The revolutionary new phonograph developed by David C. Rockola to fit all the needs of potrons, locations and operators!

#FEK-DLD

DAVID C. ROCKOLA President Years of phonograph successes make it increasingly difficult for Rock-Ola to improve upon the reputation it has earned for constantly providing operators with new phonograph models that excel preceding models in every way. However, my determination to provide the "perfect machine," one that would surpass anything that has been built by ourselves, or anyone else, has led to what I am certain is the industry's greatest phonograph achievement. Rock-Ola is proud to introduce to you the new, revolutionary FIREBALL 120. After watching this machine operate in exhaustive tests, equal to many years of grueling service on location, I can sincerely say that in more than a quarter of a century in the coin machine business I have never felt the confidence that is inspired by the performance of the FIREBALL 120. I feel honored to have my name attached to this new ROCK-OLA triumph.

Replacements of 20 and 24 record phonos are going ahead faster than ever.

Associations thruout the nation are passing resolutions eliminating pre-war automatic phonos from their areas.

The switch to 45 rpm record playing phonos grows greater everywhere as more and more automatic music ops learn of the savings as well as the ease of storage which the 45's offer.

The five phono manufacturers are busier than they've ever been before and every single one of them is backlogged with orders which will not be completely filled for some months to come, if then.

The better tonal qualities, the longer lasting 45's, the finer reception given the new type multi-selective phonos by merchants everywhere, and the better commission percentage arrangements which have been made because of new phonos, while ops await okay for dime play, have been important factors in the boom.

All important, too, has been the clearing of much other equipment out of the field by both State and Federal action with the result that these operators, to maintain the locations which they have long developed, have also turned to music.

In short, not only are there today more and more music ops, but, even more important, the fact that the ops who are in the field now realize that it is possible to come out ahead in the music business with diligent effort.

From all over the countrry, every sector. the word comes that the music biz booms on.

It will continue to boom, as many leaders have stated, as TV creates new song stars.

It will continue to boom, these men state, because the public has learned to appreciate juke box music and further because the public realizes that this is the most economical and most fascinating entertainment in the land.

There is no halting a boom for something the public loves.

Finer music, better arrangements, more careful attention to the needs and require-

ments of the automatic music industry, all these, along with the new and coming songstars and the finer orchestrations, have helped to obtain more and still more attention from the general public.

The multi-selective phonos of today, ranging from 40 to 120 selections, have also brought greater interest.

These extremely ingenious instruments have allowed the general public to obtain the songs they best like.

Many an old-timer is today dropping coins into juke boxes to listen to the songs of his era, while the youngsters of today can still get what they want in the pop, country, swing, jump, blues and bop categories.

Multi-selectivity has had much to do with the booming music business. The new phonos have won complete approval of progressive merchants as well às the public.

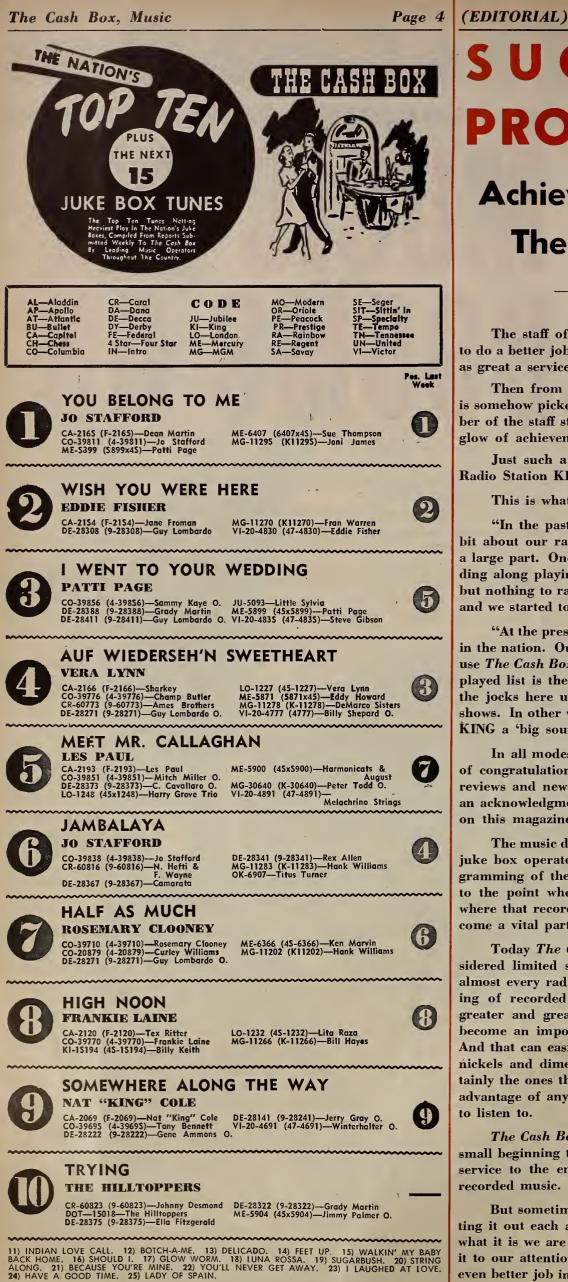

Not only their beauty, which enhances the fixtures and surroundings of any retail establishment or other location, but, the tremendously large selection of every type of music which these fine multi-selective machines offer, has had much to do with the great boom that is under way.

This publication has predicted, and still continues to maintain, that when the new 2000 or more TV telecasting stations are completed, that these will create new stars, with new voices, and new music and that, like what radio did to the juke box business, television will then do.

The time will yet arrive when the industry will some day see over one million juke boxes on locations thruout this great nation.

As the population growth continues, as America's love for music continues to also grow and expand, as new music mediums are brought into being, as new voices appear on the horizon, all this and much more, too, will help to continue the boom for music which has, today, reached the point where there are in the U. S. A. over 8,730 plays per minute, every minute of every day, 365 days of the year.

