# ISSUE 2000

GAVIN observes its 2000th issue  
by looking ahead at the year 2000  
and finds that the future  
ain't what it used to be

## This Week.....

It's our **2000th** issue. We know, we know: **36 years** times **50** or so issues doesn't add up to **2000**, but our founder, **Bill Gavin**, who graces our **cover**, included

his frequent **Gavin Confidential newsletters** of the early years in his count, so what can we do but go

along? However, instead of a look at ourselves, our always forward-looking **CEO David Dalton** suggested considering 2000, the year. It's not far off, especially the way we're hurtling into the **future**, seemingly before its time. But it's a **pivotal** number and a subject we'll worth considering, especially for those of us in the **business** of music and **broadcast entertainment**.

David consulted with a number of **analysts** and **futurists**, among them **Faith Popcorn** (top), **Harry Bent, Jr.**, **Watts Wacker** and **Daniel Burrus**. Check out their thoughts on **radio**—will it become "a sort of **digital home juke box**?"—on the impact of faster-than-ever **computer chips**, and on **lifestyle** changes.

Popcorn predicts that we'll "entrench ourselves in the privacy of the fortress: **EveryHome**."

Our challenge will be to **penetrate**—or **remain a vital factor in**—those **fortresses**. As for **news** of the day, **Gavin** staffers were in **Seattle** the day **Kurt Cobain's** (above, right) suicide was discovered; we provide up-to-date coverage. **Also: radio pranks** and **sales** and a look ahead to **Gavin's** upcoming musical showcase, **SFO1**. In the **Gavin-Only 60 Chart**, **The Cranberries**, **Joshua Kadison** (above), **Heart** and **Phil Collins** are well showcased

# The Future Ain't What It Used To Be

BY DAVID DALTON

**L**ook ahead to the year 2000? What do you think I am, crazy or something? We dwelled on GAVIN's rich history in the 35th anniversary issue last August, so we felt that for the 2000th issue - a milestone of which everyone here is rightly proud - we should attempt to look forward to the year 2000. I'm no Bill Gavin, but in his absence it falls to me to make a few prognostications.

One prediction is safe. A lot of what I outline will turn out to be dead wrong. The headline is a quote attributed to legendary baseball manager Casey Stengel and, as he found out, a change of location and change of personnel—Hi there, New York Mets!—can suddenly transform the immediate outlook. So this glimpse into the future should be laced with more caveats than George Michael's next recording contract. It represents one view of certain key influences and developments, informed by some of the brightest analysts and futurists who regularly stick their necks out to suggest the shape and nature of our world to come.

Don't worry, I'm not going to make specific predictions about what type of music format or radio format will predominate. There are enough highly paid A&R execs and radio consultants doing that (and getting it wrong as often as not), and their view is relatively short term.

Let's start with some of what we do know: the basics.

While the Treasury may have trouble predicting interest rates next month, government colleagues at the US Census Bureau are fairly safe in predicting that the teenage population will rise to almost 25 million this year. After boom comes bust, so the eco-

nomics maxim goes. And so it was in the population as the baby boomers held back from redoubling themselves in the '70s. Now the boom is underway once more and not set to peak until well into the next millennium (2010, to be precise, reaching 30.8 million, which is almost a million more than the last peak of 1976).

The opportunities such a demographic shift represents are obvious, with a relatively affluent boomer generation taking control of the country and raising a new generation of dynamic consumers. Yet the entertainment options are becoming so diverse that the music business and radio, in particular, will have to be that much smarter at grabbing their attention. Whatever new delivery systems technology brings, music will always be an essential part of the entertainment mix, whereas conventional radio, still music's most potent and universal delivery system, is in danger of being out-fiberopticked, or dished in the dirt by direct broadcast satellites.

If corporations are having to become more instantly responsive to customers' desires, the logical extension for radio is the station programmed by the listener, as directly as possible. That suggests a sort of digital home juke box with an almost limitless and constantly updated selection. Some might say the precursor of this, the cable music service DMX, is already here, and there are similar services due to come on stream. Record companies - backers of at least one project - grow uneasy at such developments and cry foul as they see their rights (and their income) eroded. That is why the battle for control of such secondary income will intensify over the coming years as it becomes more a primary source of income.

The saving grace for creativity in all this is that consumers often don't know what they want until they've tasted it.

That simple fact has helped regenerate the music business more than once and it should prompt radio to step out and be more adventurous if it really does want to retain a position of fashioning trends rather than simply responding to them. Let's not allow the day when elevators take more risks with playlists than radio stations. God forbid that listeners should one day feel more challenged by the music in their

local supermarket or hamburger joint than by their local station's programming choice.

Another basic: A typical computer chip purchased at the beginning of the '90s performs electronic operations as fast as 4-billionths of a second. By the year 2000, predicts Daniel Burrus in *Technotrends*, "it should be 200-trillionths of a second." To put it another way, William H. Davidow and Michael S. Malone predict in *The Virtual Corporation* that developments should permit computation speeds to reach one billion instructions per second in a machine costing \$10,000 by the end of this decade. If you think that's amazing, consider the prospect of "living," thinking chips covered with brain cells cultivated in animal blood. Gruesome but true.

Such advances only become really exciting through the practical applications they facilitate, such as Electronic Data Interchange, or EDI. This system links suppliers, manufacturers, distributors, customers - all the component parts of the manufacturing and sales process - so that they each know what stage the other is at.

"Electronic Data Interchange is going to destroy the old 'one hand doesn't know what the other is doing' bugaboo," says Daniel Burrus. "In the past we only communicated internally. In the future, we'll reach out and extend the communications network to include the entire world of business."

Record distributors have already embraced such technology to meet the needs of large retail customers, while at the same time saving enormous sums on their own inventory maintenance and excess manufacturing.

How might this translate to the radio environment?

Consider this scenario: The PD is in his office watching a screen. Not the Dodgers versus the Mets but a moving graph line which is demonstrating before his very eyes how a sample of his target audience is reacting in real time to his station's output.

The graph line plummets, and that record comes off the playlist, and fast. The next disc performs better with some natural peaks and plateaus. It is moved into a heavier rotation. The next selection soars almost off the top of the screen, never tailing off. A smash. The PD already has the track in heavy rotation but calls up further details of the album to

find another track to slip into the mix.

At that point a frantic record promotion executive telephones (yes, I'm afraid telephone technology will certainly endure well into the 21st century). He has been watching the same story unfold on his own screen and is calling to offer tracks by an artist similar to the soaraway success. However, his real reason for phoning is to plead for the artist who bombed to be given a reprieve and not to be dropped from the playlist just yet.

At the same time, the station's sales director, monitoring music's life and death struggle on his own screen is already calling an ad agency to deliver the great news about the last record and to attempt to increase the spot frequency of the adjacent commercial.

Unfortunately the sharp agency dude is one step ahead, demanding a discount for his other client's spot which followed the dud record.

Are you still with me? Frightened? Think it's far-fetched? A crude version of this is already taking place in impressive research Mix-Master carries out for radio clients. So the basis of the technology is already here. It's simply a matter of linking up everyone in real time and then "great phones" will translate into "great graph peaks" in the classic PD-speak applied to breaking releases.

New technology that once only seemed appropriate for big organizations who could afford it and needed it will soon be at the fingertips of the smallest of businesses (one person at home, even). I'm sure we've all been into that small, informal restaurant where the waiter whips out a hand-held data bank to instantly process the order.

That technological self-sufficiency for the individual reinforces trends Faith Popcorn identified a while ago as Cocooning (the stay-at-home syndrome) and Cashing Out, where people leave the corporate rat race in search of a better quality of life.

"This decade will see a full turn from fast-track living to a return to home and self-protection. We'll experience a new morality, new religions, new foods, new science, new medicine, new everything. Everything," she gushes.

In a world where *we* are "the new endangered species" and "the wilderness is safer than 'civilization'," Popcorn predicts: "Increasingly, we'll entrench ourselves in the privacy of the fortress - EveryHome in America. The purpose of the fortress? To make us feel safe. Sophisticated distribution systems will stock and supply the fortresses; the chore of shopping as we know it will be over - shopping has to become theater and diversion. The fortress will be the center of production (we'll work at home), the center of

security (we'll make the fortresses intruder-proof), and the center of consumption. Penetrating the increasingly impenetrable fortress will be the primary challenge for marketers and manufacturers in this decade."

That sounds like great news for radio and the music industry which already have their Trojan horses in the fortress.

Looking for more good news? After detailing some depressing short-term ills, Harry S. Dent, Jr. positively bubbles over with enthusiasm about the prospects for tremendous growth through the early years of the next century in his book *The Great Boom Ahead*.

While Japan will be slow to recover from its tumble into the world's economic cellar, and Europe will continue to struggle under the burden of reconstructing Eastern Europe, Dent predicts: "The United

**L**et's not allow the day when elevators take more risks with playlists than radio stations.

States, with its huge baby boom and its edge in customizing technologies and entrepreneurial skills, will enjoy a head start in the drive to dominate the global economy."

Echoing Popcorn, Dent forecasts a "great migration to the 'exurbs' or small towns and cities," providing good news for radio markets feeling disenfranchised by not making the cut of the top markets.

"We moved to the suburbs after the last great economic revolution. This time we will move to smaller towns and cities for safety, environmental quality, better education and more intimate neighborhoods," Dent reasons. If he's right - and it's already happening in places such as Boulder, Colo., and Santa Fe, N.M. - Arbitron and the like will be kept busy redrawing their maps of meaningful markets, while the relative values of station franchises may shift substantially.

What of the much-vaunted information superhighway? Concrete innovations such as EDI demonstrate that something real is happening, but so fast that noted futurist Watts Wacker says that the term itself is outmoded.

At NARM's most recent convention, Steve Strome, CEO of retail giant Handelman, said the superhighway "is yet to be paved," while Mickey Schulhof, chairman of Sony Music Entertainment and CEO of Sony Corporation of America, firmly believes it's here already. "When I read a story in *Billboard* about how legal entanglements would tie up the technology for years, I laughed," he said.

You know what? They're both right, sort of. For what it's worth, I believe the information superhighway is already paved and many of us are already traveling on it. But, at present, it's a road without many signposts and without a destination.

It's like that seemingly-endless road across the desert and the weary traveler, with his foot hard down on the gas pedal, is hoping that the diner comes into view soon, so that he can have a breather and take another look at the map.

Will such technology kill retailing? If so, why is a visionary entrepreneur like Richard Branson coming to San Francisco in the fall to open a 53,000 square-foot megastore?

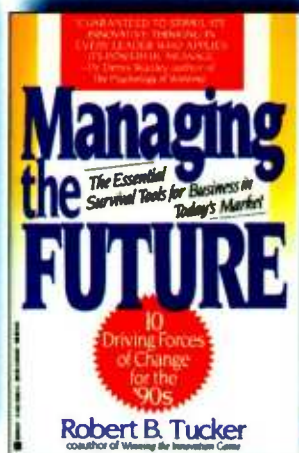

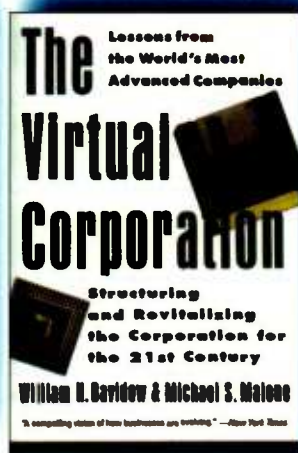

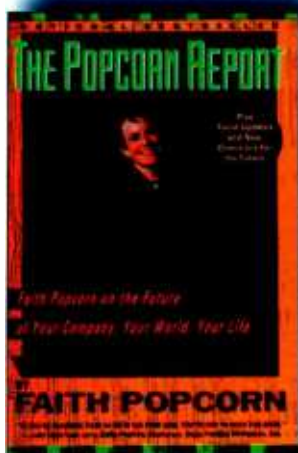

The retailing concept will certainly change to conform with what Popcorn identifies as the "fantasy adventure" trend, in which the pampered consumer will enjoy "the safely familiar with an overlay of heart's desire." Could that be the slogan of a radio station of the future? Something snappier, perhaps.

