*the magazine of the  
National Radio Club*

SINCE 1933

Volume 49, Number 8 Monday, November 30, 1981

## STATIC FROM HQ

After last week's BIG issue, we are back with a regular sized 24 pager this week. But with just the three regular weekly columns, we think we still have a lot of information to relay in just one week's time. Keep those contributions pouring in—they make YOUR club the best in its class!!

At the risk of recalling some memories (unpleasant), we are printing a poem submitted by Mike Knitter. Seems his wife left it on his desk one morning after a night at the dial. Although we don't want to start a trend again, we thought it was somewhat appropriate to print—how many DX Widows are in mourning during this current season? See page 24, and thanks Mike.

This week we have an intro from new Graveyard Achievements Editor Rick Carr. See bottom of page 10 for details on future deadlines for that column.

Also this week we have two good CPC tests to add to the already healthy CPC schedule. A confirmation from Skip Dabelstein states that the previously tentative schedule for the KHND-1540 test is now firm for Mon., Nov. 30th. If you received last week's issue, you were alerted to this test in time, even if this issue reaches you after Nov. 30 !!!! See below for all the details.

## CPC TESTS

Someone is going to earn a year's free membership in the National Radio Club. It could be you. Just write those stations you've always wanted to log—they are wanted by other members too. And if you schedule the most successful tests before April 15, the award is a free year's membership and DX News for your efforts.

- 11/30 Mon. KHND-1540 Harvey, ND 0200-0230 EST. This is now a definite test per Skip, who advises that they will use 500 watts non-directional with easy listening music, 1 khz. tones and plenty of ID's. Reports to: M. Darrell Williams, Consulting Engineer, P.O. Box 457, Carrington, ND 58421. Arranged by Skip Dabelstein/NRC.
- 12/7 Mon. WHEO-1270 Stuart, VA 0100-0130 EST using popular music with ID after each record, also 1 khz. tones every 7 minutes. Reports to: C. Lemont Bryant, CE-WHEO, Route 1-Box 24, Stuart, VA 24171. Arranged by Mike Knitter/NRC.
- 12/14 Mon. WKDW-900 Staunton, VA 0005-0030 EST using 1000 watts, code and voice ID's, tones and music. Last ten minutes will be at 250 watts. CE states that anyone hearing this station "will get a DX treat, indeed". Reports to: Bill Betlej, Director of Engineering WKDW, P.O. Box 2189, Staunton, VA 24401. Arranged by Mike Knitter/NRC.
- 12/21 Mon. KBYE-890 Oklahoma City, OK 0100-0600 EST using tones, ID's and some oldies. WLS will be OFF this Mon., so this should be widely heard. Reports to: Roger Logan, CE, Box 20700, Oklahoma City, OK 73156. Arranged by Al Resnick/NRC.
- 12/28 Mon. KADE-1190 Boulder, CO 0200-0300 EST using 5000 watts non-directional. Test will consist of 1 khz. tones and music with plenty of ID's. Prepaid calls ONLY will be accepted at (303) 444 5600. Reports to: Bob Greenlee, KADE Radio, 4840 Riverbend Rd., Boulder, CO 80301. Arranged by Bob Greenlee/NRC.

# DOMESTIC DX DIGEST

DAVE SCHMIDT  
42 CHELWYNNE RD.  
CASTLE HILLS  
NEW CASTLE, DE 19720

Here is the official HRC column which is about as exciting as watching the Annual Snapping Turtle Drag Races that take place in Delaware each year. (No foolin' on that one!). When sending your items in, please type or neatly write, RLT, skip a line between items, and all that rot! Go, baby:

### SPECIAL -

- 980 WCUB WI MANITOWOC - Station now on 24 hour operation w/MK SP 0100-0600. Power: 1000 watts day, 5000 watts night, soon to be 5000 watts days, also. Per call to station. (BM-WI)
- 1290 WIRL IL PEORIA - Net.: Mutual, dropping UPI. (JC-IL)
- 1520 WVOI OH TOLEDO - Noted w/B/SOL format 11/2 0219, dropping RHL. Noted running promo for area high school sex symbol! What next? (IH-MI) I won't touch that-hi! (DS)

### DX TEST -

1290 WKLB Heard: IH-MI, WPT-DC. Tons only: DF-PA.

### FREQ. CHECKS -

- 1st Sun - WEVA-860 w/TT 0001-0010. (IH-MI)
- 1st Sat - WDOC-1310 w/TT 0550. (IH-MI)
- 2nd Tue - WRHA-1350 w/TT per list. (DS-DE) 860
- WSNJ-1240 w/TT per list, off w/no ID! (DS-DE)
- WMTD-1380 Not heard, maybe bi-monthly per monitor. (DS-DE)
- 2nd Fri - WHBG-1360 w/TT per list. (DS-DE)
- WRTA-1240 w/TT per list. (DS-DE)
- WSHR-1480 w/TT per list. (DS-DE)
- 4th Mon - WGOE-1590 w/rock music. (DC-ON)
- 4th Tue - WCHE-1520 w/beep tone, 0027-0058. (TR-DC)

Watch" MM 11/9 0600-0710 on top often, using slogan  
"Radio 15", AST TC's. Calls sounded like VSV. (Cooper)  
1456 ENGLAND various 10/31 0529 noted //1053, 1089, R. Two  
net. (Vernon)

Following is a list of network programs carried by WHAS & WAVE radio in 1935. These were the only two radio stations in Louisville then. This listing was obtained from a RADEX magazine dated December 1935. As Louisville was on Central Standard Time in those days, the CST designation is used. Since many people listened to out of town stations in those days, other programs that may have been heard are also listed.

CST	WHAS (Columbia Network)	MONDAY	CST	WAVE (National Red & Blue Networks)
6:30	Singing Sam		6:45	Dangerous Paradise (Blue)
6:45	Boake Carter		7:00	Pibber McGee & Molly (B)
7:30	One Night Stands		7:30	Voice of Firestone (Red)
8:00	Lux Radio Theatre		8:30	Grace Moore (R)
9:00	Wayne King & Orchestra			
9:30	March of Time			Other National programs not carried locally were: Lowell Thomas (B); Amos & Andy (R); Uncle Ezra's Station (R); Ivory Stamp Club (B); Lum & Abner (B); Hammerstein's Music Hall (R); Evening in Paris (B); A&P Gypsies (R); Sinclair Greater Minstrels (B); Princess Pat Players (B); Contended Program (R); Armco Iron Master Program (B); Helen Hayes-Drama (B).
10:00	Myrt & Marge			
10:30	Dance Orchestra			
	Other Columbia programs not carried locally were: Buck Rogers-25th Century; Bobby Benson-Sunny Jim; Vocals by Verrill; Guy Lombardo & Orch.			
		<u>TUESDAY</u>		
6:30	Kate Smith		7:00	Leo Reisman & Orchestra (R)
6:45	Boake Carter		7:30	Wayne King & Orchestra (R)
7:00	Frank Munn/Lucy Monroe		8:00	M.T.G & His Girls (R)
7:30	Lawrence Tibbett		8:30	Jumbo-Fire Chief Show (R)

Sometimes odd things show up in the PO box. Case in point this week: notices of a SW pirate stn test, pirate lists, etc. To whom it concerns-yes, I appreciate it for personal use. Unless the pirate masses scream, I won't bother to type it up in IDX. How if you were to test just above the PCB....

Kare E says: "I have not heard a TA in 14 days. Aw shucks". Gee whiz, Kare. Geeh, that's downright no good.... Seriously, I waste no time chasing TA's these days. Wait until 1984/1985 I say.

# GRAVEYARD DX ACHIEVEMENTS

RICK CARR  
402 JOHN NANCE GARNER  
APT. 102 CIRCLE  
AUSTIN, TX 78753.

Hello all. I have been asked to take over the Graveyard DX Achievements column for Bill Bergadano. This intro may be a little longer than expected so I'll start off mentioning that the format for this column will remain essentially the same, with the pre-1960 and post-1960 style. Anyone wishing to denote whether logging was made during the sunrise-sunset or sunset-sunrise period may do so. I'm sure there are others besides myself who would be very interested in seeing how many of the great distances were logged in the daylight hours. Guidelines for your entries are as they've always been. Only stations operating on the frequencies 1230, 1240, 1340, 1400, 1450 and 1490 khz. are allowed. That includes any station in the world operating with 1000 watts or less. If you have a problem figuring your distances I will do it for you, using Bill Hale's "GY Distance Determination" procedure. This appears in Volume #47, issues #28, 29 and 31. The last GYDXA column appeared in the June 8, 1981 issue with 1400 khz. If all goes according to plan I'll pick up with 1450 khz. In November, 1490 in December and the Grand Totals in January. Deadlines will be sent to HQ as soon as I receive the records from Bill. Start pulling them in! 73's Rick

GST

FRIDAY

CST

6:15 Lazy Dan, Minstrel Man  
 6:45 Boake Carter  
 7:00 Flying Red Horse Tavern  
 7:30 Broadway Varieties  
 8:00 Hollywood Varieties  
 9:00 Richard Kimber & Orchestra  
 9:30 March of Time  
 10:00 Myrt & Marge  
 10:30 Dance Orchestra

6:45 Dangerous Paradise  
 7:00 Irene Rich-Drama (B)  
 8:00 Psalmolive Beauty Box Theatre (B)  
 9:30 Mills Bros./Art Kassel (R)

Other shows: Lowell Thomas; Amos & Andy; Uncle Ezra; Ivory Stamp Club; Lum & Aber; Cities Service Concert (B); Bob Crosby & Orch. (B); Red Nichols & Orch. (R); Frank Munn-Vivienne Segal (R); True Story Court (R); Compana's First Nighter (R).

