Talking It Over

And still another organization of juke box operators comes into being.

Just a few weeks ago we reported that the ops of the State of Connecticut had seen fit to come together into a statewide group because of the success being enjoyed by the New Haven operators.

This state-wide organization is now well under way with its leaders working hard to get everyone of the state's ops to join.

Now comes news from Michael Malkin of Fayetteville, N. C., who has just been named Secretary-Treasurer for the juke box ops of the states of North and South Carolina. Mike reports that the ops in both these states are much enthused over their new organization. All foresee better times ahead because of the cooperation which each op is willing to extend to the other for their mutual future better welfare.

In the past torrid weeks these ops have met three times and a large meet has just been under way in Florence, S. C. As the officers travel from city to city in the Carolinas to meet with local groups of ops, and as other interested ops come along to tell the story of what cooperation can do for them, this new two-state organization grows stronger and stronger, and will mean that North and South Carolina will be a solid base for growth as well as for future sales for this industry.

It is interesting to note, therefore, that the very first paragraph in the hurriedly composed "policy" of this new "Carolina Music Operators Association" reads:

"(1) An association of music operators formed for the purpose of helping one another and cooperating in endeavors mutually beneficial to all operators in the States of North and South Carolina."

Certainly no better wordage nor no better thought could have been extended than what is contained in what Mike Malkin calls, "a copy of the few general policies that we have formed to date and which we intend to follow."

He also writes me personally, "I know that for quite sometime you have been favoring such organizations and I do hope that you will look with favor on North and South Carolina."

My answer to Mike Malkin is contained herein for all to read.

I believe that the formation of such organizations is one of the better moves for the general welfare of all concerned with this field and that the operators of North and South Carolina have now made the finest advance forward step that they could ever make to assure themselves, thru close, unstinted and sincere cooperation, that they will continue to enjoy profits, continue to grow greater and stronger, and therefore benefit this entire industry by being a strong organization, financially and otherwise.

It is most completely agreed that the operator must be financially healthy for all in this industry to be healthy. The Carolinas are now on the way to good health.

FIRST NATIONAL MEET NATION'S MUSIC OPS GETS WARM SUPPORT

MOA's First National Meeting Nov. 7, 8, 9, in Chicago Wins Support of Members Assns and Juke Box Leaders. Display Booths Already Being Called for With Music Leaders Awaiting Show

Warmer support than was even anticipated has been forthcoming for the first national meeting to be held by the nation's local and state music associations, which also includes a very large number of independent juke box ops where no associations are as yet in existence, sponsored by MOA (Music Operators of America) and to be held in Chicago, November 7, 8 and 9, with the probable site of this first big national meet to be the Stevens Hotel in that city.

It is interesting to note, just as *The Cash Box* pointed out sometime ago, that the juke box operators, and all connected with them in the automatic music industry, have now, within the framework of MOA Music Operators of America), come together to hold their first national meeting.

It is a well known fact that the nation's music ops have been, and a great many still are, engaged in various other divisions of the field. There are those who operate cigarette machines and other automatic merchandisers, as well as many who continue to operate amusement games of all kinds, as well as penny arcades and also have merchandise outlets, such as record stores, record wholesaling organizations, and so forth.

Now, for the very first time in the history of the nation's automatic music industry, a special national meeting has been called by the organization that was created in the suite of *The Cash Box* at the Bismarck Hotel during the 1948 convention and which, after this meeting, elected George A. Miller, president of the California Music Operators Assn., Oakland, Calif., its first National Chairman.

Since that time MOA has moved fast. It has created various committees which have worked for the benefit of the automatic music operator. It came into being as the one national organization to hold together all local music organizations and to work against any negative legislation which might come into being on a national scale.

Even independent juke box ops, in territories where no organizations as yet exist, asked MOA to allow them to become members. The organization has continued to grow with leaps and bounds. Local and state organizations have joined under the MOA banner. These are now extremely proud that there is such an association in being which will watch the national picture for them where they, themselves, are individually impotent in such a situation.

This publication recalls being at hearings in Washington where only seven men showed up to defend one of the most drastic measures ever brought up before the Congress to force this industry to pay tribute. Today there is no doubt that such a bill would call into being a lot more than seven interested parties.

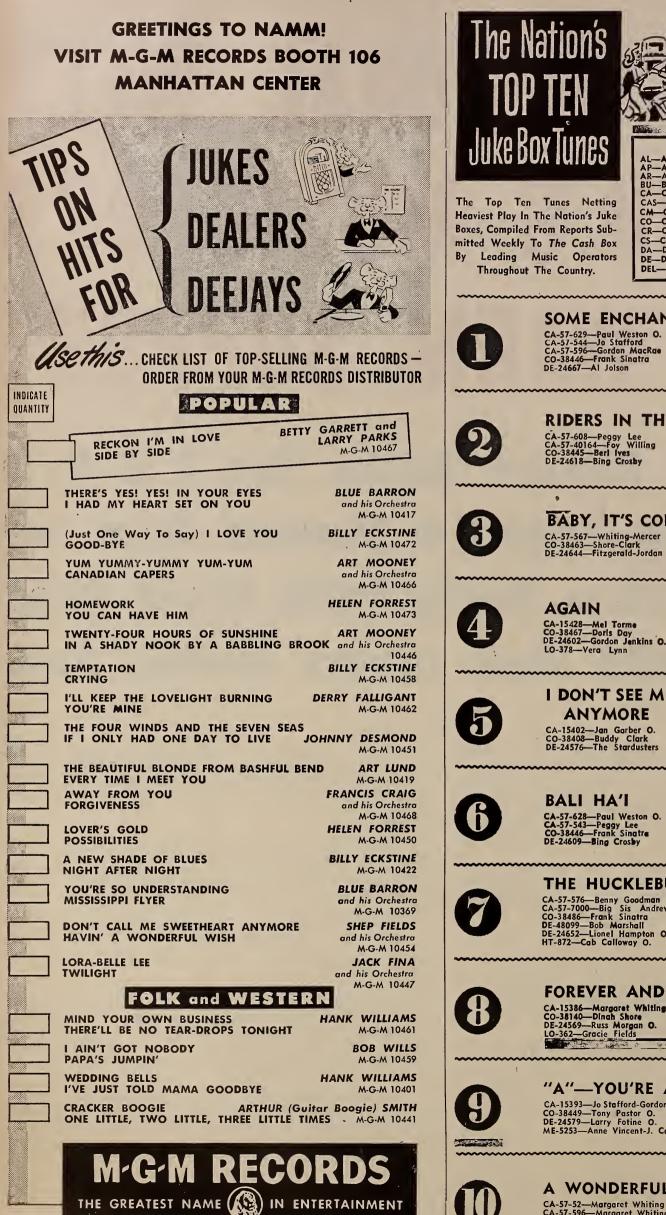

These seven men faced a tremendously impressive staff of noted lawyers. It was the terrific effort of Sidney H. Levine, attorney for the Automatic Music Operators Assn. of New York, and leading juke box manufacturers that withheld the passage of this bill.

