB/BFM data, radio GMs earned an average of \$59,709 in salary and bonuses in 1987. Managers of the smallest stations (those with revenues under \$500,000) averaged \$24,069 in salary and bonuses. Their big station brethren, GMs of stations with revenues over \$5 million, knocked down an average \$149,688.

sponse rate makes its findings

The average PD, according to NAB/BFM, last year earned \$27,955 in salary and bonuses. PDs at the smallest stations averaged about half that sum (\$13,545), while those responsible for programming the largest stations averaged \$77,052.

Air personalities at the stations that participated in the survey earned an average of \$20,136 in salary in 1987. The average starting salary for announcers was \$16,874. Personalities at the smallest stations made an average of \$12,085. At the other end of the scale, big station announcers earned an average salary of \$62,583.

AM Stereo Standard Bill Will Be Back

Another measure almost certain to be reintroduced in the 101st Congress is Rep. Matthew Rinaldo's (D-NJ) bill calling upon the FCC to establish a single standard for AM stereo. Two stereo systems, Motorola's C-Quam and the Kahn system devised by engineer Leonard Kahn, are currently in use among AM stations.

In remarks made when he introduced the last-minute measure, Rinaldo called stereo the "largest potential improvement to AM radio" and chastised the FCC for its repeated refusal to choose one system as a standard.

"The FCC may have once thought that market forces could solve this problem," said Rinaldo. "But in this case, the lack of a standard has created market grid lock, not harmony. The worst part is that this gridlock has accelerated the decline of the flagship of American broadcasting: AM radio.'

NAB General Counsel Jeff Baumann, who follows the AM stereo issue for the group, said he had not seen the Rinaldo bill. NAB, Baumann said, favors establishment of such a standard.

MCA reported nine-month 1988 revenues of \$2,061,561,000, up from \$1,915,217,000 for 1987.

Westwood One **Earnings Down**

Westwood One officials report the company's net income plummeted 72% in the third quarter despite a 13% increase in revenues. The company's revenue totalled \$27.1 million versus \$24 million for the same period last year. Net income, however, dipped to \$795,000 (6 cents per share) versus \$2.8 million (23 cents per share) in 1987.

Westwood President William Battison attributed the results to a soft national advertising market and costs as-

sociated with the restructuring of the NBC Radio Networks. Westwood reported nine-month gross revenues of \$84 million versus \$59.3 million the previous year

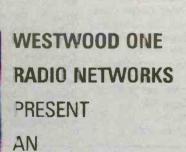

Olympia Completes Debt Repurchase

Seattle-based Olympia Broadcasting has announced completion of its repurchase of \$6.6 million in principal of its 131/3% senior subordinated debentures due November 1, 1996 at a price of par value plus accrued interest. The repurchase was funded by the proceeds of Olympia's \$12 million sale of KRPM-AM & FM/Seattle, which was finalized last month.

intangible assets as network affiliations. Defeat of proposals that would have limited the deductibility of advertising expenditures. Introduction of legislation bar-

lative season. "I would describe our final record as 15 wins, one loss, and eight no-decisions," said May. Among the "wins" NAB claims are:

Using The Phone To Full Sales Advantage

s much as many may hate to admit it, the telephone is often a salesperson's best friend. Still, despite the time they spend on it every day, many sales and marketing executives tend to think of Ma Bell's little contraption as something their secretaries should worry about.

This can be counterproductive, however, claims George Walther, president of the Seattle-based TelExcel company. He is the author of "Phone Power," a book that says it's important for executives to make a good impression on the phone.

Here are some of the tips Walther offers for giving good phone:

• Walk & Talk It: Replace your regular phone cords with longer ones. This allows you to walk while you're on the phone, which not only adds "body language" to your voice but also helps fight phone fatigue.

• Isolation: Don't have the phone in your immediate work area where it's forced to compete for your attention. Put it in a place where you're away from everything, thereby able to better concentrate on sales calls.

• Avoid "Rudy Vallee Syndrome": Speaker phones are fine for conference calls, but never use them for one-on-one conversations with an individual. You'll sound like you're talking through a bullhorn, which, of course, sounds impersonal.

• Show Appreciation: Frequently reward and recognize your primary phone people, including secretaries, customer service people, operators, and so on. These people who make contact with roughly 240,000 people on the phone each year - should know they're an important part of the company's business.

• Schedule: Work out a calling schedule for yourself. Set specific times for phone calls - both outgoing and incoming - and have a list of objectives. This way you'll be sure to discuss the important business at hand.

 Systemize: In addition to scheduling, develop a system on how you want to deal with your calls. Talk to your secretary about when you can accept calls, when you can be reached, and when vou'll be returning calls.

Interviews: First Impressions Are Most Important

irst impressions are extremely important, especially when it comes to job interviews. According to a recent survey by Robert Hall International, 62% of personnel interviewers make a hiring decision during the first 15 minutes of a job candidate's initial interview. In fact, 21% of these interviewers make a decision within the first five minutes

result, morale may drop when workers with similar records get different ratings due to arbitrary or minor distinctions. In such cases, managers must keep extensive records on each employee to defend these close grading systems.

Girard suggests the best policy is to simplify the grading procedure, narrowing it down to three performance levels - excellent, acceptable, and poor. Furthermore, only excellent and poor performances should be documented, with the former being rewarded and appropriate action being taken against the latter.

Everyone wins under this system. Workers get the message that performance counts and is being watched, while management cuts down on paperwork and avoids unfair employee ratings.

The Strategic advantage:

www.americanradiohistory.com

As a radio station, your music is the heart of your product quality. When morning drive is over, your music is the primary reason your listeners listen to your station.

Great radio stations maximize the quality of their product by testing their music on a regular basis. Some stations test only their currents. Some stations test only their oldies. The most successful radio stations test everything they play.

There's a unique research program available only from Strategic Radio Research that keeps you in touch with your listeners every week of the year. With our program, you're always playing the best possible music—currents, recurrents, and oldies because your music research is always in the field.

And because we're in the field doing research for you every week, you can also receive a comprehensive program of weekly perceptual research.

To request a research proposal for your station, call Sue Bell, Director of National Sales, or Kurt Hanson, President, today, at (312) 280-8300.

In our industry, gimmicks and "quick fixes" abound. But keeping in touch with your listeners on a weekly basis gives you an inarguably real, long-term advantage. It improves your product, so it helps you win.

OVERVIEW

SALES STRATEGY

Programming Vs. Sales Vs. Programming

et's begin with a simple multiple choice question. When your sales manager or PD calls, leaves a message, or is waiting outside your office, do you:

A) Think nothing of it?

B) Think "Damn it! What the hell does he want now?"

C) Wish your GM would get his act together and blow this obviously incompetent individual out of your life?

In addition to being a budget preparation period, this is also the time of year when relationships between programming and sales departments can grow strained. Imagine, for instance, the programming department that needs additional budget for talent, promotions, and contests – but none of this is possible because the sales department can't sell the product.

On the other hand, sales is making revenue projections which greatly outperform the current market share, with assumptions based on projected ratings increases. Naturally, sales doesn't deliver on their budget when the revenue figure isn't hit. Sales says the reason is that programming has taken away units and given away free advertising for image's sake. Programming claims they didn't get the numbers because of sales unit load, re-

"Regardless of what the sales/programming relationship at a station might be, there are always ways to improve it."

motes, and sleazy sales promotions . . . and the circle repeats itself.

In part one of "Programming Vs. Sales Vs. Programming," we'll suggest some general strategies that can be adopted by both departments to relieve many conflicts. Regardless of what the sales/programming relationship at a station might be, there are always ways to improve it. The alternative could be big costs in the areas of dollars, ratings, and future management advancements for both parties.

General Strategies

• Do It Yourself: Don't rely on the GM, for instance, to serve as the catalyst for improved relations. Both parties have to directly institute, monitor, and analyze the process without outside help.

• Consistency: When relationship strategies are finally agreed upon, they must be carried out religiously. There are no onemeeting repairs.

• Time: The amount of time the departments devote to one another is the most critical element in fostering improved relationships. Because our business tends to be reactionary, we all too often only meet when a crisis is at hand.

• Meetings: If you don't already have specific weekly meetings solely between the PD and sales manager, with no outside parties involved, then you absolutely must start now. Of course, this is in addition to weekly promotions meetings, department head meetings. and so forth. In some cases, the managers may prefer to have two weekly meetings - the first on Mondayto cover the week's plans, and the second on Friday to examine what's been accomplished.

These meetings, especially at first, should be held outside the office where you can both devote quality time and thought to the agendas without the typical station distractions. Also, it's wise to get in the habit of keeping a file folder to fill with items to be discussed By Chris Beck

at the meetings.

Common Goals & Objectives

Knowledge is absolute power – and sharing your respective goals, objectives, and current pressure points can breed greater awareness and understanding. One of you may be more apt at interpreting research, for example, than the other. You should be able to help each other out in different areas.

You should also get in the habit of giving each other copies of every memo that you funnel to your staffs. You can both gain tremendous amounts of information in such areas as re-

a declaration in the second second second

search, marketing articles, and meeting agendas, by doing this. For instance, AID reports pulled by the sales department can be very useful material for a programming meeting, while a great deal of the information contained in the programmer's package and/or results from focus groups can be used to the sales department's advantage.

One of the more poignant example of how sharing goals and objectives can greatly benefit a station occurred when I was GSM at WINZ/Miami. David Hosley, the PD at the time, was under tremendous pressure to lower the 65-to-dead demos. His on-air staff was young and good-looking, and he wanted to showcase them somehow. Unfortunately, he had no budget to accomplish this. After some serious brainstorming, we decided to bring a free jazz

www.americanradiohistory.com

Improving Intra-Station Relations

- Don't rely on the GM to foster better relations
- Schedule weekly meetings between the PD and sales manager
- Follow all relationship strategies on a consistent basis
- Sit in on each other's staff meetings
- Provide each other with copies of staff memos
- Share common goals, objectives and contacts

concert to the city. There was an interesting angle in that an AM news station was presenting a music concert, and it ended up accomplishing the PD's needs.

More than 7000 yuppies in their 30s showed up. The announcers served as emcees. TV coverage of the event was presented both locally and nationally. And in the next book, the station's 25-54 demo increased threefold. The sales department benefitted with \$250,000 in new business - including such diverse accounts as nightclubs, beer, and records – generated through sponsorship and other promotional hooks. There was also the added benefit that hundreds of media buyers present at the show were able to see a young, affluent audience of 30-year-olds that never showed up in the book.

Whether or not your sharing of goals brings you something as dramatic as this, you'll still be surprised by how frequently both parties can help each other accomplish goals, specifically in the area of target audiences (i.e., younger, older, less ethnic, more female, etc.).

Sharing Contacts

You probably already share many contacts, but are probably working with them unilaterally. Record companies are the most obvious example. A hypothetical situation: programming is looking for an outstanding promotion, such as a 30-minute, stationhosted, music video TV show. Meanwhile, record companies are looking for increased performance at trade accounts (i.e., more shelf space at retail stores). And sales, of course, wants more money from the record companies.

By working together, such a show could be produced, hosted by your morning team and airing on a local station (free advertising). Videos can be secured with the assistance of the labels. The labels can secure real estate through in-store promotions featuring the program's top ten videos. And sales generates revenue, both from the labels and outside accounts who sponsor the TV show. Everyone wins in the end.

Record labels are just one example. There are many others, including programming's public service contacts who could benefit sales. These might hypothetically include the bank president who's also the board chairman of "Toys For Tots," or programming's network contact who can provide the sales manager with tickets to the Super Bowl. Programming can also benefit from such sales contact examples as the bank president who's chairman of the St. Patrick's Day parade, which vour station would love to co-sponsor, thereby ripping it out from under your competitor.

Joe Smith's "Off The Record" — One Helluva **History Book**

A CARLES AND A CARLES

t's a brilliant idea yet you can't help but wonder why somebody didn't come up with it before now. Capitol Records-EMI President Joe Smith is a longtime fan of writer Studs Terkel, whose books have always been the state-of-the-art when it comes to oral histories.

Three years ago - following four decades in the music biz as an air

Nielsen Ups Value Of **Ratings** Point

he NYC-based A.C. Nielsen television ratings firm has increased the value of each ratings point to 904,000 households, based upon the company's new estimate of the total number of US TV households (90.4 million). Each ratings point represents one percent of the total US TV universe.

The change reflects a two percent increase in point value over the 1987-88 season, which was based on a total universe of 88.6 million households, and is the largest one year increase for Nielsen in seven vears

personality, promo man, and executive - Smith decided that a Terkel approach to popular music could make a helluva book. He writes: "I thought, 'What if I could get some of the major names in music all telling me stories about themselves?' Famous people who've all done terrific things in music."

200 New Interviews

The result is "Off The Record: An Oral History Of Popular Music" (Warner Books, \$22.95, hardcover). And it is one helluva book. Smith conducted more than 200 interviews, traveling throughout America and the UK to coax some of the BIGGEST names in pop music history to tell their most interesting and most insightful tales. (Los Angeles Herald Examiner columnist Mitchell Fink took care of the editing process.) Only Bruce Springsteen, Frank Sinatra, Colonel Tom Parker (who wanted \$25,000 for an interview), Chuck Berry (who was afraid it would conflict with his own book), and Wilson Pickett are missing, although Smith hopes to get them all to talk for "Volume II."

