## HOW MANY CALLS DO YOU GET FROM PEOPLE INTERESTED IN TELEVISION CAREERS?

### **The American Film Institute GUIDE TO COLLEGE COURSES IN FILM AND TELEVISION** Edited by Michele Herling Preface by George Stevens, Jr., Director, American Film Institute

The only authoritative listing of film and television courses offered by American colleges, tells you . . .

- \*Degrees offered
- \*Number of majors on the undergraduate levels
- \*Scholarship and/or assistantship aid
- \*Distinctive programs or opportunities available to students
- \*Department chairmen and names and positions of all full-time and part-time faculty
- \*The major areas of film and/or television study
- \*Course titles followed by units of credit available
- \*Teacher training courses offered, and the person to contact
- \*Film equipment and facilities available
- \*Television equipment and facilities available

Arthur Knight, Professor of Film, Department of Cinema at the University of Southern California writes an exciting Foreword on Film about the exploding market for trained teachers and producers of film. He cites the tremendous expansion in television—commercial, educational, cable TV—as well as the wide variety of new vid-tronic devices.

George C. Stoney, Professor of Film and Television, Undergraduate Institute of Film and Television, New York University, in his Foreword on Television optimistically cites the changes in and out of film schools and says "the way we view and use the visual medium will be revolutionized and college campuses will be serving as the laboratories."

**If you put this much into the news,**

**it only takes this much to sell it.**

When it comes to selling KPRC TV News, our salesmen have it easy.

After all, look what they have to work with.

We have the largest news department in Houston.

We think it's the best. So do others. KPRC TV News has

won more awards than all the other Houston stations combined. And with good reason.

KPRC TV News has a tradition of excellence. As a result, we get the best news people.

And they operate from one of the most advanced broadcast facilities in America.

Because we put more into our news, the people of Houston get more out of it. Just check our ratings.

It doesn't take much to sell KPRC TV News.

In fact, with all due respect to our very fine salesmen, we think it sells itself.

## TV Allocations, State City

Note: UHF and VHF TV allocations have been made by the FCC to the following cities. A plus or minus after a channel indicates that a station occupying the channel must operate with its carrier frequencies offset 10 kilocycles above or below, respectively, the normal carrier frequencies. The offset indicators are not shown for UHF assignments, which were the subject of a rule-making adopted June 4, 1965. The designators were to be added in a later order, but had not been published by time the Yearbook went to press. Meanwhile, the appropriate designators are shown on construction permits and licenses issued for UHF stations.

Asterisks (\*) indicate channels reserved for noncommercial use. Footnotes: 1) Following the decision in Doc 18261 (amendment of rules regarding geographic reallocation of channels 14-20 to land mobile radio in the 25 largest urbanized areas of the U.S.) channels so indicated will not be available for use until further action by the FCC. 2) This channel is not available for Elgin, Ill., unless FCC determines it is not needed at Joliet, Ill. 3) This channel is not available for Asbury Park, N.J., unless FCC determines it is not needed at New Brunswick, N.J. 4) Channel 15 will not be available for television use until further action by the FCC. 5) Stations using these assignments shall limit radiation toward stations on the same channel in Puerto Rico. 6) Operation on this Channel is subject to the conditions, terms, and requirements set out in the Report and Order in Docket No. 19075, RM-1645, adopted January 5, 1972, released January 7, 1972, FCC-72-19.

## TV networks bill record \$1.8 billion in 1972

64 newcomers, led by J. C. Penney, help push last year's total \$200 million over 1971

There were more customers and more newcomers to the medium in what was a record billings year of 1972 for network television, according to the Television Bureau of Advertising.

TVB's report, based on compilations by Broadcast Advertisers Reports (BAR) and released today (March 5) put last year's total network billings at \$1.8 billion, or \$200 million more than in 1971 and \$100 million above 1970, a previous record year.

