## Top 40 Starting Its Own Hits, But Modern Crossovers Still Strong

by Sean Ross

Last fall, when mainstream top 40 PDs were first questioning the preponderance of teen-oriented acts, modern rock was there to fill the gap, becoming the biggest exporter of top 40 hits for the first time in several years. But during the spring book, although modern crossovers maintained a considerable presence at mainstream top 40, it was again homegrown material that predominated at the format.

With its own music reclaiming prominence, most other formats contributed less product to mainstream top 40, although, interestingly, modern adult, usually thought of as a transition format, not a starter format, became a bigger exporter than usual.

Airplay Monitor analyzed where each of the mainstream top 40 hits from our June 4 issue had first charted. After three years of analyzing the chart, we've noticed that mainstream top 40 PDs tend to start more of their own hits in the spring than in the fall, possibly because of the annual fourth-quarter glut of multi-format superstar product. And that was true again this year.

Mainstream top 40 was either first, or tied for first, on 13 of its 40

charted records. It was first outright on 10. In doing so, it rebounded from the fall, when it was first on 11 songs but only six of them exclusively. And it reclaimed the lead from modern rock, which, last fall, was first on 12 titles, nine of them outright. In the spring, modern rock was first on nine songs, although all of them started outright on the modern rock chart.

Rhythmic top 40 was the third-most-influential format. It was first on eight titles, five exclusively. That's off just a tick from fall, when it was first on nine titles, five outright. Next was modern AC—first on six titles, four exclusively: an improvement from fall, when it was first on six titles but only one exclusively. Mainstream R&B was first on four titles, three outright, compared with spring, when it was first on five and exclusively first on four. Country, album rock, and AC each started one song. Triple-A and adult R&B started none.

### MAINSTREAM TOP 40 REASSERTS ITSELF

Even last fall, mainstream PDs were still starting more than a quarter of their own music. They just weren't starting the largest

## Clear Channel Buys Into XM Radio

Clear Channel is among the companies making a \$250 million investment in XM Satellite Radio, the company announced June 8. The others include DirecTV, Hughes Electronics, and General Motors. As part of the deal, Clear Channel will invest \$75 million in XM, as well as develop programming. Clear Channel CEO Lowry Mays says XM Radio will complement the company's other media and attract advertisers to a new, nationally distributed medium. XM has also completed a long-term distribution agreement with General Motors,

under which GM will exclusively install and market AM/FM/XM-compatible radios in all GM cars and trucks. Parent company American Mobile Satellite saw its stock price jump 15% after the news broke.

CD Radio president David Marsolese calls the deal "validation" for satellite radio and says he is in discussion with Ford, among others. The FCC requires that satellite radios be able to receive both XM Radio and CD Radio. CD Radio's stock price fell \$2.50 to \$19.25 after the announcement.

## KROQ Nominated For Three Marconis

The nominees for the 1999 National Assn. of Broadcasters Marconi Radio Awards have been announced. Modern KROQ Los Angeles is up for legendary station of the year and rock station of the year, while morning team **Kevin and Bean** are nominated for major-market personality of the year.

Radio Award hosts **Bob and Tom** are up for network/syndicated personality of the year, while their flagship station, album WFBQ Indianapolis is vying for medium-market station of the year. Album WAOR South Bend, Ind., jock **Woody** is up for small-market personality of the year.

Other nominees for rock station of the year are KROQ, KQRS Minneapolis, KZPS Dallas, WAAF Boston, and WEBN Cincinnati. The awards will be announced in early September at the NAB fall radio show in Orlando, Fla.

### BI-COASTAL MANAGEMENT

Classic rock KGON/modern rock KNRK Portland, Ore., GM Tom Baker adds GM duties at N/I WRKO and sports WEEI Boston, replacing **Brad Murray**, who exits.

OnRadio consultant **Phil Hall**, the former PD of KHJ/KRTII Los Angeles, joins ABC Radio Networks as VP/programming, replacing **Robert Hall**, who exits.

Sinclair Broadcast Group has announced it is considering spinning its radio group into its own publicly trading subsidiary or selling the radio group outright. Sinclair owns 58 TV and 51 radio stations.

### PROGRAMMING: GET ACTIVE

Classic rock KIOT Albuquerque, N.M., morning host **Jim Walton** joins active rock rival KRQS (K-Rock) as PD/afternoons. **Paul Lavoie**, PD/middays of oldies sister KZKL, takes mornings on KIOT.

