## **Microradio Proposal Seen as Answer to Increased Consolidation Brought on by the Telecom Act of 1996, But Interference in the FMedium Could Intensify**

“This is the biggest issue to hit the radio industry in the last few decades,” the National Association of Broadcasters said in its *Radioweek*, which is FAXed to broadcasters. A brainchild of FCCChairman Bill Kennard, and supported by three other commissioners, the proposal for microbroadcasting would permit hundreds, maybe thousands of new FM stations. Their powers would be either 1000 watts or 100 watts at reduced spacings to other stations than the rules now allow. A further proposal is to allow 10 watt and 1 watt stations, with even more liberal spacings. Only Republican commissioner Harold Furchtgott-Roth voted against. He was concerned about interference the new stations might create to existing broadcasters.

Too, there's concern that new stations which might come into being at reduced spacings could affect the industry's quest for an in-band on-channel system of digital audio broadcasting. Unlike Canada, which has elected to have digital audio broadcasting (already on the air in markets like Toronto and Montreal) in the 2500 mhz “L-band,” the U.S. wants DAB entirely in-band. Only sporadic testing of in-band digital audio broadcasting has gone on in the United States. There is uncertainty such technology is even viable, whether or not there is to be microbroadcasting. So-called IBOC DAB plans call for the special signals to be out in the sidebands, with the analog host signal undisturbed in the center. It is in the sideband area where FM subcarriers are, and where there could be interference from (and to) adjacent channel “micro” stations.

Indeed, virtually the entire radio industry, both the NAB and National Public Radio, oppose microradio, and the interference they believe it would cause existing broadcasters. Some in-

dividual broadcasters, however, see microradio as a way to serve small towns—and AM stations with no hope of getting an FM affiliate in their towns are standing by, hoping the new rules might help them.

Also there are unlicensed stations, commonly called “pirates” or “microbroadcasters” who are out there, hoping to be legalized. The proposal would not bar pirates whose stations had been shut down voluntarily, but would probably militate against hard-core operators who refused to follow FCC orders to close down. A few pirates, however, prefer that “stigma,” and will choose to keep on with their illegal ways, regardless of how the FCC rules. At least one told me that he enjoys being an “outlaw.”

Bill Kennard of the FCC said microradio “could create a whole new class of voices using the airwaves. . . opportunities for churches and community groups,” among others. The Commission has proposed not permitting existing stations to own or have sales or marketing agreements with a low power FM station, and forbidding owning more than one LPFM station in the same community, with perhaps a limit of five or 10 stations to be owned by the same person or company. There is a question whether or not such stations could be commercial—and, if so, if they’d cover enough population to be economically viable. And the stations couldn’t be glorified “translators”; rebroadcasting another station would not be allowed under the proposal.

People who operate micro-stations come from a variety of backgrounds, and have different interests. Some are purely technical, interested in how the equipment works, but also happy to have an audience to broadcast to, somewhat in the tradition of amateur radio. Others are political, carrying on their own liberal or conservative agendas. Others are religious, like “Free Radio Lenawee” 97.7 in Adrian MI, that the Michigan Association of Broadcasters and commercial station WLEN 103.9 have tried for a long time to shut down. An employee of WTIC-FM 96.5 Hartford CT has told me about several pirates in that area, including “Prayze FM,” a commercial Christian station on 105.3 that had a good signal and competed against WKND 1480 Windsor CT. “Prayze FM” has left the air as of this writing, apparently voluntarily. Many pirate stations come and go in the New York city area, particularly Haitian French. These include one on 88.5 that

is not on all the time, and a "Radio Lakay" 89.7, a "professional-sounding [stereo] station with commercials," probably patterned after Radio Lakay 106.7 in Les Cayes, Haiti. There's also "Radio Evangelique de la Grace" 91.3 with Haitian religion, and usually heard Sundays, plus at least two others. Said a reader: "I wonder how Haitian SCStations Radio Soleil [on the 67 kHz of WSKQ 97.9 New York] and Radio Tropicale [on the 92 kHz of WFME \*94.7 Newark NJ] feel about having six currently active Haitian FM pirates in Brooklyn or Queens to compete with. Or 6½, if you count the Brooklyn relay of WYGG 88.1 Asbury Park NJ." [See *FM Atlas-17* p. 6, under "Microbroadcasters."]

## **New York's WFUV Reverts to Previous Licensed Facilities; its Tower Remains Unbuilt in Bronx**

Recall (from the last edition *FM Atlas*) that the New York Botanical Garden had protested as unsightly the 45-story tower WFUV \*90.7 wanted to build on the Fordham University campus. The location of the tower would be across the street from the Garden. Even though the tower was partially constructed, at a cost of \$1.5 million, WFUV was unable to continue the construction. Now the FCC has re-listed WFUV's facilities as 66 meters directional (down from its previously-authorized 150 meters) to reflect its actual operation.

## **AM Happenings Most Likely Caused by FM: Montreal's CBF 690 Leaves Air in Favor of CBFX \*100.7, While CBM 940 Leaves AM in Favor of CBME \*88.5. In Toronto, CBL 740 Calls It Quits; Programming Moves to CBLA \*99.1 and Outlying Relayers.**

Despite other applicants wanting the valuable 99.1 Toronto frequency, the CBC got the channel, and has built CBLA on it. CBLA has already replaced the powerful CBL 740, which could be heard in much of eastern North America, but had difficulty

penetrating downtown Toronto. New FM relayers include CBLA -2 \*89.1 Paris ON and CBLA-1 \*90.5 Crystal Beach ON, just outside Buffalo NY. The relayers are stereo, too, unlike the old CBL. While much of CBLA's programming is talk, I did enjoy the excellent stereo separation on the station's dramatic presentations, and theme music while in the area, November, 1998.

CBCP Peterborough ON moved from 93.5 to \*98.7, and there is a proposal to move the 93.5 channel to Toronto for a commercial station. That would be possible if Industry Canada would reduce spacings to CBL-FM \*94.1 Toronto.

In Montreal, where the 690 and 940 frequencies were given up by the CBC, other applicants have expressed interest. CKVL 850 Verdun PQ would like 690; CICQ 600 wants 940 for better outreach for its English-language programs, Radio Nord wants 940 for a country music station, and Société Radio-Canada wants 690 for a third French language station to be called Info-Radio; if 690 is granted another applicant it would ask for 940. Latter, of course, is the French CBC—reapplying for a channel it had given up.

## **Klan Thwarted in St. Louis, While Those Feisty Missouri Synod Lutherans Get to Keep KFUE-FM!**

The Ku Klux Klan went to court against public broadcaster KWMU \*90.7 St. Louis, claiming its right to underwrite with announcements like: "A white Christian organization, standing up for the rights of white Christian America since 1865." KWMU feared the Klan connection would drive away other support, with donors giving about 22 percent of the station's \$1.8 million budget. The court ruled against the Klan.

The FCC should have known how staunchly the Lutheran Church—Missouri Synod's KFUE-FM 99.1 would fight an equal employment order to more fully integrate its staff. The station had been hiring students in Concordia seminary to program the station (including KFUE [AM]), rather than recruit from a more racially integrated pool of outsiders in the community. The station, with help from National Religious Broadcasters, fought

back and won its full license renewal, and the FCC's dropping of a \$250,000 fine.

## **Classical Loses Out in Philadelphia, Detroit**

WQRS 105.1 Detroit and WFLN 95.7 Philadelphia are out. They had been classical music since the 1950s, and their programming shoved aside. WXXM, "Jammin' Gold" with urban oldies, is the Greater Media station in Philadelphia. WXDG, "Classic Soul 105.1," in Detroit has R&B oldies (coded "so"), an up-and-coming format. CBE-FM \*89.9 Windsor ON was heard making an appeal for Detroit listeners to support "CBC Radio II" and its classical programming. Ed Christian of Saga Communications, based in the Detroit area, was critical of the Detroit schools' WDTR \*90.9, saying WDTR has such poor listenership, a person standing on the school administration building roof with a megaphone would have more of an audience! He would like to see WDTR go classical and serve the audience that WQRS abandoned.

## **Mexico, Parts of U.S. Remapped**

After over a two-year period, this *FM Atlas* is finally produced. Part of the delay has been the need to do several new maps, especially a remapping of Mexico, because of all the new FM stations there. Note that the Ontario map has a new insert, showing the Toronto-Wingham area in better detail. The U. S. states of Kansas, Nebraska, Nevada and Utah now have individual maps. Puerto Rico and Virgin Islands are given improved map coverage, now grouped as they are with eastern Mexico (instead of with Newfoundland-Nova Scotia Canada).

These text pages are done on a new Compaq computer with Microsoft Works. The maps are done on a 1968-era IBM Selectric Composer. The Station Directories were done, through Tennessee, on a modified IBM ESComposer and creaky 1980s-era computer that crashed in mid-project. It was believed to be the last operating system of its type in the world! Computer problems added to the delay in getting this book to you.

A personal note—the 17th edition *FM Atlas* went to the printer just before I had open heart surgery in January, 1997, to correct a mitro valve problem. My thanks to Dr. Per Wickstrom of Duluth MN. I am glad to present this book to the many readers who have waited patiently for its appearance. [*This book printed by McNaughton & Gunn, Inc., Saline MI.*]

## ***FMedia!* Helps Update the *FM Atlas!***

*FMedia!* is a newsletter of fact and opinion on FM radio—and a great means for updating this *FM Atlas*. A monthly, it lists new FM stations and translators, format changes, SCS subcarrier and industry news, and more—blending factual information with chit-chat.

The FM radio newsletter

It includes news of pirate activity on FM, "Selected AM Happenings," FMakings (FM applications), and more! Contact us about subscribing, or use the coupon at the back of the book.

## **A Club Helps You Log Long-Distance FM/TV**

Those interested in listening for long-distance FM reception, or FM-DX, are invited to join the nonprofit Worldwide TV-FM DX Association. Dues are \$26/year U.S., \$28/year Canada or \$35/year elsewhere. Sample copy of the monthly "VHF-UHF Digest" is \$4 from PO Box 501, Somersville CT 06072; e-mail <ikon@netcom.com>.

## **FM Information Always Wanted**

If you have news of stations in your area coming on the air, changing formats, using stereo or not using stereo, having an FM/SCSubcarrier, using a nonID or multi-city ID, or other information, please let us know by writing PO Box 336, Esko MN 55733-0336, FAX (218) 879-8333, e-mail <FmAtlas@aol.com>. And check our developing web page at: <<http://members.aol.com/fmatlas/home.html>>. Thanks, too, to Carol, my wife of 29 years, for all her help.

## KEY TO SYMBOLS

d A station with a directional antenna, listed after height, by-frequency section.

h A station with a horizontal-only signal

t An FM translator or on-channel FM booster

v A station with a vertical-only signal. Stations without a "v" or "h" in the by-frequency part of the book have both polarizations or circular polarization.

\* A noncommercial, educational, "public" or religious station

\$ A station with all or part of its weekly schedule in FM stereo

† A station with a subsidiary communications service (SCS or in Canada SCMO). If †( ) it's 57 kHz data, if by itself [† ] 67 kHz; if following a comma [† , ] 92 kHz.

§ A station sharing time with a nearby station on the same channel; shown on maps.

- A station with its antenna below the average surrounding terrain

**Program (music) codes** (in part I of the Station Directory after city): b beautiful/easy listening, c classical/fine arts, e ethnic, f folk, g gospel and religious, j jazz, k country (all types, including stations playing polkas), l Latin/Spanish, m middle of the road (big bands, nostalgia, standards), n news, o rock oldies, p progressive rock, r rock (CHR, rock hits, top 40 or hybrid formats), s soul/urban, t talk. Up to two letters are used for stations having two or more types of music (including "op" for classic rock, "rm" for adult contemporary). **Language codes** (just to the left of the program codes in Part I of the Station Directory): E English (for stations in Quebec and Latin America), F French, P Portuguese, S Spanish.

**SCSsymbols** (following † in Part I of the Station Directory): A ABC networks, B relays of other networks, C relays of AM, FM stations, cable audio or campus carrier current stations, E ethnic (general), F farm (voice), G gospel, H Haitian French, I Iranian, India languages, Islamic/Arabic, J Japanese, K Korean, L Latino or Portuguese, M music (easy listening), O other Oriental languages, such as Chinese and Tagalog, P paging (voice; occasional audio), Q European languages (such as Greek, Russian, Italian), R music (foreground/light rock), S sports and special events (occasional audio), T talk (usually talking book for the blind), U tones, telemetry chirps or warbles—listed if on all the time, V Vietnamese, W weather, like NOAA relaying, X medium speed data, Z high speed data; ( ) Radio Data System (RDS), tones-type paging or other low-speed datas at 57 kHz. [Texas and later listings omit the † symbol to save space in the Microsoft Works format.]

### Part I: Geographic Directory Example

Bismarck (ND) k 94.5 KQDY \$ 75 †M,R. **Explanation:** KQDY at 94.5 mhz in Bismarck has a country format in stereo. It gets out 75 km with a primary signal, and it has a music subcarrier at 67 kHz and a light rock SCS at 92 kHz.

