AL COURY GEFFEN GM

Al Coury has been appointed General Manager of Geffen Records. When President Ed Rosenblatt made the announcement he said, "Al has been a focal point of the success of this record company since he joined us in 1985...his incredible expertise in the management of a record company goes well beyond promotion..."

Coury as been in the music industry for 30 productive years. He spent 17 years at Capitol, was co-founder and President of RSO and President and owner of Network. He engineered the success of some of the industry's biggest sellers including the soundtracks to *Saturday Night Fever* and *Grease*. Coury merged Network with Geffen and in 1985 became the company's

head of promotion. "I'm proud to part of the top management team of this company," said Coury. "I view the people who work here as absolutely the best in the business."

COLE VP, BERGER PD

Bobby Cole, who has been Program Director of K-101 FM-San Francisco and VP, Programming for Fairmont Communications' FM stations, has been upped to Vice President, Programming for all of the company's radio properties.

Taking over as K-101 Program Director will be Larry Berger, veteran programmer of WPLJ/Power 95 in New York City. "I'm delighted to be able to turn the reins over to someone of Larry's caliber," said Cole. "Obviously he has a very longstanding and successful track record, and I have every reason to believe that will continue in his position as Program Director of K-101."

Berger recently exited WPLJ after 14 years. He comes to Fairmont at a

time when the company is enjoying ratings success. All seven of their stations posted gains in the across-the-board 25-54 demographic.

Berger starts at K-101 on February 8

WAILIN KNEW PD

KNEW-Oakland/San Francisco's morning man Jon Wailin has taken over programming the Country outlet. Wailin has been doing the morning drive air shift since March of '81, and will continue to ride the airwaves. The station will continue with no changes, although Wailin says "we'd like to think it'll get better."

Wailin will answer directly to Malrite's VP/Radio Division/Radio Programming Jim Woods. "Jim and I go back to my days in Rockville, Illinois," said Wailin "I've worked for him since I've been here. His office used to be down the hall. Now it's a long distance phone call."

Wailin will also be working with Lee Logan who will now devote more time to KNEW's sister FM, KSNB.

RESIGNATIONS AT KFOG AND KLOS

KFOG-San Francisco PD Dave Logan handed in his resignation on Tuesday, January 24.

Logan joined the Susquehanna station six years ago and left for a brief stint with Burkhart - Abrams. While with B/A he consulted KFOG, and returned to the station full-time in 1987.

The position remains open.

In Los Angeles, Charlie West has resigned his position as PD of KLOS.

"There's no dirt, no rationale behind it," said GM Bill Sommers. "There wasn't anything nasty—we love each other. It's just that Charlie wants to do something else."

West had been at KLOS for two years. Sommers indicated that he has no one in line for the job.

Program Director Of The Year

See you in San Francisco!

HOT MOVES AT WQHT

HOT 97 FM-New York Vice President/General Manager Stuart Layne announced the restructuring of the station's Programming Department.

Program Director Joel Salkowitz has been promoted to Operations Manager of HOT 97 and Regional Vice President/Programming for Emmis Broadcasting; Assistant Program Director/Music Director Steve Ellis has been upped to Program Director and Kevin McCabe is the new Music Director. McCabe comes to HOT 97 from Q-107 in Washington, D.C.

"These moves make our programming effort even stronger," said Layne of the appointments. "Joel and Steve have done an outstanding job...adding a bright, young talent like Kevin is the icing on our cake."

Salkowitz will still oversee the programming of HOT 97 FM, and will work with Emmis properties WLOL-Minneapolis and WAVA-Washington, D.C.

DRISCOLL TAKES OVER IN PHILLY

On Friday the 13th Mark Driscoll, former KIIS-L.A. Production and Creative Services Director, head of Driscoll Promo Company and colorful broadcast veteran, took over as PD at WIOQ-THE NEW Q102 in Philadelphia.

"We're not here to be number one, we came to be the ONLY one," said Driscoll as he spoke of the station's new identity. "We're in the middle of massive personnel changes--we're cleaning house."

Driscoll describes the new Q-102's format as "1990's Top 40--full speed ahead!" His promotion company will also be employed by WIOQ's parent company, EZ Communications, and he will be the voice of the chain.

Mark Driscoll is well known to Gavin Seminar attendees. His Radio Production session is entertaining and informative--so much so that Driscoll is conducting it again this year--with Bobby Ocean--by popular demand.

Driscoll's varied 25 year radio career includes stints at such diverse stations as WLUP-Chicago and WNBC-New York. He worked in Philadelphia 25 years ago--his first MD job was at WIBG. So, the circle is complete.

In parting, Driscoll said, "Please don't let Scott (Shannon) hog my headlines!"

PIOMBINO REPLACES THE KID

Promotion Director Rich Piombino will replace Kid Leo as Operations Manager at WMMS-Cleveland. He will oversee WMMS' promotions, but his duties will expand to programming.

UNIVERSAL BUILDING

L-R: Terry Stevens, Jay Jensen, Bill Catino, John Curb, Sam Cerami

Universal Records continued its building process by assembling a regional promotion staff. Director of Promotion Bill Catino has named Sam Cerami, Jay Jensen, Terry Stevens and John Curb to the position of Director of Regional Promotion.

Nine year independent Nashville Country Promoter Sam Cerami will assume the post of Regional Promotion, Southeast. He will continue to be based out of Nashville. Jay Jensen is of Director of Regional Promotion, Southwest, and comes from Ray Block Productions in Dallas. Based in Chicago will be Jerry Stevens whose title will be Director Regional Promotion, Midwest and Northeast. In the past Stevens worked with the Satellite Music Network and was on the air at WMAQ-Chicago. Finally, John Curb will be Director of Regional Promotion, West Coast. Curb was most recently West Coast Regional Country Promotion for Mercury/PolyGram.

THE CHAMPS CHANT. Members of the 1988-89 Super Bowl Champion San Francisco 49ers are shown here in various stages of exuberance as they record their single "We Are The Niners." The song was produced by Peter Michael and recorded at Music Annex in Menlo Park. The Niners were surprised with guest appearances by Sheila E and her father, Bay Area legend Pete Escovedo. Emoting l-r are Super Bowl XXIII MVP Jerry Rice, Jeff Fuller, Roger Craig, Mike Wilson, Doug DuBose, Keena Turner and Eric Wright. Hidden from view is Ronnie Lott. The photo was taken before "the game," and he probably didn't want to be seen smiling.

"When You Receive It, Listen To It!"

INSIDE TOP 40 by Dave Sholin

"When You Play It, Say It!" is the theme of the music industry's current campaign to impress upon radio the importance of back-announcing. On the surface it appears to be an "Us vs. Them" situation with many programmers unwilling to do what they feel will inhibit their station's forward momentum. Arista's Don Jenner was the first to bring this problem to my attention several years ago. He, along with many other key label execs, continues to cite the lack of back-announcing as one serious topic that needs to be addressed. In the interest of opening up the lines of communication on this subject Mike Shalett of the Street Pulse Group will moderate a session at this year's Gavin Seminar and it promises to be a real eye opener. Mike was commissioned by the RIAA to do a listener study and he'll share that information plus a lot more during this session. Radio will be represented by MTV's Lee Masters. The issue will also be focused on at the NARM convention this year where Mike is a scheduled keynote speaker. Hopefully this exchange of facts and research between those who provide the music and those who play it will be an important step toward solving this dilemma. Check your Seminar handbook when you register for time and location of this event.

"Too much great new product" is a nice problem to have and it's been the most common complaint this week. When new acts can rise above the deluge of tough competition it's noteworthy. That's exactly what **EDIE BRICKELL & THE NEW BOHEMIANS** have accomplished as they're destined to reach the top ten very soon. Big jumps at WJET Erie 16-9, WZIX Columbus/Starkville, MS 18-10 ("strong retail locally and adult request action") Q102 Cincinnati 27-16, WMMS Cleveland 16-7, KZOU Little Rock 17-10, KEEZ Mankato, MN 38-25 ("in spite of initial Rickie Lee Jones confusion, song is now pulling in great adult phones!") and Z104 Madison 9-2.

MIKE + THE MECHANICS' tremendous HIT FACTOR increase of 15% to 35% is more indicative of the song's growth than its two point move which is purely a symptom of the chart crunch that held several songs back this week. Expect a strong leap for this exceptional adult response item. Lands in the top twenty at 95XXX 23-17, Z95.5 21-14, WHFX 23-10, WHSB 25-17, WKZQ 26-18, KDOG 26-14, KDWB 23-12, KKRC 22-18, KIXY 28-20, KREO 24-15, KIIS 23-20, Y108 23-17, etc.