It is stimulating and thrilling to learn of this warm reaction and acceptance to the country's first meeting of juke box operators. It is well to realize that after all these years the field has opened wide for this division of the industry (the most outstanding for many years) to hold its own meetings and to call attention to the fact that it is most definitely a solid and subsantial division of the nation's coin operated entertainment business.

Manufacturers of automatic music equipment, suppliers, publishers, artists, orchestras, many others are already advising MOA that they wish to have display space at this first annual meeting of the nation's juke box ops.

It is generally believed among members of MOA that this will prove one of the biggest and most important meetings.

"Part Time Sweetheart" (2:51)

"Bewitched" (2:53)

CHUCK CABOT ORCH. (Atomic 1002)

• Ditty loaded with coin culling potential is this musical item titled "Part Time Sweetheart," offered here by the Chuck Cabot ork. It's a mellow piece of music that makes for wonderful listening pleasure. Vocal refrain on the side by Pick Baldwin is smooth throughout, and goes a long way toward making the side a hot phono item. Merry tempo of the tune, added to the comely and inviting lyrics, should win wide praise with juke box fans. On the flip with "Bewitched," Dick bounces back again to render a pleasing ballad. Ork background music is tops on both sides. "Part Time Sweetheart" is the side to ride with.

> "Have A Heart" (2:35) "Dime A Dozen" (2:35) LAWRENCE WELK ORCH. (Mercury 5312)

• The light musical patterns of the Lawrence Welk ork are shown to excellent light here with this recording of "Have A Heart" and "Dime A Dozen." Altho the platter won't stop traffic, it should boom juke box play and satisfy the large bevy of fans Welk has. Top deck is done up in bounce fashion, with a gal vocal shining brightly. Band chorus in the background adds to the winning incentive offered here. The flip, with Bob "Tex" Cromer at the mike, rolls along moderately, and shows as a fair light romance tune. Music ops who have the spots might take a look-see in this direction.

"Homework" (2:40)

"Let's Take An Old Fashioned Walk" (2:51)

THE PEPPERETTES—HORACE HEIDT ORCH (Horace Heidt 1012)

• Pair of tunes that might be used as filler items are these done up by the Pepperettes and the Horace Heidt ork. Wax, tagged "Homework" and "Let's Take An Old Fashioned Walk," from the "Miss Liberty" click, is just fair as it stands. Vocal harmony by the girls shouldn't cause any excitement. Spot vocal on the flip by Harold Parr is effective as is the maestro's instrumental work on the pair. Wax is there for the asking-music ops take it from here.

DISK OF THE WEEK

"You're Breaking My Heart" (2:50) "Song Of Surrender" (2:58) BUDDY CLARK

(Columbia 38546)

on the side is another feather in his cap for turning out top-notch recordings. The song, based upon an Italian folk tune, rolls along in moderate tempo, and has Buddy delivering a wonderful vocal spot. Orchestral background music furnished by maestro Harry Zimmerman, in addition to a choir chorusing the lyrics in Italian, all go toward making this platter a winner. On the other end with "Song Of Surrender," Buddy renders a very dramatic piece to keep the wax in the somber, romantic vein. Ditty is slowly set, with Buddy and the vocal choir once again displaying exceptional vocal fineness throughout the waxing. Music ops can't miss with the top deck, "You're Breaking My Heart."

"Give Me A Little Kiss, Will Ya' Huh?" (2:52)

"Cecilia" (2:58)

ROBERT CLARY (Capitol 57-702)

• First Capitol waxing from Frenchman Robert Clary beckons some heavy coin play from this corner. Clary's husky pipes warble the refrain of "Give Me A Little Kiss, Will Ya' Huh?" in top notch manner, with the fond jazz intonation ringing true throughout. Vocal phrasing by Clary adds to the wax incentive immensely. The flip has Bob offering another oldie in "Cecilia," with the platter echoing brightly. Both sides of this bit of wax should do well in the boxes.

"Crackerjack Polka" (2:41) "Maybe" (2:35) BAILEY BROTHERS (Merit 300)

• Pair of sides music ops may care to use as filler material are these done up by The Bailey Brothers. Titled "Crackerjack Polka" and "Maybe," the team display some fair instrumental flavor in this wax offering. It's a hammond organ and rattle of the bones that holds the balance on this pair. Top deck is wrapped up in the title, while the flip is the old standard. Ops who have the room on their machines might take a looksee.

"Good-Bye" (2:25)

"Everything Depends On Me" (2:40)

JOHNNY HARTMAN (Mercury 8149)

• Vocal pleasure by balladeer Johnny Hartman, and the set-up of the beautiful "Good-Bye" in the offing for music fans. The tune, the familiar Benny Goodman theme, gets an excellent bit of treatment by Johnny, whose strong and powerful vocal tones handle the lyrics in admirable vocal style. Ditty is a minor key item, rendered in slow, dramatic tempo. The flip, "Everything Depends On You" receives equally brilliant treatment by Johnny, with the tender romance lyrics ringing true. Top deck is a winner.

"That Wonderful Girl Of Mine" (2:48)

"Scalawag" (2:39) IRVING FIELDDS TRIO (RCA Victor 20-3493)

• Music styled in the light, polite manner of the Irving Fields Trio is shown in excellent manner on this coupling of "That Wonderful Girl Of Mine" and "Scalawag." Both sides feature the moderated piano fashions of maestro Fields, with Ralph Young and a vocal trio handling the lyrics. Top deck is a slowly set piece that makes for wonderful listening, while the flip picks up in tempo a mite. Music ops with those quiet dining locations should do well with this pair.