If there is one point of consensus among those who make a business out of our insecurity about the future, it is that the most successful individuals and corporations will be those who can adapt to and manage change rapidly and adeptly.

Fortunately, one of the best indicators of change is in our own hands. "Pay attention to popular culture," urges Popcorn. And if popular culture is a barometer of the times, music is its early warning system.

Movies can take years to realize, TV programs are sieved and pasteurized to a broad appeal blandness, and even fashions in clothes have to wait for the right season. By contrast, music can be on the airwaves and in people's homes almost instantaneously, generating an inordinate influence and popularity that is sometimes too dramatic even for the creators. Yes, I guess I'm thinking of Kurt Cobain of Nirvana and an event which makes us all look at the future a little differently.

Here's to the new millenium and the next 2000 issues of GAVIN. ●

Most people trust a crystal ball just about as far as they can throw one, yet a whole industry has grown up around the prediction and forecasting business. Here are just a few volumes of frothy insights into what we can expect from the future.

# Kurt Cobain: The Death of 'Teen Spirit'

BY BEN FONG-TORRES

When Buddy Holly, the Big Bopper, and Ritchie Valens were killed in 1959, it was a tragic accident.

When Jim Morrison, Jimi Hendrix, and Janis Joplin died in '70 and '71, their deaths were thought of by some as a comeuppance for musicians who'd chosen the fast lane.

When Elvis died in '77 and John Lennon was assassinated three years later, their passings signified the deaths of two eras.

But when Kurt Cobain killed himself, it was “all bullshit.”

That's what an angry and weeping Courtney Love, Cobain's wife and a musician herself, told several thousand people gathered at the Space Needle in Seattle Sunday night, two days after the discovery of Cobain, who police say shot himself in the head. Cobain, born in the nearby timber town of Aberdeen, was 27.

Love's pre-recorded statement included excerpts from Cobain's suicide note, which ended with a Neil Young line, “It's better to burn out than to fade away.” Love called that philosophy “a fucking lie” and exhorted her listeners to call Cobain an “asshole,” which the crowd proceeded to do.

Love's forthright remarks served as a sad echo to Cobain's mother's own, cold assessment of the singer's taking of his own life. “Now he's gone and joined that stupid club,” said Wendy O'Connor, referring to other rock stars who'd died young. O'Connor had been looking for her son for six days before he was found by Gary Smith, an electrician, Friday morning (April 8) in an apartment above the garage of his Lake

Washington home.

Among the first to break the news was KXXR/FM, which received a tip from another electrician who works for the same company as Smith.

“He called the station,” said DJ Marty Riemer, “because he was a big fan.”

Soon after the news began to spread, area stations mixed anti-suicide messages

much his music touched them, or whatever. We also had a psychologist on hand to help the callers that maybe needed to talk to someone professionally.”

On KROQ, said Jed the Fish, “fans basically expressed disappointment, anger and shock—but not surprise” at the news. Marco Collins, music director of The End (KNDD) and a

and information with Nirvana music. (Despite their efforts, one 28 year-old man in King County killed himself with a shotgun blast Monday. His roommate described him as “despondent” over Cobain's death, and said he had attended the Sunday vigil.)

“We ran anti-suicide PSAs after each Nirvana song throughout the weekend,” said Jed the Fish of KROQ-Los Angeles. In San Diego, Kevin Stapleford, director of operations for 99X, said both his DJs and listeners wanted to talk about the singer. “Kurt Cobain was a hero to millions of disenfranchised kids,” said Stapleford, “and if you glorify his suicide—even a little—it's just not right. We featured a ‘remembrance,’ not a ‘tribute,’ where his fans could call in and talk about what they were feeling, about how

friend of Cobain and Love, told GAVIN he was “angry at Kurt. If there was anything more important than his life, it was his baby's life. (Besides Love, Cobain left behind a 20 month-old daughter.) That's why he made such an effort to clean up in the first place. I've watched over the last couple of months as things got worse, but I never expected it this way.” In New York, on a book tour, John Lydon, ex- of the Sex Pistols, who lost Sid Vicious to a heroin overdose in 1979, labeled Cobain's suicide “pathetic.”

Many rock fans knew about Cobain's use of heroin, which he said was to battle a chronic stomach ailment; about his lapse into a pills-and-champagne-induced coma in Rome in early March, and about his “health problems” leading to Nirvana's pulling out of the

next Lollapalooza tour. The *Los Angeles Times* recently quoted a source saying the Rome overdose, of some 60 tranquilizer pills, was a suicide attempt. But his death stunned many in Seattle, which in recent years had been labeled a capital of so-called “grunge rock,” of which Cobain and Nirvana were credited as pioneers.

The band, founded in 1986 and first recorded on the local indie Sub Pop label, hit superstardom in 1991 with the album *Nevermind* on Geffen Records. A single, “Smells Like Teen Spirit,” became something of an anthem. “It had a teen revolutionary theme to it,” Cobain admitted.

But the singer never felt at ease with commercial success and the pressures he feared it would bring. In late 1991, he spoke with GAVIN's Seana Baruth for a story entitled “Rather Be Dead Than Cool.”

“It's never been a goal of ours to be really popular,” he said about the band's move to Geffen. “We just wanted...to make sure that people could find our record. It's getting a bit out of hand, I think. I don't want to be a big rock star. I'd like to sell a good number of records to maybe be financially secure for the next couple of years, but I'd feel like an idiot if I walked into a record store and people followed me around (or if they) pointed me out all the time at grocery stores. I'd hate it.”

Cobain was prescient. A clerk at Left Bank Books in Seattle said she heard from a friend of Cobain's. “He said Kurt was always talking about how he couldn't go out any more. Everything was...*deteriorated*.” Or, as Nirvana's management com-

pany, Gold Mountain, said in a statement: “Painfully, Kurt's passions and feelings about his fame overwhelmed him.” Ed Rosenblatt, president of Geffen and DGC Records, said that “the world has lost a great artist and we've lost a great friend. It leaves a huge void in our hearts.”

On Sunday, while the fans gathered at the Space Needle, a private service was conducted for Cobain at the Unity Church, with about 200 family and friends attending. Love, dressed in black, read from the Bible and from Cobain's suicide note, then joined mourners listening to some of Cobain's favorite music, including the Beatles' “In My Life.”

According to Collins of The End, Love left a “rambling” message on his answering machine that night, saying she wanted to “do something on the air.” He said he planned to invite her in sometime soon to talk with listeners.

Meantime, said Collins, the Sunday memorial served an important purpose. “There were a lot of people there who needed to unload.” They listened to Love's taped message. Then, as Gina Arnold, author of *Route 666: On the Road to Nirvana*, reported in the *San Francisco Chronicle*, “After a brief statement from a suicide prevention counselor...many in the crowd, some in trademark grunge wear of combat boots, flannel shirts and Nirvana T-shirts, broke ranks and leapt into a nearby fountain, where they frolicked, moshed and sang along to Nirvana songs played on a loudspeaker until city officials turned off the water.”

Felt like teen spirit.

## These DJs Do a Little This, a Little DAT

BY NATALIE DUTSMAN

When KYOT-Phoenix needs to call a jock meeting, all PD Jim Trap does is open a bunch of Airborne Express envelopes.

That's because, aside from his morning show, all his DJs are telecommuters, doing their shows from Seattle, Los Angeles and San Francisco, receiving their lines by fax and submitting their programs on DAT tapes by overnight mail.

It's just another stop on the high-tech highway, and it's a long way from Tom Joyner, who made news with his daily shows in Dallas and Chicago, which he did by flying between the two cities.

In Los Angeles, Talaya Trigueros accomplishes much the same thing, pulling a midday shift at The Wave (KTWV) while appearing on the air in Phoenix with a different show—also on the midday shift.

Along with Barbara Blake in Seattle (formerly with KKSF-San Francisco and KKNW-Seattle) and Blake Lawrence (of KKSF), Talaya is able to appear in Phoenix without ever setting foot there.

"Right after the GAVIN Seminar," she explains, "Jim Trap approached me about doing an airshift right from my home. They had this idea of putting together an all-star A<sup>2</sup> on-air group. You could call us DAT jocks."

For her six shifts, the Phoenix station faxes her three days of material on Monday and three more on Thursday. Working as much as a week and a half in advance, Talaya tries to get into the mood of the day a particular show will air. "If it's a Sunday show, I try to make it just a little bit mellow, soothing," she says. Trap sends Phoenix papers to his three long-distance DJs, along with other information about local concerts and other cultural events.

Talaya, who is married and the mother of two, has a makeshift studio in her home, she says, "so

I have to turn off the ringers on the phones and turn down the volume on the answering machine. Depending on who's at home, it's like, 'Mom's in the studio...Shut up!'"

Sound quality, she says, is amazing, thanks to a Sony DATman and a directional mic. Nick Francis, MD/overnights at KYOT, says Talaya sounds like she's in the KYOT studios. "She's so good, it's just fabulous. It doesn't sound canned at all."

For his shift, Francis also uses high-tech. "I go directly into the hard drive," Francis says. "Instead of pushing record and using tape, I push the space bar on the computer and record the bits. The only live show we have is mornings."

---

**"To be in two markets at the same time is a dream come true."**

---

The system KYOT uses is called Media Touch, and Francis explains how it works. "The music logs, commercial logs and jock breaks are merged together, then the system organizes it and puts it in a sequence. The music library holds five CD jukeboxes (although KYOT currently uses three), and each holds 300 CDs a piece. Everything else that isn't music, like commercials or jock breaks is placed on a hard drive and stored in a memory that's digital audio. Each of those, whether a commercial or voice break, is coded and put in a certain sequence. For example, we send Talaya a music log for a particular

day, she does the breaks on her DAT player and sends them back to us, and we load them onto the hard drive. We then go in and load every break and code it, so we know

where the first break in the ten o'clock hour will be and so on. Once we get it in, it rolls and sounds like they're right here."

As far as the future, Francis foresees a lot of stations going to it. "I think for a lot of jocks in the business who've traveled around so much, it's very appealing," he says. "It also enables programmers to be able to bring a quality lineup to the table right from the beginning. It's great that Blake, Barbara and Talaya can do what they do, and they didn't have to move here to do it. We have one of the best air staffs in the format in the country because of the experience they have along with their enthusiasm and knowledge of the music. We wouldn't have been able to accomplish that locally."

Talaya agrees. "It's incredibly challenging and a great way for a broadcast organization to be able hire major market talent. To be in two markets at the same time is a dream come true. I'd like to make it three or four, and I don't see why it couldn't happen."

# SFO1 Showcases Will Pack 24 San Francisco Nightclubs

Twenty-four San Francisco nightspots will be thumping with the beat of unsigned artists strutting their talent during GAVIN's SFO1, set for May 19, 20 and 21.

Some of the clubs, such as the legendary Fillmore, are rich in San Francisco musical history (See neighboring story). Some, like the Paradise Lounge in the South of Market and the I-Beam in the Haight-Ashbury, have been showcase rooms for future stars. It was at the Paradise, in fact, that Capitol president Gary Gersh, who'd heard their demo tape, first saw the Counting Crows early in 1992. He was reportedly unimpressed, but, back in town for the GAVIN Seminar, saw them again at the I-Beam. This time, he signed them.