Phones have been hot for **GUNS N' ROSES** from the very beginning and they continue to dominate those request lines. Goes to number one at KXXR Kansas City and takes a huge 26-2 gain at B94 Pittsburgh. Also doing well at PRO/FM 19-11, Z100 23-16, KIQY 28-12, KS104 20-15,

KGRS 40-30 (#1 phones), 93Q 26-16, KDWB 28-18, B97 25-21, Y100 20-15, WROQ 12-7, etc. New on KIIS, LG73, 100KHI, WLBC, KCPI, KZEV, CKOC and KMOK.

It didn't take long for **ANITA BAKER** to reach the chart. All signs point to a huge follow-up success as she makes a top thirty splash at Z100 New York #25, EAGLE106 Philadelphia #29, WDJX Louisville #27, KMEL San Francisco #27, KKYS Bryan #22, KUBE Seattle #30, FM102 Sacramento #29, WTIC Hartford #24, WMMY Melbourne #29 and WHYY Montgomery #29.

Twenty-eight new believers on **VANESSA WILLIAMS** puts her well over 100 total reports as well as a 9% HIT FACTOR. She's right on the edge of reaching CHARTBOUND. Bob Case and Michelle Santosuosso debut her at #26 on KZZP. Top ten at KMGX, K100, KAGO, KWXX, 102QQ and WNCI. Added at KZ103, WPST, WDJX, 99KG, KWES, WCLG, WQUT, KWSS, Y108, KPLZ, KZZK, KXPW, KDWB, etc.

Those who predicted R.E.M. would eventually crack Top 40 radio deserve to be smiling right now. They take another surge in airplay and excellent moves at KOZE 19-14, Z104 37-25, POWER 105

18-16, KKFR 7-6, WLLI 31-23, WKOR debut #23, Y106 debut #26, WPST 39-30, WQLK 17-14, KOWL debut #18, etc. New on POWER99 Atlanta, WNVZ Norfolk, G98 Portland, ME, KWIN Stockton, KCPX Salt Lake City and KZZK Tri-Cities.

More than twice as many reports for **WAS (NOT WAS)**, last week's RECORD TO WATCH. Adds include Y108, CKXY, LG73, KRQ, B93/FM, KKXX, POWER 104, KZOU, WZOK, KDWB, Z95.5, KGOT, KOZE, KIXY, Q104, B97, Z103, PRO/FM, WMJQ, WBEC/FM, WHTK, Y106, WYKS, WCGQ, WQGN, WYAV, KFMW, KCPX, KEWB, WKTI, etc.

Dene Hallam and Dena Yasner add those **FINE YOUNG CANNIBALS** at KCPW Kansas City. Connie Breeze debuts it at #30 on Z100 Portland with other gains at POWER 104 Houston 34-28, KNIN Wichita Falls 15-12, KMEL San Francisco debut #30, KRRG Laredo 31-27, etc. New on KKRC, WJLK/K94, Q104, 95XXX, Z103, OK95, KIIS, KSND, FM102, KZZP, KOY and PRO/FM.

Quite a few ballads out there right now but one that shouldn't be neglected is **TOMMY PAGE. HIT FACTOR** is now up to 39% and it rises each week. Doing great at WAWV 9-4 ("great phones across the board"), KKOS 37-29 ("definitely great response from females 18-45, top ten requests"), KAGO 25-19, POWER99 debut #23, KZ103 9-6, 106RTB 13-10, WHSB 14-5, KOVO 20-16, KHOK 6-4, KMEL debut #28, KMOK 7-6 and KISN 15-7. Added at WBBQ Augusta, WPST Trenton and Y95 Dallas!

Word spread quickly on **ROXETTE**, a Swedish import that a listener brought to Brian Phillips at KDWB. Brian and his staff have dubbed off more than a handful of copies for stations around the country but now its American release makes it available to everyone. Climbs 12-6 at KDWB and it's also hot for Todd Fisher at WKTI Milwaukee who has been on it since the first of the year, going 12-9. Other chart action includes X100 San Francisco debut #28 and 93Q Houston 31-23. New on WROQ, KYNO, KXXR, WTBX, WZMX, KLUC and WPXR.

P.D. NOTEBOOK

by Eric Norberg

Play Mailbag For Me

Last week I devoted the column to an impassioned letter from a Music Director who wished to remain anonymous, for obvious reasons, discussing paper adds, the way trade charts are put together and intense record promotion techniques. At the end of the letter was a paragraph devoted to another subject I mentioned in a column late last summer: Ron Fell's technique of planned DJ interaction on each other's show—spontaneous but with effort to circulate listeners from one time period to another. Ron's was the first plan I had ever heard of to cause this sort of interaction to happen on a regular basis and I was fascinated by it.

My correspondent was not as surprised as I was:

"I found it fascinating that the whole idea of air personalities interacting on the air was such a big deal! Every station that I have worked for has done it, because you're supposed to create the illusion that you are this fun little group of people...a certain amount of entertainment and mystique as it were. The only thing is, I don't think you can force it. Some personalities mesh, and when that happens it's magic; come don't and you can end up with scathing little asides that listeners do catch. Some personalities 'over-mesh', as when several people on the staff have crushes on each other, and if they are sane enough not to do anything about it, you can end up with a cool sounding station. We had a situation like that for a while, but one of us was gay, one of us was too smart to stay uninvolved, one was black, and one was the cutest person in town (and the smartest). The GM was born and raised in a small town. We scared him. He fired us. Overtly concentric to the max."

I find myself just a little speechless when faced with writing something to follow the prose of this intense correspondent! I have altered the details slightly to protect the identity of the writer. But, there is plenty of material to fuel a discussion there! I would suggest to Ron Fell that he might spend a little time at the A/C session at this year's Gavin Seminar for Media Professionals next month discussing his "concentric circles" method of bringing about spontaneous DJ interaction on a planned and consistent basis. It's definitely worth discussion.

Something else worth discussion, in this column and/or at the Seminar, is an interesting point made in a note from Phil Thompson, Program Director of WNMB/FM and WSGN/AM in North Myrtle Beach, South Carolina:

"I am a second generation broadcaster. Thus, I often find myself knowing what sounds good, and why it should be done a certain way... But I sometimes must slow down and say, 'okay, why is it done this way? What is the strategy? I guess that is where the process begins."

"Here is a situation—a service?—about which I have often pondered 'why?' I suggest you devote some print to: Weatherlines, sportslines, entertainmentlines... enoughlines!!"

"When I hear a station jock say, 'call our weatherline for the latest conditions...555-5555...available 24 hours a day', what I really hear is, 'hey! no need to listen to my station for the weather: just pick up the phone, call the number, and there you have it! Sure hope you don't have a diary, I just lost a quarter hour!"

"Do these 'service lines' do more harm than good? Do they bite the hand that feeds us? Am I over-reacting?"

That's a good question, and it's a subject nobody's ever brought up in this column before. In my response I said: "my own perception about these lines is that they are generally established for sales purposes. I would tend to think, as you would, that it might prevent a tune-in that might otherwise occur. Of course, if a listener has no reason to expect the station sponsoring the phone service to have such information on the air (such as a headline service provided by a station which never has any news, for example), then probably such a rating effect would not occur—at least, to the station sponsoring the phone service. In such a case it might represent a programming strategy—halting a tune-in to an all-news station in the same market, for example." I invite your reaction to Phil's provocative question.

The issue of speeding up records, mentioned here late last year, has drawn several comments. I'll get to those next week! ●

MOONLIGHTING

by Moon Mullins

A few years ago my Mother asked me what I do for a living. Have you ever tried to recite your programming duties to a novice? After a few minutes thought I came up with the definition that I have used since: A Program Director is ultimately responsible for anything that goes out over the air.

As we approach the nineties, however, the role of a Program Director is changing. More and more, marketing is becoming a programmer's biggest responsibility. And as marketing becomes more important, many programmers are leaving the day-to-day operations, such as music adds, contests and the like to assistants who have more time to devote to these important, but less incumbent obligations.

So the job description is expanding. I'd like to venture the definition of a marketer: the person whose duty it is to assure that the maximum number of potential listeners are aware of the radio station's existence. And whether those potential listeners become users is also the marketer's responsibility. However, if they're not aware of the store, they're not going to be buying.

