Frank Terry from KNBR-San Francisco to KNEW-Oakland to be production director and weekend man.

Bob Guerra from Minneapolis will handle the new "Breaker 91" all night trucker show.

The agenda for the spring Country Radio Seminar - Mar. 19/20 in Nashville is all set and the information is being mailed today (Feb. 6) along with registration forms, etc. Please give this your prompt attention - it's beginning to look like the biggest and best yet.

Thank you for letting us know about these developing defects in mail service. It is a relief to find a number of areas are still functioning normally, but the ones that aren't are hard to figure out as there doesn't seem to be any pattern. (The response of the local postmaster was to send an investigator to investigate our mailing service - same one we've always used.) Also, please note the return "coupon" at the bottom of page 15 - that's the extra page, folded separately.

David Brown, ex-WFMP/WFGL-Fitchburg asks that anyone wishing to correspond with him use this address: Box 9 Ayer, Mass. - 01432. He's working with 2 country and 2 rock discos and would be interested in hearing from any sources for either. Says the country clubs draw well.

Tom Samoray - WKCQ, Saginaw, thanks Mr. Jay Hugely (the "White Knight") for his help to the station in promoting a Convoy Contest. He recorded all the speeds used in a contest in which listeners called in to guess the correct speed (between 50 and 55 mph) of the "Convoy". All correct guesses were entered in the grand drawing for a complete C.B. Mobile unit. Tom reports requests are coming in from over 150 towns in Central Michigan for copies of the convoy code.

Dugg Collins, KDJW-Amarillo started programming the John Wayne LP "America - Why I Love Her" and reports much more response to it than the first time around. Bicentennial interest?

KCUB-Tucson is providing hourly PSA remotes to inform listeners of what's available, best times to go, length of lines, etc. as the Freedom Train passes through Tucson. Bob English also reports that they have just started the "Country Music Game" (syndicated by our old correspondent, Bill Taylor) and early response is above expectations.

WKQ-Saginaw bringing in the Bill Anderson show Fri. Feb. 20 at the Saginaw Civic Center.

KERE-Denver will hold its 3rd. Annual Country Fair Feb 9-14 at the Cinderella Shopping Center - 3 free shows daily, featuring various artists. Expect an even larger turnout than last year.

KSO-Des Moines holding one more Convoy weekend - last shot at a drawing for a C.B. radio, plus trucker sgls and LP's.

Joe Ladd, KIKK-Houston, says the biggest mail pull they've ever had came from a contest where the contestant submitted a "handle" for the 6 jocks - jock to choose his favorite and present the winner for his slot with a C.B. radio. Simple, but effective.

Charlie Ochs, KTUF-Phoenix, took 4th. place in a greased pig chase at the Scottsdale Prada del Sol Rodeo, Sun. Feb. 1. KTUF also had 3 announcers on the line for the parade Sat. morning.

WIRK/FM-W. Palm Beach, just completed a contest in which local amateur groups competed for a trophy. Judges were local professional country and bluegrass musicians. A bluegrass group called the Sawgrass Boys won the event. Station is also doing a successful call in contest where the caller correctly identifies pieces of 5 songs put together.

La Costa did an hour guest show at WHN-New York, Sun. Feb 1 and stayed on for awhile to try her hand at taking a request line.

WHK-Cleveland presents Conway Twitty/ Crystal Gayle/ Dickey Lee/ Mickey Gilley at the Front Row Theater, Feb. 15. Special weekend programming on the station features the artists' LP's with ticket and LP giveaways.

We were saddened this week to learn of the death of Tom McCall, our correspondent and the program director of KYAL-Plano, Texas. Cause of death was a blood clot. Tom leaves behind his wife and four young children.

On the Record

How much of radio is creative showmanship? How much is routine, mathematical format? Answers to those questions would differ greatly from station to station, or from one programmer to another.

Many years ago, when Martin Block started programming his "Make Believe Ballroom" from the best selling records in the New York stores, mathematics first penetrated radio's program department. The old Lucky Strike "Hit Parade" was programmed by a mathematical melange of sheet music sales, juke box plays and record sales. Top 40 radio spread the gospel of arithmetic to every corner of our country - and parts of Canada. And mostly it worked.

The embryo of scientific research was developed through top 40's weekly surveys of record store sales. This objective, scientific approach was later applied to depth studies of the listening audience, pioneered by consultant Mike Joseph and carried out today by the Magid people, Sebastian Stone and his ERA, Tom Terichi and his psychographic studies, and so on. Like specialists in medicine, we're learning more and more about less and less. Today, a growing number of stations carry out continuing audience research through "call outs" - random telephone sampling of the so-called "passive" audience (those who neither buy nor request records). Broadcasters exhibit a fascination with scientific research as the swelling array of statistical data steadily usurps decision making functions at the program level.

This "scientific" radio isn't limited only to top 40 stations; it is being applied also by other formats. Broadcasters everywhere realize the importance of using objective data the better to understand the likes and dislikes of their listeners, in fields of news and public affairs as well as in music. All this is good. But it isn't good enough.

Radio is entertainment, and entertainment is not a science, except perhaps for its business aspects, as necessary for its prosperity and survival. Entertainment is showmanship, creativity, inspiration. Showmanship goes beyond the bare bones of statistically contrived formats - knows when to use them - knows when and how to deviate into areas of the original and the unexpected.

There was only one Rembrandt, one Van Gogh. Their paintings can be charted so that millions can "paint by the number" and achieve a recognizable similarity. But the final result is at best only a cheap copy of a great masterpiece.

A creative broadcaster paints a picture every day. It may not always be a masterpiece, but it is his picture. He uses all the research data he can find, but he uses it: the data are his tools - not his boss. He may not be the entertainer, but he is the producer of the show (if we may mix a metaphor).

I believe strongly in research in broadcasting. In today's competitive radio no programmer has sufficient talent to guide his station by instinct alone. Without objective information he would be walking in the dark. Talent enters in deciding how best to make use of the information that research provides. Talent also enters the human equation in an ability to motivate a staff - to inspire loyalty and dedication to a job. Such talent, like that of a fine painter or musician, is not a common commodity. There is undoubtedly not enough to go around. Where it is lacking, mathematical formulas are substituted. Where it is present, there is a radio station!!

Bill Gavin's Personal Picks

- - - I especially like:

WITHOUT YOUR LOVE (MR. JORDAN)-Charlie Ross (Big Tree) Plot spoofs typical marital infidelity songs by enlarging the conventional triangle to a parallelogram. Country music audiences are well adapted to this kind of a song, and I think that listeners to other formats will find this one entertaining.

