**RPM WEEKLY
SPECIAL EDITION
OCTOBER 2nd, 1976**

EVERYBODY'S GOING THROUGH CHANGES.

Get funky as you wanna. Yamaha lets you dial in as much distortion as you need. Absolutely.

Take care of business from Halifax to Victoria. Because Yamaha's built for traveling from gig to gig.

Yamaha can sound as clean as a rocky mountain stream, thanks to unique FET circuits.

Wherever music is going, you'll hear it note-for-note perfect on each of the nine Yamaha amps.

YOUR MUSIC KEEPS GROWING. SO SHOULD YOUR AMP.

YAMAHA

494 McNicoll Ave., Willowdale, Ont. M2H 2E1

Country 'Tis of Thee.

Look behind a Shure microphone to spot a star in Nashville. Country superstars insist on Shure microphones because of the consistent reliability and clear, natural sound that make these microphones the "Sound of the Professionals." Make 'em part of YOUR next performance. Ask your Shure dealer about Shure microphones and tell him Bill, Bobby, David, Billy, Donna, Mickey, Tom, Sonny, George, Bob, Loretta, Barbara, Ronnie, Dolly, Charlie, Johnny, Marilyn, Cal, Nat, Conway, Leroy, Tammy and Faron sent you.

We're saying it again!

And again, and again. Canada's largest performing right organization didn't get that way by doing nothing. We have an open-door policy. We don't wait until Canada's writers and composers have proven themselves before we welcome them as our affiliates. We encourage their affiliation early so that our staff can advise and work with them along the way. Our seminars and workshops are for affiliates but are also available to anyone in the industry.

And as the writers and composers progress, we're there to promote their activities. We'll introduce them to the people they should know, not just in Halifax and Winnipeg but in New York or Los Angeles as well. Our clipping service and writers' and composers' publicity files are available for the asking.

Try us. We're open.

When does quality count?

Quality counts when it comes to the music business. Because when it comes to the music business Quality Records Limited is Canada's number one wholly-owned Canadian company.

We're also number one in record manufacturing. Plus we have one of the most modern tape duplicating facilities in the country. And our fully automated custom service division can fill virtually any recording need.

Quality also counts when it comes to music publishing: with Shediac Music Publishing Limited (CAPAC) and Quality Music Publishing Limited (BMI).

And for Canadian talent trying to break into the record industry, Quality can count for coast to coast distribution and sales promotion.

Add it all up yourself. You'll discover when it comes to the music business Quality Records counts for a lot.

USE THE HOT SOUND TAPES

Ampex 406/407 and GRAND MASTER Studio Mastering Tapes

Hot!

Ampex Low Noise/High Output 406/407 Series

Although GRAND MASTER Studio Mastering Tape stands at the very peak of magnetic recording technology, it could not have reached those heights without the solid foundation laid by the 406/407 Series. All the improvements offered by GRAND MASTER tape derive from the research which has made 406/407 the standard of the industry.

The magnetic oxide system has satisfied stringent studio requirements for low noise, high signal-to-noise ratio, and low distortion in studios throughout the world. The extremely durable oxide binder system was developed to endure the rigors of multiple pass mixdowns. And both 406/407 and GRAND MASTER Studio Mastering Tapes use the same high strength, backcoated polyester base film.

With 406/407 you get proven quality plus the added bonus of biasing compatibility with the new GRAND MASTER.

Hotter!

Ampex GRAND MASTER Studio Mastering Tape

A Product of continuing Ampex research, GRAND MASTER Studio Mastering Tape provides improved electro-magnetic performance properties resulting in higher output, lower distortion, greater saturation capability, and sound quality which must be heard to be believed.

It delivers all these superior qualities while maintaining the identical biasing requirements as the 406/407 series, which means not only added convenience, but greater eraseability than other high output tapes which require an increase in bias setting. Like 406/407, the foundation of GRAND MASTER Tape is a durable polyester film with high conductivity backcoating which improves mechanical handling and eliminates dropouts caused by electrostatic attraction of contaminants.

You can drive GRAND MASTER tape harder than you've ever driven a tape before. From a whisper to a scream, it responds with more undistorted output across the entire audible range than any other mastering tape available.

The Quiet
Ones

INTRODUCING . . .

The best, most versatile, and entertaining, international
flavoured "oomp" style band in Canada . . .

"GEORGE KASH & THE OKTOBERFEST EXPRESS"

"Calling the group versatile is not enough as the music they emit from drums, saxophone, trumpet, organ, trombone and whistles is truly not only the music of Bavaria, but the world.

"Their music is European and North American all intertwined. It includes polkas, waltzes, beer-drinking music and both popular and nostalgic tunes...the group makes the most of crowd participation..."

-The Sault Star, Sault Ste. Marie, and kick up their heels. And few groups can make the patrons enjoy themselves and the proprietor's cash register ring like George Kash & The Oktoberfest Express.

Led by Kash, the zany drummer who is the catalyst for the fun, The Oktoberfest Express not only have an extensive repertoire of Bavarian songs and music with a lot of Gemlichkeit, but also can play at least five songs from any country in the world and "middle of the road" popular music from the '20's to the present.

