#### From the publisher ...

Effective immediately, please send all DDXD loggings to Bill Hale. Wayne's work load, both with the NRC and with what puts bread on the Heinen table, has increased more quickly than he anticipated. And, as noted in the last issue, we're still accepting applications for editorships of DDXD. I frankly am hoping that someone east of the Mississippi will add his or her name to the DDXD editorship candidates, as that region is from where most of the contributions originate.

Jerry Starr is off to the races, and so don't look for an AMS for two weeks. However, next week we should have a report from Jerry on silent stations.

**Columns ...** You'll note a change in the format of the loggings columns this week. Although the mail pro and con the two-column format was anything but overwhelming, I decided for several reasons to return to the one-column, page-wide format for these columns, although articles of straight text will continue in the two-column format.

Why the change? Well, I felt that the split

format was more readable, and readability studies support my contention. However, as several of you pointed out, trying to scan the text for state abbreviations and cities is more difficult when they are enclosed in text, even when printed in boldface. Furthermore, some problems that I hadn't anticipated cropped up in translating from different computer formats to the Mac. And so, unless I'm inundated by a blizzard of letters, we'll go with the wider column format. A big thanks to those of you who cared enough to submit your constructive criticism!

Congrats to NRC'er Tony Bernhoffer, who took my advice and submitted an article to *PopComm* and saw it published recently.

|      | WKTP | TN | Jonesborough: station now operates with 1600 watts daytime and 5000 watts night U3 for a very interesting reason. With the full 5000 watt day power the 5 millivolt signal contour would overlap with that of co-owned WKPT-1400. The FCC prohibited such an overlap in coverage areas for commonly owned stations of the same mode (AM) and the reduced power eliminated this overlap. When the stations had separate owners this wasn't a problem. At night WKTP can run full power since the 1400 kHz contour is reduced in size due to increased interference levels. Interesting. |

# White takes radio stations off the air

Perot objects to ex-governor's plan to sell off disputed properties

By KYLE POPE  
and RICHARD STEWART  
Houston Chronicle

Former Gov. Mark White pulled the plug on his two Beaumont radio stations this week and filed a controversial plan in federal bankruptcy court to sell them to a group of investors.

White closed KKFH-AM and KWIC-FM only hours after Beaumont's utility company threatened to cut off the stations' electricity because of \$2,760 in past-due bills.

The FM station, which sent its rock music into Houston from a 2,000-foot Liberty

County antenna, went off the air at noon Thursday after playing *Riders on the Storm* by the Doors. KKFH, a gospel music station, went off the air after its regular 10 p.m. sign-off.

The stations, purchased by White's Modern World Media in February 1990, were thrown into bankruptcy last fall following a bitter legal dispute between the former governor and Dallas billionaire H. Ross Perot.

Though the squabble began because White owed bank fees to Perot, the litigation centered on allegations that White mismanaged the stations.

Earlier this month, a Houston district court judge ordered all of the stock in

Modern World to be turned over to Perot.

Yet bankruptcy court documents filed earlier this week indicate White has signed a contract to sell the stations to an investment group led by Dallas radio station owner Steve Allison.

Allison, who operates a popular Dallas rock radio station, agreed to assume Modern World's debt, pay \$250,000 in cash for immediate expenses, and pay off other Modern World debts owed to Perot and First City Texas-Houston.

Allison is teamed in the deal with Houston real estate investor F. Gardner Parker.

White, who has acknowledged that he

knows nothing about operating a radio station, praised the deal as a way to get the stations into more experienced hands.

"Everyone we have talked to says it's the best proposal they have seen," said White, who owns 60 percent of the stock of Modern World with his wife, Linda Gale. "It's a way to get everyone paid."

But in an interview with the Houston Chronicle Friday, Perot said he is not impressed.

The billionaire, who did not know that the proposed sale had been filed in the Beaumont court, said that because of the Houston court order, he did not believe White had the authority to sell the station.

"I had no knowledge any of this was even going on," Perot said. "If you are asking if he (White) can do this, I don't think he can. All I want to do is get my money back."

White on Friday defended the deal. He noted that the Houston court order does not take effect until early

February, 30 days after it was issued.

Still, Perot's bankruptcy attorneys in Houston vowed to fight the proposed sale, which must be approved by Modern World's creditors and the bankruptcy court.

"This doesn't give the creditors a thing," said attorney Joan Kehlhof. "We are going to fight this tooth and nail. We are already preparing the pleadings."

If the plan is approved by the court, Allison said Radio Group will operate the stations under a management agreement until the sale is approved by the Federal Communications Commission.

If that happens, Allison said KKFH immediately will go back on the air with the gospel format.

KWIC equipment will be upgraded and the station will return to the air with a new format, he said.

Allison said his company plans to spend \$2 million to build its own

2,000-foot-tall tower about four miles southeast of the tower it now uses near Devers. "We're going to make it a real radio station," he said.

Allison said the stations had been "operating on autopilot" for several months and had practically no income because they had no advertising sales staff.

White and Allison told station employees about the decision to close the stations at a meeting Thursday morning, said the Rev. Earnest Larkins, KKFH music director.

Larkins, also an assistant pastor for Impact Ministries in Baytown, said employees had been concerned in past weeks.

"We knew something was going to happen, but we didn't know what," he said. "No one talked to us about anything. We have not been paid for awhile."

Allison said employees were given paychecks Thursday, but the stations were still in arrears for back pay.

Larkins said some employees hadn't been paid for eight weeks.

Modern World Media bought the stations in 1990 from Pyle Communications, which also had gone into bankruptcy.

Pyle, headed by Beaumont investor Charles Pyle, bought the stations in 1981.

