# McClatchy TV is big news 7 nights a week in a \$14,000,000,000 market\*

Now, there's more news every night on KOVR in Stockton/Sacramento and KMJ-TV in Fresno.

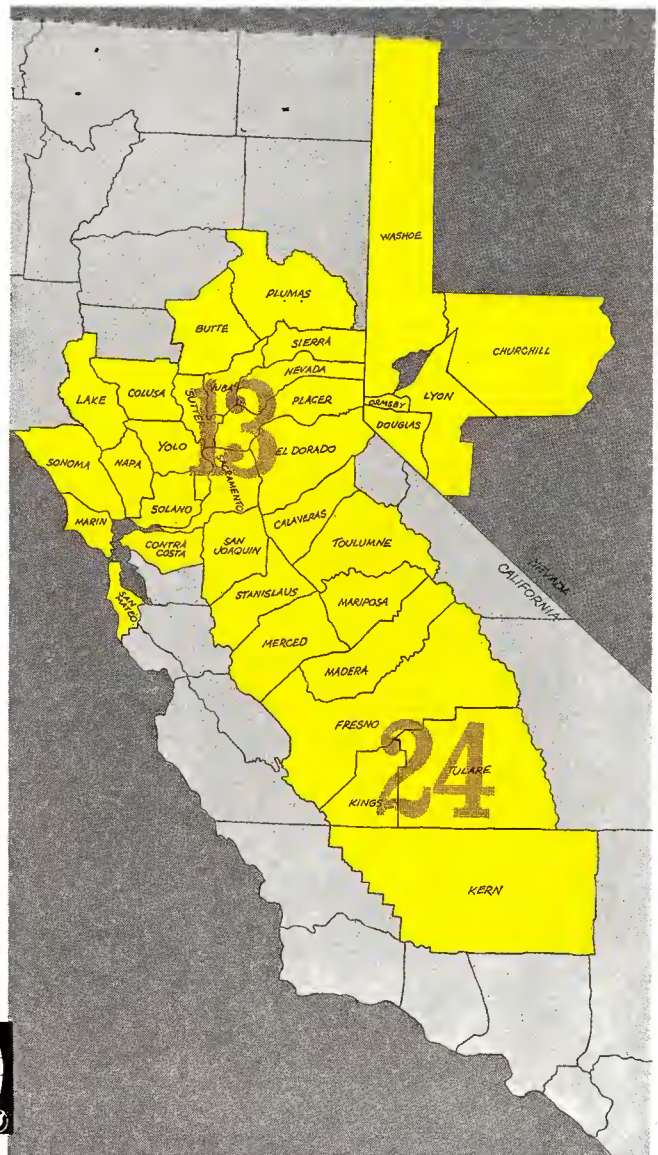

KOVR, in the nation's 25th ADI TV market, presents NEWS/13 every night of the week. It's the only Stockton/Sacramento TV news with live coverage from Stockton as well as Sacramento. Monday through Friday, NEWS/13 is ninety minutes in length, with both local and ABC network coverage.

KMJ-TV, in the nation's number one agricultural county, presents NEWS/24. It features KMJ's own up-to-the-minute coverage of the Fresno market and the West. And it includes the NBC Nightly News, with Brinkley, Chancellor and McGee.

Make sure these vital California areas get the news about your product. Put your message on McClatchy TV.

\*Effective buying income, 1969, for the combined KMJ-TV 6-county market and KOVR 30-county market — (\$14,773,545,000).

# How To Get In On A Great Performance.

## On the road

If you're going to take your show on the road, you'll get a great performance from the "touring pros"—the crews and mobile-unit facilities of the Hughes Television Network. We've logged more hours on location than anyone else in the business. And you know, great performance comes from experience.

## In sports

When it comes to performance in the field of sports, we outscore everyone. The Hughes Sports Network telecasts more hours of sports programming than anyone in the industry. As a matter of fact, we created the concept of the tailored, regional network to carry many of these events. That's why more stations and sponsors are coming to Hughes each year for real performance at reasonable cost.

## In prime time

Now it's possible for an advertiser to give a performance in prime time on a national network without going to Tom, Dick or Harry. We've done it for people like Xerox, Faberge and Alcoa with prime time entertainment and documentary specials by giving them their own networks. And stations seem to like the alternative that this kind of network participation has to offer.

