Our Twenty-Eighth Season

March 25, 1961

A PLEASURE

"I just want to express my sincere pleasure at being a member of the NRC. Of 106 new stations I have received since joining the Club, a large percentage have been directly responsible to one of the best, if not the best BCB publications in the world, DX NEWS. Keep up the good work!

-Buddy Dillard - P.O. Box 185 - Murfreesboro, Arkansas

Joe Brauner - R.D. 1 - Smicksburg, Pennsylvania

Well, finally luck changed and a pair of new calls were added as a result of the fine work of our late-starting but fast-traveling CPC. On 3/6 WEMD was way over S-9 here and on testing before 4 o'clock; WMHI was equally strong with an interesting show, but no trace of WEMT on 1350. WADC was well under S-9 and WAVY weaker and a third program was audible but sure didn't sound like a DX as music went on and on with few if any breaks. No time to try the other DXes. On 3/8, WFLI-1070 was added testing at an early hour, and has been more or less audible ever since, at night battling with WIBC and in daytime it's a three-way tie much of the time, with WHPE added. CHOK who used to be top signal on 1070 here last summer is not coming in at all now. On 3/9, WRKB-1460 was added at 5:30 a.m. as they came in top of the mob briefly. They seem to s/on weekdays at 4:30 as they were heard doing so on Monday 3/13. WAVO-1420 was added during an ET at 4:30 on 3/11. (WHK off AN for the moment at least). CX very poor on 3/13. Static way up and signal level down, but did hear WSIZ-1380 with ET and WFUN's new AN on 790 way back of WTAR. WMFJ, Daytona Beach had complete control of 1460 again, no XEXQ, just a weak hetro on 1460. KMA and KGLO rolled in like semi-locals and WTTT was easy although not clear as static was really tough. Two veries, QSL card from WACT and letter from WBNR, reply delayed due to change in CEs. 73.

Dick Cooper - P.O. Box 223 - Kittanning, Pennsylvania

3/6- WBBK WEMD WMHI Specials all received and reported but I couldn't raise WEMT and didn't have time to try for the others. The f/c list is very much help to me as is the new Vane Jones Log. Letter verie in from WHHY on late with flood alert. Letters from WMIC WWCH KTOE WHER WDDY. Printed cards from WETT WTRA, mimeo card from WDXR. WMLP sent nice letter and said they had reports from eight states and Canada on their flood alert; also that they will soon move to 1380 kc/s. which indicates they must have aquired the facilities of WARC. About 40 reports out, many to local daytimers in an effort to boost my total. I believe WSHH is in the non-answering category. I am acquainted with several of the staff and will shortly see if I can get them to answer. Drop me a card if you have a report outstanding to WSHH. Logged WELZ-1460 Belzoni, Miss. as per sked in DX Down the Dial. My son Tom was formerly an announcer with WDOB in Canton, Miss. which is owned by same firm as WELZ. He is acquainted with several of the staff at WELZ and we are anxious for their answer to our report. 3/11, form letters from Swan, WICE, friendly handwritten letter from WKCW, printed card from WJMJ. Logged WXGI WAGG WRFC WAPP all testing this morning. 3/12- "Radio Caribe" on 860 a real powerhouse this morning with English announcements. 4WW-1325 has been strong evenings at 9:30-10:00. Happy to see my old buddy Pat Reilley back in the groove.

Carroll Seth - 154 Parkridge Avenue - Buffalo 15, New York

News Item, courtesy Jamestown Dispatch, Jamestown, N.Y., Mar. 14, 1961. Two areamen, J.B. "Pat" Reilley of this city and A. Carroll Seth, of Buffalo, are among the first volunteers to be accepted by President Kennedy's Peace Corps. In accordance with their wishes, they have been assigned to New Zealand where they will work with the Maori Aborigines. Both men are packing Hammarlund receivers with their gear. These will be used to intercept any messages Pres. Kennedy may send. Mr. Seth tells us he has already contacted an intrepid rancher, Mr. Don Reed, of Christ Church, N.Z. Mr. Reed has informed him that the natives, known locally as Makis and Kushins, are quite restless. They can be appeased, however, by gifts of #16 copper stranded wire. This wire is not used for personal adornment but is strung by the bale around their picturesque seaside corn-cribs. Mr. Reilley states that the natives have a quaint belief that this wire brings them Heavenly music. Our best wishes go with these men who are leaving the comforts and pleasures of home for life among wire-worshipping aborigines.

Neil Eubanks - 2902 Monroe - Amarillo, Texas

CX for the most part have improved, although Monday 3/13 was another depressing and poor AM due to static. Since last issue I have logged 21 new stations. Total logged to date is 462. Now that basketball season is over, time for DX is more plentiful. Well, here goes/ 3/6- WEMP, Milwaukee; KPAL Palm Springs s/off, WKBH La Crosse, DX, KFRO Longview, Tex. DX, WBBK, Blakely, Ga. DX, KSCB Liberal, Kan. 3/7- WDIA Memphis, KCOR San Antonio. 3/10- KFJB Marshalltown, Ia. f/c, WAEW Crossville, Tenn. f/c (both thanks to LBG's f/c list). 3/11- WAVE Louisville s/off. 3/12- KNEB Scottsbluff f/c. 3/13- KMA DX, XEXQ DX. 3/14- KCHS Charleston, Mo. f/c, KABQ Albuquerque f/c. Quite a few of the DXes have been coming through lately and I believe more would if it weren't for those pesky ANs. That's about it for now - see all in Amarillo. 73s.

Merv Ozirgy - 101 Albert Avenue - Saskatoon, Saskatchewan

I've received 21 new stations and 15 veries since my last Musings. Verifications: KIRL KNEB CHWK-dx WAAP KFBC KBZZ-dx KGGM-dx KOYN WCMP Sacramento Conelrad KDWB KTHS-dx KTOO KSOO/dx KIDO-dx. Six of my last 15 verifications were through CPC-arranged programs for an even 40%. Congrats on great work, CPC. Now to the DX. 1/13- WAAP-1350 on f/c at S-7. 1/21- KPOW-1260 f/c; KLIX-1310 RS, KRAD-1590 RS. 2/3- WCMP-1350 s/on at 9:00 EST. 2/6- KGGM-dx S-5. This Monday AM was poor CX-wise but great DX-wise with two Conelrad programs received as well as three other new stations logged. They were KOYN on their f/c at 4:30 and KTW-1250 on RS and KGGM-dx. 2/8- KAGT-1340 s/on at 9:00. 2/24- KODI-1400 f/c in at S-9. 2/26- WOKJ-1590 with their Spiritual music heard weakly but enough for a report. 2/27- Caught CKOV-630 while waiting for the KIDO-dx to begin, then 3:02, KIDO DX. KSOO-dx came in strongly and I took reports on the two DXes by alternat~~ing~~ switching after announcements. KTOO-1280 f/c, WRRR-1330 f/c and WISE-1310 RS ended a rewarding AM of DX. 3/12- KOIN-970 RS. 3/13- I managed to get a report on KMA's DX but KGLO was just IDable and not readable enough to report. No other specials got through and KARR's f/c at 4:40 put the wraps on March 13's DX. Enclosed with my Sacramento Conelrad v/1 was a QSL from Jerb, W6JN, a ham at the station. They also enclosed a 28-minute Conelrad Script which was used during their program. He mentioned Conelrad drills were held on the first Monday of even-numbered months. In other words the next would be April 3rd, so tune 640 and 1240 then. A few weeks ago KTOE was asking for a phone call from anyone outside a 700 mile radius, especially Saskatoon. I got curious and wondered why they wanted a call from Saskatoon, so got on the phone and called them up. It happened that the DJ's girl was in a choir that was touring Saskatchewan, and other provinces and states. At the time the choir was at Saskatoon, so he asked me to pass along his regards to her. In return, he payed for the call and promised to send me an LP. I hope you're feeling better now, Joe. I know just how you felt while recuperating and it isn't a very nice feeling. Let's have our Alberta DXer get back into the DX NEWS pages soon. That'll be it for this issue. Come on fellows, let's keep DX NEWS good and thick. Remember, HAMILTON FOR '62! '73.

