op Service

Help yourself to effortless service! Through the front and top of the Mills Constellation lie all the parts most frequently serviced—not hidden deep down inside, but up handyhigh, within accessible reach. Service your machine—change the records, needle, title strips, empty the coin box and check the play counter—all without once bending into an uncomfortable position. You "stand" to make more money! Mills Industries, Incorporated, 4100 Fullerton Avenue, Chicago 39, Illinois.

greater prosperity because there was more moral spening. Now that someone, somehow, somewhere, has again advocated the opposite of this economic fact—there is a recession period in being, due to the very lack of spending on the public's part.

Coin machines are, therefore, of real value to the economic good of this country. They have brought retailers ready cash. This has, in turn, helped all others in this same community. It has given the bankers the chance

Page 4

Week of May 19, 1947

WHAT'S THE ANSWER TO MUSIC?

CHICAGO — Just the other day, at a very big meeting of noted music operators, one of the participants in an open discussion stated that he could not see why the .manufacturers should charge more for their post-war music machines because they hadn't put anything on those machines which would help the music operator to earn more money.

He was right. There is nothing added to the present machines, aside from many fine mechanical and design improvements, which didn't exist prior to the war. But, as the manufacturers explained, they now pay tremendously increased prices for materials and components and especially for labor and other overhead so that they are forced, because of these added costs, to charge more for their present automatic music equipment.

There is only one answer to this operator and to every operator in the nation regarding what can be done to earn more money with the present music machines—and that answer is within the power of the operator himself. He must, imperatively must, arrange for a better commission basis with each and everyone of his locations if he wants to survive the present era of higher priced machines, greatly increased overhead and the payment of the new and bigger taxes which are becoming law everywhere.

It makes no difference whether he arranges for a 75%-25% precentage basis with his locations, whether he gets \$10 per week front money, or whether he gets 1% or 2% of the total installation cost each week, or whatever other method he adopts—BUT HE SIMPLY MUST ADOPT A BETTER COMMISSION BASIS — IMMEDIATELY!

There is nothing whatever wrong with music. In fact, people are playing more music today than they ever played before in all the history of this nation. They are dropping more coins into juke boxes than they ever before did. They are spending more for records and home musical instruments than ever before. The American public has absolutely gone hog wild over music. Therefore, the profits are there—but—they must be divided intelligently between the operator and the location owner. THAT'S THE ANSWER!

Regardless of the location and and regardless of the equipment—there are only so many hours of peak play. Usually these hours from about 9 or 10 in the evening until 1 or 2 in the morning. That's all! Therefore, even if the average phonograph played continuously for the three or so peak hours each evening for the six or seven days of the playing week there wouldn't be enough money in the cash box—on a 50%-50% basis—to amortize the present equipment, regardless of the depreciation or the most efficient and intelligent operation.

There is ONLY ONE ANSWER—and THE CASH BOX has been advocating it for over four years now. Those who have already adopted it find that they are actually earning money with music and are completely satisfied with their present costs. THAT ANSWER IS A BETTER COMMISSION BASIS!

The intelligent operator realizes that the higher priced equipment is the finest thing that could ever have happened for his benefit. It simply means that newcomers will stay out of the juke box business for they will never want to make an investment of so much money, to work so hard and to earn so little. This is, then, a business for the professional and established juke box operator. And, it means that because it is definitely his business today — that he must make it a better business by establishing a new and more equitable commission arrangement with his locations.

The average juke box operator has gone in for location agreements. He has tied his spots to himself just as strongly as he possibly can. The legal contracts and leases which he has arranged between the location owners and himself at least assure him of some semblance of security. He will retain his locations. But—that doesn't mean that he'll make money in those locations. Contracts, agreements, leases and all other legal methods which can be adopted to tie up spots don't mean one blessed thing if the operator hasn't arranged for a really better commission basis between himself and his location owners.

Agreed that there are always 1% or 2% of the locations in any community which can still be operated on a 50%-50% commission basis. These are those fabulous \$80 and \$100 per week locations. But, how many are there in any community? Maybe two, three or four—but few more. Therefore, the locations on which the average operator is dependent are the spots where the take is only "average" or "below average"—and this can mean anywhere from \$5 to \$20 per week gross. On that basis the operator could never amortize the cost of a new location set-up in three years or even in four years.

The Cash Box once again urges that its suggestion and proposal of over four and a half years ago be immediately adopted by every juke box operator in America—ARRANGE FOR A BETTER COMMISION BASIS! And The Cash Box suggests that this be either 75% to the operator and 25% to the location owner—or that it be \$10 per week front money guaranteed from each machine so that the present automatic music operator can survive and can go on doing business in a financially liquid fashion.

It is up to the manufacturers and distributors to encourage the operators to obtain a better commision basis. It means better business all the way down the line. It also means that the operators will once again be in a position to buy new equipment for the average operator wants new equipment to protect his route and to assure him the greatest possible profits.

There is no other answer to the present music problem! Those operators who state that they would immediately adopt a better commission basis "if everyone in the territory would cooperate" are simply kidding themselves with such a statement. These men never asked those others in their territory to cooperate with them when they started to set machines about on locations? They went right ahead and got themselves started in business. They didn't ask for any cooperation then and, surely, if they want to remain in this business—they don't have to lose money because the other man is losing money and can, instead, start a new commission basis arrangement working instantly without waiting for the "other guy" to start, too.

THE ANSWER TO THE MUSIC PROBLEM TODAY IS SIMPLY — A BETTER, MORE INTELLIGENT AND MORE EQUITABLE COMMISSION BASIS ARRANGEMENT BETWEEN THE OPERATORS AND THE LOCA-TION OWNERS TO HELP AMORTIZE THE HIGHER PRICED EQUIPMENT, PAY FOR THE TREMENDOUSLY INCREASED OVERHEAD AND NEW TAXES—AND ASSURE THE OPER-ATORS REMAINING IN A PROFIT-ABLE BUSINESS IN A FINAN-CIALLY LIQUID CONDITION FOR YEARS TO COME—JUST AS THE CASH BOX HAS ADVOCATED FOR OVER FOUR AND A HALF YEARS.

PIN GAMES ZOOM INTO FIRST PLACE

Trade Goes All Out to Make Pins Most Outstanding Since Early Thirties. Boom Growing Greater Each Day.

CHICAGO—Pin games are back in first place in industry preference for the first time since the thirties. And the boom isn't slackening for a moment. In fact, it seems to be growing greater every day with more and more territory thruout the nation opening to call for more and still more production.

The swing came about in the past ninety days, according to leaders here. Tho pins had continued to be popular since the end of the war period, they hadn't shown any signs of zooming into first place until just ninety days ago.

Immediately after the war, and until just a few months ago, the automatic phonograph continued to occupy the time and attention of all the leading coinmen. The majority of sales, especially in dollar volume as well as in quantity, were in this division of the field.

The pin game, as stated above, continued to remain popular, but, seemed to just be going along as one of the amusement division's contributions to the industry .In fact, consoles, one-balls, bells and other equipment led the pin game, as did the juke box industry.

But, immediately after the past coin machine convention, the pin game started

to zoom. Manufacturers changed over from complicated, multi-score machines to simple, relaxing and entertaining equipment. The result was that the entire industry seemed to swing into step with this change.

Operators who placed the first of these new machines were surprised at their money-making power. The word spread. More and more ops all over the nation began to return to the pin game fold with the result that a sudden boom started and hasn't slackened for a single instant ever since.

At the present time, according to reports of leading coinmen from everywhere in the nation, the pin game leads the entire industry in sales and popularity and is continuing to zoom upward at great speed. This puts the pin game division of the industry in first place.

Another factor which seems to have added to the present pin game boom is the fact that every machine so far introduced by the manufacturers during 1947 clicked with the public. This has helped to clear away many hundreds of old machines which were blocking up locations throuout the nation and is replacing this old equipment with the newest games.

Tho at first the average operator was against purchasing pin games becuse of the high price, compared to the pre-war prices of these same machines, he has since learned that the present pin game lasts longer on location and that the trade-in valuation is much greater. Once he starts buying, his trade-in valuation makes the purchase of the next machine extremely reasonable.

This is helping to once again build up large routes. There is also no longer any doubt that the trade-in time, which was approximately three to four weeks in pre-war years, is now anywhere from three to four months and even longer. This longer running time accounts for greater profits in all instances. It means the difference to the operator of increasing and expanding his route or holding it down to a tightly concentrated minimum.

With the type of pin games now being produced and with the further fact that the public has once again taken to them wholeheartedly—there is no longer any doubt that this field will continue to expand and will maintain its present leadership for sometime to come.

A "NATIONAL COIN M

A "NATIONAL COIN MACHINE BOARD OF TRADE" TO ACT AS A COMMON MEETING GROUND FOR ALL DIVISIONS OF THE INDUSTRY AS WELL AS FOR ALL ASSOCIATIONS AND INDEPENDENTS TO MAIN-TAIN COMPLETE UNITY.

CHICAGO — "The industry is drifting apart," was the statement made by a coin machine leader here just a few days ago.

He explained that already the vending machine division of the trade had its own public relations bureau, its own association and was proceeding along on the theory that it did not belong to the rest of the coin operated machines industry.

The same, he said, was more or less true of the juke box division of the field. Leaders here are also a clan in themselves. They, too, feel that they are an entirely separate unit of the business of coin operated equipment, even tho their machines also exist by the grace of the coin chute.

There are rumblings in other divisions of the field. A pinball leader reported that he believed the pin game field should be an entirely separate division.

The Cash Box, therefore, once again brings to the fore a suggestion which it proposed years ago—that there be created a "National Coin Machines Board of Trade"—to act as a common meeting ground for all divisions of the industry as well as for all associations and independent coin machine men—so as to maintain complete unity of the industry as an industry.