### Part II: By-Frequency Directory Example (94.5 mhz, Channel 233)

AZ Phoenix Kool 94.5 KOOL \$ 503 100000

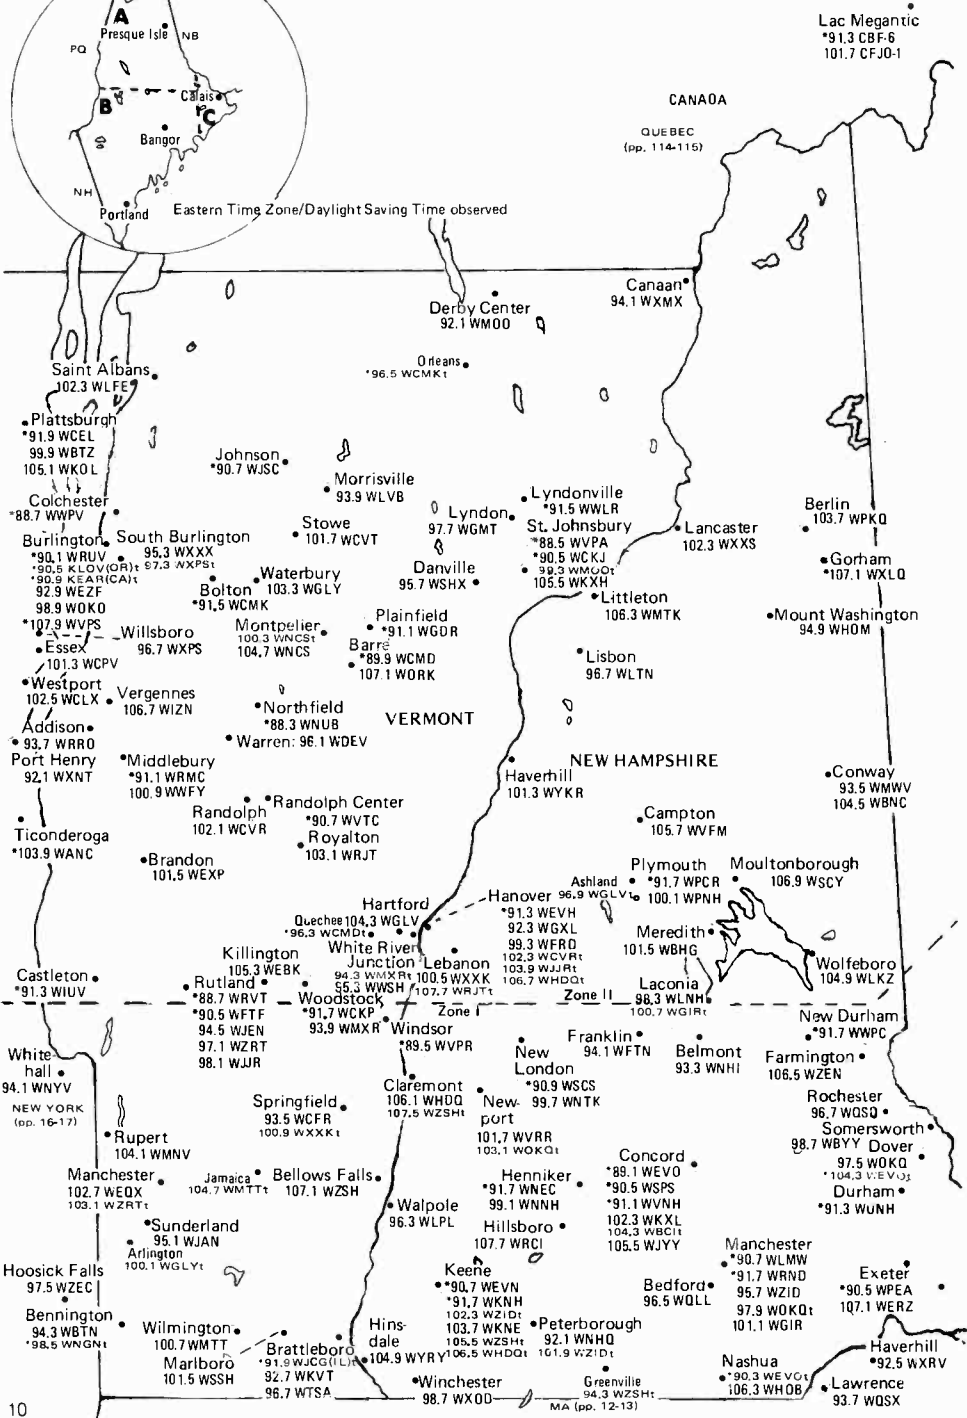

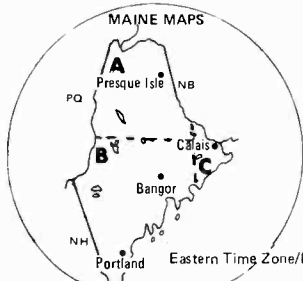

AR Baring-Fort Smith \*KOLX \$ 153 31000. **Explanation:** KOOL Phoenix AZ uses "Kool 94.5" as a nonID, is \$(tereo), 503 m above average terrain, and 100 kw horizontal and vertical. KOLX Baring AR IDs with Fort Smith, is noncommercial, 153 m, 31000 watts h & v (or circular) polarization.

Minor, 10 watt educational FM stations and FM translators with less than 100 watts are shown in reduced size on the maps. For information on stations' programming, stereo status and technical parameters, see the Station Directories beginning on p. 126.

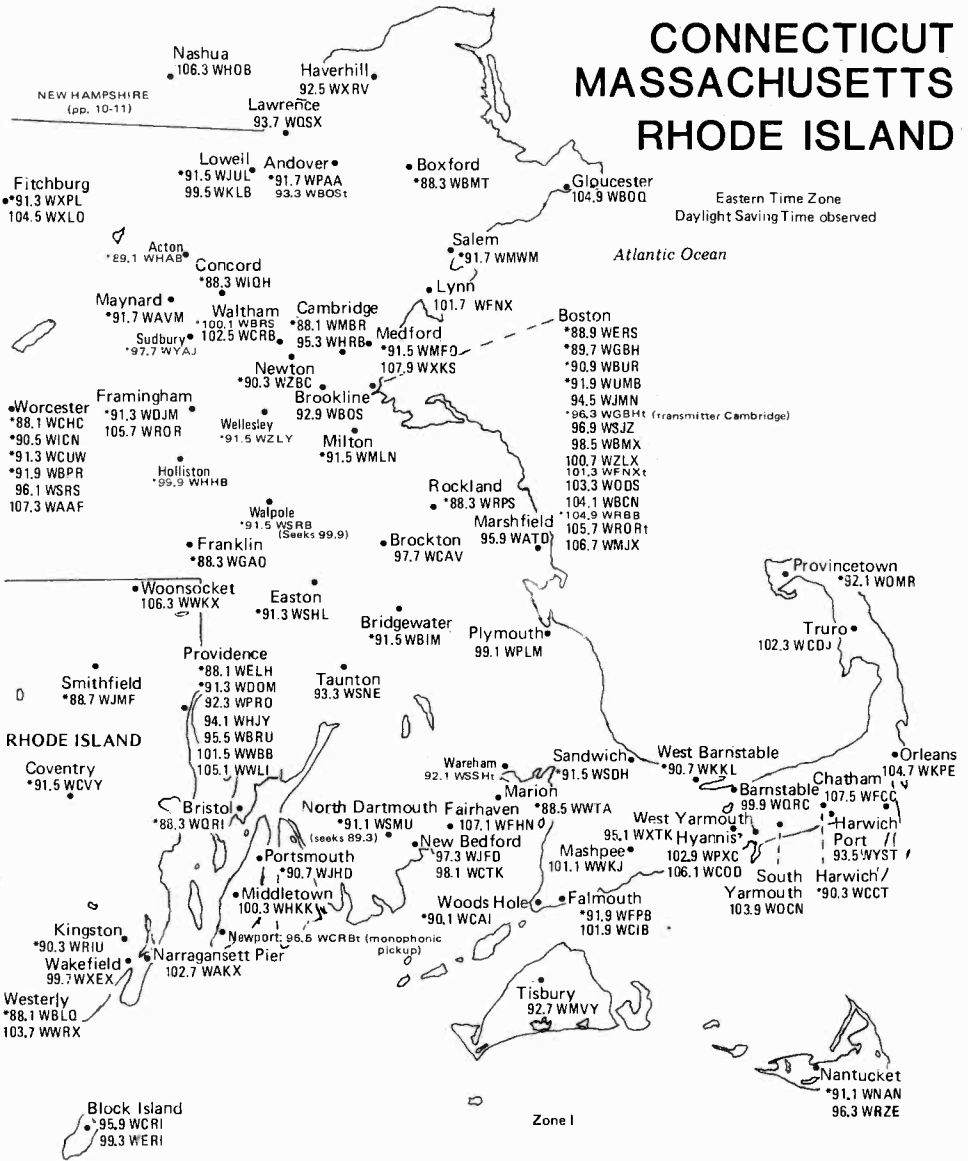

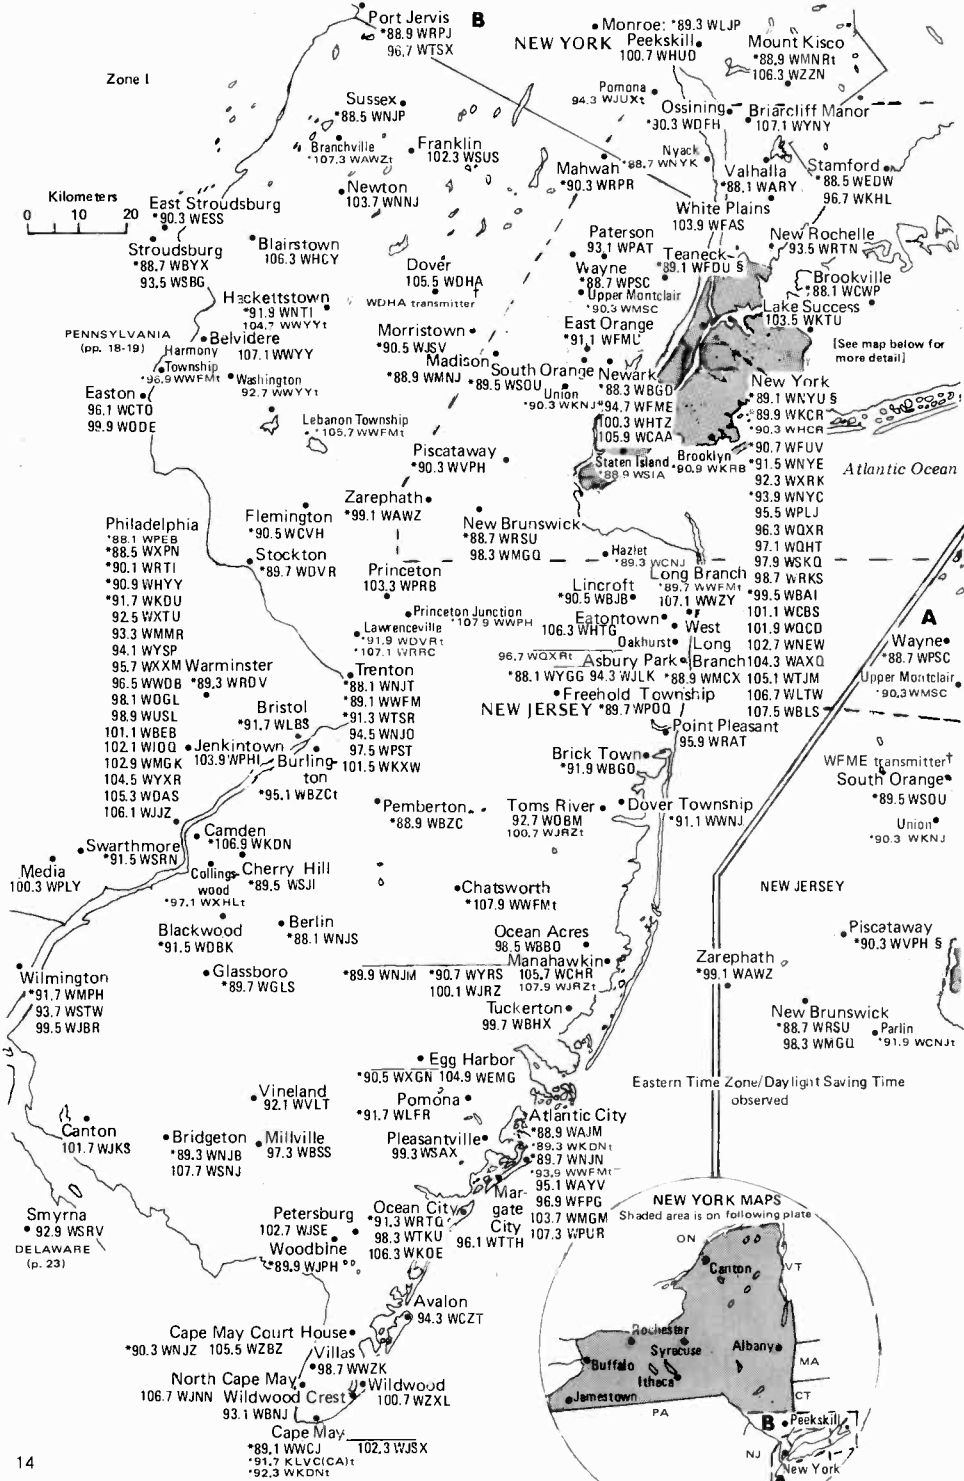

# MAINE NEW HAMPSHIRE VERMONT

# CONNECTICUT MASSACHUSETTS RHODE ISLAND

# NEW JERSEY NEW YORK

[Southeast portion—remainder of New York is on following plate]

Showing transmitter locations for stations licensed to New York city and for other stations whose transmitters are outside their cities of license. This map should prove useful to FM Atlas readers in the New York area who would like to aim their antennas for optimum reception.

(directional away from New York city and Fairfield CT)

## New York City's FM Dial

Stations serving all or parts of New York city with a primary [or strong secondary] signal:

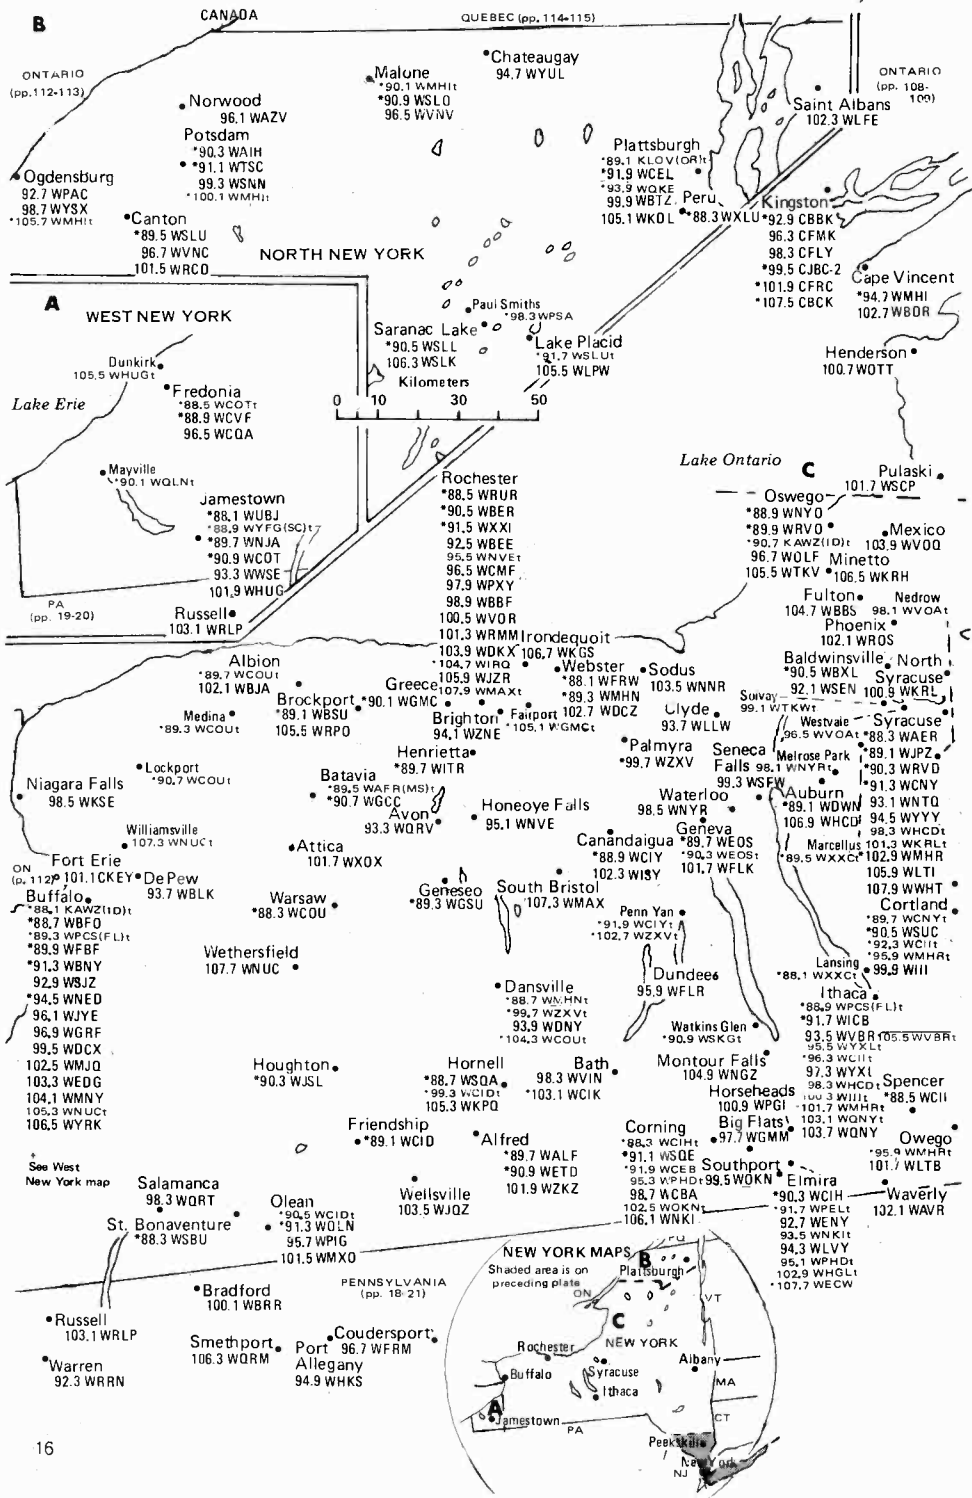

- § A station sharing time with a nearby station on the same frequency.
- \* A noncommercial station.

