Quality Equipment From Universal Radio

PASSPORT TO WORLD BAND RADIO 2006

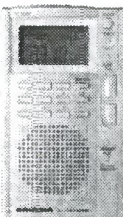

A **must have** book for every world-band listener. Provides complete visual data on all shortwave broadcast stations. See at a glance: station name, location, frequency, time, language and power. Plus candid, hard-hitting reviews on world band radios. The world's #1 selling shortwave guide. Indispensable! 592 pages. Expected 10/31/05.

#1006 \$22.95 \$18.90

NEW

GRUNDIG YB-550 PE

The incredibly attractive Grundig YB-550PE combines form and function to offer an excellent shortwave experience. Six tuning methods are available to make tuning the bands easy and quick. Enjoy AM, FM, FM Stereo (to earphone jack) and full coverage shortwave from 1710-30000 kHz. Direct keypad frequency entry is possible or Up-Down tuning is available to surf the bands. A bar-graph tuning meter puts you exactly on frequency. 100 memories store your favorite stations. The built-in clock can wake you to the radio audio or a buzzer. The large backlit LCD shows time and frequency. Comes with a carry case. 3.5 x 5.75 x 1.375 inches 10 oz. (The 550ACA AC adapter is optional order #3039 \$12.95) YB-550 Order #0550 \$79.95

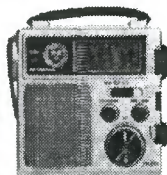

RFspace SDR-14

The RFspace SDR-14 is a 14-bit software defined radio receiver, offering a broad range of spectrum analyzer and demodulation capabilities. The hardware samples the whole 0-30 MHz band using a sampling rate of 66.667 MHz. The digital data from the ADC is processed into I and Q format using a direct digital converter (DDC) and is then sent to the PC for processing using a USB 1.1 interface. All of the demod and spectral functions are done on the PC side. Supported formats include USB, LSB, AM, FM, WFM, CW, CWI and DSB. Filter bandwidths are continuously adjustable. DRM is now supported via special demod mode using third-party software (DREAM) by routing the demod audio through the mixer control. The SDR-14 supports high resolution spectral captures using up to 262144 point FFTs. The maximum spectral display width is 30 MHz simultaneously. One of the most exciting features of the SDR-14 is the ability to record band segments of any band to hard drive in realtime. This is done at a rate of 52GB/day for a 150 kHz wide segment. The stored file contains everything that happened in that segment of the band for the duration of the recording. The fidelity of the file is superb with over 96dB of dynamic range. The recording can be played back at any time with full tunability and choice of modes. The recording can also be analyzed for hidden signals and carriers. The SDR-14 comes with AC power supply, USB cable and computer CD. Visit the Universal website to view screen shots, spectrograms and complete specifications. Order #0014 \$99.95

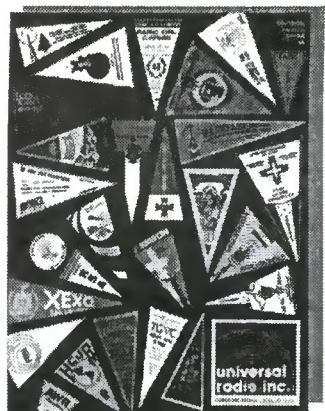

etón FR250

Be prepared and aware with the etón FR250 emergency radio. This affordable portable receives AM, FM 88-108 MHz and seven spread shortwave bands. This radio can be powered from four different sources: the built-in rechargeable Ni-MH rechargeable battery, from 3 AA batteries, AC adaptor (not included) and from the dynamo crank. There is also a built-in triple white LED light source and mini earphone jack. A fine-tuning control knob is superimposed on the main tuning control knob for precise tuning. The FR250 is not only perfect for emergencies, but also for camping, hiking, or anywhere you need to stay in touch. Order #0250 \$49.95

HUGE FREE CATALOG

Our new 2005-2006 catalog is the largest ever! Printed July 2005, it features 108 pages of everything for the radio hobbyist. Please call toll-free to request your free copy today. 1 800 431-3939

ICOM IC-R75

Universal Radio is pleased to continue to offer the ICOM R75 receiver. With full coverage from 30 kHz to 60 MHz; all longwave, medium wave and shortwave frequencies are supported plus extended coverage to include the 6 meter amateur band. Some of innovative features of the R75 include: Synchronous AM Detection, FM Mode Detection (but not the FM broadcast band), Twin Passband Tuning, Two Level Preamp, 99 Alphanumeric Memories, four Scan Modes, Noise Blanker, Selectable AGC (FAST/SLOW/OFF), Clock-Timer, Squelch, Attenuator and backlit LCD display. Tuning may be selected at 1 Hz or 10 Hz steps plus there is a 1 MHz quick tuning step plus tuning Lock. The front-firing speaker provides solid, clear audio. The back panel has a Record Output Jack and a Tape Recorder Activation Jack. The supplied 2.1 kHz SSB filter is suitable for utility, amateur, or broadcast SSB. However, two optional CW/SSB filter positions are available (one per I.F.). The formerly optional UT-106 DSP board is now included and factory installed! The IC-R75 is truly a great value. ICOM R75 Order #0175 \$569.95

NASWA Notes

Richard A. D'Angelo • 2216 Burkey Drive • Wyomissing, PA 19610 • rdangelo3@aol.com

Another year is done! Where does the time go? Of course, the best of the holiday season to everyone from all the staff here at NASWA Central. I see **Bill Oliver** is busy in the Boardroom wrapping my present, probably the new Eton E1 portable receiver. Now is a good time to place that order at Universal Radio for a guilty pleasure and blame it on the holiday season. Better still is to get your spouse to do it for you, hi! Don't forget to do some holiday shopping with **Mike Wolfson** at the *Company Store*. Drop a few hints to friends and family. Season's Greetings!

Not all holiday season news is good news. After 23+ years of operations, our friends at the Association of Clandestine Enthusiasts (ACE) are closing down their monthly paper publication due to lack of support. Executor **John Arthur** noted in a letter the increasing difficult job of finding editors and having membership support the various ACE columns. He is soliciting feedback from the membership to see if keeping the association alive in another form is possible.

Here's a reminder about two products **Bob Padula** recently announced were available for shortwave enthusiasts. The first is the AUSTRALASIAN SHORTWAVE GUIDE No. 20 (ASWG). The ASWG is 40 pages with over 700 entries, covers the international shortwave transmission period commencing October 31, 2005, and concluding on March 26, 2006, known as the "B05 International Transmission Season." It provides comprehensive information of English shortwave schedules to Australia, Asia, the Far East, the Indian sub-continent, and the Pacific, and for broadcasts in all languages to Australia and the Pacific. Schedules of Domestic Services in English from Asia-Pacific countries are also featured. For mailing to Australian address the cost is A\$10—cash, personal check, bank check, Australian Money Order, financial institution check, mint Australian

stamps, or PayPal. For mailing to countries outside Australia US\$10 / 10 Euro / A\$15 (cash, 8 international reply coupons, Australian mint stamps to the value of A\$15, international bank transfer, international bank draft, or PayPal). Cash payment in any other currency is acceptable, to the equivalent of US\$10. Orders and payments should be sent to Robert J. Padula, 404 Mont Albert Road, Mont Albert, Victoria 3127, Australia (Email: bobpadula@mydesk.net.au).

The second item is the first release of a brand new product *The Australasian Shortwave Digest No. 1—Compact Disk*. It is a CD containing a wealth of information about world shortwave broadcasting and related topics. The CD contains (1) the complete Master file (MS Excel format) of the B05 Edition (No. 20) of the *Australasian Shortwave Guide* (see above), (2) *The Spectrum Study* (MS Excel format), covering the A05 period, (3) the complete *Database* (MS Excel format) of the A05 Edition (No. 19) of the ASWG (March 27–October 30 2005), and (4) an audio-visual introduction from the author, showing and describing his home-based monitoring equipment and antennas, as well as some video clips taken on recent monitoring expeditions to the mountains around Melbourne. Also, many original articles, professional essays, and on-line links to articles about the history, evolution, and present-day structure of Australian shortwave broadcasting. For mailing to Australian addresses A\$20—cash, personal check, bank check, Australian Money Order, financial institution check, mint Australian stamps, or PayPal. For air-mailing to countries outside Australia US\$20 / 15 Euro / A\$25 (cash, 14 international reply coupons, Australian mint stamps to the value of A\$25, international bank transfer, international bank draft, PayPal). Cash payment in any other currency is acceptable, to the equivalent of US\$20. Just like above, orders and payments should be sent

OUR MOTTO IS - "UNITY AND FRIENDSHIP"

to Robert J. Padula, 404 Mont Albert Road, Mont Albert, Victoria 3127, Australia (Email: bobpadula@mydesk.net.au).

Christmas shopping with *Company Store* Manager **Mike Wolfson** (1842 Mifflin Avenue, Ashland, OH 44805, USA) can be a rewarding experience. Check out the complete line of goodies he carries and don't forget to pick up the 5-page *NASWA/Proceedings* reprint catalog for only US\$2.00 worldwide or the 20 page jumbo version of the catalog that includes abstracts of various articles for US\$5.00. There are 128 reprints available totaling 1,150 pages. That's a lot of good holiday cheer reading to carry you through the winter months. Mike has plenty of other great holiday reading material and a full line of tee shirts, sweatshirts, and coffee mugs. Be the first on your block to order one of those nice new *NASWA* caps Mike talked about last month! Everything the *Company Store* has to offer is available by mail order. With the holiday season just around the corner, now is the time to order!

Martin Schoech (PF 101145, 99801 Eisenach, Germany) has recently finished the latest update for the *Pirate Radio Address List 'Piraten.WdB'* (<http://www.schoechi.de/pwdb.html>). The *Pirate Radio Address List 'Piraten.WdB'* contains information about 3000 Shortwave and Medium wave pirates from 1994-2005. The station list is not online, but you can access the electronic version of the list (as a PDF version, updated ca. every 3 weeks) for an annual subscription of US\$3.00 (or 2 years for US\$6.00 or 5 Euros). A free and detailed E-mail- and www-address-list of pirates from around the world can be found via the address <http://www.schoechi.de/pwdb.html> too. You can combine the access to PWDB with the access to the *QSL Information Pages QIP*. The address list has the same prices as QIP. So you can send in US\$3.00 to test both (QIP and PWDB) for 6 month period or US\$6.00 or 5 Euros to

test both of them for a 12 month period. Martin prefers PayPal payments to radio2005@schoechi.de, otherwise just send 5 EUR note to his Eisenach address.

It's the holiday season already with plenty of DX to be had. With the DX season in full swing, it is time to think about getting on the distribution list for the club's electronic *Flashsheet*. The changing DX conditions will bring different DX conditions and new listening targets. The club's electronic *Flashsheet* helps members stay on top of the action with breaking shortwave news and information. If you are a current member of the club and want to receive the electronic *Flashsheet* just drop **Rich D'Angelo** (rdangelo3@aol.com) a note with your e-mail address, location and membership expiration date from your mailing label. You can participate by sending your latest logs to the electronic *Flashsheet* edited by **Ray Bauernhuber**, DXRADIO@webtv.net. Each week the electronic *Flashsheet* brings a lot of exciting, late breaking DX news and information to our members. The electronic newsletter is an excellent supplement to the monthly *Journal* for the timely dissemination of DX loggings and breaking news. This is a service that is only available to our members. Deadlines are posted in the *NASWA Flashsheet* each week. Let's keep Ray busy!

Please remember to direct all communications about subscriptions, bulletin delivery issues, *holiday gift ideas*, the use of PayPal as a payment method, etc. to Bill Oliver at the club's Levittown address or to his electronic address, weoliver@comcast.net. The regular postal address is the familiar 45 Wildflower Road, Levittown, PA 19057. Inquiries sent to Wyomissing only slow down the process. Thanks!

That's it for this month. Enjoy this month's edition of the *Journal*; it's another good one. 

Contribute!

Send your loggings and QSL information off to our Distributing Editor, **Bob Montgomery** (Address: P O Box 1458, Levittown, PA 19058). He will forward them to the appropriate editor. Remember, Bob also distributes QSL report information and totals for the **Scoreboard** column. He can also be reached through the Internet at: RMonty23@netzero.net.