Also part of the loop is the Great American Music Hall, a classic showroom whose theatre-like intimacy and eclectic music menu has for years made it a favorite of concert goers,

and Slim's, the Boz Scaggs/Bob Brown/Ray Etzler-owned room that brings roots music to San Francisco every night.

Six of the clubs are in the South of Market on 11th

Street, which SFO1 co-organizer Queenie Taylor calls the city's "entertainment corridor." Besides Slim's and the Paradise, Ace Cafe, the Oasis, Eleven and DNA,

a club famous for its commitment to showcasing different styles of music, line the street. The rest of the clubs are within easy proximity, with a few being in the Haight and one in colorful North Beach. "Geographically, San Francisco is pretty small," says Bonnie Simmons, who with Taylor is organizing SFO1. "All of the clubs are easy to get to."

As it's always been in San Francisco, the music will know no bounds that weekend. "We'll have jazz, rock, alternative, alternative country, jazz hybrid, hip-hop, spoken word, R&B, acoustic singer/songwriters and even lounge music," Simmons says, all in one breath.

Between now and April 30, registration for SFO1 is \$150. From May 1 and including at the door it will be \$175. For registration and other information call the SFO1 hotline, (415) 495-3200. Day sessions will be outlined in GAVIN news as the event draws closer.

## Uproar in a Library: Book 'im, Danno

He said he did it to raise public interest. Instead his listeners turned books into airplanes and left Fort Worth's public library in a shambles.

After a conversation with his educator wife about how libraries are underused and taken for granted, KYNG/FM-Dallas personality A. W. Pantoja decided to lure listeners to the Ft. Worth public library by telling them one, five and ten dollar bills were planted in the books.

No more than \$100 was planted, but word spread that as much as \$10,000 worth of bookmarks were hidden. "We didn't expect many people to show up," program director Dan Pearman told GAVIN.

It's been estimated that anywhere from three to five hundred people besieged the library looking for the loot. Some of the fortune seekers became belligerent and tossed books around, ripping them and breaking their spines. "Books were sailing and elbows were flying," said library spokeswoman Marsha Anderson, "and people were climbing on the shelves."

The incident left the library a mess and the city manager outraged. The FCC was notified and an inspector has already stopped at the station twice, once to sit in on Pantoja's show.

Though the FCC hasn't made a ruling, KYNG has begun taking steps to repair the damage. Pearman told GAVIN that the station is paying for the damaged books, repaying the city for man hours needed to clean the library, donating \$10,000 to it and helping in its fundraising efforts.

Whether or not these efforts will assuage the Commission remains to be seen. "We've met with a representative from the FCC field office, answered questions, handed over transcripts and responded to all inquiries," Pearman says. "We'll see what happens now."

## Fillmore Rocks Again

BY BEVERLY MIRE

It withstood the '60s, when bands such as the Jefferson Airplane and The Warlocks, who eventually became the Grateful Dead, whipped fans into drug induced frenzies; it survived former owner Bill Graham's thunderous personality; it survived a decaying neighborhood and being closed from the late '60s to the early '80s; it even survived the 1989 Loma Prieta earthquake.

And now, after a \$1 million facelift, the Fillmore Auditorium will rock again starting April 27.

Though it withstood the 1989 earthquake and was never deemed unsafe, Bill Graham Enterprises (BGE) closed the nightclub down to give it a complete seismic upgrade. "The build-

ing was never red-tagged, but we were not comfortable about how it weathered the earthquake," said Dan Mayeri, president of AKG, Inc., the nightclub wing of BGE.

To make the rock n roll palace safe from further shakes and rattles the roof was rebuilt, the ceilings were reattached and more steel, concrete and angle irons tie the floors to the walls. The changes, Mayeri says, are imperceptible. "People are going to say, 'What took so long? Where are the changes?' It's all hidden in the walls and floors and behind curtains. We wanted to be able to sleep at night knowing that people could come into the building and not have to worry about it standing up to a quake."

The building that houses

the Fillmore was built in 1912. Graham first made his mark as a promoter there, and many artists and groups started on the road to fame there.

The Fillmore's month-long opening celebration will feature shows by an eclectic group of artists. Primus, Chris Isaak, Huey Lewis, Queen Latifah, Jimmie Dale Gilmore, D'Cuckoo, the Sir Douglas Quintet and the Thinking Fellers will all pass through and add their echoes to the classic, mid-sized club's atmosphere. Sixties icon Ken Kesey and his Merry Pranksters will bring back the past.

"Something very special started there (at the Fillmore) in the '60s," Mayeri said. "Now we have an opportunity to continue that legacy."

## A What's What for Radio

A new dictionary has been published to help people in the radio industry come to terms. *The Radio Dictionary*, written by marketing veteran Thurmon Floyd, incorporates history, sociology and psychology into the realm of radio.

*The Radio Dictionary* also lists publications focused on radio and advertising, associations related to the industry, acronyms and statistics. "It's a useful tool for newcomers on there way up or established veterans," says Floyd.

Floyd describes the book as an important tool for those in the industry, but notes that it encompasses far more. "*The Radio Dictionary* goes into sociology as it relates to communicating with the public," Floyd told GAVIN.

Users may include authors, media directors, marketing executives, radio programmers and promoters, but Floyd is targeting upper management people who are making the decisions at radio. Floyd candidly reports that early response to the dictionary has been mixed.

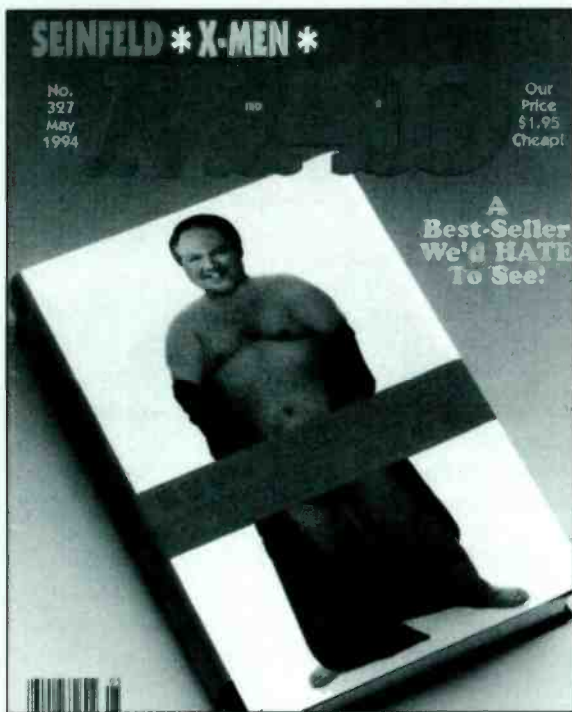

"My first market is radio stations, and I don't know if they know how to position it," he says. "Many stations feel that they already know it all, but educational radio stations have had no reluctance to purchase it."

Floyd has dual degrees in marketing and business management, has spent six years in radio and 12 years in marketing and advertising. Working in communications, he saw a need for a definitive reference volume containing the lingo as well as little and well-known facts. He's dedicated the last three years to compiling *The Radio Dictionary*, which was financed and published under his own Dublin, Ohio-based publishing company, Riverview Press. The 368-page volume, priced at \$34.95, can be obtained through Riverview Press at P.O. Box 564, Dublin, OH 43017.

## A MAD RUSH

For those who haven't picked up an issue of MAD Magazine in ages—and you have no excuse for dropping the habit—here's evidence that Alfred E. Neuman and the gang are as idiotic as ever. The May issue combines two of radio's biggest names on one disgusting cover. Inside, readers' letters debate a previous MAD feature on Rush Limbaugh. The magazine has a history of paying attention to radio, including the use of '50s personalities Jean Shepherd and Henry Morgan in its earliest issues. Also in the new issue: Takeoffs on Billy Joel tunes ("Just the Weight You Are") and "Badly Needed Warning Labels for Rock Albums" ("DANGER: If you don't buy this album, Madonna will be forced to do more acting!")

## Jimmy Lyons Dies

Whenever a music festival is held anywhere in the world, Jimmy Lyons' memory will shine.

Lyons, who along with Ralph J. Gleason created the Monterey Jazz Festival, died on Sunday (April 10) of heart failure at 78. He had been bothered by heart problems for the past few years.

A former disc jockey whose voice wooed jazz fans during the '30s, '40s and '50s, Lyons took \$6,000 in seed money in 1958 and gathered together Dizzy Gillespie, Billie Holiday, the Modern Jazz Quartet, Max Roach, Harry James, Dave Brubeck, Mel Lewis and Ernestine Anderson for the first star-crammed event that became the model for

jazz festivals everywhere.

Though in later years it was criticized as becoming "flabby," because of its loyalty to older artists, the event never lost its luster. Duke Ellington performed there in the early years; Louis Armstrong and Charles Mingus were regular performers.

"The festival made an important showcase for jazz on the West Coast," said Modern Jazz Quartet pianist John Lewis. "In the early years at Monterey we put together programming you wouldn't normally hear."

Before World War II Lyons was a personality at KVOE-Santa Ana. He also worked with Stan Kenton and wrote for NBC Radio. During the war he had a

## Seattle Sale: EZ Comes, KZOK Goes

Radio station prices in the Pacific Northwest took a leap last week when the owners of KZOK/FM-Seattle announced that it was selling the Classic Rock station for \$19.75 million.

The buyer, who'd be paying what appears to be a record price for a single Seattle-Tacoma area radio station, is EZ Communications Inc. of Fairfax, Va.

CLG Media of Seattle Inc., owner of KZOK/AM and FM, is also selling the AM stick for \$500,000 to Salem Broadcasting of Camarillo, Calif.

The FM deal gives EZ a duopoly in Seatown, as it already owns market leader KMPS/AM-FM, a country station. KZOK/FM had ranked seventh in the most recent Arbitron ratings, and its AM

sister had recently been simulcasting the FM signal.

KZOK will move into a building next door to KMPS, said program director Dave Richards, who said no format change is planned.

The Seattle acquisition, along with a pending purchase of a Pittsburgh station, will give EZ Communications a stable of 15 stations.

## KJAZ Listeners Jam Phones

The proposed sale of KJAZ-Alameda, Calif., announced in February, rang a discordant note with fans of the venerable jazz station—more than owner Ron Cowan ever expected.

Cowan, who had built a jazz satellite network around his flagship station, had announced that the station license itself was on the market, and that he might keep KJAZ itself alive as a cable station.

Now, he's thinking things over. Responding to an on-air invitation to those who are concerned about the station's survival, some 26,000 people have called in two weeks.

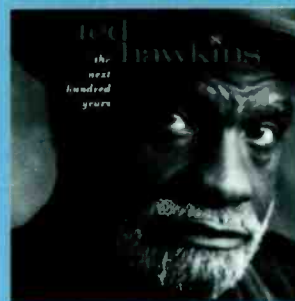

"The comments are not

all supportive of KJAZ going to cable," Cowan said. "They want us to stay on the air. I had no idea the anti-cable sentiment was so strong."

Cowan, who says he's in debt to the tune of \$4 mil-

lion on KJAZ, has an offer from a would-be buyer, but that he's uncertain what to do, given the listeners' response. "I'm trying," he said, "to look at ways to raise money and not sell the license."

