IMPORTANT = SEE PAGE #4 FOR WRITE-UPS ABOUT THE PROGRAMS FOR THE ENSUING WEEK. Page #4!

Note #1 - WOTW. This program is indefinite - no definite promise could be made.

#2 - VOCM. We changed the date to this last week. Now, time is changed to this.

#3 - KCLT. Is on 1320 Kc/s. - not 1350, as listed last week in error.

#4 - WOAY. Are increasing power from 250 to 1,000 watts. If construction is not completed by this date, program may have to be cancelled.

Entry fees received but no entries from Batson-Bishop-R Brown-R and E Coopers-Duffy-Hunt-Huttner-Kirk-Morss-Saling-Seth-Steele-Wyman. Lets see something after every one's name next time. DEADLINE NEXT LIST 12/8/47

Elmer Wokaty brought up a godd point and this is how I answered him. When a station is verified, then later in the year puts on a DX program, I see no reason why this station will not count 3 more points in addition to what ever was previously listed if it is re-verified on the DX program. However as stated in the Rules, you cannot verify the same station call on 2 seperate DX Programs and receive 6 extra points. (i.e. WATN Monthly DX)

We have 31 Entries. A full list of Prizes will be listed in a future bulletin. They are going to be worth while, so get those stations verified while its still early. No one is out of the running as yet. Anything sent in and not listed here was received too late and will be in next listing. REMEMBER-DEADLINE FOR NEXT LISTING WILL BE DECEMBER 8 1947; Have all your eligible veries listed and to Tom Carberry Jr 22 Louvaine Dr, Kenmore 17 N

TOM CARBERRY JR-KENMORE N.Y. Veries have been received from WMBM-WTNC-WGRM-WASK-WFRL-WVJS-WJMO-WIKY-WIBS-WVLN. Reports are out to WSIV-WJSW-KWWL WTNS-WARL-WKYW-KCNC-WESA. I found no sign of WSVS on their DX Program. It was noisy but as a whole DX was pretty good that morning. Conditions could still improve a whole lot however. After getting the above contest standings ready, I am driving to New York City on business for about a week and hope that it will be possible for me to see Ernie Cooper and Bernie Duffy. I will at least give them a buzz but feel that we'll no doubt get-to-gethe

LOG BOOK

Remember send that BUCK to Art Foerster 1213 N. Bosart Ave., Indianapolis 1, Indiana. If you want that swell Printed LOOSE LEAF LOG send for it now so Art will know how many of you boys are subscribing. Remember you get 3 or 4 complete Logs or if not necessary you get up to date sheets that will keep your log in order. The \$1.00 entitles you to a full years subscription. Also if you note any errors in the last issue, please drop

DX PROGRAMS FOR THE WEEK
(TO BE ADDED TO THE DX CALENDAR)

Dec. 13 KFUD 850 Saint Louis, Missouri NR0-NNRC-ALL 3:00 - 5:00 A.M. EST.
WKLY - HARTWELL, GA.

Write-up last week, Page 4. Reports to Mr. William L. Hayes, Chief Engineer.

WALT - TAMPA, FLORIDA.

11/16, 3:00-3:30 AM.

And here is another day-time station set to honor our clubs with a special program. It is believed they will have some trouble from XEFO, but this station signs off at 3:30 a.m., E.S.T., and it is to be hoped that WALT will stay on a bit after 3:30, so they might be heard into the far west. WALT has been a very friendly station to us DXers, and their Manager, Mr. W. Walter Tison, is extremely anxious to hear from as many DXers as possible. So, everyone, don't forget to tune for this Sunday A.M. program, which should be one of our finer shows. We want to thank Mr. Tison, and also our Chairman of the C.P.C., Mr. Len Kruse, who arranged this one for our clubs.

WJVB - JACKSONVILLE BEACH, FLA.

11/16 - 4:00-4:30 AM.

