"You'll hear artists you know, artists you don't know and artists you need to know," said Ingram, who added, "What I've always loved about country music is that the music tells you that we're having a good time, while the lyrics tell you why we need to have a good time. 112 Country reporters. Songs ranked by total points for the airplay week of 1/11-1/17. Bullets appear on songs gaining points and/or plays or remaining flat from previous week. If two songs are tied in total points, the song with the larger increase in points is placed first. Songs below No. 1 and down in points and plays for three consecutive weeks are moved to recurrent. Most Added is the total number of new adds officially reported to R&R by each reporting station. Songs unreported as adds do not count toward overall total stations playing a song. Most Increased Points lists the songs with the greatest week-to-week increases in total points. Station Weight = AQH Persons + (Market rank X 10) divided by 4180. Total Audience equals Average Quarter Hour Persons times number of plays (times 100). Each daypart on each station is assigned an AQH number.