Other shows: Kaltenborn Edits  
 The News; Bobby Benson.

SATURDAY

6:30 Carborundum Band  
 7:00 Walter Pitkin-Interviews  
 8:00 Chesterfield Program

THE DX IS ROLLIN' FOR NOLAN

PETER A. NOLAN - 861 East 14th Avenue - Vancouver, BC - V5T 2N5 604-874-6356  
 ..... More highlights from the lowlifes populating my dial: 9/28-9:35am KRGQ-1350 w/UT NX & o/w u/RVAN, they are IDing now as West Valley City, a new suburb formed by the coalition of Granger & other suburbs earlier this year. 8:28am, KPQW-1260 noted u/CFRN & the usual plethora of MST daylighters; KYA-1267 emerged at 8:31 w/ID for KYA & K-Light (their new PM calls). 8:35am KPFB & KOY simultaneously IDed on 1240. KRGQ's being in so well prompted me to try for KALL-910 (dominating the frequency) & KRSP-1060, IDed w/8:55 with "RESP NX" & UT stories u/dual posts CFCN & KPAY. 9am, super-strong s/on from KNRO-630 o/KSDO/CKOY. 9:21, finally, a curiosity as to whether, w/good S CX, KQLO-920 was coming in, I bagged KVEC-920 w/AC mx. 9/29-1:02am I had KMED-1447 u/CFPC through the CPUN/GJVB hash, & CFCP's clarity led me for their // on 1490, CFWB, which was in also. A 1:12am check for KITN-920, which I still HAVEN'T heard, gave me yet another 920, KGAL, w/their typical small-town-sounding AC. 1:15am KBOB-550 IDed through the KARI COS atrocities. 9/29-11-11:54 a puzzler on 1240 finally IDed by a format change and no call change: KESB-1240, now running o/w & IDing strictly as "Easy Country". They applied for new calls this Summer but aren't using them (yet) - is the country new & a substitute for a call change, or did they change formats some time ago and are now giving that up? They sounded very poor, a long drop from the glory days of KMBX. They finally gave themselves away w/WX for North Bay & South Bay, a high in the 80's, & then temperature for Monterey. 9/30-8:07am, the biggest surprise yet, KVG8-1590 fading in o/KZOK for KS, State #19, w/a report on the local high school's victorious trip to Garden City, CDT TC, & ID into more local news before KZOK reasserted itself. I never heard this one in Eugene, where KZOK was much weaker! 10/2 saw the first good CX to the NE & five new stations heard from AB & MB. I'll continue this some other time.

THE EXCLAMATION POINT MAN STRIKES AGAIN

PERRY A. KLASSEK - 9720 Vickie Place - St. Louis, MO - 63136 (314-868-7274)  
 ..... SEX! Now that I have your attention, (No collect!) old Perry Klassek is Musing again! As I sit here in my shack I must take back all the jokes I made about RICH EDDIE. He's holding a gun on me now and finally he is writing a Muse! La Rinale Dieuu! However, if the advanced harlequin does not Muse again in the next month he goes back in the Doghouse! What's wrong with my HQ-180A. It seems that almost every frequency has SS on it tonight, & I don't remember moving to Venezuela! Rather exciting DXing all these latins! I sent RICHARD CLARK two reports for R. Clarin in late July & no varie or anything yet! What gives? Please advise! Flash! ROB HARRINGTON is actually a fictional character! Well, a character, anyway, hi! In a recent muse he said he wanted to move, but needed a loan of only \$69,000! He inferred I should make a donation! That is crazy! TAMARA TAYLOR, I hope my photo did not frighten you too much, and did it rid you of your mice problem? It is very nice to see an active female DXer so keep at it! Save your garbage, DXers, for I will be at the NRC Convention in Louisville-1982 along with RICH EDDIE, ROGER GIANNINI, & WALT BREVILLE! So if you've been wanting to throw things at me for all these Muses that you'll be a your chance in '82 at LOUISVILLE! I hope to meet many friends there too! Hey ERC- if you attend I bring us a case of Heinekkin Beer! Are you tempted? (Almost as much as if you said BUD! -ERC) I got a GE Superadio from ROGER "EROTICA" GIANNINI & it is great for a portable! No other news so I'll C U next week! Yeah another threat guy! Good DX to all!

"CONVENTION DAVE" IS BACK TO DXING!

DAVE WHATKOUGH - 284 Main Street West - Hamilton, ON - L8P 1J8  
 ..... After an absence of three years from DX NEWS & not DXing for a couple of years I guess it's time for a re-intro. I'm '82, have DXed on and off for 29 years, use a Hammarlund HQ-100Z and 4 1/2' square box loop, & an imperial portable & SM-2. Loggings to date number about 1,800 with 965 varied. I decided to do a little DXing 11/3 after leaving work early & bagged two newies within ten minutes: WUIV-1580 heard, NC mixed with low frequency hot 3:45 & WCLE-1570 w/5:05-5:15 a/eff. I enjoyed meeting with old friends at Rockaway Labour Day weekend where I was given the job of getting info for Canadian stations for AM Switch. I hope to have the first list of changes for this column within the next two weeks. Now that I have finished a couple of time-consuming projects relating to my record collection I hope to have more time for DXing. That's about it for now, I will try to get another Muse in before Christmas. 73's. (Welcome back to Musings, Dave! -ERC)

WKLB'S TEST WAS ON WITH NO ID'S

WHEELER CONOVER - RE #8 - Box 344B - Manchester, KY - 40962 Nov. 4, 1981  
 ..... Hi ya all! I guess it's time to check in with our man on Cape Cod again. Not a lot has happened since last time, since I haven't done a lot of anything - except chemistry, which is the understatement of the year hi. No, it got me a 97 this grading period, so I guess a lot of hard work does pay off. (All work and no play makes Jack! -ERC) On to other things. Normally, I probably would've missed the WKLB f/o CFC (wow! I've done more accidentally for the CFC than I thought I was able to, hi), but since I had to make tracks to Lexington, I was up. It was 5:30-5:35 with the basic TT, and no IDs. They must have run low modulation, since they weren't the strongest thing: then 2500 watts could put out. If Larry Berker won't answer the letters, then just drop a note (and perhaps a copy of the letter) to me, and I'll try to see that you get your basic veric. I have to get back up with him anyway, since he is supposed to come and talk to the Journalism Club, & I've gotten the basic runaround so far from a secretary. We'll see who gets the runaround after I get my chance to explode, hi. On to other things.  
 TERRY KLASER, just brag on what a good station CHUM has, and you'll get your veric. I think - I bragged on them, and really meant it, & I got my veric, & they sent my postage back! I didn't even have their mailing address! I didn't even have their mailing address! They have some good AM rockers up there. On AM rockers, I read about WHJZ going country, & I couldn't believe it, so I turned on my radio and found out for myself. TOM COMATSER told me they are having their problems, but we'll let him go into detail on that. Not many AM rockers are left. What rockers we have on AM are daytimers & are pitiful at best, and you can't hear WNOX that well - good ole mountain right behind my house, and hills are all around. No wonder I can't hear anything. I guess I'll cut it short. I will be in South Carolina over the weekend of the 15th, so I may talk about that the next time. Cheers, & take pity on WKLB, hi!73's.

THE DX-302 IS QUITE A RECEIVER!

SIDNEY E. MARSHALL - 7224 Pam Drive - Millington, TN - 38053 Nov. 7, 1981  
 ..... With a few minutes to spare I figured I had better dash off a huse while I have the chance. To those members that I owe a letter, all I can say is that it will be some time before any reply will be made. Recently I've had the chance to try out Radio Shack's DX-302 and find it to be a rather nice piece of equipment. Sensitivity is excellent, selectivity is almost superb, good stability, good audio, and ease of operation are just a few of the strong points of this receiver. After the problems that many had with Radio Shack's DX-300 I was quite amazed with the performance of the DX-302! My comments about the DX-302 are from the viewpoint of an SW listener as well as a BCB DXer. Who knows maybe Santa Claus will put one in my Christmas stocking! While time at the dials has been limited, I have managed to log five "newies", since my last huse, to push my grand total up to 984 stations heard. Newies are as follows: On 10/27 @ 6:28pm WCHJ-1470, Miss. was in strong with mx & full s/off heard @ 6:30pm. Then on 10/29, thanks to a goof-up, I logged KKAY-1590, LA, from 7:03 to 7:29pm as they had failed to flip the AM off after s/off and their FM station, KSHI, was being piped out. I called the station and got a big thanks for letting them know! The evening of 10/31 brought me much-wanted KDQN-1390, Ark. with full s/off heard @ 6:45. Then doing a bit of SRS DXing on 11/3 brought me WHAC-1360, GA, w/s/on heard @ 6:01am. On 11/4 at 6am - caught most of the s/on of WGHG-1570, GA, before the s/on of WSSA covered everything. Well, that's it for now, so good DXing to all, & I'll see you again as time permits.