Since then, KWIC has gone through several different versions of rock and adult contemporary formats. The AM station started out as KJET and since 1981 has also operated under the call letters KTLK, KIEZ, KWIC-AM, KJUS and KKFH with black, talk, easy listening, rock, Christian and gospel formats.

Larkins bemoaned the passing of the AM station. "We were the only full-time gospel station in the area," he said.

Larkins said that right before the station went off the air, one 82-year-old listener called up "and just cried. She just cried."

## 3 Piedmont stations merge music, news

AM outlets in Gaston, Shelby take advantage of new rule

By GARY ROBERTSON  
Staff Writer

Two of Gaston County's largest AM radio stations have joined with a longtime Shelby station to broadcast the same programming on all three stations.

WGNC-AM/WCSL-AM began to share up to 18 hours of music and news with WOHS-AM on New Year's morning. The three stations will have just one lineup of DJs and a single advertising sales staff. With the streamlining, two WOHS DJs are now unemployed.

The stations agreed to join forces when Watson Broadcasting, which owns WOHS (730 AM), agreed to sell the time on its station to KTC Broadcasting, the owners of WGNC (1450 AM) and WCSL (1590 AM). The stations would not say how much KTC paid for the time.

Although all three stations will continue to carry Charlotte Hornets games, sports is the one type of programming they will not fully share.

Cleveland County high school games will be covered on WOHS. WCSL will continue to cover Cher-

DIETER MELHORN

**Station to station:** WGNC-AM/WCSL-AM in Gaston County began sharing up to 18 hours of music and news with WOHS-AM in Shelby on Jan. 1. "We're trying to do something that's never been done before. It's a learning process," said Milton Baker, WOHS program director (above).

ryville High School sports, and WGNC will broadcast other Gaston high schools and the Gastonia Rangers.

The stations are among the first

in the country to take advantage of a new Federal Communications Commission rule that allows the same broadcasts on three AM stations.

## MEDIUM WAVE ramblings

Ken Onyschuck of Riverdale, Illinois writes to say there was a blurb in the column of the *Chicago Sun-Times'* Robert Feder saying WTAQ 1300 La Grange, IL has moved its offices and studios to 6012 South Pulaski Rd. Chicago 60677. Ken says that's kind of weird, as it's a Spanish station licensed to a western suburb. Their transmitter and 6 in-line towers are located just north of I-294 at Mayfield Ave in southwest suburban Alsip, just west of Griffith Laboratories, easily seen from the Interstate.

You've probably noticed this column is being re-formatted. So, bear with us whilst we work out all the bugs. (And don't blame the wavy columns on Bill, either, folks. Somewhere between his computer and mine, all the tabs disappeared! Where? Only the Shadow knows -pls) Also, don't forget the new address.

I've received numerous reports for DX Tests giving the mailing address city instead of the city of license. C'mon, folks. It's the "City-of-License" we're after here.

As promised last week, Esa Hänninen's long list of Graveyard Records has been tabulated, and appears at the end of this column.

## UNIDs AND UNID HELP

- 740 WVLN IL Olney Is most likely JR-NY's "WDON - WSGI" unID of 12/15 (Issue 14). Now runs AN and IDs as "WVLN - WSEI". Log night power of 250 watts is incorrect... is actually only 7 watts nights. (REH-ON)
- 790 UNID ?? 1/20 0355 With Bruce Williams and Talknet during semi-rare CKLW SP. CKLW back on at 0359 just in time to ruin ID. (REH-ON)
- 800 UNID ?? 1/20 0355 Same as my 790 logging. (REH-ON)
- 820 WQSI MD Frederick May be BF-IL's unID of 1/13. "Great Country 82-Q" plays American Country Countdown (perhaps on 12/23 as logged). Consistent with WBAP null. Station phone # is 301-663-3USA. (WN-MD)
- 950 UNID ?? 1/20 0230-0300+ Up & down, xlnr most of the time with black AC, "Magic 95 Double Play" (plays the same song twice in a row!), local wx but never a city or call mention. Faded under WSPA at legal ID time. Suspect WGOV-GA. (DS-TN)
- 1330 WETZ WV New Martinsville 1/19 2259 fair under WEXL splatter with C&W mx and "The choice for country in the Mid-Ohio Valley, WETZ New Martinsville". This confirms my tentative reception reported in the 11/11 issue. (MJ-MI)
- 1570 WOBS IN New Albany Probably DS-TN's unID of 12/22 (Issue 14). Uses "Joy 1570" slogan and is REL. (REH-ON)
- UNID ?? 1/20 0117-0130+ Sounded like "Light 1570 WFOL" SID three times. MoR Oldies. Good when first heard, but faded well under XERB & never came back out. WFRL-IL? (DS-TN)
- 1590 WARV RI Warwick GOS station hrd by MH-NC during WARV test (Issue 14) may have been WARV itself. Between IDs, CE read Christmas Scripture and also used some programming off the Moody bird. (REH-ON)
- 1600 UNID ?? 1/12 1752-1810 Under WWRL, Redskins - Detroit playoff game, local ad for a show store in Lebanon, and ask there for AM 16 Discount. At 1800 an ID for "All-Sports AM 16, W--" as the gospel singer on WWRL let out a war hoop, in the interest of salvation, I lost the rest of the ID. My guess is WKEN. (TF-CT)