The great strength of the coin operated machines business can only be best exemplified by unity. Only when all divisions of the field as well as all operators, jobbers, distributors, suppliers and allied industry members can come together, can the true extent and gigantic scope of this field be best displayed to all industry.

This is one trade which should continue on as a complete and solid unit. It should never be allowed to split apart into various divisions, even tho individual interests may not be of like nature.

The only method *The Cash Box* can see which would hold together all in the field would be a "National Coin Machine Board of Trade" wherein every division of the industry would be able to place some one or two men to discuss the greater growth and development of this trade as a unified industry. To boost coin operated equipment of every kind and make.

If the field continues along at its present rate it will, eventually, fall apart of its own weight.

There is no longer any doubt that this is big business. Many millions of dollars are invested in all divisions of the field. Yet, the mainstay of the entire business, the average operator, is composed of all divisions. He operates equipment of almost every varied type of manufacture.

Therefore, since he is the base upon which this field rests, it is up to the various divisions of the industry to continue to make that base solid and not to confuse it. To do so the field must be considered as a whole especially during those times when there is a need for such consideration. And the only method for such action, so as to bring together all divisions of the trade at one and the same time—is a "National Coin Machine Board of Trade" to act as the common meeting ground.

Here again is an example of the old fable—the easy breaking of the single stick and the difficulty of attempting to break a huge bundle of many sticks. Individually, each division of this trade is weakened—collectively it is a strong and powerful industry, financially secure and capable of weathering whatever storms may arise.

The time has arrived when all men engaged in this field must think in terms of unity. It is not the purpose of the operator to divide his allegiance. If he operates bells, he may just as well operate beverage venders or cigarette machines or pinball games or a myriad of other devices. The men who manufacture and distribute those very products should come together to help him—as a solid and strong unit—for his betterment.

The slogan on which the thought of a "National Coin Machine Board of Trade" is based—was first printed on these pages by *The Cash Box* over four years ago. It is the slogan of this nation —"In unity there is strength." Let us, then, adapt it to this industry, too.

PUBLIC RELATIONS INSTITUTE Should be Created as a Division of the

Should be Created as a Division of the Public Relations Bureau where Coinmen as well as the Public can Learn what Coin Machines have Done and are Doing to Help all Nations to Enjoy Prosperity.

CHICAGO — The very outstanding and competent report given at this past meeting of the CMI (Coin Machine Industries, Inc.) by James T. Mangan, director of CMI's Public Relations Bureau, on the work already accomplished by this bureau and the further efforts planned, met with great applause and much good comment.

Many manufacturers who had formerly given little or no thought to the work being done quietly and efficiently by CMI's Public Relations Bureau, are now enthusiastic over the possibilities which such effort can produce for the good and welfare of the entire industry.

This has brought about the first real enthusiasm for further effort on the part of the Public Relations Bureau and its director, James T. Mangan, plans now to go on abead with ever greater energy and to, thereby bring this industry the results which it has so long sought in its relations with the general public and all other industries.

Now that this work is getting well under way the suggestion that there also be created a "Public Relations Institute" again comes to the fore. This was recommended by *The Cash Box* over three years ago.

The value of a "Pub'ic Relations Institute" can easily be judged from the standpoint that it will include a practical and permanent display of the work already done by the coin machine industry, in all of its divisions, to help all other industries and to help all countries to greater prosperity.

Such a display would be of great value to every coin machine man in the entire nation. It would be a central port of call for him where he could come to view the latest accomplishments of his business and to use whatever parts he felt were of good value to him.

At the same time, such a display should also be open to the general public as well as the press, officials and all others who would care to view it, so as to bring home to everyone what this industry has done to generally help bring prosperity to this and other countries and help, thereby, to promote the greater growth and prestige of this nation.

The millions of feet of lumber used by this industry; the many pounds of steel the miles of copper wire and all other metals—glass—plastics—and a tremendous and varied amount of other materials—help to give employment to millions of peoples not only in this nation, but thruout the world.

In addition, what coin operated machines mean to modern and efficient merchandising; to entertainment; to relaxation; what good they have accomplished from a monetary standpoint for retail business. What money they have placed in circulation. How, by encouraging spending, they have helped to produce greater prosperity and, because of this very fact, the true meaning of the coin operated machine's great importance to all the world's industries.

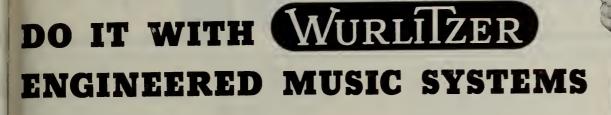

How juke boxes have brought music to the most hidden away, lowliest hamlets of this nation, as well as thruout the world. How they have created and made great stars almost overnight. What they mean to the artists of the country. How they have encouraged the musical education of children. What they have meant to encouraging greater working effort in factories. How they have helped doctors and dentists. And also what they have done for many causes and many peoples. This, in itself, would be a grand display for all to read.

These are only a few of the many, many things which can be accomplished by the use of a permanent display in a "Public Relations Institute." The Cash Box feels that today, just as three years or so ago, the trade will again agree that a "Public Relationse Institute" of such a nature will prove of tremendous value to all the industry. There is no doubt that it will be visited and the displays viewed by many thousands of people who will go away with a new and better idea of the coin machine business. It is therefore of inestimable value to all the industry that a "Public Relations Institute" with a permanent display of the work accomplished by this industry come into being.

Your Wurlitzer Distributor knows that no two locations, whether commercial, industrial or institutional, are alike in size, shape or acoustical properties. He knows that a properly engineered Wurlitzer Music System will make your music more convenient to play—far more enjoyable to listen to. He knows that the more accessible and enjoyable you make it, the more money it will make for you. Want to boost your income? "Passing By"

"After You Get What You Want You Don't Want It''

CONNEE BOSWELL

(Apollo 1066)

• "Passing By," Connee Boswell's first for this outfit stacks up heavily in this department, as the gal scores with the plug tune from the flicker "A Woman Of My Own." Chirping pretty in her own sweet, catchy manner, Connee makes this one to be watched. It's light romantic stuff, with lyrics that sink down and make you stop a bit. On the flip with Irving Berlin's "After You Get What Ver Want Ver Don't Want It" Connee You Want You Don't Want It," Connee stacks up high on as cute a novelty ditty as you want to hear. Weaving her tale around the title, Connee goes on to tell the crew about the finicky bunch. Both sides rate high, and will go in oh so many spots. Lend an ear to the pair; they're worth your listening time.

"Mahzel"

"For You"

THE RAVENS

(National 9034)

• These kids are terriffic! Here's The Ravens wth that knocked out thing coining action faster than a spade flush. It's "Mahzel," set off pitch with some wonderful soprano, an echoing bass and harmony that's really gone. Peg this combo as one that is set to go places, and fast. If you have room in your phono for a coin-culler, this is it. On the flip with the old standard "For You," The Ravens equal their top mate to render a waxfull session of lilting rhythm. Ops should remember that the public is still going for those things cut yesteryear, and this cookie, given plugging, should do well in any spot. This pair is rare and you're missing out on coin-play by not latching on!

"One O'Clock Boogie"

"Meet Me At No Special Place"

COUNT BASIE ORCH.

(Victor 20-2262)

• This stuff is mad—it's so mad, they'll wear the wax white! The great Count Basie tips the podium to knock out some of the hottest stuff out of his long parade of hits. With the Count tickling the ivory in the intro and the rest of the crew coming in with lots of riff and holler, this thing shapes up as a real world beater for instrumental stuff. The bobby-sox crowd will jump for joy as they hop toward your phono listening to "One O'Clock Boogie." On the flip with the fast rising "Meet Me At No Special Place," the Count picks up the tempo a bit to show vocal-lass Ann Baker to good advantage on this side. The gal's voice is deep and mellow, with the ork chiming in with licks in the middle. "One O'Clock Boogie" is a cinch to clinch with the ice-cream parlor trade.

BETTY HUTTON

• You'll slay us for repeating, but this thing looms as one of the biggest events of the year. "I Wish I Didn't Love You So," pegged here several weeks ago as a "Sleeper," shows vocal-lass Betty Hutton doing a sensational version of this oh so beautiful ballad. Chirp Hutton does this hunk of wax Hutton does this hunk of wax straight, and shows many a doubting critic that she really can put a number over. It's in the somber, quiet mood, of the kind that romancers love to get up close to. Betty's voice is there all the way, and in spots throws in a twitter that will make more coin head your way. On the flip with a novelty stunt, Betty goes off the deep end and into an Irish mood with "The Sewing Machine". It's cute stuff, and Betty tells the boys her woes of that darned thing. Latch on to the top-side tune, and you've got sare coin-action.

> "Get Up Those Stairs Mademoiselle" "Red Silk Stocking and Green Perfume"

TONY PASTOR ORCH. (Columbia 37320)

• Maestro Tony Pastor offers ops a cute novelty stunt here with "Get Up Those Stairs Mademoiselle," and the kid does it up neat. Ditty with a French twist is bound to be ogled by the many ex GI's who used to sing this thing. With Tony taking the bonors in the vocal departtaking the honors in the vocal depart-ment, the number should catch coin in spots. The backside shows "Red Silk Stocking and Green Perfume," and there ain't no doubt about it—this piece is top drawer material. Already in so many machines, Tony's version adds to the tune's attractiveness.

"Some Of These Days" "Walkin' "

JOE LIGGINS ORCH. (Exclusive 242)

 Riding the wave of oldies currently enjoying top positions in the nation's phonos, Joe Liggins and his Honey-drippers spin through "Some Of These Days." It's the old standard again, with maestro Joe phrasing the lyrics, and making 'em sound mellow. Aimed at race spots, the tune might catch coin, depending upon whether or not the traffic can bear it. On the flip with a novelty ditty, Joe injects a bit of dialogue into "Walk-ing." The thing offers a beat, lots of piano and should go well with the hep crowd. Both sides won't stop traffic, but nevertheless deserve your ear.