Jeff Stewart - 3018 Washington Street - Amarillo, Texas

Greetings from the Texas Panhandle Static Farm. Except for 3/14, static has been unusually bad for this time of year. Only 3/6 DX that came through for me was WKBH-1410 which was unneeded here. Only new logging of the morning was KFRO-1370, Longview, Tex Big Deal! On 3/10, logged my 700th station, WAIL, Baton Rouge, La. RS at 1:14 a.m. Also on 3/10, KRAD, East Grand Forks, Minn. was logged according to the f/c list, and KPBA-1590, Pine Bluff, Ark., testing at 2:04. On 3/12, WHK-1420, Cleveland, O. RS at 6:31 a.m. Missed out on everything on 3/13, as the alarm failed to go off, mainly because I forgot to set it. On 3/14, CX were pretty good. Heard unneeded KOTA-1380, Rapid City, S.D. s/off at 2:00. Heard KFMO-1240 Flat River, Mo. and KRAL-1240, Rawlins, Wyo. both according to the f/c list. Also KOUR, Independence, Ia. testing on 1220 from 2:45 to 3:02. Only new verie is KFRO, Longview. That about does it from here, so 73s and good DX to all. Oh yeah, how much extra is the membership fee for bulletins to be sent first class? These late bulletins are letting me out of some of the DX shows, and it's beginning to get me down. 73s. (Pop Edge can tell you -ed.)

Stan Alexander - 207 North Tenth Street - Atchison, Kansas

I joined the NRC back in December and I think it's about time I sent in a report. In February I got me a Hallicrafters S-120 and I am quite pleased with it. I used to use a Philco-42-380 and a Sentinel-344. Veries in from WBEM WOAI CJBC KTHS KSL WLS KDKA and WABC. Reports out to KTLN WRBC KWOA and XERF. Now for latest DX. Received KWEW KCOL KXOL WLEAG CFRB WBZ KWOA KLO KNAL KREB WCHS WTRY KFSD WWDC WYZE KIXZ KVOR KLCN WVOK WRCV KAYS WCNT WDAK KEYS KBUY KGLC KOLT KVGB WLBK KSD. This brings my totals to 248 stations logged with 31 states and four countries. The KARE test got three letters from New Zealand. Best DX to all. (Welcome to the NRC, Stan, and to these pages also! We hope to hear more from you, and often! -ed.)

Sid Rosenbaum - 806 Market Street - Wheeling, West Virginia

The past week brought one verie letter, WCFV-1230, Clifton Forge, Va. Verie says r/c is second Tuesday, 1:00-1:15 a.m. On 3/11 I heard *KMUL-1380, f/c 2:00-2:15 and WNJR-1430 with 2:00 s/off. The pesky tester on 1590, sometimes with music, but never with an ID has be puzzled as it sounds like a semi-local. We had an unseasonable electric storm here on two occasions last week - maybe an early spring.

THE AMARILLO CONVENTION IN SIXTY-ONE SHOULD TURN OUT TO BE A NIFTY ONE! Sept. 2-3-4!

Carlton Howington - 13675 Cleveland Avenue - Uniontown 1, Ohio

DX since last report pretty good but varies coming in very slowly. DX since last report: 1/28- CHUC-1500 at 8:00 a.m., WGIG-1440 at 6:01 p.m. and CJMS-1280 on with R'n'R at 7:10 p.m. 1/29- WCBM-680 from 6:08-6:30 a.m. weak, WKIC-1390 in at 7:00 a.m. 1/30- KOME-1300 from 1:43-1:59 a.m. s/off. KRAK-1140 s/off at 2:03. JBC on 560 620 700 750 at 2:15 a.m. CJLX-800 test at 3:15 a.m., WBMK-1310 on test at 3:25 a.m., WCRA-1090 s/on at 7:00 a.m. till 7:12 when KTHS/WBAL took over. 2/2- WPGC-1580 in well at 7 a.m. s/on, KATZ-1600 at 7 p.m., WKIX-850 cutting up local WJW at 9:12 p.m. till 9:35. 2/3- KOMO-1000 at 7 a.m. till 7:30 with TT and ID at 7:30 about even with WCFL. 2/4- WTMA-1250 way on top at 5:33 p.m. 2/6- KZON-1190 from 1:53-2:01 a.m. s/off in Spanish, WELZ-1460 f/c at 2:05-2:13 a.m., KPAY-1060 at 2:31 a.m. with KUPD QRM, KLAC-570 s/off at 3:05 a.m., KWIZ-1480 S-5 at 2:25, WFUN-790 at 3:25 a.m. with R'n'R. SS on 1260, 1280, 1290 at 3:55 a.m., HJKN-1260 at 4:03 a.m., WMBR-1460 on top at 7:42 p.m. 2/7- WMTN-1300 over WERE at 7 a.m., WGYV-1380 s/off at 6:30 p.m., WQIC-1390 good at 6:30 p.m., WROA-1390 s/off at 6:45 p.m., KUZN-1310 from 6:45-7:00 p.m. s/off. 2/13- KRAK-1140 at 1:07 a.m., KORL-650 good at 1:30 a.m., KTFI-1270 in clear at 1:35 a.m., KIMA-1460 at 2:55 a.m., KMON-560 at 3:32 a.m. over WQAM, WJWS-1370 on DX at 4:04 a.m., and WGOG-1460 on DX at 4:14 a.m. 2/18- WNTT-1250 s/on at 5:30 a.m. till 5:38. 2/19- WOVE-1340 on top from 6:42-7:02 a.m., WFNC-940 at 7:00 a.m. s/on, WLSD-1220 7:15 a.m. s/on with Dixie. 2/20- Guess what? WAKR off for 17 minutes and logged WETT for a much wanted station, WFIS-1600 on ET from 1:20-1:49 a.m. with KLAQ QRM, KENO-1460 in clear at 2:11 a.m., KTHS-1090 on NRC DX at 3 a.m. Who was on 920 from 3:40-3:45 a.m. with TT? K---, too weak to make out call. WWRL-1600 ET at 4 a.m. 2/23- WSIZ-1380 on ET all AM asking for calls/ 2/25- WHHT-1440 on for bad weather at 3:01 a.m. 2/27- WMMH-1460 on DX at 4:03 a.m., WFDR-1370 at 4:14, CJCH-920 s/on at 4:59 a.m., then CJCJ s/on at 5:04, both new. 3/6- WEMD-1460 4 a.m. on NRC DX, WMHI-1370 at 4:03, WBBK-1260 at 4:20 a.m. 3/12- KLLA-1570 on f/c from 6:30-6:45 a.m. 3/13- WFRX-1300 on because of WX, KGLO-1300 3:30-3:45 on DX, bad QRM all AM. WTTF-1600 very weak here with WAKR on 1590. 3/14- Local WAND changes call to WCNS on 900. 3, 15- WNPT-1280 on top 6:45-7 p.m. then WDLT-1380 from 7 to 7:13 p.m. s/off, and WDOB-1370 s/off at 7:15.