However, it's easy to overlook these exclusions in a book that

OVERVIEW

MEDIA

traces pop music from Artie Shaw and Woody Herman to Gene Simmons and Bono, from Ella Fitzgerald to David Lee Roth. What's more, the best aspect is that Smith not only focuses on the artists, but also such behind-the-scenesters as producers (Phil Ramone), songwriters (Sammy Cahn), music critics (the L.A. Times's Robert Hilburn), record execs (Irving Azoff, Tommy Mottola), and even magazine publishers (Jann Wenner).

Eye-Opening Admissions

But it's the artists who will sell this book. Smith proves himself to be a superb interviewer, able to get Mick Jagger to admit the Stones haven't really done anything worthwhile since 1972 and Paul McCartney to confess that he and John Lennon were never able to replace each other as musical collaborators following the Beatles' demise.

To give away any more than that would be unfair, though. "Off The Record" is a book that anyone remotely interested in the musicmaking process will want to read, savor, and ultimately enjoy.

FOOD ON THE RUN

America's Changing Eating Habits

LIFESTYLES

he food industry is preparing for some drastic changes between now and the end of the century, thanks to America's ever-changing eating habits. According to the Washington, DC-based *TrendLetter* publication, not only has the percentage of people who eat the traditional three meals a day dropped 35% (from 50% to 15%) during the last 15 years, but fewer people than

Ten Most Trouble-Free Cars

f you're in the market for a new set of wheels, you may want to make note of a list recently published by J.D. Power & Associates in its Power Report newsletter. The company recently compiled the terPmost trouble-free cars of 1988, based on a survey of problems that consumers reported during their first 90 days of ownership.

The top ten were

Toyota Cressida Chevrolet Nova Mazda 929 Honda Prelude 4WS Mercedes-Benz 190E/D Nissan Maxima Mercedes-Benz 560SL Porsche 944 Toyota Corolia Porsche 911 ever are eating those meals at home.

What's more, it's estimated that 50% of all food expenditures will go to eating out by the year 2000, as opposed to this year's 36% and only 21% in 1973. This "eating out" trend began with the so-called "baby boom" generation back in the '60s, and it's expected that this demographic group will continue the practice well into middle age. It's predicted that people aged 35-54 will spend \$13 million more eating out between 1990 and 1995 than the same age group will spend during the next five years. In contrast, it's estimated that people 34 years old and younger

will spend \$1.5 billion *less* between 1990 and 1995 that their counterparts currently spend. As a result, in-the-know restaurants will begin focusing their marketing on this increasingly lucrative middle-aged segment of the population as the years go by.

Grazing In The Cars

In place of meals, many families are "grazing" – eating lightly, but more frequently. Although most Americans still seek good nutrition, people nowadays want convenience, simplicity, and speed.

steadily decline.

More people are eating (or grazing) on the run - or in their cars than ever before, as statistics show that 60% of all fast food purchases last year were eaten away from the premises.

As a result, several food manufacturers have begun to design new products with the driving eater in mind. Notable examples include Kentucky Fried Chicken's "Chicken Littles" and Burger King's "Burger Bundles." Meanwhile, processed food manufacturers are also making note of the aforementioned "grazing" trend. Both Nabisco and Keebler have introduced downsized versions of their crackers and snacks, while Oscar Mayer's "Zappetites" line includes snack-sized frozen cheeseburgers, pizzas, and hot dogs.

Finally, American food producers are introducing more and more individual-serving containers for a variety of foods, a trend that goes hand-in-hand with the decreasing size of the American household and the rising number of single persons living alone. As a matter of fact, it's predicted that by the end of the century, half of all packaged food items will be available in one or two-person servings.

Swimming & Weight Control: A Sinking Concept?

We've all heard the expression "a swimmer's body." However, swimming as a means of weight control may be a bit of a popular myth. A recent study published in the American Journal of Sports Medicine that examined the weight and fat reducing effects of swimming as compared to those of cycling and walking came up with the following results:

• Overweight women who walked 60 minutes a day lost an average of ten percent of their body weight.

• Those who rode stationary bicycles dropped 12% of their body weight, while swimmers gained three percent.

• While walkers and cyclists lost body fat, swimmers maintained the same amount.

So why doesn't a strenuous activity that works the entire body reduce fat? Exercise creates weight loss by increasing body temperature, but water conducts heat away from a swimmer's body, preventing a rise in body

> temperature. Air doesn't conduct heat as well, which is why walkers and cyclists are more apt to drop some pounds. The doctor who conducted the survey also theorizes that being immersed in cold water may actually *stimulate* a subject's appetite, resulting in higher food intake in order to ensure a greater layer of insulation.

> Nevertheless, the doctor stresses that swimmers shouldn't give up the activity, as there are few exercises that provide better cardiovascular fitness and total body development with a minimum of possible injuries. Still, if weight loss alone is your goal, you may be better off buying a bike or a pair of walking shoes.

How We Spend Our Time Away From Work

Weekend rolls around and the workforce is free to spend its leisure hours?

According to the NYC-based Roper Organization, 71% like to do what you're doing right now – read the newspaper. Cleaning house sweeps away the leisure time of another 62%, and 59% indulge in preparing a meal.

Other activities pulling a large percentage include watching a movie on television (57%) and shopping for groceries (56%).

Introduction Of New Grocery Products Declines

Ithough you can currently find everything from ketchup in spray cans to microwave caramel corn on supermarket shelves, the new product boom that has been thriving throughout this decade is on the downswing. According to Martin Friedman, editor of Gorman's New Product

News, the number of new product news, the number of new products introduced through July 31 of

this year is up only 5%, compared to a 21% growth rate in 1987. Among the small percentage of new products, the most active categories have included condiments, candy, gum, and snack foods, while the most sluggish growth has occurred among dairy products, cigarettes, and toiletries.

Friedman blames the downtrend on manufacturers being "gun-shy" because they have been burned by new products in the past, as well as the astronomical fees retailers are currently charging to stock a new product.

There may be a rebound this fall, however; Friedman reports that food companies are hoping to capitalize on recent statistics regarding the health hazards of dietary fat. They're also developing more new products containing the Nutrasweet aspartame lowcalorie sweetener.

New from Birch/Scarborough Research

The most important sales tool in 20 years.

The Multi-Media Consumer Profile will change forever the way you market locally. Here's how it can give your station The Winning Edge.

A quiet revolution began in 1975, the year Scarborough Research introduced a bold new concept in media research:

- Measure all local media usage reading, listening, viewing of each survey participant so that true cross-media comparisons could be made
- Obtain extended individual and household demographics from these same people to further sharpen targeting accuracy
- Capture a detailed record of product purchase and retail shopping activity from each respondent - specific to the brand and store level
- Provide instant access to the respondent-level data, allowing users to retrieve exactly the reports they need, when they need them

The first Scarborough Multi-Media Reports raised eyebrows in the Top 10 markets.

Then they began opening eyes - and doors.

Retailers began asking about the demographic and geographic profiles of their shoppers, and their competitor's shoppers.

Newspapers began equipping their sales teams with average issue and cume readership information on the 400+ audience segments provided by Scarborough.

Radio and TV stations began using Scarborough Multi-Media data to help clients and prospects discover the demographics and lifestyles of their customers and their competitors's customers.

And everyone began marketing more smartly. For the first time, advertisers were able to determine which media, media mix and specific media vehicles would best reach their specific targets: Not just "Women 25-54"...but Women 25-54 with Household Incomes over \$50,000 who've recently shopped Neiman-Marcus?

Local media sellers made out well, too. The Scarborough

Reports quickly became the only media research report used universally by all local media radio, TV and newspaper.

Beginning Fall '88: Expansion to markets 11+

Now, the marriage of Birch and Scarborough makes possible the expansion of Multi-Media research to more markets and more users than ever before.

The new Multi-Media Consumer Profiles are similar to the top 10 Scarborough Reports, but are specifically designed for media sellers in

markets 11+. The new Profiles database will be loaded with marketing data on more than 400+ localized retail shopping, product and service usage categories.

Comprehensive Scarborough Reports are available now in all Top 10 markets and Miami/Ft. Lauderdale. The Multi-Media Consumer Profiles start in markets 11-30 this Fall, and we'll be surveying continuously through May 1989. Our first Profile Reports will release in Summer 1989, with annual reports thereafter.

A Strategic marketing tool that gives you The Winning Edge

Gaining The Winning Edge means adding more value to each sale than your competitors.

The Multi-Media Consumer Profile arms your sales force with vital information your clients want to see, opening doors for appointments with top-level decision-makers:

For the first time, you'll be able 1. For the list time, you a 21 to consult your clients on where to find audience targets with the biggest and fastest payoffs.

KMLE In Country Switch

The "other shoe" has finally dropped at KMLE/Phoenix, which changed from Religious to Country programming at noon on October 24. In late July, Shamrock President Bill Clark had announced the newly-acquired station would go Country when the deal closed.

The transfer from Chandler Communications to Shamrock officially took place at 12:01am Wednesday (10/19). At that time, a computerized voice counted down from 82,000 and advised listeners to 'stand by for a new, clear, radio station.

At 12:25pm Monday, October 24, "Camel Country 108" was born with the liner, "Finally, you have a choice. We're the one with the good times and the great country favor-ites. Camel Country 108." The first song was Alabama's "Mountain Music.

Nuclear Fallout

As innocent-sounding as the "new, clear" line was, it did cause a bit of a stir - perhaps because it was delivered in a computer voice during a countdown. PD Bob Glasco said the FCC received about 100 calls and that local police and TV stations also received calls from people concerned about a "nuclear" radio station. "Apparently it frightened some children," said Glasco.

Accordingly, as part of its kickoff KMLE invited the family of one of the kids featured in a TV story to the station. The six-year-old girl actually put the station on the air, playing the first liner and then hitting the first record.

The "new, clear" line stems from KMILE's use of the new Dolby SR system. "At first I thought the

Anderson Named E/P/A **VP/Sales**

Pete Anderson

Twelve-year record industry vet Pete Anderson has been upped to VP/Sales for Epic/Portrait/CBS Associated Labels. He will report to Sr. VP/GM Dave Glew.

'We're excited to have Pete and his 12 years of experience join us in the home office," said Glew. "He's going to add a new dimension to the E/P/A effort."

Anderson had been Sales Manager of CBS Records' Mid-Central branch in Ohio since 1983. He held various positions in local sales and promotion in the Midwest after beginning his career in the industry as a CBS sales rep in Chicago.

quality difference was something only dogs and engineers would hear," said Glasco. "But it's extremely noticeable right off the bat.'

Music Segues; Liners

At present, the station is segueing music interrupted only every three records or so with positioning liners voiced by KZLA/Los Angeles personality John Driscoll.

Glasco declined to comment on when the station would add personalities or who was set to come aboard. He did say, however, "We are not going to get into a dirty radio war with KNIX. We just want to be good competitors. We're in this for the long haul."

Market leader KNIX-AM & FM has ranked first 25-54 in 24 of the last 25 Arbitron sweeps and number one 12+ in the last six consecutive ratings periods. The last five 12+ shares for KMLE have been .3. .3. .9. .4. and .4.

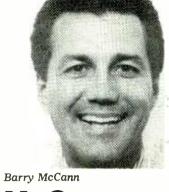

Mann VP/ Sales At Capitol

Lou Mann

MCA Records VP/Marketing Lou Mann has been named VP/ Sales at Capitol Records. The 15-year record industry vet previously worked for Arista and CBS Records, where he began his career as a local promotion manager.

Capitol President David Berman. to whom Mann will report. said, "His background makes him the perfect choice to head up the label's sales department. We welcome him to Capitol Records."

McCann Joins KZAN As VP/GM

Barry McCann has been named VP/GM of USA Broadcasting's new property KZAN/Salt Lake City. He crosses the street from KKAT, where he served as Sales Manager. Prior to that he was GSM of market combo KCPX-AM & FM.

"This is by far the best radio opportunity in a top 50 market," remarked McCann, who also holds an equity position in KZAN. "We have the best dial position, sandwiched between two of the top stations. Additionally, we're formatically well-positioned to compete in a market that not only skews young but has a 25-34 cell that makes up nearly 29% of the adult market."

KZAN recently began carrying Transtar's "Niche 29" format and has a call letter change pending.

WTG Adds Murdock, Carvello To Promo Staff

Linda Murdock

WTG Records has added two more promotion executives to its national staff. Linda Murdock has become the label's Manager/National Top 40 Promotion, and Joey Carvello has been appointed Director/Dance Music.

Murdock will handle smallermarket promotion throughout the country. Her most recent position was with Atco Records in a similar capacity.

"I'm very pleased to have Linda on the WTG team," said VP/Pro-motion Dave Urso. "Her relentless pursuit of stations at the smaller market level will be nothing short of fantastic."

