From the Publisher ... From Saul Chernos: "I have just found out, and confirmed, that Morris Sorensen passed away March 14. This really comes as a shock. I knew Morris for many years and last saw him (perhaps 5-8 years ago) when he lived in Toronto and attended Ontario DX Association meetings. He was a very friendly person, and with our mutual interests in DX and nature we always had lots to talk about." Saul also forwarded an online obituary, and we excerpt: "... We announce the passing of ... Morris Alfred Sorensen, The Urban Naturalist, September 16, 1947 - March 14, 2006. ... Morris was a member of the Manitoba and Ontario Naturalists, ham radio club, camera club and Kildonan United Church." Saul added, "Morris was also an active DXer, as many of you already know from his frequent contributions to these lists and to club bulletins." Our sincerest condolences go out to Morris's family.

I've endured some upgrading of computer equipment here, and luckily "rules" for contributors have simplified: no .rtf necessary any more; just send files in Word or Word Perfect format now. But - still no files in the body of e-mails; that one isn't going away, I'm afraid.

Akron - 2006 ... From John Bowker: "A few words about the big times planned for the NRC / DXAS National Convention in Akron over the Labor Day weekend. We'll put all the details out as we get everything signed, sealed and delivered. But just to warm you up, you'll want to arrive on Friday, September 1st and certainly stay through Sunday noon at the very least. You can already make your room reservations at the Best Western Hotel - I urge you to call them directly in Akron and be sure to tell them you are with the National Radio Club. The number to call is 1-330-794-1050 and they have set aside a block of rooms for us at only \$59.00 per night (plus tax). If you make your room reservation for Friday and Saturday nights, and if you plan to arrive in Akron on Friday before noon, you won't miss any of the program. Try to schedule your return transportation so you won't be rushed. Some of us plan to stay through Sunday night because we love to sit and chat about

dxing! We're working to arrange cheap transport from the Akron-Canton Airport directly to and from the hotel. We'll tell you all about where to send auction items and program details in a short time. But act now to be sure you're in on the block of rooms we've arranged for.

Welcome to these new members ... Richard Allen, Billings, OK (rejoins); Dr. Jerry N. Nelson, Tuscaloosa, AL; Rudolph Johnson, Shreveport, LA; John Rausch, Canyon, TX; Robert J Garchak, Sr., Jefferson Hills, PA.

Remember, if you wish to join e-DXN as a current NRC member, the subscription cost is only \$5 more as long as you maintain your DXN or DXAS subscription, and e-DXN alone (which includes DXN .pdf and DXAS MP3 downloads is \$15.

DX Time Machine

From the pages of DX News:

50 years ago ... from the March 31, 1956 DXN: Len Kruse, Dubuque, IA, reported that the DX program from KJAN-1220 on 3/18 was a fine show of music and song, along with poems telling about the NRC and especially written for the occasion ... from the April 14 DXN: John Callarman, Corvallis, OR (a future DXN publisher) became an NRC member ... Len Kruse, Dubuque, IA reported that 1955-1956 had been a "banner DX season" for the CPC under Sid Rosenbaum and listed the 136 stations from 37 states and 6 Canadian provinces that presented DX programs for the NRC.

25 years ago ... from the April 6, 1981 DXN: Pete Taylor offered his views on the Sony ICF-2001: "... I think we just have to regard it as one of the better compact units which as the first of its kind will surely undergo improvement modifications in the years to come."

10 years ago ... from the April 22, 1996 DXN: HCJB-690 was to test on May 5 and June 2 in a rare test arranged by Rich McVicar.