The Oktoberfest Express is fully equipped and self contained and have worked lounges, pubs, Oktoberfest Halls and tents, parades, conventions and done many product promotions. They have a mailing list of over 3,000 names.

Exposure?

Certainly public exposure is good for you! How else can you become known? You must communicate, but to whom? Only through the media can you achieve exposure . . . the newspapers, daily and weekly . . . radio and television . . . magazines . . . news services . . . the trade press. And only the Canadian Arts Publicity Directory is specifically designed to tell you who, how and where. A one-year subscription brings you up to date information every four months for only \$35.00. Communication . . . the art of making known.

MARLEY

"BOB MARLEY AND THE WAILERS BAND OF THE YEAR 1975"
 Rolling Stone Music Awards

"BOB MARLEY AND THE WAILERS . . . Reggae at it's sinuously, sexily, rocking best"
 —John Rockwell New York Times

"BOB MARLEY represents the artistic and socio-logical heart of Reggae . . . a music that is the most compelling and exciting to arrive here in years"
 —Robert Hilburn Los Angeles Times

"MARLEY IS FANTASTIC, INCREDIBLE, HIS LYRICS SHOULD BE PRINTED ON THE FRONT PAGE OF EVERY NEWSPAPER" —Dr. John

"BEST THING I HAVE SEEN IN TEN YEARS . . . I COULD WATCH THE WAILERS ALL NIGHT"
 —George Harrison

A Brand New Album by the Most Talked About Star in Music.

Produced By Bob Marley

Also available on 8 Track and Cassettes

A&A Records and Tapes

The Distributors' Retailer.

1. A & A carries full distributors' catalogues in depth in all stores nationwide.
2. A & A creates Canada's best record and tape ads with its in-house advertising department.
3. A & A promotes distributor product through effective in-store displays and merchandising units.
4. A & A creates its own point of purchase merchandising aids to support distributors' campaigns on a regional or national basis.
5. A & A promotes artists' concerts and appearances with effective concert ads, coordinated with in-store display.
6. A & A is Canada's most progressive retailer, rapidly expanding to best serve the entire nation.

General Information: 995-7949
Chairman: Harry J. Boyle 996-2470
Secretary: S. Richard 996-2471

...where it all began RPM GOLD LEAF AWARDS

RPM launched the first bonafide certification of outstanding sales of singles and albums in Canada and designed the now famous solid walnut engraved award that was distinctly Canadian.

THE JUNO AWARDS

It was in 1964 when RPM polled the music industry which eventually became the Juno Awards. These awards are now co-produced by Juno and the Canadian Academy of Recording Arts and Sciences, each year as a television special.

BIG COUNTRY & THE BIG COUNTRY AWARDS

Big Country is a yearly communication meeting culminating in an Awards banquet honouring Canada's top country stars, as nominated and voted by the Academy of Country Music Entertainment.

THE CANADIAN MUSIC INDUSTRY DIRECTORY

In 1964, RPM published the first source book of the music industry in Canada, listing the important names and addresses and contact point of the industry's businesses.

COMMUNICATION MEETINGS

RPM initiated these series of meetings which are held across Canada to bring the radio and record industry together. Speakers and forums dealing with the industry are featured with institutional and social events.

RPM'S CANADIAN MUSIC INDUSTRY WHO'S WHO

Our second edition of the Who's Who featured biographies of the important Canadians in the music industry. As well, this deluxe edition gives Canadian artists an opportunity to list themselves and their achievements. This edition is circulated throughout the world and serves to promote the Canadian industry.

CANADIAN MUSIC INDUSTRY AWARDS

The Canadian Music Awards have become a once-a-year banquet honouring the top Canadian companies and music industry figures, as chosen by RPM's readers - a yearly social event that gives the industry a reason to get together and enjoy the fraternity.

RPM TALENT BUYERS CONFERENCE

The RPM Talent Buyers Conference is an annual entertainment and talent conference that brings the industry together to talk about and view talent and the problems of the business. Launched, for the first time in 1976, this will probably become a yearly event.

RPM the first . . . RPM the Innovator,
RPM . . . where it all began.

**GENERAL
INFORMATION**

CANADIAN MUSIC RULING

Excerpt

*Radio (AM) Broadcasting
Regulations - June 24th, 1970*

12(1) At least 30% of the musical compositions broadcast by a station or network operator between the hours of 6:00 a.m. and 12 midnight shall be by a Canadian and shall be scheduled in a reasonable manner throughout such period.

(2) From January 18, 1971 to January 17, 1972, a musical composition shall be deemed to be by a Canadian if it fullfils at least one of the conditions set out in subsection (5).

(3) After January 18, 1972, a musical composition shall be deemed to be by a Canadian if it fullfils at least two of the conditions set out in subsection (5).

(4) After January 18, 1973, at least 5 percent of the musical compositions broadcast by a station or network operator between 6:00 a.m. and 12 midnight shall fullfil the conditions set out in either (b) or (c) of subsection (5).