Carvello will promote and market dance music releases to clubs and retail accounts. He will also be responsible for talent acquisition

Belkin NBC News Editor

Radio news veteran Ed Belkin has been appointed NBC Radio Network News Managing Editor, and will be responsible for all of its day-to-day news operations.

NBC Radio VP News & Programming David Bartlett observed, "With a long and distinguished career at a major NBC all-News affiliate, Ed is the perfect person to manage the NBC Radio Network newsroom. We are lucky to have a guy with his background and experience to lead our news staff to ven greater success.'

Bartlett spent 17 years at NBC affiliate KYW/Philadelphia, starting as a production assistant and traffic reporter in 1969. He was promoted to news writer/reporter in 1975, morning drive editor in '76, ND in '78, and executive editor in '81. He subsequently served as VP for the public relations firms Communication Services Corp. and Shimer von Cantz.

Five years ago today Sandy Shore had just started doing overnights at KWAVI Monterey when a gunman entered the station and shot up the studios. Shore escaped unscathed and stayed until 1984, when she went to KGIL/San Fernando. In 1986 she and Scott O'Brien formed O'Brien & Shore Broadcast Enterprises. She also does weekends at KTWV/Los Angeles.

Z100, Hot 97 Trade Lawsuits

ili 🦥 da 'da antar an hIstoria

atest development in a story that's been smoldering for the past couple weeks (ST 9/30) has Z100/NY filing suit against crosstown Hot 97 for using the Z100 service-marked phrase "From The Top Of The Empire State Building" in the latter's legal ID.

Meanwhile, Hot 97 is suing Z100 over its use of the phrase "Saturday Night Dance Party" - which Hot 97 has been using on-air for the last 18 months. (Both stations' special, Saturday night, dance-oriented programming originates live from select Manhattan nightclubs.) In recent weeks, Z100 has stepped up its promotion and marketing of the 10pm-1am feature, drawing fire from Hot 97.

Hot 97 PD Joel Salkowitz says, "That show is most significant in terms of image and business for Hot 97. 'Saturday Night Dance Party' is our service mark. We're tired of having our stuff ripped off."

Z100 programmer Steve Kingston responds, "We intend to deal with this issue as aggressively as we do in all other aspects of our station." More judicial fisticuffs to come.

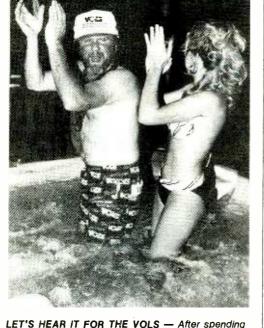

In other legal courtin' and sparkin', it looks like BJ105/Orlando "Breakfast Bunch" partner Darrell Hammond won't be heading to crosstown Y106 as previously reported (ST 10/14). BJ took it before a judge, who not only enjoined Hammond from defecting, but also ordered BJ105 to take him back to finish out the three months remaining on his deal!

ST hears that Outlet's KIQQ/L.A. will be sold this week - for about \$55 million - and that the buyer will surprise you. The company that will close the deal has not been involved in any of the previous ST about this sale. Watch next week's headlines

Tree To Go Bonsal?

Rumblings along Nashville's Music Row have it that Sony has been shopping for a publishing arm to go along with recentlyacquired CBS Records. Could Tree International, at one time the world's largest music publisher, be Sony's next purchase?

Now that **Z93/Atlanta** PD Bob Case is headed for the PD post at KZZP/Phoenix (see Page 1), look for a promotion for Nationwide Group PD Guy Zapoleon to be announced soon.

LET'S HEAR IT FOR THE VOLS - After spending 33 days perched 40 feet above the intersection of I-65 and I-40, WSIX-AM & FM/Nashville Sports Director Duncan Stewart climbed down from his lofty digs on Saturday (10/22) when the University of Tennessee Volunteers football team finally won its first game of the '88 season, defeating Memphis State. The stunt garnered national publicity for Stewart (I), who's pictured relaxing after the victory at a local watering hole

KXX106/Birmingham PD Jim

"Catfish" Pruitt has resigned, leaving OM Mark Evans handling the programming. Could the "Catfish" be angling for the **Z93** PD post?

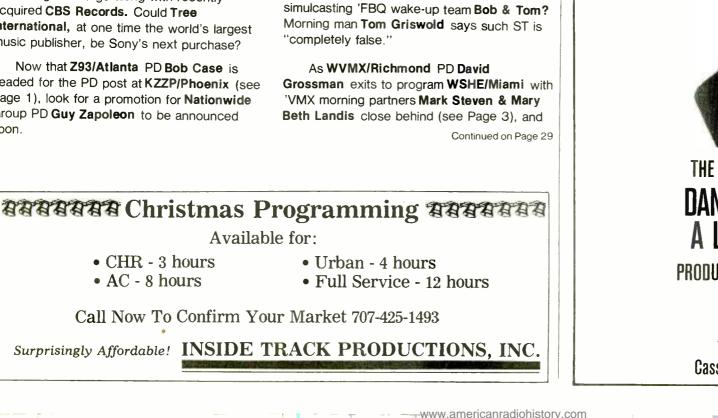

Eric Hodge exits his Atco National AOR slot to join Mercury as its NY local rep.

May The Best Man Win

WFBQ/Indianapolis PD Jim Pemberton is returning to Detroit for MD/middays at sister AOR WRIF. Meanwhile, 'RIF middayer Karen Savelly has crossed the street for the same shift at Classic Rock WCSX.

Pemberton spent over four years at 'RIF AOR rival WLLZ prior to taking the 'FBQ job five months ago. He'll now be competing against WLLZ PD Doug Podell, who -incidentally - was the best man at Pemberton's wedding.

And what about those rumors about 'RIF simulcasting 'FBQ wake-up team Bob & Tom? Morning man Tom Griswold says such ST is "completely false."

If he's coaching more than one team, who does he really want to win?

If your coach is advising more than one team, you have every right to wonder, "Who's getting the best advice?"

That's why, at Emmis Research, we only coach one radio station per market.

Other research companies play the field – they'll root for a station in every format. That way, no matter who wins, their bases are covered.

At Emmis, we believe in forming partnerships. Lasting partnerships. Exclusive partnerships. So that way, there's only one way that *we* can win – if *you* win.

RR INTERVIEW

Gannett's Cook: Bullish On Radio

annett Radio President Jay Cook's career began 31 years ago on the 250-watt "Voice Of North Central Texas," KSTV/ Stephenville. Along the way, he worked as an air personality at WHBQ/Memphis and WFIL/ Philadelphia, where he later became PD.

32

In October 1979 he moved on to National PD duties at Combined Communications, now known as Gannett. His tenure includes promotions to VP/ Programming, President/GM posts at KSD-AM & FM/St. Louis and WIOI (now WUSA)/Tampa, Regional VP/GM duties at KKBQ/Houston, and eventually the presidency of Gannett Radio, succeeding Joe Dorton. An unabashed fan of radio — and CHR in particular — he recently talked with R&R's Joel Denver about the industry's future profitability and other related subjects.

R&R: Are you still bullish on the CHR format?

JC: Yes, because CHR as a format makes sense. It's one of the three best format opportunities in radio. The other two are AC and some of its subcategories, and Country. CHR is where my roots are. It's what's made me a living for a lot of years, and is really where my heart is.

R&R: But you've switched several stations from CHR to NAC.

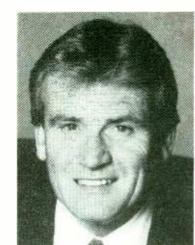

JC: The decisions to do CHR in Dallas (then KTKS) and Seattle (then KHIT) were not very wise; Seattle probably was the worst. We did modified versions of CHR in Seattle and Dallas when we should have gone for the teens and worked upwards. In San Diego it wasn't a mistake; we were just operating at a signal disadvantage.

Research has told us the least popular element of the NAC format is the acoustic new age material. Jazz is the most popular element

"CHR is one of the three best format opportunities in radio. The other two are AC and Country."

and probably the key to the success of it. We thought there was an opportunity for us in Seattle and Dallas, and it appears to have been the best option. Since making those switches, Gannett has learned more and invested more in finding out what's going to make this thing fly than any other company, including Satellite Music Network. The correct mix is a bit different from market to market, we've discovered.

R&R: What's the single biggest

Jay Cook

change in Gannett's posture since you became President?

JC: I don't know that there is any major difference, except maybe just a difference in style between Joe and me. I'm more low-key, but I don't think the Gannett Radio philosophies have changed.

R&R: You're regarded as one of the industry's nicest and brightest players. Has this image made the chain more cohesive?

JC: It's not a matter of style. It's the only way I know how to do things. I try to communicate with people a lot, listen to what they have to say, talk things through, and let everybody contribute. The stations talk with each other more than they did in the past. That may be a function of me coming from the product side of the business as opposed to the sales side.

R&R: As VP/Programming, what hand did you have in the success of KIIS-FM/Los Angeles?

JC: One of our biggest projects while I was running the programming end of things was KIIS-FM. Work began in 1982 to modify its Disco image. We all came to the same conclusion: people had expectations that KIIS should be a CHR station. And only when we delivered on those expectations did KIIS begin to be more successful. Credit for the major part of that turnaround has to go to (former President/GM) Wally Clark, Rick Dees, and (former VP/Programming) Gerry DeFrancesco.

R&R: What's your outlook on KIIS's battle to regain first place in the market?

JC: We're still the number one station in all the demos that are important. The caliber of competition in L.A. since KIIS began its run, if you will, has improved immeasurably. That the competition has gotten better is not surprising. I would've preferred that everyone had stayed asleep, but that hasn't happened.

The KIIS-FM programming/ management team of (PD) Steve Rivers and (President/GM) Lynn Anderson-Powell and all the departments have done a remarkable job in what we all know are very difficult circumstances. The fourth or fifth year into a CHR's life is very difficult; it's the crucial time in its evolution. That's when you hit the wall and you're not new anymore. Much of CHR's appeal is being hot, fresh, and new – all those things that capture the attention of the so-called "hip" element.

I think most people would agree that the most desirable radio property in this country is KIIS-FM, and it will be for a long time to come. Gannett's support has allowed us to make sure that Rick Dees stays with us. So if anybody wants to come play the game, we're here to play.

R&R: Were you shocked by Wally Clark's resignation and Dees's rumored departure?

JC: Wally and I talk regularly, so I knew he was considering the move. One of the top priorities I had when I came to this job was to make sure we not only told Rick

A PERSONAL PLANT

"Radio has been declared dead a number of times and always seems to bounce back."

thanks for the years that he'd been working, but continued to show him so. Given the scenario, especially in the sports world, if anyone was ever justified in asking us to reopen that package it was Rick. He never did; a deal was a deal. We started talking about his new deal over a year ago. We were about wrapped up on a new longterm deal when all the rumors started.

R&R: Some people say Gannett no longer spends big bucks for promotions.

JC: That's more a matter of perception than reality. All our stations are spending more each year. If they're talking about KIIS-FM, it's really a wrong judgment. KIIS has done so much for so long – and we're still doing things in as big a way as ever. Unfortunately, those things have become rather hohum; people expect that from KIIS.

In some markets this perception could have been generated because it's my basic belief that we don't invest in a product until we think it's ready for promotion. Then we go ahead and do what needs to be done to let people know about it.

R&R: With DeFrancesco moving to WUSA as VP/GM, will Gannett name another VP/Programming?

JC: I don't know. We'll just see how that works out. Gerry's been in that job fulltime for almost two years now, and he's done a very good job. We've got some really accomplished programming people in the group all the way across. So I

think the need for anyone to do that on a fulltime basis is somewhat lessened. Gerry will need to have a little withdrawal period from programming, which is only natural, so we're still covered here in a sense.

R&R: Is radio overconsulted and overresearched?

JC: No. We're a much better industry, and we program smarter and operate much smarter since we've been involved in research. The key is the value you place on it. I don't think there's any substitute for instinct, knowing your market, and knowing your station.

R&R: But many of your stations seem to have relied more on research than guts recently.

JC: We haven't given up that gut feeling, but we are doing more research in some markets than in the past. You can get away with gut level programming when the competition is soft. But if it's not, you had better have some additional input from the audience. Not to have that kind of input will really kill you in the long run unless you're one of those remarkably instinctive, brilliant people of whom I've met only two or three in my 30 years in radio.

In the areas of new music and adding music to the station, research can't tell you what to do. You can't measure the acceptance of a record until it's been heard. To

"The fourth or fifth year into a CHR's life is very difficult. It's the crucial time in its evolution."

wait on the research before you move on a record would be deadly. You better have a feel for what your audience will respond to.

R&R: You've hired several GMs with programming backgrounds. Is that an advantage?

JC: The product side of the business has become more competitive, and there is certainly more reason to allow programmers to get into those positions. You fit the person to the job. If a station requires intensive programming skills, the programmer is the best choice. If the product is in pretty good shape and you need to maximize your revenue potential, then it just seems very logical to me that you'd put in somebody with more of a sales background. R&R: What qualities do you look for in a GM?

JC: He must have the ability to communicate with people. I report to Gannett President/CEO John

"You can't measure the acceptance of a record until it has been heard. To wait on the research before you move on a record would be deadly."

