

Well here it is time again for us to begin work on this week's Bulletin and we are beginning to find that news is getting more and more scarce each week, however this is probably due to the fact that we are rapidly drawing to the close of this season, which we feel in spite of all reports was the greatest DX season that we have ever seen. Many stations that had heretofore never put on DXes attempted them this season with wonderful success. We feel that the most credit for the success of this season, however can be given to the Inter-Club Co-Operation Plan. Other seasons stations that had not put on DXes were afraid to try to put them on due to the interference that was the result of clashing DX programs, however this season, those stations became convinced that the chances of having their program spoiled by some other special arranged by some other club had been greatly reduced by this Co-Operation Plan, with the result that they were more willing to run the risk of putting on DX programs, and as a matter of fact many of them did just that thing. We are hoping that next season will find all the clubs banded together in this Plan and we feel that as soon as that is accomplished that many stations not running DXes at present will be willing to put on a program, for they will be practically assured that there will not be any interference from any other station.

At this time we want to welcome as one of our members, none other than Charles H. Hesterman, 2214 Herman Ave., Saskatoon, Sask. This is the gentleman that has been responsible for having lined up all of those fine "Four Star Specials" this season. We want to take this opportunity to welcome you as a member of our club and to also thank you for the fine work that you have done in behalf of the members of our club this season. We are indeed, very proud to have you as a member of our club.

Alec Kinghorn has advised us that owing to the fact that most of the Cuban Broadcasting Stations are in the midst of installing Crystal Control on their transmitters, that it is necessary to cancel all Cuban DX programs until he advises us otherwise. He says that after all the stations have their outfits equipped with the Crystal that we ought to be able to have far less interference and better reception from the Cuban stations.

Mr. Hesterman, has advised our Advisory Chairman, C. G. Huber that he had received a last minute advice from WHAM Rochester, N. Y. that they were to have put on a Four Star Special for IDA, CDXR and NRC last Sunday morning, March 3 but unfortunately he received this notice too late to advise any of the clubs and has written them asking them to dedicate another program to these three clubs, and advise him in plenty of time in order that we may notify all of our members. We do not know whether this program went on as scheduled or not for none of us were on the lookout for this program, however if it did go on as scheduled we want to thank WHAM for their splendid co-operation and we regret that they advised us too late, in order that we could notify you of the broadcast.

We want to take this opportunity of thanking all of the stations that put on DX programs for us on March 10. Unfortunately here at club headquarters we were unable to hear many of the broadcasts owing to poor reception conditions. However we hope that most of our members had the pleasure of hearing these broadcasts for our club.

New stations:-

Rochester, Minn. 1310 kycs. 100 watts, unlimited time. Southern Minn. Broadcasting Corp.

Change in frequency:-

1440 kycs. to 900 kycs. WTAD, Quincy, Ill.

Change in power:-

500 to 1000 watts, KXYZ, Houston, Texas

25,000 to 50,000 " WBBM, Chicago, Ill.

5,000 to 10,000 " KFAB, Lincoln, Neb.

Change in operation:-

WLBD, Peoria, Ill. from sharing time with WTAD to unlimited.

Extension of completion dates:-

WBEF, New Britain, Conn. to May 16, 1935.

WVFJ, Daytona Beach, Fla. to July 5, 1935.

Miscellaneous:-

Suspended grant for a CP for a new station in Milwaukee, Wisc. 1310 kcs. Application designated for hearing.

KWEA, Shreveport, La. to remain silent for a period ending not later than April 30, 1935.

WVFF, Plattsburg, N. Y. granted regular license. (This would indicate that the station is now on the air.)

Applications dismissed or denied:

New station at Dennison, Tex. on 1200 kycs. W.C. Hildgodick and G.C. Knauer

New station at Abilene, Texas on 1400 kycs. Guilford Broadcasting Co.

New station at Muscatine, Iowa on 1170 kycs. Norman Baker

New station at Kilgore, Texas on 1200 kycs. A. L. Chilton

New station at Salinas, Calif. on 1500 kycs. A. H. Sconberg.

Applications received for CPs to erect new stations:-

560 kycs. Lewiston, Maine. P. S. Andrews

850 " Vallego, Cal. Times Herald Publishing Co.

1310 " Ventura, Cal. C. R. Hauser & J. McGinnis. (Amended)

14 80 " Hammond, Ind. Hammond-Calumet Broadcasting Corp.

1500 " Dallas, Tex. Dallas Broadcasting Co. (Amended)

We note that the FCC has granted WVFJ, Daytona Beach, Fla. an extension of their completion date, however according to the information which has been sent to us by Mr. Morgan Kent of that city, who incidentally is a member of our club, he tells us that this station is expecting to begin testing within the next week or so and will begin its regular schedule of broadcasting in two or three weeks. Therefore we would suggest that you keep on the lookout for this station after 2:00 A.M. for the next couple of weeks in hopes of hearing some test programs from them. They as you know operate on 1420 kycs.