### CAMPAIGN OF THE WEEK

**TED HAWKINS**  
*The Next Hundred Years*

To distill Ted Hawkins' life experience into one paragraph is impossible. Suffice to say, this talented musician who Geffen A&R director Tony Berg heard singing on the beach in Santa Monica is finally get-

ting his due. DGC is wisely using Hawkins himself as a base for the marketing campaign for his major-label debut, *The Next Hundred Years*.

#### LABEL: DGC

**SETUP:** Hawkins performed for retailers, radio stations, press, etc. Three weeks before the album's release, Hawkins played in New York, Chicago and Los Angeles. He performed at Tower Records on 4th and Broadway before the album was released, and on NPR's *World Cafe*. Label circulated pre-release cassettes as far back as December. **RADIO:** Album was sent to College and A' stations simultaneously on March 29. Both formats are responding favorably.

**RETAIL:** A national promotion started March 22 at select retail accounts such as Specs, Kemp Mill, Strawberries and Tower Chicago. If you purchased the new Bonnie Raitt CD you received a free, two-song Ted Hawkins cassette sampler that included a coupon good for a dollar off *The Next Hundred Years*. Currently, Hawkins is performing at accounts and stores in thirteen major markets. The mini-tour will continue for five weeks.

**PRINT:** Features in the *Los Angeles Times*, *Billboard*, *Los Angeles Weekly*. Glowing reviews in *Rolling Stone*, *Spin* and *Entertainment Weekly*. CNN and E have done pieces on Hawkins.

**TOUR:** Dates booked throughout May, with stops at venues such as The Bottom Line in New York and Bluebirds in Nashville. A major U.S. tour is planned for June and July.

Former **Mercury** VP/GM **Larry Stessel** has joined the **ERG** team in the newly-created position, senior VP/GM. Meanwhile, will West Coast VP/GM **Kevin Knee** be sitting on the dock of the bay by early May?

Hardly a conversation went by this week without mention of **Kurt Cobain's** tragic death in Seattle. Sadness mixed with anger are the emotions expressed by industry and fans alike. Deepest sympathies to all those closest to him including his widow, **Courtney Love**, daughter **Frances**, fellow band members, the staffs at **Sub-Pop** and **Geffen Records** and to **Capitol** president **Gary Gersh**, who signed **Nirvana** during his A&R tenure at **Geffen**.

**K-101 (KIOI/FM)**-San Francisco is expected to become the property of **Evergreen Media** by the close of the business day on Friday, April 22. Might outgoing VP/GM **Gary Taylor** be forging a new alliance in the Northwest? Aaand what new consultant will be entering the mix at K-101 when the station changes hands?

**Records**; the Shaq Man; **Barry Weiss**, GM **Jive Records** and **John Robson** director, programming **THE BOX**, which let viewers test their knowledge of Shaq's music. Janet and John are watching a video while Barry tries to remain standing under the weight of Shaq's hand.

No earthquake in Bakersfield this week, but that didn't stop things from shakin' at **KKXX** where PD **Ken Richards** exits in the wake of new ownership. **KKXX** is now part of a duopoly with Album Rock **KRAB**, and both stations will be programmed by current **KRAB** PD **Chris Squires**. Squires, of course, is no stranger to **KKXX**, having previously programmed the Top 40 outlet. Both facilities are now the property of a growing group of stations purchased by **Q-Prime** managers **Peter Mensch** and **Cliff Bernstein** (**Metallica**, **Def Leppard**, **Queensryche**, **Suicidal Tendencies**, **Bruce Hornsby** and **Tesla**). Expect rocker **KDJK**-Modesto to be their next acquisition.

In response to the question asked several weeks back—will former **Chameleon** promo chief **Barry Lyons** be headed west? The answer—yes! Lyons will be in charge of the rock department at **Giant** and will work out of New York for the next few months, relocating to L.A. by mid- to late-June. As if that isn't a big enough change, “the Doctor” has also announced his engagement to **Fay Vasilas** with the couple planning September nuptials.

**Star FM (KRSY/FM)**-San Francisco will cease to exist come Monday, April 18. Look for the A/C outlet to have an Urban-lean targeting upper demos with an upbeat presentation and plenty of personality. **Larry Berger** will program and so far the lineup includes **Nick Harper**, 5-10 a.m., **Leslie Stovall**, middays and **Doug Lee**, PM drive. Harper was morning man at **KSOL** from 1973 to 1983 and most recently was at **KDIA**-Oakland. Stovall did a midday stint at **KMEL**-San Francisco for five years before joining **KBLX**-

Berkeley/San Francisco, while Lee had been doing late nights at duopoly partner **WILD 107**. The unofficial buzz has the station changing calls to KSOL with WILD coming up with new calls to coincide with their identity. Might they become **KWLD**?

Changes in the midwest with Top 40 **KZ93**-Peoria, Ill. flipping to A/C and calling itself, *The New Mix 93.3. The Best Mix of the '70s, '80s and '90s*. In Columbus, Ohio, **WAKS/FM Kiss** and the former *Hot 105.7* picks up the Arrow format. Weaker signal duopoly partner **WAHC** will stay Top 40 as *Kiss* for now, but there is speculation it might make a switch to Jazz by the start of summer.

**WABC, WNBC, WCBS, WQXR.** **Mike Joseph** programmed 'em all. Could he be preparing to consult another legendary set of calls in New York City sometime this year or in early 1995?

Morning personalities **Bob (Dumas)** and **Mike (Stiles)** re-up for another two years at **G105 (WDCG)**-Durham/Raleigh, N.C.

Ever seen grown men drool? **KROQ**-Los Angeles' **Kevin & Bean** beg the photographer to

**SHO-TALK**

**Concrete Marketing** president **Bob Chiappardi**, who started the Foundation's Forum seven years ago, has announced the formation of a new company. **Concrete Corner Tour Inc.** is offering three signed bands a month the opportunity to tour with promotional services featuring a rotating co-headline billing. **Varga, Shootyz Groove** and **Greta** were the featured artists on the first show in Burlington, Vt. on April 8. What this means to the fan is ticket prices of only \$5-\$8 per show. There will be speakers from various local and regional organizations (such as **Greenpeace** and **Lifebeat**), merchandise and resource tables, giveaways, raffles (participants can win things like an autographed **Motley Crue** guitar or an autographed **Alice In Chains** poster), contests and much more. Cassettes, CD's and stickers will be given away and lots of other stuff will be available for a few bucks. This is one bold experiment we all hope is successful, not only for the fans, but the bands and the labels...

**RCA Records** has announced that the first date of the **ZZ Top's** "Antenna World Tour" will be in Shreveport on April 30. Everybody's already talking about the two videos out. Up to their video best and—hot! is the key phrase from artists and fans alike. Supposedly the label spent a million dollars on the new one, "Breakaway." The band will spend two months in the U.S. before heading to Europe in July, and then it's back to the States for August and September...

**Bits & Pieces:** Austin's guitar great, **Jimmie Vaughan**, worked with producer **Nile Rodgers** on an album that was released on April 12. The eleven songs make up *Strange Pleasure*, an album that's dedicated to Jimmie's late brother **Stevie Ray** as well as to **Albert Collins**...**Alice Cooper** took enough time away from the golf course to record a new album for **Epic**, *The Last Temptation*, which is due May 31.

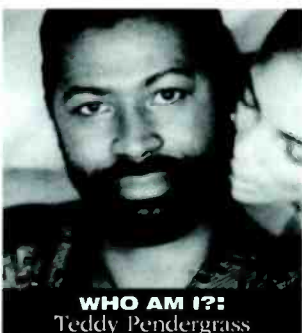

**Marvel Comics** is releasing a comic book version at the same time...**Johnny Cash** has named his new album after his new label, **American Recordings**, and

it's set for an April 26 release. **Nick Lowe, Leonard Cohen, Tom Waits, Loudon Wainwright** and **Glenn Danzig** have all written songs for it. Danzig's specially written tune is titled "13"...

**The Doobie Brothers** have reunited with famed producer **Ted Templeman**. They'll go into the studio in May for the first time since 1982 to record original songs for their boxed set. **Foreigner** and the **Doobies** will embark on a national tour this summer, with 45 dates already scheduled in July and August. The band's lineup is **Tom Johnston**, guitars/vocals; **Patrick Simmons**, guitars/vocals; **Mike Hossack**, drums; **Keith Knudsen**, drums and vocals; and **John McFee**, guitars, pedal steel/violin/vocals...

In support of his new **Arista** release, *Bolero*, **Stanley Jordan** embarked upon a national tour, his first with a full band in almost four years. The album is full of classics such as **Jimi Hendrix's** "Drifting," **Herbie Hancock's** "Chameleon," and the expansive rendition of **Maurice Ravel's** "Bolero." Touring with Stanley is **T.M. Stevens**, bass, synthesizers, vocals; **Kenwood Dennard**, drums, vocals and **Oscar Deric Brown**, keys, percussion, vocals. The tour is scheduled to run through May 1 in Phoenix with more dates expected...

**The Cramps** have been signed to **Medicine Records**. Recently the band played at CBGB's anniversary celebration and to make it really memorable, the label pressed 350 copies (vinyl only) of the band's first ever performance in 1978. The group will begin recording somewhere in California in April, with **Poison Ivy** producing. ●

## Airplay Analysis

Plenty of Top 20 conversions propel **Joshua Kadison's** "Beautiful In My Eyes" upward. Thirty-two plays at KKJO-St. Joseph, Mo. moves it 24-18

and 28 spins on Q99FM-Cape Girardeau, Mo. qualifies it for a debut at #27. New on: WJET, 98PXY, WDJX, WNDU, WPUP, WVIC, KQKY, KROC, KDOG, KIMN and KYEE among others. Advances 25-19 on the **GO Chart**.

After taking **MOST ADDED** honors last week, **Sheryl Crow's** "Leaving Las Vegas" shows no signs of letting up. Brian Garvin, PD at KDOG-Mankato, Minn. calls it "the hottest record on the station," showing 36 spins and a chart gain of 23-14. He reports it Top Three on the phones with most response coming from adults 18+. Thirty-seven ADDs including: Q100, WAOA, WGRG, WTNV/FM, WIQQ, WRKY, KBKB, WHIT, WHZR, KGRS, KLBQ, 104 KRBE, KQIZ, Q99, KHTR and KIMN.

Mark McKay at WNKO-Newark, Ohio was an early believer on **Gabrielle** and now he's giving "I Wish" 25 plays, which is good for a move into his Top 30. A nice upward gain at 92Q-Baltimore, where 33 plays equals a 22-19 move. Closing in on 100 reports with ADDs at: I-95, WKSI, XL93, KNEN, Z93, KGLI, WDEK, Q106, KS104, KCHX, KTMT, etc.

Holding on week after week and showing a strong 59% HIT FACTOR is the **Smashing Pumpkins'** "Disarm," which is Top Ten at KZBB-Ft. Smith, Ark. with 26 spins, at 104 KRBE-Houston getting 32 spins and Number One at THE END-Cleveland with 30 plays. New on: 93QID, WVSR, YES/FM, KJ103, KZIO, POWER 94.5, WGRG, TOWER 98 and KROC.

Support grows for **Babble's** (above) "Take Me Away," which gets 26 plays and charts Top 35 at WQPW-Valdosta, Ga. Their solid airplay increase is reflected by ADDs on: KLRZ, WHYR, KYYY, KQIX/FM, KLBQ, KOTM, KCPI, WDDJ, WUYA, WEYQ, KQKY, VI00, KRRG, KFTZ and KTMT.