Album KOMP Las Vegas PD/middays **Mike Culotta** resigns the PD post but retains his air shift. Night jock **John Griffen** nabs PD stripes.

### FORMATS: HURON THE AIR

Port Huron, Mich., operator Blackburn is preparing to sign off country AM CKTY (licensed to Sarnia, Ontario, across Lake Huron) to launch new album rock CHKS (K106.3) under group PD **Ron Dan**. Mornings go to **Dave Burgess** from afternoons at modern CFPL London, Ontario, and **Sarah Woodley**. **Drew Carter** leaves afternoons at oldies sister CHOK for middays on K106.3. Radio vet **George Hayes** returns to the medium for afternoons, and **Ron Taylor** picks up nights from the same at crosstown AC CFGX.

Classic rock KYZK Pueblo, Colo., refocuses on Colorado Springs, Colo., and shifts from 104.5 to 103.9. PD/mornings **Chopper Harrison** remained on-air for about 94 hours last weekend in a fund-raising effort for the American Cancer So-

ciet. Harrison, who joins from afternoons at album WRQC Minneapolis, is a cancer survivor. KYZK has also announced the rest of its air staff, as it flips from satellite programming. Album WWCT Peoria, Ill., middays/productions **Jason Janc** joins for middays; album KEGL (the Eagle) Dallas P/T **Jim Coda** takes afternoons; former sister active KILO jock **Jimmie Paladino** takes nights; and KFMW Waterloo, Iowa, p.m. driver **Chris Sloan** joins for overnights. Also, KILO PD **Rich Hawk** is now OM of KILO and KYZK.

WXQZ Watertown, N.Y., drops its simulcast of country WNCQ and flips to ABC classic rock. Adult standards rival WMSA afternoon jock **Paul Durham** joins as PD/morning man. ABC's classic rock format fills out the rest of the day.

Classic rock WGTK Middlebury, Vt., becomes AC WWFY (Y100). The classic rock format resurfaces at sister sign-on WWRO (the Arrow). P/I/morning host **Bob Catan** exits; his duties are assumed by GM **Anthony Neri**. Also, country WLFE Burlington, Vt., afternoon host **George Paul** joins WWRO for afternoons/production, replacing **Bill Nash**, who shifts to mornings.

### PEOPLE: WILLIE B. TIRED?

Album KBPI Denver MD/night jock **Willie B.** has undertaken a marathon air shift to break the world record for longest on-air continuous broadcast, as determined by the Guinness Book of Records. The rules allow for a five-minute break for every hour on the air, which Willie can accrue to accumulate sleep time. Otherwise, he has to front- and back-sell every song played. He's currently ensconced in an RV that will be parked in a different location each day. The rest of the staff is still in place, with Willie checking in for each song before handing the mike back to that day-part's host. The record-breaking moment will be 2 p.m. MDT June 23.

Stand-up comic and Atlanta radio veteran **Pete Michael** joins album WKLS (96 Rock) Atlanta morning show "The Regular Guys" for sports. Top 40 WPRO-FM Providence, R.I., morning producer **Beth Hale** joins WKLS for the same.

Adult top 40 WTMX Chicago's former night jock **Brooke Hunter** returns to modern rival WKQX (Q101) for P/I work and as host of "Alternative Beat," the station's weekly dance program. Also, **Mancow** producer **J. Love** is now doing P/I air work for the station.

The Chicago Sun-Times reports that triple-A WXRT morning host **Lin Brehmer** has signed up for another three years.

Modern KTEG Albuquerque, N.M., nights/production director **Scott Papek** is upped to MD/afternoons, replacing **Julie Forman**, who joins modern WZPC Nashville for afternoons. KTEG P/I **Dougie** lands nights.

**Michelle Brubaker** from Harrisburg, Pa.'s Fox-TV affiliate, is the new promotion director at crosstown album outlet WTPA.

At R&B WENZ Cleveland, **Number One Son** returns to the station where he worked as a modern rock MD/night jock to produce the morning show and an air shift to be determined.

Pittsburgh radio veteran **Jay Silver**, previously at classic rock WZPT, jumps to recent R&B oldies convert WJJJ for afternoons.

Classic rock WSKZ (KZ106) Chattanooga, Tenn., middayer **Wendy Vaughn** leaves the air for production. Afternoon co-host **Kelly McCoy** takes middays, with PD **Scott Chase** handling afternoons solo.