As WINS, New York, leaves the air, WJVB will be coming on, on the same channel, with this special program. This is another day-time station, and one many missed, due to the afore-mentioned WINS. WJVB is reported to have a very strong signal, be-lying its 250 watts, and ought to be received by all of us on a clear 1010 channel. Mr. W. Lewis Evenden, Chief Engineer of WJVB, says that he'll be happy to comply with our request for a DX-Test, and let's show him we're happy, too, by bombarding him with many reports. This is the second Floridian of the morning for us, and let us make sure to hear both programs. This was also arranged by Len Kruse.

WOTW - NASHUA, NEW HAMPSHIRE

11/17 - 3:30 - 4:30 AM

We quote verbatim from the NNRC official bulletin of 11/1/47. "THIS IS A TENTATIVE BROADCAST. Mr. Robert C. Bingham, C.E. of WOTW, advises Jeff French that while he would like to be on at this time, he cannot promise to definitely be on the air. It will pay all of us to tune to 900 on this date in the event Mr. Bingham decides later to be on the air. Thanks to Mr. Bingham for this information and to Jeff French for passing it along to us." So, you see once again the rather indefinite schedule of a DX-Test by a day-time station. The stations nor the clubs can help this - it is up to the FCC. This brand new station would look good in our logs, so let us look for them. Arr.: NNRC.

WKOB - NORTH ADAMS, MASSACHUSETTS

11/17 - 4:00-5:00 AM.

This is also a daytimer, and their test period occurred during the summer, when many of us were not at the dials. And WKOB happens to be a very friendly station, and has an excellent transmitter location, and so they should be heard a long way out. The program will be in the nature of a test, and the clubs may possibly be mentioned - it again depends on those F.C.C. regulations. Now you will recall that a couple of weeks back we published a letter from Mr. A. J. Kordalewski, Chief Engineer, telling of tests to come in conjunction with the new North Adams station still under construction, WMNB, on 1230. We may hear more about these interesting tests on this program. We thank Mr. Kordalewski for this kindness, and everyone be watching for the show, arranged by NNRC.

WHIM - PROVIDENCE, RHODE ISLAND

11/17 - 4:00-5:00 AM.

Here is a state many of us need in our logs, as WHIM in "Little Rhoody" honors our two clubs. And they too are a daytime station, completing a week of special programs from these "sunshine" stations. Now we can look for a fine show from WHIM, and also a fine printed verification card will be sent to all who send in correct reports and postage. Mr. Carroll Philbrook, Chief Engineer of WHIM, tells NNRC that the program will consist of announcements and good music. WHIM should have a clear channel for this program, and with their 1,000 watts all of us should be able to log WHIM without too much trouble. Our thanks to Mr. Philbrook, and to NNRC who arranged the program.

ON 'THE STATIONS' STATIONERY - KFUD, ST. LOUIS

(in part)

Another DX program will be broadcast by station KFUD, Concordia Seminary of the Lutheran Church in St. Louis, Mo., on a frequency of 850 K., 5000 watts, during the morning of Saturday, Dec. 13, 1947, from 3:00 to 5:00 a.m., E.S.T. The DX program will feature a message of Christmas, and inspiring music. Persons who reply on this DX program will receive a worth-while souvenir, namely a copy of the booklet, "Precious Promises of God," 4 x 6. --- Tune in, tell others, and write in after the program.

(signed) Rev. E. H. Howenstein, Director.

REPORT TO ALL SPECIALS, BUT IF YOU FAIL TO HEAR ANY, DON'T FORGET THAT THANK-YOU CARD.

