## COVER STORY

76

Chuck Tisa's a lucky guy. After all, who gets to work in the major market you grew up in, in this business? And who gets to work with such accomplished programmers as **Charlie Quinn, Brian Philips, Steve Kingston** and **Garett Michaels**, without ever setting foot in an airport? Chuck is now the man in control of Philadelphia's first Modern AC station (WXXM/MAX95.7), and he's stirring it up quite a bit in the City of Brotherly Love.

# PREMIER PICKS

## THE SMASHING PUMPKINS "AVA ADORE," VIRGIN

Heard the new Smashing Pumpkins yet? Of course you have! 53 signals (WYSP, WRCX, KEGL) went early on "Ava Adore" this week, earning the band #2 Most Added honors this week. Over at Modern Rock, it easily picked up Most Added, with 62 stations signing on. The first single from the band's fifth album, *Adore*, shows the band foraying into Electronica via a drum loop. Don't let the "E" word scare you though. The beautiful and anthemic song still features the unmistakable voice of Billy Corgan, a sweeping chorus, and enough guitars to silence the few critics they might have. Memorial Day's still a few weeks away, but the Pumpkins have just delivered the first guaranteed summer smash destined to be blaring from convertibles and boomboxes all season long.

## MONSTER MAGNET "SPACE LORD," A&M

Ask Monster Magnet leader Dave Wyndorf what his band's new album, *Powertrip*, is all about and he'll tell you, "it's about money, it's about sex, it's about money, it's about sex." How did it come to this? Back when Monster Magnet came off their '96 tour, Wyndorf turned on the radio, hated the music he heard and was frustrated by the financial state the band was in. With quitting not an option, Wyndorf headed to the city of lost wages to gain the inspiration to write the songs for *Powertrip*; songs about the corruption of the American dream. The album's first single, the apocalyptic "Space Lord," has already impacted the Hot Trax chart at #90 thanks to 48 early spinners (WRCX, WLZR, KILO, WRIF, KSJO, WNOR, WTPA, WJRR). Gee, why do you think that is?

## LENNY KRAVITZ "FLY AWAY," VIRGIN

While Modern Rocks such as 99X, KDGE, WLUM, WKDF and others are banging "If You Can't Say No," Rock programmers demanded Virgin Let Lenny Rock. That's why "Fly Away" is out now as the first Rock single. It opens to crunchy guitar overdrive, sports a big fat hook, and incorporates

Lenny's tube amp, down n' dirty recording approach. While his new 5 set is a veritable supersoul funkfest, the eclectic multi-instrumentalist still serves up a handful of rockers, which Virgin has isolated on a 4-track sampler. As you prepare to "Fly Away" with what may well be the finest Lenny Kravitz album yet, spend some time with the Sly & The Family Stone-inspired "Live," the hi-tech groove of "Black Velveten," and the Lennonesque "You're My Flavor."

## DEEP PURPLE "ANY FULE KNO THAT," CMC INTERNATIONAL

Yes, we ran this through spell-check, "Any Fule Kno That" is the lead track from Deep Purple's forthcoming album, *Abandon*. On *Perpendicular*, which produced the Top 20 Rock track "Ted The Mechanic," Deep Purple proved that even though Ritchie Blackmore is gone, former Dixie Dregs/Kansas guitarist Steve Morse can more than handle six-string chores. "Any Fule Kno That," shows a band still hitting their creative stride, resulting in a sound that brings to mind Purple classics like "Strange Kinda Woman" and "Lazy." With all the elements in place - the swelling organ of Jon Lord, the vocal gymnastics of Ian Gillan - it's time for a new generation of Rock Radio listeners to get acquainted with Deep Purple.

## OUTCRY "ON & ON," EUREKA

From the swamps of Jersey come Outcry with their Eureka Records debut *This Side Of Anywhere*. Drummer Jon Leidersdorff and singer/rhythm guitarist Jason Stanley met in the seventh grade and began their musical journey there. Seven years ago they teamed up with lead guitarist Stephen Bryant and recently added bassist Gerry Staneck. After years of playing the clubs along the Jersey Shore and the East coast, they're primed for a national breakthrough. "On & On" has a fantastic hook and deeply personal lyrics that will pull your listeners in and keep them there.

## GARBAGE VERSION 2.0, ALMO SOUNDS

Armed with their arsenal of samples, textures, sounds, piercing guitars, and the

ever-seductive voice of Shirley Manson, Garbage are back with their eagerly anticipated sophomore effort, *Version 2.0*, an album that avoids the slightest notion of a sophomore slump with ease. From the surprising crunch of "I Think I'm Paranoid," (the next single), to the ebb and flow dynamics of "Medication," to the shuffle from outer space that is "Wicked Ways," it's obvious the band have no interest in serving up a "Queer" or "Stupid Girl Pt. 2." Instead, braintrust Butch Vig and company expand their already dense wall of sound by leaps and bounds, without letting it get in the way of the radio-ready hooks and melodic sensibilities. Just like their debut effort, *Version 2.0* seems poised to be a multi-format smash with legs.

## SLOBBERBONE "BARREL CHESTED," DOOLITTLE RECORDS

Let's clear this up right away, the band's named after Texas slang for a chewed-up dog toy, so get your mind out of the gutter! The Texas quartet formed before bands like Wilco and Son Volt invoked the "alt.country" sound, but found themselves lumped into that category anyway. *Dallas Morning News* described the band's sound as "an alloy of Country, Punk and Heavy Metal." Although the title track from their sophomore album does have a twinge of Country in the vocals, it's actually more of a straight-ahead Rock song. A great fit for both Active and Mainstream Rock stations, "Barrel Chested" is the only reason you need to throw your listeners a bone.

## BRITTON "UNLEASHED," #12

Before there was a Motley Crue, Tommy Lee was drumming with guitarist-vocalist Michael Britton in the band Dealer. After Lee left for pre-Crue Hollywood glam rockers London, Dealer broke up and Britton started Romeo. By '84, Britton was working with just departed Great White drummer Gary Holland on the original L.A.-based Britton line-up. The title track from Britton's new album offers a tough sounding eighties retrorock sound that's to be making a comeback in some circles.

## DEPTH TRAX

### LIMP BIZKIT "SOUR," INTERSCOPE

Through the efforts of Interscope and non-stop touring, Limp Bizkit have sold nearly 375,000 copies of their debut album, *Three Dollar Bill, Yall\$*. Wherever their first single, "Counterfeit," was played, it reacted. Their follow-up, "Sour," is not only more radio-friendly than "Counterfeit," it's 311-meets-Rage Against The Machine grooves are already being heard on WAAF, KXXR, and WKLQ. The band will be on the main stage on this Summer's *Ozzfest* tour, so ignore the hype and check out "Sour." Your listeners will thank you.

### COAL CHAMBER "SWAY (THE ROOF IS ON FIRE)," ROADRUNNER

It's time to take Coal Chamber seriously. Here's a band that is currently on tour with Megadeth and LOA, getting set to headline with Sevendust opening, plus they'll be a mainstage artist on the *Ozzfest '98* tour this summer. Need a nighttime record from a band your younger demos already know? Check out "Sway!" Already on WAAF, WCCC and WTKX.

The Tracking Report is weekly national call-out research of 45 Active, Alternative, and Mainstream Rock Radio currents. Titles tested are compiled from submitted client playlists. Results in The Tracking Report are based on interviews conducted with over 400 rock radio listeners across the United States in rated markets. The research is conducted using random digit dialing and music is tested via "song hook" methodology. Respondents must be Active, Alternative, or Mainstream Rock Radio listeners between the ages of 18 and 44. Cluster Groups are determined using music montages to isolate each listener's music preference type. **Grade:** An index based upon combined MRI, Burn and Unfamiliarity Scores. **Music Response Index (MRI):** Appeal of each song within the indicated sample group on a 0 to 110 scale. **Burn:** Percent of the indicated sample that claims to be "tired of the song." **Unfamiliarity:** Percent of the indicated sample reporting "don't know it." ### Restless Secures Murray & McDonald

Drew Murray

Restless Records has officially announced that industry veterans **Drew Murray** and **Bruce McDonald** have joined the label as VP/Rock Promotion and VP/Alternative Promotion respectively.

Commenting on his appointments, Restless Sr. VP/Promotion **Dave Darus** told *Dirt Alert*, "Drew Murray and Rock Radio are synonymous. His relationships and years of experience have made him a long-loved guy in this format. I'm thrilled to have him on board."

On McDonald, Darus added, "Bruce was one of the pioneering programmers of the Alternative format before making the transition to a label."

Bruce McDonald

"I'm totally psyched," Murray enthused, "that Dave Darus and [Restless Co-President/CEO] **Joe Regis** have given me the opportunity to help make Restless the coolest label on the planet."

McDonald added, "Restless initially appealed to me due to their solid reputation as a true Alternative label. This is not the same old Restless. With our partnerships with Regency, Puma Sportswear, and Warren G's G-Funk, there is an unlimited potential for growth. I am also thrilled to be working with Dave Darus again, as well as such relentless and creative pros as [VP Marketing/Promotion] **Rich Schmidt** and **Drew Murray**."

Before joining Restless, Murray spent 20 years at Mercury/PolyGram where he was recently Sr. Director/Rock Promotion. Prior to that he programmed WKLS/Atlanta.

McDonald was previously National Alternative Promotion Director at Polydor. Prior to that, he programmed WHTG/Asbury Park and WFNX/Boston. McDonald is also credited with founding his own record label, Another Round, in 1993.

### Ellis Upped To Sr. VP/Promotion At Mercury

Steve Ellis

Mercury Records VP/Promotion **Steve Ellis** has been promoted to the position of Sr. VP/Promotion at the label. As Sr. VP/Promotion, Ellis will work closely with all of the artists on Mercury's roster, as well as oversee the entire promotion department. He will also be the executor of all promotion projects, developing strategies and implementing plans for Mercury artists at radio.

"It is with great pleasure to promote Steve Ellis to Senior Vice President, Promotion," Mercury Executive VP/GM **David Leach** commented. "Steve has proven himself to be a leader in the world of promotion and has surrounded himself with an incredible team. I know he will continue to gain an edge for our artists at radio."

"This is a wonderful opportunity and, once again, I want to thank David Leach for letting me 'step in his shoes'," added Ellis. "David's trust, guidance and confidence in me has made the transition to head the Promotion department a challenging but easy one. I look forward to many years at Mercury Records."

As VP/Promotion, Ellis helped develop Hanson, The Cardigans and OMC into No. 1 radio hits, as well as aid the still-breaking Shania Twain album to become one of the first records to break into Country and Pop radio simultaneously. Prior to joining Mercury, Ellis was Sr. Director of Promotion for Curb/Atlantic Records, where he worked with such acts as Genesis, Hootie & The Blowfish, Stone Temple Pilots and Page/Plant. ### Arbitron Buys Tapscan's Radio and Ad Agency Business

Arbitron announced on Tuesday (5/5) that it has purchased the radio station, advertising/agency and international assets of Birmingham, Alabama-based Tapscan, Inc., developer of software for broadcasters, agencies and advertisers. Terms of the transaction were not disclosed, however, Tapscan's revenue in 1997 for those portions of their business is estimated to be in the neighborhood of \$10 million.

Under terms of the agreement, Arbitron acquires the current software applications of Tapscan that are marketed to U.S. radio stations, to advertisers and advertising agencies and to the international media marketplace (which includes software for television stations and cable systems overseas). Arbitron also acquires the applications that are currently under development for those market segments, the software development organization that writes those applications and the sales and customer service groups that market and support them. Tapscan will retain its software applications for television

stations and cable systems along with the organization that develops, supports and markets those applications to the television station and cable marketplace.

Arbitron also announced it will form a new division, Tapscan Worldwide, to be headed by **Drew Simpson** who has been named VP/GM. Simpson had been the head of the international division of Tapscan. ## PolyGram May Join EMI On The Sale Block

Philips Electronics appears to be looking to sell its 75% stake in PolyGram. The Dutch company announced that it was "evaluating various strategic options" for its stake in the music and film group, according to a *Reuters* report. As the news hit, shares of PolyGram stock rose \$5.5625 in trading on the New York Stock Exchange. This news comes less than a week after EMI confirmed that it was approached by a suitor. That suitor was thought to be Seagram Co. but it now looks as though Seagram is more interested in acquiring PolyGram.

Seagram appears to be the likeliest buyer of PolyGram but other potential buyers could include News Corp. and the Walt Disney Co. The price tag for PolyGram, which owns such labels as A&M, Mercury, Motown and half of Def Jam, is said to be in the \$9 to \$12 billion dollar neighborhood. PolyGram pulls in nearly 20% of the music industry's \$25 billion in sales. Analysts have said that PolyGram has more appeal to Seagram than EMI because, aside from a healthy record company, PolyGram owns a library of 1,000 films that could bolster the library of Seagram's entertainment company, Universal Studios.

With Seagram possibly out of the bidding war for EMI, the focus for a potential now shifts to the Walt Disney Group, News Corp. and Kirk Kerkorian's Tracienda Corp. Last week, EMI stock soared 20%, which prompted the company to confirm that it was in talks for a buyout of the company. Under British law, a public company is required to confirm whether it has been approached by a suitor if its stock price rises more than 10%, according to a report in the *Los Angeles Times*.

## Arbitron Makes Puerto Rico Market #11

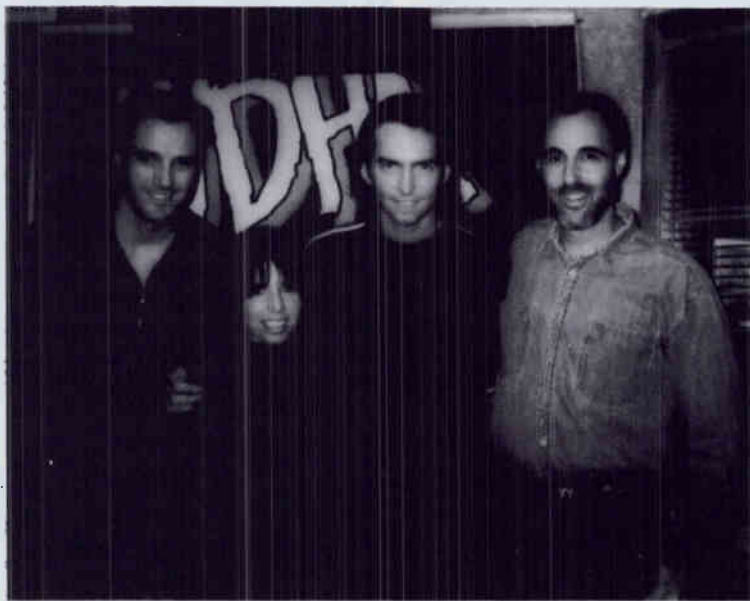

Arbitron will now measure radio listening on the island of Puerto Rico. The announcement was made at the annual Puerto Rico Radio Broadcasters Convention last weekend in San Juan. With a population of 3,076,200 persons 12+, Puerto Rico will rank as the 11th largest U.S. radio market out of the 268 Arbitron rated markets. Miami moves down one spot to market 12, with all consecutive markets dropping one slot.

"Radio broadcasters in Puerto Rico will have greater visibility among the thousands of advertising agencies who use Arbitron as a source for radio ratings," Arbitron President **Steve Morris** commented. "The radio audience information for Puerto Rico will now be delivered, along with the radio ratings for all other Arbitron radio markets, right to the desktops of the people who spend billions of dollars on radio advertising."

The Arbitron decision was contingent on the success of a test of the company's standard survey methods used for Hispanic consumers in mainland markets. The test, conducted in February 1998, showed that Puerto Rican consumers readily accept, fill out and return diaries that Arbitron uses to compile its radio ratings and that the resulting audience estimates meet Arbitron's research standards.

The first official survey will be Summer 1998, covering the weeks of July 2 through September 23. The results will be released in October. The Fall 1998 survey, covering the weeks of September 24 through December 16 will be released in January 1999. Beginning in 1999, Arbitron will regularly monitor the Commonwealth with two annual, 12-week surveys: Spring and Fall.

**I POSE FOR THE SHOTS THEY TAKE:** Brother Cane's Damon Johnson stopped by WDHA/North Jersey to play a few acoustic tunes off the band's latest album, *Wishpool*. (L-R): WDHA's Rob Moorhead and MD Terrie Carr; Brother Cane's Damon Johnson; WDHA PD Lenny Bloch.

both organizations working together toward the same strategic objectives has tremendous advantages for Arbitron and for our customers. Arbitron will be able to improve more quickly the services we offer our current clients and to expand more rapidly into new segments of the U.S. and global marketplace."

Added Christian, "This is a great moment for me personally and for the talented staff of Tapskan Worldwide. It's a chance to work with the best media data in the world and a chance to deliver great new products and services to many thousands of stations and agencies. We're all proud and excited to be part of a great team."

## BEVILACQUA continued from page 15

He's got great experience with talent, both developing and working with talent, which is evident by his work with **Ted Nugent**. He's a key marketer, he did a really good job with positioning WWBR, competing in an incredibly competitive Rock marketplace. He's got a solid music background and creative services background. He's got all the elements we were hoping to find in a Program Director. I've spoken to lots of really talented people out there and Joe was the right guy. He's a consummate professional, he's a killer and we're lucky to have him."

"I am overjoyed that I am able to work with such a talented bunch as in 'HJY,'" Bevilacqua added. "A great morning show with **Paul and Al**, **Amy** in middays, and **Geoff Charles** in afternoon drive, some of the most original talents I've heard in a long time. I'm very excited to be taking on that challenge and just blessed with a great stable of talent that Mr. Weston was able to hire. It's gonna be sad to leave **Ted [Nugent]**. I've been here five years and I want to thank everyone at The Bear, my General Manager **Rob Stryker** and my owner **Herb Wilkins** who pretty much let me design, create and hire who I wanted, namely Nugent. I wish those guys all the best."

Prior to his five years as PD of WWBR, Bevilacqua programmed the station's former incarnation, Active Rock WDZR for three years. Before that he was Creative Services Director for WONE-WAKR/Akron.

WWBR APD **Steve Black** will handle programming and music duties until Bevilacqua's replacement is named.

-Jay Gleason

**BA BA BEETLE:** It was an embarrassing moment recently when Howard Stern show producer Gary "Ba Ba Booney" Dell' Abate locked the keys to the K-Rock/New York Beetle inside the car. Actually, he was just posing with the station's newest vehicle.

# ALL THE DIRT

THAT FITS

## CBS PITCHES FIVE PROPOSALS TO LABELS

Determined to capture a larger share of record company marketing dollars, CBS is peddling a "Country Radio Record Sales Impact Program" to Music Row labels. According to *Billboard*, the proposal offers five different ways Country labels can market their music on CBS Country stations, which will number 25 after its purchase of ARS closes. CBS' "Sudden Impact" program involves airing artist-voiced back-announcements, at a cost of \$14,700 to \$19,600, depending on the frequency of the announcements. DreamWorks reportedly bought into this program for its new Randy Travis album, but ended up running hourly 10 second announcements on one day only (April 23). Atlantic-Nashville is also participating in "Sudden Impact." The "Endcaps" program is similar, using 10 second back announcements voiced by the station. Dubbed "Pay-To-Name" by observers, Capitol-Nashville shelled out \$500,000 for this option (*fmqb* April 17). It turns out Capitol-Nashville is spreading that investment over a nine month period for 10 different projects. A third choice entails a two hour Saturday morning new music program, tied in with retailer Kmart. Also available are 90-second artist profiles for \$2,800-\$9,600. And for \$20,000 labels can purchase an in-market tour package that brings an artist to town and includes multiple retail and radio tie-ins.

