

"The Coin Machines Merry-Go-Round"

by Bill Gersh

It has been with tremendous interest that The Cash Box has read the many, many letters which have arrived daily telling more and more about the record situation as it exists all over the nation at the present time.

Without fail each and every letter registers the complaint that records, in any quantity at all, cannot be purchased from the regular record distributor.

It is a sad and sorrowful fact that this industry, the business that helped to pull the record manufacturers out of the lowest dumps of despair, the trade that was catered to and fawned upon by these very same record manufacturers, for this field to have to report that the very men it helped to the top are now the men who are biting the hand that fed them and, in fact, that is still feeding them and thereby making them more powerful each and every day.

It is sad to have to read that men who had "open account" arrangements with the leading record manufacturers for thousands of records, if they desired them, are now told to go to the retail stores in their communities to purchase records - AT TOP CON-SUMERS' PRICES.

It is sad to read that most of the music machines men in the nation cannot even get what they want in a retail record store if they identify themselves as coin operated music machines men. The retail store, too, seems to want to dodge these men, for some reason or other.

It is sad to hear that coinmen have been forced to tip clerks, porters, salesmen, stock boys, etc., to get a few records. The coinmen who made possible the jobs of these employees of the record distributors.

It is sad to read that some coinmen have even gone to the extent of lending their trucks to record distributors to help these latter deliver records all over the town to retail stores, so as to be able to get a few records for themselves.

It was certainly a shock to read that a returned soldier, after being hospitalized, after leaving his route in the hands of a relative, came back after two years of bloody warfare to learn that this firm could no longer obtain records from the sources that formerly were so eager to sell him. And was told, after he explained that he had just been honorably discharged and was trying to become rehabilitated to the ways of the civilian, that this didn't matter one damn bit to these record distributors. These same distributors of the manufacturers who "wave the flag" and tell all about what grand things they are going to do for "our brave boys when they come marching home

It's sad to read that a music machine operator, who has dealt with certain record distributors for years and years, now has to obtain records from various sources thruout the nation. Has to place used records on his machines. And that he is charged \$1.00 each for whatever records are sold to him. This in thanks for what he and his machines helped to do for these very same people when they had no other source but his music for sales of their merchandise.

It's sad to read that one record manufacturer's branch office in the deep South shipped in five cases of lamps without order, but no records. Then two cases of lumilines without an order, and still no records. But when The Cash Box mentioned names and printed the facts openly these southern music men, all of them, suddenly received 200 records each. These same men who hadn't received a record in over 5 months from this same record distributor, and were told that they weren't going to get anymore records because they wouldn't let this manufacturer's branch office jam them with lamps and lumilines and needles they didn't need.

Isn't it sad to think that here in this great coin operated music machines industry which was among the first to win national praise from the Secretary of the Treasury for what its instruments did and are doing to help the war effort, that has creat-

### "The Coin Machines Merry-Go-Round"

ed the most effective music network in the nation, that has made star after star, that has been instrumental in bringing to America the music it wants and loves - economically, that has backed canteens and youth clubs and that has gone all out to see that its machines play the music that helps build and maintain morale, isn't it sad to think that this industry has to be kicked around by the very men it helped to the top?

The very few complaints that have been outlined here are as nothing compared to the number which have since reached The Cash Box and still more continue to pour in daily.

And while all music men arm themselves in this fight to get the record manufacturers to grant more equitable distribution of their record quotas - along comes a 25¢ newsstand magazine that caters to burlesk and pitchmen, as well as to this trade, to DEFEND THESE VERY SAME RECORD MANUFACTURERS. And claim in an article that all this "does not stand up under close scrutiny". This magazine has suddenly decided the music machines field is NOT SUFFERING from lack of records. We can only leave the accuracy of this magazine's statements to the judgment of the music machines men themselves.

And this isn't all. From all over the nation comes word that small record stores and record departments in larger stores are popping up like mushrooms. That the the record distributor claims he cannot sell coinmen records because he hasn't enough to sell, and that he won't recognize anymore new dealers because he can't handle the business he already has, all these new record stores suddenly blossom forth with shelves full of records, the very latest recordings, the records that are sold to operators only after these stores have already featured them for many weeks.