Calendar Of Events

- Dec 3 & 17 Meeting. Reading (England) International Radio Group** meetings will be held in Meeting Room 3, Reading International Solidarity Centre, London Street, Reading from 2.30 p.m. to 5 p.m. Further info from Mike Barraclough mikewb@dircon.co.uk
- Dec 16 Meeting. Philadelphia Area NASWA Chapter.** Kulpsville Holiday Inn, Kulpsville, PA at 7:30 PM. For more information contact Dan Cashin at 610-446-7831 or Internet: dcscpk@aol.com.
- Dec 16 Meeting. Boston Area NASWA Chapter.** The Boston Area DXers have found a new location for meetings. Inquiries about the BADXers may be sent to Paul Graveline at 978-470-1971 or Internet: ctreditor@aol.com. The URL for the BADX guys is <http://www.anarc.org/naswa/badx/>
- Jan 14 Meeting. The Cincinnati/Dayton Monitoring Exchange (MONIX)** meets at the Lebanon Citizens' National Bank (LCNB), 425 West Central Avenue (Ohio 73), Springboro, Ohio at 7:00 PM. For more information contact Mark Meece at 937-743-8089 or e-mail at <antennapig@siscom.net>. For additional information about MONIX, check out their web site at <<http://www.siscom.net/~mmeece/monix.html>>
- Feb 14 Forum.** The Association of International Broadcasters (AIB) is holding a **Regional Media Leaders Forum** in New Delhi, India bringing together key executives from the South Asian broadcasting industry as well as regulators, politicians and journalists to debate issues facing the industry. Further information is available from AIB at register@aib.org.uk.
- Mar 3-4, 2006 Convention.** The **19th Annual Winter SWL Festival**, sponsored by NASWA, will be held at the *Best Western—The Inn at Towamencin* (Kulpsville to the rest of us), located at Exit 31 on the Northeast Extension of the Pennsylvania Turnpike, on 3rd and 4th March 2006. Richard Cuff and John Figliozzi co-chair the organizational committee. Of course, it's never too early to begin planning. This year's registration form appears in this month's *Journal*. See you there!
- May 4-7, 2006 50th Julilee DX Camp and Convention.** The **Danish Shortwave Clubs International (DSWCI)** will hold its **50th year Jubilee** with a DX Camp and AGM on 4-7 May 2006 at the beach resort of Vejers near the westernmost point of Denmark at the Scout camp. The DSWCI is preparing a large program of activities which include: a DX-Camp from Thursday afternoon throughout till Sunday morning; a cultural tour on Friday to the town of Varde including an Danish painting exhibition; various historical exhibitions and publications about the DSWCI are planned; the Annual General Meeting Saturday morning; some of the founders and old-timers will be invited; various DX-related lectures Saturday afternoon; special DX-broadcasts and a Jubilee Dinner Saturday evening. More details, including participation fee, will be forthcoming at a later date. Non-member DXers and broadcasters are welcome.
- Aug 19, 2006 2006 Madison-Milwaukee Radio Get-together. The 13th Annual Madison-Milwaukee Get-together for DXers and Radio Enthusiasts** will take place in Milwaukee, WI on Saturday August 19, 2006, with Tim Noonan hosting. Please contact Tim at dxing2@aol.com for additional information. Further information will appear in the *Journal* as the event draws near.
- Sep 1-3, 2006 Convention. The National Radio Club and the DX Audio Service** will hold their annual convention at the Best Western in Akron, Ohio on 1-3 September 2006. Room rates are \$68.00 per night. More information to follow.

Members are invited to submit items to be included in this calendar to Rich D'Angelo (Internet: rdangelo3@aol.com) or Ralph Brandi (Internet: ralph@brandi.org).

Musings

This column provides a forum where members can express comments, ideas, and thoughts about NASWA or the SW radio hobby. Please feel free to comment on anything presented this month (or previous months). Opinions expressed here are solely those of the submitters. Please submit all Musings to Richard A. D'Angelo, 2216 Burkey Dr., Wyomissing, PA 19610 or via email: rdangelo3@aol.com.

Robert J. Padula <bobpadula@mydesk.net.au>, 404 Mont Albert Road, Mont Albert, Victoria 3127, Australia

You will be interested to visit the superb interactive digital museum documenting the life and work of Gugliemlo Marconi.

In the autumn of 1999, Marconi plc took the decision to commission an on-line museum based on the company's unique archive. Dedicated to Guglielmo Marconi and the company's early history, the collection is a treasure trove of equipment, photographs and documents that only a few have ever seen.

Putting the entire archive on-line was never a realistic ambition. However, careful planning and work by the company Archivist Louise Jamison and historical consultant Gordon Bussey has ensured that the site covers the most important issues. The site provides access to the cream of the archive and the depth and breadth of material is designed to cater for any with an interest in the history of wireless; from the school project to the mature enthusiast to the academic researcher.

In 2005, the Marconi name was bought by the Swedish firm Ericsson, and the Museum was transferred is now managed by the University of Oxford.

Named MarconiCalling, the visual style of the site pays homage to the period of the Italian Futurists and the German Bauhaus, artistic periods of the early 20th century that celebrated science, invention and industrial manufacture. It is also a style that lends itself perfectly to Flash technology used on the internet.

MarconiCalling is designed as a highly interactive site and provides a number of intuitive ways of accessing information. It requires the latest version of the Flash plug-in.

The unique Marconi Collection has never before been available to the public. This digital archive draws from the Collection and concentrates on the first 50 years of wireless from 1896 to 1946. It covers an important cross section of early equipment and experiments and contains a large collection of documents, around 700 photographs and 500 pieces of ephemera.

The Home Page provides a number of entry points. Exhibits 1, 2, 3 are self-contained interactive exhibitions covering most significant aspects of the development of wireless; they also include links and access to the archive at the appropriate point. Exhibit 4 contains the archive, a wealth of documents, photographs, artifacts, film and sound.

In addition, there are links to an overview of Marconi's life, further links and reading, a search facility for the site's Archive and an acknowledgments page. At the bottom of the screen is a time line that begins with the birth of Guglielmo Marconi and ends with his death in 1937. It is activated by the position of the cursor and opens into 67 important events throughout

Marconi's life.

Visiting MarconiCalling will require considerable time—even a quick visit could take 30 minutes. In fact, you will probably need at least an hour to study all of the exhibits!

For visitors without Flash capability there is an HTML version which does not have the Exhibits 1, 2 & 3. It is well worth the virtual tour of the exhibits—the sound and video archives are first class, with many clips associated with the loss of the Titanic.

The Museum is at <http://www.marconicalling.com/html/index.html> . Entry to the Museum is free, and I'd like to hear about your impressions of it!

Regards from Melbourne!

Bob Padula

Louis Crisler-Smith <auto117909@hushmail.com>, Camp David Maryland

I read with interest Alan Johnson's review of PAR Electronics EF-SWL HF antenna in July 2005 issue of this magazine. I replaced the original 45 wire with a 160 foot LW at 35 feet above ground. It works best on the higher parts of the HF spectrum (15MHz—21MHz). My R75 goes up to 60MHZ and it has no trouble pulling in rural PD, fire, and EMS from 50 miles away in the VHF low band. As I write this I'm using it to drive an FM radio! A Tivoli Audio Kloss Model One. I get FM stations with great clarity from over 100 miles away. That high end bias makes me prefer summertime DXing.

Louis

Bob Fraser, 255 Lincolnville Avenue, Belfast, ME 04915-7404

A number of things in the November Journal caught my attention:

To Doug Robertson—Thanks for the update on SONY. The article I read sometime ago in the *New Yorker* magazine did say that SONY was moving into the entertainment business. So I guess we've seen the end of SONY world band radios. I was surprised to see they will lay off so many workers. I thought this was impossible in Japan where there is fierce loyalty between company and workers.

To Steve Rosenblatt—Arthur R. Lee (WF6P) had an article "Antenna Alternatives" in the April, 2005, *Monitoring Times* which is about hidden antennas. Your problem seems quite common nowadays so there must be a lot of hidden antenna ideas on the Internet. Sorry, I can't help here as I am computer-illiterate. Perhaps you can design one to look like a flock of pink flamingoes, just to annoy your nosy neighbors!

Eric Bueneman's article on shortwave woes is quite thought-provoking. Here in the U.S., we have so many different communications entertainment electronics all with superior sound that few of us would have the patience for atmospheric propagations and its tricks. I have noticed the ever dropping quality of programs on U.S. radio and television but a number of international broadcasters still put on most interesting shows. Others, I know, feature only news and U.S. music, hardly anything that would interest a new SWLer. The complaint I mostly hear is lack of funds. Yet, these same countries spend megamoney on ads in slick magazines to lure tourists to their country. It seems to me that some of this money could go to their SW stations that would also have programs to interest foreigners to visit the countries.

Grundig-Eton has numerous ads for their world band radios in many non-radio magazines. They must know something that most broadcasters do not.

Another point—what has NASWA done to encourage new listeners? True, you have all sorts of radio meetings and outings but any mention and invites to those functions seem only in the *Journal*. Admittedly, I tried and failed some years ago. I took a simplified listing of SW stations to the local Radio Shack for any interested listener. The clerk handed the list back to me a few months later saying that no one showed any interest. Some brain storming seems in order.

73, Bob

Robert J. Padula <bobpadula@mydesk.net.au>, 404 Mont Albert Road, Mont Albert, Victoria 3127, Australia

I have been traveling in my Radio Time Capsule, and I have discovered these public domain Radio Museums, which you might like to visit: Surfing the ether

<http://www.northwinds.net/bchris/> (USA). World of Wireless Virtual Museum (Netherlands) <http://home.luna.nl/~arjan-muil/radio/museum.html>.

When you arrive at the Aether site, make sure you have your speakers on, as the Museum opens automatically with a broadcast of the news about the Japanese attack on Pearl Harbour in 1941. You can listen to some very early broadcasts, such as the Titanic distress call (1912), the Hindenburg disaster (1937), the "War of the Worlds" panic of 1938, the first musical recording of "Mary had a Little Lamb" (1877), Marconi's reception of the Morse letter "S" in 1901, and Lord Haw-Haw (1944).

The Dutch-based Virtual Museum has a superb presentation of visual material.

If you are interested in the development and history of radio, these Public Virtual Museums will fascinate you! The authors have spent countless hours researching and compiling the material, and discuss their comprehensive personal collections of radios.

Don't forget to go to the "Marconi Calling Museum" which I mentioned earlier, at:

<http://www.marconicalling.com/html/index.html>

Regards from Melbourne (now back in 2005...)!

Bob Padula

Richard A. D'Angelo <rdangelo3@aol.com>, 2216 Burkey Drive, Wyomissing, PA 19610

After a nine month break between DXpeditions, it was time to venture up to French Creek for our first DXpedition of the new DX season. Although the weather was excellent, the park was overrun with folks enjoying the great fall weather, DX conditions were less than optimal. This was DXpedition #22 at French Creek with Rich Cuff, John Figliozzi, Bob Montgomery and Ed Mauger rounding out the team. Fred Kohlbrenner was a last minute cancellation otherwise we would have had our first six in a cabin.

Getting our antennas up for the action was a piece of cake with the warm weather and dry conditions making the hike up the back inclined real estate an easy matter. Although afternoon Africans seemed respectable overall DX conditions the first afternoon and evening were not very good. A quite location can not overcome some hostile propagation.

The Monday morning DX session was somewhat productive but again conditions were not the best. India's FM Gold service on multiple frequencies was a good listen as were some Peruvians. Exceptional reception of La Voz del Guaviare was noted prior to 1000 when conditions deteriorated. The afternoon featured an excellent early opening on the 49 meter band. However, things didn't hold up although a couple of the usual Bolivians made it through the noise. Due to other commitments, Bob had to pack up and leave early missing the Monday evening banquet. Since band conditions didn't improve, we all should have left when Bob did. The banquet tends to slow a very slow crowd down even more than usual with limited activity noted on the bands that evening. The mild spring like weather conditions continued with cabin windows open throughout much of the day. Still no Indonesians making it through the poor conditions.

Unfortunately, I missed the shot at early Latin's by sleeping in on Tuesday morning. However, I was told there wasn't much to get so apparently sleep was the right decision. I kept thinking Fred must have had an inside track on propagation conditions to sit this one out. Although conditions were rough, it is always fun to get away with friends and spend uninterrupted time at the radio dials.

As we were breaking down the equipment and packing things up, John and I heard Laos with just 2 of the usual 7 gongs. That's just how bad things were overall. You hear Laos but only at a 28% level.

Time to begin planning a December outing. Maybe the propagation will be a little more cooperative next time around?