- WCAT MA Orange 1/19 0530-0600 Not heard, only WLW/JBC. (BG-VA) ...not heard. (AR-ON) ...tried for, but not hrd, Noted weak WLW and dominant R. One, Jamaica with REL (MH-NC)
- 720 WMXY GA Hogansville 1/13 Checked, but nothing noted. (KVJ-GA) ... 1/13 0200-0210 tune-out Not heard. Maybe a no-show since this one has been heard often during SSS. (REH-ON) ...nothing heard (DL-MA)
- KUAI HI Eleele 1/12 0500-0600 could only hear CHTN, way over unID talk stn during WGN SP. Possible CID at 0540 [Update just in - Ed.] 1/20 0540 Previously reported as possible CID, which I attributed to "Wishful thinking". Sent a "thank you" note and just for the heck of it, a cassette of the copy I heard. SHOCKER came on January 30th when I received a letter from Mykee Friedlander, who said "what you had was part of a secret message" in code and was DEFINITELY KUAI! HI #1 since 1966. (REH-ON)
- KUAI HI Eleele 1/12 Tried in incredible act of faith, nothing! (KVJ-GA) ... 1/12 0500-0545 Nothing hrd, only RJR Jamaica on south wires and CHTN on north wire. (RJT-NC) ... 1/12 Not heard. Nor did I think I would, but had to try anyway. Thought I might bag KDWN during WGN SP, but CHTN was fairly dominant. (DL-MA)

- WQTW PA Latrobe 1/18 0000 With sign-off followed, about a minute later, by TEST consisting of TTs, VIDs, & CIDs. Unneeded. (REH-ON)
- WQTW PA Latrobe 1/18 0001 fair with short bursts of tone, code ID 0005. Unn, so thank-you card sent. (KVJ- GA)
- WQTW PA Latrobe 1/18 0001-0028 Poor thru CKLM QRM with CIDs, tone & occasional VIDs. (AR-ON)
- WQTW PA Latrobe 1/18 0001-0028+ Good over CFOR with CIDs, VIDs, 1 kHz tone, and varying tones. (RJT-NC)
- WQTW PA Latrobe 1/18 0003 TTs, CID & VIDs. Timer-taped. (BC-VT)

#### TIS, TAS, NDB, LOWFER, CATFER, WHATFER AND OTHER STUFF

- 521 TVX IN Greencastle 1/15 0622 New NDB. (PC-VA)
- 1620 WSNX589 VA Virginia Beach 1/19 0605-0630 while looking for KA2XAU. Loop tape of (approx 80 sec) with man & woman annrs with mention of "Welcome to Virginia Beach". Gave Visitor Center hours and partial ID hrd which sounded like: "This is Travelers Advisory ... Station ... W ... 589 ... City of Virginia Beach Department of ...". Poor. (MH-NC)
- 1639 RD MD Berlin First, thanks to Hank Holbrook for IDing this MEDFER. Second, called Dave Holland, the MEDFER operator, who said power was 100 mw, not 1 watt [Yeah, I think they're limited to 100 mw -Ed.]. But even so, he had a report from a west coast DXer using a 3000' Beverage. And third, Dave says don't bother trying for the 1639 RD anymore as he's taken it off the air and gone to a LOWFER on long wave. LOWFERS must be more comfortable. (REH-ON)

#### MIDNIGHT TO 0800 HOURS ELT

- 540 WYLO WI Jackson 1/20 0057 With talk about Christian rock groups to appear at Concordia University and Milwaukee into Christian ROK. 0100 CL ID. 0102 "Your Christian Connection" and "Love 54" slogans. (GH-OH)

Jim Renfrew

61 Wilcox Street  
Rochester, NY 14607-3832

Foreign DX Catches. Times are UTC; for ELT, subtract 5 hrs.

Check out the February issue of *Monitoring Times*. It contains Karl Zuk's story of the recent Newfoundland DXpedition. It also includes a photo of the three perpetrators (that you can tape to your receiver for inspiration and good luck!). The article is a nice complement to the detailed loggings which appeared in *DX News*.

You are welcome to reprint any information and loggings found in *IDXD*, provided that you credit the original reporter and the NRC. Thank you.