Curley and Gannett Broadcast Group President Cecil Walker, and they're both very clear on the way we do business. We concentrate on people, then product. If we do a good job with people, the product will happen and profit will follow.

R&R: What do you look for in a PD?

JC: While people skills are a must, obviously technical expertise, creative ability, and administrative skills are all parts of the mix. We look for people who are able to bring all those qualities to the job, who are challenged and happy to be coming to work.

When the people who work for a PD, sales manager, or GM come to work worrying about what kind of mood their boss is going to be in, it diverts them from what they're supposed to be there for. If I discover we have a manager like that, we see if we can find someone else. R&R: And your forecast for radio's future?

JC: Radio has gone through some of the trials TV has to deal with today – fragmentation and specialization. We've already played that ballgame and won. Radio has been declared dead a number of times and always seems to bounce back. I see radio continuing to be a very vital medium in the media mix and very profitable for years to come.

We may have hit a wall for station turnaround situations, where you buy dirt cheap and make a sudden windfall. Gannett gives its stations lots of longterm corporate support, and that's a winning management philosophy that applies to all radio stations — no matter how big or small. WWRB Becomes AC WRLT

WWRB/Franklin (Nashville) has pulled the plug on its "Alternative Rock" format in favor of AC and new calls WRLT. The switch to "Nashville's Light 100" was made October 21 at 6pm.

WRLT GM Nick Martin told R&R, "We've received many calls congratulating us on the change. Several businesses have called saying they've tuned us in and are listening in their offices. Salespeople are walking into places that now have us on. This has all been done with no pre-promotion or advertising. We're very excited about what's happening.

To throw the Nashville market off, the station aired different formats every four or five hours from 3pm October 19 until the new format debuted 51 hours later. "We

started out with Classic Country, followed by AC, CHR, and Urban. The last hour was all Christmas music and sound effects, Martin said. "We did a takeoff of the Emergency Broadcast System by saying, 'At any minute, you could experience a format change. If there is a format change, it would be followed by information

People were really guessing what the format was going to be. The phones were ringing off the wall." According to Martin, one format

block ended with Def Leppard and the next started with Patsy Cline. WRLT debuted with Barry Manilow's "Ready To Take A Chance Again."

WWRB ranked 14th in the summer Arbitron with a 1.1.

Marie Kordus Kordus GSM At KPWR

2887

Eighteen-month KPWR (Power 106)/Los Angeles LSM Marie Kordus has been promoted to GSM. She replaces Susan Hoffman, who assumed GM duties at KKHT/ Houston last week.

Kordus, who will lead a tenmember sales staff, told R&R, "I've worked with these people for three-and-a-half years, have seen this station grow, and look forward to making my contribution to its continued growth. I don't anticipate making any major changes; the staff is great just the way it is, although there may be a few additions. I think all the salespeople here feel this is a natural transition. I hope to offer strength, consistency, and stability."

Kordus was previously an AE at KMGG (which later became KPWR), WISN-TV/Milwaukee, and WOKY & WMIL/Milwaukee.

McNeill

Continued from Page 1 McNeill is in his second tour with Viacom. From 1981-83 he was at KIKK as Asst. PD/Research Director. He was WMZQ PD from 1983-85. He then spent two years with Edens Broadcasting, as OM at KOY-AM & FM and later as Station Manager at WRVA/Richmond with corporate programming responsibilities. He returned as WMZQ PD 18 months ago

McCartie WMZQ PD

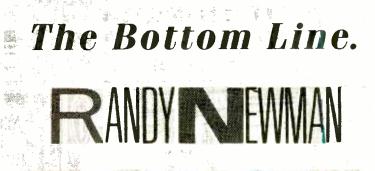

Regarding McCartie's appointment, WMZQ VP/GM Paul Wilensky said. "This is a tough job who wants to take over a station that's number one in a market where Country's 'not supposed to be' on top? The number one station in Washington has always managed to attract the very best. We have continued in this tradition

with the hiring of Gary McCartie." McCartie told **R&R**, "To follow Bob is gratifying. He's done incredible things with a great staff and facility. My commitment is to continue the winning tradition that Paul and the staff have established for the market and for country music in general."

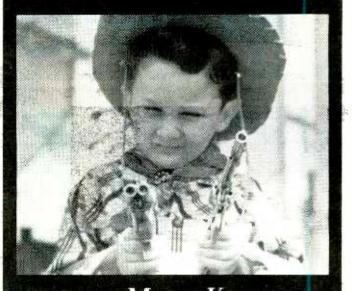

McCartie began his programming career in 1973 at KBIG/Los Angeles. He moved crosstown to KJOI in 1978, where he spent six years prior to a stint at Country KLAC & KZLA in that city. He was named PD/morning personality at KOY in 1985.

WMZQ ranked number one 12+ for the first time in last spring's Arbitron and duplicated the feat this summer, with the added plus of having its morning show also place first 12+.

Lake told R&R, "This is what I've always wanted to do my entire radio career. The format on KMGR is well-rounded because it combines music from the '50s, '60s, '70s, and '80s. We play current hits as well as some classic Elvis cuts. We call the station 'Utah's Favor-

Lucks will continue as PG/Nashville VP/GM, responsible for all promotion, marketing, publicity and administrative functions. He reports to Bob Jamieson, PG's Exec. VP/Marketing & Sales. Shedd commented, "This is a

fantastic opportunity for me. Poly-Gram's recent successes in Nashville have laid the groundwork for what promises to be a very fruitful relationship. I look forward to working with Dick Asher, Bob Jamieson, Paul Lucks, and the entire PolyGram team."

Most recently Shedd headed Music Mill, his own studio/publishing/production complex in Nashville. He has produced Alabama, K.T. Oslin, Reba McEntire, Glen Campbell, and Mel Tillis, among others. Shedd-produced LPs have sold more than 33 million units.

Shedd has also worked as a radio performer and announcer, radio station owner and operator, and a custom record producer.

KMGR, which once used "Format 41" around the clock, now utilizes satellite programming between 2-6am and is live the rest of the day.

Prior to joining KMGR, Lake worked for five years as an air personality/MD/Asst. PD at crosstown KCPX and was also on the air at KLOL/Houston.

In the spring Arbitron, KMGR ranked eighth 12+ (4.0) and was fifth 25-54. The station's corresponding Birch figures were a 3.9 (12+), placing the simulcast operation eighth.

Grossman joined WVMX earlier this year following a ten-month stint as KZEW/Dallas PD. The 18-year radio vet's resume includes PD jobs at WRXL/Richmond and WCCC/Hartford, and a stint as Asst. There's definitely a war going on down there, and I'm really looking forward to shaking some things up. "This station's call letters still

mean something in South Florida," Grossman added. "As long as you're sensitive to that and do some things right, you're going to make the station grow. It's going to need a lot of commitment and direction, and those are things I think I'm really good at."

In the summer '88 Arbitron, WSHE trailed competitor WGTR's 4.1 with a 1.9; WSHE had a 3.2 to WGTR's 6.1 in the corresponding Birch.

WMQX Swaps AC For Oldies Approach

WMQX/Winston-Salem (Greensboro) has dropped AC in favor of Oldies. The station will retain its call letters and continue simulcasting. As part of the switch, one-year WPEZ/Macon PD Gary Moss has joined WMQX in a similar capacity. He replaces the exiting Keith Clark.

Moss told $\mathbf{R} \& \mathbf{R}$, "The reaction has been great – the phones have

WBMX

MOSS PD

Continued from Page 3 The other third is a mixture of oldies from the '60s and '70s.

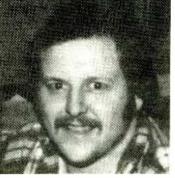

"The target demo is 25-49 blacks," he continued. "The research clearly showed that if we want to be successful we have to be perceived as a different radio station musically from what black listeners are now comfortable with, which is WGCI."

Explaining the discharging of all the station's personalities in favor of a new lineup, Mayo said, "From a talent standpoint, all of the old jocks would have been compatible, and it was very tough to let some of them go. It's difficult explaining to someone that it's not their talent that's the problem and that talent has nothing to do with it; that it's a decision based on a station image problem.

"Our emphasis was not to find disc jockeys to be competitive with those on WGCI; our DJs will eventually become stars, just as the station will. A lot of people didn't understand why we didn't raid WGCI, but part of our plan was that we wanted something totally fresh and new. We didn't want people with either WGCI or WBMX baggage, quite frankly."

The new WVAZ lineup includes former longtime WJPC/Chicago personality Richard Steele in mornings, former KDKS/Shreveport PD Max Myrick in middays, WRKS/New York's Leigh Hamilton from 3-7pm, and WPZZ/Indianapolis's Ray Anthony for a "Night Moods" show. An overnight jock has not been hired yet for the station.

Prior to joining WPEZ Moss programmed WKOM & WKRM/Columbia, TN and was an air personality at WZEZ/Nashville (for five years) and WLAC/Nashville.

In the spring Arbitron, WMQX registered a 1.8 (12+) and ranked 13th overall and was tenth 18-34 and 25-54. In the corresponding Birch, the combo posted a 1.4 to place 13th.

Hotlen's past programming credits include KSFO/San Francisco, KNBR & KYUU/San Francisco, WHN/New York, WIP & WMMR/Philadelphia, WCAU/ Philadelphia, and WPGC/Washington. In addition to KKSA, he has managed WPEN/Philadelphia and WAYK & WSWF/Fort Myers.

KJOI ranked seventh 12+ in the summer Arbitron (4.1) and 11th in Birch (2.7).

Q107 President/GM Maureen Lesourd commented to R&R, "Bette is a super achiever with the kind of professionalism that has been heralded by her peers throughout her career. She brings experience, knowledge, enthusiasm, and creativity to this challenging position."

MacKinnon has also served as GSM at KDIG & KBON/San Bernardino and was LSM at KLAV/ Las Vegas. She told R&R, "I'm glad I made the move. I'm looking forward to a long and prosperous stay at Q107. This is just about as exciting a marketplace as you'll find. Our on-air product is improving daily, and Q107's consistency in the CHR format over the last decade will be a major advantage toward making this station the powerhouse it once was."

Sonny & Cher Duet Again

MONDAY, NOVEMBER 7

1968 /In Phoenix, Jim Morrison demands that the audience at a Doors concert rise to their feet. Police interpret the act as a riot attempt and warn the group never to return to their city.

1969/The Rolling Stones begin their first American tour in three years. Their absence from the concert scene was caused by repeated drug arrests, censorship, and alleged lewd activities by group members.

1979/"The Rose," starring Bette Midler in a role largely based on the life of Janis Joplin, opens nationally. 1986/Is there any better way to spend a Friday night? - In California, Prince makes a surprise appearance at a Hawthorne-Mira Costa high school football game. The Purple One crowns the Hawthorne homecoming queen. Also, Willie Nelson plays a lawman gone bad on "Miami Vice."

Born: Joni Mitchell 1943, Johnny Rivers 1942, Ai Hirt 1922, Mary Travers (Peter, Paul &) 1937

TUESDAY, NOVEMBER 8

1968/Cynthia Lennon is granted a divorce from John. Also, Jean Terrell is named to replace Diana Ross in the Supremes.

1970/Jim Morrison celebrates his 27th birthday by recording the poetry for "An American Prayer," which is set to music after his death.

1985/"Bring On The Night," a concert documentary starring Sting, opens nationally.

1987/Maybe they should've sung "Everyday Frogs" - Kermit The Frog guests on "Dolly." The two duet on "Everyday People."

Born: Bonnie Raitt 1949, Rickie Lee Jones 1954, Leif Garrett 1961, Roy Wood (Move/ELO) 1945, the late Minnie Riperton 1947, the late Jim Morrison 1943

WEDNESDAY, NOVEMBER 9

1961/Brian Epstein sees the Beatles for the first time at a lunchtime concert. Shortly afterward, he becomes their manager

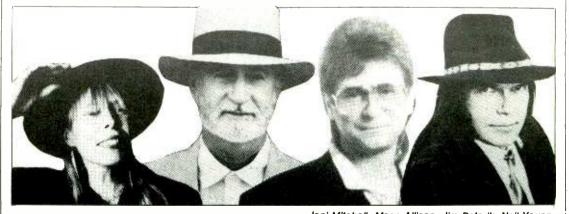

1966/"'Paul McCartney is dead" rumors reach a peak as English news services report he has been decapitated in a car crash. His alleged Beatle replacement is lookalike singer Billy Shears.

1967/The first issue of Rolling Stone, featuring a roach clip on the cover, is published.

1974/Ringo Starr celebrates the release of "Goodnight Vienna" by arriving at the Capitol Records building in a flying saucer

1975/Strange choice of material - David Bowie guests on Cher's TV show, and the two duet on a medley of hits including "Da Doo Ron Ron" and "Song Sung Blue.

Born: Tom Fogerty (CCR) 1941, Alan Gratzer (REO Speedwagon) 1948

THURSDAY, NOVEMBER 10

Joni Mitchell, Mose Allison, Jim Peterik, Neil Young

1960/Gregg Allman receives his first guitar as a 13th birthday present. His brother Duane gets one for his

birthday two weeks later. 1977/Preteen screamers and headbangers battle it out as Rex Smith opens for Ted Nugent at Madison Square Garden.

