

# NATIONAL RADIO CLUB

VOL 1-38

DX NEWS

JULY 1, 1934.

Well here it is time again to start on the July Bulletin, after the fine get-together which we had here yesterday, we hope to have a lot of interesting news for you this time.

However before going ahead and giving those of you, a resume of what took place at that get-together, that were unable to get here for the fine time, we have several new members that we want to welcome into our club at this time, They are Mr. Alec Kinghorn, Apartado No. 2466, Havana, Cuba; Mr. T. McCabe, Ocean City, Maryland and Mr. Elwin H. Bullard, P. O. Box 170, Drummondville, Quebec. We certainly want to wish all of you a most happy and interesting DX season this coming year and it is our hope that our Bulletins may play a large part in bringing you a very successful DX Season.

We also wish to take this opportunity to announce that Mr. Kinghorn has kindly consented to serve our club as it's Cuban representative and we feel certain that he will secure quite a few interesting programs for the members of this Club as well as keep us advised as to the Cuban radio broadcasting situation. As a matter of fact we are already in possession of a list of stations in Cuba showing the latest changes which we are sending you with this Bulletin, this information is sent to you through the courtesy of Mr. Kinghorn.

Before we forget it we want to call your attention to a change in time for the KDKA DX Club broadcasts, it may be that some of you were not aware that the time had been changed, however until further notice, we have been advised by Joe Stokes that these broadcasts will take place Saturday nights from 11:00 to 11:30 PM. EST instead of Sunday nights from 11:30 to midnight EST as was the case prior to the change. We have included this information to many of you in letters which we have written to you since this change went into effect, however for the benefit of all we are calling your attention to it in this issue of our Bulletin. Don't forget to send in those reports to Joe Stokes for he certainly is doing his best to boost our club, now let's all boost him. Don't forget keep NRC ahead in those reports which are sent in to Mr. Stokes.

We also at this time wish to call to your attention a DX program which has been arranged over KDKA for Sunday morning, July 15 from midnight to 1:00 A.M., E.D.S.T. This program is broadcast especially for listeners in Africa who are members of the I.D.A. During the course of this program there will be many prominent DXers heard, among whom will be Mr. Charles Morrison, President of I.D.A. Mr. Fred C. Butler, Editor of The Radex Press and Miss Aileen Jobes whom we have all learned to know as one of the finest friends that the NRC has. Mr. C.G. Huber has asked us to especially urge you all to listen to this program, out of courtesy to Miss Jobes and the fine work that she has done for our club. Be sure to send in your reports on this broadcast and show Miss Jobes that we do appreciate the fine helping hand which she has given us. This is a real opportunity for you to show your appreciation to Miss Jobes, we are not certain that Mr. Stokes will be on this program, but undoubtedly he will be, which gives us a two-fold purpose for reporting on this broadcast. It is your duty to report on this fine program which KDKA has arranged for you, so please don't let it be said that NRC fell down on the job and did not send in it's share of reports on this broad-

There may be other DX notables on the KDKA DX program but at the present we can't think of any others.

We have quite a bit of FRC news which comes to us through the courtesy of our Advisor, Mr. C. G. Huber. We will list this information for you after which we will give you the resume of the get-together.

Applications granted:

WPRO, Providence, R. I., change freq. from 1210 to 630 kcs. 6/1-12/1/34  
 KGA, Spokane, Wash. " " " 1470 " 900 " till 11/1/34.

CPs to erect new stations at Dallas, Tex. 1200 kcs., Lubbock, Tex. 1310 kcs., Salisbury, Md. 1200 kcs., and Temple, Tex. 990 kcs.  
 The application for CP to erect new station at Clarion, Pa. has been amended to request 850 instead of 800 kcs.

We wish to thank Mr. Huber very much for this fine information, today's mail brings us a complete list of Mexican Broadcasting Stations secured through Mr. Huber's efforts. So-it begins to look as though this month's Bulletin will be 7 or 8 pages instead of 4 as is usual.

Now for that resume of Sunday's get-together. The attendance was slightly less than we had anticipated, but nevertheless everyone present seemed to enjoy themselves. We opened the meeting by electing a Chairman for the Courtesy Programs Committee. We know that this election will meet with your approval for Mr. Huber was the successful candidate. We certainly are pleased that he has been elected and we now call upon all of you to support Mr. Huber in this position. This was followed by some very interesting discussion on inter-club co-operation by the members of our club that were present and Mr. Bernard Ahman of the CDXR who was an invited guest. Following this Luther Grim our publicity manager gave some very interesting facts concerning stations that he had encountered on his trip across the country. Following these very interesting remarks, light refreshments were served and we were entertained at the piano by our Secretary, J. Warren Routzahn who is truly a wizard on the Ivories. We then took pictures of the crowd that was present and followed this by a general discussion on DXing. We think that this covers the meeting pretty well.

We have just received word that Mr. Alec Kinghorn has a new address it is Apartado No. 2488, Havana, Cuba. Members will please discard the address shown on page one.

