IDA, PAST, PRESENT AND FUTURE

In Nov. 1932, IDA came into being. On Jan.1,1933 -just 6 years ago, the GLOBE CIRCLER, issue #1,a 4 page mimeographed bulletin was mailed to our less than 50 members. Since that date our history has been one of steady but not mush-room growth. Today we have on our books over 1700 members scattered throughout 45 states and in over 75 foreign count ries. In our span of existence we have seen many dx clubs come and go, but so far as I know, there are only two clubs now active that were functioning before IDA was organized. We have never tooted our own horn or felt it necessary to tell you what a great outfit we are. We have always felty our continued activity and service should be sufficient evidence of this fact. A dx club has one, and only one excuse to exist, that is to serve the dx fraternity to the best of its ability. To furnish accurate and uptodate dx news and tips we have considered of prime importance. This we have tried to do. This we will continue to do, devoting our entire space as always to NEWS, news that is as hot and accurate as we can pos

Today we are ready to take another step forward inasfar as the Globe Circler is concerned, namely to give you a bigger and more complete book. This will cost more money. Money can come through two sources only: more new members and a better percentage of renewals. The solution is more active members. Are YOU an active member? If you can answer the follow ing four questions honestly you are: (1) Do I sell the advantages of IDA membership upon every possible occasion? (2) Have I ever enrolled a member in IDA? (3) Do I contribute news items regularly? (4) Do I pay

my renewal subscription promptly?
Now is the time to take a little self inventory, turn over a new leaf, and EACH one of us, do our very best to make this the most successful and most active year of our existence-

-Charles A.Morrison

The battle against man-made QRM moves forward on many fronts. In the South West, J.F. Pichler is leading a campaign to outlaw interference in Santa Fe, N.M., while over in Phoenix, Arizona, L.D. Brewer, with the backing of several civic organizations is almost assured of a victory over QRM in that city. The NAPRI, Leading in the National fight, urges EVERY dx'er to write their senator or congressmen requesting them to push through the anti-QRM. Bill.