1986/Bruce Springsteen's "Live 1975-1985" set is released, with an initial shipment of 1.7 million.

1987/Terence Trent D'Arby cancels his show in Vienna, Austria, in protest against President Kurt Waldheim, an alleged Nazi

Born: Dave Loggins 1947, Donna Fargo 1949, Greg Lake (ELP) 1948, Gregg Aliman 1947

FRIDAY, NOVEMBER 11

1958/Hank Ballard & the Midnighters record the original version of "The Twist."

1969/On the "Tonight Show," the Supremes make their first appearance since Diana Ross left the group. 1970/"Tarantula," a book of poetry by Bob Dylan, is published.

1983/But can he say this about his solo work? - The BBC bans the Rolling Stones' "Undercover Of The Night" video. Mick Jagger defends, "We're not trying to make wimpy pop or la-la love songs."

1987/U2 play a free lunchtime concert in San Francisco. Bono is charged with "malicious mischief" for spray painting a city fountain, even though the designer says he doesn't mind.

Born: Jesse Colin Young 1944, Jim Peterik (Survivor) 1950, Mose Allison 1927

SATURDAY, NOVEMBER 12

1970/The Doors' last appearance as a quartet occurs in New Orleans. After the show, John Densmore remarks that Jim Morrison "just lost all his energy."

1979/"Rock Justice," a rock opera written by and starring Marty Balin, opens in San Francisco. Balin plays a singer on trial for not having a hit record.

1987/Siy Stone attempts a comeback at the Las Palmas Theatre in L.A. He shows up over two hours late; after the show, he's arrested for cocaine possession and failure to pay child support.

A Fab Macca **TV** Appearance

AUL McCARTNEY made an unusual appearance on British television Wednesday night (10/26) on a program called "The Power Of Music." The hourlong documentary showed McCartney's visit to the Nordoff-Robbins Music Therapy Center for handicapped children in North London. In June, Paul was given the center's Silver Clef Award for lifetime achievements in music, and the film showed him introducing a series of

stories demonstrating the power of music in helping the handicapped. "I thought they might just scatter or turn away," said the formerly fabber, "but, just like my own kids when they were little, they couldn't resist touching and strumming the guitar. As always, music was the bridge."

Just Say No To Acid House?

As the British tabloid press go to town on the link between acid house clubs/records and hard drugs, one of Britain's major clothing stores has withdrawn its stock of the popular "Smiley" T-shirts that are a part of the movement. England's Top Shop and Top Man stores will no longer sell the shirts.

JULIAN COPE's new album, "My Nation Underground," contains a typically idiosyncratic reworking of the old VOGUES hit "Five O'Clock World," in which Jools somehow manages to incorporate talk of missiles and other 80s images. In the liner notes, Cope says the entire album was

"I suppose the ten best will be on the album, and he's hoping to open a West End (London) production of it. That's nearly finished, and I think he's going to go back in and start writing for the Who any minute.

What's New?

A SMITHS convention takes place tomorrow (10/29) in Birmingham ... The second album by TERENCE TRENT D'ARBY is currently in the works, being recorded at the Dublin studios of HOTHOUSE FLOWERS. Word has it that it will be a double LP, due around April ... SHAKE-

SPEAR'S SISTER is the new, misspelled professional name of former BANANARAMA singer SI-**OBHAN FAHEY's new project. SS** releases its first single, the double-A-sided "Break My Heart (You Really)" and "Heroine," this week. An LP will follow early next year.

Bros Bigger Than Elvis?

"I Owe You Nothing" by BROS is the best single of all time . . . that is, if you take Radio One's "Listener Top 100 Poll" seriously. The national station celebrated its 21st anniversary by playing the result of a survey that brought 20,000 replies. It's fair to say the younger element won the poll. Bros were also represented at number six and 13.

MICHAEL JACKSON and U2 were the best represented, scoring five entries each. Almost a third of the records were from the past 18 months, including the FAT BOYS, SABRINA, and KYLIE MIN-OGUE. Neither LITTLE EVA nor ELVIS PRESLEY showed up anywhere on the list.

Chrysalis Promos TPOH With DAT

Chrysalis Records introduces its new band, The Pursuit Of Happiness, this week with a promotional digital audio tape of the band's debut LP, "Love Junk." Key members of the radio and trade media will be serviced with the DAT, which marks not only the first promotional DAT on the label but one of the few DATs to be issued by the recording industry to date (Rykodisc released a DAT label sampler several weeks ago.) The serviced tape will include a disclaimer

stating that Chrysalis remains opposed to the commercial release of DATs. "We feel strongly that (The Pursuit Of Happiness) is a band for the '90s and, in introducing them, we wanted the most faithful reproduction of their music as possible," said label President Mike Bone. "Digital sound provides that quality. However, we remain committed to not releasing DAT commercially until our artists are protected. This DAT is for promotional purposes only

The Pursuit Of Happiness is a Canadian band that made their debut album in the US with producer Todd Rundgren. "I'm An Adult Now," the first single from "Love Junk," has already been issued to college and alternative stations. The LP will officially be released on Monday (10/31). In addition, the band opens the College Media Journal (CMJ) National Convention in New York with a live performance tonight (10/28).

New Rock Hall Of Fame

Inductees Named

The Rolling Stones, Stevie Wonder, the Temptations, Dion, and the late Otis Redding are the 1988 inductees into the Rock 'N' Roll Hall Of Fame. The artists - all of whom had to release their first record more than 25 years ago to qualify - will be inducted during the organization's annual dinner, scheduled for January at NYC's Waldorf-Astoria.

The Hall Of Fame will also honor three artists who helped create the roots of rock 'n' roll: blues singer - and one of Janis Joplin's biggest influences - Bessie Smith; early doo-wop prototypes the Ink Spots; and gospel group the Soul Stirrers, which once included Hall Of Famer Sam Cooke as a member. Also honored will be legendary record producer Phil Spector, who was named in the nonperforming music industry proessional category.

Short Cuts

• ASCAP and NARAS have scheduled an A&R panel titled "A&R Wars: Is A&R Holding The Record Industry Back?" for 7pm Thursday, November 10, at the Beverly Garland Hotel in North Hollywood. Panelists include Gordy Co. consultant (and former Motown Records President) AL BELL; A&M Sr. VP CHARLIE MINOR; Columbia A&R/West Coast VP RON OBERMAN; MCA President AL TELLER; Warner Bros. President LENNY WARONKER; creative and business affairs consultant THOMAS WHITE; and Geffen A&R exec TOM ZUTAUT. The moderator will be KMPC/Los Angeles PD J.J. JACKSON. For info, call (818) 843-8253.

 BMG Direct Marketing has signed an exclusive licensing agreement with MTV to launch a new audio/video club that will be marketed under the MTV logo. The major feature of the yet-unnamed club will be a monthly "magalog" (magazine/catalog) produced by MTV and available only to members. In addition to music news, features, reviews, and interviews, the "magalog" will also feature a "VJ Selection of the Month" offered to members, along with other music and video product of the MTV genre.

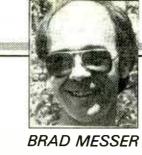

• DURAN DURAN played a surprise concert in the Capitol Records tower parking lot in Hollywood on Thursday, October 20. More than 5000 fans were treated to a 40-minute set that mixed songs from the group's new "Big Thing" LP with some of their older material. The Duranies plan to follow with a nine-city tour of small halls.

• The October 7 Amnesty International "Human Rights Now!" concert in Zimbabwe was broadcast into South Africa, which meant listeners heard PETER GABRIEL's "Biko" there. The song, about slain activist STEPHEN BIKO, has been banned in the apartheid state since its original release eight years ago.

• A weird copyright infringement lawsuit against JOHN FOGERTY over the song "The Old Man Down The Road" began this week in San Francisco. Fogerty is accused of stealing part of the aforementioned song from "Run Through The Jungle," a song he also wrote but no longer owns.

• The COMMODORES are headlining a three-city tour sponsored by the US Drug Enforcement Administration geared toward educating school kids about the dangers of drug abuse. Also on the tour - which kicked off in Detroit on Tuesday (10/25) - are CLUB NOUVEAU, TRACIE SPENCER, and MICHAEL COOPER. They will also play Cincinnati and Austin

latest piece of hot local news. "Joe Blow is out over at Station X! On the street!" The morning man, barely looking up from his playlist, replies, "Yeah, I heard. Our switchboard's already been on for an hour and he hasn't called yet. Wonder where he is?"

Poor Joe Blow. His bargaining power deflated about 95 percent before sunrise. Yesterday an equal competitor, today just another outof-work bozo scrambling for Rodney Dangerfield's leftover scraps of respect.

If he had phoned yesterday when he was still employed, a PD would probably have taken the call, if for no reason other than curiosity. There's always a tidbit of competitive information to be picked up, or some gossip.

But if Blow phones today from the street, he'll be awfully lucky to get a call returned. There'll be no mystery about what he wants.

If the PD does want to talk jobs. okay - but if there are no immediate openings, the pink message slip will sail into the circular file atop all the other little balls of paper.

Blow will sit at home, thumbing through his address book, making call after call to people who were his industry colleagues yesterday but "aren't in" today.

Tomorrow will turn into next week. Next week will segue into next month. His lack of market value will begin blowing Blow's mind. He'll smile on the outside but shrivel on the inside while mailing tapes and making calls. More dues. More dues.

And then the sun will break from behind those black clouds and a call will be returned. A job will be dangled. Blow will strike at the lure. Back in business! Back on the high road.

When he announces his new address, Joe's ego will have unshriveled to the point that he'll be able to tell acquaintances - with a straight face - about the several stations he rebuffed while cagily closing the new deal. After a few days, he'll even believe those "other offers" himself.

Then, down the line, one day at work he'll learn that John Doe over at Station Y is suddenly on the street. As he relays the news to the morning man, he may chuckle and say, "He'll be calling any time now!"

Or, depending on how much his own experience taught him about compassion, Joe Blow might grab a phone and give John Doe a call. to let him know that someone cares and will be on the lookout for openings.

The world has a name for that second option. For centuries, it has been called the Golden Rule.

Another Kind Of Thanksgiving

MONDAY. NOVEMBER 7 - The Continental Congress sent a different kind of Thanksgiving Resolution to the 13 original states in 1777, suggesting that everyone observe a holiday giving thanks for a major Revolutionary War battle victory.

Twenty-five years ago, Elston Howard became the first black man to receive the American League's Most Valuable Player award (1963). Lenin's Socialist Revolutionaries took over Russia in 1917; this is a major two-day holiday in the Soviet Union. The first cigarette-making machine was patented in 1876.

Birthdays: Joni Mitchell 45. Mary Travers 51 (Peter, Paul & Mary). Rev. Billy Graham 70.

Hitler Power Play Squashed

TUESDAY, NOVEMBER 8 — Adolf Hitler tried to take over Germany in a coup attempt in Munich in 1923. When it failed, he was arrested and put in prison. While behind bars, Hitler wrote his famous political work "Mein Kampf.'

Montana became the 41st state in 1889. Wilhelm Roentjen discovered x-rays in 1895. General Election day. Birthdays: Playboy President Christle Hefner 36. Morley Safer 57. Katharine Hepburn 79.

"Crystal Night" 50th Anniversary

WEDNESDAY, NOVEMBER 9 - German Nazis began their all-out persecution of Jews in 1938 on "Crystal Night," so named because of the thousands of shop and house windows that were smashed. Jewish homes, businessplaces, and synagogues were looted and burned. Immediate shipments of up to 30,000 Jews to concentration camps began.

The comic strip "The Wizard of Id" premiered in 1964.

Birthdays: Lou Ferrigno ("The Incredible Hulk") 36. Golfer Tom Weiskopf 46. Baseball Hall of Famer Bob Gibson 53. Astronomer Carl Sagan 54

Hirohito Named Emperor Of Japan

THURSDAY, NOVEMBER 10 - 25-year-old Hirohito was installed as Japan's Emperor 62 years ago (1926). At the time, emperors were regared as direct descendants of the gods, but he later renounced that belief. (Hirohito, now 87, was gravely ill as this was being written.)

A demonstration for women's voting rights in 1917 resulted in 41 women being arrested in front of the White House. Birthdays: MacKenzie Phillips 29, Greg Lake 40. "Sesame Street"'s Alaina Reed 42. Roy Scheider 53.

Veterans Dav

FRIDAY, NOVEMBER 11 - World War One ended 70 years ago (1918). The armistice was signed at the 11th hour on the 11th day of the 11th month, ending the European war which had killed ten million people. "God Bless America" was first performed by the late Kate Smith in 1939.

Birthdays: Golfer "Fuzzy" Zoeller 37. Nicaragua's Daniel Ortega 43. Jonathan Winters 63. Sen. William Proxmire 73

Saturday (11/12): Nadia Comaneci 27, Neil Young 43. Sunday (11/13): Paul Simon 46.