"Passing By" "After Graduation Day" DANNY O'NEIL (Majestic 7320)

Nell

• Crooner Danny O'Neil renders nos-talgic music with this romantic hunk of wax titled, "Passing By." From the forth-coming flicker "A Woman Of My Own," the ditty may attract more attention once the pic hits the local circuit. Danny doesn't quite mach the mitch with the doesn't quite reach the pitch with this thing, although he makes pleasant listen-ing. The flip, "After Graduation Day," is sure fire juke material, with Danny boy coming through for music ops. Done up in slow tempo, with the piper weaving his tale on a yesteryear theme, the ditty will appeal to the crowd that loves special effects 'n stuff.

"My Pretty Girl" "Mahzel" TED STRAETER ORCH. (Sonora 2022)

• Ditty looming big on the wax horizon is a thing called "My Pretty Girl." With lots of beat and meat to the song, the Ted Straeter ork render effective music to make this one a comer. Chirp Kitty Crawford uses her tonsils to good ad-vantage here and gives the ditty the light treatment it requires. On the back-side with the popular "Mahzel," Ted and the boys improvise a bit to come up with a slice of a jazzed up version of the number. The boys join in the chanting as maestro Ted takes the lime. "My Pretty Girl" is the one they are going to ask for, so latch on.

"As Long As I'm Dreaming" "My Heart Is A Hobo" TEX BENEKE ORCH.

(Victor 20-2260)

• The crew with the mellow reed section offer ops a barrel-full of coin play here with "As Long As I'm Dreaming". Featuring piper Garry Stevens, the boys render lilting music with this thether Featuring piper Garry Stevens, the boys render lilting music with this rhythmic romantic piece. Garry does a sweet job with the thing, and rates an orchid for this rendition. The hand holding crowd should go for this, and in a big way, too. On the flip with a cute novelty score, Tex takes top honors with "My Heart Is A Hobo." The Mellow-Larks combine with the maestro. to score on this side with the maestro, to score on this side. The pair is from the pic "Welcome Stranger," which might add to its coin appeal once the flicker makes the rounds.

"You're Not The Only Oyster In The Stew"

"Oooh Look-A There Ain't She Pretty"

FATS WALLER ORCH.

(Victor 20-2218)

• Here's a pair of sides that ops can put to good advantage. "You're Not The Only Oyster In The Stew" and "Oooh Look-A There Ain't She Pretty," re-leased in honor of the late Fats Waller, stacks up high today, just as it did years ago. Ops will remember the pair kicking the gong around for some time in the nation's phonos, and if the call is there, the wax should move today. Both sides are in the novelty refrain, with maestro Fats hogging the lime and pitching words for pretty ears. The pair pitching words for pretty ears. The pair is there for the asking, and since you know your route better than we do, go to it.

"Rocking Horse Cowboy" "The Heather On The Hill"

CLARK DENNIS

(Capitol 411) • Clark Dennis, a promising tenor, in-troduces a brand new ditty on this disk tabled "Rocking Horse Cowboy," which "abbed "Rocking Horse Cowboy," which is a ballad that sings the praises of a little boy a la "Little Man You've Had A Busy Day." As a result, it's to be expected that the platter should attract a more limited audience, and we'd keep it out of spots catering to the very young, but we'd certainly feature it where the more adult customers gather. The flip, "Heather On The Hill," is another click melody from the B'way click musical "Brigadoon." It's a ballad that should fit in any spot, tho the Irish should go all out for it. Clark's interpretation of both ditties are most satisfactory.

"Freddie The Fish"

satisfactory.

"Are You Sure"

SAL RASA ORCHESTRA

(Metrotone 1002)

 A brand new novelty that has a good chance if given adequate plugging is offered here by the Sal Rasa ork entitled "Freddie The Fish." With a vocal and quite a bit of monologue contributed by Marty Faye, the ditty is as fresh as the Marty Faye, the ditty is as fresh as the titular character should be, and ops should give it a try. The flip, "Are You Sure," is a pleasant romantic ballad with a vocal, and should add up as an ade-quate filler when and if the top deck clicks. Novelties don't score often, but when they do they're tremendous. "Freddie" has a good chance.

"Ask Anyone Who Knows" "Old Devil Moon" MARGARET WHITING (Capitol 410)

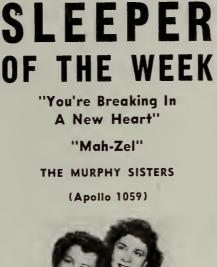

• A pair of great tunes are offered here • A pair of great tunes are offered here backed up by sultry voiced Margaret Whiting, and the net result is a platter that is tailor-made for a most profitable ride on the phonos. Of the pair "Old Devil Moon" may get just a shade more play, but, in any event, both decks should net big action. It's done with the kind of arrangement that sounds up best on the phonos and when you hear it, you'll the phonos and when you hear it, you'll note what we mean. The flip "Ask Any-one Who Knows" is another swell hunk of romantic stuff that's given near perfect handling by Margaret, tho-while passing out the orchids-it would be well to remember that the ork under Frank DeVol is socko.

"New Orleans Blues"

"I Surrender Dear"

JOHNNY MOORE'S THREE BLAZERS (Exclusive 240)

Johnny Moore's Three Blazers is one • of the greatest combos to be heard on wax, tho they do have a tendency to Wax, tho they do have a tendency to arrange so that almost everything they do sounds alike to a tune they've done before. Still, they're so good on this platter that it's worthy of a ride. Offer-ing a big standard in "I Surrender Dear," and a very adequate ditty in "New Or-leans Blues," wise ops should latch on and give it a whirl in both race and other type locations. The Blazers make very sweet music, and Charles Brown's very sweet music, and Charles Brown's vocals rate with the best.

THE MURPHY SISTERS

• Rated a genuine "sleeper" is this crackerjack recording turned in by the Murphy Sisters of a ditty tabbed "You're Breaking In A New Heart." Reason for the designation "genuine" is the fact that the tune backs up the plug side, "Mah-Zel," considered by many to be an on-the-way-upper, and yet, to these worn and weary ears, the "Breaking In A New Heart" sounds like one of the better coin cullers heard in a long, long time. In format, and in the way the Murphys style it, the side comes up heavily loaded for top phono play. It's reminiscent of old times, and any music op need only review the success he has enjoyed with platters in a similar vein to appreciate the potential in this one. Add to that the fact that the Murphys show themselves up as great, and you have a platter you really shouldn't miss. As for the other deck, "Mah-Zel," it's one of the best interpretations of the ditty to be heard. You take it from there.

"Chi-Baba Chi-Baba"

"When You Were Sweet Sixteen"

PERRY COMO

(RCA-Victor 20-2259)

• "Chi-Baba Chi-Baba" is a big tune in that a top flight pubbery is going all out to lift it up among those at the peak of the stock. The tune is good enough to warrant that effort, and this version, contributed by Perry Como, should help it a long, long way in its climb. This lullaby ballad is Como's meat, and his performance is top flight, among the very best ever cut of the ditty. If you intend to use the tune (and you should), don't buy until you've heard Perry's version. The flip, "When You Were Sweet Sixteen," is a 14-kt. natural for any spot where a real oldie is a big coin culler. Aided by the Satisfiers, Perry's interpretation is really terrific. If you had any success with "If I Had My Life To Live Over," grab this platter! • "Chi-Baba Chi-Baba" is a big tune in

"I Won't Be Home Anymore . When You Call" DICK JURGENS ORCHESTRA

"Cecelia"

(Columbia 37342)

• An old time tune that's loaded up to break again is "Cecelia," and, the way it's done here by the Dick Jurgens Orchestra with great novelty treatment and a recitation-like vocal by Ronnie and a recitation-like vocal by Konnie Kemper, the side (a repressing of Jur-gen's original click) sounds like an item that should go big in spots where the older timers gather. The flip, "I Won't Be Home Anymore When You Call," is another deck that's done in the style of yesteryears ago, and, with Al Galante warbling the lyric in very adequate fashion, it appears to be another promising side that should be worthy of an interesting ride in the same spots as its mate.

"My Man"

"I Lost My Sugar In Salt Lake City"

ROBERTA LEE

(Sonora 2017)

• Time and again we've heard ops ask, "Why doesn't somebody make 'My Man'?" Well, maybe they didn't because it was felt that Fannie Brice had set too high a standard on the interpretation of this truly great torch ballad, and it was felt that anybody else's would fall flat by comparison. Well, we're happy to report that here's one that's tops and worthy of a phono showcase. Maybe it's not as good as Fannie's sentiment would never allow us to say it is, but Roberta Lee does do it very, very well, and it's something you must hear. The flip, "I Lost My Sugar In Salt Lake City," is a first class backing, and does prove that here you have a wonderful talent that can sing it sweet and sing it hot. You're missing something good if you don't try this disk.

"Violets"

"Peg O' My Heart"

TED WEEMS ORCHESTRA

(Mercury 5052)

• Just about everybody is awaiting this latest Ted Weems release, and here it is. As for going out on a limb and judging it, no more need be said than that "Violets" is done as much alike as his Heartaches" as it could be without being "Heartaches," therefore, if you are of the opinion that your customers are so sold on Weems styling (and Elmo Tanner's whistling) as to demand more of the same, this disk is a natural for a ride; otherwise, it's like to sit very still in its tray. The flip, however, differs in that it offers a more popular tune, "Peg O' My Heart," done in a more popularly accepted fashion. Bob Edwards delivers a very straightforward vocal. and the whole thing comes up as a strong bidder for phono favor.

