

# THE FRIDAY MORNING QUARTERBACK ALBUM REPORT

A PROGRAMMING GUIDE

EXECUTIVE MEWS • 1930 EAST MARLTON PIKE, F36 • CHERRY HILL, NEW JERSEY 08003 • (609) 424-9114

#### **Hard Choices**

PETE TOWNSHEND. "WHITE CITY". ATCO...Pete's top of the mark 25 increases puts the stellar solo Lp here in the leadoff spot--fueled further by a 13-5 Most Requested rampage, excellent phones at 34 reporters and 35 max mentions. Now, find more cuts from his best solo since "Empty Glass"--or you're outta the Sheet. We found "Give Blood", "Second Hand Love" and "White City Fighting".

ASIA. "ASTRA". GFFFFN. The adds, comments and request activity should tell you this year's model had 'em lined up at the dealership. "Go" gets Top 5 calls at WDVE, WSKS, WPYX. WFYY, KICT, WRCN, WHTF and more--for #13 Most. Requested, and the week's second best 21 increases pushes it 22-10. Another sitch where you can't play just one--and we'll go for "Too Late".

TIP: PAH! YOUNG. "EVERYTHING MUST CHANGE", OF URBIA... Her is that white hot spot where rock and soul intersect—and will own it all before long. It's about time the most powerful scng on the Lp got center stage. The émotional vocal and intense arrangement will not be denied.

PAT BENATAR, "SEX AS A WEAPON", CHRYSALIS...

If you want to get a message to the masses, you'd better have your hooks together. Happily, Pat's past the kidding stage, and she packages these hardball lyrics in some of her strongest power rook since the early days. A cut above anything from the last Lp.

PAUL McCARTNEY. "SPIES LIKE US". CAPITOL....
Gilmour's guitar was a step in the right direction
the last time out—and Paul's return to Capitol
offers even more angular updating. Good to hear
one of rock's royal recognizables rocking a little
more.

THE CLASH. "THIS IS FNGLAND", FPIC. Continued success in the American arena required softening their trademark sound with no loss, of identity, and the 12" does just that. We expect this melodic and singable number to bring 'em back big.

TIP: THE OUTFIELD, "YOUR LOVE", COLUMBIA...

We really couldn't say it before-but if Men At

Work had come up with another obvious worldbeater
on their latest--it could well sound just like this

gem. Different and delizious.

#### STERN RETURNS TO ROCK RADIO: CAPTURES K-ROCK AFTERNOONS

Howard Stern, New York's highest rated PM driver, and one of the country's funniest and most controversial jocks, returns to AOR landing the 2P-6P shift at WXRK beginning November 18. Stern, whose background is primarily AOR (DC-101, Washington, W4, Detroit) exited WNBC in late September after three years in the 3P-7P shift. K-ROCK P.D. Pat Evans tells Dr. Dirt Howard will be playing 5-6 records an hour, adding, "he's real excited about playing music again. He's always been a rock jock. It's a real welcome change for him. He's tired of trying to resurrect AM radio, and we can't wait to hear what he's going to sound like on the station."

And for the crosstown reaction, we go to the king of controversial quotes, WNEW P.D. Charlie Kendall:

"For two years, we've been dealing with him--and he and Scott have been in a head on battle, Book to Book--it flip flops as to who's winning. At best it's status quo. They have built a whole station since July on music, and time will tell whether a music intensive audience will accept 4 or 5 records an hour, much less Howard's brand of sexism, racism and overall bad taste."

We asked Pat, "What will Howard be making?' Her reply: "Money"...How much? "Probably more than you and I"...

#### DOUBLEDAY DUMPS WLLZ, KPKE, AND KDWB-AM/FM FOR \$27 MILLION

Continuing to shift emphasis away from broadcast ownership, Doubleday announced the sale of WLLZ, Detroit, KPKE, Denver and KDWB AM/FM, Minneapolis to investor Robert Sillerman for \$27 million. With takeover projected for mid-January, WLLZ P.D. Carey Curelop expects "the format and personnel will remain the same". Doubleday, one time owners of 7 AOR's, including WMET and KWK, have now unloaded all of their radio properties with the exception of WAVA, Washington, and WAPP/WHN, New York.

Meanwhile, only 300-400 turned out at a recent WLLZ sponsored rally to help return <u>Jim Johnson</u> and <u>George Baier</u> to the airwaves. The duo were forced off the air until <u>December 15 by a court order</u> (see <u>Dirt 10/18</u>). Despite the low turn out, several pages of petition signatures were collected and the winner of a <u>Dick The Bruiser sound-alike contest may be put on the air after Carey checks with his lawyers. And: The October Arbitron monthly for the Motor City has WLLZ shifting gears, 3.6 - 3.9, with WRIF off 7.0-6.4.</u>

#### ANDY BLOOM DEBATES AL PETERSON; CLEARS AIR ON WYSP MISCONCEPTIONS

WYSP P.D. Andy Bloom called to respond to consultant Al Peterson's statement in last week's Paging, that "I don't see any long term position for a straight balls-to-the-wall rock 'n' roll radio station" in Philadelphia. Besides disagreeing on several levels, Andy also wished to address the issues of YSP's target demo, cume and TSL, the accusation that he has transplanted WQFM's format to Philadelphia, and his affinity for treating library tracks like Shooting Star's "Last Chance" as currents. Here is Andy's rebuttal:

"First of all, I disagree that this is a balls-to-the-wall radio station. You could pick any hour of any day and I'd be delighted to read for you at random - matter of fact, let me grab one of today's midday sequence sheets"...sound of footsteps, door opening...door closing, more footsteps..."I'm sitting here with the flow sheet from a recent midday show, 1PM-2PM: Cars 'Moving In Stereo', Dire Straits 'Walk Of Life', Jethro Tull 'Teacher', U2 'Bad', ZZ Top 'Sleeping Bag', Billy Squier 'Lonely Is The Night', Joe Walsh 'At The Station', Glenn Frey' 'Smuggler's Blues', Beatles 'Guitar Gently Weeps', Van Halen 'Pretty Woman', and Rush 'Territories'. Is that balls to-the wall? I think that before a consultant 3000 miles away comments on what a radio station is or is not, said consultant should listen to said radio station for a sufficient period of time.

"As for WYSP's target demo, AOR radio's core has traditionally been 18-24 year old men. In recent months, AOR stations have started moving away from their demographic roots, and I think that could prove to be a long term mistake. One of the holes that has been left in this market is for 18-24 year old males and our first attempt is to plug that huge hole in the market. I think you'll find that this radio station will do extremely well 18-34 adults, and will also pick up some teens, too. What seems to have happened in markets like this is that CHR picks up numbers by default, often at AOR's expense. CHR is a current oriented medium, and AOR's have become extremely Oldies oriented—and that's left some dissatisfied 18-24 year olds. The music of the AOR upper demos is not necessarily the music of today's 18-24 year olds, so it's left some of them unserved by radio. We're dramatically more current oriented than WMMR is — we play more currents — we have a longer list,—and play a higher percentage of currents per hour.

"I disagree that WYSP is a transplanted version of WQFM. First of all, WQFM was a station, that like WMMR, shifted gears into a 25-34 mode. It was a station that had become somewhat more Oldies oriented and we became deeper in our Oldies than we have here. Plus, in Milwaukee we could afford to be a little looser with Oldies and play things that we probably couldn't play here, and of course, we were the only game in town. We could take shots on currents because the market conditions allowed it there and don't here. You could make a few wrong moves when you had an 8.6 - but you have to be careful when you're starting with less than half of that audience. WQFM was positioned well in the market, and has, over the past year, begun positioning itself as a 25-34 radio station. George Harris is widely given credit for the adult format, but I think we were well ahead of our time in Milwaukee in doing that - and that's one of the reasons why QFM should remain dominate. While that station is positioned 25-34, this station has been positioned 18-30 - a little younger...On the other hand, if we can transplant an 8.6 from Milwaukee to Philadelphia, then call it what you like. (Continued next page...)

## DIRT ALERT!

#### Andy Bloom rebuttal continued...

"Although WYSP has formatically flip-flopped all over the place in the past several years, it still has maintained a pretty healthy cume. In fact it's virtually unchanged from years gone by. The problem is that the turnover went way up and, the TSL went way down. Thru an improved product we are trying to increase the amount of time that people use the product and that's where our growth is going to come. In terms of peopleterminally turned off, that's a secondary project that we'll work on after we've gotten some of the existing cume to stick around.

"As far as treating Oldies like currents, we played Shooting Star's 'Last Chance' for some 14-15 weeks, and we played 'The Price' from Twisted Sister and Zebra 'Bears' as currents. Basically the logic is that these records are ones that worked extremely well in other areas, not just Milwaukee, and never received any attention in the Philadelphia market. For us they're just aces up our sleeve. I think the funniest thing is just to answer some of the phone calls. Why is it useful? Compared to Milwaukee we can't take chances. We want to know that we're adding a record that will come thru for us and be a valuable record and these are songs that, based on past performance, we can count on to be hits for us. It also allows us to further develop bands in this market that we may have exclusive claim to."

#### NEW WAVES ROCK WLIR

Widespread speculation continues concerning the future of Long Island's WLIR. The FCC, who took away the station's license after discovering that 'LIR had leased operation to another party without Commission permission, has granted interim operator status to Long Island Radio Communications... According to LIRC co-chairman Fred Greenspan, his company will "take over LIR's frequency as soon as we tell the FCC we're ready to transmit. I anticipate being on the air around the time that Santa Claus comes to town". With LIRC readying new studios, offices and a transmitter, and their appointments of company principals to key station positions (Jefferyson Barnes-P.D.; Keith Lockhart-Promotion Director; Stephen LeBow-President; Floyd Webb-Chief Engineer; and Greenspan-General Manager) the big question remains: What will happen to WLIR's widely respected current staff and format?

We asked Greenspan, and he insists "we have no intentions of cleaning house. A lot of LIR's current staffers have turned down our request to stay, and are 'going with Elton' (Spitzer, president of current operator - Phoenix Media). My opinion is there's a lot of brainwashing going on over there and you can quote me on that. I don't know what he's going to do with all the equipment or the present staff. I don't think they can play checkers in the studio after we're on the air. We have a staff lined up that is ready to move in. Each is currently employed elsewhere and is ready to give his/her 2 week's notice. We have people coming in from the palm tree area to the snow belt."

Greenspan tells Dr. Dirt that the AOR format will remain, but "we're going to clean it up and spread it out. We'll keep it very much the same, but with a new P.D. and airstaff, it's going to change somewhat." LIRC plans to beef up news/community affairs programming, along with boosting power when the new stick is installed. Is Greenspan concerned that his future P.D. has no AOR experience? 'No, the Music Director will take care of that."

So far, not a single current LIR staffer has indicated they'll come on board with LIRC when they take over. And no one at the station is talking. Obviously there's another side to the story - Elton's - and we'll have that in next week's Dirt.

#### WKQQ VS. WEMI: TAKE THE MONEY AND RUN

WKQQ, Lexington is taking steps to insure that its \$10,000 giveaway lands in the hands of one of its listeners, and not one of their competitor's. KQQ features a daily money song at 7:30 AM, instructing listeners to qualify for the cash by calling when they hear the song repeated. In an effort to deflate the promotion, crosstown rival CHR WFMI announces the same song at 7:45 AM, and hips its listeners when the song is played again, so an FMI listener can call and win the contest without listening to KQQ.

Dave Krusenklaus tells FMQB "It's helping promote to their 'isteners that  $\underline{we}$  are giving away a whole bunch of money. Listeners have to recite the slogan "WKQQ is 98 Rock, Double Q" when they call to qualify and WFMI will give out that slogan on the phone to interested parties. I find it humorous that they have to give out  $\underline{our}$  call letters over the phone in a ratings period and are basically admitting that it's  $\underline{us}$  that's giving  $\underline{away}$  the money."

As part of their effort to take credit for the giveaway, FMI was initially not referring to "the other station" when promoting the contest. Claiming misrepresentation, KQQ threatened legal action and now FMI boasts of being able "to put \$10,000 of our competition's money in your pocket."