IF YOU ONLY BELIEVE-Michel Polnareff (Atlantic) The talented singer-composer has written a delightful musical setting for these lyrics by Clinton and Brackman. I only wish that the instrumental track were a little less prominent in a few spots where the words are less than easy to understand. Even so, the great charm of the record lies in its harmonic structure.

Gary Taylor's Personal Picks

FOOLED AROUND AND FELL IN LOVE-Elvin Bishop (Capricorn) Sometimes a clean basic rock and roll guitar lick and an infectious repetitive lyric are all you need to come up with a winner - I think this is one of those times.

Also Possible

MORE, MORE, MORE-Andrea True Connection (Buddah) STAR-Rita Coolidge (A&M)
SO GLAD YOU'RE A WOMAN-Neon Philharmonic (MCA) DEDICATION-Rogue (Epic)
WE SAID GOODBYE-Dave MacLean (RCA) CONCRETE & CLAY-Randy Edelman (20th Century)
YOU ARE BEAUTIFUL-The Stylistics (Avco) YOU KNOW THAT FEELIN'-Steve Wightman (Rocky Coast)

ALBUM SECTION

Album of the Week: "Baby Face"-Wing & A Prayer Five & Drum Corps. (Wing & A Prayer) Our office is crawling with mediocre attempts to cover hits of the past in spiffed-up Disco arrangements. While most fall flat on their turntables, the Wing and Prayer people offer hope with excellent efforts on ELEANOR RIGBY and I HEAR A SYMPHONY. The current single BABY FACE, and their long OLD FASHIONED MEDLEY add further to this album's overall appeal.

Our correspondents recommend the following LP selections: (Most frequently mentioned cuts are underlined).

Gavin's Gab

The Great Celsius Battle. Bill Ford, KUGN-Eugene, writes: "We have been using both temperature scales in our news broadcasts since last spring. It's a great way to get people to talk about you because there is a certain amount of confusion. We've had a running controversy for the past eight months over Celsius vs. centigrade."

Bill Vancil writes from WISM-Madison, Wis.: "Radio stations which have become obsessed with giving the temperature both ways are cluttering their sound with unnecessary prattle which, at this point, is all but totally meaningless to the listener. It may be a fad, but for now I wouldn't touch it with a 3.05 meter pole".

Obscene language. One of our correspondents quotes a federal statute, code 18 USC Section 1464: "Whoever utters any obscene, indecent or profane language by means of radio communication shall be fined not more than \$10,000 or imprisoned not more than two years, or both". The law was officially brought to the station's attention as a result of the inadvertent airing of the long version of Bob Dylan's Hurricane.

Speaking of lyrics. Chuck Bailey, music director of WDBQ-Dubuque, writes that he dropped the Who's SQUEEZE BOX because of listener protests, and that he decided not to play the Donna Summer and Hot Chocolate records at all. He doesn't consider this to be "censorship". He writes: "We look at ourselves as guests in the listeners' homes. We are there by their invitation, and the same as if we were there in person, we must mind our manners. We will wipe our feet before we enter a home and will not track dirt on the carpet. I feel that many of us in the business, because of our daily exposure to such a wide variety of product, probably become a little more liberal in our thinking of music than does the average person on the street. Personally, I find nothing offensive about these records, but obviously there are many who do. I wonder, Bill, if attitudes have really changed as much as we think they have".

And more lyrics. Bill Brophy, assistant PD of WFAA-Alliance, Ohio, wonders if a new trend is to be found in the growing number of lyric references to prostitutes. He cites as examples the recent hit, LADY MARMALADE by Labelle, more recently Elton John's ISLAND GIRL, DECEMBER 1963 by the 4 Seasons, Roxy Music's LOVE IS THE DRUG, and MONEY HONEY by the Bay City Rollers. He notes that Bachman-Turner Overdrive's TAKE IT LIKE A MAN has a lyric about a woman who was "made for those who pay". He queries, "Is the prostitute the new American rock heroine?"

The World Series of Taco Eating was hosted last Saturday by KSTT at the Gango Restaurant in Davenport, Iowa. The three contestants had a combined weight of over 800 lbs. - before the contest. Twelve hundred people looked on during the two hour gastronomic marathon. The promoters hoped that the winner would break the world's record of 40 tacos and so make the Guinness Book of Records. Alas - Walt Johnson, the winner, could put away only 30.

To correct any possible misunderstanding, the music director of WAVZ-New Haven is still Mike West and promotion people should continue to contact him.

Record promotion calls to Merv Pilgrim, WJSR-Athens, Ga., should be made to a new special number - 404-549-1470.

Promotion calls to KAOK-Lake Charles the week of Feb. 9 should be made to Bill Conway. Regular music director Ken Rice is getting married Saturday (7th) and will be away from the station for a week.

Promotion calls to KINT-Tacoma should be made weekdays after 10AM and should be directed to music director Carl Sawyer.

Congratulations to Norm and Camille Gregory on the birth last Saturday of 8 lb. Arthur Jason ("Baby A.J."). Norm handles the music at KZOK-Seattle.

Folks at KUGN-Eugene were pleased at their showing in the Oct.-Nov. ARB which placed them #1 in the market, total persons, 6 to midnite, followed by KPNW and KBDF (tied), KEED, KASH and KZEL, in that order.

Correction: Our last week's listing of the Hudson Bros. single as a "Top Prospect" on page one came about through mathematical error in our research. Points belonging to another record were erroneously combined with those of the Hudson Bros., placing the record's position higher than it should have been. The record still could develop into a top prospect, but our information at this point doesn't justify that description.

Larry O'Neal, WPPI-Carrolton, Ga., writes, "Record service is fantastic. Thanks to all who helped".

Ed Klimek reports that KMFK plans to conduct another snow sculpture contest, but they're still waiting for some snow. (I could have scraped up lots of that in my front yard Thursday AM.)

Benjamin Hill reminds music people of his change in station. Will now take calls at WCKS-Cocoa Beach instead of WRKT.

