# FILM does the “impossible”!

That's how it happens that you and millions of other viewers can see (and remember)—the lion strolling Wall Street.

Same with so many other commercials, some rich with optical effects . . .

others, live with animation! As a matter of fact, it's film that makes both high-polish commercials and animation possible . . . assures you of coverage and penetration world-over.

# Foreword

THIS IS the sixth edition of a reference book that is devoted to the business of television with due cognizance of its relationship to the business of motion pictures. As a companion volume of International Motion Picture Almanac (which has entered its 33rd year), International Television Almanac enjoys the editorial resources of Quigley Publications in both industries of the screen. In the 1961 edition, the facts of the television industry specifically are again brought up to date, compiled and arranged for convenient use by the staff of Quigley Publications with the expert inclusion of data on people, organizations and services of motion pictures that also are pertinent to television. With the 1961 edition, International Television Almanac carries forward a service for the whole business world of the screen.

—MARTIN QUIGLEY

# Dial Turning: a popular American sport

(OR HOW THE PUBLIC EXPRESSED ITS VIEWING PREFERENCES IN THE '50s)

SOURCE: 1 SUNDAY-SATURDAY 8-10:30 P.M. NIELSEN MULTI-NETWORK MARKETS, DEC. 1953-1958. \* NIELSEN 24-MARKETS, DEC. 1 1959.

In the '50s television came of age. Its growing pains were necessarily marked by occasional dislocations and disenchantments as well as by many brilliant cultural achievements.

And in the '50s, as television emerged as the world's largest mass medium, it became clear that the television audience is actually *many* audiences, with widely diverse tastes.

The programming obligations of the broadcasters must therefore be based on a democratic concept of cultural freedom—that is, the rights of the people to want what they want when they want it.

Obviously no one is told what to watch in this country. Instead of arm-twisting, we go in for dial-twisting. It is this broad freedom of choice, as it naturally evolved in the '50s, which makes the graph on the left worth noting. This graph shows at a glance how *consistent* has been ABC's gain in average share of audience† over the peak viewing periods of seven Decembers.

Today, in a medium where cultural democracy supplies the most definitive of measurements, ABC has now gained the largest share of audience.\* This is an expression of popularity achieved, it would seem, by giving *more* people what they want when they want it. This will continue to be our goal for the *sixties*.

**ABC TELEVISION**

The statistics herein have been compiled from varied sources within the Television industry and the Government, inclusive of the Federal Communications Commission, U. S. Department of Commerce, Radio-Electronics-Television Manufacturers Association, NBC Research Department, Publishers Information Bureau, Nielsen Television Index, American Research Bureau, Television Bureau of Advertising.

1952	6,096,280	1,049,000,000	1959	6,349,000	618,146,000

### COLOR RECEIVERS AND BROADCASTING

The number of color receivers in use increased from 435,000 sets in January, 1959 to 600,000 in October, 1960.

In 1954 there were only 68 hours of color programming. In 1960, it is estimated there were 32 hours per week of color broadcasting. A total of 354 stations are equipped to pick up network color.

### PUBLIC OUTSPENDS ADVERTISERS

It is estimated that the public has spent a total of \$17 billion on television receivers since the start of the medium 14 years ago and that advertisers have spent \$8.8 billion on time and talent in the same period.

# Advertisers

## NETWORK ADVERTISING—ESTIMATED EXPENDITURES BY PRODUCT CLASSIFICATION

Toiletries and toilet goods led all other product classifications in network television advertising for the period January–August, 1960, according to a special report by the Television Bureau of Advertising.

Toiletries and toilet goods show a total of \$75,142,722 for the period. Food and grocery products, first last year, was next with \$74,219,765.

## General Data

The Television Bureau of Advertising estimates that at the peak hours of 9 to 10 P.M. Monday through Sunday televisions sets were being watched in an average of 17,000,000 homes in 1955. Their figure for 1959 is 25,100,000.

In the 13 years since 1946 the number of homes having television sets has grown to over 46,200,000. Ninety-eight percent of U. S. homes are within range of TV stations.

The first production model of a Videotape recorder (Ampex) was installed at station KING-TV, Seattle in November, 1957. In November, 1960, there were about 1,000 of the machines in use. Between 75 and 100 regular syndicated television features are now being produced and broadcast on Videotape recorders.

## Films for Television

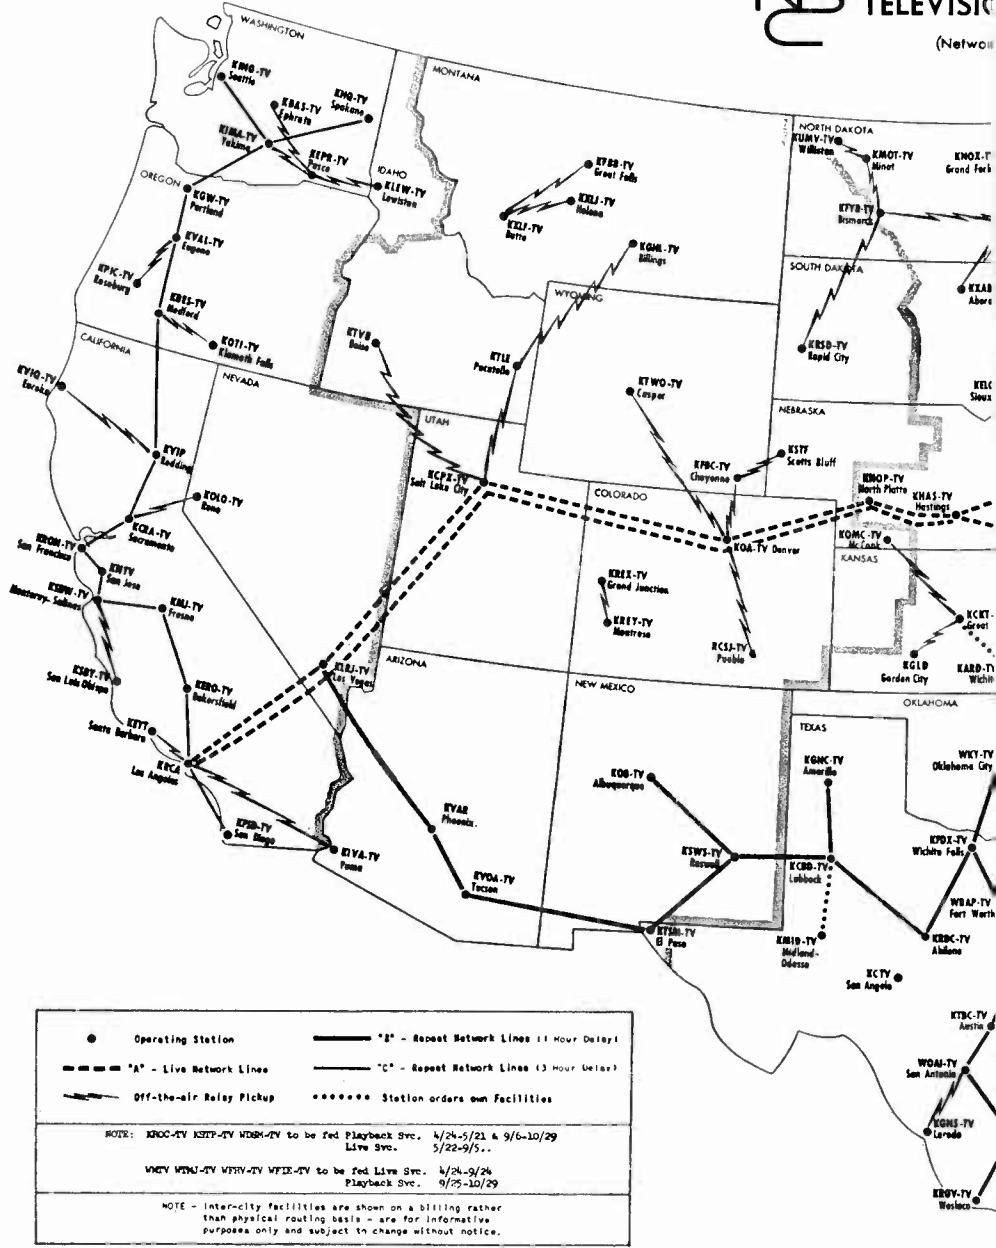

The average station uses film 29¼ hours weekly in a year; while all stations will use 685,736½ hours of film in a year.

The amount of film made for television since 1949-50 is more than \$304,000,000. This investment covers about 7,600 hours of television-produced film fare available. This does not include 3,017 hours of feature film, 989 hours of Westerns, 216 hours of motion picture serials or 11,494 hours of motion picture short subjects available.

The set shown with Mr. Upton is the RCA Victor Abington

John D. Upton, V.P. of N.W. Ayer & Son, Inc.:  
"Color is coming so fast in today's programming that  
I'd frankly feel lost without a color set in my home."

Like Mr. Upton, more and more people in marketing and communications find that owning a color TV set has become downright essential. How else, they say, can you keep abreast of the opportunities in this fast-growing and ever-changing medium? How else can you learn, so quickly, how to use color TV to your own best advantage?

DO YOU HAVE A COLOR SET? IF NOT, ISN'T IT TIME YOU DID?

The Most Trusted Name  
in Television

**“Action  
speaks  
loudest!”**

Speaking of sales... nothing speaks *clearer* than high-speed television action. And CBS Films has three of the fastest-moving action shows in all syndication:

**NAVY LOG**... the U. S. Navy at war and in peace, in 102 half-hours of adventure on the high seas. A favorite on network television for 3 years, “Navy Log” is repeating that success in scores of markets coast-to-coast.

**THE GRAY GHOST**... the daring exploits of Colonel John S. Mosby (of Mosby's Raiders), and the ideal action show to tie-in with the forthcoming Civil War Centennial celebrations. Stars Tod Andrews in 39 half-hours.

**U.S. BORDER PATROL**... the adventures of the nation's most active law-enforcement agency, battling crime on land, sea and in the air, along 6,000 miles of United States border. Richard Webb stars in 39 half-hours.

Want to turn up sales volume? Let one of these action-charged series do the talking for you.

**CBS FILMS** 

*“...the best film programs for all stations”*

New York, Chicago, Los Angeles, Detroit, Boston, St. Louis,  
San Francisco, Dallas, Atlanta. Canada: S. W. Caldwell Ltd.