FOLLOW-UP ON LAST WEEK'S STORY: The behind-the-scenes skinny on the riveting news for John Lennon fans is just as stunning as it was unexpected. Yoko Ono pacted a deal last week with Lennon's former label, Capitol Records, which will insure the release of at least two new Lennon Lps, the first of which will arrive in January, 1986. Sharp Beatles fans will recall that on August 30, 1972, John Lennon rendered what became known as his New York City concert, when he headlined a benefit for One To One at Madison Square Garden. It is this live material - previously unavailable - that will be released by Capitol come the New Year. In addition, our sources say that the Sony people will simultaneously release a "One To One" video...Here are a few tracks that will be on the "One To One Live" album: "Imagine"; "Instant Karma"; "Come Together"; "Hound Dog"; and "Woman Is The Nigger Of The World". The video of "Come Together" will be rushed out, and it's an amazing display of Lennon at his besteven if he does forget a word or two of the lyrics...Sources at the label told the Quarterback that if things work out, they expect the association with Yoko to be a long one.

## DIRT ALERT!

ON THE FORTHCOMING live Tom Petty album that is due next month, Tom and Stevie Nicks can be heard doing the old Searchers' hit "Needles And Pins". MCA is giving it serious consideration for a single.

Observations: "You know, when you're on the road for 11 straight months it gets to be a bit much. That's why we're so glad we're off now until August, 1986. We have a new Lp scheduled that we hope to get to some time after the first of the year, and we'd like to try new things. And, we've just released a live album that contains a hundred minutes of Iron Maiden classics. We were able to get the 100 minutes on two discs, and the first three sides are all from the Long Beach Arena this year, while Side 4 includes special tracks we recorded at London's Hammersmith Odeon." When Lou asked the heavy metal bassist what made them do the live album, he said, "It was a natural progression for us to do this live album now. After all 'Power Slave' was our biggest record ever, and we've had the same line-up for three years. This is our 4th Lp with the same line-up and we just felt it was the right time to release a live record."

<u>DAVID BOWIE</u>, by phone to Scott Muni last week, to congratulate Scott and WNEW-FM on its 18th anniversary: "Yes, it is interesting that Mick and I had a chance to do a duet on 'Dancing In The Streets'. You see, Scott, Mick and I don't get to sing very much together because our tastes in music are so different..." Bowie also told Muni that there was a new film soundtrack that he was involved in coming out in March of 1986, and confirmed several of his tunes would be on it. Bowie closed by commenting that WNEW-FM has been his home for rock 'n' roll in New York City for the last 18 years.

HERE IS THE FULL STATEMENT from Bhaskar Menon, Chairman and Chief Executive of EMI Music Worldwide and Capitol Industries, regarding the McCartney announcement: "We are happy to announce that Paul McCartney has signed a long-term, exclusive recording contract with EMI Music/Capitol Records covering the world. McCartney, one of the premiere recording artists in music history, has been with EMI since the first Beatles contract was signed in 1962. The new agreement returns McCartney to Capitol Records after a brief association with CBS in North America. Scheduled for release in early November is McCartney's title song from the Warner Brothers film 'Spies Like Us', starring Chevy Chase and Dan Aykroyd and directed by John Landis." Commenting on the new agreement which he had negotiated, Menon continues, "Paul McCartney is a very special part of the EMI Music family, and I am absolutely delighted that we have renewed our long-standing relationship with him. It is particularly gratifying that McCartney returns home to Capitol Records in North America, where we have greatly missed the privilege of representing his recording career since 1979." After signing his new deal with EMI/Capitol, Paul McCartney quickly announced, "It's great to be back."...The video of "Spies Like Us" includes footage of the former Beatle with actors Chevy Chase and Dan Aykrody. It's supposed to be very, very funny. Incidentally, Lou O'Neill Jr reports that when Paul returns "home" to Capitol, his long-time catalogue will follow. Every Lp McCartney has cut is owned by him and not the record company for which he records.

AFTER THE RECENT REUNION with George Harrison and Ringo Starr backing up Country legend Carl Perkins, the two former Beatles and friends returned to Harrison's mansion at Henley-On-Thames and jammed all night long.

WNEW-FM HAS CONFIRMED that Roger Daltrey, the former lead singer for The Who, will be doing a benefit Christmas concert for that station on December 9th at Madison Square Garden. Then, the Starship move in on December 13th for a one-nighter at the Garden on behalf of the underprivileged.

CONGRATULATIONS TO BRUCE SPRINGSTEEN AND HIS E STREET BAND. Their album, "Born In The U.S.A.", has just blown past 10 million units in America and is still selling 80,000 pieces a week. Bruce and his wife, Julianne, have returned from the West Coast and are now just enjoying life in Rumson, New Jersey. A 7th single, "My Home Town", will be rushed released ASAP by Black Rock and, if it goes Top 10, it will be seven straight!

RICK NIELSEN OF CHEAP TRICK presented the Hard Rock Cafe with a special Rick Nielsen guitar last week. It was a checkboard Hamer that the club will exhibit along with all the superstars' guitars that hang on the walls. The inscription read: "We came, we are, and we partied..."

JOHN WAITE was due on WNEW-FM, along with Cheap Trick, the night of their Radio City Music Hall co-headlining gig, but was stopped by a trooper on the Parkway and had to deal with a speeding ticket instead of a radio interview.

SCOTT SHANNON and his cast of zanies had rock 'n' roll legend Tommy James up to the studio on the "Morning Zoo" on October 30th. It was a very, very interesting interview as Scott coached the usually reclusive James out of his shell.

FMQB HEARS that former Stray Cat Brian Setzer is working non-stop in a California studio on his next EMI release. He's mixing the Lp right now, and has decided to tap Tommy Burns, Kenny Aaronson, and Chuck Lavell - formerly an Allman Brothers band member - as the nucleus of his new group.

WNEW-FM'S 18TH BIRTHDAY ANNIVERSARY last week was a splendid event and radio at its best. On Friday night they put on an incredible fireworks exhibit at the Battery in Lower Manhattan. The display took 22 hours to set up. It was a spectacular, musically sequenced to some great rock tunes, that had never been done before. Then veteran 'NEW radio personality, Dave Herman, was whisked to Asbury Park, NJ where he hosted a live concert the station carried featuring E Street lead guitarist Nils Lofgren. Congratulations to Muni, Mike Kakyians and Program Director Charlie Kendall for a super job. The list of guests who appeared live on-the-air with Muni last week reads like Who's Who of the business.

ANYTHING TO THE RUMORS that the Fabulous Thunderbirds might be signed to either CBS Records or Epic Records???

As you know, the Fabulous Thunderbirds are fronted by Jimmie Vaughan, Stevie's older brother...It's official:

"Change It" will be the new Stevie Ray Vaughan single on Epic Records. The video has already been shot and will be on MTV shortly...Stevie taped an anti-drunk-driving PSA last week.

LEAD SINGER CY CURRAN, of the English rock band The Fixx, has quietly moved to New York City and enjoys life in the Big Town. His wife Peri is a native New Yorker, and is expecting a baby some time this week. Cy told Lou O'Neill Jr that The Fixx's new MCA record will be called "Walk About" and should hit the streets the first quarter of 1986. Cy added, "The frontrunner for our first single is a track called 'Built For The Future'." Meantime, The Fixx is putting the finishing touches on plans to tour in the Summer of 1986. It's a bit surprising, but now bands are booking their dates six, seven or eight months in advance because the logistics are so mind-boggling. Cy Curran is a Sagittarius. He was born in London on December 12, 1957.

FMQB HAD HEARD THE RUMORS, and last weekend Billy Squier confirmed them to Lou O'Neill Jr. Long-time Squier squad member, Doug Lubahn, is O-U-T of the band and has been replaced by T. M. Stevens. When Lou pressed Squier as to why he was changing a winning line-up, the Boston rocker only said, "It was time to shake things up and try something new with this band." Meantime, the Billy Squier group remains: Bobby Chouniard, Alan St. Jon, Jeff Golub, Squier and the new man in town - Stevens. Watch for Billy and his rockers to return to the studio very soon to begin work on their new Capitol project. Squier expects a Spring 1986 release.

### Paging ... Jon Sinton

BILL: FIRST, THE EXPERIENCE OVERVIEW, PLEASE.

JON: I started in television in 1971 at WBNS, the CBS affiliate in Columbus, Ohio while in high school. During my first two years at Bowling Green State University, near Toledo, I was the M.D. at the campus station, WBGU-FM. I then spent the last two years of college doing afternoon drive at WIOT. I was appointed P.D. upon graduation. One of first things I did was to hire Lee Abrams in 1977, and after the first Book, we went 3.4 to 9.5; #1 12+. About a year later, I went to KDKB Phoenix as P.D. where we had similar ratings success, and 18 months later was asked to join Burkhart/Abrams in Atlanta. In April of '83, I was appointed V.P. of Research and Development, and in July of '85 left to form Jon Sinton Associates, Inc.

BILL: WHY DID YOU LEAVE?

JON: Over the six years that I was there I had a lot of great offers and even entertained the idea of starting my own consultancy, but felt duty bound and obligated to stay with BA. But events of this past summer were such that it became clear to me that I no longer had any moral or ethical obligation and decided to go it alone.

BILL: WERE YOU UNCOMFORTABLE WITH THE SUPERSTARS II DIRECTION A NUMBER OF STATIONS SEEMED TO BE ADOPTING?

JON: Not entirely. I think it depends totally on the market situation of the individual station. I'd say my philosophy is somewhat more conservative than the present Superstars approach. It's important to point out that our differences are only a question of degree, since I was a policy-maker there for six years. But, yes, I feel you're asking for trouble any time music modifications can affect a station's cume share with other mass appeal radio stations in the market. I feel more categories to better control rotation is a more logical update.

BILL: I UNDERSTAND YOUR CONSULTANCY IS SHAPING UP NICELY. WHO ARE YOU WORKING WITH SO FAR?

JON: We're out of the box with Lexington Broadcast Services (LBS) from New York City. They are a television and radio syndicator, and will have a number of shows up during the first quarter of 1986 that we're quite excited about. LBS is the nation's largest television syndicator, providing 40 hours a week on U.S. TV. They control more than 25% of the revenue in the syndication industry, and behind the three networks they sell more television advertising than anybody. They're interested in making a splash in the radio network and syndication business and, in addition to myself, they've retained Denny Somach and Steve Saslow from NBC. I'll be wearing a lot of different hats with them; program development, affiliate relations, clearances, etc. My radio clients now include WLVQ, Columbus; WIOT, Toledo; KMYZ, Tulsa (which is a brand new AOR); KLPX, Tucson; KOMP, Las Vegas; and, of course, KLAQ and KROD, El Paso. In addition, I'm doing some corporate research projects for Metroplex Communications out of Cleveland (owners of WFYV, Jacksonville, Y100, Miami, etc.).

BILL: DOES SUCCESS IN YOUR FIELD DEPEND AS MUCH ON WHO YOU KNOW AS WHAT YOU KNOW?

JON: The answer is yes. . .for about 30 seconds. Who you know gets the right people on the phone, and what you know keeps them there. Reputation and contacts are important in the preliminary stages but productivity is what keeps the account.

BILL: HOW MANY STATIONS CAN ONE PERSON EFFECTIVELY DEAL WITH?

JON: It depends on how much help they need, but generally my experience tells me 20. I've done it, but it's not the most comfortable thing in the world. Everybody is better off when those numbers are closer to 12 to 15.

BILL: AS PER PAUL HEINE'S QUESTION TO GEORGE HARRIS SEVERAL WEEKS AGO, ANY COMMENT ON GEORGE'S CLAIM THAT HIS EXPERIENCE INCLUDES MORE DAY TO DAY PROGRAMMING THAN ANY OTHER CONSULTANT?

JON: I don't think that argument holds water. I would put my experience of three years programming plus six years intensive consulting and dealing with the complexities of multiple station involvement over the comparative tranquility of dealing with the issues and needs of only one station at a time. A good player does not necessarily make a good coach.

BILL: IN LOOKING BACK OVER YOUR TENURE WITH BA, WHAT DO YOU CONSIDER YOUR MOST VALUABLE CONTRIBUTIONS TO THE FORMAT?

JON: I hope a major personal contribution was teaching the importance of stations using their own air as a promotion vehicle. The importance of spreading the word effectively to your own cume. I'm still surprised by how much I hear my positioning phrase "the best of everything that's rock" which was used by probably 90% of our clients, and I still hear it regularly. It was especially effective in leading the audience to believe that it was safe to listen to stations they had previously believed to be all acid rock.