## More Bullets, But A Slow Chart This Week

With the post-holiday return to regular programming this week, many records are benefiting from increased spins and regaining their bullet. On the modern audience chart, all but seven charted titles show a boost in listeners, while the airplay chart sees 28 bullets. But despite the upswing in plays, several records were jumped by bigger gainers or pushed back, accounting for eight backward bullets and the **Chemical Brothers** being bumped off the chart. The mainstream audience chart and heritage chart produced 31 and 28 bullets, respectively, this week. In the case of the mainstream audience chart, since it was introduced in February and has only 18 weeks of history, many titles that would ordinarily not be eligible for bullets due to Monitor's policy of not bulleting tracks past the 20-week mark do receive bullets this week.

We've mentioned previously that the triple-A audience chart—unlike audience charts in the other formats—trends a little faster than its companion airplay chart. This seems to be because there are more large-market stations in proportion to the panel as a whole, due to its small panel size. Another example manifests itself this week, as **Santana Featuring Rob Thomas** vaults 19-6 with "Smooth" (Arista) despite not yet cracking the airplay chart. The track is getting top 15 airplay on eight of the nine stations playing it, including No. 1 at KFOG in the guitar legend's hometown of San Francisco.

**BIDS ON THE MOVE:** On June 21, Broadcast Data Systems moves from New York to new headquarters in White Plains, N.Y. The new phone number will be 914-684-5600. The new address: Gateway Building, 14th floor, 1 No. Lexington Ave., White Plains, N.Y. 10601.

**LABEL MONITOR:** Effective immediately, **Gary Spivac** exits his position as Atlantic Records VP of alternative promotion to become Capitol Records VP of alternative/rock promotion. Spivac will relocate to L.A. at the end of the year. With his departure, **Kris Metzdorf** and **Bonnie Slifkin** are each named senior director of alternative/triple-A promotion, while **Lee Ann Callahan** becomes associate director of alternative/triple-A. They were, respectively, senior director of alternative promotion, senior director of triple-A promotion, and Boston local promotion. Callahan will relocate from Boston to New York.

**Steve Tipp** is exiting Reprise as senior VP of promotion and will pursue new opportunities. Former Capitol senior VP of promotion **Phil Costello** is named senior VP of promotion at Reprise. Tipp will stay on board to assist the transition. He had a 13-year tenure with the Warner Bros. family, with a stop at Columbia Records in between.

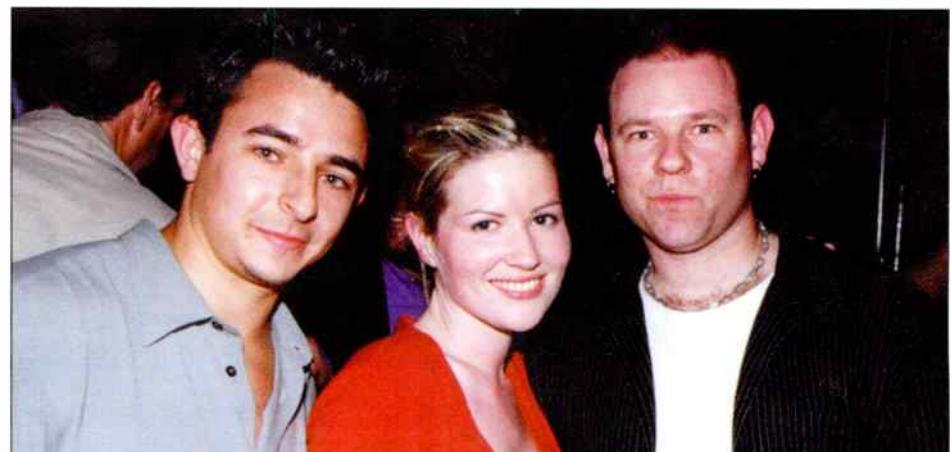

Mike DePippa is appointed associate director of alternative/college promotion for Elektra. Previously, he was manager of college promotion.

Former Capitol senior VP/GM **Lou Mann** exits to become president of House of Blues Media Properties, starting July 1.

Beginning with this week's charts, all Island and Mercury Records titles will now have IDJMG (short for Island Def Jam Music Group) listed as their promotion label.

**STATIONS:** KPOI Honolulu is re-added to the mainstream and active panels after a temporary absence due to technical difficulties.