UPDATES THAT DON'T FIT ANYWHERE ELSE

- 1190 WAMT FL **Pine Castle-Sky Lake** - Licensed for D1 5000/0, WAMT has had two applications on file: U1 2200/105 and U1 2200/136. The former has been dropped, leaving the latter.
- 1190 KPHN MO **Kansas City** - KPHN has a CP for U2 5000/500. It appears that they've been testing the new facilities and submitted the data to the FCC for approval. Evidently the FCC didn't like what they saw and turned them down. So, KPHN remains at their licensed U2 5000/250 CH 1000 until they get better test results. Stay tuned . . .
- 1450 NEW CA **Atmore** - Last issue we listed this as an application for a new station. Wrong! Bad bookkeeping on my part. Please disregard.
- 1510 CKOT ON **Tillonsburg** - Last August, the CRTC approved the application of Canada's last remaining daytimer, CKOT-1510, to move to FM. However, the frequency they requested was not available, having been assigned to another applicant. CKOT was told to reapply when they could find another frequency, and now have filed for 107.3 MHz. The latest proposal requests the AM station remain on the air during the day while giving them the FM facility 24 hours. Maybe they feel 107.3 FM will give insufficient coverage. If approved, Canada will continue to have at least one daytime-only AM station.

HEAR AND THAR

❑ **Fines: KWYS-920 West Yellowstone, Montana** has been fined \$7000 ". . . for willful and repeated violation of Section 73.1125(a) of the Commission's Rules by failing to maintain a meaningful managerial and staff presence at the KWYS main studio." It seems an FCC inspector from the Seattle office found the main studio locked with no station personnel present, only a sign referring persons seeking the public file to see a realty agency, located across the hall, for instructions on how to gain access. A representative from the realty company told the agent that no one associated with KWYS had been present at the studio for the last few months and that he had an agreement with the station to let see the public file if requested. The agent contacted the owner's office in Ketchum, Idaho, who told the agent that KWYS was run remotely from Ketchum and that he or KWYS's contract engineer could arrive at the station in three to four hours to complete the inspection, but no sooner. 'Not good enough. Pay up', sayeth the FCC. That's probably an entire year's billing for a station in that market! **WYXC-1270 Cartersville, Georgia** has been fined \$7,000 for not filing their renewal request in a timely manner and for public file violations.

❑ **Herb Newberry** of Milledgeville, Georgia writes to say that **WSNT-1490 Sandersville, Georgia** is on the air, heard clearly in Milledgeville, contrary to my report in Issue 23 saying the station no longer appears in the FCC database. I never implied they were not on the air . . . only stating that they no longer show up in the FCC records. Back in Vol 72 Issue 26, dated May 16, 2005 (I believe) under "Applications for Renewal Reconsideration Submitted" WSNT appeared as having submitted the paperwork only after having their license revoked for (probably) not submitting the required application during their renewal period (in the FCC's language: a "red light dismissal"). Now, since the listing has been deleted from their database, it would give the impression the license has not been renewed. So, if WSNT is still broadcasting, it seems they are doing so illegally. "Book 'em, Danno".

❑ According to an article in Phoenix's Arizona Republic, "Vandals took a torch and toppled four 197-foot radio towers that are part of a seven-tower cluster in Black Canyon City, authorities said Wednesday. The damage has been preliminary estimated at "millions of dollars," said Susan Quayle, a spokeswoman for the Yavapai County Sheriff's Office. Knocked off the air was KMIA-AM (710),

a Spanish station in Phoenix. It broadcasts ESPN Deportes, a sports-talk format that was launched last month. Tom Duran, the station manager, said there was no immediate indication when the station will be back on the air, and it could take "several weeks," he said. "It's disheartening to know that somebody would do damage like this to a federally licensed facility," Duran said. He said he's unable to say whether the damage may be linked to recent immigration unrest throughout the nation. He said the FBI will be asked to investigate. The station is owned by Entravision Communications Corp., a Santa Monica, Calif. firm that operates a string of Spanish stations throughout California and the Southwest, including KLNZ-FM (103.5) in the Valley, also known as Radio Tri-Color. Quayle, the sheriff's spokeswoman, said the vandalism occurred late Tuesday at the Krazy Horse Ranch Polo Club, which is west of Interstate 17 in the community 30 miles north of Phoenix, Quayle said. Investigators have determined that somebody used a torch to cut the steel support rods to four of the towers, causing them to crash to the ground, she said. The ranch manager heard the towers crash, but there were no injuries to people or horses at the ranch, Quayle said. The towers, which went up in the late 1990s, became the focus of a contentious lawsuit involving Black Canyon City residents opposed to the cluster. The opponents won a key ruling in late 2000 when the Arizona Court of Appeal validated a referendum seeking to put the issue before Yavapai County voters. They were defeated in their bid to have the towers torn down when voters approved the cluster in November 2002." Later reports indicate the station has returned on low power, using the towers that still stand.

