After 20 Years, Technology Helps Dees' Morning Show Go National

by Jeff Silberman

He's been a national celebrity for nearly 25 years. But KIIS Los Angeles morning star Rick Dees only became a nationally syndicated morning host in April. Now, with several new affiliates joining on every week, the biggest question is not whether there was an appetite for Dees outside L.A., but what took him so long to go nationwide?

"I really didn't own the show until this year," Dees says. "I kind of laid low and enjoyed the fact that it was a local show. Of course, I've also been doing a weekly top 40

DEES

countdown ["Rick Dees' Weekly Top 40"] since the early '80s that's now heard in 70 countries to an audience of 50 million people. Now, hosting a national morning show completes the jewels in the crown."

Premiere Radio Networks president/COO Kraig Kitchen didn't want to wait this long either. "I have been desiring to syndicate Dees—not only his weekly top 40 countdown but his morning show—for almost 10 years now," he says. "But Rick was involved with a five-year relationship with ABC, and before then, we hadn't earned his trust. So

Arb Net Study Coming To Radio Seminar

When the 2000 Billboard/Airplay Monitor Radio Seminar and Awards kicks off Oct. 5 at the New York Hilton, attendees will get a special look at Arbitron's fifth Internet listening study.

The study, done in conjunction with Edison Media Research, will look at how traditional radio listeners are affected by access to radio on the PC, as well as delve further into what listeners want from a radio station Web site. It will feature new information for seminar attendees.

Arbitron VP/GM of Webcast ratings Bill Rose will explain the study and discuss its programming implications and will also unveil the latest set of Arbitron Internet Ratings at the seminar.

ROSE

And veteran broadcaster and now Netcaster Jimmy de Castro will be the seminar's keynote speaker. Since retiring from AMFM in February, he has been working behind the scenes on a soon-to-be-unveiled Internet initiative, Nothing But Net. For the first time since leaving AMFM, he will publicly speak about the AMFM/Clear Channel merger, and he'll discuss his Net initiative and where he sees his old medium heading.

The 2000 Billboard/Airplay Monitor Radio Seminar and Awards will be held Oct. 5-7 at the New York Hilton. For info on registration, hotels, and discount airfare, go to Billboard.com/events/radio or call the seminar hot line at 646-654-4660.

Cut To The Chase: Cocaine, Complaints

In what would make a juicy script for an A&E network "Biography" episode, a recent article in the Sacramento (Calif.) Bee profited the tumultuous recent career of modern AC KZZO (the Zone) p.m. driver Rick Chase. Chase claims to have had a \$1,000-a-week cocaine habit during his time at KMEL San Francisco, which ended after a "spiritual awakening" in 1998. After leaving KMEL when his relationship with a morning co-host "imploded" and "I hated coming to work," Chase joined KZZO, which wasn't used to his high-profile brand of personality and got "more than 100 complaints... and two death threats" during his first two days on the air. Chase's also attacks KZZO's van colors as "vomit on wheels."

WSBG Stroudsburg, Pa., segues from adult top 40 to a rock-based version of that format billed as Rocking Hits. WSBG PD Jason Barsky becomes the new PD at Max 106.3. Angela Mason transfers to WSBG from the PD slot at Nassau's nearby WTSX Port Jervis, N.Y.

MANAGEMENT: INFINITY AND BEYOND

Following its closing on various Clear Channel properties, Infinity has shuffled part of its management team. In Cincinnati, market manager Jim Bryant will now oversee oldies WGRR and country WUBE, while Mike Frederick will manage top 40 WKRQ (Q102) and modern WAQZ. In Orlando, Fla., former AMFM director of sales Robin Smith becomes market GM for adult top 40 WOMX, R&B WJHM, and R&B oldies WOCL. For the latest on Infinity, see the page 7 profile of co-CEO John Gehron.

KLLC (Alice 97.3) San Francisco GM Steve DiNardo adds GM duties for modern KITS.

Tim Huelsing, GM for top 40 WQQB Champaign, Ill., and its sister stations, is the new GM at country WKKT Sheboygan, Wis. He replaces Dave Kaeppler, who joins AMFM's Madison, Wis., cluster, including top 40 WZEE and AC WMLL, as director of nontraditional revenue.

PEOPLE: T-MAN STAYING PUT

After initial reports that rhythmic top 40 KUBE Seattle morning host Rob "T-Man" Tepper would jump to rival KBKS (Kiss 106.1) next year, KUBE announces signing Tepper to a new four-year contract. Meanwhile, KUBE's adult top 40 sister, KMBX (Mix 95.7), is "auditioning" listeners on-air this week for its morning co-host opening.

KSRC (Star 102) Kansas City morning host Denis Prior exits; co-host Laurie Roberts and afternoon host Mike O'Brien take mornings for now. Wendy Garrett handles afternoons in the interim, as OM/PD Jon Zellner seeks a replacement.

New KQKQ (Sweet 98) Omaha, Neb., morning co-hosts Wayne Coy and Darrin Stone add Rachael Adams from WABB-FM Mobile, Ala., and producer John "Louie" Desjardins to the team. The new morning team replaces Max and Wayne, as Max Bumgardner segues to the 11/ a.m. opening at triple-A sister KTCY (the City).