# 20 YEARS OF SERVICE TO MUSIC

**S**ERVICE continues to be one of the basic theme songs at BMI. Not only are its facilities offered to its TV licensees, but to producers, advertising agencies and their clients, TV film distributors, music conductors, directors and everyone in TV concerned with music and programming. This service is apparent in the day to day activities of BMI and is provided in many forms, such as:

- Assistance in the selection or creation of music for theme, background, bridge, cue or incidental mood music.
- Aid in music clearance.
- Help in protecting music ownership rights.
- Answers to questions concerning copyrights, music right for future residual usage and help in solving all other problems concerning the use of music in TV.

## TELEVISION *Sketch* BOOK

Practical working scripts for the presentation of songs in dramatic, comic and pictorial fashion. Song hits as well as the standard favorites are developed into photogenic sketches which can be used effectively as complete musical shows, as production numbers in variety shows, or for scene-setting segments. Look for the BMI TV Sketchbook when it reaches your station each month.

Let BMI give you the TV Music Story. Call or write  
BMI TV SERVICE department.

# ASCAP REPRESENTS GREAT MUSIC

The American Society of Composers, Authors and Publishers (ASCAP) has a membership of 5,606 authors and composers and 1,536 publishers. These talented men and women create the best in American music which is known throughout the world. ■ The Society's

members write the popular hit songs, rhythm and blues songs, great sacred music, the songs from world-famous Broadway productions as well as the top Hollywood musicals, and the symphonic and concert music of our concert halls.

■ Organized in 1914 by a small group of writers and publishers, the Society is dedicated to seeing that every man and woman who creates musical works for the benefit of the American public shall receive just financial return when his *copyrighted music is publicly performed for profit*. In seeing to it that this right is amply protected, the Society encourages future creation of our American musical culture. ■ The ASCAP repertory is available to all users of music through a single license. ■ *ASCAP represents the great music of America.*

# TV Channel Allocations

ON April 13, 1952, the Federal Communications Commission announced lifting of the "freeze" on new television station construction which had been in effect since September 30, 1948. In so doing, it also made public the allocation of the new ultra-high frequency channels and some changes in the existing very-high frequency bands. Theoretically, allocation of the ultra-high frequency channels makes possible 2,053 new stations in 1,291 communities. This includes 242 exclusive educational outlets and is in addition to the 108 TV stations then on the air. Following is the complete list of cities and the channels assigned to each. The population of each community is given in parentheses. The asterisk (\*) preceding a channel number indicates a frequency reserved for educational use.

As of May 7, 1960, the Commission has made 163 assignments—60 very-high frequency and 103 ultra-high frequency.

Town and population	Channel No.	Town and population	Channel No.
<b>ALABAMA</b>

7324 Santa Monica Blvd., Hollywood 46, Calif.; OLDfield 4-3658. Louis DeWitt, president. (Producers of commercials.)

## **CHARGE!**

A few years ago, Flamingo challenged the stale concepts of tv film distribution. We rejected Hollywood's pot-boilers and called for the programming of distinguished international features. With confidence in the growing demand for quality, we introduced the exciting Critics' Award and Festival Packages. Our courage and foresight were rewarded with success. Today, in the same fine tradition, we offer the regal Imperial Package. Our days of pioneering are over. Flamingo is the established leader of an expanding field.

We are a dynamic organization dedicated to superior programming. Not content with past victories, Flamingo hurls the challenge anew.

The imaginative Nutty Squirrels Tales is the most attractive property in the cartoon market. And let competition beware ... Flamingo distributes the top-rating favorite Superman, which reaffirms our standard: the very best entertainment for every age and taste.

**FLAMINGO FILMS, INC.**

**221 West 57 Street, New York 19/JU 6-7040**

## CREATE

## THE RIGHT MOOD

## EVERY TIME

with the

# MAJOR MOOD MUSIC LIBRARY

Major offers you a full twenty hours of mood music for titles, bridges, background — for scoring, editing, recording and dubbing music for your feature productions, documentaries, TV films, slide films, animation, sales presentations, industrial films and commercials.

Major specializes in sound — you get exceptional technical know-how and beautifully-recorded original music.

IMPORTANT: Major owns its own copyrights on *all* mood music in its library; world rights available to you on a completely sound legal basis. Records available on a "per selection" or "unlimited use" arrangement.

# EDITORIALIZING?

## Here Are New Tools for a Bigger Job

Ask any station broadcasting editorials — and you'll discover how highly rewarding this activity can be! It's a vital public service; it improves "station image," and *it's good business* — one station doubled the rating of a newscast by using the last three minutes for editorial comment!

Now, with **BROADCAST EDITORIAL REPORTS** you can expand your station's service to include national and international affairs which are of vital concern to your local audience.

**BER** provides daily, authoritative "opinioncasts" — three minutes of background material and analysis, plus opinion. These can be used just as received — or revised by broadcasters to advance their own views. The reports are marked to allow for use as one-minute editorials.

### World-famed Staff

The men who prepare these "Opinioncasts" include such veteran global newsmen as H. V. Kaltenborn... Henry Cassidy... W. W. Chaplin... Leon Dennen... Eugene Lyons... Louis P. Lochner... John Luter... Will Oursler... Ansel Talbert and other notable analysts, supplemented by experts in specialized fields.

### Low, Low Costs

Rates, based on market population, range from \$7.00 to \$70.00 per week. Service is exclusive to one station in a market. Get all the facts on BER and sample editorials; contact A. Maxwell Hage, President and Editor-in-Chief.

# TELEVISION IN CANADA

*Toronto, August, 1960*

**T**HE Canadian television industry is holding its breath. The second station licenses have been granted and everyone is waiting to see what will happen—can the second stations show a profit.

Until the past year, the government-owned Canadian Broadcasting Corp. owned and operated the TV stations in the key cities of the country. Then with a change in the Federal Government, a new policy was introduced. The administration of broadcasting was taken over from the Canadian Broadcasting Corp. and transferred to the Board of Broadcast Governors. The CBS was left to govern itself under the watchful and sometimes-interfering Federal Cabinet.

Then came the scramble for licenses. Sometimes the BBG ruling was expected. On other occasions it wasn't. Whatever its ruling, the results were contentious in conversation, in Parliament and in the columns of the newspapers.

Licenses for second stations were granted in Halifax, Toronto, Winnipeg, Edmonton, Calgary, Vancouver and Ottawa, with two licenses—a French and an English license—granted in Montreal.

Out of the country interests also showed up in the license applications. These included NTA Telefilm of USA through its interest NTA Telefilm (Canada) Ltd., Granada TV network of the United Kingdom, and Associated TV, with its interest in Canastel Ltd. Control of the stations however, remained with Canadians. Under the regulations, a broadcasting station must be 75 per cent owned in Canada.

The new stations have formed a body to be known as the Independent Television Organization. It is expected to form a private network in competition with the Canadian Broadcasting Corp.

Ground rules have been set up by the BBG for the new network. The stations have been told they must submit applications for approval to the BBG to operate a TV network. The BBG has pointed out that the Broadcasting Act enables the BBG to require the stations to operate as part of a network of the Canadian Broadcasting Corp. and the Board will continue to recommend licenses subject to this condition where necessary to the national service. The national service being the obligations by the stations to see that all of the country's population is fairly served.

Even before the BBG granted licenses for the second stations, the BBG laid down certain regulations to increase the use of Canadian content. It ordered that the Canadian content

shall not be less than 55 per cent of the total program content during any four-week period.

TV stations in operation at the time of the announcement have until April 1, 1961, to build up the proportion of Canadian content to 45 per cent, and a further year in which to increase the Canadian content to 55 per cent. New stations coming into operation before April 1, 1962, will be expected to plan a progressive increase in Canadian content in order to reach 55 per cent by that date. English-language programs produced in Commonwealth countries and French-language programs produced in French language will count as 50 per cent Canadian.

The BBG said that the regulation would facilitate production of TV films in Canada and will assist Canadian broadcasting stations to meet the requirements of programs of Canadian content and character. Color in Canada is still some distance off. The BBG said it was not issuing licenses to broadcast in color. It recommended however, that it would be well for applicants for second TV licenses to make provisions for facilities for the transmission of broadcasts in color.

Production of TV film series in Canada has been fairly active in past years. But in the last year, it sank to a new low ebb. Interest is high, physical facilities in this country are available, but financing is lacking. Prominent among the film series made during the past year were RCMP and Hudsons' Bay. The former was made with domestic financing, while the latter came in with American money. The latter hasn't been seen on Canadian screens yet.

The CBC has been a big brother to Canadian film production in this country. Its \$3,500,000 spent on film production, was distributed among 30 film producers. This was in contrast with the National Film Board, like the CBC a Government agency, which spent \$3,483,551 in film production. But the bulk of its money stayed with the board.

The CBC meets its program requirement by external and internal production; by purchase from producers and distributors of television rights to syndicated materials and feature films, and by encouraging production through financial participation and through reserving air time for suitable properties.

Some indication of the size of CBC operations may be gained from the knowledge that for the past fiscal year, its total operating expenses—for both TV and radio—was \$90,864,218. The bulk of this money came from the taxpayers of the country, through a parliamentary grant, while commercial income pro-

vided 42 per cent of its funds. This percentage is expected to drop with the presence of second TV stations.

New advertising income will be found by the TV stations in liquor advertising. Regulations on this type of advertising were recently changed, with the result that much of the money previously placed the U.S. stations will now be placed in this country.

Of consequence to the TV industry was the initiation in February of this year of Telemeter in Etobicoke, a suburb of metropolitan Toronto. Through a subsidiary of Famous Players, a company controlled 51 per cent by Paramount Pictures of the United States, Telemeter was given its first real test.

The test is continuing. The immediate objective is to reach about 6,000 homes before letting the system follow its own course for a period of six months, so that a reaction may be obtained. The novelty of the test attracted many families who spent far above their normal entertainment budget, a survey showed. Films shown on the system are second run for the city of Toronto. Also shown have been hockey games not on free TV, and football games blacked out from free TV.

The first system has been designed to cover an area of approximately 13,000 homes. It is estimated it can be expanded to cover an area of 40,000 homes without additional expenditure.

—Harry Allen, Jr.

#### Board of Broadcast Governors

The Broadcasting Act (1936) was superseded in 1958 by a new Act which created Board of Broadcast Governors whose duties included the recommending of grants of licenses for radio and television stations, and the regulation of broadcasting.

The Board has a chairman, vice-chairman and one full-time member, all appointed for a seven-year term. The other 12 members, part-time, serve for five years.

