"The Coin Machines Merry-Go-Round"

By Bill Gersh

A MOST COMPLETE, EXTENSIVE REPORT OF THE SECOND WAR-TIME CONFERENCE WILL APPEAR IN THE NEXT ISSUE OF THE CASH BOX. PRIVATE MEETINGS AND DISCUSSIONS WILL PROVE OF GREAT INTEREST TO READERS.

JOHN BARLEYCORN

A great many coinmen are worried at this time regarding locations where the sale of liquor, beer and wine help to bring them play for their equipment. These places have been hard hit by the liquor rationing program which is more or less voluntary on the part of all liquor distributors. With less beer, wine and liquor to sell many of these places are opening late and closing early. This naturally effects the play on all coin operated equipment in such locations. And with a great majority of the best paying locations in the country being local taverns, the trade is much upset over the fact that liquor is becoming more difficult to obtain.

John Barleycorn has pushed his soggy fingers deep into the cash boxes of coin operated equipment. He has greatly effected collections in many spots already. The average person just won't hang around a tavern to play a phonograph or pinball or other type of equipment, nor purchase cigarettes, peanuts, etc., when he hasn't a glass of beer or liquor of some kind in front of him.

Experts in the liquor field believe that this will not effect the regular trade of these spots. They claim that this shortage of liquor will result in a nation of more leisurely drinkers. They report that the average man will just simply cut down on the number of his drinks and will instead, linger longer over each glass, along the lines of the Europeans who could linger over an apertif at a sidewalk cafe for hours on end.

Regardless of whether this slow-motion drinking will or will not come into fashion in this country, we do know that the lack of John Barleycorn's liquid has resulted in some pretty nasty drops in take and that coinmen are beginning to worry about how to help their better tavern locations get what they need to keep the place just as crowded as ever and keep the play on their equipment as red hot as it always was. Voluntary rationing programs are in effect in some taverns. These do not too greatly effect the play of the machines tho they seem to anger the patrons of such places.

The only solution that can come about for these locations would be for the Federal Government to allow distillers a few months out of the coming year to manufacture alcohol for domestic consumption. The distillers believed that this would come about this past Fall. But in October WPB announced that no domestic alcohol production would be allowed. A tremendous rush for liquors of every type resulted. The liquor trade was so tangled up with this rush that it hasn't as yet recovered. In fact, a great many large liquor wholesale firms are planning on closing their doors from two to three weeks before Xmas for they believe that they will not be able to supply their trade.

In the new tax program just announced by the Ways & Means Committee, 100 proof liquor will be taxed at \$10.00 per gallon. Beer jumps from \$6.00 to \$7.00 per barrel. Many are afraid that this will bring the bootlegger back stronger than ever before. They explain that it costs very little to manufacture a gallon of liquor and with the profit so big and demand so great the temptation is hard to pass by.

"The Coin Machines Merry-Go-Round"

It is our hope that this situation will soon be rectified by an announcement from WPB allowing for a few months of domestic alcohol production which will bring sufficient liquor to the country and will allow for release of present warehouse stocks. Thereby assuring coinmen of their taverns continuing on as before.

COMMITTEE APPOINTED BY OPA

W. J. Smyth, selected by George Toomey to speak for the Office of Price Administration to the coinmen attending the Second Wartime Conference held in Chicago last week (which will be discussed extensively in the next issue of The Cash Box) announced the names of the industry advisory committee appointed by OPA. This committee will attend its first meeting on December 1st to consult and advise the OPA on coin operated machines pricing matters. The membership of the committee appointed by OPA is composed of the following: R.Z. Greene, Rowe Manufacturing Co., Inc., Belleville, N.J.; L.E. Broyles, Rudolph Wurlitzer Co., North Tonawanda, N.Y.; D. W. Donohue, Mills Industries, Inc., Chicago, Ill.; Roy Torr, Philadelphia, Pa.; Nathaniel Lecerone, Automatic Canteen Co., Chicago, Ill.; W.S. Redd, Redd Distributing Co., Boston, Mass.; A.J. Goldberg; Chicago Simplex Distributing Co., Chicago, Ill.; Ben Axelrod, Olive Novelty Co., St. Louis, Mo.; Don W. Clark, California Simplex Distributing Co., San Francisco, Calif.; Howard L. Hultz, Springfield, Ill.; Samuel Kresburg, Miami Beach, Fla.; J. A. Stevenson, Salt Lake City, Utah and A. W. Blendow, International Mutoscope Co., Long Island City, N.Y.

INGENUITY

The ingenuity of the men engaged in this coin operated machines industry is only rivalled by their great determination to have this business continue on for the duration and to continue to go forward at each step so that it will reach its true proportions when victory is ours.

Most outstanding in the field of ingenious developments are the products of the leading revampers. They have proven themselves capable of bringing the industry the type of machines that are necessary for profitable continuance. Not only that, but they have developed into what can be likened to the "bits and pieces" industry of England, where the smaller manufacturers produce so many important items to continue British industrial leadership of Europe.

The fact that many small firms have independently entered into revamping has scattered the manufacture of coin operated equipment. Thruout the East, the Midwest, where coin machines manufacture has always had its home, from the Far West and the South comes word of revamps being created that are capturing great attention. A new gun here and another gun there. A new One-Ball in Baltimore and some in Chicago and also in other parts of the country. A complete new rifle range in the East. Arcade equipment being revamped in almost every section of the nation. Each day more coinmen are demonstrating outstanding ingenuity in creating and manufacturing from the little that is left with which to manufacture.