Over 4,576,000,000 plays per year and going up every year.

# SUCCESSFUL PROGRAMMING Achieved Through Use of

October 11, 1952

Achieved Through Use of The Cash Box Charts

The staff of a magazine goes along daily doing its job, trying to do a better job, expand its coverage and acceptance, and perform as great a service for its readers as possible.

Then from the batch of letters that is received each day, one is somehow picked out and passed around the office and each member of the staff stops for a minute and reads it—and feels a certain glow of achievement and satisfaction.

Just such a letter was received this week from Gil Henry of Radio Station KING in Seattle, Washington.

This is what it said in part:

"In the past I've meant to drop you a line and tell you a wee bit about our radio operation in which your magazine takes such a large part. One year ago we were just another independent plodding along playing music and that's about all. Our Pulse was fair but nothing to rave about. Then came a change in the upper brass and we started to go.

"At the present time we are the highest Pulse rated independent in the nation. Our success has been built on the fact that, I feel, we use *The Cash Box* as the basis for all our programming. Your most played list is the foundation of our very successful operation. All the jocks here use it as the standard by which they prepare their shows. In other words you people have played a big part in making KING a 'big sound on Puget Sound.'"

In all modesty, we receive many letters like this, many letters of congratulations and thanks for the use to which our lists and reviews and news are put. But somehow this letter seemed to be an acknowledgment in a special way of the efforts which everyone on this magazine expends to fulfill his job well.

The music department of *The Cash Box* grew out of the needs of juke box operators to have sound professional advice on the programming of their records. From this beginning, it has expanded to the point where its integrity and accuracy are accepted everywhere that records are used so that its charts and reviews have become a vital part of the music industry.

Today The Cash Box music department can no longer be considered limited solely to juke box needs. For it is also used by almost every radio station of any size in this country. As the playing of recorded music, as disk jockey programs have assumed greater and greater importance for radio, so has The Cash Box become an important factor in the programming of radio music. And that can easily be understood for if the general public puts its nickels and dimes into a juke box to play records, those are certainly the ones they most want to hear. And it is undeniably to the advantage of any radio station to play what its listeners most want to listen to.

The Cash Box music department has grown therefore from its small beginning to the key position it now holds on the basis of its service to the entire music industry and to every field that uses recorded music.

But sometimes even we on the magazine, who are so busy putting it out each and every week, fail to stop to take notice of just what it is we are accomplishing. It takes a letter like this to bring it to our attention—and more, to make us resolve to try to do an even better job in the future.

Don Kimel, our roving correspondent, in keeping with his practice of keep-ing us informed as to'what happens in music all over the world, writes, this time from Vienna. "Caught Cab Calloway and William Warfield in 'Porgy and Bess.' Cab plays the role of 'Sportin' Life' and is terrific. He was given a ten minute standing ovation at the close of the performance. I talked with him and he told me he planned to be back in the States in about three months. He will reorganize a new band. All the German fans are talking about is the coming tour by Louis Armstrong who will be in Germany during the month of October. I plan to catch him in Frankfurt."... Jimmy Sundry hosted the Pitts-burgh disk jockeys and "fourth estaters" at a family outing Sunday September 21 at his Wm. Penn Tavern. Danny Sutton, King label, drove in from New York to be with the gang and proved to be quite a hit personally and ath-letically.... Sid Dickler's evening "Disk Diggins" on WHOD moves up to a 10:15 morning slot effective October 6. "The Mustache" continues with his daily WMCK 4-5 "open house" from his office in the Century Bldg.

During the summer months, Brown brought a variety show once each month to Walter Reed Hospital and another to Bethesda Medical Center. The response has been so enthusiastic that Brown will extend the schedule thru the fall and winter months. . . . Lenny Walk (WHOD-Pittsburgh) took over as station manager on September 29. Roy Ferree, general manager, continues to be "boss man" over all. . . . G "JINGLE JANGLE JINGLE" (2:54) A great novelty item that was high on the juke box popularity lists a few years back is revived by Dick Jurgens and his ork as Al Galante does the vocal chores on this oldie. Horses' hoofs and sound effects add color.

To make a fine partner for this lid, the underside is a com-pletely different type of tune full of pep and zip. > "CUBAN LOVE SONG" (2:47) "ICY HEART" (2:49)

> > DICK LEE (Essex 307)

Many an artist finds it difficult coming up with one good side, but Dick has two great pieces that are fascinating. One side tagged "Cuban Love Song" is an exciting samba beat number full of rhythm and sock that gets a full voiced powerful reading from the young vocalist. The exciting arrangement shows the artist's voice to full adshows the artist's voice to full ad-vantage. Frank Hunter and his boys belt out the stirring orking. The other half is a lovely ballad called "Icy Heart" that shows more of the tenderness and sincerity in the vocalist's voice. The Hunter ork deserves further credit for an-other grade A performance. We're excited about both sides. Ops can expect both lids to draw big money.

# It's Time For Rudolph Again!

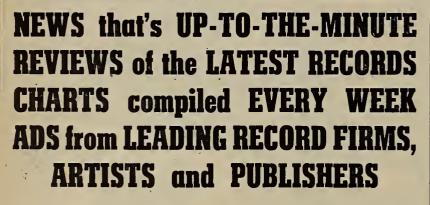

NEW YORK—With the Christmas season just around the corner, Johnny Marks, writer and publisher of "Rudolph The Red Nosed Reindeer" is preparing once more for his seasonal bonanza. The tune which is reported to have 36 recorded versions, has just had a new one added, this one by Jimmy Durante and Mitch Miller on the Golden Records label.

