News?

Not to the correspondents of the CBS Television Stations Washington News Bureau. Their assignment is pinpointed: to cover for the five CBS Owned television stations Washington news which is of specific local interest to viewers in the New York, Los Angeles, Chicago, Philadelphia and St. Louis areas. Headed by George Reading, Manager-Correspondent, and Lincoln Furber, Correspondent, this Bureau is a major extension of the stations' own local news departments—and another reason why these stations are so highly regarded (and so constantly viewed!) in the five communities they serve.

CBS Television Stations Washington News Bureau

Quick guide to Yearbook sections

Information in this YEARBOOK is divided into homogeneous sections as described in the boxes at right. Here's how to locate a section rapidly:

Hold the YEARBOOK in your left hand. With your right hand bend the book back so that the black markings on the right edges of the pages appear. If you wish to find a page in the A section, for example, place your right thumb over the black bar to the right of the letter A at upper right on this page and riffle through all pages containing a similar black bar in the same position; at the end of that sequence of marking will appear the first page of the A section. The same procedure can be used to find the beginning of any other section, starting with your thumb on the black bar on this page to the right of the letter of the section you wish to locate.

Extent of Broadcast Editorializing

Over 60% of AM stations, about 55% of TV's, and 30% of FM's are now editorializing, at least occasionally, according to results of a nationwide survey for the BROADCASTING YEARBOOK.

The editorializing survey was obtained from the YEARBOOK questionnaire sent to all radio and TV stations. Here are the results:

	AM	FM	TV
Stations editorializing	1,973	97	208
Stations answering editorializing question	3,225	309	383
Percent editorializing	61.1%	31.4%	54.3%
Percent editorializing daily	9.9%	1.9%	13.3%
Percent editorializing weekly	6.4%	3.8%	9.9%
Percent editorializing occasionally	44.8%	25.7%	31.1%

Only FM stations that are independently programed are considered in this survey.

In Columbia, Montgomery and Toledo

is a "People-to-People" program

3,379,600* people in these three major market areas depend on Cosmos stations for news, information and entertainment. Each station is effective and influential in its respective community—well-manned with experienced, eager personnel who actively seek out the needs and desires of the audiences they serve — then fulfill those requirements. Average weekly audiences — both Nielsen and ARB — offer eloquent proof.

*Includes population in counties with 25% or more Net Weekly Circulation. (ARB Coverage Study/65) (Toledo ARB Coverage Study/60.) Population 1/1/65, SRDS.

THE RADIO AND TELEVISION AUDIENCES

Radio and television were in more U. S. homes than ever before as 1965 neared an end.

■ Television.—A total of 53.8 million homes, or 94% of all U. S. homes (excluding Alaska and Hawaii), were TV-equipped as of September 1965, according to the A. C. Nielsen Co. The American Research Bureau estimated the total would be 54,456,300 TV homes by Jan. 1, 1966, not counting an unspecified number of sets in Alaska.

■ Color TV.—Color television sets in use in the U. S. totaled 3.6 million in August 1965 and were expected to reach 5 million by Jan. 1, 1966, according to estimates by NBC.

■ Radio.—The Radio Advertising Bureau estimated that 55.2 million U. S. homes, or about 98%, were radio-equipped in 1965.

■ Radio Sets.—The number of working-order radio sets in the U. S. would be 242 million as of Jan. 1, 1966, according to preliminary estimates of the RAB. The estimates anticipated this distribution : 172 million in homes, 60 million in automobiles, 10 million in public places. The new total would represent a gain of 13,721,000 sets, or 6%, over the 228,279,000 estimated by RAB for Jan. 1, 1965.

■ Viewing and Listening.—The extent to which radio and television sets were used is indicated in numerous ways in the tables that follow. The television figures were furnished by the Nielsen company and its Nielsen Television Index (NTI). The radio data came from RAB and other sources as noted.

MINUTES OF TV VIEWING AND RADIO LISTENING BY TV VIEWERS

Amount of time that adult viewers (over 18 years of age) spend daily with the broadcast media, by day part and for the day as a whole, is shown in the following tables. In each case the viewers are classified in five groups according to how much time they spend with TV, from the 20% who watch most (at top) in descending order to the 20% who watch least (bottom). TV dominates the 6 p.m. to midnight period, but radio has an edge in all other day parts, with the biggest advantage among lighter viewing groups. Data, the most recent available in this form, was prepared for Radio Advertising Bureau by R. H. Bruskin Associates, independent research firm, based on nationwide interviewing conducted in July 1964.

