## FRONTRUNNERS

Elektra

### THE CARS

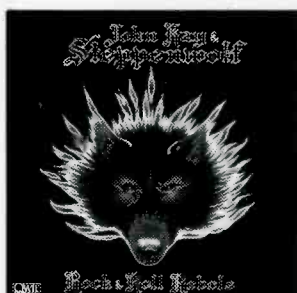

**"YOU ARE THE GIRL"**  
As the first and still biggest synth success, the Cars have no choice but to deliver an ultra smooth first single—like this!!

Epic

### INSIDERS

**"GHOST ON THE BEACH"**  
The best collection of songs we've heard from any new act this year—and probably 87's best overall debut to date.

Qwil

### STEPPEWOLF

**"ROCK AND ROLL REBELS"**  
"Hold On" was OK for openers—but "Give Me Life" is the way to go for that good old Steppenwolf wide demo destruction.

IRS

### R.E.M.

**"THE ONE I LOVE"**  
The masters of "Less is More" deliver their most overt hook to date—but you still have to work to comprehend the chorus.

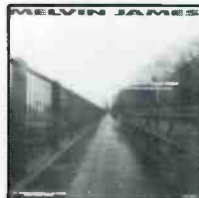

IRS

### THE DB'S

**"THE SOUND OF MUSIC"**  
Hey, if we can squeeze two IRS acts onto the front page for the first time ever, howza bout a serious second look from you, too?

## RECORD OF THE WEEK

### MELVIN JAMES "Why Won't You Stay"

MCA

Stage two of Producer Bill Szymczyk's return to the scene starts with 57 adds and almost as many projections and programmer positives.

## NEW PLAY PRIORITIES...

Omar and the Howlers "Mississippi Hoo Doo Man", Billy Idol "Mony Mony", Hege V "House of Tears", Mojo Nixon "Elvis is Everywhere", and Echo and the Bunnymen "Lips Like Sugar". . . . **INSIDE!**

The Cars, "You Are The Girl", Elektra.... Sure, we remember when The Cars first turned the world on its collective ear with their weird squirty guitar riffs, chunky keyboards and strange truncated vocals. And the fact that they looked like guys in the chess club was almost as bizarre. Well, the years since have blessed Ric and the boys with an amazing string of smashes—to the point where their trademark sound is kind of like Kleenex or Coca-Cola. Their name alone defines the genre, and I mean that in a Fortune 500 context, dear readers, with all due respect for the hit machine they are and ever will be. And as reigning founding fathers, it's important to us—and them—that the first single be all things to all people. They know their target and they've certainly nailed it once again with this smooth, homogenized confection. It's no doubt another notch in the championship belt with harder, more complex and undoubtedly more interesting material waiting somewhat impatiently in the wings.

Steppenwolf, "Give Me Life", Qwil.... This is the track that got our magic carpet moving on first listen—and we're not alone. WLLZ's Jim Pemberton echoed that sentiment this week and KOMA's Stephen Page also made the switch, saying: "This one seems to be getting great response for us".... To WQFM's Chip Hobart this track "Sounds more like their earlier stuff—and on it goes".... and KSQY's Jeff Michaels even had the pleasure of seeing the tune live in the company of thousands of Bikers last weekend—and he added it right away. And all you have to do is load the CD and hit "play". Updating "Hold On", how about that 50-46\* Hard Hundred move! It's now on 83, including KLOS, KOMA, KSHE, KSJO, 'DVE, WKDF, WLLZ, WPLR, KISS and KZAP.

The dB's, "The Sound Of Music", IRS.... Boy, it was really fun talking this one up on the phones this week. The dB's? Huh? Right. Can we talk low awareness level at mainstream radio? I couldn't find a soul who'd heard it and nobody who'd heard about it. We know the automatics/majors abound, but this is really a significant release. Just look at that cover—which is half the battle with programmers and consumers alike. For slick pop "I Lie" is the goods, and we're also quite partial to "Never Before and Never Again" and "Never Say When". Don't be guilty of playlist prejudice via the label quota system. IRS has two hot ones with this and R.E.M. and it's about time they got the deserved double shot.

Insiders, "Ghost On The Beach", Epic.... I can understand why a few of you folks already on the record might think that clever Yellow pages campaign hooked you right in your herding instincts. Hey, it's comforting to get in early on the momentum, and "Ghost" is certainly an easy audition of a song. But if you're even remotely laboring under the illusion that this project is an exercise in mass psychology, spend a weekend with the Insiders' incredible debut CD. For song quality, playing and singing talent, overall sound and even cool peripherals like no synths, real drums and the "proper" (Byrds, Everlys) influences, this act is simply remarkable. Play it once and you'll have it on 'til you go back to work Monday morning. Recommended: "Love Like Candy", "The Price Of Love" and "Memory Row". Meanwhile, back at the title track, we've got another major move, 34-24, with 16 increases, 9 adds, and 129 now playing.

R.E.M., "The One I Love", IRS.... I'm always amazed at the "this will be the one to do it for them" pronouncements that seem to surround each new R.E.M. release. Jesus, from "Radio Free Europe" to date, hasn't their radio roll call escalated almost exponentially? It's not like they haven't put an ever widening dent in mainstream playlists for years now. And they've certainly got the sales curve. And sellouts on the road? No problem. So in terms of our format, let's take all that into consideration and cash the check already. Will this be the pop hit they need to notch those really huge numbers? Not until Mr. Stipe learns that "Fire" isn't pronounced "Siam".

## **RECORD OF THE WEEK**

Melvin James, "Why Won't You Stay", MCA.... Melvin James and the Blue Notes? Wait a minute, is this an R&B crossover? Hardly. It's beautifully executed, wonderfully produced straight ahead formatically pure rock and roll—to the tune of fifty jump back seven stations out of the box. So don't be thinking like WLNZ's Rick Van Gil who says, "I never thought I'd see the day when a guy named Melvin would be played on an AOR station. Who's next, Elmer McGucken?".... And if it sounds a bit formula at first—take it from KRQR's John McRae, who went from "It's okay" to "Damn, what a tune" in just three listens. New at #58.

## **NEW THIS WEEK**

Omar And The Howlers, "Mississippi Hoo Doo Man", Columbia.... Deal with the "Dancing In The Canebrake" if you will—it is the pop radio priority now—but those wonderful Fogerty overtones sure make "Hoo Doo" the obvious second track to us. It broke in the Hard Hundred two weeks ago—gains 76-73\* this Report—with KMOD, WNEW, WKLS, WKDF, WDHA, KFOG, KICT, KEZO, WHCN, WAAF and WEGR a few of the 41 now playing.

Billy Idol, "Mony Mony", Chrysalis.... If Billy's 1981 studio cover of this track lacked balls that's certainly not a shortcoming of this particular rendition, especially the "Hung Like A Pony" mix. "Vital Idol" is the LP title, and between the inherent word play and four-play sampler now on your desk there's more than enough to tantalize your audience with for the time being.

Mojo Nixon, "Elvis is Everywhere", Enigma.... I don't know how much you know about Mojo—but I couldn't believe his charisma when he spoke at the Gavin Convention in San Francisco early this year. And I'm not sure exactly what avenues are open to Mojo's highly original brand of music/humor—but I do know he's an American original who could really take over with the right show. In that light, think about "Elvis" and the opportunity it gives you for a hip tie-in to all the 10th Anniversary hoopla. Obviously an AOR can't play it straight, but this totally crazy and Dada-esque tribute track has got to generate immense instant reaction—and I'm talking not just in terms of remembering The King, but in terms of recognition for a guy whose work is almost as outrageous and original as was Presley when first he burst upon the scene. Listen. It could change your whole perspective on the parameters of what you can do on the radio.

## DYNAMIC DUO! BRIAN & ROBIN

### COCK ROBIN

### "JUST AROUND THE CORNER"

"I THINK THE VOCALS ON 'JUST AROUND THE CORNER' ARE SOME OF THE BEST I'VE HEARD IN YEARS. IT'S GOT A MAGIC TO IT. A DEFINITE HIT THAT WILL CROSS OVER." CHIP HOBART, WQFM

"HERE'S A RECORD THAT NEEDED A LOT TO WIN OUR CONFIDENCE... AND IT DID IMMEDIATELY. THAT HOOK JUST WON'T GO AWAY ONCE YOU'VE HEARD IT. KFOG'S AUDIENCE PUSHED THIS INTO POWER."  
DAVE LOGAN, KFOG

"COCK ROBIN'S 'JUST AROUND THE CORNER' IS ONE OF THE MOST EXCITING AND INNOVATIVE SONGS WE HAVE ON THE AIR. OUR LISTENERS LOVE HEARING IT AND WE LOVE PLAYING IT. IT'S IN HEAVY ROTATION AND WILL BE THERE FOR A LONG TIME."  
TRISHA GRIFFITH, KBER

New On! WLUP! KRQR! WNEW! KBER! WLAV! WPLR!  
And 20 More Album Rockers!

## BRIAN MCDONALD GROUP

### "LIFE IS A DESPERATE BUSINESS"

"BRIAN MCDONALD'S 'LIFE IS A DESPERATE BUSINESS' IS HOT... AND IS PULLING GOOD PHONES!" DAVE HAMILTON, KQRS

"ANYBODY WHO'S REACHED THE AGE OF 20 CAN RELATE TO LYRICS LIKE THESE!"  
J. DAVID HOLMES, KUPD

Echo and the Bunnymen, "Lips Like Sugar", Sire/WB.... Though the group has come through with cult classics like "The Cutter" and "The Killing Moon", I've never really ever seen overt signs of a mass radio breakthrough. Until now, that is. This week, none other than WMMR came in, with Erin Riley commenting on 10,000 advance ticket sales for an upcoming show in town. They've always sold well, they're about to sell even more--and we dare you to A/B "Sugar" with anything else under consideration this week and tell us you're not impressed. You might also want to consider the WMMR pick "Bedbugs and Ballyhoo".

Hege V, "House Of Tears", MTM.... Christ, how long are they gonna work this record!! Not until more of you clowns add it, that's how long!! So come on, give Scott the New Guy a little help in his new gig and go back to the track that a number of stations liked and played right off the bat.

**IMPACT TRACKS**

Loverboy, "Notorious", Columbia.... Talk about a terrific first week--112 OTB adds, 32 Insta-heavy reports, a #22 Hard Hundred debut and across the board raves! KISS' Tom Scheppeke told us, "Geez, talk about a comeback! I'm just really impressed with the sound. Fred Jacobs was in town the day we got it and he was even digging it!".... WAAF's Rick McKenzie says, "'Notorious' was our only heavy add. I just love hooks and this band has always been one of my favorites for that--and this one doesn't disappoint".... WDVE's Anthony Alfonsi asks, "What do you get when you cross Loverboy with Bon Jovi? You get 'Notorious'. They've come up with a good straight ahead rocker with a catchy hook that has you singing along in no time".... From KWHL's Kevin Vargas, "Loverboy's image is as viable as ever"... and from from KSQY's Jeff Michaels, "I think it's one of their best in years and should be around for a long time. The Bon Jovi collaboration is a nice hook, too".

Mr. Mister, "Something Real", RCA.... Guess 79 adds is real enough, eh mister? The record starts with heavy play at 9, including KXRK, KSJO, WPLR, KBER and WIMZ--and the charting starts with a #41 track debut. Reaction: John McCrae, KRQR, "Real happy they didn't wimp out".... Stephen Page, KOME, "I was thinking they might go a little softer a la 'Broken Wings' but instead they decided to go a little more uptempo, with a very listenable melody and a good hook".... Harve Alan, WCCC, "Good mass appeal music from Mr. Mister. Don't let your CHR competitor snip you on a rock crossover song like this".... Garrett Hart, WAPL, "Nice to hear the band isn't rewriting the same four songs over and over again".... Jim Steel, WIOT, "They've progressed to the point where it doesn't pay to argue with them. Do you want to play the best music available or not?"....

Glen Burtnick, "Follow You", A&M.... At this point, Glen is well past the penetration point for "Red House"--what with 15 adds, 78 to date, and ongoing action at majors WKLS, KZAP, KLOS, KLOL, WYNF, WQFM, WNEW, WMMR, WLLZ, WKDF, WEBN, WDVE, KRQR, KGB, KBPI and KDKB. How's that for a list any record guy would die for? Glen Gains 55-50\*, with DVE's Anthony Alfonsi calling it "A song I'm excited to play. It's very upbeat and gets me going, with that Bryan Adams/Journey Feel".... From WPDH's Pam Brooks, "From the first chord to last, this is a real ear catching, crank it up 'sing it at the top of your lungs' hit", and as WRXK's Greg Mull says, "It doesn't hurt that it kicks major butt".

Def Leppard, "Animal", Mercury.... It's an album you've got to deal depth on, with "Animal" the obvious starting point. It's new on 36, now on 81--with a significant 9 reporters already into top 5 calls, including KQRS, KYYS, WMMR, WYNF, WRCN, AND KICT. There's healthy early heavy rotation support as well, with KATT, KAZY, KRQR, KSHE, WDVE, WHCN, WKDF, WYNF and KILO topping the list of 24. Excellent early phone support, too, with KQRS, WRCN, WYNF, KICT, KYYS, and WMMR all in with Top 5 action. As for other track action, "Women" points up 9-7\*, "Hysteria" scores this week's strongest 97-71\* gain with 15 adds and 3 ups, and you can expect "Pour Some Sugar" to chart next week, with stations like WAAF already reporting a solid phone build on that one.

The Fabulous Thunderbirds, "How Do You Spell Love", CBS Associated....

Another 27 adds re-affirm our belief that this one will soon top the play stats on "Stand Back". It moves 48-32\*, with 14 heavies, 2 ups, and 94 now on board. Karen Small comments, "This has 'hit' written all over it. This is fun good-time music which spices up any radio music mix".... WWRX's Rona Richman feels, "The T-Birds sound like 200,000 tons of pure blues comin atcha like a freight train outta the radio"....

David Bowie, "Never Let You Down", EMI/Manhattan.... If you thought the tough going on "Bang Bang" signaled a slowing down of AOR interest in this project, think again. "Never Let You Down" is moving like a hit follow-up deluxe. It's got 16 new believers (including KGB, KRQR, WAAF, WCCC, and WLAV), with 9 increases (KYYs, WIOQ, WPLR, WHCN, KRXQ, WNEW) factoring into this week's fourth longest 45-28 Hard Hundred advance. WHCN's Kim Alexander tells us "It's gonna be a big hit and we'll gladly play it early".... Of his add, WAAF's Rick McKenzie says, "He's three weeks away from 70,000 seats here, with the LP still selling in the teens".... and from WKRR's John Amberg, "Finally, the song that deserves to be heard is happening. This is the coolest track from the Thin White Duke since the 'Let's Dance' sessions."

Fleetwood Mac, "Little Lies", WB....

The new key cut claims 28 adds this week, with WPLR, WHJY, WPYX, WRCN and three more starting with heavy rotation, and a total of 18 already reporting it there--including DC101, WPDH, WAQX, KLOL, KLAQ, KKDJ and WZEW. Now on 67 total stations, good for this week's third longest 45-28\* move.

MAKING NEW IN-ROADS AT ROCK RADIO!

The Brandos, "Gettysburg", Relativity.... Between the undeniably sound of the song, radio testimonials, and our pick a month ago—it's clear the Brandos are the next indie label act poised for stardom. KILO's Alan White calls it "My favorite of the week. It's got such a great roots feel, and it's not your typical type of song".... WHCN's Kim Alexander says, "Everyone on the staff loves it".... WTOS's Duane Sherman feels, "This band will make relativity a household name and Relativity will make this band a household name".... from WEQX Howard Glassman, "If you really want to breathe new lifes into a mine filled with Mondo corpo rock, I suggest you first blow your home speakers and then your listeners' minds with the Brandos!"... New at #74\*, with play now on 21, including WLVQ, WNEW, DC101, WMGM, KFOG, KLOL, WBCN, WHCN, WPYX, and KILO.

Pretenders, "Where Has Every Body Gone", WB.... Already performing much better than most soundtrack tunes, "Every Body" bags another underline 39-27\*, courtesy of 16 increases (and moves to heavy at KBCO, KLOL, WBRU, WHCN, WRCN, WXRC, CFNY), a total of 27 now listing heavy play. New on 13, now on 107. As well as this AOR specific item is doing, time to start warming up to the single "If There Was A Man".

The Outfield, "Bangin' On My Heart", Columbia.... KILO's Alan White is the man with the plan. "We're still playing 'Somewhere', our first choice, but 'Bangin' is a little more of a blatant hook song and so we're covering all the bases". This week WLLZ, WRIF, KILO, and four more hop on, with KBPI, KZEL, KATP, and KSQY already in. Debut #98\*.