## JACOR EXPANDS BAY AREA COVERAGE

For just \$4.5 million, Randy Michaels is picking up a second FM in the San Francisco area. As a standalone, KZWC in Walnut Creek has little to offer. But used as a simulcast partner for KSJO/San Jose—Jacor's other Bay Area station—the 3000 watt Class A could play an important role in Jacor's still evolving Bay Area strategy. The stations broadcast on adjacent frequen-

cies: KSJO at 92.3, KZWC at 92.1. Simulcasting KSJO on both would add the third largest San Francisco county (Contra Costa) to KSJO's coverage area, significantly improving its penetration of revenue rich Arbitron market No. 4. KZWC currently programs a Hispanic format. The seller is Z-Spanish Radio. Jacor is buying KSJO from ARS. Closing on both stations could happen within 30 days.

## WNEW, WKLS COURT OPIE & ANTHONY

Sounds like the former WAAF afternoon guys who "killed" the Mayor of Boston have a big career decision to make: mornings at Jacor's WKLS/Atlanta or afternoons at CBS' WNEW-FM/New York. A source close to the situation tells *fmqb* both stations have expressed major interest in the controversial personalities. Station officials were unavailable for comment. A move to New York for Opie & Anthony would put them opposite their old Boston whipping boy Mark Parenteau, now heard on Chancellor Classic Rocker WAXQ (Q104).

## HOTLANTA AFTERNOONS

PM drive in Atlanta just got interesting as former WKLS morning host Christopher Rude returned to the Heritage Rocker on May 7, as host of a new personality-driven afternoon show. Meanwhile, longtime 'KLS air personality Kaedy Kiely has resurfaced at crosstown Classic Rock Z93 (WZGC) in the afternoon slot recently vacated by Bob Baily.

## CHANGES AT ST. LOUIS ALICE

PD Bob Davis has exited WALC in what Emmis St. Louis Sr. VP John Beck calls a "consolidation move." A coalition of Emmis St. Louis Director of Programming Rick Balis, Alice APD Tommy Mattern and Production Director Rob Walker have absorbed Davis' programming duties. The station made headlines in March when it became the only Modern AC to pick up Howard Stern. Now Alice is becoming more musically aggressive, adding currents from Creed and Days Of The New. Library titles by Candlebox, Alice In Chains, Pearl Jam and Nirvana also showed up in a recent monitor. But the majority of Alice's music remains typical Modern AC fare like Natalie Imbruglia, Third Eye Blind, and Matchbox 20.

**BOB & BRIAN 'TIL 2003** Eleven-year WLZR/Milwaukee morning show hosts Bob Madden and Brian Nelson have signed a long term agreement that will keep them on The Lazer until the year 2003. According to a press release, Bob & Brian are the original show about nothing, long before *Seinfeld*. "Just two guys talking about whatever the topic of the day is with people listening in. There is no point, no direction, no motive, no nothing."

## DEX ALLEN LEAVES PACIFIC STAR

Capstar Broadcasting Partners has announced that Pacific Star President/Chief Executive Officer Dex Allen has resigned from his position. Allen is exiting the company to invest in and participate in a new minority broadcasting group headed by Michael Padilla. "I have tremendous respect for Steve Hicks and the entire Capstar organization," Allen commented. "I am interested in pursuing other ventures in the radio industry, namely, the formation of a new minority-owned radio group. I wish Steve and his team much continued success and thank him for the opportunity to be a part of this great company."

## LUCENT PACTS WITH CD RADIO

The chips and signal processors that will make CD Radio's 50 channel, \$9.95-per-month digital satellite radio service a reality next year will be developed and supplied by Lucent Technologies. CD Radio, one of two companies investing hundreds of millions of dollars in "cable radio for the car," will use digital signal processors (DSP) and radio-frequency chips from Lucent when it rolls out its service in December 1999. Lucent's DSPs will be used in a card that inserts into the cassette slot of a car radio. Their RF chips will be used in a two-inch wireless antenna that mounts on motorists' rear windows. The Lucent-CD Radio pact marks Lucent's first foray into digital satellite radio.

## CHANCELLOR MARKETING GROUP CREATED

Chancellor Media has established Chancellor Marketing Group, a new division created to enhance the revenue it derives from sales promotion activities. Chancellor has also acquired Global Sales Development, a consulting firm, to spearhead its marketing effort. Global Sales Development

President Alison Glander is named President of Chancellor Marketing Group and Sr. VP of Chancellor Media.

## CONSOLIDATION COMES TO CANADA

Responding to pleas from broadcasters, the CRTC — the Canadian equivalent of the FCC — is loosening radio ownership restrictions. In a move that parallels early '90s FCC rules that made duopoly a reality, Canadian broadcasters will now be permitted to own two AM and two FM stations in any given language in markets with eight or more stations. In markets with fewer signals, a company could own as many as three stations in a language, with a max of two per band (AM or FM). Canadian broadcasters were faced with the same plight that brought dereg to the lower 48: Half of Canada's private radio stations have been losing money since 1990. And radio's share of the Canadian media advertising revenue pie sank from 11% in 1980 to 8.5% in 1996. While the Canadian Association of Broadcasters considers multiple license ownership "a step in the right direction," it's incensed over the CRTC's decision to boost Canadian content levels from 30 to 35%. CAB says there's not enough Canadian music to keep up with the rising CANCON requirements, especially for Classic Rock and Oldies stations. It also notes that big name Canadian artists like Sara McLachlan and Shania Twain only put out new albums every 18 months or two years.

## PUFFY PAGE

Here's the satellite information needed to download "Come With Me" the new collaboration between Puff Daddy and Jimmy Page. It can be found on Sat Com C-5, Transponder 19, Channels 10 & 11 on Friday May 15. The feeds run for a half hour at 8:00 A.M. and 11:00 A.M. EDT. Trouble line is (212)456-5000.

## SFX GOES ON SHOPPING SPREE

SFX Entertainment expanded its reach into the sports and entertainment industry with the acquisition of five firms for a price tag of \$227 million. The highlight of the deal is the \$100 million that it paid for the addition of Falk Associates Management Enterprises, a six-year-old sports management and marketing firm that includes Chicago Bulls star

**Michael Jordan** and New York Knicks center **Patrick Ewing** among the three dozen NBA members that it represents. Also included in the SFX spending spree were New England concert promoter **Blackstone Entertainment**, with a price tag of \$80 million, and its Los Angeles counterpart, **Avalon Attractions**, which was acquired for \$27 million. The **Oakdale Theater of Wallingford, CT** and **Event Merchandising** round out the remainder of the deal.

#### INTEREP FORMS SALES COMPANY WITH ABC RADIO

Effective June 1, **Interrep** will become the exclusive national sales organization for all **ABC Radio** stations. **Interrep** will form an exclusive sales company named **ABC Radio Sales** for **ABC Radio**, with billing in excess of \$74 million projected for 1998. **ABC Radio Sales** will have offices in Atlanta, Boston, Chicago, Dallas, Detroit, Houston, Los Angeles, Minneapolis, New York, Philadelphia, and San Francisco. **George Pine**, a 25-year veteran of **Interrep**, will serve as the President of **ABC Radio Sales**. The rumors of **ABC** breaking from **Katz** have been circulating for some time, especially after **ABC Networks** President **David Kantor** split from **ABC** to form **Chancellor-owned AMFM Networks**. With **Chancellor** also owning **Katz** a parting-of-the-ways was seen as imminent.

#### FIRST QUARTER RESULT FRENZY

Last week, **Chancellor Media**, **Cox Radio, Inc.**, **SFX Entertainment**, and **Triathlon Broadcasting** announced their first quarter results for 1998, and everything was looking up. **Chancellor** posted record gains, with revenues increasing 185.2% to \$233.6 million from \$81.9 million last year. **Broadcast cash flow** (operating income excluding depreciation, amor-

tization, and corporate, general and administrative expenses) was \$85.5 million, a 195.8% increase over \$28.9 million from last year. The company reported a net loss, however, from \$6 million to \$75 million. Over at **Cox Radio, Inc.**, net revenue increased 78.6%, from \$29.2 million to \$52.1 million. It was a record year for **SFX** as well. Their first quarter revenue increased from \$7.8 million last year to \$61.0 million this year. Their operating cash flow increased from a loss of \$0.8 million last year to a gain of \$1.5 million this year. Finally, **Triathlon's** net revenues increased 57% to a level of \$8.9 million as compared to \$5.7 million last year.

# QUESTION OF THE WEEK

## What's the best way to deal with feuding egos on your staff?

**GENE ROMANO,**

**JACOR BROADCASTING:**

As a programmer, before the feuding begins, you really hope that over a period of time you've developed a credible and long-term strong relationship with those personalities, and they respect and trust you. If you're in a position like that as a manager, it certainly makes it a lot easier to step into a problem situation where you can sit down with them and have a productive discussion. Because then you have a lot of intellectual and management leverage, to the extent that they will understand your perspective. Without the respect though, it makes the problem solving pretty difficult.

**CHILJ WALKER,**

**WWBN/FLINT:**

Steel cage matches.

**LYNN BARSTOW,**

**KMYZ/TULSA:**

Firearms.

**WOODMAN,**

**WFYV/JACKSONVILLE:**

In a ten foot steel cage... No DQ's... Must have a finish.

**RUTH CHOATE,**

**KNSX/ST. LOUIS:**

Well, seeing as Randy and I run the whole thing, and we're both pretty much perfect people, we really don't have any problems since we both think we're the best thing since sliced bread. It's true!

**PRESTON ELLIOT,**

**WPLY/PHILADELPHIA:**

Hold court with your two ego-heads, with yourself as the mediator. Let 'em get it all out in the open - yelling if necessary. They'll feel a lot better afterwards.

**BRIAN ILLES,**

**WRXL/RICHMOND:**

We don't have too many feuding egos here. However, on the few occasions when that problem does arise, I simply remind the parties involved that they're getting paid for playing Rock N' Roll and they should cut the crap.

**GREGG STEELE,**

**WZTA/MIAMI:**

Blindfold them, give them pistols, stand them back-to-back, have them walk off 10 paces, turn and fire. When that doesn't work, stroke the hell out of both their egos. Every individual has their own set of needs: You have to get to the root of the problem, while understanding what their hot buttons are and treating them individually and fairly. After that's all done, I like to take them out for ice cream.

**JAKE DANIELS,**

**KATT/OKLAHOMA CITY:**

You can't deal with feuding egos in radio!

**GREG STEVENS,**

**KEGL/DALLAS:**

Oh God, I wish I knew.

**TODD THOMAS,**

**WXVO/KNOXVILLE:**

Play it safe and keep them apart.

**KEVIN SMITH,**

**KDOT/RENO:**

Fire them. We don't have room for that kind of attitude, we're a team.

**KEVIN CONRAD,**

**WJXQ/LANSING:**

Well, it usually comes down to between myself and Bob, and I'm always right, so that settles things. It does, continually, drive him nuts.

**JAYN,**

**KNRK/PORTLAND:**

Point out each person's individual strengths, and make them all feel valuable in their own right.

**STEVE RAYMOND,**

**WZXL/ATLANTIC CITY:**

I would redesignate their responsibilities so both parties are separated.

**DOUG PODELL,**

**WRIF/DETROIT:**

Sit them down, get it out in the open and help them try to work it out. That usually works for the short-term.

**CHRIS WHITE,**

**KMBY/MONTEREY-SALINAS:**

A lot of counseling. If that doesn't work, fire both of them.

**ANDY SIMS,**

**WXRA/GREENSBORO:**

Since it is North Carolina, we are required to carry concealed weapons. So we can't be threatening people. Either that or fire them.

**DONNA RODGER,**

**WRCN/LONG ISLAND:**

We don't have any, we're one big happy family.

**ADDISON WAKEFORD,**

**WDRK/PANAMA CITY BEACH:**

Show them the computer.

**JASON JUSTICE,**

**KNRX/KANSAS CITY:**

Let 'em get drunk and yell at each other.

**DEBBIE WYLDE,**

**WAMX/HUNTINGTON:**

Backrubs! Or free food gift certificates!

**DANA JANG,**

**KSJO/SAN JOSE:**

Treat everybody fairly. You have to convince feuding talent that they need to work together as a team. To do that get them involved on a project where they have to work together. Hopefully they'll learn to

have a relationship with one another instead of being warring factions.

**JIM FREE,**

**WKGB/BINGHAMTON:**

I tell them to shut the f\*\*k up. If that doesn't stop them I tell them that I'd rather have Dr. Ruth on the air instead of them. That usually shrinks their heads pretty quickly.

**PAUL KELLY,**

**KJKJ/GRAND FORKS:**

Let 'em go at it. May the strongest ego win! It's entertaining.

**CHRIS JAMES,**

**WTPA/HARRISBURG:**

Let's face it, everybody in radio has an ego, that's why you're in radio. I like to get to problems or potential problems real early and resolve them quickly.

**KNEALE MANN,**

**CFNY/TORONTO:**

There are no feuding egos on our staff.

**ROBIN LEE,**

**WZZO/ALLENTOWN:**

It depends on the situation, but usually I will allow them the stroke they need. However, if that doesn't work, I remind them who the boss is.

**PAUL MARSHALL,**

**WMFS/MEMPHIS:**

None are bigger than mine, so there are no problems.

**DAVE SPARKS,**

**KHOP/MODESTO:**

I'd probably sit the two people down, define their roles, and make sure that their roles don't clash. If one person was considerably more valuable to me as an employee, I'd probably stand behind that person and try to get the other to bend a little. Really bad business, but...

**MARGOT SMITH,**

**WGRD/GRAND RAPIDS:**

The best way is to fire them, but in reality, if they're producing, you kinda have to play babysiter.

**STEVEN STRICK,**

**WBCN/BOSTON:**

I would speak to each person individually and reiterate the need for them to put these differences aside for the sake of the radio station. I'd remind them that we need to work together as a team and that the enemy is outside the radio station...the competition. I'd also encourage them to work out their problems with each other as soon as possible.

**HELEN POWERS,**

**KBER/SALT LAKE CITY:**

I just ignore it and hope it will go away.

**KYM MCKAY,**

**WWW/CHARLOTTESVILLE:**

Well, we don't have feuding egos... we have immatu-

QUESTION OF THE WEEK *continued...*

rity problems, and we haven't quite figured out how to completely handle them yet.

**JAY NUNLEY,  
WIXO/PEORIA:**

You have to point out why they are both wrong and why they are both right. Then the three of you need to sit down and work it out. It is a situation that takes time to mend.

**JOHN COOPER,  
WPYX/ALBANY:**

Ask them to select weapons and head out to the parking lot.

**KEVIN VARGAS,  
KISS/SAN ANTONIO:**

Luckily, I don't have this problem. The only real ego battle is the competition between myself and Virgil over who can hit a baseball farther.

**BRYAN SHAW,  
WROV/ROANOKE:**

Screw you, somebody else'll do it!

**MARK FEURIE,  
WKLO/GRAND RAPIDS:**

We've got a lot of humble people here so if someone gets out of line we beat them down pretty quickly.

**JON BISHOP,  
WVRK/COLUMBUS:**

Fire anybody with an ego!

**FRANK LARIO,  
WDOX/ATLANTIC CITY:**

Go automated! Works for me.

**VINCE RICHARDS,  
KQRC/KANSAS CITY:**

Egos? There's no egos in radio, are there?

**BOB NEUMANN,  
WMMS/CLEVELAND:**

A really big blade, at least 12 inches.

**GUY DARK,  
KQWB/FARGO:**

The best way to keep someone's ego in check is when they look at their paycheck; every two weeks they get a reminder! When you work in Fargo, your paycheck is your reminder.

**SCOTT HAMILTON,  
WFXM/MONTGOMERY:**

We had the CHR, which we've been at war with for years, move into our building and we challenged them to Q-Zar (laser tag). We kicked their asses, but everyone got along after that. To this day, if we have a problem, we'll just set up a Q-zar match between the people! It might not be the most mature thing to do, but it works.

**BRIAN KELLY,  
WPXC/CAPE COD:**

Fire them! You can hire someone who's willing to do twice the work at half the pay. And that person is me!

**PAT MARTIN,  
KRXQ/SACRAMENTO:**

The last time I recall any kind of ego problem at any station I worked at was at KMET/Los Angeles in

1986. Fortunately, we don't have people in those kind of situations now.

**JACK LAWSON,  
WKQZ/SAGINAW:**

The easiest way to deal with it is to be the baddest mother on the block. The best thing to do is let both parties know that no bullshit will be tolerated and then stick by the plan. Staff meetings are great ways for airing these things, provided everybody knows what the rules are.

**LORIS LOWE,  
KLBJ/AUSTIN:**

Everybody needs to sit down, calmly, and talk it out. Problems are usually caused by lack of communication.

**JOE BONADONNA,  
WMMR/PHILADELPHIA:**

I usually let them fight it out and let the ratings tell the story. Some great ideas come from passionate encounters. I don't care where a good idea comes from as long as it comes.

**PAUL OSLUND,  
KAZR/DES MOINES:**

Everyone here is pretty tight so we don't have that problem.

**AL JONES,  
KLAQ/EL PASO:**

We give them each a pistol and let them walk twenty paces, and the best shot wins. Just a little dual in the desert with KLAQ. We used to make 'em wear boxing gloves and go out in the parking lot, but it drew too big of a crowd.

**NEAL MIRSKY,  
WYSP/PHILADELPHIA:**

Egos? On my staff?

**TIM PARKER,  
WNOR/NORFOLK:**

Are you kidding, we've no egos in this building!

**JOHN ROZZ,  
WBYP/FT. WAYNE:**

Egos are a part of the business. The best thing you can do is address the situation straight forward and make them bury the hatchet.

**DAVE CLAPPER,  
WKLT/TRVERSE, CITY:**

Tell 'em they suck, put 'em in their place, and then fire 'em! (Oops... maybe I shouldn't say that... don't wanna give the boss any ideas.)

**SUSAN GROVES,  
WARQ/COLUMBIA:**

I just have to remind them that none of them are as important as me and to shut up!

**ROXANNE McVAY,  
WBYP/FT. WAYNE:**

Don't let the door hit them in the butt!

**RON DRESNER,  
WCCC/HARTFORD:**

Take each party out to lunch separately and have a talk with them. Then have them work it out themselves.

**JAMIE MARKLEY,  
WWCT/PEORIA:**

Do I have to answer that?

**JAVE PATTERSON,  
KFMW/WATERLOO:**

I don't have a lot of egos in this particular camp, so I haven't been posed with that problem.

**GLENN STEWART,  
WHEB/PORTSMOUTH & WGR/MANCHESTER:**

Whatever the problems are, you have to meet them head on and deal with it as directly as possible, do not allow them to bubble under the surface. The other way is to have the two parties work it out and say, "Look, you guys have a problem, either work it out yourselves, or I'll solve it for you."

**CHRIS PATRICK,  
WNCD/YOUNGSTOWN:**

Put a burlap bag over their heads and hit them with a baseball bat.

**KATHY CORO,  
WZXL/ATLANTIC CITY:**

Luckily, since I'm not the PD, I don't have to deal with feuding egos!

**MIKE RAPPAPORT,  
WKLC/CHARLESTON:**

Take away all their toys and send them to their room.