"Tell Me Why" (2:48)

"Maybe It's Because" (2:45)

EDDY HOWARD ORCH. (Mercury 5314)

• Pair of fresh sides by the Eddy Howark ork, with some sure-fire material looming at music ops in this coupling of "Tell Me Why" and "Maybe It's Because." Both ends of this platter are blue-ribbon winners, and should have phono fans digging for silver in no time at all. Top deck, with Eddy and the vocal trio spooning softly, is a melodic ballad that should score widely. Infectious vocal style of the maestro, in addition to the comely musical pattern of the tune itself, makes this bit top drawer material. The flip, "Maybe It's Because," is another tune that should step out and go. Eddy's rendition of this song should boom the popularity of the tune immensely. Music ops can safely order this platter by the boxful.

"Dance Of The Hours" (2:48) "None But The Lonely Heart" (2:53) SPIKE JONES ORCH.

BUDDY CLARK

Ballader Buddy Clark steps

into the vocal limelight with a song

that is already breaking wide open

at the seams. This rendition of "You're Breaking My Heart"

should prove to be a real hot one,

and have juke box fans humming

and singing the melody in no time

at all. Buddy's sincere vocal effort

(RCA Victor 20-3516)

• You'll just have to laugh yourself silly once you hear these sides. It's Spike Jones and his crew, offering a pair of the weirdest sides we've ever had the pleasure of hearing. Top deck, "Dance Of The Hours," is a zany account of the famed Indianapolis Speedway races. The flip keeps you rolling, as the gang get together to gag up a "John's Other Wife" routine. Both sides are loaded with mirth and merriment, and should find a tremendous listening audience. Ops should get with this duo.

"San" (2:52)

"Listen To The Mockingbird" (2:58) BROTHER BONES

(Tempo 698)

• More wax by Brother Bones, with the fond metro of "San" and "Listen To The Mockingbird" winging ops' way. Both tunes should be fairly well familiar to music ops since they have been coin-winners thru the years. Top deck, with Brother Bones rattling in mellow style in addition to a whistle spot, is currently being revived. This rendition should add to the popularity of the song. The flip shows Bones back again with a fairly novel rendition of this ever-lovin' oldie. Top deck gets the edge here.

"Five Foot Two, Eyes Of Blue" (2:50)

"For Mari-Yootch" (2:53) LOUIS PRIMA ORCH. (RCA Victor 20-3494)

• Pair of cute novelty sides that might go are these done up by maestro Louis Prima. Altho a little late on the top deck, "Five Foot Two, Eyes Of Blue," Louis' zany rendition of this current pop winner might be enough to boom juke box play on the song. Split vocal work by the Louis, chirp Keeley Smith and The Goofers is there for the asking. The flip, "For Mari-Yootch," has Louis at his novel best, offering a mellow bounce ditty that makes for wonderful listening pleasure. The flip rates ops' listening time.

"Who Do You Know In Heaven" (2:14)

"You're Breaking My Heart" (3:20)

THE INK SPOTS (Decca 24693)

• Long missing from the phono spotlight as a name attraction, the Ink Spots come up with a pair here that might click. Top deck, "Who Do You Know In Heaven," is a slowly set romantic piece, with Bill Kenny holding down the solo tenor spot. The flip spills in much the same manner, altho "You're Breaking My Heart" seems to be better suited for the group. The usual Ink Spots performance seems to be tiresome at this stage, with Kenny's spot and the regular bass vocal a wee bit weary. Bright spot of the disk is the orchestral work in the background which gives the disk a much-needed lift. Ops might listen in.

"Through A Long And Sleepless Night" (3:13)

"I'm Yours" (3:15)

DINAH SHORE (Columbia 38539)

Music ops can bet their boots on this one! Certainly one of the most impressive recordings ever recorded by Dinah Shore, this rendition of "Through A Long And Sleepless Night" seems destined to create a sensational stir in the music biz. It's a slowly set, dramatic item, with Dinah and a vocal choir chanting superbly from start to finish. The tender, sentimental echo of this bit makes you stop and listen-attentively. On the other end with "I'm Yours," Dinah offers one of her best platters ever in this ever-lovin' standard. Top deck is a must!

OF

"Just For Fun" (2:55) "My Own, My Only, My All" (2:49) DEAN MARTIN (Capitol 57-691)

• Balladeer Dean Martin, of the famed comedy team of Martin & Lewis, pitches his pipes on this tune to come up with a great hunk of wax in this offering tagged "Just For Fun." It's a melodic, infectious tune that Dean offers, one that lingers with the listener long after the first earful. Ditty is from the Paramount flicker "My Friend Irma," which also features Dean

"Wunderbar" (2:47)

"Yours For A Song" (2:51)

JUDY KANE and CHRIS O'BRIEN

(Solitaire 601)

• Some fair wax for music ops to

take a peek at are these sides ren-

dered by Judy Kane and Chris O'Brien. Titled "Wunderbar" and

"Yours For A Song," Judy and Chris

display some excellent vocal tones on

the wax to set the stage for some potential coin play. Top deck should

be fairly well known to ops since it

has been around for some time. It's

a lilting waltz, with some top-notch

organ background music rounding out

the side. The flip stays in the same

vein and once again has the vocal

combo offering their best. Top deck

"Hollywood Square Dance" (2:10)

"Let's Harmonize" (2:57)

VERA LYNN and ANNE SHELTON

(London 463)

• Pair of tunes music ops may go

for as fillers are these rendered by

chirps Vera Lynn and Anne Shelton. Tagged "Hollywood Square Dance"

and "Let's Harmonize," the gals de-

liver some fair vocal work on the wax,

which should satisfy their respective

fans. Top deck is just what the title

indicates, while the flip has the gal's

splitting vocal honors on a cute bit of music. Wax won't stop traffic.

may catch on.

Martin and Jerry Lewis, and should come in for some exceptional bally therefrom. Tempo of the tune is slowly set, with Dean purring the lilting lyrics in smooth vocal manner throughout. The excellent musical backdrop furnished by maestro Paul Weston enhances the side immensely too. Dean's romantic warbling on this cupiditty should result in his emergence as a top disk star, and likewise reap a top disk star, and likewise reap a rich harvest for music operators throughout the nation. On the other end with "My Own, My Only, My All," Dean once again comes with some excellent warbling on this light mellow piece of music, to keep the wax spinning hot. This tune should prove to be one of the bigger clicks of the film, in addi-tion to "Just For Fun." Ops can safely climb on the bandwagon!