<text>

In recent discussions we had with leading execs of major platteries, the biggies agreed that any minor label that maintains a policy of competing with the majors in the release of "pops" was committing suicide in these times. The majors who were asked what policy they'd establish if called upon to captain a minor wax works were almost unanimous in the declaration that the only new tunes they'd offer were those they owned thru the label's publishing firms, since they could then cash in to best advantage on any hit that turned up.

Headed for the top . . . fast! CLARK DENNIS

Romantic tenor frequently heard as guest star with Bob Hope and other national hookups.

AMM SHOW TO GET **BIG ATTENDANCE** COINMEN FROM

Nat'l Assn of Music Merchants Meet June 1 to 5 at Palmer House, Chicago, is Attracting Coinmen-Record Store **Owners and Distributors from All Over** the Country to See New Merchandise

NEW YORK - Coinmen record store owners and coinmen record distributors from all over the nation report that they will attend the NAMM (National Association of Music Merchants) show at the Palmer House in Chicago from June 1 to 5.

For many years, because of their intimate knowledge of music and the wants of the general public in this regard, coin machine music merchants have taken advantage of these facts and have opened record stores thruout the nation.

Some of the most outstanding record stores in the country are owned by juke box operators and distributors. This is their outlet for the large numbers of extra records they purchase as well as for those which are being popularized on juke boxes.

Once the stores have been opened, strictly from the record sales angle to start with, demand for other merchandise soon led coinmen to handling all types and kinds of music merchandise.

At the same time, as is well known thruout the trade, many coinmen are distributors for some of the record companies. The great majority of the independent labels have chosen men closely connected with the automatic music industry to distribute for them.

Therefore the interest in the forthcoming NAMM show is very great on the part of the automatic music trade and word has already come thru that a large delegation of coin machine men can be expected to be present at this very impressive show.

Most of these men want to see the new musical merchandise which will be displayed at the Palmer House beginning Sunday, June 1, and others want to meet with the record manufacturers who will be present. Reports have it that there isn't a single empty booth for this show.

Louis G. LeMair, president of the Na-tional Association of Music Merchants writes that this forthcoming show will see the greatest registration of music merchants in the history of the trade, not only from the U.S., but also from all over the world over the world.

Mr. LeMair also advises that there will be open panel discussions relative to helping music merchants to greater profits in their field. There is no doubt that these will prove of great interest to coinmen. Many coinmen are today paying a great deal more attention to their record outlets than ever before.

Mr. LeMair writes, "Visitors will find more exhibitors, using more exhibit space and displaying more new musical instruments and musical merchandise than at any previous trade show."

Some of the most outstanding record retail stores in the country are owned by well known juke box men. Some of these are not only the largest and most impressive in their communities but also the busiest. This tie-up of the record retail outlet to the juke box music merchant has long been known to all the music trade.

It is believed that many of the juke box music merchants will expand their present retail record outlets after they view the many new instruments and methods which will be featured at this forthcoming NAMM show.

Most interesting to the juke box music merchants will be the proposal of NAMM that each retailer thruout the nation donate one dime for every \$100 gross sale for music promotion.

As Mr LeMair writes, "Every music merchant attending the trade show and convention should carefully consider his stake in the music industry's future. A prosperous industry means more business for everyone. Upon this decision may rest our future."

OHIO RECORDS

NEW YORK — Completely reorganizing its New Orleans distributing office, Apollo Records, this city, have appointed George W. Waguespack new branch manager to assume the duties of the previous branch head, Al Young, it was disclosed this past work disclosed this past week.

Waguespack, under the new organi-zation plan, will direct the branch to-wards improving Apollo distribution throughout Alabama, Louisiana, and part of Tennasson and Mississippi of Tennessee and Mississippi.

New sales personnel operating out of the New Orleans office included Louis Strawn, Melvin Selcer and Lloyd Roberts.

And Coming Up Fast!

Page 17

BULLSEYE OF THE WEEK

"Roly Poly" "Tennessee Central No. 9" DENVER DARLING (DeLuxe 5034)

(DeLuxe 5034) • Long time the favorite of so many folks, Denver Darling offers a cutie in this pair. Titled "Roly Poly" and "Tennessee Central No. 9," Denver injects a bunch of strings here to shape this thing as a comer. "Roly Poly" spins slow, with Denver taking top honors in the ballad department. On the backside with "Tennessee Central No. 9," Darling deserves orchids for this rendition. Music ops should be familiar with this score and if any tune deserves a shot in your phonos this is it. It's choo choo stuff as the title indicates, and Darling does it up royal. Peg the "Tennessee" number and place it.

"Johnson County Blues" "Big Ball's In Town" J. E. MA!NERS MOUNTAINEERS (King 622)

• Stuff aimed at those locations that cater to mountain music, have a real hit on their hands with this pair. "Johnson County Blues" and "Big Ball's In Town" as offered by J. E. Mainer's group stack up high in this department. The boys couple lots of strings, a bit of rhythm and some good vocal breaks to make this a comer. "Big Ball's In Town," shows the combo to good advantage, as the clan tell us about that man in town. Beat in fast time is good and the crowd that loves to dance should go for this. Grab the pair and lend an ear, willya!

"I Couldn't Believe It Was True"

"It's A Sin"

EDDY ARNOLD (Victor 20-2241)

(Victor 20-2241) • Peg this ditty to catch plenty of coin in those western and folk locations just waiting for a plug tune. It's Eddy Arnold and His Tennessee Playboys up to the mike to do a thing called "I Couldn't Believe It Was True". Song has plenty of meat behind it, and spins in fast temp. Eddy wails about that gal that left him—pick the title up from here and you've got the works. The kid's voice is in there pitching all the way, and with Eddy's many fans, this thing is bound to click. On the flip with "It's A Sin," Eddy cuts the speed down a bit to cry about his love that can't materialize. It's good stuff all through, and you can expect plenty of action with this side. The pair definitely deserves not only your ear, but a rated spot in your machine.

"Too Many Sweethearts" "I'm Gonna Marry Mary" JIMMY WAKELY (Capitol 414)

• Ditty that can be used as good filler material this week is "Too Many Sweethearts" featuring Jimmy Wakely. Jimmy sez just that in the ditty and serves it up in that smooth pitch of his, that lots of folks go for. "I'm gonna Marry Mary" shows up well enough, as Jim renders effective stuff bout his gal. Lots of rhythm offered here that adds flavor to the side, while a chorus pitch in with the piper that boosts the attractiveness of the wax. Both sides are there for the asking, so go to it.

Spitalny Splits With Vogue; Takes Masters For Royalty Payments

DETROIT, MICH .- Phil Spitalny has severed his recording connections with Vogue Records, this city, it was uisclosed late this past week.

Spitalny has accepted ownership of 13 masters he had previously made with the plattery in lieu of unpaid guarantees and royalties due him by the plattery. His contract with Vogue still had approximately one year to run.

Included in the deal Spitalny made with Vogue was an agreement that the diskery would recall all pressings of his Hour Of Charm all-girl orchestra from the counters of deal-

Spitalny at present has made no arrangements for pressing the masters he now owns, but it was learned, he has thought of going into the wax business himself or selling them to an indie.

Eight of the thirteen masters taken over by Spitalny have never been marketed. The records that Vogue would recall would be presumably, destroyed, to avoid any competition if and when Spitalny decides to market the records.

Capitol To Issue Red Label "Folk" Series

HOLLYWOOD, CAL. - Capitol Records, Inc., will introduce an entire new record series next month to be known as Capitol American Red Label, it was announced this past week.

nounced this past week. Establishment of the new label and an entire new series of releases came in recognition of the growing importance of typically American music and enter-tainment in many parts of the country, a spokesman for Capitol said. Talent and tunes to be featured on the Americana series will be Western ma-terial, Old Time Dances, Hill Country tunes, Mountain ballads and the highly specialized work of sepia stars. Recent studies made by the plattery

Recent studies made by the plattery disclosed that dealers in many parts of the United States were in need of records which could be promoted and sold as material particularly expressive of the various types of music found in this country today, it was said. Capitol pointed out that releases under the Americana label will not affect the frequency or quality of regular black

the frequency or quality of regular black label releases. The Americana series will be issued every two weeks, on an alter-nating schedule with Capitol popular releases.

Rootin', Tootin' Rene

HOLLYWOOD, CAL. - Slim Coates (right) holds his ear as Leon Rene, Exclusive Records head, tries tooting "Hot Rod," Slim's latest recording. Think the pair can make it cross-country in that "Hot Rod"?

Howard-Krupa Orks Guest At Ohio Ops Convention

CLEVELAND, O. — The Eddy Howard and Gene Krupa orchestras as they appeared at the eighth annual convention of the Ohio Automatic Phonograph Owners Association held in the Rainbow Room of the Hotel Carter in Cleveland, May 5th.

Sam Donohue, pictured above with Krupa, also appeared at the showing, the largest in the history of the group.

Howard's arrangement of "I Wonder, I Wonder, I Wonder" was chosen to be the Hit Tune for the month of June at the Hit-Tune Party held by the association.

RCA - Victor Signs Sablon-Chevalier

NEW YORK — The signing of Maurice Chevalier and Jean Sablon to exclusive RCA-Victor recording contracts, was announced this past week by J. W. Murray, Vice President of RCA-Victor Record activities.

Chevalier's initial release, to go on sale late this month, will be the standard "Louise," coupled with "Just A Bum," from the current Chevalier show.

Sablon's first side will be the fast rising favorite "Roses In The Rain."

Both French favorites are credited with being instrumental in the tremendous postwar revival of public interest here in foreign entertainers.

Apollo Opens New Branch Distribution Offices

NEW YORK — Apollo Records, this city, announced to the trade the opening of branch offices in Washington, D. C. and Dallas, Texas this past week.