**ROB HECKMAN,  
WYBY/BALTIMORE:**

There's some definite ego checking that goes on, but it's nothing that's really all that bad or all that disruptive. Any problems seem to work themselves out fairly quickly.

**DORSIE FYFFE,  
WOXY/OXFORD:**

You get down, hold hands and pray about it. Hopefully Satan will answer it.

**RICH ROBINSON,  
WHTG/ASBURY PARK:**

Kill them!

**SUMMER,  
WKZO/MYRTLE BEACH:**

My first thought that comes to mind is to put them in sumo wrestling outfits and put them on the lawn. Then make the loser do an overnight.

**JEFF JAGGER,  
WEGW/WHEELING:**

Fire them!

**DAVID MILLER,  
WQCM/HAGERSTOWN:**

Well, that's a chapter, isn't it? There's two sides to every story so you have to hear it all out and play referee to an extent, if there's still a problem then you have to sit them down and say, straighten this out now.

**NEXT WEEK'S QUESTION:**

**How will Seinfeld end, and do you have any promotions planned around it?**

## ROCK REPORT

It was quite a first week for the **Dave Matthews Band's** new album, *Before These Crowded Streets*. Scanning over 422,000 pieces in the first week, the album debuts at number one on the *Billboard* album chart, the first Rock album to do so since Prodigy's *Fat Of The Land* a year ago. When Prodigy entered the chart in the top spot, it sold a mere (comparatively speaking) 100,000 copies. The last Rock album to debut at number one before Prodigy was U2's *Pop*, which sold over 200,000 copies the first week. In addition to the monster sales figures, DMB have received over 3,000 spins on Rock Radio over the last week. Dates for the band's upcoming U.S. tour have been selling out in hours. We'll keep you posted on the rest of the band's tour dates when they become available.

Much like their upcoming U.S. tour in support of *Adore*, **The Smashing Pumpkins** European tour, which kicks off Thursday (14) in Hamburg, Germany, has the band performing in

non-traditional venues. The 17-show, 13-country tour finds the band playing the Guggenheim Museum in Spain, the Tivoli Gardens in Denmark, the Speilbudenplatz - a square in Hamburg's Red Light district, and at the Geneva Harbor in Rome. The band also launch MTV Europe Week with a special performance at Shepard's Bush in London. The band return Stateside in July.

**Aerosmith** were forced to postpone nearly a month's worth of tour dates, after singer **Steven Tyler** tore the anterior cruciate ligament in his knee during a show in Alaska last week. The surgery on Tyler's knee will keep the band off the road for the next three-to-four months. The band hope to make up the dates in late summer or early fall. In other Aerosmith news, as we told you about last week, the band have recorded the first single from the *Armageddon* soundtrack, "I Don't Want To Miss A Thing." The track, a power-ballad, features the band accompanied by a 52-piece orchestra.

There's finally a reason to tune into *Saturday Night Live* this weekend, as **Jimmy Page** teams up with **Puff Daddy** to perform their contribution to the *Godzilla* soundtrack, "Come With Me," which is based on **Led**

**Zeppelin's** classic "Kashmir." Joining **Page** and **Puffy** this Saturday (9) will be **Fuzzbubble**, the first Rock act signed to **Puffy's** **Bad Boy Records**, who backed him on the Rock remix of "All About The Benjamins." "Come With Me" will be the second single and video from the *Godzilla* soundtrack.

After teasing fans with a series of quasi reunions over the past few years, it looks as if the original line-up of **Black Sabbath** - **Ozzy Osbourne**, **Tony Iommi**, **Geezer Butler**, and **Bill Ward** - are getting together to work on a new studio album, and for a fall tour in support of a live album they recorded last December in their hometown of Birmingham, England. The as-yet-untitled live set, slated for a late summer/early fall release, will include two new studio tracks, tentatively titled "Psycho Man" and "Selling My Soul." Osbourne is currently keeping himself occupied preparing for this summer's **Ozzfest** (kicking off July 3), and writing with Iommi at his Los Angeles home.

Surviving Beatles **Paul McCartney**, **George Harrison** and **Ringo Starr**, along with **Yoko Ono** have asked a British High Court to stop sales of the double album, *The Beatles Live! At The*

*Star Club In Hamburg, Germany: 1962*, and are seeking damages against the disc's manufacturers. The late 1962 concerts were recorded by a stage manager at the **Star Club**, before the **Fab Four** had signed with **EMI**. The Beatles initially tried to stop production of the album prior to its original release in 1977, but a judge ruled that the live recordings were of sufficient interest to allow their release. The band's new legal action stems from the recent expansion of copyright laws that offer a higher degree of protection for artists' works.

Former **Red Hot Chili Peppers** guitarist **John Frusciante** has re-joined the band, replacing **Dave Navarro** who left to concentrate his energies on the band **Spread**. Frusciante left the Peppers in 1992, in the midst of their *Blood Sugar Sex Magik* world tour, disillusioned from the band's mega-success and burnt-out from touring. He issued one solo album, the bizarre lo-fi affair *Niranda Ladies And Usually Just A T-Shirt* on **American** in 1994. Frusciante joined the band as a teenager in 1988 (already the band's fourth guitarist), and lent his fiery playing to the '89s *Mother's Milk*, and their 1991 breakthrough effort, *Blood Sugar Sex Magik*. Guitarists **Arik**

**CALIFORNIA COMES TO NEW YORK:** Elektra's **Scott Thomas Band** recently played to a packed house at New York City's **Shine**, performing "Black Valentine" and other tracks from their forthcoming debut album, *California*. Pictured at the post-show hang are (L-R, Standing): Sr. Director Adult Alternative/AAA, **Lisa Michaelson-Sonkin**; Sr. Director of Video Promotion, **Diane Valensky**; McGathy Promotion's **Tony Couch**; STB's **Curt Schneider**; Sr. Director of Rock Promotion, **Al Tavera**; WBAB/Long Island PD/MD **Eric Wellman**; National Manager of College Promotion, **Mike DePippa**; STB's **Andrew Williams**; Sr. Director of Alternative Promotion, **Greg Dorfman**; Coordinator of College Radio, **Chris Elles**; National Director of Alternative Promotion, **Pete Rosenblum**. (L-R, Sitting): STB's **Sandy Chila** and **Scott Thomas**; VP of Rock Promotion, **George Cappellini**; Sr. VP of Promotion, **Greg Thompson**.

ROCK REPORT *continued...*

Marshall and Jesse Tobias were in the fold between the departure of Frusciante and the addition of Navarro in 1993.

As Pearl Jam get familiar with new touring drummer Matt Cameron (who made his public debut with the band last Friday, 5/1, on *The Late Show With David Letterman*), they have added a date in Raleigh on August 31, and turned their July 21 homecoming gig in Seattle into a benefit. A number of tickets for the Seattle show, which go on sale this weekend, will be donated to various AIDS, public school, youth recreation, and Native American programs in the area. Pearl Jam kicks-off the Yield tour on June 20 in Missoula, Montana.

With her "Sneak Preview" tour just completed (her first-ever with a full band) Tori Amos has announced a series of summer tour dates in support of her new album, *from the choirgirl hotel*. Dates are as follows: 7/15, Milwaukee; 7/17, Minneapolis; 7/19, Chicago; 7/22, Cleveland; 7/23, Detroit; 7/25, Toronto; 7/26, Montreal; 7/28, New York; 8/1, Boston; 8/2 or 8, Philadelphia; 8/4, Wallingford; 8/11, Washington, D.C.; 8/17, Atlanta; 9/1, Denver; 9/18, Anaheim; 8/22, Los Angeles.

Life has been good for John Fogerty. Finally coming to terms with his CCR legacy has done wonders for the Roots-Rock legend. His last CD went gold and won a Grammy. Fogerty returns on June 9 with *Premonition*, a new live effort chronicling his 1997 tour. Recorded on a studio soundstage in Los Angeles, the record showcases 18 Fogerty gems including "Proud Mary," "Centerfield," "Who'll Stop The Rain?," "Susie Q," "Fortunate Son," and "Born On The Bayou," among others. The title track is a new Fogerty original. In related news, Fogerty hits the road for a U.S. tour in support of *Premonition*, kicking off on June 12 in Tinley Park,

Illinois. Other dates include: 6/13, Noblesville; 6/15, Milwaukee; 6/18, Clarkston; 6/19, Burgettstown; 6/21, Darien; 6/22, Toronto; 6/24, Scranton; 6/25, Wantagh; 6/27, Holmdel; 6/28, Wallingford; 6/30, Mansfield; 7/2, New York City; 7/3, Atlantic City; 7/5, Saratoga Springs; 7/7, Philadelphia; 7/9, Virginia Beach; and 7/10, Bristow.

With their first new album in nearly six years, *Time Capsule: Songs For A Future Generation*, due out soon, the B-52's team up with The Pretenders, along with special guests Royal Crown Revue for a summer shed tour which hits the following cities: 6/18, Holmdel; 6/19, Wantagh; 6/20, Mansfield; 6/21, Saratoga Springs; 6/24, New York; 6/26, Philadelphia; 6/27, Columbia; 6/28, Virginia Beach; 6/30, Richmond; 7/2, Charlotte; 7/3, Raleigh; 7/4, Atlanta; 7/10, Knoxville; 7/11, Antioch; 7/12, Cincinnati; 7/14, Milwaukee; 7/16, Clarkston; 7/17, Cuyahoga Falls; 7/18, Tinley Park; 7/19, Cadott; 7/21, Minneapolis; 7/23, Little Rock; 7/25, Dallas; 7/26, Houston; 7/30, Denver; 8/1, Concord; 8/2, Irvine; 8/4-5, Los Angeles; 8/7, San Diego; 8/9, Mountain View; 8/14, George; 8/15, Portland.

June 16 is the release date for Ringo Starr's new CD, *Vertical Man*. Reaction among insiders has been extremely positive. Buoyed by the good word, Ringo is taking part in a special edition of VH-1's *Storytellers* special set to be taped at New York's Bottom Line club on May 12. Ringo and band including Eagle Joe Walsh will perform a smattering of Ringo classics plus a few new tracks culled from *Vertical Man*. And in his inimitable style, he'll also no doubt share stories behind the creation of such classics as "It Don't Come Easy," "Photograph," "Yellow Submarine," "With A Little Help From My Friends" and others.

After being dropped from Atlantic Records, not much has been heard from

The official song for the England football team's 1998 World Cup campaign, "On Top Of The World" by England United, will be released on London on May 25. Endorsed by the Football Association, it features Ian McCulloch (who wrote the song with Johnny Marr) with Tommy Scott of Space, Simon

Fowler of Ocean Colour Scene and the Spice Girls. Members of the England squad join the artists on the video for the single, from which royalties will be donated to the SOS Villages charity, which runs homes for destitute and orphaned children in Tunisia, Romania and Columbia, the three countries in England's group in the upcoming tournament.

Chumbawamba release another of the many World Cup-inspired soccer singles this week, "Top Of The World (Ole Ole Ole)," backed by two acoustic versions of "The Best Is Yet To Come" plus "I'm A Winner, Baby" and the *Barnsley 3 Man.Utd 2* mix of "Strike!"

Simple Minds, who launch their European tour by supporting The Rolling Stones in Slovenia on May 28, preview it with the "World Tour In One Night" extravaganza two days earlier. Their performance at the Cyber Theatre in Brussels will be broadcast live over the Internet, starting at 9:00pm Central European Time.

Capitol's emerging Modern Rockers Bran Van 3000 are getting good European airplay with their single, "Drinking In L.A.," out in the U.K. on May 18 after receiving support from *Radio 1*. It's also had early play in Germany, Holland, Sweden, Portugal, Norway and Belgium and will feature on their *Glee* album, which follows on June 1. Another of Capitol's successful new bands, Marcy Playground, will follow the Top 30 U.K. hit "Sex & Candy" with "Saint Joe On The School Bus" on June 22.

*Top Of The Pops*, the venerable U.K. TV chart show which last week underwent its latest on-screen revamp, has the first hits compilation to bear its name (in recent memory, at least) released this week. *Top Of The Pops 1998 Volume One* contains current or recent smash hits by Boyzone, Run DMC, Robbie Williams, Oasis, All Saints and 33 others. It's a joint venture by the BBC and PolyGram, released on the PolyGram TV label.

All Saints scored their second consecutive #1 in the U.K. as the follow-up to "Never Ever," the double-sided "Under The Bridge" / "Lady Marmalade" entered at the top, ahead of Madonna's "Ray Of Light" which came in at two. "Push It" by Garbage arrived at nine, Massive Attack's "Tear Drop" at ten, Queen Pen's "All My Love" at 11, "If" by the Bluetones at 13 and "Jungle Brother" by the Jungle Brothers at 18. Massive Attack kept hold of the #1 spot on the album chart with *Mezzanine* as Catatonia's *International Velvet* rose to a new peak of #2.

**DAILY INSIDER**

**BUSH BEGINNING REHEARSALS FOR NEW ALBUM NEXT MONTH:** Gavin Rossdale has written 19 new songs for Bush to choose from for their much-anticipated third studio album. The band has been apart since their short visit to New York for the Grammys in February. They plan to reconvene at an undisclosed rehearsal space in London during May and June to work out arrangements and perform the songs together for the first time. Bush will then move to a recording studio in July and August to cut the tracks for the album which is expected in the late fall or early spring 1999.

**POPPER PLANS TO PLAY LILITH, MAY TRAVEL HARP-LESS:** Paula Cole won't be the only artist doing double duty this summer playing both the Lilith Fair and the H.O.R.D.E. festival tours. Blues Traveler's John Popper has told the *New York Times* he plans to sit in with the Indigo Girls at some Lilith Fair shows. Popper says, "I'm really into the music Lilith does. I have a repertoire of acoustic songs on my own and I really want to be on Lilith. So I'm going to do it. I bumped into one of the Indigo Girls and I'm going to sit in with them." Popper also revealed that he's considering not having any harmonica playing on the next Blues Traveler album. Even though he is best known for that instrument, Popper says he's going to focus instead on singing and playing guitar. "A lot of people have decided Blues Traveler is a good band backing a harp player," he explained. "It would force us to evolve."

**KIDS GO VEGGIE FOR LINDA McCARTNEY; RANCH BREAK-IN:** While details of a break-in at Paul McCartney's Arizona ranch were emerging last week, in Italy thousands of school children were honoring his late wife with a Linda Lunch. Children in Rome honored the memory of the vegetarian and animal rights activist by dining on potato pizza, tomato and mozzarella cheese salad and pasta with a vegetable sauce. Meanwhile back at the ranch, authorities arrested a Colorado man who jumped over McCartney's gate and took a 30-minute tour while recording it all with his video camera. Police said he also had items taken from the ranch in his possession including a gate opener.

**DRUMMER WANTS MONEY FROM "I DON'T LIKE MONDAYS":** The Boomtown Rats' "I Don't Like Mondays" is still worth \$30,000 a year from radio airplay, but the band's drummer claims he's only getting \$107 a year from it. Simon Crowe, who is now a clockmaker, complained to England's *News Of The World* that Bob Geldof actually owes him over \$334,000 in royalties. He also says Geldof is so cheap he never bought his bandmates a drink in the ten years they were together, and brought his dirty laundry on tour so it would go on the group's hotel bill. "I Don't Like

Mondays" was inspired by the response a 14-year-old girl gave when asked why she went on a shooting spree at a school in San Diego. Crowe, who was left destitute when the Boomtown Rats disbanded in 1986, said Geldof also liked to spank groupies with a silk, oriental slipper, accusations which Geldof has denied.

**COMPILING BOX SET IS INSPIRING STEVIE NICKS' NEXT ALBUM:** Stevie Nicks says the new studio album she'll begin recording when her summer tour is over will be drawn from experiences she had while assembling her new three-CD career retrospective, *Enchanted*. Nicks told the *San Francisco Chronicle* she has already written the title track, "Trouble In Shangri-La." She calls it "a definite concept album like *Bella Donna*." "Going through all these songs for *Enchanted* made me take a walk back through my life and made me think about things I'd forgotten and think about experiences that were pretty strong and really touched and changed my life," she explained. "I look back on all that now and really see what were the good things and what were the bad things — just wisdom you know. I think I'm smarter than I used to be and I don't take anything for granted now." Nicks, who begins her tour May 27 in Connecticut, claims the show she'll be doing will be a story. Nicks feels that because it's "a box set tour, it's okay for me to pick songs that people aren't familiar with." She added, "This will be kind of a special show, I think." As far as Fleetwood Mac, Nicks' prediction is that Christine McVie will get bored and want to work with the band again. "There's no way this band won't play again," said Nicks. "I just know that when the time is right, it will come back together. It'll probably be in two years, two-and-a-half years."

**DON'T FORGET TO TAKE YOUR HAPPY PILLS:** It's been a while since we last heard from Candlebox, but the Seattle quartet are back with their third album, *Happy Pills*, due July 21. Recorded with veteran Rock producer Ron Nevison, the album features new drummer, Dave Krusen, formerly of Pearl Jam, and tracks like "It's Alright," "10,000 Horses," "A Stone's Throw Away," and "Breakaway." Look for the first single at radio in mid-June. Pictured during sessions at The Plant in Sausalito, California are (L-R): Candlebox's Dave Krusen and Peter Klett; Ron Nevison; Candlebox's Kevin Martin.

**BONNIE RAITT:** Jackson Browne will co-headline five concerts with Bonnie Raitt in August. The shows are in Columbia, Indianapolis, New York, New Jersey and at Tanglewood on August 9, 19, 13, 14 and 24. Raitt performs "One Belief Away" on *The Late Show With David Letterman* on May 13. She'll be VH1's Artist Of The Month in July, which includes a *Storytellers* segment and a *Behind The Music* interview.

**MEREDITH BROOKS:** Meredith Brooks released a new single, "Stop," last week and started a U.S. tour May 5 in Dallas. Brooks has a three-week European tour starting on June 17 before she joins

Bonnie Raitt on the main stage of the Lilith Fair tour for six cities in the southeast starting in North Carolina on July 23.

**THE B-52'S:** B-52's recently shot the video for their new single, "Debbie," in Los Angeles.

**THE CRANBERRIES:** The Cranberries plan to start recording their new album in France next month for a fall release.

**INDIGO GIRLS BANNED BY HIGH SCHOOL OVER "SEXUALITY":** The Grammy winning Indigo Girls found out recently that their May 7 concert at a high school outside Columbia, South Carolina, was canceled by the school principal because they are lesbian. The half-hour free concert was to be part of a school talent show and was part of their current three-week tour of high schools and colleges. The tour also includes three high schools in Tennessee. A spokesman for Irmo High School said the principal canceled the appearance because it was "polarizing" the community. "After it was made public that the group was coming, he got a lot of phone calls from parents and others raising various concerns," said Buddy Price. "One of them was the sexuality issue."

**ROD STEWART:** More than a quarter century after it was a hit, we now know that "Maggie May" was one of the first women Rod Stewart had and they made love "for about 15 seconds." That's what the singer shared with the audience in New York recently when VH1 filmed a *Storytellers* segment at the Supper Club. The show will air June 21.

**RANCID:** Rancid release their fourth album, *Life Can't Wait*, next month. The Mighty Mighty Bosstones vocalist Dicky Barrett guests on one track, "Cash, Culture And Violence." The first single, "Bloodclot," is also the name of Rancid singer-guitarist Tim Armstrong's studio in Los Angeles. Later this summer, the band will join The Specials and Heptat on the WARPED tour.

