THE TAPE PEOPLE BUY EVEN WHEN THEY DON'T HAVE ANY MONEY.

In a soft economy, people look harder at the things they buy. Experience has shown that consumers are even willing to pay a little more for quality instead of spending less. For less.

Sales of blank audio cassettes are a perfect case in point. For the past 3 years, premium cassette sales grew twice as fast as the industry as a whole, bringing in a whopping \$400 million in 1980.

As you might imagine, Maxell makes up a big part of this picture, with more than an 80% increase in sales over the last 3 years. And projected sales for 1981 indicate people will be putting even more of their money into premium cassettes like Maxell.

Keep your customers satisfied. Stock the tape they can't afford not to buy.

Lee Herschberg
Director of Engineering
Warner Bros. Records

“Rickie Lee’s voice can go from a whisper to very loud, and digital captures that.”

Lee began his engineering career with Decca in 1956, moved to Warner Bros. in 1966, and became Warner's Director of Engineering in 1969. His experience spans the recording of such artists as Frank Sinatra, James Taylor, and most recently, Rickie Lee Jones. Herschberg is a true believer in digital recording, and agreed to tell us why.

Q. You've probably had as much experience with the 3M Digital System as anyone.

A. Yes, probably. I've been working with it for two years and had one of the first systems. We've been through the ups and downs and it's been well worth it. At this point, the 3M digital machine works as well as most analog machines.

Q. How do you justify the extra expense of digital recording?

A. Well, I think from any studio point of view, you've got to have the equipment that will bring in the artists. And if digital recording is truly the state-of-the-art, you've got to consider the clients you'll attract, and their needs.

Q. You've obviously done a lot of projects digitally. Why?

A. To me, digital recording is almost like the tape machine is nonexistent. You don't have any of the inherent problems you have with analog. I think everybody is aware of the major benefits of digital recording. No wow or flutter, lack of tape noise and no need for noise reduction. And digital allows you to do things you couldn't do with analog. Like compiling 3 or 4 tracks onto one. There's no degradation of quality.

Having 32 tracks has helped, and so has the addition of a digital editor.

Q. What do you say to an artist who's considering a digital project?

A. I'd say, yes, if it's up to me, go ahead and do it with digital.

Sometimes, on an analog session when the digital is available, I'll record the first couple of tracks on both machines. Then, on the first couple of playbacks, we'll listen to them side by side. That usually does it right there. There's no comparison.

There's nothing wrong with analog recording. And never has been. It's just that, with digital, you're hearing on playback what you just did in the studio. And you begin to hear all the shortcomings of analog machines — the things you've come to accept. And suddenly, those things are no longer acceptable.

Q. What musical formats are suited to digital?

A. Any format, really. It's particularly good for music with a lot of dynamic range. Like Rickie Lee.

Q. What would you say to other engineers and producers considering digital?

A. Well, digital isn't for everybody. And I'm not trying to say it is. There will always be people who prefer analog, and a lot of great records are made that way. It's just that, to my ears, digital is far superior, and it's the next logical step.

Lee Herschberg recently recorded Rickie Lee Jones on the 3M Digital System. The album, *Pirates*, is available from Warner Bros. Records.

Things just aren't the same these days. . .

That's why, at Mirus Music, Inc., we're old fashioned! We still believe in good business, good relationships and hard work. That's probably why we're growing, because we're music people; and we're not so easy to find anymore.

Devaki records and tapes

TRUTH•Two chart singles and the most talked about poster this year.

Our Gang records and tapes

LINK•Produced by Roger Hatfield and Joey Porrello. Second Album release • "LINK," scheduled for fall.

Muscle records and tapes

PHILIP PAUL & PATROL•New and tasty and you'll be hearing more about him.

SID HERRING•Second single release • "You Are My Fantasy" (MS 5005)

BETSY HIDE•First single release • "Everyday" (MS 5006)

CHARLES SHERRILL•"Sweet Charles" First solo single release • "If I Only Had A Minute" (MS 5007)

TOMMY CHRIS•First single release • "What You Don't See" b/w "Moment To Moment" (OG 6002)

Vintage records and tapes

Carol Hensel's DANCERSIZE (VNJ 7701)•Near GOLD and an unprecedented success story. The Health and Exercise SUPERSTAR of the '80s. Second album release scheduled for fall.

PACK OF HITS•(Volumes 1-11) • The best packaging of an oldies series and with titles such as these, why carry any others?

Foreign licensing available

Thank You, CASH BOX, for recognizing Carol Hensel's DANCERSIZE as the #1 album for 1981 in the Top Novelty/Comedy category.

Ron Shafer, Ron laforaro, and everyone at Mirus Music, Inc.

our future lies with these other fine music people. . .