MURMURS OF THE MEMBERSJoe Becker - Hamilton, Ohio

Latest new ones heard: WRTG WMBL WFRL WMOA WVLK WARC KSTA CJVI WTNS - last three heard 10/28. DX reception was swell that AM, the Coaters coming in like a ton of brick. Also heard WQQW this morning. I am getting close to that 1900 mark in verifications. No sign of KWJW, as too much WING & KPRO, and that dog-gone WCRK call, all the way over to 1430 Kc/s with their 1000-cycle note, hi. My thanks to the boys who are doing so nicely with the C.P.C. work, also to our Editor, Secretary, & Vince Stasen. Keep up the good work! KSTA surely put in a swell signal. That was the first time I have heard CJVI. WAYN is still out in the cold, as well as KWCO. 10/31 was certainly a noisy morning for DX, but I did manage to snag WVLN, Olney, Ill., a 250 watter. Heard several others, but could not get calls on them. Stranger on 870 or 880 from 2:16 to 2:24. Also a cycle tone on 560 Kc/s at 3:56 a.m., no music - only tone, and still there at 4:23 a.m. This one drowned out WIND. Also one on 1450 from 3:27 to 3:36, and a strong station on 950 Kc/s., at 3:53. I heard 40 new catches in October. 10/21 - WMBL WRTG. 10/23 - WFRL. 10/25 - WMOA WVLK. 10/27 - WARC. 10/28 - WTNS CJVI KSTA. 10/29 - WCEC WEBC. 10/30 - WKOT WKOW KWWL WZAL. 10/31 - WVLN. I have about 46 reports still out. Have heard 1938, verified 1892, 46 out, and 10 that I doubt I will ever hear from, all being Spanish-Speaking stations. This 10/31 was noisier than any morning last summer. We had a very heavy fog - could that have affected the reception? I wish some of the all-nighters would follow WHAS & stay off of the air all night. I have been hitting the hay around 9:00 p.m. at nights, then getting up around 2:30 and DXing. WCRG has f/c 3rd Friday, 2:45 till 3:00, and they would appreciate any reports. On reception. 317-319 Main Street. Also out are WKVM since 1/20/47, KWCO, 2/6/47, WNOK, 2/24/47, WBAY, 2/29/47, WMBC, 3/4/47, WOBB 4/12/47, WWOK 4/22/47, XEML, 5/10/43, WJQS 6/17/47, WIBK 7/3/47, KWPM 7/5/47. A nice verie in from WKTG, Thomasville, Ga. Several times I have heard stations sign on at 5 a.m. on 1340, but never can get the call letters, but WKGN is one.

Eldon Addy - Marcus, Iowa

(rec'd 10/29/47)

Lots of noise here, but some new ones logged since Oct. 18. See by last bulletin that most of the boys logged KCLE & KGRI on their DX programs. Since then have logged these new ones: KRHD, 1350, Duncan, Okla., ET, WCRK, 1450 Kc/s., Morristown, Tenn., reg., KGAF 1580 Kc/s., Gainseville, Texas, regular 7:15-7:45 a.m., C.E.T., WHKP, 1450 Kc/s., Hendersonville, N.C., f/c; KNX on DX; KECA no go, as power was cut off all night, so no DX. KAMQ, 1010 Kc/s., Amarillo, Texas, ET; WMMP, 1590 Kc/s., Evanston, Ill., Reg., 5:45-6:00 p.m., E.S.T.; WFRL, 1570 Kc/s., Freeport, Ill., ET; WFRC, 1600 Kc/s., Reidsville, N.C., ET; KPET, 690 Kc/s., Lamesa, Texas, reg. sked.; KPBX ~~1330~~ Kc/s., Beaumont, Texas, reg. sked. New veries in from WROB WHRV WZIP WREF WLOW WEGX WTPR/KOPP KWHW KSIW KSUN KIRX KREL KGAF KGIL KSGM KYNO KSIG. KOKX started regular schedule last Tuesday, according to paper. Received three veries from WIAQ, so no they are verifying, even the old reports. See where WJR is now an all-nighter, and WHAS has ceased its all night programs.

Eldon Addy - Marcus, Iowa

(this week's report)