**GRAVITY KILLS:** Gravity Kills frontman Jeff Scheel is under a doctor's care and resting at home in St. Louis after giving himself whiplash during a show in San Antonio, Texas, recently. The band hasn't performed since last year and was doing a warm-up gig for their national tour which kicks off June 3 in New England. Their new album, *Perversion*, will be out June 9.

**MELISSA ETHERIDGE:** Melissa Etheridge and Julie Cypher have announced that they are expecting their second child in November. Daughter Bailey Jean was born on February 10 last year.

**GREEN DAY ADDS HORNS FOR TOUR:** Green Day have added a horn section to their line-up. Brodie Johnson on trombone and Joe McNally on trumpet, both of Voodoo Glow Skulls, premiered this new sound at the first show on Green Day's latest tour last week in Houston. This horn section's short-but-sweet visit ended May 6 in Myrtle Beach, South Carolina, when trombonist Gabe McNair and trumpeter Stephen Bradley became part of the troupe. Their first show will be May 9 in Asbury Park, New Jersey. McNair and Bradley aren't new to the Green Day family, having played on the track "King For A Day" from *Nimrod*.

**BOOK, PHOTO EXHIBIT, FILM FOR MICHAEL STIPE:** An exhibit of Michael Stipe's photos opened May 6 at the Robert Miller Gallery on East 57th Street in New York. The photos are from Stipe's new book, *Two Times Intro: On The Road With Patti Smith*. The exhibit also has drawings by Smith and Polaroids taken by the guitarist in her band, Oliver Ray. In addition to the exhibit and working on the new R.E.M. album, Stipe is also co-producing a movie that began shooting outside New York this past week. Actor Tom Gilroy, who did *Girlstown*, is directing *Spring Forward* from his own script. The indie feature stars Ned Beatty, Liev Schreiber, Campbell Scott and Lili Taylor in a story about a friendship between two men. One is a young ex-convict, the other is retiring from the city's Parks and Recreation Department.

**HENDRIX MUSEUM CLAIMS IT HAS NEWLY DISCOVERED TAPES:** Curators at Experience Music Project, the Jimi Hendrix shrine being erected in Seattle by Paul Allen, claim they have acquired 19 lost tapes by the guitarist at International Auction. The tapes contain four performances from the Band Of Gypsys at the Fillmore East in New York on December 31, 1969 and January 1, 1970. Details and price of the acquisitions were not disclosed. The tapes include approximately 50 live recordings ranging from classics like "Purple Haze," "Foxy Lady" and "Hey Joe" to rarities such as "Auld Lang Syne." The 130,000 square foot Interactive Museum at the base of the Space Needle is scheduled to open next year. An EMP curator didn't say how the newly discovered Hendrix tapes would be used.

**ZOMBIE SETS FIRST RELEASES ON ZOMBIE A GO-GO RECORDS:** Rob Zombie bows his record label in June. The first two releases on Zombie A Go-Go Records will be *Head Shrinkin' Fun* by the southern California surf band, The Bomboras, and the Ghastly Ones' *A Haunting We Will Go-Go*. The titles, at least, appear to live up to the label's motto: The Home of Spook-A-Phonic Monster Mayhem. The releases will be handled through White Zombie's label, Geffen Records.

**EDWIN McCAIN:** "I'll Be," which is sending Edwin McCain's second album, *Misguided Roses*, up the charts ten months after its release, will get a further boost when it is used in the season finale to *Dawson's Creek* on May 19.

**STORYVILLE:** Storyville is previewing tracks from their third album, *Dog Years*, on *Austin City Limits*. The album, produced by Bonnie Raitt's guitarist Stephen Bruton, will be out June 16. Storyville, which includes ex-Double Trouble members Chris Layton on drums and bassist Tommy Shannon, will be on the Blues Music Festival tour this summer with B.B. King, the Neville Brothers and Dr. John.

**DAVID CROSBY:** CPR, the band David Crosby has formed with his long lost son, James Raymond, has signed with Gold Circle Records. The label was started by a co-founder of Gateway 2000 Computers. CPR's self-titled debut album will be out in early June.

**MOODY BLUES:** The Moody Blues take a break from recording a new album for A&M Records for a 27-city

U.S. tour with the first of two shows May 26 at the San Diego Sports Arena. The album won't be out until next year.

**NICK LOWE:** Nick Lowe kicks off an 11-city U.S. tour in San Francisco on June 9. It will be his first American tour in over three years. Opening the show will be Dan Penn and Spooner Oldham. Although they've known each other since writing hits like the Box Tops' "Cry Like A Baby," it will mark the first time they've toured the U.S. as a duo. Oldham's distinctive keyboard playing can be heard on records by Wilson Pickett, Aretha Franklin, Neil Young, and Jewel. Penn's production credits include the Box Tops' "The Letter." The tour will end June 24 at the Supper Club in New York.

**MEGAGOLD:** On the strength of tracks like "Trust," "Almost Honest" and "Use The Man," Megadeth's eighth album, *Cryptic Writings*, has been certified gold, and has become the biggest radio success of their 15-year career. During a recent two-night stand at The Joint in Las Vegas, the band were presented with their gold albums. Pictured (L-R, Standing): ESP Management's Mike Renault; Megadeth's Dave Mustaine; Capitol CEO/President, Gary Gersh; Capitol VP/Rock Radio Promotion, Dave Ross; Megadeth's David Ellefson; ESP Management's Bud Prager. ## THE INSIDE TRACK

WTFX/Louisville likes their promotions to be top-of-mind, or bottom-of-the-horse, as the case may be. The Fox is giving away a very special piece of memorabilia from the Kentucky Derby..Real Quiet shit! That's right, just after Real Quiet won the Derby The Fox's crack staff went into the stables at Churchill Downs and scooped the poop. Half of the horse shit was bronzed and can be won by listening to "TFX, each bronzed clump comes with a letter of authenticity. The Fox is holding on to the rest of the pile in case Real Quiet takes the triple crown. No shit!!... Detroit's K-Rock is playing up the "exclusive" angle on its pre-concert Van Halen party. Only 30 winners and their guests get in. It takes place at "a secret location" the night before VH's May 19 show at The Palace. K-Rock plans to dole out lots of hard-to-get VH collectibles like limited edition CD's, autographed swag, and commemorative t-shirts. Plus backstage passes and front row tickets. And lots of food and drink. "It's a chance to eat, breath and consume Van Halen for a few hours," WKRK's Matt Surena tells *The Inside Track*. Listeners can qualify to win both on the air and at area Harmony House locations... Across the street, WRIF has been named Detroit's official NASCAR radio station. PD Doug Podell says the feedback to Riff's involvement with

this hot growing sport is "overwhelming." So he's giving away tickets to the Michigan race, party passes, flyaways to NASCAR races in other cities, autographed merchandise and memorabilia. Riff is even putting NASCAR news updates on the air and on its web site... KUFO/Portland's **Porkchop** acted as a "human pinata" to celebrate Cinco De Mayo. A crane hoisted the p.m. sidekick in the air as listeners donated a buck to the Oregon Humane Society to take a whack at him... With pressure mounting to attract more non-traditional revenue, companies like **Entercom-Sacramento** are rallying their entire market cluster behind huge events. Active Rock **KRXQ (98 Rock)**, Classic Rock **KSEG (The Eagle)** and Classic Hits **KXOA (The Arrow)** are taking over Cal Expo for *The '98 Big Boys' Toy Show*, a three-day client/vendor extravaganza. 98 Rock's on-air angle is, "if you've ever dreamed about it, you'll see it at The Big Boys' Toy Show." Everything from fine cigars to helicopters, computers, satellite TV demos, cars, spy gear, even live bands. The Toy Show attracts two types of revenue: spot advertising and exhibit space fees. KRXQ APD **Pat Martin** says last year's event was a "huge success," drawing approximately 100,000 during a three-day period.

**WRCX STUFFS THE BUG:** Sure everyone is giving away the new Beetle, but WRCX/Chicago took it one step further by giving away a restored vintage Volkswagen Beetle. Qualifiers had 103 seconds to stuff as many people as possible into the restored bug. After the crushing competition, the vehicle was no longer restored or vintage, so 'RCX also gave away a brand new 1998 Beetle to the grand prize winner. Pictured is WRCX's Eddie Webb (holding the microphone) watching as 17 people cram into the vintage bug.

**PEARL JAMMED:** We told you in last week's Inside Track about WMFS/Memphis' contest where listeners had to sift through 124 gallons of jam to find a single pearl in order to win Pearl Jam tickets. Well, the proof is in the pudding, uh, the grape jam. Here's WMFS' Max Nadley giving the play-by-play of the sticky situation.

**MANCOW'S GREEN DAY:** WRCX/Chicago's Mancow had Green Day perform live during his Madhouse. Green Day's Billie Joe, Mancow, GD's Mike Dirnt and Tre' Cool (L-R).

# LARGO

Interview with Rob Hyman by Sybil McGuire

*Blue Gorilla/Mercury's Rick Chertoff and Rob Hyman (Hooters, Cyndi Lauper, Joan Osborne), longtime friends, discovered a mutual admiration for American immigrant Antonín Dvorák's Symphony, From The New World. The piece was Dvorák's celebration of this country's immigrant culture and its melting-pot of folk influences in music, even before the various genres had names, like Blues, Ragtime, Jazz, Folk, and Rock and Roll. They had both, separately, found themselves drawn to the "Largo" theme, and once they realized how it fed their mutual fascination with American Roots music, the Largo project was born. We talked with Hyman about the inspiration for Largo.*

**How much is the project based on Dvorák's work?**

The inspiration for the album is from one theme of the Symphony, the "Largo" theme. It's a short, familiar melody. Then, Rick Chertoff, who produced the record, and I did some research. We discovered a mutual love. I probably played it on the piano growing up. I never really knew the history of the Symphony. It was just a starting point for us. We want to make it clear that the record is really not Dvorák's *From The New World* Symphony, or the "Largo" theme. That's just the inspiration. The record spins off into its own world.

**In which songs do we find similarities to the "Largo" theme?**

Paddy Maloney decided to write-up his own arrangement working with his harpist, Derrick Bell. We had approached different artists with the melody, just to see what kind of interpretations we got. The Chieftains were very excited to do it. That's "Chieftains Largo." It opens the album and is very true to the original melody. In their hands it sounds like a very Irish, Celtic piece. Then we went to Garth Hudson of The Band for his inter-

pretation. He creates his own world, starting with the melody but he's really creating something quite different. That suggested songs and lyrical ideas, based on what the Symphony was about, taking from the roots of American Folk music. This country is made up of immigrants. We were looking at it from a musical point-of-view. We grew up playing Rock and Roll, that's our foundation, but Folk, Reggae and Blues have always inspired my work, even with The Hooters.

**Both you and Rick came to this project separately? It wasn't a planned collaboration?**

No, it was coincidental and synchronistic, cosmic if you will. I heard it on the radio and Rick and I were working together in Philly and I hummed or played the melody. I said, "What is this melody? It's driving me crazy. I've heard it for many years." He said, "Not only do I know it but at this moment I'm investigating doing a CD-ROM of the Symphony!" They take a particular piece of music and really get inside it. There's a whole series. He's a history buff as well as

a musician and producer. It was an amazing coincidence. And, shortly thereafter I found a vinyl version of the symphony in a thrift shop. I collect antique instruments. We used my antique Hammond organ for this record. I started to accumulate vintage keyboards with the intention of using them and I did use a number of them on this album, for the first time. I had never played the Hammond Chord Organ before. Now I have five of them.

**You can't get that sound anywhere else.**

No, you cannot. With the samplers and synthesizers, and all the things that are out there, it's still one of the most difficult sounds to reproduce because the sound combinations that you can get are infinite. I used a lot of old Lowrey organs, Wurlitzers, and tried to get different sounds.

**This is so ambitious. Sixteen different tracks, many artists, different genre inspirations. How did you get all the people on board?**

A lot of perseverance; we bugged everybody so much. Over the years we'd worked with some of these artists like Cyndi Lauper. We worked with Joan Osborne several years ago, mainly with Rick producing. We had relationships with some of the artists and we knew The Band. I had worked with The Chieftains, and Taj Mahal. We met the Chieftains in Europe when we played at The Wall in Berlin in 1990, with Roger Waters. It was certainly a peak experience for us. Historically and musically. Van Morrison, The Band, and Sinéad O'Connor were also there. We made some calls and tracked these people down. The Chieftains were on tour but managed to get into a studio to do their take on the theme as well as work on "Uncommon Love." They found a day off in Nashville, and we drove down through the Blue Ridge Mountains to soak up more of the country. Then we were in Nashville recording the Chieftains! This whole album is about combinations of sounds and elements.

**What are high points for you?**

There are many. It was a unique experience for all of us. I love the Chieftains, Taj Mahal's contributions, including "Freedom Ride," (he sang it in one take, it was so magical!). I love Garth's interpretation. One of the real high points is Cyndi Lauper's song, "White Man's Melody." It has a very interesting lyric.

**She's been compared to Billie Holliday.**

It was one of the last tracks we got. She was by-far the hardest one to track down. She was pregnant and on the road with Tina Turner, so we were leaving messages in hotel rooms across the country trying to find her. Finally, she flew in from Toronto on a day off, quite road weary, quite pregnant, and she gave us an incredible vocal and even sang on another song called "Cyrus

## "IT'S AN ALBUM"

# LARGO

In The Moonlight." She's a wonderful talent.

**I really liked "Give Me A Stone."**

Thank you. We're big fans of The Band. They sum up this American feeling so well. David Forman wrote part of the lyric. It was a musical track that we had for many years that we never really finished writing. We were in Woodstock working with Garth, doing his piece, and David wrote some lyrics for what became "Give Me A Stone." The next step was to get Levon Helm to sing. It was a fantastic combination. Yes, that's a good one.

**This is going to be rather difficult to take on the road, isn't it?** Yes and no. It was a studio project; getting different people together singing our different songs. It was quite an undertaking the recording, the mixing, and assembling the whole thing. The show at the Bottom Line on May 6 was the first time we'd play some of it live. Obviously it would be difficult to get the whole cast or even most of the cast together for a tour, but we're testing the waters. We anticipate having a lot of fun. Some songs like "Give Me A Stone,"

"Freedom Ride," and Cyndi's piece will be fantastic to perform live. These are also great live players. We'll know more after this week. There's also some interest in filming a concert. If we can't do a tour, maybe we can get everyone together for a series of shows to do some kind of video of the show. We believe in the songs. It's a collection of songs as much as performances. Certainly it would be a hard record to recreate. On the other hand, the music lends itself to performance.

**It's meant to be shared, like all oral tradition.**

It is. Again, with Taj's piece where he was just playing live, we went for that in the studio. These days records get broken down into so many fragments, everything is multi-tracked and double-tracked. You can spend days on just the bass part; we've done it. We know what the technology is. It's fantastic to triple-track the guitar part, but on the other hand...

**What do you do when you have to play it live?**

That's it. The Hooters was very much a live band. We had many, many great shows and I maintain

that the band was better live than on record, as a lot of groups are. You go to a Springsteen concert and you're blown away, and sometimes the records pale in comparison. The record was very performance oriented. We cut basic tracks as a group. We didn't want to break it down into individual elements. We wanted to create a live atmosphere in the studio. The Chieftains were recorded totally live. We set up the mics and they played as a group. It really would translate to the stage.

**This has got to inspire everyone involved to go into the Library of Congress to check out the historical tapes of old Folk music. Has it inspired anyone to call you and say they've found something interesting?**

That's a good question. People are intrigued by it. We did a lot of research; it wasn't just the Dvorák Symphony. We listened to many artists like Aaron Copeland. We listened to Blues and Folk. There's an incredible series coming out by Alan Lomax. It's going to be over 100 CDs on Rounder exploring the whole Roots scene. He went around the world with a microphone and recorded all this great music...

Shaker songs, Sacred Harp singing. There are so many roots and branches of this giant tree. It's amazing, we're just skimming the surface of it ourselves. We approach it as Rock and Roll musicians, trying to make it current. It's not historical or academic. We believe there's so much emotion and feeling in this music. American music is made up of these elements. The album took on a life of its own. It needs repeated listening. It's the kind of record that hopefully you'll get something out of each time you hear it. In this day and age, everything gets reduced to soundbites and fast bits of information. The word "largo" means slow. It's a musical term; it's the slow movement of this symphony. It's against the times, but it's a message that everyone can benefit from. That's clearly what this is about. It's an album. In that way it might be a harder thing to get across to an audience, but the rewards are there if someone just puts a little effort into it and gives us an hour of their time.

**It's a novel, not a short story.** That's for sure.

## PROGRESSIVE ADULT RADIO PICKS

### SINGLES/EPS

#### SMASHING PUMPKINS "AVA ADORE," VIRGIN

This is a tasty single! We think that Progressive stations that aren't afraid to Rock will spin the hell out of this one, even after they get the full. You can also call this the "almost" title track for future theme sets. *Adore*, from the Smashing Pumpkins will be in your hot little hands by the end of spring and they'll be headlining the *H.O.R.D.E. Tour* this year. Need more reasons to play it? Listen again.

#### ROD STEWART "OOH LA LA," WARNER BROS.

"Ooh La La" finds Rod (1998) covering Rod (1973). Puzzled? Well, let us untangle the mental muddle for you... This track, originally recorded with the Faces (if we have to tell you who *they* are, hand in your headphones), is the first of many covers from his forthcoming full-length, *When We Were The New Boys*. The outcome? Sounds like a nineties version of Faces. Your listeners are likely to remember the original and dig hearing it with a new shine.

#### THE B-52's "DEBBIE," REPRISE

Celebrating twenty years as one of the ultimate party bands, The B-52's *Time Capsule: Songs For A Future Generation* is a collection of fourteen of their greatest hits, as well as two newly recorded tunes. One of the new tracks, "Debbie," should easily find many fans this summer. In a time when music seems to be melancholy more often than not, it's nice to hear a song sound so fun. Look for them on a co-headlining, major U.S. tour this June with The Pretenders.

# SINGLES/EPs

**LOUIE SAYS**  
"SHE," RCA

From the album *Gravity, Suffering, Love And Fate*, "She" is the follow-up single to Louie Says' "Cold To The Touch." As one of the more soulful tracks on the album, "She" spotlights the songwriting talents of band members Clark Stiles and Sam Slovick. Overall, this is 21st Century Pop at it's best; smooth and imaginative with sophisticated lyrics that leave more in the mind of its listeners than your average brainless Rock track.

**EMMET SWIMMING**  
"SUNBLOCK," EPIC

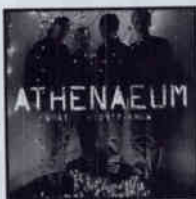

Just in time for the summer, Emmet Swimming offers us "Sunblock." Hands down, this is the ultimate summertime song for Progressive, Modern Rock and Top 40 radio. Blending Ska and Pop for a highly successful combination, "Sunblock" is from the forthcoming album, *Big Night Without You*. How could your listeners NOT identify with lyrics like: "I'm going on a big vacation; 'cause I deserve some fun; got the top down, swimming in the ocean; got the sunblock on." It's a hit, add it now!