### TRANS-ATLANTIC

Jim

- 792 SPAIN R. Sevilla 1/13 0447-0515 - Talk, talk about the Real Madrid fútbol team, pips @ 0500, news, sports, weather, comment regarding Algerian coup; all // 1584. SIO 344. [JB-NF]
- 837 AZORES RDP, Barossa 1/11 2246 - Noted w/PP fútbol play-by-play // 720, over Spain. Note return to 837 from 836, cf. the NF DXpedition log! See also Mark Connelly's log in most recent bulletin. SIO 322. [JB-NF]
- 1008 CANARY ISLANDS SER 1/11 2256-2300 - Station presumed mainly Palmas, SER, net fútbol program, pips on the hour but just talked about fútbol! QRM was a different Spaniard ... see below. [JB-NF]
- 1008 SPAIN RNE R. 5, Granada 1/11 2336-2338 - Faded up enough to hear SS telephone chat and a woman sang "Rocket Man"; // 1107. Site per DSWCI 8/91 bulletin, p. 14; WRTH says Málaga. Brutal QRM from SER station. SIO 222-1. [JB-NF] (1992 WRTH shows RNE-5 Málaga as the only Spanish station on 1008, while *Play-DX* member Jordi Brunet's 11/15/91 MW Spanish List shows Granada - looks like the jury is still out for now! - Jim)
- 1016 unID 1/13 0250 - Strongish carrier here, but no audio. No likely Africans at this time! Any ideas? [JB-NF] (Best I can find is Panama on 1015 - Jim)
- 1017 SPAIN RNE R. 5, Burgos 1/13 0121-0126 - Lively discussion in SS // 1107. SIO 232. [JB-NF]
- 1071 SPAIN Euskadi Irratia, Bilbao 1/12 0033-0054 - Program of C&W and bluegrass music! Few announcements, but definite IDs in Basque language. Other El stations inaudible. Initially very clear, later some QRM from Lille. SIO 343. [JB-NF]
- 1080 MOROCCO RTVM, Casablanca 1/12 0109-0112 - News in AA, fanfare @ 0110, AA mx from 0112 // 1044. SIO 332. [JB-NF]
- 1107 EGYPT VO the Arabs, Batra 1/11 2302-2315 - AA news, AA music from 2313. Definitely // 11665. RNE R. 5 took over during deep fades. SIO 333-0. [JB-NF]
- 1116 SPAIN R. Pontevedra 1/11 2235-2240 fade out - SS futbol and basketball scores, lots of talk about the Real Madrid futbol team // SER net 1026. SIO 243. [JB-NF]
- 1125 SPAIN RNE R. 5 synchros 1/11 2220-2223 - SS talk, telephone numbers and net ID. QRM was opera and a bubble jammer! SIO 322. [JB-NF] (Nothing noted in European DX publications concerning the jammer - Jim)
- 1161 SPAIN Euskadi Irratia, San Sebastián 1/12 2336-2355 - Light classical music, announcer in Basque language // 1107. Transmitter hum! Station was inaudible on previous night. SIO 242. [JB-NF]
- 1293.3 unID 1/12 2040-2046 - Strong jammer, off at 2046 but found again on 1277.5 a few minutes later, then gone again but refound on 1301.7 @ 2055 where it stayed until past 2315. Wonder who the target is. [JB-NF] (1992 WRTH shows Iranian stations on 1278 and 1300/1305; again, nothing mentioned in European publications - Jim)
- 1349 MAURETANIA Nouakchott 1/13 2212-2242 - Man singing w/very sparse accompaniment of 2 lute-like instruments, into music for just the instruments. From 2230 talk in AA, mentioning "Mohammed" frequently, to past 2242; // 4845. SIO 242. [JB-NF]
- 1359 SPANISH MOROCCO RNE R. 1, Melilla 1/11 2340-2347 - Telephone chat show about - what else? - futbol, // 729. SIO 232. [JB-NF]
- 1458 ALBANIA R. Tirana, Lushnje 1/12 2002-2005 - News in Italian, man and woman on alternate items; was on exactly 1458, as best I could tell. (See this frequency in NF DXpedition logs ... still trying to get a handle on the off-frequency station in FF.) SIO 243. [JB-NF]

1615 HOLLAND (pirate) R. Barones 12/15 0044-0058 - It has taken me a while to ID this, but today came confirmation from a Swedish DXer, Stefan Printz, who heard this much more clearly. Very weak w/rock and pops, tentative ID at 0054. SIO 151. [JB-NF] (probably very, very low power - Jim)

## PAN-AMERICAN

- 540t MEXICO XEWA, San Luis Potosi SLP 2/2 0730 - Probably them with brief "Super Ah Emmay" slogan u/CJSB/CBEF and unID Jim Bohannon station. Not heard in a long time, because of CJSB aiming right at me. [JR-NY]
- 590 HONDURAS HRLPS, San Pedro Sula 1/7 1132 - News sounders cut through heavy QRM, almost like CW or sweep-tones, // 610 item below. New. [FM-IL]
- 610 HONDURAS HRLP, Tegucigalpa 1/7 1131 - News w/"R. América" slogan, lively announcer, many "beeper" and "arcade" sounds between news items, news ended 1133 or 1134. This one really stands out! New! [FM-IL]
- 730 COLOMBIA R. Melodía, Bogotá 1/12 0449 - With "Melodía Bogotá AM, Stereo, primera en el 92" between two records of Colombian music, very good. [CO-DR]
- 840 COLOMBIA Brisas de Betania, Neiva 1/12 0458 - "HJKK, desde Neiva, Capital del Huila, Sonido Vivo de la Radio, HJ doble K, es la numero uno de la capital". The time was given as "las doce en punto" (12 midnight); Colombian pop music, very good. [CO-DR]
- 880 MEXICO XEPNK, Los Mochis SIN 1/23 0645 - Unbelievably strong signal. Thought WCBS must've gone SS, hi. Played SS ROK and SS OLD w/"La Joven" slogan (which sounded to my un-SS ears like "la who bay") between each song. Had lady DJ who made mentions of "La Superestación". Long s/off by male at 0701 giving XEPNK calls and then into vocal XE anthem until 0704. OC still there at 0800, so maybe leaves it on AN. [REH-ON]
- 910 PUERTO RICO WPRP, La Gran Cadena, Ponce 1/17 0255 - Surprised to hear here a program with typical Dominican merengues; very good. [CO-DR]
- 980 COLOMBIA 1/12 0505 - Station IDing as "Antena 2 de RCN". "Las doce y cinco minutos" (12:05) after pop music record, did not mention location. Probably R. El Sol de Cali. [CO-DR] (1992 WRTH says R. El Sol, Antena 2 RCN, Cali, 25 kW, 24 hrs - Jim)
- 1050 MEXICO XEG, Monterrey 1/21 0150-0200 - Briefly over CHUM w/SS music. listener phone calls and "La Ranchera del Monterrey" non-IDs; not heard here in over 10 years. [TS-MI]
- 1090 CUBA 1/7 1110 - Noted w/Tangerine Dream LP // 1080 & 1100 (R. Cadena Habana), but 1/8 1108 as R. Guama (// 1020 & 1030). Two different Cubans here? [FM-IL] (According to new 1992 WRTH, R. Guama: 990/1000/1010/1030/1080/1090; RCH: 1080/1100/1120/1140; R. Angulo: 1090/1100/1110/1120/1130; which only further confuses your question! Can any of our Florida friends help Frank with this? - Jim)
- 1160 COLOMBIA R. Total (no date) 0510 - IDing as "Cero hora once minutos, hora total" after a tango entitled "Ilusión Azul" in a program of all Argentine music. No location mentioned. I have heard this station before but haven't been able to get an ID. [CO-DR] (1992 WRTH says this is R. Total, HJOC, Bogotá, 30 kW, 24 hrs - Jim)
- 1170 COLOMBIA Caracol, Cartagena 1/12 0530 - IDing as "Caracol, primera cadena radial colombiana. Exactitud en Caracol: las doce y treinta" (12:30), ending a program as "Una presentación de Carvajal", all this after a newsreel. [CO-DR]
- 1180 CUBA R. Taino 1/22 1115-1130 - Strong w/no sign of WHAM; SS mx and talk; 2 minutes of news 1128-30 followed by brief ID and time check. [TS-MI2]
- 1220 VENEZUELA 1/12 0542 - Station IDing as belonging to Mundial Network. "Mundial Valencia" after a pop song. Ads for Arepera-Restaurant El Patio, "Tasca Cervecería El Poseidon" at 0542, time given as "la una y cuarentidos minutos" (1:42); local HIN off. [CO-DR]
- 1290 VENEZUELA YVLF, R. Puerto Cabello 1/12 0239-0244 - The easiest YV from St. John's, slightly above the mess w/SS ads, ID at 0244. SIO 222. [JB-NF] 1/14 1203 - IDing as "R Puerto Cabello, Doce Noventa", then many ads and pop music. [CO-DR]
- 1320 VENEZUELA R. Apolo, Turmero 1/17 0217 - Very, very strong, almost as a Santo Domingo local, giving the winning numbers of a lot of Venezuelan lotteries: "la Aragüena" (from Aragua), "del Tachira", "del Zulia", etc., then pop music. I wonder if they still operate with 1 kW as my old WRTH says. [CO-DR] (1992 WRTH says 10/5 kW, so they've increased - Jim)
- 1390 VENEZUELA YVZC, R. Selecta, Maracaibo 1/14 1200 - With the program "Mananeando" (living in the morning) news. Then news about a historic case that happened about