VIEWING PER HOME PER DAY. The time the average TV home spends watching television each day is depicted in the table above, which not only shows the daily average over the full week but also breaks down the daily average by day part and days of the week. Data is NTI January-February 1965.

HOURLY TRENDS IN VIEWING, LISTENING

HOUR-BY-HOUR variations in television and radio audience sizes are shown in these tables. The TV figures, from Nielsen's NTI data for March-April 1965, show the television audience in terms of millions of homes tuned in per average minute of each hour. The radio figures, compiled for RAB by Sindlinger & Co. in a 1964 study, represent the percentage of all adults who listen to radio, also hour by hour.

WQXR FM now atop the Empire State Building

(next the moon!)

When you're the first FM station in New York...when you're the first in New York to broadcast in FM Stereo... and when you're America's no. 1 AM/FM, fine music station people look up to you. They've come to expect the very best in sound and programs. So now we've moved our FM transmitter to the tallest building in the world to give you, our listeners, the benefit of more power over a wider area. What about the future? Well, when you're that high what do you do for an encore? Anybody know any astronauts?

Cable: AMBROCASTS to start Worldvision working for you in 20 million responsive homes.

Worldvision is ABC International's world-wide television network. It is the fastest-growing advertising medium in the world—a new kind of network designed for today's new breed of international businessmen. Here are the facts: 23 countries represented. The ABC Worldvision Network includes television stations in the following countries: Canada, Mexico, Japan, Guatemala, El Salvador, Honduras, Nicaragua, Costa Rica, Panama, Venezuela, Ecuador, Brazil, Colombia, Argentina, Lebanon, Iran, Nigeria, Dominican Republic, Okinawa, Philippines, Australia, Haiti, Netherlands Antilles. This represents a total of more than 20 million television homes—*an estimated 90 million viewers with a spending potential of $136 billion in disposable income.* The Worldvision Network can give you the best programs and scheduling to reach one—or all—of these far-flung markets efficiently through the impact of television. And the Worldvision Network is easy to use—as easy as cabling Ambrocasts.

THE BUSINESSWEEKLY OF TELEVISION AND RADIO
1966 YEARBOOK ISSUE
Vol. 70, YB-31 January 1, 1966

Color TV comes into its own

Stations are ready with 88% able to transmit some form of color; 84% network; 46% slides; 48% film; 23% tape, and 12% originate own live color

It was the year for color—in programing, receivers and equipment.

The programing provided little difficulty, just more time, effort and more attention to background detail. But by the end of 1965, NBC-TV had only one regularly scheduled half-hour in black-and-white during prime time, and ABC-TV and CBS-TV had about 50% of their schedules in color.

However, at the manufacturing end the story was a different one as stations moved at breakneck speed to get color equipment and viewers showed up at TV dealers with cash in hand, only to find there was a set shortage. By year's end the manufacturing backlog had become a Paul Bunyan-sized logjam.

For those stations which already had or were able to get color equipment it was put into service in a hurry, and a BROADCASTING count in November showed that 526 commercial stations (88%) of the 601 commercial TV's on the air at that time were able to carry some form of color or expected to be in color in early 1966. This was an increase of 49 stations from a similar count at the end of 1964 (BROADCASTING, Jan. 18, 1965).

Camera Shortage ■ The most-publicized shortage was that of live color camera chains. Although the manufacturers were moving them out to stations it was a slow process and left station managers with target delivery dates that were, in some instances, only dreams. Color film, slide and tape equipment moved at a better pace.

The survey of stations from the YEARBOOK questionnaire and network sources showed that by mid-November 506 (84%) of the stations on the air could carry network color; 278 (46%) could show color slides; 76 (12%) could produce local live color; 289 (48%) could transmit color film, and 142 (23%) could show color tapes. Comparable figures at the end of 1964 showed 77% had network color capability; 26% could show color slides; 11% local live color; 28% color film; 9% color tapes.

The rush that the stations put on the manufacturers was at least equaled by Mr. & Mrs. Average Consumer who walked into their TV dealers, ready to take a color set home that night. The backlog in receiver orders was in the rectangular-tube models. No manufacturer reported a shortage of the regular 21-inch round tube sets, but the 23-inch and 25-inch rectangular production was falling far behind the consumer demand.