The Friday Morning Quarterback Album Report

#### Paging ... Jon Sinton

- BILL: DO YOU FEEL THE AVERAGE ALBUM STATION STILL UNDERUTILIZES THEIR OWN SELF PROMOTION POTENTIAL?
- JON: I think our format is tremendously guilty of it, but that radio, in general, is almost as guilty as AOR. Apparently, we've all been so afraid of hype that we've never really taken a clear look at how adept the TV networks are at using their own air to recycle their promotions. To some degree we still need to get over that mentality.
- BILL: LET'S HEAR YOUR OVERVIEW ON YOUR COMPETITORS' PHILOSOPHIES.
- JON: Let's start with Lee, who is a certifiable genius. He's an absolute master of the broad stroke. The key to success in that organization is being able to interpret his ideas on specific radio program levels, and the weakness there comes in interpretation. 80/20 is a great example. Here's an idea that was right for the times, but was miscommunicated to the field. As for George Harris, I don't know him well but what I do know leads me to believe he's a fine programmer. The big question there is his ability to predict trends and adapt accordingly. Concerning Pollack, Jeff's consultancy is extremely conservative and takes very few chances. Therefore, he can be trusted by management not to stray too far off course, but, at the same time, has a propensity to lag 4 to 6 months behind in the market-place.
- BILL: AND SEBASTIAN?
- JON: For years, John has reminded me of Nikita Kruschev. If you can recall that period of history, whenever there was an American innovation or scientific advancement, he would stand up and take credit for discovering it six months previous. John wants us all to believe that he has pioneered the concept of successful 25+ AOR. While I like him very much on a personal level, I have a difficult time with the rhetoric.
- BILL: PLEASE RESPOND TO JOHN'S COMMENT TWO WEEKS AGO REGARDING AOR'S EVENTUALLY HAVING TO GIVE UP ON THE 18-24 AUDIENCE BASED ON CHR'S GRIP ON THE TEENS.
- JON: There's certainly a grain of truth in CHR's growing teen appeal, but I think it's a mistake for any successful AOR to give up on 16-24 year olds. If they've done well there for the past few years, chances are they won't lose that audience. In many markets, AOR is actually soundly defeating the CHR in that demo, and let's not forget the negative aspects of CHR programming are what brought teens over in the first place. And I don't think CHR presentation is likely to change anytime soon.
- BILL: I'VE HEARD MORE THAN A FEW RECORD GUYS COMPLAIN THAT CONSULTANTS ARE TOO BUSY RUNNING FOR PLANES AND HOCKING PROSPECTIVE CLIENTS TO STAY CAUGHT UP WITH THE MUSIC. COMMENT PLEASE.
- JON: Well, the fact that consultants and labels have different priorities might make it appear that we're overly blase about new music but I think it's more the fact we just aren't adding as quickly as some labels would like. I've always prided myself on being on top of the music. I try to audition everything that comes in and certainly the labels' priorities. I think we're honor bound to do that on behalf of the stations we represent.
- BILL: DO YOU CONTINUE TO BELIEVE SHARED PLAY ON CHR POWER RECORDS IS AN AOR NECESSITY?
- JON: To go out of your way not to play a Heart, Tears For Fears or Mr. Mister single in favor of a different song on the album purely to be able to tell your audience you're playing a different track is not worth it. If the best track happens to be "Head Over Heels", you're crazy not to play it. You might want to play additional songs from these albums to give the impression of depth, but not at the expense of the most potent song on the album.
- BILL: WE'VE OBVIOUSLY RESURGED IN THE MARKETPLACE, HOW MUCH DO YOU THINK THE ATLANTA DICTATED ULTRA CHR PERIOD AOR JUST WENT THROUGH IS TO BLAME FOR RECENT IMAGE AND RATINGS PROBLEMS?
- JON: I don't think it hurt AOR at all. In fact, AOR is as healthy as it's ever been. It was simply given a bad rap by trade journalists who were out of the demo who never had a good understanding of the format and no love for the format to begin with. Therefore, their personal motivation was to denegrate us. That caused the knee-jerk reactionaries to change formats and rush headlong into CHR. The net effect is that AOR looks better with fewer direct competitors to splinter numbers, with CHR to suffer in the long run with more mediocre competitors.
- BILL: DO YOU BELIEVE WE'LL SEE AOR SEPARATE INTO TWO DISTINCT APPROACHES--ONE GEARED 16-24, THE OTHER 25+? AND DO YOU THINK THE 35+ DEMO IS GETTABLE?
- JON: Sure, 35+ is not only gettable, it's an absolute stone cold natural. Anybody who doesn't believe that seriously misunderstands the science of demographics. The music you grow up with is the music that you'll go to the grave with. Therefore, if you were 16 in 1970 and loved Led Zeppelin, you'll also love the band in 1989 when you're 35. As for two sub formats under the AOR banner, it seems completely viable and reasonable in the larger markets where there are enough bulk numbers to support the two. However, the whole notion that 16-24 year olds and 25-34's are mutually exclusive is untrue. Of course, you can force the issue by exposing way too much metal and wind up with a 16-24 surplus and a lot of alienated 25+ listeners. And I believe the AOR attitude is itself very important and works to pull listeners from across demographic boundaries.
- BILL: WHAT EXCLUSIVE SERVICES DO YOU FEEL YOU CAN OFFER TO CLIENTS?
- On the business side, I'm offering an acquisition ascertainment service through which I'll go to a market where a company may be considering a purchase or format change and do a viability study. On the program and research side, I'm active in focus groups and other unique forms of qualitative or opinion oriented research. I'm also offering quantitative telephone and shopping mall intercept surveys to my client base. I am also considering a couple of offers to throw in with major accepted research firms.
- BILL: WITH KLAQ AND KROD DOING WELL, AND MORE PROPERTIES TO COME, DO YOU THINK STATION ACQUISITION IS A REALISTIC GOAL FOR MORE PROGRAMMERS?
- JON: Yes, definitely. There's no magic here. There are no secret formulas. With the right kind of financing, it's just a question of a good long term loan. No one was more surprised than me when the bank approved our application. What that told me was that with the proper organization and a little cash, anyone can do what we've done. The critical question is whether or not you have the ability to service debt. In the case of El Paso, we're operating at a level where we can cover the loan while continuing to lead the market in programming salaries and promotional outlay.

#### **News From Rock Over London**

PAUL McCARTNEY has called in the help of the young and rather fashionable group, ART OF NOISE, to lend a hand with the 12" version of "Spies Like Us", a song Paul wrote for the film of the same name. ART OF NOISE made a name for themselves earlier this year with their song "Close (To The Edit)".

It looks as if plans are afoot at the BBC for a repeat of the show which broke all viewing figures - LIVE AID - of course. BBC bosses are discussing the idea of showing highlights of the Wembley and Philadelphia events which could have a two-pronged effect. If screened on New Year's Eve, it could serve to challenge the ratings of the independent network, plus, it could provide new impeteus for people to continue their contributions to the famine appeal. Meanwhile, rumours abound that "Do They Know It's Christmas", the record which

ROL's opinion is that even if the record isn't actively re-promoted, it's still bound to be a massive hit again, even if it's only bought by people replacing their worn out copies.

Prepare for a new-style <u>BILLY IDOL</u>, as portrayed on forthcoming album, "Whiplash Smile". It looks like we can expect a more sensitive <u>Idol</u> with songs like, "Ain't Too Tough To Cry" and "The World's Most Forgotten Boy". Billy says: "When you're hurt, it's hard to write about it. But you have to be able to show in your songs that you're a person with feelings". Who said real men don't eat quiche?

After much deliberation about the choice of song, WHAM have finally released their first single this year.

"I'm Your Man" was written, arranged and produced by GEORGE MICHAEL. Also in the pipeline is a live WHAM album and MICHAEL plans a solo album next year.

- DAVID BOWIE's next releases will both be connected to the forthcoming film "Absolute Beginners". One of the songs is called "That's Motivation" and the theme song, "Absolute Beginners", will be out in February. For the film itself, London's music business area, Soho, has been painstakingly re-constructed, down to the very last detail.

The Christmas compilations have started already. We've seen the release of greatest-hits sets by DEPECHE MODE ("The Singles 1981-1985" has become their fifth consecutive top ten album) and, this week, SPANDAU BALLET. They're both to be followed by an ECHO AND THE BUNNYMEN compilation, "Songs To Learn And Sing", which will comprise all their singles to date. It's released to coincide with the seventh anniversary of their first ever gig together, at the Liverpool club, Eric's.

HOWARD JONES' "Dream Into Action" world tour will finally reach its conclusion on December 20 in the city of Birmingham. The tour began in Britain precisely one year and ten days prior, and reached Europe, Canada, Australia, Japan and America. The December date will be the debut performance for HOWARD's backing band AFRODIZIAK.

The <u>DEXY'S MIDNIGHT RUNNERS</u> single (which they said wouldn't be released), from the "Don't Stand Me Down" album, is out this week in Britain. It's an extract from the "This Is What She's Like" cut and appears in both double-pack and 12" formats. The <u>DEXY'S</u> UK tour is **now** in progress.

It might have sounded an unlikely venue, but <u>REO SPEEDWAGON</u> were intent on including an extra date at London's tiny Marquee Club on their UK tour itinerary. Sadly, singer <u>KEVIN CRONIN</u> developed some throat problems and the band stuck to the rather more conventional setting of the Hammersmith Odeon.

After last week's extraordinary UK album chart in which 40% of the top 20 were new entries, things settled down somewhat this week, but we still had a new entry at #1, and no surprises there as <u>SIMPLE MINDS</u> went straight into pole position with "Once Upon A Time". Their last album, "Sparkle In The Rain", achieved the same thing, and the Minds are only the second Scottish band in UK chart history to manage two #1 Lp's. The others were 70's teen idols <u>THE BAY CITY ROLLERS</u>. Next highest new entry this week was the double compilation Lp "The Complete Mike Oldfield", down at 37. The longest runner in the album chart at the moment is "Queen's Greatest Hits", which holds a place in the Top 40 after 121 weeks in the listings.

In the overall analysis of Britain's most successful singles chart acts of 1985, MADONNA will be impossible to catch at #1, but the race for second place is currently on between TEARS FOR FEARS, who've suffered the setback of seeing their soulful recording of "I Believe" fare disappointingly, and KING, currently enjoying their fourth hit of the year with "The Taste Of Your Tears".

ROCK OVER LONDON gets down to some serious album-tracking this coming week with selections from the new Lp's by SIMPLE MINDS, ELTON JOHN and ROBERT PALMER. There's the new QUEEN release, "One Vision", and our interview with ARCADIA'S SIMON LeBON and NICK RHODES, talking about the future of DURAN DRUAN, the film soundtrack they're working on, SIMON's yachting exploits and more. GRAHAM DENE also presents the new UK releases by BLANCMANGE and SIOUXSIE AND THE BANSHEES and we have special 12" mixes of the current hits by KATE BUSH and ELTON JOHN.

#### The Rock Report

ROCK REPORT correspondent, KEN SHARP, recently spoke with GENESIS guitarist, MIKE RUTHERFORD, who told us about the upcoming new album. Currently about two-thirds of the Genesis Lp is written, though there are no lyrics yet! Mike said they have just started putting tracks down and they expect to have the album completed in January, with a tour slated to begin in Fall of '86. Mike also said the record has "a new sound which is just now developing". In the meantime, Rutherford has been keeping himself busy with his own project MIKE & THE MECHANICS. The group is comprised of Mike, PAUL CARRACK (SQUEEZE, NICK LOWE) and PAUL YOUNG of the newly reformed SAD CAFE. The group's first single, "SILENT RUNNING", will be featured in the upcoming movie ON DANGEROUS GROUND, due in December. Mike & The Mechanics may tour after the new Genesis Lp is complete. On the Genesis break-up rumor, Mike had this to say; "Now that we work apart so much, we've taken to making it a point to keep Genesis what we do best, which is collaboration, writing together. We keep going because we enjoy it".

Speaking of <u>GENESIS</u>, keyboardist <u>TONY BANKS</u> is currently in London finishing off a single for a film soundtrack with <u>MARILLION</u> lead vocalist, <u>FISH</u>.