Another great innovation this year along the merchandising lines of "Rudolph,"—which incidentally has 125 items carrying its name—will be a coin operated kiddie ride named "Rudolph. The Red Nosed Reindeer" and put out by Exhibit Supply Company, the firm which did so much to popularize the current kiddie sensation, the mechanical horse.

ne mechanical horse. Not content with just "Rudolph," Johnny Marks has a new Christmas tune out this year called "The Night Before Christmas," adapted from the famous Clement Moore poem. The tune has been recorded by Rosemary Clooney and Gene Autry on Columbia and looks like a big one for the coming season.

A dub was recently played for some music jobbers, and without the record ever having been heard on the air or sold to distributors, orders for sheet music began pouring in and at this point are approaching the 30,000 mark.

# Nat Shapiro Leaves Flack Field For Music Publishing

# Takes Over As Professional Manager Of Progressive Music

NEW YORK-Nat Shapiro, well known New York record flack, stepped into the publishing field last week as the key man of Progressive Music, a BMI subsidiary. Shapiro, who comes into the newly activated firm on a partnership basis, in addition to taking on duties as Professional Manager, has had his own promotional business for the past 2½ years. Among his clients have been Mitch Miller, Billy Eckstine, Frank Sinatra, Dinah Shore, June Valli, Simon and Schuster's Golden Records, Mary Martin, Lauritz Melchior, Mary Small, Peter Lind Hayes and several others. Previous to opening his own office, Shapiro handled national promotion and publicity for Mercury Records.

Progressive, until now almost exclusively a Rhythm and Blues pubbery, has had a string of R & B hits in the past few years, the most recent being "Teardrops From My Eyes," "Fool, Fool, Fool" and "One Mint Julep." All three songs were picked up by the majors.

In addition to working on and looking for new material, Shapiro will continue drawing upon Progressive's catalog of more than 1500 folk, rhythm and blues copyrights for tunes adaptable for pop exploitation.

Progressive's operation will be based primarily on disc jockey exploitation, with Shapiro handling an extensive DJ servicing and information setup.

In addition to his duties for the pubbery, Shapiro will continue han-dling promotion for RCA Victor re-cording artist June Valli.

In with Shapiro, in the Progressive setup are Herb Abramson and Ahmet Ertegun.

lush and flowing music with a popular flavor. Cesana is what one might call an unsual person; a classical musician with a deep respect and appreciation for popular music. His early musical studies included piano, organ, music theory and composition. Later he ad-ded a working knowledge of all the orchestral instruments. During his long and varied career, Cesana has worked as arranger and composer for various Hollywood motion picture studios and on many radio programs. In 1941 he gave a jazz concert in New York's Town Hall with his own band, playing a program of original music. Among Cesana's repertory of original works are six symphonies, four overtures, numerous suites, con-certos, as well as sonatas, trios and many songs. Some of the songs appearing on the "Ecstacy" album are: "Symphony In Jazz," "Enchantment," "Let's Be-guine," "Starlight," and the title song, "Ecstacy." # **Bulleit Records Again**

NEW YORK—Jim Bulleit, respon-sible for the Francis Craig recording of "Near You" several years ago, is back in the record business. Jim bided his time since his last recording venture, operating out of Nashville and Dallas as national dis-trib for several labels. At the same time he was a music publisher, build-ing up a backlog of tunes worthy of his own record company. Now he feels the time is ripe. Under the name of J-B label, his first releases out this week are "Con-tented" by Jimmy Mathis (folk and western) and "Pay Day Lover" by Vivian Verson and Jimmy Smith (rhythm and blues). Bulleit is currently on a national trip lining up distribs.

Milt Buckner, former Lionel Hampton sideman who now fronts his own jazz combination, is long familiar with the enthusiastic fan who latches on to articles of clothing, often leaving the artist in a state of partial undress. He thinks, however, that the particular fan who looted his panel Chevrolet truck and made off with his complete 27 suit wardrobe went a little too far. The truck was parked near the Melody Club where Buckner and his group were playing their final week. Buckner suggests that the police be on the lookout for a short, fat hurolar. Buckner's suits, you see, will fit only a short, fat man.

The Robert Patterson Singers have stirred up a bit of excitement with their newest release, first on the Gotham label, "I'm A Witness" backed with "Saved By The Power Divine". Initial sales indicate it will be one of the leading gospel disks of the year. The group has been invited to perform at a concert at Virginia Union University, Richmond, Va. According to information supplied by Robert Patterson, this may be the first time a group of spiritual singers has appeared at any negro college. New Yorkers will be able to catch their act during Christmas week at the Apollo Theatre, Harlem.

NEW YORK—Nat "King" Cole shows his friends, Giants' baseball star Minte Irvin, the chip-fracture on his right foot which resulted from Nat's participation with other Holly-wood celebrities in the annual "Out Of This World" softball game in L. A.'s Gilmore Stadium. As a result, Nat must use his walking cane for the first three weeks of the current 60-city concert tour of "The Biggest Show of '52," which, incidentally, hits New York's Carnegie Hall on Oc-tober 11.

# Victor Claims Latin American Locations Well Serviced With 45s

NEW YORK-In connection with last week's Cash Box story on music operators' demand for 45 rpm disks in Latin America and Mexican locations, particularly in the Southwest territory, Frank Amaru, sales man-ager for the international division of RCA Victor, stated that whereas the problem may exist for many independent and regional labels-in fact even for some majors who do not press 45s in that field-it does not exist on any large scale for Victor.

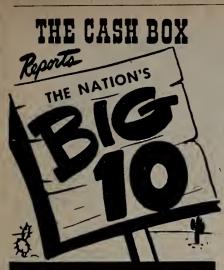

Amaru pointed out that all Victor releases were pressed on 45 and in recent months distribs in that territory were being serviced with them at the rate of 30% of 78 rpm orders.

He also stated that it would be of great advantage for all labels to press 45s at this time because of the large sale of 45 players and the increasing amount of new juke boxes which are coming into the area and which use 45 rpm.