Chairman, Dr. Andrew Stewart; Vice-Chairman, vacant; Permanent member, Carlyle Allison; Part-time members, Joseph F. Brown, Vancouver; Dr. Mable G. Connell, Prince Albert, Sask.; Guy Hudson, Quebec City; Yvan Sabourin, Montreal; Mrs. R. G. Gilbride, Montreal; Colin B. MacKay, Fredericton; Roy D. Duchemin, Sydney, N. S.; J. David Stewart, Charlottetown, PEI; Rev. Emlyn Davies, Toronto; Dr. Eugene Fersey, Ottawa; Edward A. Dunlop, Toronto.

# THE BRITISH YEAR IN REVIEW

by PETER BURNUP

TELEVISION'S appeal continues to mount here; albeit, with a lessening momentum.

At the last recording—in May, 1960—a total of 10,646,938 domestic reception licences were found to be in operation, in comparison with the 9.3 million a year previously. But an indication of the deterioration in the medium's initial impact is seen in the fall-off of sales and rentals of reception sets. The year 1959 saw the biggest boom the industry had known in this country with 2.84 million TV sets made. The dealers took 2.75 million and the public acquired 2.5 million for cash, on credit or by rental. In 1960 sales are not expected to pass the 2.1 million mark.

Wishful thinkers among the industry's pundits comfortably ascribe the disturbing circumstance to the decline in novelty appeal. Realists, however, among them concede readily that the invariable "captive audience" no longer exists and that an attitude of growing discrimination is to be observed among viewers in every part of the country. It takes an occasion, say these authorities, to keep the maximum audience now in its homes. Princess Margaret's wedding in early May, for example, was seen by 26 million viewers, of which vast congregation the BBC claimed 21,450,000, with the remaining 4,300,000 tuning-in to the commercial service. The same audience ratio prevailed during the last General Election and on Christmas Day, 1959.

All those circumstances despite, it is now generally accepted that the Government's recently imposed "credit squeeze" and consequent hire-purchase controls will result in a sharp deterioration of TV set sales and a consequent fall-off in the medium's optional audience capacity.

With the construction of a series of satellite stations the commercial service, administered by the Independent Television Authority, is expected to attain nationwide coverage in the course of 1961. (The I.T.A.'s revenue and that of its programme contractors arises in the sale of advertising time; whereas the BBC is sustained by the domestic reception licence fund.) But, anomalously, the share of TV viewing-time attributed to the commercial system is currently showing a steady decline. In the year 1957 the BBC's share had fallen below 30 per cent of the total audience. Over the last six months the proportion of the total audience with multi-channel sets watching the commercial network has fallen from 72 per cent to 66 per cent. The programme contractors are now faced with the disturbing situation of occupying a declining

*London, September, 1960*  
share in a still expanding market.

Admittedly there's an occasional primness about the BBC's programmes; whereas the commercial system (arising out of the exigencies of the advertising "spots" appeal perforce to the widest potential audience) deals mainly in shows of the calibre of *Wagon Train* and *The Larkins* which customarily have audiences of around 20 million viewers.

But the BBC rightfully claims that 35 per cent of its programmes are of a serious nature, against around 10 per cent on I.T.V. There's a fine urgency about many of the BBC's outgivings, particularly those in the form of current affairs discussions. Assuredly no sense of pessimism is to be discerned in the corporation's top echelon of authority. The first of the seven studios at its Television Centre in the London suburb of Shepherds Bush has now become operational. It is claimed to be the largest and best-equipped "factory" of its kind in the world. Its output in terms of quantity would be the equivalent of 1,000 full length feature films a year. Plans for its further development and cost will be contingent on decisions yet to be made; decisions involving colour television and whether the prospective Third Channel is made available to the BBC.

Colour television, nevertheless, on the authority of the Government's Television Advisory Committee, must remain one of the intangibles of the remote future. In a recent report the committee says bluntly that "colour television is not yet ready to be introduced." It recommends that a decision on future monochrome line standards should precede the start of a colour service and that, if 625-line standards are adopted in lieu of the 405-line standard now in operation here, colour when introduced should use the new line standards. The Committee makes clear also that, in its view, further consideration must be given to other technical requirements for colour television; in spite of recent evidence of quickening interest in colour in the U.S.

The present Postmaster-General, the government minister in control of television, has gone on record with the view that a decision on the improved line standards is unlikely to be taken until 1962. A start could then possibly be made on the 625-line networks by 1964, coinciding with the granting of a new charter to the BBC. If development follows the expected pattern it will be 1974 before there is a complete 625-network and it may be 1984 before there is a colour network.

The Advisory Committee's report emphasises that the existing 405-line standard will not meet all requirements of the next 25 years. The 625-line standard will give improved quality, with the prospect of better pictures as technique improves and also help in the exchange of programmes with the Continent of Europe.

The committee is concerned with the opening up of two new wave length bands on extremely short wave lengths, known technically as Bands 4 and 5.

At present, the BBC's television transmission is in Band 1 and I.T.V.'s in Band 3. With fairly narrow channelling—so the committee opines—and 405 lines there could be three programme networks in Bands 1 and 3 and possibly as many as five in Bands 4 and 5. But with 625 lines and a wider band width giving improved definition vertically and horizontally in the future there could be a total of only five networks. Two of these would be in Bands 1 and 3 and three in Bands 4 and 5. Also to be taken into account is the cost to the consumer in the shape of adaptations of domestic reception sets; or in the purchase of new sets capable of receiving 625-line transmissions. That is why—in the opinion of the best informed—it will be necessary to maintain a dual standard for a number of years.

Clearly, television's future here will give the Government immense concern before 1964, when new charters will require to be accorded to both the BBC and I.T.A. and when—as is generally assumed—a third wave length will be authorised.

It is notorious that intense intra-mural lobbying in electric circles has already commenced in behalf of the interested parties. The BBC feels that it has a pre-emptive right to the proposed Third Service in view of the obligations laid upon it in the governing Act of Parliament. Tentative approaches have been made by the motion picture industry for a licence to be granted it for the franchise to the same service. Then to be regarded are the fabulous profits which have accrued to programme contractors fortunate enough to have gotten in at the inception of the commercial service. Those visionary venturers are disposed to feel that they have squatter-rights to the proposed new wave length. They claim, at least, that they have the know-how.

Their earnings have taken on the momentum of an Alaskan gold rush, in spite of the dubiety expressed in more cautious coteries at the inception of the service. At its very minimum, the aggregate revenue accruing to programme contractors in advertising charges now runs at an average of £55 million-£60 million per annum; with 33,000 to 34,000 advertisement spots being carried monthly.

Following indignant protests from bodies to viewers and—doubtless more signifi-

cantly—from Governmental circles, the Independent Television Authority told the programme companies to cut peak-hour advertising from the present authorised eight minutes. The reduction will be in two stages; to 7½ minutes in an hour from September, 1960, and to 7 minutes in an hour from December, 1960. To this ordinance the companies concerned promptly reacted by increasing their advertising rates in the select hours.

An index to the present profitability of programme contracting is to be seen in the accounts lately issued by the concern known as Rediffusion, which holds a 37½ per cent in Associated-Rediffusion, the London weekday programme contractor. Group trading profits and investment income for the year ended March 31, 1960, are 38 per cent higher than the previous year. Associated British Pictures Corporation, which runs the second largest cinema circuit in this country but which operates also as a TV programme contractor, maintains its dividend at 60 per cent (an otherwise unknown figure in theatre operations at this time) despite a warning a year ago that profits from the corporation's TV interests were likely to suffer from reorganisation and higher production costs.

In spite of loudly uttered threats of legal injunctions and the like, the operations of the subtly fashioned Film Industry Defence Organisation—known colloquially as FIDO—continues to be a success. During the last year only one considerable deal was made between film producers and a TV programme contractor, and that involving the imposition by exhibitors of the penalty of boycott on the offending film-makers. FIDO's authorities claim that their activities have withheld "thousands of old films" from the enemy. Nevertheless, the integration of motion picture operators with the rival medium proceeds apace; with Associated British Pictures, Granada and the Rank Organisation all now operating as programme contractors to the commercial network.

Visionary John Davis, deputy chairman of the Rank Organisation, believes that integration will presently become deeper than ever. Donning a Mosiac mantle, he declares that both large-screen television and toll-TV will have their parts to play in motion picture's future. Outstanding "live" attractions on theatre television screens are inevitable and toll-TV must take its economic place in the motion picture operations of the future. Toll-TV, says prophet Davis, has been the plaything of power politics for years. Technically, it is "here" now. The Rank chief concedes that many practical problems will require to be ironed out; but he cannot believe that "the economics of the market place" will not prevail in the end. "Personally," says Mr. Davis, "I am convinced that we have to harness television to our own demands."

## INDEPENDENT TELEVISION AUTHORITY

14 Princes Gate, London, S.W.7. Telephone: Knightsbridge 5341.

(Set up under the Television Act, 1954 which provided for setting up an Independent Television Authority to provide for ten years, or longer if Parliament so determines hereafter, television broadcasting services additional to those of the British Broadcasting Corporation.)

The members of the Authority are appointed by the Postmaster-General and consist of a chairman and deputy chairman and eight other members, of which three make the interests of Scotland, Wales and Monmouthshire and Northern Ireland, respectively, their special care.

The Authority's powers include power to provide and work the requisite television stations under license from the Postmaster-General.)

Sir Ivone Kirkpatrick, G.C.B., G.C.M.G., (Chairman), J. Alban Davies, Miss Diana Reader Harris, W. B. Beard, O.B.E., T. H. Summerson, J.P., The Hon. Dame Frances Farrer, D.B.E., Prof. D. Talbot Rice, M.B.E., Sir John Carmichael, K.B.E., Sir Lucius O'Brien.

*Director General:* Sir Robert Fraser, O.B.E.

*Deputy Director General:* B. C. Sendall, C.B.E.

*Accountant:* A. S. Curbishley, A.A.C.C.A., O.B.E.

TRANSMITTER STATION

## BUILDS COMPLETE STUDIOS

Many countries owe their first glimpse of TV to the resource and enterprise of Pye. Today Pye transmission equipment is used by the television services of more than twenty-eight nations throughout the world. Even in such countries as America and Canada, where television is highly developed and keenly competitive, the Pye product is increasingly in demand. The company's pioneering work in the field of TV transmission and the succession of major developments which they have introduced have given Pye a place of leadership in the industry.