Speed-Up ■ During 1965, RCA, GE, Zenith, Motorola, Sylvania all announced plans to step-up production. Included was a new RCA plant in Indiana needed to handle color.

General Electric introduced its 12-inch color portable during 1965 and as the year drew to a close, Zenith said it planned to begin quantity production of a 22-inch rectangular tube in 1966. Motorola said it was developing a 21-inch rectangular tube in conjunction with Owens-Illinois Inc. RCA had no comment on reports that it was getting ready to introduce a 22-inch rectangular tube.

The outcome of this new tube interest seems to indicate the 21-inch round tube is on its way out and while rectangular-tube set prices generally tended to go up towards the end of the year, the round tube held its own. The dealers and manufacturers were trying to clear their inventory.

The following table shows the type of colorcasts each station can carry. Asterisk indicates station about to go on air in late 1965 or early 1966.

Radio-TV Station Employment

In this table, groupings of fulltime staffs of radio and television stations have been made. Percentage figures of the total reporting stations employing a given number of people are shown. For example, 0.5% of all reporting television stations and 12.7% of all reporting AM radio stations employ full-time staffs of from one to five persons. Figures in parentheses are cumulative figures to a given point on the chart. For example, 4% of all reporting television stations, and 56.3% of all reporting AM radio stations, employ full-time staffs of 10 or less persons.

NBC INTERNATIONAL: UNIQUE GIANT IN A UNIQUE FIELD

In the realm of world communications, television enjoys a privileged role. No other medium can unite peoples of different lands and backgrounds so quickly, intimately and effectively. And in the field of international television, you will find one organization whose resources and experience have placed it in a class by itself. ■ That organization is NBC International. In more than 80 regions—representing more than 300 stations over the globe—NBC International renders an unequalled service ranging from the construction of TV facilities to the distribution of TV programs. It is a service that not only grows with the times, but anticipates them as well. Color TV, for example, is mushrooming in popularity throughout the world; and—because of its association with the National Broadcasting Company, pioneer in color TV—NBC International is uniquely prepared to satisfy this increasing demand for color. Uniqueness, in this instance, begins at home, where NBC is the Full Color Television Network. ■ In *all* instances, NBC International has brought a pioneering spirit to global communications—and has become, in consequence, the leading broadcaster in the international field.

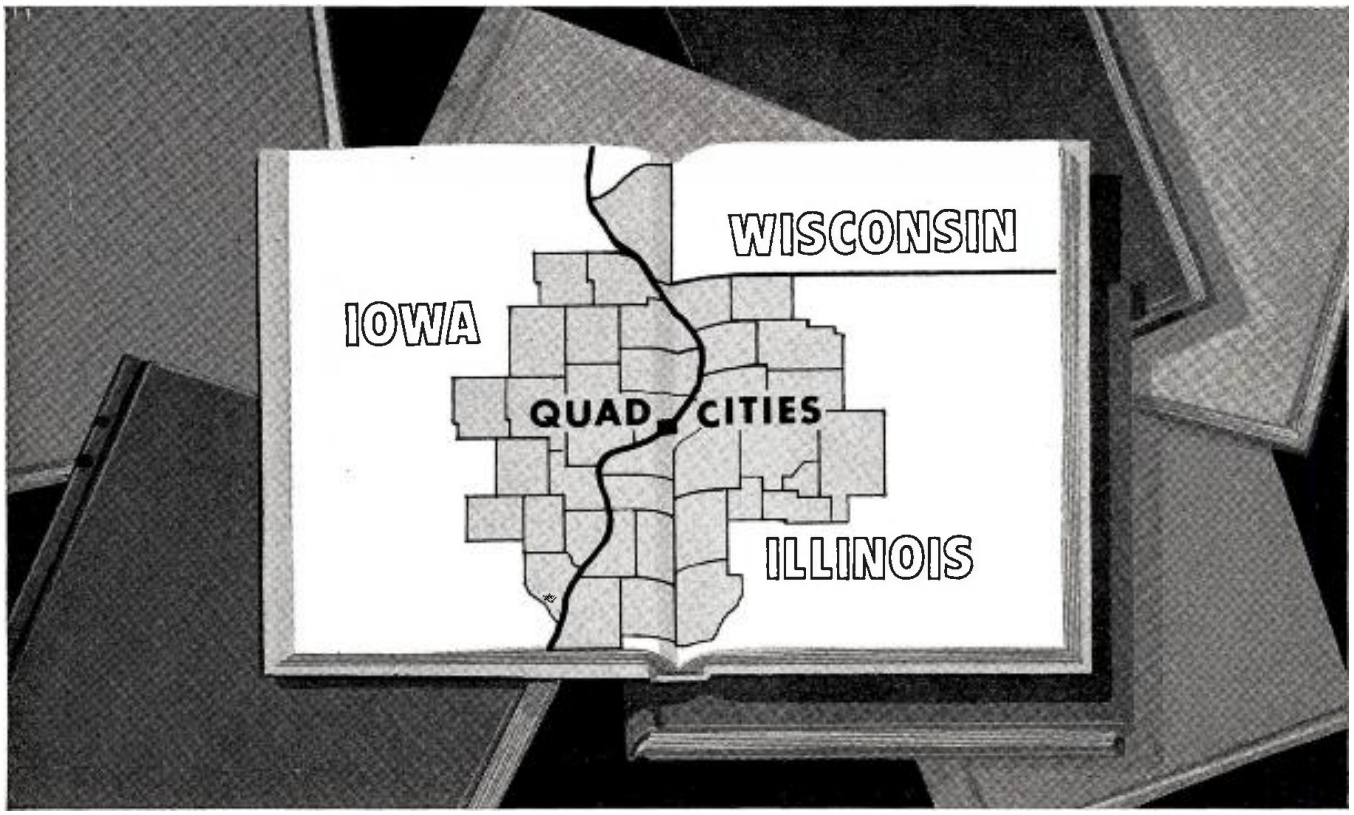
How do you rate Davenport in your book... 43rd, 47th or 54th?