Covers

Every now and then the routine of the record business is enlivened by a "cover battle", in which two or more versions of the same song vie for the customer dollar. Probably the greatest number of covers on record came about in late January, 1966. Inspired by the success of the TV program, "Batman and Robin", a total of twelve record companies recorded that many different versions of the "Batman" theme. In our Report of January 28, 1966, we listed them as follows, showing artist and label in our order of preference:

Neil Hefti (RCA)	Gene Simmons (Hi)	Peter de Angelis (ABC)
Link Wray (Swan)	(artist unknown) (Claridge)	The Gallants (Capitol)
Marketts (WB)	Jan & Dean (Liberty)	Spotlights (Smash)
Al Caiola (UA)	Rocky & Riddlers (Jerden)	LaBert Ellis (A&M)

Remarks:

THE GAVIN REPORT #1087
WEEKLY SUMMARY

Smash of the Week: DREAM WEAVER-Gary Wright (Warner Brothers) Current sales gains more than justify the consensus enthusiasm with which programmers welcomed this side to their playlists.

Sleeper of the Week: CAN'T HIDE IT ANYMORE-Larry Santos (Casablanca) Philadelphia leads the way with WFIL & WIFI both charting at #14. Also charted at WBBF, WAIR, WIXY, WCRO, KBOZ, etc. Side was "discovered" and pioneered by Dean Tyler at WIP-Philly when label was pushing the flip side.

Hot Shot: DECEMBER 1963-4 Seasons (Warner Brothers) Unusual song was a little slow taking off. Some said it was "too good". Now it's making big chart jumps almost everywhere.

Top Tip: WITHOUT YOUR LOVE (MR. JORDAN)-Charlie Ross (Big Tree) Instant phone response. #1 requests at WERC-Birmingham and Z93-Atlanta. The demographic spread also includes 35+.

Records to Watch: SHOW ME THE WAY-Peter Frampton (A&M) Many programmers seem to prefer the "live" version from the LP. Being played at WMAK, CKLW, KLIV, KNDE, KYA, KCBN, KFRC, KSLY, WKGL & Z96 (#1 requests).

HIT THE ROAD, JACK-Stampeders (Quality) Former Canadian hit now pulling heavy phone action at a number of smaller market stations.

Bill Gavin's Personal Picks

- - - I especially like:

- BON SOIR BLUES-Flying Burrito Bros. (Columbia) Country flavored foot stomper seems suitable for top 40, A-C and country airplay.
- LOVE IS-Al Hudson (Atco) High falsetto voice is backed by rich vocal harmonies and an imaginative orchestration, in which some interesting passages are played on an English horn.
- SUN SHONE LIGHTLY-Pure Prairie League (RCA) Might have been just another of the many songs on the lost love theme, were it not for the smooth blending of the voices, appropriately matching the subtle poetry of the lyrics.
- MORE-Toga (Private Stock) Strange that it has taken this long for somebody to give the disco treatment to this great old standard. It's a good thing, though, because the imaginative Peter Schirrmann arrangement was worth waiting for. Should be equally as exciting on the radio as on the dance floor.
- HERE, THERE AND EVERYWHERE-Emmylou Harris (Warner Bros.) With this single release of a preferred album cut, the little lady seems ready to emerge as a major artist in the pop field, adding to the honors that she has already gained in country music.

Gary Taylor's Personal Picks

- TOO YOUNG TO FEEL THIS OLD-McKendree Spring (Pye) Often songs of this nature are presented in a tasteless manner - not so in this case. The lyric content most certainly will strike a responsive chord for a great many people.
- RHIANNON (WILL YOU EVER WIN)-Fleetwood Mac (Reprise) A "back to the basics" arrangement that is already receiving some airplay.
- CHARLEY'S GIRL-Lou Reed (RCA) Sounds like a hit.

Also Possible

- SWAY-Bobby Rydell (P.I.P.)
- GLASS OF CHAMPAGNE-Sailor (Epic)
- SUNDAY KIND OF LOVE-Kenny Rankin (Little David)
- ARMS OF MARY-Sutherland Brothers and Quiver
- KEEP ON WALKING-Gino Vannelli (A&M)
- YOU ARE THE ONE-Road Apples (Polydor)
- OPHELIA-The Band (Capitol)
- THE TEASE-G. String Orchestra (Pye)

ALBUM SECTION

Album of the Week: KALAPANA-Kalapana (Abattior) The album arrived in a plain brown wrapper from Hawaii but the contents were anything but plain. Initial effort by this Hawaiian group offers music as refreshing as its lovely home state. With vocal arrangements reminiscent of America, Loggins & Messina, and Hall & Oates, the album should receive much A-C airplay. Nationwide distribution is now being arranged. An auspicious start for what could be the biggest Hawaiian import since Don Ho.

Gavin's Gab

The scream you hear about one minute along in LOVE ROLLERCOASTER by the Ohio Players does not come from some woman who was being stabbed in an adjoining room, according to Mercury A&R man Denny Rosencrantz. In an attempt to simulate a scream such as might come from a speeding rollercoaster, the producer first auditioned the girl whose picture adorns the album cover. Her screams were unsatisfactory, so they used the group's organist, Billy Beck, who had previously done the high voice role in the recording of FIRE. This proved to be the answer to their needs and it was so recorded. Beck, incidentally, now does the scream when they do the song in concert. Mr. Rosencrantz was there in person at the time, in the Paragon Recording Studio, Chicago. Apparently rumors of a knifing or murder have spread so fast in some cities that the record has taken a big surge in sales to people who want it as a collector's item. No one has yet reported just how the weird rumor started.

Gary Deeb's column in the Chicago Tribune of Wednesday, Feb. 11, states that "according to close observers of the local broadcast scene", radio station WCFL "soon will switch from its long running diet of rock & roll to a lush, automated format of 'beautiful music'. Nobody at the station will confirm the story." Deeb reports "insiders" as saying that the change will take place "before April". He states that his "column learned exclusively that the Labor Federation Board of Directors met last week, approved the station's programming switch and okayed the installation of automation equipment". Sources other than Gary Deeb inform us that CFL will now stand for "Chicago's Finest Listening" and that jungles and announcements written around this theme have already been recorded.

In Detroit, the sister station of WMGK-Philadelphia will soon change to the "magic" format which has started so well in the Liberty Bell city. Consultant Julian Breen and PD Dave Klahr will supervise the new format. They'll need some air voices - "pleasant, natural sounding announcers". Applicants should send tapes and resumes to Mr. Tom Miles, Box #20056, Detroit, Mich., 48220. New call letters will probably be WMJK.

Trade ad of the month - so far - the KRTH front cover of SRDS: "Now that you know the secret of our success, why not share the success of our secret?"

