

## Looks Like N.Y.C. For CMA Awards 2005

At a press conference scheduled for 11am ET this morning in New York, the CMA and New York City Mayor **Michael Bloomberg** are expected to announce that the organization will hold its 2005 awards show in New York City at Madison Square Garden. The announcement culminates more than a year of negotiations between the CMA and the city of New York, which approached the organization about the possibility of hosting the awards telecast more than a year ago.

CMA executives will return to Nashville Tuesday afternoon for a press conference scheduled for 3:30pm. Brooks & Dunn's **Kix Brooks** — who is suffering from laryngitis and unable to make the Gotham trip — is expected to join Nashville Mayor **Bill Purcell**, Trace Adkins and CMA's **Ed Benson** to announce plans for a gala return of the CMA awards to Nashville in 2006, coinciding with the 40th anniversary of the awards.

### Werewolf In Richmond

WJZV/Richmond, VA flipped from Smooth Jazz to "93.1, The Wolf, Country That Rocks" yesterday (10/4) morning at 9:31. MainQuad Creative Services Director **Jeff Beck** was promoted to PD for the new station, which he says will be an "uptempo, male-oriented Country station that combines Country, classic rock and Southern rock music." Beck previously programmed a similar format on WGRX/Fredericksburg, VA.

The Wolf is now running 93 hours commercial-free. Beck says it will be live in mornings and

### Got RRCD?

**R&R Country Daily** is new, it's hot, and it should be in your e-mail box. **RRCD** is an overview of all the day's breaking country news. Plus, there's the Daily Top 5, the Daily Mover and the Daily Shaker — the hottest songs from the previous day. Don't be left out! It's free to everyone in Country. If you want it, send your name, company or call letters, job title, address and phone and fax numbers — and, of course, your e-mail address — to [moreinfo@radioandrecords.com](mailto:moreinfo@radioandrecords.com), and tell 'em you want your **RRCD**!

afternoons in a couple of weeks, with other personalities added going forward.

New call letters are pending for the station, which kicked-off with Big & Rich's "Save a Horse, Ride a Cowboy." "That song epitomizes what we're trying to do here," Beck says. "We're going to be energetic, fun, upbeat and a bit irreverent, with a rock feel to what we're doing."

Beck went on to say, "There's so much cross-over now — Hank Jr. and Kid Rock, Jimmy Buffett and Martina McBride, Travis Tritt and John Mellencamp. They all respect what the other does and they find a way to work together. It's a mix and marriage that makes sense."

Beck also said the Wolf will be decidedly uptempo, with a target of 18-49 men. "The music we're putting on The Wolf will be uptempo songs with some grit to them to attract the men while not alienating the women with the way we're positioned."

The Southern rock and classic rock tunes in The Wolf's library include lots of Eagles, Lynyrd Skynyrd and Allman Brothers, according to Beck. He said The Wolf is playing current and past music from Robert Earl Keane, Steve Earle, Hank Williams III, among others, noting, "It's not going to be tucked away after midnight; that music is a huge part of this format." He's also instituted a "hip" category and is playing music from Delbert McClinton, BR5-49, Jeffrey Steele, Confederate Railroad, Jamison Clark, Jill King, The Warren Brothers, The Tractors and Anthony Smith, among others.

The flip has been in the planning stages for over a month, and Beck says he adopted the Wolf moniker because "it's a cool name and has a male feel to it." He noted, however, that The Wolf is an accent, not the primary way the station will be imaged. "We want the music to be the message," he explained. There will be limited "wolf howls" on the air.

Beck admitted the new Wolf is indeed on the air taking some shots at venerable Cox Country outlet WKHK. Said Beck, "It really annoys me a station is allowed to go on the air and say they play 50 minutes of music an hour when they don't. We've been monitoring WKHK for over a month, and in that time I don't think there's been one hour between 6am-7pm Monday-Friday that they've played 50 minutes of music.

"We continue to monitor them every hour, and we're calling them on it. Last hour we went on the air and pointed out that the station that guarantees 50 minutes of music played 42 minutes of music, 12 minutes of commercials and six minutes of yada-yada-yada. We tell listeners we're not going to make promises we can't keep. And now we're

promising 93 hours of commercial-free country that rocks." Beck can be reached at 804-327-9902.

## R&R/Bullseye: Got 'Net?

This week's R&R Country Callout America by Bullseye question posed to 600 Country listeners began by ascertaining if they had access to the Internet on a daily basis at work or at home. If the answer was affirmative, they were then asked these yes or no questions: "Have you listened to an Internet radio station?" "Have you listened to satellite radio?" Are you a subscriber to XM or to Sirius?" "Have you downloaded music and not paid for it?" and "Have you purchased single songs on the Internet?"

Of the total sample, 76% had daily Internet access. Of that universe, 28% said they've bought single songs on the internet, 27% said they've listened to an Internet radio station, 27% said they have indeed downloaded music and not paid for it — an interestingly high number to admit that to an unknown caller, considering the publicity garnered by the RIAA lawsuits — 21% said they have listened to satellite radio and 5% said they subscribe to XM or Sirius.

For complete breakouts, including men and women, 25-34, 35-44 and 45-54 — check out the R&R Country Callout America by Bullseye research page in the Oct. 8 issue of R&R.

113 Country reporters. Songs ranked by total points for the airplay week of 9/26-10/2. Bullets appear on songs gaining points and/or plays or remaining flat from previous week. If two songs are tied in total points, the song with the larger increase in points is placed first. Songs below No. 1 and down in points and plays for three consecutive weeks are moved to recurrent. Most Added is the total number of new adds officially reported to R&R by each reporting station. Songs unreported as adds do not count toward overall total stations playing a song. Most Increased Points lists the songs with the greatest week-to-week increases in total points. Station Weight = AQH Persons + (Market rank X 10) divided by 4180. Total Audience equals Average Quarter Hour Persons times number of plays (times 100). Each daypart on each station is assigned an AQH number.