For full technical details write to Pye T.V.T.Ltd., Cambridge, England.

terest in the welfare and education of children and young persons):

Sir John Wolfenden, C.B.E. (*Chairman*); Dr. W. P. Alexander, L.H.D., Ph.D., Ed.B., M.A., B.Sc., F.B.P.S.; Miss J. M. Rosdet, B.Sc.; Sir Ronald Gould, M.A., Hon. F.E.I.S.; Dr. H. # MITCHEL-VINTEN

## Anglo-American co-operation

The Mitchell Camera Corporation of California and W. Vinten Ltd., of London have joined forces to promote sales of Vinten studio equipment in the United States and Mitchell products in Europe. The Mitchell-Vinten Sales Corporation, Inc. has already opened offices in 666 West Harvard Street, Glendale, California and Room 710, 521 Fifth Avenue, New York, N. Y. Through the new Company service facilities are now available to all users of Vinten products in the United States. Similar facilities will soon be available in London to sell and maintain Mitchell products in Europe. Sales of Vinten products in other areas outside the United Kingdom will still be handled by Cinematograph Export Ltd., through their usual agents.

15/17 Goodge Street, London, W.1. Telephone: Langham 6941.

Director: D. M. Keegan, M.P.

Secretary: J. E. Mountain, F.C.I.S.

**THE RADIO INDUSTRY COUNCIL**

59 Russell Square, London, W.C.1. Telephone: Museum 6901.

Director: Air Marshal Sir Raymund G. Hart, K.B.E., C.B., M.C., A.R.C.S., M.I.E.E., M. Brit. I.R.E.

Secretary: G. B. Campbell

**RADIO SOCIETY OF GREAT BRITAIN**

28/30 Little Russell Street, London, W.C.1. Telephone: Holborn 7373.

Gen. Secretary and Editor: John Clarricoats, O.B.E.

**RADIOWRITERS ASSOCIATION**

(Affiliated to the Society of Authors) 84 Drayton Gardens, London, S.W.10. Telephone: Fremantle 6642.

Secretary: Helen Lehmann, M.A.

**RELAY SERVICES ASSOCIATION OF GREAT BRITAIN**

75 Cannon Street, London, E.C.4. Telephone: City 1172-3.

**SOCIETY OF AUTHORS**

84 Drayton Gardens, London, S.W.10. Telephone: Fremantle 6642.

(Officially representative of authors.)

President: John Masefield, O.M.

Sec-General: D. Kilham Roberts, O.B.E., M.A.

Secretary: M. E. Barber, M.A.

Sec. Radio: H. Lehmann, M.A.

**SOCIETY OF FILM AND TELEVISION ARTS LTD.**

3 Soho Square, London, W.1. Telephone: Gerrard 4235.

(On January 1, 1959, this Society was founded to amalgamate into a single organisation and to continue the combined work of the British Film Academy and the Guild of Television Producers and Directors.)

President: HRH The Prince Philip, Duke of Edinburgh, K.G., K.T.

Chairman: Bill Ward.

Secretary: J. H. Lawrie.

Deputy Secretary: Mrs. P. J. Steele.

**SONGWRITERS GUILD (OF GREAT BRITAIN)**

32 Shaftesbury Avenue, London, W.1. Telephone: Gerrard 1554.

President: Sir Compton Mackenzie.

Chairman: Paddy Roberts.

Vice-Chairman: Hubert W. David.

General Secretary: Victor Knight.

Asst. General Secretary: Judith Henry.

(Official organisation representing British writers of popular songs and light music.)

**SOUND FILM MUSIC BUREAU LTD.**

Elgar House, 380 Streatham High Road, London, S.W.16. Telephone: Streatham 3181-8. Telegraphic Address: Sofimus, London, S.W.16.

Manager: Joyce M. Dixey.

Secretary: Anne Bolton.

(Objects: Membership of the Bureau covers the majority of English music publishers and other owners of copyright music. The function of the Bureau is to act on behalf of its members in respect of the use of their copyright music in sound films. Applications for permission to make such use of music under its control should be made in writing to the Bureau.)

**TELECOMMUNICATION ENGINEERING  
AND MANUFACTURING ASSOCIATION**  
Stafford House, Norfolk Street, Strand,  
London, W.C.2. Telephone: Temple Bar  
6824.

Director: H. Faulkner, C.M.G.

**TELEVISION AND SCREEN WRITERS  
GUILD**  
7 Harley Street, London, W.1. Telephone:  
Langham 5391.

(In 1959 the British Screen and Television Writers Association and the Radio and Television Writers Association were amalgamated to form this Guild. Its object to further and protect the interests of its members and to obtain for British television and screen writers terms comparable to those long accepted in other fields.)

General Secretary: S. E. Honess.

Hon. Secretaries: Helen Lehmann, Leigh Vance.

Hon. Treasurer: Bryan Forbes.

**TELEVISION SOCIETY**  
166 Shaftesbury Avenue, London, W.C.2.  
Telephone: Temple Bar 3330.

President: Sir George Barnes, M.A., D.C.I.

Secretary: G. Parr, M.I.E.E.

(Objects: The Television Society at the present time has a membership of over 1,100, the majority being engaged in television professionally. It accepts applications from all interested in television, whether as viewers, engineers, students, or retailers. Although certain aspects of programmes and production are of interest to its members it is not a Viewers Society, and does not cater primarily for non-technical interests.)

It is not the policy of the Society to act as a qualifying body, as this function is already performed by the professional institutions. It is recognised, nevertheless, that the membership of the Society carries with it a degree of proficiency in the theory and practice of television and a responsibility towards those who look to the professional man for disinterested advice and help.)

## ARGENTINA

It appears 1960 has been a boom year for Argentina's Television. In the last seven years, this country has had only one channel (No. 7), Government-owned, which operates in Buenos Aires. Also an experimental channel in Cordoba, for which equipment was locally manufactured, has been undergoing trials.

However, the new channel (No. 9) which is owned by Compañía Argentina de Televisión, S. A. (Curt Lowe and Co.), has started. In the month of August, a third channel (No. 13), owned by Cia. Rio de la Plata (Gocr Mestre, from Cuba), started activities. Later on, but this very same year, a fourth channel (No. 11) belonging to DICON will be added.

In the city of Rosario (300 kilometers from B.A.) an enterprise has been formed under the management of Guillermo Strazza, which has already announced the acquisition of American equipment, although it is not yet clear if this equipment is intended for Rosario or for Colonia (Uruguay), where this enterprise is also interested in setting up a channel. Plenty of talk has been going on in the city of San Juan (1,220 kilometers from B.A.), where very important businessmen are interested in a local channel, although nothing definite has as yet resulted.

There are also two other permissions already granted for channels by the authorities. One of them to be installed in Mar del Plata (400 kilometers from B.A.) by a Mr. Llamazares and the other one in Mendoza (1,060 kilometers from B.A.) by Juan Gomez. It is said that these two latter channels are in some way connected to the Curt Lowe group, whose principal activities up to now have consisted of a weekly local newsreel and short publicity trailers for theatres.

It is estimated that actually are in Buenos Aires and suburbs about 500,000 TV receivers. These are manufactured locally as importation is not permitted.

NATALIO BRUSKI

## AUSTRALIA

In the past 12 months television has grown larger and larger on the Australian horizon. In Sydney and Melbourne the two commercial stations and one national station in each state continue to flourish, with the commercial stations, outstripping by far the national station in general appeal. There are now more than half a million TV set licences issued in Australia and this number was greatly augmented when television opened in Adelaide, Perth, Brisbane and Hobart at the end of 1959 and early 1960.

TV also will go to 13 rural areas in Australia in the next couple of years as a result of moves by the Postmaster General's department to call for applications for licences in specified country centres. The A.B.C. will operate one station in each of the 13 areas and more than one commercial station may operate in each area also, a maximum total of 26 licences in these areas is quite possible.

To get a commercial licence local independent companies have to show that they are not associated with metropolitan stations and that they can provide a service comparable to that available to city viewers.

TV is having its first setback with insurance premiums on TV sets being increased drastically because of thefts of sets and racketeering by certain repair servicemen.

Despite agitation by Actors Equity, the bulk of material on TV—certainly the most popular programmes—are American filmed shows. It is not likely that there will be any change of policy on the part of TV station managers to grant more time to local talent at the expense of imported material.

—FRANK O'CONNELL

## AUSTRIA

Austrian television closed the year 1959 with a resounding vote of confidence from the viewing public.

The number of receivers has increased at a rate which surprised even the optimistic. In July, 1959, 77,257 sets were registered and in November the 100,000 mark was reached. Then followed a sensational boom with approximately 500 registrations per day and the total number of sets reached 127,402 against 49,234 on January 1, 1959. This is remarkable progress for this small country.

Austrian TV, as in most of the European countries, is owned and supported by the Government. The bulk of financing is done through the TV-tax on sets operated, which is \$2 per month and set. It follows that with increasing set registrations the revenues are being raised and the quality of programs can thus be improved.

Total broadcasting time in 1959 amounted to 1,281 hours. This shows an increase from 20 to 25 hours per week, transmitting daily from 7:30 to 10:30 P.M. with an afternoon program twice weekly for one to two hours for children and housewives. Austria also frequently joins Eurovision telecasts of international interest which are bonanza programs over and above the regular time. Among these were for instance the Pope's speech and benediction from Rome at Easter time, several performances of the Salzburg Festival and a number of international sporting events. These broadcasts originate in the countries where the given event takes place and Austria for instance played host on the occasion of the big skiing competitions during the winter.

The quality of programs is quite irregular, ranging from very good (plays from Germany) to very poor (ancient French and Italian films). Live transmission from stage and opera are excellent, but rare. Studio productions, as yet wedded to inadequate facilities, leave much to be desired. Commercials can be bought for the time between 7:50 and 8:00 P.M. but the time is rarely filled due to the exorbitant price of \$28 per second.

Austrian TV of course suffers, like all other similar setups, from governmental supervision and the fact, that political affiliations often take preference over technical and artistic ability.

—GEORGE J. WINNER

## BRAZIL

During the last few years, television in Brazil has progressed tremendously. The country leads the South American market, both in number of TV stations, which are presently 13 and several more being installed (against three in 1957), and in quantity of receivers, which are figured at around 1.5 million, as compared to about 480,000 in 1957.

Transmissions comprise all kinds of programs, musicals, humor, sports, interviews, live theatre, etc., including lately also filmed serials, which had been thought of as impossible due to their being mostly in English language with Portuguese subtitles. Most of these programs have very good audience ratings, especially of course sports, and among these soccer, but also boxing and catch-as-catch-can etc. Musical, quiz and fun shows have a very good audience too, as well as news reports.

During the inauguration of Brazil's new capital, Brasilia, Emissoras Associadas (Associated Broadcasting Stations), Brazil's largest chain of radio and TV stations, put into operation their "video-tape" equipment, connecting Rio de Janeiro, Brasilia, Sao Paulo, Belo Horizonte, Ribeirao Preto in what is said to have been the largest private TV chain in the world.