DX picking up a little, with these new ones: Oct. 26 - WVJS, 1420 Kc/s., first test - Owensboro, Ky., KSTA, 1000 Kc/s., Coleman, Texas, ET; Oct. 27 - WWCL, 1120 Kc/s., Lackawanna, N.Y., f/c; KRFL, 1400 Kc/s., DX - Moscow, Idaho, good here; KXO, 1230 Kc/s., El Centro, Cal., f/c; WUIS, 1430 Kc/s., Lansing, Mich., reg/sked; KSWC, 690 Kc/s., Richfield, Utah, 7:30-7:45 p.m., E.S.T. on reg/sked; Oct. 28 - KWKW, 1430 Kc/s., Pasadena, Cal., DX (hear here); WOLS, 1230 Kc/s., Florence, S.C., f/c; WTNS, 1560 Kc/s., Coshocton, Ohio, ET; Oct. 30 - WZAL, 1400 Kc/s., Dampoclis, Ala., ET; KWWL, 1320 Kc/s., Waterloo, Iowa, ET; WHOO - 990 Kc/s., Orlando, Fla., F/C; WKOW, 1070 Kc/s., Madison, Wis., ET. New veries in from KAKE KFTA KLOU KSAC KOOL KBOA KCLE on DX, KOSB on DX, KSOK WHCC. KCLE plans another DX program in January, and will let us know of date. Too much noise Oct. 31 for KIEV DX, as we were having a storm all night.

Bob Spencer - Buffalo, N.Y.

Got back into DXing this month. Still don't have a good aerial up, because I expect to move. Reports out this month to CHVC (2nd) KECA WMBX WIAQ WHUB WFRL KNX WCKY WIKY XERF WRDO WATN WTNS. Got 4 letter veries back 10/31 from CHVC WHUB WFRL & WIKY. Other veries so far from WMBX WCKY ZBM. Not much luck on low-powered westerns with this aerial. Maybe it was the warm FX. Visited CKEY & WHJM xtr sites while up in Toronto a week ago. Had a swell get-together with the Toronto DXers. Guess that's all until next week.

MISINGS OF THE MEMBERS"Pat" Keilley - Jamestown, N.Y.

New veries are XEJP WBS WPBP WFRD WFRG WFRD, for 1948 log. New ones heard are KRPL KSTA WTNS WKAP WKCT WXAL WBBC WESA WVLN. 10/27 - WEOA gave KRPL a tussle, WCOP, WORA and XEJP, making a mess of 1150 until 4:20. WFRG testing at 4:33. 10/28 - KWKW fairly good on DX, KPRO along side it on 1440 - KSTA at 4:05, WTNS on 1560 at 4:24. A west coaster raising deuce on 1230, plenty of dope, but no call de-ciphered at 4:50. 10/29, no DX, bad cold hanging on yet. Heard WKAP after work tonight for a new one. 10/30 - Heard WKCT with ET at 4:54, but too noisy to DX. 10/31 - Noise was terrible, WNDR at 3:07, and called it a day. 11/1 - Noise bad, WBBC on their "after hours club" program. WXAL, 1400, for second new one, over-riding WJLB: WFRG at 4:25. 11/2 - WVLN at 3:15, WESA at 3:45 for second new one, KASH again after 5, but heavy noise today. Too much work lately to rest up enough to DX over an hour each morning. Nothing heard on WSVS as I didn't get up until past 3 Sunday, nor anything on KIEV because of the noise that day. (It's rough here too, Pat - Ed.)

Ray Edge - Buffalo, N. Y.

Well boys, this working days is the bunk, no DX to speak of. Only reports sent out were on Wednesday - veries in are letters from WPGH and WPDY to bring my total to 1226. However, working Midnight- 8:00 a.m. this coming week, so hope conditions are OK. On the KRPL DX, heard one complete call during a few seconds silence from WEOA. (See my report Pop -Ed.) Will be up for WSVS, you can be sure. (Bet you don't get 'em, hi -Ed.) Well, boys, the last two bulletins have been more like it, so keep it up. Lots of good DX to you all.

Walter Bishop - Rensselaer, N. Y.

Daytime reception has been fine the past week. Stations to the south and west coming in as early as 4:30 p.m. Thirteen new ones added to my log: WCYB KOAM WMBD WIKY WACE WHPE CKWS CBO CHVC WHRV CKPC WWGP WDVA. Veries received this week: KOAM WKNE WHAS CHVC WIKY (special) WHO WGN WHUC WBRY. I sent a report to WMBD, and I received a letter saying that I reported everything OK but their frequency, so I have to send them another report, showing that I made a mistake when I filled out the report. I have fog in the upper story, I guess. 73!

