# FILTERS & ADDRESSABLE CONVERTERS

## FOR WIRELESS CABLE & CABLE TELEVISION

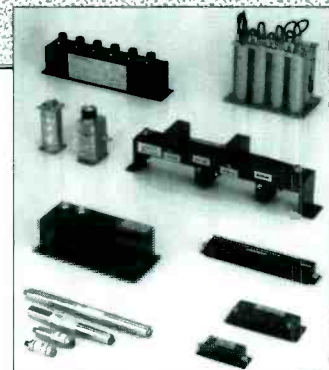

### CATV

- Sharp notch filters for reinsertion without loss to adjacent channels
- Bandpass filters with varying selectivity for all VHF/UHF channels
- C-band terrestrial interference filters
- Negative, positive & tiering traps

### Wireless Cable

- Channel combiners - both adjacent & non-adjacent
- Relay antennas - 21-24 dBi gain
- Couplers
- Video/audio diplexers
- Receive antennas 12, 15 or 18 dB gain
- Radar interference filters
- Off air/wireless combiners

### The Comband CT-1000 Addressable Converter System

CATV Filters

WC Combiners

Addressable Converter

- Built specifically to handle fluctuating MMDS signal conditions.
- Utilizes six different methods of signal scrambling including the patented sync omission mode to prevent signal theft.
- 64 pay combinations and exclusive channel mapping, time based programming and tiers can be offered for system revenue enhancements along with pay-per-view and special events.
- Easy adaptability to ITFS switching requirements.
- Scrambles 62 channels - any combination of MMDS and UHF (LPTV) channels.

# Buyers Guide

*that helps you find products faster!*

## Instructions

1. Turn to the yellow pages **Buyers Guide Product Index** to find an alphabetical listing of all products and services listed in the Buyers Guide. Following each entry is a Buyers Guide page reference number where a list of companies involved in that specific category can be found in the Buyers Guide.

Listed after the name of each product category is a product NUMBER that will help you find the product categories even faster than before! This 8 digit number contains a PRIMARY number (the first 4 digits) followed by a SECONDARY number (the last 4 digits). The product numbers correspond exactly to those on the Buyers Guide Questionnaire (see following pages) sent to each company listed in the BUYERS GUIDE.

Listed at the top of each page is the PRIMARY product number to help guide you to the correct category.

— OR —

You can use the sample Buyers Guide Questionnaire (see following pages) to find the NUMBER assigned to a particular product and then find it by number within the Buyers Guide.

The sample Buyers Guide Questionnaire lists product categories IN THE SAME ORDER that the products are listed in the BUYERS GUIDE.

**For example:** 0020 is the product number for Amplifiers listed under 0110 Satellite Earth Stations. Using the PRIMARY number listed at the top of each page, find the 0100 section, then 0110 within it, then 0020 under that category.

2. Once you have found the product category you want and have found the company you want to contact, turn to the page number listed after the company name in the white pages section of the Factbook for detailed information concerning the company.

- (p) — producer (i.e. film, etc.)

# Index to Products & Services Explanatory Notes

The Television & Cable Factbook **BUYERS GUIDE** is divided into nine primary product categories based on product/service type. Each Primary Category begins a new section in the Buyers Guide. Companies are listed alphabetically under each category. Those appearing in bold type are paid **BOLD-FACE BUYERS GUIDE** advertisers\*. All remaining entries are provided free as a service to non-advertising companies listed in the Factbook.

The weekly executive information service devoted to international satellite communications . . .

# SATELLITE WEEK

Satellite Week is the trusted source for all the fast-breaking news in space technology and communications.

Satellite Week is a weekly briefing of satellite business news presented in a crisp, concise editorial style. It is concerned *entirely* with space technology and communications.

A subscription allows you to keep pace with the latest in satellite communication technologies, learn what other industry leaders are doing that could affect your plans, keep current with changing developments in satellite programming and marketing, be forewarned of domestic and international regulation and deregulation, and follow the mergers, acquisitions and future plans of your competitors.

Wherever international developments occur in the global satcom industry, Satellite Week will enable you to follow them. Whatever the key issues concerning satellites and satellite communications, Satellite Week is your most accurate source of news. For up-to-date coverage, features and interviews, only Satellite Week has the information you need.

For subscription information, call collect: (202) 872-9200.

Become a subscriber to the *biweekly* business publication devoted *entirely* to consumer *multimedia* electronics . . .

. . . from the publishers of *Television Digest With Consumer Electronics*, the publication Sony's Chairman Akio Morita called "the leading U.S. trade journal"

# CONSUMER MULTIMEDIA REPORT:

The authoritative newsletter covering the emerging interactive video and audio industries

Every other week, **CMR** brings you *up-to-the-minute* news of the latest multimedia issues, technological advances, legal developments, prospects and problems. With *focused* coverage that is forthright, hard-hitting and independent. And because **Consumer Multimedia Report** carries *no* advertising, it is responsible *only* to its subscribers. Responsible only to *you*. Responsible for producing the facts, without coloration or outside influence.

Multimedia is covered in a comprehensive, insightful and businesslike fashion . . . by a trustworthy publication totally devoted to it . . . and free of jargon and computerese hocus-pocus. **Consumer Multimedia Report** is a one-of-a-kind information service with the same high standards as *Television Digest* (the newsletter, by the way, that originated the term "consumer electronics").

Assignments Affecting Borders

# Channel Allocations for Canada and Mexico

Allocations within 250 miles of Canadian and Mexican Borders are as agreed upon by U.S. and respective countries through exchange of diplomatic notes. Mexico reports VHF within 250 miles, UHF within 200 miles. Plus (+) and Minus (-) symbols designate offset carrier positions of channels. (L) indicates limited allocation under "Working Arrangement" of Canadian-U.S.A. Television Agreement of 1952 as modified.

# You can count on us. Can we count on you?

Because more than ever before, our message deserves to be heard.

The Army National Guard makes up about one-half of our nation's combat forces. And we need men and women to help keep us strong—ready to protect our community and defend our country. We have been there during natural disasters, in the fight against drugs and in the protection of our environment.

It's a commitment that takes dedication. Guardmembers give at least two weeks a year and two days every month to the Guard—and to you. Could we have a minute of your time?

Run our spots whenever possible. And if you can't spare a minute, we'll settle for :30. Even :20.