A few times each year a song takes off so quickly that it moves right from RECORD TO WATCH to TOP TIP in just one week. That's the case with **All-4-One's** "I Swear," which is quickly shaping up to be one of 1994's biggest ballads. Already up to 60 spins at Q96-Imperial Valley, Calif. which takes it

All-4-One

19-8, PD Dan Watson notes that, "Forty percent of all our requests are for this tune. In my six years here, I've never seen a more active record!" There aren't many people waiting on this one. It's the third MOST ADDED track this week and it's likely to be Number One MOST ADDED by the end of the day next Tuesday. Goes right on: POWER PIG, WCIL, WPGC, 98PXY, WNSL,

**GO STATION PANEL:** The GO Chart is based on reports by 145 GAVIN correspondents who are not part of *Radio & Record's* or *Billboard's* panels. Underlines indicate upward movement, while blue entries highlight a stronger performance than on the main Top 40 chart.

## Go Chart Most Added

- ERASURE (49)**

- PHIL COLLINS (32)**

WZPL, KLYV, KGLI, KTRS, KKRZ, KCHX, WIFC, FM102, KWIN, KSTN, KKXX, KDON, Z90, KJYK, KTFM, Z104, WSNX, POWER 96, B94, WTIC/FM, KLUC and a bunch more.

It appears that the new **Ace Of Base**, "Don't Turn Around," is headed for Number One at STAR 94-Atlanta where it charts 10-3. It nears the Top Ten at WWKF-Union City, Tenn., picking up 19 spins and getting ADDED at: ISLE 95, WPST, KS104, KTFM, KCPI, WSNX, KKXX, ZFUN, KWWV and B96.

It's early, but anyone chasing adults might want to start taking a look at **Beth Nielsen Chapman With Paul Carrack's** "In The Time It Takes," which is getting great reaction during the day at WOLF-Houghton, Mich. PD Kevin Ericson takes it 35-28 and reports it's getting ten plays and is "sure to increase this week." Also Top 30 at KPLZ, WQXA/FM and KZZT. ADDs on: KAGO/FM-Klamath Falls, Ore., KBOZ-Bozeman, Mont. and WQMZ-Charlottesville, Va.

**Tim McGraw's** (above) "Indian Outlaw" has gotten such great response in test play at WNSL-Laurel/Hattiesburg, Miss., that it becomes an official ADD. KYYY-Bismarck, N.D. shows it moving 37-20 and THE PEAK-Gaylord, Mich., the first station to ADD it, takes it Top Ten, 11-7! Those who hesitated playing it because of the fiddle will be happy to know that the label will be issuing an edit that should be more Top 40 friendly.

There are several tracks warming up, including **Frente!** and their cover of **New Order's** "Bizarre Love Triangle," which is Top Ten at KROQ-Los Angeles and THE END-Cleveland, and jumps 24-15 at Z100-New York. ADDED at: B97-New Orleans and 99X-Atlanta. Steve Heller, PD at ZFUN-Moscow, Idaho, debuts **Pink Floyd's** "Keep Talking" at #30 and says it's their third most requested song for the second week in-a-row. James Baker, PD at KZIO-Duluth, Minn., loves **Janet Jackson's** "What'll I Do," and charts it at #9 with 38 plays.

## Inside Urban

.....  
With all the executives of Black music departments moving around and many losing their jobs, it's a wonder Friday, April 8 wasn't dubbed "Black Friday." The most shocking event was the closing of the Black music department at ZOO Entertainment. I'm sure many of you saw the fax that gave an explanation for the closing. My question is: "Has Black music outgrown the Black Music departments?"...There's a new Urban A/C station coming into the San Francisco market. The former Star-FM (KYSR) will change its call letters and format before the end of April. New program director

**New Releases**

**AALIYAH**  
"Back & Forth"  
(Jive)

Making her debut from The Motor City is Aaliyah, a talented 15-year-old who's been skillfully guided by

labelmate R. Kelly, who wrote and produced this jam! Aaliyah performed for the radio industry back in February and all GAVIN'S Thembisa Mshaka could say was, "That's a beat...She's all that!" Don't sleep on this track Aaliyah's mid-tempo melodic groove will grab you and won't let go.

**COMPANY**  
"More Today Than Yesterday"  
(Giant/Reprise)

Back in February I mentioned that "More Today Than Yesterday" was one of the highlights of Company's debut album *Devotion*. Their lead single, "Angel," reached the Top 30, paving the way for the nice harmonies on "More Today Than Yesterday" which resembles a Take 6/Boyz II Men collaboration.

**GABRIELLE**  
"I Wish" (Go!/London/PLG)

Gabrielle's first single is "Dreams" going virtually unheard by Urban radio, while her next release "I Wish" might have what it takes to snag some ears which could turn into airplay. Gabrielle's mid-tempo wishes are coming true with WKYS/FM, WOWI, K98, KMJJ/FM, KJMS among the nine new believers.

**ARETHA FRANKLIN**  
"Willing To Forgive" (Arista)

The second new recording from *Aretha's Greatest Hits (1980-1994)* finds "Lady Soul" willing to forgive, but she can't forgive. Babyface and Daryl Simmons wrote and produced this ballad with a twist to the whip appeal theme. The Queen of Soul presents "Willing To Forgive" tenderly but with the in-your-face honesty that has become her soulful trademark.

**WARREN G. & NATE DOGG**  
"Regulate"  
(Death Row/Interscope)

The Dogg pound is in the house and rolling hard with one of the two tracks released this week from the soundtrack to *Above The Rim*. Warren G. & Nate Dogg tap blue-eyed soulman Michael McDonald's "I Keep Forgettin'" for the music bed and the familiar groove fuels the duo's narrative raps as they "Regulate."

**KRASHMAN**  
"Sister Suzie" (Island/PLG)

Emerging from the Windy City's South Side, rapper Krashman speaks his mind from the front lines of his' hood while guiding you through his character's soul. The bluesy guitar picking on "Sister Suzie" adds a depressing element to the realistic story of chasing the good life with fatal results.

album in ten years, entitled *Spirits*. The texture of this album takes you back and lays the future before you all at once; it's brilliant. And, it is available on vinyl for the hip-hop nation to learn from and teach with. Tom also was proud to say that **Blunt Recordings**, TVT's rap label, is now in effect. On board are two great artists, **Mic Geronimo** and **Kinsui** (say Kin-su). Be on the lookout for "It's Real" from Mic for the hardcore heads, and Kinsui's "Hubba Bubba Baby" for the rump-shakers (and rumpwatchers). We also ran into **Brian Sampson**, **Teddy Ted** and the deepest on-air posse I've seen yet, **WNWK's Kevin Keith and the Dirty Dozen** (shouts

We rolled by **The Grand**, where **Stretch Armstrong** was spinnin' and where **Channel Live's Hakim** introduced me to **Rob** from **The Fiends**. Then jet lag took over. Before I broke out Sunday I hooked up with **Mike Salman**, my Bay Area-Brooklyn connec' and brunched til I couldn't eat any more at **Junior's** with Epic's **Marc Genova**. Thanks to everyone who showed me a great time and flexed hospitality. Before I left, I tried to make **Ice Cube's** show in San Francisco, but it was packed and the club was blocked off in all directions, so I missed **Kelly**, **Rod** and **AnotHA Level** when they came by the office (thnx for the autograph tho!)...Congrats go out to **12 Gauge** and the **Street Life/Scotti Bros.** crew for making "Dunkie Butt" gold

## New Releases

### DA BUSH BABEES

#### Swing It (Warner/Reprise)

This Flatbush Trio (hence the name) is on some ole frantic shit. Consisting of Mr. Man, Babe-Face Kaos, and Y-Tee, Da Bush Babees deliver their clever verse in an array of multi-pitched tones. They tweak and coerce their voice boxes into a state of delirious vocal schizophrenia. There's some Pee Wee Hermanesque screeching, a generous amount of sandpapery ragga, a touch of whining and a blast of rapid-fire, hyperactive lyrical discharge. "Swing It" comes off like a ghetto playground double dutch rhyme with the crew chanting "Can ya do it? Can ya, can ya do it?" before each MC takes his turn on the mic. Be sure to check the "Jazziness" mixes on Side Two. They kick along to stand-up bass, piano Jelly Rolls, haunting Miles-like trumpet and taut snares, wrapping the chaotic Bush Babees vocalists in a mellow warmth. Contact Troy Shelton at Warner Bros. (800) 365-4113

—SPENCEDOOKEY

### N-TYCE Hush Hush Tip (Wild Pitch)

N-Tyce spins a matter-of-fact tale of D.L. infidelity with coy confidence. "When it comes to runnin' game, just call me Chicago," taunts this young rhyme-kicker. Apparently she commands attention and keeps it discreet with smarts and style. After all, it takes two, right? Wu-Tang Clan and the 4th Disciple complement her crisp presentation with a piano-centered, bass-healthy track (they add dreamy horns and a rich vocal sample for spice). A definite script-flip on gender relations, this cut is not to be kept on the hush hush. Contact Kevin Weekes at Wild Pitch (212) 594-5050.

## Inside A/C

Please note: The Tuesday afternoon A/C reporting deadline has been changed from 3 p.m. Pacific time to 2 p.m. Pacific. This deadline applies to phoned in and faxed playlists.

We have a new #1 and it's the Oscar-winning "Streets Of Philadelphia" by **Bruce Springsteen**. It leads in total reports with 211 and in HEAVY rotations with 176. Look for its successor, **Bonnie Raitt** or **Michael Bolton**, to have a similar stat profile.

An heir apparent in the weeks to come will most likely be **Joshua Kadison's** "Beautiful In My Eyes," with ten percent of all its play coming in as ADDs this week. The 18 newest players include B100, KELO, WQTU, KEYI, KSNY and KBOL.

Last week's HOTTEST single, **Madonna's** "I'll Remember (theme from *With Honors*)" had another great week entering the top 10 at #8, giving her a 22-rank improvement during the past two weeks. Newest Madonna-philes include KDMX, WSPT, WLMX and WTPL.

HOTTEST track in the format is **Toni Braxton's** "You Mean The World To Me" which has climbed from CHARTBOUND to #16 in the past two weeks. It pulls in more ADDs this week than last, with 38 coming to the party. The newest include KBIG, K103, KEYI, B100, WTSX, WDEF and KBOL.

Another winner is **Heart's** hot new single "The Woman In Me,"

Records which receive the greatest increase in Hit Factor

Heart

which is up 22 ranks over the past two weeks, and its HIT FACTOR has increased from 24% to 69% in that time. Only 14 singles are being played by more stations. You can hear the Heart beat at KXYQ, KRNO, WMJQ, KESZ, WCSO, WMT/FM, K103, KEYW, KMGQ,

WDAY and WCKQ etc.

Nice to see **Bobby Caldwell's**, "Never Take A Chance," doing so well. This week's move from #29 to #21 comes with a 14% increase in HIT FACTOR and a baker's dozen of new players like KMGW, WKLI, WVLT, WHSB, WEAJ and KKKI.

**Lori Ruso's** "Only Through A Storm" is making major moves like this week's debut in the top 30. It's being played by 92 A/Cs and 63% are committed to quality rotations like KFQD, WFRO, KXRO, KGWB, KOKO, KOEL, WCTW, WPHM, WRCO KNIM, WLKI and WRJC.

Helmets please for "Mmm, Mmm, Mmm, Mmm," the new single from

Crash Test Dummies (above)

which is hummin' right along as it debuts ahead of all others at #34 with 83 believers. Count KVIC, Q93, B100, KGLE, K99, KMGQ, WTSX, WFPS and WCSO among the humdingers.