And all the while this item is being written more and more letters continue to pour into the offices of The Cash Box about the record situation. These are now being reported as rapidly as time and space will permit so that the record manufacturers and their distributors can read them - in print. These same manufacturers and their agents who won't answer the letters of the men whom they are mistreating. Who won't even grant them the courtesy of a reply.

This industry never did claim anything for itself that didn't belong to it. No operator wants anything that isn't coming to him. No man in this business seeks to take advantage of anyone who supplies him. All he wants is fair and equal treatment and a little consideration for the efforts he put forth in past years to help make a helluva lot of people rich. Firms who now prove that they certainly don't deserve what he did for them.

All this is but part of the present record situation. Nor has any manufacturer claimed that it will improve when peace returns. In fact, all that the record manufacturer has done is to openly advertise in large, brilliant, expensive advertisements to the public that when peace arrives they will be able to supply the public with even more records than they are now doing. Not a word to this trade. Not a word to the men who are fighting so hard to hold their businesses together under these trying wartime conditions.

All this is but a small part of the story. It's a story that is much, much too long to complete in detail in one week's issue. It would take months to feature all the letters received. But, of what value are these, unless the men of this industry, these men that are being pushed around, do something to halt this sort of treatment?

The solutions these men have brought forth are as follows: 1) Boycott all the present record manufacturers for a period of some months until the distributors come around. 2) Meet with the "big 3" record manufacturers and get to some agreement with them regarding more equitable distribution all over the nation, if these manufacturers will agree to such a meet. And 3) Buy out a leading record manufacturer or create a new record company for the trade by all music men investing in it to make records exclusively for coinmen. (One Baltimore music man claims that far over 1000 operators. will invest \$1,000 each to create a record company. An Indiana coinman is willing to invest \$5000 and believes that many others will, too. Some state they will go along with whatever investment the trade decides upon.) This idea is for the trade itself to work out between itself in a national meeting for that purpose.

WHAT DO YOU BELIEVE IS THE PROPER AND LOGICAL SOLU-TION TO THIS RECORD PROBLEM?

### "The Coin Machines Merry-Go-Round"

## SCHOOL FOR COIN MACHINE MECHANICS

For sometime now The Cash Box has been urging the members of this industry to create a school for coin machine mechanics. This need grows more important hourly. It is the one way which this industry can use to hire the veterans of this war. It is also the one logical method for this industry to insure itself rapid post-war growth.

The need for a National Tax Council, a National Credit Bureau, a Public Relations Bureau, a National Coin Machines Board of Trade, and the many other progressive suggestions made by The Cash Box to help benefit this industry will eventually come into being as more and more men in this industry note what a great influence for their future good and welfare such organizations will be.

The fact that The Cash Box has been urging the trade to insure its locations remaining its locations by getting its retailers to sign legal and binding agreements is something that a great majority have already adopted.

Others have taken advantage of the 70%-30% commission basis proposed by The Cash Box for sometime. The new 12 P.M. curfew is forcing others to also adopt a better commission basis and many are now using this suggestion with their organizations and with fellow operators in their territories.

But, for some reason or other, and even tho all the trade agrees that a School for Coin Machine Mechanics would prove invaluable, none have yet come forth to help get such a school under way.

It certainly wouldn't be too strenuous nor too difficult for the leading distributors, jobbers and operators in each territory to meet and arrange for the creation of such a School.

If these men feel that they cannot personally handle the school, there are many independent trade schools that would be extremely happy to arrange such a course with the help and guidance of these coinmen. Such trade schools are scattered thruout the country. Their advertisements are everywhere. A committee should be appointed by the men to speak with the heads of such schools and choose the one they feel would be best for them.

These men could loan their best mechanics to help such a school get started. The average coinman would agree to employ the graduates of such a school. This was proved by the survey The Cash Box made sometime ago in this regard. In fact, in this survey, many were even willing to pay the tuition for the men who would attend the school. In this way the school has nothing to lose and everything to gain.