HOW CAN YOU SELL IT IF YOU DON'T HAVE IT?

WE HAVE IT.

The most important things in records and video today are order-fill and prompt delivery. After all, how can you sell it if you don't have it?

We have it.

We carry all the major manufacturers and more. You get to pick from the largest inventory around. Be confident of filling your special orders.

You get what you want, when you want it -- be it records, tapes, video movies, **Atari & Mattel** electronic games, and all audio and video accessories.

And we give a little more -- advice.

We have been into records and video from the beginning, helping set up many successful stores in these years. We continue to help with retail marketing advice on everything from displays to inventory. Anything it takes to help you be successful.

Because, when you're successful, we're successful.

THE COMPLETE ONE-STOP. WE HAVE IT.

We create sound packages...

For those of you who may not be familiar with what we do, we have been designing ads, album covers, labels, catalogs, tape graphics, etc. for over 20 years. We also set the type, do color separations, do the printing, make the jackets. Part of the reason we are still around and growing is that our clients know they can count on us — we're honest, tell it like it is and de-

liver a commendable job, usually on time. Since most of our work (layout, art, typography, camera, printing, etc.) is done internally by our own people and our own equipment we can maintain control of all work and at the same time be very competitive. *Small run and/or low budget: see our full color "Instant Album Covers" free catalog available.*

A Warner Communications Company

Since 1972

World's First PCM-DIGITAL Recording by Nippon Columbia

From analog to digital Now entering a new century of sound with PCM recording

PCM (Pulse Code Modulation) technology used in space communication, international telephone circuits, relays between broadcasting stations and many other fields was first directed to the area of studio recording for discs by the Nippon Columbia Co., Ltd., which placed the world's first PCM record on sale in 1972. Nippon Columbia's catalogue of PCM records now includes 210 classical, 50 popular, 60 jazz and other numbers, totaling more than 350. Ever since they first appeared, PCM records have been acclaimed by audio fans throughout the world for their clear and vibrant sound reproduction. A PCM record series of Mozart: Complete Piano Sonatas (Maria Joao Pires) won the Grand Prix du Disque ADF, Paris, in 1976. Record makers and recording artists of the United States and Europe now speak highly of the quality of PCM records. In 1977, BILLBOARD'S Trendsetter Award was given to DENON (Nippon Columbia Co., Ltd.) for the development of Digital Recording Process: PCM, and from the pioneers of digital recordings, DENON, a complete listing of their current audiophile catalogue. In 1980, Prix d'Honneur Technique was awarded to Nippon Columbia Co., Ltd. "PCM RECORDING" at 13th MONTREUX INTERNATIONAL RECORD AWARD 1980

JAPAN? CANYON CAN

Who can handle Japan for you? Canyon can.

We've handled it pretty well for ourselves in the past decade-plus years.

Watching Canyon recording artists rise to the tops of the charts one after another, and staying there.

With each Canyon success, our share of the hard-to-crack Japanese record/tape distribution scene became stronger. Now we're in a strong position to help you, too.

Last year Canyon Records began an all-out effort to extend our clout still further with a special division for overseas licensing and user services. It's working, because we've got some of the best young pros in the game on our team. And we can put them to work for you.

Who can work miracles for you in the musical world of Japan? Canyon can.

Write to our International Division and let us prove it.

FEATURES

- Unprecedented realism with patented Vectorbeam™ monitor.
- New 16k memory leads to more action on the screen.
- Difficulty of game increases with player's score, leading to greater and greater challenges as player skill increases.
- One- or two-player option: Two-player mode allows both players to play at the same time. Thus doubling coin take on location.

HOW TO PLAY

- Patrol city by driving your Jeep through the streets, destroying enemy tanks and helicopters.
- The first hit of a tank destroys the body, immobilizing it and giving player 20 points. Second hit on tank destroys it and gives player additional 30 points.
- Destroying helicopter increases tank bonus by 10 points. After 5 helicopters are destroyed, player receives extra Jeep.

MIDWAY'S COPYRIGHT INFRINGEMENT POLICY

FAIR WARNING!

WILLFUL COPYRIGHT INFRINGEMENT IS A FEDERAL CRIME!

Title 17 of the United States Code contains the following provisions:

“Section 506. Criminal Offenses

(a) **CRIMINAL INFRINGEMENT.** -- Any person who infringes a copyright willfully and for purposes of commercial advantage or private financial gain shall be fined not more than \$10,000 or imprisoned for not more than one year, or both: Provided, however, that any person who infringes willfully and for purposes of commercial advantage or private financial gain...the copyright in a motion picture...shall be fined not more than \$25,000 or imprisoned for not more than one year, or both, for the first such offense and shall be fined not more than \$50,000 or imprisoned for not more than two years, or both, for any subsequent offense.