**COLA**  
"PROZAC," INTERSCOPE

San Francisco's Cola show enormous promise on their debut single, "Prozac." From the album *Whatnot*, "Prozac" was produced by Andy Wallace and is reminiscent of the very best of R.E.M. and Barenaked Ladies. It's estimated that 12 million people in the United States are currently taking Prozac. Chances are, quite a few of them listen to the radio. Our thought? You'd have to be on the receiving end of a lobotomy not to add this single immediately...it's an across-the-board smash!

**ATHENAEUM**  
"WHAT I DIDN'T KNOW," ATLANTIC/AG

Greensboro, North Carolina has offered up some great bands over the past five years, and Athenaeum is no exception. "What I Didn't Know," the first single from their major-label debut, *Radiance*, contains traditional guitar hooks (kinda like Cheap Trick and The Outfield), harmony-rich Pop, and irresistible melodies throughout. They've built a major reputation in the southeast based on their electrifying live shows, and they should not be missed when they perform in your town this year.

**FIVE EASY PIECES**  
"LOVERS," MCA

Produced by Don Smith (The Rolling Stones, Cracker), Five Easy Pieces' self-titled, debut album is an ambitious collection of ten great Rock songs. Hailing from Los Angeles, the band combines Southern tempo, big guitars and a huge chorus on their first single, titled "Lovers." The outcome is bound to be an instant favorite of the Adult format, and we wouldn't be surprised if this track crossed over to other formats, including Modern and Rock.

**OUTCRY**  
"ON & ON," EUREKA

For seven years, New Jersey's Outcry crafted their Pop/Rock sound by touring the east coast and releasing their own records, all before signing to Eureka Records in 1997. Their label debut, *This Side Of Anywhere*, is a flawless collection of twelve tracks highlighting a vigorous grasp of melody and songwriting (particularly on the first single, "On & On") that suggests Outcry is a band destined for big things in many formats.

# ALBUMS

**TORI AMOS**  
from *the choirgirl hotel*, ATLANTIC/AG

Tori Amos has put out what must surely be her most accessible release to date! *from the choirgirl hotel* is packed from beginning to end with interesting sonic moments, including her beautiful, if occasionally quirky, vocal presentation of highly personal and revealing poetry. We liked a lot on this album, and we're hearing very positive things from reporters who've been spinning the first single with gusto. Namely: hot phones. Check out: "Black-Dove...", "Raspberry...", "Jackie's...", "Liquid...", "She's...", and "Playboy..."

**LENNY KRAVITZ**  
5, VIRGIN

Lenny Kravitz's fifth outing is a strong collection that at times has more in common with traditional Funk than his past Lennon-esqe soundscapes and Page-styled Rock riffs. Granted, Kravitz has always drawn from a broad pallet for inspiration, and at times his work has been overly compared to the very best of the aforementioned artists, but 5 finds the dreadlocked singer-songwriter striving for his own identity. Songs like "If You Can't..." find Lenny sounding just like, well, Lenny...and we love it. "Fly Away" is a gem, as is "Thinking..." "It's Your..." "You're My..." and "I Belong..."

**GARBAGE,**  
VERSION 2.0, ALMO

Garbage. It's not. It's also not for everybody on the panel. But do yourself a favor and listen to their second album because it's very, very good. O.K., so a certain member of the Progressive department here at the magazine may have no objectivity at all about the band (and we know who she is, don't we?). We think that you should listen to it to experience the incredible blend of Techno effects and beautiful vocals by Manson. And because Modern's not the only format with gonads. Hear: "I Think..." "Medication," "Dumb," and "Wicked..." Play: "Special," "The Trick..." "Push It," and "You Look..."

## SEINFELD HAS BEEN LISTENING TO THE RADIO

by John Bradley, SBR Creative Media

*The first portion of this article originally appeared in **fmqb** in April 1996. With the final episode of *Seinfeld* approaching, we thought it would be appropriate to look again at what radio and *Seinfeld* have in common.*

What does your radio station have in common with the TV show *Seinfeld*? While logging more frequent flier miles on United Airlines recently, an episode of *Seinfeld* was presented as the in-flight entertainment, which included a behind-the-scenes visit with the cast and creators. I was struck by how many of the reasons for *Seinfeld*'s success are also qualities for success in radio.

There is a wonderful sense of camaraderie on the set. The cast of *Seinfeld* genuinely enjoys working together and being around each other. Their off-camera chemistry shines through on-camera. And it's not just the actors that click. The stars, the technical staff and writers all have fun practicing their craft. They all share the same goal of producing a winning, funny and popular TV sitcom. Just as on *Seinfeld*, what goes on internally at a radio station is usually reflected on the air. If morale is low, there's no spark on the air. If the staff gels, you'll hear the magic between the songs.

The *Seinfeld* staff works long hours. They are committed. They know that in order to produce a product of such high quality that they must take more time than they would to produce the average TV show. And when the team is cohesive and having fun, it's easier to spend time together. Every successful radio station that I know of has people that don't watch the clock. They do "whatever it takes" to be the best no matter how long it takes to get the work done. For these people, producing good radio is part of *who they are* and is what they most enjoy doing. As Jason Alexander (George) says, "if you like what you're doing, other people will like it, too."

When we see an episode of *Seinfeld*, what we're watching is the combined effort of a multitude of talented people, from on-screen actors, writers, producers, and directors to countless support and technical people. You can't have a great TV show with just a few good people. You need outstanding talent in every corner. The same is true for a great radio station. Set your standards high and let the entire staff, from the promotion person to the part-time DJ, know that they each play an important role in the success of the station. Sure, Jerry Seinfeld is the key player in his show, and your morning show is key to your

station. But without the other cast members and behind-the-scenes people, Jerry would be just another stand-up comedian, and your morning show would be just another time slot.

At the root of *Seinfeld* lies strong writing. Content. Their ideas come from a shared spirit and vision. They often boast that *Seinfeld* is "a show about nothing" but in reality *Seinfeld* is a collection of observations and pokes at the common, little things of everyday life. What viewer can't relate to something in every episode of *Seinfeld*? The writers find little things in life to parody and make viewers say "Oh, I've done that" or "I've been with a person like that." In radio, great air personalities have a knack for finding ordinary things in life and incorporating them into their presentation. This is what program directors are talking about when they preach *relatability*. DJs must go beyond announcing music, reciting liners and reading weather forecasts. They must relate to their listeners who, very likely, are leading lives very much like theirs. DJs must observe the world around them and how it relates to their listeners. Talk about the things you have in common.

If we were to write a job description for a radio air personality using *Seinfeld* success qualities, it would be — half writer, half actor. DJs do not have the luxury of having their shows written for them. They must come up with their own material. No one else is going to do that for them. So, they must be their own creative writer. Prepare for their shift, then, execute their script in an entertaining, enthusiastic fashion.

Every episode of *Seinfeld* has great moments. There isn't one show that's considered a dud by its staff and creators. Sure, they are filling 24 minutes a week for four months a year while radio is filling 24 hours a day 365 days a year, but radio personalities must strive to have great moments every time they are on the air. And program directors must create great moments in every day's programming. A full day of Selector or Music Master-approved songs isn't enough.

*Seinfeld*, like other great classic sitcoms from *M\*A\*S\*H* to *Mary Tyler Moore*, has great characters. When we watch, we don't get the feeling that we are watching actors playing a role. We feel that we are watching real people doing real jobs. They are people we can identify with. Good air personalities and TV characters can function the same way. We're not listening to announcers, we're listening to real people who happen to be on the radio. When the connection is made, we feel that we know them. Imagine the *Seinfeld* script performed by other actors! People make the show what it is just as people make your

radio station.

Tenacity and perseverance pay off. It took *Seinfeld* more than one season to achieve success. It wasn't a highly rated program at first. It took time, consistency, and a committed NBC promotion effort for it to catch on. Was the cast and crew dejected at the start? No. While *Seinfeld* was and is slightly ahead of the curve relative to "regular" TV standards, it's not too hip for a mass audience. The cast knew that they had a superior program and they enjoyed making it from the start, even before the show became a household name. In media — whether it be radio or TV — very few "overnight" successes ever attain the status or durability of those that are grown and developed over time with passion, commitment, and a cohesive team. Obviously, the dedication and enthusiasm of the *Seinfeld* team effort has paid off.

What does it take? A staff that enjoys working together. Doing whatever it takes to get the job done. High standards expected by everyone on the team. Relatable content. Frequent, above average, entertaining moments. Personalities that connect with the audience. Patience and dedication. Those are *Seinfeld*'s qualities of success. They are also the qualities of successful radio stations.

UPDATE: Since this article appeared two years ago, *Seinfeld* has come to an end. Now, looking back through the entire nine years of *Seinfeld*, we can see that minor characters were as memorable as the four main players. Radio, especially morning shows, can utilize minor characters and guests more effectively to stand out from the regular DJs. Don't expect the main one or two DJs to carry the weight of the show. Use other voices and other people that add contrast to the DJs.

Also through the nine years of *Seinfeld*, the actors did many side projects such as films, stand-up, books and commercials. But it was always *Seinfeld* that came first. Focus. In today's radio environment, PDs are pulled in many different directions with many distractions. The sound of the station and the on-air performance must come first and foremost. Focus.

Finally, we look back and notice that even the weakest *Seinfeld* episodes had one memorable moment. DJs should strive for at least one memorable moment during a shift, no matter how average the shift may be.

Sayonara *Seinfeld*!

**WCLZ/Portland APD/MD Kim Rowe** has left the station. **Bob Angel** has been named the new MD. You can reach him at (207) 725-5505.

**WIVI/St. Thomas PD** and afternoon Rock and Roll Diva, **Kristine Simoni**, is leaving paradise for good shopping. We warned her about the severe climate change to no avail. The lucky station is **KFXJ/Boise**, where Simoni will co-host the morning show with PD Kevin Welch and serve as the station's promotion director, beginning June 1.

Does this leave an opening at WIVI? We hear they'd like to promote from within, or from among the Rock's denizens. Killer moving expenses, otherwise.

It looks like we'll have to bid **WRRX/Gainesville** a fond farewell after this Thursday, May 7, when the sale of the station is final and the new owners move in. The station has been cleared for a frequency shift (97.7-97.3) and the power will be upped from 6-50K. According to the station's cur-

rent PD and all around good guy, **Jerry Gerard**, the only person that the new owners have spoken to about staying on is the receptionist.

Non-commercial outlet **KUWR/Laramie, WY PD/MD Don Woods** has broken his leg. Now you know why it may have been difficult to contact him! Send get-well notes to: 16th & Gibbon, Laramie, WY, 82071.

Two stellar gems from Black Top! W.C. Clark's album, *Lover's Plea*, is funky Soul Blues. Clark is known as the "Godfather of Austin Blues" for good reason. Clark's matchless blend of

Memphis Soul and harder-edged Texas Blues give *Lover's Plea* a special sound. This album is a veritable gold mine of goodies if your playlist could use a dose of scorching Soul Blues. If you want to get seriously down-and-dirty, you'll find the right track here too. We liked: "Do You Mean It?," "Someday" and "Pretty Little Mama." Henry Butler's New Orleans piano Blues will make you crave more! This is one of the most innovative and remarkable Blues albums we've heard. Butler's

blend of Jazz, R&B, and his own avant garde touches make this a totally unique project. Butler has already established himself in the Jazz world as a bold new innovator and this album will only increase his profile. You'll have to pick your own tracks, because we liked them all.

Don't let the album title fool you, it's not really a Blues album. Bap Kennedy's *Domestic Blues* has a more Americana feel than an R&B flavor. Steve Earle's guitar playing complements Kennedy's vocals so naturally that you'll be singing along by the time you get to track 2. This is an album influenced by traditional Roots music with updated lyrical sensibilities that make it perfect for Progressive outlets. You'll dig: "Domestic Blues," "Unforgiven," "Vampire," "Mostly Water," and "My Money."

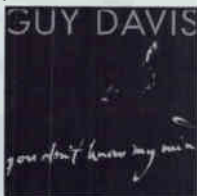

You can stop wondering what Medeski, Martin & Wood have been doing! The band plays with John Scofield on his new Verve release, *A Go Go*. His new album is a solid release of original Jazz compositions. This is a seriously cool collection, with a more modern slant, from judicious use of Scofield's incredible guitar skills. Not Be Bop or smooth Jazz, this is a great bunch of tunes for stations with a diverse and eclectic attitude that includes modern Jazz. Check out: "A Go Go," "Jeep On 35" and "Green Tea."

While actors like Don Johnson, Leonard Nimoy and Bruce Willis have thrown their hats into the musical ring with less than impressive results, Kevin Bacon, along with brother Michael, scores big time with their debut CD, *FOROSOCO* (Bluxo). Dubbing themselves *The Bacon Brothers*, the duo draw upon Folk, Rock, Soul, and Country influences (hence the album's title), for a breezy, melodic sound that's at home around a campfire or in a smokey bar. Highlights of the set include the autobiographical "Boys In Bars," "Old Guitars" and "Grey-Green Eyes."

With a gruff, whiskey-soaked voice that brings to mind Howlin' Wolf and Tom Waits, and a bounty of songs that fuse delta-drenched Blues, smooth R&B and Roots Rock, Guy Davis has earned a reputation as one of the most important young voices in Blues. Comparisons to peers like Keb' Mo' notwithstanding, Davis is carving out a path all his own, and on his new album, *You Don't Know My Mind* (Red House), Davis shows that all of the praise heaped upon him has been well-deserved. Highlights include the grinding Blues of "Po' Boy," "Best I Can" and "Georgia Flood."

Through a batch of releases for the Hightone label, and countless live shows the world over, Big Sandy and his *Fly-Rite Boys* have established themselves as one of the most entertaining acts in the universe, with their high-octane mix of everything from Swing to Bluegrass, to Hillbilly to Jazz. Here for the first time, Big Sandy takes a breather and lets *The Fly-Rite Boys* step out on their own with their new "solo" longplayer, *Big Sandy Presents The Fly-Rite Boys* (Hightone). Combining a heaping helping of instrumental treasures, with the odd vocal number from the *Fly-Rites* thrown in for good measure, *Big Sandy Presents...* is a must for any fan of the band, or anyone who grooves to the nostalgic sounds of acts like *Squirrel Nut Zippers* and the like. Our faves include "Rosetta," "Hit And Run" and "Laguna Sunset."

For some 28 years, Roz and Howard Larman have presented *FolkScene* on KPFF/Los Angeles, becoming legends of American Folk radio in the process with their passion and commitment to Folk and Roots music. Out now from Red House Records is *The FolkScene Collection: From The Heart Of Studio A*, a 13-track collection showcasing some of the best performances from the past 10 years of *FolkScene*. Sporting pristine audio quality, the tracks featured on *The FolkScene Collection* are nothing short of classics. Among the standouts are Dave Alvin's gritty reading of "Barn Burning," Lowen & Navarro's "Writing On The Wall" and Dar Williams' "This Was Pompeii."

Echoing the likes of everyone from *The Red Hot Chili Peppers* to Elvis, *Brethren Fast* are fast becoming the stuff of legend in their native Colorado, selling over 2,000 copies of their debut CD, *Sideburns From*

Hell, and being voted Best Rock/Pop Band in Colorado by the readers of *Westword* two years running. Their new CD, *What In The Hell?* (Knock Ya On Your Ass) is a sonic headrush of hardcore Funk, tempered with the band's cheeky hillbilly side. If **Southern Culture On The Skids** took a ride on George Clinton's Mothership, it would probably sound a lot like this. From the opening Funk frenzy of "Coupe DeVille" to the closing shot of "Please," there's nary a clunker in the bunch. For more info, call **Krista Koehler** at From The Roots Management at (303) 652-1700.

Canadian singer/songwriter and five-time Juno Award nominee **Stephen Fearing** has inked a deal with Red House Records. His first release for the label, *Industrial Lullaby* (his most recent Juno nominee), will hit stores in July. A U.S. tour will follow.

Catch the pride of New Orleans, **Royal Fingerbowl**, as their never-ending touring continues: 5/12, New York; 5/13, 5/20, Philadelphia; 5/26, New York; 5/27, Philadelphia; 6/3, Philadelphia.

Word is that the next round of releases from the vaults of the BBC will be a series of **Pink Floyd** sessions, from both the **Syd Barrett** and **Roger Waters** era, dating from 1968 to 1974. Bootleg versions of varying quality have long been available, but this would mark the tape's first official release. There has also been discussion of remastering and releasing a 1974 tape featuring Floyd performing their classic *Dark Side Of The Moon* in its entirety. In other Floyd haps, **David Gilmour** has raised the ire of England's National Veterans Association concerning a May 10 airshow in Essex, England, sponsored by the aviation company he owns,

**Intrepid**. The company will be re-creating a raid on a Vietcong base. The NVA contends that the faux war enactment, featuring planes, foot soldiers and choppers, will make an insensitive mockery out of a serious matter.

Koch Records reissues Grammy winner **Lucinda Williams'** self-titled 1988 *Rough Trade* effort on June 16. The re-issue includes six bonus tracks, two of which were never available in the U.S. before. The original 18 tracks were remastered for the CD, which features new liner notes written by Lucinda's father, Miller Williams. Her long-awaited Mercury debut, *Car Wheels On A Gravel Road*, will also be out in June.

Seems that a track off **Eric Clapton's** new album *Pilgrim*, entitled "Sick And Tired," has angered women's groups across the country. The track, which features the lines "I'm gonna get me a shotgun, baby, Keep it stashed behind the bedroom door, I may have to blow your brains out, baby, then you won't bother me no more," has women's groups labelling the legendary guitarist as a misogynist. "This is 1998. Hate speech against women or people is not okay," Stacey Kabat, a self-professed Clapton fan and executive director of Peace At Home, a Boston shelter for battered women, told E! online. Kabat, along with other women's group leaders, have petitioned Clapton and his label, Reprise, to re-issue the track with amended lyrics and donate some proceeds to charity. Although Clapton himself has yet to comment on the controversy, he is not performing "Sick And Tired" on his current tour.

In support of his latest LP, *Dig My Mood* (Upstart/Rounder), seminal Brit Pop-smith **Nick Lowe** is head-

ing Stateside for the following dates: 6/9, San Francisco; 6/10, Los Angeles; 6/12, Austin; 6/13, Dallas; 6/15, Minneapolis; 6/16, Chicago; 6/18, Atlanta; 6/20, Washington, D.C.; 6/21, Philadelphia; 6/23, Boston; 6/24, New York.

Philly Modern AC outlet **MAX 95.7 (WXXM)**, is the exclusive radio promotional partner for PNC Bank's Appel Farm Arts & Music Festival, taking place Saturday, June 6 in Elmer, N.J. Running from noon to 8:00 p.m., the festival features a diverse roster of acts, including **Indigo Girls, Iris DeMent, Grey Eye Glances, Moxy Fruvous** and more. For info on the festival, call (800) 394-1121.

Catch **Bruce Cockburn** on his summer tour in the following locales: 6/13, Philadelphia; 6/16, Northampton; 6/17, Portland; 6/18, Boston; 6/19, Concord; 6/21, Detroit; 6/24, Washington, D.C.; 7/4, Sudbury; 7/8, Bayfield; 7/9, Fish Creek; 7/11, Winnipeg; 7/16, Dawson City; 7/19, Anchorage; 8/13, Saint John; 8/15, Yarmouth; 9/1, Petaluma; 8/2, Saratoga.

A South Carolina high school principal has nixed a performance that **Indigo Girls** were supposed to give at the school's talent show, due to complaints from parents. The grammy-winning duo were slated to perform at Irmo High School in Columbia, S.C. this past Thursday, May 7, but the principal canceled the show when parents in the community expressed concerns about the duo's sexuality, and about having a Rock and Roll act play at a school assembly. The principal feared the protests would polarize the community, so he pulled the plug on the show. Indigo Girls are currently on a U.S. tour of colleges and high schools.