WXXL (XL106.7) Orlando, Fla., middayer Hildy exits. T&Rs to PD Adam Cook.

KKFR Phoenix's Supersnake is now cyber-tracking nights at R&B oldies WUBT (the Beat) Chicago, as Evan Luck exits.

WPPY (the Party) Peoria, Ill., is looking for a morning show.

WOCQ (OC104) Ocean City, Md., night jock Deelite picks up MD stripes.

WVSR Charleston night jock Shawn Martin crosses the street for nights at rhythmic WRVZ.

KFIN Jonesboro, Ark., MD/p.m. driver Rob Butler moves to mornings on top 40 sister KIYS.

Album WKLS Atlanta MD/promotion director Laura Lee Lunt becomes marketing director for Clear Channel/Charleston, S.C.

'Jumpin' ' Sets R&B Record At Mainstream

Destiny's Child's "Jumpin', Jumpin'" (Columbia) holds the No. 1 spot at mainstream top 40 for a second week in a row, making it the first R&B song to do so in the history of Top 40 Airplay Monitor and only the second R&B record to top the mainstream chart. In May '99, TLC's "No Scrubs" became the first R&B song to hit No. 1 on Monitor's mainstream top 40 chart. Despite an increase in detections the next week, it was edged out by Ricky Martin's super-hot "Livin' La Vida Loca."

While the lack of R&B titles at the top might seem unusual, Monitor was launched at a time when many PDs still viewed R&B and hip-hop as responsible for the format's early-'90s decline. For that reason, there's usually been at least one or two stations that play little or no R&B music, making it hard for an R&B record to close out the panel and get to No. 1. Even last week, when "Jumpin', Jumpin'" went to No. 1, it did so without significant airplay at WXKS-FM (Kiss 108) Boston, WSTR (Star 94) Atlanta, or WDCG (G105) Raleigh, N.C.

While it got a lot of attention for spending more than 40 weeks on the country chart, Lonestar's "Amazed" (BNA) hits the one-year mark at AC this week. Last week, Backstreet Boys' No. 1 AC hit "I Want It That Way" moved to the AC recurrent chart after a total of 68 weeks on the chart.

Creed's "With Arms Wide Open" continues to rack up the honors at adult radio, scoring Greatest Gainer and best 1st Impression designations at adult top 40 and modern AC. The song, now in its sixth week on the modern AC airplay chart, only now gathers enough audience to chart in the No. 20 position on the modern AC audience chart, bolstered by 1st Impressions at WTMX Chicago; KAMX Austin, Texas; KMXB Las Vegas; and WCPT Albany, N.Y.

Faith Hill debuts at all three adult formats simultaneously this week with "The Way You Love Me" (Warner Bros.). Hill's previous crossover hit, "Breathe," debuted at both adult top 40 and adult contemporary during the first week of February and at modern AC the following week.

INDUSTRY MONITOR: Clive Davis, founder and former president of Arista, officially launches J Records, a 50/50 joint venture with BMG Entertainment. The label names former Arista staffers Charles Goldstuck president, Richard Palmese senior VP of promotion, Keith Naftaly senior VP of A&R, and Hosh Gureli and Peter Edge VPs of A&R. Davis will serve as chairman/CEO and will continue to be involved in the careers of Arista artists Whitney Houston and Carlos Santana. Davis will also participate in a joint venture with Arista for Monica's next album and "anticipates" continuing to work with Arista acts Next, LFO, Shannon Curfman, and Deborah Cox. Among the initial J Records releases set for October is a project by O-Town, the subject of ABC-TV's "Making The Band."

Jason McFadden is upped to national promotion director at Virgin.

Capricorn senior VP of promotion and marketing Barney Kilpatrick exits.

ARBITRON FLAGS OUR'BITRON

Arbitron flags the Yakimia, Wash., book after the New Northwest cluster, including AC KRSE, distributed a flier at a local home-and-garden show under the heading "Our'bitron Radio Listener Survey." It asked listeners to record their listening to the stations in return for the chance to win a prize.

MIW LAUNCHES MENTORING PROGRAM

A group calling itself the Most Influential

Women in Radio (MIW) has drafted a corporate mentoring program to encourage women in the radio industry, according to spokeswoman Joan Gerberding, president of Nassau Broadcasting's network radio division. In addition to the mentoring program, the MIW plan encourages station managers to support a positive, non-hostile working environment. Also in the works is a RadioMIW Web site, which will provide resources for professional women in radio.

PROMOGANDA

AN OVERVIEW OF RADIO PROMOTIONS • BY JEFF SILBERMAN

323-525-2303 • jsilberman@airplaymonitor.com

Late Summer Smorgasbord Of Promotions

Despite a lingering heat wave in certain areas of the country, the Promoganda panelists are staging a potpourri of event promotions to make the transition from summer stunts to fall book cash and/or prizes contesting. Crossover R&B **KPWR** (Power 106) Los Angeles is about to debut a **Back-to-School** promotion where it will give away a Hewlett-Packard computer, complete with monitor, Windows, and printer, every hour. **Dianna Obermeyer** lined up an Internet company to co-sponsor it.