No matter how you rate it... WOC-TV delivers this market - effectively!

Depending upon your source material, the Quad-Cities market can be rated **43rd, 47th** or **54th.** We're 43rd in Total Retail Sales per Household and 47th in Consumer Spendable Income per Household according to SRDS Consumer Market Data, January 1, 1965. We're 47th in spot TV billings per TV family and 54th in spot TV billings (FCC 1964 spot TV revenue figures.)

No matter how you add it up, the Quad-Cities is a big market. We're speaking of retail sales approximating 2½ billion dollars. The Quad-Cities is the largest market between Chicago and Omaha, Minneapolis and St. Louis. WOC TV-6 is the most effective advertising medium in this area.

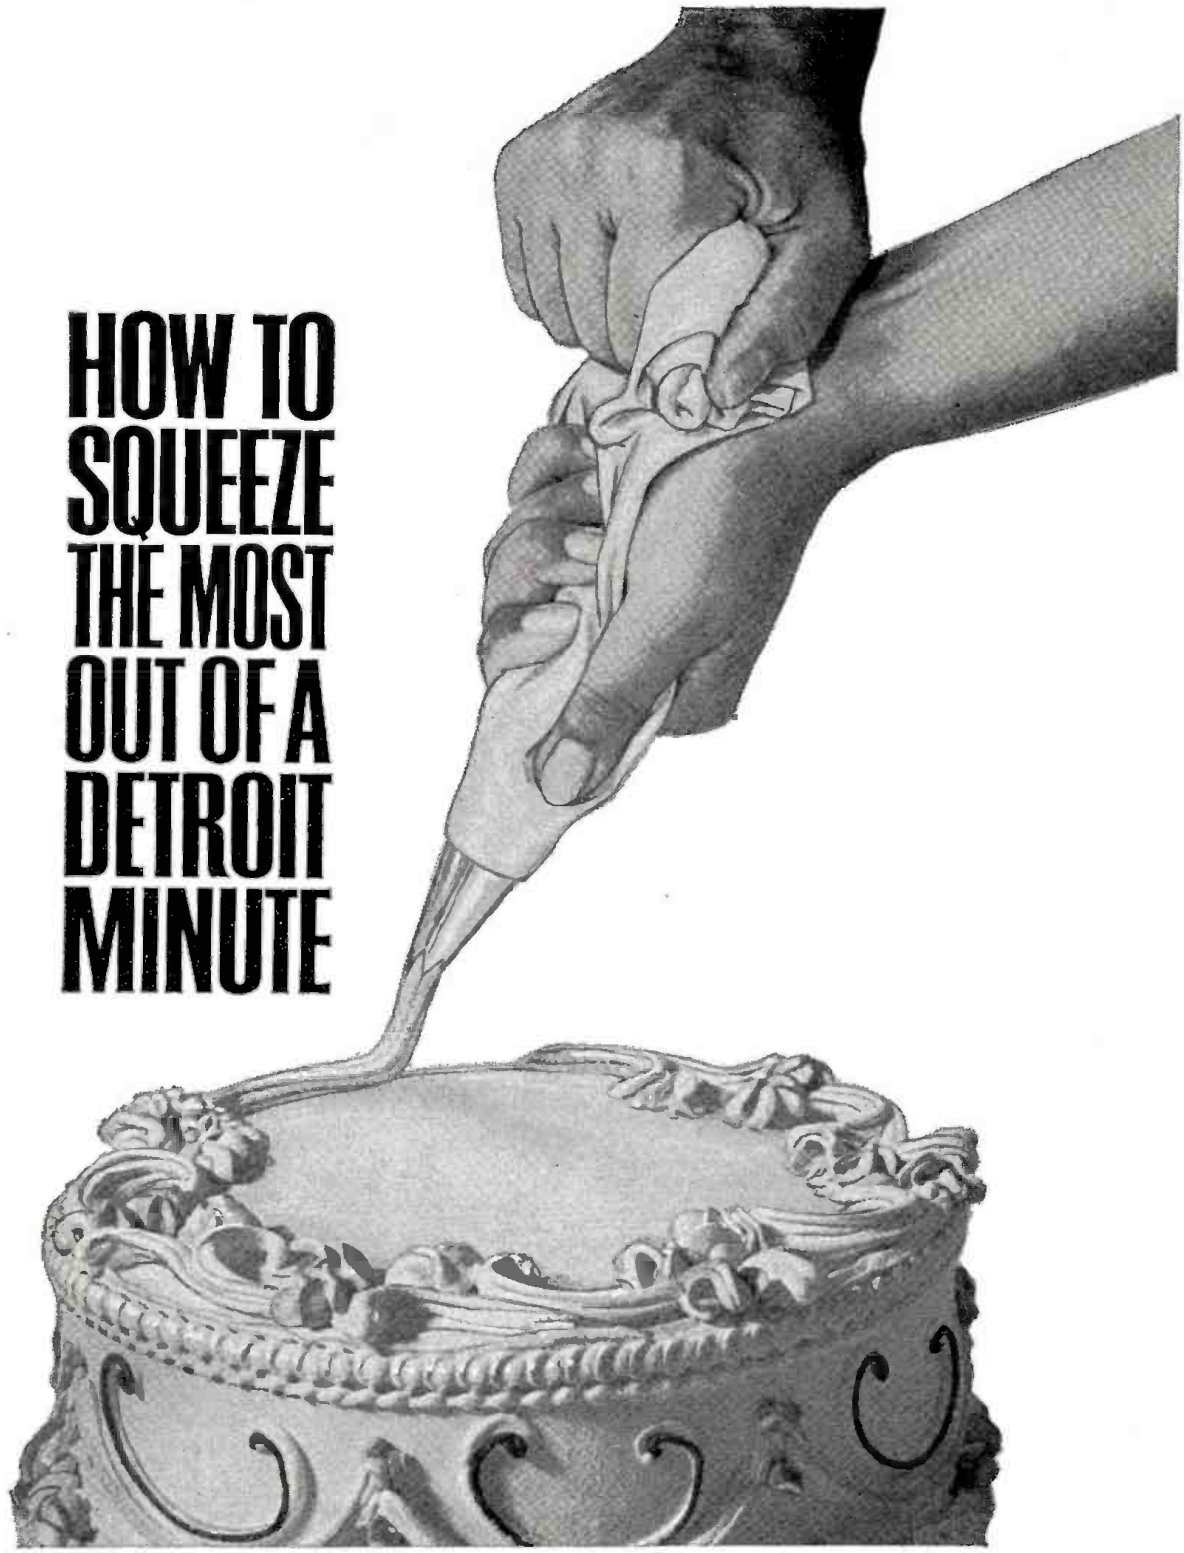
HOW TO SQUEEZE THE MOST OUT OF A DETROIT MINUTE



The WWJ Stations **understand** their community. This **understanding** serves Detroit in many ways: Special emphasis on local affairs and news. A knowledgeable approach to total programming. A sincere devotion to community service. An affiliation with NBC that goes back 38 years. And home ownership by The Detroit News.