- 500 years ago: "Montesino's sermon in Santo Domingo" (first cry for the human rights of the Indians). [CO-DR]
- 1470 MEXICO unID 1/7 0044-0100+ - SS, ranchera music way atop, almost local-like, but all talking (ads and 0100 legal ID) buried badly in the mud. Not IDable, but has anybody else heard this? [FM-IL]
- 1470 VENEZUELA R. Vibración, Carupano 1/16 0207 - Ads for "Farmacia Nuestra Señora de Fatima" y "Farmacia San Judas Tadeo" (all of these are drug stores). Ad also for "El Diario de Sucre" (newspaper). More ads for Banco Orinoco. Many more ads. Very, very good, then "Vibración, vibrando en oriente" was the ID at 0207, then disco music. [CO-DR]
- 1550 unID (MEXICO or domestic) 1/6 2355 - Ranchera music. "R. 1550 La Poderosa" slogan. XENU? Definitely not Florida! [FM-IL] (XENU off at 0100, so possibly them; NRC Log shows an SS station in Utah. - Jim)

## QSL INFORMATION

- BARBADOS: CBC 900 - Large Xmas card w/QSL statement, v/s Glenville Best, Chief Technician, in 34 days for mint stamps. Says the transmitter is running only 10 kW at present. [JB-NF]
- GAMBIA: R. Syd 909.8 - Xmas card w/station photo including QSL message, large sticker, rate card, in 35 days for registered report w/cassette and \$1. Heard during the NF Expedition. No comment was made regarding the inaccurate frequency, but a letter said, "Sept/Oct marks the end of our rainy season and it is the period of the year when our transmitter is longing most for our Swedish transmitter expert to come down and look after it. This year he arrived in The Gambia Thursday morning, November 7th 0700. I'm sure by Saturday evening he had fixed the transmitter up, and we were Saturday evening at maximum when you received us. I will send a copy of your letter to our technician Bertil Persson. We regularly receive DX reports from the Canary Islands, 2 hours flying time from here. But we have not received, I think, any distant reports since 1986 when a person in Italy picked us up." [JB-NF]

# Radio Waves

News of the industry, of interest to DX'ers

Laura McCusker

Oakbrook Manor #23E  
Ravena, NY 12143-1017

...Greetings and happy new year to radio heads everywhere!... The big news in the industry since the start of the new year is the demise of the birch radio ratings service. The Fall '91 report was Birch's last. Birch leaving the radio ratings game leaves Arbitron alone in that arena. A birch spokeswoman blamed the shut-down on a bad year economically for radio stations, saying "A lot of stations were unprofitable in '91 and those clients with both Birch and Arbitron who had to cut one out were retaining Arbitron to cut costs." Added Birch President Bill Livek-"Stations just stopped paying their bills. The economy slowed some payments down and some clients simply stopped honoring their contracts."... More bleak news on the economy for those who can't get enough - 1991 was an extremely tough year for radio. To give an example, here's some information on national spot revenue. All the figures were gathered by Radio Business Report from various sources, based on Radio Expenditure Reports data. As of Sept. '91, national spot business in the top 100 markets was down 1.9%, standing at almost \$775 million. Some market breakdowns between Jan-Sept. '90 and '91 - in the double-digit category, Monterey/Salinas was down 21.9%; San Jose was down 24.3%; El Paso was down 20.6%; Nashville down 11.2%; and the far and away "winner", the Coastal NC region, down 48.5%. Lowest gains were posted in some cities, notably Miami/Ft. Lauderdale up 9.6%; Richmond up 9.9%; Harrisburg up 13.7%; and Chicago showing the biggest gain at 17.0%... Inter-Urban broadcasting, a minority-owned radio chain, filed for Chapter 11 bankruptcy early in Dec. after failing to come to terms with Barclays Business Credit. I-U is disputing Barclays claim that the total now owed on a \$10.5 million loan is \$13.5 million. The bankruptcy filing covers WYLD AM & FM New Orleans; WATL AM & FM St. Louis; and WLFZ Cincinnati. I-U's WLA Savannah is not included. Current management will continue to operate the group through reorganization... WJDM 1530 Elizabeth NJ could finally get 24 hour service authorization if the president signs legislation recently passed by Congress. An amendment was tacked onto a bill that restricts telemarketing operations. The rider requires the FCC to find a fulltime frequency for any daytime licensed to a community with a