## There With Her

Arista recording artist **Dido**, center, was in New York for a showcase introducing her new album and the single "Here With Me." Shown with her at Shine are Arista's **Pete Rosenblum**, left, and modern WXRK New York MD **Mike Peer**.

Triple-A KHUM Eureka, Calif., promotion director **Mike Dronkers** is upped to MD/middays, replacing **Pam Long**, who joins the Internet radio company Greenwich.com.

Former classic rock KZFX (the Fox) Omaha, Neb., APD/MD/afternoon host **Dave Swan** joins crosstown modern adult outlet KSRZ as MD/middays, replacing **Erik Johnson**, now PD at sister rhythmic top 40 KESY (Channel 97.7).

Album WBYR (the Bear) Fort Wayne, Ind., night host **Woody** exits for a career in television. Modern WDST Poughkeepsie, N.Y., P/I **Vince McNalley** joins R&B oldies rival WBPM for middays.

To clarify an item in last week's Rock Airplay Monitor, WLUM Milwaukee p.m. driver **Chuck**

Summers remains in that position. **Terry Havel** is instead working from noon-3 p.m.

### NEW FRONTIERS: HE'S (R)ON-LINE

Ron Dresner, former OM/PD of album WCCC Hartford, Conn., has become VP of marketing and programming for Internet music marketing company Listen-online.com. Plans for the E-commerce site include an online radio station.

As predicted here April 2, Launch Media has changed SW Networks' name to Launch Radio Networks, following its purchase of SW. It will also begin providing subscribing stations content from Launch.com. SW's senior director of affiliate marketing **Ron Rivlin** is named VP of affiliate marketing for Launch Radio.

## From The 'HFStivities

Backstage at the 10th annual HFStival, modern WHFS Washington, D.C., jock Johnny Rigg, left, glad-hands Mighty Mighty Bosstones front man Dicky Barrett.

## Station Concerts, July 4 Set Off Promo Fireworks

Station concerts once again ruled the Topical Barometer, with Independence Day coming on strong in second place. While many stations are naturally tying in with fireworks and picnics, country WPOC Baltimore is saluting Mary Chapin Carpenter's new album, "Party Doll & Other Favorites," with a Party Doll on Wheels Fourth of July. New air talent Bob Delmark will pick up one lucky party girl and five of her friends in a limo for a ride to dinner; Carpenter's concert, and a VIP area to watch fireworks. Sheila Silverstein got a bang out of it.

Thinking of the holiday-trip angle is top 40 WPXY Rochester, N.Y., which will take over two stations for a huge pre-Independence Day gas giveaway. Thanks to Tristano Korlou for the idea.

Novel twists in modern rock KEDJ (the Edge) Phoenix's "Austin Powers II" promo are free tickets and replicas of Austin's gnarly teeth. Jane Monzures embraces that idea.

For Father's Day, rhythmic top 40 KLUC Las Vegas believes that Father Mows Best, as listeners receive a prize package and qualify to win a lawn mower, tools, etc. Vanessa Thill again shows why she's on the cutting edge.

NBA and NHL fever have hit playoff-contending markets. Top 40 KKRZ (Z100) Portland, Ore., held a Dribble-Off. Each contestant had to dribble two balls at once; the last one dribbling won playoff tickets. "All the TV stations and the local paper came down," says Wendi Foster of the full-court press.

Top 40 WKSE Buffalo, N.Y., is on the Buffalo Sabre bandwagon, as the morning show is setting up its own chocolate factory. Those who find "golden tickets" in the bars win tickets to the NHL Stanley Cup finals. "The donations will benefit Sabre captain Michael Peca's charity of choice, the Juvenile Diabetes Assn.," says Stephanie "Skates" Ringer round the competition.

### PROMO TOPIC OF THE WEEK: THE EFFECTS OF CONSOLIDATION

The station-group buying frenzy has died down a bit since its 1997-98 heyday, as evidenced by the fact that 55% of the Promoganda panel's stations haven't changed hands, formats, or become part of a larger market cluster over the past year. Even so, almost 28% of the promo directors now oversee more stations, and more than 17% have new bosses this year.

For those who have a new owner or GM,

## Report: Radio Industry 'Transformed'

The radio industry is facing additional fractionalization, while the impact of ownership concentration is becoming clearer, according to the fourth annual State of the Radio Industry study, prepared by financial firm BIA.

