COMMENT ON CLASSICAL RECORD PHONOS

NEW YORK - The "Inquiring Photographer" of the N.Y. Daily News, Jimmy Jemal, asked the following question this past week, "Metropolitan's basso Alexander Kipnis says he hopes juke boxes playing classics will become popular after the war. Has he any chance of seeing his hope materialize?" (Sometime ago The Cash Box reported on juke in Brooklyn featuring classical records getting very good reception.)

Following persons answered Jemal, Jon Gart, NBC musical director said, "I firmly believe that the post-war era will not only see classical juke boxes in good hotels but dental parlors, doctor's offices and hospitals will install them for the soothing effect it will have on patients."

Lieut. Pat Jefferson, U.S. Maritime Service claims, "It is barely possible." Don McCrane, niteclub ork pilot says, "Yes." Norberto Sanchez, niteclub captain, says, "No. Not in our generation." Perry Como, singer, says, "No". Ted Steele, NBC band leader, says, "I'm afraid not".

CIG MACH MEN NOW SELLING DIRECT

NEW YORK - Cig machine ops thruout the eastern seaboard are, instead of loading cigs in machines, selling them to their locations who are, in turn, offering them only to preferred customers. This new practise reported to be spreading widely thruout country. Claim is that in this fashion the public cannot clean out machines when loaded and that regular patrons of spot have opportunity to get cigs. One cig op reports people following his service cars and cleaning out machines as they were being loaded.

NO. CAROLINA COUNTY OPENS ON PINS

NORTH WILKSBORO, N.C. - This county is reported to have opened on pinball after being closed for sometime now. Games are working on "amusement" basis only. Ops from this town noted in Philadelphia and New York City purchasing used pins.

TREASURY SELLING CARTONS & CRATES

WASHINGTON, D.C. - The Treasury Dept. listed for sale large quantities of various types of containers. Among these was 1,000 corrugated cartons and over 125,000 crates. Sale goes on Jan. 15th. Information on this sale, to be conducted on bid basis, may be obtained from Washington or New York surplus property offices of the Treasury Department.

ALL CONVENTIONS ORDERED OFF IN '45

WASHINGTON, D.C. - Directive being issued by James F. Byrnes, WMB director, will not allow conventions or meets in '45. Belief is that this will cut down on much travel. Hotel men, who will be much hurt, immediately cooperating. Trains will be needed for returning wounded. ODT reports many may be stranded in resorts for first trains taken will be those traveling to resort areas.

SAVANNAH BOWS TO UPPED LICENSE FEE

SAVANNAH, GA. - Ops here not offering much opposition at this time on new upped license fees. Pins will jump from \$50 to \$75. Phonos hike from \$5. to \$15 per year. Youth delinquency survey now being conducted here has already hit at pinballs with adverse publicity. Ops claim withholding fire until things quiet down and they can discuss upped fees in calm atmosphere with council.

MUSIC OPS BOILING AT ALL RECORD MFRS

NEW YORK - Letters received from music ops from all over country to effect that leading record manufacturers are not cooperating with industry, regardless of all statements they made. Many recall phono biz picked record trade out of dumps and helped place records at present point of popularity. Ops feel trade should make note of this poor cooperation.

"The Coin Machines Merry-Go-Round"
by Bill Gersh

"AN APPEAL"

The Cash Box has received a great many letters of commendation regarding the work it has done, and is doing, in behalf of this industry.

Some of these letters have stated; "The Cash Box is the one and only publication which has done such grand work for this trade."

Some letters were critical. This sort of letter was appreciated by The Cash Box, especially when the criticism was constructive. Such letters, many times, helped to open new vistas toward which this publication endeavored to rise.

These letters of commendation, naturally, elated the staff of this medium. In its short span in this industry, The Cash Box likes to believe that it has won a great many friends.

These friends are as eager as this publication's staff to help vitalize the confidence of the men engaged in this business.

The Cash Box realizes, tho, that to continue on to do this work it has started, it must receive more than just these letters of compliment, as valuable and treasured as they are. It must have the all out support of these writers.

As one coinman stated, "The subscribers to The Cash Box are the kind of people who lead this industry."

It is tremendously pleasant to hear such words. Sure, The Cash Box could probably get more business were it able to state that it also goes to "suckers" or, to give this ugly word its correct definition, "storekeepers".

The Cash Box makes no such statement. The Cash Box feels that its subscribers are the true leaders, the real buyers and sellers, in this business.

The Cash Box believes that an intelligent, well informed man, is a man who will help to build and further grace an industry and forever be an asset to it.

The Cash Box is of the opinion that this industry will only continue on to greater heights than it has ever before reached in the American business world, if it is comprised of intelligent people.