Since no new prospect looms on the horizon, it's safe to say that we'll have Arbitron and Birch as our audience measurement firms for the foreseeable future, which is fine because we know how they function. Successful marketers know how to take advantage of the methodologies of the two ratings services.

Last year Coleman Research conducted research on the researchers. They discovered that most adults fill out their ratings diaries in the kitchen. Other studies have shown that the kitchen is the room in which most adults say they must have a phone. Therefore, marketers who want to reach potential listeners would do well to get their station's call letters into kitchens.

There are a variety of ways to accomplish this goal. Some are expensive, some reasonable. Here are some examples:

1 EMERGENCY TELEPHONE NUMBERS: A strip that adheres to the spine of a

INSIDE URBAN

WHY ARE THESE GUYS LAUGHING?

Although the conversation at last year's Top 40/Urban Contemporary Face-Off got very heated, our photographer caught the Urban side of the session during one of the funnier moments. Shown (l-r) are Ray Boyd, PD, V103-Atlanta, Michael Spears, OM, KKDA -Dallas, Tony Gray, PD, WRKS-New York, Ty Bell, then-PD of WYLD/FM-New Orleans, Roshon Vance, then-PD of WPEG-Charlotte, Rick Gillette, PD, WHYT-Detroit, Brian White, PD, FM102-Sacramento, and (not pictured but rounding out the great team) Keith Naftaly, PD, KMEL-San Francisco, Buzz Bennett, PD, Y95-Dallas, Bob Case, then-PD, Z93-Atlanta, and Lee Michaels, who posed as a referee, complete with stripes and yellow flag!

You can reach the hotel's reservations office by phone at (415) 397-7000 and BE SURE to tell them you're attending the GAVIN SEMINAR so they

To get the discount on registration, we must receive your check by the end of this week, so get moving. We've shown the agenda on many of the Seminar announcements here in The Gavin Report, but if you need more information, just ask one of us on the phone. We'll be happy to give you more ammunition to go into the boss with. The top of the chart is a tight squeeze with **NEW EDITION**, **LUTHER VANDROSS**, and **VANESSA WILLIAMS** locked in the first three positions, and being threatened by **TONE LOC**, **GUY**, **ALEESE SIMMONS**, **ANITA BAKER**, **KIARA**, and **PAULA ABDUL**, who all have a very strong hold on the rest of the top ten. Big debuts for **LEVERT** and **JAMES "J.T." TAYLOR** with **REGINA BELLE**. We were very pleased to see **ASHFORD & SIMPSON** reel in the adds (40 big ones!) their first week on the streets. B.K. Kirkland, WIKS-New Bern, makes it his RTW, "Vintage Ashford & Simpson, and sounds like a number one smash and I'm already getting great phones." Rocky Valentine, WHYZ- Greenville, put the **ASHFORD & SIMPSON** on the minute he got it and the phones lit up. Our own Record To Watch, **KIRBY COLEMAN**, picks up praise from Steve Fox, WTLZ-Indianapolis, who says his phones are 18+ and the club action on it is hot there. **TRACIE SPENCER**'s current single, her own rendition of Lennon's "Imagine," gets the nod for our Top Tip and is getting a gracious reception from Urban radio. What's incredible, is that when it was a hit back in 1971, Tracie Spencer wasn't born yet, and when Lennon was killed in 1980, she was four years old. Ciao for now, Betty.

Cheryl Riley knew she'd blown it when she passed up the golden opportunity most aspiring singers long for. Full Force singer and producer Bowlegged Lou approached her with the song, "I Wonder If I Take You Home." Feeling a sense of loyalty to the band she was then a part of, Cheryl declined and watched Lisa Lisa and Cult Jam take that same song to the top of the Urban Contemporary charts. When opportunity knocked a second time, Cheryl answered the call and was rewarded with a #1 hit "Thanks For My Child." She gives a lot of credit to Full Force members Bowlegged Lou and David George for her confidence and security, although she talks about dreaming of this moment ever since "...I used to sing into the broom handle when I was washing the dishes on Miller Avenue!"

After the success of a song with heavy lyrical content about a man who abandons a woman and his child, Cheryl's follow-up single, "Me, Myself & I" talks of someone who has changed her mind about taking her life and "becoming a suicide statistic."

Cheryl called us from New York, where she currently makes her home, and we spoke of her previous career as a nurse, the Full Force family, and the messages in her songs.

Betty Hollars: I understand singing was not your first choice for a career?

Cheryl Pepsii Riley: Singing really WAS the first choice, but it's not easy in New York. I am a licensed practical nurse and I work with handicapped children. That's something I enjoy but I've always wanted to sing. You just never know IF or WHEN it's going to happen.

BH: How did your singing career evolve?

CPR: I come from a musical family. My parents and aunts and uncles sang in church and I was always surrounded by music. I sang in school choruses and was involved in theater groups. One theater group was Shooting Star Performers. I was always doing some form of entertainment—I joined local bands and sang in nightclubs. I met Full Force's Bowlegged Lou when I was doing plays in Brooklyn.

BH: What was that particular play called?

CPR: The play was called "To Kill An Angel." I was the angel and Bowlegged Lou was the devil! He was the boyfriend who represented the devil. We kept in touch after that and became very good friends. He offered me a chance to audition for a song they (Full Force) were producing called "I Wonder If I Take You Home." I turned it down. I didn't know what I had done.

BH: I'll bet! How did you feel after that when you heard it on the radio?

CPR: I was happy for Lisa Lisa. It was a great hit for her, but I told myself, "Oh you blew it. There it goes, your one chance." But I was in another group and we were trying to get a record deal. I didn't want these two projects to conflict.

BH: Tell us about your second shot.

CPR: Lou had a chance to rub it in my face for a while because we were friends. He said when they got the opportunity they would still like to work with me. Right after I turned down "I Wonder If I Take You Home," the group I was working with fell apart and that made it worse (laughs). I realized I was trying to give 180% and others were giving maybe 30%, but it's hard to see that when you're so busy. One day they (Full Force) were in town and called. Knowing that second chances don't always come, I took it. I give them the credit for my success. Besides the fact that they're very talented, they were really good to me. They're like family and gave me a chance that no one else would.

BH: You refer to the Full Force Family in your liner notes. Who does that include?

CPR: Myself, Full Force, Lisa Lisa and Cult Jam and UTFO. Full Force calls it One Big Family and I'm the new kid.

BH: How did you get the nickname "Pepsii"?

CPR: You'll notice that in the Full Force family everybody has nicknames, like Bowlegged Lou. It's like an i.d. When they brought me into the family they said "you need a name...we're going to call you 'Pepsi'" They laughed about it so I thought it was a joke. A couple weeks later they came to me and said that I had this carefree, bubbly personality and that Pepsi fit. It stuck in people's minds, and we just added the extra "i" for fun.

BH: Did you go through a group of songs and pick these out for yourself?

CPR: Because I knew them (Full Force) before, they had a pretty good idea of my personality and how I worked. They wrote songs that fit me. Tailor-made!

BH: Are there any duets on the album?

CPR: Yes. One is with Lisa Lisa called "Sisters"

and one with Full Force called "Every Little Thing About Me." Bowlegged Lou and Paul Anthony are on that cut.

BH: Your album "Me, Myself & I", addresses some serious subjects. The first single, "Thanks

For My Child" which went to number one on all the charts, is about a single parent talking to the man who left her with a child. The new single, "Me Myself & I" sounds like it's about someone contemplating suicide. Is it?

CPR: Full Force wrote all the songs, but the cut "Me, Myself & I" was spearheaded by B-Fine, one of the brothers in the group. The material was picked for the album because it's positive and I'm a very positive person. Even though the songs talk about times getting hard, the positive note is that you can get through by reflecting on your inner strength.

BH: Does Thanks For My Child have any special meaning to you?

CPR: I don't have any biological children but in my work I've seen these children abused and not appreciated because of their handicap. I also saw a lot of single fathers dealing with these children. It's hard whether you're male or female. When you work with handicapped children you appreciate more than the average person. I worked with children who were five years old before they learned to sit up by themselves. Someone else would take that for granted. I worked with a child who has cerebral palsy and his parents abandoned him in a cab at birth. We got him at the hospital when he was born, and he was finally adopted when he was four. He was beautiful and intelligent but he had just a physical limitation. Often parents don't understand and take the negative way out. To me, "Thanks For My Child" is saying it's hard but you can make it. When people take the negative side, we get child abuse. This song is a message telling you that it's worth the pain. Be-

sides, these children didn't ask to be here.