At the end of 1998, the number of owners had dropped from 5,222 controlling 10,246 stations to 4,241 controlling 10,636 stations. There was also a lot more money to be had. BIA estimates radio revenue grew 12.6% last year, to \$13.8 billion. It says almost 30% of the industry's revenues came from the top 10 markets. And it estimates that 54% of the estimated \$13.8 billion of 1998 ad revenue went to the 25 largest radio owners. The top three billers—Chancellor/Capstar, CBS/Infinity, and Clear Channel/Jacor—accounted for almost 35% of total industry revenues. Cost-cutting and consolidation efficiencies also account for 35% to 45% increases in cash flow for the public companies studied.

While the pace of consolidation has slowed considerably, BIA CEO/president Tom Buono predicts radio revenue will grow 8.7% this year, 9.3% in 2000, 8.0% in 2001, and 8.7% in 2002.

### CAPITAL

Clear Channel is among the bidders for Seagram's concert division, Universal Concerts. The New York Post reports the price has apparently climbed to about \$175 million.

Emmis Communications is paying \$191.5 million for WB affiliate WKCF-TV Orlando, Fla. The last radio station Emmis bought was WQCD New York, and despite the fact it's been more than two years since it has purchased a U.S. radio station, CEO Jeff Smulyan says radio remains its core business. "When we see value in radio, we won't hesitate to acquire aggressively." In an age when size matters, seller Press Communications, owner of three New Jersey radio stations, couldn't compete on the TV side and plans to focus on radio acquisitions.

CBS CEO Mel Karmazin and entrepreneur Donald Trump have something in common: One Central Park West. Karmazin recently laid out \$11.4 million for Trump's 5,500-square-foot penthouse, according to The New York Observer. The 48th-floor penthouse includes a living room, dining room, library, a master bedroom suite, and four additional bedrooms. The paper says a four-way bidding war drove the price north of \$2,200 per square foot.

**CAPITOL**  
Sen. John McCain, R-Ariz., and Sen. Joe Lieberman, D-Conn., are introducing legislation to create uniform labeling requirements for music, videos, movies, and video games. The 21st Century Media Responsibility Act would require record companies and other producers to rate a product's violent nature by context and intensity. It also requires that recommended ages be included on the packaging. Retailers would be responsible for enforcing the age restrictions or face a fine of up to \$10,000. One year after the act is signed into law, it would ban the domestic sale and distribution of import CDs and other media not carrying the violence labels. The bill gives the affected industries a six-month antitrust waiver to work together in developing a standardized labeling system.

While the FCC is still evaluating several proposals submitted to it from USA Digital Radio, Lucent, and Digital Radio Express for conversion to digital, in-band on-channel (IBOC) radio, the National Assn. of Broadcasters' DAB task force is asking the commission to wait until IBOC testing has been completed in December before moving forward with its low-power FM (LPFM) radio proposal. The group says it wants the time to determine the full impact of LPFM.

Meanwhile, Lucent says its field testing of overlapping digital and analog signals has shown that the digital broadcast does not degrade the host FM analog signal. This summer, the tests will be expanded to several other stations, including top 40 WPST Trenton, N.J., as Lucent tests prototype transmitters. With listeners expected to use both analog and digital receivers for many years to come, IBOC proponents need to develop a system that blends both signals without distorting either. Digital signals will provide clear reception, say proponents, who add that the quality of reception will be particularly noticeable at the fringes of a coverage area.

Elsewhere, the FCC is holding up Citadel's \$63.5 million purchase of the Fuller-Jeffrey Broadcasting stations in Maine and New Hampshire, including country WPKQ/WOKQ, AC WHOM, top 40 WJBQ, modern rock WCYI/WCY, album rock WBLM, and classic rock WXBP/WXBB.

### NEW MEDIA: MORE MEL AND CBS

On the heels of its \$8.3 billion purchase of billboard company Outdoor Systems, CBS is continuing its cross-media presence. It is buying a 35% stake in Switchboard.com, an Internet yellow-page service. No cash is changing hands, although Switchboard will get \$135 million of TV, radio, and outdoor promotion and branding over the next decade, similar to deals CBS has made with Hollywood.com, Storerunner.com, and Office.com. The Web site will be renamed CBS Switchboard.