We recently announced the expansion of the Drake-Chenault Syndication Service and an executive vacancy in that company. The position has now gone to Denny Adkins from WBNQ-Bloomington, Ill., where he was PD.

WMEL-Melbourne, Fla., celebrating the station's 20th birthday, would welcome brief, congratulatory phone calls or reel to reel tapes from record artists and executives. Phone: 305-254-2282, or mail to: P.O. Box 1318, Melbourne, Fla. 32935.

WTAE/FM-Pittsburgh attributes some of its audience gains to its new "Disco 96" in the non-simulcast portions of its schedule. A variety of current disco hits are played Mon.-Sat., 7PM to 6AM, and 10AM to 2AM Sun.-Mon. Gains in men were 2.9 and in women 1.9 in the percentage columns.

To our correspondents: (1) It has come to our attention that some stations are charting certain records but not playing them, or that they are reporting to us requests for records that they have not yet played on the air. We ask that, regardless of what you chart, you should indicate any that you are not playing.

(2) It is helpful to us, when you are submitting items for "Gavin's Gab", if you will write them up on a separate sheet of paper, rather than on the bottom of your Action Report form.

(3) A-C correspondents should try to get their action reports to us no later than Wednesdays, so that we can use them in our research tabulations for that particular week. While we can list excerpts from reports received Thursdays or Fridays, we have to hold them over for the following week's tabulations.

Baseball has had a number of brother "acts" - the DiMaggios, the Deans, etc. - but how about radio? Well, at WABB-Mobile, the air staff includes three Griffith brothers - Scott, Dave and John - covering all three shifts from noon to midnight. A fourth brother, Steve, is on the air at WPFA-Pensacola, where the father has been g.m. for ten years. Even the mother has an FCC 3rd class endorsement. Any other family teams in radio?

At WOAI-San Antonio, Lee Fisher has just been promoted to PD. He'd still like to hear from record folks - can be reached Tuesday through Friday between 9AM and noon. (Incidentally, station could use better LP service.)

There's a talented artist (painting, drawing, etc.) serving a term in a Georgia prison, who offers to make charcoal or pen and ink sketches of radio or record people at a very low fee. The sketches, made from photographs, could be used to personalize stationery or memo pads. Photos should be mailed to Jerry Grant, W.C.I., P.O. Box 98, Rock Springs, Ga. 30739.

KBOY-Medford switched to a progressive rock format on February 1, playing lotsa albums. They'd appreciate better LP service, especially the "old" albums.

Dick Lawrence, PD of KOLM-Rochester, Minn., writes that they started giving both Celsius and Fahrenheit temp readings a few months ago. But when that was combined with giving the wind chill index, it began to sound too much like a clutter of numbers. So now they're just using Celsius.

Speaking of temp reading, all Canadian stations are giving Celsius readings, as requested by the CRTC.

Thanks to those who returned their "coupons" from last week's page 15, showing details on late postal deliveries of The Gavin Report. We've already pinpointed several areas where delays are bad - one is Eastern Washington state. Maybe our efforts locally and in Washington, D.C. are paying off, because two correspondents who had been getting late deliveries reported that last week's Report arrived right on time on Monday morning.

Because of a delay at the printers, the registration and agenda materials for the March Country Radio Seminar were not mailed until this week. Agenda Chairman, Bob Mitchell, KCKC-San Bernardino requests that stations give the enclosures that refer to specific items their immediate attention. What to send and where to send it is outlined in the mailing. Please be prompt so that the people working on the various projects will have time to do a good job.

Along these lines, Terry Wood, WONE-Dayton, reminds us that he and Bob Young, WMC-Memphis, are putting together a half hour VTR presentation as part of a special feature Saturday afternoon at the Seminar. Anyone wishing to participate should send a VTR or film of the spot or spots to Bob Young at WMC.

KKYY-San Antonio held its 4th Annual Great Country River Festival Feb. 5, 6 & 7. The Texas Park Rangers estimate crowds at 125,000 over the 3 day period. Station thanks the fine lineup of artists who participated in the event.

WJJD-Chicago has been running a "Winning Wheel" contest for the past 6 weeks. Specified callers select a number 1-11. When all numbers on the wheel are covered, a spin determines the prize winners. Prizes include TV sets, cash, etc - some quite valuable. Station taped the spin sounds from a genuine old carnival wheel. Listener interest high.

KRKT-Albany, Ore. plans a concert a month for the Bicentennial year. Holding one tonight (2/13) at the Lebanon Union High School Auditorium with local artists plus Lawanda Lindsey and Sheb Wooley.

In The Beginning

Now that radio programming conventions seem to be multiplying every year, it may be of some historical interest to note how it all started ten years ago. This announcement appeared in our Report dated February 18, 1966.

On The Record (2/18/66)

Last week we sent a special invitation to all the radio people on our mailing list to join us in Chicago March 26 and 27 for a Radio Program Conference at the Sheraton Chicago Hotel. It should be emphasized that the Conference will deal with major programming trends in all four fields of program policy: Pop format, Non-rock, Rhythm & Blues, and Country & Western. We'll be concerned about changes in audience distribution patterns in various areas, about the impact of telephone shows, about formats, about music, news, promotions, production and personnel.

The Conference is planned so as to provide plenty of opportunity for group participation. In addition to the speakers, there will be question and answer periods, round tables and panel discussions. There will be plenty of people with plenty of important things to say, both from the platform and from the floor.

While fees for any station delegate vary according to the size of the market, fees for additional people from the same station are only \$25.00, regardless of market size. To our friends in the record business, many of whom have expressed interest and encouragement, we're sorry that this meeting must be limited to radio people only. If it is as successful as we hope, there is a possibility that another year we can get together with a representative group of record manufacturers to discuss some of our mutual problems.

(Now back to 1976) Also among those who took part in that pioneering venture were Chuck Blore, Kent Burkhart, Arnold Schorr, LeBaron Taylor, Frank Ward, Dick Smith, Joe Bogart, Ed Wright, Ken Draper, Charlie Murdock, Pat O'Day, Jack Thayer, George Dubinetz, Lloyd Webb, Alan Slight, Lucky Cordell, Chris Lane, Paul Drew, Al Newman, Mark Olds, Charles Bernard, Glen Bell and Russ Barnett. We were very green about organizing such a meeting; for instance, we made no provision for setting aside hotel sleeping room reservations for our guests. We wish Bob Wilson's Atlanta meeting all success.