□ Formerly silent stations, reported to be back ON: **WNUZ-1230 Talladega, Alabama** with black gospel, **KDJW-1360 Amarillo, Texas** with religion, and **WSRF-1580 Ft. DDXD-West

FROM THE VAST WESTLAND

❁ I was shocked and saddened to learn of **Morris Sorensen's** recent passing. Morris, who died on March 14 at the too young age of 58, will be sorely missed. Posts on the various DX lists by those who knew him best all contain the same adjectives to describe Morris—a nice guy, good, decent,

helpful, a gentle man. Morris was a great friend of and regular contributor to DDXD-West, and we are all enriched by the knowledge he shared with us. Morris, this column is dedicated to you.

- ✿ With the beginning of Daylight Savings Time on April 2, the **Vast Westland** became a little more vast and a little less western. This is because on that day, eight Indiana counties that were previously in the Eastern time zone made a permanent move to the Central time zone. The eight counties are Pulaski and Starke in Northwest Indiana and Daviess, Dubois, Knox, Martin, Perry, and Pike in the Southwest tip of the state. This move, which increased the state's Central time counties' number to 18, has added 3,173 square miles and 188,000 people to the **Vast Westland**. I am not sure if we have any NRC members in these counties, but if you are one, I would love to hear from you!
- ✿ **Shawn Axelrod** and **Wayne McRae** have made another DXpedition to Vallhalla Beach, and we are pleased that Shawn sent along some loggings made during it. Says Shawn: "Well the last DXpedition of the season was a good one for us. The walk to the DX bus was a bit on the hard side. There was still quite a bit of snow around. Some places it was knee deep and others there was water sitting on the field. April in Manitoba is always a bit weird weather wise." Look for the **(VALDX-MB)** entries in the "Regular Loggings" section.
- ✿ It had to happen sooner or later. **Doug Smith** has sent us the first HD radio loggings to be reported to DDXD-West. Most of his loggings were of analog signals, as processed by his Boston Acoustics HD Receptor. However, he also reports getting a hit on the radio's HD display from a 500+ mile signal (see "Regular Loggings," 1190 WOWO below).
- ✿ Here is a little unfinished piece of business from DDXD-W #73-23, when I bemoaned the fact that **Vast Westland** teams have failed to capture the NCAA men's basketball championship for eight consecutive years. Well, we can make that nine years, following Florida's victory over UCLA on April 3. Sigh, if only the University of Florida were located in Pensacola instead of Gainesville....
- ✿ The next five issues are monthlies, meaning there will be much less *DX News* found in your mailbox. Deadlines for these issues, all Thursdays, are: #73-26 (May) 5/4; #73-27 (June) 6/8; #73-28 (July) 7/6; #73-29 (August) 8/3 and #73-30 (September) 9/7. E-mail received by 1300 ELT on deadline day and snail mail in that day's USPS delivery will be included in that month's column. Don't forget, I will be manning the DDXD-West desk all summer long, anxiously awaiting your reports! CUN28! 73 Bill

Station News

- 710** **KMIA** **AZ** **Black Canyon City.** Was knocked off the air on the night of 3/28 by vandals, who toppled four of the station's seven towers (see this issue's "AM Switch" for much more on this story). First reports were that it would take several weeks to get the station back on. However, internet posts from several sources reported that the station returned two days later, on 3/30. From his winter home, DDXD-W contributor **John Sampson** reports: "Indeed they are [back on the air]. Sort of listenable here (20 miles NW of downtown Phoenix), but with much more QRM than usual. Suspect lower power from one of the still standing towers." **(Ed.-WI)**