Bill Reese - Fairmont, W. Va.

Here goes again - 23 more in October. KOOL (960), WFRL (1570), WBS (740), KJAY (1440), WARC (950), WVOG (1240), WVLK (590), WTNC (790), WRBC (620), WCBD (820), KWWL (1320), KWHN (1320), KRAL (1240), WZIP (1050), WTNS (1560), KASH (1600), ~~KHNL~~ (1430), WXAL (1400), KAMQ (1010), WHOO (990), WNMP (1590), WVLN (740), WKCT (930). In November, so far WKTG (830), and WEWG (1080), a total of 76 since Sept. 1, 1947. Received a letter verification from KJLE but nothing from KGRI. I couldn't hear a thing on KIEV as bas as I need them. Slept in this A.M., didn't need WSVS, can hear them on regular schedule in the mornings. Fairmont's new WVVW's studios will be at 94 Fairmont Avenue in the Fawley Building instead of Fairmont Hotel as first reported. Passing there yesterday, in the afternoon, a girl came out, and I asked her when the new station would start broadcasting. She said 'Sometime this month.' I asked - 'Do you have any idea when they would start their equipment tests?' She didn't know anything about equipment tests, but said they would probably have all their equipment placed by the 15th of this month. So you can look for them in about two weeks, according to that. (Txn for info!Ed)

Clarence Mustoe - Coeur d'Alene, Idaho.

Some of my new stations from out here are: KPOW (1260), KXEL (1400), KWIK (1490), and KWIK, I am afraid, is a 24 hour station; KOAT (1450), KGRI (1000), KGIL (1260), KODI (1400), KOKO (1400), KCSB (1350), KTIM (1510), KSMO (1550) (by the way, how do you get a verie out of KSMO - I can't get them to give out!) KCOK (1240). WRDW, which is my farthest catch from here in Coeur d'Alene, with my 5-tube Sentinel, 1480. KXEL (1540), KSRV (1450), KFNO (1400), KHUM (1240), KFFE (1340), KCID (1490), KTIL (1590), KYJC (1230) KRDU (1130), KDSH (950), all underlined verified. I wonder when KNAK will move to their new freq.? Then maybe I can get farther out on 1400 at night, but then I suppose some other station will go 24 hours. I think it would be a lot better if those 24 hour stations would either get on the less crowded frequencies, or clear the air every so often, but I guess that's too much to hope for. I finally got Mr. Rodell, manager of KVNI, to make up a special DX Verie card, and it is a picture post card of Coeur d'Alene, and country, with red & green printing on back, so for those correct reports (Con'd, Page 8)

MUSINGS OF THE MEMBERS

(Clarence Mustoe's rep't, con'd.) of their special Anniversary program of November 1, they will send them out. I suggested ideas for the card and they went from there. I wonder where their farthest report will be from? (Ye Ed is very busy, Clarence -Ed.)

Kenneth Geary - Walnutport, Pa.

The following 8 new veries were received during the past 5 days: KCLE KOKX KSAC ~~KWHI~~ WRRL WMMW WMTW WTNC, all letters. A card from KSIG was also received, but they had verified previously by letter. A printed card in an envelope was received from Liberty, N.Y., thanking me for my report. No call appears on the card, but the call letters on the envelope are "WVOS". An outlaw? No - but as a reply from WVOS, it is a complete fizzle. Speaking of WFRL above, how many of you old-timers remember the old WFRL in Brooklyn, N.Y., using 100 watts on 1250 Kc/s.? He was a regular visitor here in 1926 & passed out of existence in 1927 before I heard about verifications, so he appears only in my "heard" log along with WAHG WARS WBKN WEBJ WEBH WGL WIBI WINR WKBK WPCH WRST WSOM & WTRC, to mention some of the older stations in the New York City area which I used to hear regularly prior to 1929. WFRL's slogan used to be "The Voice of Brooklyn." Reports were sent to the following new catches: 10/28 - KTLI on f/c from 4:12 to 4:28 a.m., and WTNS on ET from 4:08 to 4:38 a.m.; 10/29 - KAMQ on ET from 2:30 to 3:00 a.m., through WINS QRM, KURC on f/c from 3:01 to 3:15 a.m. WBPC on all-night program (another all-nighter) and WKAL on ET from 4:13 to 4:30 a.m. 10/30 - WKCT on ET from 3:15 to 3:50 a.m. and WKOW on ET from 4:07 to 4:30 a.m. 10/31 - WROD on initial ET from 3:33 to 4:17 a.m. over all QRM on 1340 Kc/s., and WVLN on ET from 4:15 to 4:30 a.m. No KIEV because conditions turned bad, and static was heavy. The previous morning was good for West Coasters, but such is a DXer's luck.