Therefore, to those who state that The Cash Box subscriber is the "smart guy" of this business - thanks.

Those who believe, like The Cash Box does, that only by intelligent understanding of the true facts will an industry (or a nation) grow great - then to those men do we desire to make this appeal.

WE APPEAL TO THESE MEN TO WORK WITH ALL THEIR MIGHT AND MAIN TO HELP MAKE THIS ONE OF THE GREATEST AND GRANDEST AND MOST OUTSTANDING INDUSTRIES IN AMERICA.

"The Coin Machines Merry-Go-Round"

DISTRIBUTING-OPERATING POOLS

Some coinmen have been somewhat disturbed by the creation of distributing-operating combines. These, they claim, have been set up in an effort to control complete territories. Many such pools, they report, have been formed in various sections of the country. Yet such combinations, in general, are today considered a natural resultant of present business conditions.

This wartime period has taught many in this industry that the best and most profitable division at present is operating. Coinmen have learned how to operate during this war. They have earned their greatest profits operating.

Today these men want to maintain their operating units as a nucleus, and as the basic profit factor of their businesses. They also want to go ahead, while maintaining their operations, to lead their territories in distributing the products of the factories at the same time.

To accomplish this they have pooled their interests with others in the same or even outside, territory. In some cases they have thereby created combines of outstanding strength. These naturally attract the attention of the trade.

It is only good business to believe that the man who has operated successfully, and who knows how to sell, is the man upon whom this industry can depend to continue its growth. Therefore such men, desiring to enter into the distributing picture, must be given all due consideration.

It is also well to remember that the combine which does control the greater majority of locations in a certain territory, is the outfit to tie to, as far as the average producer is concerned. This means almost instant and complete distribution. It can also mean success from the standpoint that such firms will know how to intelligently guide whatever operators they will create.

The distributing-operating pools which have been created thruout the nation are but a natural advancement, the outcome of business progress. Such pools are today being discussed in many industries thruout the nation. The electrical appliance field has been studying the distributing-retailer pools which have been created in its field, and finds them of good value and of general benefit. Other industries, too, are favorably inclined toward such combinations.

Whether or not such combines will be able to continue successfully in the post-war period will only be noted at that time. There is no doubt that at the beginning of the post-war era, such combines will probably attract much attention to themselves. But whether they can outlast former business procedure is something which only time will tell.

It is doubtful whether these pools can control both the locations and the sales of a product. The new blood that will enter into this industry will only do so in the belief that it can obtain locations for the equipment it will purchase. The combines will have to allow these men certain locations in which to operate successfully, so that this new blood can continue on prosperously and thereby remain good future customers.

This is one problem which will have to be solved by the combine itself as it continues on its way in this industry. Many other problems will come up. Some are already making themselves manifest. These combines will yet have to go thru their growing pains period. It is much too early as yet to gauge their full effectiveness or importance in the coin machines merchandising picture.

NATIONAL FORUM FOR JOBBERS-DISTRIBS

In the past few months there has developed within the industry, and among many of the most noted jobbers and distributors, a demand for a national forum. The basic idea for such a meet being that these men become better acquainted by discussing their problems openly with each other in national forum, and at the same time arranging a method for recognition which will help to gain greater respect from the operators.

Basically, the plan is logical. The buyers in this, or any other industry, should not have to worry whether its distributors and jobbers are financially reliable and will live up to any promise they might make. In the drug and grocery fields, the distributor and jobber is looked up to with great respect. He has won prestige. He is considered the leader in his business. His brand name is just as outstanding, and just as impressive and salable, as are the national brands that he also features.

"The Coin Machines Merry-Go-Round"

The average coin machines distributor believes that he, too, should be given this sort of respect. There is no reason why he shouldn't. Many of this nation's distributors have gone far out of their way to help build financially independent operators in their territories. Many of them can recall when they almost forced machines on certain of their customers, for which these customers can thank them most sincerely today. In short, the coin machines distributor has been an important figure.

But nationally he hasn't gained that rank and prestige and respect which can assure him better business understanding. This is his reason for calling all the nation's distributors and jobbers into national forum. By so doing he hopes to become better acquainted with the other members of this division of this industry. He also hopes to arrange for certain qualifications, for anyone entering into his division, which will gain greater respect and prestige.

An annual, national forum of the nation's coin machines distributors and jobbers should bring about a great many benefits to the trade. By a closer and better understanding of each other's businesses, these men can help all concerned with the industry. They can eliminate much that is proved evil. They can also add much that would prove of good value. They can, by agreement among themselves, be the moving force to raise the spirit and charge the confidence of all engaged in this industry.