Technically minded youngsters, who want lucrative and steady positions, should be given every encouragement to attend such a school. Certainly the technicians created by the Army and Navy, and who have been honorably discharged, would fit right into such a course. In a very short time these men would prove to be the mechanics needed by the trade.

A great many operators would like to enlarge their present routes right after the war is over. But to properly expand their operations, and to insure correct, efficient and profitable growth, they must have the type of well trained mechanics upon whom they can depend to take care of their equipment. Without a sufficient number of properly trained mechanics to cover their routes there is no use in expanding now, or later.

Furthermore, with much new blood expected to enter the field these men, especially, will require the use of trained mechanics. As is well known, the average man who enters into this industry knows very little, and in most cases absolutely nothing, about the intricacy of the mechanisms in present machines. Therefore such a man, to be assured of any sort of success whatsoever, will require good mechanics to aid his every effort.

From every standpoint there is a very great need for a School for Coin Machine Mechanics. This was first proposed more than 14 months ago by The Cash Box. Now as the war in Europe draws to a close and with approximately 100,000 men being released from the armed services each month, its importance and need grow even greater.

This is the time for the leading men in each territory toget together and arrange to get such a school under way. Every firm in this business can use one or two or more mechanics right this minute. This necessity should not be ignored any longer.

Some enterprising coinman will find opening such a school extremely lucrative. He should make it his business to do so now. "TALKING OUT LOUD"

## TAX SWING IS TO PERCENTAGE OF TAKE

#### STATE AFTER STATE SWINGS INTO PARTNERSHIP WITH COINMEN. NEED FOR NATIONAL TAX COUNCIL DESPERATE. OPS SEE THEMSELVES AS HUGE BOOKKEEPING INSTITUTIONS. PERCENTAGE OF GROSS CONFISCATORY.

NEW YORK—The greatest tax grab that this industry has ever faced is now traveling at breakneck speed from one state legislature to another thruout the nation. Coinmen are bewildered by the rapid fire methods being used by state Assemblies and Senates thruout the country to obtain as high a percentage of the gross take as they possibly can.

Highest yet is the bill introduced into the Assembly in the state of Washington wherein 60% of the gross take from gaming devices is being asked. At the present time this state is obtaining 20% of the gross take.

Other states where bills started out asking for large license fees have now been changed to ask for a percentage of the gross. This happened in Texas. But Texas coinmen are of the hope that this bill has been killed.

The entire industry sees this swing as a new gigantic grab making the states partners of the coinmen. In this fashion a large amount of bookkeeping will result. It will mean that every coin machines man will have to face accounting and bookkeeping problems that he never before was forced to undergo.

But this is only the most minute part of this great and confiscatory tax swing thruout the country. State after state reports in that the legislators suddenly reverse themselves and ask that a percentage of the gross income from coin machines, especially amusement and music equipment, be obtained.

With the Treasury reporting that there will be no lowering of present high tax rates for sometime to come because of the tremendous need, states are hurriedly seeking for means to assure themselves as much revenue as they possibly can.

And, as is the case each time the state legislatures meet, this industry is among the first to be pounced upon for tremendously increased revenue. The average state feels that coin machines should pay the limit. If this continues there will absolutely be no business from which the states can grab.

But all this is also being made possible because of the fact that there is no national guiding force for this industry. A national Tax Council is now a desperate need.

The following are but a few of the states that are now in the midst of tax problems.

Arkansas, Georgia, Idaho, Indiana, Maine, Maryland, Missouri, Montana, Nebraska, Oklahoma, Oregon, South Dakota, Utah, Washington, Texas, and many others. At the same time many individual communities are also facing new tax bills and counties have also entered into this grab.

It is not necessary to remind the industry that once a tax gets into being it is among the most difficult things in the world to cut it down. It always goes up.

Therefore should this new trend that is sweeping the nation become any stronger even those coinmen who feel secure in their states, cities and counties, will be facing confiscatory tax legislation that will cost them a great amount of money which could be tremendously cut at this time by helping in the creation of a National Tax Council as the proper preventative.

