CBS
ARTIST

IT TOOK A WORLD WAR TO START JACK BENNY TALKING. JACK PLAYED THE VIOLIN IN VAUDEVILLE FOR 6 YEARS. SOLEMN AND SILENT. THEN HE JOINED THE NAVY. PLAYED AT A SEAMEN'S BENEFIT. AND GOT APPLAUSE BUT NO CONTRIBUTIONS. HE TRIED A FEW GAGS. GOT SOME LAUGHS. TRIED MORE AT THE NEXT SHOW. MADE A REAL HIT. FINALLY DROPPED THE FIDDLE ALTOGETHER. BUT FOR YEARS CARRIED IT ON THE STAGE. JUST LOOKING AT IT WISTFULLY. HAS WISE-CRACKED HIS WAY THRU SEVERAL SHUBERT MUSICAL REVUES. TWO EARL CARROLL'S "VANITIES". HALF A DOZEN MOVING PICTURES. AND INTO RADIO AS A LAUGH-GETTING MASTER OF CEREMONIES

"Master of Wise-Cracks"

JACK BENNY

ORIGINALLY HAILED FROM WAUKEGAN, ILL. MARRIED AND LIVES IN NEW YORK. THINKS RADIO IS FAR MORE FUN THAN EITHER STAGE OR SCREEN. BUT HASN'T FORSAKEN THE EARLIER MEDIUMS.

QUALITY... MORE THAN A SLOGAN

Sealing the stem. Metal jaws firmly squeeze the molten glass around the wires, thus fusing the parts together in an air-tight seal.

A RADIO set is no better than its tubes. If you want to hear the million-dollar weekly radio programs at their best, if you want to restore your radio to its original brilliance, if you want the *real enjoyment* that radio can bring—make sure your radio tubes are in good condition. Don't take chances with your radio set. Replace with guaranteed Cunningham Radio Tubes.

Spraying cathodes. A cathode whose coating varies in weight by more than one sixteen-thousandth of an ounce is rejected.

Assembling the "mount" — very delicate and painstaking work. A grid wire one one-thousandth of an inch out of line makes a tube rejectable.

The Seallex machine seals and evacuates the tube. A tube showing a pressure inside the bulb of one forty-millionth the pressure of the air we breathe is rejected.

The basing machine. Basing is an art in itself. Judicious control of the baking heat is an absolute requirement.

One of the thirty-five "perfection tests" to which every Cunningham Radio Tube is subjected. If the tests say it's good, you know it's good.