THE "NEW YEAR SPECIAL" ISSUE

The "New Year Special", the very next issue of The Cash Box, will be one of the most outstanding ever published. Not only will it be outstanding because of the ads which will appear in that issue, as well as the announcements that will be made, but even more so from the fact that in this issue will be featured one of the most advanced, progressive and important editorials ever yet read by this industry.

The "New Year Special" issue is thereby sure to gain the complete attention and interest of the trade and be read and re-read for many weeks to come. It is going to bring out a new progressive idea long sought after by many students of this industry. It opens a tremendously great and new vista for all in this business. It offers operators, jobbers, distributors and manufacturers alike an entirely new angle.

The importance of the "New Year Special" issue therefore grows greater with each passing minute. This notice regarding the editorial feature should stimulate many to act with great alacrity. Those who haven't as yet sent in the type of ad which they feel is in keeping with the importance and spirit of their firm for such an issue - should do so immediately by wire or airmail or even by long distance telephone.

"IT'S IMPOSSIBLE, BUT WE'LL DO IT"

With those dramatic, smashingly confident words, two Admirals of the greatest Navy in the history of the world, the United States Navy, did the job of landing marines on Tinian Island, where the Japs thought it was impossible to land and where military experts said that even if a landing was made it could not last.

These two Admirals - Admiral Richard Kelly Turner and Admiral Harry W. Hill, when told by General Holland M. Smith where he wanted to land his men replied, "It's impossible, but we'll do it."

And because they did it, the United States now has the finest air field in the Pacific located on Tinian Island, only 1,500 miles from Tokyo, from where the B-29's are now taking off to bomb hell out of the Japs.

Just as many times we've heard coinmen state that many things were impossible. They said it couldn't be done. That the men wouldn't work together. That there was no logical nor legal way out. That the only thing to do was to just roll along and pray.

To those men in this industry who should ever again believe that anything is impossible of accomplishment, let the words of Admirals Turner and Hill flash up like a lighted sign to give them greater confidence, "It's impossible, but we'll do it."

"TALKING OUT LOUD"

URGE USE OF HANDICAPPED VETERANS

LEADERS URGE COINMEN EMPLOY RETURNED HANDICAPPED VETERANS IN OFFICE AND REPAIR DEPARTMENTS. BELIEVE THESE MEN WELL FITTED FOR THIS WORK. PROGRAM TO START IMMEDIATELY.

NEW YORK—Leaders of the industry from everywhere in the nation have come together as one voice to urge the trade to employ returned handicapped veterans of this war.

The general belief is that most of these veterans being returned from the front lines have lost fingers, limbs and have other similar injuries, are well fitted for the inside work of this industry, especially in office and repair departments.

Many are also of the belief that these handicapped veterans will work out very well as location solicitors and good will ambassadors covering the various locations of operators. There is also a belief that as collectors these men will prove extremely well fitted.

Some operators, who have extremely large routes and use supervisors to cover these, will find these returned handicapped veterans perfect for this position.

"Not only is this a patriotic duty", one noted leader writes, "but this is an opportunity for members of this industry to once again prove to the country that they are always 'first' in helping as well as working for a future, better peace.

"The work which you have already done in The Cash Box in this direction, in many of your past editorials, in my estimation, makes you best fitted to drive home this message to the trade.

"There is surely room for these men in dozens of different positions in this industry. Not only will this help cure the manpower situation for us, but it will start this industry off first among all leading industries to recognize that these returned handicapped veterans must be given preference for positions in American industry."

This is similar to a great many other messages which The Cash Box has received these past weeks. All urge the men in this industry to employ returned handicapped veterans.

The steel industry has already evolved a program for employing these men and is finding them of exceptional value. Many other industries are also taking in handicapped returned veterans and are finding them very good material.

These men have been found to work with real zeal at any job they get. They have also been found to be very well trained in many of the technical arts and therefore the members of this business will find them very well fitted for the mechanical intricacies of their repair departments.

A national movement in this direction is being called for at this time to make possible immediate installment of returned handicapped veterans everywhere in the trade.

It is the hope of many leaders in this business that the trade will make every effort to employ these men. Operators, jobbers, distributors, manufacturers and all others allied to this industry are urged to make application for these men with USES and other government agencies as well as thru the American Legion and other veterans' organizations advising that they will employ handicapped veterans. Specific outline of the positions for which these men will be wanted should also be given to these agencies so that the proper men can be had.

URGES LOTTERY TO OFFSET TAX LOSS

BOSTON, MASS. — Former Lieut. Gov. Francis E. Kelly has just proposed a state lottery as a means to replace the \$6,000,000 in horse and dog race revenue which will be lost as a result of the closing of tracks in this state.