The move, made in conjunction with Apollo's policy aimed at giving wider distribution to strategically located cities closed down the branch office formerly located in Baltimore, Md.

Heading the new Washington office will be John F. Delaney.

The Blue Bonnet Music Co., of Dallas will have exclusive distribution in Texas, Oklahoma, and Arkansas. Herbert I. Rippa, widely known in Dallas, has been appointed manager of the southern office.

Apollo also announced the signing of the Arnette Cobb orchestra adding to the "race" roster of the plattery. Page 20

Monica Lewis Week of May 19, 1947

Signature SPINS ON THE COAST WITH SAM ROWLAND Sam's daily "Waxworks" show over KWKW.

Pasadena, California specializes in top names for interviews. Sam knaws every prominent music figure an the west coast, that's why his show packs plenty of listener appeal. Monica Lewis and the Whiffenpoof saga should draw many spins from Sam's turntable.

Williams Named Ad Mgr. Victor Instrument Div.

JACK WILLIAMS

CAMDEN, N. J. - Henry G. Baker. general sales manager of the RCA-Victor Home Instrument Division, announced the appointment of Jack Williams as advertising and sales promotion manager of that division, late this past week.

Williams, well known to music operators throughout the country, formerly headed the advertising department of the plattery's record division, a post he has held since 1938. In conjunction with his new duties, Williams will now supervise the advertising and sales promotional functions in the Home Instrument Division

Page 21

Columbia Records **Complete Mexican Plant**

NEW YORK-Columbia Records, this city, announced the completion of their Mexican factory in a statement to the trade late this past week.

"It is expected that the factory will be in full operation and pressing records early this fall," said Edward Wallerstein, president of Columbia.

The decision to build a plant in Mexico was reached because of the recent growth of the Mexican record market and the demand for native records, Mr. Wallerstein stated. The factory will be directed by Manuel S. Kestler, who has represented Columbia in Mexico for some time. The plant will make its own master records, chiefly by Mexican artists.

Week of May 19, 1947 Beneke Guests With Frankel Distributing

CHICAGO — Larry Frankel, of Frankel Distributing Company, recently played host to Tex Beneke, leader of the Glenn Miller band, when Tex stopped in for a visit at the Rock Island, Illinois office.

CLEVELAND, O. — The tremendous success of the recent Hit Tune Party sponsored by the Cleveland Phonograph Merchants Association is pictured above. Top photo shows association officials Jack Cohen and James Ross presenting Jim Hood, Hit-Tune Party quiz winner with a brand new radio. Center: guesting disc-jockeys in actual program operation, on stage at the Public Auditorium. Below: the thousands of teen-agers who jammed the auditorium for the party.

Rainbow Records Appoint Field Representative

NEW YORK—Rainbow Records, this city, announced the appointment of Larry Newton as special field representative, late this past week.

Newton will travel throughout the country calling upon all Rainbow distributors and will coordinate the sales and promotional aspects of the firm's releases between the office of Eddie Heller, Vice President in charge of sales, and the distributors.

Ray Gun Action Steps Up

CHICAGO — Bernie Schutz of Coin Amusement Games, this city, who manufacture the "Bag-A-Bunny" and "Jungle Fury" revamps, advised *The Cash Box* that ray gun action had been stepping up daily thruout the country.

To prove his statement, Bernie went out with his trusty camera and came back with the above picture which, he reports, "I captured in one of Chicago's most prominent arcades."

Bernie also stated, "When we saw this hig ly decorated soldier who had been on almost everyone of the battlefields of this past war, teaching a girl how to s cot one of our guns, we knew we had come across a picture natural. We hope that you'll like it as much as we did." The "Bag-A-Bunny revamp is for Seeburg guns, Schutz relates, and the "Jungle Fury" revamp is for Bally's Rapid Fire guns. Both revamps are reported to be going at top speed.

Singer Names Sales Chief For Statler Manufacturers

NEW YORK — Walter O. Singer has been named the National Sales Manager of Statler Manufacturers, Corp., it was recently announced by Lawrence Reiss, Vice President of the company. Because of increased production which now makes possible delivery of machines within 30 days, this new position of Sales Manager has become necessary to take care of the expanding business, it was said.

WINNING COMBINATIONS

Mape Now Delivering

LOS ANGELES — Ray Powers, sales manager of E. T. Mape Distributing Company, in this city, announced recently that the firm is now making deliveries on their new "Mirro-Matic" cabinet, which they both manufacture and distribute.

The cabinet is offered with a wide choice of mirror designs, a single coin drop for 5c or 10c optional play and many other distinctive features.

NAAMO Training School Under Way

NEW YORK — The first school for the training of coin machine mechanics in this territory is now under way at this city's well known Manhattan Trade Center.

Sponsored by the National Association of Amusement Machine Owners, the school is part of the Veterans and Reconversion Training Program and is conducted by the Board of Education of the City of New York.

The first class, comprising twentyfour veterans, might well be considered as a representative American group, with nine different nationalities being represented.

There being no titular listing for training coin machine mechanics among the courses catalogued, the classes are being conducted under the designation "Electrical Appliances, Coin Operated."

CLEVELAND, O. - Harry Lief, re-tiring Secretary-Treasurer of the Ohio Automatic Phonograph Owners Associ-ation, on the left, and Leo J. Dixon, retiring president of the Association, on the right, as they received testimonials of gratitude for their fine work from

William Rosenfeld, attorney for the Association, on behalf of the other members. The presentation was made at the eighth annual convention banquet of the Association held at Hotel Carter, in Cleveland, Monday, May 5.

Loan Firm Hits At Sales To Locations

NEW YORK — Hitting at the practice of selling equipment direct to locations, a powerful factoring organization, headquartered here, disclosed to *The Cash Box* that they have refused to finance the paper of a coin firm that was engaging in the sale of machines direct to locations.

In replying to the party who sought their services, a spokesman for the firm declared in his letter: "When I saw you (the coinman) I told you that the idea of selling direct to location owners did not appeal to me for a number of rea-sons. Primary objection was the fact that in doing so you would be operating contrary to the best interests of the operators, whose livelihood and business it is to lease their equipment. If we were to finance such sales, we would become a party to this practice, which in my opinion is basically unsound, and not too ethical, either. You as an operator should know how significant that aspect of the situation is.

"From the credit standpoint also, we do not feel that such business would be sound," the letter continued. "The opersound," the letter continued. "The oper-ator is always in a position to service equipment, to take care of collections, etc., and depends solely upon the equip-ment for a livelihood, so he would not like to default on his obligations. Where-as, the location owner does not depend on the equipment for a living, and if for any reason he wants to junk it overany reason he wants to junk it over-board he can easily do so."

LYN BROWN

LOS ANGELES - Lyn Brown, of the Lyn Brown Company, exclusive dis-tributors on the West Coast for the Scientific Machine Corp., disclosed this past week that Scientific's new "Poker-ino" for locations is clicking big all up and down his extensive territory.

"The location 'Pokerino' will prove to be as heavy a coin winner as its better known arcade model," Brown predicted. "We've already delivered several hundred of the games in this territory, and the demand is growing bigger every day."

One of the more experienced operators in the business, Brown has been an out-standing "Pokerino" booster—"and for good reason," he adds.

"The machine is a world-beater," he said. "I started using the game in my Atlantic City (N.J.) arcade in 1940. At that time there were many penny arcades all over that resort city, but, from the day our place opened, there arose a gradual tendency to change over the penny arcades to stores using Scienthe penny arcades to stores using Scien-tific's 'Pokerino'."

Brown then gave as an example a store he took over that had only grossed store inc volve of the interval of the installed a battery of 'Pokerino' tables, and the following season grossed over \$100,000. and for that the machines take the major credit.

"The new 'Pokerino' for locations is the result of a popular demand that rose first from operators who had used the game in arcades. We knew that here was a 5-ball roll down game that had proven itself under the most difficult conditions. So we asked Scientific's Max Levine to give us a model that could be placed in individual locations, and he did.

"The new location sized "Pokerino' is a click," Brown concluded. "Just ask the men who own 'em."

NO. TONAWANDA, N. Y. — Sr. Carlos Touché. Wurlitzer Phonograph Distributor for Argentina, is justly proud of this photograph showing a Wurlitzer Model 1015 installed in the popular roof garden of the Savoy Hotel, Rosario, Argentina, swank dining and dancing spot of Argentina's second largest city. Photograph was taken by Sr. Ghirlanda, Wurlitzer Music Merchant. who placed the phonograph.

"Sr. Ghirlanda." says Touché, "is an old friend of Wurlitzer's. He was the first person to establish an operation in Argentina and he operated Wurlitzer phonographs in that country many years before the war." Although Sr. Ghirlanda is an old hand in the phonograph business, he takes a special pride in the Savoy Roof Garden installation. Sr. Touché says that his pride is well justified for the Savoy location ranks with the finest anywhere in the world.

LAST CALL TO ALL MEMBERS OF THE AUTOMATIC MUSIC INDUSTRY OF AMERICA TO BE IN WASHINGTON, D. C., FRIDAY, MAY 23 AT 10 A. M. TO BE PRESENT AT THE PUBLIC HEARING OF THE SCOTT BILL BEFORE THE HOUSE OF REPRESENTATIVES' COMMITTEE ON THE JUDICIARY IN THE OLD HOUSE OFFICE BUILDING!!

NEW YORK — This is it! This is the last chance you may have to defend yourself from the most excessive taxation the juke box industry has ever faced. The first public hearing on the Scott Bill (H.R. 1269) takes place Friday morning of this week in the Old House Office Building before the House of Representatives' Committee on the Judiciary (May 23, 1947) at 10 A.M. (The Scott Bill was reprinted in its complete form in the April 21, 1947 issue of The Cash Box.)