Getting back to <u>SAD CAFE</u>, that group has reunited and completed a new album. <u>"REFUGEE'S IN THE U.K."</u> has just been released in England as the first single. A tour is currently being lined up. Sad Cafe's last Lp was 1981's self-titled release on the A&M Label.

CARL PERKINS AND FRIENDS, the tribute that recently took place in London in honor of the King Of Rockabilly, will have a run on Cinemax beginning in January of '86. The hour-long-special will then be released on video cassette courtesy of Delilah Films, who also produced the tribute. DAVE EDMUNDS served as Musical Director and he enlisted such heavyweights as <a href="ERIC CLAPTON">ERIC CLAPTON</a>, GEORGE HARRISON, RINGO STARR, ROSANNE CASH, LEE ROCKER and SLIM JIM PHANTOM to help out. Edmunds will enter the studio this month with guitarist JEFF BECK to work on a single. The two recently collaborated on the PORKY'S REVENGE soundtrack with the song "SLEEPWALK".

THE VINNIE VINCENT INVASION featuring the ex-KISS guitarist has just signed an eight album deal with Chrysalis. The first Lp will be released in March with the single, "I WANT TO MAKE LOVE TO YOU". Vincent recruited ex-JOURNEY vocalist, ROBERT FLEISHMAN (author of "WHEEL IN THE SKY" and "ANYTIME") to sing, DANA STRUM (who is credited with discovering guitarist RANDY RHODES) on bass and BOB ROCK on drums. In light of the recent record rating decision, Vincent said "I'll be surprised if my album doesn't get a triple X\*!

Former STYX guitarist, JAMES YOUNG, is releasing his first solo Lp titled "CITY SLICKER" through JEM in January. Produced by JAN HAMMER and J. Y., the record contains songs Tike "WAITING", "WILD DOGS" and "SOMETHING TO REMEMBER YOU BY", which will probably be the first single. No tour plans are being considered but a video concert is a possibility.

AND OUT IN BEVERLY HILLS". Also starring are NICK NOLTE, BETTE MIDLER and RICHARD DREYFUSS. The comedy is scheduled for release in March of '86. Little Richard is one of many musical artists to appear on "MIAMI VICE" and now PHIL COLLINS is gearing up for his television acting debut on that same show. PHIL THE SPIV is the title of the upcoming episode where he portrays a con artist whose phony schemes get him in trouble with cocaine dealers.

#### **Question Of The Week**

Thanks to Virgil Thompson, WRUF, for the following question: What percentage of your jocks are college graduates or have at least some college education? If partial college, how much? And how important is that degree?

- LEE ROBERTS, KICT: "The percentage of our jocks that are college grads is 2%. All of our jocks have at least some college education... I don't think it's that important anymore, especially if you're going to do radio. I'm only speaking from my personal experience. I'm sure that there are some great journalism schools in the U.S., but I have learned more from being on the job than I did from going to three years of school."
- MARK CHERNOFF, WDHA: "75% Mark and Kathy Millar have Master's. Most of the staff have at least some college background...A degree is helpful if the person is interested in management possibilities."
- JIM JONES, KMOD: "I'd say 30% of our DJ's are college grads. I believe going through the process of getting an education is beneficial in that it gives you something to fall back on and humbles a DJ."
- P.D. WITT, KMYZ: "We have one graduate, two with at least two years of college, and three with no college at all. It's sad but true that four years of overnights will go farther than four years of study. It pisses me off that the broadcasting industry cannot recognize how important at least some college can be."
- PAUL SHUGRUE, WRXL: "Probably about half of our jocks have degrees and the rest partial degrees. I have a degree and it certainly hasn't helped me, but I'm sure it could be important if I ever get to the management level."
- $\frac{\text{TOM STARR, WOUR:}}{\text{it was important, but I don't think there is."}}$
- CHRISTA LANE, WIBA: "I'd say all of our jocks are college grads. I think that experience is more important in some cases than the degree but I think it's a good solid basis to have."
- JOHN BEAULIEU, WTUE: "Our whole staff has some form of college education, from political science, journalism, communications, business, and who can forget Home Ec? 80% of us have completed school and a couple plan to expand to a Master's degree. To me, education is important because it gives you an overall view of the business (Re: speech, law, accounting, history and the overall view of the media field). And who can forget learning how to drink beer at the old frat house?"
- TOM BARKER, KFMQ: "Of our airstaff, 80-90% are either college grads or working toward a degree and about half of those are graduates of a broadcasting school. We've all graduated or are pursuing an additional degree...A college degree gives you essential writing skills, a much broader vocabulary, overall better communication skills and a lot of diverse knowledge."
- ERIN RILEY, WMMR: "About 25% have degrees. I don't have a degree in communications and it's never hindered me for a second in this industry. The important thing is work experience and internships. (I thought I was going to be an intern for life.)"
- JOE BLOOD, KEZO: "Fifty percent are college graduates."
- RICK VAN GIL, WIOT: "I have a degree in radio, television, and film so I'm not too good with percentages, but all of our jocks have had some college education so I guess that would be 100%. Of the seven full-time jocks, four have degrees. The ironic thing is the highest paid on the staff have no degrees. The key is radio experience and not the sheep skin."
- ALAN WHITE, KILO: "I would say 75% of our air staff have had some college education. I don't know that a college degree is essential to producing a good broadcaster, however, a good education in mass communication: can be very important."
- $\frac{\text{AMY DAHLMAN, WAQX}}{\text{that important.}}$  "About 50% are grads, the other 50% have some. In the long run the degree is not that important. To us, talent, energy and enthusiasm are priceless commodities."
- BENOIT DUFRESNE, CHOM: "I don't think any of our jocks have a degree. It can't be that important because they are all working here. They go to rock and roll school on a regular basis, which means being aware of what is going on around them, both musically and with current events."
- JAY BAKER, WFBQ: "I would say that 60% of our jocks are graduates or have had at least two years of college.

  Even though the college thing is pretty important, most of the guys have degrees in something other than broadcasting and in the right situation you could probably learn more broadcasting from life than from college."
- KAREN ANDERSEN SMALL, WGIR: "About 98% are college grads. As far as the college degree is concerned, unfortunately it doesn't seem to help that much."
- DAVE SHEDLOCK, WYDD: "75% are college grads or have had some college. Although the degree isn't essential in radio, the general idea of having a well-rounded education is important in anything. I think the major advantage of having a degree for a jock would be the ability of the jock to be able to discuss, more intelligently, a broader range of subjects relating directly to the broadened educational background provided by college."
- RICK PANNECK, WAPL: "40% of our staff have some type of college background, mainly in communication.

  As far as the necessity of a degree, I think it really helps if someone has worked for a college radio station. It exposes a person to a lot of types of music and you get away from the 'corporate sound'mentality."
- MIKE RICHTER, KGGO: "Of 8 jocks, all have had some schooling and it is worthwhile. I'm not real impressed with degrees, because if you can get a third class license, you can get on the air."
- MARK DEVINE, WRKI: "5 out of 6 of our jocks have a degree...I don't see how you'd get into radio without going to college...But college certainly doesn't help you develop a personality which is <u>key</u> in this game of radio we play!"
- $\frac{\text{KEN ANTHONY, KSJO:}}{\text{to have because the business is not that stable, and it's good to have something to fall back on."}$
- $\frac{\text{CURT GARY, WEBN:}}{\text{to the outcome}} \text{ "70\% have a degree.} \quad \text{I'd say that a well rounded college education is more important to the outcome of a successful disc jockey than the degree itself."}$
- JOHN TOWER, KODS: "50% have some type of training from school, between tech school and college (re: mass communication or television). My personal observation is that it doesn't matter. Talent and experience cannot be bought from an institution. On air talent and success comes from good, hard work and hands on experience."
- DAVID HALL, WKDF: "Not very many, probably about 30%. Probably two years. The degree itself is not important, but I think that the all-around education probably helps jocks to be better communicators.
- SCOTT DOUGLAS, KATT: "80% are college graduates and probably 90% partial college. A degree isn't necessarily essential to air talent; in fact, it is almost immaterial. But if you want more out of life than being a disc jockey, it certainly makes you well rounded."

#### **QUESTION CONTINUED**

- $\underline{\text{JEFF RIEDEL, KKDJ:}}$  "70% are college graduates. We feel it is very important regardless of whether the degree was in broadcast journalism or even, as in my case, a degree in food industry. The basic personality of the prospective employee will make the big difference."
- RON DIAZ, WYNF: "With the exception of one or two, all of our jocks have attended college, and we also have a few graduates. A college degree is important more in terms of general knowledge; it helps make you a more rounded jock. It doesn't help you with hands on experience in radio, but gives you a good broad overall fountain of knowledge to draw on."
- WALLY WALKER, KQRS: "One third have college degrees of which I'm not a member. How important is a degree? That's a tough question, but even without a degree, I get asked every year by the University of Minnesota to be a guest speaker in their communication classes."
- KEVIN VARGAS, KWHL: "Two, plus Carter B (our Op Mgr), have college degrees. As far as radio courses go, 5 of our staffers have taken them. I think college is important to a radio person. Anyone can teach mechanics, but a college background usually provides instruction from someone with experience and an 'understanding' of the real world of business. As a college graduate, I find it very valuable. My liberal arts education gave me knowledge I never thought I'd relate to radio, but it has paid off many times. College is valuable because it teaches you how to think."
- ROB ELLIS, WKQQ: "Out of 12 jocks, 2 are college graduates; 5 more have some college or are now attending. The degree can be important down the road as far as management is concerned, but if you give me 2 people to fill an air shift and one has 4 years of college and a broadcasting degree and the other has been on the air for 4 years, the latter will get the job hands down. Degrees can help, but they're not a necessity in this biz."
- JOHN HAGER, WCMF: "All but one of our jocks have college degrees. As far as on air talent joes, it's not crucial, but helps for career advancement, and helps a jock sound more well rounded."
- <u>CINDY BAILEN, KZEW</u>: "Most of our jocks went to college, but I think it's not the kind of thing you talk about very often as an adult...I mean, who cares about how you scored on your SATs. Personally, I went to college and majored in biology. I'm not sure if it's helped me. The best part about going to college aside from what you learn, is getting a chance to work in college radio. It changed my life."
- ROBIN MATHIEU, WBLM: "Most of our jocks have a degree or some college time. Since the two most recent additions to our full time staff, myself and our new evening jock, are recent college grads, I'd say a degree is a plus. However, previous commercial radio experience is still the bottom line."
- HAL BRANDT, WXKE: "The percentage would be 20%. So, obviously, it's not that important to us. One of our college graduate jock's attitude was this. 'Since I went to college, why didn't I major in a field where I could make big bucks? And if I was going to major in broadcasting, why bother going to college?'"
- PAM BROOKS, WPDH: "All of our full timers are college graduates. I don't think the degree makes any difference. I think a college education in communication helps to lay the groundwork, but if you're lucky enough to have a voice that gets your foot in the door, you don't need four years of education to start your career."
- BOB BITTENS, WHCN: "100%, some with partial schooling, and some graduates. I don't know that a lack of a degree ever held a really talented individual back. I think that ability and experience counts for a lot more."
- LEX STALEY, WFYV: "I'd say 50% of our staff are college grads. I don't see the guys here with the degrees performing any better than the ones who don't have degrees."
- $\frac{\text{JAY DANIELS, WEZX:}}{\text{can communicate with the public or just go through the motions.}} \text{"I would say 50\% have 2 years. It has little or no bearing on whether one can communicate with the public or just go through the motions.}$
- ANDY PRESTON, KPOI: "75% of us have some college experience, three years plus. College means absolutely nothing as to whether or not you'll be a good or bad jock. Let me say that as a graduate with a degree in American studies and philosophy, I have never met a person (a jock) for whom college was any factor in the quality of their performance."
- TOM SCHEPPKE, KISS: "Everybody at KISS is required to have an edgenamycation and a PHD in rock and roll. You know What PHD stands for? Pretty Heavy Dude."
- DOUG CLIFTON, KBCO: "Two years seems to be the average length of time spent in school. We have two full-timers that are currently in school. One of them attends a community college, while the other is working on a Journalism Degree at the University Of Colorado. I don't think the Degree will get you a job in radio, but I do think it's important to learn as much as you can about the industry."
- GLENN STEWART, WHJY: "To quote Aristotle: 'Education is an ornament in prosperity and a refuge in adversity'-To quote Shakespeare: 'Knowledge is the wing werewith we fly to heaven'. But to paraphrase someone else: A
  jock needs a college education like a fish needs a bicycle. Certainly it can help, especially for a morning
  jock, but it's not a necessity at all. Over half of our jocks have been to college. In fact, my on-air
  partner, our traffic reporter, and myself, form what must be the only all-Brown alumni morning team in the
  country. So, whoopee, right?!"
- MARTY BENDER, WSKS: "75% of the staff has a college education. In reality, college is finding out what you don't want to do. College radio is the only outlet in the campus setting that will really give a feel for commitment. Personally, I majored in Journalism, Film, and Creative Writing. I took only one radio class when I found out I was one credit short of graduating!"
- $\underline{\text{BOB KRANES, WBCN:}}$  "99% are college grads. Everybody attended college for at least three years. I think on-air experience is the most important. The degree doesn't help you get a radio show. It does help you later on when you go out and try and expand on your career."
- TED EDWARDS, KGB: "About half our jocks are college graduates and the remainder have had some college experience. It's important to us that our jocks are well-rounded human beings so they may more effectively communicate with our audience, but college is never a prerequisite for employment here. Life experience and work experience are our predominate concerns."
- NEXT WEEK'S QUESTION was suggested by Ken Anthony, KSJO. With the releases at this time of year of monster Lps from superstar artists, how does a radio station present or showcase a new album? Should you play the whole album, selected cuts, and how often? Does it bother you if your competition plays a new record or song before you? Do you think an audience knows when a station plays a song before another and do they even care?