RetrospectFebruary 4, 1966

James Ingraham, manager of KFRC-San Francisco, confirms reports that the station is favorably considering a more modern music format. He has been exploring such possibilities with owner-manager Gene Chenault (KYNO-Fresno & KGB-San Diego) and with Bill Drake. Mr. Ingraham denies rumors to the effect that a switch to the KHJ top 40 has been definitely agreed upon or that the change will be effective on April first.

Dan Sorkin takes over KSFO's 4 to 8 PM show, replacing Dave Niles.

Russ Syracuse leaves KFRC for KNBR-San Francisco.

While Georgie Woods is in Vietnam leading a group of entertainers for troop shows, his TV show will be handled by Larry Brown and Gene Kaye.

Al McCoy, PD at KRUX-Phoenix, will be leaving Feb. 15 to become play-by-play announcer for the new Phoenix Giants, and sports director for station KOOL.

February 11, 1966

John Wellman sends this headline from the Chicago Daily News: "Gavin Warns of New Chinese Push in Korea". His comment: "We all know that you're right on top of the record industry, but don't you think now that you're going just a little too far?". My answer: "It was a slow week in records, and besides, think of the publicity."

Ted Kramer returns to KCKN-Kansas City as program director.

Mike Nardonne is the new PD at WIZE-Springfield, Ohio.

Dick Youngs replaces Cal Stout as night DJ at KIOA-Des Moines.

Bill Randle, veteran Cleveland DJ, turns up as a record producer with ENGLAND SINGS-Ron Odrich (Roulette). Good job, too.

Grahme Richards, long time radio pro, leaves WFUN-Miami.

Monkey Business

The following letter is one of those fascinating narratives that simply can't be compressed into a paragraph in Gavin's Gab. We think our readers will find it as entertaining as we did.

Dear Bill:

On January 23, nine Rhesus monkeys escaped from the Overton Park Zoo in Memphis. A week and a half later, all but one had been captured. The remaining primate was a female named "Rhoda", and she captivated the heart of the city. She was seen daily and filmed by hundreds of would-be captors swinging along the rooftops of an apartment complex (where she had dwelled with the other eight before their capture) and leaping from building to building atop the Southwestern College Campus. We at WHBQ felt it our civic duty to bring Rhoda back to the zoo. We put the word on the air: "We're going bananas! Help get the monkey off our back! From now on there will be no more monkey business on WHBQ!" Whenever our listeners heard the cry of Tarzan on the air (Yes, it was the original yell taken from Johnny Weismuller movies) they were to call in. We put them on the air to talk to Rhoda and convince her to go home. The response was incredible! Have you ever heard hundreds of adults talking to a monkey? It was one of the funniest things I have ever heard...and, it worked! Less than 18 hours later, Rhoda went home.

Here's the kicker: When they got Rhoda back on Monkey Island, they counted heads (or tails) and discovered there is one still missing! Her name is Charlotte and we are taking up our barrels once again to capture Charlotte and bring civil order to the city of Memphis.

I must add at this point that we are not giving away anything or making any type of contest out of this. Too many radio people think in terms of contests rather than "promotion". We're getting involved with our city.

Well, I must be off. A new safari is forming and we've some serious trapping to do. When we get Charlotte, we'll let you know. Umgowa!

Sincerely,
Dave "Jungle Jim" Williams
WHBQ Program Director

Retrospect

February 18, 1966

Revised DJ lineup at KFRC-San Francisco: Jim Washburn 6 to 10 AM, Royce Johnson to 2:30, Bobby Dale to 7, Steve O'Shea (from KNBR) to midnight, Mike Phillips (from KNBR) to 6 AM. Bill Drake is now functioning as KFRC's program consultant. Station presently is concentrating on old non-rock hits, with a few smoother entries included from current best seller lists. Station now carries Warrior's basketball, and it is unlikely that a switch to all out pop format will be made until the end of the basketball season. (See late flash, below).

Paul Drew disagrees with our last week's comment on time and temp: "It's like a guy looking at his watch and not knowing what time it is.....you only hear the time and temp when you want to hear it."

Okay - but since so many stations insist on temperature announcements, DJ's should be reminded that the word is not "Tempacher".

CKY's DJ's Dean Scott and J. Robert Wood (Winnipeg) will be available when that station switches format the end of this month.

Roy Elwell has moved from KFRC to KCBS-San Francisco, where he will handle a telephone show Saturdays and Sundays from noon to 5 PM.

Late, late flash - Ed Mitchell, from KRUX-Phoenix, joins the KFRC staff. Effective 2/19 add him to the lineup for the 9 to noon shift.

February 25, 1966

Frank Benny replaces Ken Dowe as PD at WUBE-Cincinnati. Ken takes over the PD spot at KNOX-Knoxville.

Dick Drury, operations chief at WHK-Cleveland will become PD of WOHO-Toledo on March 7.