Tom Kimmel, "Tryin To Dance", Polygram.... About the only reason you might hesitate on this reaction record is the rather blatant use of the word "Bullshit" on the Lp version, a problem nicely remedied on the 12". So join the likes of WEGR, WLLZ, WLAV and KMOD on a great second track from an artist who will be huge with just a little more of our help.

The Beat Farmers, "Dark Light", Curb/MCA.... Another track more than validated by the Index, the Beat Farmers crank out a credible plus 23 increases and corresponding 24-20\* underline. KOME and WXRC are the first with top 5 calls, and we've got guys like Joe Blood at KEZO testifying, "Their distinctive Stones sound is just starting to get phones and sales".... From WAAF's Rick MacKenzie, "Starting to see a few calls on 'Dark Light', which might move up soon".... and WRXK's Greg Mull adds, "They're getting great response, both on the phones and in the stores. I was in a local outlet yesterday, making a CD run, and had an employee introduce me to a listener who was asking about the Farmers. 'Dark Light' is the first track played in this market and people want more".

## TAKE TWO

Whitesnake, "Is This Love", Geffen.... On the road with the Crue and reaction to the sold-out performances couldn't be hotter. 'BCN's Carter Alan, "Whitesnake thrilled with an all-star lineup".... Erin Riley, WMMR, "I'm sure they picked up more new fans with their recent show here. Coverdale reminds me of Robert Plant all rolled up into George Carlin! Truly entertaining".... And with the SRO crowds comes the retail blowout—WXRC's Justin Phelps, "Whitesnake continues to outsell everything put together".... And with sales comes album depth, which brings us to "Is This Love". KSQY's Jeff Michaels had a familiar story, "We were on this cut originally out of the box. We moved it out to make room for 'Here', and I'm glad we could get back on it this week. Looks like another smash to me".... 15 jump on this stellar cut with KAZY, KBPI, WLLZ, WBAB, WRIF and KLOS new, as the total on grows to 29, bring "Is" onto the Hundred with a healthy 79\* debut.

Marillion, "Sugar Mice", Capitol.... "Sugar Mice" caught the critical ears of many of the Hard-to-please programmers out there when the album was first released, but attention at the time was focused on the now familiar "Incommunicado". An obvious standout on the album, the CD single gets you even closer to the production genius available on this one. And if you're on the lookout for that Carpet Crawlers/Dark Side Of The Moon ambience, one with a certifiably classic hook, locate that CD pronto and put your feet up. 9 adds this week as WNEW, KRQR, WPDH, WDHA and WAQX go on. Look for the Hundred debut next week.

Hooters, "Satellite", Columbia.... With a majority of reporters powering "Johnny B", "Satellite" is the next way to go to keep that ol' momentum in line. Adds at 9 (WSHE, WAAF, WBAB, KILO, KTYD), and increases at 6 (KGB, WPDH, KBER) give the cut a 7 position jump, while the album continues to perform on the retail level. WAAF's Rick MacKenzie, "'Johnny' registers Top 5 calls this week, while the album progresses retail 8-5"....

Richard Marx, "Should Have Known Better", Manhattan/EMI.... Take it from the Increase Index—Richard's 5th best 21 play ups is ample evidence this double shot is a keeper. It pushes 26-14\* on the Hard Hundred, with power play at WLUP, KGRQ, WYNF, and WWCT, and heavy action at 31 more—a list that includes KDKB, KSHE, WDIZ, WEBN, WHCN, WLLZ, WPLR, and DC101.

Cutting Crew, "I've Been In Love Before", Virgin.... I don't know who pushed the button—but the word is definitely out on this one. Rick Van Gil at WLNZ promises, "If this doesn't become a super smash, I'll change my name to Maynard. This crew seems to be a buzzsaw of superstar potential".... WKLS' Beth Kepple confesses, "This song makes me want to slow dance (something I never do), and it gives me goosebumps in places where I never thought I'd get them".... We've got new air on 16, including WKLS, KDJK, KXRX, WHMD, WLNZ, and WPLR, giving the new single a #94\* track debut.

John Cougar Mellencamp, "Paper and Fire", Mercury.... You don't really need us to know John's latest is a certified smash—but it is interesting to note that it already leads on the Increase Index with 39 play-ups. The phones keep pace with a move to #4 Most Requested with 36 top 5 mentions. Currently on 167 reporters, Power on 53, heavy on 99 more—all of which easily moves it into the #1 airplay slot, knocking off the Dead after a comfortable 5 week reign.

The Cult, "Wild Flower", Sire/WB....

WIXV's Virgil Thompson tells us "Wild Flower" is getting more response than the other tracks did at this stage of the game—KLOL's Harvey Kojan has been reporting similar success all along—and by now we'd argue you're stopping at the five yard line if you used "Love Removal" and/or "Lil' Devil" and haven't used this one. It's new on 14, including WHCN, KDKB, KGB, KSJO, WBLM, WRXK, KLPX and KWIC, with 56 total stations and 3 increases moving it 68-56\*.

**Suzanne Vega, "Solitude Standing", A&M....** Checked your retail lately? Listen to KEZO's Joe Blood, "The album moves to Top 5 sales as Suzanne solidifies her retail base".... Across the country Suzanne is cleaning up in sales and "Solitude Standing"'s title track is doing a fine job of keeping the project in full view of an approving audience. 7 adds (WCKW, WIYY, WIMZ) with 3 increases (WMGM, KMBY) provide the power to move the track 43-40\* on the Hundred.

**Grateful Dead, "Hell In A Bucket", Arista....** As "Touch Of Grey" moves on to Pop stardom, "Hell" has clearly emerged as the next in line to throttle the top ten of the Hundred, climbing 13-9\* this week after picking up 5 adds and 18 increases. And it's no wonder, with records being broken on the retail level with "In The Dark" marking new territory on a weekly basis and depth tracks now emerging on the Most Requested, it was simply a matter of time before programmers dug deeper. "Hell" registers with 12 Top 5 phones on the Most Requested this week, as action continues on runner-ups "When Push Comes To Shove", "West L.A. Fadeaway", and "Throwing Stones"....

**Sammy Hagar, "Returning Home", Geffen....** The album as a whole is performing incredibly well across the country, as reporters go deep on various cuts from this highly diversified Lp. WLLZ is doing well with "Eagles Fly", as Jim Pemberton tells us, "This cut has some of the highest call out numbers that I've ever seen, as the album on a whole continues to have huge success here".... "Boys' Night Out" moved a notch on the Hundred with a 19-18 step, but the real action this week was on the sanctioned "Returning Home", which gained 13 adds with KLOS, 'LVQ, KILQ and KSJO moving the total on this cut to 59. "Home" keeps 'em busy on the Hundred with a 57-48\* move.

**Starship, "Babylon", Grunt/RCA....** KSJO's Patty Martin calls it "The best song on the album", and we might have to agree. An obvious standout since the release of the Lp, we've heard more than a few sling the praises of "Babylon", and now's the time to put the vinyl where your mouth is. 5 adds this week (KOZZ, WGIR, WLLZ) brings the total on to 34, as the cut swings 78-70\* on the HH.

**Joe Walsh, "In My Car", Full Moon/W.B....** More than a few programmers are seeing a resurgence in sales with renewed interest in this cut. New at 6 (WONE, WLUP, KZAP) and up at 16 gives Joe the strength to bully up a position in the Top 20 of the Hundred (20-19\*). KEZO's Joe Blood, "Joe has the ultimate cruising song with 'Car', as sales rebound this week"....  
121 total on....

**Warren Zevon, "Detox Mansion", Virgin....** Warren's "Sentimental Hygiene" Lp is a constant on the office turntable here, so you know we're already sold! But it's the reports of sales and audience reaction to not only "Detox" but "Monkey" and "Factory", too, that's proving there's more than enough interest out there to merit depth play on this comeback album. Added at 6 (KZAP, WKFM, WBYP), and up at 2 help make the week a good one, as the cut gains a couple of positions on the Hundred 40-38\*.

**John Hiatt, "Thing Called Love", A&M....** If you spent any time with the Lp on its release, you can't help but remember this highly infectious hook monster. 20 have now seen the light with 5 new on this week (WKLS, KMOD, KMBY) with plenty of room for more. CHEZ' Greg Torrington is one who's caught the bug, "Hey, when I hear 'Thing Called Love' on the radio, I crank it up and drive off the road. Try not to be around when this happens".... Just another safe motoring tip from our friends up north... On the chart, "Thing" pulls a respectable debut this week with a 95\* entry onto the Hard Hundred.

**Jon Butcher, "Wishes", Capitol....** Phone reaction is the trump card here, as 10 reporters register big calls for the title track from Jon's latest. And with the phones comes increased play; up at 14 this week (WKDF, KBCO, KGB, WGIR, WLZR, WQFM) while the raves just keep on rollin' in.... KOZZ' Harry Reynolds, "Getting fast phones for us. This could be the one for him".... WWCT's Paul Nelson, "'Wishes' continues to pull excellent phones with the average age of requester 25. They seem to appreciate the Jimi factor. Some think he's the next GI-tar hero".... WGLU's Brian Wolfe, "Jon goes heavy as the phones soar to top 5".... New at 4, 87 total on. HH 39-39\*.

**Fire Town, "Rain On Me", Atlantic....** We were surprised by the relatively lukewarm action "Carry The Torch" received in light of the overwhelmingly positive reviews and press the band has received of late. If you've spent a little time with this album, you already understand the fervor following these guys from Madison, Wisconsin. But when it comes to airtime, perhaps a second listen is in store for "Rain". 7 reporters (WIOQ, WRUF, WCKW, WTPA) come on this week pushing the total playing to 20, as the track debuts at 99\* on the Hundred.

**Roger Daltrey, "Hearts Of Fire", Atlantic....** Certainly a clear cut contender for Top 40 status, "Hearts" finds a home on another 4 stations this week with WRCN, WMGM, KLOS and WKLT on board, with the phones hot at KOAS. Now on 33 with KSHE, WBCN, WDVE, WEBN, WQMF, KBPI, WRIF and WNEW all at the party. Chartwise, Rog snags a 10 point advance 82-72\* on the Hundred.

"Our listeners hold Steppenwolf near to their hearts. In just 2 weeks, 'Hold On' has pulled top 5 phones!"

-KIM ALEXANDER, WHCN

"I never thought I'd hear a new Steppenwolf album, but lo, it's here! It's great to have something new from these guys."

-ANTHONY ALFONSI, WDVE

"'Hold On' features trademark vocals from John Kay and I love the guitar on the long version. There's a positive message in 'Hold On' and if you hang in there long enough, good things will come your way."

-JOE BLOOD, KEZO

"John Kay and the boys have revitalized their career with this effort, and it's a natural for us."

CHARLIE LOGAN, WYNF

"Last week the Black Hills played host to the 47th Annual Motorcycle Classic, with 100,000 in attendance and Steppenwolf headlining. John's voice was as good as ever and now we've added another track from the album!"

JEFF MICHAELS, KSQY

**. . . they never went away**

Europe, "Carrie", Epic.... Week by week, it's becoming more apparent that this one's money in the bank, 'specially if you're looking for that 18-24 year old. 90 stations on and the phones are catching fire. 11 report top 5 requests from not only the youngsters, but the upper demos too, as WIOT's Jim Steel tells us, "Strong male calls in addition to positive phones from the 25+ crowd. If you're not playing 'Carrie', that 18-24 cell must not be that important to you".... 13 increase air this week, with power play at WHCN, WKDF, WPLR, WWZU, KRQU and KRNA, as the track maintains a bullish 33-33\* hold on the Hundred.

Pete Wylie, "Sinful", Virgin.... Pete makes his chart debut this week, easing in at 100\* after a banner 12 add week, as WBCN, WDHA, WRIK and KRZQ give in to the little hook that could. CFNY's Don Berns is into it, "Great to see Pete's record finally out. It's sinfully good and did really well for us as an import some time ago".... And WHMD's Phil "Catfish" Colwart spouted "Hooks galore, poutful sex appeal, boo hoo".... after viewing ink splashes of Wylie's new album. (Ed. note: "Catfish" is reportedly resting comfortably after this experience). If you haven't had the pleasure of "Sinful", get off the couch and take a listen to one of the easiest hooks out there.

Faster Pussycat, "Don't Change That Song", Elektra.... We've been fielding comments galore on this hunk, ahunka burnin' stuff (Our Tribute to Elvis). KIL0's Alan White was hardly able to contain himself, "There is a huge groundswell on the Faster Pussycat. Retail can't keep it in stock, and that was before there was even any airplay. People were hearing it someplace, and we're definitely playing it now".... And KWHL's Kevin Vargas, "The latest monster for us is Faster Pussycat; instant phones, and all good. The upper half doesn't mind whalemade noise, so this rock and roll town looks for smash status on Faster Pussycat".... 21 on with 4 new this week. Da Pussycat snags a Hundred debut #97\*.

Helix, "Wild in the Streets", Capitol.... First week out and 10 jump on OTB with interest running high on the latest and some feel greatest from Helix. KISS' Tom Schepke, "We're in on what you could almost consider a comeback for Helix. I think they've returned to the AC/DC style, which is what these guys do best".... And KSQY's Jeff Michaels, "We added the Helix after only about half a listen. One of the easiest adds this week"....

Urgent, "I Can't Take It No More", EMI/Manhattan.... 4 adds push the total on to 59 as WEGR, WAPL, KMOD and KRQR commit themselves to the Frustration-buster song of the summer. Here's one where the slow but steady build says it all. After 5 weeks out, no drops are to be found. Not bad for the major traffic everyone's been experiencing the past few months. Upped airplay at 5, help in the HH advance, 60-57\*.

The Replacements, "Alex Chilton", Sire/WB.... This band is turning into a phenomenon unto themselves. Listen to WMMR's Erlin Riley, "How does a band with absolutely no airplay in a market sell 1500 tickets? That's exactly what happened to the Replacements, and they were booked into a club. Imagine if people under 21 had been able to go".... And KQWB's Ty Banks, "Beyond question, the Replacements rule! 'Alex' moves to power with #1 phones and fanaticism here".... Yo Ty, just give a yell if you need the National Guard to stop by.... New at 6, up at 3, with a track advance 74-69\* on the Hundred.

The Silencers, "Painted Moon", RCA.... KOME's Stephen Page checked in the other day and we got talkin'.... "Every time we play the Silencers we get calls", he said. "People just wanna know who these guys are. It's really nice to see this kind of reaction to a track that's not a Bang-you-Over-the-head type of thing. Great melody, nice hook, and even the six minute version works".... Ya know sumthin'... Stephen's right! "Painted Moon" is the kind of song that makes the AOR format great, and is the type of song that MADE AOR in the first place! Check out the 12 adds this week as KSHE, WGIR, WPLR, WSHE and KLBj come on, pushing the total playing to 122. 12 increase play as the cut advances 29-26\* on the Hundred.

Pete Bardens, "In Dreams", Cinema/Capitol.... Confidentially, we were surprised by the number of reporters commenting on the phone action this track is pulling.... WLAV's Aris Hampers, "Pete is #1 on the phones. The record just runs away from everything else".... KRIX' Joe Kelly, "Pete goes up to heavy. It's popped. The listeners loved it from the start".... WIOQ's David Anderson, "What's the record drawing the most response from our listeners? The Dead? U2? No, it's 'In Dreams'".... And KSQY's Jeff Michaels, "Played Pete on our morning show and five calls instantly, all positive".... Let's face it. There really isn't anything else quite like the Bardens out there right now, and as 'LLZ's Jim Pemberton says "If you're looking for a breath of fresh air, try the Bardens".... 10 adds, 7 increase, 76 total playing. HH 52-52\*.

The Cure, "Just Like Heaven", Elektra.... The reports coming from the sold out live shows have been adamant enough to perk the interest of even the doubtful. It was SRO at the Garden Monday night; 'MMR's Erlin Riley caught 'em at the Spectrum "Where the fans were among the most enthusiastic I've ever seen. One minute you think a band is a little avant garde; the next minute they're selling out arenas".... Meanwhile, on the vinyl front, 'CCC's Harve Alan reports "The Cure Lp has been top 15 since its release and 'Why Can't I Be You' was a top 5 request item for many weeks. It only make sense to go with the followup track".... On 35, with 7 new this week. HH 87-77\*.

Stevie Ray Vaughan/Dick Dale, "Pipeline", Columbia.... Looking to start that Friday Afternoon Office party? Here's one that'll loosen up the secretaries! Seriously now folks, every time "Pipeline" comes on around here, it's time for a coffee break. Can't explain it.... It's just such a kickback and have a good time tune. We register 31 on with 4 new this week (WHCN, KGB), as it becomes apparent that there's plenty of room for more. As 'HCN's Kim Alexander emotes, "Everyone in the country should be playing this, even if you're landlocked!".... HH 92-89\*.