## Both sides of KOIN come up on top in Portland

Choosing the channel that more people watch doesn't have to be a toss-up. Not in the Portland market area. Not when KOIN-TV is the favorite news *and* entertainment station.

KOIN-TV reaches more TV homes than any other Portland station. KOIN-TV's net weekly circulation is 558,750—60,691 more than the second best circulation. And in that true measure of viewer loyalty, "average daily circulation," KOIN-TV leads station Number Two by 58,011 homes.

Whatever audience is your target, you'll find more customers watching KOIN-TV. Check the ratings yourself. Then cash in with KOIN.

# Name another business magazine that's quoted oftener than we are.

Come up and look at our scrapbooks some time. Or better yet, come up and help us paste clippings. We fall behind. It's hard to keep up when they're coming from points as far-flung as the "Chicago Tribune" and "Los Angeles Times," The New York Times" and "The Birmingham News," "The Wichita Sunday Eagle and Beacon" and the "Battle Creek Enquirer and News"—to drop a few names from a page picked at random in our current scrapbook.

We regard these clippings as endorse-

ments of our editorial quality. And so may you, if you're an advertiser looking for an environment that will add importance to your message.

Take our word for it. Just as journalists everywhere take our word for what is going on in your business.

# Houston is

...the market of tomorrow. Diversified building programs and far-reaching plans have made Houston the forerunner in the race to face the future.

Houston is...balanced growth and expansion. While the booming suburban areas spread out, the downtown area reaches up...providing "total communities," realistic transportation and a planned environment.

And while investment capital pours in...so do people...at the rate of a 38% increase in population in the last decade.

Part of the developing Houston is:

- ALLEN CENTER, Trammell Crow and Metropolitan Life's 21-acre, billion-dollar urban project.
- GREENWAY PLAZA, 127 suburban acres blossoming with office buildings, hotels and apartments.
- HOUSTON CENTER, Texas Eastern's billion-dollar plus redevelopment of 32 downtown blocks.
- PLAZA DEL ORO, Shell's 526-acre development near the Astrodome complex.
- ONE SHELL PLAZA, a 50-story headquarters tower...and across the street, its rising sister building, TWO SHELL PLAZA.
- THE GALLERIA, the new hub of Houston's high-fashion shopping area, with three tiers of 100 retail stores and restaurants surrounding an over-sized ice-skating rink.
- THE ASTRODOME, world's largest indoor arena and adjacent convention facility.

Houston is...a many-faceted market strong enough to attract the world headquarters of international firms...as well as millions of tourist dollars annually.

Houston is...facing tomorrow...today.

## TV Allocations, State, City

Note: UHF and VHF TV allocations have been made by the FCC to the following cities. A plus or minus after a channel indicates that a station occupying the channel must operate with its carrier frequencies offset 10 kilocycles above or below, respectively, the normal carrier frequencies. The offset indicators are not shown for UHF assignments, which were the subject of a rulemaking adopted June 4, 1965. The designators were to be added in a later order, but had not been published by time the Yearbook went to press. Meanwhile, the appropriate designators are shown on construction permits and licenses issued for UHF stations. Asterisks (\*) indicate channels reserved

for noncommercial use. 1) Following the decision in Doc 18261 (amendment of rules regarding geographic reallocation of channels 14-20 to land mobile radio in the 25 largest urbanized areas of the U.S.) channels so indicated will not be available for use until further action by the FCC. 2) This channel is not available for Elgin, Ill., unless FCC determines it is not needed at Joliet, Ill. 3) This channel is not available for Asbury Park, N.J., unless FCC determines it is not needed at New Brunswick, N.J.

# YOU LEARN A LOT IN 44 YEARS

Storer Broadcasting has learned a few things over the years. We hope we never forget them.

We've learned that the most important element in a station's success is a responsive, continually building audience with confidence in a broadcaster's integrity and credibility. We've learned that the best way to develop such audiences is to become sincerely involved in the communities our stations serve—in the problems, the aspirations, the undertakings, the achievements, even the failures, when the objectives are worthwhile.

All this is not entirely out of charity. There's a tangible reason, too. The more effective we are in our communities, the more effective we are for our advertisers, the more

effective we are for ourselves. Our "most important product" is our audience and community reputation. We've worked at it for 44 years and plan to continue working at it as good neighbors, involved friends and effective broadcasters. That way everybody wins.