This unparalleled demonstration of ingenuity is keeping this industry going at high speed. There is no doubt anymore but what it will continue at high speed for the duration. The revampers have brought new interest to many locations thruout the country. The phono men have done remarkable jobs with cabinets. These have met with the approval of operators, location owners and especially the public who, after all, drop the coin into them. In this fashion the phono men have been able to go right ahead bringing their trade just what was necessary for insured, continued profits.

It is especially interesting to note how the idea for revamping has caught on thruout the country. The Cash Box was among the first to recognize the value of the revamper. This publication stepped to the fore and praised these men and also pointed the way to even greater and better effort in this direction. This ingenuity is now keeping alive a great many locations thruout the country. From these efforts have developed a new sect of coinmen who believe that they, too, can continue on ahead with this sort of work.

As we wrote a short time ago, we believe that we shall soon see a great many new and different ideas appearing in this field. We feel that these first revamps were only a beginning. We believe that even greater ingenuity will be demonstrated by the men in this industry. They will keep this industry going at a white hot pace for the duration, and especially immediately after victory has been won. There is now agreement among the leading manufacturers that it will take anywhere from 12 to 18 months after the war is over to once again obtain the necessary materials, make dies, tool, and start the manufacture of new coin operated equipment.

Therefore the ingenuity of the coin machines man is what is keeping him going in these war days. Only because of the fact that he is able to translate his ingenuity into material fact can he be assured of continued prosperity for the future. By this present demonstration of ingenuity he has already insured his future. This industry proves it is not asleep. Men are thinking each day. They are always preparing to get something for their locations that will recapture and revitalize interest. These revamp developments are but the forerunners for the first new equipment that will be produced when the factories can once again manufacture. These revampers will set the pace and probably the course of this industry, too, for sometime to come. It is this type of ingenuity which should continue to be encouraged for the simple reason that it assures all what will be needed from now on in.

"The Coin Machines Merry-Go-Round"

Those that are hesitant and haven't as yet brought out into the open whatever developments they may have so far completed should be encouraged to bring their ideas to light so that all the industry can profit from what they have already accomplished. Only by close cooperation and the pooling of ideas can we assure our industry a strong backbone for the post-war era. This is definitely not the time for jealousies nor secrecy. All ideas should be brought to light. All the ingenuity of the men in this industry should be stimulated and encouraged so that we can be assured of our industry for many years to come.

Who knows but that among those who are now at work in their small basement and attic shops will develop the men who will bring us the products that will lead the way for this industry - tomorrow? Every leading manufacturer should encourage these men with substantial financial reward. All manufacturers ask these men to bring their ideas to them regardless of how niggardly they may think them. The manufacturers realize that from these ingenious developments will appear the products which their engineers will develop for the coin machines world of tomorrow. Encourage ingenuity in this industry for your own future better welfare.

TAXES

The appearance of our article, in this past issue, on "Equitable Taxation", created quite a stir thruout the trade. Not only did it meet with much comment but also brought a flood of letters from coinmen all over the nation.

As one man writes, "There is no doubt that we need something like the 'tax council' you propose. The men in this business don't know where they're at half of the time because of the intricate and involved manner in which we are being taxed. Very few realize what a hardship this will work when the war is won and we have to go along with this same heavy, war taxation upon our shoulders. There are sure to be hundreds of locations desperate for equipment due to the fact that in normal times we cannot constantly buy new equipment and be loaded down with these heavy taxes at the same time. The percentage simply isn't there. You certainly hit the nail right on the head with a loud bang when you wrote that we should create a 'tax council' for this industry to properly guide us and fight for us when necessary so that we won't be taxed out of business entirely."

This letter gives more or less the gist contained in the others we have so far received. Equitable taxation is only asking for something that is but fair to us as an industry and as individuals as well as to the taxing bodies themselves who may not properly understand the conditions under which this industry labors. There is no doubt that the members of this industry are being unfairly taxed in many cities and states as well. But the majority are willing to shoulder the load without a whimper in these times. Once the war is over there is no assurance that these taxes will be cut even one penny. The fact seems to be that they may even have to be increased. Such being the case the creation of a "tax council" now with the proper legal talent and with groups of leaders of this industry engaged in watching the tax situation in various parts of the nation, may act as the ounce of prevention which will become the cure.

The \$10.00 per year pinball license is one that most definitely needs clarification. We are not proposing that someone attempt to cut this down in Washington. We are, instead, proposing that this tax remain, but, on an equitable basis. For example, the seasonal arcades must pay a full year's tax per machine and yet they are only in operation for approximately 3 months. They should be allowed to purchase tax stamps at their local post offices which would cover a 3 month period.

The operators on independent locations should also be given this opportunity. There are a great many locations that do not last for more than three months and by allowing operators to purchase quarter-yearly or half-yearly tax stamps for their machines at their local post offices they would be correctly covering this inequitable version of this present tax law. State and city taxes, too, have been unfair in their methods of collection. These, too, could be gradually corrected as such a body like the "tax council" allows its legal talent to take district after district in the country and correct such evils.

The tax question, we'll admit, is rather delicate these days. Extremely delicate, to say the least. But the very delicacy of the subject itself doesn't mean that there aren't men engaged in this industry accustomed to handling such delicate matters and doing so with such diplomacy that they win for themselves what they want. There most certainly are men of legal knowledge and long legal training who have specialized in tax matters and these men are today, at least one or two of them, a necessity for this industry. If the leaders of this business will come together and arrange for a "tax council" progress will be made.

NOTICE

MARCH, 1942, MARKET PRICES APPEARED
 IN THE SEPTEMBER 7, 1943 ISSUE.

PRICES LISTED ARE CURRENT WEEK'S
 MARKET PRICES.

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

6—Means no prices quoted for this machine for past two weeks.

7—Means no prices quoted for this machine for past three weeks.

8—Means no prices quoted for this machine for past four weeks or longer.