#### **Radio Action**

WDHA, NORTH JERSEY, NJ P.D.-MARK CHERNOFF: "Just want to thank everyone who gave so much support to WDHA over the past six years. I'll really miss the station, but I know Bob & company will make sure WDHA is always ahead musically, promotionally, and technically. I'm looking forward to working with Charlie, Scott, and all the great people at WNEW-FM...Best wishes to Ray Free who'll be retiring after 35 years in the industry! There's no doubt that Ray has always been the most cheerful and helpful promotion man. The mail won't be the same without: 'Here you go!'...New music I'm excited about include The Cult and Dream Academy. Please give 'Life In A Northern Town' a good listen...Performing very well: Del Fuegos and Charlie Sexton... Hope to see you in New York!"

WRXL, RICHMOND, VA M.D.-PAUL SHUGRUE: "The Grateful Dead has been banned from playing in Richmond! This morning the City Attorney's office issued a statement saying that, because of the many drug-related arrests (about 200) during the Dead's two-night stand in Richmond Friday and Saturday, the Grateful Dead and any band with a drug abusing following would not be allowed to play in Richmond. First the PMRC--now this! We are getting as much feedback today as we can from our audience, with a rock and roll referendum (today is Election Day in Virginia)! I still can't believe they can do this: Shades of Watts versus the Beach Boys. Please let your audience know this is happening in Richmond, and help us make them back down. I'm gonna go vote now. I'm writing in Jerry Garcia for Governor!"

KGB-FM, SAN DIEGO, CA ASST. P.D./M.D.-TED EDWARDS: "All of us here at America's KGB would like to thank Lone Justice, their road crew, Geffen Records, Marko Babineau, Jimmy Iovine, Christina Anthony, and Kenny Swink of Warner Brothers for their assistance and support in making last week's KGB-FM Halloween Ball a mondo success. These fine people helped put over \$9,000 into the coffers of the Child Abuse Prevention Foundation Of San Diego County, plus big smiles on all the faces of those who attended the event who saw a stellar performance by this exceptional band. Here's an excellent example of how we really are all working together although at times some situations seem to cloud that fact...Weapon Of The Week: Stevie Nicks 'Talk To Me'. Isn't it great when old friends pop up with something that makesyou feel good right down to the soles of your shoes. Welcome back, Stevie. Thanks for the song. It's a smash...Y&T 'All American Boy'. We felt a need to balance some of the lighter things we've added recently and here's a gem of a record to up our rock and roll quotient...Mike & The Mechanics 'Silent Running'. Clicked with us this week...The Wrestling Album--open for morning drive...Additional tracks. Stevie Ray Vaughan 'Change It', John Cougar Mellencamp 'Rain On The Scarecrow', Mr. Mister 'Kyrie', ZZ Top 'Stages', and, from what may well be the comeback record of 1985, Aerosmith 'My Fist Your Face'."

WDVE, PITTSBURGH, PA M.D.-GREG GILLISPIE: "Mr. Mister's 'Kyrie' could very easily be a much bigger hit than 'Broken Wings'. These guys have stepped in and virtually taken Toto's place on AOR radio...Bryan Adams certainly can crank out some hits. Not only does he have his entire album to his credit, but a couple on Daltrey's album and areal strong one on Loverboy's album in 'Dangerous'...I can't believe that Aerosmith left 'Darkness' off the album. It could have easily replaced a couple of other songs and made this record truly a standout project. I understand it will be featured on the cassette and compact disc, which could markedly increase those sales. These guys also stand a chance to do what Deep Purple did earlier this year...I was quite surprised this week to find both Stevie Nicks and Asia showing up in top 5 requests after just a couple of days of airplay. When you get the Asia album, check out 'Too Late', 'Suspicion' and 'Voice Of America'. They're actually not bad at all...After reading the interviews with the consultants, which I think has been a wonderful series on the Sheet's behalf, it's very evident that some thoughts that I've had for a while are very realistic and those are: that consultants have come up with some good ideas - including modal, 80/20, 'EOR' or upper demo rock, etc., but they have had such an urgent call to action that programmers have been rushed to get these philosophies in place. If these concepts had been enacted in an evolutionary sense, the format may not have suffered as much as it did a few years ago. AOR is certainly at one of its shining peaks right now, because we have great albums by the new age superstars, and the depth cuts are easily playable. This leaves some new up-and-coming bands in a precarious position. It's my feeling that if you're truly an AOR station like a DVE, a BCN, an MMR, or any others that have the heritage and the legend that we do, you want to play depth cuts from killer albums, and you want to give them enough rotation so that the audience will h

WBCN, BOSTON, MA ASST.P.D.M.D.-BOB KRANES: "Seeing a band live works wonders. In the case of The Waterboys, it worked miracles. Mike Scott is a phenomenal performer. His songs are powerful, his voice exquisite and the band exciting. I remember seeing the U2, The Clash, and many other bands in their early days. The Waterboys are bound for stardom and in a big arena. Catch them now...A lot of people have made the comment 'over produced' regarding the new Asia record. Gimme a break. The Asia sound has always been strong. The band's sound is a very high tech, high produced, dynamic one. Sure, the production is intense. 'Go' is a great Asia song that demands attention...After trying to clear the room for a few weeks, we finally got The Lucy Show in.'Resistance' is a radio song. The Lucy Show should not be ignored...Finally, Stevie Nicks' 'Talk To Me'. What can be said about a hit song by a hit artist? Not much. It's wonderful and is generating a lot of phone calls...While we're on Steve's, Steven Wright is the funniest man in America. His record proves it... Charles Laquidera'a Big Mattress Song Of The Week comes from Big Audio Dynamite. It's 'The Bottom Line'."

WYSP, PHILADELPHIA, PA ASST. M.D.-MIKE WOLF: "YSP celebrated Halloween by giving our listeners a free party featuring the considerable talents of Jon Butcher Axis. A very big 'thank you' to Pasha Records for helping make the Butcher party a success...The flood of good new music continues unabated. I heartily concur with all the good things said in last week's Sheet about Asia's 'Go'. I think they've recaptured that creative spark again...It's nice to welcome back Stevie Nicks' lusty throaty sound to the airwaves. 'Talk To Me' promises to join other Nicks classics as a staple of AOR radio...The boys from Jersey, Bon Jovi, have been one of the area's most consistent concert draws for the past two or three years. Also consider the fact that their latest Lp has achieved gold status without the benefit of a 'hit single', and you can see why we added 'Silent Night'."

WCCC, HARTFORD, CT M.D.-BRIAN ILLES: "Our jocks aren't allowed to have mirrors in the control room, so how about some promo copies of the new Aerosmith with labels you can read?...The toughest call of the week is 'Silver And Gold' from the 'Sun City' Lp. With Bono, Keith and Woody, you can't ignore it, but will the audience be patient to wait and find out who it is? It's up to rock radio to make sure they do. This is a must-play-track for AOR's everywhere!"

WEBN, CINCINNATI, OH M.D.-CURT GARY: "Down here on the shores of the Mason-Dixon Line, nothin' sounds better than some good pickin'. Lyrically, you might call it a modal monster. Musically, it's just a lot of 'Rockin' Guitars'. This is one track AOR has overlooked, so WEBN has taken the lead...Congratulations to Michael Plen at IRS for finally beating the odds and getting The Alarm played in Cincinnati! Kudos to the band for a muchimproved second album!"

KMET, LOS ANGELES, CA M.D.-PAM EDWARDS: "It was well worth the wait--Stevie Nicks hits the mark again with a record that immediately sucks you in and makes you listen! KISS, SAN ANTONIO, TX ASST. M.D.-JOE ANTHONY: "It had to happen here at KISS! Trip Reeb, Tom Scheppke, our new General Manager, John Hiatt, and myself have strapped on our six shooters and we are gunning to be the leading AOR station in the nation! We want to continue our illustrious tradition, and we want your continued record support. At KISS we take pride in the fact that we have broken more rock bands than any other station in the U.S. Our listeners not only listen to the groups on KISS, but they buy the records, the concert itickets and all the rest. The groups are too numerous to mention here, so ask Mike Bone or Heavy Lenny, and well---that list goes on and on too. To get to the point, if you're not sending us your records--don't waste another day! Send them right away to either Tom Scheppke or myself: KISS, 1100 North Main, San Antonio, TX 78212. Then call us and we will honestly let you know what we think. If it's good rock, we will give it a spin. By the way, my show now airs six nights a week! We are looking for the next Judas Priest, Krokus, Def Leppard, Dokken, Scorpions, Rush, Helix, Triumph, Saga, Saxon, Loudness, Y&T, Twisted Sister, Yngwie Malmsteem, Thin Lizzy -- oh, by the way, these are just a few of the groups that we helped mold into the history of rock in AOR! WHTF, YORK, PA M.D.-TIM DRAYER: "Considerations for next week MOST DEFINITELY new Paul McCartney 'Spies Like Us'; Robert Palmer 'Discipline Of Love'; Marillion 'Lavender', and we are looking at Joni Mitchell's 'Good Friends'...Aerosmith's 'Let The Music Do The Talking' was the number one most requested track for the past two weeks until Pete Townshend came along with 'Face The Face'. Excitement in Central PA for the Townshend track is phenomenal!...I thoroughly enjoyed the Cruzados show last Friday in Philadelphia. Special thanks to law from Arista. Fred Deane and WMMP for making this show a success." WHTF, YORK, PA M.D.

KWHL, ANCHORAGE, AK M.D.-KEVIN VARGAS: "Thanks to FMQB for giving us the question in advance. I've always liked how the Quarterback gives us added insight into our peers, not only with comments but the Question-Of-The-Week, Paging and the other various features. Did you see last week's Paging Al Peterson? If you missed the words of our pal Al, go back and check it out--especially the response to Question #11! Mr. Peterson is intelligent, proven, personable, and a valued contributor to the KWHL scheme of things...Mike & The Mechanics are a fabulous addition to a sound once presented by the further evolved Genesis... As always, Autograph is doing great here, both sales and phones...In answer to the numerous questions concerning the lack of interest in further pursuing the Cruzados 'Motorcycle Girl', yes, the Cruzados are a s-m-a-s-h and I personally love it, but it only had off and on phone action and zippo sales--this despite giving it every feature available and considerable airplay. In our case it could just be poor timing. You see, three every feature available and considerable airplay. In our case it could just be poor timing. You see, three weeks ago, the snow fell, and it hasn't been over freezing since! Incidentally, the phones dropped off about the same time. The pulse of a community and the mood of a station and its music have to parallel. This is not the first time a national hit has failed here. Sure, there are exceptions to this type of excuse, but this wasn't one of them!" AK M.D.-KEVIN VARGAS: "Thanks to FMQB for giving us the question in advance. I've always

WKQQ, LEXINGTON, KY M.D.-ROB ELLIS: "A third cut from ZZ? No problem! 'Can't Stop Rockin'', in addition to the other two cuts...Y&T's on the money with another playable tune: 'All American Boy'. Also dropped the needle on the cover version of the Loggins/Messina tune 'Your Mama Don't Dance'...With Robert Palmer's needle on the cover version of the Loggins/Messina tune 'Your Mama Don't Dance'...With Robert Palmer's established appeal with upper demographics, and the Power Station-ish sound behind him for the youngsters, 'Discipline Of Love' covers all the bases...The Night Ranger formula continues to work wonders: arocker, a ballad, rocker-ballad and everyone's a bonafide radio tune. These guys can't miss!...We're watching this Waterboys record. We were one spot short of adding it--I know that's no excuse, but I feel 'Whole Of The Moon' is a tune that will stand the test of time of all the heavyweights out now. No huge jumps but that steady, continuous upward movement...Requestwise, the phones are literally off-the-hook on our second INXS tune, 'What You Need'." 'What You Need'.