Because Detroiters know that WWJ and WWJ-TV **understand** their community, they are more receptive to advertisers' sales messages on these stations. Consistent results through the years have proved that the way to squeeze the most out of a Detroit minute is to spend it on the WWJ Stations. Whether you sell cakes or cosmetics.

How to 'crack' the South's most important market

HIGH TOWER WVEC-TV

NORFOLK / HAMPTON, VIRGINIA

Here is Virginia's No. 1 Market.

Here is the largest concentrated military market in the free world.

Here is a vital market of over 1,200,000 viewers. WVEC-TV reaches them all . . . because WVEC-TV's new 1049 foot tower increases coverage 3000 **more** square miles — 60,000 more homes.

A nice nut to crack.

AFTER KNOCKING ON 935 DOORS.....

MR. MAGID FOUND OUT MILWAUKEEANS ARE CRAZY ABOUT US.

For example, they think WTMJ-TV is the most professional, most modern, most mature television station in Milwaukee. They feel WTMJ-TV has the best, most complete news. And the most experienced, most professional news staff.

What about weathercasts? They like those on WTMJ-TV best. They like our weatherman most of all, too. Sports? The majority said WTMJ-TV has the top coverage. Best sports staff, too. And movies? There again Milwaukeeans prefer to watch ours.*

What's all this mean to you? Simply this: Since WTMJ-TV is first choice with Milwaukeeans, shouldn't it be first choice with your Milwaukee television plans? Of course it should.

**From a study of attitudes and opinions, Frank N. Magid Associates. For further information, contact WTMJ-TV or its national representatives.*

THE QUEEN "GOT THE NEWS" IN 1493

Your competitors would hock their family jewels to hear about a market like Puerto Rico in 1966.

A market with limitless tropical beaches, lush mountain scenery and 2,500,000 eager and prosperous customers. Discover the mountains and beaches for yourself and, while you are living it up, El Mundo Enterprises will deliver the 2,500,000 customers. Each of these customers buys twice as much U.S. goods as his Canadian counterpart and he lives in a market more than twice as easy to reach.

To reach this rich market El Mundo Enterprises provides a unique quadriga of media to get your message to the eyes and ears of more people than live in Dallas and Houston combined!

El Mundo Newspaper is first, by far in circulation and prestige. Founded in 1919, it pioneered ABC certification outside the continental U.S. and today its editorial influence is reflected in its advertising effectiveness.

Telemundo (WKAQ-TV, Channel 2) according to the latest Island-wide survey airs the first fourteen out of the Top Fifteen shows in Puerto Rico. With Network coverage, Telemundo reaches virtually every TV home in Puerto Rico with Grade A reception.

WKAQ is not only the most popular station on the island, but it also adds more evidence of the vision of El Mundo Enterprises. For forty years it has served the community with the best available programming and facilities. With its network affiliates, WORA, Mayagüez; WPRP, Ponce; and WABA, Aguadilla, it saturates this lucrative market.

Film and Dubbing Productions, Inc. offers meticulous lip-synch dubbing in a flawless "neutral" Spanish acceptable in both pronunciation and vocabulary in all Spanish-speaking markets.

TV Allocations, State, City

Note: UHF and VHF TV allocations have been made by the FCC to the following cities. A plus or minus after a channel indicates that a station occupying the channel must operate with its carrier frequencies offset 10 kilocycles above or below, respectively, the normal carrier frequencies. The offset indicators are not shown for UHF assignments, which were the subject of a rulemaking adopted June 4, 1965. The designators were to be added in a later order, but had not been published by time the Yearbook went to press. Meanwhile, the appropriate designators are shown on construction permits and licenses issued for UHF stations.

Asterisks (*) indicate channels reserved for noncommercial use.

DIRECTORY OF AM AND FM RADIO STATIONS IN THE U.S.

Listed in this directory are all AM (amplitude modulation) and FM (frequency modulation) radio stations in the U. S. and its territories and Canada. Information for each station has been corrected to Oct. 15, 1965.