Hazlet  
89.3 WCNJ

MHz	Call	City Licensed	Km Radius	Transmitter
88.1	WCWP	Brooklyn NY	8	
88.3	WBGO	Newark NJ	30	Downtown Newark

# WASHINGTON

Pacific Time Zone/Daylight Saving Time Observed  
Zone II

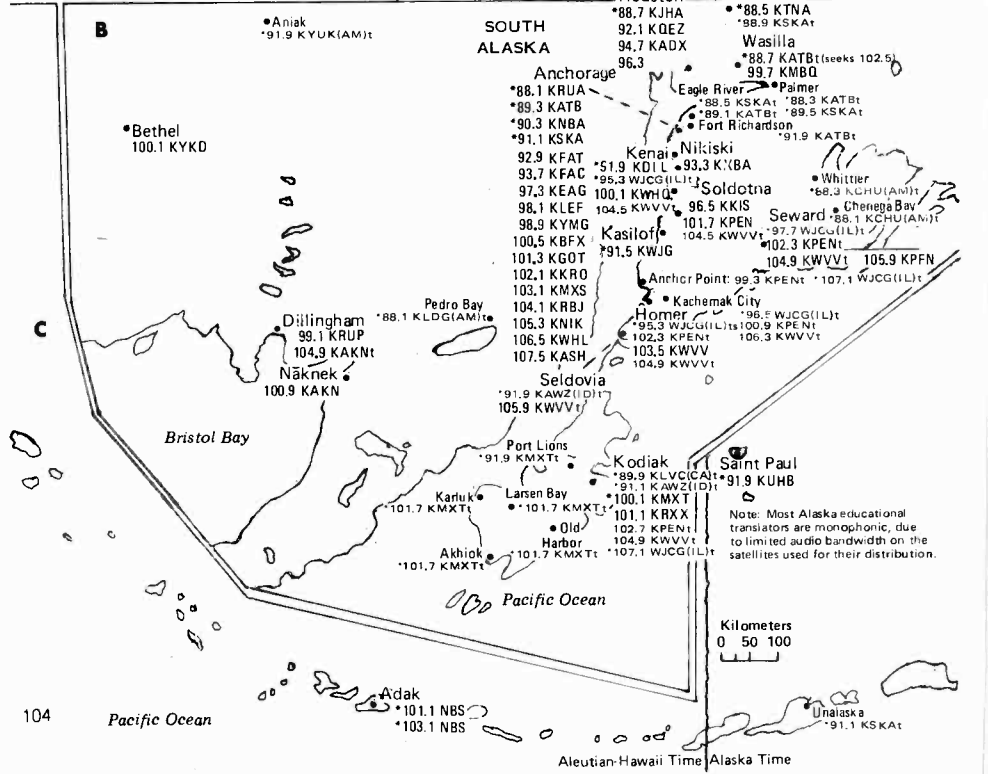

ID  
(pp.  
86-  
87)

HAWAII—MAIN MAP

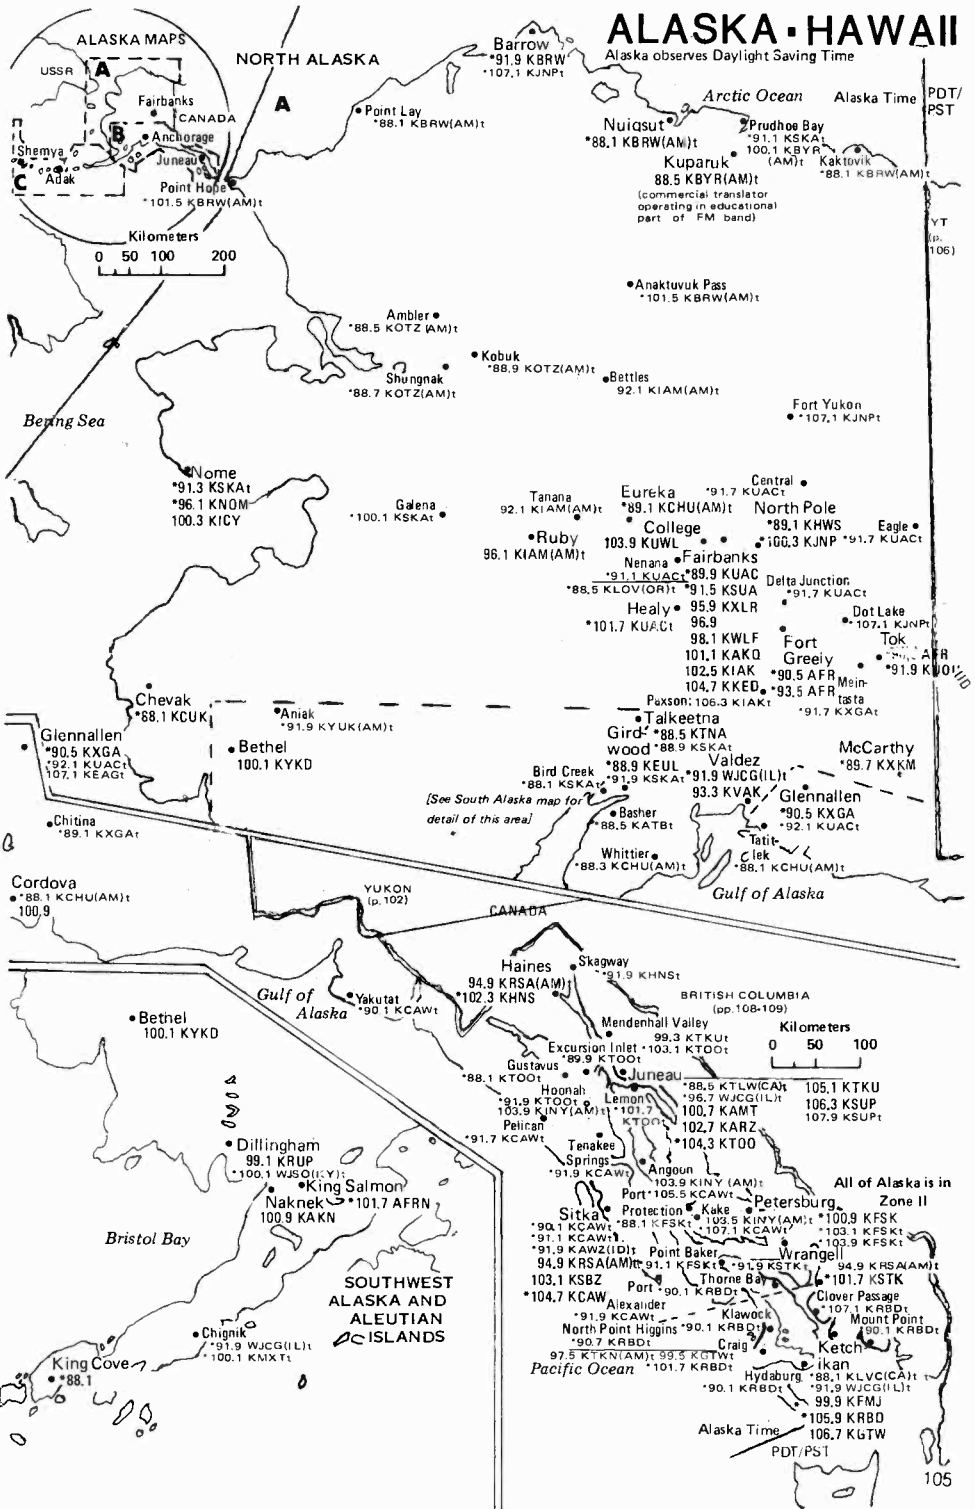

SOUTH ALASKA

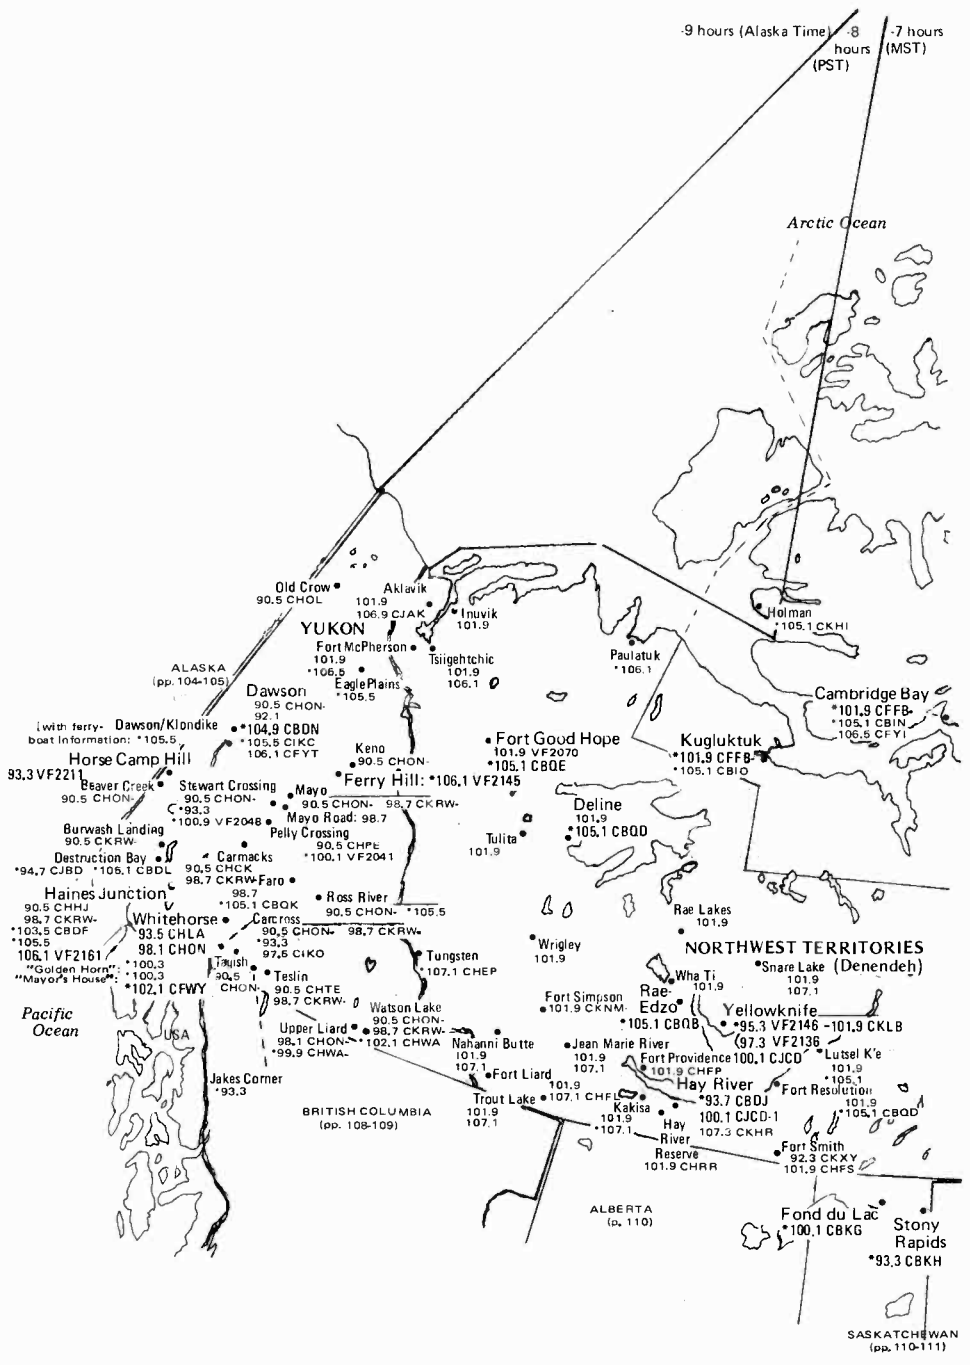

Note: Most Alaska educational translators are monophonic, due to limited audio bandwidth on the satellites used for their distribution.

# ALASKA • HAWAII

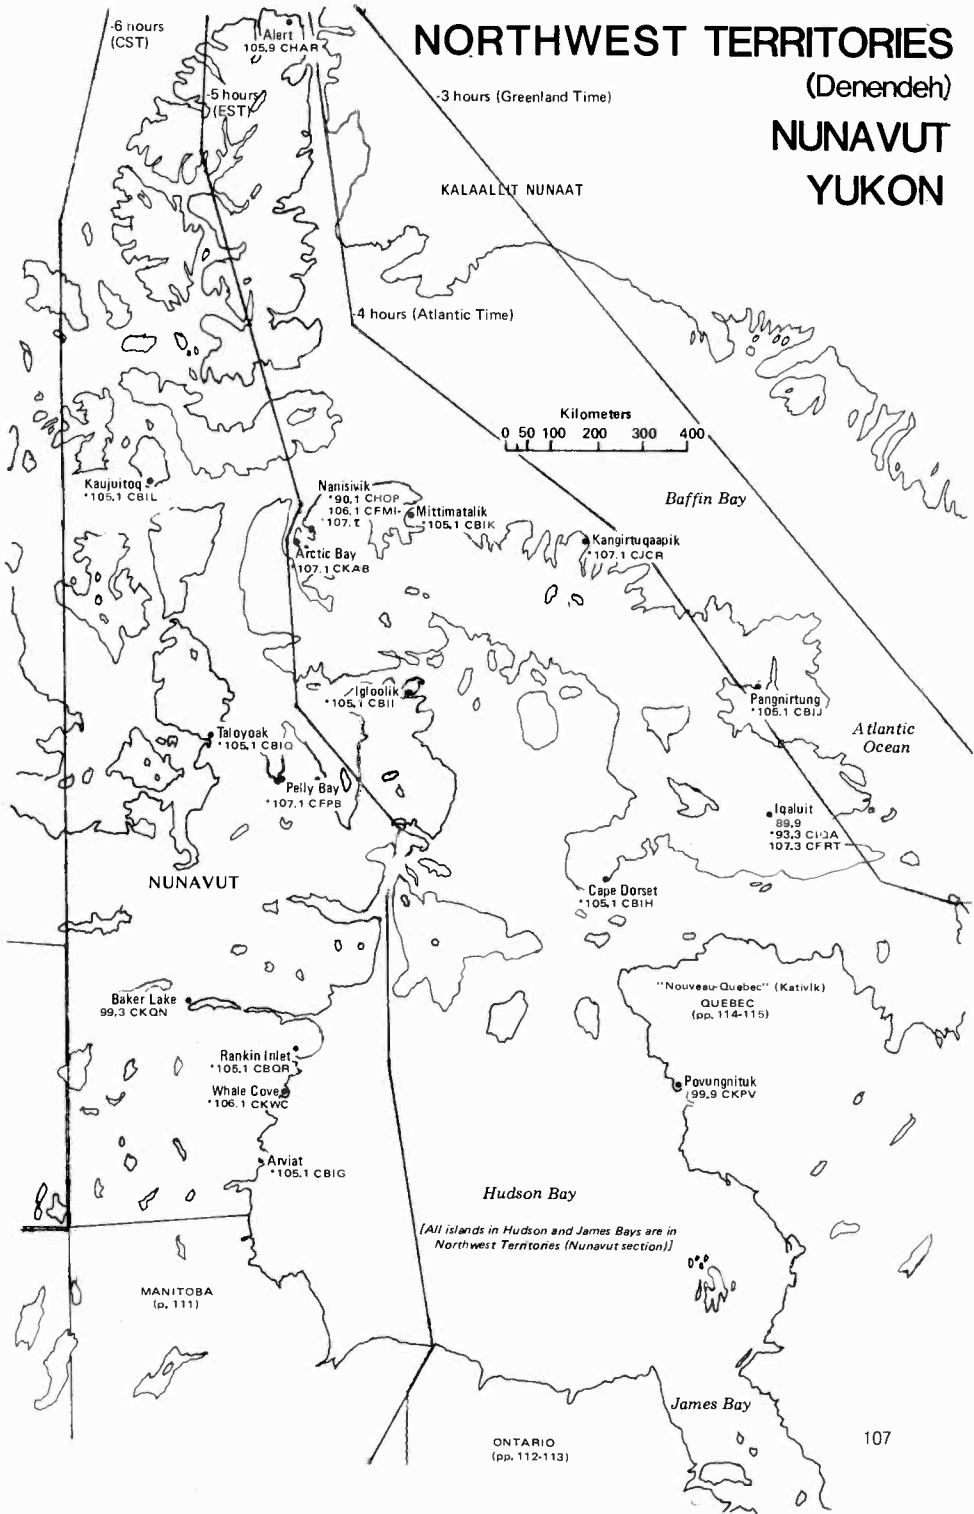

Alaska observes Daylight Saving Time

-9 hours (Alaska Time) -8 hours (PST) -7 hours (MST)