This is the bill which seeks to strike out that part of the Copyright Act which does not allow coin operated musical instruments to be taxed for the use of copyrighted music. They do not give a public performance for profit. This was the angle in the Buckley Bill introduced back in 1946 and which was since pushed out of the picture.

This time the Scott Bill is getting out of committee. It is now up for a public hearing. If the Scott Bill gets past this public hearing and then thru the committee, thru the House and into the Senate and PASSES—this industry has plenty to fear for its future. (The Cash Box is frank to report that many noted music machine leaders have stated that this is the first bill which they have ever really feared. In fact, a few of them have even been of the opinion that this bill "may pass.")

If the members of the automatic music industry of America don't come down in force to protest this complete invasion of their rights and their property in a bill which is completely and directly aimed at them and is monopolistic in that aim—then what are the Representatives who will be waiting to hear what the members of this automatic music field have to say—and think of the industry?

This is really and truly the last call. There may have to be others should this bill start on the way. But, it is always best to use an ounce of prevention instead of a great many, many pounds of cure, and perhaps even the cure can fail once the germ is implanted and takes seed.

The automatic music trade must remember that once again The Cash Box is the one and only publication which called attention to this bill months ago and continued to urge and to warn this field to protect itself immediately.

Every operator must realize that should this bill pass he is then at the mercy of all those who have any copyrighted music whatever and they can ask for whatever they "believe" that the playing of that music is worth.

Time is very short. This is the last second. We hope, therefore, because we believe you want to preserve your business—to see you in Washington, D. C. on Friday, May 23 at 10 A.M. in the Old House Office Bldg., to appear before, or at least make your presence known, to the House of Representatives' Committee on the Judiciary.

IMPORTANT

- Individuals and groups desiring to be represented and heard at the Public Hearing on the Scott Bill (H.R. 1269) should give notification of an intention to be present at the proceedings by making such announcement in the form of a telegram addressed to The Clerk, Committee On The Judiciary, House of Representatives, Washington, D. C.
- 2. Wire the Committee by May 20th.
- 3. All who intend to be present and give testimony should carry with them about fifty (50) mimeographed copies of the statement they intend to make, as well as any other pertinent information they wish to have entered for consideration by the Committee. The large number of copies are required since each member of the committee must have one for his study and consideration, as well as the Clerk, and members of the press.

The Operator SPEAKS

Brattleboro, Vt.

Editor The Cash Box 381 - 4th Avenue New York 16, N. Y.

Dear Sir:

Have just finished reading your "Bust 'Em Up Plan" and agree that une old machines should be broken up, but 1 believe the operators should not absorb the whole loss.

My experience in trading has been such that so tar the operators take the rap.

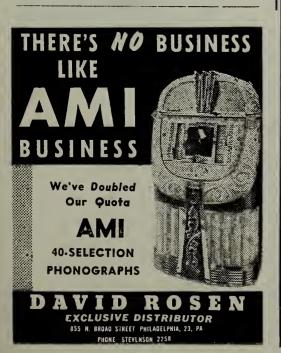

A new five-ball costs about \$295.00 —I can buy it less 10% with no trade in, or about \$265.50—in other words I can buy a new machine for about \$29.50 less; now if I want to trade in an old machine the price is \$295.00 less low Cash Box price, or 20% less than low Cash Box price in one instance, so that the allowance on a great many used games is less than the \$29.50—so I keep the old game hoping to get something out of it later; result is, I have more used games piled up in my shop now than I have ever had.

Now—without raising the price of games why doesn't the manufacturer take a cut of 10% or at least \$15.00 per game, and pass that along to the operator on every new machine that he buys. I'll smash up an old machine on that basis for every new one I buy, and a lot of honest operators will do the same.

The distributor can give the 10% off and will gladly do it with no trades; in fact I can, and have bought under the 10%—let's see the manufacturer meet the distributor and operator, if they really want to have old machines destroyed.

Sincerely,

GENCO'S A D V A N C E R O L L with * F R B

Bally Announces Baseball Game

GEORGE W. JENKINS

CHICAGO — Mass production of a new baseball skill game commenced this week at the Bally Manufacturing Company plant, according to George Jenkins, Bally general sales manager. The game is named "Heavy Hitter" and is primarily for counter operation, although a matching floor-stand is available.

"Results of the first few hundred 'Heavy Hitter" games on location," Jenkins said, "indicate unusual earning power for a game of this type. The low price of the game will permit operators to cover locations they are now passing up. The small size wins a welcome in busy but crowded spots which cannot use larger games. And the baseball skill action atracts play in all territories. 'Heavy Hitter' is definitely destined to be one of the outstanding games of the season."

United Names Cady To Sales Staff

MILWAUKEE, WIS. — Harry Jacobs, Jr., of the United Coin Machine Company, headquartered here, announced this past week the appointment of Art Cady to its sales staff.

Formerly with the Coven Distributing Company, Chicago, Cady will work under Harold Stark, United's sales manager, and is now on an extensive trip thru this state, where he is well acquainted with many members of the trade.

Kinloch D. Andrews Dead CHICAGO — Richard L. Cole, Advertising Director, Automatic Dispensers, Inc., Lawrence, Mass., informed the CMI Public Relation Bureau, of the death of Mr.

Lawrence, Mass., informed the CMI Public Relation Bureau, of the death of Mr. Kinloch D. Andrews, Chief Engineer and head of the Research and Development Department, who passed away on April 22, 1947.

Mr. Andrews was responsible in a large measure for the development of the new Drink-O-Mat. Long associated with this company, he personally developed many patented devices for the vending machine industry and was long recognized as one of the top experts in his field.

Tuned in to a new Seeburg phono-graph are Albert S. Denver, Meyer Parkoff and Beryl Davis.

NEW YORK One of the stranger conversations between a recording artist and a phonoman took place here this past week, when Beryl Davis, recently arrived from Britain where she was that country's ranking female vocalist, visited the brand new headquarters of the At-lantic New York Corporation, nationally known cointrade distributors.

Aside from getting her photo taken with a pair of industry leaders (see above), Beryl, a new RCA-Victor artist, above), Beryl, a new RCA-victor artist, reversed the usual publicity stunt by ac-tually talking shop with Meyer Parkoff, of Atlantic, and Albert S. Denver, presi-dent of the powerful Automatic Music Operators Association, this city. And the shop she talked of has im-

portant meaning to the industry at this time. It concerned the export of U. S. phonographs to Britain and other countries.

Gottlieb Interviewed **On Noted Radio Show**

CHICAGO - David Gottlieb, of D. Gottlieb & Company, and president of Coin Machine Industries, Inc., took full advantage to strike a strong blow for better public relations, when he was interviewed this past week on the coastto-coast Bob Elson show, transmitted here from Station WBBM.

An interview type program staged aboard the famed 20th Century Limited, while Gottlieb was on his way to New York, the well known manufacturer pointed out that the coin machine industry has made tremendous strides since the war, and is now turning out machines to meet the demands of the times.

Gottlieb also took the occasion to review with pride the job the industry is doing to combat juvenile delinquency, as well as to mention other projects which have met with tremendous public favor.

This was quite a week. Tho lacking the usual number of visitors, there was plenty of doing's all over town. Dave Gottlieb, president of CMI, was interviewed by Bob Elson and was heard over radio station WBBM. This attracted much listening interest. Dave, they tell me, went to New York on association business . . Another big event was the fact that AMI, Inc. won First Prize with Jim Mangan's ad on "wing nuts" which appeared in the May 13, 1946 issue of THE CASH Box in three colors. The prize was for the best advertisement to appear in any business or trade publication and was awarded by the Chicago Federated Advertising Clubs. That makes one more winner for Jim and the first for AMI, Inc. . . . George P. Allen of Soundies tells me that their new films are attracting good attention of all Panoram and peek machine ops everywhere in the country. Soundies has some new releases which should really pull in the cash for all the peeks . . . Jack and Roma Buckley of Vitacoustic Records and Milt and Alyne Salstone of M-S Distribs, who is distributing Vitacoustic in this area, with Eddie Messner of Aladdin Records, Hollywood, in the College Inn listening to Vitacoustic's Harmonicats playing their sensational "Peg O' My Heart".

Harold Klein of Milwaukee pops into town this past week and advises that everything is getting all settled up and that very soon he will have an important announcement for the trade . . . Out of town coinmen were amazed at the snow flurries we had here on May 7. But the press wasn't at all excited. Papers reported that snow has fallen in Chicago as late as June 2... Bumped into lovely Evelyn Aron of Aristocrat Records and she advised that they have a new release which she believes is going to prove one of the best the juke boxes have ever yet had . . . Howard (Curley) Pretzel of CMAC seen rushing down Randolph Street this past week in a hurry to get somewhere . . . After 20 years of being right in the very heart of it, Lou Wolcher of San Francisco still says, "It's the most fascinating business in the world."

Over at Bell-O-Matic one of those things happened last week. While Jimmy (Globe) Johnson was visiting there the boys introduced him to a coinman from Grand Rapids who, they told Jimmy, wanted to learn how to play "gin". Since Jimmy claims he's the worst of all the gin players, the boys thought this would make a good match. Result? Jimmy is still the worst to the tune of about 38 bucks . . . Harold Pincus is over at Monarch. Clayton Nemeroff is back on the job and looking swell. Roy Bazelon is still waiting for those sunshiny days so that he can get out to the golf course . . . Vince Murphy on the phone making those big deals sound very easy. Vince reports that Globe has just increased their working force and are busier than ever . . . Joe Ash of Philly popped into town over the past weekend but was seen by just a few ... Nate Gottlieb tells me that this was one week when he could get his paper work done-very few visitors around.