A couple of interesting verifications with Save the Gambia Project verifying via T-Systems in Juelich, Germany. Walter Brodowsky, Account Manager for short-wave broadcast, does a nice job QSLing broadcasts using their facilities. He indicated that Radio Miami placed this program. I was pleasantly surprised by the Radio Nigeria - Abuja letter confirmation. I usually don't expect much from Nigerian regional outlets so this was good news. Radio Free Asia sent another Winter SWL Festival card while Pirate Radio Boston sent a nice laminated logo card that could be used as a soft drink coaster! Finally, Jeff White verified on behalf of the National Association of Shortwave Broadcasters for their Voice of the NASB transmissions a while back.

73, Rich

FRENDX: Twenty-Five Years Ago (December 1980)

In the Headquarters Report Mac Leonhardt noted that the 1981 ANARC Convention would be held in Thunder Bay, Ontario and it would be sponsored by the Canadian SWL International Club. Mac noted that in December 1979 over 2,000 copies of Friendx were mailed with 2,100 copies mailed in December 1980. In the Shortwave Center, John Moritz interviewed Kristiina Karjalainen, the editor of Voice magazine. David Maxfield looked at the question "Should NASWA Encourage Pirates?" Andy Robbins looked at "The Pirate Problem, Round 2." Jerry Berg provided information about Radio Dublin International while Jay Golden wrote about his visit to Radio Andorra. In the QSL Report column, Sam Barto noted that 117 countries were reported. Terry Krueger's Log Report A featured logs for FIBS, Falkland Islands on 2,370.2 kHz by Kevin Meyer and Robert Rankin. Distributing Editor Gregg Bares, from a new address in Washington, DC, noted that 79 reporters contributed to December's Friendx.

Easy Listening

Richard D. Cuff • 42 North 37th Street • Allentown, PA 18104 • richard@thecuffs.us

15 years ago...

I began my tenure as *Easy Listening* editor in December of 1990, with a one-page column on a couple Radio Australia programs, if I recall. I haven't had 15 years of continuous service, as I took a leave of absence in the mid-90s, with John Figliozzi pinch hitting for a stretch.

International Broadcasting—and the hobby it supports—has certainly changed in those 15 years – back in 1990, the Internet was the domain of academic and government organizations, and the World Wide Web had not yet been adopted as an Internet communications protocol. We were communicating electronically about the hobby even before the Internet, as bulletin board services (remember Tom Sundstrom's *Pine-lands BBS? Fidonet?*) and commercial services (CompuServe, GENIE, Prodigy) provided e-mail and bulletin board-like messaging and collaboration services allowing us to share logs, schedules, news and opinions. *DX Listening Digest* and *Review of International Broadcasting* existed in printed form.

Nowadays, our electronic communications are near-instantaneous, with Internet Relay Chat and instant messaging enabling us to exchange information in real-time. Get-togethers like the Winter SWL Fest could continue in a virtual mode before and after the gathering. Glenn Hauser still publishes DXLD, but does so electronically.

Broadcasters themselves face an increasing number of choices in how they deliver their programming to audiences. The BBC World Service, Deutsche Welle, the Voice of America and Radio France International have eliminated most or all English language programming targeting North America; Radio Vlaanderen International, Radio Norway, Radio Bras, YLE Radio Finland and others have eliminated English language broadcasting entirely.

Domestic shortwave broadcasting—which provides most of the DX targets for North American listeners—has also declined, as FM broadcasting has become more feasible and more affordable for domestic services.

Despite these setbacks, shortwave listening remains an interesting and enjoyable activity, as it contains elements of “treasure hunting”, along with knowledge of propagation theory and serendipity when the airwaves yield surprising openings and unexpected listening targets. Listening to webcasts, in and of themselves, are “utilitarian”, to steal a phrase from John Figliozzi, but I find it interesting to keep track of how stations are growing the scope of their websites and their use of online archives to dramatically increase the programming available for online listening. Gradually the concept of schedule-based listening is falling by the wayside for many—they choose what they want to listen to, and when they want to listen to it.

It's my intention to continue *Easy Listening* each month, focusing on programming suggestions and new developments in how international broadcasters are adapting to take advantage of new technologies and new trends in how listeners find out about their world.

Hearing the BBCWS on shortwave in North America: Daytime is the best time

As you'll probably see in the *Musings* column, I recently joined Bob Montgomery, Ed Mauger, John Figliozzi, and Rich D'Angelo for a French Creek DXpedition. My greatest enjoyment at a DXpedition is to be able to listen uninterrupted to shortwave broadcasters at many different times of the day—times of the day when, during most weeks, life seems to get in the way of good listening.

One of my primary listening goals was to find usable frequencies for the **BBC World Service** for those times when there are no services targeting the Caribbean region and Central America—since this region is now only targeted directly for a few hours per day. While I try not to use the *Easy Listening* column to list frequencies, I felt this was a useful approach to help you find more useful air times for favorite programs. The table below shows those frequencies that worked best for us in southeastern Pennsylvania in a quiet listening environment.

- 0000-0100: 5975 kHz remains the best, targeting the Americas
- 0100-0200: Nothing audible to other regions, and nothing to the Americas.
- 0200-0300: 5975 again the best.
- 0300-0400: 5975, also 6190 (SAF), 7160 (Waf), 12095 (SAM).
- 0400-0500: 7160 and 11765 (Waf).
- 0500-0600: 7160 (Waf). 11765 subject to QRM from Cuba.
- 1000-1100: 6195 targeting the Americas remains the best.
- 1100-1200: 11855 targeting CAm / Car.
- 1200-1300: 11855 targeting CAm / Car; 15190 (CAm / Car and SAM)
- 1300-1400: 15190 best; 21470 (SAF / EAF) usable; 15485, 17640, and 17830, targeting Africa, faint but improving.
- 1400-1500: 21470 good, also 17640.
- 1500-1600: 17640 and 21470 (Af); also 12095 (Eu)
- 1600-1700: 12095 (Eu) best; also, 15400, 17640, 17830 and 21470 (all Af)
- 1700-1900: 9410 and 12095 (Eu 1700-1800, Af 1800-1900); 15400, 15420 and 21470 (Af) for both hours.
- 1900-2000: 9410 (Eu), 12095 (Af), 15400 and 17830 (Af) less usable.
- 2000-2100: 9410 (Eu) but with some interference; 12095 (Af) the best. Also try 6195, 15400, and 17830, all targeting Africa.
- 2100-2200: 9410 (Eu) but with interference; 11765 (Am) the best; also 12095 (Af).
- 2200-2400: 5975 targeting the Americas remains the best.

Region codes: Af—Africa; Am—Americas; CAm—Central America; Car—Caribbean; EAF—East Africa; Eu—Europe; SAF—South Africa; SAM—South America;

Perhaps someone on the West Coast, or someone who is up in the wee hours of the morning in the East, can check the times from 0600 to 0900 that I didn't monitor at French Creek; 9740 from Singapore signs on at 0800 and may be usable out west; it did not propagate well to French Creek.

So, the BBCWS is generally audible from 1000 UTC straight through to 0600 UTC in Eastern Pennsylvania, except for the prime evening listening hour of 0100-0200 UTC.

RCI Programming Changes

I mentioned some of the new programming coming to RCI in last month's column, but we didn't have many details. Turns out the two new midday CBC Radio One programs, *The National Playlist* and *Freestyle*, emphasize music more heavily than their predecessor shows. *The National Playlist* is a daily half-hour discussion program focusing on popular music from the 1960s through the present; each week there are additions and deletions from this "top ten" list, with the list changing as a result of user votes. The new list is revealed every Friday, and the entire list is played on Saturday evenings on CBC Radio One; local airtimes appear to be 9 PM to all time zones except the Atlantic and Newfoundland time zones, where 6 PM (Atlantic) and 6:30 PM (Newfoundland) are shown. The weekday version airs on shortwave to North America at 1630 UT on 9515, 13655 and 17820 kHz. Since most of the weekend programming on CBC's Northern Quebec shortwave service is from Radio One, you may find the Saturday evening edition on 9625 kHz at 0200 UTC Sundays. Worth a shot, anyway.

Meanwhile, *Freestyle* is also a music-oriented program, though the emphasis includes popular culture in Canada and globally. Canadian musicians (surprise!) are also featured. *Freestyle* airs on CBC Radio One domestically at 2 PM local time;

Freestyle also airs on RCI's shortwave service targeting the southeastern USA on weekdays 1600-1800 UT on 15180 kHz.

Both of these programs target a younger, domestic Canadian audience listening frequently at work and wanting something lighter in tone than the heavier spoken-word fare typically aired by Radio One. It will be interesting to see how well the programs are received.

Speaking of the CBC, the Sirius Canada launch is expected for "early December", although a specific launch date has not been given. This should also be the date when CBC Radio One—in some form—is added to Sirius' USA offerings.

Multiple streams forthcoming from Radio Australia

The differing needs of **Radio Australia's** two target audiences—in Asia and the Pacific—have prompted Radio Australia to alter its programming targeting the two regions to better fit local time zones. Up till now, the separate Asia stream has not been distributed via shortwave; it has been available as a webcast and is sent via satellite to local rebroadcasters in the region. It is these local rebroadcasters that have been behind the push for a more narrowly-focused Asia service.

Soon Radio Australia's shortwave services will also be split part of the time, with the shortwave releases beamed towards Asia will having the same programming as is provided via satellite and the web. Most of the shortwave frequencies that propagate well to North America are frequencies beamed towards the Pacific, so it won't be easy for us to hear the two services simultaneously.

This dual streaming does have a benefit for web listening—at those times when shortwave is given over to sports coverage—for which webcast rights aren't available—**Radio Australia** can keep the web feed going with the alternate service and not resort to silence as the **BBC** has done.

Some might look at multiple streams apprehensively, because many have felt the **BBC World Service** lost focus when it began multiple streams. The folks at **Radio Australia** believe their implementation is consistent with their strategic objectives to focus on Asian and Pacific listeners, and to not be a "global" service. They feel this change enhances the value they provide their listeners, and does not detract from this value. While Radio Australia appreciates that North Americans show interest in Radio Australia programming via the World Radio Network, Internet access, and via those shortwave frequencies that happen to propagate to North America, we North Americans aren't their target audience. As a result, Radio Australia doesn't see the **BBC World Service** experience as a parallel to their own.

The dual streaming operates from 2330 UT to 0900 UT from Sundays to Fridays. You can see examples in the online programming schedules—for example, at 0400 Thursdays, **Background Briefing** is shown for Asian listeners, and **In The Loop** is shown for Pacific listeners. The new flagship Asian program is **The Breakfast Club**, which provides "...a lively mix of music, interviews, entertainment, news, sport, art, finance and weather..." and airs from 2330 to 0130 from Sundays through Thursdays.

Christmas & New Year's Programming

As usual, the Journal deadline comes before most broadcasters have finalized their plans for programming around the holidays. For many broadcasters, you can expect special pre-recorded year-end editions of programs, thus allowing program hosts to spend holiday time with families.

Broadcasters with especially extensive special programming are highlighted below.

Radio Canada International / CBC

The **ODXA's** Fred Waterer along with John Figliozzi, have assembled the following notes on what to expect from the **CBC**:

As It Happens, especially on Christmas Eve, produces a special annual program.

Each year, the program contacts members of the Canadian Armed Forces serving with the UN, NATO, NORAD and those serving in the far north. Each unit has 3 or 4 people speak for those serving with the unit. In past years, the units have served in such diverse locations as Canadian Forces Base Alert (Arctic), Colorado Springs (Norad), Germany, Cyprus, Golan Heights, Bermuda (!), the Persian Gulf, Somalia, Bosnia and Croatia, and Kosovo. It also has its moments of humor, such as the time the Canadian naval personnel stationed in Bermuda tried to claim they missed the Canadian winter real bad! (via Fred Waterer/ODXA).

This year, any special edition of *As It Happens* would likely be the December 23rd edition, since Christmas Day is on a Sunday in 2005.

Also, in 2003, listeners in the United States and the Caribbean heard *Holly & Maple* on Christmas Morning from 1300 to 1600 UTC. RCI has changed their morning schedule to 1400 to 1700 UT for all seven days of the week, so any special would be heard at that time. Later that day, in 2003, listeners in the United States and the Caribbean heard *Winter Stories* from 2300 to 0100 UTC; the new schedule has programming airing to North America at 2100–2300, and then 2300–2400 and 0000–0200. **Holiday Soirée: A Christmas Homecoming** was heard on Boxing Day in Southeast Asia and China from 0000 to 0100 UTC December 26th and once again from 1200 to 1300 UTC December 26th. Listeners in India heard **Holiday Soirée: A Christmas Homecoming** on Boxing Day from 1500 to 1600 UTC. (via RCI / Bill Westenhaver) I'll update the CBC / RCI plans in the NASWA *Flashsheet* once they're available.