KKRZ Cops Sixth Straight Win

Portland Outlet's Streak Threatened By Challenger KXYQ

Getting to the top is one thing, but staying there is another. Just ask KKRZ (Z100)/Portland OM/afternoon driver Sean Lynch. His station commanded the market lead with a 9.1 to 9.3 increase in the summer Arbitron for the sixth consecutive book. Not far behind KKRZ is KXYQ (Q105), programmed by Jim Ryan. It leaped 5.6-8.0 for third place, trailing Country KUPL-FM (8.1). In the summer Birch, however, KXYQ topped KKRZ 10.9-10.7.

KKRZ's winning streak began in summer 1984 under then-PD Gary Bryan (now programming KUBE/ Seattle). Lynch was his Asst. PD at the time, taking over the programming reins two years ago.

Airstaff Greatest Asset

Well-versed in the market, Lynch knows what got KKRZ where it is and what keeps it there. "Our greatest asset is the staff. If morale suffers so will the air sound. We have to stay pumped up, so we let the airstaff have a sense of autonomy on-air and off-air. I believe in getting the best people and letting them do their own thing."

Lynch also points out the importance of KKRZ's morning zoo to the station's success. "Our morning show as a lot of heritage. (Host) John Murphy's been here for two years, and he's backed up by (character voice talent) Dan Clark, (traffic personality) Tony Martinez, and (news talent) Brook Belson.

"KKRZ's promotional posture has also been a big factor, as we've continued with the 'Big Money Song' and a 'Birthday Game,' where we hand out cash every Thursday. We're always trying to come up with innovative ways of programming. I also like to find creative new ways to increase billing without increasing the number of units. When you can get clients to pay the hard costs, that can better affect the bottom line."

KKRZ maintains a mascot, "The Jammin' Salmon," and has a van out on the streets daily looking for bumper sticker winners who nab

KKRZ's Jammin' Salmon.

"The competition from KXYQ has increased time spent in the CHR format in general and has had a dramatic

impact on overall market competition.'' —Sean Lynch

"Z100 dollar bills." "We continue to out-promote Q105 but that doesn't mean we spend more cash," Lynch remarks.

KKRZ recently participated in a city food festival ("The Bite") and hosted the "Z100 Last Chance Summer Dance" over Labor Day weekend. "We had a great turnout for groups like Denise Lopez, Dino, the Fat Boys, and local groups like Shock."

Interestingly, many of the groups in that show have Urban and/or dance roots. Notes Lynch, "We've always leaned Urban, which surprises people due to the lack of ethnic listeners in the market. Our female target audience really likes to dance, which has been borne out in other markets. Our strength is that we can play a wide variety of music, including the good rock music that's out now. Like most stations we daypart music, and the percentage of currents to gold varies with each daypart. But I'd say we're generally 75%-80% current."

Lynch keeps only a half-open eye on the competition because "I've got no control over what they do. Frankly, the competition from KXYQ has increased time spent in the CHR format in general and has had a dramatic impact on overall market competition."

In the past, the competition between KKRZ and then-CHR rival KMJK had escalated to the point of filing legal proceedings. This battle, however, doesn't seem as cutthroat. "I've had dinner with Jim Ryan and get along with him pretty well – as well as you can expect for two people fighting it out tooth and nail for the same turf.

"I don't think KXYQ can ever beat us. If I did, then it would be time for me to move on. The only way we'll lose is if we defeat ourselves from within. Now I'm not deluding myself - KXYQ did get close this time - but close only counts in horseshoes."

KXYQ: Close Enough For Ryan

Of course, KXYQ's Jim Ryan sees the 1.3 share margin a bit differently. He took the station live CHR in spring '86, moving the tower and studios from Salem (formerly KSKD) to Portland the fol-

KXYQ's got maximum coverage on the MAX.

There's quite a difference in sound and image between **KKRZ (Z100)** and **KXYQ (Q105).** KKRZ's slogan is "Z100, Portland's Hottest Music"; KXYQ boasts "Q105, Portland's Fresh Choice." Here's a sample 5pm hour from both:

Discussing market changes

since KXYQ's debut, Ryan says,

"There are now 17.3 CHR shares

here. In fall 1986 there were only 13.9 shares, and KMJK was still in

the format. And at the time we had

two AC FMs with a total AC share of 10.5. Now there's only one FM

AC, KKCW, and they have a 6.0.

"We certainly benefit from not

Night And Day Differences Explaining the contrast between KXYQ and KKRZ, Ryan points out, "We had to be positioned differently than KKRZ. We felt we could gather strength from the rest of the market and present a CHR product that leaned more toward the rock side – and it's worked (see accompanying sidebar).

"We never played Keith Sweat's 'I Want Her,' yet KKRZ never played Def Leppard's 'Pour Some Sugar On Me.' Generally, I try to stay away from the Urban-oriented teen records and leave them to KKRZ. I'll play Whitney Houston, but Madonna records and those soundalikes are burned according to the research.

"KKRZ doesn't do as much research as we do," he criticized. "Many retail stores say we're the only ones who call them. We also do a lot of callout research to help determine burnouts. And we do a new music show on Sunday night soliciting calls to see what should go into test rotation."

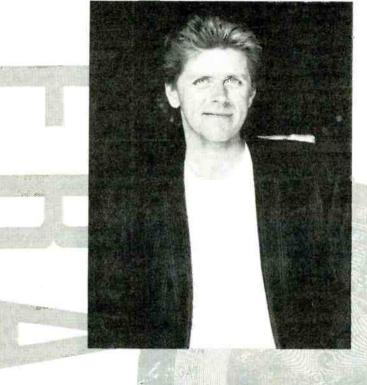

Legend has it that the Pacific Northwest is a bit conservative. "People are hesitant to change," he confirms. "This market has the slowest rotations of any major market I've ever seen."

AOR

ALBUM ORIENTED ROCK

For KISW, The Sky's The Limit

KISW is back. Based on the latest numbers, Seattle's 17-year AOR has not only weathered 1986's mass defection to crosstown KXRX - it's made the essential transition to a 25+ station. And the person charting the Nationwide outlet's successful new course is rock radio's most well-known first-time PD: Sky Daniels.

One of AOR's most colorful, outspoken personalities since he burst on the scene at WLUP/Chicago ten years ago, Daniels never had been given the opportunity to program until KISW GM Beau Phillips recruited him last June. Phillips was KISW's PD back in the days when the hard-rockin' station dominated Seattle's AOR scene, until GM Steve West led a parade of KISW staffers across the street two years ago to what had been AC KQKT. Over a dozen KISW staffers eventually defected to KXRX, including both highprofile drive teams, three salespeople, and the chief engineer. When Phillips was upped to replace West, he was left with the unenviable task of completely rebuilding the station.

"When that kind of raid takes place, most stations fold up and change format," Daniels says. "Beau weathered an incredible storm. Having been privy to the most personal ramifications of that situation, I can tell you that very few individuals could have held up under the blow. To Beau's credit, he was like a lighthouse in a time of great turmoil, and it clearly showed on the players here."

"I had a pretty good idea of how to take a traditional hard rock AOR and coax it into a more palatable 25-34-oriented radio station."

Phillips may have held things together, but KXRX made an immediate ratings impact. Exclusively targeting the lucrative 25+ demo, the "X" debuted with a 4.3 while KISW slid 8.0-6.2. Three books later KXRX led the battle, 4.6-3.8. KISW eventually rallied to pass its rival 12+, but its strength was mainly 18-24. Last spring when the "X" was number one 25-34 men it led KISW by almost six points in that crucial cell.

Music Revamped To Lure 25+

Daniels says he knew immediately upon arriving that the station's music needed to better reflect the 25+ audience rival KXRX had exploited so successfully.

Sky Daniels

"I felt instinctively that the station was still a little tied to some of the modal-era attitudes," Daniels says. "The station had great 18-24 numbers, but it fell off rather dramatically 25-34. I had gone through that musical evolution myself, going from the Loop – which was the king of modal – to KFOG's Superstars II approach, to working with George Harris. So I had a pretty good idea of how to take a traditional hard rock AOR and coax it into a more palatable 25-34oriented radio station."

To accomplish that, Daniels expanded the library extensively, adding 600-700 titles. A good percentage of the depth tracks were released in the last ten years. "One of the things I chose to do was to 'contemporize' the station," Daniels explains. "We're in 1989, for all intents and purposes, but people in AOR tend to view the '80s as 'modern rock.' It's almost laughable. For a lot of 28-year-olds, '80s music is *their* music."

Specifically, Daniels beefed up catalog from Dire Straits, Talking Heads, R.E.M., and similar bands which had been receiving only limited airplay. Other additions came from traditional upper-demos faves like Steely Dan. Secondary and tertiary tracks from core artists also found their way into the KISW mix. At the same time, Daniels began dayparting some of the potentially-offensive harder rock the station had been relying on for years.

"As an MD of some consequence, I had distilled a wide list of material, having kept notes on all the different stations I worked at," Daniels says. "When it comes to putting together an AOR library, I have a pretty far-reaching background. I basically came in here, took what was by and large a straightforward, meat-andpotatoes radio station, and added some colors that didn't exist here before."

Current Percentage Upped

In addition to the library expansion, KISW began playing more new and recurrent product. That strategy is in direct contrast with that of most stations attempting to lure upper-demos, and a welcome change for an AOR long perceived as one of the nation's most conservative.

Daniels discusses music with Jones, consultant Jon Sinton, and Nationwide Group PD Guy Zapoleon. "Guy's a very astute CHR programmer who understands the value of making this an active, current station – particularly at night," says Daniels, who estimates KISW's current/recurrent-to-gold ratio at 50/50.

"Our currents had a lot to do with it (the station's success)," Daniels says. "We weren't afraid to play new music. We went after it. We're really banging currents."

"People in AOR tend to view the '80s as "modern rock." It's almost laughable."

While it was imperative that musical changes be made, Daniels says his most significant contribution was to elevate staff morale. "There was a lot of uncertainty and confusion. There was a sense of this great radio station almost willing to settle for what it got and just be glad it was surviving. When I got here I made it clear to everyone that the changes were stop-

Daniels Speaks Out

"I should have been a PD six, seven years ago," says Sky Daniels, who finally got that opportunity this year at KISW/Seattle. "It's been ridiculous that I was forced to contend with not being a PD for as long as I did. It's laughable to me."

Why did Daniels — a passionate, eminently successful major market MD and personality for many years — have to wait so long to get his chance to program? His answer, as always, is candid:

"Let's face it — I had a pretty exaggerated reputation that was perpetuated maliciously by some and unwittingly by others. And I didn't help myself at times. I created obstacles. I was a pretty wild-livin' free spirit for a while. I was **Keith Richards**, man, running the streets of Chicago having a good old time. *But I was getting the job done*, and I wasn't doing anything different than what anyone else in my peer group was doing.

"I just wasn't calculated. I've always been an open book, and I learned some of that made me vulnerable. Honesty is not always a desired commodity in this business. Talent, commitment, passion, and love for your work are all part of success, but there's also a certain amount of decorum that's necessary, and frankly. I didn't observe that for a while. A number of years ago I started to, but this 'Frankenstein' reputation persisted. It was only my closest friends who really knew me and what I stood

Becoming The Ultimate Pro

"My wife just said to me one day, "You have such a commitment to ra-

ping, the confusion was ending, and we were second to none.

"I'm honored to have been able to come in here and see people really start to feel a sense of regeneration. (Research Director) Dave Douglas started putting in 14-hour days. Likewise for (MD) Mike Jones. For him it was a revelation to have a guy who'd sit down with him, listen to every single record, and get excited about the music. That hadn't happened before. Music meetings were 'no, no, no, forget it. I don't want to hear it.""

Numbers Reflect Hard Work

The KISW staff was rewarded for its efforts. While both AORs suffered big losses in younger men (CHR KUBE posted an incredible 12-point increase in 18-24 men), KISW leaped eight shares 25-34. Meanwhile, KXRX fell over two points in that demo. Overall, KISW beat KXRX 5.7-3.7 12+.

Daniels is understandably happy over the results of his first book, but remains pragmatic. "This is a pretty big jump," he says. "Who knows – it may be a wobble. One book doesn't tell the whole story. But I do know that since I got here dio and a profound love for what you do. You've got to dig down deep and overcome these obstacles.' And so I decided that was it. I was about ready to become a father at that time. I quit drinking and said to myself. 'Now I'm going to be the ultimate professional.'

"I had a pretty exaggerated reputation that was perpetuated maliciously by some and unwittingly by others."

There was an obvious learned humility, because when you skyrocket up to the top and get kicked in the ass down into the valley, you tend to know that no man is an island. Along the way I generated a tremendous network of friends and knew there were great people out there rooting for me.

"I've been held back. I've been held in check. I've been waiting for an opportunity. Along the way I've worked at some places with some very estimable individuals, and I've been taking notes. I've been paying real close attention. I was waiting for this chance, and I'm hungry."

the energy and commitment have dramatically increased. I think that just now we're starting to hit our stride. I don't know what this next book will portend, but I do know that in two books we're going to be a force."

"I haven't felt this great about life since 1979 at the Loop."