WBRU, PROVIDENCE, RI M.D.-LARS MURRAY: "Last week we ate our pride and added The Cure. Well, better late than never! Sales are strong and response is picking up. Sorry, Karen...The big stories around here are pretty much the same as everywhere. Pete Townshend is burning up the phones: #1 for two weeks in a row, etc. BUT some surprises too: Stevie Ray Vaughan 'Say What' is Top 5 requested in this R&B town. Can't wait to see him come in the next couple of weeks. Raunchy guitar scores big here as Stevie has repeatedly proven...Another surprise request item is Dire Straits 'Your Latest Trick'. Granted, it's hard to go wrong with the #2 Lp from the hottest band in the country, but even so we'll take some credit for hearing this one early...Nice to see that 'Sun City' is doing well on this AOR. That backlash is non-existent. I hope AOR will find any excuse to play this...This week's master-blaster: 'til tuesday 'Love In A Vacuum'. Don't leave this one to CHR. They certainly do very well for us...Nice to see that Mike Rutherford picked up Paul Carrack for 'Silent Running'--with his proven voice, this one's quaranteed!" Running'--with his proven voice, this one's guaranteed!"

RADIO ACTION CONTINUED

(BCO, BOULDER, CO M.D.-DOUG CLIFTON: "More big names--more big songs! The last couple of weeks have provided us with great music to carry us through the Holiday Season and into 1986. Pete Townshend is one of rock 'n roll's biggest names, and with every new release, he continues to back them up. 'Face The Face' cooks! We're ready for a night on the town when the 'White City' arrives...Mike Rutherford has delivered a surprisingly good album, 'Silent Running', 'Taken In' and 'Par Avion' have the sound that we're looking for...Joni Mitchell steps into the 80's with Thomas Dolby at the controls. This is an interesting recording. We've already had great response to 'Good Friends'. 'Shiny Toys' is a nice yuppie anthem...Stevie Nicks is back sounding better than ever. 'Talk To Me' will hold us over till the album arrives...I missed the Question-Of-The-Week the last two weeks, but I'd like to comment on both: On Alan White's question about M.D.'s and airshift, I handle a three-hour-airshift. In fact, I've been known to work every possible daytime shift we have--because of vacations. I think it's important to be on-the-air, but it can cause problems. Sometimes it's hard to devote all the time needed to handle the responsibilities that a Music Director has...As for Sean Coakley's question on station slogans: We keep it simple so that no one confuses us with the competition, 'KBCO 97 FM'. Recently we have been using the liner '30 Years Of Great Rock 'N Roll'...Before I close I'd like to thank Mike Mills of R.E.M. for the phone call for last week's concerts!"

WYNF, TAMPA/ST. PETERSBURG, FL M.D.-RON DIAZ: "Joni Mitchell sounds invigorated, fresh & is an 80's kind of lady - an important artist for adult rockers. I like the lyrics and the overall sound of 'Good Friends' and other good stuff on the Lp...'Dangerous' from Loverboy has been on the air here for almost two months and it's worked real well, performing on a par with the first single...'Shela' from Aerosmith gets the nod here as the second track from 'Done With Mirrors'. We're already getting calls...Nothing but positive response on Mike & The Mechanics. 'Silent Running' is perfect AOR stuff...PR&S keep going up - 'Men' with power rotation."

MMR, PHILADELPHIA, PA M.D.-ERIN RILEY: "Last Thursday we were treated to a very special Halloween party. To help us celebrate, Frank Zappa flew in to do the Morning Zoo with <u>John DeBella</u> and discuss his involvement in the recent Senate hearings with the PMRC. And leave it to Frank, he's put it all down on vinyl so we can all know what went on. Then, in the evening, 'Zappaween', where 1500 listeners were registered to vote by Frank himself. Wail 'til you get the record. It's quite an experience...Musically, I'm real happy to have Aerosmith back together again. They've been my favorite hard rock band since their first album. It's not easy to read the song titles but after heavy inspection in a mirror, I've decided I like 'Shame On You' and 'My Fist' the best...Elton John's 'Ice On Fire' is chock full of classics. 'Nikita' is beautiful."

(SJO, SAN JOSE, CA M.D.-KEN ANTHONY: "All systems are go for the new Asia. 'Advance' from the upcoming 'Astra' is an upbeat, powerful rocker that's already generating good phones. Can't wait for the album...The new Stevie Nicks is also quite strong. Thanks to a fine tune penned by a very talented songwriter, Chas Sanford, this is an instant hit...Finally, don't ignore the Wang Chung 'To Live And Die In L.A.'. The movie is garnering favorable reviews for its slickness and intensity and this song could be a huge sleeper." KSJO,

KGON, PORTLAND, OR ACTING M.D.-IRIS HARRISON: "Greetings to old friends and new ones. I'm
filling Inessa's shoes and giving her a chance to rest up for the 'blessed event'. We'll pass along the baby
statistics when he or she arrives on the scene. Since I used to help out in the music department this is all
familiar, but be gentle. Since I work weekends on air, my days off are Wednesday and Thursday, but I'm good at
returning calls...And speaking of maternity leave, Talking Heads 'Stay Up Late' is an anthem in the world of
parenthood, We love it...The new Stevie Nicks features some of her best vocals ever and is burning up the phones...
Also heavy on phones this week is the new Aerosmith. It is interesting hearing the whole band doing 'Let Music
Do The Talking'...Looking forward to talking to you for the next three months."

WHCN, HARTFORD, CT ASST. P.D.-BOB BITTENS: "ZZ Top, Rush and Stevie Nicks are great. But the records that are really making the airwaves sparkle this fall are Pete Townshend, Artists United Against Apartheid, Kate Bush, the Dream Academy, The Waterboys, Marillion and the Divinyls. Songs from these artists and others are strong enough to shine right through the pile-up of superstar releases and they're making this the most musically diverse and interesting Christmas season in recent memory. I love it!...I haven't really formed an opinion on its potential for AOR but for sheer listening pleasure you've got to check out the new album from Grace Jones. The music is as unusual and provocative as Grace herself. I never realized what a fine voice she has and the Trevor Horn production is up to his usual extremely high standards."

than a week of full-time play we are getting top 5 phones and the song sounds great in heavy rotation...I am really impressed with the new Night Ranger release. 'Goodbye' combines all of the best elements of 'Sister Christian' with an instantly memorable melody...Mr. Mister's album continues to be a top 10 sales item in Pittsburgh and the time is right for a second cut. 'Kyrie' sounds terrific on the air...Finally, it looks like the Dream Academy will go all the way for us. 'Life In A Northern Town' was our #1 requested song."

KXZL, SAN ANTONIO, TX M.D.-ANGELA WRIGHT: "HELP! HELP! HELP! We need Christmas ID's and Christmas music from you record reps. The ID's need to say the artist's name, the group, a brief Christmas message, and 104 KXZL San Antonio's best rock! Thanks in advance for your help...Also to make it easier to reach us on music days, our assistant program director, Dick Sheetz, will also be taking music calls on Monday, Tuesdays, and Fridays from 1PM to 3PM."

KZEW, DALLAS, TX ASST. P.D./M.D.-CINDY BAILEN: "I really like the new Aerosmith album. And it's not just because I lived in Boston all those years. Of all the hard rock bands I can think of, they've kept their roots in the blues. I can't find a bad cut on the Lp and my favorite is one they left off. It's called 'Darkness' and it was the last cut on Side Two of the cassette. Maybe they'll release a 12"?...The staff fave is Joni Mitchell. So whatever I said before I added it, it's happening...Finally found room for the Dream Academy. I guess we'll have to announce it as 'life in a southern town'. I can't get the melody out of my head especially when the chorus kicks in. Pure bliss...We're going deeper on Cruzados, The Alarm, and the Del Fuegos, and I'm up to my fourth cut on Stevie Ray Vaughan...I'm eagerly awaiting The Clash, Stevie Nicks, the Townshend Lp and a dozen other inevitables. How about if we just add everything and play each song once?"

KOME, SAN JOSE, CA M.D.-CANDI CHAMBERLAIN: "Greetings from the South Bay's rock and roll original. Stevie Ray Vaughan's 'Change It' is a 'volume at 10' temperature raiser. Ouch. GREAT!...We're really glad to see that INXS is finally having a well-deserved and long overdue success with 'This Time'. Hooray for the land Down Under for giving us such outstanding tunes...Divinyls are taking hold like crazy too. 'Pleasure And Pain' is a severelygood listen...And Mike & The Mechanics have really done it up right. With the strength of 'Silent Running', we've got our ears on a couple of other tracks on the album."

WHJY, PROVIDENCE, RI M.D.-GLENN STEWART: "Zowie!! The Jon Butcher Axis had Providence rockin' for 94HJY's concert event and there's no doubt that this talent is waiting to explode outside of New England. He was on stage proving what you might already expect - that he's got a tremendous future ahead of him...And now, how about a blast from the New England past? We're all ga-ga over the return of Aerosmith. Even in the lean years, requests for the bad boys never waned and now Tyler and Perry are back for a one-two combination to show that they've still got the goods. They let the music do the talking and when Aerosmith talks kids listen!... Is it any coincidence that rock and roll's witch queen returned on Halloween? Stevie Nicks' 'Talk To Me' is her patented sound - that means it can't miss...Okay, it was some time before I finally got into Wang Chung's 'L.A.' It takes a while to get to the hook, but it's well worth the effort...Mike & The Mechanics has three things going for it: Mike Rutherford's background, Paul Carrack's voice, and, not coincidentally, a beautiful song. Anyone of those three factors alone wouldn't guarantee airplay, but all three together make it an eventual 'must add' for everybody. It's the kind of song you want to put on an endless loop and hear again and again...Y&T's 'All American Boy' defines fun rock and roll. I bang my fist in the air whenever I hear it...And why does Asia's vocalist sound like Barry Manilow? Just asking."