JUST A FEW AT TWILIGHT

NEAL A. PEADLE - Route 1 - Box 154 - Falkville, AL - 35622  
 ..... Not a whole lot of DXing going on here lately due to a heavy workload & sunset occurring well before I get home. Maybe I can sneak in a few SRS sessions soon, but don't hold your collective breaths waiting for that, hi. On 11/1 @ 8:45pm an unID NC station was in on 1250 w/s well similar to WQAC or WQAP. A few minutes later on 1370 KCRV Caruthersville MO was SEPARABLE FROM A WQCK "barving the Manchester/Columbus area". I'd suspect that the 1250 unID was ex-WFAG & the 1370 was ex-WFDR. On 11/7 @ 6pm WKCL-1280 Oak Grove LA was logged w/several IDs @ s/off & then KNIR-1360 New Iberia LA popped up w/IDs, SIDs & reference to Bayou Country & C&W. The next evening yielded WANS-1280 Anderson SC @ 5:50pm in nice shape w/ID, SID & old Stones tune. A short huse, but that's all I have at the moment. Best DX, all.

ANYBODY REMEMBER WLBW?

JERRY STARR - c/o WSRD Radio - 401 North Blaine Avenue - Youngstown, OH 44505  
 ..... HELP! I have been asked to prepare a newspaper article on the history of Station WLBW which operated from Oil City, PA from the mid-1920's to the mid-1930's on 1020, 1100 & 1260 kHz. ANY info or recollections from the "old-timers" would be greatly appreciated. If somebody has a good set of Redex and can track down some information from them, please let me know. 73 & good DX. (They had moved to ERIE by 3/15/33, the date of my v/q! -ERC) (And were then on 1260 kc/s.)

DAVID'S BEEN BAGGING A BATCH

DAVE CLARKE - 6 Liberty Street South - Bowmanville, ON - L1C 2N2  
 ..... (Postmarked 10/30, rec'd 11/12! -ERC) Well, Summer seems gone, with small snowfalls on Oct. 20 & 21...not a good sign, hi! CX have been fairly good of late, though, with Winter-like CX. Several new stations have been added, to bring the totals up to 490/315. DX as follows: 9/27- WBSG-1550, SC, 9:54pm w/m DJ on "Nighthawks" Soul mx, px, (??-21.C), off @ 10:03 w/SB. 9/27- ZNS1-1540 Bahamas @ 9:13pm carrying BBC px, (pictures??/ERC) than px of oalyso mx. I tuned down to 810 to catch ZNS3 @ 10, f read Bahamas MX & WY, SID, into soft U.S. pops; nothing else of note till 10/11 when WJIT-1540 Tenn. popped up @ SSS w/Tenn. Dep't. of Education px, a w/s/off announcement, off @ 7:01, no mx, Auroral CX. M# 10/12 brought WNOO-1550 Ala. @ 1:36 w/TI, ID @ 1:40, off @ 1:43, later that AM, WQXI-790 GA was heard u/ local CKK (ex-CHIC) w/m DJ w/ID as "790 WQXI Solid Gold Radio", into Tom Jones. WJAR (unn) also in there. Peak of Aurora seemed to be 10/13, when R. Montserrat-885 was heard with soft EE pops @ 10:52pm, & read s/off announcement @ 11:00, off @ 11:01. CX were so good this night that I had no splash from 880/890 on a TRFI 10/16 brought a newie on 690 kc/s, the Caribbean Beacon, Anguilla, @ 9:08 in weekly with M & F reading MX, long ID listing frequencies, into GOS program, weaker than 1610. SSS on 10/18 was productive, with WPCF-940 Miss. in @ 7:01 w/UPI MX, M DJ w/MX, into C&W. Then at 7:20 I finally got a log on KWKH-1330 with "KWKH Party Line" px, in at poor level w/ WNEW/WCXI. Naught else to 10/24 with Country #19 in the form of JBC-700, Jamaica @ 3:02am, in at poor but steady level w/WLW nulled, playing soft pops, "R. One" ID by M in EE. Rest of DX is off to DAVE SCHMOOT! in Delaware. Verics have been slow lately, with none at all in the last three weeks - talk about a slump! Some Ontario news - local CFTR-680 has been granted 50KW-N (from present 25kw) & will move night antenna site from Mississauga (West Toronto) to Grimsby, Ont. Also, a new TIS station will hit the airwaves in late November, from Sarnia, Ont. It will be on 1150 kc/s, with call letters CFOT (the last two letters standing for Ontario Travel) & will be on the air 24 hours a day, no power or address is given in prescrippling, but Ontario government Dep't. of Tourism is at Queens Park, ON. The station is a pilot project, and if successful, similar stations will be set up at other border crossings. Reception chances are just about nil here, with local CKOC Hamilton dominating. Anyone have an address for WFPC-1400 PA or WUTQ-1550 NY? My reports to their NRC addresses were returned "undeliverable" by USPS! Canadians, huse now before postage to U.S. more than DOUBLES next January! (From 17¢ to 35¢!) yeeeh! All for now, 73s, good DX to all.

RAY LOGGED THE NEW ATMORE, ALA. WASG

RAY ARRLDA - 47 Hurt Street - Acushnet, MA - 02743  
 ..... Firstly, the SK-1 has been sold. Thanks to those who inquired. V/L's have been received from WPAQ-740, WURN-1110 & WNYG-1440. WNYG veric is from ex-NBCer Bill Andrea who sent a variety of stuff including personal letter. Back to work 11/10 so SSS DX will be out back. Latest DX starts on 11/7 at SSS with good opening to immediate West: WBMD & WPDZ-750 both logged for reports 4:44 to 5pm w/WBMD s/off @ 4:46, then WPDZ at 5. WPKX-730 briefly noted ending MX @ 5:04 with area mentions. Then over to 870 where WKAR, East Lansing, was noted ending public affairs program and signing off 5:12-5:15 w/WECC. WRCU was giving sports so this made it a bit easier to decipher WKAR s/off on tape. SM 11/8 at approximately 1:30 I was promptly rolled out of the rack with a phone tip from ERC, who was tipped by STEPHEN FRANCIS, that new WASG-1140 was on ET/IDs & C&W mx. I sent the Tip West to RON MUSCO & the end result was a new one in the books for the four of us! Thanks man! WASG-1140 was weak here & report taken for reception from 1:38-1:58 w/NRVA off and some WNEW-1130 splatter. MM 11/9: WEEI-590, WOR-710 & WHN-1050 were all off, and/or testing and a report was taken on CHLO-1570 u/CKLM w/mx & ID's, local spots, from 2:29 to 2:50. 73.

FROM ONE CAPE MAN TO ANOTHER CAPE MAN. "WELCOME!"

RAY COLE - Route 3 - Box 442 - Lot 23 - Cape Girardeau, MO - 63701/314-334-4306  
 ..... I am a new member, so take me "with a grain of salt" for a while. Anyway, I thought some might be interested in some personal side by side comparisons of some receivers. I have a Realistic TRF 12-655 and a new 12-656, an R-23, a 115' LW, & for a few hours I had a brand new borrowed Realistic DX-302. Both the 12-655 and the 12-656 without outside antennas are a walk-away from the DX-302 with LW on BCB. The R-23 completely outclasses the DX-302 on LW. Judging on only the small overlap of about 530 to 560 kc/s, the 12-655 with no outside antenna beats the R-23 with LW on that narrow frequency span. The 12-655 & 12-656 are equal from 530 to about 960 or 1000 kc/s., then the 12-655 takes a definite edge all around to 1600. I am a BCB DXer from the late 70's, now reactivating my interest. What a change since then! I am also interested in LW & currently concentrating on that until I get a couple of current simple building projects finished - which will also be used on BCB. I also have a Heathkit QF-1 Q-multiplier to try on both BCB & LW. I will be using the 12-655 & a 30 or 36" loop as a field intensifier on BCB - & the long wire. I am still waiting for the Domestic Log & some reprints that I ordered with my membership. I guess it just takes time to forward the orders, but I thought it best to send them together.

BEN SURVIVED THE DANGER FIELDS

BEN DANERFIELD - 202-Governor's Drive - Wallingford, PA - 19086  
..... (con'd from last week). The BBC, in order to prevent the enemy zeroing in domestic signals, had synchronized most of their stations on about three wave lengths, calling them the Home Service, and the Foras program. The Americans had a number of low-powered stations synchronized as the Armed Forces Network. You could also hear the BBC transmitting to Europe, & ABSIE (American Broadcasting Station in Europe) doing the same. And from across the channel, you could hear the regular French, German, Belgium, and Italian stations, plus the German propaganda stations featuring Lord Haw Haw and Axis Gally (she played Glen Miller records and told the GIs what their girl friends back home were doing). From the States we were hearing Frank Sinatra singing on the Hit Parade, and programs like Command Performance. In the months that followed, I crossed to Normandy, then into France, Belgium, Germany, and Austria, in that order, before returning to Germany for a few months after the war ended. Throughout this, the Armed Forces Stations followed us, until eventually settling down as AFN-Munich, Stuttgart, Paris, Berlin, etc. on what for some became a permanent basis. After we hit Belgium we were fortunate in being able to "requisition" powerful receivers from local "donors" and so it was that I could DX all over Europe. However, try as I may, I couldn't pick up any U.S. stations. I understand though that during these years, back in the States, particularly in the low sunspot years near 1942, there was some fabulous foreign reception. This was due, no doubt, to the lack of AM stations in the war years. I wish I could have reaped some of this DX harvest! Including many stations from Australia & New Zealand. While stationed in Germany I was able to compile a fairly complete TA log, which I was determined to use when I got back home. In 1945, December it was, I made it back and spent the next 12 months trying to pick up just one TA. (more).

