Miscellaneous Radio Stations

Armed Forces Radio and Television Service (AFRTS).

AFRTS operates over 800 radio and television outlets located in 132 foreign countries. AFRTS facilities are established with major concentrations of U.S. forces overseas as well as in remote areas of Alaska, U.S. trusts, territories and possessions, aboard 684 Navy ships and as closed-circuit facilities in over 300 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specific geographical areas, i.e. American Forces Network-Europe in Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, Calif., and from their own local productions. Some outlets are broadcast operations and some are carried on closed circuit systems of various types. Domestic and Intelsat satellite services are leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

Headquarters: 330 Independence Ave. S.W., Washington 20547. (202) 619-2538. FAX: (202) 619-1241. Chase Untermeyer, dir; Robert T. Coonrod, deputy dir; Sid Davis, dir office of prog; Robert J. LaFleur, dir office engrg; Joe O'Connell, dir pub affrs; Beth Kinsley, dir media rel.

Policy: The Voice of America (VOA), the international broadcasting service of the U.S. Information Agency, is governed by its Charter (Public Law 94-350) which stipulates VOA will: (1) serve as a consistently reliable and authoritative source of news and that its news will be accurate, objective and comprehensive; (2) represent America, not any single segment of American society, and will therefore present a balanced and comprehensive projection of significant American thought and institutions; (3) present policies of the United States clearly and effectively, and will also present responsible discussion and opinion on these policies.

Facilities: VOA has 112 medium wave and shortwave transmitters which collectively have a total power in excess of 26 million watts. The power of individual transmitters in VOA's worldwide network ranges from 35 kw to 1000 kw. The VOA standard is to use three transmitters for each broadcast. The transmitters are located at 18 relay stations in the U.S. and abroad in Antigua, Belize, Botswana, Costa Rica, England, Greece, Liberia, Morocco, the Phillipines, Sri Lanka, Thailand and West Germany. Programs originate in the studio complex at VOA headquarters. A 150-channel master control panel is used to route them onto appropiate satellite circuits for delivery to the relay stations.

Programming: U.S. and world events are reported accurately and fully in VOA newscasts and news programs. Features, backgrounders, interviews, on-the-scene coverage of special events and documentaries provide listeners around the world with an accurate, comprehensive portrayal of American life and opinion. Information on U.S. policies is reflected in editorials.

Program placement: VOA programming is also made available to, and extensively used by, foreign media in more than 100 countries. Radio stations in some countries simply relay VOA's direct broadcasts or tape program segments from them for rebroadcast at prime local listening times. Satellite or high frequency feeds, dial-up systems, and airmailed tapes are also used to provide VOA programming in 20 languages to stations in Africa, the American Republics, East and South Asia, the Middle East and Western Europe.

Program hours and languages The 1,300 hours of programming produced at VOA each week include two special services: VOA Europe and Radio Marti. VOA Europe is an around-the-clock radio service in English which is delivered to Western Europe by satellite for broadcast on FM and cable radio stations in 10 countries; 70 hours weekly of the VOA Europe broadcast are originated by the VOA staff and the balance is syndicated music programs. The Radio Marti program is beamed to Cuba 168 hours each week by a 50 kw medium wave transmitter in Florida. All other programming (1129 hours weekly) is transmitted on shortwave and/or medium wave in the following 43 languages:

Radio Formats Defined

Broadcasting & Cable Market Place defines a radio format as programming broadcast over 20 hours weekly. Programming broadcast from one to 20 hours weekly is defined as special programming. This is not a hard and fast rule, however. Some stations may report programming unique to their main programming format(s) as "special" programming regardless of the number of broadcast hours.

Most stations broadcast one format, though some stations report having two or more formats. A station that lists four or more formats is categorized as "Variety/Diverse." Formats which did not fit into a specific category (such as sports coverage) are listed as "Other."

At present, *Broadcasting & Cable Market Place* recognizes 69 different formats. These formats are listed below, with appropriate definitions.

This listing is followed by a breakdown of U.S. Formats by State and Province. The chart on page A-486 gives a breakdown of radio programming by AM/FM and commercial/noncommercial stations in the U.S. and Canada.

Adult Contemporary—Recent popular songs, with a few oldies. The songs tend to be upbeat and soft. News and talk segments are prominent during rush hour "drive times." Also known as "Lite."

Agriculture & Farm—News, weather and features of interest to farmers and others involved in agriculture.

Albanian.

American Indian—Programming for North American Indians, includes native language (ie: Navajo) broadcasts.

Arabic.

Armenian.

Beautiful Music—Uninterrupted, instrumental soft music. There is usually very little talk, and few commercials. Also known as "Easy Listening."

Big Band—Popular music from the thirties and forties. Primarily instrumental works by bands such as Glen Miller's Orchestra and Tommy Dorsey. Also see **Nostalgia.**

Black—Music, talk and news targeted at black listeners. Music at these stations is similar to Urban Contemporary stations, but this format caters more directly to the interests and tastes of black audiences.

Bluegrass—Related formats are Country and Folk.

Blues—Some Jazz and Progressive stations also program blues music.

Children—Programming for children, usually for educational purposes. Includes music, informational programmming, and news presented for young people.

Chinese.

Classic Rock—Popular rock music of the seventies and eighties. Also see **Rock/AOR.**

Classical—Classical music, often long pieces played without interruption. Announcers provide extended commentary and criticism on the pieces. Special features, such as live concerts, are common. Primarily a noncommercial FM format.

Comedy—Recorded stand-up comics and/or old radio comedy series. A rare format.

Contemporary Hit/Top-40—Current hot selling records. Usually a playlist of 20 to 40 songs continuously played throughout the day. DJs are often upbeat "personalities." News and information are given light coverage.

Country—Country music, ranging from older traditional country and western to today's "Hit Country" sounds. The amount of news and talk on country stations varies widely from station to station.

Croation.

MOR (Middle-of-the-Road)—Traditional AM format featuring a balanced mix of music, news and talk. Songs are usually popular standards. Announcers are often personalities who try to keep the listener interested and informed. News, both local and national, plays an important role at most MOR stations; coverage of sporting events and other features of interest to the community is common.

New Age—Soft "fusion" (a form mixing elements of jazz and rock), often played as background entertainment. As the name implies, this format is a recent development.

News—Continous coverage of local, national and international news, including sports, weather forecasts and features.

News/Talk—Combination of news and talk formats. One of these elements may receive more emphasis. Also see **News** and **Talk.**