- 790 KFGO ND Fargo. 4/3 1000. Apparently they have changed affiliates. "The Mighty 7-90, KFGO, the new home for Fox news." Listed as CBS in the NRC Log. Heard on car radio in driveway before heading off to work. (RT-MN)
- 1420 KIGO ID Saint Anthony. 3/25 0000. "Esta es Radio Fiesta, KIGO 1420 AM" in SS. New and dominant. Now here ex-1400 and ex-C&W. (WH-CO)
- 1420 KIGO ID Saint Anthony. 3/25 0000. Latino tunes with no ads or announcements; non-legal canned ID in SS at 2303: "Esta es Radio Fiesta, Kah-Ee-Hay-Oh, Catorce Veinte AM," then more music. Generally fair during this and subsequent receptions, so obviously not on 12-watt night power. New here, Idaho #36, and ex-1400 (never logged there). Thanks to Wayne Heinen for the tip. (JW-CO)
- 1480 KPHX AZ Phoenix. Per *Arizona Republic* newspaper and Air America Radio website, station was dropping its brief fling with the Music of Your Life format and switching to liberal talk on 4/3, thanks to a lease agreement. Station features Air America and syndicated host Mike Newcomb, one of the leasers and KPHX's new general manager. (DP-HI)
- 1560 WPAD KY Paducah. 3/29 0630. Noted with ad for open auditions for an on-air job at ESPN Radio 1560. I've heard stations run on-air solicitations for sales staff before, but never for on-air jobs.... (DS-TN2)(Entercom, in Kansas City, has run on-air solicitations for everything from secretaries to on-air personnel, including sales staff -pls.)

DX Tests

- 1020 KCKN NM Roswell. 4/3 0202+. Over/under QRN, usually well over KDKA. Country music, occasional voice IDs and slogans, tone sweeps and two Morse IDs heard. New Mexico #1, thanks! (DS-TN1)
- 1020 KCKN NM Roswell. 4/3 0230. Sweep tones heard underneath KDKA, along with an unIDed oldies station. No audio or code heard. Surprising how sweep tones can stand out. (RT-MN)
- 1020 KCKN NM Roswell. 4/3 0253-0345. Fair over/under KDKA during scheduled DX Test. C&W music, sweep tones, code and voice IDs. New state (#47) for me. Thanks to all who were involved with arranging this DX test. (CR-IL)

Presumed, Tentative, UnID

- 750 WNDZp IN Portage. 3/29 0610 Weak but way over WSB. First heard with classical music, then ads in presumed Russian. Mentions of Chicago and "Radio Ereta" (phonetic). Faded into the noise—and took WSB with it. (DS-TN2)
- 1280 UNID 3/15 1940. China drive program, sports. Man and woman in both Chinese and English. Hope it was CFMB. (SS-KS)
- 1440 UNID 3/28 0320. Weak under KMAJ with ESPN. Probably WGEM which produces a good signal here at times. (PG-CO)

A brief solar event produced auroral conditions over the first week of April. Most significant other than a band of Cubans was the dominance of 693 Azores. Have no fear, the bottom of the solar cycle is here, and the warm weather DXpedition season is heating up. Don't forget the bug repellent.