Country Club....cont'd. from p. 6

Service, cont'd. WNAT-Natchez desparately needs service from all major labels!
 KSON-San Diego is starting a bluegrass special 6-8PM, Saturdays. Needs bluegrass LP's - all sources.
 WKDY-Spartanburg needs the Charlie Daniels sgl.
 KIKK-Waco needs LP service for progressive country, especially A & M and MCA.
 Carson Schreiber resigns from KLAC-Los Angeles effective today 2/20. Carson has been with Manager Bill Ward for 9 years and music director at KLAC for the past 5. He assures us that the departure is his own decision and that there has been no friction or hard feelings. He may be reached at 213-887-5995.
 If you didn't receive the forms for the Country Radió Seminar write them P.O. Box 12617, Nashville - 37212, for the packet. Once again we stress the importance of getting in the display material and VTR and/or film material to the proper people at once! Looking forward to seeing you there!
 Jim Powell to KHAK-Cedar Rapids as Music Director. PD at the station is old friend Dave Donahue. Dugg Collins, KD JW-Amarillo would like information from stations using CR radios as a request line tool - how promoted, what results, any questions with the FCC, etc. If anyone can help Dugg would "appreciate". Address is Box 5844 - 79107.
 Buddy Van Arsdale, KZYM-Cape Girardeau, says they're loaded with piles of old 45's which they'd love to turn in for vinyl recycling. Where, how, to whom? Can anyone tell him?
 WITL-Lansing reports that they find the "Country Music Radio Guide" a good promotion. Giveaway lists calls and frequencies of country music stations for the 50 states. Jim Walton says they're going fast. Station is also getting set for the annual St. Jude Radiothon. All stations in the city put aside competition for 2 days and cooperate to raise money for the hospital.
 WWOK-Miami is assisting a local C.B. organization in the publicity for a C.B. Rally to raise funds for extensive plastic surgery needed by a local youngster.
 WBRG-Lynchburg is expanding its progressive country format to include more A/C material. The 3rd Annual Country Fair, 2/9-14, held by KERE-Denver at the Cinderella City shopping center, was the expected success. Continurous crowds from a 3-state area.
 Johnny Bridges, WUBE-Cincinnati, tells us that both station sponsored Conway Twitty shows 2/13 were sellouts. Performers in addition to Conway were Mickey Gilley, Dickey Lee and Crystal Gayle.
 WXOR-Muscle Shoals pleased with the response to a Loretta Lynn and Billy Crash Craddock concert recently and now plans to sponsor more live shows.
 WIL-St. Louis having fun with a promotion built around bachelor Jim Shannon, PM drive. Gimmick is that he's looking for a wife - gals submit picture and qualifications in 25 words or less. Winner does not get Jim - it is never stated that she will - but does receive a wardrobe and a night on the town - chaperoned, of course, by a married couple from the WIL staff.
 KIKK-Waco reports its Willie Nelson concert a great success.
 Bob English, KCUB-Tucson, says their big news this week is that they've finally eaten the last of the peanuts left over from their "Great Goober Giveaway".
 Don Tiegiser, WNAT-Natchez, would like to receive playlists from other stations.
 Ray Griff visited WIRK/FM-W. Palm Beach 2/18 and did an hour on the air visiting with the staff and answering listener calls.
Memo to correspondents: Please see last paragraph of Gavin's Gab for a message. Thanks. J.

Gavin's Gab

Eric Norberg reminds me of the formula I learned in Science class for converting Fahrenheit to centigrade (now called "Celsius", after the inventor of the centigrade thermometer) and/or vice versa. It's

$5/9 (F - 32) = C$ Or: $9/5 C + 32 = F$.

Now anybody can make up a conversion table. If they're interested.

Jules Malmud, Executive Director of NARM, calls the attention of all California members to state assembly bill #2658, which would impose a 5% tax on wholesalers or retailers on the sale of "music supplies". This would include phonograph records, tapes, instruments - even sheet music. Tax proceeds would go to support music education in the schools. In spite of such a praiseworthy objective, Mr. Malmud calls the proposed tax "discriminatory to the music industry". I agree.

WIVY-Jacksonville has been encouraging the study of American history by means of a novel contest. Listeners phone in and ask the jock a history question. If he doesn't answer it correctly, caller wins a prize. (Lots of prizes have been won so far.) Station has also created some talk by adding a Beatles single - SHE LOVES YOU - to their printed survey and to their playlist, where it received regular airplay rotation.

Every time I give a correspondent credit for a "first" in breaking a record I hear from two or three others who claim the same honor. Marvin Rhodes, KMED-Medford, keeps file copies of his weekly Action Reports. He sends me a photo copy of his August 26 report, showing CAN'T GET YOU OFF MY MIND as his top pick.. By October 7 he had flipped it and showed it "gaining". On October 14 it was charted top 10. Don Murray, KYJC-also of Medford, writes that he has had it on the air for "over two months" and that it is now #1 on his chart. He quotes Mark Nathan and Scott Shannon as verifying his claim for a "first". Meanwhile, in Philadelphia, WMGK's Dave Klahr quotes local promo man Tom Kennedy as giving him (Dave) credit for pioneering the side in Philly. Claims and counter claims - and it isn't all that important.

Gary Stevens writes from KDWB-Mpls./St.Paul about his company's (Doubleday) acquisition of WYOO (FM). The FM transmitter will be moved to the top of the I.D.S. Center in downtown Minneapolis. Gary says that this will make "the most powerful contemporary simulcast operation in the market".

In Providence, winner of the WGNG pet rock contest will qualify for a trip to either Pebble Beach, Boulder, Golden Nugget (Nevada), Little Rock or Stony Creek (Va.). (What? No Rock Springs?)

If any of our readers didn't already know, WEMP-Milwaukee has hired morning man Bob Berry away from WOKY and has switched to a rock format. (If Bob Berry's new contract is only half as fat as rumor tells it, he'll be about the top paid air talent in Wisconsin.)

E.Karl, PD of WNCI-Columbus calls attention to his station's favorable showing in the Total Survey Area in the Oct.-Nov. Arbitron. His figures show his station #1 in men 18-34 and in women 18-24, 6AM to midnight. In total audience WTVN is tops with a heavy majority of the 35+ audience, followed by WBNS-FM, WCOL, WBNS, WTVN-FM, and WNCI in that order.

WTVL-Waterville, Maine, would like to hear from other A-C stations on how they program the various day parts.

Ed Michaels tells us that WBRG-Lynchburg is expanding its country format to include many of the A-C hits. He'd appreciate A-C/pop service - all sources.

In answer to some questions: ABC television closed its series on the Winter Olympics with AMERICA THE BEAUTIFUL, sung by Ray Charles. For those who want to track down this classic recording, it can be found in the album "A Message From The People", ABC X 755/JRC. (Thanks to Elma Greer for the info.) Bill Young thinks it would make an excellent official bicentennial record.

On the bicentennial subject, there's a cut on the Cledus Maggard LP that might be appropriate, particularly if it were edited down to about 3:30 from its present 6:07. It's C.B.76 - Side 2 Cut 4. Built around the plot of how history might have been if they'd had good old C.B. radio back then.

Our black radio reports indicate huge sales on the Johnnie Taylor entry, DISCO LADY. Betty Hollars says it looks like a sure #1 for her chart next week. It's crossing pop in a few areas and will most likely do so in many other spots.

Correction: Tom Shannon writes that he has not left KEWB-Rochester as printed here last week. (Sorry for the error, Tom.)

Correspondents please note: Janet and I will be away from our office from Feb. 25 to March 3. We're off for Hawaii with a group from the University of California Extension to study the habits of humpback whales and other marine creatures that swim off the coast of Maui Island. Ron Fell and Kent Zimmerman will be on hand to assist Gary, Betty and Diane in taking phone reports. They'd appreciate receiving the reports as early as possible. If the lines are all busy, please keep trying.