Country **WGAR** Cleveland is cozying up to **Tim McGraw** and **Faith Hill's** Soul2Soul tour by having folks qualify for free seat upgrades and a meet-and-greet at the show. The hook: "You must wear a barbecue-stained white T-shirt [like the one McGraw alludes to in a recent hit] to the concert venue that night to be considered," says **Lisa Fields**.

Active rock **KSJO** San Francisco tied in with the X-Games when they were held in town. "We [hosted] the **KSJO Rock Stage** in the Extreme Sports Village with local bands playing and broadcasting live," says **Jim Sheehan**.

Modern AC **WTIC-FM** Hartford, Conn., snared rights as the exclusive radio partner of the MTV Video Music Awards for the state of Connecticut. "We're doing a **Countdown to the Awards** giveaway by qualifying listeners to [attend] the awards ceremony, with MTV Awards merchandise plus nominee CDs," says **Tristano Korlou**. "The grand-prize winner wins VIP pre-event party passes and passes to the main event. It's getting a huge response."

PROMO TOPIC OF THE WEEK: POLITICAL PROMOTIONS

The conventions are over, and the presidential election season is in gear, but that matters little for Promoganda panelists. More than half of them ignore political-oriented promotions altogether; a third restrict politicking to the morning show or only "do parodies of the idiots running for office." Just 11% love doing them, because "being topical never hurts."

Why the indifference? "Because we're a music station," says **KSJO's** Sheehan. "And that will only change if [**Metallica's**] **James Hetfield** runs for office."

"People listen to our station to be entertained," says **Donna Talarico** of country **WGGY** (Froggy 101) Wilkes-Barre, Pa. "We keep our election coverage limited to the news in the morning, and if there are any current issues, maybe in afternoon drive. But for the most part, we are a music station."

Perhaps the best perspective comes from a promotion director who oversees an AC and a country station. "You have to talk about it, because it's what everyone in your audience is talking about," she says. "But we prefer to reference TV programs and debates and inform people as to where they can find more information. But we really don't pick sides, endorse a candidate, or offer opinions outside the morning show—and even in the morning show, [the opinions] are pretty tame."

Those who do stage politically inclined promotions try to personalize them as much as possible. Obermeyer notes that Power 106 welcomed Democratic conventioners with billboards featuring morning host **Big Boy** dressed as **Bill Clinton** and endorsing him for president.

"We tried getting the 18-24 cells of our 18-34 demos to register to vote, à la the Rock the Vote-type campaigns of the past," says **Mike Oliviero** of album rock **WXTB** (98 Rock) Tampa, Fla. "Our morning host, **Bubba The Love Sponge**, is running for sheriff of Pinellas County."

"Our sister station once did something awesome called the **Collection After the Election**, where people were encouraged to clean up the garbage politicians left behind on roadsides," says **WGGY's** Talarico. "It was four or five years ago, so I forget the prize, but whoever collected the most election signs won. It was fun."

Even so, the enthusiasm for political promotions or even Rock the Vote/Choose or Lose registration drives during election 2000 are lukewarm at best. Promotion directors at stations with 25-34 core audiences think most of their listeners are already registered voters. Also, although candidates have scheduled political spots on the majority of the panel's stations, they generally haven't had any effect on the tone or number of political promotions staged by the stations.

QUICK HITS

Modern AC **KLLC** (Alice 97.3) San Francisco morning duo **Sarah** and **Vinnie** will be celebrated in an unusual way when a hotel suite designed by them and named for them opens at the Triton Hotel. The funky, hip abode, located across the street from Chinatown and just a couple blocks off Union Square, also boasts suites for music icons **Santana** and **Jerry Garcia**, among others.

Modern AC **WBMX** (Mix 98.5) Boston morning co-host **Lynn Hoffman** was selected to participate in "DJ Week" on the game show "Hollywood Squares." DJs from around the country (including Power 106's **Big Boy**) will compete against one another on the game show, winning money for their favorite charities. "Mix conducted a **Watch and Win** contest where one lucky Boston winner was chosen to accompany Hoffman to the taping in Los Angeles, including first-class airfare, hotel, etc.," says **Anne Marie Strzelecki**. The taping will take place in September, and "DJ Week" will air during the November sweeps.

A Spring Book To Be Proud Of

Last week's national Arbitron numbers (Top 40 Airplay Monitor, Aug. 25) confirmed what had been apparent on an anecdotal basis for several weeks: It was a great spring book, with top 40 posting its best numbers since 1992. The long-anticipated down cycle, during which "extreme" records will destroy the mother/daughter coalition and shift attention to other formats, remains on hold for at least a little longer, possibly because **Rammstein** didn't have new product out during the spring.

PDs have been expecting that down cycle for at least a year and a half; in that time, there's been so much talk about what was going to go wrong that it could have become a self-fulfilling prophecy. Instead, somehow, top 40 became even more solid than it was two falls ago.

For one thing, top 40 is doing a better job than it has in years of offering something for everybody, as opposed to the early '90s when it was playing something to offend everybody. (Too much "Set The Night To Music" for the kids; too much "Dre Day" for the adults.) With the format up in teens, 18-34, 25-54, and 35-64, **Vertical Horizon** is somehow helping balance out "The Real Slim Shady" for adult women, assuming they don't somehow like both.