Joe Ely, "Lord of the Highway", Hightone.... Two significant adds this week for Joe as WFYV and KTYD come aboard one of the most talked about and revered guitarists out there. 24 already on with KISS, WBCN, WCKW, WYNF and many more hearing that thang. Already charting on the Alternative side, keep an eye open for that Hundred debut expected next week.

TNT, "Everyone's A Star", Mercury.... Here's one that's been making quiet advances week by week, and now with 18 on (6 adds this week alone), we're anticipating a Hundred debut next week. Significant play at WBCN, KAZY, KBPI, WLLZ, WQFM KIL0, WKDF and WYNF.

**Radio Reports...**

**Monday and Tuesday**

**10am - 7pm EST**

**609-654-7272**

Well, we couldn't get a picture of Jim Trapp, so we dropped in one of a dubious type whom the newspapers would later call a "drifter."

Okay, it's not the Hitcher From Hell, it is Trapp and he's on his way to the HARD REPORT to be Radio Editor.

"My time spent at KZEL was some of the best I had at any radio station. It is undoubtedly a heritage operation, loaded with class, but an opportunity like the HARD REPORT comes along rarely. It is an opportunity that I can't turn down," says Jim.

Our flounder, Editor and Publisher Bill Hard commented:

"If I'm moving Jim, his bride Christy, and 8,000 lbs. of records all the way from Eugene, you'd better believe he's the right man for the job, Babe."

The Trapp will be set September 5th.

## IT'S ALL HAPPENING AT THE ZOO

Wednesday (8/11) was a busy day at Communications Center — just a three-point jump shot from Reunion, where the Mavs and all those big, loud bands play (if the Baptist preachers let 'em) — in Dallas, Texas.

Dennis Andersen, KZEW PD of less than one year, is gone. WRXL/Richmond PD David Grossman will be in place to make that jump shot no later than September 1, Virginia.

"There are a lot of things to be done with that place," said the beyond-the-valley-of-the-tight-lipped Grossman.

"I am thrilled, excited, boss, groovy and bitchin'," adds David.

David had been PD of WRXL for 18 months. Before that, he PDed WCCC/Hartford for a year and a half.

Hey, jungle drums beat and say that former WEGR/Memphis PD Howie Castle be on his way to XL102 to fill Grossman's slot.

"You know, you're the third person today to say that to me," noted Grossman.

Studio Doors. Ray Manzarek and John Densmore visit Mark Chernoff and Scott Muni in the control room at WNEW-FM. That's a Gibson SG like the one Robbie used to play on stage in between Budweisers. The station gave it away in a Doors promotion.

## THE CREW AT THE Q

WLVQ, Columbus' most successful entity since Woody Hayes tripped opposing players on the sidelines, is going through changes.

Gone like a cool breeze is morning man David Lawrence [who had maybe four months there] and moving into the slot is Lee Randall, who is giving up his PD/afternoon gig to pull mornings.

"Taft has given me the opportunity to do mornings," says Lee, "...and I want it."

Randall has started doing mornings and that leaves a PD hole at a large station that lives in double-digits and dominates primates 12+.

"I want a fucking killer," says VP/GM Tom Thon with his usual reserve.

Thon is "focused in on four players" and is engaged in preliminary discussions with all of them.

"We want someone who has been in a competitive marketplace, so he or she can snuff the new Classic," adds Thon.

## THE REPRISE OF REPRISE

Start spreading the news. The label founded by Frank in 1961, the label that gave us Jimi, the Kinks, Neil Young, Fleetwood Mac, Jethro Tull and Roxy Music -- is back.

Reprise has been reactivated as a full-service record label by Mo Ostin, Board Chairman of Warner Bros. Records and a founding officer of the original Reprise Records. Over a year in the planning, the return of Reprise has entailed the recruitment of a field promotional staff, headed by Rich Fitzgerald, formerly Vice President of Promotion for Warner Bros. Records and now Vice President/Director of Promotion. Also included in the initial stages of the new Reprise is the assembling of a diverse roster of artists, including Simon F., BoDeans, Dream Academy, Taja Sevelle, Rosie Flores, Roger Troutman and Dwight Yoakam (who has already released two albums under the Reprise banner).

So set 'em up, Mo...

"There is, of course, a great deal of personal pleasure in this announcement," Ostin remarked. "Reprise Records, from the very beginning, was a tremendously exciting place to work. Our traditional repertoire was very successful; but at the same time, music was finding a whole new audience and Reprise helped to find it. Bringing back the label now has the same kind of excitement to it. For so many reasons, including a quality roster and staff, it's great to announce the return of Reprise."

"Reprise has a reputation for diversity," Warner Bros. President Lanny Waronker stated. "That's not going to change. Reprise will continue as a record company represented by a broad spectrum of talent, marked by a selective signing policy."

"This is a top-notch promotion staff," agrees Fitzgerald. "Any label would have a leg up with these individuals. Combine that with the music we'll be working at Reprise and you can see why there's so much anticipation and excitement around the label's return."

The new Reprise Records national promotion staff consists of Fitzgerald, Linda Baker, Michael Linehan and Marc Kratner. The field staff is as follows: Barbara Balchik (Cleveland), Jerry Barrett (Dallas), Sue Brett (Seattle/Portland), Gary Briggs (San Francisco/Sacramento), Susan Demarala (Baltimore), Bob Divney (Hartford), Scott Freeman (Kansas City/St. Louis), Lisa Giles (Houston), Drew Gitlin (Los Angeles), Andrew Govatsos (Boston), Patrick Grueber (Detroit), Warren Hudson (Atlanta), Tim Hurst (Cincinnati), Bill Janis (Nashville), Nancy Levin (Denver), John McAllister (Miami), Ken Ornberg (Minneapolis), Randy Ostlin (San Diego), Hillary Scribner (New York), Katie Seidel (Charlotte), Bob Well (Philadelphia), and Richard Wolod (Chicago).

Later that same column, WNEW-FM had Lou Gramm in a live broadcast from a NYC studio. Left to right: Ray White, Louie Louie, Dan Neer, and Jim Monaghan.

**IT'S THE PITTS FOR JIMMY & STEVE**

Jim Roach and Steve Hansen, the two biggest names in Pittsburgh since Franco and Rocky, are on their way back, Sherman.

Jimmy and Steve, who swore they'd never do another morning show after being snuffed at WSHE/Miami two months ago, will return to Steel Town to do mornings at Classic WMYG August 31.

Roach and Hansen did eight months of mornings at WSHE, just long enough to sell their houses in Pittsburgh. Roach had fourteen years -- that's no typo. Fourteen. -- at WDVE, where he was consistently #2 in the morning behind KDKA. He is happier than a dead hog in the sunshine to be going back home.

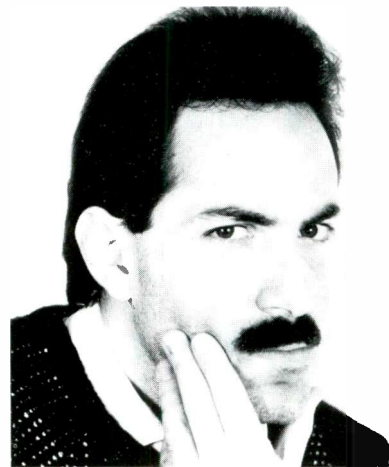

"I don't know where we're going to live," says Jimmy. "...but who cares."

Watch where you point that cleaver, beaver. Back, left to right: KSHE GM John Beck, Ken "Eddie Haskell" Osmond, KSHE \$20,000 Shopping Spree lucky winners complete with name tags Debbie and Kevin Raushelbach. Down in front! Is the Morning Zoo Crew of Steve Mitchell, Mark McCain and Rob Buttery.

**JONNY BOY**

See LOOP morning man Jonathon Brandmeyer host Fox TV's "The Late Show" Friday? (8/7.)

Here's Jonny

When he was a guest on the show in July, the producers were so impressed they invited him back to do the show.

What most people don't know is that after his performance as host Friday night, the producers immediately asked him to stay and do the next week. Brandmeyer declined.

**ADVENTURE IN MOVING**

An entertaining morning show is needed the day before yesterday at WKFM. If you're currently doing mornings or think you can, send your T&R and morning philosophy to: Brian Iles, WKFM, 1022 Willis Av., Syracuse, NY 13204. EOE M/F. No calls, please.

Rebecca St. John is the new MD at WZEW/Mobile. She crosses the street from the local CHR, and will do afternoons as well.

Scott Bergstein is the new SR/VP at Higher Octave.

Steve Jenkins becomes VP/Director of Affiliate Relations for the Westwood One Radio Networks.

How I Spent My Summer Vacation. Dear Mom, we caught two 6-foot sharks thirty miles off the coast of New Jersey. Boy, are you gonna have neat wallet. Signed, Andy Allen (Island), Rich Robinson (WHTG), Paul Yeskel, Mike Boyle (WHTG), Al Branca (formerly WMGM), and (kneeling) David Peel of Paul Yeskel Promotions.

This time, it's personal.

**DAVE MASON**

When Jeff came up to me and said "Line 2 for you — it's Dave Mason," I thought "yeah, sure." I can think of few artists in the first half of my 17 years in radio that got more airplay; if you were around then, you know I'm not pulling your pud. Any thought that someone was joking was put out of my mind when I picked up the phone. "Hi Steve. Lee Abrams asked me to call you and talk..."

Dave Mason was a charter member of Traffic. The band was a balance of his voice/songs/guitar and Steve Winwood's voice/songs/keyboards. The two forces pulled in opposite directions. Mason quit playing in the Traffic three times, a possible record. He played with Jimi Hendrix on the "Electric Ladyland" sessions (rhythm on "All Along The Watchtower"). In 1970, he invented the modern solo album with "Alone Together." After a half-dozen Lps with Columbia, he evaporated.

Years of living in the West have eliminated all but the slightest trace of his English accent. His mood is up, where once it was down. Now 40, a man who once disliked the "business" end of rock & roll will have a meeting to approve the art work on his new record when we hang up.

His new album is due the second week of October on the new Voyager label, distributed by MCA.

I can hardly wait.

**Steve:** Where have you been? You seemed to have disappeared for a while...

**Dave:** Yeah. It's been six or seven years since the last record.

Music stopped being fun. All of it just stopped being fun. For a year, I didn't even pick up a guitar. I didn't write.

**Steve:** Did this come back to what Denny Somach said a couple of weeks ago about the music business becoming more business than music?

**Dave:** Partially.

I understand that to be a performer today you've got to be a businessman, too. But one side began to outweigh the other. It was getting to the point where fine print, meetings, stuff that other people were supposed to handle...the fun was out of it. And people in the business thought my time had passed, that I was over.

I left LA, and went to Tahoe which is where Lee (Abrams), Larry Mazer and Denny Somach found me.

**Steve:** On stage at Harrah's? At a 21 table? Getting silicone?

**Dave:** (Laughter) No, in my cabin on the ridge.

**Steve:** Well, you seem to have an entirely different attitude. Are you a New Woman?

**Dave:** (Laughs) Yeah, I can see fun in this again. I want to do this again.

It's funny — Lee, Larry and Denny came to me with their concept of a person and an artist who mature together — what do you guys in radio call it?

**Steve:** Growing with the demographic...

**Dave:** Uh huh. And I thought of all those years I played and the audience seemed to grow, to mature year to year. I wondered how this could be lost on labels.

The three of them don't believe that what I do is passe, that no one was interested. They wanted me on their Voyager label and one of the reasons was their feeling that the audience had grown with me. They felt the audience knew me. They felt people wanted more.

**Steve:** Was it hard not to be bitter those six years?

**Dave:** Sometimes. But at Tahoe there was always something to do. If I wasn't on the lake, I was skiing in Squaw Valley. I was always busy.

**Steve:** I'm sure that you and the Three Wise Men looked around and saw what a year Clapton and Winwood had. You're probably the next one it's gonna happen to. It was a comeback year for both of them. Here are two guys that not only have their old audience but have expanded to a new, younger one as well.

**Dave:** That's pretty much it. That's what we'd like to do.

**Steve:** How many tunes on the new album?

**Dave:** We did twelve in the session, and eight are on the record.

**Steve:** Is that what Lee does for you, help pick the songs for the record?

**Dave:** Sort of. But, actually, the support he gives is more important than anything else. He is always there, always behind me. Always encouraging.

**Steve:** What's the theme of the new record?

**Dave:** Relationships, as always. That's what I write about.

**Steve:** Speaking of relationships and speaking of Steve Winwood, he's on your new record, isn't he?

**Dave:** Yes, on two of the songs.

**Steve:** Uh, you guys didn't part on the best of terms. After Traffic, I believe that you weren't even talking. What was it like to see each other, to play with each other after all these years?

**Dave:** Unbelievable. Like...like being with a family member that you hadn't seen for years. All the friction was gone.

**Steve:** What caused the rift between you two?

**Dave:** Well, when you're younger, things can get out of hand. The differences were primarily musical. The first thing we did when we saw each other after all these years WAS PUT THE PAST BEHIND US. The rest was easy.

**Steve:** I listen to those old Traffic records, and I'm still amazed how ahead of your time you guys were.

**Dave:** Thanks. I think Steve and I had a lot of that same thing on this new record. Great things are gonna happen from this.

**Steve:** Well, certainly all the bad ones have already! You've gotten those out of the way...

Dave: No kidding!

Steve: What do you remember about playing with Hendrix?

Dave: Jimi was just so far ahead of anyone else.

We were always doing something musical, either listening to it or playing it.

When we were playing, he'd never repeat anything. He was so inventive, you never heard the same thing twice. Sometimes I had to look at him and say, "Slow down." I couldn't keep up.

If there was a weakness, it was that Jimi couldn't say "no" to anybody...

Steve: Where do you want to be in five or ten years?

Dave: Producing, maybe with my own label.

Steve: So you could drop Lee, Denny, and Larry like a live grenade! Hey, just kidding. Say, the other day I was looking through ROLLING STONE's 100 top records of the last twenty years...

Dave: ...and "Alone Together" wasn't on it.

Steve: I couldn't believe it. Anyone in AOR will list that record in their ten all-time favorites. And with that multi-colored vinyl, one of the ten hardest to cue...

Dave: Too bad they can't do that with the CD! CD plastic won't do it...

Anyway, ROLLING STONE has always been a mystery to me. I get the feeling I wasn't hip enough for them. Like I didn't meet their criteria.

Steve: Were you the first guy to leave a band, find the hottest session cats you could and make a record? Or did George Harrison's "All Things Must Pass" come out before your album?

Dave: [Truly astonished] No, "Alone Together" came out first. Hey, we never looked at it that way...I guess we were the first!

Steve: And everybody did it after you did -- Harrison, Clapton, all of 'em made solo albums. After everything you've been through, what's your advice to someone trying to make it in music?

Dave: Don't give up. Don't ever quit trying. It's not that complex; it's certainly not that complicated.

SUCKAAHH!!!

**NEW THIS WEEK**

**THE Q'S "FIRING SQUAD FOR GOD" (DB)**

Never at a loss for clever lyrics and emphatic guitar guidance, Atlanta's Swimming Pool Q's carve an EP of aggressive, fun new material. The underlying black humor and overt message in "Firing Squad For God" gets kudos on the reaction level and musically speaking, they display even tempered rock edge with just enough rough spots to keep interest in tact. Venturing into deeper, darker territory, "El Presidente" stammers and shakes distortion meters as "Working In The Nut Plant" offers more melodic moves not losing focus on a jumbo tempo. Wind up with the instrumental groove of "Hip-Hype" and you'd better believe Bob Elsey's been writing some interesting love notes lately.

**X "SEE HOW WE ARE" 12" (ELEKTRA)**

Here's the followup to what will be looked upon as a ground breaking Lp for the band as clouds of doubt begin to clear and radio realizes that it's time to move ahead! It's a tender duet featuring the Exene/Doe vocal experience that's the bonded trademark in the new rock world.

**SPEAR OF DESTINY "NEVER TAKE ME ALIVE" b/w "LAND OF SHAME" (VIRGIN)**

Renewed by Lp and remixed versions, the single is here to bridge the gap between those who missed out on round one, and those ready for two compelling mixes of a what promises to be a long term project at Virgin. Blast first, ask later.

**DAVE PERKINS "YOU CAN MAKE ME FEEL" (WHAT)**

From Dave's debut solo album, "The Innocence", he combines 60's atmosphere with an aggressive guitar bout and wins with a highly memorable, sing-a-long chorus. New at KOAS, WEQX, WOXY, WWVU and WMDK this week.