(5) The following are the conditons referred to in subsection (2), (3) and (4):

(a) the instrumentation or lyrics were principally performed by a Canadian;

(b) the music was composed by a Canadian;

(c) the lyrics were written by a Canadian; and

(d) the live performance was wholly recorded in Canada.

(6) A mechanical reproduction of a musical composition that is deemed at any time to be by a Canadian continues to be so deemed thereafter.

(7) If a station operator is able to demonstrate to the satisfaction of the Commission that the application of this section would result in a significant reduction in the quality and diversity of program service within the area normally served by his station, the Commission may vary the application of this section.

(8) For the purpose of this section, a person shall be deemed to be a Canadian if:

(a) he is a Canadian citizen;

(b) he is a landed immigrant as defined in the Immigration Act; or

(c) his ordinary place of residence was in Canada during the six months, immediately preceding his contribution to the musical composition in question.

THE RPM MAPL LOGO

With the advent of the 30% Canadian content ruling through the efforts of the Canadian Radio-Television Commission (CRTC), RPM commissioned Stan Klees, of Stan Klees Ltd., to design a symbol that would easily identify records having Canadian content. This logo was to be used exclusively in RPM Weekly.

**KEY TO THE USE
OF RPM'S MAPL
LOGOS**

Blacked-in areas indicate:

M - Music composed by a Canadian;

A - Artist featured is a Canadian;

P - Production was wholly recorded in Canada; and

L - Lyrics were written by a Canadian.

The RPM MAPL logo was so successful that many record companies requested permission to use the logo on record labels. Their organization, The Canadian Recording Industry Association (CRIA), requested and received blanket permission for use of the logo on all members' labels. Programmers also found the logo invaluable for cataloguing Canadian singles and albums.

We respectfully request that the MAPL logo can only be used in conjunction with a record title at all

times and that it be used in its original size (as shown on this page).

RPM WEEKLY

RPM Weekly has been published each week since February 24th, 1964 by RPM Music Publications Ltd. 6 Brentcliffe Road, Toronto, Ontario M4G 3Y2, Telephone (416) 425-0257, Telex 06 22756 (RPMTOR).

The publisher of RPM is Walt Grealis, capably assisted by a team of editors who specialize in records, music, radio programming, chart computation and country music.

RPM's staff, along with other important information regarding our operation, is listed each week in RPM on page 4.

It is our endeavour to cover the music and record activities in Canada on a national basis. Our weekly charts and playlists are based on national trends and industry information.

It should be noted that RPM Weekly is not in the same class as our very monied cousins - the major press and weeklies. We are not staffed with roving reporters and photographers from coast to coast. It is therefore necessary to rely heavily on your communication with us whereby we can establish a liason with you and your operation.

RPM has never been sustained nor assisted by any grants, donations etc. Our revenue is derived principally from advertising and secondarily from subscriptions. Our circulation is world-wide.

It is important to emphasize that we concentrate on Canadian music and Canadian news and that we are primarily interested in fostering a record and music industry in Canada.

From time to time, we supplement our publishing activities with institutional happenings - such as our Communication series of industry meetings, held across Canada.

Our yearly poll of subscribers became the Juno Awards which are now nominated and voted for by the members of the Canadian Academy of Recording Arts and Sciences (CARAS). As well, RPM has introduced the Big Country Awards and the Canadian Music Industry Awards. This year we will hold the first RPM Talent Buyers Conference.

It is our desire to promote Canadian artists and Canadian music to Canadians - throughout the world.

In 1964, RPM was the first Canadian trade paper, designed specifically, to report on the Canadian music industry. We have been here each week for close to fourteen years. RPM was the first to compile a national listing of 100 singles and albums. We were the first to show record numbers and distributor codes. RPM was first when we began our music poll in 1964. We asked the industry who the top people were and made them known to the trade, at home and abroad. We were also the first, when we introduced the Gold Leaf Awards, which allowed companies to certify their outstanding record sellers with uniform figures, thereby eliminating the need for awards based on any figure the companies thought was an outstanding seller.

RPM *the first*

Seven years ago, we created the Juno Awards, a yearly gathering of record people to honour the finest their industry could offer. The Juno Awards have brought a great deal of attention to the industry and have helped English Canada lay the foundation for a "star system".

RPM was the first in designing and making available, to the industry, the MAPL system for identifying Canadian content.

We published the first Canadian Music Industry Directory in 1965.

We were the first to coin the expression Cancon, now internationally accepted as identifying Canadian content product.

Several years ago, RPM was the first to instigate a series of Communication meetings which gave the industry an opportunity to look at itself. The industry found both negatives and positives, some solutions but, above all, a common cause. We were the first to report that fact.

We aren't ashamed of the contribution we have made to the Canadian music and record industry. We are certainly encouraged with the dialogue we have created among programmers.

With our pulse on the industry, we will also be the first to come up with other imaginative and progressive ideas. We have several projects presently in the planning stages which, we believe, will add prestige to the Canadian industry.

Now, another first for RPM. This is the first time we have asked the industry to acknowledge . . . RPM . . . the first.

Next time you are talking about RPM, think of us as RPM . . . the first.