The following sample listing is given, with explanation of order and meaning of information following the listing.

ANYTOWN (401) Howcom county
WOF Jan 1, 1963: 1600 kc; 50 kw-D, 10 kw-N, DA-D (L-WOOF). Box 100. (00001). 462-0100. TWX 401-568-0100. WOF Bcstg Co. (acq 7-1-63). See WOF Bcstg Stns, and Nwspr.
Net: ABC. Rep: Petry, Penn State. Spec progs: lt. 1 hr wkly.

WOF is in Anytown, in Howcom county. Its Direct Distance Dial telephone code is 401.

WOF began operation Jan. 1, 1963. It operates on 1600 kc, with 50 kw in daytime hours, 10 kw at night. It uses a directional antenna during day hours (DA-N indicates nighttime directional antenna; DA-1, indicates directional antenna at all times, and DA-2 indicates directional antenna with differing directional patterns in daytime and nighttime hours. SH—specified hours of operation; ST—station shares time; CH—critical hours; CP—construction permit; CR—Canadian restricted). This station is limited to operating at nighttime, only when dominant station (WOOF) is not operating. Its mailing address is P.O. Box 100, ZIP code 00001. Telephone is 462-0100. Teletype Writer Exchange (TWX) number is 401-568-0100. Licensee's name is WOF Broadcasting Co., which purchased the station from its previous owner on July 1, 1963. (If no acquired date is listed, licensee is original owner.) The licensee owns other stations, which are listed in the "Group Ownership" section of this yearbook under WOF Broadcasting Stns. The licensee also has connection with print publications which are listed in the "Newspaper Ownership" section.

WOF is affiliated with the ABC network. Its national sales representative is Petry, and regional rep, Penn State, follows the national rep. WOF has one hour of specialty programs each week in the Italian language.

WOF-FM 1963: 106.9 mc; 20 kw. Ant 200 ft. Dup WOF 60%. Stereo.
WOF-TV affil.

WOF-FM began operation in 1963 on 106.9 mc, with an effective radiated power of 20 kw. Its antenna is 200 feet above average terrain. It duplicates the programing of WOF 60% of its broadcast schedule and programs independently the remaining time. It also broadcasts in stereo by the multiplex system. Licensee of the FM station is the same as companion AM station, unless otherwise listed.

WOF-TV is the TV adjunct of WOF-AM-FM.

Listings for independent FM stations follow the format of AM station listings.

BEELINE® COUNTRY...
AWFULLY BIG IN FARM INCOME

. . . and BEELINE RADIO is a proven way to reach this important market

You can bank on *results* when you put your sales message on Beeline Radio. The Inland California and Western Nevada counties covered by these four stations have more combined farm income than any one of 46 states — $2.01 billion. This is the audience Beeline Radio has been reaching for many years. Beeline stations have the listener loyalty that produces sales results for you. In your next media schedule, be sure and include the four Beeline stations — the key to California's Inland Valley and Western Nevada.

The K-TTT Story . . .

We program bright pop music which is listened to in 15 rich Nebr. counties where the farm income is double the national average.

Our announcers are real pros and a full time news staff aided by fully equipped mobile news unit and 11 area correspondents doesn't miss a trick.

K-TTT leads the field in all surveys. But the proof of the pudding is in our list of local sponsors. It's a long one.

We are 500 watts on 1510 kc. with 10,000 ideas.

WSPD
RADIO

CONTINUITY IN MANAGEMENT

44 years' EXPERIENCE

and responsible service to TOLEDO

WSPD-Radio is one of the golden circle of only 30 radio stations which were on the air before January 1, 1922.

Its first broadcast was April 15, 1921, just a little more than 44 years ago. In 1927, it became the first of the Storer Stations—when it was acquired by George B. Storer, Sr., and his associate, J. Harold Ryan.

From WSPD and from the experience and skills developed in Toledo has grown The Storer Broadcasting Co.—one of the nation's leaders in responsible electronic communication, entertainment and service.

From that first day in 1927 under Storer management, WSPD has earned and maintained a dominant influence with the people of Toledo, Northwestern Ohio and Southern Michigan.