## Top 40 Starting Its Own Hits, But Modern Crossovers Still Strong

Continued from page 1

amount of it. That changed this spring. Mainstream top 40 was first on hits from the Backstreet Boys, 98°, Jordan Knight, Blessid Union Of Souls, 'N Sync, and Christina Aguilera, as well as two hits each from Cher and Britney Spears. It was tied for first on hits from Madonna (with adult top 40 and modern adult), Will Smith (with rhythmic top 40), and Ricky Martin (also tied with rhythmic).

If that list of artists sounds familiar, it's probably because many of them were artists that mainstream owned when we last analyzed the chart, specifically Spears, 98°, 'N Sync, Backstreet Boys, Madonna, and Smith. Six of the 11 songs that mainstream top 40 started last time were by teen acts. Seven were from teen-oriented acts this time, depending on whether you count Martin as a current or escaped teen act. Last fall, there was one pure-pop record from a brand-new artist, Jennifer Paige. This spring, it was Aguilera who held that distinction. The difference seems to be the resurgence of dance/pop, a genre that had all but disappeared from the format until Cher's "Believe" broke through; now, there are two dance titles, both from the veteran diva.

### RHYTHMIC STILL DANCING (AT LEAST A LITTLE)

That doesn't mean that rhythmic top 40 has entirely conceded the dance/pop franchise to mainstream top 40, as many believe. The Vengaboys' "We Like To Party!" charted at rhythmic top 40 six weeks before it made the mainstream chart. Other records that rhythmic top 40 started outright were TLC's "No Scrubs" and tracks by Brandy, Jennifer Lopez, and K-Ci & JoJo. It was tied on Monica's "Angel Of Mine" (with mainstream R&B) and tracks by Smith and Martin, an artist whose earlier Spanish-language hits found their first top 40 acceptance on the rhythmic side.

Mainstream R&B, which became newly influential in the fall after several years of neglect by mainstream top 40, was first on Whitney Houston, Tyrese, and Jay-Z's "Can I Get A..." It was tied for first on Monica. Adult R&B, which didn't start any top 40 hits last fall, again failed to do so during the spring.

In our previous calculations, we haven't included the crossover chart, largely because we've regarded crossover less as a format unto itself and more as a chart that examines the cusp of two other formats, rhythmic top 40 and mainstream R&B. But if you counted crossover as a separate format, it would actually have been first outright on "Angel Of Mine" and tied for first on TLC, Smith, K-Ci & JoJo, Jay-Z, and Houston.

### STILL HAVE TO PRAISE MODERN

Modern rock's resurgence last fall came after a period in '96-'97 when mainstream top 40 PDs, worried that they had overdosed on modern several years earlier, went through a mini modern backlash. That period is long forgotten now. Modern may be the No. 2 provider of top 40 hits, but it's still formidable, contributing nine songs that it started outright by Sugar Ray, Everlast, Goo Goo Dolls, Smash mouth, Fatboy Slim, Citizen King, the Offspring, Garbage, and Orgy.

That modern rock contributed fewer songs overall but controlled all the songs it started outright says a lot about what's happened in the format over the last six months. In November, when we last analyzed the chart, some of the titles modern rock launched included Shawn Mullins, Eagle-Eye Cherry, and the New Radicals. That was at a time when modern rock PDs, worried about the encroachment of modern AC, were willing to concede fewer of the poppy-leaning titles to the upstart format. This spring, modern and modern adult were less on each other's tails. And while top 40 PDs didn't pick up any Limp Bizkit or Korn

records from modern, the format's contributions to the format were (relatively speaking) modern rock that really rocked.

The fact that modern rock was first outright on all the songs it started also reflects the continuing dynamic where labels go to modern first in hopes of preserving an act's alternative credibility (and the format's good will) and top 40 PDs show little inclination to battle modern for ownership of a record until the labels decide it's their turn. Modern rock charted Everlast nearly five months before top 40 did the same. It had a 13-week lead on "Praise You," a 12-week lead on "Why Don't You Get A Job?" and a 10-week lead on Citizen King. "Every Morning" and "All Star" may seem like obvious top 40 hits now. Modern rock charted them for six weeks and three weeks, respectively, before mainstream top 40 did the same.

### MODERN AC: FROM TRANSITION FORMAT TO STARTER FORMAT?

Meanwhile, modern adult, a format that's never started more than a few top 40 hits outright, was first on current titles from Tal Bachman, Sheryl Crow, Fastball, and matchbox 20. It was tied for first on Robbie Williams (with adult top 40) and Madonna's "Beautiful Stranger."