It's also the case that the more current top 40 gets, the better the broader mix works. Top 40 stations are spinning their powers 70 times a week these days. They've cut libraries down to the nub. And it's probably much easier for the same stations to play **matchbox twenty** and **Destiny's Child** when they're not further challenging the audience by throwing "Hurts So Good" in there.

And while PDs might find this hard to believe, the labels have been working on their behalf. Radio would still like to see more label marketing dollars sent its way, but the marketing money that the labels did spend procuring record opening weeks for 'N Sync, **Britney Spears**, and **Eminem** gave top 40 three major events during, or leading into, the spring book. And radio hardly capitalized on Spears or Eminem the same way it did with 'N Sync. It can't hurt either that plenty of other acts got so much consumer press this spring or that **Nelly** now makes the pages of *Entertainment Weekly*.

Finally, it's good news that both the new guys and the incumbents are growing. With second top 40s showing up in so many markets, most incumbent stations have been losing a share or two in the first three to six months. The good news, although they might not see it this way, is that most of the new challengers aren't just 1- to 2-share radio stations; they're 3- to 4-share radio stations, meaning that the format is growing. And in the spring, there were at least a few markets, including

Dallas; Austin, Texas; and Rochester, N.Y., where the new station was up and the incumbent was rebounding.

Last summer, the moderator of the top 40 room at one major convention said that the format's job was to maintain its current numbers. Instead, after a false step in the fall (when most music formats were hit), top 40's ratings continued to grow. Can top 40 keep it up? Well, summer seems like a good bet. The teens are out of school. There's excitement about radio's "Survivor" promotions. It's traditionally a good book for the format anyway.

There's also room for top 40 to grow in a handful of markets where the format's revival hasn't kicked in yet. Several years ago, many people assumed that there were markets where mainstream top 40 just wasn't meant to do well because of demography or because they still saw top 40 as a niche format in general. Once mainstream top 40 started doing well in, say, San Antonio, we had to reconsider the possibility that there were decent opportunities for the format anywhere.

As for the fall, well, no coalition is guaranteed forever. When stations segue from one format to a relatively similar one, there's usually at least one terrific book where the old listeners are giving the new format the benefit of the doubt, while the new listeners help swell the numbers. Then there's usually a leveling off. Six months from now, if there's nothing to play between harder rockin' records and harder rap titles, maybe some of the adults will look up and feel uncomfortable. But for now, there are new **Madonna** and **98°** songs with new **Ricky Martin** and **Backstreet Boys** records on the way. And after several generations of MTV, people seem to understand **Nelly** and **Papa Roach** together in a way that they didn't when it was **Dr. Dre** and **Nirvana** on the same radio station.

There's one other good sign: At the moment, there's no record that really bothers me on top 40 radio in the same way that, say, "Set The Night To Music" (and about 50 others like it) did during those early '90s doldrums. The type of record I don't usually like—the uptempo record with no texture or the soggy ballad that doesn't generate requests and takes 14 weeks to research well—still exists at top 40. But there are enough hits that the passive records aren't driving me away. It's sort of like fall '83 when I could somehow sit through "Think Of Laura" by **Christopher Cross** to hear everything else.

As vigilant as they've been for the past few years, it's hard to imagine top 40 PDs being able to relax and enjoy the spring numbers, rather than have an eye peeled for the next battle. But I hope everybody gets at least a minute to be proud of top 40's comeback. They've earned it.

Radio Consolidation Stronger Than Ever

Four years after the passage of the 1996 Telecom Act, radio consolidation continues into the new millennium. In the first half of 2000, station sales have totaled \$8.7 billion, compared with \$2.1 billion in 1999 and \$3.2 billion in 1998. An analysis of sales data prepared by Kagan Media shows that the top 10 buyers accounted for 72% of the first half's deal activity, while the top 25 buyers spent 88.5% of the dollars invested. The top 10 dealmakers spent \$6.5 billion to buy 280 radio stations between January and June, paying an average of \$32 million per station. Most of the deals were fueled by Clear Channel's spinoff of more than 100 stations as part of its AMFM buyout.

CAPITAL & CAPITOL
BY FRANK SAXE

In the first half, only two companies spent more than \$1 billion: Infinity Broadcasting, which spent \$1.523 billion to add 25 stations to its portfolio, and Radio One, which laid out \$1.38 billion for 22 sticks.

Clear Channel was also the biggest buyer in terms of number of stations purchased in the first six months. It added 99 stations, spending \$492 million, which averages out to \$5 million per station and an average multiple of 13.9 times cash flow. A significant number of these stations are in small and unrated markets.

Spanish-language broadcaster Entravision was the second most active, buying 39 stations, followed by Citadel, which spent \$341 million for 34 stations.

CAPITAL: CLOSING TIME

Clear Channel divested itself of 100-plus stations. Infinity closed on classic rock **KPLN** and **AC KYXY** San Diego; country **KMLE**, modern **AC KZON**, and oldies **KOOL** Phoenix; R&B oldies **KDJM**, adult top 40 **KIMN**, and oldies **KXXL** Denver; country **WUBE** Cincinnati; R&B **WJHM**, R&B oldies **WOCL**, and adult top 40 **WOMX** Orlando, Fla.; and N/T **WMFR** and sports **WSJS/WSML** Greensboro, N.C.