There are two laboratories in Sao Paulo, specialized in the dubbing of filmed serials, working around the clock to satisfy their customers so as to introduce Portuguese-spoken serials; on the other hand,

the production of locally made serials is also under consideration.

—R. EKERMAN

## CHINA (Communist)

Communist China now has five TV stations operating on a limited basis and for a limited time each day. They are located in Peking, Shanghai, Canton, Harbin and Changchun. TV sets are not for sale and can be seen only in communal meeting halls and in the homes of high Communist officials. No programs imported from Western countries are shown and trade with China by American companies is forbidden by law.

## CHINA (Taiwan)

Talks continue between Japanese companies and representatives of Free China with the intent to establish a TV broadcasting station in Taipei.

## DENMARK

Total number of receivers in Denmark: 400,000 (June 1, 1960).

Total number of commercial TV stations: None.

Total number of Government stations: 1.

Total coverage: 100% of population.

With the opening in the middle of June, 1960, of a transmitter covering the island of Bornholm, the Government station now has seven transmitters covering 100% of the population.

Television has increased rapidly, with a remarkable effect on the film trade. Four years ago 4,000 receivers were going. Today, as of June 1, 1960, 400,000 receivers are going, and 200,000 to 300,000 more are expected during the next two to three years.

A new television house, based upon an architect competition now finished, is about to be built during the next years. The work starts this Autumn, and the first part it is estimated to be finished in two years. The whole house, with seven studios, is expected to be finished within 10 years. The sending hours, now about 19 per week, will gradually be increased. The Government station is at present operating with two studios, two reporting vans, two films vans and two video tape machines. The station has 12 news correspondents in Denmark, and the film department has 11 photographers producing about 600 bigger and smaller films for TV per year. In order to compete with German television, a complete film group has been stationed in the south of Jutland.

It is still prohibited for organized distributors to sell films to television which, however, hitherto have succeeded in obtaining feature films from other sources. Only extracts of up to 300 meters may be sold by distributors to TV.

Taxation on television receivers is 15 per cent of the wholesale price, plus a tax of kr.3.15 per tube in each receiver. The license to the state is d.kr.75.—per year as against d.kr.22.—for radio sets.

Television and Danish sports unions have reached an agreement according to which each sports union is free to negotiate with television, which always offers to pay an estimated loss for showing the special event in TV. Until now comparatively few sports events have been shown in TV.

Television is controlled by the state, and there is no advertising in the programmes.

—BORGE SLOT

## FINLAND

During April, 1957, tests began for the new Finnish TV. Ordinary TV programs began in the autumn of 1957—officially. Southern Finland can see programs from Soviet-Estonia; the Southwest Finland from Stockholm; and the east of Finland from Leningrad, USSR. A television set owner in

Helsinki can now see TV programs every day in the week—without paying any licenses. The Finnish radio plans to build a TV-network during the years to 1960. Then shall the whole of Southern Finland—with the half of the population of the country—2,000,000—see the Finnish TV. Part of the programs shall be sponsored, the Finnish Radio Network will sell some of the TV-time to interested companies. How it will work we shall be able to see in about a year.

—GOSTA ERKELL

## FRANCE

There has been an important increase in the number of TV sets and by the 31st of March, 1960, the figure given by the authorities was 1,500,000.

The TV and radio budget increased by 40 per cent for 1960. Most of this will go to reinstallation and equipment improvement. No more than from three per cent to 8 per cent will be devoted to programmes.

Programme planning has gone ahead, however, and finance is expected to tighten. It has been suggested that the TV tax be increased but this may not be necessary because sets are selling so fast extra revenue from taxes should increase considerably.

Advertising on TV is always in the air but powerful circles are placing almost insurmountable obstacles in the way. They are even too tough for General de Gaulle—who is not opposed to advertising—to tear down.

—HENRY KAHN

## GERMANY

Television has made progress in Germany in 1959.

The number of registered receivers, which passed the million mark in November 1957, was up to 4,000,000 on May 1, 1960, including West Berlin. This means that there is one set to every 17 inhabitants. Thus Germany is holding its second place in Europe, after Great Britain. More than one and a half million sets were produced in 1959. The average sales price per set is \$180.

In Germany television is in the hands of the nine existing broadcasting companies, which are licensed regionally but are otherwise independent and politically neutral. There is so far only one program of about four hours daily and six on Sundays. Eight of these companies contribute to it. In addition each station daily carries an hour or two of programming of regional interest. A second general program is envisioned, but whether it is to have the same sponsors as the first one (as the broadcasting stations, the churches and some political parties wish), or private sponsors (as industry wishes), or whether it will be a national station (as the government wishes), is at present still the subject of a lively public controversy. While for a long time nothing was done about this from any side, at the present time both the broadcasting companies and the federal Post Minister are getting busy setting up the facilities for such a second program. The question whether the one or the other are constitutionally competent for this may have to be tested in court.

The present program, which was initiated in 1954, has no doubt improved in recent years, but is still not satisfactory and could well stand competition. According to opinion polls, nearly half of the audience are not satisfied with the program while more than half say they are. There is no colour television yet in Germany.

Motion picture theatres are feeling the competition of the new medium in Germany.

In Munich, for instance, the closing down of some larger theatres and their conversion into supermarkets is envisioned. While film revivals may be shown in television, presentation of current features is still, by agreement, limited to six-minute runs.

In the Soviet Zone of Germany there are today about 503,000 television receivers, an increase of roughly 100,000 in the past year. Some 15 different types of television sets are offered by the four television equipment producers in the Soviet Zone.

—MARIE WOLKENSTEIN

## HOLLAND

The influence of television in Holland is rapidly increasing. The number of sets at this moment is already more than 750,000, which figure in comparison to other countries, is thought to be quite significant (Holland has a total population of about 11 million people). There is not yet any commercial TV.

TV in Holland is organized by the Nederlandse Televisie Stichting (NTS), under governmental control, with five sub-divisions: a Roman-Catholic section, a Protestant section, a political (social democratic) section, another Christian division and a neutral section. The broadcasting companies, K.R.O., N.C.R.V., V.A.R.A., V.P.R.O. and A.V.R.O., represented by these divisions, want to keep their influence on TV.

The approximate cost of a TV set, antennae included, is from fl. 650.—to fl. 1,800.—(\$1 is fl. 3.80). A yearly contribution of fl. 36.—is due by the owners of a set, to be paid to the government.

Feature films are programmed once a week, on Tuesday night. These pictures are old ones (non-American), though of post war vintage. A considerable number of Rank pictures are among them, also Italian films, pictures of four to seven years ago. The Dutch trade organization does not permit new pictures to be televised.

Quality of programs is improving. Competition to motion pictures is obviously increasing, though the Dutch trade organization is following the development closely.

The purchase of TV sets by installment buying is still popular, otherwise the increase of the number of sets could not have been effected. The Dutch TV station is in Bussum. The most important directors are Max Douwes, Ger Lugtenburg, Fred Bredschneider, Ben Steggerda, Peter Koen, Gijs Stapperhoef, Ton Lensink and Wim Bary.

Philips is a big manufacturer of TV sets.

—PHILIP DE SCHAAP

## IRELAND

In the Republic of Ireland all broadcasting has been the state monopoly of Radio Eireann which was part of the Department of Posts and Telegraphs. On June 1, 1960, Radio Eireann was set up as an independent statutory body under the jurisdiction of the Minister for Posts and Telegraphs, and managed by a council consisting of a chairman and eight persons appointed by the Government and serving on a part-time basis. The new body is responsible for two departments, the broadcasting service and a television service which will come into operation probably within the year.

Radio Eireann, with its TV and broadcasting sections, will be financed by state grants, by revenue from licences on domestic radio and television receivers, and by revenue obtained from commercially sponsored advertising programmes.

There are at present about 100,000 owners of domestic TV receivers. These are tuned into the Northern Ireland BBC and commercial stations, and to BBC and commercial stations in England 190 miles away. Reception from Northern Ireland is good and that from England varies.

The new Irish Republic TV Service when in operation will adopt the same line system as that prevailing in Britain. At the beginning of 1960 there was a terrific increase in purchase of domestic TV sets and this will certainly accelerate to a further 50 per cent increase later in the year when the advent of the Irish TV draws near.

The cinema trade is feeling the grave impact of this development, and the Government, aware of the adverse effect on cinemas, is progressively reducing cinema admission taxes. One of the largest cinema organisations has now formed a subsidiary company and entered the domestic TV receiver market with a sales and rental service already successfully operating in the country's two major cities and planned to embrace the whole country.

—TOM SHEEHY

## ISRAEL

There is still no television service in this country, nor is any contemplated in the immediate future. This year, however, negotiations were reported to have been held with various foreign organizations with a view to the eventual establishment of a service. No details of the negotiations were announced.

—ALBERT de MATALON

## ITALY

Italian television is little more than six years old. Its impact and influence can be gauged by the way each political party monitored the news broadcasts during the 1958 election campaign to see that the seconds of air time were evenly distributed. (The Prime Minister had earlier decided that there would be no actual campaigning permitted on TV.)

Ninety-nine per cent of the peninsula and Sicily receive the programs of RAI-TV, the government network. Such good coverage in a mountainous country is made possible by nearly 310 transmitters. Wealthy private groups are at present suing the government in an effort to break the TV monopoly. But since the government can not be sued without its permission, it seems unlikely that the present monopoly will be threatened for some time. It is patterned on the RAI radio monopoly which, however, was never absolute because of the existence of Radio Vatican and the Italian-language broadcasts from other European countries.

At present RAI-TV operates only one channel. Programs ordinarily begin at 5 P.M. and terminate usually around midnight. On Sundays programs begin earlier to include a sports event. Italy frequently joins Eurovision for a special events hookup with other countries. A second channel is expected before 1961.

Commercials are permitted for 12 minutes twice a day and all are confined to one short musical program. In spite of this cramming, there is a waiting-list of would-be sponsors.

The number of sets in Italy is expected officially to pass the million mark soon. Each set owner is required to pay (as in radio) an annual subscription of about \$22. If one assumes that there is some bootlegging of sets, the actual number may have passed the million mark months ago.

The number of viewers for each receiver is higher here than in the U.S. because the cost of the cheapest 17-inch, Italian-made set (\$180) forces most people to watch their favorite programs in bars and cafes. The most popular shows are also shown in the neighborhood movie theatres.

In quality, Italian TV is usually conceded to be the best on the Continent. One explanation for this is that the government has given it its full support from the beginning. Another explanation is that its best programs are still unblushingly modeled on American shows. For three years the equivalent of the "\$64,000 Question" was the leader here. Now it has been supplanted by "Twenty-One" and "Name That Tune." Some American kinescopes have been shown here (either dubbed or with a superimposed spoken commentary) to great success. Full-length operas (complete with 20-minute intermissions of silence) are often given.