This issue's TOP TIP is the blatantly obvious "Misled" by **Celine Dion**. Besides taking #1 MOST ADDED honors this week with 68, it also tops CHARTBOUND with 96 players and a roster of early believers like WRQX, WELI, K99, KXYQ, CKFM, WALK, B100, KBIG, KESZ, WAHR, WBMX, WLEV, WQLR, WLDR and WOBM.

Last week's RECORD TO WATCH, **The Cranberries'** "Dreams," comes in with 13 new players like KSDN, WBLG, Q93, WFPS, WTTR and KTWN. Solid rotations are also in from KISQ, KRRT, WKTJ, WCKQ, K99, WGMT and KLSS.

This issue's RTW, **The Repercussions w/Curtis Mayfield's** reprise of "Let's Do It Again," is a MOST ADDED this week with 23 stations out-of-the-box. That list includes WQTU, KMGW, WHAI, WCKQ, KLWN, KSDN WNYR and WBLG.

## New Releases

### KATHY TROCCOLI "Tell Me Where It Hurts" (Reunion/RCA)

This is a classic production of a solid composition sung with inquiring care. Credit Keith Thomas for the production, Diane Warren for the songwriting and Ms. T for the first aid.

### ROBBIE DUPREE "Goodbye To L.A." (Miramar)

Though written and recorded before most of the bad news associated with the City Of Angels, this song captures the heartbreak of someone who's had enough of the disasters, natural and otherwise. The Becker/Fagenish production gives it a cooler-than-cool attitude. We like it.

### DAVID WILCOX "It's The Same Old Song" (A&M)

It's the same old Holland, Dozier, Holland song from the Four Tops catalogue, but it's now a laid-back acoustic treat that so easy on the ear that everyone, including the tone deaf, can sing along.

P.D. NOTEBOOK

BY ERIC NORBERG

# A COUPLE OF NOTES FOR AM RADIO

AM Stereo (C-Quam) has been a big success in Japan. Japan has FM, but AM radio has not had the image there of low fidelity. This is ironic, since it's largely Japanese-manufactured receivers that have given AM that problem in the U.S. In Japan, the public has gone for AM stereo in a big way, and many manufacturers are making and selling stereo AM/FM radios.

It's not a big surprise, therefore, that Sony is trying again in the U.S. with a Walkman receiver that receives both bands in stereo. The problem is that American AM stereo stations haven't been promoting the medium, and the available receivers, as they should have. After all, when people hear how

meets the AMAX standard for high fidelity on AM (mono on AM and FM). About \$50 at discount stores.

Let me remind you that if you want AM stereo in your car, you can get an AMAX-standard receiver through a GM dealer (they're fairly expensive; maybe you can work a trade)—or you can order an AM stereo receiver through Chrysler, Ford or Volkswagen dealers, since models of vehicles in these lines offer them as options or standard items. Another source is RRADCO, which specializes in AM stereo, and offers AM stereo/FM stereo car and truck radios—some are discontinued models—for reasonable prices. They also sell the Sangean AM stereo/FM stereo headphone radio for prices comparable to this Sony

**“It's essential for AM stations that these radios get into the hands of as many listeners as possible.”**

good well-engineered AM stations sound in AMAX AM stereo, they not only comment that AM sounds as good as FM, they often volunteer the thought that it sounds better.

It's essential for AM stations that these radios get into the hands of as many listeners as possible, and if free commercials for the radios and the stores that sell them is what it takes, then do it.

The new Sony radio, which does meet the high-fidelity NAB/EIA AMAX standard for AM transmission and reception, is the Sony SRF-42. The list price is only \$34.95; thus by buying (or trading out) in quantity through a local store, you can offer a high quality little AM stereo and FM stereo Walkman radio for the lowest price yet. The radio has been demonstrated by Sony at various broadcast meetings lately, and is now available through Sony retailers.

Now would be a good time to make a deal with your local Sony dealer to obtain a lot of them for promotional and staff use.

Another thing radio AM and FM broadcasters should be aware of is the new G.E. SuperRadio III, Model 7-2887-A, which not only is sensitive and high fidelity on FM, but

model. For information, phone or FAX them at (708) 513-1386.

And an important reminder for all AM stations. On June 30 of this year, the FCC-adopted NRSC standard requires that all AM stations in the United States be able “to perform and document an RF emissions proof of performance,” which must show that the station radiates no audio sidebands or distortion products beyond the 10 kHz cutoff.

When the standard was adopted several years ago, it was only necessary for AM stations to use the NRSC pre-emphasis curve and “brick wall filter” to chop off all audio above 10,000 Hz going to the transmitter. But since the transmitter itself could generate products above 10 kHz under some circumstances despite use of the filter, now the FCC mandates that this be monitored. One way to do it is with the Delta Electronics “Splatter Monitor,” Model SM-1. Unless your chief engineer (chief operator) has already taken steps to implement this new rule (and the FCC will be enforcing it with inspections and fines), you might want to call Delta Electronics for information on the unit: (800) 833-5828, (703) 354-3350. Fax (703) 354-0216. ●

"Wink" (Columbia)

Neal follows up his first number one record with a light-hearted, toe-tapping song that'll have concert audiences clapping along all summer.

TRAVIS TRITT  
"Foolish Pride" (Warner Bros.)

Travis' songwriting seems to get more confident with each album, and this first single from his upcoming Ten Feet Tall And Bulletproof is no exception. Lines like "Last night to find the fault seemed so darn easy/But now who's to blame don't matter much at all" make this one a standout.

JOHN ANDERSON

John's latest has a "Cat's In The Cradle"-type theme that's made unique by his trademark vocals.

MARY-CHAPIN CARPENTER  
"I Take My Chances" (Columbia)

We've come to expect nothing but the best from Mary-Chapin, and she has yet to disappoint. This number, which she co-wrote with Don Schlitz, is one of the highlights from the double-platinum Come On Come On LP.

AARON TIPPIN  
"Whole Lotta Love On The Line" (RCA)

Some quality production and Aaron's always exceptional vocals are making this an early favorite with programmers.

THE WIGGINS  
"Falling Out Of Love" (Mercury)

The attendees at this year's Gavin Seminar fell in love with John and Audrey when they performed at our New Artists Luncheon. This number was a special favorite that showcases Audrey's beautiful voice and some fabulous harmony yodeling. A great debut effort.

## Rock Releases

### THE HYPNOTICS "Heavy Liquid" (American)

England's psychedelic rockers have surfaced once more to bring you their heavy, guitar-riddled sound. "Heavy Liquid," from their upcoming album *The Very Crystal Speed Machine* due out on April 26, contains low-end psychedelic guitar riffs that collide with roaming bass vibes, crashing drums and James Jones' laid back vocals which are wrapped together by bluesy rhythms. The Hypnotics borrow elements from old Black Sabbath, Stooges and The Black Crowes, but mainly they use their own homegrown talent to create their '90s rock sound. Album stations who want to keep their sound current should be all over this, as should college radio stations who get off on meaty rock. Already on it are KZRX and WRZK.

### LOVE/HATE "Spinning Wheel" (Caliber)

Love/Hate are back and are ready to rock your world with their latest single "Spinning Wheel." Hard rockin' guitar grooves with metallic edges and Jizzy Pearl's scratchy vocals make this tune a must add for rock radio. This single comes from their upcoming album *Let's Rumble*, which is on their new label Caliber Records and should be delivered to you sometime soon. KNAC has been all over this and it's been their number one request for the past five weeks. Give it a listen.

### ANTHRAX "Hyproglo/Got The Time" (Elektra)

What the world needs is more Anthrax and thanks to Elektra Records that's what you'll get. *Live The Island Years* on Island Records has been getting good spins, but for those of you who prefer John Bush's vocals over Joe Belladonna's, this is the Anthrax to play. The single includes "Hyproglo" from their *Sound Of White Noise* album and a live recording of "Got The Time" (sounds great) recorded at CBGB's. So now rock radio has the option to play new live Anthrax as well as the old. The choice is yours!

### ALICE COOPER "Unholy War" (Epic)

Rock's sinister performer and creator of horror rock Alice Cooper offers you a taste from his upcoming album, *The Last Temptation Of Alice*, with "Unholy War." Co-written by Soundgarden's Chris Cornell, this tune begins with tribal drum beats that march along with creeping bass lines, skittish guitar chords and Cooper's unholy vocals. Unlike many heritage artists, Alice Cooper keeps his music up-to-date and this is no exception. Already on this are WRZK, WCWP, WSUP, KZRX, KWWC, WVCB and WZIP.

### JAWBOX

**LINEUP:** J. Robbins, voice/guitar; Bill Barbot, guitar/voice; Kim Coletta, bass, Zach Barocas, drums.

**LABEL:** Atlantic

**ALBUM:** For Your Own Special Sweetheart

**HOMEBASE:** Washington, D.C.

**PRODUCED:** Ted Nicely

**SINGLES:** "Jackpot Plus" and "Savory"

**J. ROBBINS AND KIM COLETTA TALK ABOUT THE NEW LABEL:**

"Actually getting out of the independent scene has made us more independent and to a certain degree there's a lot more red tape we have to cut through. Dischord was run by about five people so if we wanted to go to the top for anything, we could very easily. At Atlantic we've got to fish our way through the various departments and a lot more people want a chunk of our time especially when we're on the road. The radio people want an interview, and the press wants an interview so sometimes it feels like it's spinning out of control, but as a general rule we would not have made a deal with the major label had we not been able to maintain." —J. Robbins

**CATEGORIES:** "So far we've been hard to categorize and that definitely pleases us. It was very frustrating at first because our instinct is to categorize, and when you're writing about or trying to describe music by using language you have to try to relate the sounds that you hear to something that someone else might have already heard. Now that we've had a few records under our belt, and since we've been on the road for as long as we have, people are accepting us on our own terms and that's very refreshing." —J. Robbins

**WRITING:** "There have been times when we hesitated to write a song that tries to tell a story or get a point across. We find that a pop song is very difficult to accomplish with anything constructive or in-depth. We much prefer to conjure things up and if they're interesting, pursue them further on their own." —J. Robbins

**THE LYRICS:** "This is the first band I've been involved with and it's been five years now. I'm very proud of our lyrics. We think about our lyrics a lot and they're dear to us. We don't want them to just be throwaway, but we also don't think of them as poetry. It's great when people have wildly different interpretations of the lyrics. Even if they don't hit the nail on the head, we're interested in whatever conclusion they draw from it." —Kim Coletta

**TED NICELY:** "We've known Ted for a long time and it's the first thing we've done with him. We've been wanting to work with him and all the factors came together on this record. We had money to pay him and he was available. There was enough strangeness involved in going over to a major label and we didn't want the producer to be part of that strangeness." —Kim Coletta

**MIKE GITTER:** "I used to see Gitter at the hardcore shows in Boston a decade ago when he was a critic. He wrote about us very favorably. He's one of the reasons we chose Atlantic Records because he's a fan. He understood us and we had talked to a lot of A&R people who didn't have a clue. We didn't want to be misrepresented. Mike knows the music scene we come from and he knows our punk background. We also decided to go with Atlantic because they understand alternative music." —Kim Coletta

**TOURING:** "We play one show in New York and one in New Jersey and then we're home very briefly. Before we head off to Europe we'll play the Conan O'Brien Show and live on 120 Minutes for MTV. It's our first time in Europe and we'll hit every country, including some eastern European countries, on our eight-week tour. I'm sure we'll tour the U.S. more this summer. We're very excited. Things are happening." —Kim Coletta

## Hard Rock Releases

### INFECTIOUS GROOVES Groove Family Cyco (550/Epic)

Mike Muir and fellow suicidal Robert Trujillo are a couple of busy guys. Their next Suicidal Tendencies album is due out sometime in June, but the coating on *Groove Family Cyco* has barely dried. You should be familiar with the crazy hip-swaying jams contained in the single *Violent & Funky* that was shipped to rock radio a few weeks back. If you enjoyed the shredded guitar slams that made up that funky single, you'll dig *Groove Family Cyco*. You might think that this particular sound may not appeal to your hardcore audience, but fear not. Mike Muir and company provide some tunes that will get the most ardent rocker to bend an ear. "Frustrated Again" is a tribute to punksters everywhere, showcasing the frosty guitar rips of Dean Pleasants and Adam Siegel, who jam with Trujillo's commanding bass lines which are stretched into deformed funnels of funk. Peppered metallic guitars that cruise around Brooks Wackerman's sadistic drumming on "Die Like A Pig". "I Tell Ya" offers more metal grooves while still retaining a considerable amount of funky rhythms. A seriously wrong dude is discussed in "Cousin Randy," and the lyrics make it easy for you never to want to meet this guy. "Made It" begins with classic jazzy guitar hooks and bass lines which eventually explode into shards of metallic/funk chords. The title track, "Boom Boom Boom," "Rules Go Out The Window," and "Why" are worth a listen. Adding Infectious Grooves will remedy any show that lacks energy.