As synonymous with Philadelphia as the cheese-steak and the Liberty Bell is the Mellon Jazz Festival, which takes place this year from June 12 to June 21, and honors legendary bassist/composer, and Philly native **Stanley Clark**. Other performers at this year's festival include the smooth tones of **Al Jarreau, Boney James** and **An Evening Of Guitars, Saxes and More** with the likes of **Jonathan Butler** and **Richard Elliot** among others. For complete info on the Mellon Jazz Festival, call (610) 667-3559, or check them out on the Web at [www.Mellon.com](http://www.Mellon.com).

**The Beatles** are getting back together...the surviving members are trying to recover the master tapes of a live recording made early in the band's career. According to reports, **George Harrison, Paul McCartney, Ringo Starr** and **John Lennon's** widow, **Yoko Ono**, have asked a British High Court to stop the sales of a double album titled *The Beatles Live! At The Star Club In Hamburg, Germany: 1962*, and are also seeking damages against the manufacturers of the disc. The concerts were reportedly recorded by the stage manager of the Star Club in late 1962, who then gave them to Ted Taylor, a frontman for one of The Beatles opening bands. In 1977 The Beatles tried to stop the production of the release, but a judge rules that the tapes were of sufficient historical interest to permit their issuing. The current legal action may have more success due to the recent expansion of copyright laws that offer artists more protection for their works.

# METAL MONSTERS

**BAD RELIGION**  
**NO SUBSTANCE, ATLANTIC/AG**

Bullshit, this album's got plenty of substance! Unlike most Pop-Punk combos, who are more content to write about relationships and stuff, **BAD RELIGION** temper their music with thought-provoking lyrics, but back it up with enough punch and catchy songwriting that their message goes down easily. Forget the fact that BR's been around since **GREEN DAY** were in diapers, just listen to the record. A lot of

you already have - the band's single, "The Biggest Killer In American History," rises to 28\* this week. *No Substance* was produced by **TESTAMENT/PRO-PAIN** producer **Alex Perialas**, who lends a bit more bite to the proceedings. This year, the band will be headlining the Warped Tour, which could catapult them past the cult status they're had for the last decade. While "Shades Of Truth" is happening at Rock and Modern Rock, there's still stuff that we can claim as our own. "Hear It," "Sowing The Seeds Of Utopia," "Mediocre Minds," "At The Mercy Of Imbeciles," and "The Same Person."

**(HED) PE**  
**SERPENT BOY EP, JIVE/SILVERTONE**

It's time to shake your long-haired, leather clad Metalhead booties to the **JUNKIE XL**, **MACHINE**, and **Tom Lord-Alge** remixes of "Serpent Boy." **(hed) pe** fuses Metal rhythms and Hip-Hop vocal stylings and the result is at once fresh and tight, and could without a doubt summon forth moshers in pits from LA to NYC. While the album's been off our Metal charts for a while, this five-song EP should have it

scaling back up the charts in no time. The "Rock Da Beat Mix" of "Serpent Boy" is rife with scratching, sampling, and production, but it still maintains the brutal Metal edge of the guitarwork at the end. This EP is a bit left of center to be categorized as straight-up Metal, but damn, it sure is fun to move to. So, awaken the sleeping wallflowers in your audience with "Darky" and the previously unreleased "Epilogue."

**FILTER**  
**"ONE," ELEKTRA/VEEG**

**FILTER**'s had a lot of success with movie soundtracks. Long before their debut album, *Short Bus*, came out, "Hey Man, Nice Shot" was featured on the *Tales From The Crypt: Demon Knight* soundtrack. "Trip Like I Do," the band's collaboration with **THE CRYSTAL METHOD**, was an integral part of the *Spawn* soundtrack and movie. Now, Elektra has chosen the band's high-octane take on "One" to spearhead the soundtrack for the highly-anticipated *X-Files* movie. Yes, this is a cover of a **THREE DOG NIGHT** song and no, you don't have to worry about sharing this version with the crusty Classic Rock station in town. The band has fully Filter-ized the song, and it's almost completely unrecognizable from the original. The plot of the movie might be heavily guarded, but the first single from the soundtrack is yours for the taking. With no release date for the next Filter album in sight, you should be all over this song like Mulder and Scully on a conspiracy theory.

**SPOCK'S BEARD**  
**THE KINDNESS OF STRANGERS, RADIANT/METAL BLADE**

On their third album, titled *The Kindness Of Strangers*, prog-rockers Spock's Beard tend to have more in common with King Crimson than King Diamond. Granted, their mixture of Art-Rock changes, atonal Jazz keyboards and glossy harmonies may not be for everyone in the Metal panel, but stations and block shows that have had success with Dream Theater or Fates Warning should most certainly give this one a listen. Led by singer-songwriter Neal Morse, the highlight on Spock's Beard is "In The Mouth Of Madness," a scorching cut fueled by Queen-like verses and breakneck time shifts. In addition, listeners will discover "Strange World" and "Harm's Way" have an edge that make them candidates for Metal airplay as well. For information on the band, call Metal Blade's Joey Severance at (401) 831-2960; or, check out their Web-site at: <[http://www.altura.com/jordanz/spocks\\_beard](http://www.altura.com/jordanz/spocks_beard)>.

# STUFF YOU SHOULD KNOW...

\* **SEPULTURA**'s finally found a new singer, **Derrick Greene**. Greene was previously in **OUTFACE**, a band whose members have gone on to play in **FILTER** and **CIV**. Sepultura's next album, *Against*, is due out sometime this fall.

\* **KoRn**'s new album, *Follow The Leader*, will feature a special guest on their cover of **Cheech & Chong**'s "Earache My Eye." None other than **Cheech Marin**! Cheech, one half of the stoner duo, is currently co-star-

ring with **Don Johnson** on TV show *Nash Bridges*. Also guesting on the album is **LIMP BIZKIT**'s **Fred Durst** on a tune called "All In The Family."

\* **SOULFLY** will be coming out with an EP for "Umbabaraumba" featuring remixes of the song from **Moby** and **JUNKIE XL**. Moby, who's a fan of the band, is actually doing the remix for free. Unfortunately, there's no U.S. release date for the remixes, which are scheduled to be released as European B-sides later this year.

\* **Pamela Anderson** has won an award at Cannes! No, it wasn't for *Barb Wire*, and it wasn't the Cannes Film Festival. Anderson took top honors for "Best Female Actress In An Adult Feature" at the "Hot d'Or Film Awards," which will take place in Cannes, France on the 18th. As you may have seen, Lee's exploits were captured on tape in the now-notorious sex tape *Pam & Tommy Lee: Hardcore & Uncensored*. Hey, she had our vote for best actress all around!

**STUFF YOU SHOULD KNOW** *continued...*

\* **QUIET RIOT** and **SIR MIX-A-LOT** have teamed up to cut a new Rock/Rap version of "Cum On Feel The Noize" for the Seattle Supersonics' playoff run. Apparently, Sonics player **Sam Perkins** noted the fans would pound the floorboards at games so hard that players could "feel the noise," spurred the musicians on. The single is out on local label Will Records, with some of the proceeds going to a local pediatric AIDS charity.

\* Spandex check! Hitting the stores on June 16 are the next two '80s Metal compilation CDs from Rhino. *Youth Gone Wild: Heavy Metal Hits of the '80s, Volume 4* features out of print tracks from **EVERY MOTHER'S NIGHTMARE**, **PRETTY MAIDS** and **HEATHEN**. Other tunes on the 16-track volume include **SLAUGHTER**'s "Up All Night," **WARRANT**'s "Down Boys," **TNT**'s "10,000 Lovers (In One)," and **STRYPHER**'s "To Hell With The Devil." The second disc was designed more with women in mind. *Heart Beats: Love Bites: More Romantic Power Ballads* is the latest project from the Rhino Women's Product Development Team. You're gonna want to break out your lighter for this collection, which includes **POISON**'s "Every Rose Has It's Thorn," **MR. BIG**'s "To Be With You," and **CINDERELLA**'s "Nobody's Fool," among others.

\* Apparently, reunited rockers **UFO** have broken up again. The Metal Detectors heard that during a show in Japan, guitarist **Michael Schenker** walked up to a microphone, said "I apologize, but I just can't do this anymore." The band had to cancel the rest of the shows, and supposedly, owe a lot of money to disappointed fans.

\* **Geffen's Dennis Blair** has not been laid off, as previously reported in other trade magazines (alright, it was this one). Blair has been retained by Geffen as an independent to do Metal promotion. He'll be working out of **SNOT**'s offices and you can reach him at 310-659-1593. His fax number is 310-659-1480. He'll be continuing to work **PITCH SHIFTER** and **SNOT**'s forthcoming EP *Get Some More*, which will be hitting your desk in July.

\* We hear that **FEAR FACTORY** has teamed up with **Gary Numan** to do a cover of his breakthrough hit, "Cars." The song will be used as a b-side. On a related note, **One Of Us** went to see Numan play last week, and believe it or not, he rocked!

\* **WKLQ/Grand Rapids** Metal show will be off the air for the next few weeks due to special programming. Reporting will begin again on June 2.

\* **WKSM/Ft. Walton Beach's** "Metalworx" is starting to flourish, as word gets out about the show. However, Metal Director **J.C.** is looking for giveaways, specifically posters, T-shirts and CDs. Give him a call on Wednesdays from 3-4 Central at 850-243-7676.

**SUPPORTING THE HOMELESS, NYHC STYLE:** Hardcore met Hare Krishna recently when *Both Worlds* frontman **John Joseph** and the **Prabhupada Sankirtan Society** teamed up to help New York's homeless. The charity event took place on March 29, featured performances from **Absolute Bloom**, **Biohazard**, **Both Worlds**, **Burn**, **Civ**, **Fahrenheit 451**, **Madball**, **Maximum Penalty**, **Sick Of It All**, **Sub-Zero**, **25 To Life** and **Vision Of Disorder** as well as an ex-Cro Mag member jam. The event raised \$12,000 for the Sankirtan Society, which has been feeding the needy since 1988. (L-R front): **Biohazard's** **Evan Seinfeld**; **Madball's** **Freddie Criclen** and **Both Worlds's** **John Joseph**. (L-R middle): **CIV's** **Anthony Ciovorelli**; **Sick Of It All's** **Pete Koller**; **Krishna Food Bank** leader **Kaprinde Swami**; **Roadrunner's** **Jen Meola**; **V.O.D.'s** **Tim Williams**; **Roadrunner's** **Vicki Little** and **Shutdown's** **Mark Scondatto**. (L-R back): **RUSH** Management's **Scott Koenig**; **Biohazard's** **Danny Schuler**; **Krishna** Icon **Kula Shakar**; **Roadrunner's** **Paul Resta**; **Both Worlds's** **AJ Novello**; and **Roadrunner's** **Tom Tighe**.

\* **KRVM/Eugene** Night Time Music Director **Steve Coy** dropped us a line to let us know that his official title is the **Night Time Music Director**. If you have any concerns about this, direct all your calls to the **Night Time Music Director**, **Steve Coy**, on Tuesdays between 10a.m. and Noon, PST at 541-683-1723.

\* **CILQ/Toronto** Metal Director **John Moran** is doing a Thursday night club gig. Is your label's band gonna be up in the Toronto area and looking for a band to play? Give John a call at 416-221-0107. He's also interested in doing CD release parties, so get in touch with him.

**KISW, SEATTLE  
MD-CATHY FAULKNER:**

Lots going on in Seattle. First of all, The Sonics are looking fine. I went to L.A. to hear the new album from Seattle's own Candlebox. They nailed it with "Happy Pill!" Candlebox will be reigning Rock Radio in no time. Look for them at McGathy and you'll know what I'm talking about. Seattle's own Goodness will be opening some Pearl Jam dates. Their second full-length album will be coming out later this year on Immortal/Epic. If you would like their EP now, don't hesitate to call or e-mail, I'd be happy to get you one. And, Seattle's own Second Coming is about to ink a major deal. They are the total package! Look for their debut later this year. Trust me, you'll WANT to give it a listen, then a slot.

**WBUZ, TOLEDO  
MD-MARIELLE SALAS:**  
GREETINGS FROM THE ULTIMATE BUZZ! So much has been

going on lately, where do I start? First of all, good luck to Mike Tomano and WYKT's new Alternative format. I saw Mike at my birthday celebration in Chicago a few weeks ago, and he has high hopes for the new ownership of WYKT. It has to be better than it was (seriously!), and it was great to hear from all my former colleagues and share the festive spirit of the change in Chicago. Second, thanks to Chino, of The Deftones, for the awesome interview before the sold-out show last week. Chino is surely the perfect example of a great guy that has put his soul into creating the next era of Rock history. Thanks to Chad for bringing him by, and for the CDs. I think it makes up for the Buzzband Showdown shows that "slipped his mind" (love you, Chad!). Thirdly, how amazing it was to see A&M recording artists Cold at our low dough Buzz show! Cold is amazing on the radio, and even more amazing live. As long as I live I will support this band. They are great guys, too, and really doing their best to get your attention and support of their band and new album. The glass city is definitely alive with the sound of music these days. We've got Coal Chamber and Sevendust (I cannot wait!) next week, plus Gov't Mule and Kenny Wayne Shepherd this week. Then, there are tons of

shows scheduled for summertime. My prediction for the big summer hit this year is the new Fastball tune, and Savatage kicks ass! Thanks a million times to my wonderful reps who are being so cool about judging our Buzzband Showdown. Check out the new Monster Magnet if you love to rock, and don't be afraid to sneak a peek at those old pictures of yourself with three-foot-tall teased hair. After all, Rock Never Stops! See you at the Conclave (if I can manage to get there!). ALL FOR NOW. REMEMBER, NEVER COMPROMISE YOUR INTEGRITY. LIFE IS TOO SHORT TO EVER BE ANYTHING BUT HAPPY! PEACE, LOVE & ALL THAT IS GOOD.

**KRZZ, WICHITA  
PD-LESTER ST. JAMES:**  
NEWS FLASH!!! WICHITA SEES THE SUN!! After six days of clouds, rain and basically just crappy conditions, the sun finally came out this past weekend! The 12th Annual Bill Rusch Memorial is fast approaching. The date is Thursday, June 4th, at Willowbend Golf Club. Time: noon. Hotel: Marriott. (Call 1-800-350-2950, ask for Ron, and the Bill Rusch Memorial rate.) Wow! How about the opening round hockey games! See ya, Philly, Jersey & Penguins! Can anyone beat the Dominator?? Will there

be another Detroit & Colorado blood-bath series?? The T-Wolves gave it their all, and sure scared the heck out of the folks from Seattle! Rock, you are the best!! Mr. Martens, sorry for the week late mention. Thanks for the brews!! And Mary, my waist line will never be the same, thanks to you!! And, a huge welcome to Rebbecca Ross, local Elektra! This week we start the ten days of hell known as Riverfest! Parade Friday, food court daily, and a bunch of stuff next week! Happy Cinco de Mayo to you. Suck back a Margarita! Other mindless Lester ramblings: Don't forget Conclave 23 is July 16-19 in downtown Minneapolis. The Marriott is sold-out and we anticipate one of the largest turn-outs in our attendance history, so what are you and your label going to do to get noticed?? Need help?? Call Conclave headquarters - 612-927-4487! This year's sessions will be HOT, as will the Conclave College on Thursday afternoon! If you know any PDs who need more info, have them get hold of me via the phone, fax or e-mail: lester@southwind.net...Peace, love and great radio!!

**B/D & A  
PRESIDENT-GREG GILLISPIE:**  
The song by which the summer of 1998 will be remembered: Dave Matthews Band "Stay (Wasting Time)." Period!

**DAVID ROSS  
SIRE (212-253-3916):**

Jolene. Jolene, Jolene, Jolene. Now out at radio for 10 weeks and a debut in *Radio & Records* Rock at 49\*, Powercuts 73\*, PMS 33, *fmqb* Hot Trax 66\* plus 10. The artist development story continues. Please go back and listen again to "Pensacola"...Guster. WIZN, WRDR, KQDS find room this week on their playlists to add "Airport Song." Programmers are talking about the smash of the summertime. Program this song and give it a listen while you're in your car or away from your office. It sounds so refreshing coming out of those tiny speakers...Keep an eye out in the very near future for the new track from Spacehog, "Carry On," out to you June 8...Tina And The B-Sides, Tim Carroll and The Tragically Hip are coming from the Sire camp.

**JOEY SCOLERI  
HOLLYWOOD RECORDS (818-560-5395  
e.mail.Joey\_scoleri@studio.disney.com):**

Another massive week on *Fastball*! "The Way" continues to get new ROCK believers. You need numbers? How about #32 Mainstream Rock Monitor, #34 R&R Rock, #34 Powercuts, #34 Hot Trax, and #36 R&R Active Rock! Oh, by "The Way", this huge research monster is still #1 at Modern and also Gold in sales after just 7 weeks. Don't miss out on a Rock band. Don't believe me? Listen to the full *All The Pain Money Can Buy* disc. Or, maybe ask Everclear and Marcy Playground when you see the hottest triple bill of the year in your city. Or, check with WZTA, WEBN, KISS, KATT, WMMS or the other 70 stations playing this smash! Caroline's Spine has a total of 30 Rock and Active Rock champions after just two weeks. WRIF, WJRR, WBUZ, WIOT, WTPT, and 25 others already know Caroline's Spine have a big future at the Rock format. Your Modern competitor is not playing this band, they are yours to own and perhaps have play your station show. Rock radio needs bands for summer festivals and Caroline's Spine doesn't have a home address, it's a match made in heaven. Listen to the WHOLE song - "Wallflower" will work with 18-34 males. Listen to lyrics - your listeners will relate. Sprung Monkey "Get 'Em Outta Here" - don't get beat by Modern...Call me and let's talk Rock or hockey, 'cause what else really matters?

**SCOTT "LO/JACK" DOUGLAS  
EPIC (212-833-5011):**

This week (or soon) you might start hearing from a new name in the Epic Records national camp. Evan Prager. We welcome him to the Rock and Modern Rock Department from our Video Promotion Group. Evan's life was built on Rock n' Roll, having come from a family whose business was built in artist management. Please welcome him and take his call. He's one of the good guys. Man, it seems like forever since I put some thoughts down in these pages...Hello? Have been seeing a good part of the country and hearing a lot of good (and not so good) radio across the amber waves of grain and above the fruited plain. as you read this, you'll find Pearl Jam and Wallflowers both in the top 10 (or very close) on just about everybody's purple mountain majesty!!! POW! Both of these records really are shaping into what looks to be hit songs. And even those MOST Active Rock stations are embracing them both. If it walks and talks like a hit... Next up in a major way is the next release from the *Godzilla* soundtrack: Puff Daddy with Jimmy Page. The song's called "Come With Me," but it's a cover of Kashmir for all intents and purposes. You'll get it via satellite on Friday, May 15, at 8:00 am and 11:00 am Eastern. Satcom C-5, Transponder 19, Channels 10 and 11. This song is awesome! I GUARANTEE a reaction from your audience. GUARANTEE it. If no one calls your station when you play this record, you will need to run over and tap on the transmitter

to make sure it's working. This film is estimated to draw the largest box office opening in history. One hundred million is the goal. That's HUGE! Okay, I have some catching up to do: *Lo/Jacks* to: Greg Sorrells, Harry Levy, Paul Marshall, Harry Guscott, Zak Tyler, and Bob Neumann.