Bill Gavin's Personal Picks

- - - I especially like:

- WALK YOUR FEET IN THE SUNSHINE-5th Dimension (ABC) Graduates from the album with a Jimmy Webb arrangement that gives the group plenty of opportunity for a smooth blending of voices and instruments.
- WORDS (ARE IMPOSSIBLE)-Donny Gerrard (Greedy Records) Unknown label debuts with a professional production of a very commercial sounding song.
- THERE'S A KIND OF HUSH (ALL OVER THE WORLD)-Carpenters (A&M) Not necessarily an improvement over the old Herman's Hermits version, but it's different. Has a sort of Tijuana Brass flavor.
- LOOKING FOR SPACE-John Denver (RCA) Seems certain to rate heavy airplay. Deserves it.
- I THINK I'LL GO TO MEXICO-Eddie Joe Downs (Thimble) Mariachi trumpets lend authenticity to this charming, simple song.
- COME ON OVER-Olivia Newton-John (MCA) Intermittent vocal harmonies add color to the relaxed production. The singer's voice and style seem to have matured somewhat.

Gary Taylor didn't have time for any picks before leaving for the R&R convention.

Also Possible

- QUEEN OF CLUBS-K.C. & The Sunshine Band (T.K.)
- THE BIG HURT-Front Runners (Tom Cat)

ALBUM SECTION

Albums of the Week: TO BE WITH YOU-Tony Orlando & Dawn (Elektra) Riding the crest of their highly rated TV show, Mr. Orlando and the ladies Dawn have come up with their strongest album to date. It begins with the 4:45 version of CUPID which is opened and closed by MY FUNNY VALENTINE. Also worth noting is Ashford and Simpson's classic YOU'RE ALL I NEED TO GET BY. The album also features Chicago's HAPPY MAN, Janis Ian's WHEN THE PARTY'S OVER and a couple of new tunes of particular merit: TO BE WITH YOU and SELFISH ONE.

BREAKAWAY-Gallagher and Lyle (A&M) After listening to the title tune and STAY YOUNG, one can't help comparing the duo with Simon and Garfunkel. Their current single I WANNA STAY WITH YOU and HEART ON MY SLEEVE offer more attractive vocals and for a change of pace try the upbeat NORTHERN GIRL.

Report on Atlanta

I asked Gary Taylor to take notes on the sessions he attended at the R&R Convention and to write up some of the research ideas that emerged. Here's his report:

At the opening session the statement was made that "there's a lack of faith in record store reports". This acted as a catalyst for discussions in the area of research.

Some programmers contended that because of this decrease in confidence levels, broadcasters are forced to seek other guidelines.

A major, fairly new research device is call outs. Several systems have been devised. Some are in the form of random phone calls, phone contact with the station's previous contest winners (many from files going back 4 or 5 years), and direct mail questionnaires, in addition to personal contact at the store level. These, of course, are only a few of the methods that have broadened the basis of research.

The necessity of continuing to update oldies through research was stressed because the listener continues to progress from one demographic to the next.

An obvious conclusion was that we can get buried in research. It should be used as a foundation, and as such, if applied properly, it's helpful. Research is just one of several building blocks in programming a radio station. Radio still needs a positive image, a charisma that research alone cannot bring.

The CBS records research division made a presentation on the singles buyer. It was based on a sampling of 1,000 interviews in 11 large markets and the who, why, and wherefore of purchasing a hit single (regardless of label). Their presentation was professional and informative, and even though the audience reaction was mixed there was sufficient evidence offered to stimulate new thoughts and ideas regarding the radio listener. The CBS people deserved the many compliments they received.

It's impossible to report on all the discussions and activities that took place in Atlanta. However, the opinion is that there was worthwhile information exchanged that was stimulating and useful to radio broadcasters and record personnel alike.

Congratulations to Bob Wilson and his staff for pulling together the largest radio programming convention on record.

Country Club.....cont'd. from P. 6

WSLR in Akron is putting together a benefit show for the family of Tom McCall of KYAL-Plano, Texas. Bob Fuller as WSLR hopes the show can raise \$10,000 for Tom's wife and four children. We'll keep you up to date on this as more details become available.

Available: J. W. Dance (KONO-SanAntonio) is looking for air talent/music director or P.D. shift. Phone 714-772-4291.
John Wallis (KZEE-Weatherford) looking for air talent and/or music director shift. Phone 817-594-3826.

WITL in Lansing is understandably proud of their efforts last weekend during the "All Radio Radiothon". WITL, WVIC, WJIM, WFMK and WILS raised a total of \$16,000 in pledges to St. Judes Children's Hospital.

At WSM-Nashville, Mary Cathrine Murphey has officially taken over as country music director with Ted Johnson continuing to handle the pop music operation.

WKCC-Saginaw reports their Bill Anderson, Mary Lou Turner, Jimmy Gatley and the Po' Boys show was a real success. The show commemorating WKCC's 2nd Anniversary as a 50,000 Watt stereo country station. Tom Samoray says Anderson's "Saginaw Michigan" brought a great response (wonder why?) from an already responsive crowd.

WPOC's Bob Walker won Baltimore's annual Girl Scout Cookie Crunch last week consuming 39 cookies in 5 minutes. We wonder if the cookies were Baltimore Oreos.

The Gab

Continuing our "families in radio" - there are the Foizen Bros. at WIRK (AM/FM)-West Palm Beach. Rick is PD of the AM (rock) and Scott handles PM drive on the FM'er (country). WIRK also has another brother team: The FM PD is Barry Marsh while his brother Randy holds down mid-days on the AM. Plus - the Marsh's father, Ray, does PM drive for another Palm Beach station, WJNO.

Dave Williams has resigned as PD of WHBQ-Memphis and will return home to Scaramento to do commercial production full time. Revised lineup at WHBQ is Bob McLain (formerly WNOE, 13Q), Tony Maddox (up from swing), George Klein (back as PD), Dude Walker (still), Sheila (up from 10PM slot), Jay Michael Davis (still) and Stew Robb returns for swing shift.

Les Howard, new PD at WGTO-Cypress Gardens, writes that his station is moving up from "all over the road" to adult contemporary. This 50kw station (540 on the dial) could use current pop service.

Art Morris, KTTN-Trenton, Mo., writes that his station will conduct its annual disc jockey contest on 8 consecutive Saturday afternoons, starting March 13. There'll be 35 contestants, drawn from local schools. Each one will be given 30 minutes to talk about his school (and to play his favorite records.