BBC World Service

The BBC World Service hasn't publicized their holiday plans, but there are several annual traditions that are expected to continue:

The Festival of Nine Lessons and Carols is a long standing tradition. Expect the program to originate once again from King's College in Cambridge; the *Festival* is a celebration of the birth of Christ in readings from the Bible and beautiful choral music. It features traditional favorites such as *Once In Royal David's City* as well as new

music specially composed for the occasion. Last year's airings included Christmas Eve at 1501 and Christmas Day at 1301.

The Queen's Christmas Message to the Commonwealth is another annual tradition, lasting just 10 minutes but a highlight from year to year. Last year's airtimes included December 25th at 1505.

Voice of America

As far as I know, Kim Elliott will host *Talk To America* sometime around New Year's day, but watch the NASWA *Flashsheet* or the *swprograms* e-mail list for updates.

Two years ago, **VOA News Now** featured a Special Christmas program called "The 12 Hours of Christmas". It is a syndicated program from Kris Eric Stevens Productions. The show featured Christmas classics from yesterday and today plus holiday features and vignettes. This program ran from 0000 UTC through 23 hours UTC on Christmas day, which was a weekday. As Christmas falls this year on a Sunday, any specials might air on the previous Friday, but this speculative schedule is also subject to revision once the VOA announces its plans.

Non-Shortwave Suggestions

Italy—*Informoj el Italio* (Esperanto)

There aren't too many international broadcasts remaining in Esperanto these days, and budget cuts have generally preserved other languages at Esperanto's expense. However, every Saturday, at 2000 UT, RAI's multilingual satellite audio service airs a one-hour program in Esperanto. The link to RAI's satellite audio is <rtsp://live.media.rai.it/redundant/international.rm>.

I can't tell you much about the program itself, since I don't speak Esperanto.

The first 20 minutes of the program airs on shortwave, but isn't targeted to North America; listen at 2000 on 6045 and 9760.

Until next month, Merry Christmas, Happy Hanukkah, and Happy New Year!

73 DE Richard

Hitting the fan

Interesting times these past few weeks in the corridors of international broadcasting. On November 5, the *New York Times* reported that Kenneth Tomlinson, chairman of the Broadcasting Board of Governors, boss of all bosses in U.S. international broadcasting, is the "subject of an inquiry into accusations of misuse of federal money and the use of phantom or unqualified employees."

(I was amazed that hiring unqualified employees would spark an inquiry in the federal government. Seems to me that federal agencies, when filling a senior position, will take months to find a candidate who is suitably unqualified.)

One day later, the *Financial Times* reported that Alhurra, one of the prominent components of U.S. international broadcasting under Tomlinson's watch, was being investigated for possible financial irregularities and the political slant of its programming.

The news about Tomlinson's troubles at the BBG came just days after he resigned from the board of the Corporation for Public Broadcasting. He had been chairman of the CPB until September, concurrent with his continuing chairmanship of the BBG.

News accounts revealed that a report of the CPB's inspector general would not reflect well on Tomlinson's activities in that agency. Indeed, the report, made public on November 15, stated that he "improperly helped create a conservative news show for public television and pushed for Republican hires after discussions with the White House" (Bloomberg).

You can see the complete CPB IG report at www.cpb.org, including Tomlinson's

response: "I am disappointed, but not surprised, by the Inspector General's report. It was apparent early on that (he) would opt for politics over good judgment."

As for Tomlinson's situation at the BBG, no news as of the time I type this. It remains to be seen if his difficulties at BBG and CPB are linked.

Helle of an essay

Helle Dale of the Heritage Foundation writes occasionally about international broadcasting and public diplomacy. Her latest is "Al-Hurrah Television and Lessons for U.S. Public Diplomacy." The essay goes beyond Alhurra and deals with the organization of all U.S. international broadcasting.

One of her suggestions is that "all broadcast operations should be consolidated under one roof with services tailored by channel and content to priority countries and regions." In other words, no more VOA competing with RFE/RL in one language, and VOA competing with RFA in another. I can relate to this, because it's what I advocated in "Too Many Voices of America," *Foreign Policy*, Winter 1989/90 (except that there was no RFA back then).

Ms. Dale also writes that international broadcasters "should be given all possible means to succeed in a highly competitive media environment." One way to do this, she suggest, is the elimination of the Smith-Mundt law that prohibits the content of U.S. international broadcasting from being disseminated within the United States. This is because "broadcasting to a domestic audience could give more incentives for the public to understand and support the broadcasters' mission. Furthermore, it could lead to an increase in program quality by appealing to experts or other possible guests who would otherwise not see the significance in appearing in front of a foreign audience where they are often unknown."

I don't know how elimination of Smith-Mundt would make much of a difference, given that all the U.S. international broadcasting websites are already fully available to U.S. audiences. Some of the extremes of Smith-Mundt should be eliminated, so that, for example, U.S. shortwave listeners can get a VOA transmission schedule. But tax money for U.S. international broadcasting should be spent on international audiences.

Finally, Ms. Dale discusses the relationship between U.S. international broadcasting and U.S. public diplomacy. She worries about "reducing U.S. international broadcasting to the status of any other news agency that needs, to a certain degree, to appeal to its audience and seek 'scoops' in order to survive." But, ultimately, on this point, she lacks a clear thesis. (If you can find it, please let me know.)

Karen Hughes, Undersecretary of State for Public Diplomacy, similarly obfuscates. At a hearing of the House International Relations Committee, she acknowledged the "firewall" between the government and U.S. international broadcasting. But, she added, "there are opportunities for some synergy. For example, we do all these exchange programs. We bring ten clerics from Jordan to the United States, a program we did not too long ago.... Why should that experience be limited to those ten people? Why wouldn't it make sense for ... Alhurra to cover that exchange, to do a documentary about that exchange program, and therefore share it with a much wider audience?"

In other words, Hughes will go to the BBC and say, "I'm sure you will want to cover this." The BBC members, if they opt for expediency rather than courage, will respond, "Oh yes, how much time would you like?"

This is emblematic of the of the confusion that occurs when the distinction between international broadcasting and public diplomacy is muddled, as it is by America's decision makers and distinguished fellows. In contrast, the British understand this concept, keeping the function and management of BBC World Service and that of British public diplomacy clearly separate.

Winning, or freeing, hearts and minds?

Some more interesting comment about U.S. public diplomacy was offered by former CIA director James Woolsey, interviewed by the London-based newspaper *Asharq al Awsat*. Responding to a question about Alhurra and Radio Sawa, he said: "We should not be trying to win popularity or win, as some people have put it, hearts and minds in this part of the world. We should be trying to free hearts and minds. Agents of change, whether it's in the U.S. or anywhere else, are often not popular, and that's alright. We're not in a popularity contest. We are in an effort to try to help the people of the Middle East; most of whom I believe would like to see democracy and the rule of law prevail over people like al-Qaeda and Zargawi and the salafis and people of other anti-democratic views."

"Winning" versus "freeing" the proverbial hearts and minds is an important difference. It's a much more rationale goal for the United States to provide audiences with the information they need to make up their own minds, rather than try to change their minds in favor of U.S. policies. Well-informed audiences, bolstered against disinformation, may not always agree with U.S. administration, but they probably also won't be taken in by the propaganda of dictators or terrorists.

Whither VOA Bethany?

The VOA Bethany shortwave transmitting station closed in 1995. I was lucky enough to visit the facility while it was still on the air, and still using its 1940s-era Crosley transmitters. The handsome building that housed the transmitters—a structure that positively exudes history—is in danger of being razed. Local officials need \$1.2 million to restore the building before its walls begin to break apart. See the story, with a nice picture of the building, in the Cincinnati Enquirer, November 19.

Views expressed are my own. More at kimandrewelliott.com.

British Commonwealth DXer

There has been some confusion over what is required for this award. The NASWA Awards Program states that the Senior British Commonwealth DXer Award is for verification of at least one shortwave broadcast station in each of 30 broadcast countries that are or have belonged to the British Commonwealth. The Master British Commonwealth DXer is awarded for 40 broadcast countries.

The following is a list of the current 53 member countries of the British Commonwealth (additional broadcast countries that are part of the member countries are shown parenthetically). Additional information may be found at their web site: www.thecommonwealth.org

1. Antigua and Barbuda 1981
 2. Australia 1931
 3. The Bahamas 1973
 4. Bangladesh (East Pakistan) (India) 1972
 5. Barbados 1966
 6. Belize (British Honduras) 1981
 7. Botswana (Bechuanaland) 1966
 8. Brunei Darussalam 1984
 9. Cameroon (French Cameroon) 1995
 10. Canada (Newfoundland)
 11. Cyprus 1961
 12. Dominica 1978
 13. Fiji Islands 1970
 14. The Gambia 1965
 15. Ghana (Gold Coast) 1957
 16. Grenada 1974
 17. Guyana (British Guyana) 1966
 18. India (Azad Kashmir, Andaman & Nicobar Is., Goa (Portuguese Goa), Kashmir, Sikkim)
 19. Jamaica 1962
 20. Kenya 1963
 21. Kiribati (Gilbert Islands) 1979
 22. Lesotho (Basutoland) 1966
 23. Malawi (Nyasaland) 1964
 24. Malaysia (Malaya, Sabah (British North Borneo), Sarawak)
 25. Maldives 1982
 26. Malta 1964
 27. Mauritius 1968
 28. Mozambique 1995
 29. Namibia (South West Africa) 1990
 30. Nauru 1968
 31. New Zealand 1931
 32. Nigeria (Biafra) 1960
 33. Pakistan (India) 1947
 34. Papua New Guinea (Admiralty Is., Bougainville, New Britain, New Guinea Terr., New Ireland, Papua Terr.)
 35. St Kitts and Nevis 1983
 36. St Lucia 1979
 37. St Vincent and the Grenadines 1979
 38. Samoa 1970
 39. Seychelles 1976
 40. Sierra Leone 1961
 41. Singapore 1965
 42. Solomon Islands 1978
 43. South Africa (Union of South Africa) 1931
 44. Sri Lanka (Ceylon) 1948
 45. Swaziland 1968
 46. Tonga 1970
 47. Trinidad and Tobago 1962
 48. Tuvalu 1978
 49. Uganda 1962
 50. United Kingdom
 51. Tanzania (Tanganyika, Zanzibar) 1961
 52. Vanuatu (New Hebrides) 1980
 53. Zambia (Northern Rhodesia) 1964
- Myanmar (then Burma) chose not to join (not allowed) and Ireland withdrew in 1949 (allowed). Commonwealth membership is confined to sovereign countries. Therefore British Dependent Territories: Anguilla, Falkland Islands, Hong Kong, British Indian Ocean Territory and St. Helena which may have taken part in Commonwealth functions are not considered members and should not be counted. This approved list of countries immediately supersedes any previous lists.

Scoreboard

Gary R. Neal • 4866 N. Wyndham Rd. • Wichita, KS 67219-5501 • grneal@earthlink.net

This month we are highlighting our members' totals from Asia. This is your chance to show everyone how well you are doing. The next deadline is February 15th for the March 2006 issue of the *Journal*. The spotlight will be on Europe.

A few years ago the following line-up was reported for the 1600-1640 slot within the 1600-1800 on 7255 transmission:

Mon Homiel/Gomiel
Tue Viciebsk/Vitebsk
Wed Mahiliou/Mogilyov
Thu Brest
Fri Hrodna/Grodno

(Kai Ludwig-DE, Nov 20/DX Listening Digest/Hauser-OK)

BRAZIL 6105.1 *Radio Cultura Filadelfia*, Foz do Iguazu, not great but better than usual, 2255 with usual 6105 het absent, best in USB. Appeared to be a religious program, preaching, fanfare, chorus, talkover by man, more singing to 2302 when a good ID: "Aqui Cultura Filadelfia...en Foz do Iguazu, Parana." Must be SW only—at least gave only SW frequency and mb, also call letters and address. Programming then stopped, and carrier stayed on until 2307. Thanks Ralph Brandi tip. (Oct 24/Berg-MA/Baird—NZ DX Times)

CAMEROON [non] *Radio Free Southern Cameroons* began October 30, sked Sundays 1800-1900 UTC via Krasnodar-RUS 12130. (Bernd Trutenau-LTU/EDXP/Padula-AUS)

LAUNCHING RADIO FREE SOUTHERN CAMEROONS

Email: radiofreesoutherncameroons@yahoo.com

There comes a time in the history of an oppressed people when they have to stand up and speak out. Fellow Southern Cameroonians, that time has come. Freedom is a natural right. For close to half a century, that right has been denied us. We can no longer afford to remain silent. It is time for the world to hear us. You are invited to tune in, with the rest of the world, on Sunday, October 30, at 7:00pm to 8pm to RADIO FREE SOUTHERN CAMEROONS (RFSC), broadcasting from our national capital in BUEA, on 25 Meter Band Shortwave.