### MUCKY PUP Lemonade (Century Media)

The surly New Jersey-based band has arrived with *Lemonade* which is getting ample airplay on college radio stations. Mucky Pup deliver crunchy guitars that collide with low-end bass hounding, creating an alternative hard rock sound that'll have your listeners mucking it up. Singer/songwriter, Chris Milnes is the visionary behind the band and he keeps his music fresh by using different musicians on each album. He has covered a wide range of styles, from the hardcore *Can't You Take A Joke* to last year's funk-filled *Act Of Faith*, Milnes isn't confined to any one particular style.

*Lemonade*, his fifth album, combines the talent of guitarist John Milnes, bassist Marc DeBacker and drummer Kevin Powers who also handles sampling duty. The current Mucky Pup lineup takes a turn down the hard road, steering clear of any whimsical reggae beats while picking up witty, self-critical lyrics on the way. The first track, "Own Up For What You Say," is an aggressive tune that'll get the nod from hard rock listeners, as will "Three Sides" and "Junkie Eyes." "The T.V.'s On Fire" is a head-bop-pin' tune that has the bass cutting loose and leading the way. "Deja Vu" slows things down a bit with buzzing guitar hooks, a slightly funky bass and sluggish vocals. "Two Little Men" include a little sampling and a punk/hard rock feel that rock listeners will get into. Be sure to check out "Mountain Song," "Confessions," and "Darkwave Sleeps." The later has a hidden piano track 24 minutes after the song ends.

### COUNT RAVEN Destruction Of The Void (Nuclear Blast/Hellhound)

Slowly but surely we're beginning to see more European bands slipping into America's rock scene. If you enjoy experimenting with new bands and like to treat your listeners to a taste of hard rock from across the Atlantic give Count Raven a spin. Burrowing out from Sweden, this band delivers slabs of Sabbath-like guitar grinds that are shrouded in thick psychedelia. Guitarist Dan "Foodle" Fondelius creates plumes of doomsday guitar riffs while delivering haunting vocals that could easily be mistaken for Ozzy. Joining Fondelius on this dreamy metallic trip are drummer Christer "Renfield" Pettersson and bassist Tommy "Wilbur" Erik. Released in Europe two years ago, *Destruction Of The Void* has received rave reviews and generated a modest following. The title track, "Hippies Triumph," "The Final Journey" and "Let The Dead Bury The Dead" are worth a listen. Count Raven delivers a sound that's not necessarily new but it will appeal to fans of The Stooges, old Sabbath, Ozzy and Sleep. Give it a spin.

### A HOLIDAY TO REMEMBER

**ETTA JAMES**  
**MYSTERY LADY - SONGS OF BILLIE HOLIDAY (PRIVATE MUSIC)**  
**TERENCE BLANCHARD**  
**THE BILLIE HOLIDAY SONGBOOK (COLUMBIA)**

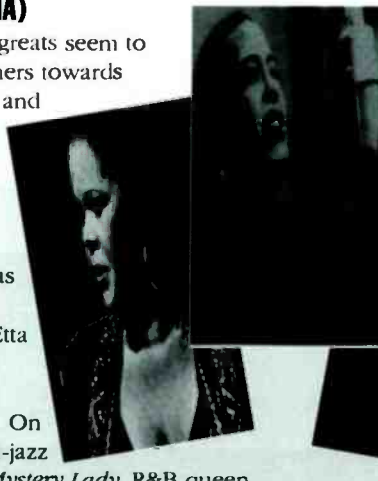

All of the greats seem to inspire others towards greatness, and evidenced by their latest releases, Billie Holiday has had this effect on Etta James and Terence Blanchard. On her first all-jazz offering, *Mystery Lady*, R&B queen Etta James takes the reigns of such Holiday classics as "Lover Man," "The Man I Love" and "Body And Soul" with soulful delicacy, while soaking her heartfelt blues inflections into gems like "Don't Explain" and "You've Changed." As Etta puts it, "I didn't want to oversing or impress anyone with my power or

range. I just wanted to be honest about what I was feeling." Meanwhile, 32-year-old trumpeter Terence Blanchard pays a tribute to Lady Day, replete with a full orchestra and guest vocals from Jeanie Bryson. The tasteful arrangements add a full-bodied shading to

the 12 tracks while leaving room for the quartet to swing and elucidate sincerely. On the

Bryson-less tracks Blanchard's trademark half-toned glissandos and dark tones sing passionately. As a support for Bryan's

subdued, gentle voice, Blanchard colors the landscape with verve (see "What A Little Moonlight Can Do"). Long-toned, burnished ballads such as "Don't Explain," "In My Solitude," and "Good Morning Heartache" give testament to why fans (like Spike Lee) say he's their fave.—JASON OLAINÉ

### A<sup>3</sup> New Releases

#### PETER HIMMELMAN *Skin*

(550 Music/Epic Records Group)

Listening to you, I "plumb the depths of self-exultation." Peter Himmelman's *Skin* is an opera of sorts. Instead of a spiritually starved Tommy, Himmelman's Ted is a "terrifically handsome" nightmare riding a brandywine 600SL wearing dangling gold chains. Don't let the total concept scare you away. There are plenty of songs on *Skin* that are extractable teeth, clear bytes like "Easy To Be Broken" and "With You" combined with acoustic statements like "Disposable Child," "Shilo" and "Nowhere Else To Go." Besides being dense with philosophy, *Skin* is the album where the Himmelman band truly shines as an ensemble, performing clean renditions of soul-transparent rock n roll.

#### THE FLATLINERS (Sin-Drome)

Not many people make the transition from promo to performer like Claire West has, but the story doesn't stop there. Three of the members of the Flatliners actually "flatlined," literally coming back from the dead after being bathed in the warm light of death. For more info, see the movie *Resurrection*. But if you want some interesting tribal ensemble rock n roll, check this out, a project formed in the throes of financial desperation resulting in artistic self-determination. Trax include "I Cry," "Walk Over Water" and "Crossroads."

#### IRIS DEMENT *My Life* (Warner Bros.)

"All of a sudden I became aware of a whole world of people out there paying attention to what I was doing. That made me a little nervous." Generations after Woody it takes a whole lot to be original when it comes to playing "wooden music." On *Infamous Angel*, Iris DeMent made a lot of big city friends, i.e. the *New York* and *Los Angeles Times* and the *Chicago Tribune*. The hard part is retaining the obliviousness to which Iris eludes. She was born to a farming family in Paragould, Arkansas, and her music seems to be the result of a reclusive, church-going childhood. It wasn't long before Iris began opening shows for some heavy hitters—John Prine, Mary Chapin-Carpenter and Nanci Griffith. Like her Philo debut, *My Life* is cutting-edge folk, virgin enough to appeal to the connoisseurs, authentic enough to put the fear of God inside those stations banging the new Pink Floyd.

#### ALI FARKA TOURE with RY COODER *Talking Timbuktu* (Rykodisc)

This is Ali Farka Toure and Ry Cooder's second go-round after meeting in London two years ago. *Talking Timbuktu* has the potential to become the most successful First World meets Third World recording ever released. Toure and Cooder turn cultural differences into advantages by searching for the common ground between African music and blues-based Western acoustic music. As Timbuktu (Ali's homeland in Mali) meets Santa Monica, the two find lots of mutual tranquility as heard on "Soukora," a beautiful African love song or the bluesy "Amandrai."

## BILLY FALCON

FROM: Rosedale, Queens, NY

LATEST RELEASE: Letters From A Paper Ship

LABEL: Mercury

LAST SEEN: "Touring Albany, Rochester and Wheeling in the van, seeing the U.S.A. in a Chevrolet."

ON "PAPER SHIP:" "My vision is 360 degrees. My head spins. I see everything and exaggerate my emotions. I laugh easier. I'm annoyed faster. That's why I have to write songs. I'm distracted and moved, so what's moved easier than a paper ship?"

ON "WONDER YEARS:" "The song has nothing to do with the TV show although it does tie in with the same era. Actually, I was thinking about Wonder Bread building strong bodies 12 ways."

ON "LOVEBIRDS:" "I was downstairs working out, looking out the window. I see these two birds playing. It was fascinating how they flew with grace. It's about doing something with ease whether it's a relationship or a shortstop handling a hot ground ball. Grace is one of the cooler words in the English language."

INFLUENCES: "Vincent van Gogh's endurance. Nothing's easy. When I was in Holland, I looked at his work. Musically, records like John Gorka's Land Of The Bottomline and John Hiatt's Slow Turning, which I listened to so much that my little daughter now knows the words."

### NEVER MIND THE ALBUMS, HERE'S THREE HOT A<sup>3</sup> SINGLES

#### INDIGO GIRLS "Touch Me Fall" (Epic)

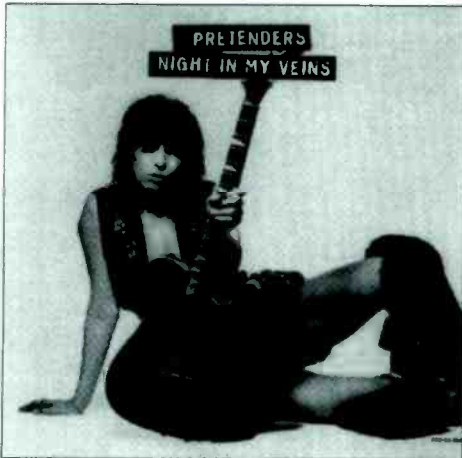

A two-part rock n roll symphonette with an acoustic movement bellow-

ing into an aggressive Who-like rave up. You've never heard the Indigos like this. Before you know it, four and a half minutes have gone by and the storm has passed.

#### THE PRETENDERS "Night In My Veins"

(Sire/Warner Bros.)  
Feels good. All right. A<sup>3</sup> inherits another signature artist as the

Pretenders' rush-released single grabs adds on 65% of our sample first week out. Crisp. Identifiable. Chrissie's still one of the boys.

#### TRAFFIC "Here Comes A Man" (Virgin)

Probably the best-timed reunion in A<sup>3</sup>'s short but fruitful history. Steve Winwood re-explores the band motif with purpose and passion as Traffic recalls

the expanded personnel of the *Low Spark* daze. Hot on the heels of the new *Far From Home* album, Winwood and Jim Capaldi hit the road in late May for huge summer tour.

