

Around the Clock *with*  
*Stewart-Warner* Radio

Stewart-Warner did not bring out the first radio, but we have now made one of the best. We have felt that the place to *experiment* is *not* on the customer, but in our own laboratories. The result of this exhaustive laboratory work has been the *Matched-Unit Idea*. And this means that the Instruments, Reproducers, Tubes and Accessories have been especially designed and built by Stewart-Warner to function together in perfect unison.

*A Dozen a Day  
Keeps the Doctor  
Away*

Did you ever try your "daily dozen" to stirring music? There's exercise with a punch to it! And how you go for your breakfast after a few minutes of such a brisk invigorating work-out. "Oh how I hate to get up in the morning" goes out the window when you know the joy of shaking off that half asleep feeling by just turning on the Stewart-Warner Radio to anyone of the world's foremost physical directors, who are at your service.

*Keeping fit and feeling fine.*