In the early days Turin, Milan and Rome equally contributed to the programs. Today signs indicate that Rome will soon dominate.

Censorship became a major issue in 1958 and it is more severe than for films, with the Vatican frequently scolding the network.

—CORRADO BUNI

## JAPAN

Television in Japan is apparently hurting film attendance as the number of sets in operation has reached an estimated 4.5 million. This can be seen from the annual per capita movie attendance which dropped to 11.7 in 1959 compared to 12.3 the year before.

Of the 120 TV stations serving Japan's 94 million population, about half belong to the Government-

sponsored NHK organization, which charges 83 cents a month to all TV set owners. Commercial stations exist on advertising as in the U.S. and in 1959 took in \$750,000,000, a 125 per cent increase over the previous year. Plans call for a network of microwave and cable circuits to completely cover the entire population of Japan.

Broadcasting is on a high standard, using the best in American and domestic equipment and the use of videotape is widespread. The Japanese are beginning to produce their version of videotape as well as much of the other equipment. Color broadcasts are made daily on a test basis but the number of color sets is confined to hotels and department stores and such sets are not yet in private hands since Japan has not yet produced them for public sale.

Virtually all receiving sets in private hands are of Japanese manufacture though American sets can be used with minor modifications since Japan uses the same 525-line scanning system. Japanese sets, with consumer taxes, are still considerably higher than American retail sets in the U.S., despite cheap labor costs, but protective tariffs prevent the import of the American product, although Japan itself is exporting sets to other Asian countries at competitive prices. Japan has also built TV broadcasting studios in such places as Okinawa and Thailand and is negotiating to build one in Taiwan.

Despite the low cost of technicians and actors in Japan it is still cheaper to buy American TV programs and currently some 46 of these U.S. programs are on Japanese TV screens, 85 per cent of them dubbed with Japanese dialogue.

Since government restrictions hold the price of these imported shows to \$300 for a 30-minute feature, some American producers have hesitated to sign contracts in Japan and there is some talk that this will be amended to a high of \$450 for a half-hour show and \$900 for an hour show.

Japanese movie-makers have been adamant in refusing to sell to the TV stations and what few movies appear on TV are old American pictures of pre-war vintage or somewhat later European imports, and these total only two or three a month. However, several Japanese movie-makers have considered the idea of making cheap TV movies despite the objections of the other studios while several studios hold considerable stock and exercise some degree of control on a number of commercial TV stations.

The advent in 1959 of the Perry Como Show on a fortnightly basis had a resounding impact on Japanese TV production methods and his show ranks high in audience popularity along with "I Love Lucy" and the usual run of Westerns.

Japanese sports shows—including sumo or Japanese wrestling, baseball and championship boxing—get the widest audience but regular listening interest goes to the usual family drama shows and to the samurai or old-time warrior dramas which take the place of our Westerns in the Japanese mind. Japan's leading quiz show is called the Million Yen (\$2,780) Quiz and draws a good audience.

Japanese stations do not blanket the clock. They come on early in the morning on weekdays, then again for a couple of hours at noon, again in late afternoon to about midnight. On weekends and holidays broadcasting hours are longer but still have a silent period from midnight to morning and there is no Late, Late Show.

Advertising time is cheap by U.S. standards with basic station time for a half-hour costing as little as \$850 in a large city and \$500 in a smaller city with additional charges for premium times and extra, of course, for producing a show.

Broadcasting studios are modern and well equipped and Japanese TV towers rank among the world's tallest as witness the Tokyo Tower rising 1,060 feet and containing a shopping center and restaurants as well as broadcasting facilities.

The impact of television in projecting views on the American way of life cannot be over estimated. Surveys have shown that a good percentage of the audience are those who were not in the habit of attending imported movies so their ideas of things American are being formed by the American TV programs on their home screens.

Trade organizations include the National Association of Commercial TV Broadcasters, Kosoku-doro Building, 8, 7-chome, Nishi Ginza, Tokyo, and Broadcasting Corporation of Japan (NHK), 2

Uchisaiwai-cho, Chiyoda-ku, Tokyo, which is in charge of government non-commercial stations (without advertising).

—A. C. PINDER

## KOREA (South)

At the present the U.S. Army operates AFKN-TV on an assigned channel. There are plans to rebuild the fire-ravaged HLKZ-TV (Koraeul) studios which operated through Army facilities as well as to establish civilian stations, beginning in Seoul.

## LEBANON

A television broadcasting service was launched in Lebanon in May, 1959. Programs are scheduled for three to four hours daily. In addition, Lebanese viewers are able to pick up broadcasts from Cyprus and some European stations. Lebanese National Television, the new company, is owned by shareholders and directed by technicians who studied in the U.S. and Europe.

In 1960 a second station started operations. This is government-owned and operated. There are no government controls on the formation of TV broadcasting companies.

TV receivers are expensive, the average price being \$300 a set. Sets now on the market come from U.S., England and Germany. By mid-1960 half the population owned sets.

—IBRAHIM H. ZEIN

## MEXICO

A Television set has become in Mexico an article of prime necessity. The urge of every Mexican home to get a TV set is so great that numerous poor families, living in houses not much better than huts pride themselves on a television set that is being painfully paid on the installment plan, peso by peso.

Sometimes neighbors contribute to meet the monthly payments, as they gladly pay an entrance fee of 25 or 30 centavos (2 or 2.5 cents) to watch their favorite program. Those homes may lack good water services, a heater, a good gas range or a washing machine but those matter less than a TV set. And so, 1959 registered an even greater sale of TV sets in Mexico than the record year 1958. Distributing houses have been established in every corner of town and their sales have reached an estimate high of 120,000 sets in 1959. Large screens are favorite among Mexican fans, and only a reduced number of portable or small sets were sold.

More and more restaurants and bars, commercial lunch-counters and even some department stores, have succumbed to the idea of installing TV sets. It is a common sight in Mexico City, after dusk, to see crowds in front of shop windows of some important commercial houses on the main streets, watching a program. The interest of the Government is resulting in better and cleaner programs.

A plan is under study by the country's educational authorities to use electronic screens in the classrooms of Mexican schools. There is a strong movement among teachers backing the idea of teaching certain subjects through TV screens. At the end of 1958, the first TV station to operate exclusively with educational programs was installed with an investment of more than 30 million pesos. It is transmitting from Channel 11; but nothing really worthwhile was done in this regard during 1959.

In Guadalajara, the second largest and most important city in the Republic, a very important and powerful plant, similar to that of Telecentro in Mexico City and Monterrey, was recently installed and is now operating with modern equipment, and very attractive programs. It fills an urgent need for TV shows in Western Mexico.

Figures obtained at the Department of Statistics, estimate an average monthly number of TV viewers at 3,864,122. Sets operating during 1959 in the coun-

try became this year more than 780,000. Live programs have increased in an 80 per cent over films shown in the electronic screens. Famous movie players who had previously snubbed TV, are now accepting contracts to appear personally in television programs and there is insistent talk of higher wages in playing for TV. Even some of the best paid movie stars can now be admired by the Mexican fan sitting at home.

—LUIS BECERRA CELIS

## NEW ZEALAND

Still very much in the experimental stages TV is making slow progress in N. Z. The present Government's plan appears to be to continue trial telecasts in the Auckland area and to strictly limit the importation of TV tubes and parts so that there will be little adverse effect upon other industries and upon the country's economic position. Present indications are that TV will be properly established in Auckland in 1961 and installations in Christchurch, Wellington and Dunedin will follow—spread over a considerable period, maybe three or four years.

There is a general election here in November this year and a change of Government is a decided possibility. It is generally anticipated that the present opposition, if put into office, would introduce commercial TV and even privately owned stations. If the latter comes about several TV set manufacturers are ready to install telecasting equipment and hasten the sales of sets. However, in a small country such as this, the diversion of such a large sum of money into overseas channels and away from existing industries would create a great deal of hardship. Import controls will probably be used as a brake to ensure that TV makes haste slowly.

Exhibitors are becoming more apprehensive as TV looms a little closer and no doubt some of the smaller ones in redundant or competitive areas will sell out or close down.

However, the general feeling is that not too many will fall by the wayside—new theatres will continue to be built in growing areas and the wealth of good product—particularly the excellent array of adult fare that is coming to hand from U.S. and England and the Continent—will continue to draw good houses.

—R. A. USMAR

## NORWAY

TV in Norway, experimentally sent for the last year, opened officially with programmes eight hours per week in August and September, 1960. Sale of sets in the meantime has reached approximately 15,000. As the TV is Government controlled and cinemas are municipal, it is the same interests prevailing in both media. If cinemas should be hurt by TV, the Finance Department and the municipalities would have to pay. An agreement has therefore been worked out for the procedure and policy of TV, in order to hurt cinemas as little as possible. TV will use special TV-produced shorts, cultural and documentaries, comparatively few features and preferably so late in the evening that at least the two first shows per day in the cinema should not be affected.

—FINN NYMANN

## OKINAWA

In addition to the U.S. Army's Armed Forces TV Service boasting about 10,000 receivers, the civilian stations Okinawa-TV and Ryuku Hoso TV are now in operation with total receivers estimated at 50,000.

Okinawa is Japanese territory under control of the United States so the American broadcasting system is used with all receiving sets U.S.-made thus far because of their cheaper price compared to the Japanese product.

## PHILIPPINES

Station DZAQ-TV (Alto Broadcasting System) has been on the air since 1953 and was joined in 1957 by DZBB (Chronicle Broadcasting Network) with both owned by the same family. Two more stations have test patterns on the air and a fifth is being organized. Receivers are estimated at 50,000.

## PUERTO RICO

There are about 100,000 television sets in Puerto Rico, for a population of 2,300,000. Most of the public places such as restaurants, clubs, have television sets for their patrons and the medium is available in local hotels upon request.

Even though most Puerto Ricans know English, and the number of persons who will acquire a working knowledge of English will increase considerably through intensification of English instruction in public schools and the migration of Puerto Rican families to the United States, and workers who come back from the States with more knowledge of English, television programming is in English and Spanish. WKAQ-TV, owned and operated by the newspaper El Mundo, on channel 4, has 30 per cent programs in English of which 10 per cent have Spanish sub-titles.

Kinescope versions of top North American television shows such as I Love Lucy, Schlitz Playhouse of Stars, Public Defender, The Unexpected, Life is Worth Living, Public Prosecutor, etc., are represented on both stations. Most popular are the 64 Dollar Question and Truth or Consequences, and their counterparts in Puerto Rico.