The broadcast will continue same time, same station, every Sunday. Web broadcast can be viewed at the national webpage www.fdrsoutherncameroons.info

History reminds us that power concedes nothing without demand. We hereby appeal to the alien regime that currently occupies our motherland to heed to the voice of reason and pull out. Forty-four years of experience have proven that culturally, linguistically and socially, Southern Cameroonians and La Republique du Cameroun are two very different people. We have absolutely nothing in common. In the interest of comity therefore, it behooves each of the nation-state to independently pursue its destiny.

We are embarking here on a course of no-return. Freedom is that one human value that is non-negotiable. It can be delayed, but it cannot be denied. Ours has been delayed for too long. We invite La Republique du Cameroun to listen to the voice of reason and pull out peaceably. We are willing to avoid another Rwanda. We do not welcome the replay of another Liberia on our motherland. But that is the alternative La Republique begs for, we will stop at nothing to reclaim our natural rights. We invite La Republique du Cameroun not to be caught up in am-

nesia. We invite the international community to forget the lessons of recent history.

There comes a time when a people whose rights have been denied for too long, need to stand up and demand those rights. Fellow Southern Cameroonians, that times has come. Tune in and listen to Radio Free Southern Cameroons.

For further information, email radiofreesoutherncameroons@yahoo.com. To make DONATIONS for the radio project electronically through PAYPAL or otherwise, email freedomlandfoundation@yahoo.com.

Long Live Radio Free Southern Cameroons Long Live the Federal Republic of Southern Cameroons

All India Radio home service's proposed shift from 90 meter to 60 meter of AIR did not take place. [yet??]

7190 Mumbai 0025-0430 0700-1330 1430-1740
 (ex 7195)

9470 Aligarh 0130-0430 0830-1230 (AIR FM Gold)

(Jose Jacob-IND/dx_india Oct 31/DX Listening Digest/Hauser-OK) DXLD)

AIR's proposed shift from 3 MHz to 4 MHz has been delayed as they are still waiting for approval from WPC (Wireless Planning & Coordination Wing, Ministry of Communications & Information Technology, Dept. of Telecommunications, Govt of India, which allocates the frequencies) Shifting of frequencies will take place once they have clearance from WPC. (Alokesh Gupta-IND, Nov 1, dxldyg/DX Listening Digest/Hauser-OK)

Note that 5095 is also used for External Services at 1500-1530 Pushto to AFG, 1715-1800 Irani and 1800-1900 Islamabad Program to Gulf & M.E. (Noel R. Green-UK, wwdxc BC-DX Nov 9/DX Listening Digest/Hauser-OK)

PERU 4299.69 *Radio Bella*, Tingo Maria. This new Peruvian station has now regular transmissions with music and greetings. Is transmitting also on medi-

umwave 1040 kHz and will soon be on FM. Comments, photos and recordings at: <http://www.malm-ecuador.com> (Bjorn Malm-ECU/Nov 2/DX Listening Digest/Hauser-OK)

4654.96 *Radio Centinela del Norte*, unknown QTH, 2134. New station? This is a station unknown to me and I still don't have the QTH. I have not noted anything from Peru for a very long time around this frequency. The DJ said they want reception reports. Probably the first day of test transmissions. The station will be transmitting 1000-0200 UT. This Friday evening close down 0130. Not very strong signal and I have my problems with electrical noise. Comments, photos and recordings at: <http://www.malm-ecuador.com> (Bjorn Malm-ECU/Nov 18/DX Listening Digest/Hauser-OK)

4835.459 *Radio Maranon*, "LV del Rondero Valiente," Jaen, (hour? ??). Ed, Sa Oct 29, they have now fixed some of their transmitter problems and is coming in with good signal and sound quality. Listen to the perfect starting-up ID and on the second clip "La Voz del Rondero Valiente" ID and wonderful Peruvian music and have a look at a picture from Jaen at: <http://www.malm-ecuador.com> (Malm-ECU/DX Listening Digest/hauser-OK/DSWCI DX-Window/Petersen-DK)

5949.79 *Radio Bethel*, Arequipa, 2305-0230, Oct 24 and 25, national news program read by M and W in Spanish. ID as: "Usted esta en sintonia de Radio Bethel..." Ann: "Usted puede seguirnos en www.bethelradio.com.pe..." TC: "seis de la tarde con 9 minutos," another ann: "a las 6 de la tarde con 11 seguimos con la informacion nacional." I could not get the webpage in Google. (Malm-ECU and Slaen-ARG). Latest logging by other DX-ers was June 2004. (Petersen-DK/DSWCI DX-Window)

SENEGAL [non] Station aims to become regional hub for democratic radio

Nov 15, 2005

An ambitious new radio station hopes to become the hub of an international network for stations across West Africa.

Based in Senegal, **West Africa Democracy Radio (WADR)** started broadcasting on November 14. The Open Society Initiative for West Africa (OSIWA) conceived the station as ~an avenue for networking between the radio stations and a channel for dialogue among the respective countries they serve,~ according to a news release.

The idea is for the station to become the center of a network of West African community radio stations, as well as those run by governments or private owners. Its programming will include news and other content that promotes dialogue and democracy in the region.

The organizers also hope to launch online broadcasts soon. They also plan to share content with local community stations in Guinea, Liberia and Sierra Leone, where partners also would provide some content. WADR already has offices in those three countries.

WADR is broadcasting on 94.9 FM in Dakar and 17555 KHz via short wave to the rest of West Africa. The station is currently broadcasting for two hours a day, starting at 7am GMT, in English and French.

For more information, contact WADR Radio Production Officer at wadr@wadr.org, telephone +221 569 7785, or visit <http://www.wadr.org/>. (Ulis Fleming-NJ/Cumber DX)

West Africa Democracy Radio heard on a second frequency this morning, 15260 kHz, between 0700-0900. It was in parallel with 12000 kHz, similar strength and modulation on both. Maybe testing a new frequency? (Dave Kenny-UK, Nov 21/DX Lis-

tening Digest/Hauser-OK) 12000 is from Woofferton, 15260 from Rampisham. (Bernd Trutenau-LIT/DX Listening Digest/Hauser-OK) 0700-0800 English, 0800-0900 French (Observer-BUL)

SOLOMON ISLANDS *Solomon Islands Broadcasting Corporation* has reactivated 9545 kHz, heard from around 0900. In // 5020 kHz, but it is an over-modulated, distorted, virtually unintelligible mess! (Barry Hartley-NZ, Nov 4/DX Listening Digest/Hauser-OK)

SUDAN *Sudan Radio Service*, new sked (via Woofferton, UK):

THAILAND *THAI OFFICIALS DENY VOICE OF AMERICA STATION US SECRET TERROR JAIL*

Text of report by Yuwadee Tunyasiri, Yutthapong Kamnodnae entitled: "State denies relay station in Udon Thani is secret prison," published in English by Thai newspaper Bangkok Post website on 5 November

Curiosity surrounding secret CIA prisons has fuelled rumours of a remote Voice of America (VOA) relay station in Udon Thani operating as a front for a "black site." Reporters and curious observers flocked to the station in Ban Dung district after the Washington Post on Wednesday [2 November] reported the US Central Intelligence Agency was holding top Al-Qa'idah suspects in "black sites" in Thailand, Afghanistan and several other countries.

The remoteness of the securely-fenced station sitting on a huge 3,200-rai land plot has aroused suspicion that the facility could harbour secret activities. The station is guarded around the clock by 15 security employees. Located on the premises are a garage and a storage shack without any sleeping quarters. About a dozen staff members at the station stay in the town and commute to work every day, according to one security guard interviewed by reporters.

Udon Thani Governor Jaruek Prinyapol said the district chief assigned to inspect the station confirmed there was no secret prison there. Some observers, however, felt the suspicions could have grounds as the station was located in the middle of nowhere, away from the public eye.

The government dismissed the rumours as baseless. Government spokesman Surapong Suebwonglee said it defied logic that a media facility in charge of investigating facts would double as a prison. "The Post report is not something we can hide. It has spilled into the public domain and most people know about it. It's just impossible to put the radio station (up as a front for a secret jail) and be able to cover it up," he said.

PM's Office Minister Suranan Vejajiva, who oversees the Public Relations Department (PRD), insisted no such prison existed at the station. All of the parties he talked to—the PRD, the Udon Thani governor, the VOA station manager and the US embassy—maintained there was nothing out of the ordinary going on. The facility required plenty of space to operate because of the large transmitters used for powerful broadcasts around the world.

Mr Suranan added he had spoken to VOA station director Denis Wover [name as published] who promised to open the site for checks. He said the station was normally off-limits to unauthorized individuals although entry could be granted if requested in advance. The access controls were in place for security reasons. "What we've heard is plain rumour," he said. "The government will not let anyone conduct activities which break the rules and America is well aware of this," Mr Suranan said.

Foreign Minister Kantathi Suphamongkhon said the Thai ambassador to Washington would tell the newspaper that the report was damaging to the country's sovereignty. The facts needed to be straightened out. His ministry would ask the State Department and the Pentagon to inquire into the source of the Post article, and it may take legal action against the paper. UNITED STATES **WRMI** is finally back on 7385, 3.5 weeks after Hurricane Wilma! Jeff White called for a reception check at 0145 UT Nov 17. Said it had been on since about 0100. It was weaker than usual here, as expected, since Jeff says it's a temporary antenna, interted V dipole, aimed more or less NW/SE, same as the log periodic which was badly damaged and may take another two weeks to repair and reinstall. 7385 was in Spanish when I checked, and may be testing intermittently, possibly with the backup 5 kW transmitter. RTTY on the low side is bothering it. Regular programming is to resume at 0900 UT. And 7385 uses the other antenna toward Caribbean and South America at 13-16 UT, starting with the R. Prague relay. No doubt Jeff would be interested in other reception reports to info @ wrmi.net (Glenn Hauser, OK/DX Listening Digest)

WYFR is operating its 100 kW transmitters at half power (George Thurman, TX, Oct 30/DX Listening Digest/Hauser-OK)

Changes to the **WYFR** B-2005 schedule:

(Observer-BUL)

VIETNAM In recent few weeks, *Dien Bien B.S.* was not monitored on 6378 or 6442 kHz, but I found it on NF of 6317kHz. Sked is not changed. (Kenji Takasaki-JPN, Nov 21/ Hard Core DX)

DXING ON BANKS OF RIVER GANGES Jose Jacob, VU2JOS

From 14th to 22nd October 2005, I was in on the banks of the River Ganges at Neeldhara in the Hindu holy town of Haridwar in Uttaranchal State, North India. It is about 200 km north of New Delhi on the foothills of the Himalayas. Haridwar is famous for the Hindu festival "Kumbh Mela" which is conducted every 12 years in which lakhs of devotees visit here to take the "Holy Bath."

Our radio equipment was Icom 706 MKIIG, Yaesu FT 757 GXII and several other VHF/UHF walkie talkies and Base Stations. We put up Inverted V wire antennas for HF and Quarter Wave Ground Plane

antennas for VHF. During my stay there, I used to monitor the Broadcast bands quite often. As this location was about 1700 km away from my usual monitoring location in Hyderabad, I found the MW, FM and the lower HF bands quite different but interesting.

I could monitor the Radio Kashmir SW stations at Jammu, Leh and Srinagar pretty well and could update their schedules information as follows:

Jammu (50 kW)

0025-0445	4830
0451-0500	5965 Su
0630-0930	5965
1030-1100	4830 Mo-Sa
1030-1115	4830 Su
1030-1741	4830 Su
1130-1741	4830 Mo-Sa

Leh (10 kW)

0212-0430	4760
0630-0930	6000 Su
0700-0930	6000 Mo-Sa
1030-1630	4760 Su
1130-1630	4760 Mo-Fr
1130-1730	4760 Sa

Srinagar (50 kW)

0120-0215	4950
0222-0505	6110
0600-1115	6110
1120-1736	4950
2245-0010	4950 (During Ramadan period only)

These schedules vary slightly from other published schedules even appearing in the latest AIR website. Like the Radio Stations in Srinagar and Jammu, the station in Leh is indeed identifying as *Radio Kashmir* and not as All India Radio. The transmission starting at 1030 from Jammu is being called as a "Special Broadcast" with relay of the "Pahadi" program from Srinagar. Several programs for the Defence Forces were observed on Radio Kashmir stations.