# **RCA Victor Announces New** Orthophonic Sound Recordings

NEW YORK—RCA Victor this week announced a new "characteristic" for its recordings to be known as "New Orthophonic Sound."

as New Orthophonic Sound." Four principal features of "New Orthophonic Sound," as explained by Paul A. Barkmeier, vice-president in charge of the RCA Victor Record Department, are:

1. Complete frequency range—This provides full richness of tone in both extreme lows and highs. "The growl of the tuba and the squeal of the piccolo are as faithfully reproduced as the mellow tones of the middle register of the violins," Mr. Barkmeier said.

2. No loss of high-frequency response—As the reproducer stylus of the player moves toward the center of the record, it reproduces the "New Orthophonic Sound" with full brilliance and clarity all the way. This has been achieved by the use of a special electronically heated stylus for cutting the master records.

cutting the master records. 3. Ideal dynamic range for home listening—"New Orthophonic Sound" recordings avoid "louds" that are so loud as to be unpleasant in the home, and "softs" which can scarcely be heard at all. Exaggerated "audio theatrics" are avoided in order to present the music in a natural, lifelike way.

4. Improved quiet surface — All RCA Victor records are now made of a new anti-static compound which helps keep playing surfaces clean and free of dust. A series of 12 separate audio and visual inspections insures technical quality.

The new recording and pressing techniques are the result of an overall, long-range research and development program, and are designed to produce the best possible sound fidelity on records.

# Tommy Tucker's "Guess How Many Notes" Contest

NEW YORK—Lige McKelvy, press agent for Tommy Tucker, has a national contest going strong. Tommy has just cut a new version of the song he made famous, "I Don't Want To Set The World On Fire" backed with his theme "I Love You" on MGM and the idea of the gimmick on these tunes is for the listeners to guess the total number of musical notes. At this writing fifty well known dj's in key cities have the contest underway. Prize is a table radio. Listeners send their answer to the dj conducting the contest in their particular city.

WSM news includes the tremendous success of Sue Thompson (Mercury) with her WSM appearances last week end. Sue was Red Foley's guest on the NBC Prince Albert Opry show, entertained afterwards at Nashville's Club Colemere, guested on station's Sunday evening "Sunday Down South", and en-hanced the TV screens Sunday night on local TV'er "Music City U. S. A." It's been a long time since a guest artist caused such a stir in the Nashville entertain-ment circles. She departed abruptly to meet her own KTTV schedules in Los Angeles for rehearsal of her one hour TV'er with Dude Martin (Mercury) every Wednesday night for Sears-Roebuck. Oh yes, Dude and Sue will tie up as Mr. and Mrs. on December 6th. Congrats and best to both! Trank Reeves of the Jerry Lester "Chance Of A Lifetime" production was in Nashville last week looking over the Music City's talent for use on the popular New York TV airer. RAY PRICE (Columbia 21015)

• Ray Price makes his bid for a place in the best sellers in the country field with a romantic tune titled "I Can't Escape From You." Price warbles the slow beat with warmth and emotion as he puts his heart into his delivery. His soulful reading places this disk with the better platters and the western chanter should be able to pick up alll the marbles with this one. A

B "OVER THE RAINBOW" (2:46) Homer and Jethro, that destruc-tive duo, tear the quick beat oldie apart in humorous fashion. Guitar backing is spirited. Homer and Jethro fans will love this one.

**Report Factory Engineers Have** Been At Work All Summer Preparing New Products For Fall And Winter Seasons. Enthusiasm **High Among Factory Executives** Who See Greatest Year Ahead.

CHICAGO.—It seems that "it can happen here" if distributors, who have been regular visitors to this coin-center, are to be believed.

They claim that their factories (and that means just about every factory in town) "Have terrific products un-der experimentation and test and which," they state, "will be seen this Fall and Winter."

They also say, "Some won't be shown 'til after the first of the New Year because our factory is too busy with orders now to even think about showing anything new."

The fact remains that enthusiasm is at high pitch among factory execu-tives here, and though they aren't telling about their new equipment in any detail at this time, they are say-ing:

"Just watch us. We've got what the industry wants."

This everyone here claims is one of "the best signs" of a great year ahead. All are enthused over the confidence being shown by factories as to their new products.

One manufacturer was frank enough to state:

"Our engineers were at work all summer long bringing about new equipment which we sincerely believe is just what everyone of the operators throughout the nation has been ask-ing for."

This is about the same statement which can be made for all of the manufacturers here.

Whether it's vending machines, music or amusement games, the plants here are hard at work getting ready to introduce some of the greatest products they've ever built.

"It's great days ahead," one noted factory exec stated.

**Overflow Crowd For No.** III. Music Ops' Party **More Seats Made Available For Oct. 9** Party As Ops Buy Ballroom Plus Wedgewood Room of Graemere Hotel To Accommodate Overflow

Bill Gersh, left, and Bob Lindelof, president of Music Ops of Northern Illinois.

CHICAGO—What started out to be "just an annual party" for the Mu-sic Operators of Northern Illinois association, has now grown to overflow proportions.

The committees were forced to meet with management of the Graemere Hotel here to arrange for opening the Ballroom, adjoining the Wedgewood Room, which they had originally taken for the event.

Bob Gnarro of A. B. C. Music Serv-

ice Corp., who is in charge of the entertainment for the affair, Jerry Schuman of Gillette Distributing Co., who has his hands full with commit-tee work, Bob Lindelof, president of the Music Ops of Northern Illinois, and all the others who were engaged in getting this affair over the top, reported in a body:

"Sale of tickets has gone far be-yond our wildest expectations. But," they continued, "we are now able to handle many more people as we have opened the big Ballroom of the Grae-mere Hotel adjoining the Wedgewood Room and, therefore, we are going to have a party the like of which has never yet been seen."

Operators, distributors, jobbers, allied members of the automatic music industry who want tickets, as Thursday evening, October 9, draws near, should get in touch with any of the above people immediately.