Bud Barto - 3 Glenwood Avenue - Naugatuck, Connecticut

(What does c/d mean?)

Wayne Pierce - Vestal, New York

Attention!! "Madame Tina" 2902 South Monroe, Tallahassee, Fla. is open from 7 a.m. to 9 p.m. WRFB-1580 advertises this woman as being capable of destroying "evil spirits" "pains" and all the rest. I say that this lady should be brought to Amarillo in '61 so that we can all hold hands, and disperse forever with ANers. WSIZ-1380 received well here on the 12th but report already logged for 2/26 test. I noticed that the local bombblast, WENE-1430 didn't sign on until 8:00 a.m. this Sunday.

Walter I. Goldy - 4156 East Pima - Tucson, Arizona

Not much to report, for I'm still out here in Tucson, so no DXing. Did receive a verie from WGIG, Brunswick, Ga. for a report of July 4th, 1960. Mention is made in it that station will answer if post card or stamped self-addressed envelope is enclosed. They say also that their f/c is third Saturday each month, 12:05 to 12:15 a.m., EST. Verie signed is Cecil Tancersly, Maintenance Engineer. I hope to have more of a report when I return to River Forest, Ill.

IN TEXAS' PANHANDLE YOU'LL GET YOUR FILL, SO - LET'S ALL CONVERGE ON AMARILL-O! 9/2-4!

March 25, 1961

G. Harley DeLeurere - 1 East 8 Street - Mounted Route 21 - Hobart, Indiana

Veries since last report (KCTA) are as follows: WKGN-1340, Knoxville, Tenn. (2200 West Cumberland Ave., P.O. Box 1750, Telephone 4-0766); WELM-1410, Elmira, N.Y. (Radio Elmira, Inc., 1705 Lake Road); WAIK-1590 Galesburg, Ill. (Webster BC, P.O. Box 87, 36 Park Plaza); WBOK-800, New Orleans, La. (505 Baronne St.); WRBL-1420, Columbus, Ga. (Columbus BC Inc., P.O. Box 270, 1350 13th Avenue); WHHM-1340, Memphis 3, Tenn. (Mercury Broadcasting, Inc., Holiday Towers, 383 Mardison Ave., JA7-4422; WNBC-660, New York, N.Y. (postmarked Port Washington, N.Y.); CKOC-1150, Hamilton, Ont. (73 Garfield Avenue South, P.O. Box 880, LI5-5885; Kingston-720 (Radio Jamaica and Rediffusion, Radio Jamaica Ltd., Broadcasting House, P.O. Box 23, Kingston 5, Kamaica); KFSD-600, San Diego, Cal. (Box 628); WDW-1440, Dowagiac, Mich.; KCKN-1340 Kansas City 17, Kans. (PO Box 1165, FAirfax 1-3200*; WIVV-B.70 Vieques, P.R. (Calvary Baptist Mission of Puerto Rico, Box 338; postmarked San Juan, P.R.); WINI-1420, Murphysboro, Ill. (1602 Elm St., Telephone 282); WHWJ-1570 Selma, Ala. (Central Alabama BC, P.O. Box 71, Hotel Albert Bldg., TR4-9062); WESY-1580, Greenville, Miss. (Box 599); and WKPR-1420, Kalamazoo, Mich. (Kalamazoo BC Inc., 2244 Ravine Road, FI5-6179). Loggings were four in number. They were the following: 3/12: WJUD-1530, St. Joins, Mich. on RS from 1:30:22:00 p.m. WQTE-560, Monroe, Mich. ex-WMIC, on RS from 2:16-2:35 p.m. WHRW-730, Bowling Green, Ohio, ex-WPLG, on RS from 2:35-3:05 p.m. ~~WJUD~~ 3/16: WELE-1590, South Daytona, Fla. with f/c from 3:30-3:45 through heavy WAKR QRM. Also 1/30: WHHM-1340, Memphis 3, Tenn. on AN from 3:45-4:00 with WKGN/KCKN/WJOL QRM. Reports sent to all the above plus WFBC-1330, WSPD-1370 WIEM-1450 and WONW-1280. 73s till next report.

Bart Brown - 68 Hawthorne Avenue - Glen Ridge, New Jersey

Have been meaning to write in for months now, so here goes. In a nutshell, my troubles have been the same as those of which our editor has written so eloquently: images, AN NYC stations, images, and more images. It's become rather discouraging, to put it mildly. I suspect that my HQ-160 may be partially to blame, as I've never been too pleased with it. But I've noticed on the car radio after WNYC has left the air that WABC WOR et al. are there on 830 just as on the Hammarlund. I suppose that these traps and things of which members write might help, but I'm not at all up on the technical aspects of radio. As for the possibility of getting the HQ-160 tuned up, I just think back and shudder when I recall my attempts at having my old S-40B fixed up. I guess it would be okay if you had a good repairman, but I've yet to find one. With those remarks as an introduction, I'll go on to report a grand total of 1,403 logged and 1,295 verified, with only 48 new ones since the Convention. Discouraging, as I said before. The NRC Specials account for eight of the additions, with last week's logging of KMA and KGLO Specials a high point of the season, at least for the last few months. Have also picked up some of the LA splits that so many have reported - YNOL-825, TIFC-1075, and 4VEH-1035. I suppose I would hear more if I listened on days besides Mondays, though I don't think the real DX or distant reception is there. I've been sending reports covering longer and longer periods of reception, but the returns aren't encouraging. Since Sept. 1 I have received no reply from KDJI-1270 WCLB-1220 WHOO-990 WIBE-790 WHIE-1320 WNHC-1340 (some Yale influence, I suspect), CKKW-1320 WTTT-1550 KATZ-1300 WBKN-1410 WEEL-1310 WLAD-800 WCPC-1320 and CJAD-800, plus other more recent ones. Suspect my space is up, so 73.

Harvey J. Epton - Box 4 - St. Patrice de Beauvillage, Quebec

Bonjour, DXers. No listening done at this location lately because of poor CX. Have received some veries though, WHAV-1490 PP card, v/s A. Carter, WGAN-560 PP, WOW-590 WDXR-1560 and CKCL-600 for their DX show. They said "We received 12 reports, well scattered, the farthese being from the State of Washington." To Roy Millar, I should arrange more DXes for you - first you get KOLD and now CKCL, congrats boy, guess that's it for this time. 73s to all.

Len Kruse - 816 Euclid Street - Dubuque, Iowa

The really big news at this den is the fact that I have reached an even 3,500 veries, and I consider that NEWS. The past week I have added a total of seven veries to my collection; letters from KPIN-dx WEMD-dx WBBK-dx KBAN WFLI, and cards from WFDR-dx and KATL. On 3/13 reception on the ECB was poor again for the third Monday morning in a row, thus only one new addition added during the line-up of DX Specials. Station WTTT 1600, Tiffin, Ohio, was heard on 3/13 from 4-5 a.m., and despite poor CX they were heard fairly well. On 3/17 I heard a test from Station KBEA-1480, Mission, Kansas, from 2:50-3:05 a.m., using tone.