Radio Sadaye Kashmir program from AIR Delhi was heard quite well there as follows:

0230-0330	6100
0730-0830	9890
1430-1530	6100

From neighboring Pakistan, the following SW frequencies stations were noted although unlisted in WRTH /PTWBR and other sources

5018 (0055) (Quetta drifting from 5025/5027?)

5925.5v (0200, 1100): News & Current Affairs parallel to 1152 kHz. This is Rawalpindi beaming to Kashmir as per info from Mr. Noel Green, UK

6065 (0430, 0610) with Rawalpindi identification (Listed in PTWBR as Islamabad)

5027v Quetta and 5080 Islamabad listed in WRTH 2005 were also noted but not 4955 5050 6225 7105 7225 7320 etc.

7395 (from 0600 to around 1110)

My monitoring observations were just after the major earthquake in Pakistan/India and so lot of coverage was there of that tragic event.

Well known DXer from UK Mr. Noel Green who has the official schedule of Radio Pakistan HS on SW says that the transmissions that I monitored on 5018, 5925.5v and 6065 are unlisted in their official A-2005 schedules and might be special transmissions due to the earthquake. 7395 is listed in it as Islamabad 100 kW API-2.

The Voice of Jammu & Kashmir Freedom, Pakistan was heard as follows very strong but the carrier and audio was very rough.

0230-0400 5990
0745-0845 7230
1300-1400 5102

Azad Kashmir Radio, Tarakhal program from Pakistan was noted as follows:

4790: 2327-2357, 0040, 0430 etc. and during evening and night 7265: 0855 to past 1030

They were often relaying Radio Pakistan and also had prayers etc. due to the Ramadan fasting season but nothing was noted on 7145 listed in WRTH 2005. As it was at the end of the A-2005 broadcasting period that my observations took place, maybe some of the SW frequencies from Pakistan that I monitored has changed now that the B-2005 period has come into effect.

The neighboring station **Radio Nepal** was heard on 5005 from sign on at 2315. WRTH 2005 and others lists sign on at 2345. **Bhutan Broadcasting Service** was noted at fair level on 6035 kHz during day time.

Chinese stations were every where like 4905, 4920, 4820, 4800, 4910, 4920, 5240, 5935, 6080 (2 transmitters?), 6110, 6130, 6125, 6250 etc.

SLBC Sri Lanka was heard well on 11905 15745 but not on 9745.

In our tents, the weather was very warm at noon but cold at night compared to our Hyderabad weather. Haridwar is full of temples and we visited several of them. Two of them are on hilltops and it was interesting to ride on the ropeway to those hills.

While my Hindu colleagues collected the "Holy" Ganga water to be taken home to be distributed among friends and relatives, I collected some nice round stones from the river and river banks. (Jose Jacob-IND/dx_india/DX Listening Digest/Hauser-OK)

Pirate Radio Report

Chris Lobdell • P.O. Box 146 • Stoneham, MA 02180-0146 • clobdell@comcast.net

Hello and welcome to the December 2005 edition of *The Pirate Radio Report*. I apologize for no column last month, but in order to make it up to you, the month we will have two pages jam packed with logs. Halloween this year brought good propagation and a few new stations.

Also, we will be starting to use logs submitted to the *NASWA Flashsheet*. Read on!

Many thanks to the following contributors: Ralph Brandi-NJ, Joe Wood-TN, George Zeller-OH.

Alfa Lima International, from Holland, heard on 15069.42 kHz at 1603 UTC with techpop, many IDs on October 16th. [Brandi-NJ]

Captain Morgan, heard on November 6th at 2105 UTC on 6925 kHz. Excellent show from the good Captain! IDs at 2107, 2121, 2127, and 2130 as "You're in the pirate zone with Captain Morgan." Music included "Get Ready" by Rare Earth, "Mama Told Me" by Three Dog Night, "Captain Morgan" by Garth Brooks (several repeats), "Big Airliner" by Steve Miller, "You're so Vain" by Carly Simon, and others. OM announcer in with talk on building radios and listening to pirate radio. Also gave an uncopied address for reports. This is the first time that I have heard this station with any type of announcements other than IDs. [Wood-TN]

Cupid Radio, a Dutch Europirate, was noted on 21895.85 kHz from 1531 past 1540 UTC on October 30th, giving their email address, greetings to listeners and playing techno music. [Maroti-NY]

KRAPO Radio was heard on October 3rd with a DJ that sound like a young boy at 0058 UTC on 6925 kHz USB. The announcer said to look for their upcoming show on Halloween. [Zeller-OH]

KSUR. Logged on October 8th at 0016 past 0030 UTC on 6925.7 kHz. Program of radio music from "Shortwave KSUR" and "Radio KSUR". Email for reception reports is: radioksur@yahoo.com. [Zeller-OH]

"My Friend Is Radio, Radio Is My Friend", heard on 6925 USB, on October 31st, 2005 at 0000 UTC. The story of Graham Conner, who was a success in radio business until he killed his friend Abigail Walters in their cabin on Halloween 1979. He has been in Cherokee Mental Hospital in Cherokee, Iowa ever since. The male announcer likes to repeat the phrase "My Friend Is Radio, Radio Is My Friend". Mentions of the "color of meat loaf", "The TV being Too Loud", etc. Contact: cherokeemental@yahoo.com. Not sure of station's name. Zeller heard a morse code ID as **WSVR**, but I never did. [Lobdell-MA]

Old Turkey Radio noted on 6925 kHz USB from 2125 past 2147 UTC on November 20th. Return of this holiday station w/a Thanksgiving theme. Lots of turkey gobbling and several novelty songs about turkeys and Thanksgiving. Sketch about an election for Mayor of the Puritans, and questions from reporters about whether the candidate would get the Indian vote, and even if he would appoint an Indian running mate. Instructions for hunting a turkey, and then instructions for cooking one. Parody tune "I Love Butterball" to the tune of "I Love Rock and Roll." Gravelly voiced OM gave address of oldturkeyradio@yahoo.com for reports, and a report to that address did not bounce. [Zeller-OH]

Old Vampire Radio. This one was on early for Halloween, October 9th at 2326 on 6925 kHz USB. Comedy routines, talk about Ouija boards. Music about hillbillies and a haunted house. [Wood-TN] Also noted on October 10th at 2220 with an ad for a casket company. [Zeller-OH]

Partial India Radio, noted on 6925 AM, October 29th at 2221-2230 UTC SIO: 232. Sanjay and Harold Krishna were back with show #9, being taped in The Andaman Island studio; announced as the "Mt. Kisco Service". Played Hare Krishna mx, interviewed Charlie Loudenboomer of Pirate Radio Boston during the show. Contact Info: Box 146, Stoneham, MA 02180 [Lobdell-MA]

Radio Black Arrow, a Dutch Europirate, was logged with a test broadcast on 15789.95 kHz AM mode on October 16th at 1536 UTC. Techno music, IDs in English @ 1540, address, has been heard on the west coast of the USA using only 1 watt, more music, three more IDs plus address in Netherlands @ 1551; signal poor, only intermittently intelligible, possibly off by 1603; 20 watts; thanks George Maroti [Brandi-NJ]

Radio Free Whatever, not a real pirate but kids playing radio. Noted on October 16th at 0429 UTC on 6925 kHz USB. Sounded like a live show with two male DJs playing songs about CB radio. [Wood-TN]

Radio Waves International, a French Europirate, was logged on 6209.5 kHz at 0822 past 0826 UTC on October 30th. Very weak copy with talk and music ID confirmed thanks to Dave Valko. [Maroti-NY] RWI also can be heard Saturday afternoons on 11401 kHz when conditions are good.

Undercover Radio. Dr Benway's Halloween show was well heard throughout the Halloween Weekend. The show centered around Benway's dream that he was fatally stung by a cone shell in the Solomon Islands. Noted by Zeller on October 29th at 0211 on 6925 kHz AM; October 31st at 0133 and 0252 UTC on 6925 kHz AM. [Zeller-OH]

WCPL-The Voice of the Purple Pumpkin. Logged on 6923.7 AM mode at 2239 UTC on October 30th. Unusual broadcast with a male DJ. He said that he was giving the history of this station, going back to their Halloween show in 1984. There was some talk about alleged controversy that the station generated in DX circles. Toward the end the DJ gave an ID as WCPL and the V. of the Purple Pumpkin. He gave an address for reports of wcplsw@netscape.net but unfortunately an e-mail to this address bounced, so it may not be valid. [Zeller-OH]

wdvl-The Voice of the Prince of Darkness, logged on 6925 kHz USB, on November 1st, 2005 from 0300-0325 sign off. This is the story of Eastern PA ham DXer, Damon Rector. After getting tired of being a ham, he became a pirate, and met a group of Satan worshipers while checking his antenna. His broadcast was aired on 10-31-84. All four DXers who logged this broadcast that night died mysteriously after Damon made a pact with the Devil. Damon was one of those who died as well, but he is allowed to return from Hell each Halloween to do his pirate broadcast. Contact him, if you dare, at: wdvlsw@netscape.net. [Lobdell-MA]

WHGW, The H.G. Wells Station, noted on October 31st on 6925 kHz USB at 2054 UTC. The show started with a bunch of Halloween noises, followed by a long rebroadcast of the CBS radio presentation of "War Of The Worlds" with Orson Wells, followed by some commentary on the bcst by Wells himself. An email address was announced as: whgw6925@myway.com. [Zeller-OH]

Until next year, Happy Pirate DX!

QSL Report

Sam Barto • 78 Blakeman Road • Thomaston, CT 06787

ABU DHABI: Adventist World Radio 15460 via Dhabbaya f/d cd. in 5 wks. (Barto).

Tropical Band Loggings

Dan Ferguson • 4205 Friendfield Trace • Little River, SC 29566 • troplogs@zerobeat.org