# NORTHWEST TERRITORIES (Denendeh) NUNAVUT YUKON

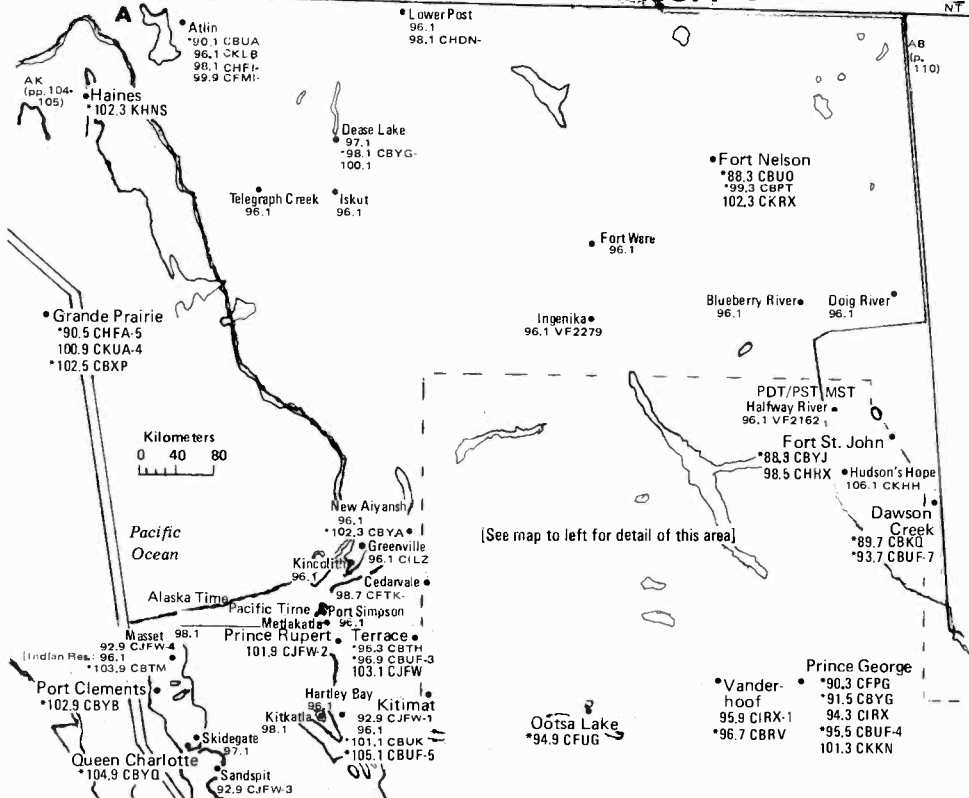

(All islands in Hudson and James Bays are in Northwest Territories (Nunavut section))

FOR CONTINUATION, SEE NORTH BC MAP \*

[For detail of this area, see South Central BC map to the right]

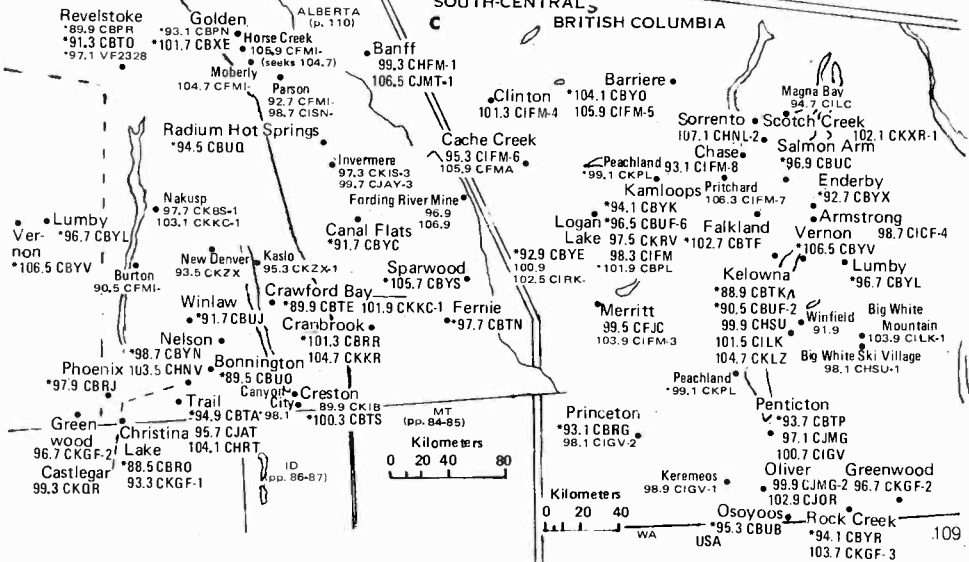

[See map to left for detail of this area]

## NORTH BRITISH COLUMBIA

Pacific/Mountain Time Zones. Daylight Saving Time observed, except Mountain Standard Time observed the entire year in Northeast British Columbia. An exception is Chetwynd BC, which observes MDT.

## SOUTH-CENTRAL BRITISH COLUMBIA

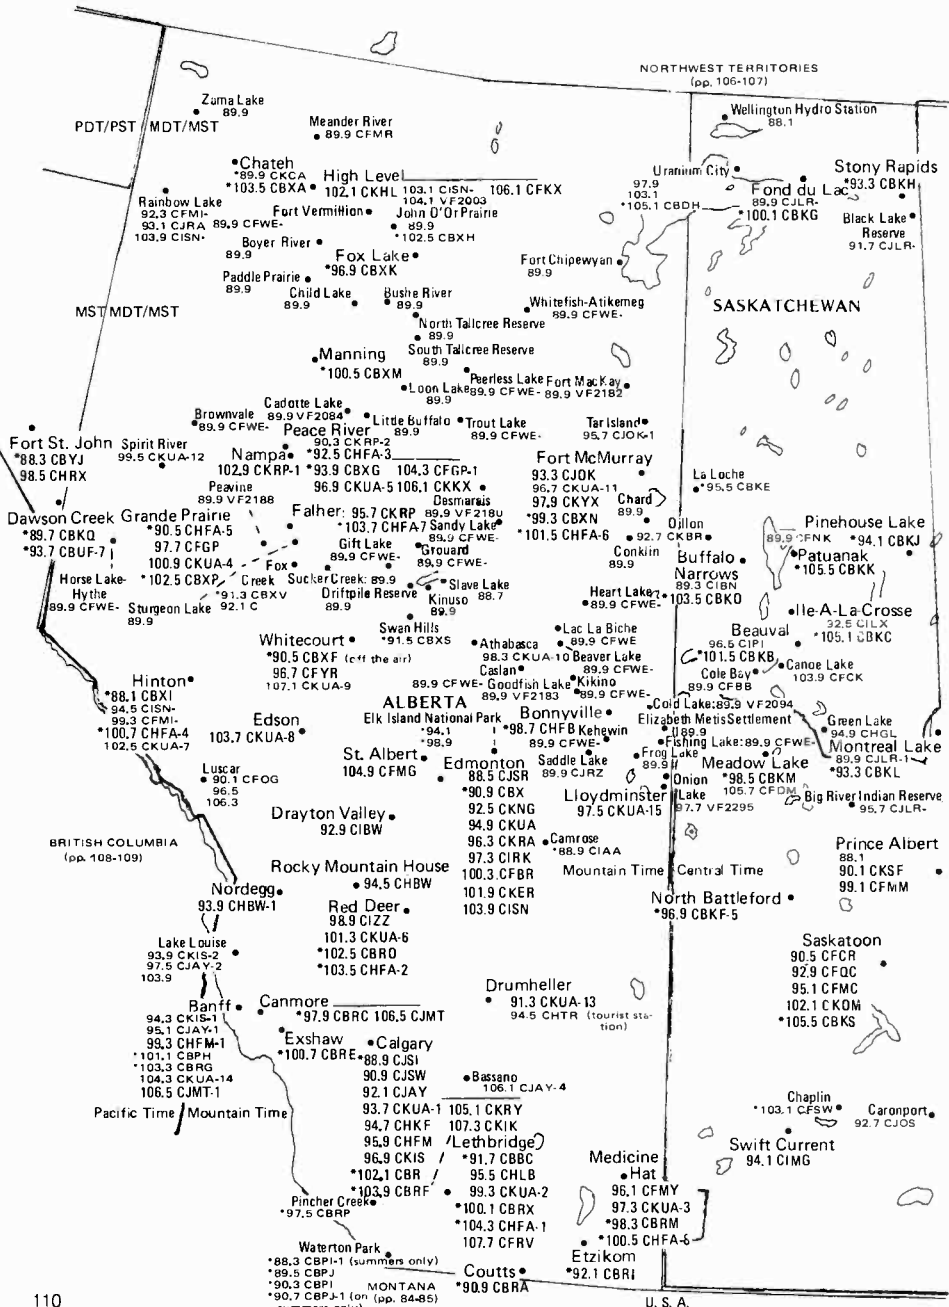

Kilometers

0 40 80

NORTHWEST TERRITORIES  
(pp. 106-107)