"Tomorrow" (2:51)

"| Ain't Got Nothin' To Lose" (2:53)

LUCKY MILLINDER ORCH. (RCA Victor 20-3495)

• Orkster Lucky Millinder on the stand with a pair of sides that might crop up for some heavy phono play. Top deck, tagged "Tomorrow," has piper Paul Breckenridge offering a strong vocal piece, with the band picking it up in the background in uptempo manner. Ditty should hold the many Millinder fans happy. The flip has Big John Greer and a vocal four knocking out a mellow piece tagged "I Ain't Got Nothin' To Lose." Both sides show heavy promise-music ops should pay this biscuit some heavy attention.

"Pagan Love Song" (2:40) "Twilight" (3:04) HERB JEFFRIES (Columbia 38538)

Balladeer Herb Jeffries into the limelight, with "Pagan Love Song" and "Twilight" headed music ops' way. Both sides of this platter are very dramatically styled by Herb, with maestro Hugo Winterhalter lending the wax a terrific musical backdrop. While the sides themselves are not strictly commercial, Herb's many fans might take to them. Music ops who have the room on their machines might take a look-see in this direction.

"The Man With The Weird Beard" (2:40)

"Heap Big Smoke" (2:42)

ARTHUR GODFREY (Columbia 38537)

• The vocal personality of Arthur Godfrey is shown in all its excellence on this novel coupling of "The Man With The Weird Beard" and "Heap Big Smoke." Both decks are full of comedy routine by Arthur, with the Too Fat Trio joining in. Top deck'is just what the title indicates, while the flip has a fairly cute Indian cut-up offered. Music ops familiar with the widespread popularity of Godfrey would do well to listen in to this platter.

"Whispering Hope" (2:53) "A Thought In My Heart" (2:55) JO STAFFORD-GORDON MacRAE (Capitol 57-691)

• Another vocal duet by Jo Stafford and Gordon MacRae, and the spark of another hot waxing in this coupling of "Whispering Hope" and "A Thought In My Heart." It's the top deck we go for. The ditty, a real oldie from way back, is a standard church hymn handled in the most superb vocal manner by Jo and Gordon. The pipers deliver some wonderful two-part harmony on the side, as the tempo weaves in slow, tempting tones that satisfy. It's relaxing music from start to finish-the kind you want to play time and again. On the flip with "A Thought In My Heart," the vocal team bounce back with another comely waxing in this light, romantic ditty. "Whispering Hope" should score heavily.

"Cross Town Trolley" (3:03)

"Just A Gigolo" (3:13)

LES BROWN ORCH. (Columbia 38536)

• Pair of fresh sides by maestro Les Brown, and the musical set-up of "Cross Town Trolley" and "Just A Gigolo" in the offing for music operators. Top deck, with chirps Betty Taylor and Ray Kellogg in the vocal spotlight, is a cute novelty with adequate lyrics weaving about the title. Tempo is merry throughout, with Betty and Ray turning in some fair vocal work on the side. The flip might prove to be a "sleeper." It's a great rendition of an equally great oldie, with Stumpy Brown offering a bit of cute vocal work on the side. Spots of bop in his vocal enhance the winning ways of the platter all the more. Ops should listen in.

The Cash Box, Music Page 13 July 30, 1949 An Editorial _ THE JUKE BOX OP A THE MUSIC MERCHANT

With the advent of the NAMM (National Association of Music Merchants) Annual Industry Trade Show & Convention at hand, it has become increasingly clear to a majority of members of the phonograph recording industry that the present period is to play a most important one to all segments of the field. It is generally agreed that the industry is entering a new phase in its history. Events in the past year have more or less revolutionized the operation of the record business, and as a result, have placed upon all individuals, problems which must be met.

The record industry today is all embracing. It means the music operator, the record dealer, recording artist, music publisher, record distributor, disk jockey, and of couse, the record manufacturer. Each and every individual plays his own important role in bringing to the attention of a highly music conscious public, the best in the nations recorded entertainment. The phonograph record represents a minute bit of Americana, and is also part and parcel of show business.

Three Speed Problem

Much has been said and written in recent weeks concerning many "disturbing" situations that currently exist in the record business. Disturbing is hardly the word for it. Each and every member of the industry knows that he is facing a most crucial period. Efforts by trade execu-tives to put "their finger" on the bug in the business have been mildly apathetic. Of farmost importance to the greater majority of the industry is the current problem of the "speeds." Since the introduction of the RCA Victor 45 rpm record and player, and the Columbia 33-1/3 rpm long playing record, dealers, distributors and operators throughout the nation have found themselves in a plight never before imagined. Soon after the initial sales incline resulting from the introduction of the new records, dealers found themselves with over-stocked shelves. Sales of records, offi-cially listed by the platteries at whole-sale prices, came tumbling down. Sales reports from executives of both RCA Victor and Columbia indicated wide acceptance of the new records and players, but, at the same time, it left the public bewildered. As one dealer recently stated, "If it so hap-pens that you like Perry Como, Frank Sinatra and Bing Crosby, you've gotta go out and spend a nice bit of change to hear music that would nor-mally cost you two dollars or so. And then you've gotta put the records on three different phonographs to hear 'em." It is clear to many executives in the industry what must be accomplished. The leaders of major recording com-panies must get together and decide what course they will follow. Will the ers found themselves with over-

t Ce

phonograph recording industry de-velop into a three-speed business, or can the field better function by arriv-ing at one speed? It is not for the betterment of the industry itself that these questions must be answered. Trade leaders must remember that in the long run, it is the public who must derive the total entertainment value from their decisions.

Music Ops Stake In Biz

What is the stake of the music op-erator in the record business? What is his association with the music dealer? How can they both join hands and work together for their mutual benefit? While the music operator is not at this stage vitally effected by the rec-ord speed changes in the field, it is widely known that he is certainly pay-ing close attention to many changes

ing close attention to many changes being made in the business. It is the being made in the business. It is the music operator, with an investment that runs into thousands of dollars, who represents one of the most sta-bilizing factors in the industry. It has been estimated that record sales throughout the nation will total more than 250,000,000 this coming year. The nations music operators will have purchased forty to fifty million plat-ters of this mark, accounting for more than twenty per-cent of the total sales in the industry.

