## REDUCTION IN THEATER TICKET PRICES TO BE GENERAL

Is Indication in the Move of  
Sam S. Harris

Who Orders Revision of Prices  
of Broadway Productions

Other Managers Silent, But  
Cut Is Expected

New York, Jan. 5.—Bridges of a general reduction in the price of theater tickets is mentioned in the fact that Sam S. Harris has ordered a revision of the price for all Broadway theater seats beginning tonight, with a top price of 25. Also Harris is president of the Producing Managers' Association he says he acted only for himself in making reductions, but adds that other managers would soon take similar action.

"Beginning tonight," Mr. Harris said, "a ten-city scale of prices will be used for new New York productions." ("Whom We Stage," at the Grand & Harris Theaters, "Little Old New York," at the Plymouth, and "Great Michiko" in "The Cosmopolitan," at the Grand.) The reduction will go right down the line until it affects the lowest price balcony seat.

"When I bring Mr. Plake in for ten days," Plake is, "I will take New York down to the 25.00 scale will prevail of the evening and thereafter." It should be apparent to theatergoers that as hard scale of prices can be arbitrarily set by all production, an arbitrary scale of prices can be set by the producer, for instance, cannot be given probably of the same price that will bring a fair price on a play that costs less to produce."

Other theatrical managers are also considering their own price for the immediate future, but the action of the producers in placing a 25.00 top on tickets for their houses is the first step, and a general reduction of prices in the largest Chicago theater results, are regarded as pointing to a revision of all theater seats.

Madison S. Jones, secretary of the National Association of Theaters, has been reported to have escaped arrest today at Chicago, Kansas. He was arrested while on returning a new program to the National Association of Theaters. He was arrested at Chicago, Kansas, but was released today. Differences Are in Nature of  
Family Row, Says Star

Right To Make Changes in

Hitchcock Gives Notice in Or-  
der To Force Showdown

Washington, D. C., Jan. 5.—Reported Hitchcock, of "Hitchy Koo" fame, is at loggerheads with Moore, Fitzgerald, Dillingham and Stratford, joint owners with him of the "Hitchy Koo" Company, when, according to Mr. Hitchcock, the differences are of technical nature, or thought he would be retained, but which is best settled within the bosom of the family. The main story is that, when Mr. Hitchcock asked a half interest in "Hitchy Koo" to Fitzgerald, Dillingham and Stratford, he retained, or thought he would be retained, but which is best settled within the bosom of the family. The main story is that, when Mr. Hitchcock asked a half interest in "Hitchy Koo" to Fitzgerald, Dillingham and Stratford, he retained, or thought he would be retained, but which is best settled within the bosom of the family.

The case Mr. Hitchcock recently "There is a difference but no distinction." In other words, the differences are of technical nature, or thought he would be retained, but which is best settled within the bosom of the family.

The only way to bring about a settlement, according to Mr. Hitchcock's opinion, is to serve notice, which he has done, that there must be a showdown in the matter of the "Hitchy Koo" company. That the differences are not settled in any sense Mr. Hitchcock

### MUSICAL MUSINGS

By **H. A. ZETTERBAE**

One of the very best records now playing in the theaters is one which the "Sweet Sixteen" has been playing in good fashion at the Grand Theatre, Newark, N. J. This record of mine and orchestra, consisting principally of the Guitars, Steel and Banjo sections, is ready for a big dance record.

Every member of the orchestra plays in the band which gives fully reasons to those of the town and also appears on the stage at each performance. This aggregation of real music, played and acted upon, is the best of its kind in the entire country.

They read music and play music with an accuracy and skill that is not to be surpassed. This is the reason why they are so popular in the theaters and in the streets.

# Learn Music at Home

## -New Way Makes It Easy

Either Playing or Singing—Every Step Made Simple as A B C by Print-and-Picture Lessons That You Can't Go Wrong On.

### TRY IT ON APPROVAL

Entire Cost Only a Few Cents a Lesson—and Nothing Whatever to Pay Unless You Are Satisfied.

How often have you wished that you knew how to play the violin or piano—or whatever your favorite instrument may be—that you could take part in singing?

How many an evening's pleasure has been utterly spoiled and ruined by the admission "I can't sing," or "No, I am sorry, but I can't play."

At all social gatherings some one is sooner or later sure to suggest music. When the others gather around for the fun the one who can take no part feels helplessly out of it—a wall flower—a mere listener and looker on!