Ten Dallas and Fort Worth radio stations jointly protested to Mr. William T. McClenaghan, VP and GM of Arbitron at his decision to increase the price of separate Trading Area Reports for Dallas and Ft. Worth and to delay delivery of them until 30 days after release of the combined two city report. The protest letter was signed by officials from KBOX/KTLC, KLIF, KFJZ/KWXI, KBUY, KXOL, KKDA, KJIM, WRR (AM/FM), KOAX and KNUS. The letter points out that the two cities are 30 miles apart with completely separate business communities. The stations point out that the combined D/FW Report is "of no value to the many local advertisers who depend on one city or the other, but not both, for their business." Stations request that the decision be reconsidered, but if not they'll cancel.

Correction: Our proof goof of the year (so far) was the double listing of the Bee Gees' FANNY at #9 and #12 in Friday's "Recommended Playlist". The record was correctly placed at #9 but the #12 slot should have been occupied by Foghat's SLOW RIDE. And just to show that errors - unlike lightning - can strike twice in the same place, we also double listed Salsoul Orchestra's TANGERINE in "Picks & Plays". We're not only sorry, we're embarrassed.

Correction: Harry Jeffery says he is not available as an air talent as we indicated last week. He is resigning from WOOK-Washington but will not be available until mid-April when his contract runs out. At that time he will be seeking a management position - not air work or programming.

Wayne Coffey, program director of KEIN-Billings, reports the station basketball team raised over \$8,000 for the area schools while compiling a 10-12 record for the season. Their won-lost record may not be overly impressive but the \$8,000 contribution and the community involvement is certainly worth noting.

On occasion we hear of someone in secondary radio who has been "discovered". Well, Bob Morgan is one who evidently didn't feel like waiting for that moment to occur so he sent a tape (just for the heck of it, we're told) to Rick Sklar. Bob does week-ends at WLCY-Tampa and obviously wanted a full-time position. You guessed it, he's the new all night talent at WABC-New York.

Dean Tyler reports from WIP-Philadelphia that their Radiothon for the National Lukemia Society last week-end was a huge success, bringing in \$55,500 in pledges during the 24 hours. Not only did Dean last the entire 24 hours on the air, but he and the rest of the air staff were joined by Telly Savalas, Al Martino and Barry Manilow. Dean wants to thank everyone in the record industry who helped make this, WIP's first Radiothon, a winner.

Service Notes: WLCY/FM-Tampa is going live in a matter of weeks with a stereo rock format. They are in need of singles, albums, and oldies from all sources.

WRQN/FM-Portland, Maine will be going on the air soon with a new AOR format. Pending FCC approval the station will be affiliated with WLOB and the process of building up the new library is underway. Service is needed for the new facility - please contact Steve Brody at WLOB.

To Our Friends in Texas

I plan to be in Austin the weekend of April 24-25, and I'm putting together an informal radio programming seminar for broadcasters in Texas and vicinity. I've already talked with Bill Young, Mike Lucas, Chuck Dunaway and Bill Mayne and they'll all be there. Although our plans aren't very far along as yet, I can tell you now that we'll try to follow the general pattern of our previous meeting in Galveston. Sessions will be largely unstructured - just a moderator to get things started - with forenoon and afternoon sessions on Saturday and a forenoon session on Sunday. No registration fee. You're invited to be my guests for lunch on Saturday and for a cocktail reception Saturday evening. Meeting sessions and lunch will be for radio people only, and our friends in the record business are invited to join us for cocktails.

Please write me direct if you plan to attend and if you'll be staying at the hotel. (the Sheraton Crest) overnight on Friday and/or Saturday. The meeting is for all broadcasters in the area, not just for our subscribers, so feel free to pass the word to other stations. I'd appreciate your getting back to me as soon as you can so that we can let the hotel people know how many to feed.

Bill Gavin's Personal Picks

- - - I especially like:

- STRANGE MAGIC-Electric Light Orchestra (United Artists) Group's musicianship rates high, matching the quality of both the material and production.
- FIVE FOOT TWO, EYES OF BLUE-Danny Bryant (Columbia) The old graybeard is enhanced here by banjo sounds, surrounded by an imaginative orchestration.
- I HOPE WE GET TO LOVE IN TIME-Marilyn McCoo & Billy Davis (ABC) Lovely voice of the former 5th Dimension lead singers fits comfortably in this classy song.
- JUST WANT TO TASTE YOUR WINE-Billy Swan (Monument) Unusual lyric receives a clever production that should bounce it fast up the charts.
- MOZAMBIQUE-Bob Dylan (Columbia) Carefree Latin rhythm supports Mr. D. in this sparkling excerpt from his big selling album.
- (EVERYBODY'S GOIN') HOLLYWOOD-Marc Allen Trujillo (Private Stock) Interesting song showcases a talented new vocalist in this professional production.

Gary Taylor's Personal Picks

- YOUNG BLOOD-Bad Company (Swan Song) An up-dated version of the 1957 Coasters' hit. The album cut pulled strong phone response - no reason the single should not do the same.
- MISS YOU NIGHTS-Cliff Richard (Rocket) The artist has always enjoyed much success in Europe. This may be the key to that same type of success in this country. An exceptional song in a week filled with many fine releases.
- I THOUGHT IT TOOK A LITTLE TIME-Diana Ross (Motown) The life she breathes into a song is always a delight.
- STEPHANIE-David Geddes (Big Tree) His track record is such that a new release attracts immediate attention.
- WRITE ON-Hollies (Epic) This group seldom releases anything that is less than outstanding. The spelling makes sense in the content of the lyric.

ALBUM SECTION

Albums of the Week: SILK DEGREES-Boz Scaggs (Columbia) A strong album with an excellent variety of material. Many in San Francisco have wondered why it has taken so long for Boz to catch on nationally. No doubt this album will make many new fans for Mr. Scaggs. Particularly powerful is WE'RE ALL ALONE. Other outstanding cuts include LOWDOWN, IT'S OVER, HARBOR LIGHTS and Allen Toussaint's WHAT DO YOU WANT THE GIRL TO DO.

SWEET HARMONY-Maria Muldaur (Reprise) Few artists can put material by Neil Sedaka, Smokey Robinson and Hoagy Carmichael on one album and get away with it. Maria's version of Sedaka's SAD EYES is the best yet. Her version of Smokey's SWEET HARMONY (with help from Wendy Waldman and Linda Ronstadt) is just what the title says. Hoagy's old ROCKIN' CHAIR gets a classy arrangement from Benny Carter and a little more sweet harmony from Hoagy himself.