Radio One closed on R&B **KKBT** L.A.; R&B **KBXX** and adult R&B **KMJQ** Houston; **AC KBFB** Dallas; R&B **WZAK** and adult R&B **WJMO** Cleveland; ethnic **WVCG** Miami; R&B **WQOK** and gospel **WFXX/WFXC** and **WNNL** Raleigh, N.C.; and R&B **WJMZ** Greenville, S.C.

Salem Communications closed on ethnic **KEZY** and adult top 40 **KXXM** Anaheim, Calif.; modern **KDGE** Dallas; modern **AC KALC** Denver; sports **WKNR** and adult standards **WRMR** Cleveland; and country **WYGY** and sports **WBOB** Cincinnati. Although it's primarily a religious broadcaster, Salem will only flip **KXXM**, now Christian AC the Fish.

Emmis Communications closed on rhythmic top 40 **KKFR** Phoenix and modern **KXPK** Denver for \$108 million.

Clear Channel has also closed on its complex deal with Regent Communications, where Regent swaps 11 stations for nine Clear Channel stations: R&B oldies **WABT**, country **WGNA-AM-FM**, album **WQBK/WQBJ**, and sports **WTMM** Albany, N.Y., and modern **WGRD**, **AC WLHT**, and classic rock **WTRV** Grand Rapids, Mich. Clear Channel picks up **AC WYHT** and classic rock **WSWR** Mansfield, Ohio; country **KATJ**, album **KIXA**, adult top 40 **KZXY**, Spanish **KIXW**, and sports **KROY** Victorville, Calif.; and country **KTPI**, **AC KOSS**, and religion **KAVC** Lancaster, Calif., plus \$80.5 million.

Clear Channel also buys **AC KMXG**, classic rock **KCQQ**, country **WLLR-AM-FM**, oldies **KUUL**, and N/T **WOC** Davenport, Iowa, from Scionix Broadcasting for \$85 million; classic rock **WSGC** Chattanooga, Tenn., from Battlefield Radio for \$2.5 million; and R&B oldies **WRLX** and adult standards **WJNA** West Palm Beach, Fla., from James Crystal Enterprises.

Cox Radio has completed its swap with AMFM—a deal unrelated to AMFM's buyout by Clear Channel. AMFM gets **AC KOST** and N/T **KFI** L.A., while Cox closes on R&B **WEDR** Miami; oldies **WFOX** Atlanta; album **WFYV**, top 40 **WAPE**, **AC WMXQ**, oldies **WKQL**, N/T **WOKV**, and sports **WBWL** Jacksonville, Fla.; album **WPLR** and the sales rights to adult R&B **WYBC** New Haven, Conn.; and classic rock **WEFX**, oldies **WKHL**, N/T **WNLK**, and N/T **WSTC** Norwalk, Conn.

The Justice Department has cleared the merger of Lucent Digital Radio and USA Digital Radio, which are joining to form iBiquity Digital Corp. to develop and market digital radio systems. There are 15 radio broadcast groups among the investors in iBiquity, including Clear Channel and Infinity. **Suren Pai**, iBiquity co-chair, says the company has received "phenomenal" support since announcing the merger. Among those offering support is **Bob Law**, VP of Kenwood USA, which plans to develop at-home and in-car digital receivers. The FCC is still reviewing the technological options for the digital conversion.

CAPITOL: BRIEF DEFENSE OF LPFM

FCC attorneys have filed a 44-page brief with the U.S. Circuit Court of Appeals in D.C. defending its licensing of low-power FM radio stations. The National Assn. of Broadcasters has filed suit, asking the court to rule that the FCC overstepped its bounds when it launched its LPFM initiative in January. But chief FCC attorney **Christopher Wright** argues the FCC is simply responding to a mature FM band and "sharp consolidation" in the ownership of those stations. "The FCC responded to these circumstances, as well as a substantial demand from groups and individuals arguing that there was a need for greater diversity," states the document.

A separate suit, filed by former pirate **Greg Ruggiero**, seeks to prevent the FCC from blocking pirates from obtaining LPFM licenses on First Amendment grounds. Wright argues the courts have allowed the agency to consider applicants' "character qualifications." If Congress does not sideline LPFM first, the NAB's suit is set to be argued Nov. 28. Meanwhile, LPFM moves forward in 10 more states, as the FCC is collecting applications for the microstations in Connecticut, Illinois, Kansas, Michigan, Minnesota, Mississippi, Nevada, New Hampshire, Virginia, and Wyoming, as well as Puerto Rico.

The FCC has knocked \$1,000 off a fine it levied against **KROR** Hastings, Neb. The station was hit with the \$7,000 fine for a Feb. 26, 1999, broadcast of **Bob and Tom** that was deemed indecent by the FCC.

The FCC has flagged Cumulus Broadcasting's deal to buy **KKSB** and **KMGQ** Santa Barbara, Calif., from Engles Enterprises, citing concentration issues.

NEW MEDIA

Sirius Satellite Radio will send up its second satellite, Sirius-2, Sept. 5 from Kazakhstan. A third goes up in October. The company says its spare satellite, Sirius-4, was damaged during assembly, and its scheduled December launch will be delayed.

Interp's Internet division has become the national rep firm for MP3.com. Interp Interactive will sell streaming ads, banners, sponsorships, and promotions for MP3.com, including its syndicated radio division, MP3radio.com.