That modern adult was first on four songs (vs. one last time) is notable, in that it's usually regarded as a transition format by nature. But the harder-rocking modern format was less likely to fight for ownership of Crow, Bachman, or even Fastball this spring. So while many in the broadcast industry wish to view modern AC as a format in decline, its musical influence on mainstream top 40 is actually increasing.

It's also interesting that "Beautiful Stranger" charted at modern AC at the same time as it did at adult and mainstream top 40. When modern adult PDs played Madonna's "Frozen" last year, it was a source of considerable controversy for a format that preferred to support modern rock artists (or at least those with a neutral image). These days, modern adult stations are less concerned about being "out-of-image," as Shania Twain and Ricky Martin can attest. But it's still noteworthy that they'd take ownership of a Madonna record. And if it's because this song fits sonically for modern adult, well, so did most of the "Ray Of Light" album.

One song that sounds like it would have started at the modern adult format actually didn't. Sixpence None The Richer's "Kiss Me" charted first at adult top 40, beginning a four-month journey to the mainstream chart. That was the only record that adult top 40 owned outright. It was tied for first on Madonna and Robbie Williams.

And one of modern adult's core artists, Sarah McLachlan, charted first at AC with the live version of "I Will Remember You," the only mainstream top 40 hit that AC started during the spring. The studio version of "I Will Remember You," of course, garnered airplay at mainstream top 40, adult top 40, modern AC, and AC during the several-year stretch when it circulated from station to station as a secret-weapon record.

### COUNTRY STILL 'IMPRESSIVE'

Last fall, country was represented at mainstream top 40 by two titles, something that hadn't happened since the early '80s. It didn't repeat that feat this time. But thanks to Shania Twain's "That Don't Impress Me Much," which was a country hit four months before it charted at mainstream top 40, country has now been represented at mainstream top 40 for at least a year and a half.

Album rock, usually represented by a single title, is this spring represented by Lenny Kravitz's "Fly Away," which charted there an incredible 26 weeks before making the mainstream top 40 chart. Triple-A, however, wasn't represented at all. (It had started three top 40 hits during the fall.)

## MONITOR PROFILE

### Wilde Helps Rejuvenate KLOS L.A., Bringing Harder Edge To The Classic Sound

Can a heritage station rejuvenate itself with an infusion of harder rock? KLOS Los Angeles PD Rita Wilde is betting her station on it.

"It feels that the station has a pulse now," she says. "It was just [a] 'nice little station' for so long now—Al Stewart, Crosby, Stills & Nash—then all of a sudden it's got a little bit of Van Halen, a little bit of Judas Priest, and it's like the beast is alive again."

Wilde says market research reinforced what station staffers had long sensed. "We'd been hearing on the phones for quite some time that people wanted to hear some Van Halen and some Ozzy. It had probably been two or 2½ years since that stuff had been played on this radio station . . . And then in October, Dave Hamilton from our sister station KQRS [Minneapolis] and myself started putting some of that stuff back in a little bit at a time and getting positive reaction."

*'It feels that  
the station has  
a pulse now  
. . . the beast  
is alive again'*

Owner: ABC  
Ratings: 2.6-2.4-2.3-2.1

The flip became official May 19, when the station picked up the "classic rock that really rocks" mantle, and "the phones have just exploded," Wilde says. "I have a whole file—it's about an inch thick—of verbatims from people either faxing in or phoning in their comments. So far it's like 30 or 35 positive to one negative."

And it's not just the listeners. "There's definitely a buzz in the building," Wilde says. "When you get people that work here saying that they were at a gas station and heard the station from a car coming down the hill . . . that pumps you up. When you have several of the artists that you play calling up and saying, 'God, it's great to hear our music on the radio again,' like Def Leppard, Ozzy Osbourne, Metallica, it's great to have that kind of feedback. It's been a long time since I've seen anything like this."

Despite the "classic rock that really rocks" handle, KLOS still plays new music. Choosing what to play is "basically a matter of sound. Obviously, there are some songs that are no-brainers from bands such as Def Leppard—that really fits easy—Bad Company, Pearl Jam, Metallica, Tom Petty. But then you get a band like Buckcherry that just seems to fit the mold of where the station is at, past and present. Oleander is another example of that."