Asked about KXRX, Daniel says, "When I first heard the 'X' they had an incredible adult, eclectic mix. They really sounded great. I would give a lot of credit to (original MD and current KKZX/-Spokane PD) Larry Snider. In addition, they have fabulous personalities. Crow & West are probably the best PM drive team I've ever heard in album radio. It truly astounds me that they haven't been wooed away to do mornings in some top five market. But I guess that's my problem."

So what happened to the "X" in

the last book? Daniels believes KISW's success had more to do with what the station did right than with what his competitor may have done wrong. "This was one of the biggest AOR outlets in the country," he says. "It had been sampled extensively in the market. It was a question of making some changes and getting these people to believe."

Daniels does cite a change in KXRX's musical policy as a possible reason for his rival's ratings drop. "They bought extensive TV in the summer, which also had me chagrined at the time, because they really saturated the market (KISW didn't do any TV). Their big message was 'no heavy metal,' but at the same time they were banging Guns N' Roses and the Scorpions. They went on the air saying they wouldn't play it, and they did. I don't know how smart that is. But I'm not here to demean that radio station. Let's just say the 'X' may have slid in its aesthetic appeal while we leaped forward in ours."

He's Only Just Begun

Regardless of the reasons for the summer turnaround, Daniels says his job has really just begun. "There's a lot of work that's got to be done yet. I've probably done 10% of what I need to do. I've really devoted a lot of attention to the music. Now it's time to attend to the production values and the marketing of the station with the same zeal. We've got a nice strategic plan, and now we've got to get tactical and just execute relentlessly.

"I haven't felt this great about life since 1979 at the Loop. All the elements are coming together. This can really be one of the best radio stations in the country. Everyone's giving me 110%, and it's a joy to behold. There are days I drive home and I'm so proud to be working with these people, I don't know what to say."

STAYING ON THE HITS

The Importance Of Recurrents

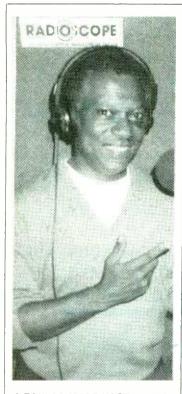

This week, WBMX/Chicago MD Daisy Davis and KTWD/Little Rock PD Lyn Henry discuss recurrents: their importance and how to use them, based on market needs and competitive situations.

Davis is a nine-year industry vet who has been in her present position for the past year-and-a-half. WBMX faces competition not only from Urban WGCI-AM & FM, but also from the city's many other quality stations.

Proven Hits The Public Still Wants

Asked for her definition of a WBMX recurrent, she said, "A recurrent is a record that may have dropped off the national charts but is still important in our market to our listeners. These records make up the most important category of music on the station, because they are proven hits that the public still wants to hear. Because some of these records are falling off the national charts doesn't mean they're over in a particular market, or that a station should stop reporting them and automatically end their airplay. The public is just getting used to them.

She went on to point out that CHR stations are just starting to play certain records when most Urban stations are getting rid of them. "Our industry refers to them

as 'crossover records' because the mass appeal audience is just beginning to hear them. That should mean our audience is just beginning to enjoy hearing these same songs, but sometimes UC programmers program too much to themselves instead of to their listening audiences. In our case, any songs that make it into our 'A' category, which is our power rotation, become recurrents.

"These records make up the most important category of music on the station, because they are proven hits that the public still wants to hear."

on to it if it's good. The life of a record should be longer -12 weeks or more for new product that becomes a hit."

Davis added that labels have to take some of the blame for the short lifespans of records. "They sometimes release another single while the first single is just starting to happen," she commented. "We keep our music on the cutting edge by airing new product, but we also hold onto the hit product by continuing to play it. It may be called a recurrent, but we're rotating it in a fast enough rotation to keep the public happy."

"Currently, any songs that make it into our 'A' category, which is our power rotation, become recurrents." —Daisy Davis, WBMX/Chicago

On the subject of research, Davis advised smaller stations without the funds for professional firms to use local college students for callouts as interns. "All you have to do is have them call the households and rate the records. Then you've got something to look at that can help you make better local decisions about the music you're thinking about adding," she explained.

Competitive Weapons Against CHR

Henry has been in the industry 11 years and in his current post since February. He previously programmed KOKY/Little Rock and was MD at XEAZ (now XHRM)/San Diego. He defined a recurrent as "an established hit record in our market and also on a national level.

"If you notice, yesterday's musical news to us is today's news to CHR. Holding onto the songs we've made into hits gives us the ability to compete with CHR stations when they move in our direction and play black music. Simply put,

www.americanradiohistory.com

programmers have to do is consider what's being requested, what's selling in local record stores, what's on the national charts to some degree, what's popular in local clubs, and their professional feel for their station and market. That's it. Then they'll know the correct music to play.

"Yesterday's musical news to us is today's news to CHR."

> ---Lyn Henry, KTWD/Little Rock

"If PDs and MDs would report properly the music that's really happening in their markets, the charts wouldn't turn over so quickly," he added. "We have to get more than six to seven weeks' use out of a piece of hit product. Some of what we call recurrents are really still current pieces of music that are just becoming popular with the public. Good Programming 101 says familiar music is the key to success, and we try to remember that at all times when programming our music."

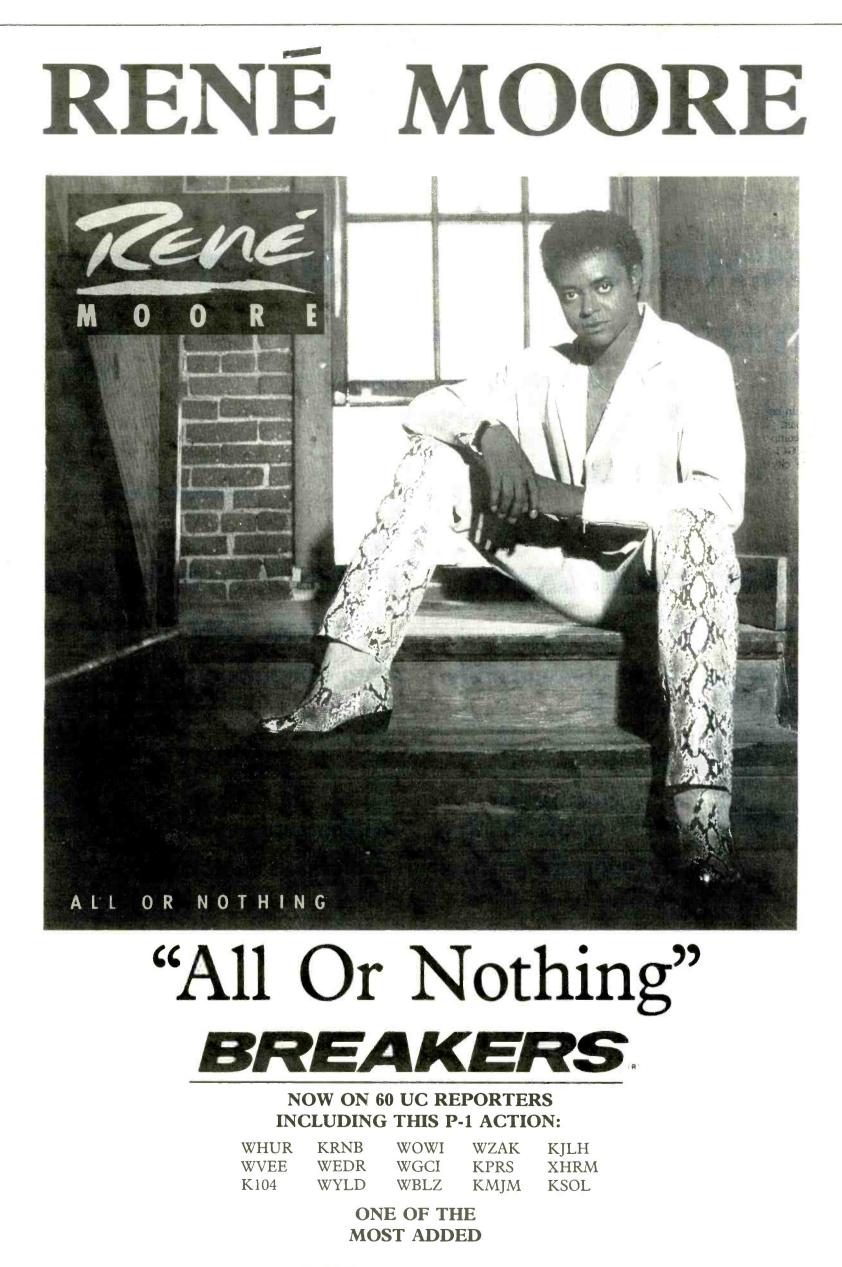

Offering a sample of how he positions his recurrents, Henry said, "We do our best to hold onto our audience with the best music we have in the first quarter-hour. The hour starts with a heavy, then a hot recurrent. We have two categories of recurrents in our music mix. Then we move to a medium current and an oldie. It's to our advantage to load up on the most familiar music possible."

HOLDIN' ON TO THE COACH — Evelyn King (r) flirted through Boston and stopped at WILD/Boston, where she was joined by (I-r) WILD PD Elroy Smith, Manhattan Records' Gleniece Coleman, and WILD's Willie "Coach" Mave.

Conflicts between sales and programming are a given in our business. For insights on the sales/programming situation, we talked to a major market GM and two sales managers. Based on their comments, things may be getting better.

Hire The Right People "The atmosphere between sales and programming is probably the best I've seen in my 34 years in this business," said Paul LeSage, VP/ GM at Full-Service kingpin WTMJ/Milwaukee. "When programming and sales work hand in hand, there can be some mutual benefits. If both departments are willing to empathize and step over to the other guy's side of the fence once in a while, they can work con-

structively with each other. "We have to run promotions that are good for the station and benefit sales. When both of those criteria are satisfied, you have a winner. If only one is satisfied, we don't do it."

Facts And Figures

Full-Service WTMJ/Milwaukee continued to dominate the market 12+ with another solid double-digit (13.2) performance. Although not showing the brute strength of previous sweeps, WTMJ packed lots of night wallop, aided by the surging Milwaukee Brewers. WTMJ's night stats are more than double number two challenger UC WLUM-FM.

A mere 0.5 stood in the way of a 12+ title for Gold-Based WJBR/-Wilmington, DE - CHR WSTW nosed out 'JBR 10.5-10.0. WJBR improved on every daypart except middays.

The third successive up book for WLHT/Grand Rapids vaulted the Current-Based station to the number two slot overall. Especially impressive was its number one midday 25-54 showing.

Here's how the three outlets performed against all competition in their respective markets. Twenty-nine stations appear in the Milwaukee book (market #26); 30 in Wilmington (market #77); and 26 in Grand Banide

Fun, Upbeat, Entertaining WLHT/Grand Rapids develops promotions during a weekly promotions meeting involving PD Steve Dirksen and GSMFred Barr. In the course of a week, it's not unusual for each of WLHT's six salespeople to bring in one or two po-

Paul LeSage

tential sales promotions for consideration. When ideas from WLHT's other sources of promotion requests are added in, the station ends up evaluating approximately 25 promotions weekly. "In any one month, we run a major promotion and could have as many as four as five secondary promotions," Barr said.

Examples of some "major" WLHT promotions this year include house and car giveaways and a trip to Europe. Secondary promotions which helped reinforce the station's dial position (95.7) have included 95-cent gas fillups, 95cent oil changes, and 95-cent steak dinners. According to Barr, "If you're going to develop promotions, you have to understand what your audience mix is all about and give away things that you hope will be attractive to them. Promotions need to be fun, upbeat, and entertaining. We're not servicing teens or those on the other side of 50.

"Promotions also need to benefit programming. In some cases, sales promotions are worked so they create forced listening or increase TSL. We've had great cooperation from programming. In many cases, they've altered sales promotions and made them even more sales-effective."

Barr warned that a station must be careful that the supplier of a

large prize - such as a house doesn't sound like it "owns" the station. "That's a programming function and sales doesn't have much input," he claimed. "Steve (Dirksen) does an excellent job of monitoring how many units a promotion gets before the audience is burned."

• R&R October 28, 1988

Barr, who has spent two years at WLHT and was at crosstown Country WCUZ for eight years, has yet to be exposed to conflict between sales and programming. "I've heard horror stories about the ongoing battles, but they haven't existed at the stations I've been associated with. There's always been a maximum amount of cooperation.'

Bright Ideas

"Bright Night," a successful two-year sales promotion on WJBR/Wilmington, is a simple but effective way of utilizing radio station personnel at an area nightspot.

"We use a paying customer to promote our 'Bright Night' and their establishment," noted WJBR Sales Manager Chuck Ward. "On a Tuesday night, you can go through this club and hear a pin drop. We're there on a Wednesday and it's so crowded you can't move. One of our guys is there playing records, our banner is up, and we promote it on the air.'

"You have to understand what your audience mix is all about."

-Fred Barr WLHT/Grand Rapids

The lack of friction between sales and programming at WJBR e amicable relationshir between Ward and OM Doug Welldon. According to Ward, "He has his job to do and I have mine. We discuss things before they become problems. Our relationship has been good for the bottom line of the radio station. When you have an atmosphere like that, it's contagious throughout the building and bodes well for business. I firmly believe programming and sales go hand in hand."