Bill Roney - Route 2 - Box 12-A - Waldorf, Maryland

Have failed to report for several weeks so this may get a little long and weary. Letters back from KIL0 WYAL WCMN (with v/1 and window sticker). Cards back from KTHS WGY WLAC WHAM WHML WSWA WRVA WOND WTTM WCCO WWOY WHBQ WIP WWVA WNBC WBT WJUD AND WJJD. Veries still out to: KMGW KLNR WBZ WITH WFIS WKSK WHSC CKAC CKOY WHDH CHOK and La Coruna, Spain, 692 kc/s. Other than that the rest of the mess goes as follows: 25/1-WFVA-1230, WBIG-1470 with WPLH-1470 (fighting it out). 26/1- WNJR-1430 WABB-1480 CKFH-1430 WSSB-1490 WCOS-1400 WMVI-570 f/c for the early morning catches, WJMJ-1540 WBOF-1550 WVCH-740 for the daytimers, and WCRI-1050 WAVE-970 for the late evening stations. 27/1, found only early morning stations, such as WMBD-1470 WEST-1400 WMAJ-1450 WWSC-1450 WCRO-1230 WROV-1240 WKWK-1400 WBBF-950 WPRO-630 WDNC-620 and WIRC-630. The latter two s/on at 5:00 EST. 1/2, all found real early WDEW-1570 with f/c, WOKJ-1590 f/c KIL0-1440 s/off at 2:00, WBNX-1380 WPAT-930 CBO-910 KXLY-920, the second Washington station in as many days. The other one, KIT-1280 sent back a letter and said that on a short report they couln't verify, so that is that. 2/2, (1:32-3:30 a.m.) WABO-990 f/c, WROK-1440 with s/off at 2:00, KMGW-730 f/c, WTRY-980, and WHDH-850. 3/2, in the early evening found WYSL-1080. 4/2 (1:57-3:40 a.m.) WINZ-940 CKOC-1150 and WJUD-580 with f/c. 5/2, (1:15-2:15 a.m.) CKJL-900 and at 2:00 with La Coruna-692 (with La Coruna given twice in a few as the only ID) and WRBL-1420. 7/2, (1:52-2:14 a.m.) WVET-1280, WOND-1400 and CKEY-580. 9/2 found WGAT-1050 f/c and WTTM-920. On 14/2, 1:55-2:40, WJAR-920, WNOG-1270 f/c, WBOB-1360 f/c, WKMH-1310 CKOY-1310 CKAC-730 WQXI-790, WIRJ-740 f/c, and at 6 p.m. 620 found WHEN and WLBZ fighting it out. 20/2, 1:40-2:22 WFIS-1600 f/c, WKSK-1600 f/c, WHSC-1450 f/c and CMCD-760. 23/2 at 8 p.m., CMBL-860 and WFBC-1330. 25/2 (12:01-1:00 a.m.) WOHO-1470, WFBL-1390 WNDR-1260 WBNS-1460 WKBR-1250 and WETU-1250 with emergency flood information. 26/2 had CMBC-690 at 1 a.m. 27/2- 1:43-3:00, WHHY-1440 with flood info, WHNY and WEMP both on 1250 so didn't stick around to catch the DX Program from WHNY. By the way at 1:55 a.m. they were on the DX program and the sked had them on for later in the morning - what gives? Y

Francis H. Nittler - 2634 South Josephine Street - Denver 10, Colorado

DX - what is that? Reception CX really poor here including the past two Mondays and only two reception reports sent out in that time. Hated to miss all the fine DX programs lined up for those two Mondays but static about as bad as I have ever seen it, even in mid-summer. Monday 3/6 a complete blank here. Monday 3/13 did manage to log needed KGLO-1300 DX through heavy static. I could tell both ZEXQ and WTTT DXes were on but too much static to get a log on either. Only other report out in past two weeks was on 3/12 when I logged WEZL-1590 Richmond s/on at 5:00 and heard all the way up to 6:00 topping 1590 most of the time. Veries pretty scarce too with just four in. These included nice letters from KOGO-600 and KOHU-1570 and postcards for WRWH WFDR DXes which gives me a total of 1,953. A new ANer is KWOW-1600 with hillbilly music but believe they are off Mondays. KGER appears to be back ANing on 1390 already. KFRO DX also heard but not needed and was wondering who they were DXing for but note it was for the NRC. Monday 3/6 noted KBOW-1490 on RS yet at 3:11 so might be AN including Mondays. We had a good snow here today to end our summer weather so maybe that will help CX for this coming Monday. XERF off both Sunday and Monday 3/12 and 3/13 but too much static to hear anything. There are a lot of others I would rather see go off AN than XERF though such as KNAK-1280 KXOL-1360 KCBC-1390, etc. I hope everyone is making plans to be at Amarillo for the big '61 Convention as I know Larry, Jeff and the boys are going to put on a really big whingding. I would like to take the XERF trip but am afraid I might end up in the Del Rio jail and don't want to miss the Convention. hi. Best of DX to everyone. 73s.

(no name or address)

1/3, after working a mid-shift found only WENY at 7:30 a.m. on 1230. 4/3, in the late evening 5:30 p.m., WEOK-1390 was loud and clear. That is about all I have to report for a whole month so I haven't had too much extra time to spend on the bands. By the way I know I am getting a lot of stations that are from South America but unless they give a different ID, they just go down the drain so what can I do? (Like - HELP!) My number of QSL cards has climbed quite a bit since I started to poll members about which stations they have found veri by QSL card. Anyone desiring a list can write and I can see what I can do. I will be around all summer with any DX that can possibly slip through. Oh yes I almost forgot. Is this Anderson around that is a DXer from Virginia? I know one from an Air Force tour. Is this possible they are the same one? 73s from one of Sam's boys.

Ev Johnson - 504 16th Street - Mendota, Illinois

DX has slowed with noise and much static although do hear one now and then. I think I had a pretty good season with 120 reported and got 95 veries back, to raise my total to 2,022. The last two Mondays have been very noisy and much static but I guess one can expect that in March. So no DX from my friend Jose in Mexico heard. Still have at least 50 reports out to be verified since 1/1/60, so should have my 100 veries since Sept. 1st before I give up for the warm weather, hi. My DX since the first of March all needed in my log and reported: KFRO-1370 heard on DX Test Mar. 6th and took care of WWHI. They went off at 4:30 a.m. but too much static and electrical storm in the area so not much heard of WWHI DX heard. Some of WEMD-dx but very little. Sent letters to both and told them what I heard and hope for reply. WCLD-1490 DX not needed but did sent report and they said they received only four reports - mine, two from Ohio and one from Indiana, so CX must have been rough all over. On 3/8 I heard needed WIRV-1550 on test at 2:17 a.m. 3/10- WSIZ-1380 again on ETs add WRAD-1460 in like a local at 5:45 p.m., also WBLU-1480 ditto at 6 p.m. 3/11- Brought in KXEN-1010 for second report, WSIZ again and at 5:30 p.m. WPEG-1550 Winston-Salem, N.C. good signal. 3/12- WJMW-730 RS and s/off at 7 p.m. S/on at 7:30 a.m. 3/6- WTTF-dx came in and out with KLAQ OC and then musical test. HCJB-dx in for few minutes. And that's it. Been hearing TT on 1470 this week and wonder if might be WMPP Chicago Heights? Also TT on 1460, maybe WIXN, Dixon, Ill. Will keep trying. My new veries since 3/1 are BJR-550 WIXI-1480 duplicate today again, KVFD-1400 WSME-dx-PP WFUN-790 KBEC-1390 WKDL-1600 after three tries, WBCM-1440 WCDL-1440 KFRO-1370 and plain cards from WRWH-dx and WFDR-dx/ So goes DX frm this den. Will continue to try for a while yet. Would like to see some of those 50 reports verified. All for this time and good DX. 73s.