**CARMAIG DE FOREST "I SHALL BE RELEASED" (GOOD FOOT)**

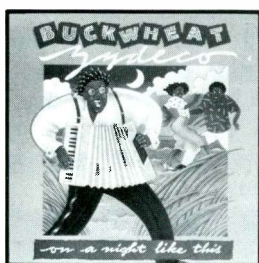

Best known for his live performances in L.A. and San Francisco, Carmaign translates finely honed word play to record accompanied by the ukulele (his live staple), and additional guitar and harmonica provided by producer Alex Chilton. Compared to Lou Reed, Jonathan Richman and the Violent Femmes, he creates lyrical masterpieces from cliché, while working in finer forms of verbage from politics to "Possibilities". His album is definitely one to investigate and appreciate with highlights including "Crack's No Worse Than A Facist Threat", "Big Business", a wandering version of "Secret Agent Man" and "Hey Judas". On Good Foot, 34 Liberty St. #4, San Francisco, CA 94110.

**MUSIC NEWS**

The Silencers will embark on a nationwide club tour through September and October. Also on the RCA release schedule are The Bolshoi with the "Please" 12" through Beggars Banquet/RCA on September 15th, plus Fields Of The Nephilim and Love And Rockets singles can be expected in mid-September. Boston's Bill Lloyd (who released "Feeling The Elephant" on Throbbing Lobster Records last fall) is teaming up with Radney Foster. Their debut on RCA results in streamlined country pop and rock with a superb layer of production, sure to gain programmer positives. A 3-song 12" will precede the album with "Turn Around", "Crazy Over You" and "Hard To Say No" being the target tracks (In case you've heard an advance!)... Frontler Records is gearing up for two new releases by Flying Color and the American Music Club. Both bands came from Grifter Records in San Francisco and the Frontler connection promises to tempt masses more than ever before. Both bands are crank out pure RW&B rock n'roll, each with a pop sensibility very much their own. Look for both records on September 1st... Wendy And Lisa (of Prince's band) have released their first self titled Lp on Columbia Records. Also self-produced, the project turns out to be tasty ear food for those who like to groove R&B style. Check it out. Other Columbia signings include T Bone Burnett with a new album to appear near the end of August, Terence Trent D'Arby (hailed by the English press of late), and Australia's Midnight Oil returns this fall. Alison Moyet's new single is "Weak In The Presence Of Beauty" and the remix is now available. She'll also be touring the U.S. beginning on August 20th in Los Angeles; 8/22 San Francisco; 8/24 Chicago; 8/27 Toronto; 8/29 Washington D.C. and 9/3 N.Y.C. The Psychedelic Furs continue the second leg of their U.S. Tour after a one month break to finish the remix

**Guns N' Roses, "Appetite For Destruction", Geffen....** WOW!!! Chekkit out! When last we joined our heroes last week, it was kinda lookin' like they were coolin' down a notch after the previous week's monster 24-14 gain. Well, this week's move reduces that to rubble, as our boys blast they way right up to the #4 slot. And that's nothin' compared to the #3 Most Requested ranking and #1 Most Added action. Requested ranking and #1 Most Added action. Now, if the mainstream stations could just come to the party we could be looking at the next really major metal to mainstream crossover success story—not to say that a few majors like KISS (natch) and KILO aren't already raving. Stay tuned.

**MOST REQUESTED METAL**

**Faster Pussycat, "Faster Pussycat", Elektra....** Mucho response on this record from AOR as well as the college stations. People just seem to love that great classic sound that these guys have. WKLC's Duane Doherty says, "The minute the tone arm goes down, it's guaranteed to curl your hair six different ways from the part. The similarity between (Aerosmith's) Steve Tyler and Talme Downe is uncanny." The band sounds so good in fact, that they also cop a 10 position walk up the good old hard rock highway from #16 to #6. Listen for them on WXRC, KFMX, WBIM, WIXV and Z-Rock.

**MOST ADDED**

**Trouble, "Run To The Light", Enigma/Metal Blade....** Christian metal sure isn't like it used to be. That's the first thing you'll think of when you hear the latest LP from this Chicago based quintet. This is the band that Metal Hammer magazine called "The Heaviest Band Since Sabbath". Their sound is thunderous, progressive metal that's a mixture of Stryper, Queensryche, and Slayer. Positively unique and definately deafening! They debuted at #18 on the airplay chart this week and you can thank WBIM, WJUL, WUCF, WWVU and Z-Rock just to name a few.

**Dio, "Dream Evil", Warner Bros....**

Y'know, I recently went to see the mighty Anthrax live in concert and one of the songs on their warm-up tape was the new Dio single. The noise in that room was positively thunderous until the song was over. It was truly unbelievable! And not only have the fans been very kind to this record, but so has the radio! This week "I Could Have Been A Dreamer" is in at #30 on the Hard Hundred. But if you'll notice, RJD is also #1 on the "cool" chart! As well as #4 most requested metal this week.

**Helix, "Wild In The Streets", Capitol....** No, before you ask, the album isn't even out yet. But don't forget that you've still got that hot 12" in your grubby little hands. The song takes an unprecedented 9 point leap to #21. I'll buy that for a dollar. You? Also don't forget about our favorite Most Added list because these dudes from Canada are looking good there, too. Now I can't wait for the tour! Killer!

**Chastain, "The 7th of Never", Leviathan....** Well it's easy to see that this is a band on the way up, at least on our chart. A three point jump puts Cincinnati guitar wizard David T. Chastain and friends into the #24 slot. What's the hook, you ask? It must be the unique style of songwriting, excellent guitarwork, and the easily identifiable voice of vocalist Leather Leone. Let me tell ya, the girl's got tonsils that could tear through cinder blocks two time zones away. No lies! Check out such tracks as "The Wicked Are Restless", "Paradise", and "Feel His Magic".

# METAL NEWS

It seems like everytime you start to think that a particular band has exhausted the oxygen in their tank, they find that last breath and regain their hold on life. One such band is **Blue Oyster Cult**. This is one band that does not want to die. They are currently recording their umpteenth album for Columbia Records. The album is entitled "Imaginos" and is being produced by longtime BOC knobster, Sandy Pearlman. BOC's manager Steve Scheneck says that this album will bring about a return to the early BOC days. In fact, two of the songs on the album date back to the early BOC days. One, entitled "Blue Oyster Cult", is a reworking of an earlier tune entitled "Sub-Human". The song "Gli Blanco County" was recorded 17 years earlier by Stalk Forest. Now here is a good trivia question. What band did Stalk Forest originate from and what outfit did they become? Give up? Stalk Forest existed after Soft White Underbelly, which is a pseudo name that BOC, the band that Stalk Forest went on to become, uses for certain club appearances. Other songs on the record include "In The Presence Of Another World", "Del Rio's Song" and "I'm The One You Warned Me About". In total, the Lp will contain nine songs. The album is expected to be released in early 1988.

The new **Rush** album is entitled "Hold Your Fire". It is expected to hit the racks by the first of September. It will once again be produced by Peter Collin who did a masterful job on the "Power Windows" Lp. The trio, along with Collin, are currently putting the final touches on the record in Montserrat. More on the new Rush album in the next Hard Report.

Well ladies, it appears that another one has bitten the dust. Another rock star, sex symbol has gone on to declare himself untouchable. Recently, following announcement of the finalists for the MTV Music Video Awards, Whitesnake's lead vocalist, **David Coverdale**, broke many teeny boppers hearts by announcing his engagement to actress Tawny Kitaen. Who's that girl, you emphatically ask? Her most recognizable role was playing Tom Hank's fiancée in "Bachelor Party". No date has been set. First Tommy Lee (Heather Locklear), then Nicki Sixx (Vanity) and now Coverdale. Makes you wonder who is going to be next. Hearty congratulations to David and Tawny from all of us at the Hard Report.

It looks like Noise International recording artists **Celtic Frost** will be returning to this side of the Atlantic in mid-September. Plans call for CF's tour to begin on September 16th and go all the way through October 7th. The band will then return to Europe and England. Celtic Frost will be supporting their "Into The Pandemonium" Lp. By the way, in case the thought crossed your mind, Swiss metallers **Coroner** will not be supporting Celtic Frost although it is alleged that CF asked that Coroner be added to the bill. For those of you who aren't aware of the connection, Coroner was discovered by Tom T. Warrior of Celtic Frost who assisted on the band's debut Noise International Lp, "RIP"

Speaking of tours, here is a little hardcore havoc. Britain's **GBH** will be touring the states for three months with Seattle's kings of splatter rock, the **Accused**. The tour is being called the "Panic In The

Casket Tour". The tour name comes from a combination of the band's album titles. The brand new GBH is called "No Need To Panic" while the Accused album is uniquely titled "More Fun Than An Open Casket Funeral". Look for that tour to hit your area in the fall.

Here's some more hardcore news. **Gang Green** have recently signed to Roadracer Records. Their debut album will be out in October and is called "You Got It". In the meantime, Roadracer will feed us a taste of Gang Green by releasing a picture disc featuring the single "We'll Give It To You" backed with "Born To Skate". The single will be dye cut in the shape of a skateboard. Other upcoming Roadracer releases include the sophomore discs from **Whiplash**, entitled "Ticket To Mayhem", **Carnivore**, called "Retaliation", and the only Jullard trained, death metal guitarist, **Kat**, with her debut, "Worship Me Or Die". Also, look for the new **King Diamond 12** featuring the cut "Family Ghost" and backed with a never before released single entitled "Shrine". "Family Ghost" is also the first video from King's megadisc, "Abigail". Look for a review in an upcoming Hard Report.

Orange County based rockers, **Eden**, have returned. Eden released a highly acclaimed debut album on Restless Records back in 1986. After two personnel changes, the band is back. Former vocalist Michael Henry left the band to form Armed Forces. In his place, the band recruited Chicago based vocalist Mike Stone. The band also went on to add a rhythm guitarist. His name is Lenny Spickle and he is originally from Pennsylvania. Aside from Stone and Spickle the band has remained the same with David Young on drums, Rick Scott on lead guitar, and Gary Winslow on bass. If you wish to find out more about Eden, write them c/o Bob Nalbandian; P.O. Box 6681, Huntington Beach, CA. 92615.

Finally, get ready for more **Motorhead** madness. As was reported on June 26th, Motorhead was back in the studio working on their followup to "Orgasmatron". Well, now we have more juicy bits of mumblernews for you. First, the album will be called "Rock 'N' Roll". As reported on June 26th, it will mark the return of "Philthy Animal" Taylor. But contrary to previous reports, the Lp will not be produced by Bill Laswell, who produced "Orgasmatron". The production chores will be handled by Motorhead and assisted by Guy Bidmead. The album took a total of three weeks to write, 11 days to record and 10 days to mix. The Lp will once again be handled by the GWR/Profile Records label. Tracks include "Black Heart", "The Bogeyman", "Stone Deaf" and "Eat The Rich", which is a major motion picture starring the one and only Lemmy. More on Motorhead's film debut in the next Hard Report.

That's all for now. Once again, congratulations to David Coverdale of Whitesnake and actress Tawny Kitaen on their engagement. Remember, it's not how or when you bite the dust, it's who you bite it with. MUYA.

Broken guitars, spangled jackets, posters and postcards went under the hammer at Sotheby's auction rooms in London last week in an unusual sale of rock & roll memorabilia. The highlights of the sale were cassette tapes containing an exclusive interview with **JOHN LENNON** and his future wife, **YOKO ONO**. The recording was made by two students in 1968 and was of such poor quality that it was thought to be useless. But, after just three minutes of bidding, the cassettes were bought by an American for almost \$30,000. The man, the director of a restaurant chain, has vowed the tapes will never be released for public broadcast.

**HARRY NILSSON** has collaborated on the script for a film called "The Telephone," which is scheduled to be released in October. Nilsson, who is chief executive officer of Hawkeye Entertainment in Los Angeles, co-wrote the film with Terry Southern, who wrote the screenplays for "Easy Rider" and "Dr. Strangelove."

**PETER GABRIEL** received 12 nominations in the MTV Music Video Awards, which will be handed out in Los Angeles on September 11. "Sledgehammer" was nominated nine times, while "Big Time" received three nominations. "Sledgehammer" was nominated as best video, as was "Land Of Confusion" by Genesis, "Boy In The Bubble" by Paul Simon, "Higher Love" by Steve Winwood, and "With Or Without You" by U2. Nominated in the category of best new artist in a video are the Robert Cray Band, Crowded House, the Georgia Satellites, Bruce Hornsby & The Range and Timbuk 3. Run DMC, the Cars, Bon Jovi, Aerosmith, Whitney Houston, the Bangles, Cyndi Lauper, Bryan Adams and Whitesnake will perform at the event at the Shrine Auditorium.

**BONNIE RAITT** has recorded three songs with Prince and may do more if Prince's schedule allows it. "One is real gentle, the others are hard R&B," Raitt says. "He plays everything except percussion and horns, and I play some guitar." Raitt says Prince tailored the material for Raitt's image. "I'm not going to sing 'Sugar Walls,'" Raitt says, referring to the song Prince wrote for Sheena Easton. "I've always done sexual songs, but mine are more like 'Put up or get out.' So he wrote for my kind of attitude." Raitt is currently looking for a record label. "I just want to be on a label that's not preoccupied with Madonna," Raitt says. "Next time I do a record, I want my fans to be able to find it in the stores."

**TOM COCHRANE** has signed to RCA Records in the United States, but will remain with Capitol Records in his native Canada.

**THE CURE**'s "Standing On A Beach" album is available again in Canada, after having been withdrawn in the spring because of complaints from the Canadian Arab Community about the "Killing An Arab" track. WEA Records in Canada was unable to reach an agreement with the Arab group, and has re-released the record with an advisory which indicates the song is not intended to be anti-Arab.

**THREE DOG NIGHT** have recorded a new version of their song "Celebrate." It will be used in promotions for Ted Turner's cable television "superstation."

**IAN HUNTER** is searching for a record label, and he's completed an album he's ready to release -- one that leans a bit more to country music. Hunter says there's one track on the LP called "Ill Wind," which he describes as being "as dry and as bare as a hotel room in the Forties."

**BOB ROCK OF ROCK & HYDE** has been staying busy in the recording studio as well as working with his band. Rock has engineered upcoming records from Aerosmith and Loverboy, as well as a new Vancouver band called Boulevard. He's also now mixing the new Cher album.

**ELKIE BROOKS** is on the charts in Britain with a cover version of Bob Seger's "We've Got Tonight." It's the third time the song has charted in the U.K. The original version was a hit in 1979, and again in 1982, and a version by Sheena Easton and Kenny Rogers made the charts in 1983.

Robert Palmer has signed to EMI/Manhattan Records, after a lengthy career on Island Records.

**THE BEASTIE BOYS** filed a federal district court lawsuit against the city of Jacksonville, Florida, a few days before their scheduled show there. They challenged an ordinance adopted in April which says there should be warnings in advertisements and concert tickets for any performance which includes "material of an adult nature, or material that may be harmful to minors." Michael "Mike D" Diamond of the band says that the group has been "singled out in an unfair and unconstitutional way." The band was seeking a temporary restraining order as well as a permanent injunction against enforcement of the ordinance. It also seeks to have the ordinance declared unconstitutional, and asks for damages and legal fees, according to a spokesman for the band.

**THE GRATEFUL DEAD** have their biggest hit single in their 22-year history with "Touch Of Grey." The track has reached number 32 on the Billboard singles chart. The group's 23rd chart album, "In The Dark," has become the band's first-ever album to reach the top ten. In 1975, "Blues For Allah" peaked at number 12.

**ANDY METCALFE**, who used to be the bass player with Robyn Hitchcock & The Egyptians, is touring as keyboardman with Squeeze in support of their new album. Metcalfe first played with the band in 1985 on their world tour.

**THE TALKING HEADS** have been in Paris recording the follow up to "True Stories." No producer has yet been chosen for the LP, which should be out at the end of this year.

X will open for **WARREN ZEVON** when he tours this fall.

**DEBBIE HARRY** will appear in John Waters' "Hair Spray" film. The movie will also star Sonny Bono, Jerry Stiller, Pia Zadora and Divine.

**THE GEORGIA SATELLITES** will begin work on their second album early next year. Ian McLagan is expected to play keyboards on the LP.

Penthouse magazine has issued a statement saying that Spin magazine has ceased publication, but Bob Guccione, Jr., who owns Spin, says it will continue to come out. The magazine's staff has reportedly been tossed out of the offices they shared with Penthouse.

**JOAN BAEZ** arrived at the Newport Folk Festival on time, but her guitar didn't make the same Delta Air Lines flight. She had to borrow a guitar from folk singer Bill Morrissey in order to perform.

**SUZANNE VEGA** will return to Canada for more concert dates in mid-October after touring in Australia.

Two former employees are suing **BRUCE SPRINGSTEEN** in New Jersey Superior Court for severance pay, claiming they were fired without reason. Mike Batlan and Douglas Sutphin, both of New Jersey, say they are owed more money because of their dismissal in 1985. Their attorney, Stephen Schueler, says the two received less severance pay than they were supposed to.