BH: The topics on your album are very diversified. "Thanks For My Child" is about abandonment, there's a song about contemplating suicide, one about ego-mania, and yet another about single-parenthood. Do some stand out for you more than others?

CPR: Once the album was finished I sat back and listened to it and decided to call it the Love Album, but not for the obvious reasons. This is about different types of love—love for your child, yourself, your friends, sisters, your spouse—which is what most other love albums are about. The title made me feel good about the album. Full Force made me very happy with all the material and it shows off their talent. Most people only hear basically dance things from Full Force. This album shows another side of them. "Thanks For My Child" was a ballad written by Full Force, but of course I put my two cents in. It was a collaboration.

BH: You sang on "Guess Who's Coming To The Crib" with Full Force. What was the significance of that tune?

CPR: I sang on a cut called "Cape Women." It was sort of an introduction, because at the same time I was recording my album. I think it was good that we did it, because while I was waiting for my deal to happen, it worked to get me in the studio and keep me encouraged.

BH: Why is Patti LaBelle mentioned as someone who shared secrets of the trade?

CPR: Full Force produced two tracks for her upcoming album. I absolutely LOVE Patti LaBelle and when they said they were going to do the two cuts for her, they had me come in to do background vocals and the reference lead vocals that they would later record over. When they asked me to do the reference lead vocals I said, "No! No way! This is Patti LaBelle we're talking about! No!" But I did it. Then when she came in to record she was so nice and so down to earth. And she was so friendly and said, "Oh, I loved your vocals," which meant a whole lot to me. When she finished, I asked her "How do you do this?" I was in awe, sitting there with my mouth open and not believing I'm in there with Patti LaBelle. She was laughing and she was teasing me and saying "we should just leave Pepsii's voice on and put my name on it." I couldn't believe how nice she was and how much I learned from her in such a short time. She was not the least bit conceited and said she was thinking about getting vocal training, and I said, "YOU?" She taught me that you can never learn too much. That's what keeps her going—that

and she loves what she's doing.

BH: Your brother Roy is mentioned on the liner notes. Do you have strong family ties?

CPR: My family's very close. My brother is 22 and just had a very serious bout with cancer and lost his left leg. It was hard for the family but he has youth on his side, so he gets around like he did with two legs. We have no other sisters or brothers so we only have each other. He handled his cancer well, but he did have a few moments when he was down. So when I wrote the thank you's on the LP I wanted to put that in there to let him know that you can't give up. It was really traumatic for the entire family, and when they did the surgery, it was just before the single came out. His spirit was wonderful and it kept everybody

else going, and then the success of the record made it that much better because it turned into a happy time. I'm very lucky to come from a close family.

BH: What are you going to do next?

CPR: We are planning a tour for this year. It's happening so fast I that I'm overwhelmed. Whenever the guys in Full Force would say that something I was doing sounded great or I was doing well, I'd say, "Oh you're paying someone to say that," not believing this was happening to me. Now I'm starting to realize that my dreams are coming true and I'm getting ready for it all. I want to get out there and tour, I want to keep recording, and then get into acting again. It has been a long time coming and I feel good about it. ●

NEW RELEASES by Betty Hollars and John Martinucci

ANGELA BOFILL - Love Is In Your Eyes (Capitol)

Now here's a record that both Urban radio and Angela Bofill can run with. And from the sound of it, they should go far. Angela knocked us dead on the first listen with what sounds like her most dynamic vocals to date.

KRYSTOL - Don't Let Go (Epic)

Here's a nice slow jam from a group we haven't heard from in a couple of years. Krystol gets vocal assistance from Kipper Jones...romantic.

RADIANT - Something's Got A Hold On Me (Columbia)

This is one heated jam! The "System"-atic sound comes from producers Mic Murphy and David Frank. Its uptempo groove is reminiscent of The Busboys' high energy style.

SHARP - Playboy (Elektra)

Heavy drum beat, along with the brothers Calloway production expertise, has created a lively dance track for Urban stations. But don't let the dance track fool you into believing it's made-to-order for dance stations or you'll miss the cute rap segment!

EL DEBARGE - Real Love (Motown)

When you first play this, play it LOUD! This is one that will move you from toe-tapping speed to an all-over up-tempo groove, and your listeners will be calling to ask "Who was that?!" It's wonderful!

INSIDE A/C by Ron Fell & Diane Rufer

FLEETWOOD MAC started 1989 at #1 and held that number throughout January. Rotations remain strong but look for a change next week.

BASIA and GLENN FREY have battled to stay at the top and if their rotations hold strong either one could move forward.

ROD STEWART's "My Heart Can't Tell You No" moved closer to the top position this week. It continues to convert stations to the HEAVY rotation category and picked up 27 new ones. Look for this one to hit the top soon.

TAYLOR DAYNE has rushed the top ten and continues her strong pattern of rotations. New adds this week come from WVUD, WMXB, WDUZ, WFBC, WCEM/FM, KPAY, KSNM, WIRL, WKDQ.

MIKE + THE MECHANICS also took a large jump toward the top ten. Their PLUS FACTOR increased by 28% and they picked up 19 adds including WTCB, KFJR, KROC, KSDN, KWLO, KXLK, WFAW, WMBD and WWNK. Look for longevity with this single.

Another major mover this week is ROY ORBISON. He hits the HOT category and the first in PLUS FACTOR again this week. Twenty-six new adds from WGMX, WKTI, WMGP, KROC, KSTP, WRCR, KLCY, KCMJ/FM, KWIZ, KQEU to list a few. In three weeks this single has shown a forceful growth pattern and should gain in rotation somewhere on your chart.

SHERIFF arrested 20 new adds from WBEC, WELI, KBJJ, KWLO, KSNM, KBIG, KKHT, WRDB, KNOX, KSOO, KXLK. For the second week they're #1 Top 40 and A/C has given their approval for a shot in the dark.

From TOP TIP to MOST ADDED,

CROSBY, STILLS, NASH & YOUNG is our highest debut and the second MOST ADDED this week. Forty-eight stations added it this week including WAEB, WMTR, WEIR, WGAD, WGOL/FM, WQHQ/FM, WZNY, KEZH, KGLO, WDND, WHIZ, WROK, KCRE, KFIV/FM, KJOY, KWUN, KQEU. Look out for this one to explode.

LIVINGSTON TAYLOR and his brother, JAMES had the anchor position on the chart with "City Lights." WCHV, KBRK, KCBF have it in HEAVY and WEBE, WEIR, WMMG, WUVU,

REVIEWS

BETTE MIDLER

Wind Beneath My Wings (Atlantic)

Not since "The Rose" has Bette released such a strong and emotional single. "Wind Beneath My Wings" is also in the movie "Beaches," which is a box office success. Don't feel you need to see the movie to hear this, although one may say it could only enhance the beautiful lyrics and images.

ROBERT PALMER

She Makes My Day (EMI)

It's been awhile since Mr. Palmer's slick style stuck A/C, so look out for this one. A simple song, catchable on the first listen.

KARLA BONOFF

Tell Me Why (Gold Castle)

Karla's second release from her NEW WORLD album picks up the pace. Her style is very accessible to both our traditional and progressive A/C ears. The guitar solo comes from none other than Peter Frampton.

THE TRAVELING WILBURYS

End Of The Line (Wilbury/Warner Bros.)

Their second release debuts in UP & COMING this week. How can you miss with this wonderful group of guys? Hopefully it's not the "end of the line" for this successful album.

KIARA duet with SHANICE WILSON

This Time (Arista)

What a great sounding duet. This single is top ten on the Urban chart and should be a easy crossover to Top 40 and A/C will have positive reaction too.

KBWS, KQAD, KSCR, KSTQ, WJON, WTRX, KBLQ, KPTEL, KKRKB turning their station lights to this one.

VANESSA WILLIAMS' "Dreamin'," our RECORD TO WATCH last week gathered 18 sleepers this week. KKOR, KBOL, KCSY, KASY, KUIC, WHIZ, WJON, WKYE are among the new entries this week and KHLT, KSUE, KCBF, KWSI are playing it in HEAVY.