**Pa. Ops Defeat Attempt** To Extract 10% Of Gross Receipts —

Is Not Paying An Gin Champ. Admission To Place Of Amusement"

GREENVILLE, PA.—Jack Mulli-gan, President of Sharon Tri-State Music, Inc., Sharon, Pa., who operates equipment in this borough, this week won a verdict in the Court of Com-mon Pleas of Mercer County, where he filed a bill in equity to enjoin the enforcement against the collection of an amusement tax of 10% of the gross receipts in the Borough of Greenville on coin operated machines. (Reported in *The Cash Box* April 12, 19 and May 3 issues.)

Judge W. Walter Braham issued the opinion and order.

Jack Mulligan, with the assistance Jack Mulligan, with the assistance of several other operators, filed his bill to adjoin collection of the tax on April 14. He claimed that the bor-ough's tax on "amusement" didn't apply to coin operated machines as: (1) the operation of a music making machine is not an "amusement"; (2) the placing of a coin in the clot (2) the placing of a coin in the slot to start the machine is not an "admission"; (3) he does not "conduct" an amusement, all within the meaning of the act; and (4) his business being already taxed by the state, the Borough has no power under the "Home Rule Tax Act of June 25, 1947," also to tax it.

In issuing his opinion, Judge Braham stated: "Inserting a nickel in the slot of a juke box is not paying an admission to a place of amusement. True, the one paying the nickel gets the music but so does every one else in hearing and there is lacking the idea of an exclusive privilege inherent in buying a ticket to an amusement. Obviously the patron does not enter the juke box."

The Judge also viewed Mulligan's other arguments with favor, and ordered the "demurrer of the defend-ant" (the Borough of Greenville) overruled.

This victory gained by Mulligan (and the other operators here) is of great importance to the entire state, and perhaps the country, as had the tax on the gross receipts here been allowed, there's no telling how far this practice might have gone.

Judge Rules "Little Napoleon" "Inserting Nickel Bows To United's

HERB OETTINGER

CHICAGO—"Little Napoleon" Wil-lie Blatt of Miami, Fla., renowned throughout the industry as one of "the best" gin rummy players, bowed in defeat while in Chicago to the "gin rummy champ" of this area, Herb Oettinger of United Mfg. Co.

Willie claims that, "It was all due to the fact that I couldn't keep my mind on the game as I visited at United the very last day of my stay in Chicago.

"I was thinking of my plane and was hoping that the boys who I had come up from Miami with wouldn't leave without me.

"As it was," he continues, "I almost missed my plane.

"But," he concludes, "I'm going to make it my business to be in Chicago again very soon, or better still, I hope that Bill DeSelm, Herb Oettin-ger, Ray Riehl, and the rest of the gin players at United will come down to Miami Beach.

"And," he added, "bring plenty of cash with them."

Over at United in Chicago it is reported that Herb Oettinger, now definite champion "gin" player of the coinbiz, stated:

"Just tell the 'Little Napoleon' that we most sincerely appreciated his do-nation. We only wish he had a little more time to spend here. In that way we would have had enough to spend a couple of months down in Miami Booch Beach

"In the meantime," he stated, "ad-vise the 'Little Napoelon' to have plenty of that green lettuce on hand so that we can pay our hotel bill while enjoying ourselves at his ex-pense when we come down to Mami Beach."

(It is stated that the boys at United start snickering when they hear any-one tell them about "those Miami Beach 'gin' sharps.")

# Music Machine Ops Battle O. P. S. Over 10¢ Phono Play "Rudolph The Red Nosed

# Victory In California Case Could Set Legal Precedent For Ops

CHICAGO—With music operators in Chicago now also in discussions with the local O.P.S. (Office of Price Stabilization) office, and with other music ops, who changed over to dime play, awaiting such discussions in other cities, the case pending in the Federal Court of Los Angeles, based on the brief written and presented by attorney Harrison W. Call of Sacramento, has become vitally important to all juke box ops wherever dime phono play is in action.

This brief, like the analysis which appeared in The Cash Box some months ago, is based on the fact that O.P.S. was created for the purpose of curbing anything which would affect war production or tend to inflate the national economy.

"But," as juke box operators and their attornies exclaim, "in what way is the juke box, hidden in the dim recesses of taverns, and other such locations, affecting war production and, especially, in what way is it inflating the national economy?"

Furthermore, operators can prove, that their costs have risen so tremendously, that they simply had to jump to 10c play (no different than the telephones and many other daily necessities rising to 10c) just so they could make ends meet and cointinue in business.

Furthermore, the average juke box operator can prove that O.P.S. has already granted rises in many items which do most definitely affect the national economy.

Music operators claim, "We were in no way doing anything against O.P.S. rulings and regulations and therefore saw no reason to approach this agency."

As one operator reported from the West Coast, "I don't even understand why O.P.S. called on me and told me that I would be assessed about twothirds of the overage, up and above what my machines took in on nickel play as compared to what they are now taking in on dime play.

"When I originally called on some officials at the local O.P.S. offices they, themselves, told me that in no way were juke boxes under O.P.S.

"The only mistake I made," he continued, "was that I did not ask for this statement to be sent to me in letter-form, so that I would have definite proof of what had originally been told me before I changed over to 10c play.

"The officials I originally talked to are no longer with the local O.P.S. office," he added sourly.

# Chi Coin Intros "Six Player Super Match Bowler"

CHICAGO—Sam Lewis of Chicago Coin Machine Company advised this past week that the firm had just released its newest bowling game, "Six Player Super Match Bowler."

"The idea behind this game," Sam stated, "is to furnish the operator with a piece of equipment that is completely convertible to suit their particular needs at the moment."

Sam continued, "In reality this game is a combination of our 'Tenth Frame Bowler' and 'Match Bowler.'

"By means of two simple jacks in the backrack, the game can be converted to operate in any one of four ways.

"Number one, as a straight 'Match Bowler.'