(b) **FORFEITURE AND DESTRUCTION.** -- When any person is convicted of any violation of subsection (a), the court in its judgement of conviction shall, in addition to the penalty therein prescribed, order the forfeiture and destruction or other disposition of all infringing copies or phonorecords and all implements, devices, or equipment used in the manufacture of such infringing copies or phonorecords.”

Although the United States Customs Service has for some time enforced copyrights in original audio-visual works embodied in video games such as **GALAXIAN™**, **PAC-MAN™**, and **RALLY-X™**, and the Federal Courts have recognized the validity of such copyrights, there are some manufacturers, distributors and operators who continue to flaunt the law by dealing in infringing games. These companies undermine the creativity which is essential to the life of this industry.

Because of the serious nature of this problem, Midway now gives notice that it intends to seek criminal prosecutions against such companies in cases of willful infringement of its copyrights in **GALAXIAN™**, **PAC-MAN™**, **RALLY-X™** and **GORF™**, as well as in its newest game, **WIZARD OF WOR™**, and other video games when released. Midway will also continue its activity to obtain enforcement of its copyrights by the U.S. Customs Service and the International Trade Commission, and by civil actions against infringers for injunctions, damages and profits. At present, Midway is actively engaged in such civil actions in the U.S. District Courts against seventeen defendants, in Phoenix, AZ, Omaha, NE, Providence, RI, Chicago, IL and Canada. In some of these actions the defendants' games and circuit boards have actually been seized by the U.S. Marshal pursuant to the impoundment provisions of the Copyright Act. Every available legal action is being taken to protect Midway's proprietary rights in its original and highly successful video games.

When you sell a token, you've made the sale.

Just because you've made change doesn't mean you've made a sale. Your profits can walk right out the door — in your customer's pocket.

But as soon as you sell a token, you've sold your customer. He's committed. And if he happens to leave with a couple of tokens, chances are he'll be back.

Let Roger Williams Mint show you how easy it is to get into tokens. Just choose from our selection of stock tokens. Or, for a more personal touch, we'll custom design a token with your own logo. Either way, you get competitive prices and trouble-free service. Call or write us today. You'll see how easy it is to put the profits back into your pocket.

Our Consultants are Young, Sharp and Full of Ideas.

Today's coin-operated video game players are technologically sophisticated. As electronic technology has advanced, so have the skills and expectations of the players. They're discriminating. They demand exciting, challenging game play. Your profit margin depends on satisfying their demands. How? It's simple when you select Sega/Gremlin games. Sega/Gremlin is always one step ahead, anticipating the growing demands of an uncompromising market.

We're defining the future of the

SPACE FURY By Sega/Gremlin The first color X.Y Raster Scan System

industry now with the first color X-Y system, ColorBeam™ and the innovative Convert-A-Game™ concept.

If you've got a market that's hard to impress, visit your local Sega/Gremlin distributor. We're ready for the challenge.

No kidding.

Take a good look at the inside of one of our games

Chances are it will be the only time you'll see it.

In our fast-paced competitive business, programming is important, but not paramount.

We're just as proud of our hardware as we are of our software. The best game in the world isn't worth a plugged nickel (or quarter) if it isn't operating. That's why we've added such features as a clean layout, total access to monitor for optimum serviceability, easy switch 110 to 240 volt changeover and super cool switching type power supply. Centuri games make money . . . and we build them to keep making money.

Banner For Blue Chip Investments.

Buying a game is a lot like buying a stock. Each one is an investment, and you expect it to pay you handsome dividends. But you need an investment counselor. Someone to help you choose your investment, and help you manage it once the choice is made. That's exactly what Banner has been doing since 1917. And that's what we do best.

We supply you with equipment that is right for you. We help you finance, install, and service it. And we get it to you fast.

And we're always right there to help you keep on top of the market. But the market can be risky, and that's why you need Banner.

To make sure you get a healthy share.

Dancer's Jaguar Mask from Guerrero, Mexico used in the procession of San Francisco. Courtesy of the Southwest Museum, Los Angeles.

Your art is entertainment. Ours is banking.

Some banks wear good service like a mask. Their smiles come off quickly when the going gets rough. But at First Los Angeles Bank, good service is more than skin deep.

That's why we have a special Entertainment Industries Division. We think it's the best around. And it's staffed with creative bankers who understand your special needs.

Our talent is seeing you get the personal service you want. From discussing the collateral benefits of copyrights to assisting you with performance royalties and recording contracts, our staff can handle it quickly and easily.

BANK

Spend five minutes talking to us.

We think we can
convince you
"Banking is a fine art"
we've mastered.

Where banking is a fine art.