Lec Herz - Chicago, Ill. / E.R. COOPER - 438 E 21 BROOKLYN 26

Reports went to the following: WIMY KWKW KSTA WKCT ~~WTNS~~ WBBC. Veries in from WHUB KCLE KSAC WROB WIKY. Veries not at 507, with 14 reports out. Some sidelights on this week's reception, during KWKW's DX, WIMS, 1420, was testing & being that near to Chicago was splashing over on 1430 Kc/s. Derek Wharton called them by phone, and got them to stand by, which they did. Very good of them. When calling KWKW, talked to Ken Albrecht, he and I used to correspond when both of us belonged to the now defunct GCDXC. He promised to write me soon - hope he does, as I am anxious to hear from him. Ken also put the tip on KSTA testing on the ~~KWKW~~ program. Derek Wharton & I call each other on the phone during DX sessions, to give each other tips. Good system. (How abt a rpt, Derek? *Ed.)

Tom Carberry - Kermore, N.Y.

DXed 11/1, and nose was terrific. Pulled in KWWL WTNS WVLN WARL. Hope better Sun. AM.

Lefty Cooper - BrooklynNY

Reports out to WTNS WVLN WBBC (thx on these 3 to tip from Bernie Duffy) XECL WESA KGER WHUC WBIZ WKCT WGNR WENE. Veries in from WVJS WROB WPGH WBS (latter infinite) to make total 1363. 10/31 - Static horrible, no KIEV - no nothing, except sleep. 11/1 - Halloween party, no DX, just goblins. 11/2 - WTNS with excellent all-AM signal, and XECL on 990 in clear 2-3. WVLN till 5, WBBC's all-night nuisance, and WESA testing, 940. 11/3 - Still staticy, KGER tough between BBC & Bordeaux, both coming in fairly well on 1384 and 1393 respectively. KFOX too weak to crack through. KSVP hrd, but not enough for rpt. 11/4 - WHUC test, R-9, 1:30-1:45. WBIZ ET 2-3, band music. WKCT all AM, R-7. KLAC barely perceptible here, sorry to say. Hrd one sta. ann., and one "NRC." WGNR good behind carrier at 5:30-6:00 daily program, and WENE at 6 a.m. s/cn. My luck on DX programs is all bad so far, except for KNX and WHUB, and KGER. HEART THIS WEEK -

WVDC MEETING 11/25.

The World-Wide Dial Club of Chicago, Ill., will hold its Nov. meeting on Tues., Nov. 25, 1947, at 8 PM CST at Garfield Park, Gold Dome Bldg., Room 25. Write Gerrard Jansen, if interested, 2551 W. Monroe Ave., Chicago 12.

A MESSAGE FROM YOUR CLUB PRESIDENT

Fellow members, your Pres. says 'hello,' and 'you DXing' do not forget to send in your reports, tips & musings, as this helps make good bulletins, and helps keep the NRC on top, where it belongs. (Right, Joe - Ed.)

WATCH FOR
/(WBYN using their xmr days now, acc. to (Bernie Duffy) and others.

A MESSAGE FROM YOUR BOARD CHAIRMAN

Our club will be only as good as you members want. SEND IN YOUR REPORTS TO EVERY ISSUE. No matter how insignificant the DX you receive might be to you, some of the other boys might be looking for this station. Let's give Vince Stasen enough tips to fill 2 pages. With the SPC doing good work this will be a banner year. So let's report!