SASKATCHEWAN

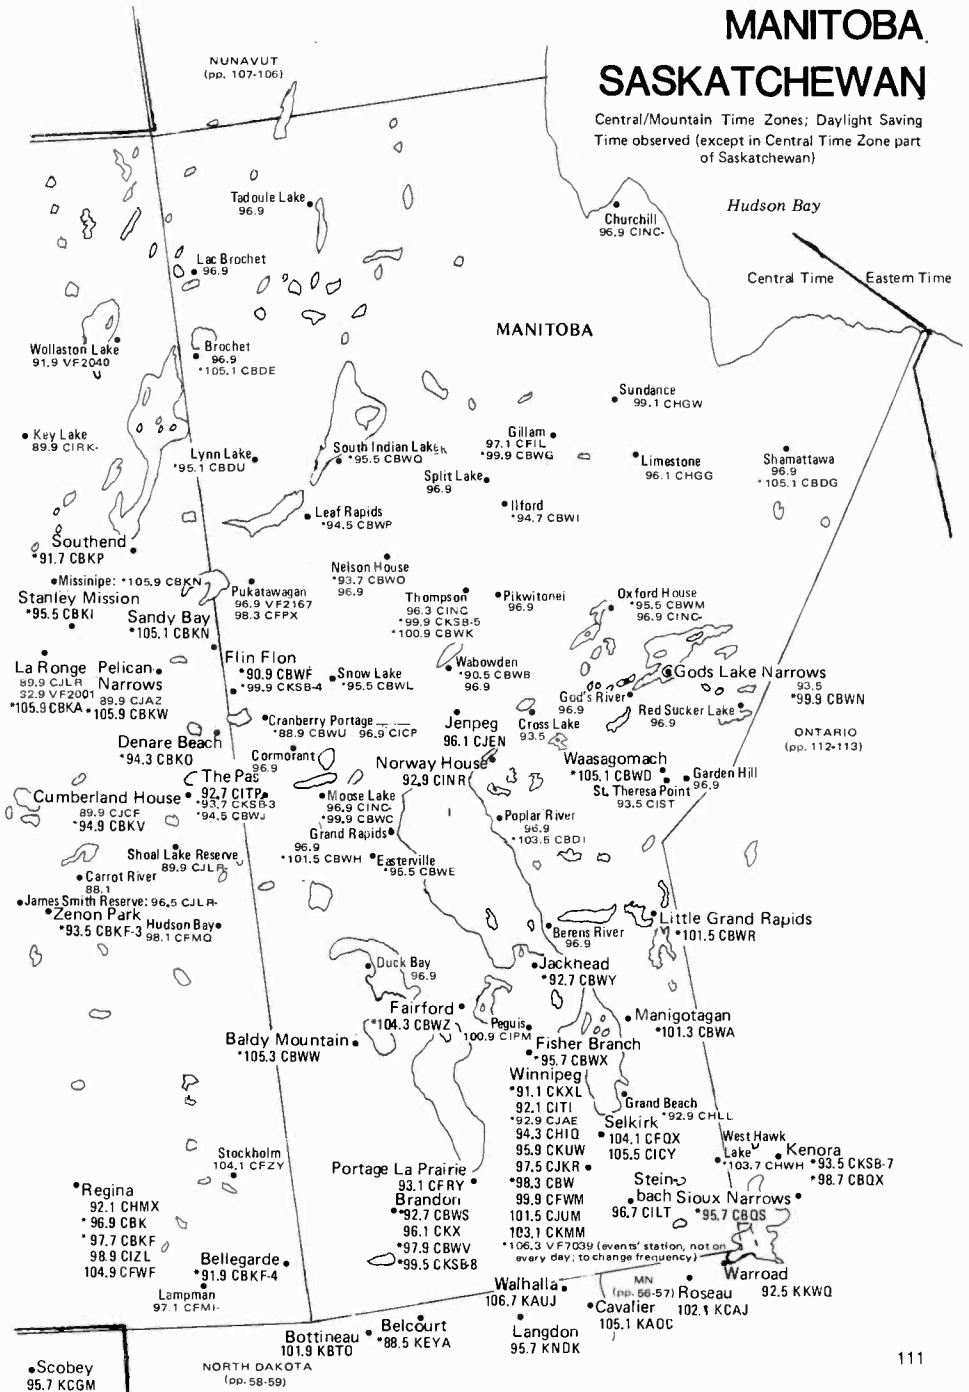

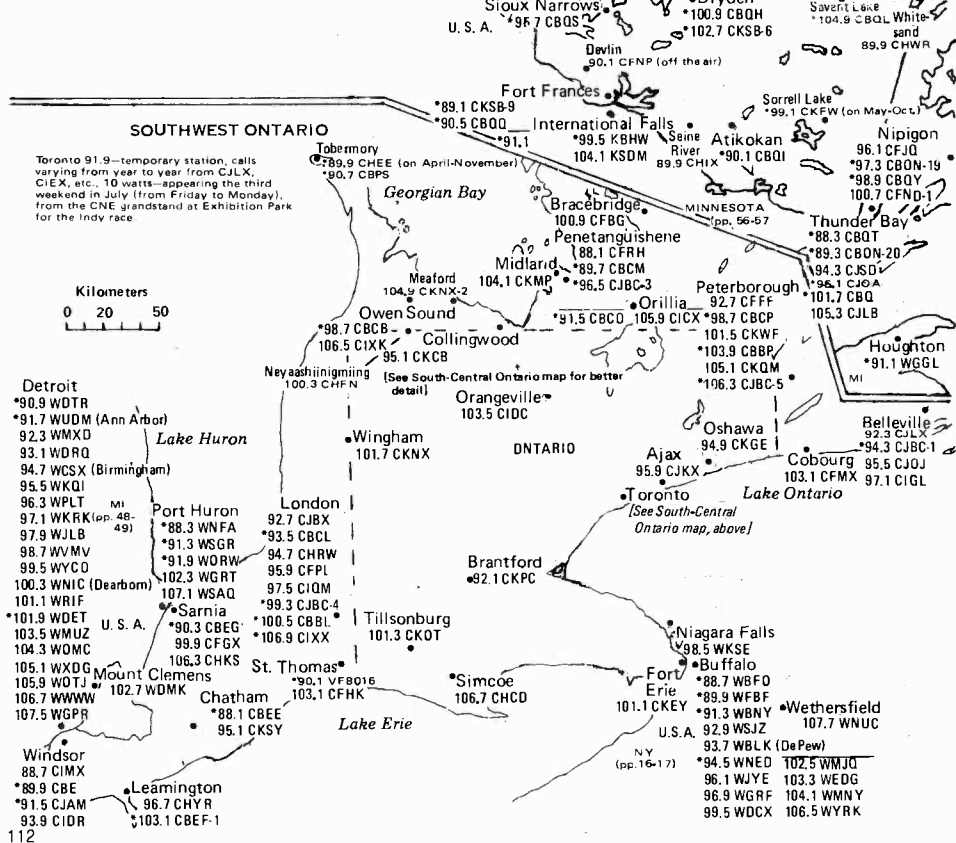

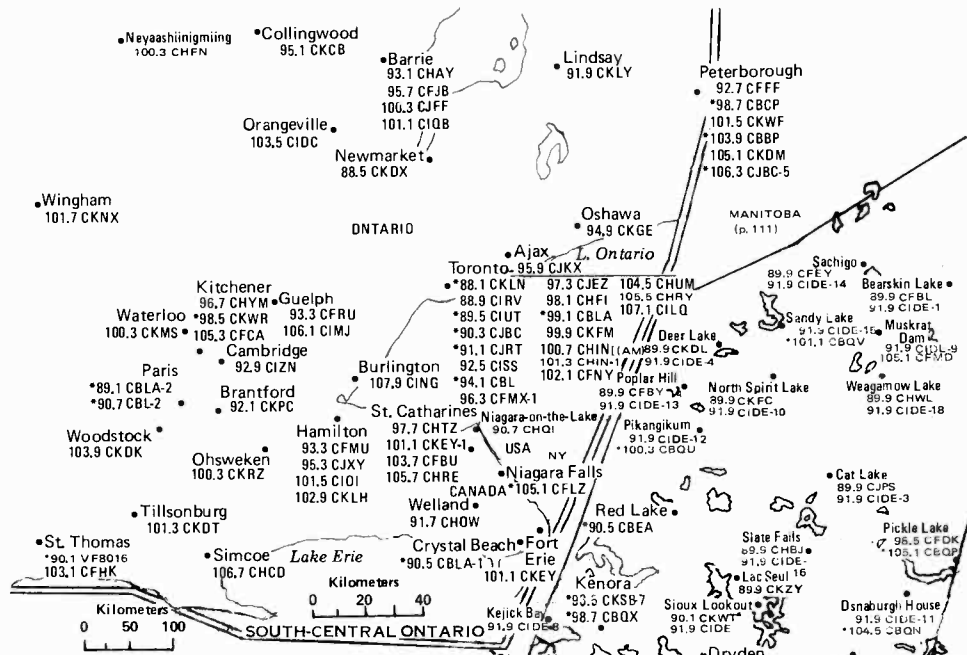

# ALBERTA MANITOBA

## SASKATCHEWAN

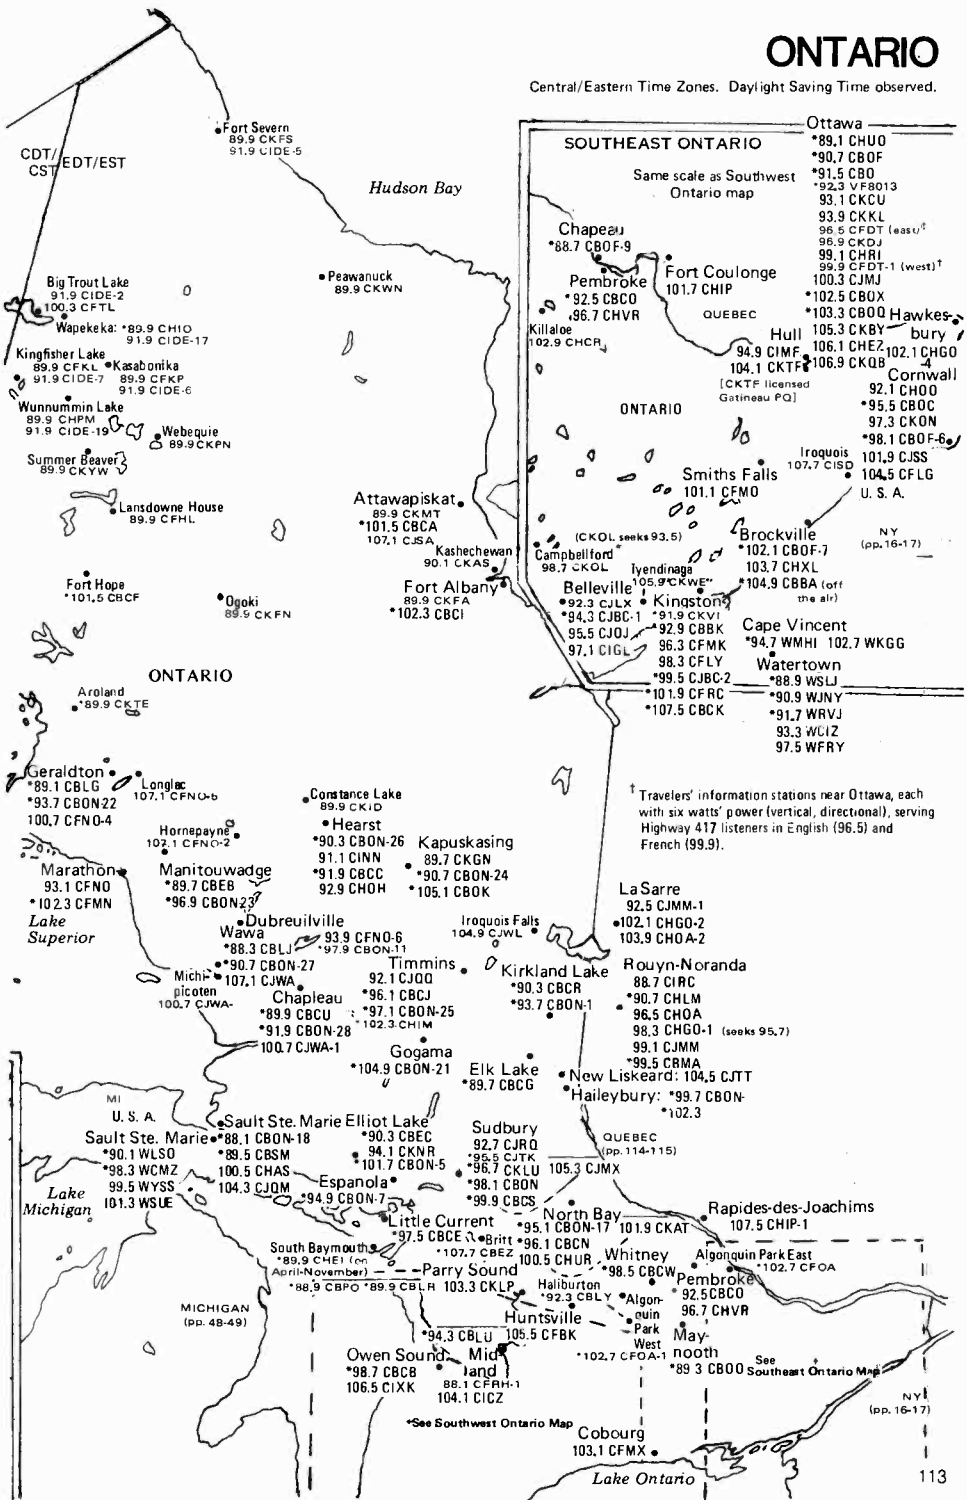

Central/Mountain Time Zones; Daylight Saving  
Time observed (except in Central Time Zone part  
of Saskatchewan)