population of more than 100,000 with no local fulltimer... According to the latest Arbitron ratings, here are the top morning drive shows in New York and Los Angeles - in the Big Apple, The Howard Stern Show on WXRK-FM was in the #1 spot, second was Smith, O'Neill & DeAngelis on WINS, John R. Gambling on WOR was third, WRKS-FM had the fourth highest rated morning show with Webb & Fox, and in the fifth slot was the grand old man of the airwaves Don Imus on WFAN. Out in LA, Mark & Brian on KLOS had the #1 show, MABC with Kent Barkley was second, next was Rick Dees on KIIS AM & FM. KKBT's John Loudon was fourth highest, and Mark & Kim of KOST brought up the rear... and a rare thing has happened recently here in the Capital District with an AM station being simulcast on FM. WTRY 980am has recently taken over the 98.3fm frequency vacated by WSHZ-FM. WSHZ, formerly part of "SHQ-FM", a simul-cast with WSHQ-FM in Cobleskill, recently went dark due to financial problems. WTRY is now renting the FM frequency, making WTRY "AM & FM 98." It's nice that an AM station is being simulcast on FM, instead of the other way around. Unfortunately, WTRY has altered it's sound as a result of the action, now sounding more like an FM oldies outlet than a full-service AM oldies station, as it used to be. Top of the hour network news has been done away with, for instance, and some new jingles have been added with some old ones being benched. As a result, it just doesn't sound like the old "Great 98." Kind of sad....

Thoughts from NRC members... the opinions expressed in this column are those of the individual writer and do not necessarily reflect those of the editors, publishers, or the National Radio Club, Inc.

DOUGLAS E. SMITH (wawt/4) - 14 BROOKSIDE COURT - NASHVILLE, TN 37209-4903  
Well, the contest has gotten off to a pretty decent start here, plenty of new loggings, some of them rather surprising (WSUI, for example). Finally logged Static, both WBSL-1210 and the variety that the next door neighbors touch same transmits. My Rand McNally says Static is in KY, though DeLorme's TN Atlas & Gazetteer puts it just a few hundred feet on the TN side. I may have to go up there and find just what side of the line the station is on, it was airing KY Lottery ads, which I believe is illegal for a TN station. By the way, Static is just about 4 miles NE of Love Lady & 3 miles SE of Bug. I decided to take a shot at the WJJC-1510 DX TEST figuring it was probably a last cause with WLAQ 4 miles away. Upon tuning 1510, I heard someone w/WLAQ w/adult contemporary music. I'd have loved to have thought it was WJJC but when they aired an 'FM 106' slogan, I knew I had to check and yes, it was WLAQ-FM audio, about 254b u/their AM audio. They were running a preacher at the time with plenty of pauses, probably cross-talk in a routing switcher or STL. I did catch the WJJC-1270 test; a report has been sent. Hope everyone else caught KUAI-720, I slept thru it. With the local noise, HI would have been rather difficult but CH7N should have been audible. I've been trying to get a list of stations relaying WTVF-Ch. 5 6 PM news, but never seem to have a copy/paper in front of the set when they run the list. Also want to find out who, if anyone besides WZYX-1440, carries WSMV-4's news, but haven't found the right person to ask yet! Locally, WYOR has switched from business news to 24 hour CW, WKXB-710, WCOR-900, W70-1430, WQGM-1560 are all still off, WAJN-790 is back on with CW as WQSV 'Sycamore Valley', WQZQ-1260 is back on w/CW as WJKN. I wonder when the FCC is going to start enforcing their ID regulations again? Seems a growing number of satellite-fed stations are simply running the set. Feed overnight, leaving the local ID slot empty. I have to wonder if anyone, even NSN, is watching the transmitters at these stations overnight? It's reaching the point where sunrise & sunset DX'ing are more productive not just for technical reasons but because that's the only time the stations actually ID! 73 for now.

TOM WICKHAM - 9 FIELD STREET - ST. JOHN'S, NF A1C 4J3

This is my 1st time writing to your column. As of last week, CFIQ-790 Harbour Grace is off the air for good. I was speaking with a charming lady at GJYQ-930, which has changed its format, they are now using DBS (Direct Broadcast Satellite) from Vancouver 2200-0900 UTC (Local time, please, EST-DW). I have been training to become a volunteer at CHMR-93.5/cable 103.7 at Memorial University of NF, power is 40 watts and ID's as 'Your Alternative Radio'. By the way, Dave, I have heard your local WDEL-1150 here. (We'll make plans to send the towers to you soon, Tom, and thanks for your fine report. Check in often! DWS)

WILLIAM C. MOSER - PO BOX 567 - PIERRE, SD 57501-0567

On 7/1/91, I moved from Lake Preston, SD to Pierre, SD to begin a new position as an administrator. The distance between the 2 locations is about 150 air miles. The DX difference between the 2 locations has been larger than I expected. At Lake Preston, I could usually enjoy an hour of pre-sunset & post-sunset DX. In Pierre, the DX is virtually non-existent before sunset & after sunrise. But after sunset at Lake Preston, I never got any daytime signals from the W Coast. After sunset in Pierre, I have heard daytime signals from KBRT-740, KTRB-860, & KERI-1100 in CA, KWJJ-1080 in OR & KIRO-710 in WA. I am currently living in an apartment house on the N edge of town. But I hope to be able to locate a suitable & affordable home into which I can move before the end of the year. My local stations are KGFX-1060 & KCCR-1240, the CCR initials are for Capital City Radio. As I begin my 41st year of DXing as a hobby, I have 1550 AM verifications, 300 have been heard from my new locale. Happy Valentine's Day to all the dial twisters of the NRC! And 73's from Dakota Territory!