- 2310 **AUSTRALIA VL8A** Alice Springs 1036-1102, 10/18, EE, W w/mx px, "ABC TV" promo 1045. Cmtry re "political correctness effective in altering linguistic behavior". Very interesting. Music thru ToH with music prg. promo on "783 ABC Alice Springs". Fair at best. // 2485 VL8K Katherine-poor. Both outlets appearing regularly at my QTH lately. (Barbour-NH) 1111 10/29 phone conversation by two M, mention of web site, ID as ABC in passing at 1125, some kind of music festival coming up at a national park, ABC stinger music 1130, into ABC News with Keith Hawkey, report from Jerusalem about Israel asking for Iran to be expelled from UN for calling for destruction of Israel, boy missing in national park, sports, cricket test match against West Indies, opposition leader John Crosbie. ID again 1135; promo for ABC News Online for fast and accurate news, abc.net.au/news, ID as ABC Local Radio 1141; weak at beginning, but getting much stronger by 1130, about 90% intelligible for news broadcast (Brandt-NJ) 1223 10/8 call-in Q&A about short story authors, //2325 & 2485. (Brown-MO)
- 2390 **MEXICO R. Huaycocotla** 1205 campesino mx; fair but faded by 1217, 10/15. (Brown-MO)
- 2850 **N.KOREA KCBS** 1225 martial mx, M in KK, girls chorus, gone by 1245 10/9. (Brown-MO)
- 3185 **USA WWRB** 0550-0559 Brother Stair with ments of living in a single wide trailer in Florida which was paid for, and request for donations. Good to VG 11/19. (Wood-TN)
- 3200 **SWAZILAND TWR** 0310-0331* 11/11, M ancw w/talk in listed Ndebele language, choir vocals and more rel talking. ID 0329 during closedown but no IS. Fair. (D'Angelo-PA) Poor 0312 w/W in listed Ndebele; 11/18. (Ronda-OK)
- 3220 **ECUADOR HCJB** 0924 SS inspirational mx, M ID, time pips; good 10/16. (Brown-MO)
- 3234.85 **PERU R. Luz y Sonido** Huanuco (tent) 0935-1005+ OA vocals, SS talk. Weak in noise 10/16. (Alexander-PA)
- 3240 **SWAZILAND TWR** Manzini 0326 in vern trad & native gospel mx; M w/cmtry; QRN, poor 11/7. (Crisler-Smith, MD) 0256 IS, IDs "This is Trans World Radio Swaziland." Also on 3200. Both 0300 s/on in African languages. 3240 improved, but 3200 faded out; weak 11/5. (Sellers-ONT)
- 3245 **PNG R. Gulf** 1231 lively PNG pops, M Pidgin ancw; good 10/8. (Brown-MO)
- 3249.2 **HONDURAS R. Luz y Vida** 0054-0105, 10/23, SS M ancw w/talks & interludes of mx. Same ancw for years. Static crashes. Fair copy with drifts to noise floor. (Montgomery-PA)
- 3255 **S.AFRICA BBC** Meyerton 0325 EE interview program; EE ID, web address, freq list 0330; fair 11/17 (Ronda-OK)
- 3279.7 **ECUADOR LV del Napo** 0901-0910 10/16 M SS IDS & spirited huaynos. (Brown-MO) 0916-0925 11/5 Andean mx, M in SS w/TCs & lengthy talking; good (Sellers-ONT) 1040 M SS preaching; reciting Holy Rosary; probably as R. Maria; good 11/20. (Ronda-OK)
- 3291 **GUYANA Voice of Guyana** 0904-0910 11/5 pop music, DJ in EE w/ID and reading birthday greetings and other messages for listeners; fair. (Sellers-ONT) 3291.16 0720 10/31 BBCWS nx, lcl ID 0728 "This is the Voice of Guyana beginning its broadcasting day", upcoming programs, into Islamic music; very clear and loud, "This is the Voice of Guyana, it is 3hours 40", into Ramadan program, list of times when fast can be broken (Brandt-NJ) 3291.18 0921-0929 11/13, woman DJ in EE w/pgm of C&W songs, clear ID for Voice of Guyana, weak. (Howard-CA) 3291.2 0043-0100, 10/23 M w/EE nx; 0047 same M ancw w/anmts to individuals to contact various people. 0048 mx. Above noise floor most of the time. Best I have heard this station since last winter. (Montgomery-PA) 3291.2 0915-0932 10/16 M w/EE EZL love songs, M ID 0932; low audio. (Brown-MO) 3291.2 0322-0415 10/29, interview pgm w/boxer Frank Bruno (BBC program). Local M ancw ID & TC 0342; then W reading obituaries with somber organ music in the background. BBC news relay noted at 0410 re-tune. Fair. (D'Angelo-PA) 3291.4 0416-0436 10/31 poor but readable; presumed BBC relay nx by M; 0419 into a lively interview prgm with M interviewer and two guests; no TS at TOH; interviewer thanked guests for their participation at 0436 (Ronda-OK) 0530-0550 two M in Australian or NZ accented EE with ments of Cricket and other predominately English sporting events. I think I heard an ID as "You are listening to the British West Indies Service of Radio Australia." Does RA have a BWI service? If this was VoG, it was the best reception in ages. G-VG. (Wood-TN) 0421-0430 M&W EE talk about internet. Ments of BBC. Ads for "Elephant" brand of curry manufactured on Charlotte Street. Fair 11/19. (Wood-TN)

- 3310 **BOLIVIA R. Mosoj Chaski** (P) 0911-0924 M&W mx & talk in local dialect; clear but low audio 10/16. (Brown-MO) 2245-2310 11/14, M w/rel talk in Quechua over soft guitar music. Vocal selection at ToH, then W ID 2303; another man began another rel talk. Poor to fair. (D'Angelo/FCDX-PA)
- 3320 **S.AFRICA R. Sondergrense** 0345 good w/animated discussion in Afrikaans between two men (Ronda-OK, 10/24) 0210-0219 11/5 pop music, man in Afrikaans; fair. (Sellers-ONT)
- 3325 **INDONESIA RRI Palangkaraya** 1319-1336 11/11 mx pgm, reception fair. So as Victor Goonetilleke points out, the fire there must not have been that bad, as they are back on the air again with a decent signal. (Howard-CA)
- 3325 **PNG R. Bougainville** (tent) 1031-1200, RRI noted with decent signal at tune-in, with another station under it. Impossible to tell who till about 1117, when RRI dropped down some. Man DJ with pop songs till 1150, into pgm of anmts or something (did not sound like news), mention of Solomon Islands and Papua New Guinea. Poor. By 1200, RRI was back on top. Conditions were unusually good. (Howard-CA)
- 3340 **HONDURAS R. Misiones Int.** 0225-0330+ 10/7 talk in local lang. ID 0302. Some short breaks of rel mx, but mostly just constant talk. (Alexander-PA) 0220-0225 11/5 W in SS, mx; poor. (Sellers-ONT) 0332-0406 11/11, group vocals, M SS anc w/ID; lively Latin vocals until another man began long rel talk at 0345. At 0359 another ID followed by more talking. Poor to fair. (D'Angelo-PA) 0431-0436 EZL insp mx, SS ID 0432; poor 11/18. (Wood-TN) 0344 gospel songs; SS ID 0346, into SS preaching by M; F-P 11/16 (Ronda-OK)
- 3344.8 **INDONESIA RRI Ternate**; 1301-1313* mx, into Koran chants; 10/30. (Brown-MO)
- 3345 **S.AFRICA Channel Africa** poor with brief EE anmts between mx selections; ID 0330; all just above the QRN, 11/14. (Ronda-OK)
- 3375 **BRAZIL R. Educadora** 0930 11/8 music, talk by M, ID 0940, fading out by 1000 as sunrise comes to western Brazil (Brandi-NJ)
- 3375.1 **BRAZIL R. Nacional Sao Gabriel** 2306-2340 11/13, pop mx selections with audience applause, PP by M; nice ID 2334 before ad string. Poor to fair. (D'Angelo/FCDX-PA)
- 3925 **JAPAN R. Nikkei** 1112-1142, 10/21, way over the ARO traffic this morning with animated JJ talk, frequent promos, music bridges between segments. Nice level but hard to follow fast-paced program. (Herkimer, NY) Fair-good 1240 w/cl piano mx; JJ anmts 1244; ID 1245, into long JJ talk; best in LSB (Ronda-OK, 11/2) 1016-1033, 10/24, JJ, ballads w/ W b/w selections. No discernible ID noted at BoH. // 6055. Both poor. (Barbour-NH)
- 3965 **FRANCE RFI** poor with FF service to N.Afr; M&W talk; brief mx interludes between items; RFI ID 0421 (Ronda-OK, 11/4)
- 3976 **INDONESIA [KALIMANTAN] RRI Pontianak** 1041-1107, 10/25, Indo, Continuous Indo ballads thru ToH, brief anc 1106 then back to music. Poor under USB slop. (Barbour-NH) 3976.06 1024 11/5 lengthy talk by M in Bahasa Indonesia, many mentions of Pontianak, call to prayer 1030, mx. (Brandi-NJ)
- 4052.5 **GUATEMALA R. Verdad** 0335-0440 11/4, continuous rel vcls to 0350 when M SS rel talk. More inspirational music including some early Christmas music ("Silent Night"). ID & more SS talk 0430. Poor to fair. (D'Angelo-PA) Astonishingly clear and strong @ 0248 with EE hymns; full SS ID with address @ 0257 (Ronda-OK, 10/31) 0436 M SS talk, up tempo insp mx; fair 11/18. (Wood-TN)
- 4460 **CHINA CPBS** Beijing 1046-1104, 11/14, Mandarin, M&W w/ talks, CNR "jingle" mx 1056. Pips, jingle mx & ID 1100. Poor, best in USB to avoid ute. // 4800-Gerrmu. (Barbour-NH)
- 4604.9 **INDONESIA RRI Serui** 1150-1207, 10/29, finally useable with program of 1950's doo-wap style vocals. M in Indo briefly 1159 into SCI, definite ID 1200 by M but starting to drop quickly. (Herkimer, NY)
- 4650.2 **BOLIVIA R. Santa Ana** 2236-2253 11/14, M hosting a pgm of rustic vocals; ID & TC 2248, then ad. Poor due high noise levels. (D'Angelo/FCDX-PA)
- 4746.86 **PERU R. Huanta 2000** 1005-1030+ 10/16 OA folk mx, ads, jingles. Some talk over OA mx. ID. Weak with swisher QRM. (Alexander-PA) 4747, At 1021 W SS anc, Andean flute music; poor 11/5. (Sellers-ONT) 4747 1021-1037, 10/17, Vernacular, Quecha music & talks. Quick ID at 1022. Fair tho quickly faded under static. (Barbour-NH) 4746.9, 1011-1020, 11/14, W shouted SS ad, M ID & SS talk. Rustic OA vocal followed by ID & TC by M; poor. (D'Angelo/FCDX-PA)
- 4750 **SUDAN R. Peace** 10/17 0355 Religious program, ID heard at 0400; threshold audio and fighting with CODAR, but I did hear an ID (Brandi-NJ)
- 4754v **BRAZIL R. Educação Rural** Campo Grande 0306 PP anmts & lively vocals; poor but readable 11/18. (Ronda-OK)

- 4759.98 **LIBERIA ELWA** 2230-2301* EE rel pgming with talk& mx. Weak, poor, with low modulation. (Alexander-PA 10-7) 4760 0706 indigenous instl mx, M in EE 0709; voice UTE QRM 10/16. (Brown-MO) 2212-2230* 11/13, group singing with some talk until 2228 ID by M & s/off anmts in EE; off with apparent choral anthem. Poor. (D'Angelo/FCDX-PA)
- 4770 **NIGERIA R. Nigeria** Kaduna; 2149-2233* 11/14, nx & sports; nice ID 2154: "You are tuned to the English Service of Radio Nigeria."?? Various features and some music to 2330 ID and close-down anmts; brief choral NA. P-F w/intermittent CODAR QRM. (D'Angelo/FCDX-PA)
- 4774.97 **PERU R. Tarma** 1018 11/8 indigenous music, IDs between each song by M ancr, fading out by 1045 (Brandi-NJ) 1027-1040 11/14 M SS tlc, OA vocal. Jingle ID 1030, more music. Poor. (D'Angelo/FCDX-PA)
- 4775 **SWAZILAND TWR** 0354-0357* & *0359-0402 11/10, tune in to apparent close of program w/ familiar IS & M giving ID: "This is Trans World Radio, Swaziland." After a brief break, a new IS commenced w/ID & anmt that the German service was beginning. Poor to fair. (D'Angelo-PA)
- 4779.98 **GUATEMALA R. Cultural Coatan** 0220-0233* 10/8 SS talk w/short breaks of rel mx. ID anmt 0232 & off. Poor-weak. (Alexander-PA)
- 4780 **DJIBOUTI RTD Djibouti** 2255-2306* 10/14 Horn of Africa mx, Vern talk. Koran 2304. Abruptly pulled plug during Koran recitations; vy good signal; on late for Ramadan. S/off usually around 2000. (Alexander-PA) 2101-2134, 10/17, Vernacular, continuous talks by M w/numerous ments of Allah & Ramadan. Brief music 2130, then presumed radio drama. Poor under static. (Barbour-NH)
- 4780 **GUATEMALA R. Cultural Coatan** 1230 SS male chorus; poor 10/15. (Brown-MO) 1111-1135, 10/17, SS, rel talks, choral mx & full ID anmt 1129. Fair. (Barbour-NH) 1033-1054 10/19, M SS ancr w/IDs (opening anmts?) followed by a morning program of local music. Poor to fair. (D'Angelo-PA) 0438-0452, M&W SS talk, LA mx, ments Coatan, abrupt s/off 0452; 11/4. (Caras, ME)
- 4782.4 **MALI Rdiff TV Malienne** 2256-2310 10/30, highlife vocals w/drums. M ancr FF talk, ID 2302; then more highlife vocals. Poor to fair. (D'Angelo-PA) 4783.2 0643-0652 10/30 traditional reed mx w/W accompaniment. (Brown-MO) 4784.39 2230-0002* 10/7 Afro-pops, FF pops, FF talk. ID. S/off with NA. Freq a little higher than usual. Fair-good. 5995 - fair, but covered by R. Nederland s/on at 2359. (Alexander-PA) 4784.5v 2148-2207, 10/17, M FF talks and Arabic-style music bits. Talks b/w percussion beats thru ToH. Very poor, difficult to get a lock on the frequency. // 5995 - poor/fair. Nothing heard on 4835. (Barbour-NH)
- 4790 **PAKISTAN Azad Kashmir Radio** (Tent)1314-1358 fair with Koran chants in unid lang; extreme voice & pulse QRM, 10/16. (Brown-MO)