- WKDF, NASHVILLE, TN M.D.-DAVID HALL: "I got to see the Sting tour in Lexington, KY Sunday night, and it is a h-o-t show. In 2½ hours Sting did 21 songs! Seven of them were Police songs and he was called back for three encores. Thanks to A&M's <u>Denise George</u> and <u>Paul Crowley</u> for putting that together for me. It was also nice to hang out with some of the fellas from WQMF in Louisville and WKQQ in Lexington. I enjoyed listening to both stations over the weekend...It's been fun playing with all the superstar albums coming in. I like 'Give Blood' on the Pete Townshend album, and I like 'My Fist, Your Face' on the Aerosmith album, but I don't know how much airplay lyrics about pissing in the wind and putting things up your nose can get here in the post-PMRC era... Stevie Nicks' fans were hungry enough for her new one to make it <u>Top 5 requests</u> the first week... The new one from Paul McCartney just came in, and, thank G od, it rocks better than anything lately from him. Plus, it just looks better for some reason for Paul McCartney to be on Capitol,.. One song has become my whole life: it's on Mike & The Mechanics. The third cut is called 'Par Avion'. For those who don't speak French, that means 'By Airmail'. It's very Genesis-like and could easily be played by every contemporary format. Atlantic may need to re-title it 'Here Comes The Night' if they make it a single, but it's an across-the-board s-m-a-s-h waiting to happen!"
- WLIR, LONG ISLAND, NY M.D.-LARRY "THE DUCK" DUNN: "This was one of my finest weekends for seeing live music in New York! The Cure and Simple Minds in back-to-back performances at Radio City kept the crowd on their feet all night long. Meeting Robert Smith and Jim Kerr was a total pleasure. I wish both The Cure and Simple Minds much success in the months to come...My favorite new album this week, without a doubt, comes from Robert Palmer. The funk is hot! The base commander of the Power Station strikes up another classic album to his credit. You can't miss with 'Dedicated' and 'Addicted'...Thanks to Mick Jones of Big Audio Dynamite and Jack and Nick of Wang Chung for phoning in...Thanks to Mike Peters of The Alarm for stopping up...Screamer-Of-The-Week: The Cure 'Push'...Finally, Denis and I would like to congratulate Tom Irwin on his new position at WFNX."
- WFYV, JACKSONVILLE, FL M.D.-LEX STALEY: "It's been a long time since a video prompted me to play a song, but ever since I saw it, I can't get 'Ambitious' out of my head! Getting strong calls right off the bat from the Beck fans and the Donny Osmond fans. Love it!...The Aerosmith album is great. 'Shela' sounds like the good ole days...Besides liking the new Stevie Nicks 'Talk To Me', I want it to be known I've also given her the album cover comeback-award-of-the-year after the lesbo scene on 'Wild Heart'. A much needed improvement. Getting immediate Top 5 phones!"
- KFMG, ALBUQUERQUE, NM M.D.-MICHAEL DAVIS: "Those three bad dudes continue to kick it out. Heritage makes album radio; ZZ Top's 'Afterburner' is another piece of that history. On the same note, Aerosmith, Daltrey, Townshend, Nicks and Rush. Wow! Just right to keep the dial tuned during the Fall Book...Others catching on with New Mexicans include: Charlie Sexton; Del Fuegos; The Live Yes and Asia!"
- WOUR, UTICA/SYRACUSE, NY M.D.-TOM STARR: "ZZ Top seems to have turned the radio industry into a wholly owned subsidiary in just one week. Imagine if Frank, Dusty, and Billy had been behind the walls of the Alamo? It would still be a stand off! Some listeners have complained that there are too many specific echoes of earlier ZZ songs on 'Afterburner'; and while I agree somewhat, they're probably the same people who complain that the Townshend sounds too different...No one's saying either of those things about Stevie Nicks. It's a sumptuous song that her elegant touch is tailor made for...And how 'bout the Divinyls album? 'Pleasure And Pain' is a great calling card for an album we expect to drop in on often in the coming months...Cut indecision is the only thing that kept Charlie Sexton off OUR air. 'Beat's' gets the seal of approval this week!"
- WIOT, TOLEDO, OH M.D.-RICK VAN GIL: "Last Friday I thought I was going to be a real smarty pants! The new Aerosmith came in and since I am the Music Director, I decided that I got to debut it. All the other jocks were mad at me because I was hogging the record for myself, but I didn't care because I knew that I was going to have a swell time playing the badboys from Boston on my show! Oh, diary, it turned out to be the worst night of my life! The anticipation of the listeners was so great that the phones kept ringing and ringing giving me a headache, but the worst was yet to come. The whole album is printed backwards and the only way can read it is to hold it up to a mirror and the only mirror in our building is in the basement--seven floors downstairs! So, all night it was ringing phones and running up and down stairs. Sure the album is great, but I ended up with a migraine, a pulled hamstring, and a worn out pair of Nikes--and to top it all off, Beth Rosengard won't go to the prom with me and I'm getting a zit the size of Mt. Rushmore on the left side of my nose! The only thing that can save me now, diary, is a record pressing of that great new Queen song and albums from Stevie Nicks and Pete Townshend. 'Till tomorrow!"
- KILO, COLORADO SPRINGS, CO M.D.-ALAN WHITE: "KILO adds this week: Stevie Nicks, Yes, Y&T, Hoodoo Gurus, and Aerosmith...Considering: Waterboys, Herman Ze German and The Cult...PlatinumBlonde's 'Crying Over You' pulls number one phones...Asia's 'Go' debuts at number three phones...Top retail in the Springs: Rush, ZZ Top, Dire Straits, John Mellencamp and Simple Minds...Thanks to Barney Kilpatrick of I.R.S. for bringing Michael Stipe and Mike Mills of R.E.M. to the KILO studios for an interview before their Boulder show!"
- WAQX, SYRACUSE, NY M.D.-AMY DAHLMAN: "Ladies are dominating this week with Stevie Nicks, Joni and Tina's debut with Bryan Adams. Stevie sounds so good it's like she never left...Joni makes me want to pull out 'Court And Spark'and get into it all over again...And, 'It's Only Love' has always been a major shiner on 'Reckless'...We're day parting Joni and will take a wait-and-see attitude as far as audience reaction goes... Heart's latest album has continued to sell big time in Syracuse. We're going back on 'If Looks Could Kill' and 'These Dreams' to satisfy the calls...Night Ranger's 'Goodbye' sure sounds good on-the-air and Mike & The Mechanics will be Mike Rutherford's first solo success story!"
- WZZO, BETHLEHEM/ALLENTOWN, PA M.D.-RICK STRAUSS: "Thank you! Thank you! Thank you to everyone who has been sending us compact discs. They are very near and dear to our hearts! To quote my P.D., Gene, 'compact discs are a lot like cocaine--The more you get, the more you want--so send some (C.D.'s that is!)."
- WTUE, DAYTON, OH M.D.-JOHN BEAULIEU: "Here comes November and there goes the heater!...I'm keeping warm with Dio; B.B. King; Nick Lowe; The Del Fuegos; and R.E.M. this week live and in person...Speaking of getting warm, our Top 5 sales this week show: ZZ Top; 'Miami Vice'; Simple Minds; Rush and Phil Collins at thetop...Mike & The Mechanics is such a finely tuned album, it's impossible to resist...Just bought some new CD's from the record store and they sound great. Sure would sound better if some of the nice record companies could help us out in any way. Approximately one third of all our music can now be played from a compact disc...And finally, what do you get when you cross The Fabulous Thunderbirds and Dire Straits? The answer is Mason Ruffner--watch
- KMYZ, TULSA, OK M.D.-P. D. WITT: "There is so much of that good old rock 'n roll that we can use today, I hope we don't toast it too much. We are keeping our balance with Joni Mitchell's 'Good Friends'--a noticeable complement to our 25+ library...Also, Hoodoo Gurus 'Bittersweet' keeps a talented fresh flavor...Jethro Tull's 'Bourree' will definitely turn some heads and I personally think this admirable idea, plus great production, has equalled a trendsetting classic from Jethro Tull...Still shooting par while on the road was Mark Neiderhauser...Thanks for the chats with Rich and Steve from Mr. Mister and Craig from Starship. James Bishop found us too, and the invitation is open for all to 'come on down'. The new radio station in T-town is lookin' good!"
- KMOD, TULSA, OK M.D.-JIM JONES: "Like to thank Jack Blades of Night Ranger for coming up to the station and being a better disc jockey than I am. I would greatly encourage you to try the new Night Ranger 'Goodbye' on-the-air...Also, a lot of gratitude to Mickey Thomas of the Starship, and the guys from Mr. Mister for taking time out of their busy schedule to spend time with us!"

- KZEL, EUGENE, OR M.D.-VINCE MERTZ: "KZEL's birthday is still coming up in December! We're going to be 16! That doesn't mean we are still sweet and innocent! We are looking for alumni to do phoners or tape bits. We are looking for artist J.D.'s any and all will be accepted. So let's hear from you!...The world's music source has shifted from Southern CA to the Heart of Texas! I'm talking about the h-o-t music from that little old band ZZ Top. I can't get over how hot 'Afterburner' is. Scorch City! ZZ Top can start a new religion! Everybody is required to wear a Texan brim, dark shades, a foot long beard and drive a 1938 Ford. Sunday service would be a Texan barbeque...Stevie Ray Vaughan is another Texan. This guy is a ball of energy and creativity. How he does it, I'll never know. You should check out 'Change It'! It's hotter than a Texan jalepeno...And the newcomer to the Texan scene, Charlie Sexton. This 17 year old kid has a hot record. He's on the right road to fame and fortune. 'Beats So Lonely' sounds like someone mixed Billy Idol, Bruce Springsteen, John Cafferty, Tom Petty and Bob Dylan in a Cuisinart and fame out with a sound so-o-o good there's no way you can say 'no'. Texas' best rock has moved to the Northwest and we be jamming!...Night Ranger has something going on here with a tune called 'Goodbye'. The term 'power ballad' was invented by these guys. You can't miss with it...Stevie Nicks is a natural. We're under the spell again...'Scarecrow' is one of those albums that is 3-D. It's simultaneously formula and innovative...One more quick note: I've been to the mountain, Asia was there! This record is going to get a lot of attention!"

- WPLR, NEW HAVEN, CT M.D.-AMANDA TEPPER: "Who says AOR doesn't play new music? We've got ten (count them) adds this week and they're all great! The Waterboys have taken a giant leap forward since their last album, and 'The Whole Of The Moon' is one finely crafted song: Intelligent lyrics, interesting instrumentation and an emotional vocal that makes you want to listen to it again. This band is going places and it's great to have a chance to help them get there...Another young musician who seems destined to go far is Charlie Sexton. He can play, write and sing and the production job he got didn't hurt either. Is it true he's dating Carlene Carter?...Mr. Mister's album should go gold and 'Kyrie' is just the sort of classy followup needed to get them there...Stevie Ray Vaughan is Top 5 sales and Top 5 phones here, so 'Change It' joins 'Little Sister' in heavy...I've liked Wire Train's new album ever since I got the tape about 6 weeks ago, and this week we were finally able to sneak it in...New Haven's own Miracle Legion will be opening for Wire Train on their tour-check them out if you have a chance. You'll be in for a treat!"

You might join that illustrious circle of former rolling fools, including Capitol's Thom Gorman; KRNA's Mark Yos; Mexican fast food giant Andy Mosqueta and your own humble reporter...I'm particularly pleased with the new Elton John album because I think the more significant songs are the laidback tunes. 'Cry To Heaven', the British hit 'Nikita' and 'Shoot Down The Moon' are the three strongest tracks and just perfect for us. Of the more uptempo tracks, we like 'Soul Glove' best...'Soul Glove' pretty well describes the groove on Robert Palmer's new album. It's funky, and even occasionally danceable without totally describe the groove on Robert Palmer's new album. It's funky, and even occasionally danceable without totally describe either his traditional audience or breaking the Power Station connection. We like 'Didn't Mean To Turn You On' and 'Trick Bag' best, but suggest rockers will quickly get hooked by 'Addicted To Love'... The Big Man shows he can do it a

- wpdh, poughkeepsie, ny m.d.-pam brooks: "My head's still reeling! What a way to rejuvenate yourself. Show after show: 'til tuesday; The Hooters; Simple Minds; and The Alarm--all within a week! My senses were working overtime and what a treat it was. I have never witnessed more energy! The Hooters (as we all know by now) are absolutely mint and the crowd was wild for them...If you're into visuals, check out Simple Minds. The lighting for this show is nothing short of magnificent. Thanks to everyone for making it one of the greatest weeks of this year...Phones are already strong for Stevie Nicks' newest 'Talk To Me'. Calls are coming in from both the guys and gals and her appeal seems to know no bounds. I see another sure-fire-hit for Stevie...And just as the phones continue to be strong for 'Kayleigh', Marillion hits with the hot remix on 'Lavender', and the action here is building quickly. It's exciting to see this band finally growing into the recognition they deserve, and I hope 'Lavender' will keep the story going. The remix adds full body to an already beautiful ballad and really shows the group's vocal talent. It debuts #5 on the Top 12 at 12...My personal faves this month: Townshend's 'Face' and Del Fuegos 'Don't Run Wild'. The energy and excitement is right up front on Pete's newest and the live version gives you a true sense of one of rock 'n roll's greatest talents...For emerging talents, you can't beat the beat that comes from Boston, Mass.! 'Don't Run Wild' gets under your skin and stays there! Sales are starting, phones are growing and I just 1-o-v-e it!"
- WBLM, LEWISTON/PORTLAND, ME M.D.-ROBIN MATHIEU: "Aerosmith knocks me out again! 'Done With Mirrors' reflects the rock 'n'roll style unique to Aerosmith and brings it of age in the 80's. I love Tyler's vocals on 'She's On Fire' and 'Darkness' and for the true Aerosmith punch, how 'bout 'My Fist, Your Face'...Speaking of faces, Townshend's 'Face The Face' is a jam that leaves the fans crying for more. After that, our listeners were chauffered to a weird restaurant (Yesterday's Food Shop), and then to the

#### **Record Action**

PAUL RAPPAPORT, COLUMBIA (212-975-8616): "LOVERBOY'S 'Dangerous' is exploding at Top 40 and album radio simultaneously. Already platinum and going for two. 'Lovin'' looks like it will be their biggest yet...On your desk today, a couple of 12"s that will blow your socks off: PAUL YOUNG'S 'Everything Must Change'. This one is undoubtedly a killer for album radio...THE OUTFIELD, 'Your Love'. This is a Top 10 album track and, dare I say, could even get to No. 1. The Outfield is currently enjoying a great tour with THE HOOTERS...The HEAVEN record is starting to blow out of the Southwest and West Coast. Allan Fryer and the boys are heading down that way to play for their new fans...J.T. continues to roll at Top 40 and more lbum stations are picking up on it each week. The guy is a sellout everywhere, and guess what his audience demo is?...And what about that BIG MAN!!!! Looks like he's got a hit on his hands, and well deserved...The end of the year looks very strong for album radio and with what we've got coming first quarter - look out!"