Grant Shay of Bell-O-Matic undergoing the miseries this past week over some printing which was done for him with licorice instead of ink . . . John Chrest of Exhibit Supply advises that the demand continues to go up and up and, he reports, "We just can't seem to make enough games for our distributors". John also advised that pins have been opening up in many small communities thruout the country . . . Dick Hood of H. C. Evans hopes to be shipping his Races by May 15. There's enough demand for this game to keep the Evans plant working at top speed for months to come . . . Sammy Stern of Philly, Chicago's most regular commuter, in town for a few days and then right back home again. This comes so natural to Sam now that Mrs. Stern, when he leaves the house in the morning, now expects his evening phone call to be from Chi.

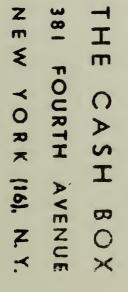

Harry Brown of American Amusement returns from a long stay in N.Y.C. Harry remained in his factory for about 24 hours and then off again to Idaho Falls office of the firm where slots are working, salesboards go up on May 7 and whiskey by the drink will again be served in Idaho on July 1 ... Eddie Hanson of Groetchen Tool & Mfg. Co. busier than ever this past week as shipments start out on Imps and Twin Falls. Eddie reports demand increasing daily . . . Dave Lovitz, Jennings' adman, busy in conferences all this past week getting ready with a grand campaign . . . Ben Coven just can't get over the demand for Bally's Rocket, "Every time I feel we've filled orders—bingo—they start coming back at us with demand for more and still more. Looks like Rocket will go on for years", Ben says . . . "Dapper" Tom Callaghan of Bally Mfg. Co. is planning a trip down to the tropical Central American countries—where he'll have a chance to wear those tropical suits he owns. "Best dressed man in the industry", they're calling Tom.

We hear that George Ponser of Amusement Enterprises, Inc., N.Y.C., was in our town this past week . . . Bob Gabel of the John Gabel Mfg. Co., one of the really real old timers in the music field, reports that the firm have plenty to do to keep up with the demand they now have for specialty work and for continuous play mechanisms . . . Al Meierowitz of Esquire tells us that he is "well satisfied" with the demand for "Spotlite". Charley Katz, we are told, is still in New York, after a trip around the country, and Leon Berman just visited his family in N.Y.C.

Morrie Ginsberg of Atlas is temporarily bedded with a cold and brother Eddie is again in action getting those machines moving in and out just as fast as 1s possible . . . They tell me that Gil Kitt is really going to have some sensational surprises when he officially opens the "Empire Bldg." to the trade. In the meantime, Ralph Sheffield is still working away with the contractors and everyone else is all hepped up over at Empire waiting for "moving day" . . . Jim Mangan, CMI public relations chief, spent the better part of a day, this past week, taking pics of the Bell-O-Matic staff and set-up. Knowing this outfit so well, we expect that Jim is going to turn out a really interesting job . . . Bill Marmer of Sicking, Inc., Cincinnati, spent much of his time this past week visiting over at Bell-O-Matic . . . Jack Nelson all pepped up over the news that Allite Mfg. Co.'s bowling alley will be shipped out to all distribs. Jack told us about the 14 test models which were placed on locations in Los Angeles and that the collection reports are phenomenal. In fact a collection of two days for one machine was so good it exceeded any game ever placed in the L.A. territory.

Art Weinand of Rock-Ola reminiscing about his college days and stirring up some really old memories . . . Lew Lewis of Coin-A-Matic actually working day and night to get those machines out to customers. And Mrs. Lewis tells us that the "specials" which appeared in last week's ad went like hot cakes . . . Gordon Sutton just back from the Springfield hearing on the proposed \$50 juke box tax for the state of Illinois and busily rushing to another hearing here in Chicago on Friday. More on this later on—as the hearings come to an end . . . Bernie Schutz hints that Coin Amusement Games will soon release "something really startling" . . . George Lewis over at ABT probably has the best expression of the week when he stated, "No news is good news".

Important to all music ops, everywhere in the nation, including the Illinois phono men who are having a headache own at this time with the proposed \$50 per year per phono state tax-is the Scott Bill in Washington, D.C. on which there will be a public hearing this Friday, May 23 in the Old House Office Bldg., by the House of Representatives' Committee on the Judiciary. With the fact that ASCAP, BMI, NAPA. National Assn. of Broadcasters and many other big organizations are sending down very large delegations to represent them at this hearing-it becomes absolutely imperative for every member of the automatic music industry of America to be present and to be heard at this public hearing. Should this Scott Bill, which is completely and solely directed at the coin operated phono get over this first public hearing hurdle, there'll be plenty of fireworks for every operator of automatic phonos-Get down to Washington on Friday. This is vital.

BUSINESS REPLY CARD

EASTERN FLASHES

One of the city's leading finance organizations recently refused to work with an operator who desired to sell music machines directly to locations. They sent us a carbon of the letter sent to the operator and it is interesting to note their reasons for refusing financial support to this operator. We quote one paragraph "I would like to have been of service to you, but I look upon our relationship with distributors and operators as more than a purely dollars and cents matter. We have to look beyond the immediate profit consideration, and cannot ignore the rights and interests of the operators whose paper we carry, as well as the distributors for whom we finance such paper. Consequently, I feel we would be doing ourselves and the industry an injustice if we were to embark upon a policy of approving and handling sales direct to location owners, and I therefore regret to advise that we will not be in a position to go along with you in your contemplated sales program. I know you will understand our position, and hope that you may be able to find some other method of creating sales in such fashion that there will be no possible repercussion on yourself, your finance company, or the operators whose means of livelihood we feel should not be jeopardized or threatened."

THRU THE COIN CHUI

Nat Cohn, Modern Music Sales Corp., returns from Chicago where he spent some time with officials of Mills Industries. Nat expects deliveries of Mills Constellation phono this coming week. Cohn celebrated a birthday this week, and has trinkets from his wife and children to prove it . . . Teddy Blatt, Intimate Music Networks, flies down to Florida for a short vacation, leaving Max Schiffman to take care of the biz . . . Ben Becker, Tri-State Sales Co. and Pioneer Distributing Co. (Bally distributors) flooded with orders for "Rocket" and yelling for help from the factory. Marylin Gibs, Ben's secretary, asks who is this "Bally Sally" at Covens? And the pert blonde has good reason to ask . . . Jimmy Sherry, Muse Music Co., returns to his route after vacationing in Florida for some weeks.

Jack Fitzgibbons, Jafco, Inc. and Musical Minutes, home ill this past week. Jack was making a trip and became ill in Chicago. Leo Knebel and Johnny Ahearn taking care of the business very effectively during Jack's absence . . . Max Levine and Fred Hailparin, Scientific Machine Corp., going at top speed to fill orders for their "location" model of "Pokerino" . . . A very deep sidewalk conference was noticed with Joe Kochansky, Harry Friar, Charley Katz and Hymie Rosenberg in earnest conversation . . . Charley Katz welcomes Leon Berman of his company (Esquire Games) who returns to the city for a few weeks. Katz expects to remain in the big city for another week or so . . Those doubleentendre records attracting the attention of the police department. Music operators are doing themselves considerable harm by placing this type of record in their phonos.

Barney (Shugy) Sugerman and Jack Mitnick, Runyon Sales Co., supplied an AMI phono for a reception given by Station WOR's teen-age disc jockeys, Roger and Sue, for 100 honor students from various high schools in the city . . . Abe Green of Runyon seen in one of his infrequent visits to the big city . . . Dorothy Wolk, one of the secretaries at the New York Music Machine Operators Assn. home ill . . . Arcade owners in Coney Island were lucky this past week escaping the range of flames from the big fire. Only arcade damaged was Stanley Gersh's "Play For Gold" a group game . . . Mike Munves, recovering from his recent illness, can't find the time to relax for a moment. Those arcade machines being shipped by the carload . . . Teddy (Champ) Seidel opens Seidel Coin Machine Sales on coinrow, jobbing all types of equipment, but specializing in roll down games at this time.

Final details being completed at the new quarters of Atlantic New York Corp. and Seaboard New York Corp. All the personnel and equipment has been moved to W. 58th Street, and everyone now is getting ready for their big party to be held on May 25. Bert Lane and Meyer Parkoff promise the trade it will be the greatest shindig ever to be held. Bert tells us that Allite Manufacturing Corp. has informed them that they should have a few samples of "Strikes 'N Spares" on hand this week . . . Ben Palastrant, regional district manager for Aireon Manufacturing Corp. flew into the city. Ben had a bad flight, the plane circling New York City for over three hours looking for a break to land. From New York, Ben visited Al Bergman's Alfred Sales Co. at Buffalo for the "Fiesta" showing. Then back to Boston to attend Joe Green's party.

Dave Stern, Seacoast Distributors (Rock-Ola distributors) keeping things humming in the city, while Harry Pearl and Tom Burke hustle around the Elizabeth territory. The boys are talking about the wonderful party Irv Orenstein of the Newark office of Seacoast ran last week ... F. McKim Smith, President of the National Association of Amusement Machine Owners, comes in from Atlantic City, to see how their school for mechanics is going, and is very well pleased . . . Sammy Stern, Scott-Crosse Co., Philadelphia received two sample "Strikes 'N Spares" from the factory by air freight and set them up immediately in his showrooms . . . A new Sapphire point needle, built especially for the coin trade at a very low price, will soon be introduced . . . Murray Goldberg and Jack Firestone, Firestone Enterprises, Inc., Brooklyn, N. Y. report things humming at their plant.

George Ponser, Amusement Enterprises, Inc., has been up and back from New York to Chicago so often these past few weeks, he feels like a commuter. George will be springing with something hot very shortly . . . Lou Rosenberg, recently of Bay Ridge Music Co., Brooklyn, N. Y., now running his own operation . . . New York music operators will be represented by Sidney H. Levine, attorney and Al Denver, president of the New York Music Machine Operators Assn., at the hearing of the Scott Bill in Washington, May 23.