The hardon's music operators with have purchased forty to fifty million plat-ters of this mark, accounting for more in the industry. By joining with the music operator, discussing problems of mutual inter-est, the music dealer can effect better business standards. Dealers can pro-mote sales of the juke box. One well known music operator in Florida re-cently had posters placed in the loca-tion, telling music fans where they could purchase the hit recordings in use in the juke box. Coperative promotional efforts on the dealer, who are the very backbone of the record business, must result in bringing about better business rela-tion, and in the final analysis, higher and increased profits for all concerned. Mat they termed "unfair" business practices. In many cases reputable of what they termed "unfair" business practices. In many cases reputable of shipments, and still others were form their distributors. So too, has the music operator been confronted with like problems. It must be recor-nized that the music operating busi-nost rise. True, records, by some ompanies have been reduced in price, but the general price index of the in-dustry has not entirely dropped Labor, maintenance and service, nee-day gone sky-high. The music opera-tor is still without printed title strins, and is still not granted a return privi-ge. Welcome To The NAMM Show

by

Hugh W. Randall, President National Association of Music Merchants

Every music merchant is doing himself, his business, and the public he serves a favor by attending this, the 48th Annual Music Industry Trade Show and Convention here in New York, beginning July 25. The Manhattan Center and spacious Hotel New Yorker houses every marketable item of musical merchandise, displayed by some 250 manufacturers and suppliers. Top-flight speakers have been engaged to speak on subjects of interest and importance at the Business Forums. No one can attend these sessions and come away—without taking from them new knowledge and ideas helpful in business management. We all recognize the indirect values of attending the Trade Show and Con-vention. They are too numerous to mention. One of the most important, the mere opportunity of talking over your problems with other dealers—learning how they solve their own problems—may save you many times the expense you invested to visit New York. The Trade Show Committee of the NAMM has taken great care to insure you a pleasant stay. An attractive entertainment program awaits the ladies. The Opening Luncheon and Music Industry Banquet are other events you will long remember. Welcome to New York. Combine business with pleasure. The NAMM and Music Industry extend their most hearty welcome.

Capitol Records To Produce Platters On Three Speeds

Diskery To Release Classical Line On 33¹/₃ RPM

GLENN WALLICHS

HOLLYWOOD, CALIF. — Capitol Records took another broad step to-ward stabilization of the record indus-try this past week with the announce-ment that it will produce its classical catalog on long playing 33 1/3 rpm records. With this announcement by the firm's president, Glenn E. Wal-lichs, Capitol becomes the first major plattery to produce phonograph rec-ords on all three speeds, 78, 45 and 33 1/3 rpms. It was revealed that Capitol's prep-

33 1/3 rpms. It was revealed that Capitol's preparation for 33 1/3 releases is already well under way and that the records will be available in September. Capitol's Telefunken classics, which have been tremendously successful on both 78 and 45 rpm, will all be made available on the initial 33 1/3 release. Wallichs emphatically pointed out that the company's 78 and 45 rpm program and planning will not be affected in any way, and new releases

sical Line On 33 % RPM would definitely continue as before. Wallichs stated, "We believe that Capitol's primary purpose is to pro-duce recorded entertainment. While our 78 and 45 releases have met and continue to meet gratifying accept ance, we have received a great many requests from record dealers and the public to produce classics on long public to produce classics on long our great Capitol-Telefunken catalog available on long playing records, we become the first company to give the public its complete choice of the type of record it desires." Tapitol does not plan to issue its popular records on 33 1/3, but will concentrate on 78 and 45 for this type of music, feeling public reaction has proven these two speeds most satis-tactory for popular. They to delve into a three-speed record provide the record industry that the problem of the speeds has pro-throughout the record industry that the problem of the speeds has pro-duced the most crucial issue in the history of the business. Dealers, oper-ators and record distributors through-out the nation have all readily stated that unless the problem is solved, and solved in the immediate future, the very basis and foundation of the in-dustry itself would crumble. The situation has been aggravated to the extent that dealers and distributors have informed *The Cash Box* that they can't even turn over their ac-counts receivable, simply because the banks have told them that "dealer credit standings are very shaky."

RCA VICTOR ANNOUNCES FIRST BLUE BIRD DISK RELEASE

NEY YORK-Paul A. Barkmeier, general manager of RCA Victor Records, this past week announced the first releases for the firm's Bluebird label.

The new Bluebirds will feature popular hit tunes and will retail at a new low price of 46 cents, plus tax.

The initial releases for the reactivated Bluebird label, which are expected to be available around August 10, will include: "Twenty-Four Hours of Sunshine" backed by "Now, Now, Now Is The Time," recorded by The Tattlers; "You Can Have Him" and

According to the general manager of RCA Victor Record activities, is-sue of the Bluebird records will be built around a unique plan. Since they will feature popular hit

tunes, releases will be made as these tunes develop rather than on a regularly scheduled basis.

Manufacture of the Bluebird releases will be a high speed operation all the way, with tunes recorded as they reveal hit potential in various surveys. The records then will be pressed for swift shipment to RCA Victor distributors and dealers.

Because the releases will be geared to the fastest production cycle possible, Mr. Barkmeier disclosed, announcements of titles and talent will be made approximately two weeks before the finished platters will be issued. They will be 10-inch records, for conventional 78-rpm speed turn-

tables. The Bluebird label, first introduced in 1933, was responsible for the devel-opment of tremendous talent and for

opment of tremendous talent and for bringing many tunes to the best-seller ranks. Among the stars whose ca-reers were spun to the top via Blue-bird platters were such names as Artie Shaw, Glenn Miller, Spike Jones, and Freddy Martin. Memorable original releases on Bluebird platters include Shaw's "Begin The Beguine," Miller's "Sun-rise Serenade" and "Chattanooga Choo-Choo," Freddy Martin's "Piano Concerto," and the Spike Jones' ver-sion of "Der Fuehrer's Face," as well as Britt's "There's A Star Spangled Banner Waving Somewhere."

BOSTON, MASS—Maestro Vaughn Monroe took time off from his band-stand recently to pay a visit to music operator Jerry Golombo of this city. Golombo, New England distributor for the Rock-Ola Magic Glo phono-graph, lauded Vaughn for the sensa-tional success of his click RCA Victor recording of "Riders In The Sky."