Frank Williams - 5237 Elmwood Avenue - Lynwood, California

Greetings again from Lynwood, where the signals of KGBS ionize the air for miles around. KGER-1390 Long Beach has resumed its AN show, after being off the air after midnight from about Feb. 1 to March 1. Thus during the month of February I got relief from this AN menace, and logged five new stations around 1390 that KGER had blocked. (KEEN San Jose, WLCY St. Petersburg, KXIV Phoenix, CFUN Vancouver, and KCBC Des Moines.) KGER is very strong here, its XR being located two miles South of me in Paramount, Cal. Its 5 kw. signal is beamed directionally North and South from 250' twin towers. Last Tuesday I heard the new KOGO-600 San Diego (ex-KFSD) and was unimpressed at its new format. Here are my best catches since my last report: KATZ-1600 St. Louis; KXGO-790 Fargo, N.D.; KWSO-1050 Wasco, Calif. f/c, CKBI-900 Prince Albert. Could any of you Southern DXers help me out on a mystery? What is the Cuban propaganda station on 760 with the slogan of "Radio Voz de la Hora?" It gives the EST every two or three minutes with Communist propaganda in between. It beams in here every night with S-5 from about 7 until 9 p.m. Help! Before I close, fellows, I'd like to announce that I am planning to make the Amarillo Convention, somehow. I'll be in college then to complicate things, but I'll try as hard as I can to get there. The disease called DXing has infected me so much that missing this Convention would be the worst thing that could happen to me since KGBS signed on last summer. 73s from a half mile North of a 50 kw. XR and I'm for Vientiane in '62!

Ernie Cooper - 438 East 21 Street - Brooklyn 26, New York

Four veries in; WFDR-1370-dx typed card; WHNY-1250 form letter; WOWW-860; and a beautiful v/k from WEMD-1460-dx, if you like bright pink paper, hi. DX this week still coming in. 3/14, while typing the DX NEWS stencils, noted ZNS-1540 behind WPTR at 6:20 p.m. so acted on a DX NEWS tip of the previous week and tuned to 840, and found "Radio Caribbean" booming in at better than S-9 from 6:55 to 8:30 p.m., using French and English announcements, and mostly Spanish and U.S.A. records. Absolutely no sign of WHAS here! Thursday PM though it was all WHAS with a "dump-ball" game, so this one in St. Lucia should be dialed on synspotty nights. 3/18- "Radio Tricolor"-HJCU-736 logged on another DX NEWS tip to s/off at midnight, from 11:40 p.m., easy. 3/19- Logged XENK-620 behind AN WSUN 2:43-3:39 a.m. with two-year-old U.S.A. Top Forty tunes. 3/20- Two more new loggings thanks to our fine CPCmanship. WGSM-1150 not very good, just over an AN here, and only S-6 but logged for a much-wanted one. Tuning back and forth between them and WILZ-1590 netted me the second new one, with a very nice program. WGSM played mostly "Spirit of '76" type music with a shrill fife or piccolo featured in most of their selections. No luck with WBYG-1450 DX. I think I had WDXL-1490 on r/c-TT 4:35-4:45, with the TT over ANS WOLF/WARK and that old familiar OC, back again.

J.B. "Pat" Reilley - 628 Spring Street - Jamestown, New York

New veries are WEMD and Radio Swan for a new country. My report was sent back because of wrong address, new address is Radio Swan, Gibraltar Steamship Corp., 18 East 50th Street, New York 22, N.Y. 3/11- Picked up new call, CHIC, for ex-CFJB this afternoon. Caught the Costa Rican on 775 tonight for new call, a good S-5 here. 3/12- Nothing new heard. 3/13- Very heavy static today. No HCJB heard but an oldie. KMA DX heard but verified in 1930. WJR-760 off air and Cuban strong here. KGLO OK but an oldie. Could get only guttering through noise and hetrodyne on xexQ. WTTT was very hard to catch because of static, this was new for me. Went down to 1380 and copied WGUS for another new one on their 4 a.m. s/on. 3/14- Cubans all over the dial today. Picked up WLOA-1550 for new call this afternoon until CBE overrode them at 5:46. 3/15- No DX today but caught HJED-820 atop Texan at 9:43 for a new call. 3/16- No DX today. 3/17 Somebody lost a dog, first on 1480 at 2:35 until after 3:00 without any ID at all, then another one lost on 1570 atop XERF, 3:02 until 3:45 when I went back to bed. Tonight while TV off, tuned to 1580 while writing to HJED, heard WTTN and WLIJ leave air at 7 p.m. and WESY on after that. 3/18- TT on 1390, 2:40 to 3:203 but no ID at all. OC on 1580 at 3:03 until 3:20, no ID and crawled back into bed again.

Ray H. Kraul - 6423 33rd Street - Berwyn, Illinois

The last two Mondays have been pretty noisy and good DX has been hampered as a result. Have heard a few needed ones though: Mar. 6 (Monday)- KFRO-1370 with DX 3:35-4 and from 4:05-4:15 with WMHI BX also on. Heard s/on of WEMD-1460 for DX at 4:00 but heard only bits of pro ram. Mar. 13 heard WMIX-940 on with a tornado alert 2:45-3:05. Verie back in three days with instructions in case of tornado, hi! After seeing what one did to Chicago, I can appreciate the anxiety these people are experiencing, while waiting for one to hit or blow over. Coming in good were KMA and KGLO DXes, both unneeded. Listened on Thursday 3/16 and heard already veried KQAQ-970 on TT 2:00-2:30. Then heard needed CKVL-850 AN and a f/c from KRZE-1280 from 2:38 to 2:42. Veries received the past two weeks: KDLM KSOO WKPR KFRO ~~KXRA~~ KWRF WMIX WRVH and WFDR. Lastly, the NRC has left all other clubs in the dust with the work of the CPC, the publication of the new f/c list, the information in DXDD, and generally good fat Musings. Thanks to all who have given the extra effort necessary to keep the NRC at the top. Two veries in this morning's mail, both very welcome, KATL and WEMD for DX.

Roy H. Millar - P.O. Box 778 - Bellevue, Washington

DX continues to hi the "skyhook" as follows: Mar. 12th- 3NA-1510 Newcastle, N.S.W. ID at 6 a.m. with good signal; 4ZB-1040 Dunedin, N.Z. time call at 6:13 a.m. and quite good till beyond 6:30 a.m. Mar. 13th, and "Lucky 13th" as XEXQ and HCJB DXes both in. XEXQ-1460 DX very rough, but quite a few spots of music types and voice made ID quite certain; hope all that wanted this rare baby landed it! HCJB's DX in with fair signal from 3:02-3:30 a.m. for a new country; I believe "LW" was off and signed on at 3:30 a.m. but very weak; 2NR its usual good signal for most of the rest of the morning. Incidentally, after XEXQ's DX, WRVK was in from 4:30-4:55 a.m., then WMBR s/on at 4:55 with strongest signal ever heard from this particular station. Up to WMBR's s/on, 1460 was plagued here by a tone or hetrodyne, or something, making logging of any signal on 1460 difficult. No other DX to report, as time for DXing rather scarce now. Then too the tape of XEXQ took a lot of time and work to arrive at a decent log! I very carefully monitored the full hour twice before putting together my report. Veries: 1YZ-800 CKCL-600 WOOD-1300. CKCL highly valued, as lowest powered Canadian verie from East of Ontario. Of my seven Maritime veries, only CRA and KCKW were not from DX programs, so can credit CPC for three Canadian provinces verified (Newfoundland, Prince Edward Island and Nova Scotia) that have not been heard otherwise. Likewise, these countries, Greenland (KBIC) and Canal Zone (ACA) verified, and above Ecuador HCJB