ANDY RUGG (VE2EM/3) - 375 IVAN CRESCENT - CORNWALL, ON K9H 7C7

Since my last MUSE, I managed to pull in 5 new catches, all call-changes. While driving between Cornwall & Montreal at suppertime on weekends, I took logs on CIGC-600, CKIS-990, WPMV-1430 & WVEI-1440. In Cornwall on 1/10, the WQTW-1570 TEST squeaked thru semi-local CKLM. From the car radio, I also sent 2nd reports to WFAN-660, WOGL-1270 & WKNA-1220. Veries are awfully slow with the only ones back from CIAO-530, CIGM-790, CKIS-990, WWT-1320-TEST & WPMV-1590-TEST. I have 13 reports out. I heard nothing from the TESTS from WCAT-700, WJL-720 & WJJC-1270. After 32 years of on/off 80B DX'ing, my totals are 1752 logged and 1662 verifications, almost a 95% return! Ray Aruda: I owe you a letter!! 73

SHAWN AXELROD & WAYNE MCRAE - WINNIPEG, MB

Another trip out to the Valhalla Beach DX site has come & gone. The weather was great with temps. just below freezing. It was perfect for the 1500 foot walk from the cars to the DX BUS. 2 return trips using toboggans got all of our material to the bus, the good temps. helped. After settling in & getting the wood stove going, we set out to put up a beverage to the W so we could hear the KUAI TEST the next AM, which took about 2 hours. On the way back, Larry Shewchuk showed up. We then settled in for a good night of DX. Some Hets were heard & a bit of audio on 1612, 1314 but no other TA's that night. Later followed a display on the Northern Lights. A great supper around midnight, a bit more DX then off to bed around 1:30 AM. Back up at 3:45 AM, heard WGN testing then s/off, now for HI, right? Wrong! We did hear KDOWN and it was nice to get CHTN for a new province but not a faint hint of HI. Oh well, there's always next time, see DDXD for the loggings. It seemed odd not walking out on a frozen lake this year but with the bus, we now have antennas up in 6 directions and don't have to remove them until spring planting. A couple of more trips are planned this winter so stay tuned! 73's from Shawn & Wayne up in the Great White North!

DUNCAN SHAW - 3560 S. HOOVER STREET #224 - LOS ANGELES, CA 90007-3614

Happy New Year everyone! Recent veries include KIIS, KCBS, the DX TEST from KPAY and KMPC, which included a 3 page history. While in the Bay Area for winter break, I visited KAPX-1510/KTID-100.7 where I held an internship in the news department last year. By now everyone has heard the Hooked on Phonics ads, well KGO is now running Hooked on Talk Radio promos, all one has to do is dial any of their call in lines. Looking forward to a cruise with my family 2/21-24 from LA to Ensenada, BCN, hopefully, some nice DX will be heard, but according to TIM HALL, the CA pests follow you right down the coast. SoCal'ers: is there a good radio doctor in the area (or anywhere)? My DX440 is acting up on the FM band. KPLS-830 signed on 1/13 9:09 PLT, over 4 hours later than scheduled. This new station is running Spanish news & talk. Now have an air shift at the campus radio station KSCR. The station is only on cable right now but in February, they will be broadcasting on "leaky FM" on 104.7, using water pipes to carry the signal. KGL-1260 has dropped Ted Byrne to carry 'The Dolans', formerly on Talknet. All for now, 73's and good DX!

DAN K. PHILLIPS (N4NU) - 109 BRECKENRIDGE ROAD - FRANKLIN, TN 37064

I finally get around to MUSING after an absence of several years. I joined the NRC in 1958 so I've been a member for 33 years! Updated my log book for the 1st time in almost 5 years and discovered I have logged 1908 stations with 587 veries. I have logged stations from 48 states & have verified 26 foreign countries. The DX TEST line up has been the best in memory, everyone is doing a good job! Some of the latest heard include: 10/18/91 WJXL-810 7:52 AM, 11/2/91 KATN-1040 s/off at 9:30 PM, on late for LA election returns. WBAL-1090 was heard the same night with election returns, 1st time they've been heard in years. 12/19/91 a real oddity, WMRZ-790 at 7:15 PM (must have been an auroral night). 12/23/91 WIQT-820 DX TEST with CW ID at 1:05 AM, WDUF-1120 logged at 8:05 AM, even with KMOX. For the new year, WKVA-920 DX TEST heard 1/4 at 12:28 AM with CW ID, 1/6 KMYZ-1570 DX TEST heard with CW ID at 2:06 AM. Then WTSO-1070 heard at 4:30 AM. Of the DX TESTS I have IDed, each has been using a CW ID, certainly a big help in receiving! Surprisingly, DX conditions have improved recently because of the difficult times facing AM stations. Locally, several frequencies are now empty that previously had daytime stations on them. I did try for KUAI-720 test but all I heard was a weak OC & a Spanish station, even CHTN would have been nice! I appreciate WGN going off but I do listen to the Mike Rapchak show on Sunday AM as it is my favorite AM broadcast show. This past year, there have been great technical articles by MARK CONNELLY & others, what a great DX session with the beverages at Marconi's site! Congrats to PETE KEMP mentioned in December's QST for his teching accomplishments. I have been travelling a lot the past year, I tried to call GUY KUDLEMEYER while in OR, but he had an unlisted number but did notice he had a 'Letter to the Editor' in OUT WEST magazine. Glad to see DON ERICKSON update the Domestic DX Achievements, my travels even led me to a quick one night seminar in Riverside, CA this past summer. Enjoy listening to the NRC ham net and when time avails, check in. It has been great being an NRC'er for 33 years, a lot of interesting experiences have been made memorable through the years. Keep up the good work everyone! We will miss you MIKE KNITTER, you did a great job! One added logging, heard the WSKE-1040 DX TEST 1/27, the CW ID & Fiddle Music helped & did well!