Network-TV advertisers increased in one year from 432 to 479. There were 64 newcomers to network TV in 1972, more than in the previous year. Among those new to network in 1972 was J.C. Penney Co. which by spending \$5.5 million topped the newcomers list.

One of the few major advertisers to show a decrease in its network invest-

ment, Procter & Gamble, was still easily number one in the medium with over \$116 million.

Biggest gainers among the top-10 network advertisers, comparing 1972 spending with 1971, were Ford, up 69% to \$50.1 million, and Sears, Roebuck & Co., up 59% to \$36.3 million.

## Seven new customers help spot TV bill \$1.4 billion in '72

Procter & Gamble stays at top of list with \$72.3 million

Advertiser investment in national and regional spot television amounted to \$1.4 billion in 1972, according to figures released last week by the Television Bureau of Advertising.

The figures, based on Broadcast Advertisers Reports (BAR) compilation in the 75 leading television markets, shows that seven advertisers joined spot TV's top-100 for the first time in 1972. They are: Magnavox, \$4,819,000; H. & R. Block (income tax service), \$4,121,400; Mutual of Omaha, \$3,722,400; G. Heileman Brewing Co., \$3,659,200; A. H. Robins Co., \$3,384,400; Control Data Corp., \$3,127,900, and Blue Cross Associates, \$2,952,900.

The leading five advertisers in spot TV last year were Procter & Gamble, \$72.3 million; General Foods, \$45.4 million; American Home Products, \$35.1 million; Colgate-Palmolive, \$35 million and Lever Bros., \$23.6 million.

TVB cautioned that the investments for 1972 should not be compared with those for 1971 since BAR last year switched to data from a major advertis-

ing agency as the primary source for estimating spot-TV costs. Under the new system, estimates appear smaller (though closer to actual cost), e.g., BAR figures show an 0.5% increase for 1972 while other major indicators show an increase of more than 14%.

**Day-by-day New York.** Procter & Gamble was the top spot-TV spender on New York's six commercial VHF stations in January-February—a not very surprising piece of news since P&G is by long odds the nation's biggest TV spender. But the way it distributed those New York dollars is something else: 68% of them went to the three independent stations—and virtually all of the rest went to a single network affiliate (table below). American Home Products ranked second but went the other way, putting almost 87% of its money on affiliates. General Foods, in third place, followed an in-between pattern, heavier on affiliates but with 31.5% going to independents.

These figures are taken from a Broadcast Advertisers Reports analysis of results of the first two months of its full-time monitoring of the New York commercial V's. The new service, called "Full-Time New York" and based on special time-lapse video-recording equipment ("Closed Circuit," April 2) is being announced today (April 16). Video recording (one frame per second) as well as full-time operation distinguishes Full-Time New York from BAR's monitoring in 74 other markets, where recording is audio only and

covers one week a month. Video recording, according to President Robert W. Morris, permits much faster processing. "We can publish our New York monitor reports in one week instead of the two to three weeks it used to take," he said. Expenditure figures for the reports are calculated by applying the estimated "going rates" for each station to each advertiser's actual schedule. The "going rates" are estimated for BAR by the timebuying department of BBDO. The expenditure estimates also include allocations for advertisers whose schedules were trade-out or barter.

The top-20 advertisers for the two months are shown in the table below, along with their estimated expenditures and the distribution of these funds among stations (whose rank order, on the top-20 basis, differs somewhat from their rankings as computed when all spot and local spending was taken into account). BAR said the top-20 outlay of \$8,579,063 covered 14,214 commercials, or 27.4% of the total dollars and 22% of the total announcements. In the group, BAR noted, are four local advertisers: Korvettes discount chain (ranked fifth), A&P food stores (sixth), Mazda Auto Dealers Association (eighth) and Sears, Roebuck stores (12th).

**"WGN?  
I just started listening ...  
Guess I got tired of the  
same songs every day.  
But on WGN,  
no two days are alike ...  
in fact, no two  
programs are alike."**