American manufacturers of cigarettes, electric appliances, soaps, detergents, and other products which use television widely have increased their budgets for this type of advertising medium. Consequently the newspapers and magazines have lost advertising revenue.

The reason for this is that the two leading newspapers operating in Puerto Rico have a circulation each not reaching over 100,000, while there are now over 100,000 television sets in operation and the number is increasing considerably.

—E. SANCHEZ ORTIZ

## SCOTLAND

Popular enthusiasm for television continues to grow throughout Scotland, and outlying areas in remote corners, such as the Western Highlands and the extreme northern part of the country, are now benefitting from home entertainment. Live theatres and cinemas suffer, with most of the smaller operations either having closed or facing closure. Television is especially welcome in the northern Orkney Islands, where so far only BBC programs reach.

The commercial network claims the greater number of viewers. Scottish Television, Ltd., controlled by Roy Thomson, Canadian newspaper owner and now a U.K. press magnate, estimates that more than 2,750,000 people in Scotland—i.e. 67 per cent of the population in the central belt—are now watching independent-channel programs. Their own potential audience, it is claimed, has increased over fourfold since the station opened August 31, 1957.

The BBC continue to serve network programs and a small quota of home-based shows. In contrast, the STV (Scottish Television) station reached some 22 per cent of quota, and are lively in news, sports and lunch time features. New commercial stations due to open in 1961 are at Aberdeen, where northeast Scotland (or Highland) Television are readying operations under chairman Sir Alexander B. King, cinema magnate, and at Carlisle, northwest England, where the station of Border Television will also serve southern Scotland as well as the northwest agricultural and lake area of England. Increasing networking from Glasgow, and interchange of program material between Glasgow, Aberdeen, Carlisle and Newcastle, is likely.

—GORDON IRVING

## SOUTH AFRICA

The Union of South Africa is still without television service and likely to remain without it for many years in the future. The director general of the South African Broadcasting Corporation has nothing to report on the matter, while the Government says simply that "progressive research and experimentation in the television field has been and still is being carried out, but purely as research and experimentation." The reasons for the TV lag here are many, including the geographical layout of the country, which would make nation-wide service extremely expensive, and the fact that the South African Broadcasting Corporation has been in financial difficulties with just its radio services.

—S. M. KIRSCH

## SWEDEN

The Swedish TV began in the autumn of 1956. One station was organized in Stockholm and one in Gothenburg. An ordinary TV week in Stockholm sees about 14 hours of "live" programmes and six hours of film. Swedish, French, American (USA), British and Soviet pictures have been shown on TV, and serials like "The Perry Como Show", "20th Century", "Perry Mason", "Hitchcock Presents", "Gunsmoke", "Disneyland", "Robin Hood" (British) and "Colonel Flack".

The future for the Swedish TV seems very promising. As of January 1, 1960, Sweden had 600,000 TV sets and 30 transmitters.

—GOESTA ERKELL

## SWITZERLAND

As of April 1, 1960, there were 94,559 TV sets in operation in Switzerland, of which 88,193 were in private homes and 6,366 in public places. Eight stations and six boosters are on the air, six in the German-speaking part of Switzerland, five in the French-speaking part and three in the Italian-speaking Tessin.

The French and German language stations schedule about 18 hours of programming a week, each, of which approximately 70 per cent are live and 30 per cent are film. The Italian-speaking transmitters relay, besides joint broadcasts, programmes from the German-speaking and the French-speaking parts of Switzerland respectively, with commentary in Italian. In Autumn, 1960, the Tessin is due to have its own O.B. van in Lugano with a weekly programme output of about six hours.

All telecasting in Switzerland is government-controlled. There are no commercial operations. The PTT administration is responsible for the transmitters and technical equipment, while the Swiss Broadcasting Corporation handles all programming. Annual licences cost 84 francs for private sets and 168 for public sets.

—ARTHUR GOEFFERT

## THAILAND (Siam)

At present Thailand has two TV stations—the Thai TV Station and the Thai Army Station—broadcasting in black and white on limited hours. Japanese interests are trying to establish a station here but are stymied by the Thai demands that the station broadcast also in color and be on the air within one year of contract. The authorities also want the Japanese to establish TV relays throughout the country and limit their control of the station and relays to eight years. Receivers are estimated at 50,000.

## TURKEY

A commission has been created under the direction of the Press, Radio and Tourism in Turkey to study the social aspects as well as the financial and technical problems for a television station.

Apart from this, an office was created under the same direction to study and put together all the elements which constitute the bases of the technical project. Altumur Kilic, who is the head of the direction, has been out to France, United Kingdom and Federal Germany to study the situation on this matter. From the other side, different foreign companies have made propositions to establish television stations in Turkey's main cities: Ankara, Istanbul, Izmir etc.

Another firm has proposed to bring into the country television sets at the price of 1,200 Turkish liras (approx. 128 U.S. dollars).

—PHEDON NAZLOGLOU

## VENEZUELA

There are three commercial television stations in Venezuela:

1. Radio Caracas Television: managing director, Amable Espina. Channels 2, 8 and 10. RCA equipment. This is by far the best station, with very little unsold time. It is operating about 16 hours a day.

2. Televisa: Channels 4 and 11. Marconi equipment. This station was in serious financial difficulties in 1959 and beginning of 1960, with very much unsold time. In view of these difficulties, the station is operated, at present, by the Radio and Television Workers Union, operating an average of six hours a day.

3. Televisa del Zulia. This is the only channel in Maracajibo, the capital of the oil rich district of the State of Zulia. This station was previously connected with Caracas Televisa but now is independent, operating an average of four hours a day.

There is also one Government-owned station, *Televisora Nacional*, channel 5, operating about six hours every evening and admitting no advertising. The programs are mostly cultural, news and documentary.

All television equipment used in Venezuela is imported, mostly from the U.S.A., some from Holland. No statistics are made concerning the number of sets sold or used in the country. The number of sets is privately estimated at 120,000.

The legislation ruling television permits certain percentage of total time to be used for imported filmed programs. No difficulties have arisen in selling any imported programs because of the legislation. Market situation in 1959 and beginning of 1960 is on approximately same level of previous year.

ALEXANDER L. STEIN

## YUGOSLAVIA

The Yugoslav television network, which started operation at the end of 1958, has today eight broadcasting and three studio centers (Belgrade, Zagreb and Ljubljana). The network of broadcasting centres cover now 60 per cent of the area of the country where the Yugoslavs live. It is estimated that by the end of this year that area will contain about 25,000 TV sets. Taking into consideration the fact that the Yugoslav television network has just started regular operation, it offers good and varied programs, from the country and the world. While the TV sets last year were bought only by institutions, clubs, libraries, youth and cooperative homes, etc., this year credit buying is organized, thus many private persons are buying TV sets. The local production—Italian and East German licences—and the imported sets disappear from the market the very moment they appear on it.

The programs of Yugoslav television, consisting of locally produced films, exchanges with some eastern European countries, and foreign television service of the United Press International, are made jointly by the three studio centres, except the news program which is handled by the television information centre in Belgrade—for the whole country. The Yugoslav television broadcasts every week 12-18 hours of its own program beside that what it takes from other television networks.

The Yugoslav television is operating under the

name Yugoslav Radios and Television, but all three Yugoslav television centres—in Belgrade, Zagreb and Ljubljana—have their own programs. The Program Commission coordinates everything connected with programs. This commission is composed of the representatives of the three studio centres, while the technical matters are handled by technical commission.

At the beginning of 1959 the first television sets of domestic make appeared on the local markets, but it was clearly felt in the commercial network that the demand far exceeded the supply. Thanks to the credits arrangements, the expensive television sets for Yugoslav conditions, the average Yugoslavs can afford to buy today. Their cost reaches 150,000

dinars (\$500).

Yugoslav television has not yet its own revenue, because it is still operating on an experimental basis. The investment and program expenses are secured from the television share from the Yugoslav radio revenue, and partially from the state source. Certain limited financial means are obtained from the advertisements—carried in separate ordered programs outside regular programs. For the time being no subscription is paid for the television, but a system will be worked out later, which will be similar to that of radio but much more expensive. The time when that will be is not yet fixed—but is expected to be in 1961

—STOJAN BRALOVIC

# *The Television Code*

# The Television Code

**A** NEW CODE of standards and practices for the television industry went into effect March 1, 1952 following a series of developments almost a year in the making.

The code is an aftermath of a meeting held in Washington in June, 1951 at which NBC made public a code of its own. Set up as a standard of operations in television, this code bore an essential resemblance to the instrument earlier adopted by the same network for radio broadcasting. Both NBC codes, a Code of Standards adopted for radio by the National Association of Broadcasters—predecessor organization of the National Association of Radio and Television Broadcasters—in Atlantic City in 1947 and now the industry-wide TV code, drew upon the Motion Picture Production Code for their pattern.

Four subcommittees were active in preparation of the television code throughout the summer of 1951. Their tentative draft was approved by the NARTB board in September and a final polishing job undertaken in Washington shortly before the text was ratified in Chicago, October 19, 1951.

The TV code provides for a review board consisting of five members of NARTB. This board is empowered to enforce the rules governing programming and advertising. There will be issued a Seal of Approval, available to subscribing members whether affiliated with NARTB or not. While the power to hold in check unfair and unscrupulous acts will be vested in the Review Board, the common impression in television is that this will be largely an unwritten power. The Review Board was increased to seven members in June, 1959, effective January 1, 1960.

Intensive promotion on behalf of the seal is contemplated. Subscribing stations will be permitted to televise it so long as they adhere to the code itself. The Review Board will be charged with the policing task and report violations to the board of directors of NARTB who will be empowered to revoke the seal by a two-thirds' vote from which there will be no appeal.

In those phases that deal with programming and its approaches, the code bears striking similarity to the Motion Picture Production Code, conceived and formulated in 1929 by Martin Quigley, and ratified by the Motion Picture Producers and Distributors Association of America, Inc. which became the Motion Picture Association of America, Inc. late in 1945 when Eric Johnston was named president.

Meeting in Bandera, Tex. in February, TV board members of NAB approved a review board of five and adopted a plan for financing administration of the code as well as an op-

erating budget of \$40,000 for the first year of operations.

The review board, designed to be a preliminary hearing group in considering complaints that specific TV programs and advertising practices violate the code, included the following:

John E. Fetzer, owner of TV station WKZO-TV at Kalamazoo, as the chairman; J. Leonard Reinsich, vice-president, WSB, Atlanta; Mrs. Scott Bullitt, owner of KING-TV, Seattle; William B. Quarton, vice-president and general manager, WMT-TV, Cedar Rapids and G. Richard Shafto, president of WIS-TV, Columbia, S. C.

