Elijah being taken up to heaven. A painted ceiling by Winter Carl Hansson, 1777—1805, in an old farmhouse near Rättvik.

Among the strangest blossoms of Swedish popular art are the paintings made a hundred years ago by peasant painters in the province of Dalecarlia, in the heart of Sweden. Their motifs were most often taken from the Old Testament, whose dramatic tales they pictured as happening in their own everyday surroundings. The naive art of the Dalecarlian painters flourished in a geographical isolation which has long been broken down. Yet in the midst of the busy present the past lives on in Sweden — the country which sends you this greeting from Scandinavia through **RADIO SWEDEN**.

We thank you for your reception report.
It has been checked and found to be correct.
Date of reception 7/29/55 Frequency 1178

With best wishes from **RADIO SWEDEN**

Sincerely yours

Rudolf Svanberg

THE KINGDOM OF SWEDEN

is one of the Scandinavian countries. It has rather more than 7 million inhabitants. The capital is Stockholm. Sweden's natural resources are iron ore, timber, and water-power.

Did you know

that Sweden's Parliament is built on 500-year-old traditions.

that the safety match, dynamite, the ball-bearing, the Aga automatic lighthouse, the separator, and the steam-turbine are Swedish inventions.

that expectancy of life in Sweden is 68 years.

that every Swede is X-rayed against tuberculosis.

that the founder of the Nobel Prize, Alfred Nobel, was a Swede.

that a seventh part of Sweden lies above the Arctic Circle.

Reception Investigation.

IRELAND, an island, covers an area of 32,524 square miles. Its greatest length is 302 miles and its greatest width is 189 miles and no part is more than 70 miles from the sea. The country is divided into four historic provinces, Ulster, Munster, Leinster and Connacht. Ireland's fascination is legendary. The unique beauty of its landscape and its rich historic literary and artistic associations have long made it a favourite resort for tourists.