"Two, as a straight 'Tenth Frame Bowler.'

"Three, as a combination 'Match Tenth Frame Bowler.'

"Four, as a 'De Luxe Bowler,' without either the 'Tenth Frame' or the 'Match' features."

Sam added, "the game is ideally suited for those territories where both the 'Match' and 'Tenth Frame Bowlers' can be operated simultaneously.

"There are certain sections in the country that want only a 'Match Bowler,' or a 'Tenth Frame Bowler,' and for these areas we shall continue to have both these games available."

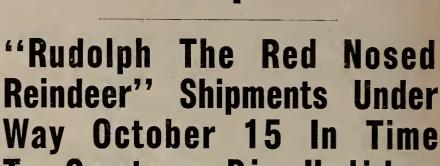

In concluding, Lewis stated: "Our three bowling games are now being produced simultaneously in our factory. Sample shipments have been made this past week on the 'Six Player Super Match Bowler.'

"These are now in the hands of all our distributors."

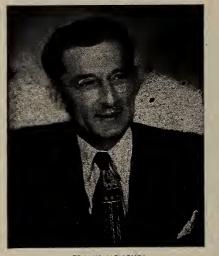

He concluded, "I'm going to fight this thing right to the Supreme Court of the United States if necessary. I agree with The Cash Box' analysis that juke boxes in no fashion whatsoever affect war production nor inflate the national economy."

It seems that the probing of O.P.S. local offices is spreading nationwide.

In most cases the effort is contained to learning whether or not the juke box operators, featuring dime play in any certain locality, changed over before O.P.S. came into being.

To Capture Big Holiday Season Play.

FRANK MENCURI

CHICAGO—In what will be the biggest effort to capture the coming holiday business in the way of coin operated kiddie rides, Exhibit Supply starts delivery of its newest "Rudolph The Red Nosed Reindeer."

Frank Mencuri, general sales manager, and J. A. (Art) Weinand, assistant sales manager, enthusiastically described the tremendous earning possibilities of "Rudolph."

sibilities of "Rudolph." "Since the introduction of the song 'Rudolph The Red Nosed Reindeer' three years ago, the kids of the nation have become captivated by this character," stated Mencuri. "In the field of recordings alone, over 10 million records have been sold. There are over 125 merchandise items carrying the famous 'Rudolph' tag. The technicolor movie, which created a sensation in 1951, is to be re-issued once again starting November 1, and will play movie theatres, both large and small thruout the entire United States. We have it on good authority, that the movie has been booked to play one of the leading theatres in both Chicago and New York. And in addition to all this, starting November 17 King Fea-

But, in some localities, O.P.S. officials take it for granted that dime play was started after they were created as a Governmental agency, and instantly want to assess those operators who have been and are featuring dime play.

A victory by attorney Harrison W. Call in the Los Angeles Federal Court will set the precedent needed by the entire industry, it is believed, unless O.P.S. desires to carry the case further.