**THE CALL'S** new album "Into The Woods" is about participation and relationships, says Michael Been. "When I began writing songs for this record, I really thought that this would be an extension of 'Reconciled.' I was writing a lot of songs about belief -- 'I still still believe' -- that kind of thing. Then when the songs began to emerge, they were dark and heavy. I really had to fight and make a conscious effort to include that spirit of hope. It wasn't an easy fight, and it took everything that I had, but that's what life is all about." Been says the band "leaned too much toward the dark side" on its earlier albums, "without much sense of hope for the other side. With 'Reconciled,' I made a big turn towards balancing it out more. There was still the dark side, but the light side, it was wonderful. To me, the key is now to live in both of these worlds." The Call are beginning a six-week U.S. tour with the Psychedelic Furs.

**MICK JAGGER** is expected to begin a month-long tour of North America in October or November. Jeff Beck will tour with Jagger in support of the Jagger solo LP "Primitive Call." "Let's Work" will be the first single from the LP.

**COREY HART** says he doesn't want "too much" to be made of his recent decision to cancel some Canadian tour dates. "This (recuperation) is the result of four years work, not just six months," Hart says. "I would have been a dead man at 25 if I had continued (touring)." Hart says the exhaustion began to set in while he was touring the U.S. after "a fabulous series of dates in Japan. In the U.S., I was showing up for sound checks and feeling tired before the show began," Hart says. "I knew something was wrong, but I'm the kind of person that is always pushing myself." Hart will tape a performance for a special to air on Canadian television this fall.

**RUSH** will have a new album out in September called "Hold Your Fire," again produced by Peter Collins. The band plans dates along the east coast of the U.S. in the fall.

Here's the latest music news Live From London courtesy of CFNY, Toronto and our exclusive reporter Lee Carter. Lee can be heard on CFNY's "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

The latest statement from **THE SMITHS'** record label Rough Trade, concerning the departure of guitarist and songwriter **JOHNNY MARR**, reads as follows: "The Smiths announce that Johnny Marr has left the group. However, they would like to confirm that other guitarists are being considered to replace him. It must be stressed that the concept of The Smiths will remain the same and the group will continue to promote their forthcoming album and are eager to play live dates once a new guitarist has been selected. The Smiths would like to state that, although Johnny's departure is very sad, they wish him every success and happiness on future projects." What worries followers of The Smiths and music journalists alike about statements like this is the fact that Marr's contribution to the band is not really being acknowledged. He was more than just "the guitarist". He was one-half of the group's creative force, writing all the music, controlling the arrangements. And few will remember that he was also the founding member, originally recruiting the lauded lyricist and lead singer, Morrissey, into the band's ranks. Johnny Marr himself, in an interview with "The New Musical Express" who first broke the story, denies their reports that there were arguments within the group. He also puts on a cheerful face about the situation. "I've got absolutely no problem with what The Smiths are doing," he says. "The stuff we've just done for the new album is great; I'm really proud of it. But there are just things I want to do that can only happen outside of The Smiths." But Marr was genuinely astonished when he learned that Morrissey and Co. plan to continue using the name of The Smiths and also claimed that Rough Trade issued their press release about him without consulting him. Many insiders wonder whether it was issued without consulting the remaining Smiths and think that the issue of the name may end up being fought out in court. Marr says that he's already recorded some new material and that he would like to form a new, permanent group soon. He told the "NME", "Part of the reason I've spent so much time in America recently is to get exposed to some different music. The stuff in this country at the moment has got me baffled." He denied that friction had been caused in the band by his recent work with other artists like Bryan Ferry and The Talking Heads. The Smiths, who had been hailed as the spearhead of the independent movement in Britain, shocked their more purist followers (and as it turned out, their own label, Rough Trade) by announcing earlier this year that they had signed a million-dollar contract with EMI. The deal may be re-negotiated, as the label may be less eager to sign Marr for as lengthy a contract as The Smiths. However, both artists have signed the dotted line and every contract has a clause which gives the label the right to any work, regardless of a split in the band. EMI have either two acts for the price of one or two acts who are now of dubious quality, given the 50-50 creative abilities in the Morrissey-Marr partnership. As well as the next single, "Girlfriend In A Coma" and the last studio album for Rough Trade, "Strangeways Here We Come", there is a live album already in the can which the old lineup recorded last winter. It's unclear whether this will surface on Rough Trade or EMI. From my own point of view, what has happened is very tragic. I'm not willing to rule out the possibility that both the remaining Smiths' projects and Marr's plans could be as interesting as The Smiths - I certainly hope so. The Smiths as we know them, though, have quite plainly gone forever. It is only half a band.

**PAUL MC CARTNEY, GEORGE HARRISON** and **RINGO STARR** have filed a \$15 million lawsuit against the track shoe firm Nike, alleging that the company have debased their song "Revolution". The three surviving Beatles claim that Nike have "assaulted the artistic purity of their work" by using the 1968 song to advertise their products. They told the court that they did not "endorse or peddle sneakers or pantyhose." Michael Jackson, owner of the rights to The Beatles song catalogue, gave Nike permission to use "Revolution" without consulting the former Beatles. Nike paid EMI-Capitol, who distribute Beatles records,

\$250,000 to use the song, which Beatles lawyer Leonard Marks claims the trio haven't received a penny of. The Nike case is the second of two cases launched by Apple Records (who still represent the three ex-Beatles and their heirs) in an attempt to try and win back some of the profits made in their name. Last week I reported that Harrison, Starr and Yoko Ono have begun a \$40 million lawsuit against Capitol Records for allegedly deliberately delaying the release of Beatles CDs in America, sacrificing millions of dollars in lost royalties. Capitol have called The Beatles' actions "absurd". EMI Music Director Of Business Affairs (U.K.) Guy Marriot comments on the royalty case: "It will be defended vigorously. We think this case is completely groundless." Bob O'Neill, Vice President of Capitol-EMI reacts to the Nike suit as: "...the latest in a succession of frivolous lawsuits which New York attorney Leonard Marks has laid against Capitol-EMI on behalf of Apple. This is certainly the most nonsensical and absurd because our contractual rights to license the group's repertoire is crystal clear." The two sides continue what will be a protracted legal battle.

**PUBLIC IMAGE LIMITED** have a new album out in September and a new single out this week in the U.K. "Seattle", written in the city of the same name. **JOHN LYDON**, formerly Johnny Rotten in The Sex Pistols, has now returned to live in Britain after years of living in the United States. Speaking in this week's "Melody Maker", Lydon restates his fierce opposition to the making of Alex Cox's film "Sid n' Nancy, Love Kills" which was a hit movie on both sides of the Atlantic. "The film is a piece of nonsense!" He says, "Vile and dreadful! It glorified the grottness of heroin. There are fools out there who think it is a good way to go and it isn't. To see any romance in that is pathetic. Alex Cox is just a Johnny-Come-Lately who wasn't interested in anything but his own version of the truth. He only called me about it when they had finished shooting and I thought that was very, very rude. It's a tragedy that in only ten years since The Pistols, the truth has been bastardised almost beyond recognition. The things that people suppose I was all about are all wrong." Lydon, from a cover story in the August 8th edition of "Melody Maker".

**NEW ORDER**, who just smashed into the British Top Ten singles with "True Faith" have just issued a new remix of the track, again produced by Stephen Hague. At the moment the group are in the studio, rehearsing for an upcoming tour of North America where they will share equal billing with Echo And The Bunnymen.

**CURIOSITY KILLED THE CAT** are making an appearance in an American film called "Shag". In British circles "shag" is quite a rude word, a slang term for the sexual act. In America it refers to a dance routine popular in the southern states in the '50s. Considering the British meaning of the word, song titles like "Come On Do The Shag", "I Love To Shag", "Let's All Shag Before The Moon Goes Down" and even an all-girl group called The Shaggs is enough to have your U.K. cousins in hysterics. Curiosity certainly couldn't keep a straight face, much to the bewilderment of the American film crew. The band are winding up their trip to the States with a date at, coincidentally, New York's Cat Club.

It is rumoured that **SYD BARRET**, the recluse and founding member of Pink Floyd, who has tantalised followers since his virtual disappearance in the mid-sixties, has been making appearances in England. He was seen onstage, it is claimed, at a concert by the weird hippyish band The Mock Turtles, dressed in what was described by one observer as "Alice in Wonderland clothes".

**THE JESUS AND MARY CHAIN** will be making their debut Irish appearance on 4th September at Dublin's SFX. Fronted by brothers Jim and William Reid, they caused quite a stir back in 1985 with a series of gigs played with their backs to the audience, feedback up full and lasting only 15 minutes. Latest reports suggest that The Chain have modified their live policy somewhat. On the recording front, following their trash pop masterpiece "Psychocandy" and a recent Top 20 single success with "April

Skies", the Mary Chain have just released their most accessible track to date called "Happy When It Rains". I will not be surprised to see support right across the board for this one, from alternative to AOR alike.

Worst kept secret gig in London this week was when **TERENCE TRENT D'ARBY** played the Marquee Club in Soho. Spotted in the crowd were Bob Geldof and wife Paula Yates, while Ron Wood got up onstage to jam with Terence in a blistering version of "Under My Thumb". CBS U.K. report there is now growing interest in D'Arby in the States. Here in Britain his debut album, "The Hardline", entered the Top 100 Lps at number one.

### U.K. INDUSTRY NEWS:

Sales of every British music paper have fallen in the latest set of figures. In the case of "Melody Maker", the fall was only six copies however. The music paper ratings are: "Smash Hits", the glossy teen magazine in the lead with over 500,000 copies; "Just Seventeen", a magazine for young girls, with 278,000 copies; "Smash Hits" lookalike, "Number One", 147,000; "The New Musical Express", 18-25 broadsheet 98,000; "Kerrang", a heavy metal glossy, 68,000; "Melody Maker", 61,000 and "Sounds", 60,000 - both similar to the NME market; "Record Mirror", weekly glossy for 18-25 predominantly male readership, 50,000, a drop of 17 percent; and "Q", a new monthly for a much older yuppie readership, 48,000. Below 48,000 are "The Face", "I-D", the American magazines and the U.K. equivalent of "Billboard", "Music Week".

### IN BRIEF:

The new **STAN CAMPBELL** single out on Monday in the U.K. is a cover of Bob Dylan's "Knocking On Heaven's Door".... A compilation Lp out on EMI this week is "DAVE EDMUNDS - The Original Rockpile Volume 2!" and includes "I Hear you Knocking".... **THAT PETROL EMOTION** are touring Britain in the fall with the New York rapper Brother D. They used part of his "How We Gonna Make The Black Nation Rise?" in their "Big Decision" single (the part that goes "We gotta educate, agitate, organize!"). The pair met up at The New Music Seminar.... **KEVIN ROWLAND** is putting together yet another Dexy's Midnight Runners. He's recording new material in New York with the Godfather of American disco, **DEODATO**.... **ELTON JOHN** is writing material to promote the latest product from Richard Branson's Virgin empire, a condom called Mates. Profits from sales of the condoms will go towards AIDS research. Britain's first TV commercial for condoms aired last Saturday night.... Did you know that **BONO's** real name is Paul Hewson? EEEK!... Laser, the American-owned pirate radio station is due back on the air in October when it will again join their competitor, the veteran Radio Caroline, in the choppy waters of the North Sea.... Sold out within 48 hours in London, three consecutive Sundays of concerts by **EVERYTHING BUT THE GIRL** at the jazz club Ronnie Skots. Meanwhile, at The Riverside studio, **DEACON BLUE** come down south from their native Scotland to play material from their breathtaking debut album "Raintown". Support is the angry young man from Belfast, Andy White, whose songs are reminiscent of Dylan before he went mad.... Quote of the week comes from The Cure's **ROBERT SMITH** who says: "I think Suzanne Vega should have just me and a drum machine in her group. Similarly with Kate Bush."

### U.K. SINGLES CHART:

New Entry at 37, "LIPS LIKE SUGAR" by Echo And The Bunnymen. New at 31, the third hit single in a row for the promising Wet Wet Wet with "SWEET LITTLE MYSTERY". A climb of 7 to 28 for Motley Crue and "GIRLS GIRLS GIRLS". A leap of 17 to 16 for Def Leppard with "ANIMAL". Jumping 12 places to 7, "TRUE FAITH" by New Order. At number one for week 2, "LA BAMBA" by Los Lobos.

Toodloo 'til next week.

## Pam Edwards, KGB-FM, San Diego

Great party out at your place Bill. Thanks for the hospitality. It was also great meeting a star of the future, Glen Burtnick. The more I get into the album the more I know Glen's career is ready to explode.... The Mellencamp record is quite extraordinary. Read the Spin issue on the man. It really brings the album in to perspective.... Mr. Mister also hits the mark. I've been a strong supporter of this band, and this record only strengthens my convictions. Other records blowing out the Doors include Whitesnake, Beat Farmers, Hooters and Def Leppard.

## Chip Hobart, WQFM, Milwaukee

I just want to thank the people from Boston who played four days--August 6-9 out at Alpine Valley. Not only were they amongst the best concerts I've seen to in years, but the people were just super, especially George Travis the tour manager, Jeff Dorenfeld the manager, Troy Blakley the agent and Max Loubiere the road manager. The concert sounded like a live compact disc, that's how perfect the sound was, and the air of professionalism--especially from Brad Delp, was terrific. Brad did a 40 minute interview with me--and you just couldn't hope to deal with a nice group of people....

Loverboy and with a Bon Jovi song to boot!... Hold on, Steppenwolf's "Give Me Life" sounds more like their earlier stuff -- and on it goes.

## Vic Lentini, Passport, 818-500-7677

Mood Six debuts at #47 bullet in the "Hard Report". Let's welcome aboard WEQX, because 102.7 rocks. Mood Six is the record to watch and #1 chartbound. This week in "Gavin".... See T Lavitz run! #25 debut in Radio & Records jazz chart and picking up steam with AOR. Add some flavor to your AOR, just a pinch of T, and a dash of Lavitz, and stations such as KVRE, KALX, KSJS, KFSR, KXLU, KBSU, KTCL, KTAO, WSIE, KBLE, WXRT, WARG, WGMC and WCLZ have found a place for "From The West" which features Bruce Hornsby, Alex Ligertwood and Maria Muldar. I'm not just whistling Dixie! Hey, if you just listen real closely...shhh..."Only Ghosts Remain" by former Windbreaker Bobby Sutliff new on PVC/Passport Records. Ask Jonathan L. Rosen, KEYX.

## Greg Mull, WRXK, Ft. Meyers

How about that new Loverboy track? There's a lot of us that aren't the biggest fans but realize this band's importance to the format. We've played them reluctantly in the past, but there should be no resistance to "Notorious". This one's a toe tapper, and I guarantee that you'll be humming it down the hall.... Another toe tapper is the Insiders. I've heard great things about the album - not from my local guy since I don't have one anymore - and if their tracks are half as good as "Ghost", then this band should have a winner.... The Beat Farmers are getting great response, both on the phones and in the stores. I was in a local outlet yesterday, making a CD run, and had an employee introduce me to a listener who was asking about the Farmers. "Dark Light" is the first track played in this market and people want more.... Good to see Glen Burtnick doing well. The label's had a good base last year with "Red House" and radio has followed through nicely on "Follow You". It doesn't hurt that this track kicks ass.... Check out the R&B mix of the Silencers' "Painted Moon" on the import CD. You may think this track is a bit too pop, but this mix moves. It makes it every bit as accessible as the P-Furs or the Cutting Crew.... And a final note to Steve Tyler, I don't know where you've been all these years, but it's great to have you back.

## Tom Scheppke, KISS, San Antonio

Geez, talk about a comeback. I'm really impressed with the sound of this new Loverboy. Fred Jacobs was in town the day we got it and he was even digging it.... Added the Crue's "All In The Name Of Rock and Roll", just to freshen things up. Still selling top 10 in the market.... Also new: Poison "Forget About Me". I think this will be their biggest CHR smash yet. And I bet MTV is probably already got it in their top 10 requests. This will be the first Poison record we'll play without dayparting. Jimmy and I both feel it doesn't sound near as teen, and I think older females will call for it, too. Actually had a 25 year old male call for Poison today, too. We're in on the Helix, which you could almost consider a comeback for them, too. I think they've return to the AC/DC style which is what these guys do best. and finally, we

did real well with Pretty Maids "Future World" in this market so well, that we still get requests, so here's an early add on Epic's new priority "Love Games". I think this one has a real commercial hard rock sound to it, similar to the Europe story--especially with the coming video. By the way, Jimmy and I felt like this was probably one of the best songs we listened to in our music meetings this week of all the stuff that's out there... Some night calls for Guns N' Roses. We had the big Spinal Tap show this weekend, with Y&T, Ace Frehley, Gary Moore and Faster Pussycat. I heard the Houston bill also included Loudness and T&T. Can you imagine that? They probably had to start the show at 3 o'clock.