ROBERT IS BACK AFTER A DECADE - WELCOME!

ROBERT J. BINAU - 408 Fensborn Road - Hagerstown, MD - 21740 Nov. 8, 1981  
..... Hello all! This is my first Kwing in almost ten years. I am glad to be back. I will be 35 years old this December. I started DXing MW back in 1959. I was very active on MW from about 1962 to about 1970. My totals to date are: Total stations heard - 1026, states heard - 46, provinces heard - 8, & countries heard - 29. Most of these were heard using an HQ-145 & 100' LW. I am sorry to say my HQ-145 is down right now...after 20 years you would be a little down, too! (I've been down longer than that! -BHC) For the time being, I am using a Panasonic RP-2900 and a Radio Shack TRP; both have built-in antennas. I am also a Ham, WB3GEJ - general class. I am operating on 40 meters & two meters, right now. I have been an SWL for the past two years. As for what I do, I work 4pm to midnight, as a Police Dispatcher here in Hagerstown. Here is a look at our MW stations in the Hagerstown area. 1590' WCBC 5,000/1,000 DA N/S at night- they mix rock & country and have NBC Radio News. 1550' WAVA, 5,000w daytime - rock and local NX. 1520' WTRI, 500w daytime - Peters' Production-Country, automation, and local NX. 1490-WARK; 1,900/250 - Pop adult, Mutual NX, & you, Larry King, they are on 24 hours NSP. 1410-WHAG, 1,000w DA NE, daytime, PSA 460w, news from 6-9am, then Continental Radio Net, pop adult, A1 NX. 1380-WATZ; 1,000w daytime, country mx, Ac NX. 1340-WEPK; 1,000/250, c/w, s/off @ 1am. 1240-WJEJ; 1,000/250, NX, information, pop-adult mx, CBS radio news, & Monday Night Football; they are on from 5:30am to 1am. 1130-WZEO; 1,000w daytime, Satellite Music Network -Pop Adult, DA S & W. 1010-WGST; 250w daytime, c/w, local NX. 930-WPHD; 5,000/1,000 DA N/S at night, T-40, CBS NX, 24 hours NSP. 800-WCHA; 1,000w daytime, pop adult, AP NX. 740-WRNE; 500w daytime, DA-N/S, AOB mx, local NX. Also note that WTEU-1450, 500/100 is now on Satellite Mx Network, c/w mx. One final note, be glad you don't own a station on 600 kHz. 73's.

ANTHONY RISES EARLY, CHECKS THE DIAL

ANTHONY LAGATTUTA - Box 6291 - Portsmouth, VA - 23703-0291  
..... Greetings. WBT-1110 seems to have C&W now around 5am. This is also true of KLRB-1010 around this time and usually they are in & out with WINS & CFRB-1010. 10/3- Local WCMS-1050 OC, TT, & seemingly regular programming between 3:43 & 4:38am. WPEX-1490 ("X-15") mentions being Tide-water's only fulltime C&W station. WKAZ-950, good signal @ 4:07am. WIBC-1070 clear @ 4:21. Larry King seemed to be everywhere on the dial. Hi! WOKJ-1550 4:58am NX, GOS mx. WTTM-920 stop at 5am, "Double-T", and "Tri-County C&W". WBEW-930 ID @ 5:06. WRND-930 C&W ID @ 5:10. 940, OC @ 5:12, I assume local WKGM. WKGM-940 often identifies as "KGM". Some items are reposted in my reports (Musos) but they may help someone to ID a local here. WWDJ-970, good signal @ 5:13am, religious programs. Best wishes.

LARRY KING

ADD: 590 K U G N Eugene, OR DELETE: 1120 K P N W Eugene, OR

(info from PETE NOLAN)  
THIS IS A FINE MUSINGS SECTION THIS WEEK! THIS COULD BE THE CASE EVERY ISSUE IF MORE OF YOU WILL JOIN THE ACTIVE RANKS. IT IS MORE FUN TO BE ACTIVE THAN PASSIVE! BE A PART OF THINGS, AND FIND OUT FOR YOURSELF! SEND IN THOSE MUSINGS, DOUBLE-SPACED, PLEASE, TO PROVINCETOWN. DEADLINE, EVERY MONDAY.

MICHAEL CAUGHT A HISTORY-MAKING EVENT

MICHAEL COLLINS - 178 Sylvan Knoll Road - Stamford, CT - 06902  
..... Hello all. WLNA-1420 Paeskill NY began broadcasting full time w/5kw DA toward the NW & 1kw at night, DA toward the SE on 10/1. It is all-NX 6-9am, noon-1pm & 4-7pm, and after 7pm is BFL (Music from the Terrace) until midnight s/off. WLNA also has NJ Nets BKR, along with WWEL-1600 NY, WVMN-620 NJ, WOPG-1450 NJ (New Brunswick) & WIMG-1300 Trenton, NJ, per a Nets ad in the NY News. WGBE-1240 Freeport, LI is now under new owners (WBAB-FM, Babylon, LI bought it) and one of the changes is that ex-WABC DJ Bob Dayton who'd been at WGBE the past couple years, is no longer there. I was interested to see WINE-940 Brookfield, CT is now vying with competitor WLAD-800 Danbury in trying to move to 1160 and go fulltime. On Oct. 21, around 7:30 pm, CX were very Aural. I stumbled on ZDK-1100 which was broadcasting the Independence Day ceremony for Antigua and Barbados live, and it was very interesting to hear such an historic broadcast. The Cuban on 600 was quite weak for what was a totally AU night, but the SS Cuban on 570 was ripping up WACA-570 which is about 6 mv in Stamford. I also note that the 600 goes back to SS at midnight after its R. Moscow broadcasts, and the 550 station carries the AM R. Havana Cuba EE programming. This night was so Aural that ZMS on 1540 was all alone with no trace of WPTH, and there was no WKWB. It was the AU CX that allowed me to hear WLNA-1420 and see what they are up to at night. I was very interested to see the list of Cuban stations, as they are expected to be operating at the end of 1982. I see the 500kw stations everyone has been talking about will be on 550 and 1010, and the 590 & 600 stations will remain at their present 150kw level. WONG-550 RI & WINS-1010 NYC could be in for some rough nighttime interference if these stations do indeed go on.

BRUCE IS BACK AT THE DIALS

BRUCE A. CONTI - 89 Warren Avenue - East Providence, RI - 02914 401-438-7690  
..... It's been a while since I've done any DXing. The last DX season was lost due to my nighttime job of DJing. However, I'll have time to do some twisting of the dials this season. Now I'm working a regular 9-to-5 job as an electronic technician. Here's what's been happening DX-wise as I re-acquaint myself with what's on the air. 10/24: Newie WKRB-1220 was caught w/s/off @ 6:15pm EDT after a short inspirational message. 11/1: At 700, Jamaica was in strong w/WLN null @ 4am EST. R. Caracas-750 was overpowering WSB @ 4:45am w/DIS. WLAM-1470 "Maine's Super Station" w/a super signal at 5:04. 11/5: This time, CKO-1470 was on top with Executive Editor Howard English asking for comments and ideas about programming from listeners @ 4:20am. Newie WKNE- 1290 came in w/WICE off @ 4:55am. WEIM-1280 s/on heard @ 5am, struggling w/WADO's SS programming. CKSM-1420 PPG was caught in WGAR's null w/C&W mx @ 5:25am. CRTN-1190 was in L&C w/local NX folo by "Island Weather" @ 5:34. WONO nullled out. Cuba was noted alone on 1200 @ 5:37am. 11/8: WCOU-1240 came through nicely w/ID @ 3am & CBS NX. WTAE-1250 was heard w/cliches mx u/WKBR's LE Show @ 3:15. There was another UNID station w/BFL mx u/WTAE & WKBR. "All New adult Radio 12-7" ID noted on WSPR-1270 @ 3:30am. When I gave the TRF a rest until sunset, when I caught WRCP-1540 actually on top of WPTH @ 4:40pm. CKLM & CPOR were battling it out on 1570 @ 4:45pm. WBRX-1530 was in weak w/C&W mx, 5-5:10. Newie WKRA-1550 was caught w/detailed s/off @ 5:15. Nothing's definite yet, but I hope to be able to attend RAY ARRUDA's Thanksgiving GTG. 73's.