J. A. (ART) WEINAND

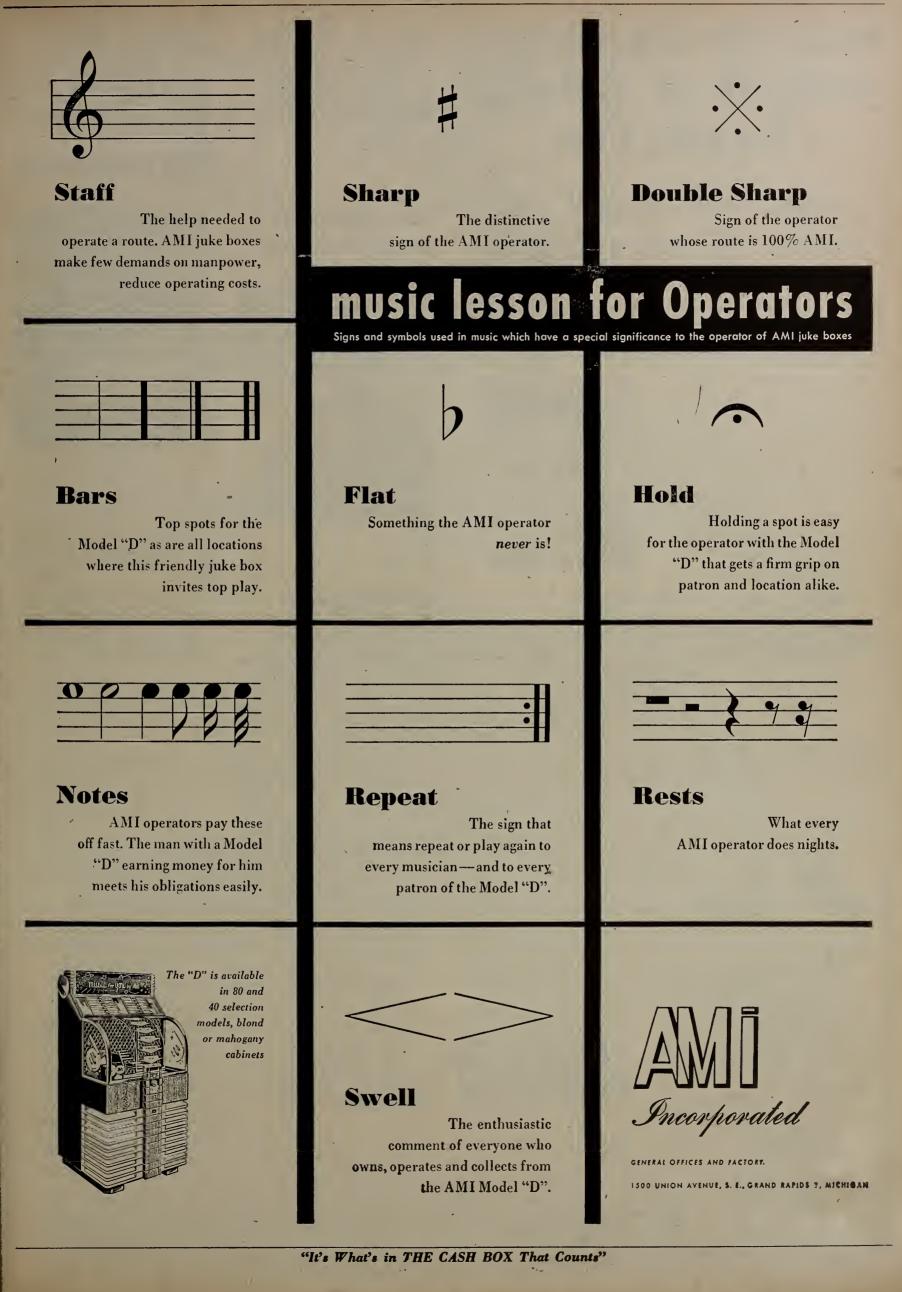

tures Syndicate will supply over 250 newspapers with a comic strip. What all this means to the coin machine operator is quite obvious. Kids, who are responsible for the success of the current kiddie rides, are the ones who know and love 'Rudolph The Red Nosed Reindeer,' and our field tests have proven to us without a doubt that they stand in line to get on the back of our 'Rudolph' ride."

"Speaking of recordings," chimed in Art Weinand, "I understand that 36 different versions of this song have been on the market with such stars as Bing Crosby, Gene Autry, Guy Lombardo, Sammy Kaye, Eddy Howard, Red Foley, and others. And another great version of 'Rudolph' has just been released with Jimmy Durante and Mitch Miller on the Golden Records label, owned by Simon & Schuster, the book publishers. In speaking with the publishers of this tune, I'm told that they expect another 4 million records to be sold during the next several months. Yes, the operator of Exhibit's 'Rudolph The Red Nosed Reindeer' ride will get the benefit of plenty of promotion."

Exhibit reports it is the only firm licensed to manufacture a coin operated ride of "Rudolph," permission being granted by the Robert S. May Company.

The "Rudolph" ride is described as a tremendously colorful ride, featuring all the characteristics, including the red nose, of the famous reindeer that has made it such a beloved animal in kiddie lore.

Mencuri states that shipments are now being made, and that quantity deliveries will get under way on October 15.

# **Rock-Ola Distributors** Showing In Chicago **Biggest Ever**

# Model 1436 "Fireball" To **Feature 120 Record Selection**

CHICAGO—"Biggest showing ever yet held for our distributors," was the way that leading Rock-Ola Manu-facturing Corp. executives jubilantly expressed themselves at their distribu-tor party at the Sheraton Hotel here this past Sunday, October 5. Rock-Ola distributors, their wives and associates accounted for a crowd of far over 200 which jammed the entire floor of the showing. This first glimpse of the new 120 selection Rock-Ola Model 1436 by those present set off a bombshell of applause that rocked the Sheraton Hotel.

One of the distributors present probably expressed the sentiment of the entire gathering when he stated:

"All I want is delivery. Brother, I'm gonna sell a zillion of these beau-ties in my territory."

The cabinet beggars any written description. The plastic dome top along with the blonde tiger wood and

fascinating color combination the must be seen.

There is no doubt that this phonograph is probably the most outstand-ing achievement of David C. Rock-ola and his entire staff of engineers and designers.

It climaxes a tremendous and dy-namic career for David Rockola and the congratulations and applause which he received at this distributor showing will probably be many times greater after the nation's operators see the new Model 1436 at Rock-Ola distributors' 'Open House Parties' on October 12th.

October 12th. Rockola stated, "I am definitely thrilled at the grand reception which our distributors gave our new 'Fire-Ball' 120. I believe that their applause is indicative of what their customers have been calling for and that this grand new 'fire-ball' Model 1436 is going to help every music operator in the world to enjoy the greatest possible profits."

The reception itself must be commented on for it was very beautifully arranged. In fact, it was, without any doubt, one of the most outstanding ever yet held in this area. The officers of the firm who were in charge of this showing were highly congratulated by all Max R. Waters To Represent Wurlitzer Co. In East

MAX R. WATERS

As part of a plan to further assist distributors in the field, Max R. Waters has been assigned the post of Wurlitzer Regional Manager for the New England and Middle Atlantic states. The appointment was announced today by Robert H. Bear, Sales Manager for the Phonograph Department and will be effective at once.

Waters has been connected with Wurlitzer for nearly 23 years, join-ing the organization on January 28, 1930. He has served in many capaci-ties with the company and has been active in the Sales Department for the past four years. He will work out of Buffalo where he presently makes his home his home.

"Max joined Wurlitzer even before the company began producing coin-operated phonographs," said Bear. "He has participated in and worked for the growth of our industry. Ex-perience in many departments of the factory has given him an over-all knowledge of costs, production and sales which few men can match."

"We know that Max has enjoyed long-enduring friendships with a large portion of our distributors and they respect his ability and his judgment. We are sure that he will be able to assist them in working more closely with the operators in their territories.

# **Quebec Ops To Meet** In Montreal October 30

MONTREAL, Canada—As dis-closed in last week's issue of The Cash Box (October 4) operators of the Province of Quebec were plan-ning to meet to organize an asso-ciation ciation.

Conclusive steps were reached this week when an actual meeting date and place were announced. All operators of the Province of

Quebec have been invited to attend a meeting on Thursday, October 30, at the Sharaton Mount Róyal Hotel in Montreal. They will gather in Salon "B" with 7:30 P.M. set as the starting time. "We shall discuss vital problems of our industry," stated one of the sponsors, "and prepare a funda-mental basis for the future."

# United Mfg. Works Six Day **Week To Meet Huge Demand**

BILL DeSELM

CHICAGO—One of the busiest fac-tories here is that of United Manu-facturing Company which is now on a six day week basis.