Clear and way over any sign of *BBC Five*. First reception of this one this season. Has been coming in every night since with Portuguese pop songs and announcements. Perhaps a transmitter upgrade. [Dangerfield-PA] APR 5 0200 - Distinctive piano jazz vocal, announcements and IDs at 2159, four long and one short pip, news. Domestic slop to contend with, so best in USB 1.8 filter setting. Exact parallel to *RDP* audio on the web. A new country here, #60, in April no less! No sign of the BBC until about 45 minutes later. Thanks to Ben Dangerfield for reporting this 50 minutes earlier. [Renfrew-NY] APR 7 0100 - Good; pop music, top of the hour time marker ending with short pip (as noted by Renfrew) into news, auroral conditions knocking out *BBC Five Live*. [Conti-NH]
- 702 unID MAR 25 0150 - Fair; male speaker, at 0210 flute and Koranic recitations. Not parallel TRT4 Turkey streaming audio, Morocco off 0100-0600 per EMWG. [Conti-NH]
- 756 **GERMANY** *Deutschlandfunk*, Braunschweig & Ravensburg MAR 25 0225 - Good; opera parallel 207 and 6190 kHz. [Conti-NH]
- 837 **AZORES** *Centro Regional da RDP*, Pico da Barrosa MAR 28 0450 - Poor but seemed to be parallel to 693 which had a much stronger signal with pop Portuguese music and vocals. Trouble is that 837 is usually a jumble. [Dangerfield-PA]
- 927 **BELGIUM** *Wolvertem* (50°59'N 04°18'E) MAR 29 0357 - Poor, with pop music and woman in Flemish at 0400. Was parallel to 1512 which was much stronger and has been heard most nights since then. I tried for 621 but only Canary Islands. [Dangerfield-PA]
- 999 **SPAIN** *COPE* Madrid (40°28'N 03°52'W) APR 5 0303 - Didn't stay with it for long, since it is a relog, but Spanish talk doing quite well past WMVP. [Renfrew-NY]
- 1215 **UNITED KINGDOM** *Virgin R.* synchros MAR 31 0354 - Good with rock song (don't ask me what) and English announcements. I know this is often reported but it's harder here because of WPHT splatter. [Dangerfield-PA]
- 1359 **SPAIN** *RNE* Arganda del Rey (Madrid) APR 5 0312 - Poor in domestic slop with Spanish talk parallel 585 kHz, seemed to be a discussion with an author. Though widely reported by DXers on the coast, this is the first time I've ever heard this one. [Renfrew-NY]
- 1512 **BELGIUM** *R.Vlaanderen Int'l*, Wolvertem (50°59'N 04°18'E) MAR 31 0354 - Very loud with pop tunes and the news at 0400 by a woman in Flemish. Was parallel to much weaker 927 but in most nights recently. [Dangerfield-PA]
- 1530 **VATICAN** *R.Vaticana*, Vatican City (42°03'N 12°19'E) APR 5 0355 - WCKY off at this time, mix of Spanish, WVBF reading, and oldies. I was sitting on 5885 kHz on DX Tuners from Ireland during this time, and noted a choral piece briefly parallel to it on 1530. No sign of VOA. WCKY returned at 0447. This same situation happened on MAR 29 2005. [Renfrew-NY]
- 1557 **FRANCE** *France Info*, Fontbonne MAR 28 0402 - Big signal with a man in French. At this location this station usually tops the other French stations by far. [Dangerfield-PA]

Ben speaks: The last week in March has been a rather good one, at least for the number of TA frequencies heard from although there haven't been much really good audio other than the regulars on 1134, 684, 1089, and 1557 kHz. 1314 Norway has been fair at times though not up to past levels. The station of the week here has been 693 Azores which has been in nearly every night over and above *BBC Five*. 1512 Belgium has been good as well and parallel to weaker 927

kHz. Lots of Spain stations but few to write about. Had hets from 1611 Vatican but they will soon not be heard because of their late sign on. Next week my wife and I are off on a trip to the French Polynesian Islands for two weeks. We fly to Tahiti and cruise from there to the Marquesas and back. I'll carry my recently acquired Degen-1103 and hope for some Pacific area DX.

Connelly Kick-Starts Summer DXpedition Season

Mark Connelly WA1ION

An after-work mini-DXpedition planned for Wednesday, April 5, had to be delayed a day because of some spring snow followed by cold temperatures and high wind. Because of the delay 'til Thursday night, I didn't have a full report by Bruce's IDXD deadline (Friday), but here are a few highlights of my first coastal DX car session of the 2006 "outdoor DXing season."