TONY SHUFFLED OFF TO BUFFALO

TONY FITZGERBERT - 116 Devon Road - Chalfont, PA - 18914 11/6/81  
..... Hi - I hope everyone's DX is fruitful - first response to KFSO info is from ERNIE COOPER, with my grateful thanks - anyone know the power then on 1120 kc/s? Anyone else with details? Should be a most interesting station profile! DX catches of the week are WUNI-1410 AL on 11/1 w/ CWM, good u/WPOP @ 9:10pm, & WGBE-1490 u/WBGB - first time for both! Varies back from WMMN-1260, WEVR-1280, WHOT-1330, thank you, JERRY STARR, CJFP-1400, WLEA-1480 & WNOW-1250. Time to start out tour of Buffalo Radio! WGR-550, IDs as "GR-55", is a T-40 outlet, w/AsNX, studios & offices are in a downtown storefront, XR is three tall towers in Hamburg, sharing a common ground system w/WKWB - they verified in Chalfont. 930 is 5kw WREN, an AC station w/local NX, and "Free Form Sports", lots of features, & LKING from 12-5am. Studios are in WBEW's TV Building. Antenna is a two-tower array in S end of Grand Island. WBEW was owned by the Buffalo Evening News. Both these stations regularly appear in the ARB's, but the next one does not. WEER "News Radio 97" w/all-NX from 6am-9pm, NBC, & lots of local NX & features, directional N, out over the Lake, accomplished with a five tower array SW of the city. From 9pm-6am they offer jazz with the same announcer for NINE hours! 1080 is WUFO, "The Sound of the City" IDs as serving Amherst-Buffalo, is a member of the SBN, I heard them while in Buffalo, offer jazz, DIS, SOL, Black BEL, & Black humor - station is D-1, 1kw & must be very popular in Buffalo's Black Community. WJOL-1120, CWM, A1 Net, studio is in new Hilton Hotel, out of fleabag Lafayette Hotel, now a flophouse. WJOL is ND, 1kw, with new, very tall tower outside the city, near the Thruway, which makes their 1kw sound like 10kw! Heard, verified in Chalfont. More Buffalo next week. 73 & good DX from AKF.

GENE'S GOING TO HAWAII FOR CHRISTMAS

GENE MARTIN - 3303 East Evans Avenue - Denver, CO - 80210 Nov. 8, '81  
..... It has become very difficult for me to maintain any interest in DXing in recent months, and the new season has offered wretched CX from my point of view. I would have liked to hear Anguilla on 1610, and surely would have, except my 1280 local has a stubborn image there and it would take a potent Anguilla signal to break through it. Up to Nov. 7, the Japanese power houses have showed up only a few times, only three or four occasions, & never with any decent results. I have heard very little worth taping, one exception, 23L-702 Sydney, arriving nicely Oct. 11, as late as 12:43, 23 minutes ahead of sunrise. (???) -ERC) 23L was hitting WLW soon after 11:00 that Sunday morning, & by 12:30 was stronger than WLW in its morning fade-out period. Nor have Latin American CX been very good this season even under AU CX. Several WMs, I have monitored 1030 in the 8-9am period trying for LS10 often heard in other years. Mexico & Colombia have been there, but no Buenos Aires so far. When it is, BA can be recognized fairly easily on account of its non-stop yakking, no music. Of course, the Western DXer never benefits from Auroral CX as such as Eastern DXers who often find the Latins all over the band. For the most part, Down Under signals were better in July & August, than they were in September-October. Mrs. Martin & I will be making our third trip to Hawaii at Christmastime, staying this time on the island of Kauai, 69970 miles W of Honolulu. Grand-daughter Jennifer from Minnesota is going with us. She is nine. I am taking along the GE Superadio which feeds into my Sony cassette receiver & may get three or four hours of honest-to-goodness DX on tape. The GE has been worked on so that its speaker keeps operating when you plug in to its earphone outlet. It's still difficult though to read exact frequencies on the GE. Alaska has never made it to Denver for me, but it comes easily in Hawaii.

DAVE MAY BE MOVING SOON!

DAVE SCHMIDT - 42 Chelwynne Road - Castle Hills - New Castle, DE - 19720  
..... A few more lines to our Key Man, ERIC! 10/31- WTYN-1550 12:08-12:21am ET/TT/OC, many IDs when I tuned in but they filtered down to zilch by tuneout, CBE null'd. 11/1- When WEAL-1510 was noted right after WJIC's s/off I figured things were still Auroral, so thru the course of tuning the upper end, at 6:20pm on 1570, an ad was noted for the Winstboro Sports Center, then American Country Countdown; tentative off to KMAR. SS noted w/ZNS null'd till 7pm and gone at what sounded like a pattern change, maybe Galveston? Those type of AU CX confuse the heck out of me, I just don't know where to tune next, hi! 11/4- WJRC-1590 1:01-1:35am popping on/off w/ET, EZL mx, I tuned in w/ID in progress. This station was silent, does anyone in the Baltimore area know if they've returned? Does anyone in the Baltimore area exist? After spending three hours lining up a seven-page DXCD, 11/8 brought the new WAGS-1140 w/ST, GOS mx, 2:25-2:37am, many IDs, splash from WNEW-1130 & CXOC-1150 (WDEL nulls nice since the switch to the new studios, Joe - hi!) Then KQWB-1550 2:40-3:20am w/r, way atop when I hit 1550, but faded to spotty reception, until TTR/rocker noted who I did 3 3:33am but that was wiped out by horrible KXEL splash. Veries are now at 1,069, adding v/1 & CM, WHIB-1510 (GE has relatives in Newark!), v/1 WREL-1240, v/1 WAZA-1360, v/r & CM from WIPC-1280, who sez they went fulltime 1/9/80. Big news at this end, pending some good luck, we make a move to extreme SE PA to a house that is over 100 years old that overlooks a huge farm area in back which is clear, and as far as I can tell, electrically quiet. With the landowner's OK, this would be an ideal area for an Eastern area beverage, facing directly into the Sunset (West). This would likely be after the construction of some additional rooms on the third floor of the house. The closest local is about 15 miles away, and the only past may be W3BA-910! I've got my fingers crossed, hi! And it's on top of a hill, which would make it great for FM in the Summer months. We'll keep you posted on the progress of the find! 73's.

NO NAME OR ADDRESS OR DATE OR ANYTHING

..... Some good news and bad news. First the good news. WIKY-B20 Evansville, IN is no more. The station was taken over by Indiana State University with calls WSWI but WIKY-104.1 on FM stays the same. Go get 'em Ernie. WSWI is off on Sundays so a chance to log WAIT or loop out WAIT to get WBAF in the daytime. The bad news is WNR5-1590 is 24 hours w/album rock, logged on 11/6 @ 9:50pm mentioning concert info, for Indianapolis w/UPL NX. NRCers had better get what they need on 640 before the likes of KPI, TGW, & even CXG become only a memory. I got a QSL from TGW in 2 1/2 months. I would like for NRC members to express their opinions to include the most commonly heard Latins such as Cubans 630, 640, 690, Colombians 810, 960, 980 & TWR-800 since this is especially helpful to the newcomers. I know these stations aren't in the U.S. or Canada but not to mention certain Latin stations that are audible even on a mediocre transistor radio should not be considered DX. I hope to see you in St. Louis if we get IRCA for '82. Nice to see all of you at the Convention. RON MUSCO was a very good substitute for Ted at the auction, but Ted is the best. (Maybe this came from Ted himself??? - hi - ERC)

JOHN'S GOT A NICE BATCH

JOHN R. MALICKY - 995 Shadycrest Road - Pittsburgh, PA - 15216  
..... Hello! Amazing! In a little over two days, a third antenna was built next to WJAS' other two atop Greentree Hill. I watched this happen a few minutes each day less than one mile from my home. This one is the tallest of the three and was topped with the American Flag. Some personality names to help you if you catch any of these stations: KDMA has John Cigna 6-9, Roy Fox 9-12, & Perry Marshall 12-6 w/Dave Kelly subbing. Ray Smith MM, WWSW has Doug Hoerth 7-12; KQV has Sam Nover (Sportaling) 6-7:30 and Mark Scheiber 7-7 w/Mike Laing (Lang) on Penguin Monkey, and WTAE w/Hyron Dope (on Sports) 7-8, Stan Savran (sports) 8-9, & Johnny Williams 9-12. Now to some of my recent DX (as reported in previous DXCDs). WCRP-1600, Chesapeake, VA 10/11 w/ET & big bend mx @ 2:10am. WNPP-1470, Chicago Heights IL 10/22 w/s/on @ 7:10am WAGS-1140, Almore, AL w/good signal on ET 10/26 @ 1:42am o/u WRVA (has anyone else heard this one, as they have been testing every MM since). Two graveyards, also on 10/26, WCVW-1450 Jeffersonville, IN w/MXL @ 3:39am & KTLO-1490 Mountain Home, AR (my farthest 250 watter) w/NX, commercial, WX, both good signals, @ 4am (six new stations that MM). On 10/28, WKNF-1600 Key West, w/mx, WX for Keys, & s/off @ 1:30am, almost excellent signal, a real fluke, IDs as "Key Rock 16". This is the one TOM CONNORSER heard. WATP-1430 Marion, SC 10/28 w/s/on @ 6:02am. WSLK-1220 Salem, IN, 11/3 & 11/10, better signal on 10th w/local NX, Swaptalk, but faded to NGR @ 5:42pm (Do they s/off @ 5:45?) WMC-790, Memphis, 11/4 w/ABC NX o/WTAR @ 3am. WJOR (?) South Haven, MI, 11/4 with very heavy fog conditions & school @ 6:10am. WKRK-550 Cincinnati, 11/9 w/KRC Night Watch NX @ 2am. WSPR-1270 Springfield, MA 11/9 w/ID as "Bill Brady Sportsline weeknights" WBOW-1230 Terre Haute, IN 11/9 with "Seven minutes of great sounding mx" @ 2:42am. WUDC-1260 Washington 11/9 w/s very good signal & John Thomas on "the official Rolling Stones Station" @ 4:13am (per WTAE's MM 2-5am s/off). WITH-1230 Baltimore, 11/9 w/MXL @ 3:46am, very good signal, but fades quickly (I have heard this one 6-7 times since last June). WENF-1250 Milwaukee, 11/9 w/"the songs that make your life shine" @ 2:08am, very good signal. Finally WNNX-1210 Saginaw, MI o/WCAD on 11/10 w/Jack Scott Show and Tri-Cities WX, very good signal, but fading, @ 5:15pm s/off, first time heard, #750. I celebrated my birthday 11/22 - 73s to all! Let's go PITT, #1!