**HILAIRE BROSIO  
ELEKTRA (310-288-3842):**

The truth is out there...and "One," performed by Filter, the first single from the forthcoming *X-Files* soundtrack, is sitting on your desk. Filter's rendition of this Harry Nilsson classic captures the power and the mystery that one would expect from a song associated with *The X-Files*. Official add date is May 18, but we'll gladly accept your early spins (we're good like that). The soundtrack is landing in the stores on June 2, and the film hits theaters on June 19. As *The X-Files* has one of the most committed fan bases in the world, this should be a monster. Feeder's new release, "High," comes in strong out-of-the-box with 21 adds, including WAAF, DC101, KRKR, WRCN and WLZR. The track is also going to be featured in the upcoming film *Can't Hardly Wait*. The Scott Thomas Band is blossoming at radio with 64 Rock stations adding "Black Valentine" in the first three weeks. Newcomers include: WDVE, WZXL and KRAD. Call-out on Metallica's "Fuel" is already looking strong. Particularly at the likes of KSJO and KUPD.

# Modern picks

**The Smashing Pumpkins**  
**"Ava Adore," (Virgin)**

Billy Corgan has brilliantly embraced technology into his Rock fold where many others have failed. His genius and dexterity has earned him and his fellow Pumpkins millions in album sales, a Grammy and worldwide acclaim. "Ava Adore" is our first glimpse at the Pumpkins much-anticipated follow-up to the zillion-selling double album, *Mellon Collie And The Infinite Sadness, Adore*. Utilizing drum machines, Techno sounds, crunchy, spaced-out guitars and Corgan's ever-present knack for writing a hook, "Ava Adore" scores on all levels. Needless to say, this is the definition of a no-brainer. On everywhere.

**Foo Fighters**  
**"Walking After You," (Roswell/Capitol)**

Remixed and reworked from the Foos *The Colour And The Shape*, "Walking After You" is a beautiful, almost 10cc-like (remember them?) barrage of sweet melodies and glistening harmonies. This version, which will also appear on Elektra's *The X-Files: The Album*, shows off the diverse and ingenious qualities of Dave Grohl's songwriting. So far, the man's batting 1.000. X-Note: the album will be in-stores June 2, the movie will be in theaters June 19. On at **KOME** and **CFNY**.

**Garbage**  
**Version 2.0, (ALMO Sounds)**

Start-to-finish, Garbage's sophomore release sounds less like a band proving themselves with a second release, and more like a band that's been around for years, full-stride in their prime. Shirley Manson's sexy, sultry delivery expertly offsets and balances-out Techno rhythms and edgy guitars. In other words, this band knows what they're doing, and they're doing it quite well. Tracks such as "Temptation Waits," "I Think I'm Paranoid," "Medication" - an absolute smash, "Wicked Ways," and "Push It," all display a style and attitude that defines the hit record formula. Really, any track could be a great single.

**Feeder**  
**"High" (Elektra/EEG)**

Taken from Feeder's amazing debut, *Polythene*, "High" is a song that many observers feel will break the band. It's uplifting chorus and swirling, engrossing guitar work should electrify your airwaves. Don't expect this one to burn easily, it's a quality, guitar-driven hit that should find a nice home for itself on the Modern airwaves, as is evident with spins at stations such as **KNDD, KCXX, WRAX, KOME, WXRK, WDST, KNRK, KWOD, KZON, WBCN, WGRD, WQBK, and WHTG**.

**Jerry Cantrell**  
**"My Song," (Columbia/CRG)**

Looking for further proof of Cantrell's prowess as a frontman? Look no further. Following-up on the success of *Boggy Depot's* first selection, "Cut You In," the AIC tunesmith again demonstrates his ability to paint dark pictures with a undeniably melodic brush. Deeply harmonic and urging vocals supported by classic Cantrell riffing is a proven winning combination, and should make for an easy add. Already on at **KXTE, WARQ** and **WNFZ**.

**CIV**  
**"Second Hand Superstar," (Atlantic/AG)**

The break-filled adrenaline Pop of CIV's first offering from their sophomore release, *Thirteen Day Getaway*, is pure hit material. Sing-a-long lyrics, crunchy guitars and the formidable presence of lead singer (and former Gorilla Biscuits frontman), **Anthony Civorelli**, all add up to an exciting track that should set the stage nicely for CIV's assault on the airwaves, and build credibility on a national scale. Early airplay at **WFNX** and **WBTZ**.

**Limp Bizkit**  
**"Sour," (Interscope)**

Quickly approaching the 300,000 units-sold mark (albums), Limp Bizkit looks to extend its fanbase via mainstream airplay. This Rock/Rap hybrid should send a jolt of electricity into your audience, and definitely provoke a reaction. Look for Limp Bizkit to be on the main stage of the *Ozzfest* tour, and touring the nation with **KoRn** in late August. New this week at **KXTE** and 37 spins last week at **WBER**.

**Buck-O-Nine**  
**"Pass The Dutchie," (TVT)**

The Musical Youth classic hit has been redone by Ska masters and Bay Area natives Buck-O-Nine. This track is sure to attract immediate attention and light up the phones. Give this record some serious attention, it's sure to click with your audience and almost assuredly contain big time familiarity. From the soon-to-be-released CD, *Spare Parts*. Already on at **KXTE, KCXX, WBER, and 91X**.

**Chopper One**  
**"A Punk Named Josh," (Restless)**

This hysterical anthem has been turning heads (along with video) for a few weeks now, garnering respectable specialty show play and strong test results. The husband and wife duo of **Jason and Amy Cropper**, along with fellow bandmates **Tyrone Rio** and **Steve Garvey**, look for mainstream appreciation with this melodic phone-getter. Pay close attention. Taken from their full-length release, *Now Playing*. On at **KEDJ**.

**Smash Mouth**  
**"Can't Get Enough Of Your Love, Baby"**  
 (Elektra/EEG)

Taken from the *Can't Hardly Wait* soundtrack, Smash Mouth delivers a raucous, hook-laden track that recalls the irresistible flavorings of "Walking On The Sun," complete with funky Hammond organs, foot-tappin' rhythms and anthemic vocals. This should be an automatic for most of you, and draw listeners to the phones like moths to a flame. Don't hesitate on this one.

**Mono**  
**"Slimcea Girl," (Echo/Mercury)**

Life in Mono has been good for this English outfit of late, their first single was a smash at Modern Rock radio. Their new album, *Formica Blues*, is ready for release in the U.S., and on the heels of this single release, should be very successful. This is a slick, stylish number that'll most likely end up being the smoothest, and most requested record on your station. If you've had any success with "Life In Mono," ready yourself for another hit record in "Slimcea Girl."

**Billie Meyers**  
**"Tell Me," (Universal/UMG)**

This 27-year-old songwriter looks to branch-out in the format and garner even more acclaim with this latest cut from *Growing Pains*. "Tell Me" is a high-charged, beat-and-guitar driven Middle Eastern-tinged smash, held together by Myers' Modern Rock diva vocal performance. Her time has most definitely come, so get yourself acquainted with her as soon as possible. This is only the beginning of great things to come.

**Money Mark**  
**"Hand In Your Head," (London)**

"Fourth" Beastie Boy and former carpenter, Money Mark has made a significant impact at both the indie and major-label levels internationally with his Groove-inducing blend of Rock/Funk fusion. This track, already a hit in the U.K., seems destined for similar greatness in the States. Modern Rock should thoroughly embrace this record, it has definable Pop qualities and tons of street credibility. On at LIVE 105 and WEQX.

Here's one you definitely need to try out. Radiohead's new EP, *Airbag/How Am I Driving?*, could be causing a phone controversy similar to Tommy Tutone's "867-5309." The number 1426148550 appears on the cover of the quick-selling EP. Dialing the number from the U.S. as 011-44-1-426-148-550, you will find that it is actually a working number with a voice on the other end, that sounds exactly like Thom Yorke's, simply saying "Hello," followed by a female voice asking you to leave a message. Yorke has joked in concert that the number is used to report bad drivers, but the number is obviously not being used for that purpose. Messages can be left, but there is no telling what they will be used for or who will be receiving them. Maybe the band plans to use the confused callers' messages on a future recording.

Smashing Pumpkins fans will want to check this out: The now-defunct Limited Potential Records, once a home of the Pumpkins, Brainiac, Poster Children, Triplefastaction, and Catherine, has a new Web site with loads of old photos of the band, ranging from live photos, backstage shots, and hotel room pics. Check out the site at: <http://home.earthlink.net/~mikepo/Pumpmain.htm>.

Depeche Mode have put a name to their eagerly-anticipated singles collection. Dubbed *The Singles 86-98*, the release is tentatively scheduled to hit the streets October 13 on Reprise. The first single from the two-disc compilation will be "Only When I Lose Myself" - a newly written song by Martin Gore and produced by Tim Simenon. Modern Rock radio can expect the first single in late August. The collection gets its title as a follow-up to the band's previous singles compilation *The Singles 81-85*, which was actually titled *Catching Up with Depeche Mode* in the U.S..

Gravity Kills have wrapped up the recording process for their next album. Titled *Perversion*, it's due for release in mid-June and features the first single "Falling," which is already getting good airplay at several stations, including KXTE/Las Vegas. The band has already started playing radio festivals and launches a nationwide tour on June 3 in Cambridge, MA.

There are not many details about the solo albums that Rage Against The Machine's guitarist Tom Morello and singer Zack de la Rocha are apparently working on, but de la Rocha's plans may involve a few electronic artists. Meanwhile, de la Rocha will make his rapping debut with the legendary KRS-One and newcomer Last Emperor on the Rakwus Records release, *Lyricist Lounge Volume One*, a two-disc compilation celebrating the long-running New York Hip-Hop club of the same name. The three collaborate on a track called "CIA."

Squirrel Nut Zippers third full-length album, *Perennial Favorites*, is scheduled for release on August 5, with the first single dropping on July 5. The record will include twelve new tracks that were recorded in Zippers member Ken Mosher's home studio in North Carolina throughout 1997. The video for the first single, "Suits Are Picking Up the Bill," was shot in North Carolina by Tom Maxwell and Norwood Cheek, who also co-directed the Zipper's video for "Hell." The band is expected to kick off their U.S. tour in Los Angeles on the album's release date.

Beck unveiled his new performance piece, *New Age Evisceration 1*, and museum exhibit, *Beck & Al Hansen: Playing With Matches*, at the re-opening of the Santa Monica Museum Of Art on May 7th. The *Playing With Matches* exhibit is a presentation of collages, assemblages, drawings, photographs, audio, and video by Beck and his late grandfather. The exhibit will be open to the public through July 5. Also, according to the *Los Angeles Times*, Beck dropped \$1.3 million for a home in Pasadena, California. His new home is a 5,200 square foot house built in the '50s with a pool and city and mountain views.

ONELINERS: New Order is expected to launch a U.S. tour in September, which will likely be in support of a boxed set... Mercury will release a *Best Of* album from James on June 30th, featuring songs from the band's fifteen-year career, as well as two new tracks... *Godzilla*, the movie, is two hours and twenty minutes in length... Natalie Merchant's forthcoming album, *Ophelia*, due out May 19 on Elektra, features duets of Merchant with former Brand New Heavy N'Dea Davenport, The Innocence Mission's Karen Paris, and Tibetan devotional singer Yungchen Lhamo...

**-Files...** **KROQ/Los Angeles' Kevin & Bean** *Live In It To Win* VW Beetle promotion (see last week's *fmqb* for details) ended on Wednesday, May 6 with all four contestants - Eric, Heidi, Jessica, and Doug - having survived every hour of the two week time limit. Unfortunately, only one survivor could drive away in the 1998 Volkswagen Beetle, so it came down to a tie-breaker to see who the winner would be. At 9a.m. Pacific time, with Kevin & Bean announcing and **Jimmy the Sports Guy** refereeing, a high stakes game of Rock, Paper, Scissors was held to break the tie. In the first round Doug defeated Jessica and Heidi defeated Eric, with Heidi winning it all in the final round. It was a joyous occasion for her, and for the other contestants when they found out that the consolation prizes were new VW Beetles purchased by KROQ, making all four contestants the proud owner of a new Beetle. Even though all the activity could be viewed over the Internet, a sizeable crowd of roughly three hundred came down to see the action live at the entrance to Universal Studios. The action also drew coverage from all the local television stations, as well as some L.A.-based news magazines. For a recap of all the action check out this Web site: <http://liveinit.earthlink.net...> **KNDD/Seattle** is in the midst of a *Get A Life* promotion. Using a *song-of-the-day* to initiate the call-in process, caller #107 (The End is 107.7 on the dial) qualifies for the Grand Prize. One-hundred and seven qualifiers will be entered into a drawing, with each winning a certificate for a goldfish, and a goldfish bowl. The Grand Prize includes a Geo Metro, a latte a day at Uptown Espresso, credit to Wizards of the Coast Game Center, a one-year membership to Queen Anne Health and Fitness, twelve pairs of Unionbay Jeans, a Sony PlayStation with five game cartridges, a mountain bike, helmet, water bottle, and handlebar adjusters, free cable for a year, a \$1,000 shopping spree at IKEA, tickets to one game a month for either the Sonics, Mariners, T-Birds, or Seahawks and many, many more items... **WXDX/Pittsburgh** has announced the line-up for *X-Fest* on May 25. Green Day, Scott Weiland, The Mighty Mighty Bosstones, Stabbing Westward, Brownie Mary, Jimmie's Chicken Shack, The Deftones, Fuel, Black Lab, God Lives Underwater, The Urge, Big Wreck, and Samiam... **WXSR/Tallahassee** celebrated Cinco De Mayo by broadcasting from local Mexican restaurant Rio Bravo, complete with a 350 gallon dunk tank filled with mayo. Listeners got a chance to dunk WXSR Morning Grind guys Evan Delany, Scott T. Petibone and Mookie. Last year the broadcast attracted 2,000 listeners. We guess there's something to be said for mayo... **WBRU/Providence** marks the return of *The Summer Concert Series* on May 28 with a performance by Soul Asylum, followed by The Specials on June 4...

April 21, 1998

An open letter to Jakob Dylan and Noel Gallagher:

At first, I was pleased to hear that my favorite David Bowie song was being covered. Covers have always been a source of enjoyment for me. I even have a feature called Undercover on my weekly radio show. I find it puzzling, however, that there has been a very obvious omission on the versions of "Heroes" released by both of your bands.

Both of these new versions begin the story with the lines "I wish you could swim. Like the dolphins. Like dolphins can swim." This is the middle of the song. The first three verses of the song have been left on the ceiling room floor. The song should begin with the following verses:

I  
I will be king  
And you  
You will be queen  
Though nothing will drive them away  
We can beat them  
Just for one day  
We can be Heroes  
Just for one day

And you  
You can be mean  
And I  
'I'll trick all the lines  
'Cause we're lovers and that is a fact  
Yes we're lovers  
And that is that

Though nothing  
Will keep us together  
We could steal time  
Just for one day  
We can be Heroes for ever and ever  
What d'you say?

These lines set the stage for the rest of the song, the same way an author introduces the characters in a book. Without these verses the song makes less sense and fails to convey the story it is meant to tell. Would you begin reading a 500-page novel on page 242? Well, maybe you would, but that's not the point.

The most unusual part of this whole situation is that both of your versions make the same omission. Could it be that the Oasis version was recorded without proper knowledge of the song's lyrics, and that The Wallflowers learned the songs from Oasis?

Perhaps this is the result of an A&R person deciding that the song is too long and needs to be shorter. These are just theories. I have no idea why both of you have made the same omission. Whatever the reason, I encourage you to pick up a copy of the original album by Bowie and learn the rest of the song. Hey!, the guys at Eshamite might even send you a copy.

Troubled, But Not Taking This As Seriously  
As You Think,

### Bad Religion, No Substance, (Atlantic)

For what seems like an eternity, **Bad Religion** have personified the sound and spirit of west coast Punk Rock, paving the way for countless other acts in the process. While some of those acts have come and gone, Bad Religion are still here - crunching guitars and breakneck tempos still intact - and armed with what just might be their finest effort yet, *No Substance*. From the looks of things, many of you out there in Specialty Show-land don't need any prodding with this record, as tracks like "Shades Of Truth" and "Raise Your Voice" are fast becoming staples of your show. For those of you not with the program yet, we turn your attention to the powerful hooks and maximum riffage of the aforementioned tracks, along with "All Fantastic Images" and "Hear It."

NOTE: Playlists are printed in full, on a rotating basis, as space permits. The Top 15 chart is derived from the combination of airplay from all shows. Any feedback regarding the New Music Show Revolution should be directed to Mike Parrish, Pat Berkery, or Mike Bacon at 609.424.9114.

WTFX/Louisville hosted its annual Festival In The Field in the infield of Churchill Downs during Derby Week last Thursday (4/30). Over 20,000 faithful listeners braved intervals of rain to catch a few races, plus stellar Rock N' Roll sets from Creed and Mighty Joe Plum, plus Louisville favorites Edenstreet (recently signed to A&M with a debut CD coming in the fall) and Almost Noah. Thanks to WTFX OM Michael Lee, PD Future Bob, and A&M's Diane Gentile for their hospitality.

**100.5 THE FOX Rocks**

The night before the show, Edenstreet drummer Paul Culligan hosted an intimate Louisville bar-b-que at his home. (L-R): Edenstreet's Tim Arlon, Chuck Mingus, Culligan, and Screamin' John: Inab's Mike Boyle, A&M's Diane Gentile.

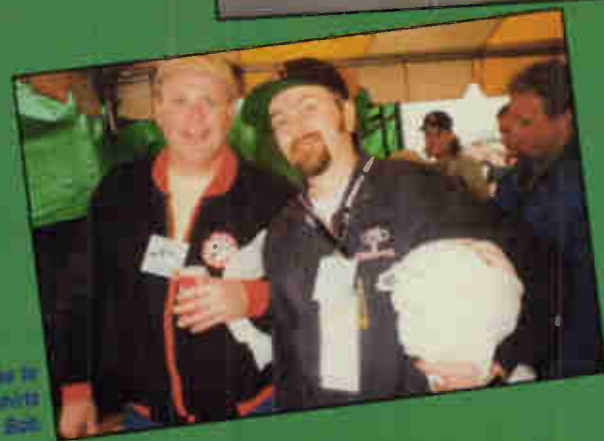

Manager backstage at Churchill Downs: (L-R) Mike Boyle and Michael Lee.

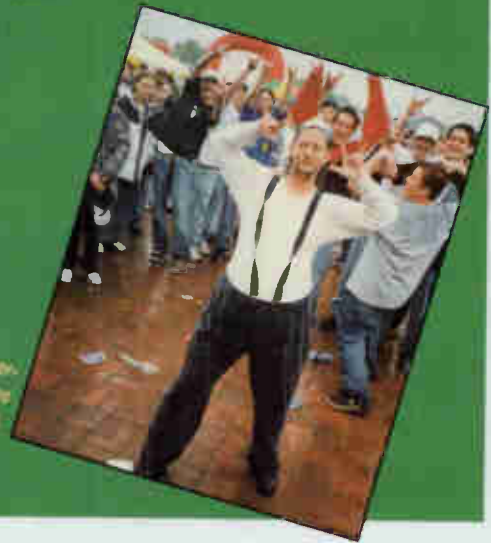

A pause in the action. At certain points during the bands sets, the music on the field had to stop so a horse race could commence.