I arrived at the Rowley, MA salt-marsh area just after 6 p.m. EDT (2200 UTC), more than an hour before sunset. Since the water level in the marsh seemed too high for running out a BOG or the 60 m spaced phased verticals, I stuck with the old reliable car-top set-up of the 2-m per side square broadband loop and the 3-m active whip. These were phased with the homebrew DXP-6 to produce an approximate cardioid pattern with a null "slewable" up to 40 degrees each side of due west. The Drake R8A, as usual, was the receiver of choice.

Transatlantic signals were noted as soon as I fired up the equipment. Midband seemed better than high band this time around and it soon became apparent that this was a "pipeline" opening strongly highlighting the Canary Islands, Azores, Mauritania, Morocco, Algeria, Spain, and Portugal.

The truly monster signals (I mean close to pegging the meter) were from 612 Morocco, 621 Canaries, 693 Azores, 783 Mauritania, 890.95 Algeria, 981 Algeria, and 1044 Morocco. Most of these are both big power and coastal. The one that took me by surprise was 693 Azores. It's listed as just 10 kW but it was coming in like a megawatt with a great hard-rock program and Portuguese talk at 8:27 p.m. EDT / 0027 UTC. It was parallel to 837 and to 603 Madeira.

After DXing from the house all winter, I had kind of forgotten how crushingly loud the TA signals can get out at the salt-marsh, even with antennas considerably inferior to my home set-up.

Off-channel Africans in the form of 1385.92 Guinea (some audio) and 1484.52 Angola (het against Spain) were noted.

1566 was checked for TWR Benin, but just a lot of WQEW slop there. Infrequently heard 936 Morocco had the edge on that channel early (2307 UTC); more-common Spain ruled it later. *R. Sawa* Djibouti was good on 1431, but the Persian Gulf region Sawa's and Farda's weren't making much of a show. Indeed 1548 was just a het, but 1550 had the *RASD* Algeria clandestine rolling over WZDK at times.

Not surprisingly, 1584 Ceuta was in early and loud, though *SER* Spain did pop atop at times. Best Portugal was 1035; 963 was there too, but lots of CHNS slop on that channel. Spain was all over the place, no surprise there, but watt-for-watt the Moroccans, Canaries, and other somewhat more southerly stations had the edge. France was in on 945, 1206, and 1557 but not at all-time greatest strengths. Interestingly there was a second signal mixing on 945: Angola or São Tome perhaps?

UK, Germany, and other northern Europeans were generally out of the show, typically covered by southern-Europe/northern-Africa stations.

A big highlight was a smashing pipeline to Algeria around 0055 UTC. Seldom-logged Algerian stations on 666, 702, and 783 dominated those channels for a while with programming parallel to the big guns on 549 and 890.95. Most of these shore outings produce at least one surprise. This was tonight's. I was impressed.

South America was represented by a showing of São Paulo, Brazil on 1100 blasting over little WHLI; Fortaleza, Brazil on 760 usually over the rat-pack there; and some Venezuelans with 750 about the best. 1160 Bermuda was running even with WSKW when I phased out New Jersey's WOBN and WVNJ. I couldn't figure out what the BBC parallel would be since 5975 seemed inactive. Caribbean splits (535, 555, 895) were only "so-so." TA's were definitely the main event.

I left the site at 9:12 p.m. local / 0112 UTC with the last log in the book being Canaries on 1008 with a thumping signal that pushed back the WINS slop most of the time. I'll see what I can add to the logbook from home over the weekend and have a full report out soon.

