= "SPATARI" = THE NEW RADIO LANGUAGE

Since our initial article concern SPATARI- the new international radio language, appeared in the October issue of the Globe Circler, this worthy project has made great progress.Many publications have widely publicized the new language, among them: Radio Guide, Radio News, African Radio Announcer, Radio Guia, Southern Radio News, Radio Fortschritt, Ama-Touring the NRC News, and the RSSL Bulletin. Practically all dx organizations, in-cluding the IDA, ISWC, NZDXRA, NRC, JSWL and the WWDC, are endorsing SPATARI, and helping to promote its wide spread useage. Several radio stations have broadcast <u>SPATARI</u> programs or messages recently, among them W6XKG, W8XWJ,KSL,CFAC, TG1-TG2-TG3,CMHJ,and CMHM. SPATARI lessons are a regular feature of the KSL dx broadcasts, Thursdays at 2:45am, while SPATARI messages are a part of each goodwill program over W6XKG.

This language is simple and practi cal, requiring no study of grammar, or memorizing of vocabulary. It is not 'learned! It is a spoken code language, with which anyone can send or receive messages after a few minutes of study. <u>SPATARI</u> is based upon the 8 names for the notes of the musical scale, namely, DO, RE, MI, FA, SO, LA, SI and BO, which pronounced the same in practically every language have been combined into countless word forms, each in a definite, logical and yet absurdly simple sequence.

The Spatari Code Manual, which is the only equipment needed for coding or decoding messages in <u>Spatari</u> is being offered to the members of all participating clubs at the special absolute printing cost price of \$2 (8/-) each. To order a manual or for further information write to Professor Carlo Spatari, 27-20 25th Avenue -Astoria, New York. The IDA heartily endorses the SPATARI movement.