U2's "Angel Of Harlem," is this week's RECORD TO WATCH. It's a moving tribute to Billie Holiday, one of the greatest singers of all time. Debuting in UP & COMING with 30 total reports, thirteen adds include WBTH, WFEB, KBJJ, WMT/FM, WWWM, KAAK, KXRO and KSSY.

COUNTRY PROFILE

BOB KINGSLEY

**KING OF THE COUNTRY
COUNTDOWN**

by Lisa Smith

George Strait and Randy Travis aside, one of the most listened to voices in Country radio is that of Bob Kingsley. For the past ten years, he has been the host of American Country Countdown, the longest running and most successful music program in Country radio. The show is heard on over 800 stations in over 26 different countries. It's also heard on over 450 outlets of the Armed Forces Radio Service Worldwide Network and the Voice Of America. How's that for exposure? Aside from being just about the nicest guy in the business, he's also quite a fan of and authority on Country music. We chatted with him recently about life behind the Countdown show.

LISA SMITH: How did you get your start in the business?

BOB KINGSLEY: I actually got started when I was in the air force with Armed Forces Radio in Iceland. When I got out of the army, I worked at several rock n roll stations in Palmdale, Tijuana, and Las Vegas. When I got my first class license, I started working at my first Country station, KEEN-San Jose. Boy, did I get hooked! I got fired because of an interview I did with Buck Owens at about two o'clock in the morning. From there I came back down to L.A., and ended up down at KFOX, where I got a chance to work with Biff Collie and Hugh Cherry. By then I was really hooked on Country music. I then went to KGBS, which was the first 50,000 watt Country music station in L.A. Unfortunately, it was a daytimer, which made it real hard to compete. I worked there '66 through the first part of '70. Then I went to KLAC as Program Director for about ten months. They had just gone Country. Then I went over to KFI. They had Lohman and Barkley in the morning, then a jazz show, then a talk segment, and a Country music segment from 11 to 3. That was great. It was like doing network radio in the old days. That clear channel signal cov-

ers the world. It was neat to pick up the phone and have somebody in Montana asking for George Jones. I talked to every trucker in the world. Then they sold the station. They didn't want to do Country at all. Next I got this thing out at Drake/Chenault. Bill Drake wanted to do a Country thing like the then very successful Hit Parade. He just turned me loose and I was able to put together the Great American Country format for him, and I voiced that and programmed it for twelve years. I think we reached 104 stations with that. Then one day I got a call telling me they were looking for a producer for the Country version of the American Top Forty countdown. They already had a voice—Don Bowman. I produced it for the first five years, and then Don left to go on the road with big acts like Haggard and Willie Nelson, and he just had no more time. So I was actually looking for a voice for it, and one day Don called and said he was stuck in a snowstorm in Maine. There was no one to do it and I had to jump in there. After I did that, I thought, "Well, wait a minute. This is pretty spiffy." It was neat to get back into being on the air.

LS: How many years have you been doing the show?

BK: Fifteen. The countdown started October of '73, and I came in April or May of '74. When I started in they had 31 stations. That was quite a bit in those days. I've been voicing the show for ten years now. It takes a long time to break syndicated product through. But if it's there and people hang in there long enough, it will prove itself. We just had this 15th Anniversary party, and I just sat there the whole night shaking my head. After all those stations and all this time, I've actually had the same gig for 15 years.

LS: Do you think the popularity of Countdown shows is increasing?

BK: I remember when I was a kid and KFWB was the hot rocker. They had these guys on the weekend, Al Jarvis and Joe Yoakum, who did the Top 40 Countdown on the weekend. I was working in a supermarket at the time as a box boy, and I would try to sneak outside to try to hear what the top ten records were, and I would always have to find out what #1 was. Inside of that four hour format, the listener gets to hear all of their favorite songs and find out exactly how popular they are. Sometimes I'll forget to mention "climbs up three notches this week" or "29 and climbing", and it's amazing how many people we hear from who want to know exactly what that record is doing. I remember the first time I heard Casey (Kasem) do his. The way that he was telling stories in the form of a Countdown was truly exciting. He, Don Mistande and Tom Rounds definitely redefined the Countdown show. Just like Bill Drake brought a whole new life to rock n roll. Countdowns had been around a long time before Casey, but he gave it a whole new life.

LS: What sets one Countdown show apart from another?

BK: The music and the presentation. You've got a lot of different kinds of Countdowns, and most everybody takes different approaches to them. Our's is to take stories from the artist's interview. We can tell a story very well. We stay away from negative stuff. The whole thing is to not only entertain the audience, but to play the music and tell good stories. Hopefully we take a little more time than some of your more music intensive station's do, but that's the object of the Countdown. That's what makes us a little different I think, we tell stories and not just say 'em and play 'em 40 through 1. And we do some special features. There's a lot of history to Country music, and we try to cover that at least once or twice a week.

LS: How many stations do you have now?

BK: You know, I don't know the exact count. Tom Cuddy said that we were around 800 radio stations. And believe me Lisa, I shake my head about that. We've been doing it a long time, so it must be working. Hopefully we'll be able to say that in fifteen more years.

What really sets us apart is the fact that we know so many of these acts that we can sit and visit with them and they know that if they say something that they don't want to be repeated, it's not going to be. They can express themselves in their own way and they know we're not going to hurt them. It takes time to get that kind of confidence. I think that probably is the secret, because we always have fresh material. And if you think about it, we eat up an awful lot of material - 40 songs once a week. A lot of those acts are continuously in the Countdown so every time they come in, you've got to have new stuff to tell about them. After a period of time, to have the ability to do that is where the writing comes in. Pat Shields and Neil Haislup have the ability to even work up some of the older stories and make them new again. The people I'm surrounded with make the show special. The newest person here has been here for three years, and everybody cares. Everybody's into it. We've got some great engineers - Mike Williams, Stu Jacobs, David Cohen - who are guys that have that magic in their fingers who can take a program like this and make it sound as close to live as you can possibly get. When I'm taping the show, I picture this person going down the road in his car, and wherever he's going, it's going to take exactly four hours (laughs). I listen to our show shortly after we record it, and then I look forward to listening to it on KZLA on Sunday night to hear what it sounds like in the context of commercials and everything else on the live radio. I find myself looking forward to hearing what the number one song will be. It sounds corny but it's true. It's a good feeling. Every week I find something that I wish I had done differently, but the beauty of it is I get to go back in Tuesday and do it again. ●

"Williams has a gutsy yet understated style, and her songs are distinguished by sensitivity and good humor . . ."

BILLBOARD

"Her music, and exhilarating blend of folk-blues, zydeco and rock-and-roll, is as elemental as her lyrics. There's not a moment on the new record that doesn't ring with a compelling no-nonsense honesty."

N.Y. TIMES

"Lucinda Williams is my new best friend."

CREEM

"A singer who is simply telling you the truth about herself."

INSIDE COUNTRY

GAVIN SEMINAR UPDATE. We hope your plans to attend Gavin Seminar '89 on February 16th-18th are well underway. On Saturday, February 18th, the Country session will start at 9:30 AM, and we'll be covering a whole seminar's worth of subjects in that one session. **John Basilia** from Arbitron will be on hand to discuss Arbitron and we'll be talking with a couple of key morning drive personalities. Other subjects will include Record & Radio Relationships (How We Can Help Each Other), Sales & Programming - Working Together, Promotions From A Large AND Small Market Viewpoint, and Cume Management. Add this to the rest of the sessions at the Seminar, the Awards Banquet and the Celebrity Cocktail Party and you've got a Seminar that's not to be missed! Any questions? Call the Country Crew here at 415- 495-1990.

CHANGES, CHANGES, CHANGES. Changes still abound on the Country

front. **Jay Christian** has left KNEW-Oakland/San Francisco. The new Program Director is AM driver and Gavin Award Nominee **Jon Wailin**...**Dan Olsen** has left KHAK-Cedar Rapids. No replacement has been named...**Diana Kay** at WLAS-Jacksonville is taking a leave of absence for several months to make arrangements for her August 5th wedding to **Steve Sheriff**...The new Music Director at KRMS-Osage Beach is **Jim Heath**...**Bob Chambers** has taken over the music duties at WHNY- McComb...**KUTI**-Yakima reports they'll no longer be using their post office box. All correspondence should be sent to 706 Butterfield Rd., Yakima, WA 98907...**Shelly Swanzy** has been promoted to PD at KSFA-Nacagdoches..."St. Louis" **Lou Goad** reports that KUSA-St. Louis is changing to a Country Oldies format, and will no longer be a Gavin reporter.