SALES

AAA Entertainment buys active rock **WFXF** and **AC WKSO** Peoria, Ill., from Kelly Communications for \$2.75 million. . . . Amarturo Broadcasting buys **AC KZIQ-AM-FM** Ridgecrest, Calif., from **Jim and Donna Knudsen**. . . . Pacific Empire buys **AC KVAB**, country **KCLK-FM**, and sports **KCLK-AM** Lewiston, Wash., from Clarkston Broadcasters for \$1.6 million. . . . Beacon Broadcasting buys top 40 **WEXC** and **AC WGRP**, outside Youngstown, Ohio, from Greenville Broadcasting for \$475,000. Beacon owns crosstown gospel **WANR**. . . . Against the Wind Broadcasting buys country **KXXXQ** Grants, N.M., from Palmer Radio.

After 20 Years, Technology Helps Dees' Morning Show Go National

Continued from page 1

we waited patiently for the day [we could] work with him."

After debuting at co-owned KFMS Las Vegas in April, Dees and sidekick Ellen K. are currently heard on 16 stations, and Premiere says he'll soon be in such major metros as San Diego and San Francisco. While some new affiliates, like KZZP Phoenix, are KIIS' Clear Channel brethren, his show has also been added to such separately owned outlets as WTCF Saginaw, Mich. Kitchin expects total affiliates to hit 100 within three years, although, Dees quips, "why stop at 100? I actually want to get in the top 500 markets."

However many markets he's heard in, expect Dees' recipe nationwide to mirror his style at KIIS: a self-effacing, nice-guy persona, topical bits that nudge the envelope, and aggressive promotional campaigns, including a national fall book birthday game among Dees' stations boasting a \$5 million grand prize.

"We're not really changing the show [for syndication] at all," Dees says. "I just have to hit certain points in the show for local cut-aways and commercials. Other than that, it's essentially the same show. We make no bones about being in Hollywood, which adds a show-biz sizzle to stations in Des Moines, Iowa; Boise, Idaho; and Lexington, Ky."

"People are taking our show because it's from Hollywood," morning producer Paul Joseph adds. "We're certainly not forcing it down their throats. There's a difference between Hollywood and Los Angeles, and [affiliates] welcome the fact that we're coming from Hollywood."

PROPHET IN \$5 MILLION CONTESTS

In fact, the biggest obstacle for syndicating Dees was not the content but the time zones. Unlike East Coast-based morning hosts such as Howard Stern or Don Imus, whose shows only have to be delayed for the West Coast, Dees would have had to start at 3 a.m. to be heard live in the East. Enter the Prophet System.

"The material in Rick's daily program is filled with a lot of spontaneity and listener interaction, plus regular features such as 'Candid Phone' and 'Dees' Sleaze,'" says Kitchin. "At the end of each day's program, we decide which bits and material are timeless enough to be used the next day for the East Coast. Then, as soon as Rick walks out of one studio at 10 a.m., he walks into another studio to lay down voice tracks and intro different music for the following day's program for stations on the East Coast."

"I just stay up 22 hours a day, and I love it," Dees insists. "They kind of put [the show's structure] in my lap, so I had to adjust the clocks," Joseph elaborates. "What's difficult about adjusting the clocks is that, at times, we're not able to stay on [a bit] as long as we'd want to. On the other hand, it has made the show crisp, because we're in and out really fast. Once I developed the clocks for it, we came up with a formula for getting it right on target."

And Dees will also go further to accommodate the East Coast on special occasions. "For six to eight weeks each year, he'll originate the program from the East Coast, which will be determined by high-profile entertainment events such as the Super Bowl and the Grammys," Kitchin says.

Also instrumental in building Dees nationwide is a \$5 million group contest. "Our birthday game is about to start," Dees says. "We've just rolled out new TV spots. To buy the contest, the insurance policy is \$800,000, because I've already given away \$3 million total to two listeners. Imagine living in Pullman, Wash., or Fort Wayne, Ind., and having a shot at \$5 million. This will be a huge shot in the arm for the show."

"We'll have to do the contest live," Joseph says. "So we have to come up with a way to facilitate this live on the East Coast as well. That's one of the toughest elements in doing this type of show."

And there's more to Dees' promotional strategy than big bucks. In fact, despite his national prominence, Dees remains one of the most promotionally aggressive morning hosts in Los Angeles, regularly showing up at area gas stations for Free Gas Fridays. And his growing national presence won't alter that activity.

"We did a Free Gas Friday in Las Vegas a few weeks ago, and next week, we'll be in Phoenix doing a Free Gas Friday [for KZZP], as well as kicking off a huge ticket giveaway," Dees says.

"You have to understand that not all of these [new] stations are No. 1," he says. "They're giving me some dogs and asking me to take the fleas off. In three months, I'm putting the meanest, baddest flea collar I can on these stations."

And Dees realizes that not everybody is thrilled about the spread of yet another national morning show. "Someone spoke up at a sales meeting the other day and said, 'You're replacing Wildcat Bob on this station, and he had their highest rating ever.'" Dees says. "What did he have? A 1.3. I'm just trying to beat Wildcat Bob's 1.3. When everything is said and done, they pay me \$70 a day to do that morning show, which I split with Clear Channel, so I get \$35 a day for this particular market. I'm thinking about asking Wildcat Bob to come back for \$35 a day."