- 4970 **INDIA AIR** Shillong 1455-1508, 10/30, sub-cont. pop music & songs, ToH "This is All India Radio," five minutes of news in English, then back to music, weak. Also noted AIR on 4775 with sub-cont. music at 1502. No sign of AIR on the new frequencies of 4810 (Bhopal), 4870 (Shimla) nor 4980 (Gangtok). Has the move here been delayed or was I just not hearing them? (Howard-CA)
- 4985 **BRAZIL R. Brasil Central** 2323-2328, Portuguese, song, M anc w/discussion; fair 11/5. (Sellers-ONT)
- 4990 **INDIA AIR** Itanagar 1347-1543, poor 11/10. Long segment of solo instrument, sub-continental music, then chanting without music (not Quran), 1450 news in English (items about a festival, Pakistan, etc), 1540 AIR ID. (Howard-CA)
- 4990 **SURINAM R. Apintie** 0045-0101 in language and DJ taking calls from listeners; poor-fair 11/6. (Sellers-ONT) 0500-0515 soul & MoTown mx, including Gladys Knight; then LA tunes; M ID 0503; fair 11/19. (Wood-TN) 0545 11/19 song 'You'll never walk alone', EE ID by W, "This is Radio Apintie, the Happy Station". Good signal. (Bergadano-NJ)
- 5005 **EQ. GUINEA R. Nacional** 2155 11/9 Soukous-style guitar music, SS ID 2200, into news (Brandi-NJ) 2100-2257* Vern talk. African drums, Afro-pops. S/off 2254 w/NA. F-G 10/14. (Alexander-PA) 2256 long NA and off; good 10/15. (Brown-MO) 2130-2145, 10/8, SS; first with fairly clear signal but soon began to fall apart with noise problems by 2145. Lots of fades. M SS anc w/long talks and interludes of some really nice mx. Much better at 2210 recheck. (Montgomery-PA) 5004.6, 2112 M SS talk, 2119 recorded speech; 2151 western pop music; P-F 11/4. (Sellers-ONT) 2011 non stop Afro pop mx, no DJ, weak 11/15. (Bergadano-NJ) 0550-0600 M SS talk, 0600 M&W SS anmts, a few bars of West African music, and more talk by man; poor 11/13. (Jim Evans, TN)
- 5010 **INDIA AIR** Thiruvananthapuram 1212-1235, 10/29 Vernacular/EE w/EE nx 1230. (Lare-MI)
- 5014.45 **PERU R. Altura** 1015 10/18 strident talking by W; anmt 1020, more talking, ID 1030; into rustic OA vocals. (Berg-MA) 5014.5 presumed at 1030, M SS anc, Andean music; poor 11/5. (Sellers-ONT)

- 5020 **SOLOMON IS SIBC** 1218-1233 BBC px in EE on illegal Moroccan immigration into Europe; 10/8. (Brown-MO)
- 5030 **BURKINA FASO R. Burkina** 2240-2252 M FF intros, Afro pops, highlife mx; strong, slowly fading 10/29. (Brown-MO) 2320-2340, 10/14, FF/Dialects; unusually nice copy at 20/s9; continuous mx to 2329 when W FF anc'r w/ID & px details. M anc'r 2330 w/what sounded like nx. Slight hum during nx. (Montgomery-PA) 2203 11/9 FF talk; noisy, better by 2230; music, including "One Love" by Bob Marley at 2135, more music with M DJ, ID "Radio Burkina" 2243 between songs (Brandi-NJ) 2057 traditional music, high-life music; M in FF 2059, talk from 2100, but not news; good 11/4. (Sellers-ONT) 2155-2205 W.Afr pop mx; W FF anmt 2159; then M&W anmts & talk; stronger at 2235 recheck. Heavy low side interference from Rebelde; 11/13. (Jim Evans, TN) 2250 Afro-pop vocals; FF anmts 2252, back to drum and whistle mx; FF ID 2301, into FF talk, perhaps nx, by same anc'r; P/F 11/19. (Ronda-OK)
- 5040 **CUBA R. Havana Cuba** (NF?) 0040-0210+ SS pgmg. IDs. // 9600. Strong but slight hum in audio. Only heard this 1 night, 10/14. (Alexander-PA)
- 5040 **ECUADOR Voz del Upano** 1030-1051 10/19; M SS preaching, then M&W w/multiple IDs around 1038. Program of vocals followed. Fair at tune in but deteriorating rapidly. (D'Angelo-PA)
- 5054.6 **COSTA RICA Faro del Caribe** 1036-1052, 10/23, M w/rel music & SS talks, canned ID 1043. Fair. (Barbour-NH) 0908-0938 11/14, two vocal selections, then long SS rel talk by M. Nice ID 0927, followed by vocals. Fair signal but somewhat lower voice modulation. (D'Angelo/FCDX-PA) 5054v 1050 group singing; SS ancms; clear ID 1055, into upbeat gospel vocals; singing went right through TOH without ID; F/P 11/20. (Ronda-OK)
- 5446.5 **USA AFRTS** 2214-2225, 10/8, EE talk show w/comments on investments. Program called "Money" ID as NPR. Job hunting the next topic on the talk show. S3 signal level with slight fades. (Montgomery-PA) 0831-0845 sports & PSAs in EE; good 10/16. (Brown-MO)
- 5470 **LIBERIA R. Veritas** 2203-2215, pop ballads by Whitney Houston and others. M in EE b/w selections. Fair at best tho very weak anc'r audio, 10/18. (Barbour-NH) 2145-2304* 11/13, gospel songs to 2200 ID, long rel talk by M in EE. More gospel singing around 2228 and much more rel talking. Closedown ID & anmts, choral selection until carrier cut. Very poor overall with music audio much better than talk. (D'Angelo/FCDX-PA)
- 5770 **MYNMAR Defence Forces** Taunggyy 1620 10/18 talk by W. Heard in USB to avoid QRM UTE. (Flora, ITALY)
- 5775 **ITALY IRRS** 2115-2205* EE pgming with LIN Radio pgms. IRRS ID & addr at 2129. UN Radio nx at 2130 followed by other LIN radio pgming. Closing anmts 2200 w/ID & addr. Weak at tune-in but improved to fair level by s/off. (Alexander-PA 10-14) 2052-2133* 11/14, Word for Life program with station ID 2200 then Reaching Up radio program. ID and request for reports at 2130. Fair. (D'Angelo/FCDX-PA)
- 5775 **ITALY R. MiaMigo via IRRS** 2136-2148, EE, classic rock by Bowie, Dylan and Fleetwood Mac. M w/titles, local TCs and sked. "MiaMigo" jingle 2144. Fair 11/13. (Barbour-NH)
- 5865 **GREECE V. Greece** 0400 Greek ID, into vocal mx with Greek anmts between selections; fair 10/24. (Ronda-OK) 

Company Store

Mike Wolfson KB8TYT • 1842 Mifflin Ave. • Ashland, OH 44805 • mwolfson@bright.net

Welcome to December. Its hard to believe that 2005 is almost over. I don't have anything new to announce this month, just a couple of reminders about current specials. First of all, the Company Store is offering a special on the 2006 Passport to World Band Radio for \$18.90 for orders postmarked by 15 December, 2005 plus shipping of \$4.00 for the U.S. and \$8.00 for Canadian orders. Anyone ordering the book from outside of Canada and the U.S. should contact me ahead of time so that I can find out what the actual shipping costs will be. We are also offering the 2006 WRTH for \$26.90 plus shipping for orders postmarked by 31 January, 2006. Shipping charges will be the same as for the 2006 Passport. Finally, we are selling baseball style caps with the club logo embroidered on the front for \$12.00 with \$3.00 shipping to U.S. addresses and \$6.00 to Canada. If you're ordering from somewhere else, please get in touch with me so I can find out exactly how much the shipping will cost. That will do it for now. Hope everyone has a good one. Mike

Since we have some space it might be a good time to explain again the
number after your name on your mailing label. This indicates the last issue
you will receive under your present membership subscription. The last two
numbers are the year and the first one or two are the month, i.e., if the
number is 1006, this means that the October 2006 issue will be the last one
you'll receive until you renew.

The address for renewals, inquiries about membership, missing copies,
ads, etc. is NASWA 45 Wildflower Road, Levittown, PA 19057-3209. The
email address is weoliver@comcast.net.

COMMITTEE TO PRESERVE RADIO VERIFICATIONS

JERRY BERG, Chairperson • 38 Eastern Ave. • Lexington, MA 02173 • (617) 861-8481

JQAK & JDY
Sobomra Shetokuyai, Dairen;
Kwantung, Lensed Territory.

Mr. R. Daneker

Dear Sir,
With many thanks we have received your kind letter dated February 19

The JDY Short Radio Station commenced its operation on the 16th July 1937 with a view to establishing the standpoint of both Japan and Manchukuo which aim at overthrowing the Chiang regime which has been resisting Japan in collusion with Communists, and (2) to create a new order conducive to cooperation with the Chinese people.

With the data mentioned above, the Station has been on the air under the management of the JQAK Broadcasting Station, concurrently operating the standard broadcasting station: One is on the air for the Japanese people, the other for the Manchus.

The details of the JQAK Station are as follows:
Frequency-----992.3KG (50.2 mt.)
Power-----10KW.
Daily program by GMT:
12.00-----Basic news in both Japanese and Manchu.
12.45-----News in English for 15 minutes.

Checking up your report with our Station Log., we have the pleasure to verify your reception of our transmission ().

We should be very much pleased if you would kindly tell your friends about our broadcasting.

We earnestly hope that all listeners will understand the existing position of both Japan and Manchukuo.

Yours sincerely,

Kohji Murata

Kohji Murata
Director
JQAK & JDY Radio Station
Dairen

Some Asian echoes this month. At left, a QSL letter from station JDY in Dairen, the Kwantung Peninsula, then part of Japanese occupied Manchukuo (now Lu-ta, China). The station was often reported at 0900-1000 UTC, the last 15 minutes with English news. (Sorry this isn't a clearer repro, but it is actually a little better than the original.) +++ At bottom left, a veri from Radio Saigon from 1939, when the French were still running the show. +++ And at the right, a card of FEN-Tokyo from earlier days when it was more widely heard than it is today.

RADIO - SAIGON

Boite Postale 412 - SAIGON (Indochine Française)

Nous avons le plaisir de confirmer la réception de votre lettre. We are pleased to verify the reception of your letter.

19th Annual Winter SWL Fest

Sponsored by **NASA**

March 3-4, 2006

Best Western—The Inn at Towamencin

(formerly Holiday Inn).

Sunneytown Pike, Kulpville, Penna.

Plan to attend your favorite forums Friday and Saturday. Enjoy meeting with your friends in the Hospitality Room. Bring radio related items for the swap meet or to donate for the Silent Auction. Check out your friends' receivers, bring one of your own for others to try!

No frills; just shortwave, longwave, mediumwave, pirates, and scanning. Once again you will enjoy the camaraderie of your hobby friends.

Please note, there is an incentive for you to pre-register, as prices are more expensive for those who wait. Registration options are also more flexible than in the past, with new one-day and student registrations. If you wish to participate in the meals, you must register and inform us that you will be attending by Thursday morning, March 2nd. If you choose not to participate in the meals, the hotel has a restaurant, and there are other restaurants nearby.

Your registration must be received by February 21, 2006 (note the earlier date) for the best prices; registrations received after that date are priced higher. See the registration form below.

Many things, like the raffle, remain the same:

GRAND PRIZE To be announced

SPECIAL Register early to win a sw portable! One free entry for an early-bird registration received by February 10, 2006.

Please bring items for the Silent Auction. Proceeds are donated to charity.

Checks should be made payable to WINTER SWL FEST. Register directly with the hotel for your rooms by calling the Best Western at (215) 368-3800. For 2005, one special rate \$75 single or double! Tell the hotel staff you're with the WINTER SWL FEST to receive this special room rate. You must make your reservation directly with the hotel to receive this rate; reservations via the Best Western 800 number or web site are not eligible for this rate. Up to the minute info. can be found on the WINTER SWL FEST Web Page at <http://www.swlfest.com/> or from <http://www.anarc.org/naswa/>.

The Best Western—The Inn at Towamencin is located at Exit 31 of the PA Turnpike Northeast Extension-Lansdale Interchange. Improved access from the south with the Blue Route (1-476)—ask for details. Limo service is available from Phila. Intl Airport directly to the hotel.

Please submit the following form with your registration amount or send for more information to:

SWL WINTERFEST
P.O. Box 4153
Clifton Park, NY 12065