John Stack - 1274 Hudson Road - Teaneck, New Jersey

Hi. First of all I would like to say to Sid R. I'm sorry I haven't written to you but I had tough basketball sked. Now I have baseball coming, but I try to get a letter off to you. Not much to say anyway. I've been devoting my last few weeks to learning Italian. I'm going to Europe. I'll be in London for a few days, then Italy for three weeks. For the little DXing I've done results have been good. Logged about 30 new ones. Latest veries are WHAY WHK KDKA WFEA WFAA WHHH WMBR WCAE WERE CKWS. All this at the tail end of February when CX good. My two best loggings ever are HJED, Cali and WBSM-1420 New Bedford. I got WBSM under very severe CX. Will somebody tell me how to send tapes out to stations? I just got my new recorder - it's a Jelectro. So long for now.

Jim Ernst - 163 Coburg Road - Halifax, Nova Scotia

Lefty, thanks for the much needed U.S. stamps! Much thanks to the CPC and the fine job you fellows have been doing! Mar. 7- WGBS-710 overriding WOR 6:23-6:31 pattern change and #2 on there; "Radio Caribbean"-840, the new one in St. Lucia, 7:20-8:05; BHBS-830 again and with a good signal 11:05-11:08 s/off, with the South still continuing with its fine signals. Mar. 8- YND-675 12:01-12:12; KTOC-920 r/c-TT 1:15-1:31 and Lefty got them too - congrats, Lefty, hi. KDTH-1370 Len Kruse-land (Hi, Len) real tough on its r/c through WSPD, but a report though; WATM-1590 Alex-land, r/c-M 2:20-2:30. Was up till 5 AST doing an economics paper and logged these on a "break" hi. In the PM, a nice log on a very good catch, WIBS-1045 7:00-9:17 s/off, logged intermittently. Mar. 12- After CJCH went off, heard a strong one on 930, and turned out to be much wanted CJON 12:11-12:32 s/off for Newfie #7. Woke up at 6 AST and turned 'er on; and was extremely surprised to hear "Radio Ondas del Canajugua" HOJ2-1040 with a good signal 5:10-5:29 when it faded owing to its being light here! They announced as 1,000 watts and a report via PP. Mar. 13- KMA-960 DX weak but a log 2:35-2:48 fade. WLW was on 700 and would not sign off, naturally, because of severe storm warning in that area; however, HCJB did come up 2:58-3:08, with tone and hymns, so country #36. A strong OC on 1460 but I could hear Spanish or what sounded like it in there, and was able to log a bit from 3:53-3:58 so a tentative to much wanted XEXQ! WTTT-1600 DX in fine till 4:10 when I quit. Went down to Bridgewater that afternoon, as we had the day off Tuesday. Went to CKBW, and typed up HOU HOJ2 CMHR letters on CKBW letterheads and hope that might impress them enough to write me, hi. PPs enclosed just in case. Veries: WGBG-1400 WHNY-1250-dx WSOR-1480 XEHK-960 (I sent a "Radio Santa Fe" tape to them, and XEHK to HJCG, (clod, Jim) but they veried on my written report, and returned my HJCG tape, which I forwarded to Colombia) KADL-1270 KTOE-1420 KNEB-960 and KSOO-114 for a nice one on its DX. Get this - they were using a five-tower array, with 5 kw. beamed NW; no wonder I had trouble, hi. Anyone else in the East hear them? Ralph J. - you get nice DX, and I enjoy your reports - you too, Bob K. Nice to see Stan and Pat back with us, and I sure do enjoy your Musings, boys! &3s from snowy Nova Scotia.

Doug Murray - 277 Portland Street - Dartmouth, Nova Scotia

There's not much DX here lately in this land of ice and snow although veries have been rolling in regularly with nine in so far this week, and it's only Thursday! Latest veries (since last report) are WQOK-1440 with letter and sked, CKCH with booklet and letter, WEBR, both on 970, CBT-990 WHWB with map, 1000, WIBC-1070 WANN-1190 WKOX-1190 CJEM-570 WCOY-1580 WPCF-1430 WEMD-1460 CBAH-1490, CSB-81-1571 with nice card. Reports out to WFST heard on r/c, HCJB DX, CFAC-960, WTTT. WPCF-1430 has r/c at 1:00 every second Wednesday per verie. I was speaking with the CE of CKCL-600 when on a visit to my home town this past Tuesday. He received about 12 reports which were well scattered about the continent. He seemed quite pleased with the results and even apologized for the delay in sending out replies. He also thought it quite decent of WICC to sign off for the broadcast. I thanked him for taking his time to present the broadcast. One new station heard tonight - WJWS-1370 at s/off at 6:12 p.m. I believe #3 member in Nova Scotia may soon join as my brother in Truro has become quite interested. 73s.

Bob Kalish - 2214 Avenue T - Brooklyn 29, New York

DX this past week has netted me six new ones. Monday AM 3/13 was quite noisy but the DX shows made it well. HCJB-700 in Quito was generally loud and easy with WLW dropped with loop. They had a fine show and a 45 minute report out air mail. KMA-960 DX fair with another good show - there was quite a bit of correspondence on my part in regard to this as there was a big mix-up at the station in regard to the date. KGLO-1300 DX was very poor with WIBR in Baton Rouge on at the same time with TT/OC. A good log gotten on PRI3-880 in Belo Horizonte, Brazil, at 4 s/on. WTTT-1600 in well but no mention of NRC and they were on well after 4:30. KFEQ-680 wasn't on due to the tornadoes that swept that area. Letter received to that effect on 3/16 from CE who said he would happily resked. On 3/17 "Radio Caribbean"-840 in St. Lucia, Windward Islands logged at 6:30 p.m. with soft music. They use English, French, and Spanish. That same day WRWJ-1570 Selma, Ala. logged at 7 p.m. s/off clearly. Enjoyed talking to Alex Bowab who was in New York with his High School class. Did you meet any gangs, Alex, hi? Veries were good with most from DXes. Letters from WEMD-1460 KFRQ-1370 WBBK-1260 CKCL-600 WHNY-1250 and crummy card from WEDR-1370. Form from WINX-1600 and card from WETT-1590 after five and a half months. Hope to see many DXers at Ken Murphy's house during Easter week.