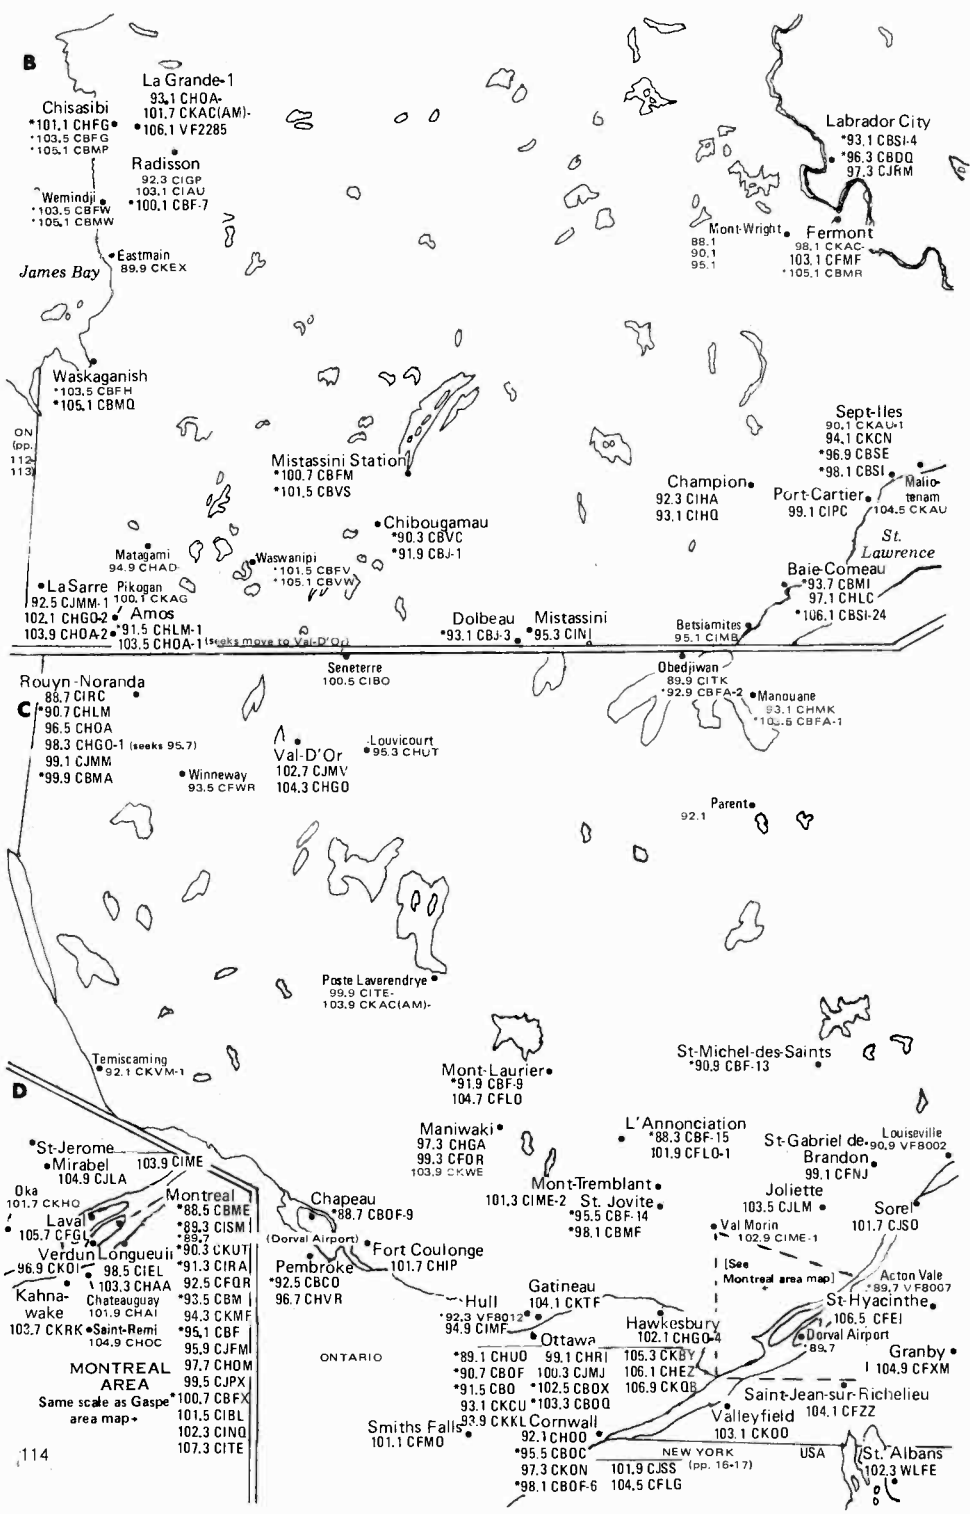

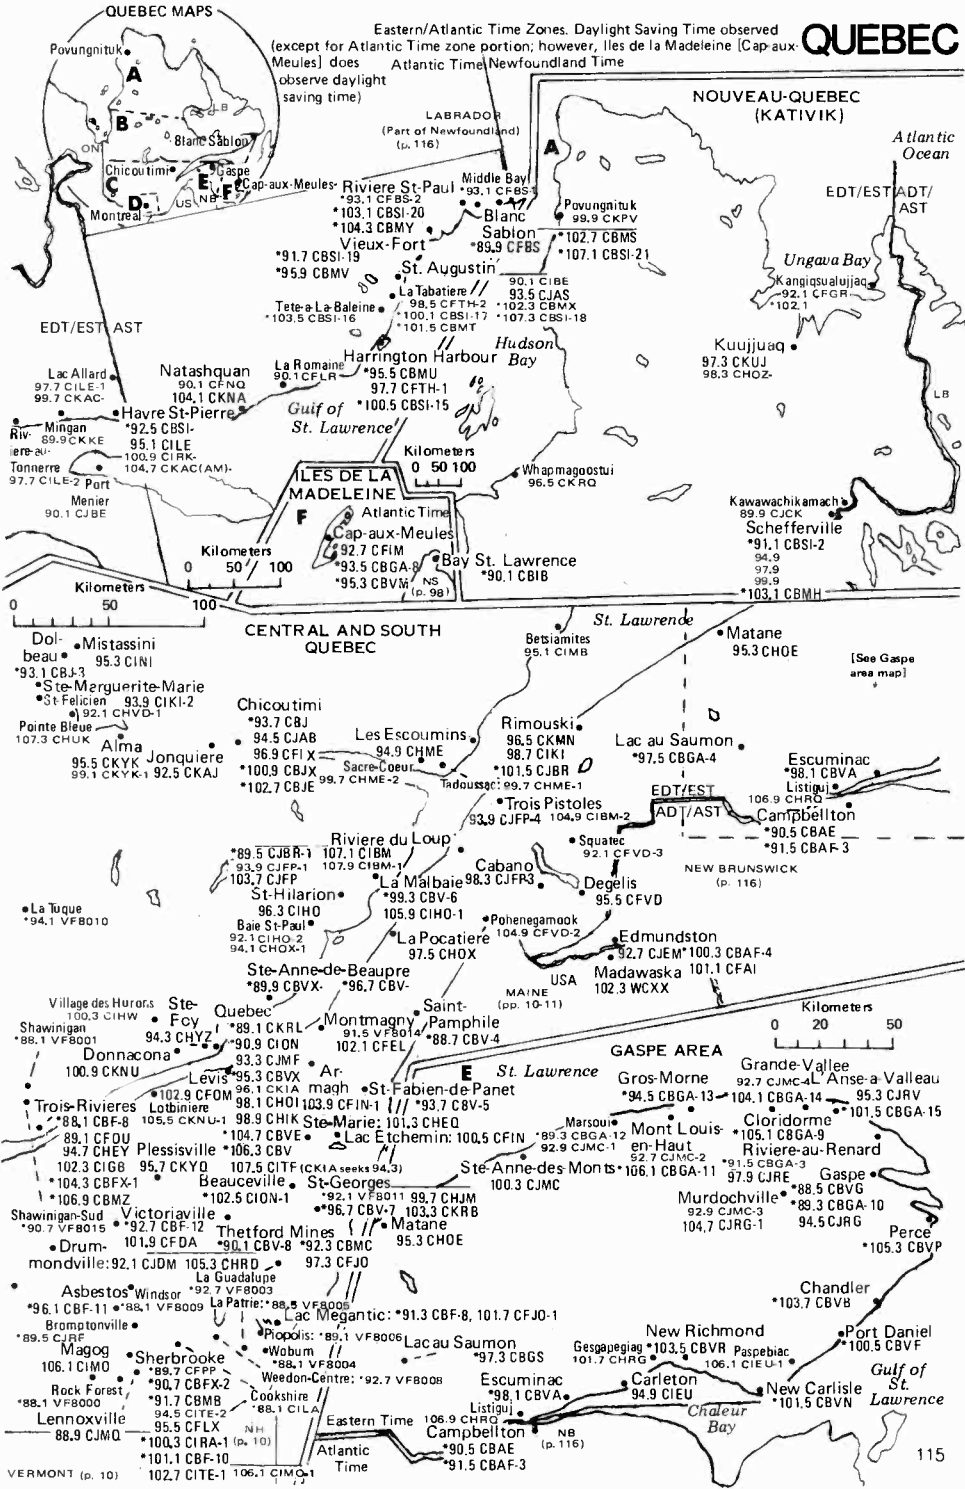

# ONTARIO

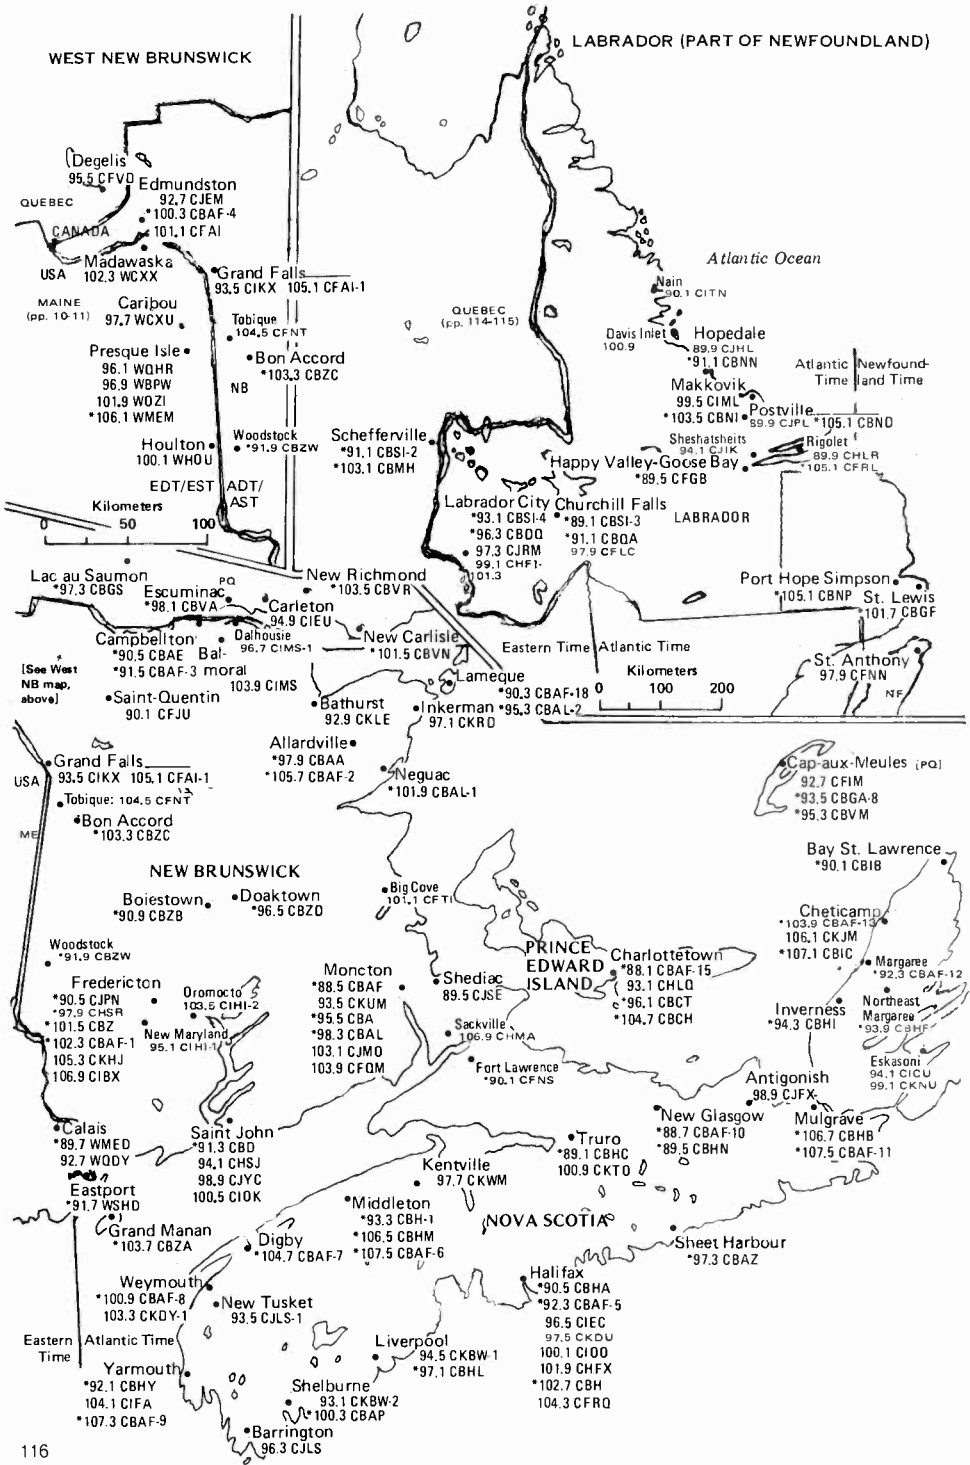

Central/Eastern Time Zones. Daylight Saving Time observed.