WSPD, Toledo—in 1921, the first station in Northwestern Ohio; today, still first in audience among all stations serving this bustling, prosperous corner of the Buckeye State.*

WIS-RADIO

SERVING THE STATE FROM COLUMBIA WITH SOUTH CAROLINA'S ONLY TOTAL RADIO BROADCASTING SERVICE

WIS Radio, for 36 years, has been the symbol of Quality Broadcast Service to South Carolinians and advertisers alike, with more local, regional and national advertisers than the next three leading stations combined. WIS is the only local radio station subscribing to the Industry Code of Good Practices indicating responsibility in programming and observing minimum standards in the presentation of advertising.

Golden Horn stations reach the special audience you want with the kind of responsible broadcasting that converts listeners into a loyal audience. Each has an experienced staff working to make their station a living part of the community. They understand and fulfill their obligation to their communities because they are sensitive to the special interests and special needs of their audience.

Against this background of responsible, intelligent broadcasting, Speidel air salesmen can give your product an endorsement that counts. Try Speidel "community radio" and watch the sales curve climb.

It's one easy buy for all 6 stations or any combination that suits your marketing plans. For full details call our representatives —

KRLD
delivers
MORE

. . . LISTENERS than any single station in the Southwest

According to the Nielsen Coverage Survey '61, KRLD Radio is the NUMBER ONE station in the Southwest. KRLD Radio also delivers the biggest audience of any station or frequency in the Dallas-Fort Worth metropolitan area. For details, see your Advertising Time Sales representative.

In each field, there
is a leader—and this leader selectively
attracts the major share of men and women
who are leaders themselves.

Your best index of a business paper's
worth is the *PAID* circulation it commands.
People *pay* for a publication because
they value it, want it, depend upon it as a
reliable source of facts. Only *quality*
of editorial coverage can make
this possible.

IN THE BUSINESS OF BROADCAST
ADVERTISING the leader is
BROADCASTING. Through the
pages of BROADCASTING, your own
advertising reaches more than *twice* the paid
circulation among vital agency-&-advertiser
readers than any other TV-radio publication
can offer. And at a cost-per-contact
less than *half* that of any other.

This is the largest audience with the
greatest potential at the biggest economy.
BROADCASTING delivers it.

IT'S NO SOONER DONE THAN SAID ON KPRC!

Folks who have been in the 5,000 watt, 22 county coverage area of Radio Station KPRC for any length of time know that the KPRC frequency, 95-0, is the place to stay tuned if you want complete, concise, conscientious up-to-the minute news coverage! KPRC maintains Houston's largest radio news staff, headed by enthusiastic veteran Ray Miller and manned by reporter-announcers like Tom Fox, Will Sinclair, Lee Tucker, Garry James, Frank Dobbs, Bob Harper, Bruce Eagin, Jack Long and Ray Norton, aided and abetted by the Associated Press, UPI and NBC News. Newcomers are instantly alerted to KPRC award-winning News the first time they drive around Houston by the 20 award-winning posters KPRC exhibits purely to let people know its news is **on the air.** . . . These posters, like the one shown above, are linked by telephone lines to the news announcer's booth at KPRC, and when he sits down to broadcast he flicks a switch and all 20 boards start blinking. Houston motorists pay immediate attention — switch to KPRC, 95-0. This is what is known as "racking up" a maximum audience! It makes KPRC

FIRST WORD IN NEWS, LAST WORD IN MUSIC

because the music library at KPRC has been more than 40 years in the building, and is up-dated daily with a delicate, almost seismographic feel of the KPRC audience pulse. KPRC is an adult radio station and reflects mature programming ideas and innovations. Its taste in music never irritates, never jangles nerves, never palls, but always stimulates, encourages, and pleases. And, KPRC isn't just a news-music machine. It introduces its music with

THE MOST POPULAR PERSONALITIES AROUND!

Mornings begin at KPRC with Tim Nolan and Bob Byron, the irrepressible pair in town. Individually they're head and shoulders above the usual cut. Together they're unbeatable! They hold forth from 6:15 until 10 each weekday morning. Alan Johnson follows them, from 10 until 2 in the afternoon with his sly wit and humor, and Charlie Johnson regales the loyal KPRC listeners with his ingratiating manner and his good nature from 2 to 6. Night-time belongs to Jim Young at KPRC when there isn't a major league baseball game, or a Southwest Conference football or basketball game on the air, and when he gets the chance, Jim makes the best of it! **You can enjoy the best of it in Houston by using**