ERNEST R. COOPER - 5 ANTHONY STREET - PROVINCETOWN, MA 02657

The verie count is up to 4398 with the arrival of these since my last MUSING: WYAK-1270 on f/up, WLVG-740 sent by WVEA which replaced them, WFYY-1460, WMXF-1460, WKTP-1590, WWWT-1320 DX TEST (listed as WCVR in both clubs!), WCTF-1170 (address in log is NG, change to 13 PARK ST., 06066) and an old v/q from WJFK-1300 with the former WLIF call crossed out and the WJFK calls penned in above it! A report to WING-1300 bounced back for having an old address, I'm trying another one found in the M Street Journal, we'll see if that's the right one, the one in the log isn't. Dave - who & where is WMAK-980 mentioned in your 1/20 MUSING?

(CHASE CITY, VA, Ernie-DWS) Quite a few stations listed on the wrong frequency in the 1/13 DDXD: WACY & WMVI listed as 1150 are on 1160, WSLG listed on 1190 is actually on 1090, WWJQ shown on 1250 is on 1260, & WNAE listed on 1300 should be on 1310, WIZO shown on 1370 is on 1380, and WJAI on 1360 should read WSAI. And there is no such station as WRJM-1450! (Only in the mind of a few, Ernie-hil-DWS!) I believe DOUG SMITH's Joy 1570 would be W0BS-IN, that's their slogan. WKTP's v/1 shows this for their phone #: 615-246-9578 as per BILL HALE's request. Their address (correct what's in the log): 222 Commerce Street, or Box WKTP/WTFM, Kingsport, TN. No address or phone number is shown on their letterhead for Jonesborough or Johnson City, so in other words, WKTP-1690 reports should be sent to WKPT-1400. Re: WMVI-1160, my report went unanswered, so I wrote a friendly letter to the President of the station asking his policy and asking him for a verie, that, too, has gone unanswered so these people are really UNFRIENDLY! If I get up to the Catskills again this summer, I will try a personal visit and find out why they don't reply. Even if help is short, they could get up a v/q which would require only someone sign it, address & stamp it - is that asking too much? (Knowing that place, it is!-DWS) After all, how many DX reports does a station get in this day & age? DX: 12/12 report to WSML-1200 4:45-5 PM, gospel, no reply as of 1/28/92. 12/24 WIMG-1300 peaking out from u/WAVZ/WJFK for a report at 1:06 AM. W0BM-1160 has switched from CW to BFL, still NSP & dominant here. 12/30 DX TEST from "WCVR" (WWWT-1320), only teh CW ID's made it u/WARA/CHCC, verie in. The Cape's Newest Pest arrived on 12/30, WUOK-1240 and, of course, AN7 w/CNN. 1/5 WCTF-1170 in at 4:36 PM w/WKPE already s/off, verie in. Forward - Merch!

PETE CLARIUS - 1503 CASTLETON AVENUE - STATEN ISLAND, NY 10302-1312

Not much to report but I thought I should send it in. I have been DXing since 1931. My BCB log is now 2121 heard with 1451 verified, not much of a record for 61 years, however I was inactive for at least 10 years. My latest catches are WNSS, WBYG, WOXN, WRMM, WQCB & CKAP. In addition to local splash-over, for the past week or so I've been getting a very loud buzzing noise from 810-1070 & from 1210-1600. Sure hope I can make the IA convention! 73's

DAVE SCHMIDT - PO BOX 11502 - WILMINGTON, DE 19850

Has anyone noticed a very noticeable mail slow down? Mail that reached my box from Philadelphia overnight has been taking 2-3 days, and even mail that goes within this district has been taking 4 days to get delivered! But don't get near the parking lot at quitting time at the Post Office around here, it certainly proves there IS life after death! I trust this new type font is more readable than the past, between my daughter using the machine and my work, the letters were starting to crack! Tried for the test from KHAC-880 on 2/3 from about 3:15 AM on, WQBS was stronger than normal with just a Spanish noted under, no KHAC, but conditions were also down a bit. From reports, WLDS-1180 was on and CW ID's were used. WLDS was heard and verified here in the mid-60's when it use to show up at sunset u/WHAM often. My time was being used at W0SD-94.7 at the time, retubing the transmitter with Bob Reinhardt (W0OV CE). Bob was very happy with the results from the recent test, setting 14 reports. And a special hello to my friend Dr. George Nitshe in Elmer, NJ....we'll get that antenna up ONE of these days, George! We were both thrown for a loop on the foreign language on 530 from CIAO, arm chair level a few nights then gone for days! Isn't CIAO pronounced "Chew", meaning goodbye, best wishes, etc? For those looking for past veries on WVES-99.3, either send the report to the P 0 BOX or the station, my attention, and you'll get the infamous "verie". Look for a change on WBIM-1330 (station operated by the Broadcasting Institute of Maryland in Baltimore), that will be moving to 650 in the near future. The 1330 xmtr (100 mw at 75 feet) bit the dust a few weeks back and it is going to be replaced with a carrier current system (25 watts) which should cover a much better portion of Parkville! And that is it til next week, CUN? *WJE*