STATION HAPPENINGS. Good news continues to flow in about the latest Arbitrons. Two noteworthy items are **WWQM**-Madison and **KROW**-Reno, who both wound up being the #1 Country stations in their markets...Yes, the San Francisco-based Gavin Report is pretty proud of the San Francisco 49ers, Super Bowl Champs and undoubtedly THE team of the decade. **WCOW**/FM-Sparta's **John Stevenson** and **Jim Gillette** found that out the hard way. They made a bet with the station's PD **Steve Peterson** and air personality **Jessi Steel** against our 49ers. Upon losing the bet, John and Jim had to dress in full football regalia and do the Ickey Shuffle in downtown Sparta during rush hour. We're betting John and Jim won't be betting against the 49ers again any time soon...

Talk with you next week. **The Gavin Country Crew**

NEW RELEASES by Lisa Smith & Cyndi Hoelzle

HIGHWAY 101 - *Settin' Me Up*
(Warner Bros.)

Highway 101 goes into overdrive with this high energy tune written by Dire Straits' Mark Knopfler. Add to that some fine vocals by Paulette Carlson and Curtis Stone, and you've got another Highway hit.

K.T. OSLIN - *Hey Bobby* (RCA)

K.T. obviously had a lot of fun writing and singing this number. Already a programmers' favorite, it's one of the high points off her "This Woman" album.

LIONEL CARTWRIGHT - *Like Father, Like Son* (MCA)

This could be the single that causes heads to turn Lionel's way. How can he miss with an Overstreet/Schlitz composition sung this beautifully?

SPOTLIGHT LP

GUY CLARK - *Old Friends* (Sugar Hill)

The father figure of Texas songwriters is back on vinyl with his first album since 1983's *Better Days*. *Old Friends* is a good re-introduction to Clark, whose legacy can be seen in the work of Lyle Lovett, Nanci Griffith, Darden Smith, Michelle Shocked, and a whole new crop of singing Texas storytellers. Clark's songs are simple and true, and are appropriately showcased in an acoustic setting. One of the album's highlights is "Come From The Heart," written by Guy's wife Susanna Clark and Richard Leigh, with Rosanne and Rodney on harmonies. Rosanne also helps out on "Watermelon Dream," a wonderful re-creation of a slow sticky summer twilight. Townes Van Zandt's "To Live Is To Fly" is gorgeous, with Emmylou's harmonies giving the song flight. Master pickers Vince Gill and Sam Bush make appearances here too... call Penny Parsons at (919) 489-4349.

JAZZ NEW RELEASES

N.Y.C. - STEPS AHEAD (INTUITION/CAPITOL)

Formerly **Steps**, electric vibraharpist/electronics expert **Mike Mainieri** assembled this group as a creative touring and jamming outfit. However, the informality gave way to organization once players like **Eddie Gomez**, **Eliane Elias**, **Mike Brecker**, **Warren Bernhardt** and **Peter Erskine** joined the ranks. **Steps Ahead** is a signature sound for Jazz and Adult Alternative in the nineties. Electric prowess is balanced with traditional chops and talent. The addition of **Steve Smith** on drums, **Tony Levin** on bass and **Chapman Stick** give this new line-up some star-studded credibility. Songs like "Well, In That Case..." and "Senegal Calling" are the movers. Plus the packaging is attractive and impressive, which certainly can't hurt once listeners seek out this marvelous collection.

TEQUILA SUNRISE SOUNDTRACK (CAPITOL)

Here's an example of **Dave Grusin's**

soundtracking skills converging on his talents as a foreground arranger. On the title track it's a dual and duel

performance as each two-man army keeps things electric and soaring. **Lee Ritenour** lays down an aggressive head. Of course, "Jo Ann's Song," featuring **Dave Sanborn** is the mellow daytime alternative.

"I ONLY HAVE EYES FOR YOU" - MARILYN SCOTT (WTG) "SKYLARK" - MARILYN SCOTT (POLYDOR)

Two sides of singer **Marilyn Scott** are ironically featured in two polar opposite film projects—one a macho mainstream comedy, the other a gay cabaret drama/comedy. A crystal clear version of the standard "I Only Have Eyes For You" is from the movie **Twins**, which features the caustic **Danny DeVito** and the muscle man, **Arnold Schwarzenegger**. On the flipside of the coin, **Harvey Fierstein's Torch Song Trilogy** utilizes Marilyn's clear Jazz voice on "Skylark," an absolute jewel. I have a feeling we'll be hearing from Marilyn on her own terms soon enough.

NEW LIGHT THROUGH OLD WINDOWS - CHRIS REA (Geffen)

Occasionally AA programmers can benefit from a multi-format artist whose versatility isn't always displayed on rock n roll or A/C radio. **Chris Rea** is a singer much better suited for adults than for the rock audience he's being groomed for. Happily I frequently hear his work on **KKSE**, most notably "Curse Of The Traveller," off his out-of-print 1987 release, **Dancing With Strangers**, unfortunately not included on this new package. Oddly enough, **New Light** does resurrects "Windy Town" from that release, re-recorded a little faster than the original. Rea has an immense following in Europe, notably England and Germany. His music has the autumn colors and textures of **Dire Straits** and **Eric Clapton**, when those two acts dip into a blue mood. In a perfect world, AA would have both **Dancing With Strangers** and this new album to choose from. But we take what we get. Other track possibilities on the **New Light LP** include a beautiful "On The Beach," a "dire" "Candles," "Steel River" and "Ace Of Hearts." This really is a special artistic adult release.

JAZZ NEW RELEASES

NO MORE OUZO FOR PUZO - THE DAVE MCKENNA QUARTET (CONCORD JAZZ)

Pianist Dave McKenna records his 12th record for Concord Jazz. Primarily a soloist from the Boston and Cape Cod areas, McKenna features a talented young guitarist named Gray Sargent. Sargent is steeped in the Burrell/Wes/Charlie Christian mode as evidenced in the opener, "Look For The Silver Lining." McKenna's solo flair is best when he interprets a standard like Charlie Chaplin's "Smile." Although his classic style is suited for ballads there is enough rhythm in his technique to keep things jumping. The title track is the LP's driving wheel, with some stinging Wes guitar to boot.

GARRY DIAL AND DICK OATTS (DMP)

Digital activist and DMP label founder Tom Jung spent last September and October in New York City recording pianist Garry Dial, Flim & the BB's sax player Dick Oatts and their rhythm section. But that's only half the story. What made the sessions challenging and engaging is that the quartet is featured with a thirty piece string orchestra recorded direct to digital! To get the precise aural blend, Jung and crew recorded the quartet first and through an intricate systems of bouncing from one digital consul to another, thus managing to overdub the orchestra and preserving that sweet direct to two track sound. The CD opens with live strings and sax, followed by the quartet, followed by moments where it all intertwines. A very fine 25th CD release from DMP for Jazz/Adult ears. Play loud.

I VIBE - MICHAEL HAYES (STA/RBI)

Vibist Michael Hayes has been reading Radio's mail. His I Vibe is dedicated to the concept of creating lively jazz selections rich in composition but less

than five minutes long. Originally a drummer, Hayes studied at Berklee College with Gary Burton. While there he also developed his keyboard and writing

skills while hammering his way around a vibraphone. "No Day At The Beach" and "Cocktails In Reno" are suggested tracks, but "Pristine" is a nice solo tribute to protege Burton. I Vibe works because of Hayes's success with tight studio tunes, rather than drawn-out jams. Call Roger Lifeset at 818-991-7668 if you don't have your copy yet.

THE GREAT LAWN - TRAUT/RODBY (COLUMBIA)

Guitarist Ross Traut and acoustic bassist Steve Rodby, whose previous associations include Pat Metheny and Michael Franks, have recorded a careful and quiet duet LP featuring cozy standards like "Round Midnight" and "Up On The Roof." The title track composed by Traut

is the most ambitious of nine tracks. But Adult Alternative stations are bound to get the most phone reaction when they play their version of the Delfonics' "La La Means I Love You." Meanwhile Jazz stations can park this next to Emily Remler's fine East To Wes. For best results, this set should be played on CD as opposed to vinyl.