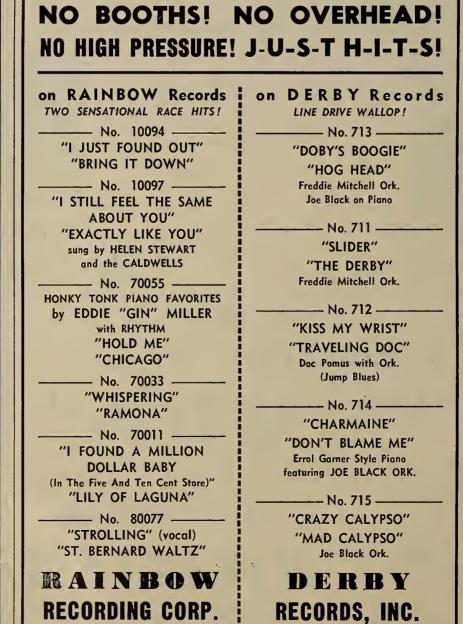

Columbia Shuts West Coast Pressing Plant

HOLLYWOOD, CALIF.—Columbia Records, Inc., this past week tempor-arily closed down its huge pressing plant here. The plant will remain closed for a period of about three months, according to Ben Selvin, west coast representative of the plattery. As a result of the closing, more than 200 employees have been laid off, with no definite word as to when work will resume. Selvin and his secretary will thus be the only remaining em-ployees remaining. With the closing of the west coast plant, Columbia now only is using its Bridgeport, Conn., headquarters as a source of platter supply. The firm's King's Mill, Ohio plant has been closed for 60 days. Both the west coast and Ohio plants were used to facilitate speed shipments of records to Columbia's distributors.

Mort Lewis Resigns Post

NEW YORK — Band promotion man, Mort Lewis, is taking an ex-tended vacation after leaving the Vir-ginia Wicks publicity office. Though his Fall plans haven't been formu-lated yet, Mort expects to return to the public relations field.

MOA EXEC. COMMITTEE TO MEET IN CHICAGO EARLY IN SEPTEMBER To Organize Complete Program For Music Ops Chortle Over Radio And

Nationwide Meet Of Music Operators In Chicago November 7, 8, and 9 NEW YORK-A trend is developbroadcasts and tele-casts of baseb

GEORGE A. MILLER Notional Chairman for Music Operators of America

NEW YORK—Arrangements are now being made by the executive officers of MOA (Music Operators of America), George Miller, chairman; Albert Denver, vice-chairman; and Sidney Levine, counsellor; to meet in Chicago with the fifteen man executive committee early in September.

As the first nationwide meet for this group has been set for November 7, 8 and 9 in Chicago, the executive body in its preliminary meeting in September will discuss fully all matters and make its final arrangements for a successful convention.

Ior a successful convention.
Members of the executive committee, in addition to Miller, Denver and Levine, are: C. L. Beaver, Utah; Jack Cohen, Cleveland, O.; Tom Crosby, Minnesota; Ray Cunliffe, Chicago; Morriş Goldman, Detroit, Mich.; Sol Hoffman, Harrisburg, Pa.; Tom Kady, N. D.; Dick Steinberg, Newark, N. J.; Hirsh de la Viez, Washington, D. C.; Sam Orenstein, Providence, R. I.; L. S. Pierce, Broadhurst, Wis.; and Charles Hannon, Philadelphia.

This group will take under advisement many policy problems in connection with the meeting, and will make final and definite decisions as to programming and organizational procedures which will lead to a successful gathering of the country's music machine operators.

Letters have gone out to all phonograph manufacturers and supply companies affliated with the operations of music machines, inviting them to participate in the convention. Since the initial announcement in *The Cash Box*, issue of July 16, officials of MOA report an unprecedented number of phone calls from all over the country, and a great many letters, all seeking additional information.

Altho the group had announced its intention of holding the meet at the Stevens Hotel, it develops that this hotel may not be available on November 7, 8 and 9. However, Sidney Levine, counsellor, advises if the Stevens isn't available, another top hotel will be the site of the meet.

Cue-Stick Games Begin To Show Up On Locations

CHICAGO—Reports from all over the country indicate that the new cuestick games are beginning to infiltrate into the trade and that many are pleased with the collections these machines are bringing.

Ops report that collections start off high in locations where the games take hold and that they also hold up very well for weeks at a stretch.

There isn't too much "switching" of these machines, ops say, in view of the fact that the locations where the games take hold are usually the type where players like this sort of machine

For many years the old pool tables have been popular with many ops and are still active in the southern part of the country.

Present cue-stick games are variations of these old time pool tables. As for example the "Belgian Pool" machine, as well as those which have six or seven different types of games by changing strips on the machines.

The present cue-stick games are smaller than the regulation size pool table and have different play features.

Tho the few who are handling these machines have been rather quiet about their sales efforts, the word has begun to spread around the trade and some ops are now testing these units to see just how they will stand up over a period of time. NEW YORK—A trend is developing in the radio and television broadcasting of sporting events that is being watched very carefully by coinmen thruout the entire nation. The ultimate results might be the complete cancellation of all airing of baseball games, and the banning of fight broadcasts by the promoters.

The recent Robinson-Gavilan fight in Philadelphia, which was neither aired by radio or television, brought substantial profits to the promoters, whereas in the past these fights have been going into the red. The financial reports of this fight might influence fight promoters thruout the country to follow the same policy.

Now it appears, from a story in the column of Leonard Lyons of the Ne^{-1} York Post, July 20, that baseball games may be cancelled from radio and television with the 1950 season. We quote Lyons: "The radio companies have been advised that all broadcasts and tele-casts of baseball games next season probably will be cancelled, to take baseball out of the Interstate .Commerce classification and, therefore, make the federal antitrust laws inapplicable. The Gardella suit, which will come before the U. S. Supreme Court, prompted this decision, for without radio and television the situation would be the same as in the case previously decided by the court, in favor of the club owners."

As most of the competition to the juke box at taverns where television reception is available is sporting events, elimination of this medium would make the juke box "king" once again, bringing music operators increased collections. As one of the leading lights in this city's music machine industry stated: "If this report is true, and sporting event tele broadcasts are cut off from taverns, we'll be in good shape. But we must be patient until next year."