IN-HOUSE COMPETITION

Then there's the issue of making sure that Dees' national efforts don't cut into his efforts at KIIS, currently enjoying its best numbers in years. "There is a fine line here," Kitchin says. "We realize that KIIS is the mother ship. But when we syndicate him successfully, he gets a renewed energy and a sense of vigor for what he's doing. Rick is going to be the first West Coast morning personality to accomplish nationwide syndicated success. That will take a lot of consistent energy and focus. But the tradeoff is his syndicated success will give him a renewed energy for the local show. They'll feed off each other."

Ironically, there is a good chance that Dees will wind up in a market where he's up against a station whose morning host is syndicated KIIS afternoon driver Valentine. "It's bound to happen," Joseph says. "Although we haven't talked about it, everyone's ready for it. It'll be like two football player friends who grow up, join different teams and play against each other... There's enough room for everyone to do well."

DECADES OF DEES

While technology has made a Dees national morning show feasible, the morning host has had a national profile for nearly 25 years. And Dees has been a fixture in L.A. radio for more than 20.

"It's pretty amazing when you stop and think how the show has maintained its position in Los Angeles, maintaining the largest cume for so many years," Joseph says. "You have to chalk it up to the fact that we try to reinvent ourselves every day. With that quality, you can't help but be successful." Dees adds, "We have group sessions at least twice a week about how to keep it fresh with what's new and happening, whether to parody it or go with the flow."

Dees has also managed to go with the flow at KIIS, whose ratings fortunes have reflected top 40's overall ups and downs since the station's 10-share success in the mid-'80s "You have to take the rolling average of the show," Dees says. "We know we're not going to be No. 1 in every ratings book, even though we have been very fortunate to have been No. 1 in so many. If we're down, especially with our young-oriented format, as soon as we accurately reflect the changing of music styles, we come right back. Over the last two or three years, having boy bands and male solo artists back has been a real shot in the arm. For a while, all we had were hip-hop artists and women. Adding more men to the mix has really helped."

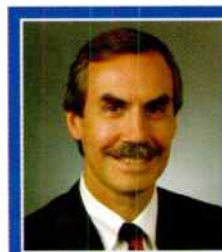

MONITOR PROFILE

Infinity's Gehron Mends Individual And Team Efforts In New Mega-Radio World

While the AMFM/Clear Channel merger has dominated the headlines, Infinity been quietly getting its own house in order with the recent promotion of co-COO John Gehron to oversee programming strategies for the entire station group. The individual stations Gehron oversaw have been divvied up among co-COOs David Pearlman and Don Bouloukos and senior VP Bill Figenshu.

"The consolidation, as far as buying and selling stations is concerned, has calmed down," Gehron says. "We're now learning the best way to operate the stations we have and how the synergies will work."

"When you're busy taking over stations and trying to fold them into the corporate cluster, it takes needed energy away from operating the stations themselves," he says. "Now we're allowed to spend all of our time operating. We can help our programmers to focus on what their job really is—to run their stations as successfully as possible instead of worrying about who's going to own whom."

John Gehron
Co-COO
Infinity

'We prefer not to do everything in-house'

Although former AMFM programming honcho Steve Rivers recently likened the new radio world dominated by Clear Channel and Infinity to a turf war between "the Bloods and the Crips," Gehron disagrees. "In most markets, there are generally three broadcasters at the top of each heap," Gehron notes. "So while we compete against Clear Channel in many markets, we're also competing against a Susquehanna, Emmis, Bonneville, or other strong companies."

Gehron's new duties include "coordinating with all the other divisions of Viacom," such as MTV, VH1, and CBS-TV, which helps foster tie-ins for the MTV Awards and the red-hot "Survivor" phenomenon. "If someone in radio has questions about doing something [with a Viacom entity], I know who to call to facilitate that. The same thing goes when Viacom wants to do something with radio."

Another major aspect of his duties is "to bring all [of Infinity's programming] brainpower together to use it across the country," Gehron says. "We've always been very independent-station-oriented," he says. "While our programmers participate in their own conference calls, it's still more important to have them focused on their own markets and what's going on there. At the same time, if

they want to tap in to other programmers' knowledge, there are things we're doing to improve that process."

Infinity may be one of the big two in corporate radio, but there are still clear differences between its operating style and Clear Channel's. A recent Clear Channel memo limiting the use of outside contractors—including independent promoters—and its heavy use of shared air shifts between markets suggests a growing in-house mentality. But "we prefer not to do everything in-house," Gehron says. "Some people do certain things better than we can, so why not work with them? We leave those decisions up to the individual stations. It goes hand in hand with our belief that putting the best people we can in each local market is the way to be successful."

However, Infinity isn't automatically against the concept of voice-tracking. "If we have personalities who are capable of doing more and programmers want to take advantage of them, it's something to consider. We wouldn't do this simply to put people out of business [but] only to improve what we're already doing. But we haven't talked about [doing] it yet."

As for the current talent pool, "it's not that there are fewer good personalities," he says. "What we do have are more good broadcasters running stations who realize the need for more quality talent. The demand for talent has risen in our industry."