## Art Boerke, WKWQ, Columbia

Ok, the executives at Geffen blew it when they approved the cover art for Guns N' Roses. They could have saved themselves a lot of hassle by nixing it from the outset. But I can't believe there are stations that refuse to play "Welcome To The Jungle" just because of the cover. It's such a great song, it's already in the top 5 after one week of airplay. The issue at hand revolves around cover art, a painting depicting a woman that has raped, where is this glorification of the rape act. The lp is called "Appetite For Destruction" everything shown on the Guns N' Roses cover screams out destruction. The woman has discovered this destruction, the big green robot is destroying the little red robot things she was selling. The lp cover is a rendering of destructive action. there is no glorification involved at all. If a woman is brutalized in a movie the people don't say that the director or the writer is glorifying rape, where is the difference? Only in the medium the artist chooses to deliver his work. I think the fact that painting is a cartoon and science fiction contributes greatly to its mis-interpretation. As I said before I agree it was a mistake to release the lp cover, it was a business mistake and the folks at Geffen realize that. As for the record itself I think it's the best metal lp of the year. The tunes rock hard and are a far cry from the same old boring stuff that most metal has decayed into.

I also think that Mr. Williams painting is excellent, I do not feel any outrage towards his creation..... Well, now that that's over how 'bout that Glen Burtnick fella, is that a song or what.

**Brian Illes, WKFM, Syracuse**

An automatic week like this is kind of a double-edged sword. The songs you do add are easy choices. It's what you don't play that gets to be a pain, but I'm not about to open up new slots. I want the currents that I am playing to get the shot they all deserve.... I regret to announce the departure of our terrifically funny morning man, Steve Simpson, to a new station in Indianapolis. Good luck to Steve.... Looking for a gig, see Adventure In Moving. Needed yesterday or the day before, an entertaining morning show. If you're currently doing mornings or if you really think you can: cassette, resume and morning show philosophy immediately to Brian Illes, 1022 Willis Ave., Syracuse, N.Y. 13204. No phone calls please. EOE M/F.

**Bill Fisher, WJUL, Lowell**

The return of White Lion signals the return of one of the few bands who do nothing but rock out. No glam, no gimmicks! Mike Tramp continues to show that he is a lot more than just a good lookin' front man, but that he's also a great vocalist. Vito Bratto's versatility of guitar styles is another plus for this band, as well as their tightness as a group.

**Kevin Nissley, WUCF, Orlando**

Nuclear Assault is metal's new hope. They've got the power, lyrics and sound to really achieve some great success.

**Paul Marszalek, WMAD, Madison**

Hanging on my bulletin board was this Suzanne Vega 10" single. It's been there for months. I took it down the other day and found a live version of "Straight Lines". I thought to myself, Paul, you dumbshit, get this to the masses. I went with my first instinct.

**Jeffrey Naumann, Virgin, 213-278-1181**

It really blows that an artist as hip as Warren Zevon, who has recorded a great album that is selling and is getting plenty of calls, still meets resistance. Those of you playing tracks other than "Detox Mansion" or the single "Leave My Monkey Alone"...we love your enthusiasm for this great album, but you'll all get your chance to play your favorite track at some future point. If you are really serious about breaking Warren Zevon, please stick to our game plan and use "Detox" or "Monkey" for now.... Cutting Crew's new song, "Been In Love Before", came out of the box with even better than anticipated enthusiasm. Even though it's a ballad, it's a hit when smart programmers add these kinds of songs early before hitting Top 40. "Been In Love Before" has already been a big active hit on the softer AOR's and can be heard on KFOG and WKLS, in a heavy rotation. This could be Cutting Crew's next number one record. Be early, add heavy and don't forget to catch the Cutting Crew on tour with the Starship.... Pete Wylie lands another number of respectable adds this week, and females especially love "Sinful".... Finally, Danny Wilson continues pulling in album stations, and guess what...Chicanos in the Miami market are now discovering "Mary's Prayer". It seems Power 96, an urban station in Miami, started playing "Mary's Prayer" recently and the phones started going crazy from the Chicano population. Hey, Charlie, how about a shot.... Gary Moore continues selling out the house on his very successful tour and is getting rave reviews everywhere. A hot new mix of the classic "Friday On My Mind" will be out in two weeks.

**Jessica Harley, WNGZ, Elmira**

ATTENTION: THE BAND IS HEATHEN, THE LP IS "BREAKING THE SILENCE", THE TRACKS ARE "DEATH BY HANGING" AND "OPEN THE GRAVE". START SPINNING THEM TODAY AND THAT'S AN ORDER.... I agree the Anthrax remake of the Sabbath Classic will indeed be a classic in its own right. It's attracting phones from a wide variety of listeners, not only the die-hard Anthrax fans. The same goes for "I Am The Man". Both tracks show great versatility. Give 'em both a spin and watch your phone lines light up...guaranteed.

**Patty Martin, KSJO, San Jose**

John Cougar Mellencamp is burning up the phones, and I expect the same response from the Fabulous T-Birds' "How Do You Spell Love".... Just heard The Cars record; it's great and you know it will be an instant add next week. Can't wait to hear the surprises on the album.

**Mad Max, Z-Rock**

Dirty Looks has a shot at being one of the next big bands in metal.... Heathen is keeping the heavy sound in hard core rock and roll.

**Megadon, Combat Records, (718) 995-9200**

Summer's hot, but HEATHEN is hotter. And, judging from the reaction you gave the "Set Me Free" 12-inch, these Berkeley Bashers are destined to scorch the metal airwaves for many a summer to come. Now comes the debut Heathen Lp "Breaking The Silence", a mammoth metal masterpiece. This is your chance to unleash the true power of Heathen upon your listeners and show them what this band is really all about. Check out "Save The Skull", "Pray For Death" and "Open The Grave" (my favorite track of '87...I kid you not!) and watch your phones light up! Be sure to let me know if your studio is CD-compatible -- I've got Heathen CD's ready to be sent out. Not only is the production superb, but it also includes "Heathen", a masterwork not available on vinyl. Look for the "Set Me Free" clip on MTV's "Headbanger's Ball". You'll have a ball watching it! Let's see some serious Heathen action (and don't forget Nuclear Assault and Sword). We can all profit from doing so. Over and out.

**Joe Blood, KEZO, Omaha**

"La Bamba" #1 sales, though I expect Def Leppard to jump in.... John Cougar Mellencamp, Top 5 phones. People want to know when the album will come out.... Paul Kelly's "Darling" - Dave Clark 5 meets INXS. Love the keyboard sound.... Beat Farmers starting to get phones. Sales just starting. Sounds like an old Stones record.... Joe Walsh - some phones while sales rebound. Ultimate cruisin' song. Suzanne Vega's "Solitude" solidified her retail base...moved to Top 5 sales.

**Slats, WHTQ, Orlando**

Delta had an airline schedule via the way I'm flying, by the seat of my pants, Peter Jennings would stop reporting about airline delays.... Love the new Mr. Mister, Cock Robin and the damn Brandos record. Hope to be making room for the aforementioned soon...

**Mike Gardner, KOAS, Kealakekua**

Doing well for us: The T-Birds, as well as the Hooters, the Replacements, and the Dead.... September 5th we're having a big celebration on the big island of Hawaii. We need an act and, boy, there's not a better place to play. Interested? Call 808-323-2011 and ask for me

**Bearman, WGTR, Miami**

Def Leppard will be one of the 5 best of '87. There is something for everybody on it. This time, there's no excuse not to play it. Don't forget "Tear It Down" -- had it been on the Lp, it would have been one of the best....

**Mike Ramsey, KLAQ, El Paso**

I'm back. That's really my voice on the phone. Hey, the keys still fit in the door!

**Doug Clifton, KBCO, Denver**

After working on it for 3 weeks now, Joe Ely finally goes in. "Row Of Dominoes" gets the green light.... How 'bout those dB's? Still get response to "Spy", so we're anxious to get the new dB's record on the air. We'll start with "Change With The Changing Times".... The Mr. Mister was a surprise. "Something Real" has enough of a progressive feel to it that we'll give it a try.... Also this week -- Doug Hamblin and Jan Fanucci via Kate Hayes and KKCY, Buckwheat and Steve Kindler. Thanks to Richie Havens for his visit. Good to meet Brenda Romano of PolyGram. Welcome to Rich Ebravaya, the WB guy. Thanks for the help with the David Sanborn concert. Congrats to Ray Gmiener on his

promotion. Scott Arbough sends his thanks to Norm Osborne and Mark Cargill for their help at the Bowie show in San Jose.

### **Summerfield Horner, KZEW, Dallas**

If "Wishes" isn't "Little Wing '87", I'm deaf.

### **Joe Kelly, KRIX, Brownsville**

Pete Bardens up to heavy. It's popped. The listeners loved it from the first....

### **Paul Nelson, WWCT, Peoria**

Jon Butcher's "Wishes" continues to pull excellent phones...with the average age of the requester about 25. They seem to appreciate the Jimi factor. Some think he's the next Gi-tar Hero. Give this one a chance and you won't be disappointed. 110,000 Boston fans weren't disappointed by four shows at Alpine Valley. Thanks to Kevin Carrol and Michael Steele of MCA for the great time.... Heard the new REM and let's just say that it lives up to all of IRS's claims.... The first Birch ever has us on top with a 26.2 12 + . May be tough to top....

### **Doc Phillips, KPEZ, Austin**

We play Brandos' "Gettysburg" while we sit around here waiting for our Civil War chess pieces to arrive. Elise (used to be KNCR) Vanderborcht is working here part time and so is John Logan (former KLBj PD).

### **Robin Mathieu, WBLM, Portland**

We believe in The Bears, Mr. Ranger.... Roger Waters' "Sunset" didn't hit me right away, but now I love it. It's got phones, the whole number. Heh, heh.

### **Aris Hampers, WLAV, Grand Rapids**

Howdy from Camel-town, where Pete Bardens is #1 on the phones! The record just runs away from everything else.... Paul Janz is gonna be a star! Just give him two years -- but, hey, get in on him now.

### **John McCrae, KRQR, San Francisco**

I was really happy with Mr. Mister -- they didn't wimp out.... The first time you hear Melvin James you think, "Okay." The second time you hear it you think, "Hey, there's something here." The third time you hear it you say, "Damn, what a tune."

### **Greg Torrington, CHEZ, Ottawa**

Hey, when I hear John Hiatt's "Thing Called Love" on the radio, I crank it up and drive off the road. Try not to be around when this happens.

### **Kevin Vargas, KWHL, Anchorage**

A healthy rock & roll station needs songs that grab rockers' attention. Tesla, Whitesnake and Great White are all recent examples of songs from artists who weren't immediately recognizable.... The latest monster for us is Faster Pussycat -- instant phones, and all good. The upper half doesn't mind whale-made noise, so this rock & roll town looks for smash status on Faster Pussycat.... "Notorious" is on the way -- Loverboy's image is as viable as ever.

### **Justin Phelps, WXRC, Charlotte**

How do you spell great? J-u-s-t-i--hey, but seriously folks, this new track for the T-Birds sounds great! Even more than the first one!... Whitesnake continues to outsell everything put together, locally.

### **Rona Richman, WWRX, Providence**

"Sunset Strip" is the best tune we play. Beach party stuff. Watch for me in the show -- coming to your town soon.... Glen Burtnick is hookium maximus and, besides, everybody from NJ needs a break.... The Cars tune sounds like 3 separate Cars songs -- no wonder it's gonna be big.... Fabulous T-Birds sounds like 200,000 tons of pure blues comin' atcha like a freight train outa the radio. How do you spell love?

### **Deb Brady, WXXP, Pittsburgh**

It's recovery time in Pittsburgh following a week of sensational shows. Thanks to Mark Wallace of WB for bringing the Replacements by before their wild, sold-out show.... Thanks to Jay Brooks of Elektra for your help with The Call and the sold-out Cure show which, by the way, was an exceptional performance -- and has a light show that must be seen.... Thanks, also, to Doug Hamann of Columbia and Martin Cole for your help with the Furs; also, to Tim Butler for stopping by the station before the show and Richard Butler and John Aston for your time backstage. The Furs put on one of the most entertaining and personal shows in Pittsburgh this year.... Some other thanks to artists who phoned in: Jim Kerr of the Minds, Billy Idol, Ian McCulloch of Echo, and Peter Hook of New Order.... Thanks to Kevin Sutter of Chrysalis for dinner and I for one concur the Icehouse was wonderful.... Congrats to Mark Gates on your promotion to Geffen.... Finally, a sad note on the death of producer Alex Sadkin. We've lost a tremendous talent that will be missed by us all.

### **Tom Starr, WOUR, Utica**

Make room in the two first name club for Melvin James and a song with more radio magnetism than a well-stocked hospitality suite. If your memory circuits are programmed for total 60s recall, chances are shades of Los Bravos' "Black Is Black" will haunt your hearing when "Why Won't You Stay" comes on.... So many soundtrack Lps offer one or two format-compatible songs surrounded by a vast vinyl wasteland of CHR/AC material, the Lost Boys project is the rare exception that deserves the AOR seal of approval. With that in mind, Lou Gramm gets the nod this week.... Def Leppard mounts the first serious challenge to the Dead's dominance of retail. Garcia and the band hold off the initial charge, but it's gotta feel a little like the Alamo revisited. (A tip of the tonearm to the Hard camp for zeroing in on "Animal").... Mr. Mister's "new" one made heavy rotation here the winter before last from the "Youngblood" movie soundtrack. We'll give it another shot to protect our flank until the Lp arrives.

So many great songs. So little room. It's great to have Mr. Mister back says Mrs. Misses. Or was that Mrs. Mister? He's been away so long we thought he joined Gilligan and Maryann on the island.... Once again we thank DIR and Graham Keenan for remembering us little guys in radio this time with U2.... Special thanks to Dawn Hood for mentioning us to PolyGram and DB Records. Now if only the label producing Richie Havens would come find us.... Dee-lighted to learn that somebody else heard the promise in the Pretenders "If There Was A Man" and decided to release it as a single.... We're all stretching our mouths and accordions here trying to say Buckwheat Zydeco.... Simply Red's latest and also Fire Town's "Rain On You" are impressive. Private Domain's "Absolute Perfection" is surprising positive as Siskel and Ebert's review of "Back To The Beach".... Two weeks ago I started trying to identify the sound of Natalie of 10,000 Maniacs' voice. Still haven't got it pegged. Even without a category, I like it!.... Jay Dreves is our new morning man.

**Joe Skare, KFMQ, Lincoln**

Congratulations to P.D. Bob Allen and the rest of the Q 102 staff. Due to everybody's hard work, KFMQ returns to the top of the heap as Lincoln's #1 station 12+ with a 15.3 share! In our target demo (adults 18-34) we scored a 26.8 (10 points above our nearest competitor). It feels great to be #1 and we're all very proud of our efforts!.... Adds this week include Loverboy, back with the typical Loverboy sounding track.... We're high on the Glen Burtnick tune "Follow You".... Keep your eyes on Melvin James. "Why Won't You Stay" could be a sleeper!.... Jon Butcher goes to heavy. I'm starting to see some good phones, nearing top 5.

**Mike Marrone, WHTG, Asbury Park**

I'd like to apologize for Rich and myself in not getting to your calls this week as we lost a close friend, Bob Bogart recently - we'll miss him.

**Howard Glassman, WEQX, Manchester**

Your slumped in a comfy chair, wasted from another day of listening to pile after pile of clone rock and roll. Yes, it's the generic radio gig and your musical tastebuds have taken a beating, your senses pounded into a fine dust. How do you regain an ear for exceptional music? Electroshock therapy? (Nah, too expensive). Power Tools? (Nope, too messy). Heinous chemicals? (If you can find any give it a try). But if you really want to breathe new life back into a mind filled with mondo-corporo-rock, may I suggest you first blow your home speakers and then blow your listeners minds with The Brandos! Do they really need all this hype? Why not let your listeners decide?

**Lin Brehmer, WXRT, Chicago**

If you thought the Primadonna was only a part of the real world, you surely have not met the Replacements. When they agreed to do an interview that doesn't necessarily mean they agree to answer questions. Oh, of course, we expected these petulant

sensitive artistes to cultivate their temperamental side, but treating our night time guy (their biggest fan in the country) like a fire hydrant lacked a certain charm. And naive bumpkins that we are, we had the audacity to assume that co-promoting a sold out show would permit us to have someone from our station on stage before the performance. Have we no sense of decorum? Have we no respect for sheer genius? It all brings to focus the eventual rewards of a station's early or long term commitment to an artist. Reward #1 - The artist blows you off when they don't know any better. Reward #2 - The artist waits until they're famous enough so they can afford to blow you off.