THRU THE COIN CH

CHICAGO CHATTER

Plenty of excitement around the windy city this past week with Chicago playing host to the Shriners and President Truman. Thruout local coin circles the guys and gals were still very much vacation minded, many looking forward to their two weeks while others were telling us about the wonderful time they had. However, summer and vacation time will be coming to an end soon, and coinmen here are eagerly awaiting the new fall season and what it brings forth. From the many, many encouraging reports we've received and from the very optimistic outlook the boys have, looks like the coinbiz is in for a boomin', busy season.

O. D. Jennings & Co. a bee hive of activity with everyone hard at work getting last minute details attended to before the first of August when the plant will close for a two week vacation. Tho Jennings will keep a skeleton crew on hand, they are urging all their customers to get their orders in before the two week period, as during that time they will only be able to order from stock . . . We hear from Ed Vojack that Phil Burgeson, Jennings' Iowa dis-tributor, has fully recovered from his operation and was a recent visitor to the factory, Shriners cap and all . . . Johnny Neise, after playing it smart and vacationing at home, is due back at the plant this week.

ABT Mfg. Co. closed for vacation July 18 to August 1st. R. L. Budde will make up the execs branch of the skeleton crew the firm will use . . . Walter Tratsch, ABT prexy, back in harness again after returning from his European trip . . . Called over at Rock-Ola Mfg. Corp. and found Art Weinand in one of his early morning conferences. Art is one hard guy to get thru to, if he's not attending a meeting, he has ten different phone calls waiting for him at one time. We understand from Art that even tho most of Rock-Ola's help have been on vacation the past two weeks, those that remained were really kept on the go, with the two week vacation period one of their busiest with music shipments. The factory returned to full force July 25th . . . Add Jerry Haley of Buckley Mfg. Co. to the list of coinmen now vacationing. Jerry is expected back on the job around the first of August.

Over at Genco Mfg. Co., Dave Gensburg keeps plenty busy holding down the fort while brother is on vacation. Dave tells us they've been going along very well, receiving lots of nice orders on their equipment . . . Talked with L. C. (Lindy) Force who informed us that Central Ohio Coin Machine Sales, AMI's distributor, plans to hold open house in their new enlarged showrooms in the very near future. Lindy went on to say that Wolff Solomon plans to make it a big event and urges all coinmen in the tri-state area to watch for the dates to be announced . . . Frank Mencuri and Clare G. Meyer of Exhibit Supply continue their road trips, Frank contacting arcades and traveling shows, while Clare sells Exhibit's new card machines—and does OK at it.

Over at Bally, production and shipping of the sensational 1-ball "Champion" continues without a let-up, regardless of the weather. Georgie Jenkins informs that the firm is also enjoying a continuous run on its console "Spot Bell"... We hear from Mac Churvis, well known adman, that his son, Bud Chase and his newly acquired Missus, are now honeymooning in Indiana. Here's wishing the happy couple lots and lots of luck ...J. H. Keeney & Co. closed the plant for their annual vacation, July 15 thru to July 30th with the shipping and parts department still operating a skeleton crew ...John Conroe, vice-prexy, is all smiles these days with Keeney & Co. really clicking on their two model scoreboards. John says that production on these items is hitting a high peak. The firm also plans to introduce a third model scoreboard around August 1, which will feature a double face and is designed for mounting over the shuffle-board ... Al Stern and Wally Finke over at World Wide Distributors are two more happy guys about the way business has been going. You can't even talk 'summer slump' to them, both agree that as far as they're concerned, there's no complaints.

Ed Levin of Chicago Coin returned from his vacation trip to Nashville, sporting a gorgeous tan, feeling full of vim and vigor, and ready for action. They're readying a new five-ball game, due for release sonetime in August. Firm officials stated that they believe it will be one of the hottest games to hit the market . . Murray Rosenthal of Coinex Corp. all thrilled about his new target game conversion "Swingin Monk." Murray tells us that the track and carriage have been eliminated and predicted that these new developments will help to make the game a great success . . "Photo Finish," Universal Industries new one-ball, receiving lots of nice response from distribs. Mel Binks, president, announced that they've been getting repeat after repeat in quantity orders . . Firm employees were all looking forward to Universal's first annual picnic which was set for July 23. The program will include dance bands, food, and refreshments, it is expected that 800 persons will attend.

Over at Williams Mfg. Co. the boys are rolling up their sleeves, getting ready for moving day. The plant will move to new headquarters at 4242 W. Filmore during this week, at the same time they will also be closed for group vacation. However, the firm brings the trade a new 5-ball amusement game called "Boston," featuring several new ideas in play as well as scoring . . . Meanwhile "Star Series," their sensational baseball game, continues to hit hot and heavy with distribs and ops . . . Leo Weinberger of Southern Automatic re-cently visited the Williams factory . . . Roy Bazelon, prexy of Monarch Shuffle-board, preparing a new model board which will feature several improvements that have been suggested by operators in the past six months. First deliveries are expected to be made sometime during August . . . Billy DeSelm over at United Mfg. Co. reports things moving along with everyone keeping busy and trying to keep cool. Billy tells us they've been receiving nice response on "Shuffle Skill," their new novelty game based on shuffleboard principles, which is attracting steady play on location.

MILWAUKEE, Wis.—Harry Jac-obs, Jr., owner of one of the mid-west's leading distributing firms, last week announced that the firm name would be changed to Jacobs, Inc. However, a change in this new name is now necessary, as Jacobs has been notified by the Secretary of State that Jacobs, Inc. cannot be used (some other firm having already registered this name). The name of United, Inc., was sub-mitted and was approved so from now on, the new name of the firm will be United, Inc. Upon completion of reno-vations and building, which should be around August first, the firm will move its quarters to 4227 West Vliet Street.

Shuffleboard Manufacturing **Business Settles Down**

Substantial Firms Remain-Others **Fading Out Of Picture**

CHICAGO—It seems, at long last, that the shuffleboard pot has stopped boiling and this division of the indus-try is settling down to know just who are its leading manufacturers. When shuffleboards zoomed into na-tional popularity, even tho they had been in operation in the east for over twelve years prior to this sudden boom, manufacturers appeared almost everywhere in the country. At one time it seemed that every corner anyone turned in this city brought forth two or three more new manufacturers and others also ap-peared in some of the smallest towns in the country. These men all jumped into the lime-light while the shuffleboard craze was sweeping the country and for a while back there it didn't seem as if the continued growth of manufacturers would ever stop. In fact, one noted op stated some months ago, "It seems that every op-erator, jobber and distributor has be-come a shuffleboard manufacturer." Some were writing and phoning the larger factories just for "playing fields" and that they would build their own "beds."

own "beds." Others reported that they had made contact with small woodworking es-tablishments and that they were hav-

Today, most of the fly-by-night manufacturers are gone, and the in-dustry is at last able to get a better view of the situation.