THE 20TH CONCORD FESTIVAL ALL STARS (CONCORD JAZZ)

As the title suggests, The Concord Jazz Festival has reached the double decade mark. In its honor, bassist Ray Brown brings in a quintet to record seven standards. The star of the session is Basicman Harry "Sweets" Edison, bringing his spare, Louis Armstrong style of trumpet to the party. Check out the All Stars' bossa-nova send-up of "Sophisticated Lady." "Sweets" is especially sweet on the old Bye Bye Blackbird."

CHARLIE SEXTON (MCA)

I'm glad I spent an extra week with **Charlie Sexton's** sophomore album. I saw him live on his very first tour and he did little more than strike poses and rattle his jewelry. But the boy is young. Since then, he's gained a world of experience just working with producers like **Keith Forsey** and now **Bob Clearmountain**, who has worked absolute magic on the Sexton persona. With its washed-out artwork, his wirey image is vague. But on closer inspection, there lurks some fine collaborations. Sexton has a variety of songwriting partners like **Tonio K**, **Steve Earle**, **Danny Wilde**, **Scott Wilk** and **Arthur Barrow**. While "Don't Look Back" is the logical starting point, I was smitten by "Save Yourself." Sexton does a quality job on **Marty Piper-Willson's** "I Can't Cry." He's even convincing on a message song like "Battle Hymn Of The Republic." Again, Clearmountain's production nearly steals the show while Charlie Sexton stands tall to the challenge.

PICTURES FROM THE FRONT - JON BUTCHER (PASHA/CAPITOL)

Jon Butcher and **Album Radio** seem to be on a parallel course as Jon Butcher explores his melodic side and song structure while **Album Radio** searches for artists on a song-by-song basis. Though the usual comparisons (**Jimi Hendrix** and **Phil Lynott**) come to mind when evaluating Butcher's lyrical successes, it's also the emotional content of the singing that saves Butcher from the mainstream blurr. This one could do it for Jon and his band of urban poets. Trax: "I'm Only Dreaming," "99 (May Be All You Need)," "Might As Well Be Free" and the single "Send Me Somebody."

NEW RELEASES

EASTERHOUSE
WAITING FOR THE REDBIRD

WAITING FOR THE REDBIRD - EASTERHOUSE (COLUMBIA)

A beautiful, larger-than-life moment of expression that casts a giant shadow across my desk. **Easterhouse** have found a way to enlarge their vision by contrasting their stark lyrics with tyrannosaurus guitars and drums. **Easterhouse** achieve what many bands hope for--combining the integrity of their message with instrumentation that's liable to knock out those who want a mainstream fury in order to program newer music with the standards. If you're looking for strength, then it's hard to go wrong with "Waiting For The Redbird," "America," and "Come Out Fighting."

ED HAYNES SINGS ED HAYNES (APACHE)

Little did **Ed Haynes** know that the release date of "I Want To Kill Everybody" would coincide with the execution of **Ted Bundy**. I'm sure that it's just a happy coincidence. After all, **Matthew King Kaufman** has always had a weakness for folkly outrage. And like **Jonathan Richman**, **Ed Haynes** gleans the headlines and lifestyles of the American intelligensia and satirizes its more quirky aspects. I like his use of repetition (i.e. "Which committee decides which committee decides which committee decides which committee decides" or "My father comes home from work every single day/ It's highball, highball, highball, dinner, highball") and plainspeak. After multiple listens, **Ed Haynes'** debut gives way to a definite charm. This is the best example of street-corner-meets-airwaves you're likely to hear. It's all there--violence, vomiting, folk singing set to rock n roll, and feline murder. Anyone who hates cats is okay in my book.

"VERONICA" - ELVIS COSTELLO (WARNER BROS.)

Elvis Costello returns to the vein of "Oliver's Army," ground he hasn't covered in years. Since Costello has many sides, styles and personalities to draw from, it's lucky for radio that he has at least returned to a broadcast-friendly side again, territory he hasn't exploited in quite a few years. Accidents will happen, but expect the rest of the album to have its esoteric and creative moments.

FROM THE GREENHOUSE - CRACK THE SKY (GRUDGE)

During the time **Peter Gabriel** and **Genesis** were tilling the progressive soil, **John Palumbo** and his band **Crack The Sky** were following a similar American-flavored course of rock n roll orchestration. By technically advancing their sound yet maintaining the original vision, perhaps **Crack The Sky** can cash in on this generation's fascination with intricately arranged rockorchestration. The opening title track is the best starting point, boasting an expressive Floydian guitar solo.

BRUCE COCKBURN

BIG CIRCUMSTANCE

BIG CIRCUMSTANCE - BRUCE COCKBURN (GOLD CASTLE)

Truth is a difficult commodity to peddle these days. The vast majority either isn't interested or else wants the convenient, capsulized sugar-coated version of the story. So like always, the challenge is to keep it simple, compelling and interesting. A tune like "Shipwrecked At The Stable Door" is bouncy and Dylanesque. Songs like "If A Tree Falls," "Where The Death Squad Lives" and "Radium Rain" get straight to the point. **Cockburn** isn't exactly the poet mourning the death of Babylon. It's more like a second or third warning of impending disaster. Yet as the last track proclaims, "Anything Can Happen," and that song does offer hope, if only a paranoid glimmer.

INSIDE ALBUM by Kent Zimmerman

BLUES FOR SALVADOR by Kent Zimmerman

In reading John Russell's excellent eulogy of surrealist pioneer Salvador Dali in the *New York Times*, I was inspired into yet another music-as-art tirade. Then after glancing over William Wilson's Dali thrashing in the *Los Angeles Times* that same day--the day the 84 year-old artist died, I could neither hold tongue nor pen.

Most of us associate Salvador Dali with his famous 1931 painting entitled "The Persistence Of Memory." The images of clocks drooping off table tops and tree limbs sent a message, not unlike the sick feeling of time and boredom evoked by Pink Floyd on their insane *Dark Side Of The Moon* concept. But I'm not here to praise the art as much as the spirit of the artist. Without being an art historian, anyone can dwell on the

spirit of the master pop culturist.

In last week's Gavin interview, Lou Reed mentions rock n roll's dilemma when the cult of personality enters and often eclipses an artist's own statement. As far back as the 1920s, it was Salvador Dali who combined a spirit of outrage with the serious criticism and chin-rubbing. Nothing was more sacred ground, artistically, than the gallery. And with his Errol Flynn good looks, Dali shook the foundations of the art world with his paintings and films.

So like the most decadent of rockers, Dali kept his competition constantly off-guard. While his contemporaries openly despised money, Dali proclaimed himself a royalist. In classic rock n roll style, Dali was mismanaged while his art work was questionably released to the degree

where he was signing blanks, later to be filled in by paint-alike apprentices. Was it the money or an ultimate economic artistic act of violence? Isn't Dali having the last laugh at those who prosper when the artist dies, leaving an appreciable path of investors in his or her wake? Besides Andy Warhol, no one in the art world came as close to linking popular art to pop culture as did Dali. Whether he was being photographed with Alice Cooper, collaborating with Hitchcock, Disney or Luis Bunuel, Salvador Dali was the grand predecessor. As many rock n rollers straddle the mediums of music, art, film, television, laser art or further digital frontiers, a shred of Salvador Dali's showmanship will always be woven in the fabric cloaking the latest in media sensations.

INSIDE ALTERNATIVE RADIO

The much anticipated dramatic changes within the Top Ten finally occurred with Lou Reed taking over number one and the Violent Femmes making a bold move to the second position. Both releases are lighting up station phone lines across the nation. While the Femmes may appear poised to move up next week, don't be

surprised if Lou holds them back -- at least temporarily -- because he commands a 20% lead in chart points. Midge Ure bursts into the Top Ten followed closely by New Order and the Replacements. Aside from Mr. Ure, all of the aforementioned artists -- plus the Waterboys and REM -- have all achieved

INSIDE ALTERNATIVE RADIO

number one Gavin Alternative records in the past. This results in fierce competition as six of the Top Ten records are by well-established Alternative staple acts. Seldom does the chart see such a concentration of quality artists at one time. However, it's likely to happen more frequently. We're going to see more of this intense competition as time marches on, but no doubt we'll also witness a shakeout as many of these artists begin to cross over to the "mainstream." Ideally the artist and format will naturally and mutually outgrow each other and the best new bands and styles will replace them. But as hard as all of us in trades, records, radio, management, etc. try we can't quite find Utopia. But that's okay, the search itself is the point, the means are the ends.