CONGRATULATIONS, PETER, ON WHRC!

PETER HUNN - Box 92 - Port Henry, NY - 12974 11/7/81  
..... I found a bit of time so I thought I'd get out the typewriter and muse. Upon the recent grant of my application for a CP for a new Class "A" FM in Port Henry, NY, my wife Carolyn & I moved up-North from PA. The CP for our station (WHRC-FM - Hunn Radio Co.) originally read 106.3 mhz. However, an amendment in the FM table of allocations shifted us to 92.1 mhz. The FCC mandated change in frequency immediately prior to our anticipated station construction, and the rainy conditions during the Fall have caused some delay. Hopefully we'll s/on some time in early Winter. WHRC-FM will be housed in a building which shall also serve as our residence. The station's 800w signal covers (according to our proposed contour maps) more of VT than NY. In fact, WHRC-FM should be a regular in Middlebury, VT. I plan to do most of the six work (borrowing from my experience at broadcast outlets such as WJAR, WPRO in Providence, WNLC New London, & WMGK (FM) Philadelphia, and my wife will handle the bookkeeping end of WHRC-FM. Plans call for the format to be of the "MoR-POP" nature weekdays, with everything from classical mx to dramatic programs during weekends. Although my new broadcasting station is not AM, I hope some of you will see if you can log it. It'll be a pleasure to send out those v/ls (WOPR-91.9 here in Provincetown also plans to be on in January. Peter-we'll see you, hi! -ERC) By the way, on 10/18/81 WIPS-1250, Ticonderoga, NY, was heavily damaged by fire. According to articles in the local paper, the station was not able to return to the air until 10/20 when a temporary studio was established in a trailer. I believe WIPS borrowed a transmitter from WKAJ-900, Saratoga Springs NY in order to get back on the air. I received the new WVNH-Faultney, VT 11/7 @ 10:30am. Their 250w on 1340 kHz made it up to Port Henry with fair signal strength. Lots of local spots, rather polished announcer, good music mix. Sounds like they are doing well. I'll let you know when WHRC (FM) is ready to go on the air. Good DX to all!

THE TREND CONTINUES - ANOTHER SUPERADIO!

NIEL WOLPISH - 15 Donwoods Grove - Toronto, ON - M4N 2X4 Nov. 10, '81  
..... The latest DX to start off... 11/1 BSS; WPMP-1580 5:47-5:58pm for the first time this season. ZNS1-1540 (Nassau) 5:47-6:44pm w/Bible px, (there's that abbreviation again, what does it mean? -ERC), NX & mx for my second Bahamian station (the other is ZNS3-810) and my 21st on 1540, both heard on my FRG-7 & SM-2 combo. I received a Superadio later that evening, & tried KM 11/2 with it. CX had changed a lot from SSS, & I didn't log anything. I still haven't heard anything new on the Superadio, but haven't really tried. School is to blame. Last year end in the past, I have found November to be the best month for DX. November also is a BAD month for school, as are December & March. That explains why 11/79 netted me 52 new stations, & 11/80 only four. Quite a change from Grade 12 to 13. This year, First Year University, should be similar, only I get out in early May, so April will be a busy month. I'm impressed w/the Superadio. Hopefully more results with it soon. Adios

THOSE LOW-POWERED BC 1630 STATIONS ARE PFFFFT.

**BRIAN VERNON - General Delivery - Eliza, YT** Oct. 27, 1981  
 ..... I have not done much DXing of late, most of the spare time has been spent working on my pirate 'Radio Eliza'-1580. I'm using 10W, daytime only, and it really gets out quite a ways. I noted it in Keno Hill 15 miles from here, though not very well, hi. According to the government's "Radio Aids to Marine Navigation" updated to Sept. 1, the WC Canadian coast radio stations operating on 1630 KHz will be "decommissioned" on Dec. 31st @ 4pm, PST. I assume that means they will close. They are located in Alert Bay, Bull Harbour, Camox, Prince Rupert, Sanapit, Torino, Vancouver and Victoria, all BC and all on 1630 KHz. They broadcast marine and local WX at various times of the day and evening, at different times. There's an application before the CRTC for a TIS station on 1150 w/11 watts to be located near or on the Blue Water Bridge in Sarnia, Ont. It will give info on metric measurements, etc. and seat belt laws. Apparently the 530 & 1610 frequencies are not approved for TIS services in Canada. KANC-1080 seems to be back on rr format, playing a lot of oldies nighttime. They went C&W for a while. KSKO-870 is on the air from McGrath, it's on till 5am EST, not a good signal here. It might be readable on the WC. All for now. The Expos nearly got there, didn't they?

UP UP AND AWAY - CANADIAN POSTAL RATES!

**JEFF FALCONER - Box 63 - Clinton, ON - NOM ILO** 11/4/81  
 ..... During the past two weeks here DX has trickled to a near standstill. Although CX have been good, I've been busy with other stuff. Oct. 21 I received a new Sigma-Match TUN-2 antenna tuner from Grovo Enterprises. This tuner covers frequencies from 10 KHz all the way up to 30 MHz. Its performance is fairly good on MW & SW but it is a super performer on LW and the 160 meter ham band. It adds as much as 24db of gain to LW beacon stations. On Oct. 22, with the 190' random wire hooked to the tuner I got Mainflingen-1539 @ 6:25pm w/c1 mx; Poland-1503 @ 6:28 // -6135 w/c1 mx, & Mainflingen-1593 @ 6:35 also w/c1 mx; first time for Mainflingen & Poland here on the new ITO plan. The only other recent DX was Oct. 29 @ 6:28pm when I got WNR-990, New Orleans on s/off. Not too bad here for only 250w. I'm wondering what has happened to all the stations that used to verify? In 15 years of DXing this is the worst I've seen for veri returns. I guess I'd best quit complaining 'ouz the worst is yet to come, with both the U.S. & Canada raising postage rates. We poor Canadians will have to pay 35% to send a letter to the U.S., sob! In Canada an IRC has already increased from 46% to 85%. Oh well, so much for progress. (Looks like you've got better crooks than we have, Jeff! -ERC) With my reports I send IRC's pamphlet "The Broadcasters' Guide to DX". This pamphlet has helped raise my veri count a bit. The v/s at WMLM & WUIV were quite interested in it, so I sent them some info on NRC, DXing, etc. Maybe we will soon be reading Musings from these guys. Another way I've found of increasing veri returns (if you're a ham radio operator) is to mention your ham call in the report. Many CB's & other radio people are also hams and answer reports with not only a veri but a nice letter added. A note of interest: Anyone who needs Manitoba, try for CJOB-680. Per veri, they are now 50kw NSP and is heard here almost nightly o/a CTR. Well that's about it for now, so 73 till next time.

DUSTS OFF SOME OLD EQUIPMENT - BINGO!

**JACK WOODS - 4073 N.E. Morning Street - Corvallis, OR - 97330** 11/11/81  
 ..... The crystal filter in my 40-year-old Hammarlund has become intermittent. Cleaning the crystal didn't help. Maybe the problem is on the six-position switch, which is not accessible. Anyway, I dug out the old Heathkit Q-Multiplier, did a fast realignment job on it and the receiver, and gave the combination a try with the NBC Loop. First new station heard was KIQS-1560 w/their 8pm ELT s/off with the National Anthem & "authorized power of 250w." This was on 11/4. I haven't heard them since as KPRC dominates. Other new stations heard most couple of weeks are KCHJ-1010 8:14-8:20pm with program "Stardust Time" (one deep fade) 10/26; KYHO-1300 8:47 to 8:51 10/28 with World Series chatter, KWRO-630 2:39pm 10/29 with brief break thru the UNIDs, KPRL-1300 8:21-8:36 10/29 with local WX (4' of snow expected in Sierra) and Triok or Treat advice, KDIA-1310 9:29 to 9:31pm L&C also 10/27, and KXLY-929 4:51am 11/5 with pop mx & Eastern Wash. WX. All times ELT, & IDs were heard on all. Trying for KPFR-660 also I hear is a very weak SS. -my ideas on who that is? Compliments to BILL HALE on his British Isles Scene in No. 4. Best wishes, all.