MICHAEL PRINCE/PAUL BROWN, ATCO (212-484-6400): "Hey Margo, now can we go home?"

MICHAEL PRINCE/PAUL BROWN, ATCO (212-484-6400): "Hey Margo, now can we go home?"

RAY GMEINER, ELEKTRA (213-205-7433): "The new model Cars 'Tonight She Comes' is a gone gator, thank you...

We're hanging tough with Joe Lynn Turner...And The Cure is raising eyebrows not only at retail but at major market AOR radio stations such as: WNEW, WLUP and WXRK...Please give a listen to Jon Anderson's 'Easier Said Than Done'...The main topic this week is quality versus quantity. Not too long ago, right before metal was 'written off', Mike Bone and Elektra Records made a commitment to release only quality metal records. The Motley Crue have gone double platinum again and MTV is now kicking in an outrageous new video. Metallica is quietly approaching 400,000 units sold! Meantime, successful AOR programmers who didn't fall in the metal 'perge' are winning by playing quality records, the 'creme de la metal', and not every wimply pretender that comes along. To that end, we want to send off your '85 playlist, not with a whimper but with two quality records: Metal Church. The A-side will have thousands of Bic lighters going in a dark hall faster than you can say 'Gods Of Wrath'. The B-side is a bitchin' version of that 70's Purple gem 'Highway Star'. Crank it!...Then a band that will make our Thanksgiving a happy one for sure, Dokken. All I can say is 'Tooth & Nail' is over 600,000 sold, thank you. Platinum is 'Under Lock and Key'."

MICHAEL PLEN, I.R.S. (212-605-0606): "This week's comments are short and simple. Play THE ALARM. The elements of sales, radio response and tour response add up to one thing: this band will be one of the biggest bands to hit radio ever. You just have to play it. At a time when lyrics are being questioned, there isn't any more of a powerful statement than, 'give me love, give me hope, give me strength'. Think back to all the signs you saw with U2. They're all there. Add THE ALARM...And don't forget about my new R.E.M. track, 'Life And How To Live It', and Wall Of Voodoo 'Far Side Of Crazy'...Personal to Jeff Naumann: I noticed black lipstick on your face last night as you made your super hero transformation alias a human piston. Look at that boy go up and down." Look at that boy go up and down."

"17 stations told us last week they picked up good-excellent requests for (212-930-4518): ANDY ALLEN, RCA Autograph. Nighttime and weekends are a must for this phone burner! The single's just out and the tour with Motley Crue heads north this week. The video will also debut this week...DC101 and WLUP have made room for the Jethro Tull/London Symphony Orchestra. 'Bourree' is terrific garnish for your meat and potatoes rock and roll...'Sara'- Starship...'Kyrie'- Mr. Mister out soon...The 'Refrigerator' has single-handedly made the 'slim and trim' set uncool. He could put Jack Lalanne out of business. Congrats to WQFM's Gavin and the refrigerator magnet promotion. It was picked up in USA Today and the New York newspapers. Too crew on the refrigerator magnet promotion. It was picked up in USA Today and the New York newspapers. bad it didn't work."

DAVID FLEISCHMAN, ATLANTIC (212-484-6017): "OK, all you Serious Music Fans. THE DIRT BAGS ARE BACK. Twisted Sister comes roaring back with the first 12" from their forthcoming 'Come Out And Play' Lp. What's the track you ask? It's a remake of the 1964 Shangri-La's classic 'Leader Of The Pack'. If the good Lord's willing and the test pressing is approved, look for the record on November 14th. Remember, when it comes to Twisted Sister, DO WHAT THEY SAY AND NO ONE GETS HURT...Mike & The Mechanics is enjoying tremendous success right out of the box. 'Silent Running' looks and feels great and there're several excellent tracks on this album... INXS is solid as 'This Time' makes its way up the tracks chart. 'What You Need'is the second track, and is already receiving airplay. The tour has already started and you must see this band. They are EXCELLENT live... 'Under A Raging Moon' is shaping up as a monster track from Mr. Daltrey. This will not be the next single so take advantage and jam it up the 'other' formats' you-know-what...Lou Reed's 'My Love Is Chemical' will be a 12" off the 'White Nights' soundtrack...Ratt's latest, 'What You Give Is What You Get' is in your hands now... And definitely do not overlook John Parr's remixed version of 'Love Grammar'. I would think your listeners would want to hear music from an artist who just came off a number one record."

ROB STEINBERG, SECOND VISION (212-334-9260): "The bell rings...Y&T comes out punching...A hard right hook to the ear...A heavy smash to the guts. This band is knocking radio 'DOWN FOR THE COUNT' with 52 reporting stations on the canvas. Those of you with glass jaws, get off the ropes and let the 'COUNT'S' teeth sink into your groove. The fight's over. Get your ticket to the hottest 2:25 second round of hook-punch jabs and 'ALL AMERICAN BOY'... With over 30 heavy hitters already on this hot remix of 'NO ONE LIKE YOU', the SCORPIONS have begun their holiday blitzkreig. For a double-live album that's broken every rule in the retail book, it looks like this track's destined to rewrite radio's rulebook. Add it if you didn't, move it up in rotation, keep reporting it and soon it will demand a number. The video is on MTV. It's on the Song Index at #68. Don't underestimate the tenacious, teutonic STING of the Scorpions...I'm in HEAVEN, and radio is going there at last. We are seeing second 'KNOCKS AT THE DOOR' and you'd better let them in."

RICH SCHMIDT, RHINO (213-450-6323): "Trivia contest answers and winners at the end of this paragraph...

A hearty Rhino apology to Paul Rappaport for the premature drop kick. I obviously threatened the wrong guy. What's all the fuss about anyway? Well, you see, Rhino and Epic have decided to simultaneously release various artists' wrestling Lps. Ours features 'Wrestlers Just Want To Bust Heads' by Shell Shock Shannon And The Hollywood Manglers. This track is undefeated in the yucks department, and we encourage an openly aired competition between the two records. We are simply suggesting an audio wrestling match in morning drive which lets your audience decide the winning wrestling track. Could be the upset of the year. Any takers? Expect a special bruised 12" of this track on your desk soon...The answer to last week's quiz was Ted Cassidy. Winners so far include: Scott Reppert (WTCS) and WYSP's Ken Sharpe. Next week the quiz continues...Go fish!" RHINO (213-450-6323): "Trivia contest answers and winners at the end of this paragraph...

include: Scott Reppert (WTCS) and WYSP's Ken Sharpe. Next week the quiz continues...Go fish!"

MICHAEL ABRAMSON, ROCKER DOCTOR PROMOTIONS (212-370-9041): "Well patients; listen up--your doctor is speaking...

NEW AND NOTEWORTHY: The Cult 'She Sells Sanctuary'. Trust your ears and your gut, this sucker will fly!...

Charlie Sexton 'Beat's So Lonely'. Okay, so you think you've been OD'd with hype? I caution you, do not--I repeat, do not confuse honest sincerity and enthusiasm. He's a great singer/songwriter, just happens to play killer guitar, and...he's only 17-years-old! Combine all this with Keith Forsey's production and you've got a killer combo to run with...Black 'N Blue 'Miss Mystery' (written by Bryan Adams). Don't overlook this solid rocker. It's pulling Top 5 phones and it's in adozen plus markets. Don't blow it!...Loverboy 'Dangerous' (another Bryan Adams penned tune). Check out the new remix. Hotter than bums on a bologna sandwich -- platinum plus and growing. Do it now...CHECK THESE OUT: The Outfield "Your Love'. This one should send the Lp through the registers...Triumph 'Mind Games'. Live Lp's with great studio tracks sell at retail!...Night Ranger 'Goodbye'. Who does a ballad like these bad boys?...R.E.M. 'Life And How To Live It'. No. 3 in a series of Top 20 records for these Georgia burners...Big Audio Dynamite. Check out 'Medicine Show' and 'Bottom Line'. Mick Jones and the boys are on the track...Blancmange. In the 'check it out department', this band has come close over the past two years with their own style of synth-pop music--but have been a bit left and right of center. 'Lose Your Love' may just be the track that puts them in the center lane...COMING SOON: Tony Carey--destined for stardom. The first 12" due in a couple of weeks-'We Wanna Live'. A bonafide ass kicker...Till next week, always take good care of your doctor -- and he'll take care of you!"

#### RECORD ACTION CONTINUED

BENNETT KAUFMAN, GOLD MOUNTAIN RECORDS (213-469-2411): "Thanks to all of you who are supporting and playing Doug Cameron's 'Mona With The Children'. I'm glad to hear it's doing well for you. The video is on all major programs including MTV, Night Tracks and Radio 1990. For those of you who still need the PSA from Ron Keel addressing the lyric censorship issue, let me know...The Y&T cut 'All American Boy' is one of the hookiest songs out there. The follow-up to the Top 15 'Summertime Girls' is the first single from their album 'Down For The Count'. This is the album that will break Y&T."

The Dream Academy filmed their video for "This World" in New York. "I wear tons of dark eve shadow and white lipstick in it." Kate St. John savs...."We wanted to make a really authentic surrealist video," Stephen Luscombe of Blancmange says of the band's video for "What's Your band's video for "What's Your Problem?" "Not like the usual 'arty' jobs with swinging light bulbs and venetian blinds, but something really manic... The video features a crocodile, two leopardskin chairs that are shaped like a man and a woman, and Luscombe squeezing an accordion. Some of the scenes were shot at Putney Baths with Neil Arthur and Luscombe with "giant spaceman's helmets on and weights tied to our feet."...Kate Bush has completed a video for "Cloudbusting," directed by Julian Doyle. The song and the clip are about the relationship between a young boy and his father.... "Cities In Dust" is the latest clip from Siouxsie & The Banshees. "It's a continuation of the 'Dazzle' video," says Banshee Steven Severin. "The video, which was shot in Fulham, plays with ideas of different layers of love, with the boys as statues, and Sioux singing. There's a lot of thought goes into what we do with our videos, but you are limited by the fact that it's basically apromotional device, just a way of presenting the song. We try and get away from emphasizing 'the band,' and the faces of the band, but there's not a lot you can do. However you try, you can't help depriving people of their imagination. With most videos, you dn't even notice the song, because there's too much going on visually," Severin suggests. Tim Pope directed "Cities," which Severin says marks the first time the band wrote a storyboard before shooting a clip.
"In general we've been limited by the size of the budget we have. Our videos tend to be quite expensive, not because of the settings, but because of the special effects we use." Severin admits liking videos from Talking Heads and ZZ Top!

The Airplay Index is our ranking system for the amount of play on alk up as a whole. We determine rankings by totalling the emphasis points on cuts

The methodology for our Top 50 markets Metro Index is the same as our Airplay Index, but instead of using the full sample base w calculate the ranking from airplay reports from the Top markets as defined by Arbitron