Ralph M. Johanns - 11 East Chippewa Street - Buffalo 3, New York

"The Queen's Printer"; Ottawa, Ont. new booklet of Canadian stations due in April. This includes a dozen supplements. Send \$1 to above for your subscription. Other countries, \$1.50 (Canadian dollars). A CD exercise due Friday April 28 with Conelrad only 4-4:30 p.m. You can try then for Canadians, etc. George DeG.: 4430 Gladiola St. R.R. 1, Golden, Bob Spencer, is an old ex-NRCer, say hello to him for me. Say Kerm: Bob Green is positive that WAKR-1590 has NOT swapped places with WADC-1350. CHOW-1470 this month Sunday s/on 7:30 a.m. and CKPC-1380 at 7:05 a.m., also nicely this 3/19 in daylight tuned WQIC-1390 s/on at 6 and then went to 1480 where WBLU Salem Va. on RS from 6:28-6:58 a.m. held front nicely. Jin E.: Your 3/18 s/on by CHNS-960 at 5:29 a.m. AST came in like a local, Bob Axley was at the mike, as Mike slept in, he said. I was watching the Friday AN TV on WGR-TV-2 and so no DX. 3/17- WBAL-1090 has weekly s/on at 4:55 a.m., nice s/on by WBBB-920 at 5:28 got later splashover by KLCN-910. 3/16 r/c-M by WAGF-1320 followed by WILS/WZOK ANing; WEZJ-1440 s/on 4:57 a.m.; WPLO AN-590 got s/on by WKZO at 5:26 a.m. WDLR-1550 s/on 6 a.m. (no verie yet). 3/13 took WGUS-1380 nice from 4:09-4:35 a.m.; WYAL-1280 with XERF-type commercials; WTTT-dx good till 4:58; WWRL 5:01, WCGO 5:01:30, WBLY all s/ons, On 960 at 5:54 a.m., believe was WEAV Plattsburg N.Y. s/on. KGLO-1300 v/l back for 3/13 DX, he quit at 3:45:30. Also a folder. KGLO opened in 1937 with 100 watts, now 5 kw., also FM and TV and belong to Forward Group with WMTV WTAD and KHQA-KEYC TV. An interesting v/l by Evangeline BC Ltd. CKEN 1 kw. 1350 kc/s., Radio Center, Kentville, N.S. At sundown, CKEN goes N/S directional. They run same program simultaneously with CFAB-1450 in Windsor and give station breaks together and heard on both frequencies since 1947; the general effect of this is to give broader coverage in the long narrow area of Annapolis Valley. W.A. Bishop is still Managing Director, for both. He verified a 1945 CFAB-1450 report for me. The West gets favored lately in the early AMs s/ons as the East has too much daylight now. Best.

Sid Rosenbaum - 806 Market Street - Wheeling, West Virginia

Static has been heavy on most mornings and DX sessions brief. 3/13- WKWK-1400 testing with music at 1:00 on their only silent morning (Monday). HCJB-700 weak under WLW but not needed. WGGO-1590 on r/c 2:00-2:15. Took a log of KMA-960 on their DX for NRC. Static heavy this morn. 3/15- Some freakish reception heard in late afternoon: WHOW-1520 Clinton, Ill. heard at 5:00 p.m. with "Request Time" covering usually dominant WKBW completely. CBW-990 strong at 4:30 p.m. A prompt verie back from KMA to replace old one lost in 1936. I was a charter listener to KMA. Then on 1190 kc/s. on initial program, August 12, 1925. A new radio station is slated for Wheeling on 1470 kc/s., 500 watts, but no call assigned yet.

Ed Satterthwaite Jr. - 69 Homestead Drive - Doylestown, Pennsylvania

Greetings once again. Not much DXing here due to school except on Monday AM 3/13. Band was full of static but I scored 100% on the domestic DXes for once anyway. KMA was heard at various times with a fair signal, although the QRN made copy difficult at times, and KGLO was heard with somewhat better signals from 3:32 to 3:45 when they went off instead of 3:50 as announced. WTTT was also in from 4:12 to 4:30 with fair signals. CX, such as they were, at least seemed to favor the Midwest. KREL and WHO were noted during this period and were about the best signals on the band from any distance. Checked 700 between 2:30 and 3:00 but I found no sign of HCJB behind WLW. XEXQ was not heard either, although I heard an unusual instrumental number, somewhat like a flute, on 1460 at 3:47 followed by an announcement too weak to read at 3:49. This was under a TT. Could it have been they? Other new loggings of the morning were WCOS-1400 on top 3:55 to 4:10, WJET-1400 under WCOS, and WRVK s/on at 4:28 on 1460. Veries are picking up, mostly because I've sent more reports recently, but some from a while back are drifting in. Finally got one from WSAJ for their DX. Others that really surprise me in being overdue are CJAD WDMV KNBC and of all stations, WYAL. These seem to verify for others. I wonder if some of my mail gets lost? Some day I'll get around to writing f/ups, I guess. By the way, what's the story on WWL? Are they owned by Louola U. or what? Monday 3/20: Static again bad. The WTAQ DX was on this AM and easy here, a fine signal for 500 watts. No sign of WBYG on 1450 but WMFJ ID was noted for a new call. WILZ was way below WAKR 4:04-4:20. WGHM was the most wanted DX but I tuned in at 4:29 and they s/off at 4:30:30 instead of 5! Will send a report anyway. Only other new call added was WCRK 5 s/on on 1150. Anyone know who was testing on 1150 4:30-5:00 with tone and OG? ID sounded like WRDX. 73.

ATTENTION ALL On APRIL 28 1961 from 4 PM to 4:30 PM there will be a nation wide Conelrad Drill. This means all the BCB stations in the US will be silent during that half hour with the exceptions of those participating in this drill but they will be either on 640 kcs or 1240 kcs, so to those of us living near the Canadian border, here is a chance to log and report those unable to be heard otherwise. (Brdg)

ATTENTION On Page 2 of Fred's International DX Digest it tells about a log pertaining to Mexico--Guatemala-Costa Rica and other Latin American Countries. I now have 16 stencils cut by Don Roller and am informed by him that Dave Roys is cutting them for the other countries. Regarding the publishing of this log, if enough of you want it and will remit .15¢ to cover the cost of the mimeo ink and postage, I will run off enough copies to cover the orders received. The smaller white paper will be used, and being that we have this on hand and paid for, we do not have to worry about its cost. From advance info the entire log will consist of at least 10 pages and as stated above, if enough orders are received etc, this log upon completion will be mailed separately and not included in issues of DX News. So to those of you interested, send in your 15¢ NOW, it can be either in coin or 3¢ stamps. To our Canadian members, they too can send either .15¢ in coin or the same amt in stamps. Send your order direct to N R C Box 63-Kensington Sta. Bflo 15

INTERNATIONAL DX DIGEST

Edited by Fred L. VanVoorhees, Box 132, Lemoyne, Pennsylvania, U.S.A.

The news gets thinner as the season wanes, but we still have some good material to pass on to you, so here it comes.

NORTH AMERICA

COSTA RICA--Copied station on 975 Kcs. using "Radio Athenea" slogan which should be TIRS. (SRM) Station on 1125 Kcs. (TISM?) using "Radio Centro" slogan, San Jose ID. (SRM) Station also gave SW freq. and list of stations in Central American Network on 3/11. (SRM)

HAITI--4VW (1325) good signal as early as 1730 on 3/11. (SRM)

MEXICO--XERPM (660) All night slow swamped WNBC all AM 3/11. (SRM) Tried for the XEXQ (1460) DX on 3/13 from 0330 to 0400. CX were poor, with heavy static, and to make matters worse, a testing carrier on 1460 throughout the scheduled DX hour. Did pick up a station through all this, but practically unreadable. May have been XEXQ. (BD)

JAMAICA--Jamaica Broadcasting Corp. (700) over WLW 0455 s/on on 3/11. (SRM) News at 2300 over RJR Kingston (720) 3/11/61. Quite a bit of interference from what I took to be a Cuban and US. (FW)

NICARAGUA--Who is "Radio Portugena" (1475). Announces city, but not able to copy very easily. Heard with strong signals 3/11 at 2100. (SRM) Lots of well-known US tunes. Anyone have an address? (Nothing on him here-FV)