Announcing... **The NRC AM Antenna Pattern Book**

The all-new Pattern Book now includes daytime and "Graveyard" frequency patterns for the first time. For those stations which operate with 50 kW (and higher in Mexico) non-directional (designated U1 in the AM Log), the day 'pattern' is shown to approximately the predicted 0.5 mV 1M coverage limits, while the night pattern is illustrated approximately 1.5 times larger. Stations in Alaska and Hawaii are listed on separate pages at the end of the book. The basic list of U.S. and Canadian stations comes from the 26th Edition of the National Radio Club's AM Radio

Log. Mexican stations in the states bordering the United States plus those stations elsewhere which are easily heard in the U.S. and Canada are also included. All data is up-to-date as of November 1, 2005. Prices: \$16.95 to USA/Canada NRC members, \$22.95 USA non-members, \$25.95, Canada non-members/all overseas orders. Order from NRC Publications - P. O. Box 164 - Mannsville, NY 13661. (NY residents, please add sales tax.)

Washington Nationals 2006 Charley Slowes, Dave Jeckel

1500 WTWP-DC *

104.3 W282AM-VA

107.7 WRCY-VA

Here is more information on the MLB Washington Nationals radio situation from Gerry Conkling via e-mail:

“Nats’ Radio Net Not Big - 4/2 - A DC radio guru told us that the Washington Nationals have lined up “a pretty big network starting for opening day.” But, according to natsfanatics.com <http://www.natsfanatics.com/index.php?option=com_wrapper&Itemid=33&t=6882> apart from the DC flagship of WTWP (107.7 FM and 1500 AM), the network looks kind of piecemeal. There are only two confirmed affiliates as of 4/2: WTRI (1520 AM) in Brunswick MD (only day games) and WRNR (740 AM) in Martinsburg WV. Unconfirmed affiliates as of 4/2 include WAGE (1200 AM) in Leesburg VA, WHAG (1410 AM) in Hagerstown MD, and WXGI (950 AM) in Richmond VA (only 30 games). Nothing on the Eastern Shore. Plus, all Nats’ games can be heard on XM and via Game Day Audio at mlb.com (as is true of all of the MLB teams).”

As for the footnotes in my last column, which contained the MLB network lists — I placed the footnotes at the end of my column, but Paul split the long column into two pieces, so the footnotes did not appear in the first column.

a = Greg Papa substitutes for Jon Miller when Jon is on national assignments.

b = KC Royals - Not a simulcast. Games air on either the AM or FM.

c = Ken Onyschuk lists 710 KSPN-CA as the Angels’ flagship, but that station is not on the web page; the closest station to Los Angeles is 1510 KSPA in Ontario, CA.

d = Day games only (currently unused)

e = Athletics’ coverage begins 35 minutes before the first pitch.

f = Ken Onyschuk is not sure if the Friday night games go to 610 WIP-PA.

g = Ken Onyschuk has the Cards’ flagshiip 550 KTRS-MO, but the web has 1120 KMOX-MO.

h = Home games only (currently unused)

i = The Giants’ web site at mlb.com lists Amaury Pi-Gonzalez as a radio announcer; the Mariners’ web site lists him as a former Giants’ announcer.

j = I am assuming that there is no network for the Spanish language broadcasts, only the “flasship” station.

k = 1280 WADO-NY will broadcast 100 Mets games (and two pre-season games) in Spanish. I am not sure that WADO is the Yankees’ Spanish flagship station.

l = The Yankees’ list has “WVPO/WILT Mount Pocono, PA”; is this 960 WPLY-PA?

m = The Devil Rays’ list has call letter typo WELW.

n = night games only

o = Chicago Cubs & Saint Louis Cardinals

p = San Francisco Giants & Los Angeles Dodgers & Oakland Athletics

q = Chicago Cubs & Chicago White Sox

r = Florida Marlins & Atlanta Braves

s = selected games only

t = Florida Marlins & Atlanta Braves & Tampa Bay Devil Rays

u = Colorado Rockies & Kansas City Royals

v = Chicago Cubs & Detroit Tigers

w = weekend games

x = New York Yankees & Kansas City Royals & Saint Louis Cardinals

y = Atlanta Braves & Cincinnati Reds

z = Seattle Mariners & Toronto Blue Jays

S = Spanish Language broadcast