The few leaders who are left manu-facturing shuffleboards now have a clearer market ahead of them. The general opinion is that this will help the entire shuffleboard business.

CHICAGO-Sam Stern, vice president and general salesmanager of Williams Manufacturing Company, this city, announced the firm's new five-ball amusement game "Boston" is

five-ball amusement game "Boston" is in full production, and the games are being shipped to its distributors as quickly as they come off the line. "Boston' has been out on test in several locations during the past month," stated Stern, "and we knew we had a 'winner' when we started the production line going. The game includes a new sensational scoring idea, a handicap equalizer, and the original Thumper Bumpers. Not only did our location tests prove we had a big money-maker for the game opera-tor, but our various distributors who visited the plant during these weeks were enthusiastic over the playing features." The new game is now at all the footom's distributors who

S. D. Ops Assn. Holds Meet

WATERTOWN, S. D.—The South Dakota Operators Association held its regular quarterly meeting at the Lin-coln Hotel, this city, from Sunday, July 17, thru Tuesday, July 19. The meet was well attended, with man^{••} operators and music distribu-tors flying and motoring to Water-town

town.

Norman Gefke, secretary, was missed by his many friends, but Nor-man was in Chicago attending the Shriners' Convention.

EASTERN FLASHES

Hot weather is uncomfortable and slows up business a good deal, but when it continues for days... and weeks... then the poor hard working coinman is entitled to whatever complaints he might make. This week, continued HOT and even worse, the HUMIDITY went to record highs. Operators contended that their locations were moaning about poor biz, which meant poor collections. Meanwhile, the wholesalers along coinrow felt the slump. As one of them put it "It's so hot along Tenth Avenue, an operator would really need equipment badly to come down here." However, this condition comes along every year, and the experienced coinman, while he doesn't like it, accepts it. Yet, several wholesalers stated that they have been shipping equipment thruout the country, as well as to foreign customers. But—they state they need the local business to make up the "nut" and add those profits.

Many music machine operators will be attending the convention of the National Association of Music Merchants, being held at the Hotel New Yorker, starting Monday, July 25 and running thru the week. The exhibits of recording companies at Manhattan Center, takes place next door to the New Yorker. For a week solid, all manufacturers of those records used in juke boxes, and their distributors will be found at Manhattan Center during the day, and then hosting customers in their suites at the New Yorker at night. Juke Box ops can doop in and discuss their purplems with the top record evers at any time. can drop in and discuss their problems with the top record execs at any time.

An item of great interest to the coin trade appeared as the top paragraph of Leonard Lyon's feature column in the New York Post, Wednesday, July 20. If true it will react to the benefit of operators thruout the country. We quote Lyons: "The radio companies have been advised that all broadcasts and tele-casts of baseball games next season probably will be cancelled, to take baseball out of the Interstate Commerce classification and, therefore, make the federal anti-trust laws inapplicable. The Gardella suit, which will come before the U.S. Supreme Court, prompted this decision, for without radio and television the situation would be the same as in the case previously decided by the court, in favor of the club owners."

Ray Howell, Panther Dist. Co., dashing around Dallas making more and more friends.

Southern Automatic Music Company is relinquishing its franchise with the J. P. Seeburg Corporation. This means that we are discontinuing the distribution of all new and used music equipment.

Because this announcement will come as a surprise to our many friends in the industry, we feel that we should make clear, why we are taking this step.

Be assured, that this decision was not made easily. Our 141/2 years' association with the J. P. Seeburg Corporation has been pleasant and satisfactory in every way.

We were one of the pioneers in the music business. We always felt that we sold a good product and gave good service, and were always concerned about the operators' welfare.

In this world of ever increasing specialization, and changing trends, we found it more and more difficult to do justice to our customers and friends by continuing to handle both music and games. Our chief aim has always been to maintain the high level of service for which we are known, and upon which our reputation and business has been built.

For these reasons and after a very thorough analysis of conditions in the music field generally, and its trend, we decided to step out of the music picture entirely, and center all of our efforts, knowledge and resources on the sales and service of games and other amusement equipment.

What does this change in policy mean to you? It is our earnest belief that we, as exclusive distributors of games and other amusement equipment, can now serve you even better than ever. Now we can concentrate our efforts in this field, without other interests, and so be even more alert to new ideas and values upon which you depend, to keep your business a live and growing thing.

Now we can give you even more personal attention, proving our products, before we offer them for sale, and advising you whenever you feel the need of our long and varied experience. Now we can do an even better service job. We will continue to work with manufacturers on new things to come, not only ideas, but also promotion work, which will interest the public into playing your machines.

We are not youngsters in the coin machine field; having to date spent over 25 years in it. During this quar-ter of a century, we have enjoyed a measure of success, but more than that, is the joy and satisfaction we have received from having started many hundreds of operators on the road to success. We have also lent a help-ing hand to many others who seemed at times to falter.

We have enjoyed many wonderful friendships. It is our intent and desire to spend many more years of activity in the coin machine field, with the same Southern Automatic policy. You can count on our continued sincere cooperation and the best in products and values.

May we hope to retain your friendship and business cooperation.

MINNEAPOLIS-ST. PAUL, MINN.

The Twin Cities, this past week, has had a marvelous cooling off period. The temperature dropping from 100 to 80 during the day, and a nice cool 60 in the evening. The weather conditions have made no difference to the out of town operators, as very few are leaving home to come into the Twin Cities to buy merchandise. The same complaint seems to be quite general throughout the complete Northwestern territory. Collections have dropped about two-thirds.

How To Use "The Confidential Price Lists"

FOREWORD: Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter "The Confidential Price Lists" can only feature the market prices as they are quoted. "The Confidential Price Lists" acts exactly the same as the market quotation board at the Stock Exchange -posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. "The Confidential Price Lists", rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. "The Confidential Price Lists" reports each quotation exactly as it is made and depends on the subscriber to make average price adjustments to fit the peculiarities of his territory.

METHOD: "The Confidential Price Lists" should be read as follows: First price listed is lowest price for the week: Second price listed is highest price. Where only one price appears this should be considered lowest price.