THRU THE COIN CHUTE CA

Dropped around to visit at the Allite Manufacturing Company, making "Strikes N' Spares" and. brother, I really got an eyeful. At first glance I thought it was the General Motors assembly plant at Detroit. with each game on a separate platform that rode on a small gauge track moving slowly around a circle, while busy workmen swarmed all over the games putting parts on, attaching all sorts of connections, and on down the line to the end of the assembly line where it gets a very complete checkup and is all set for the packing and crating room for shipment. Bill Schrader, president of the firm, informed me that the company will be capable of turning out no less than 500 games a month, and, from the mechanical and organization genius of this man Schrader, methinks this goal will be reached easily, and soon, too.

Big doings at the Mills Sales offices and showrooms at Seattle, Portland, San Francisco and Los Angeles during the weeks of May 19th and 26th, when the new Mills "Constellation" phono will be unveiled to the music ops of those cities. A sneak preview was held this past week for the Northern Cal ops at a meeting held in Oakland and presided over by George Miller. A swell buffet luncheon was put on for the boys present. Warren, Sales Manager of the firm leaves for Seattle to meet Charles Schlicht, head man of the phono department of the Mills factory in Chicago.

When the end of the phone strike was announced, a long loud sigh was heard coming from the vicinity of Paul Laymon's. Paul now plans on moving into his new and remodeled offices and showrooms within the next week to ten days. He has been taking lots of orders for the new Bally "Rocket," which, according to Paul, is being received with open arms by ops. He also has a sample of the new "Heavy Hitter" on display in his showrooms.

Len Baskfield, of E. T. Mape, in town conferring with Ray Powers, managing the local offices of the firm, and talking over some big plans for the company. Ray tells me that the new mirror cabinet is being well received with lots of nice orders in and more coming in all the time . . . Sam Lutz, well known artists representative, has moved his offices to 8210½ Sunset Blvd. on the strip . . . Leo Mesner, of Aladdin Records, proudly passing out big cigars since he became a proud poppa. His first production.

Among the ops shopping along the row this past week were: Jack Bahler, Inglewood; Thomas Workman, Los Angeles; Lawrence Raya, Colton; Milton Noreiga, Colton; Louis C. Uhl, Los Angeles; Barney Smith, Long Beach; W. R. Yunkes, Los Angeles; Kenny Hoar, Pasadena; Floyd Anthony, Santa Maria; Ben Corenblum, Los Angeles; R. F. Gallagher, Santa Anna; G. H. Baerresen, Los Angeles; C. E. Collard, San Bernardino; R. Post, Lynwood; Jean Leerskov, Ontario . . . Danny Jackson of Automatic Games has just received samples of the Mills 3-Bell and the Mills Jewel Bell, and they should bring in plenty of buyers. Danny tells me that his firm plans on specializing in bells, both new and reconditioned . . . H. G. Sherry of Commercial Coin Radio has some very elaborate plans in the offing in coin operated radio and plans on making a number of important announcements in that respect very soon . . . Van Es Record Company, one of our newer platter firms, recently cut a number of very swell sides, which they plan on announcing very soon.

CALIFORNIA CLIPPINGS

Jules and Saul Bihari, of Modern Records, plan on taking a trip to Chicago and New York calling on the firm's distribs and to appoint several new ones in territories not already covered. Jules tells me that their newest recording of "That's My Desire," by Hadda Brooks, is selling phenomenally . . . Badger Sales has been doing terrific in the export business, having shipped many hundreds of pieces of music, games and parts. Jack Leonard, in charge of the parts department, is very proud of it, with one of the most elaborate displays of parts ever seen. Badger has on display a sample of the new "Sportsman" roll down game which looks very nice and should sell in very large numbers . . . Lou Chudd, of Holiday Distributing Company, is on his way to Chicago and New York to see many of the music distribs and get acquainted with many of the boys in the field . . . A very important announcement is expected from the local Aireon distribs. We hear a surprise showing is planned for the very near future. Ed Wisler, Aireon Regional Representative is working on it with Frank Navarro and Nels Nelson . . . Jay Bullock of S.C.A.M.O.A. informs us that all's well with his association and that he will make an important announcement of great interest to all Southern Cal music ops.

Visited with C. W. Coleman and L. G. Berg of the Crystallete Radio and was given a quick peek at something really new in the coin field which the boys have been experimenting with. It's novel and not quite ready for release, but will be announced within the next sixty days . . . Len Micon of Pacific Coast Distribs has been calling on all local distribs to keep up the big demand for the new Genco "Advance Roll" . . . Jack Gutshall is off for a three-day visit to San Diego and vicinity calling on ops and stirring up interest in the new Packard phono, and telling the boys about his line of swell independent records. Jack Allison is in charge during Gutshall's absence.

Jack Beekman, of Hucksters Recording Company, about to release an important announcement of several new recordings . . . "Hum" Brokamp of Pantages Maestro Music is very happy over the ending of the strike. Now they can proceed with their plans for expansion of wired music. The plant on North McCadden Pl. is humming with production of the firm's new cabinets . . . Charlie Robinson still out in the middle west and due back any day now . . . Bud Parr of Solotone is all set now after a number of delays and is in full production of the new "Mirror-Tone" and should be ready to make several announcements soon. Parr tells me that there is a very good demand from music ops for the mirror cabinets ... Leon Rene is in the process of signing several new and important recording artists for his exclusive Records firm. A very progressive and forward looking organization has grown under Rene's guidance.

Bill Williams, of the Williams Distributing Company, is a very hard man to find in his office. He tells me that he likes to get out into the field to call on the distribs and jobbers and meet as many of the ops as he can . . . Sol Schwartz of Pico Sales has come up with a new roll down game called "Sweet Twenty One." It's very nice and is doing a terrific job on test locations. He has several top notch experts checking his games before they go out. assuring perfect operating condition when they leave his factory . . . Quality Pics now in production of their newest and latest series of 16 M.M. coin film.

THE COIN CHIL

MINNEAPOLI

The fishing season opens in the State of Minnesota, Thursday, May 15, and many operators are leaving tonight for their favorite fishing holes in different spots throughout Minnesota . . . Matt Engle of the Mayflower Distributing Company, sporting a brand new Oldsmobile and also sporting crutches as he hobbles along with his gout. Just another attack but Matt is getting along pretty good . . . Frank J. Ray of the Dakota Amusement Company, Dickinson, North Dakota decided to spend a few days in Minneapolis-his first visit down here in about 8 or 10 months. Frank tells us that Floyd Howell, operating in the same town, has just opened up a brand new record shop there.

Phil Gillerstein of the Novelty Sales Company, Fargo, North Dakota, stopped off in Minneapolis for a few hours en route home after visiting friends in Eau Claire, Wisconsin . . . Henry Greenstein of the Hy-G Music Company, will do some fishing on the 15th up at Nisswa, Minnesota . . . Le Roy Roberts of Luverne, Minnesota, in town with his son and wife. Mrs. Roberts attended the Eastern Star's Convention in Minneapolis while Le Roy was enjoying a two day holiday . . . Eddie Clavin of Alexandria, Minnesota is building a \$75,000 Motel on the outskirts of Alexandria, which is considered one of the best resort towns in the State of Minnesota. Not a bad idea as they need something like that in Alexandria.

George Mosher of Motley, Minnesota, in town for the day and has his eye on Seeburgs exclusively . . . A. E. Witt of Brainerd, Minnesota, in town just for the day calling on a few distributors . . . Karl Peterson of the Fergus Falls Novelty Company, Fergus Falls, Minnesota was in town last Friday, May 9, for just a day-his first visit in many months. Seems as if Karl just can't get away as often as he used to.

> *

Dick Jones, owner of the Mercury Sales Company, Minneapolis, has sold his route. Dick has bought a night club at Waseca, Minnesota and is going to spend all his time in running it . . . The Concord Novelty Company, South St. Paul, is now owned by Frank McCormick . . . E. J. Lloyd has sold out his complete interest in the company to Frank and has just retired out of the business.

Lots of ops are interested in a research program

being carried on by Bill Salfen over at Appliance Distributing Company, Sonora record distributors for this area. Salfen feels that too many ops wear out their records unnecessarily fast; particularly when such hot items as Al Jolson's April Showers are on the platter. Of late he has been experimenting with all varieties of long-lived records, with the upshot that he's recommending the nylon needle over the rest. Much better reproduction and less wear seem to be the results.

Lou Morris, president of the St. Louis op's group, trekked to Chicago last week to get a few pointers on what to expect in the future. He isn't too optimistic, according to the grouch he's been exhibiting of the last few days.

> 25 $z_i^t,$

V-P Distributing Company's Del Veatch, growing in popularity by leaps and bounds, rung up a record group of visitors last week. Probably a big shipment of Cyclones which just came in had something to do with it. Anyhow we saw Emil Frizt up from Anna, Illinois; Freddie Voucher from Festus; C. E. Vawter from Moberly, Missouri, and Ted Keys from Farmington, Missouri. ,'Didn't have enough to go around" Del grinned "But we helped out."

The new Aireon will make its bow at VP this coming week. A party is planned in the showroom, with a buffet lunch and a few refreshments. Lots of advance interest is claimed by the Kansas City group.

Good news for St. Louis pin games ops is the fact that our sister "republic" East St. Louis, has at long last permitted pinballs within its boundaries. For many years off the list, the good burghers of East St. Louis have elected to build up the local tax coffers with pingames. The announcement came early in May, and immediately a flood of pinballs, many of whom hadn't felt the caress of a nickel for lo, these many moons, were trucked over to Illinois spots; hastily refurbished with new paint, glass, and balls.

Lucky purchasers of new Rockolas this past week were S. A. Black of Saragordo, Illinois, and R. C. Boles, of Springfield, Missouri, who won five of them by fluke of luck.