Parked in the middle of the Churchill Downs infield was WTFX's broadcast control.

(L-R) Mike Boyle tries to wrangle a few free CDs from Future Bob.

The crowd never bored themselves between sets.

"The original concept was to create a person, not a radio station."

Simply put, there was no Modern AC in this market. Y100 was Alternative with a bad signal, and WYXR (Star104) was leaning rhythmic and still trying to find their way. There was a definite hole in the market for Max. Someone who could play **Blues Traveller**, **Sheryl Crow**, **Dave Matthews Band**, and still be appealing to that 18-49 cell, with a focus on hitting that 29 year-old. The music was certainly right for a Modern AC, both in terms of library material and currents, and the music supply has even gotten better since then. The market has shifted a little now. It's interesting, because who would have been playing the **Natalie Imbruglia** six months ago early on? I don't think anyone in the market would have been playing it real early. We added the record back in January. Now that we're here, we've pretty much forced every station in the market to play it. Obviously, it's a huge hit now so everyone is playing it anyway. But, we stepped out first.

#### How close is Modern AC to Modern Rock these days?

The two formats are very similar. Modern AC skews older and is much broader and balanced, a little bit softer, a little less angry. Modern Rock has had to pay attention to Modern AC in many ways. Modern Rock has gotten more mass appeal with the existence of Modern AC. They have to deal with records like **Natalie Imbruglia**. They can't just sit around and play **Scott Weiland** records all day. This in turn has taken Modern Rock closer to Top 40 as well, and that can be very dangerous for that format.

#### If you were programming a Modern Rocker, how would you react to a Modern AC station?

I probably wouldn't be playing a lot of **Sarah McLachlan**-type records. I would want to maintain my edge in the market. I would probably play more **Tool**-type records, and be the Modern Rock station the audience is accustomed to hearing, and really be what you're supposed to be. If Modern Rock rocks more, it further differentiates itself from Modern AC; if it lightens up, it blends more with Modern AC. But then again, can you get away with not playing the **Sarah McLachlan**'s and **Natalie Imbruglia**'s and still be a successful Modern Rock station? That's the dilemma.

#### There's quite a battle developing between Max and Y100. Is there any added incentive to go up against Y100 given the fact that you worked there at one time?

To want to beat them, yes; to play their game, no. I won't battle them by playing **Bush** and **Fuel** records. But, really it's nothing personal. They're competition, and because they are there, I want to beat them. The way I look at it is they are going up against us. Since we signed on as a Modern AC, I'm starting to hear **Blondie** records on Y100. It's also interesting to see them playing songs from artists like **Sarah McLachlan**, **Natalie Imbruglia** and **Paula Cole**, while calling themselves the **New Music Alternative**. I feel those songs are closer to the Modern AC format, under today's music umbrella. In reality, Y100 is just a small piece of the puzzle. I look at it as them going up against us more than us going up against them.

#### You recently announced the Y100 FEZtival line-up before Y100 did. How did you weigh the risk vs. benefit of preempting the Y100 announcement?

We talked about this at length prior to doing what we did. The fact that there are more listeners who listen to us than will go to their show weighed heavily. 500,000 people listen to our station; 25,000 go to the show. 475,000 don't know whose show it is. To the people who don't go to the show, the idea is to have them perceive it as another neutral show. If I'm someone who listens to the radio and both stations are saying **Everclear** is coming May 29, and I don't go to the show, in my mind both stations have some ownership to that concert.

#### Did the artists on the bill have anything to do with the decision you made?

Yes, the fact that we play most of the artists. The statement we're making is that they are Max artists. And if a Max artist comes to town we let everyone know about it.

#### You even went as far as giving tickets away, and calling the show part of the Max Concert

#### Series. Pretty ballsy...

We gave away the tickets and called it part of the Max Concert Series to create the image in the listener's mind that it's our show. It's funny because people are still calling to this day asking if they can get backstage passes to our show. Even the press has called for press credentials. As time goes on, naturally Y100 will claim more ownership to the show, but there will be a certain segment of the audience who still believes that it's our show.

#### What was Y100's reaction?

They sent a Cease & Desist and called our GM three or four times, wanting us to not talk about it, and claiming we had wrong information. But, in reality we got our information off the **Marcy Playground** and **Green Day** web pages.

#### How active is Max on the streets, and is this a battleground you have to win?

We don't have to win the battle of the streets. We need to be represented so people constantly know we are here. The idea is always for us to get the word out about Max. **Fran Frogione** and **Lisa Waders** do an excellent job in promoting Max. We don't feel that we're in a race against, or in a battle against, every other station in town. The idea is to let people know that we're here on our terms.

#### What are the essential elements you use to sell Max to the Philly audience?

We went on television for the month of November, and it was basically a campaign to get to know Max. We're back on TV now with the same concept, to let people know we're here, and to continue to build hype for the radio station. We had a strong initial billboard campaign, and billboards continue to be up to help promote us, as well as the promotions and appearances that we constantly do

outside the station. I have to credit **Ted Kelly**, our Director of Marketing & Promotions, for contributing a lot to our TV and billboard campaigns.

**Max has been on the air for seven months now, are you satisfied with the Arbitron performance so far?**

We're never really satisfied. I'm never satisfied until we're way up, inside the top five. Actually, probably #1 would make me satisfied; but you can't beat KYW (can you?). I am impressed so far with what we've been able to accomplish in the past seven months. We've been able to tie Y100 12+ with a 2.2, and we're out-cuming them in different areas. It's a big feat for us to do that, but we still have a long way to go. I'm very excited about our 18-34 numbers, we went from 3.6 to 4.2, and in different dayparts, we've won. We also performed well in the 18-49 and 25-54 cells, two areas that are crucial to us. And Sales is always happy about those upper demo successes.

**Philadelphia has suddenly become a very competitive market with contemporary music stations, especially with the many variations of Pop music stations. Size up the market competitively.**

WYSP is called the Rock station, and they do just that, they Rock. They've done a good job in branding themselves. Star 104 still bounces back and forth between **Elton John** and **Sugar Ray**, and **Journey** and **Chumbawamba**. I really don't know where they are heading. Y100 sounds a lot like we do, which we appreciate. Our sister station WMMR is currently celebrating their 30th birthday, a claim few stations can make, and **Joe Bonadonna** and his staff have done a great job in keeping a Heritage Rock station very competitive in a crowded market. WIOQ

has gone more mainstream, and given the cluster they are part of, I can see why they've cut back the Urban titles. It's a good sounding station.

**Who are you sharing with the most?**

We share the most with Y100, and secondly with WYSP. Because of the nature of the music, it doesn't surprise me that we get some of the male listenership.

**How aggressive should Modern AC stations be with new artists?**

Each Modern AC is different in each market. As for us, we're pretty aggressive. We've taken a few chances on some bands, and some of them are panning out for us. We don't mind taking a shot on a new artist. We know what we're looking for in the appeal of our music, and if the artist's right for us, we'll go for it.

**In more than a few markets, the Modern AC is instrumental in lighting the fuse on new artists. Who are some of the new artists that you jumped on early?**

Once again, Natalie Imbruglia is one we jumped on really early. We played her for a long time too before anyone else even got started with it. **Garrison Starr** is another artist we're still playing that no one else is playing, and it's selling 150 units a week, so we're pretty impressed with that. We're the only station playing **Naked** "Raining On The Sky", and that's doing well for us. We were on **Semisonic** very early. **Sarah McLachlan** "Adia" is one that we forced Y100 on; and we were on **Green Day** "Time Of Your Life" and **Alanis Morissette** "Uninvited" prior to Y100. **Third Eye Blind's** "How's It Gonna Be", **Barenaked Ladies** "Brian Wilson" and **Goo Goo Dolls** "Iris", are other songs that we started before our competitors.

**What is your policy for adding new music to the mix?**

We have our music meeting with **Ali** and **Chuck DaMico**, our programming assistant. The three of us determine new songs by looking at what's going on nationally. We peruse the Modern AC, Alternative, Adult Top 40 and Top 40 charts. We also find out what our competitors are doing in the market. During our meeting, the three of us get on the phone with **Alex DeMers** and **Jeff Murphy** from DeMers Programming. We also look at what's going on locally. We look for songs that fit our sound, and appeal to our core listener. In the end we let the music speak for itself.

**What are your most played songs currently, and how many times are you rotating your powers?**

Right now we're powering: **Sarah McLachlan** "Adia", **Marcy Playground** "Sex And Candy", **Semisonic** "Closing Time", **Natalie Imbruglia** "Torn", and **Goo Goo Dolls** "Iris." Our powers can alternate between five and eight at any given time. It's important that our powers make the right statement for Max. The powers are getting rotated 60+ times a week because right now we are a cume building radio station. We're early in the game. We feel as though we need to spin a power 63 times a week. Our new titles get about 20 spins when they're added to the list.

**How are you using the library to keep the mix fresh? And what library tracks are working particularly well for you?**

We look for material that has withstood the test of time. Obviously songs that are testing well. Things like: **Simple Minds** "Don't You Forget About Me," a lot of the **U2** tracks, a lot of the **Bangles**-type songs, any **Sarah McLachlan** and **Tori Amos** always do very well for us. We keep the mix fresh by doing auditorium tests a couple times a year. The proper use of the library is very important to the overall appeal of this format. How one uses library tracks can really separate a Modern AC from a Modern Rock station.

**What one current, recurrent and gold track best define Max's music position?**

**Natalie Imbruglia** "Torn", **Dave Matthews Band** "Crash Into Me", **Indigo Girls** "Closer To Fine".

**Are you using Eighties material in any special programming?**

No. We didn't want to do the old

*Sister Hazel gets to know Max.*

"How one uses library tracks can really separate a Modern AC from a Modern Rock station."

clique Eighties Request Lunch, so we decided to stay away from doing special Eighties features.

**What about weekends? What kind of special programming are you doing over weekends?**

We came up with an On Tour Weekend. It's a very unique idea. We try to get people qualified all weekend with tickets to a show. If **Matchbox 20** comes to town, all weekend long you get Matchbox 20 tickets. A grand prize winner gets to go on tour to other places with the band. It's been quite successful for us.

**How important is it for Max to have exclusive or semi-exclusive ownership of new artists? Is it important for Max to be playing records that no one else is playing?**

It's not all that important to us. When we're choosing music, we're not looking for something that no one's playing. It's not important for us to do that. If we really feel strong about a record, we will take a chance and start playing it, exclusive or not. But, it's not important for us to be exclusive.

**Who are some artists that you're currently playing exclusively?**

**Lenny Kravitz** "If You Can't Say No", **Junkster**, **Rebekah**, **Sister 7** and **Soul Asylum**, along with **The Garrison Starr** and **Naked** mentioned earlier.

**Is it important for Max to create an identity of breaking new artists, vs. playing hit records?**

The hit records are more important to us. We obviously don't shy away from new artists and we never will. There are a lot of stations that add 12 and 13 records, but when 11 become stiff and one is a hit, the station claims they broke the artist. They claim to be the New Music station that breaks new bands. Anybody can do that. My philosophy is not to overextend your playlist for the sake of a popular reputation. Do what's right for the radio station. The idea for us is to try to pick and choose what we think are the hit records.

**With the Max Knows Music slogan, how vital is it for you to forge an identity with the audience of getting on the right new artists first?**

Getting to the artist first is not our primary priority. Max is not sold as the New Music

station. We're sold as *Max Knows Music*, but not necessarily new music. Timing is important for the hit factor. If it's a hit we should definitely be there early. But we're not overly concerned with the image of being the New Music station.

**You've done a good job with Max Knows Music. It seems like you're marketing that as much as the station. What other key slogans have you been using?**

We did a *Get To Know Max* campaign, which really emphasized the fact that we're trying not to be a radio station. With *Get To Know Max*, our intent was to get to know a new friend. With *Max Knows Music*, it's funny, everywhere we go on the streets, you see people and the first thing they say when they know we're from Max is, "Oh, Max Knows Music." It seems to have really sunk into people's heads and that's the whole idea. We never wanted to over-think choosing a certain slogan, because we wanted people to form their own opinion of what Max is all about. This way, if they can form their own opinion, and not be sold something that they didn't expect, they won't turn away. We let them try to form their own opinion instead of telling them what we are.

**You've worked with some strong programmers in the past. What did you learn the most from each of the programmers you've worked with?**

**Charlie Quinn** was a great study in gorilla warfare tactics, not that we engage in that here. It was great seeing him in action. **Steve Kingston** is a very music intensive person and very critical of the music logs, which taught me a lot about editing and doing music the right way. **Brian Philips** taught me a lot about building great relationships in radio, and he is also really strong with the music. I learned many things from **Garett Michaels**, too numerous to mention, but one was how to be a good programmer.

**What experiences during your career best prepared you to program today?**

Turning down the job at Y100 originally. (just kidding) As a Music Director and Research Director I've been involved with all aspects of the music, including focus groups, perceptuals and auditorium tests. I've had strong experience in these areas and it really has prepared me for the programming job. Music is such a critical part of what we do here. Garett and I went through a similar experience when we

were both at Y100. Creating the music for a station from scratch is extremely challenging and rewarding at the same time. This experience has allowed me to attack the music very confidently, and the music is such a focal point of this station.

**Which stations around the country influence you the most and why?**

99X in Atlanta and WPLT in Detroit are two stations I look at closely. I've also always watched WBMX in Boston, and been impressed with what they've accomplished. I kind of glance at WHFS every now and then.

**At Greater Media you're working with some accomplished broadcast executives. How's the relationship going between you and the key execs?**

The great thing about working with (COO) **Tom Milewski** is the fact that he's very accessible. You can actually pick up the phone and call him just about anytime, and he's a wealth of knowledge. Our cluster GM, **Dennis Begley**, has been a great deal of help, he's a strong manager and a big fan of the station. It's great to see the GM come in and turn up the **Fastball** track everytime it comes on the radio station.

**Modern AC, is it a weekend or is it here to stay?**

It's a 365 day weekend!

**CHUCK**

**TISA: MAX-ing out in Philly**

interview by  
Fred Deane

He's as Philadelphia as a cheesesteak, the Liberty Bell and the Vet. Chuck Tisa has the good fortune to work in the market he grew up in. In fact, Chuck's only worked in market #5 (not too shabby). He broke bread with radio in 1985 at then Top 40 WEGX/EAGLE106, where he learned from Charlie Quinn and WEGX consultant Steve Kingston. At EAGLE106 Chuck gained exposure in several different areas including promotion, production and music. Tisa was named Assistant MD in '89, and a mere year later he advanced to Music Director, under then PD Brian Philips. EAGLE106 turned into Smooth Jazz, and Tisa walked across the street to WPLY/Y100 as MD, where he worked with Eric Johnson and then Garrett Michaels. It was Chuck and Garrett who made the transition with Y100 from Top 40 to a more Modern approach. When Michaels went to Motown, Chuck took the Y100 PD helm and guided the station from May '96 to January '97. In July of '97 Chuck started to lay the groundwork for Philly's first Modern AC station. He's been the PD ever since.

**What were the short term plans for Max when you signed on in September of '97?**

The idea was for the station to be Modern AC and play hit music. The original concept was to create a person, not a radio station. Obviously Max is a station, but what we try to convey is that Max is your friend. In fact, we never say "on Max" or "at Max", we simply say Max. We want Max to be perceived as a person. When we give away tickets or promotional items, we never say I or we have your tickets, it's always Max has your prize. We wanted to give the listeners of Philadelphia something they never had before on the air. We'll continue to reinforce this image of a person, we will not have it evolve into a radio station. We also wanted to drill in to the heads of listeners our slogan, Max Knows Music.

**The station was jockless for three months. This really allowed the station to image itself as music intensive. What steps did you take in introducing air tal-**

**ent and how did you find your morning show?**

We didn't want to do any typical radio hype type of thing in unveiling the jocks. We debuted the line-up on January 5. We did try out various people in the overnights to get a feel for how compatible they'd be with the format, the image and message of the station. **Jim Ryan** and **Angel Donato**, both from Y100, started a little prior to January 5. But, our initial full jock launch was January 5. I was always interested in **Ali Castelini** back when I was at Y100. But, it didn't quite work out. I kept in contact with her and finally convinced her to join our new team. We're very pleased with **Chuck & Genny**, our morning show. We wanted the show to be entertaining, fun and fairly light-hearted, and the personalities complement the music real well. **Genny Layne** came from WARQ in Columbia, SC. I found **Chuck Dowd** (who used to work at WPST) at Y107 in Los Angeles. I liked what that station was doing out there, and Chuck was a big part of it. On overnights **Robert Smith** (ex of Y100) has been doing a great job. He's been a nice surprise for us. He's a young guy who works hard.

**How important is it to have an ex-programmer like Ali Castelini as your MD?**

It's important, because Ali learned a lot at her first programming job in Pittsburgh at WXDX. She has a lot of good ideas and thinks like a programmer. When we get into brainstorming meetings and promotion meetings, she always has ideas that she draws from her strong background. Ali knows the music really well, but her depth of knowledge and experience goes well beyond the music. Her opinions are very valid on all different aspects of programming a radio station.

**How would you best define Max's format?**

If we had to pigeon-hole it, we would call it a Classic-Modern-Adult-Contemporary-Top 40-Acoustical-Alternative, with a female skew. But seriously, we're a Modern AC format for Philadelphia that targets 18-49 females, and with a focus on the 25-34 cell. This format does vary from market to market. Some stations lean a lot more Eighties. We play some Eighties, but the way we define Modern AC is a mix of strong and appropriate new titles that lean Modern, with strong library tracks that test well. Both groups have to appeal to an 18-49 female listener. We avoid some of the harder-edged Alternative music, we may stay away from a **Fuel** and a lot of the **Bush** records. We are attracting some male listenership. You do get males in this format based upon the fact that you play a **Soul Asylum** and a **Semisonic**, and some of the other Alternative bands that have more mass appeal potential.

**Modern AC is imaged and programmed differently market to market. What were the main characteristics of the Philly market that influenced the decision to go in this direction?**

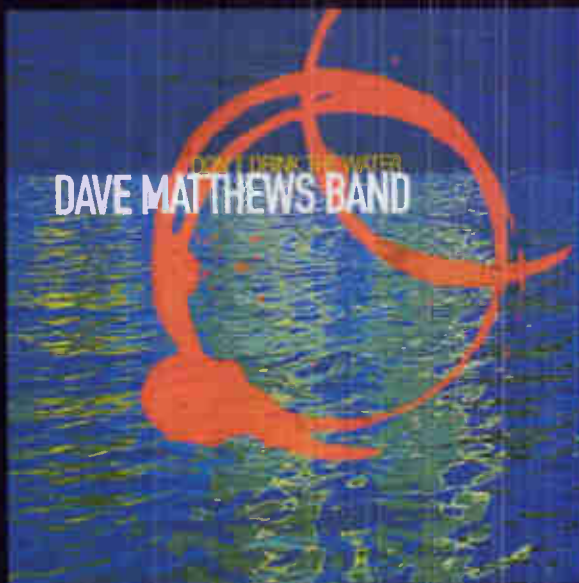

Max staffers hanging out on the Grand Buffet trolley: Chuck, Ali Castelini, Genny Layne, Chuck DaMico, Mike Whittenken, Ed Marshall, with Lisa Waders and Fran Frogione up front.