Alternative Radio programmers have a serious responsibility. It's important for them to understand when an artist has truly outgrown the format and NOT to overreact prematurely and abandon the pillars that their stations are built on. All too often artists are abandoned just when the audience is getting into them. This occurs predominantly at college radio. A vital element in this equation is the artists chosen to fill in the gaps left by those departing. Unfortunately the groups selected are too often a vacuum of their predecessors. How many more garage versions of the Velvet Underground do we have to listen to? Rather than choosing something truly fascinating, usually a (deliberately) poorly produced clone is championed. Just because a record is poorly produced doesn't mean it's exciting or adventurous or even "Alternative."

Dozens of worthy groups are overlooked because they don't fit the reactionary mold. Some of this burden should be shared. Labels have a responsibility to know when an artist is either inappropriate for the format — or has moved beyond the Alternative scope. They should not force an act into the Alternative market that is either inappropriate or has outgrown it stylistically. I have seen a few instances where totally inappropriate artists have been forced into the Alternative market because the marketer couldn't find much interest within the appropriate (in this case Album) format. It concerns me that as Album Radio concentrates more and more on oldies, labels are turning towards Alternative as a last gasp. Alternative radio should continue to be a format that embraces all forms of exciting and vibrant new styles of music and should not be a cowcatcher for music that can't get played anywhere else.

Don't get me wrong. It's essential for artists to cross both into and out of the Alternative format — in fact we don't see enough of it. We especially don't see

enough artists with unusual styles (e.g. Country or Rap) allowed to enter the often closeminded Alternative radio gates. Don't misunderstand me. ALL of the "big name" artists inside the Top Ten this week deserve the airplay they are achieving, having not outgrown the format. Your audience wants and expects them. Furthermore, I think all Alternative programmers would concur that there's even a place for BIG name artists (e.g. U2) even after they cross over, as long as the artists are producing something new and exciting. But in the years to come, the choices as to what should or shouldn't be aired will require delicate choices. These decisions should not be made lightly.

NEW RELEASES

Take + Care - HE SAID (Enigma/Mute)
Wire members Graham Lewis, Bruce Gilbert and engineer/producer John Fryer formed He Said back in '85 while Wire was on the shelf. Their first LP, *Hail*, achieved mega cult status and this one should springboard to dramatic airplay heights. Given the flowing non-linear element to the music it's not a surprise that two of the cuts "Get Out of That Rain" and "Hole In The Sky," were commissioned by British choreographer Michael Clark for the performance "Because We Must" that ran in London at the end of '87. The cool technology of Wire is present throughout *Take + Care*, but it has thawed out somewhat. My favorite track is "Could You?" with its gracious arrangement and squeaky clean production. "Watch Take Care" and "Tongueties" have the industrial rock edge that we've come to expect from many Mute artists. "A.B.C. Dicks Love" and "Not A Soul" are paradoxically gloomy upbeat, and almost dance-oriented.

Remember that the true meaning of marketing is meeting the needs of the market, not selling them. Alternative is very different than any other format. It is an area that normally is less affected by the economic pressures that often stifle creative growth in business. Some of the greatest creations are a result of this environment. Ours is a market constantly in an embryonic state and it should be allowed to function with minimal distractions and external pressures. If it is disturbed, a very important creative balance is damaged and the results are likely to be less innovative, and in the long run less economically viable for all of us.

RIGHT AS RAIN UNDER TOWN

Undertown - RIGHT AS RAIN (DB)
Many American bands, particularly in the Southeast, seem to be on a mission to retrieve their native American musical roots. Some achieve limited success, others like *Right As Rain* strike fertile soil. There are no earth shattering innovations but no pretenses either. If the Shakers made rock n roll, I guess it might be something like *Right As Rain*, simple, functional and a welcome relief from an overwhelming, complex world. "Rain," "If The World," the driving "Our World," the harder rockin' "Judson Choir" and my favorite, "A Girl Like Jesus" (with its sparkling slide guitar work) are the best cuts. PERSONAL PICKS

SINGLES by Dave Sholin

ROXETTE - *The Look* (EMI)

Here's the song mentioned in the first Inside Top 40 column of the new year. Though KDWB's Brian Phillips gets credit for playing it first, he says we shouldn't forget Dean Cushman, the young student who brought it back from Sweden and helped get it on the air. I must have played it at least two dozen times after first hearing it in early January. One listen to "The Look" is all it takes!

ANIMATION - *Room To Move* (Polydor/PolyGram)

This one is bound to set just about any room in motion. The band's new lineup features "Dirty Dancing" star and newlywed Cynthia Rhodes, who married Richard Marx earlier this month. She sparks a dynamic production co-produced by Top 40 specialist Steve Barri and co-written by the team of Simon Climie and Rob Fisher. Check out the 7" power mix.

SWEET SENSATION - *Sincerely Yours* (Atco)

They turned in sensational chart stats in a number of regions with their earlier releases "Hooked On You" and "Never Let You Go," but Sweet Sensation's overdue for a major across-the-board winner. This Latin flavored dance track has all the right elements to make it happen for this talented trio.

MIDGE URE - *Dear God* (Chrysalis)

Ultravox's former lead singer delivers a song that speaks to the concerns of modern day mankind and carries quite a punch. Zooming up both our Alternative and Album charts, its powerful message should get the attention of Top 40 listeners as well.

THE BELLE STARS - *Iko Iko* (Capitol)

An updated version of the New Orleans classic that became a hit in 1965 for the Dixie Cups gets featured in the opening scenes of the movie "Rain Man." Added at Z95 Chicago last week it's already generating response due to the tremendous impact of the film.

CROSSOVER PICK

KIARA - *This Time* (Duet with SHANICE WILSON) (Arista)

A top ten Urban Contemporary entry with one of those melodies that's sure to warm the hearts of pop audiences. Young Shanice Wilson's vocal exchange with lead singer Gregory Charley should give her blossoming career a big boost.

ALBUMS by Ron Fell

Reviewed by Kent Zimmerman. Ron Fell is on vacation and will return next week.

DYLAN & THE DEAD (COLUMBIA)

Here's a forty four minute digital slice of the successful Dylan/Dead tour immortally committed to plastic. Bob and his famous back-up band serve up some popular faces, some choices that hardcore fans will enjoy and a few curve balls. It's hard to imagine a more logical combination of players, save for a Dylan/Band reunion. The Dead, who have always incorporated Dylan's music in their expanding sets, bend and shape the tunes. Familiar gems like "I Want You" are stitched with a natural funkiness and homespun feel. Rehearsal time seems to have been kept to a minimum, giving each song an exploratory feel. Besides "Slow Train" and "I Want You," a spiritual version of "Knockin' On Heaven's Door" should pique the most interest.

NEW LIGHT THROUGH OLD WINDOWS...-CHRIS REA (Geffen)

Chris Rea gets to live in the best of both worlds. Since his last LP, *Dancing With A Stranger* was tragically overlooked, he gets to resurrect a couple of songs from that LP with the opening "Let's Dance" and "Windy Town." In addition, there are new songs to be sung on this refreshing comeback. Oldtimers will remember Rea from his *Whatever Happened To Benny Santini* LP and most notably the hit single, "Fool (If You Think It's Over)." Newcomers are already hot and heavy on "Working On It," Chris' dramatic return to Album Radio airwaves. Very much a writer who uses autumn colors to highlight his seasonal releases, *New Light* is no exception. Those who admire the moody flavors of artists like Eric Clapton (minus the superfluous glitz) and Mark Knopfler (at his most cinematic) will join thousands of European fans who adore the music of Chris Rea. Additional trax: "Candles" and the remake of "Windy Town."

TECHNIQUE - NEW ORDER (QWEST/WARNER BROS.)

Lately bare architecture has given way to wild dance programs and artful gyrations as *New Order* stands on the threshold of Top Forty attention. In the past, the band has attempted to make headway with remixed versions of their past European hits, specifically the classic Quincy Jones reworking of "Blue Monday." Yet *Technique* stands a better chance with the combination of energy launched by *New Order* fans and new converts, fitting in well with Top Forty's current direction. Like quite a few British art dance units (*Erase* and *Depeche* come to mind), *New Order* has an appeal that ranges from the very young to the VERY fashionable. Since *New Order* has a tendency to graphically understate their case, all you have is the music, which is generally the way Top Forty faces the music. Stations that are having luck with HOT dance mix evenings will have a ball with this one, finding it essential programming.