WINDWARD ISLANDS--On 3/14 I noted for the first time that the new station at St. Lucia (840) is on the air. Was over and under WHAS that evening from 2000-2100 using French, and signed off at 2103 in English. Followed by "God Save the Queen". No QRM from HJKC. (BD)

SWAN ISLAND--"Radio Swan" (1160) sent me a QSL letter from the New York office. They state it's an international commercial radio station. Do they have commercials? I haven't heard any the few times I have heard them. Anyway, another country for me. (RP)

UNITED STATES--World Radio Handbook can be obtained from Radio Station WRUL, 1 East 57 Street, New York 23, New York. They do a lot of commercials over the air for it and say it can be obtained from the station. (RP) Station WQXR (1560) has been audible quite a lot around 0100 GMT, only stateside station heard here. (RP)

COSTA RICA (Additional)--TILX (725) San Jose, 1 Kw., strong at 2239 on March 9th. (RDH)

SOUTH AMERICA

NETHERLANDS ANTILLES--PJA5 (1435) Oranjestad, Aruba, fine signal at 1800 on 3/11. (SRM)

COLOMBIA--On 3/15, logged a rather strong LA on 835 Kcs. during the mid-evening hours. Turned out to be HJDM Medellin, IDing as "Radio VISION". Apparently moved from 880 Kcs. (BD)

ECUADOR--I listened for the HCJB (700) DX on 3/13 and a station was heard clearly behind WLW, but could not catch any ID's. The programming sounded like HCJB's, who verified for me in December. Time was 0230-0300. (BD)

BRAZIL--The following stations have been audible here around 2/25. Some are very consistent but most nights such as Radio Globo and Mayrink and Radio Tupi are good. PRD5 (1400) Fine signal; PRG3 (1280) consistent; PRA9 (1220) Consistent; PRE9 (1200) fair; PRE3 (1180) consistent; and PRG9 (1100) fairly consistent. (RP)

EUROPE

AUSTRIA--Nico card from Vienna (1475) for Country #60. (SRM)

FRANCE--Bordeaux I (1205) heard fair at 0130 on March 4. Lille I (1376) heard with very strong signal on March 4 at 0111. (RDH)

MONACO--"Radio Monte Carlo" (1366) very strong on March 3 at 1900. (RDH)

PORTUGAL--CSB9 (782) Miramar, strongest of all Europeans heard on March 3, at 1855. (RDH)

LUXEMBOURG-*-"Radio Luxembourg" II (1439) good signal on March 4, at 0215. (RDH)

AT SEA-*--CNBC Radio (1562) now on test transmissions with 2 Kw., according to Mr. Stanley, General Manager in London office. They hope to increase power to at least 5 Kw. within the next few weeks. Tests are from 0200-0700 and 1800-2100 daily; 0300-0700 and 1800-2100 Sundays. Reports are welcomed. (RP)

AFRICA

EGYPT (UAR)*--Cairo V (818) heard with Arabic programming, strong signal at 1730 on March 3. (RDH) Taped.

MOROCCO-*--Sebaa Aïoun (701) strong signal for short period at 1805 on March 3. (RDH)

SAUDI ARABIA-*--Jeddah (723) Arabic programming weak signal at 1810 on March 3. This one also taped, but very poor. (RDH)

REPORTERS

SRM--Stanwood R. Morss, R. R. No. 3, Bradford, Massachusetts.

RP--Roy Patrick, 8 Sidney Street, Dorby, England.

BD--Ben Dangerfield, 202 Governors Drive, Sproul Estates, Chester, Pa.

FW--Frank Wheeler, Box 176, R. D. 5, Erie, Pennsylvania.

RDH--Richard D. Hansen, 647 Commercial Street, East Braintree 84, Mass.

THE OVERSEAS MAILBAG

RP-*--Haven't heard anything exciting. The Brazilians are very consistent here every night. WQXR has been audible during the past two weeks from time to time, but no other US or Canadian station has been heard. Managed to get a QSL from "Radio Swan", which now gives me another country, making me 54 countries verified. Hope Greenland and India will QSL. Anyway, I am crossing my fingers and hoping for the best. Well, I guess that's about all from this end for this week.

GENERAL

We also received the regular weekly bulletin from the FCC, but this week it contained no information of a foreign nature. Many changes, but all in the domestic column, so look for the information from Mr. Cooper. I would also like to note that my plans have changed, and in spite of calling off next week's DIGEST, I may have time to do one, so if anything comes in, there may be a one-page DIGEST. If little or nothing, then I'll hold to original plans and hold off for the April 8th issue.

Thanks to those who have voted so far on how they want the DIGEST set up next season. I have seven votes so far. Please send me your vote on whether you want the DIGEST to continue by Continent and Country as it has been in the past, or if you would prefer to have it set up by frequency. Please send me your vote on a postal card containing nothing else, as I want to save the votes until I am sure that all who want to vote, have done so.

Information from Don Roller indicates that there will be a Mexican log containing also Guatemala and Costa Rica available for you very soon. I am not sure at this time if it will be sent out as a service to all members, or if you will have to send for it separately from Ray. Details will be coming along soon. This was started by Bill Stone and has been finished by Don Roller.

Notes in another DX publication bring to the front the old problem of reporting fantastic catches. This club points out that some of its members have reported all but impossible stations, with the implication that someone either logged the short-wave outlet and reported the BCB station, or just dreamed up a log with an FBIS Log or a WRH in front of them. This has happened many times over the years, and often results in a veric. (I have a veric from "Radio Abidjan" on BCB, although I never heard them, nor never hope to hear them.) Always be sure of the identity of the station you log before you report to them or to us, un-less you admit that it is tentative, and even then you should have a pretty good idea of who it is. Otherwise you look bad. 73

Continuing the Log of BCB stations heard by other clubs which have not been reported by our members.

1250 KSDX Fusan good. (DXT)
 Naha, Ryukyu Islands. 1 Kw. (TI)
 Balatonszabad fair to good. (TI)

1590 FEN Nagoya fair. (TI)

1602 Nurnburg, Germany. 0030 weak to fair. (NNRC)

For the most part, this log has consisted of stations not reported in the DIGEST in any other way. Some stations have been reported since the log was started, but this gives you an idea of some of the stations being heard around the world by other DX clubs. The clubs contributing to the above log were:

TI-Tune In, Bulletin of New Zealand DX Radio Association.

DXT-DX Times, Bulletin of New Zealand Radio DX League.

MWN-Medium Wave News, composed of listeners in the British Isles.

NNRC-Newark News Radio Club, Newark, New Jersey.

GENERAL

Please remember when reporting to the DIGEST, send your material on one side of the page only, double spaced, if typewritten, and pre-arranged according to continent and country. If you use a postal card when your material is small, please try to keep writing large enough to be read. We usually cut reports apart and arrange according to country before compiling the DIGEST, and it is hard to cut apart items which are close together on the page.

Don't forget to get your foreign contest standings up to date. They must be sent to Roger Anderson, 5600 Eighth Road North, Arlington 5, Virginia. Contest closes April 15th, but entries may be sent until June 30th, giving you plenty of time to get follow-ups out to those overseas prizes which haven't answered as yet.

Supremacy Ratings should also be brought up to date, at least twice a year. Send your list of veries, countries, totals by continent, and best verie in each continent group to Hank Wilkinson, 6620 Beeman Ave. North Hollywood, California. Remember that even though they are state laska and Hawaii still count as countries by virtue of their distance rom Continental U. S. That is it for this week.