#### MURDOCK-BENNETT-WAYNE ASSOCIATES, NEW FIRM

SAN FRANCISCO, CAL. — E. Geo. Bennett, this city, reports entering into new firm with George Murdock, formerly regional manager for Rockola Mfg. Corp., and Willard Wayne, electronic engineer.

The firm will be known as Murdock · Bennett - Wayne Associates and are temporarily located at 1797 Union St., this city.

Bennett reports that the firm have been granted a franchise by Rockola Mfg. Corp., to distribute its products in Northern California, Oregon, Washington, Idaho and Nevada.

He also reports that offices in Portland, Ore., and Seattle, Wash., will be opened at a later date in addition to the offices in this city. RICHMOND, CAL.—Jess Copestake who made his home in this city, and was well known to all operators in the San Francisco area, passed on February 28, 1945 at the age of 45.

JESS COPESTAKE PASSES

Jess was considered one of the cleanest operating members of this industry and won a host of friends in this trade by his fine and upstanding operating policies. Friends here mourn his loss and the general belief is that the industry has lost one of its finest men.

#### **RECORD SALES VOLUME SINCE '32**

NEW YORK—Interesting to the music machines trade are the record sales figures since 1932 which are repeated here. These appeared in Musical Merchandise magazine and are also being reproduced by same in this trade.

Note how the volume sales gradually zoomed upward after the introduction of the modern coin operated phono. This should prove of very good interest to this trade. It should also be remembered that as more and more music machines were sold, and began to spread all over the country, that the volume of record sales continued its upward climb.

Prior to the war it was believed that approximately 400,000 machines would be on locations. This figure has been disputed with many claiming it never reached beyond 300,000. Even if a lower figure is used to gain some idea of what percentage of these sales were to coin operated phonograph firms the volume is extremely impressive.

Furthermore, this sales volume gives some idea to the trade that instead of less records being manufactured during the war years, more were made. And instead of the coin operated music machines industry receiving its equitable share — less records resulted.

The average phono operator in this country is today forced to purchase anywhere from 75% to 90% of his records from retail stores at top consumers' prices. Many coinmen have opened stores of their own in an effort to obtain records. Others have been forced to various other means. The music machines trade is now fighting to gain equitable distribution of the quotas allowed to be manufactured.

Use your own good judgment in going over the following figures:

Records

| our        | own | goou |
|------------|-----|------|
| Yea        | ar  |      |
| 193        | 2   |      |
| 193        | 3   |      |
| 193        |     |      |
| 193        | 5   |      |
| 193        |     |      |
| 193        | 7   |      |
| 193        |     |      |
| <b>193</b> |     |      |
| 194        |     |      |

**Dollar Volume** 

By Joe Orleck A 1945 Copyrighted Feature of: The Cash Box, 381 Fourth Avenue, New York (16)

Roy Bazelon, Monarch Coin Machine Company, Chicago, Ill. announced that he has purchased a government surplus of electrically operated practice guns used in Navy training. The item is one of the first government surplus releases ever to be offered to the Coin Machine Industry, and it is reported the purchase involved a total of three carloads of guns.

"The guns provided an opportunity to offer operators something entirely different and more realistic than ever before known in amusement equipment", said Bazelon in explaining the purchase. "Principals connected with the purchase have formed an organization to handle sales and distribution", continued Bazelon 'and the company will be known as the Electric Machine Gun Company, with headquarters in Chicago. Between now and the time of release to the trade, the guns are to be refined and converted for use in Arcades, Parks, etc. as are other types of gun ranges in use today. The converted gun will be highly accurate and will fire up to 250 shots a minute. Each gun has its own built-in compressor."

Plans for marketing indicate that the gun will be available sometime during the coming summer, at which time completely detailed information will be released.

THE CASH BOX

#### MARCH 20, 1945

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

### FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

### **METHOD**

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week: Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

### CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

- MEANS PRICE WENT UP.
- 2. MEANS PRICE WENT DOWN.
- 3. MEANS MACHINE JUST ADDED TO LIST.
- 4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
- 5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
- 6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
- 7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
- 8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

# **IMPORTANT**

Machines underlined mean these were most active in trading the past week.

**NOTICE !** March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