JOE'S GETTING THE BUG - SLIGHTLY!

**JOE FELA - 150 Robert Street - South Plainfield, NJ - 07080** 11/10/81  
 ..... I had on the AM rig briefly on Sunday morning. I added one - WPCN-960. I had to get them on a Sunday morning before the TV interference got too strong. 970 sounds like a GY here now - WPCN is a WBYL, but o/WELI, with a little WSEY (probably) thrown in. (NRCers, have you sent Joe your updates on the frequency check list? Do it NOW, please - the list is soon to materialize!)

NICE SECTION THIS WEEK, TROOPS! THANK YOU! LET'S DO IT AGAIN, AND OFFEN! THE DEADLINE IS EVERY MONDAY IN PROVINCETOWN. PLEASE DOUBLE SPACE! ALL JOIN IN!

STEVE HAD A BIG WEEK

**STEVE FRANCIS - 1620 Lodge Street - Alcoa, TN - 37701**  
 ..... MM 10/19- Am I the last to hear it? WHPB-1060 MI ETing @ 1:56 w/continuous IDs (no two alike), fair u/KYW. UNID tester on 740 most of the AM playing Montevani-ish instrumentals, anybody get an ID? 10/21- A real surprise in CHUG-1450 OM readable above the din 6:02-6:05am w/MX & SX, mentioned snow was falling. 10/22- WNBC-1400 MW w/"Great American Country" mention & NBC NY, this @ 3am. 10/25- 7:45-8:05pm, mystery XEPAJ-1560 w/ranchero u/WPAD, whoiz? MM 10/26- The new WAGS-1140 AL testing w/country GOS mx & plenty of IDs 2:25-2:40, potent u/WVA. They were doing likewise MM 11/2 & S, 11/8. Montevani was at it again AN on 740, still no IDs! WKMX-1000 PL noted weakly 5:05-6 u/WCFI OC w/o/w, emergency info (a twister hit Blountstown the day before), & AM/FM IDs, latter sounded like WRCK. They weren't too strong despite the open channel, DA must not be beaming much North. 10/27- Unn WKLB-1290 TEST maybe the one w/TT starting at 5:31, many short breaks; off @ 5:36 w/no IDs. 10/28- KYNO-1080 NO doing well w/TT 6:46-6:48am, one quick ID bt end & mention of f/a, not on the list. 10/31- The new WDLK-1450 AL poor & lem with long s/off & choral "Dixie". CJOY-1460 OM (hi, Dr. Tom!) clear @ 3:01 w/mention of 50 & into CJOY NX, I bet that 50kw CF is on. A tasty Bellow's on treat @ 6:45pm w/the s/off of KEXS-1090 NO, weak but nicely alone. Their 1kw CF is on per announcement. Seven newies this week if XEPAJ pans out, my most fruitful week since 4/77! MM 11/9- ET ID from WTKC-1550 @ 2:08 for PA #90, good signal on a quiet channel. WELC-1150 is now 5kw per announcement heard on station. No luck here with the TESTS from WWT-620 (both nights) or KUAL-1170, were they on? A story over the AF wire last night (11/11) at WCAP reported the broadcasting VIPs at their get-together down in South America has officially mixed 9 kw spacing for the Americas - I'm glad. C U N 21.

WARNING - DON'T STAY PLUGGED IN!

**THOMAS COMATSER - Route 9 - Box 78 - Sevierville, TN - 37862** 11/13/81  
 ..... Hello all. Little DX to report this week after last week's effort. It hasn't been a good week for Knoxville area radio. WNCX was off the air again Monday the 9th for about two hours due to a fire at the studios. A fire also knocked WATO off the air for some seven hours, but I didn't find out about it until they were back on. Scratch one good chance to log WKLB! Also WSKT did not get on the air at all 11/5. Better news there as they were just installing a new console. One veria in today's mail, a w/f w/info booklet from WCII-EY. Veria said only "Country 11". WCII or 1080KHz were not mentioned anywhere on veria or envelope, funny, since they use the call as well as the slogan on the air. Booklet listed frequency as 1100 on your dial. Bet WNCX would love that one! Did someone mention DX? Starting at midnight on the 10th, I heard WCHO-OK w/Ag NX, obviously on tape delay. Checking for new call on WJZA-TN per tip from a friend, I heard WBYL-1600 Hendersonville TN. Anybody know their power? The evening was rounded out with CHML-900 Hamilton, ON from 5:45-5:49 pm. The night before a good opening to Memphis with WMC-790 in good w/c/w, later at 11:42 that night WBBQ-560 w/oldies, best of your friendly neighborhood Cuban! More c/w @ 11:51 that night courtesy WTKC-1300. As the History of Book and Roll ends tonight, I'll probably be spending the 7-9pm spot it occupied chasing the DX & taking reports. Now that the Christmas season is upon us, stations will be loading up on holiday spots giving us verifiable material to use in reports. For those plagued by TVI (who isn't?) I've got at least a partial solution; unplug your radio! No joke - I've found that most of the TVI gets into my Superadio via the power cord. Running the set on batteries when the TV is on makes DXing a lot easier. While I'm on the subject, here's a safety tip. Most RXes I've seen that can operate on both AC & batteries are wired so that the on-off switch controls ONLY the radio, not the AC power supply which is on and drawing current as long as the cord is plugged in. While the power drain won't do that big a number on your electric bill (it's about like an electric clock), there is a risk that the radio might start a fire. I always unplug my Superadio when I'm not using it. The same tip also goes for portable cassette recorders. 73s & good DX until later.

NEWSIES AND VERIES ARE ROLLING IN

**BOB HILLCAREK - 2317 East Ohio - Milwaukee, WI - 414-481-6755** 11/11/81  
 ..... This will be a short one as there is not much new around here. Station total now stands at 665, with the addition of 16 newies and a re-count of my log. Most of the new ones are from nearby states, with only a few good catches. 11/5, KLTG ND in at 655. 11/7- CUNR OM in @ 6:25pm. 11/10, KRLW, Walnut Ridge, AR caught signing off with the Walnut Ridge High School Chorus singing the SSB. KICX NE pulled one of those DX rarities and rose up out of a crowd for an ID & then did a quick fade @ 6:27 that same night. Veries are in from KQBC, EXDW, KTRH (four days) WYDC & The Caribbean Beacon (five weeks). Thanks to HERB SCARPELLI for the NJ tip, I'll give it a try. Also thanks to KEN ROKSTADT for calling to check on the B4-180A he sold me, although he did wake me up. And last but not least (now that's original!) it was nice to hear from MIKE KNITTER. Hopefully SS CX will improve as November wears on. Now, it's time for a beer. (I'll have one too, Sob! -ERC)

SAYS THEY ALL VERIFY - EVENTUALLY!

RICK A. CARR - 402 John N. Garner Circle #102 - Austin, TX - 78753  
..... It's been a long time since I last Mused & I thought ERNIE deserves some support. Not much DX to speak of since February of this year due to HQ-180 failure and the lack of funds to fix it. I reckon a re-intro is in order also. I've been a member of the #1 DX Club since 2/77 and actively DX-ing since 1974. Total loggings are at 1,533 with 1,367 verified. Domestic totals are 1,213 heard, 1,191 verified for a 98% return rate. Sure they'll verify, just keep trying. Some stations have received a dozen reports over several years but eventually tired of seeing my requests and got me off their backs. The FM DX bit me a while back; those totals are 118 heard and 79 verified so far, f/ups due to go out. The only drawback with FM DXing, without the use of a rooftop rotatable antenna has been that out of 118 loggings, nine are from LA, the rest from Texas. TV DX at a standstill with 103 heard and verified from 13 states and one from YSR, Danal Dos, in El Salvador. I really enjoyed watching the Flintstones on YSR with an all-American selection of ads, in SS of course. Anyone wishing to trade stickers or pennants please drop me a line, or if you've been buried with unwanted stickers/pennants and hate to toss them, send them my way. I'll gladly pick up the postage. Last year I compiled an IDXA listing which appeared in DX NEWS and if anyone found it helpful I'm truly glad. This year I already have it updated with each issue of DX NEWS that I receive. I'll send it to HQ when the last issue of 1981 arrives in Austin. So long until the next time. 73's.