In a letter to Tax Commissioner Henry F. Long, Kelly wrote, "A state supervised lottery could be conducted with practically no expense. Tickets could be sold by existing town, city and state agencies or departments with no drain on manpower and with a minimum of wasted time and effort.

"Plenty of spare money," Kelly says, "is now available in Massachusetts and New England. Here is an opportunity for a progressive state with courageous leadership to obtain new revenue of many millions of dollars by a voluntary contribution system rather than a tax".

In 1940 public voted 805,000 to 325,000 in favor of state supervised lottery. Possibly with large revenue loss from dog and horse racing this may now become fact. Coinmen here believe this will not harm coin operated machines.

BITING TAX BUG WORRIES COINMEN

NEW YORK—More letters continue to arrive at the offices of The Cash Box from coinmen thruout the country who are worried that the tax bug may bite with intense deepness in their territories.

Some of these men state, "In view of the fact that horse racing closes in our state this month we expect that, with the legislature in session, some sort of action will have to be taken immediately to restore this tremendous loss to the state's revenue."

Many other reasons are also given by these men who believe that the tax bug's bite will be more severely felt this year than ever before by the trade. They are all of the opinion that a National Tax Council should be immediately created for the benefit of the industry.

One coinman writes, "Since we do not have anyone to whom we can turn in times of stress why not appoint The Cash Box and yourself as the working force this time and help us by shooting special messages to the trade so that we can get information from others?"

The Cash Box has been doing this right along and will continue to do so with even more frequency in '45. Therefore any coinmen who run up against the tax bug should immediately communicate with The Cash Box which will instantly publish the news so that these men will get help from others who may have already been successful in the same matter.

LAST MINUTE CLOSING DATE FOR PRINTED PAGES & HALF-PAGES FOR NEXT ISSUE WILL BE JAN. 10.

PARAMOUNT PIC LETTER TO AOA

NEW YORK—Last week AOA (Arcade Owners Assn.) thru its attorney, Herman Brothers, reported that Paramount Pictures, Inc., had assured this organization that their new picture, "Cheezit The Cops", built about a Penny Arcade locale, would in no fashion harm the arcade.

Brothers encloses the letter which Paramount has just written to him regarding this statement:

"We checked with our studio regarding the use of a penny arcade as one of the locations for the above production. We have received assurance that this picture does not show the amusement arcade as contributing to juvenile delinquency. Nobody connected with the arcade in the picture is associated with the murderer nor is the place a hangout for crooks".

The good and immediate work of AOA's attorney on this matter is receiving great commendation from the arcade trade.

WANTS LISTING OF JOBBERS

CHICAGO — Mack H. Postel, this city, vending machine jobber writes the following regarding the suggestion made by J. H. Maloney of Toledo, O., that jobbers and distributors be listed.

"Read with interest the suggestion of J. H. Maloney that you list all jobbers and distributors in your forthcoming issue. I heartily approve of this step. It will give the general trade a concrete listing of 'Who's Who' in the coin machines business."

5 BALLS FOR 5c NOT TO BE ON GAMES

BRATTLEBORO, VT. — Hal L. March of this city suggests that, "I believe it would be a very good idea if manufacturers would not put a sign on pins '5 balls for 5c'. It is easy enough for the location to tell them about the machine and in a great many instances if no definite number of balls are mentioned, free plays can be given without mentioning that also."

Look To The GENERAL For LEADERSHIP

THE NEWS BEHIND THE NEWS

WE'VE all become adept at looking behind every story these days and the facts behind the General make good reading. It's only natural for the General to have taken the position it holds as one of the country's foremost distributors of coin machine equipment. It wasn't just a spurt, but a slow and steady growth that came as a result of broad experience and a determined policy to supply only the best equipment and the type of service necessary to the operator's best interests . . . a policy we've maintained continuously since 1925.

ESTABLISHED 1925 —

GROWING STEADILY EVER SINCE

MEMBER U. S. CHAMBER OF COMMERCE

NEW HOME OF *Bally* PRODUCTS

MODERN 125,000 SQUARE FOOT FACTORY TO TRIPLE BALLY PRODUCTION

Future plans of the Bally organization call for production of new games immediately after the defeat of the enemy. For this purpose the new enlarged Bally plant, illustrated below, and now in full production on war products, is designed to insure rapid conversion to the products of peace.

In the post-war era, as in the past, "you can bank on Bally" for the newest in money-making coin-operated equipment. Lion Manufacturing Corporation, manufacturers of Bally games and venders.

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

Copyrighted 1944 by The Cash Box, 381 Fourth Ave., New York 16, N. Y. Production in whole or part forbidden without written permission from the publishers.
