## WPID WFPG Programs

I wish all you members would send a thank you card to Station WEDC for their courtesy in signing off from 5:30-5:45 AM during the program from WPID in order that the members of the NRC could log this station. They made that announcement. Please write to Mr. Al LaValle, Chief Announcer.

I could not tell if Station WNOE signed off for the program from WFPG or not as there was another station on that frequency with a test. They were asked if they would sign off and if any of you members know if they did please send them a thank you card also. Please tell these stations that you appreciated their kindness and it will help in future times. Ray. DONT PUT THIS OFF BUT SIT RIGHT DOWN AND DO IT NOW THEN IT WILL BE DONE.

DONALD HILL BROKEN BOW NEB. I received your notification on my winning your contest on the program from WCBT and wish to thank you very much. My first NRC bulletin arrived Monday and was able to pick up KODL on their special and also found WLOF testing on same freq until 4:15 EST. Added another new one this eve when I easily tuned in XEMC Mexico City on 1590 They are in the clear and should be easy for most DXers. Haven't been able to do a great deal of DXing this year but have built my log to 1045 and they come kind of hard now. (Well I hope we can help you build your log a little higher and lets hear from you often-Ray)

JOE BRAUNER WMSVILLE N.Y. DX the past 2 weeks has been fair, new stations as usual few and far apart. New veries, cards from WAJR-WINX. Letters from WJOB-WATN & WFTM. New stations KWAT & WJOB on freq checks, KROD on reg sked check. KWLM on DX program. WKIP thanks to Dick Coopers tip as latest bulletin with tip in calendar did not reach me in time, and KYAN Results on Club programs, 2/16 No trace on CMC or KFQD, hrd spanish speaking stations on 1310 and 750 till after 4 AM dont know who. 2/18 WLOF blocked first 15 min of KODL, then KODL came in with gradually increasing strength reaching Q4/R6 at sign off, reported both as neither has verified Oct reports and follow ups. KODL had most interesting DX on the season. 2/24 WBRW and WPID hrd perfectly thanks to WEDC who gave WPID a 15 min clear spot between 5:30-5:45. WKIP hrd from fair to good between 2-4:20 R3-6. KYAN logged between 4:20-4:30 on RCA freq check Q5/R6. WBTA is Q5 R7 here in daytime but badly jammed at night, no verification yet. Regarding XEHV Vera Cruze, supposed to use 1000w on 1420, hrd testing on the morning of Oct 25th, reported and as usual with Mexicans no reply. Not hrd here since. Log now 1585 and all set for WFPG to make it 1586, been waiting for WFPG a long time. (Joe I am looking for your DX experiences to publish soon-Ray)

## DX EXPERIENCES OF JOE BECKER "THE HAMILTON NITE OWL"

Well back in November 1929 I bought my first radio, it was a 7 tube Majestic, neutrodyne set. I erected an areial running East & West, 90 ft long, 35 ft high and I still use this same aerial today. I never use ear phones, any traps or gingerbread apparatus on my set. Well here is how I got my start in verifing stations. Back in Feb 1930 I happened to come home rather early in the morning and turned on the radio and heard WFDV Rome Ga., on its initial test. Mr Dollie Goings was the owner and he begged for reports; well I sent one and in March 1939 I received a verie from WFDV; my first verie and it was such a nice letter I decided to try again some morning. Well fellow members I began to verify all stations and I figured when I got about 100 veries I would quit, well when I had 100 I made it 200 and so on until today I have 1372 Verified and I am just as much interested in verifying stations as I was back in 1939, perhaps even more as I rarely miss a mornings DX.

After I was in the game awhile some of us DX hounds started a club named The Interstate DX Club, this club did not last long in fact we only published 1 bulletin. Then I joined the Atlantic Radio Club, also to the Canadian DX Relay, IDA, NNRC, Universal DX Club and the National Radio Club and my firm opinion is that the NRC is the cream of the class. My prize catch is TJW located in the City of Hamilton in the Bermuda Islands, they were using 7-1/2 watts and was it a thrill to hear this one, Ill say so. Also have heard other low watt stations as Carbondale-CMBR Havana Cuba 15 watts, KFPM used a slogan I sent to them, KFPM The biggest little station in the Nation. KFPM used 15 watts, also CKMO when they were 50 watts Back in December 1934 I heard WPAX, Thomasville Ga on a frequency check and sent them a report, in January 1935 my 2nd report went to WPAX and have sent them a report on every FC since only missing 3 on them, figure it out and see how many there are. I also sent WGAU 26 consecutive Sunday morning reports and one of my thrills of DXing was listening to WGAU one Sunday when Harry Grimes said to Mr Lynne Brennen I wonder how Mr Becker would like to hear the birds sing, Well Mr Grimes opened the window and believe it or not I never heard such wonderful and sweet music before.

How many of the present day DXers have heard WCHI-WMRJ-WRK-KMIC-WFDA WODX-WAMC-KFXV-KPJM-KFWI-KELW-KMCS-KGEW-WQDX-KGIQ-WIBO-WKBI-WKBF-W3XJ Wheaton on BCB-WLEY-WRHM-WDIX-KFWF-WBMS-KGIX-WNAK-WPOE-WCGU-WCDA-WPCH-WPGC-W3XDD Whippany NY-WFBE-WHBD-WCSO-WFJC-WSEN-WIBR-KGMP-KOCW-KTBR-WEDH-WGBI-WJBU-WELK-WNBW-WFAN-WPSC-WERE-WMBA-KGDA-KFUL-WEHC and KVL.

Had one experience when I heard EQ7 in Lansing Mich talking to EW7 in Jackson Mich. This was on the BCB, I would hear what EQ7 said and then would quick turn to EW7 and hear him answer EQ7. My hardest task in getting a verification was from a Cuban CMBW I tried for nearly 3 years but finally landed it. I have no Cuban delinquents but have 4 Mexicans who will not verify. They are XEAI-XEBZ-XEBP & XESM. I have put down on my black list page. Many are the times when I was so disgusted with DX that I was on the verge of passing out of the picture then I would log a new station and then the old DX spirit was revived again. At one time for 16 whole long months I never missed a single mornings DX, one has to have a lot of patience and perserverance and one must sacrifice a lot of sleep to be able to take a lot of noise and also to with stand the all nighters these stations really are a decided detriment to us DX hounds, wish they all were on 520kc then we really could go to town with no interference.

Well if our NRC editor prints this in the bulletin, I am afraid you fellowmembers will have to take an asprin to releave your headache. I believe I have said a plenty so am signing off and trust to see more of these DX experiences from other members, namely Pat Reilley. I am signing off and wishing each and every member of the NRC much seccess and plenty of good DX.

Sincerely an old timer

Joseph Becker Sr.,

Hamilton Ohio