# Inside Alternative

*The shot heard 'round the world:* It was a bizarre, dark coincidence that the day before **Sub Pop's 6th Anniversary** party in Seattle, **Nirvana's Kurt Cobain** was found dead. Seana and I were originally going to Seattle for a party; now we'd be there for a memorial service. For the most part, Saturday's Sub Pop party was a subdued, maudlin affair that stopped short of crying in beers. I have to assume that, with the exception of the Sub Pop staff and co-owner **Jon Poneman**, who had to be there with stiff upper lips, those who knew Kurt Cobain well were too overcome to party down with the bunch of yobbo music types that had flocked to Mecca for the weekend. And rightly so. (For the record, **Sunny Day Real Estate** and **Velocity Girl** were awesome. Unfortunately, it was during **Pond's** set that my friends and I talked about "it," so I missed them.)

I don't think many of us were surprised that Cobain's life ended in tragedy. Rather, it was the way he went that left many scratching their heads, as "accidental overdose" was practically pre-written on the man's tombstone. The

sheer violence of the act left me a little numb. Numb and angry that he left behind a beautiful little girl who will now grow up without her daddy. And I don't for one minute pretend to comprehend what **Courtney** is going through. Hey, I'm a one woman support group when it comes to failed relationships or separations, but I have no words of wisdom when the separation is—well, *permanant*. Death is an awkward and uncomfortable thing to talk about, which is why the memorial Sunday night was so important. No one needed to talk about "it"; the unspoken pain was acknowledged and embraced by the hundreds of mourners. They took comfort in each other, holding

hands, hugging and singing. Beautiful. I came home from Seattle to a house full of nieces and nephews. I hugged each and every one of them, grateful that they were there and that I was there to just love and enjoy them. Rest in peace, Kurt.

Although for some the world stopped last week, it still turned for others.

**Lisa Christiano** will be leaving Zoo Entertainment and heading things up at RadioActive as of April 20th. The lucky girl has new albums from former Happy Mondays frontman **Sean Ryder**, former porn queen **Traci Lords**, and the **Fatima Mansions** and **A-House**, neither of which are former anythings.

MTV's **Lewis Largent** signed off from hosting *120 Minutes* last week (April 10). Until a replacement can be found, (can anyone replace Lewis?) various artists will host the show.

**WEQX-Albany** ups **AMD Gary Shoenwetter** to music director, while **KNNC-Austin** says goodbye to former PD **Paul Kreigler**. The usual philosophical differences with management has been touted as the cause. Paul is willing to

relocate (although he sure loves Austin) and can be reached at (512) 832-0988. He's going to take it easy for a while and visit friends in Omaha while he considers his options.

**Nan Fisher** is the new director of alternative promotion for Capricorn Records. We're thrilled that the golden-throated one is back where she belongs...Former **KSJS-San Jose** music director **Chris Baldwin** joins the ranks of indie promotion, taking over Break Thru Production's newly vacated national promotion/sales assistant position. **Anne Gleeson**, who formerly held down that job, has segued over PLG's San Francisco branch as sales assistant.

*Up to our hips:* Check out **The Charlatans'** appearance on *Late Night With Conan O'Brien* on Wednesday, April 20, and their live performance on *120 Minutes* on Sunday, April 24. In addition, **Shonen Knife** will be on *Late Night...* Friday, May 6 and *120 Minutes* on Sunday April 17.

Look for another servicing of **Mazzy Star's** "Fade Into You" in your mail this week. **Gary Gersh** really believes in this track, as does the whole Capitol alternative promotion team, and they're going to keep sending it to you until A) you play it and B) it goes gold.

## Import Indie

Space seems to get more and more limited in Import/Indie these days while the number of ink-worthy releases escalates. So I'm going to abandon our usual format this week and, real quick-like, run through a few new things. Lots of college stations are playing Lou Barlow's solo acoustic/Sentridoh CD, but few have aquired the new

Sebadoh disc, *Four Song CD*, an import on the Domino label that, despite the somewhat misleading title, is a ten-track offering. *Four Song CD* takes one step back from *Bubble and Scrape* in that the majority of its tunes are noisy, dissembled, half-formed entities while only four (*Four Song CD*, get it?) are "real" songs. Nonetheless, those few tracks, especially "Rebound" and "Mystery Man," are low-fi gems spotted with typical Barlow lyrics like "...nothing thrills you like denial." I prefer Barlow as part of a band to Barlow as a solo guy because with an (albeit small) cast of players, his emotional wounds don't gape so disturbingly.

Similarly, *Gastr Del Sol* with their latest, *Crookt, Crackt, or Fly*, don't often indulge in "songs," per se, but

their fractured bits of sound play more consciously with dimension and tension than do Sebadoh's ideologically similar outings. And unlike Sebadoh, *Gastr Del Sol* often utilize an incredibly gorgeous acoustic guitar for their melodious meanderings. The oft-breathtaking *Gastr Del Sol* are by turns mesmerizing, noodly, skronkin', spastic and spacy, and they feature David Grubbs and John McEntire (both ex-Bastro). Recommended: "Every 5 Miles," "Is That A Rifle When It Rains?" and "The Wrong Soundings."

Also on Drag City is a new single from reclusive, elusive Bill Callahan, a.k.a. **Smog**, that may become his most listened to/talked about outing to date. And that's ironic, because the song's entitled "A Hit," and in its draggy, fuzzy grooves Callahan sighs, "I'll never be a rock and roll saint/'Cause I can't sing...I'll never be a Bowie/I'll never be an Eno/I'll only ever be a Gary Newman." The flip, "Wine Stained Lips," a stumbling, twangy recollection, features guest vocals from provocative Rollerderby photoessayist Cindy Dall.

## Singles .....

### ALL-4-ONE

#### I Swear (Blitz/Atlantic)

Can you say "no brainer?" It's been awhile since a huge country hit has been covered by a pop act, and whoever decided to bring this tune to All-4-One deserves special credit. The song went Number One for John Michael Montgomery on the Country chart a few months ago and will most likely end up becoming one of the biggest hits of the year at Top 40 as well. Producer David Foster polishes it up just right for pop audiences who, like their country counterparts, will soak in the lyrics. Those contemplating matrimony will no doubt have this played while they're walking down the aisle, and those who've already tied the knot might want to renew their vows just so they can make "I Swear" part of the ceremony.

### M PEOPLE

#### Moving On Up (Epic)

WPGC-Washington, D.C.'s Albie D was first to turn me on to this totally hot entry. Superstars in their native England, this talented trio boasts six Top Ten hits in the U.K. Excitement about

this uptempo winner is spreading fast and one listener should explain why. Easily accessible for dance/crossover and mainstream Top 40 audiences.

### MEAT LOAF

#### Objects In The Rear View Mirror May Appear Closer Than They Are (MCA)

Only Jim Steinman could conceive a title like this and no one but his long-time partner Meat Loaf could possibly interpret it in just the right way. From the dashboard light to the rear view mirror, this two-some never fails to show their brilliance in awakening the senses through the power of rock 'n' roll.

### TONY TONI TONE

#### Leavin' (Wing/Mercury)

Some more of that Wiggins' soul is about to seep into our consciousness, thanks to this infectious track. With an approach that recalls Motown greats like Smokey Robinson and The Temptations, the threesome makes it clear why they titled their album *Sons Of Soul*. It's a collection so good it makes the job of selecting singles no easy task. I'm sure.

### THE CHARLATANS

#### Can't Get Out Of Bed (Beggars' Banquet/Atlantic)

After a solid month in the Top Ten on our Alternative chart, this British band is now ready to unleash their "Manchester Sound" on Top 40. Powered by a catchy chorus, the unique pop shadings behind this production make it a strong contender.

## Albums .....

### THE DAMBUILDERS

#### Encendedor (eastwest)

Boston's The Dambuilders make their major-label debut with the grace of veterans. Each of *Encendedor's* ten tracks is thoughtful, crafted and well-realized enough to indicate the band had confidence aplenty to belie their relative youth. Although the advance's liner notes dismiss the band's connection to their hometown sound, The Dambuilders' moody guitar-driven pop is textured and quirky enough to hint at a slight influence from fellow Bostonians Big Dipper: like Dipper their hooks and melodies sneak up on—then firmly seize—you; like Dipper they're unique in a way so subtle it's difficult to articulate; like Dipper, The Dambuilders may be a touch ahead of their time. Excellent moments on *Encendedor* include: the lovely pop of "Slo-Mo Kikaida," "Colin's Heroes," the swarm-of-bees guitar of "Collective" and the opus "Smell." Smashing.

—SEANA BARUTH

### FOR REAL

#### It's A Natural Thing (A&M/Perspective)

There's no doubt that every a cappella "guy group" coming out now will be compared to Boyz II Men, and it's inevitable that For Real will receive compar-

isons to another "girl group," En Vogue. For Real captivates you with their soulful balladry, hip-hop street beats and mellow grooves. All four members take turns at lead while the accompanying harmonies are well blended and the sound is all that! Notable tracks: "Easy To Love," "You Don't Wanna Miss," "Li'l Bit," "Don't Wanna Love You Now," "You Don't Know Nothin'," and "Thinking Of You." Dive in at any point and believe *It's A Natural Thing*—For Real.

—JOHN MARTINUCCI

### VARIOUS ARTISTS

#### Four Weddings And A Funeral (soundtrack) (London/PLG)

According to friends who have seen this film (okay, I'm behind in my movie going), it's unfortunate the music on this soundtrack isn't more prevalent because there's some great stuff on it. Top 40 radio has gravitated toward I To I's "The Right Time" and A/C radio is working with Wet Wet Wet's remake of The Troggs' "Love Is All Around." But also lend your ears to Elton John's remakes of George and Ira Gershwin's "But Not For Me" and Phil Spector's "Chapel Of Love," as well as to Swing Out Sister's new spin on "La La La (Means I Love You)." Fun music from a box office smash.

—ANNETTE M. LAI

### PRIMAL SCREAM

#### Give Out But Don't Give Up (Sire/Warner Bros.)

This is Bobby Gillespie and company's homage to '70s music as the band enlists producer Tom Dowd (Layla), the Muscle Shoals Horns and Rhythm Section in an attempt to recut *Exile On Main Street* and *Sticky Fingers* with a bit of Ohio Players, Traffic and Faces thrown in. This is a record that A<sup>3</sup> could program with authority by juxtaposing familiar period pieces—take a father and son approach, if you will. Rocky cuts include "(I'm Gonna) Cry Myself Blind," "Call On Me" and "I'll Be There For You."

### HOLE

#### Live Through This (DGC)

With the death of rock icon Kurt Cobain, Hole leader Courtney Love finds herself a widow on the very week her band's long-awaited release hits the airwaves. Ironically titled *Live Through This*, the media avalanche surrounding Cobain gives *LTT* extra wallop. Any lyrics dealing with death ("I made my bed"/"I'll lie in it"/"I made my bed"/"I'll die in it") are bound to fuel scrutiny. More mainstream than, say, P.J. Harvey, Hole is loaded with '90s angst and timeless visceral rock energy.

In March of 1994,  
Rhythm, Country & Blues became the  
first album to debut simultaneously  
on Billboard's three biggest album charts:  
**R&B, Country and Top 200.**

Heralded by critics as "a Classic,"  
the album proceeded to soar into the  
**Top 20 of all three,**  
reaching No. 1 on the  
Country chart in just two weeks.  
Now, with  
**airplay just beginning,**  
the album has  
**surged past Platinum**  
on its way to Double Platinum  
and beyond.

We thank the artists and all  
who have made Rhythm, Country & Blues a  
**resounding success.**  
Appealing to fans of all races,  
ages and genres,