We are in receipt of a letter from Lester Zellmer of station WTRC in Elkhart, Ind. in which he informs us that the response to their program for our club on February 24 was satisfactory but that they didn't get as much response to it as they did on the first one for our club. We are glad to know that it was satisfactory but we are sorry that we weren't able to beat our own mark for response. We had been hoping that Mr. Zellmer would be able to say that the response to it was the better.

Arthur H. Brackbill of Lancaster, Pa. has advised us that he heard WMC 780 kycs. Memphis, Tenn. announce last Sunday morning that until further notice they were planning to run a DX program each Wednesday and Sunday morning. Mr. Brackbill said he did not hear them mention any time for these broadcasts, but he says he is sure it is from 1:00 to 5:00 A.M., E.S.T. This is the kind of co-operation we like from our members, if any of you happen to come across any tips of this kind, please send them in.

Elwin H. Bullard sends us word that we are not to forget to remind our members of the Canadian Frequency Checks which take place the 19th and 20th of each month. As strange as it may seem, there really does not seem to be any set schedule for these tests for upon securing what we thought was a schedule several times, we found that the next month it did not hold out. These tests begin about 12:30 and continue until 3:09 A.M., E.S.T.

Howard Schlobohm sends us word that he heard WGES Chicago announce the other morning that HHK 920 kycs. Port-au-Prince, Haiti was to run a DX program on Sunday morning, March 17 from 4:00 to 5:00 A.M., E.S.T. He says that the station was given permission to put on this program by the President of Haiti. We know that this will be good news for many of our listeners, for there are many DXers that need this station in their logs.

We are in receipt of a card from Joe Stokes, editor of the KDKA DX Club on the Broadcast Band, and he advises us that their schedule is a bit uncertain at the present time, but adds that we should advise our members to watch for their program each Friday night from 11:30 to 12:30 A.M., E.S.T. until he has advised us that they are again on their regular schedule. Thanks for advising us of this change, Joe.

Benjamin Genung our Spring City member sends us some news which we feel certain will be of interest to our members. He advises us that he has just learned that the F.C.C. have approved a plan to shift WLWL New York from 1100 kycs. to 810 kycs. full time and WNYC is to be shifted to 1130 kycs., sharing time with WOV. He also says we are to advise our members that WESG Elmira, N. Y. are now using 850 kycs.

Percy J. Hall and several others of our members have advised us that KELO Piedras Negras, Mexico are now operating on 1610 kycs. This station had been operating on 650 kycs. right after they took the air. We know that it is good news to most of our members that they moved, for they were in a bad place to interfere with foreign reception of Aussies and some of the Europeans when they were on 650 kycs.

We have been advised that Fred Bisset, Pres. of CDXR will make a speech during the DX program which is to be put on by 1OAK 1185 kycs. Stratford, Ont. on March 17 from 4:00 to 5:30 A.M., E.S.T. We thought that perhaps some of our members would be interested in hearing Fred make his speech during this broadcast.

Don't forget the Four Star Special which is to be broadcast from WLW 700 kycs. Cincinnati, Ohio on the 17th from 1:30 to 2:30 A.M., E.S.T. This is another of these fine programs which have been arranged by Mr. Nesterman and we know it will be worth your while to listen to this fine broadcast for the members of our club, as well as the CDXR and IDA.

We are omitting the Cuban specials that were to have been put on this week, from the DX Calendar, at Alec Kinghorn's suggestion. As soon as we hear that they are again going on as scheduled, we'll let you know

FRIDAY MORNING, MARCH 15.

KFI DX TIPS EVERY SATURDAY MORNING AT 2:30 A.M.

WTCN DX TIPS EVERY SUNDAY MORNING AT 12:4 5 A.M.

Clifford Van Tassell of 138 Washington Ave., Pleasantville, N. Y. asks us to try to find out what station he heard on 1370 kycs. last Sunday morning up as late as 5:00 A.M. E.S.T. He says he heard them say something about here in California which leads him to believe it was either KERN and KRE. He will appreciate it if any of you can drop him a line advising him which of these two stations it was that he heard.

Elwin Bullard sends us word of the XEZZ broadcast which appears in the DX Calendar. He says they will use 500 watts power and he feels that they ought to be well heard all over these United States and Canada. He also says that KMFC 710 kycs. Beverly Hills, Calif. are now dedicating a program to the CDXR every morning, until the latter part of April.

KADA 1200 kycs. Ada, Okla. have advised us that they are going to run a DX program on Monday morning, March 25 from 2:00 to 6:00 A.M., E.S.T. They say that they hope a lot of our members will listen in and send them some reports on this broadcast. In return they promise that they will dedicate a portion of this program to the members of our club.