"HELLO LARRY"

NEIL G. ZANK - 623 Lyncrest Drive - Lincoln, NE - 68510 Nov. 9, 1981  
..... A bit more DXing time spent is beginning around here, but results are rather slow so far. But one news to report below. On 11/3 a try for WKLB-1290 KY but not heard in ten minute span here. 11/2, the newie: KEIN-1310 Great Falls, MT heard 1:50-2:05am w/WX, T-40 mx, ID & NBC NX - IDs as "Montana's first radio station". V/I received from KEIN in today's mail. 11/9 I noted old friend WDLB-1450 Marshfield, WI as basic dominant on frequency 1:30-1:45 w/WX NX by F and GAW xz. Otherwise only unid long term or sporadic Tters have been noted on various frequencies & various mornings. I am sure of them some would have been goodies had they ever been IDed, but... On other matters, I have noted the new tele-talk type thing on NBC Net being carried at least part of the night on KPAB-1110. I forget what the show is called, but it has sounded mucho insipid, so far to me. Not many years ago one could hear the same rock songs on 6-8 stations at the same time during a quick handscan. Now we hear mostly "Hello, Larry" dominating the channels. One mention of an NRCer I forgot to make last Muse was that I saw CONRAD "Rocky Stone" DROCHER performing with Mickey Gilley in September at the Nebraska State Fair. I should have hollered some DX news to him while he was on stage, ha. We have had a few more CPC volunteers speak up, but we sure do need more help on CPC. A big thanks to DAVE SCHMIDT for his idea about prize of free DX NEWS-membership for the most successful CPCer of the season. Why didn't I think of that? Band CX are starting to sound pretty good here, so I hope that new catch conditions will be evident and that I will have some DX to report next time. I will try to help pry some Muses out of the rest of the Nebraska NRCers soon. (Swell!-ERC)

DICK'S WORKING 1530 AT SUNSET

DICK TRUAX - 3003 Gleason Lane - Louisville, KY - 40299  
..... Greetings once again from the Bluegrass. Long time no Muse due to long time no DX. But perhaps a brief summary of the last 60 days' activity is in order. I have been able to null post WCKY-1530 at SSS lately and heard a number of unid but rare stations - principally KHLC-AR, WJPF-TN, KCTT-AR and always KCLR-TV, which is an SS station that s/off in EE. I keep looking for KGBT but so far no luck. Also I need KECK-NE badly. I did log one new one though: KNEO-1530 TX s/off @ 7:48pm w/SSB on 10/19. So much for my new catches. I hope to have much more activity to report soon or I might as well sell my equipment! Speaking of equipment, I am cleaning house, so to speak, and selling a lot of seldom-used equipment. They should appear in a future DXchange column, but for anyone looking for an R-390A in excellent condition, there is one on the list. If you can't wait for DXchange to appear, send an SASE for a complete listing. All gear guaranteed to be in excellent operating condition, must in mint condition. I am waiting for my HQ-150 to find its way home to me from STEVE BORAC, who recently aligned and repaired the old boat anchor - it will be a keeper as one just like it was the first rig I DXed with 25 years ago. Kore as it happens, hopefully, soon.

AS YOU KNOW, DX NEWS IS ALWAYS DATED OF A MONDAY. WE ARE WELL INTO OUR WEEKLY ISSUES NOW, AS YOU ALSO KNOW, BUT WE WILL HAVE A ONE-WEEK HIATUS AT CHRISTMAS TIME, WITH NO DX NEWS FOR DECEMBER 29. THAT MEANS THERE WILL BE NO MUGINGS DEADLINE ON MONDAY, DECEMBER 14, OR FOR OTHER EDITORS ALSO, NATCH, SO WE WILL CELEBRATE EDITORS' CHRISTMAS ON THE 14th! KEANVILLE, KEEP THOSE CARDS AND LETTERS COMING IN. POLKS! PLEASE USE A.M. & P.M., ELT, & PLEASE DOUBLE SPACE. GOOD AS THIS ISSUE IS, IT'D BE EVEN BETTER HAD YOU SENT IN A Musing!

BRUCE IS BACK! WELCOME!

BRUCE WINKELMAN - 3014 West 68th Place - Tulsa, OK - 74132  
..... It's been a long time since I've sent off a Muse to ERNIE since I have been out of the NRC since 1979 so I thought it about time. Re-joining the NRC has been like discovering a long-lost friend. It really looked like old times to peek in the mailbox and find DX NEWS waiting for us. The HQ-180A has been sold and the altar loop was dismantled in the move from North Carolina to Oklahoma. Currently the RX is a TRF with no external antenna. No startling DX will be reported any time soon without a little better set-up but it will have to do until later. Brief re-intro: 31 years old, married, three year old son, one on the way, work as a hospital pharmacist here in Tulsa. I was a member of NRC for nine years until other family obligations and interests took me away from BCB DX. This Fall, though the crisp weather has really brought out the BCB DX bug - he was just dormant, not dead! So I bought the TRF & dug out the NRC Domestic Log and just couldn't do any DX without rejoining the NRC. Look for more from me as the time permits and the equipment improves - the new Superdio looks intriguing. I just hope Santa Claus is listening, hi. I am active in amateur radio as well, other NRC amateurs drop me a line to set up a sked. Currently I'm on 10-20 meters w/a 74/40 meter doublet in the works for the near future. 73 for now and again, really feels good to be back. Good DX!

GARY'S GOT A BRAND NEW R-392

GARY ATKINS - 2200 West Burnett - Louisville, KY - 40210  
..... Since so many others seem to be cooperating in keeping ERC's typewriter working I thought I'd pitch in too. No DX to speak of as I haven't been doing any tuning at all. A brief re-intro: I'm 41, single, and work for the Brown & Williamson Tobacco Corp. and have for almost 20 years. By next year operations are to be phased out and all production moved to Macon, GA. I may or may not move with them. I started DXing in 1962 and have heard 1,587 stations from 49 states and 38 countries. Being not much of an international DXer, I consider Tarawa and Vatican City my best loggings, and contrary to Murphy's Law both are on tape. Present receivers are an HQ-180 and a military surplus R-392 which was purchased brand new, right out of the crate. Antenna is a Radio West Ferrite Loop. Verie total is a meager 260 from 42 states. I had a great time at the NJ Convention. The presentation by DICK COOPER, CARLETON LORD, HARLEY STEWARD, PETE CLARIL & ERNIE COOPER was fantastic. It was like Kothball Memories coming to life. In trying out a recently acquired GE Superdio I heard an unusually loud signal on 1480. Knowing that WTHI in Terre Haute, IN was the closest station, I thought I had a new one but it turned out to be a spurious signal from WJDW-1550 in Corydon, IN about 25 miles from here. This has since moved to about 1460.5 and isn't as noticeable. I wrote the engineer a letter but he probably ignored it. (Try the FCC then, Gary-ERC) I will report any new DX if I decide to turn my RX on. 73.

RAY'S BEEN HAVING FUN ON 1420

RAY T. DAVISSON - Box 255 - Cuyahoga Falls, OH - 44222  
..... 11/9 - Hi gang! Believe it or not, we Akron-area DXers DO DX occasionally, hi! 11/2 - WNSR-1420 Pulaski, TN pulled through WHK null @ 8:55pm. 11/8 - WCED-1420 DuBois, & WCOJ-1420 Coatesville PA both in & out of the mess through WHK null @ 5:10pm. Seems like 1420 is a good frequency for me. All on my little Sanky portable. I understand my SPR-4 has a built-in amplified loop hookup in the top of the cabinet. Drayke engineers I spoke with last Summer said to add an outside loop I'd have to disconnect the amp if I cared to use the rear antenna hookup. Anybody know proportionately how much gain you get by going from, say a 250' Lw to a 500' footer? Gain in db... whatever. Thanks. Verie: v/I from WEST-Tenn. already! More soon. 73's.

A QUICK TRIP TO THE BIG APPLE

ERNEST H. COOPER - 5 Anthony Street - Provincetown, MA - 02657 Nov. 16, 1981  
..... One BCB verie in, but 'tis a Jim-dandy: HJAZ-1160, Monteria, Colombia, "La Voz de Simu", AM total is 4,208, FM is 146. Thanks go out this week to DAVID CLARKE, FRANK MERRILL, PAUL MOUNT, KEN ROMSTADT, & ROLLAND LINDBLADE for their appreciated phone calls! Kind of a slow week here! Wed, 11/11-12:49am, WCIC-1450 solid & almost in the clear for several minutes; I thought I was back in Brooklyn for a moment! In fact, I'll be there for five days as soon as this copy has been mailed to Louisville. A Tter was performing anomalously on 1370 1:08-2:00, when a possible ID might have been given. Then one on 1320 also 1:37-1:40. Unn CHY7-730 was quite strong at 2:31, only the second time heard. And lastly another Tter on 1550 @ 2:49-3:014. Local WKZE-1170 was kept until s/on @ 9:15am; this station has the saddest signal imaginable these days; sounds like about 50 watts. Thu, 11/12 - Unn NK80-1230 on top @ 1:05 ID, & quickly back to Larry Whozis. There's a weak SS on 905 Aning, it's too weak to pull an ID. "La Coc" [SS for "Q" on 940 @ 2:13, I'd hate to tell you what that means in Portuguese!] Fri, 11/13 - W7SA-1450 s/off @ 1:08-SSB, saying FM-96.7'd continue AN. Sat, 11/14, Nothing doing, I played on FM this morning! AM 11/16 - Unn WHMP-1400 on top @ 1:11, BFL ax, ssid AM & FM. WICH-1310 is off HMs, & WJLK & that SS with the sexy P announcer & BFL ax & cl ax were there. Who is this LA, anyone? Offs today: WUNR-1600, WHN-1050, WPEM-950. A third log was taken on WMS-790, in/out with that "ucuc" SS & CKSO 2:30-3. C U N 7.