Here's a sample hour on KLOS: Tesla, "Little Suzi"; Journey, "Any Way You Want It"; Train, "Free"; Cars, "You're All I've Got Tonight"; Aerosmith, "Dude (Looks Like A Lady)"; Lynyrd Skynyrd, "You Got That Right"; Def Leppard, "Promises"; Led Zeppelin, "South Bound Saurez"; Black Sabbath, "Paranoid"; Soundgarden, "Black Hole Sun"; Genesis, "Turn It On Again"; Rolling Stones, "Sympathy For The Devil"; and Eagles, "Get Over It."

The station has been reinforcing the image with a billboard campaign that's been up for about two months. One slogan Wilde cites is, "The music you wasted your youth to."

The new KLOS stance puts the station squarely between primary competitors modern KROQ and what Wilde calls her main com-

petitor, KCBS-FM (Arrow 93), both of which Wilde says have flexed rock muscle in the recent past. As for Arrow, "They've become a much better radio station over the course of the last nine months to a year," says Wilde. "They're not as bubble-gummy. They started playing stuff like AC/DC's 'You Shook Me All Night Long' and Van Halen, when . . . all that stuff was [missing from] our airwaves. So they have definitely stepped it up a notch." Although the station now promises "rock'n'roll classics without the heavy metal," Wilde reports still hearing the likes of "Paranoid" on the air.

"It's important to look at how KROQ's evolved over the past couple of months as well," Wilde says. "Playing Rob Zombie, Korn, that kind of stuff. So, they've kind of heaved it up as well." Which is fine for her, since the young constituencies of those bands means that "we'll probably stay away from that stuff."

With all three stations having turned their amps up, Wilde says, there's no hole for a full-fledged active rocker. "I've seen at least three market surveys that say active rock wouldn't work here," she says. "A lot of people in the record community really want an active rocker here, but when you've got research that just boldly says, 'People don't want that,' you pay attention to that. L.A.'s a different market. A lot of people always have their eye on it and say, 'Well, I can do this. I can do that. Why aren't they doing this?' And then once you get here, you realize that the train's just a little bit different."

One way that KLOS has held on to both its own heritage and that of its talent is by letting legendary jock Jim Ladd host a free-form show in late nights. "It's an empty canvas, and he has the opportunity to paint whatever picture he wants to paint," says Wilde. "Jim Ladd is definitely one of the reasons why I got into radio, listening to what he did, how he created sets and basically wove stories together with music. That was something that always drew me to the radio. Listening to him, it was like, 'Who needs TV? I've got this storyteller on the radio.'"

While KLOS drew 40,000 listeners to a station show featuring ZZ Top last year, Wilde says that so far there's no 1999 KLOS show planned. "We were looking at doing something like that this year, but some of the bands that we were looking at were already out there on the road, and instead of trying to buy their shows, we just tried to make them as much our own."

She is surprised that most of the mainstream rock acts she's targeted for shows don't show the same enthusiasm as modern rock acts. While modern bands "started from the ground up" and are more willing to play shows, "you don't find a lot of the rock acts doing that, people that are mainstream rock artists that have been played on this radio station for 20 years or so. That's one thing that riles me."

As does the recent announcement that Metallica, a rediscovered KLOS core act, will be playing KROQ's station show. "That hurt," says Wilde. "This radio station didn't play Metallica for three years. We finally put them back on when 'Turn The Page' came out and then recently on the switch started playing a lot more Metallica, and then all of a sudden you have Metallica playing the Weenie Roast. How much Metallica has ever been played on KROQ?"

She cites David Bowie as a more striking example. "There's an artist that KLOS has played since the beginning," Wilde says. "Two years ago, he decided to play KROQ's acoustic Christmas show. He has never stopped by the KLOS studios since I've been here. It seems to me that some of these artists should at least acknowledge the stations that made them who they are . . . KLOS probably has played more David Bowie in the last week than KROQ has played in their entire history."

Songs ranked by number of detections. ( ) Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 1,100 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrants and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Modern Rock Airplay chart.

Songs ranked by number of detections. ( ) Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 800 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. ( ) Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Mainstream Rock Airplay chart.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this data in conjunction with the Triple-A Airplay chart.

Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 300 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks.

Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 400 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks.

Compiled from a national sample of data supplied by Broadcast Data Systems. 68 modern rock, 110 mainstream rock, 20 triple-A and 51 active rock stations are electronically monitored 24 hours a day, 7 days a week. Songs ranked by number of detections. ( ) Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on a chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 1,100 detections (modern rock), 800 detections (mainstream rock), 150 detections (triple-A) and 400 detections (active rock) for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. ©1999 Billboard/BPI Communications