Full day Saturday work was forced on the plant, according to Bill DeSelm, Salesmanager, because of the tre-mendous demand for the firm's new games

DeSelm stated, "Our new 'Circus' inline game is creating the biggest demand ever. In fact," he says, "we never even antitcipated such a rush of orders for this game and, frankly, we were caught short.

"But," he continued, "we are hop-ing, now that we have instituted a six day work week, that we shall be able to catch up with the demand and that, somehow, we will fill all orders as they are received."

The factory is also busy with their newest shuffle games and work con-tinues just as speedy on these as on the firm's new "Circus" game.

Belief among execs of this factory is that the added day, Saturday, will help them to catch up with the big backlog of orders which resulted from their first announcements of their new products and, especially, which came about after samples were shipped to their distributors all over the country.

Bill DeSelm said, "Please tell every operator in the nation who is wait-ing for our new products that we are working at top speed here and that he will, very soon, find his order filled by his distributor."

## New Music Op's Group Formed In N. J. Next Meeting Oct. 9 in Clifton. President Of Passaic Tavern Assn. To Be Guest Speaker.

PASSAIC, N. J.—Music operators in Passaic and Bergen county areas are now members of a new organiza-tion which they call the "Passaic Bergen County Area Group." The operators decided to form this group as a means of cooperating with each other to the advancement of their busi-ness interests, and are concentrating only on matters of local interest, which they feel can be handled in a tight, efficient manner.

The first meeting of these operators took place on June 10, with the im-mediate result of every music opera-tor of Passaic joining. As some of these operators extend their routes through Bergen county, other firms in that area asked if they could join. At this time, practically every firm conducting business in these two coun-ties are members ties are members.

over to some worthy local organiza-tion for use by teen-agers. Members of the local press will be on hand, and this public relation gesture will receive publicity (pictures and story) in the newspapers in the newspapers.

It is the intention of the group to hold their monthly meetings in a different city each time and follow the same procedure. Guest speaker will be the president of the various tavern associations. and juke boxes will be donated to him.

In addition to discussing good busi-ness tactics at their meetings, many other interesting and important mat-ters come out in the open. Then, the added feature of including a guest speaker who will be an expert on any number of important phases of the music machine business, is expected to make this group one of the most progressive in the country. Left to Right-Harold Scott, Gordon Stout, Gordon Stout, Jr., Mike Imig, Norman Gefke.

MOBRIDGE, S. D .- Harold Scott, secretary of the South Dakota Phonograph Operators Assn., this city, is making arrangements with Gordon Stout of Pierre, S.D. for a big membership drive meeting to be held sometime in November in Pierre where Stout will guest all members of the organization.

Tony Trucano of Deadwood, S. D., resident of the association, reported that he hopes everyone of the present members of the organization will make it his business to bring in anyone who is not a member in his area and have him at the big meet to be held in Pierre in November.

In a letter reporting the big MOA convention to all members of the organization, Gordon Stout stated that the time for "free riders" and "hitchhikers" onto the tails of the association had come to an end.

He believes, along with the people whom he heard speak at the MOA convention in Chicago, that the time has come when all must help in the work of the association and not "just a few."

He is also of the belief that the best way to arrange for complete 100 per-cent membership of all operators in South Dakota is for the organization to arrange dues on the basis of the number of machines the operator has. Harold Scott reported that the prog-ress of the organization had been mar-velous this year. He also stated that, in general col-

velous this year. He also stated that, in general, col-lections have continued along on an even keel with a certainty that they will rise as the colder weather comes along and people remain indoors. Date of the big membership-drive meeting to be held in Pierre, Scott re-ports, will be given in a special letter to all members of SDPOA and will also give them sufficient time to con-tact non-members to bring them to this meet. tact non-

With the Summer gone, vacations over, and coinmen ready to roll up their sleeves and settle down to'a winter of hard work, along comes that disruptive element, the World Series, and the boys along the row find their thoughts wan-dering to the Yankee Stadium and Ebbets Field where those "Amazing Bums", the Brooklyn Dodgers, and the perennial American League winners, The New York Yankees, meet to battle it out for the 1952 World's Championship. Tenth Avenue was a hubbub of excitement with radios and television sets blaring away in the back offices. The street was alive with out of town operators who had come into town to take in the Series.

Brown. The formal presentation is made at a banquet in Washington where the President of The United States makes the award. LaViez stopped in at the Koeppel Distributing Company to say hello to Harry and Hymie Koeppel, and the boys swapped stories on the latest practical jokes. Max Brown, eastern regional representative for Exhibit Supply, visiting the row promoting the Exhibit "Super Twin Rotation." "Trigger" is the Roy Rogers patented horse and Exhibit will be part of a huge promotional campaign that will reach the public via radio, television, comic books, newspapers and movies this fall. Brown advises the Philadelphia operators are running the "Super Twin Rotation" under a 60-40 split, with 60% for the operator. . . Shugy's woes re deliveries are not limited to the "Rocket." Sales have been phenomenal on the AMI "D" phono and he says he could use two or three times as many as he has been getting.

Carl Hoe'zel and Irv Weiler are paying one-third only to locations on "Super Twin Rotation," according to reports. . . Very nice letter from Harry L. Exhibit Supply's new "News Bulletin" for their distribs clicking. . . . Roy Rogers doing lots of publicity for ops who are anxious to buy "Trigger" horses. Roy only wishing that he could meet each op personally. Demand continues to zoom along for "Trigger" with the kids reported to feel "just like Roy Rogers" when they ride this horse.

Smart ops of horses are arranging to have the horse face a full length mirror so that the kids can see themselves riding. Claim this helps boom take. . . Jimmy Johnson of Globe Distributing can count coins so fast he actually doesn't need a coin counting machine. "But," buts Jimmy, "when games like 'Frolics' come along you've got to have a coin counter to count all that do-re-mi." Lunch with J.