**Larry Dunn, WLIR, Long Island**

After all the solo projects it's great to see the Cars back in action. "You Are The Girl" has enough pop flavor to start an earthquake! [I Agree - DH].... This past Friday, Peter Hook of New Order and Robert Smith of The Cure both phoned in (not at the same time thank God) to say their hello's to the WLIR listening audience. Peter feels Warner Bros has released the definitive New Order package and we concur. "Substance" contains the meat of New Order!.... Robert was very witty, in fact, he floored New York with three tremendous performances which we are still recovering from.... Siouxsie (of the Banshees) phoned in today and spoke to Donna Donna. She had very kind words to say about Geffen Records. She only wanted to know when her record is coming out in the U.S.! Screamer of the Week: Australia's Shona Laing "I'm Glad I'm Not A Kennedy" import. Wait till you hear the lyrics and wait till they start playing this in Boston. Hello Cape Cod!

**Jody Petersen, WNCS, Montpelier**

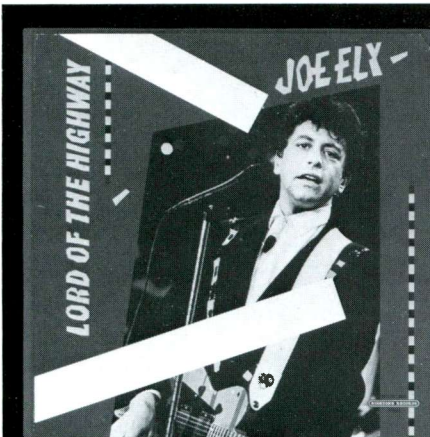

We discovered Bonnie Hayes in 1982 when she released her first album with The Wild Combo. Two years later she released a mini Lp called "Brave New Girl". Both are strong recurrences here at WNCS. She's an original and with The Wild Combo creates palatable pop music that endures. The fine quality of Bonnie Hayes new 12" "Some Guys" is no surprise to central Vermont. Nice Going Chrysalis. We're looking forward to adding more from the Lp.... How about those Brandos! Jeessumcrow!

**Jim Keller, KJET, Seattle**

We're in the midst of the 5th annual KJET Twilight Concert Series. Every Monday in August from 6 to 8PM we present a live concert featuring two local bands outdoors at the Seattle Center. On August 10th we drew between 1500 and 1800 people to see the Young Fresh Fellows. Dennis Diken of the smithereens even joined them on drums for a few songs. Highlights included the remake of "Never My Love" and Dennis Diken's 'butchering' of "Blood and Roses", [ie..."I don't know the words to this song, I'm just the drummer!"].

**Jonathan Rosen, KEYX, Phoenix**

positive note, the new antenna is state of the art.... New music I've heard (although these not reportable yet) is the new Alien Sex Fiend Lp and it sounds great. I didn't expect anything more but I didn't get anything less. Keith (Public Image Ltd.) Levine's "Violent Opposition" on Taang Records. It'll be coming out soon and features a real hidden gem, "If 6 Was 9" by Hendrix, with Norwood from Fishbone doing some incredibly haunting vocals reminiscent of Jimi.... Happy World (from Colorado) with a second album more in the thrash rock vein and a vast improvement over the first in spirit and substance. A nice surprise.... New Order is doing great.... I love the new Lp from the Wild Flowers. "A Kind Of Kingdom" is in light and the record has a lot more to offer!.... Watch out for Bobby Sutliff. I like "Same Way....". "Stupid Idea" and "Different World". The new album is on Passport. We'll keep you posted on the antenna situation.

### **Duane Sherman, WTOS, Skowhegan**

Thanks to Karen Durkot at Elektra for the Cure tickets. Much appreciated. We're all pleased that you're doing so well.... And now it's time for the Del Fuegos LIVE in our home town. I'll tell you about that show next week.... Musically speaking, The Cult continues a 1-2 punch with the remix of "Wild Flower". I love the suggestive cover!.... Also Peter Tosh's new Lp on EMI takes a strong stand against nuclear power. I wonder if they're spinning that one at the White House.... Also give a listen to the following vinyl: the DB's new Lp, as well as the new one from the a cappella band, The Bobs. I heard that the Bobs' live set at the Newport Folk Festival was very well received. Both of these albums are full-bodied and full-flavor.... Pick Of The Week: The Brandos "Gettysburg". This band will make Relativity Records a household name and Relativity Records will make this band a household name!

### **Sean Coakley, Arista,**

Isn't it amazing to realize that the Grateful Dead have their very first hit of their 22-year career? Can you think of a longer shot than that? Did you see the Solid Gold dancers do their thang to "Touch Of Grey"? My God, anything is possible. As you spread wide and deep on this album, don't pass up "Hell In A Bucket". That new video will be out in a moment and will help to increase awareness and phones. What a band!... Next week you'll get the new l2" for "Small Town Love", a song which many of you picked from the very start as the "breakthrough" Cruzados track. The band opens their tour in San Francisco with Billy Idol this week.... Hurrah! is gaining on the alternative charts and will be coming toward you in three weeks. Hurrah! A tip-of-the-hat to A&M for breaking Suzanne Vega on mass appeal radio. Not many labels would have had the guts to sign her or the know how to bring it home. We salute you.

### **Anthony Alfonsi, WDVE, Pittsburgh**

What do you get when you cross Loverboy with Bon Jovi? You get "Notorious". Loverboy has come up with a good straight ahead rocker with a catchy hook that has you singing along in no time.... The Fabulous T-Birds have come up with the answer to the age old question "How Do You Spell Love?". I can't wait to see the T-Birds when they're here with CSN on August 23rd. It should be a great show.... Glen Burtnick's "Follow You" is a song I'm excited to play. It's very upbeat and gets me going. "Follow You" has a Bryan Adams/Journey feel to it.... Herschal and I had a chance to listen to some music from a local group, G-Force, who have a record coming on Atlantic. It's some of the best music to come out of Pittsburgh in a while and we think it could put the town back on the rock and roll map.... Reaction-wise, The phones are hot for Def Leppard. I love "Pour Some Sugar On Me".... Richard Marx's "Should" is doing well; reminds me of Kenny Loggins.... And Steppenwolf has broken top 10 in calls.

### **Lorraine Rapp and Simon Jeffries, WAQX, Syracuse**

95X took it to the streets last weekend as Pink Floyd tickets went on sale for their Carrier Dome show in Rocktober. 95X was at every ticket location with gallons of pink lemonade and hundreds of pink donuts for the people standing in line. Later that night we had a 95X concert event with George Thorogood and the Delaware Destroyers and let me tell you, he was anything but lonesome. George played to a capacity crowd that loved every minute of it. The

place was rocking from start to finish. A highlight of the evening was a personalized version of night time when George sang "You've got to turn up the radio to 95X". Special thanks to George, the Destroyers, Irish Mike, and Chuck Chao for the pre-show party and an incredible night of music. Great to see Jack Isquith, and Dave "Europe is my Life" Bouchard of Epic.... Thanks to Bruce Moser and Doug Dombrowski of Could Be Wild, the staff of A&M Canada and Paul Janz for a great weekend in Toronto. Paul put on a great showcase performance that had ordinarily reserved execs up on the dance floor. Great stuff! Thanks also to Michael Godin, Gerry LaCoursierre, Joe Summers, and J.P. Guilbert for their hospitality. Hey Doug, could be twins.... Warm wishes and a speedy recovery to Roman of MCA.

### **John Amberg WKRR, Greensboro**

Midwest rock and roll lives.... Of course the Mellencamp is excellent but how about those Insiders! The Chicago Cubs need to get about as hot as these fellas.... Finally the song that deserves to be heard from David Bowie's new album is happening. "Never Let Me Down" is the coolest track from the Thin White Duke since his "Let's Dance" sessions. We're thrilled that Bowie is bringing his stadium sellout concert inside to the Dean Smith center in Chapel hill....

### **David Anderson, WIOQ, Philadelphia**

Can you believe some of the selections in Rolling Stone's Best 100 from 1967-87? The Sex Pistol #2 ?!! It's a perfect illustration of why critics do what they do and don't program radio stations for real people.... La Bamba mania is running rampant in Philadelphia. Los Lobos, Brian Setzer, and Marshall Crenshaw have delivered the perfect summer soundtrack. Crenshaw's new song "Mary Jean" is superb--a melodic well produced piece of master pop. If Buddy Holly were alive today he'd sound like Marshall Crenshaw. ... What's the record drawing the most response from our listeners? The Dead? U2? No, it's Pete Bardens' "In Dreams".... Thanks to Joe Reagoso and Randy Hock of MCA for the introduction to Jimmie Davis; the first art-

"I'm in love, what's that song?"  
"I'm in love, with that song..."

### **Joe Blood, KEZO, Omaha**

#1 sales for La Bamba this week, as the Soundtrack also holds onto top 5 phones. I expect Def Leppard to be taking over the sales end once they debut this week.... JC Mellencamp is also pulling top 5 phones, and people want to know when the album will be out.... Love that keyboard sound on the Paul Kelly; reminds me of Dave Clark 5 meets INXS.... The Beat Farmers' distinctive Stones sound is just starting to get phones and sales.... And Joe Walsh has the ultimate cruising song with "Car", as the sales rebound.... And Suzanne Vega has solidified her retail base as the album moves to top 5 sales.

### **Scott Borchetta, MTM Records, 615-242-1931**

The new Hege V (pronounced Heggy Vee) 12" is on your desk. "House of Tears" is the cut. This will be the track that lays the foundation for this "future southern superstar" (Boston Globe). The third leg of the "Hearse of Tears" tour (minus the hearse - Chapel Hill, North Carolina to Dallas by way of Nashville, through Ohio to New York up to Vermont and back down the east coast to Chapel Hill was all the hearse could take.... so we got a van - O.K.!) Anyway, the third leg starts August 31 in Lexington Ky. I'll be out there with them as a weekend warrior breaking down the barriers, so greet us with open arms and tune into the buzz that is Hege V. Attention retailers. If you want a copy of the new 12", Just give me a call.

### **David Sadof, KLOL, Houston**

After 2 weeks on Exposure, our new music show, the Brandos are on at KLOL. "Gettysburg" is a great tune with REM-like harmonies and deserves a listen if you haven't heard it yet.... Sir John Johns and company are back as the Dukes of Stratosphere and are having more fun than they should be allowed. If you grew up in the 60's, you'll love this band and if you didn't, you'll like them even more. Hope the album cover is as good as their last.... If you get a chance to see New Model Army in concert, go see them. They've been accused of taking themselves too seriously but these guys definitely have a sense of humor.... The Cars and Aerosmith will both be in heavy rotation when you read this. PD Rick Lambert says the Aerosmith is the "Best song of the summer".

### **Steve Avery, WOOJ, Ft. Meyers**

Shame on Geffen records for wimping-out on the Guns N' Roses lp cover art.

Rick Van Gil, WLNZ, Lansing

You would have to color me all wet if we didn't go on this new tune from Melvin James. It's really good!! I never thought I'd see the day when a guy named Melvin would be played on an AOR station. Whose next? Elmer McGucken? Oscar Fodbuster? Or maybe there's a Chester Tornowski on the way.... And if the Cutting Crew's "I'd Been In Love Before" doesn't become a super smash, I'll change my name to Maynard. This act has such huge superstar potential.... The Loverboy is a real cookin', rock and rolling piece of work --and I'm glad to see them back kicking ass and taking names.

### **Jason Tyler, WRUF, Gainesville**

What a sizzlin tune from Loverboy!! It's the best thing I've heard from them since the first two Lp's. Check out the hot harmonica solo! We're really looking forward to the rest of the vinyl.... I was skeptical about Mr. Mister at first, but now I'm pleased.... Robert Vaughan's "Justice" sounds great on the radio and it seems our listeners feel the same way.... May the force be with you.

### **Karen Anderson Small, WGIR-FM, Manchester**

The Fab T-Birds "How Do You Spell Love" has hit spelled all over it, this is fun good time music which spices up any radio music mix.... Personally I like Fleetwood Mac "Little Lies" I like hearing Christine McVie in the foreground and this song has a hook that won't quit

### **Duane Dougherty, WKLC, Charleston**

There is so much great sounding rock coming out lately that it makes it tough to decide what goes and what stays! So far we're four deep on Def Leppard. And just as we're adding "Hysteria" in comes Faster Pussycat, which is guaranteed to curl your hair six ways from the part the moment the tonearm touches down. The similarity between Steven Tyler and Taime Downe is uncanny. So if you're into the early Aerosmith sound this should definitely appeal to you.... The new Loverboy is getting great phones here as is the new White Lion, which sounds to me like a combination of Billy Joel vocals and Eddie Van Halen guitar riffs. Keep your ears open for this band because we think they could be big.... Everyone at WKLC would also like to extend a very warm welcome to our new morning man Alan Wells from WQMF, Louisville. Welcome to West By God Virginia!!!

### **David Hall, WKDF, Nashville**

About the time Glen Burtnick's first album on A&M was released, I met him at one of those radio conventions in Florida. We were lounging by the pool having a drink, talking about the business, and I was telling him how it seemed that a lot of was was being passed on to us as good jideas were actually bad ideas, and Glen responded that it's no picnic for artists either--that we both do what we think is our best work and get a report card month later. Well, if I could see Glen now, I'd tell him the picnic is about to begin. "Heroes and Zeros" is full of great songs, which we'll be dealing with for months to come.... When you hear the name Melvin James you say "Who?", but this is a one listen hit record if ever there was one.... Need more proof of Nashville's pool of great rock and roll talent? Check out the Royal Court of China's "It's All Changed", just out on A&M.... And the Bon Jovi influence is apparent on the new Loverboy. Just segue it out of "Runaway" and it's seamless.

### **Jim Pemberton, WLLZ, Detroit**

I am extremely impressed with the new John Cougar Mellencamp record. After you hear the rest of the album I think you'll agree that John has come through with another great one. If my memory serves me correctly, the second cut on the first side should be the leader when the Lp comes out.... The Sammy Hagar record continues to have huge success here. 'Eagles Fly' has some of the highest call out numbers that I've ever seen, as well as Whitesnake "Here I Go Again".... We finally added another Starship cut, "Babylon", which is the natural follow-up and should do pretty well here.... If you're looking for a breath of fresh air, try the Pete Bardens song "In Dreams".... The Aerosmith album is phenomenal. Probably the best stuff since "Toys in the Attic". ... We also added Whitesnake "Is This Love" and fully expect it to do as well as "Here I Go Again" and "Still Of The Night".... also new: Tom Kimmel, after some success with the first one we'll give this one a shot. Had lunch with Tom and what a down to earth cool guy... Using Steppenwolf's "Hold On" but there's an Lp cut I like better... Personal to Marko: Where are you?

### **Don Berns, CFNY, Toronto**

While Ivar is recovering from his annual Ranch Bash (4 bands, 500 people), I'm back to say thanks to all the nice folks who called, wrote and sent money on the occasion of my promotion. For those of you who didn't, remember that August 18th is my birthday.... Great to see Pete Wylie's record is finally out. It's sinfully good and did real well for us as an import some time ago. Good also to see that "Prime Mover" has been released. Zodiac Mind Warp and the Love Reaction not only have one of the best names of the year, but also one of the best dance tunes.... It's real difficult to believe that the Bears aren't doing better at the AOR level. To these ears this album sounds like it belongs on rock radio, yet it's different enough to stand out in a real positive way, and there are so many tracks from which to choose. C'mon AOR, be bullish with the Bears.... For those of you who dabble with (please forgive the phrase) New Age, you should not be without Pete Bardens' "Seen One Earth" Lp/CD. If "In Dreams" isn't right for you, try "Seascape". It's fuckin' beautiful and will stand out as the classiest record you play this summer.... Our hot album add this week is the Dolphin Brothers import on Virgin. If the legendary Japan had stayed together and grown musically thru the years, "Catch the Fall" is what they would sound like today, which makes sense because the Dol-

phin Brothers are Steve Jansen and Richard Barbieri. Get a hold of this one, and if you can find the Durutti Collins Ep, "The City Of Our Lady" on Factory Records out of England, there is an outstanding version of "White Rabbit" that no Modern Music station should be without.

## **Brian Wolfe, WGLU, Johnstown**

Mike Reno and Loverboy are rockin' better than ever with their latest "Notorious". Johnstown has hosted them twice--why not a third? The Brandos go in too, as another great new artist gets their start -- of course, at AOR. "Hysteria" has got a stranglehold on us, too. Def Lep fans have been gobbling up this one at the retail level.... Jon Butcher goes heavy as phones soar to top 5. Europe also goes heavy as phones and sales increase.... getting a few curiosity calls on Glen Burtnick. Also some early phones on Paul Kelly, Beat Farmers, Loverboy and Mr. Mister.... and we're considering Cutting Crew and Melvin James.