Or those long and lonesome evenings at home, when minutes seem like hours—how quickly the time would pass if you could spend it at the piano or organ—or in making a violin "talk," or in enjoying some other instrument.

And now—at last—this pleasure and satisfaction that you have so often wished for can easily be added to your daily life.

No need to join a class or pin yourself down to certain hours for lessons or practice. No need to pay a dollar or more per lesson to a private teacher. Neither the question of time nor expense is any longer a bar—every one of the obstacles that have been confining your enjoyment to mere listening have now been removed.

My method of teaching music—in your spare time at home, with no strangers around to embarrass you—makes it amazingly easy to learn to sing by note or to play any instrument.

You don't need to know the first thing about music to begin—don't need to know one note from another. My method takes out all the hard part—overcomes all the difficulties—makes your progress easy, rapid and sure.

Whether for an advanced pupil or a beginner, my method is a revolutionary improvement over the old methods used by private teachers. The lessons I send you explain every point and show every step in simple Print-and-Picture form that you can't go wrong on—every step is made as clear as A B C. My method makes each step so easy to understand and practice that even children only 7 to 10 years old have quickly become accomplished players or singers under my direction by mail. Also thousands

of men and women 50 to 70 years old—including many who had never before tried to play any instrument or taken a lesson of any kind—have found my method equally easy. My method is as thorough as it is easy. I teach you the only right way—teach you to play

or sing by note. No "trick" music, no "numbers," no makeshifts of any kind.

I call my method "new"—simply because it is so radically different from the old and hard-to-understand ways of teaching music. But my method is thoroughly time tried and proven. Over 250,000 successful pupils—in all parts of the world, and including all ages from boys and girls of 7 to 8 to men and women of 70—are the proof. Read the enthusiastic letters from some of them, which you will find printed at the right—examples of the kind of letters I am receiving in practically every mail. My files contain thousands of such letters. Largely through the recommendations of satisfied pupils, I have built up the largest school of music in the world.

But I don't ask you to judge my methods by what others say or by what I myself say. You can take any course on trial

—singing or any instrument you prefer—and judge entirely by your own progress. If for any reason you are not satisfied with the course or with what you learn from it, then it won't cost you a single penny. I guarantee satisfaction. On the other hand, if you are pleased with the course, the total cost amounts to only a few cents a lesson, with your music and everything also included.

When learning to play or sing is so easy, why continue to confine your enjoyment of music to mere listening? Why not at least let me send you my free book that tells you all about my methods? I know you will find this book shortening interesting, simply because it shows you

# Co-Operation and Salesmanship Needed in Music

By E. M. WICKES

CO-OPERATION and good salesmanship are necessary for the success of any business, says one who has seen the future possibilities of popular music, and the future possibilities of the music business in the popular music industry.

The path the business has taken in the past is a continued effort, with little opportunity being made in the past to take any steps toward co-operation. While some steps have been taken in the past, the business has not taken any steps toward co-operation in the past.

It may seem in business that this step has been taken in several ways, but it is not so. The business has not taken any steps toward co-operation in the past.

The music business of the United States has been the scene of many failures in the past. The business has not taken any steps toward co-operation in the past.

Of the business of popular music has been one who has seen the future possibilities of popular music, and the future possibilities of the music business in the popular music industry.

The business of popular music has been one who has seen the future possibilities of popular music, and the future possibilities of the music business in the popular music industry.

When the average publisher tries to take a business in general, he is not so successful as he would be if he had the co-operation of the music business in the popular music industry.

A home service business, or being the business of the music, will be a good business of any thing, but the music business is not so successful as it would be if it had the co-operation of the music business in the popular music industry.

And, before the music isn't his own, he is not so successful as he would be if he had the co-operation of the music business in the popular music industry.

With the publisher not seeing the future possibilities of popular music, and the future possibilities of the music business in the popular music industry.

This book will tell you, in plain English, how to get the most out of your music business.

It will tell you how to get the most out of your music business, and how to get the most out of your music business.

And, before the music isn't his own, he is not so successful as he would be if he had the co-operation of the music business in the popular music industry.

With the publisher not seeing the future possibilities of popular music, and the future possibilities of the music business in the popular music industry.

This book will tell you, in plain English, how to get the most out of your music business.

It will tell you how to get the most out of your music business, and how to get the most out of your music business.

He shows every artist that he will make, but he will not make the music business in the popular music industry.

The artist should be in a position to see the future possibilities of popular music, and the future possibilities of the music business in the popular music industry.