One place where Infinity has strayed from the current radio mind-set is on the Internet, where it doesn't allow stations to stream their audio. "Many of our Web sites are very successful without streaming," Gehron says. "We see the Internet as an incredible opportunity to have a two-way dialogue with our listeners. Obviously, there are revenue opportunities on top of that, but the basic plus is interacting and communicating with our listeners [in a way] we never could before. As for future streaming, I don't know what will happen. Mel [Karmazin] is working on a strategy and has hired a very good group of people to run the Net and new business development."

Yet the real bottom line, Gehron believes, is in Infinity's programming mentality. "There are a lot of different corporate cultures, but ours is very simple: to perform," he states. "We give our people a lot of freedom to perform, and we hold them responsible for what they're able to do. Most people can understand that, and they enjoy that. When our programmers take more responsibility for their stations' success and can control their own destinies, they put the pressure on themselves to be successful, because they're not carrying out someone else's plan that they're not responsible for."

"The great PDs have leadership skills and understand the entertainment value of radio," he says. "They also let personalities be personalities. They don't design formats that limit their personalities' abilities."

JEFF SILBERMAN

Music affecting a largely entertainment-driven, minimum-music morning show? "You have to look at it like a ship on the ocean," Dees says. "The morning show is the ship, and the rest of the station is the ocean. If the station is having trouble with promotions and music, the sea level goes down, and that same ship goes down with it. The ship may be floating on top, but it still goes up and down with the tide."

Yet, in keeping with that nautical metaphor, Dees prefers to talk about the one that got away. "A few years ago, Sean Connery, Joe Pesci, my business manager Ed White, and I

sponsored a young, up-and-coming golfer named Bob May as he started on the PGA tour," he says. "We paid for all his living and traveling expenses—caddy fees, club fees, balls, food, lodging at the Red Roof Inn—so, in turn, he'd win enough money to pay us back, plus incentive. He went out and didn't make it his first year on tour. He felt a bit constrained and anxious, so he asked to buy us out. And he did. Now he makes a half-million [for finishing in second place] at the PGA championship. Another great Dees investment! I made zero from him, but I'm making \$35 a morning show."

Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrences and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Songs showing an increase in audience over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become re-entries and are removed from this chart in conjunction with the Mainstream Top 40 Airplay chart.

AIRPLAY MONITOR MAINSTREAM TOP 40 POWER PLAYISTS

FOR WEEK ENDING AUGUST 27, 2000

Songs ranked by number of detections. Playlists are listed in order of TSA weekly e-zine, beginning with the highest-cummg station. Cumms are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.
1st Impressions (FI) denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of detections. ○ Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrenents and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Songs showing an increase in audience over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurrent and are removed from this chart in conjunction with the Rhythmic Top 40 Airplay chart.

Songs ranked by number of detections. (○) Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross referencing exact times of airplay with Arbitron listener data. (○) Songs showing an increase in audience over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become recurrents and are removed from this chart in conjunction with the Crossover Airplay chart.

AIRPLAY **Monitor** CROSSOVER **POWER PLAYLIST**

FOR WEEK ENDING AUGUST 27, 2000

Songs ranked by number of detections. Playlist is listed in order of TSA weekly cum, beginning with the highest-cumming station. Cumecs are updated twice yearly following the release of the spring and fall Arbitron surveys. The number of stations shown each week varies depending upon space.
1st Impressions (1I) denotes songs with 6 or more detections at station for first time this week.

Songs ranked by number of detections. (○) Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airplay awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become re-entries and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. (○) Songs showing an increase in audience over the previous week, regardless of chart movement. A song that has been on the chart for more than 29 weeks will generally not receive a bullet, even if it registers an increase in audience. A song with a gain in audience over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining in audience or each losing in audience, the song being played on more stations is placed first. Songs become re-entries and are removed from this chart in conjunction with the Adult Top 40 Airplay chart.

Songs ranked by number of detections. ○ Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrences and are removed from the chart after 26 weeks.

The chart, reprinted from Rock Airplay Monitor, is compiled from a national sample of data compiled by Broadcast Data Systems. 67 modern rock stations are electronically monitored 24 hours a day, seven days a week. Songs ranked by number of detections. ○ Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on the chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. Songs below the top 20 become recurrences and are removed from the chart after 26 weeks. ©2000 Billboard/BPI Communications

Compiled from a national sample of data supplied by Broadcast Data Systems. 120 mainstream top 40, 41 rhythmic top 40, 86 adult top 40 and 62 crossover stations are electronically monitored 24 hours a day, 7 days a week. Songs ranked by number of detections. Songs showing an increase in detections over the previous week, regardless of chart movement. A song that has been on a chart for more than 20 weeks will generally not receive a bullet, even if it registers an increase in detections. Airpower awarded to songs appearing in the top 20 on both the Airplay and Audience charts for the first time with increases in both detections and audience. Greatest Gainer awarded to the song with the largest increase in detections. Best 1st Impression awarded to the song registering six or more detections at the most stations for the first time this week. A song with a gain in detections over the previous week is placed first if tied with a song with a decline over the same period. When tied songs are each gaining detections or each losing detections, the song being played on more stations is placed first. ©2000 Billboard/BPI Communications.