. . .

Programmer Doing Double Duty

While the "combo" person (on-air and sales) is common in small towns, it's more difficult locating one in Top 100 markets. One programmer who also occasionally pounds the pavement is WJBR/Wilmington OM Doug Welldon.

"I've always had good relationships with sales managers and sales staffs, and have that here." he said. "If the Sales Manager and PD have a common understanding of sales and promotions and also respect each other, you work a lot better

"I'm more of a sales-oriented programmer and have always been that way. I've found that too many promotions sound like clutter and can be counterproductive. The first thing I want to know is what good will come of doing a certain promotion. If we can't see a benefit other than the sales impact, the idea is filtered out.'

A hot item these days is cellular phones, and Bell Atlantic asked WJBR to give away one phone each month over the next three months. "We want to be on in businesses, and we can see a benefit in our office listening with such a promotion," Welldon sald. "This promotion is perfect for us.'

If WJBR can't work a promotion exactly the way the client wants, alternative suggestions are made. "We want advertisers to use WJBR's strengths - one of which is our clutter-free environment," Welldon said.

An example of a promotion WJBR adjusted involved a department store chain. Instead of doing a

Doug Welldon

remote from the store as the advertiser wanted, WJBR dispatched a personality to make an in-store appearance. The station aired liners promoting that the announcer was at the store giving away prizes. With no phone-ins from the location, the station was able to run a promotion without on-air clutter.

WJBR has eliminated the in-store registration promotion approach. According to Welldon, "You have to focus on how you want to use your time. Sales people see more income because their income is determined on the number of commercials they sell - not by the promotional activity they can do for a few clients. If you spend ten hours working on a \$1000 promotion, that's probably not as good as spending ten hours to get \$10,000 worth of advertising."

by its own goals and needs that it refuses to consider the other department. Everyone views the station's success differently. We don't have that here." LeSage said not every WTMJ

programming becomes so driven

promotion opportunity gets implemented, but that in such cases programming will try to come up with an alternate that satisfies the advertiser's goal. "In the case of a nationwide promotion like Clairol's 'send us a picture of your favorite blonde,' odds are we'd reject it because the promotion isn't flexible," he said.

"Our relationship has been good for the bottom line of the radio station. I firmly believe programming and sales go hand in hand."

-Chuck Ward WJBR/Wilmington

WTMJ's current major promotion is an eight-week direct mail piece called the "Name Game." At 7:20am, a name is read from the entry blanks received by the station. If the person whose name was called responds in the specified time, he wins \$1000. The station has had a winner every day so far

According to LeSage, "There are two things we all try to strive for in life: to be number one, and to stay number one. The first is harder. but if you hire the right people you can do anything. The better the people, the better the station."

PEOPLE & PROMOTIONS UPDATE What's Going On?

Since the last few weeks have been devoted to specials and such, it's time to catch up on the people and promotions that make this whole format work.

Promotion Go-Round

• WSM-FM/Nashville has tied in with a number of Music City bowling alleys, conducting a six-week tournament. The total bounty being offered: \$95,000. Each bowling establishment will place flyers on the lanes during the tournament's sixweek span, as well as post a huge banner touting the event.

• KSON/San Diego took 30 winners on its "party bus" to the horse races at Del Mar. A drawing was held at the racing site, with the lucky winner taking home a quarterhorse.

• Twenty qualifiers out of 400 entries in a recent WYYD/Roanoke contest competed to see how long they could keep their hand on a Ford Festiva. An added twist: con-

"100 Days Of Prizes" promotion, which is timed to end on Christmas. Many of the giveaways come under the "goofy gifts" category; i.e., 100 hot dogs - with a new barbecue grill thrown in. • KRST & KRZY/Albuquerque

PD/moming man Larry Neal, weekender Maggie Dee, Daniels, overnighter Linda Jo, MD/middayer Judy Austin, and

Vegas, KRAZ/Farmington, and KTMN/Tucumcari.

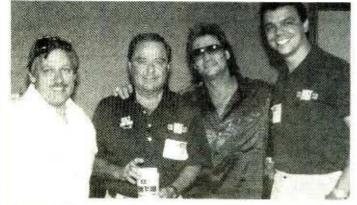

• WOKQ/Dover, NH is one of many stations offering cellular car phone owners a chance to be part of its news department. Through a deal with the local phone company, motorists encountering traffic problems can reach WOKQ (97.5 FM) by dialing *975. The service is free to the caller.

HAVIN' A BALL - WCAW/Charleston, WV morning men Randy Damron (c) and Paul Howard (r) climbed a rather unique station billboard to promote the fact that West Virginia University football can be heard on their station.

WOOF - This picture arrived in a plain brown wrapper, without a return address or explanation. All we know for sure is the person in bed with "man's best friend" is KSON/San Diego Asst. PD/MD Mike Brady.

KILT FOR MD - The Nitty Gritty Dirt Band, John Conlee, and Roy Head ng the entertainers on hand to help KILT-FM/Houston raise more than \$13,000 for the muscular dystrophy telethon. Shown backstage (I-r) are Conlee, KILT GM Dickie Rosenfeld, Head, and KILT morning man Mac Hudson.

1952 DEMO FOUND

Hank Jr. Duets With Hank Sr.

Thanks to today's innovative technology, 1988 CMA Entertainer of the Year Hank Williams Jr. is doing something he never had a chance to do before - sing with his dad.

Williams Sr. cut a demo – "A Tear In My Beer" b/w "All The Love I Ever Had" – for Big Bill Lister in 1952. The singer gave Lister the only copy, which featured Williams's vocals and guitar. Lister, formerly an opening act for Williams, had wanted to cut "Tear" as a single on Capitol. While moving recently, Lister (now a gunsmith who works on Hank Jr.'s guns) found the old 78 and gave it to Hank Jr.

Last month Hank Jr., Jim Ed Norman, and Barry Beckett got together to produce the song at Emerald Sound Studio. The acetate disc's hisses and pops had been removed via a special digital process before the new tracks were added. Then Hank Sr.'s vocals and his guitar were blended with additional instruments and Hank Jr.'s voice in a style compatible with the late Williams's. The song is uptempo and has a comical slant.

The duet is tentatively set for February '89, appearing on Hank Jr.'s "Greatest Hits, Vol. 3." "Hank Jr. has a great deal of respect for his father's music," said Norman. "And this was an opportunity for him to share that with him."

An interesting sidelight of this project: the inevitable legal questions raised concerning who owns the rights to Hank Sr.'s recordings. Although all of his publishing is owned by Acuff/Rose, Williams Sr. was under contract to MGM when he died. MGM was later bought by PolyGram. Attorneys are presently researching the legal ramifications. Four Injured In Collision

• Marty Haggard and three band members were injured in a headon collision recently when a driver crossed into their lane as they traveled to Missouri for a show. Haggard incurred back, neck and hip injuries, and a bruised brain; Roger McVay, who came away with a ruptured hernia, may require knee surgery; Eugene Moles sustained whiplash; and Alex Torres suffered several broken ribs. The band's vehicle was totalled.

• Sawyer Brown is currently in Xiamen, China to perform two concerts: one for local dignitaries, and another for the people of the province. RJ Reynolds and Nabisco sponsored the tour. The Capitol act is the first country group to perform in China.

Nashville Notes

• The National Entertainment Journalists Association will hold its sixth annual seminar in Nashville (11/5). Chris Dodd from Writer's Digest will speak.

## Ana Ng Might Be Giant On CMJ Chart

2 and SIOUXSIE held steady 1-2 on the CMJ list for this fortnight, but East Coast indie popsters THEY MIGHT BE GIANTS propelled "Ana Ng" 15-3. Fellow East Coasters the FEELIES continued their steady rise to just outside the Top 5.

MINISTRY may be the next "new music" veterans to break through, with the highest debut going to the Chicago neo-funkers' Sire bow. EDIE BRICKELL moved positively, as did Siouxsie's "Jar." Ireland's IN TUA NUA surged back to #15, a bit ahead of KEITH RICHARDS. One FISHBONE passed the next, and LLOYD COLE bagged the #20 slot. #13, and **DEACON BLUE** climbed 25-15. **YAZZ & THE PLASTIC POPULATION**'s follow-up to its five-week chart-topping "The Only Way Is Up" cracked the list at #17, while **RICHIE RICH** set up house at #19.

ROBERT PALMER headed a list of Moving Up tunes that included TANITA TIKARAM, JOLLY ROG-ER, SABRINA, KRAZE, and LUTHER VANDROSS.

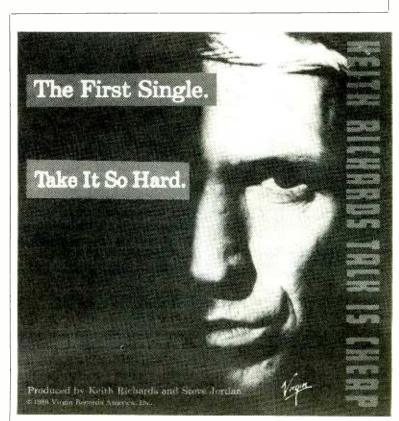

On the Australian chart, INXS held off a strong challenge from JOHN FARNHAM'S "Two Hearts" and DARYL BRAITHWAITE'S "Days" to remain #1. CROWDED HOUSE and the BLACK SOR-ROWS held steady, as the GO-BETWEENS improved a notch to #7. A second track from national hero Farnham and a new tune from his old band — the LITTLE RIVER BAND — logged charting debuts. Chasing its recent #1 success, 1927 picked up Most Added honors with a new tune.

The upper half of the Canadian listing remained unchanged, as COLIN JAMES moved into his second month atop the chart. TOM COCHRANE & RED RIDER inched up to #6, and ONE TO ONE moved to #7. BIG BANG climbed to #9, while a new one from BARNEY BENTALL & THE LEGENDARY HEARTS debuted at #10. ROMAN GREY and DOUG & THE SLUGS collected top adds.

Moving up were Georgia band DREAMS SO REAL, the COCTEAUS' "Knoll" for the second week, and SUGARCUBES. Debuting in the upward movers were the former UK hit from OFRA HAZA, ex-Husker Du man GRANT HART, L.A.'S BALANCING ACT, and a new track from BILLY BRAGG, with HUXTON CREEPERS once again registering significant upward movement.

Britons passed the Acid test this week, placing **D. MOB** at #1. **ENYA**'s Celtic song flowed into second place, the **CHRISTIANS** reaped fourth place rewards, and **KYLIE MINOGUE**'S Frenchflavored counterpart to her Back Page Top Five hit "Loco-Motion" jumped 19-5.

An apprehensive KIM WILDE moved to #8 and MILLI VANILLI leaped to #10 (climbing up from #28 on the complete British list). ROYAL HOUSE (with mixmaster Todd Terry producing) debuted at

## **PROGRAMMING NOTES**

• GET PLANTED: MTV honors former Led Zeppelin frontman Robert Plant with a daylong tribute "Return Of The Tall Cool One" (Sunday, 10/30, 6am-8pm ET). The network will serve up hourly interviews, concert and rehearsal footage, and backstage reports from Plant's current US tour.

• TIME TRAVELERS: Drift back in time to gas lines, leisure suits, Watergate, and Kent State on VH-1's "70's Weekend" (Friday, 10/28, 8:30pm-Sunday, 10/30, 10pm). The video channel reviews the decade through its "Milestones" clips and a recurring half-hour special.

• **GIMME THE CURE:** British quintet the **Cure** has been captured live for a performance on MTV's "120 Minutes" (Sunday, 10/30, 1pm ET). The premiere presentation was taped in Provence, France and features 23 of the band's songs.

• TALK TALK: MTV goes to the phones this Monday (10/31) to debut its new viewer-participation talk show. The hourlong program airs Monday through Thursday (8-9pm ET) and features a live studio audience, celebrity guests, and MTV viewers. Comedian Steve Skrovan will host.

| PLAYLISTS - An artist's name is       |
|---------------------------------------|
| listed once per playlist in the high- |
| est rotation that any of an album's   |
| tracks are reported. For example,     |
| if tracks from the same album are     |
| reported in both heavy and medi-      |
| um, the artist will appear in heavy.  |
| Records being played in power are     |
| included in a station's heavy rota-   |
| tion.                                 |
| For all stations, light rotation is   |

condensed to include only those records added to the rotation this week. For P-2 and P-3 stations, medium rotation is condensed in the same manner. Symbols:

'A' - Record is newly reported or additional tracks have been added

(M); (L) — Other tracks from that album are in those rotations (medium or light).

An artist's name with no abbreviations means all airplay is in the listed rotation

A "frozen" list indicates that a current report was not received. and last week's rotations are included in the data base.

PARALLELS - Stations arranged by market size, according to Arbitron's MSA population figures.

Parallel One: 1.000.000 +. Parallel Two: 200.000 -

1,000,000.

Parallel Three: under 200,000. Stations at a significant ratings disadvantage to their in-format competitor(s) are assigned a lower parallel.