It will tell you how to get the most out of your music business, and how to get the most out of your music business.

There is a great deal of truth and common sense in the business of popular music, and the future possibilities of the music business in the popular music industry.

## GET WHAT YOU PAY FOR

Advertising space in The Billboard is sold to advertisers only on the following conditions:

1. That The Billboard has the largest net paid circulation of any weekly illustrated newspaper in the world.
2. That the circulation of The Billboard is nearly twice that of any other weekly newspaper published in the United States and Canada.
3. That the net paid circulation of The Billboard is four times that of any other weekly newspaper published in the United States and Canada.
4. That the number of paid-up subscriptions to The Billboard is greater than that of any other weekly newspaper published in the United States and Canada.

Don't accept The Billboard's or anybody else's claims. It is the duty of those who spend money for advertising to see that they get the EXACT FACTS.

Our circulation figures and circulation records are open to anyone in search of advertising truth. Ask The Billboard's circulation in 1931's show world circulation.

"We'll just wash him," said the wife from the other side of the street. "A few days ago, she's going to get a new dress. She'll be in the street."

"What do you mean?" asked the publisher. "I'm a musician. The wife has said."

An hour later the young publisher went into the office and found the door open. He went in and found the door open. He went in and found the door open.

"I'm not sure," said the publisher. "I'm not sure." "I'm not sure," said the publisher. "I'm not sure."

## INDUSTRY IN BAD SHAPE

### PROGRAM PRODUCERS FEAR DEVELOPMENTS OF 1921 PUBLIC AND EXHIBITOR RESENT FLOOD OF INFERIOR PICTURES

The daily papers of New York City are beginning to publish commentaries on whether the motion picture producers are getting more generous and discounting expenses on whether anything is being put through. The third issue will, it is expected, refer to the news of the week that was stated that 2000 men connected with the motion picture industry are to be sent to the front, and that the industry is in a state of panic. They have advised to us, as a result of the past, that the industry is in a state of panic. They have advised to us, as a result of the past, that the industry is in a state of panic.

In reply to this statement article The World has been sent with a long statement denying anything. The World says that it is a daily statement of opinion contained in The World.

The Billboard of January 4, 1925, contains a variety of articles and news items. The main section is a long list of names and addresses, likely a directory or a list of correspondents. The text is dense and somewhat difficult to read due to the high contrast and the way the ink has bled through from the reverse side of the page. There are several lines of text that appear to be the start of paragraphs or sections, but the rest of the page is filled with a continuous stream of names and addresses. The names are often followed by street addresses and sometimes city names. Some of the names are clearly recognizable, such as "Mr. J. M. [illegible]" and "Mrs. [illegible]". The overall layout is a single column of text, with some breaks and gaps that suggest the text was scanned from a page that was not perfectly straight or was slightly damaged.

## **THE BILLBOARD'S LONDON OFFICE**

---

Thru arrangements made with the publishers of "THE PERFORMER," the English theatrical publication, their office at NO. 18 CHARING CROSS ROAD W. C. 2, Second Floor (The Center of British Vaudeville), becomes THE LONDON OFFICE OF "THE BILLBOARD."

American Artists appearing in England will be welcomed at this office. The Billboard will be kept on file, and performers will be given all the assistance and guidance possible, free of charge, of course. The telephone will also be at their disposal.

All American or other readers of The Billboard may also have their mail for British or visiting American artists addressed in care of the London office, and same will be forwarded.

As the arrangements with "THE PERFORMER" are on a reciprocal basis, the NEW YORK OFFICES OF THE BILLBOARD, located in the Putnam Bldg., 1493 Broadway, become the MAIN OFFICES OF "THE PERFORMER" IN THE U. S. A. "THE BILLBOARD'S" home office in Cincinnati, located in The Billboard Bldg., 25-27 Opera Place, and its branch offices in Chicago, Crilly Bldg., 35 S. Dearborn St.; St. Louis, Gamble Bldg., 620 Chestnut St.; San Francisco, 605 Pantages Theater Bldg.; Kansas City, 1117 Commerce Bldg., and Philadelphia, 908 W. Sterner St., will also be Branch offices of "THE PERFORMER," and the publication will be kept on file at each office, affording the British performer in America an opportunity to get a glimpse of his own home journal. In fact, every courtesy possible (including telephone service) will be shown the English artist, free of charge, while in America. Our Mail List will also be at the disposal of British Artists desiring to communicate with their friends in America.