## **Alan White, KILO, Colorado Springs**

There is a huge groundswell on the Faster Pussycat. Retail can't keep it in stock--before there was even any airplay. People were hearing it someplace, and we're definitely playing it now.... Also new: Guns and Roses, another act with a huge groundswell of interest coming from the teen base. Already response from the record stores and solid early phones... Melvin James has a very catchy, very powerful kind of song, just something that struck a real interest in our ear when we heard it the first time, and I think its something we can't ignore. Almost familiar at first listen.... Still playing the Outfield's "Somewhere", our first choice, but "Bangin'" is a little more of a blatant hook song and so we're covering all the bases..and the Brandos is my favorite of the week. It's got such a great roots feel, and it's not your typical kind of song. It deals with a little different subject matter and it's really relatable. and I think people will really pick up on it... Mr. Mister is in and though I'm hoping the Lp has more material in line with AOR, this is a song you can't ignore.....Biggest Movers: La Bamba is thru the roof with huge sales. Other interesting sales: "Lost Boys" is #3 here. Huge teen movie, Def Lep debuted at #4, the Dead continue to do well at #5 retail....

## **Ty Banks, KQWB, Fargo**

The time has never been better for the Brandos. Try it, you'll like the rootsy, honest feel--and I love the cold, suspended ending.... Beyond question the Replacements rule here. "Alex Chilton" moves to power with #1 phones and fanaticism here.... Other increases include local favorite Jon Butcher to Power.... We also power up the really neat Bond feel of Chrissie and the Pretenders, as well as the Insiders' attractive "Ghost On The Beach".... Urgent goes to heavy. It's safe and it's formula--but it sounds like Foreigner and they're huge here.... Considering: Vega's "Solitude", Cult's "Wild Flower" and we're waiting to go with the new Little America tune.

## **Virgil Thompson, WIXV, Savannah**

Out of the box with Melvin James "Why Won't You Stay". It could easily follow the path of Richard Marx "Don't Mean Nothing" in our opinion. An A+ to MCA for the set up on this project. Mailing the cassette a month before the release date makes very good sense. I wish more would do it.... Great White continues to perform very well, with absolutely no indication of burn, and this week it's only logical that this heavy rock goes to heavy rotation.... "Wild Flower" from the Cult is getting more response than the other tracks did at this stage of the game.... John Hiatt plays here Saturday night and we're looking forward to a great showcase event. Advance thanks to A&M's Lee Durham.

## **Catfish Colwart, WHMD, Hammond**

Again, I would like to hear from Polygram Records. Our number is 504-345-1070. Thank you.... And the next Veritable Suckah from Virgin-- Pete Wylie, "Sinful". hooks galore, poutful sex appeal! (boo hoo). Automatics: U2, Cutting Crew, Fabulous Thunderbirds...Out of the Box: Loverboy, Mr. Mister. Holdouts: Silencers, Pete Bardens.... Baby Band: Dash Riprock on 688 records, a rocking trio from New Orleans. I saw them open for Mojo Nixon. Dash Riprock was on alternative charts some time ago, but somehow distribution did not include WHMD. We're playing it now. Dash Riprock--"Operator".

## **Rick MacKenzie, WAAF, Worcester**

Adds this week include two Def Leppard tracks, "Hysteria" and "Animal". Very strong request action continues, with "Pour A Little Sugar" picking up nicely in calls.... Also new: Hooters "Satellite". "Johnny B" is now a power with top 5 calls, and 8-5 retail progress this week.... Loverboy's "Notorious" is our only heavy add. I just love hooks and this band has always been one of my favorites for that and this one's no disappointment.... other album depth: Bowie "Never Let Me Down". He's three weeks away from a 70,000 seat here, with the lp still selling in the teens...T Birds humorous "How Do You Spell Love", The Cult's "Wild Flower", the third track from this great album for WAAF. Hot remix here, and "Little Lies" from Fleetwood Mac. Also still a top 10 selling album here and so we just had to go deeper.... We're starting to see a few calls on the Beat Farmers, which might move up soon.... Also new, Melvin James and Why "Won't You Stay. Count WAAF in as first week believers on this artist.

## **Kim Alexander, WHCN, Hartford**

Everyone on the staff loves the Brandos, though it's early for audience response, I have a feeling it will also be big with our listeners.... This week's adds: Loverboy, which is easy to sing along with and a surprisingly good song.... Melvin James, which I first heard in New Orleans months ago. the melody has stuck with me ever since, and that's the honest truth.... We're finally going with the Peter Bardens. We've been playing it unofficially for weeks but now is the time to make the commitment.... Richard Marx' follow-up is in, which is just as much an instant hit as the first cut.... We also add the Cult's "Wild Flower". It's a pleasure to go even deeper on the Cult. They bring vitality to the radio.... also added SRV's "Pipeline". Everyone in the country should be playing this, even if you're landlocked.... Moves: To Power -- Def Lep "Women", Hooters "Johnny B", Jon Astley "Jane" (major requests here), David Bowie "Never") It's gonna be a big hit and we'll play it early... and the Pretenders to

"I'm a wolf child, girl  
Howlin' for you..."

heavy. To me it's almost a novelty that we ought to play heavy and then get off. Finally, "Carrie" also goes up to power.

### **Dave Ross, KFMU, Steamboat Springs**

For stations like KFMU to work, you have to put some "hipness" into what you're playing. This can translate into filler songs, but it has to make a good transition in and out of your regular rotation. This is the case of the dB's. You might pass this by as just another college record, but it's a lot more and you can use it to your advantage.... If properly used, groups like The Cure will help keep that 'Coolness on your side rather than having only the people who want to "rock out" tune you in.... For these reasons I pay attention to the off beat records that come in. The well known artists will certainly keep the people at your dial position, but there must be a place in that position to show them that they're listening to something a little more unique than the station across town. My picks for "hipness"; the dB's "Think Too Hard", the Cure "Just Like Heaven", and a couple of remakes that keep the upper demos listening -- the 10,000 Maniacs "Peace Train", and Dave Perkins interpretation of "Turn Turn Turn". That's it for now, from the world's only wind powered radio station.

### **Beaver Brown, KDJK, Modesto**

When a masterpiece comes along, mere words cannot do it justice. Here's to Def Leppard. "Hysteria" was worth the wait.... It's finally here, the song we've been spinning for over a year. We think you'll love it too. Poison's "I Won't Forget you". Hit it before your CHR competition tries to lay claim to it.... A song for future consideration: David Lynn Jones "Bonnie Jean"... It will blow you away! Hats off to Dave Kane of WCMF Rochester. I couldn't have said it better myself.... Finally--Robert Vaughn. Play it, you're missing a great song. How about listening to the record and not the hype.

### **Jim Steel, WIOT, Toledo**

If you're 18-24 cell is still important to your station, and you're not playing "Carrie" from Europe, then that demo must not be that important to you. Strong male phones in addition to positive calls from the 25+ crowd... Following in the suit of appealing to the masses Loverboy starts out with. good phones on a fine song. Hopefully the rest of the release will have as much balls as this one.... Mr. Mister has progressed to a point where it doesn't pay to argue with them. Do you want to play the best music available or don't you?... Finally added the Danny Wilson. It was something we had wanted to do for quite a while and since we hadn't used it in the first 8 months of its release, it will still sound very fresh for our audience. They almost sound better than Steely Dan doing Steely Dan.... Not a big story on the Silencers yet, but I think its the Jon Astley thing all over again. Don't let it sneak up and bite you on the ass!! Now, can I go back and listen to the Def Leppard album again?

### **Carter Alan, WBCN, Boston**

Motley and Crue and Whitesnake descended up on Boston with two sold out nights that proved that this tour is the current heavy

metal king of the road. Whitesnake thrilled with an all star lineup including Rudy Szarzo (check spelling please), who assured me that he is not leaving the band to join Quiet Riot, so stop those rumors!! "Here I Go Again" is the fifth most requested song at WBCN this week and thanks to David Coverdale for rapping with us and Motley Crue for visiting BCN to chat it up on air with Mark Parenteau.... Roger Waters broadcast from London was a thrill to do, and my thanks to all concerned including my Co-host Ray White from WNEW. I've also got to thank Peter James who was the tape operator on "Dark Side Of The Moon" and who is now an engineer, for giving us the ultimate tour of the Beatles studios. This Radio K.A.O.S. tour will be one of mammoth proportions, guaranteed to please any Pink Floyd freak. Meanwhile, "Information" and "Sunset Strip" are doing very well on the air here in Boston.

### **Jim Spector, WMGM, Atlantic City**

Well, the dust has finally settled in Sin City. Thanks to Steve Schnurr and Nikki Sixx for the Crue show and interview. The Crue and Whitesnake put on two incredible shows last week in Philly. John Cougar's Mellencamp's saga builds. "Paper and Fire" picks up #1 position on our top 5 phones and moves to power this week. And there is nothing bad to say about this Hoosier.... Where the hell did Melvin James come from? Of course he comes from Joe Walsh country so you know this guy is gonna have a hit with "Why Won't You Stay".

### **Harve Alan, WCCC, Hartford**

It's nice to be back from vacation. A couple of afterthoughts since I was away for the release of the Mellencamp and Def Leppard. Both incredible! No surprise on either count.... Good mass appeal music from Mr. Mister. Don't let your CHR competitor snip you on a rock crossover song like this one.... The Cure Lp has been top 15 since its release and why "Can't I Be You" was a top 5 request item for many weeks. It only makes sense to go with the follow up track, "Just Like Heaven". Adds this week also go to Bowie, Loverboy, Echo and the Bunnymen, Heart and Steppenwolf. A couple of thanks to the McGathy's for a great time in new York, and to Richard Pachter for a great time in Florida.... Once again, WCCC is breaking new ground with our New Music show we started over two months ago. Now it seems another Hartford radio station is following our lead and copying our idea to serve this valuable segment of our audience. We are looking to expand our alternative library. If your record company features new music and would like consideration for the show, please send your cd's or lp's to WCCC, 243 South Whitney Street, 06105.

### **Harry Reynolds, KOZZ, Reno**

The new Loverboy is already showing signs of being a very strong song for us. We had to add another Def Leppard cut--and that makes 4 and I can hear a lot more on what could be the album of the year. Jon Butcher's "Wishes" is getting fast phones for us. This could be the one for him. And we finally got to Glen Burtnick's "Follow You" which I'm sure will perform for

us. And speaking of performing Jon Astley's "Jane" is now getting #2 phones.

**Pam Brooks, WPDH, Poughkeepsie**

There is so much great music to listen to--as well as trying to get it all on--that I can barely come up for air. Besides the fact that you get something like the new Mr. Mister and before you even hear it the guys take your breath away. No problem gentlemen, I knew that your talent was no fluke and "Something Real" continues the story. I love the kickoff beat that got me moving and the infectious vocals that kept me listening.... All my fingers and toes are crossed for Glen Burtnick, a wonderful writer and singer whose time should have already come. His efforts are consistently top notch, and "Follow You" is no exception. From first chord to last, this is a real ear catching, crank it up, "sing it at the top of your lungs" hit. WPDH continues its support of Glen and hopes your ears will catch the beat and rally around this fine artist.... I've got the remedy for a hot summer day, cool off with the Insiders "Ghost On The Beach". This is one of the most happening tunes to hit the airwaves this season and I see it making its way right through the falling of the leaves. Much thanks to the thoughtfulness of Pat Ruscona and Don Maggi and those hot rockin', gorgeous yet congenial, and almost like Miss America but lots better Bon Jovi.

**Stephen Page, KOME, San Jose**

Paul Kelly enters the top 5 here for the first time. Actually from the first play the song has taken off well, with instant audience curiosity calls.... adds this week: Loverboy's "Notorious". Sounds great. Geez, I really like the song--an instant hit.... I was surprised with the Mr. Mister. I was thinking they might be a little softer a la "Broken Wings", but instead they decided to go a little more uptempo, with a very listenable melody and a good hook.... Increases this week: The Dead's "Hell In A Bucket", with #1 requests and Power rotation. Basically people are ready to move on from "Touch". Also Patty Smyth moves to power. Everybody likes hearing this song and she does a great job on it.... On the Steppenwolf, we've switched from "Hold On" To "Give Me Life", and this one seems to be getting great response for us.... And everytime we play the Silencers we get calls, people just wanna know who these guys are. It's really nice to see this kind of reaction to a track that's not a bang you over the head type of thing. Great melody, nice hook, and even the six minute version works.... And even though I can't wait to get to the Beat Farmers' "Hollywood Hills", "Dark Light" has yet to burn on me after six weeks. There are about six songs that could really take off for them if they play their cards right. They remind me of Poco with a heavy edge.

**Lenny Bloch, WRCN, Long Island**

I am pleased to announced the promotion of John Loscalzo to Music Director. After a naitonwide search, I found the best person playing in our own back yard. John captures the title and continues to hold down the afternoon drive jock as well. Go get 'em pisan!

**Jeff Michaels, KSQY, Rapid City**

Attention steppenwolf fans. Last week, the Black Hills played host to the 47th annual Black Hills Motorcycle Classic, attended by about 100,000 dirty bikers. The musical menu included Alvin Lee, Marshall Tucker band, and Steppenwolf headlining. The show was fabulous, with John's voice was as good as ever--and now we've added a second track, "Give Me Life". That should be the follow up from the album.... Also new: the Loverboy, which I think is one of their best in years and should be around for along time. The Bon Jovi collaboration is a nice hook, too. Also new: Mr. Mister. Dynamic and different from their other stuff.... We added the Helix after only about half a listen. One of the easiest adds this week.... We also went with Whitesnake's "Is This Love", which we were on out of the box. We moved it out to make room for "Here I go Again", and I'm glad we could get back on it this week. Looks like another smash to me.... I played Pete Bardens on our morning show and five calls instantly, all positive.

**Beth Kepple, WKLS, Atlanta**

Following in the rock and roll tradition of non conformity, 13 was definitely the lucky number at 95 Rock this weekend. We celebrated 13 years of being the South's Home of Rock and Roll

with the Rockers of Atlanta and we're still recuperating. We did it with two kickass concerts which we also broadcast live. Saturday Night it was the Charlie Daniels Band who truly proved the South's gonna do ti again and we were even graced with an appearance by Stephen Tyler, who definitely whetted everyone's appetite for the new Aerosmith album. Another highlight was the "bands with no instruments" competition, a vocal tribute to lips, mouths and talent, unashamed to perform without the aid of instruments on 96 Rock. The winner was Jody Morgan who performed live a showstopping rendition of Uriah Heep's "Stealin". To top things off, Sunday Night we rocked with Omar and the Howlers in concert, which we also broadcast live. Phew!! Music wise, my love affair with the Cutting Crew began with "I Just Died in Your Arms" and grows stronger every time I hear "I've Been In Love Before". It makes me want to slow dance, something I'd never do, and it gives me goosebumps in places I never thought I'd get them.

**Bill Prescott, KZAP, Sacramento**

Get ready for a permanent vacation. The best are back--and they're better.

**Erin Riley, WMMR, Philadelphia**

For those of you who may have a problem adding Echo and the Bunnymen for one reason or another, try "Bedbugs and Ballyhoo". It fits in so well. I think it has a lot to do with the Ray Manzarek keyboards, not to mention they've sold over 10,000 seats for the upcoming show here in Philadelphia. Goes to show you can't judge a book by its cover or a band by its name. On a similar note, I went to a show last night at the Spectrum where the fans were among the most enthusiastic I've ever seen. No, it wasn't Bruce Springsteen, it was the Cure. One minute you think a band is a little avant garde, the next minute they're selling out arenas. For example, how does a band with absolutely no airplay in a market sell 1500 tickets. That's exactly what happened to the Replacements--and they were booked into a club. Imagine if people under 21 had been able to go. Being over 21 myself--just a little--I attended their show and became convinced that the Replacements belong on WMMR. The #1 requested song here is Whitesnake's "Here I Go Again". I'm sure they picked up more new fans with their recent show here. Coverdale reminds me of Robert Plant all rolled up into George Carlin--truly entertaining. Busy as it was the highlight of my week was the shooting of Glen Burtnick's video for the upcoming big hit "Follow You". It was my first opportunity to see Glen's new band in action and boy are they hot. Great looking and extremely talented with abounding energy. By the end of the shoot I was totally exhausted and they were still jumping around. It was shot at the coolest looking club here, the Trocadero, which was at one time an old burlesque theater. And the video is going to look great. The combination of the song and the enthusiasm of the band kept the crowd on their feet for four hours, and by the second take the crowd was singing the lyrics--a sure sign of a hit.... Finally, I'm afraid for the people that I work with. I am now lethal with my new Def Leppard CD in hand and if at any time you need a fix, please feel free to call our "La Bamba" hotline at 215-751-0715 for a minimal fee of \$200 per call. Enjoy.

**Kelley Cruise, WEGR, Memphis**

Memphis; his music strikes again. Jimmy Davis and Junction will be coming soon to a turntable or CD player near you. This is a band to be reckoned with!!