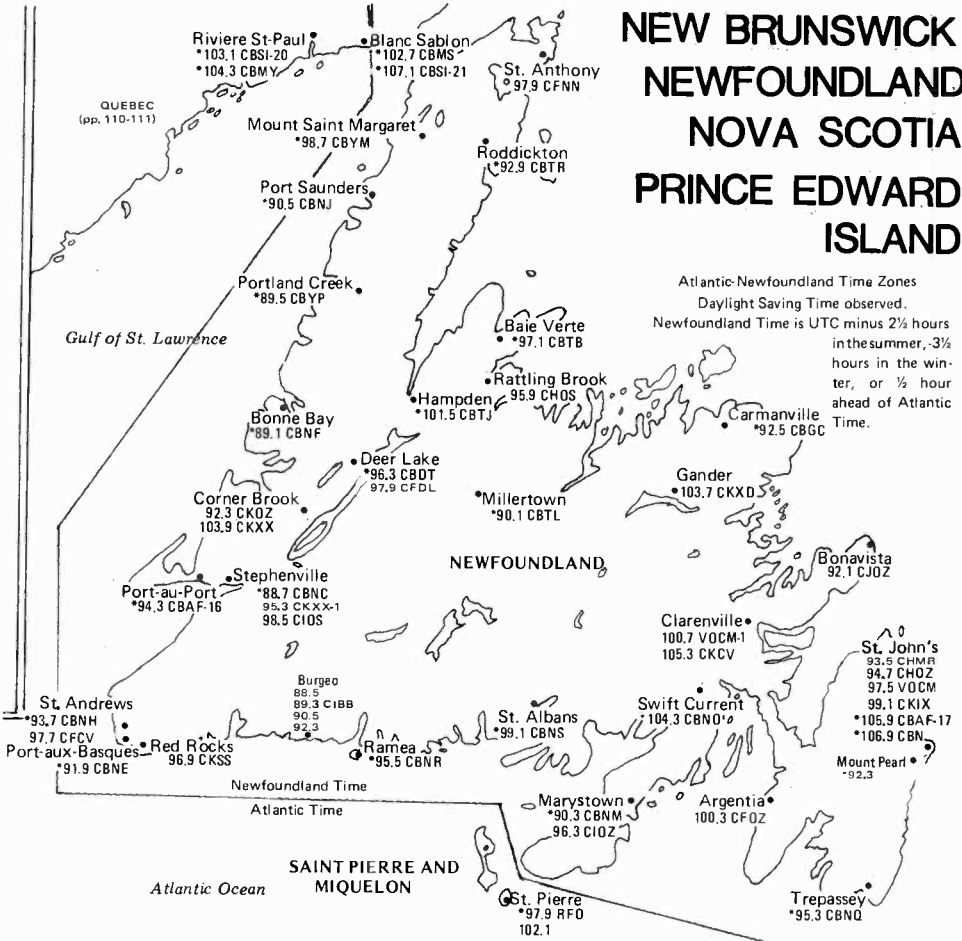

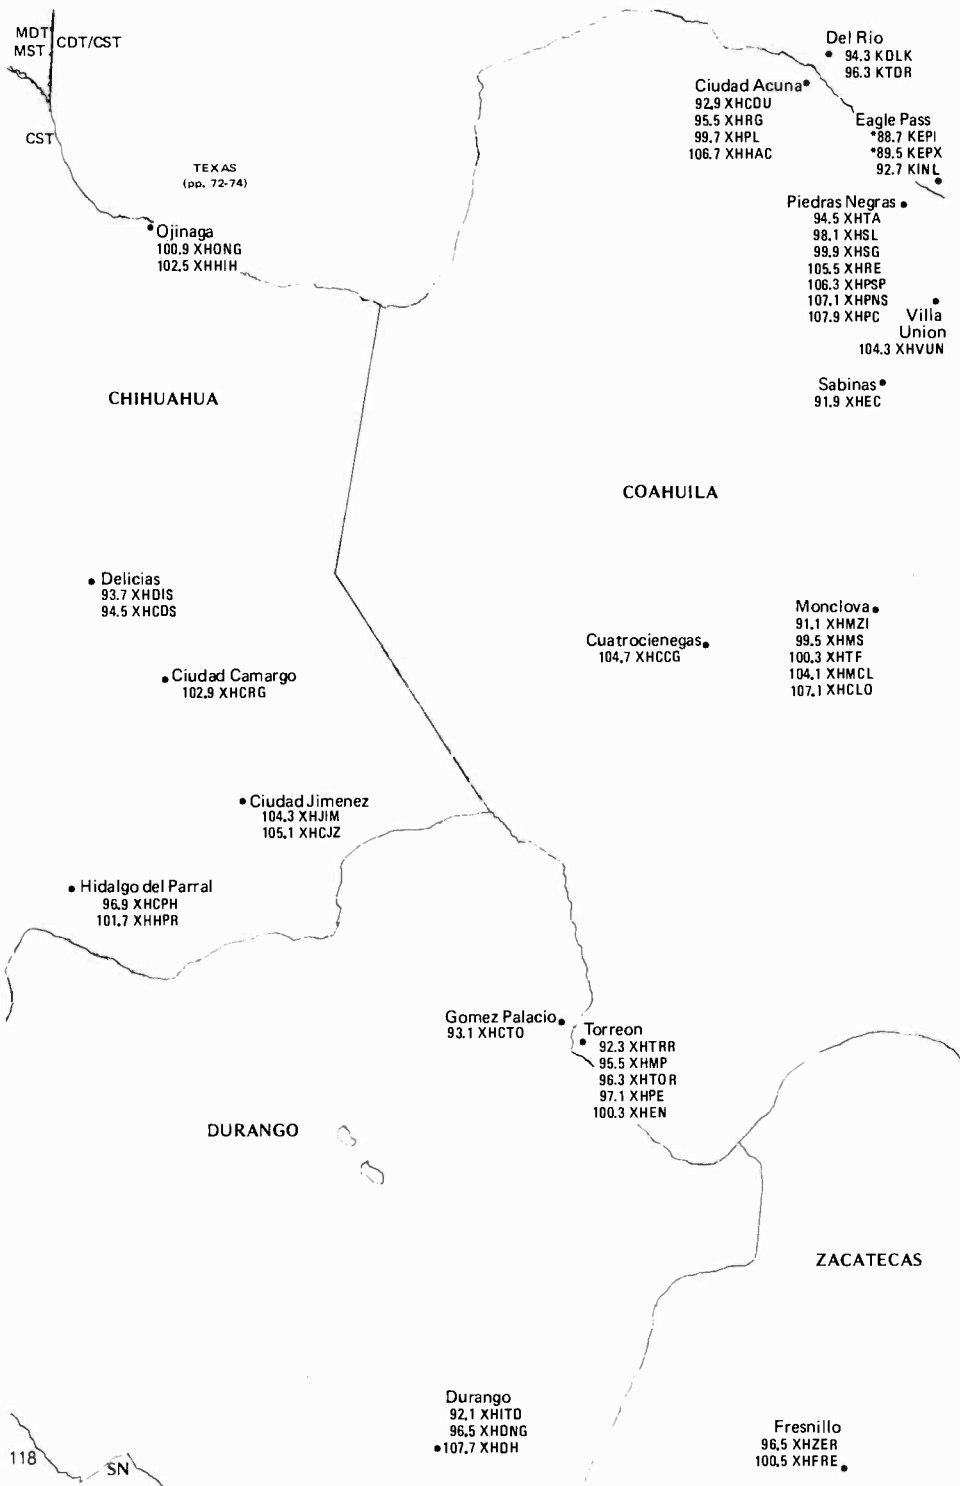

# QUEBEC

# NEW BRUNSWICK NEWFOUNDLAND NOVA SCOTIA PRINCE EDWARD ISLAND

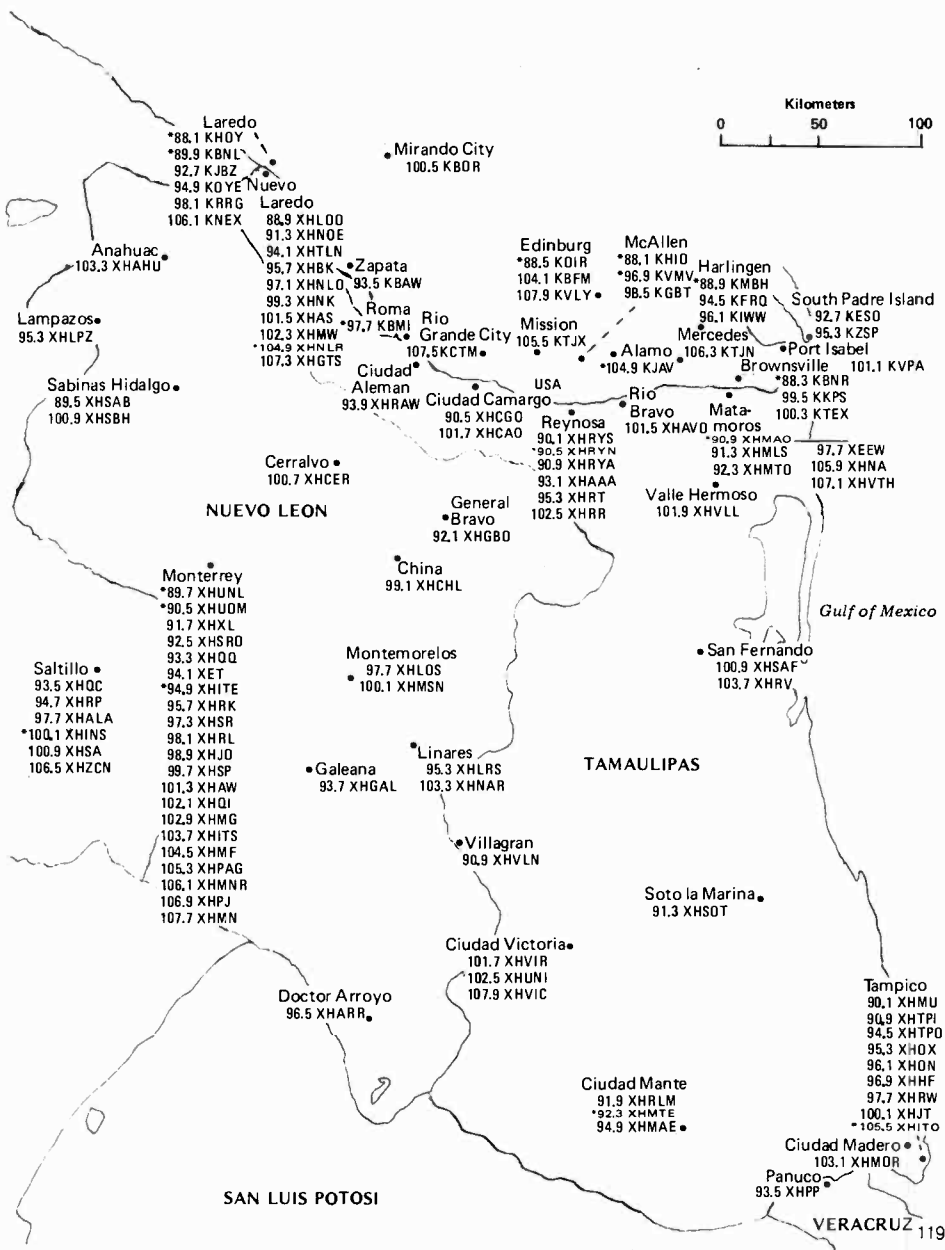

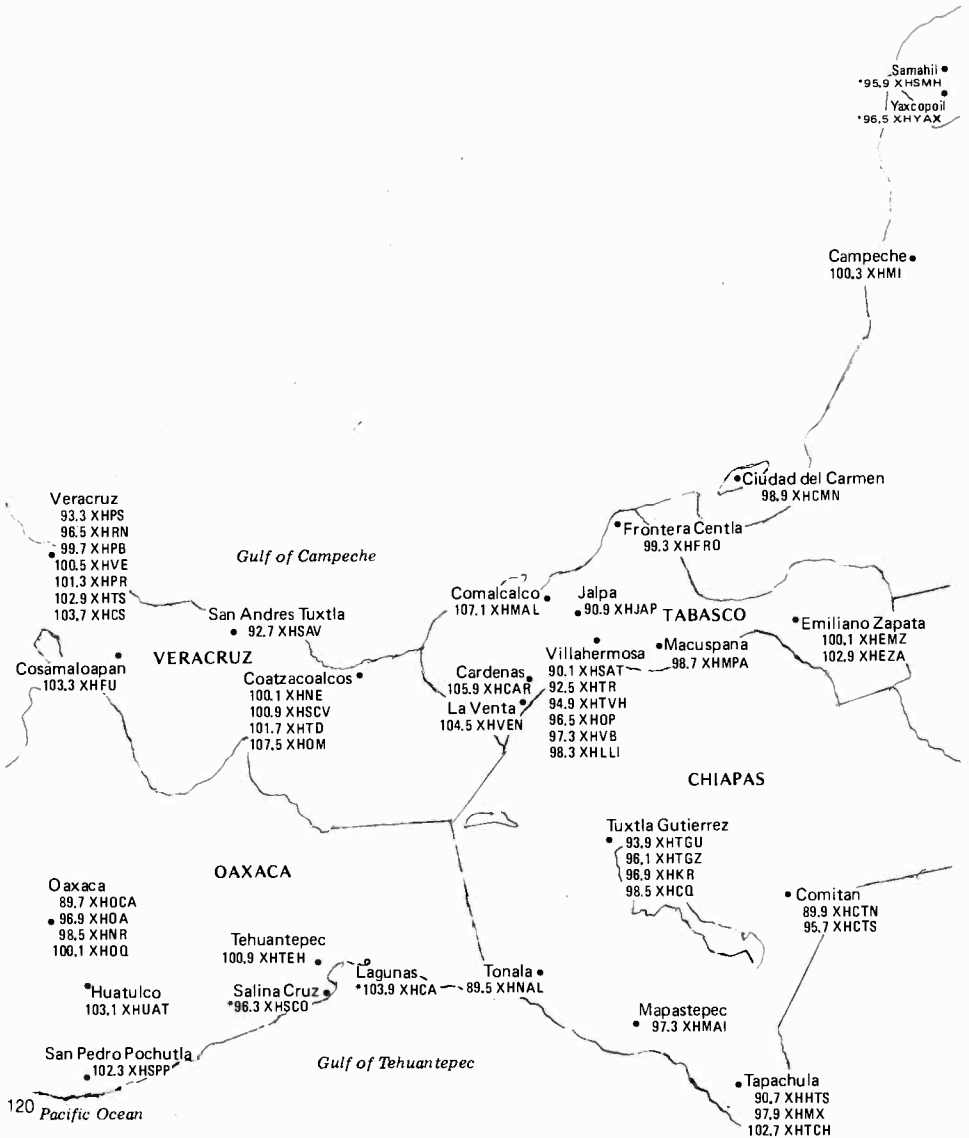

# MEXICO

[Northeast Mexico—the remainder of Mexico is on the following three plates]

Central Time Zone. Daylight Saving Time is not observed.

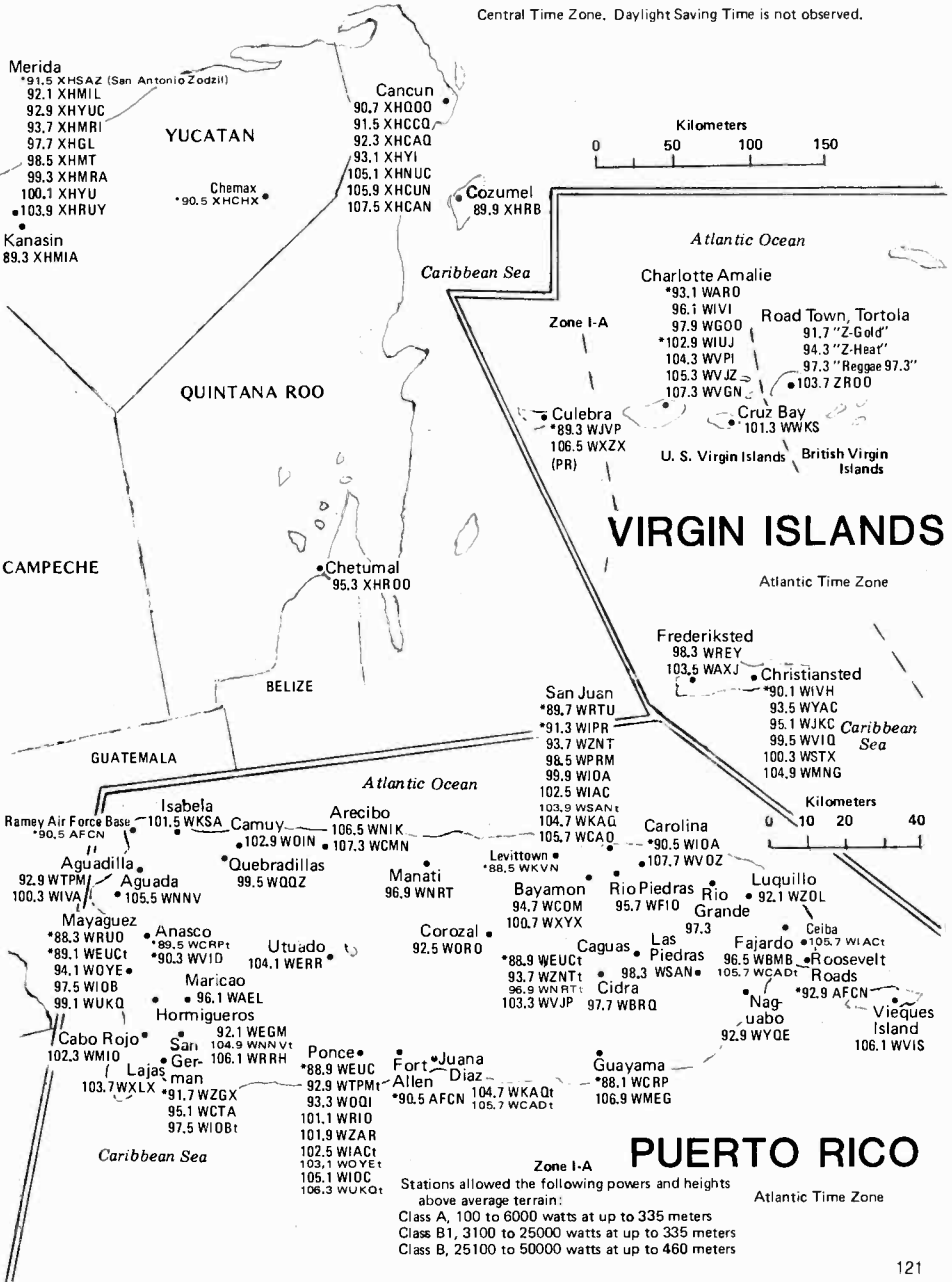

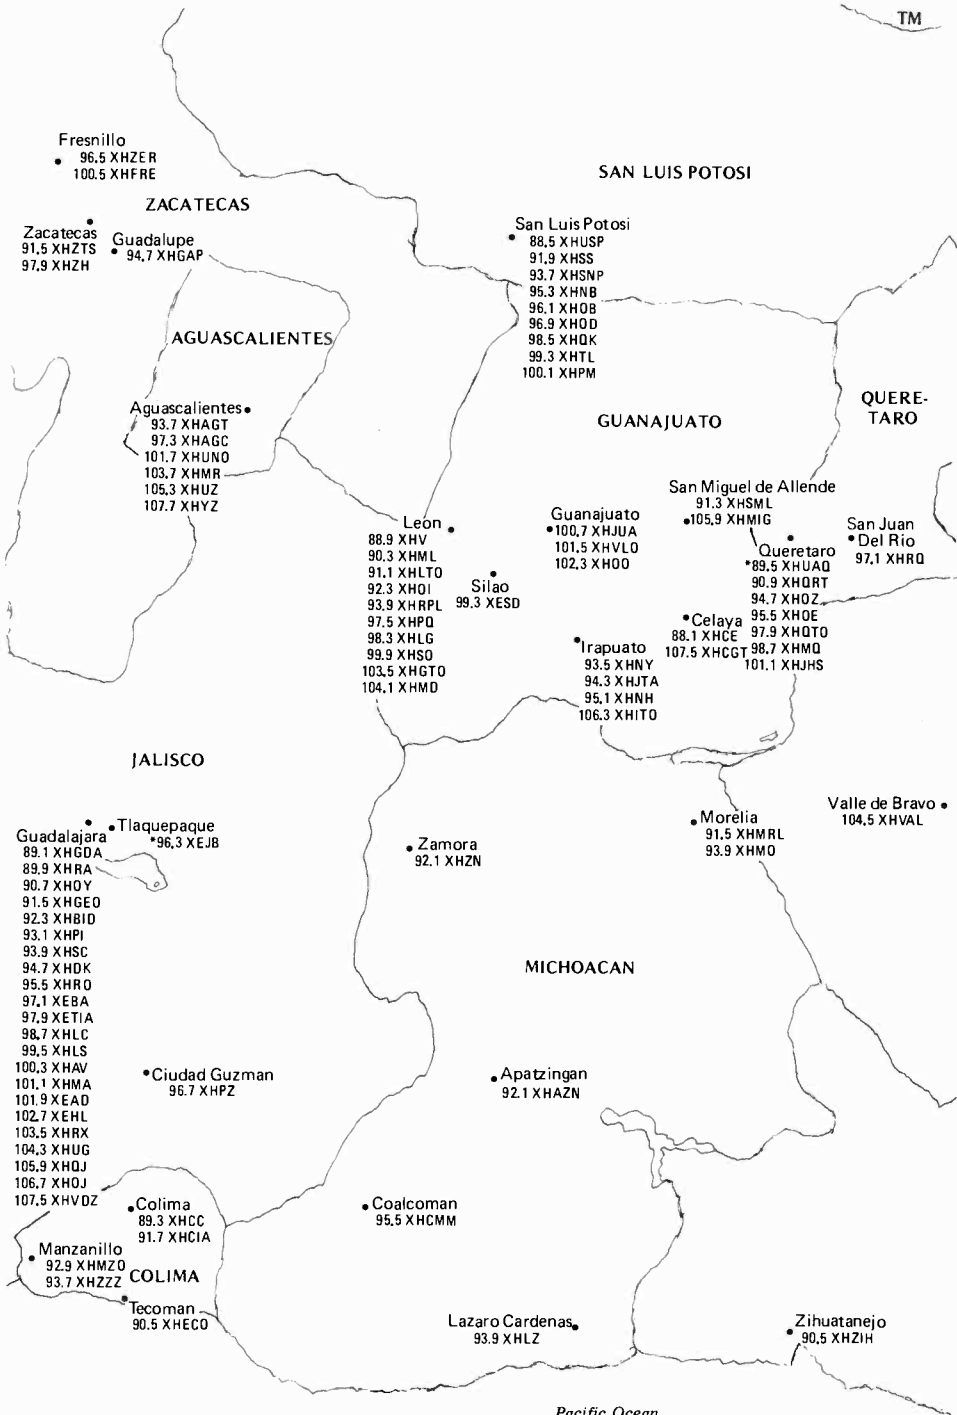

# MEXICO

[East Mexico—the remainder of Mexico is on the preceding and following plates]

Central Time Zone. Daylight Saving Time is not observed.