John J. Barlow has advised us that he shall be pleased to meet any NRC members that may visit the West Coast during the summer months. The same thing applies to us here at headquarters, we shall certainly be glad to meet any of you that may happen to pass through York at any time. Don't forget to look us up if you come through York.

Members paying their annual dues at this time will be given credit for a full year from the date of their expiration.

John Bullock advises us that WATR are now operating from 9 AM to 7 PM excepting on Sundays at which time they are silent. He also advises us that he will be at Box 77, RFD3, Henderson, NC during JULY & AUG.

Through the efforts of Luther E. Grim our Publicity Manager, we are able to give you the latest additions to the European Broadcasting situation. Mr. Grim has given us a booklet which he has secured through the courtesy of the British Broadcasting Co. We feel that inasmuch as most of the popular DX magazines have most of these stations that we shall only list those not shown in these popular DX magazines.

KYCS	W.LENGTH	STATION	POWER	KYCS	W.LENGTH	STATION	POWER

1411	212.6	Bucharest, Rom.	12 "	1429	209.9	Cork, I.F.S.	1 "
1429	209.9	Klagenfurt, Aust.	0.5	1438		Nyiregyhaza, Hgy.	6.25

We wish to announce at this time that it has been decided that just as soon as our membership reaches the 200 mark that we will issue a regular 6 page weekly edition during the season from Sept. 1 to May 1. So, allow us to suggest that you get out and bring in the new members for us so that we can start the Sept. 1 issue, or rather our first weekly Bulletin in September with 6 pages. Now is the time to bring in those new members. Let's have your support and show us that you appreciate our efforts by bringing in a large number of new members. Any time that you may desire sample Bulletins for your friends do not hesitate to ask us and we shall certainly be most happy to oblige you.

At our little get-together on the 24th we learned that Jack Thompson, who has been seriously ill for the past few months, is slowly regaining his health. Let's all drop Jack a card and cheer him up during his illness. We know that Jack would appreciate hearing from you, however, you must not expect to hear from him yet, for from what we learn he is not able to spend much time writing letters yet. May we here at headquarters say "Best Wishes for a Speedy Recovery, Jack!"

We wonder how most of you are finding reception during this exceptionally warm weather, here in York, we have had quite a time lately hearing WGN or some of the other Chicago stations with much satisfaction before 11 or 12 PM. Static is unusually heavy even on these high-powered stations. Personally we here at headquarters will be glad to see Fall and with it improved reception.

We have received during the past month a very interesting report from S. R. Lewis, concerning his log of verified stations. We thought that you might be interested in his report and so, we are accordingly printing a part of it for your benefit. U.S.A. stations verified 671; Canada 74; Cuba 28; Mexico 33; Alaska 2; Hawaii 2; Porto Rico 1; Venezuela 2; Colombia 1; Bolivia 1, Uruguay 1; Argentina 2; Costa Rica 1; San Salvador 1; Haiti; 1; Dom. Rep. (2); Guatemala 1; Is. Bahamas 1; Is. Miquelon 1; Australia 1; New Zealand 2; Germany 3; Sweden 1; Italy 2; Wales Reg. 1; France 2; N'F'L'D 3. Making a total of 853 stations verified.

We hope that you will like the 8 page edition which we are giving you this time, for we felt that the complete list of Cuban and Mexican stations most certainly would be of interest to you, hence we have gone to the trouble of making it for you, hence we are hoping that our efforts will please you this time.

Don't forget that KDKA broadcast on July 15, you are urged to send in your reports. Also don't forget to keep sending in your reports to Joe Stokes on those KDKA DX Club broadcasts each Saturday night.

All these stations will answer verif requests if correct reports are sent. All members should enclose 10 cents in their letters for these verifs and be sure that the ten cent piece doesn't get lost or stolen in the letter, put it between two pieces of card-board. Many of these stations have promised special DX broadcasts. Nearly all of these stations answer in Spanish - some don't have verif-cards or stamps. NOTE: Short wave station COC 6010 & 9590 kcs and 49.9 & 31.28 Mts. was burned and over \$5,000 damage was done. They are no longer transmitting of course. We are greatly indebted to Mr. Kinghorn for all of this fine information as well as for the complete list of Cuban stations. THANKS.

NATIONAL RADIO  
CLUB  
YORK PENNA.

Dear DXer:-

We desire to inform you that with the next issue of the National Radio Club DX News that your membership will have expired.

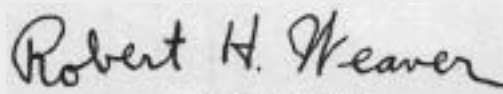

If you feel that we have benefited you with our tips and if our efforts have pleased you we would suggest that you renew your membership in our club immediately, in order not to miss any of the future issues of the DX news.

The membership fees for the National Radio Club are \$1.25 a year which entitles you to receive our weekly Bulletins for a year from the date that you renew your membership in our club.

We assure you that we shall continue to put forth our utmost efforts to please you even more so than we have done in the past.

Thanking you for giving us the opportunity of having served you and hoping that you will give us the opportunity to continue serving you, by renewing your membership in our club as soon as you possibly can, I beg to remain

DXingly yours

  
President