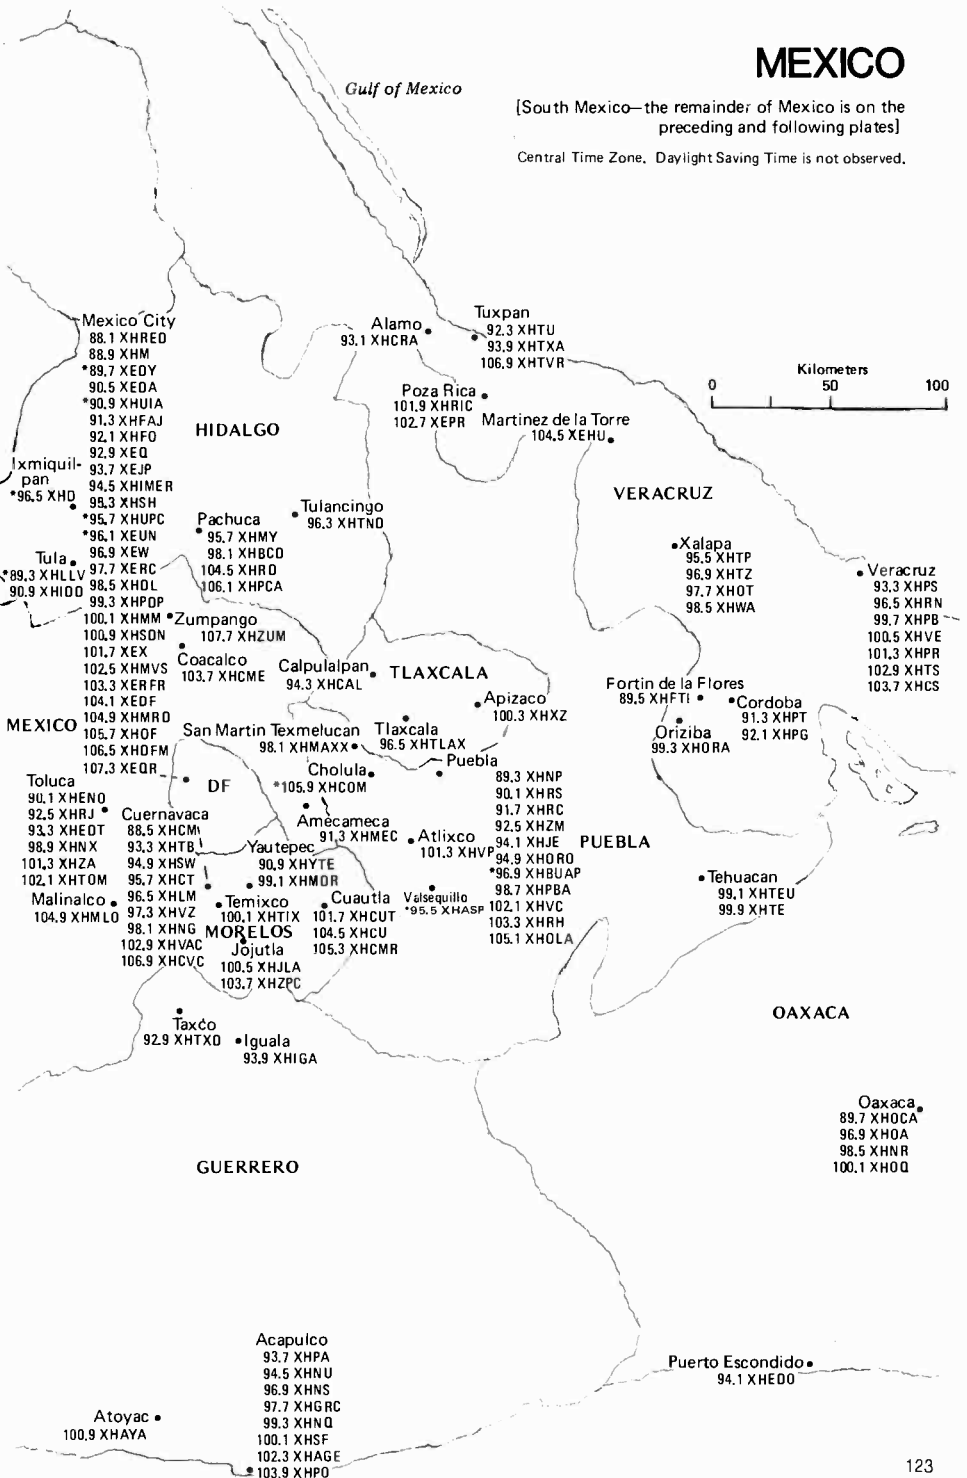

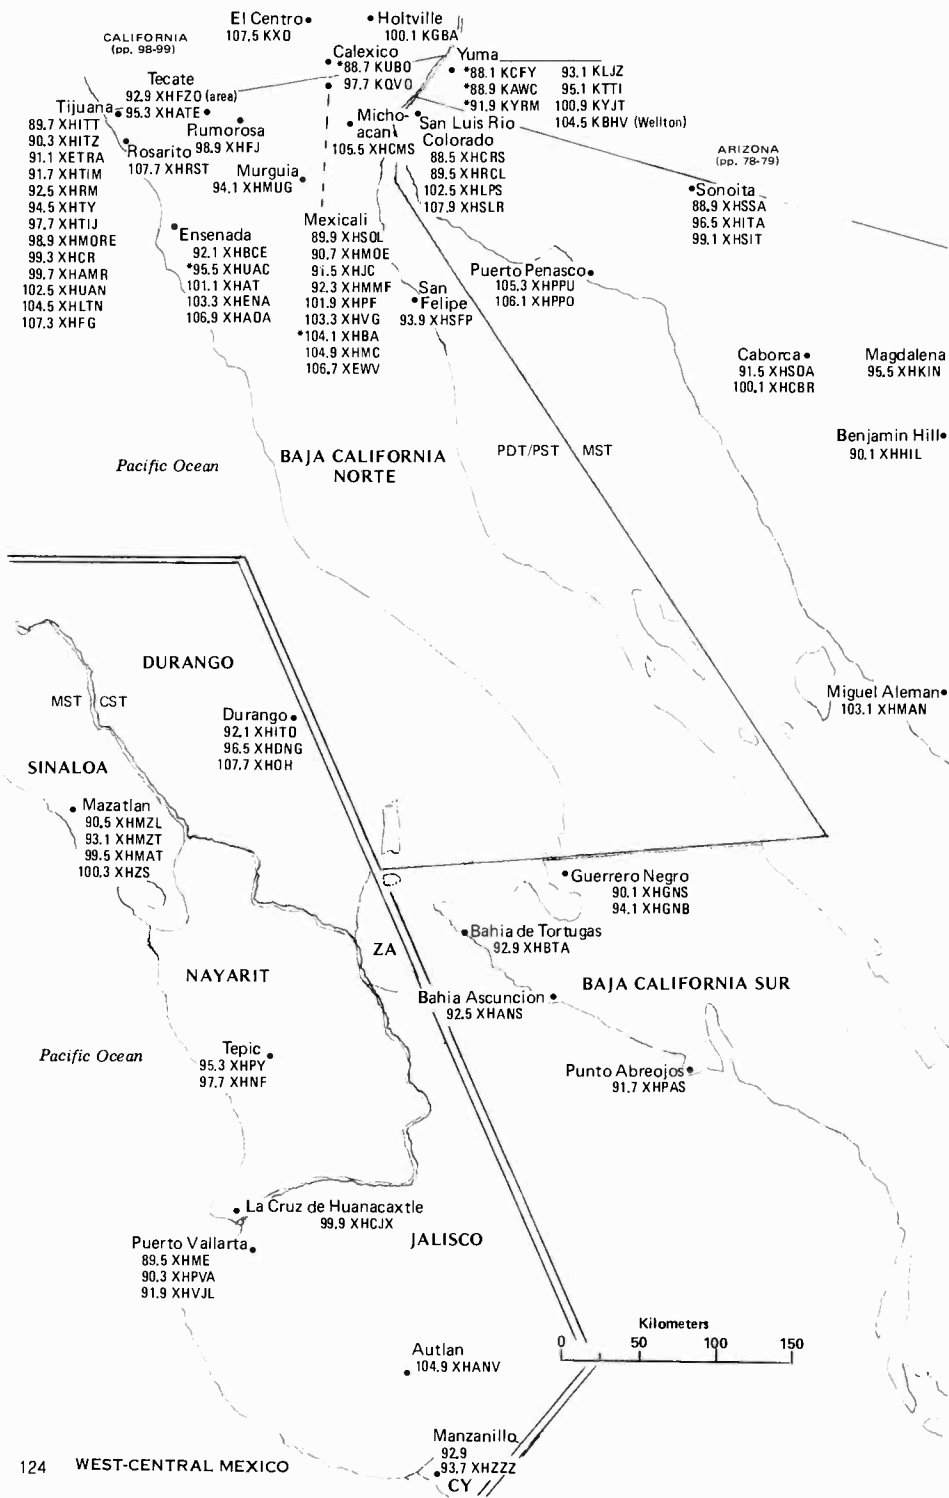

# MEXICO

[South Mexico—the remainder of Mexico is on the preceding and following plates]

Central Time Zone. Daylight Saving Time is not observed.

Gulf of Mexico

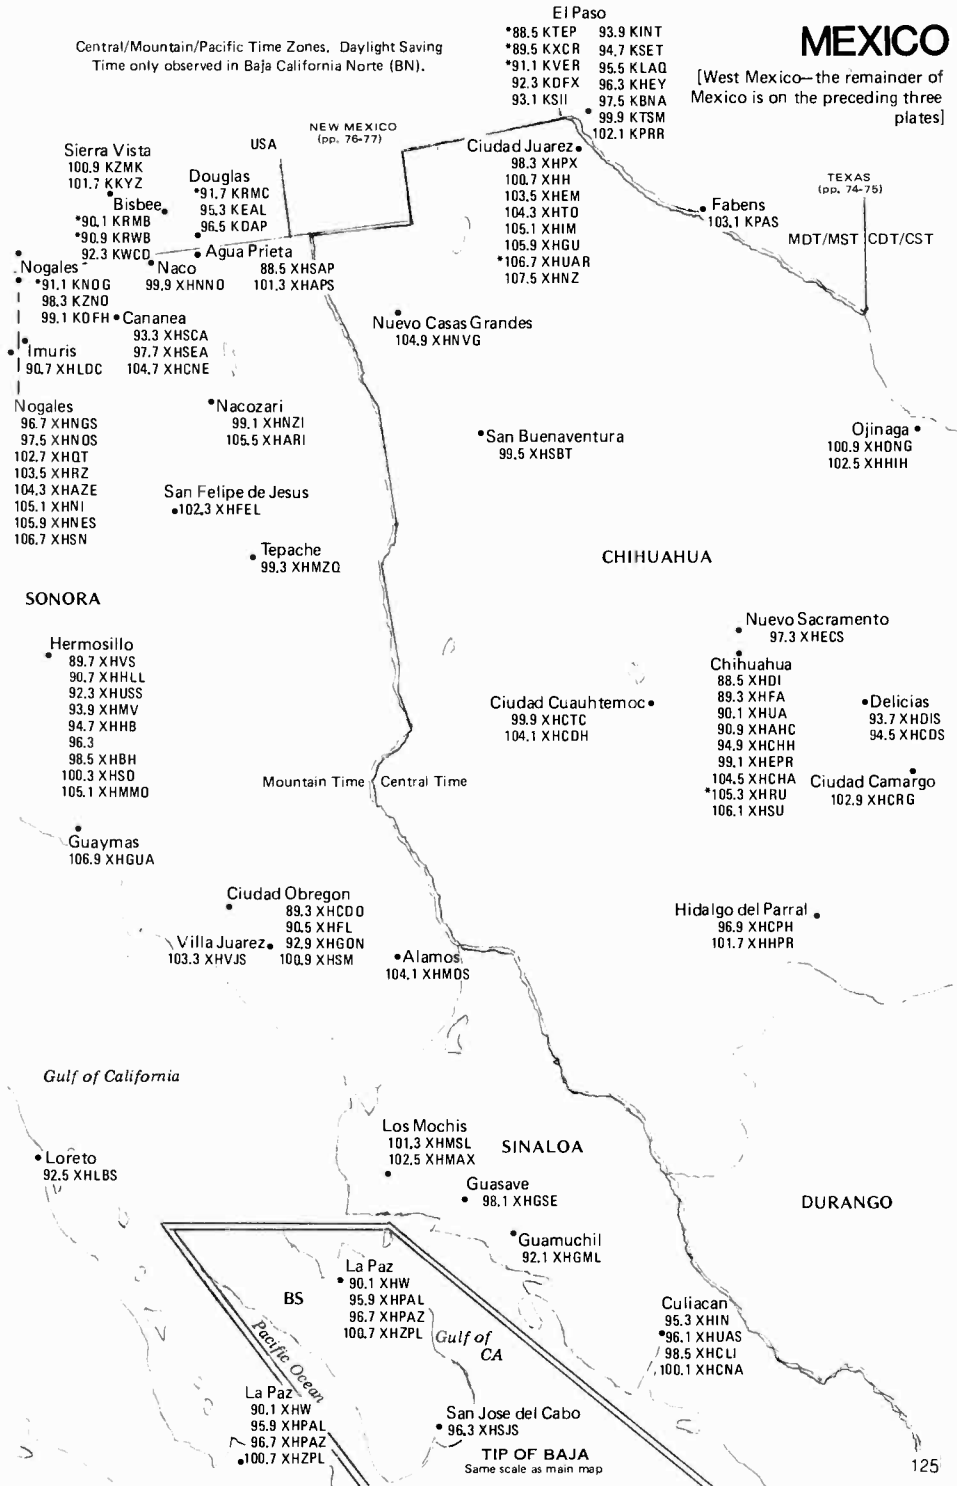

# MEXICO

[West Mexico—the remainder of Mexico is on the preceding three plates]

Central/Mountain/Pacific Time Zones. Daylight Saving Time only observed in Baja California Norte (BN).

# STATION DIRECTORY

Part I: FM Stations Listed geographically. Key to symbols is on p. 8.

### FM Translators—follow each station

Translators operate on a different frequency from the primary station, helping give *Fil* service where distance or terrain make direct reception difficult. Translators are limited to 250 watts, with some having only one or 10 watts. FM boosters operate on the same frequency as the primary station, with up to 20 percent of the power of the primary station. In the lists which follow, city, frequency and call number of the translator are followed by call letters and frequency of the primary. Boosters are identified by call letters of the primary followed by a numeral (such as CA's KBKE-105.5), and their radiated power.

## CANADA

Canada coverage note: Coverages are indicated only for stations where the effective antenna height above average terrain in meters is known. The powers of virtually all Canada stations can be checked in Part II of the Station Directory. Rebroadcasters are listed with their correct call numbers (such as VF2171) in the Directory, but the maps show the direction relayed, if that station is known.

# STATION DIRECTORY

Part II: FM stations listed by frequency, United States and Canada (excluding U.S. territories). Stations identifying with more than one city are listed, as are those using a short phrase ("nonID") in lieu of call letters during much of their programming. Selected station logos ("FMiscellany") are included on a space available basis. See **Key to Symbols** on Page 8.

# FMemoranda

Here's space to help you make better use of your *FM Atlas*, as either a trip planning aid, or for noting stations you receive at home. If you travel, you can pre-plan your FM listening, sticking to stations playing the kind of music you enjoy, or those having the widest coverages. Some people like to tune in low-power college stations and FM translators, and by pre-planning, you will discover many stations that you would otherwise ignore. Just write in the stations you expect to hear, in the order in which they should come in. At-home listeners might want to jot down antenna directions or distances to the stations.

There's more room on the next page for you to write in notations for another trip, or for extended notes on one long trip. You might want to use part of this space to make updatings to this *FM Atlas*, based on what you hear, or on what you find out in *FMedia!* as well as other sources. If you discover new station information, please sent it in to help make the next *FM Atlas* all the more complete.

Suggested information to list below for each station:

Frequency	Call/NonID	Format	Stereo?	Location or Antenna Bearing

## Other Selected Radio Station References

*FM Atlas* readers occasionally ask who publishes an AM Atlas, a TV list, or other specialized information. Here's a selected bibliography.

*Broadcasting and Cable Yearbook*, the "bible" of the industry, with its programming, technical and personnel data for AM-FM-TV stations. Lists consultants, engineers, attorneys, FCC rules, over 1000 pages. Advance standing order price for the 2000 edition \$161.95, or check on availability of the 1999 edition at R. R. Bowker, 1-888-269-5372, then "1." Can be seen at many college libraries.

*M Street Radio Directory*, 1998 Eighth edition, 950 pp. of FM-AM information, including a listing by call letters, selected station personnel, phone and FAX numbers, addresses, \$65 plus \$5 shipping and handling from M Street Corporation, PO Box 23150, Nashville TN 37202; (800) 248-4242 or (615) 251-1525. Check with them about a 1999 or later edition. They also publish the weekly *M Street Journal*.

National Radio Club AM radio log; also an AM station map book listing stations by frequency showing directional coverages. Updated annually. That and other NRC publications are shown in the club's catalog available from P.O. Box 164, Mannsville NY 13661-0164.

*BIA 1999 Radio Yearbook* is designed for commercial broadcasters, profiling the 261 Arbitron radio markets, and city of license listings for non-metro stations. \$69 postpaid to U.S. addresses from NAB Services, Dept. 77, 1771 N Street N.W., Washington DC 20036; 1-800-368-5644.