Under the financing plan, each subscribing TV station pays \$405 a year. If it is an NAB member, \$250 of this is credited against NAB dues, leaving \$155 for defraying code administration costs.

The Code is copyrighted by the National Association of Broadcasters. It is reprinted with the permission of the Television Code Review Board.

Text of the revised code follows:

## Preamble

Television is seen and heard in every type of American home. These homes include children and adults of all ages, embrace all races and all varieties of religious faith, and reach those of every educational background. It is the responsibility of television to bear constantly in mind that the audience is primarily a home audience, and consequently that television's relationship to the viewers is that between guest and host.

The revenues from advertising support the free, competitive American system of telecasting, and make available to the eyes and ears of the American people the finest programs of information, education, culture and entertainment. By law the television broadcaster is responsible for the programming of his station. He, however, is obligated to bring his positive responsibility for excellence and good taste in programming to bear upon all who have a hand in the production of programs, including networks, sponsors, producers of film and of live programs, advertising agencies, and talent agencies.

The American businesses which utilize television for conveying their advertising messages to the home by pictures with sound, seen free-of-charge on the home screen, are reminded that their responsibilities are not limited to the sale of goods and the creation of a favorable attitude toward the sponsor by the presentation of entertainment. They include, as well, responsibility for utilizing television to bring the best programs, regardless of kind, into American homes.

Television, and all who participate in it are jointly accountable to the American public for respect for the special needs of children, for community responsibility, for the advancement of education and culture, for the acceptability of the program materials chosen, for decency and decorum in production, and for propriety in advertising. This responsibility cannot be discharged by any given group of programs, but can be discharged only through the highest standards of respect for the American home, applied to every moment of every program presented by television.

In order that television programming may best serve the public interest, viewers should be encouraged to make their criticisms and positive

suggestions known to the television broadcasters. Parents in particular should be urged to see to it that out of the richness of television fare, the best programs are brought to the attention of their children.

#### Advancement of Education and Culture

1. Commercial television provides a valuable means of augmenting the educational and cultural influences of schools, institutions of higher learning, the home, the church, museums, foundations, and other institutions devoted to education and culture.

2. It is the responsibility of a television broadcaster to call upon such institutions for counsel and cooperation and to work with them on the best methods of presenting educational and cultural materials by television. It is further the responsibility of stations, networks, advertising agencies and sponsors consciously to seek opportunities for introducing into telecasts factual materials which will aid in the enlightenment of the American public.

3. Education via television may be taken to mean that process by which the individual is brought toward informed adjustment to his society. Television is also responsible for the presentation of overtly instructional and cultural programs, scheduled so as to reach the viewers who are naturally drawn to such programs, and produced so as to attract the largest possible audience.

4. In furthering this realization, the television broadcaster:

- a) Should be thoroughly conversant with the educational and cultural needs and desires of the community served.
- b) Should affirmatively seek out responsible and accountable educational and cultural institutions of the community with a view toward providing opportunities for the instruction and enlightenment of the viewers.
- c) Should provide for reasonable experimentation in the development of programs specifically directed to the advancement of the community's culture and education.

#### Acceptability of Program Material

Program materials should enlarge the horizons of the viewer, provide him with wholesome entertainment, afford helpful stimulation, and remind him of the responsibilities which the citizen has towards his society. Furthermore:

- a) (i) Profanity, obscenity, smut and vulgarity are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.
  - (ii) Words (especially slang) derisive of any race, color, creed, nationality or national derivation, except wherein such usage would be for the specific purpose of effective dramatization such as combating prejudice, are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.
    - (iii) The Television Code Review Board (*see Regulations and Procedures of the Code, V, Section 3, Authority and Responsibilities*) shall maintain and issue to subscribers, from time to time, a continuing list of specific words and phrases which should not be used in keeping with this subsection. This list, however, shall not be considered as all-inclusive.
- b) (i) Attacks on religion and religious faiths are not allowed.
  - (ii) Reverence is to mark any mention of the name of God. His attributes and powers.
  - (iii) When religious rites are included in other than religious programs, the rites are accurately presented, and the ministers, priests and rabbis portrayed in their callings are vested with the dignity of their office and under no circumstances are to be held up to ridicule.
- c) (i) Contests may not constitute a lottery.
  - (ii) Any telecasting designed to "buy" the television audience by requiring it to listen and/or view in hope of reward, rather than for the quality of the program, should be avoided. (*see Contests.*)

d) Respect is maintained for the sanctity of marriage and the value of the home. Divorce is not treated casually nor justified as a solution for marital problems.

- e) Illicit sex relations are not treated as commendable.
- f) Sex crimes and abnormalities are generally unacceptable as program material.
- g) Drunkenness and narcotic addition are never presented as desirable or prevalent.
- h) The administration of illegal drugs will not be displayed.
- i) The use of liquor in program content shall be de-emphasized. The consumption of liquor in American life, when not required by the plot or for proper characterization, shall not be shown.
- j) The use of gambling devices or scenes necessary to the development of plot or as appropriate background is acceptable only when presented with discretion and in moderation, and in a manner which would not excite interest in, or foster, betting nor be instructional in nature. Telecasts of actual sport programs at which on-the-scene betting is permitted by law should be presented in a manner in keeping with Federal, state and local laws, and should concentrate on the subject as a public sporting event.
- k) In reference to physical or mental afflictions and deformities, special precautions must be taken to avoid ridiculing sufferers from similar ailments and offending them or members of their families.
- l) Exhibitions of fortune-telling, astrology, phrenology, palm-reading, and numerology are acceptable only when required by a plot or the theme of a program, and then the presentation should be developed in a manner designed not to foster superstition or excite interest or belief in these subjects.
- m) Televised drama shall not simulate news or special events in such a way as to mislead or alarm. (*see News.*)
- n) Legal, medical and other professional advice, diagnosis and treatment will be permitted only in conformity with law and recognized ethical and professional standards.
- o) The presentation of cruelty, greed and selfishness as worthy motivations is to be avoided.
- p) Excessive or unfair exploitation of others or of their physical or mental afflictions shall not be presented as praiseworthy.
- q) Criminality shall be presented as undesirable and unsympathetic. The condoning of crime in the treatment of the commission of crime in a frivolous, cynical or callous manner is unacceptable.
- r) The presentation of techniques of crime in such detail as to invite imitation shall be avoided.
- s) The use of horror for its own sake will be eliminated; the use of visual or aural effects which would shock or alarm the viewer, and the detailed presentation of brutality or physical agony by sight or by sound are not permissible.
- t) Law enforcement shall be upheld, and the officers of the law are to be portrayed with respect and dignity.
- u) The presentation of murder or revenge as a motive for murder shall not be presented as justifiable.
- v) Suicide as an acceptable solution for human problems is prohibited.
- w) The exposition of sex crimes will be avoided.
- x) The appearances or dramatization of persons featured in actual crime news will be permitted only in such light as to aid law enforcement or to report the news event.
- y) Treatment of Animals. The use of animals, both in the production of television programs and as a part of television program content, shall, at all times, be in conformity with accepted standards of humane treatment.

#### Responsibility Toward Children

1. The education of children involves giving them a sense of the world at large. Crime, violence and sex are a part of the world they will be called upon to meet, and a certain amount of proper presentation of such is helpful in orienting the child to his social surroundings. However, violence and illicit sex shall not be presented in an attractive manner, nor to an extent such as will lead a child to believe that they

play a greater part in life than they do. They should not be presented without indications of the resultant retribution and punishment.

2. It is not enough that only those programs which are intended for viewing by children shall be suitable to the young and immature. (*Attention is called to the general items listed under Acceptability of Program Materials.*) Television is responsible for insuring that programs of all sorts which occur during the times of day when children may normally be expected to have the opportunity of viewing television shall exercise care in the following regards:

- a) In affording opportunities for cultural growth as well as for wholesome entertainment.
- b) In developing programs to foster and promote the commonly accepted moral, social and ethical ideals characteristic of American life.
- c) In reflecting respect for parents, for honorable behavior, and for the constituted authorities of the American community.
- d) In eliminating reference to kidnaping of children or threats of kidnaping.
- e) In avoiding material which is excessively violent or would create morbid suspense, or other undesirable reactions in children.
- f) In exercising particular restraint and care in crime or mystery episodes involving children or minors.

#### **Decency and Decorum in Production**

1. The costuming of all performers shall be within the bounds of propriety, and shall avoid such exposure or such emphasis on anatomical detail as would embarrass or offend home viewers.

2. The movements of dancers, actors, or other performers shall be kept within the bounds of decency, and lewdness and impropriety shall not be suggested in the positions assumed by performers.

3. Camera angles shall avoid such views of performers as to emphasize anatomical details indecently.

4. Racial or nationality types shall not be shown on television in such a manner as to ridicule the race or nationality.

5. The use of locations closely associated with sexual life or with sexual sin must be governed by good taste and delicacy.

#### **Community Responsibility**

A television broadcaster and his staff occupy a position of responsibility in the community and should conscientiously endeavor to be acquainted fully with its needs and characteristics in order better to serve the welfare of its citizens.

#### **Treatment of News and Public Events**

##### **News**

1. A television station's news schedule should be adequate and well-balanced.

2. News reporting should be factual, fair and without bias.

3. Commentary and analysis should be clearly identified as such.

4. Good taste should prevail in the selection and handling of news:

Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided. News should be telecast in such a manner as to avoid panic and unnecessary alarm.

5. At all times, pictorial and verbal material for both news and comment should conform to other sections of these standards, wherever such sections are reasonably applicable.

6. Pictorial material should be chosen with care and not presented in a misleading manner.

7. A television broadcaster should exercise due care in his supervision of content, format, and presentation of newscasts originated by his station, and in his selection of newscasters, commentators, and analysts.

8. A television broadcaster should exercise particular discrimination in the acceptance, placement and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.

9. A television broadcaster should not present fictional events or other non-news material as authentic news telecasts or announcements nor should he permit dramatizations in any program which

would give the false impression that the dramatized material constitutes news. Expletives, presented aurally or pictorially such as "flash" or "bulletin" and statements such as "we interrupt this program to bring you . . ." should be reserved specifically for news room use. However, a television broadcaster may properly exercise discretion in the use in non-news programs of words or phrases which do not necessarily imply that the material following is a news release.

#### **PUBLIC EVENTS**

1. A television broadcaster has an affirmative responsibility at all times to be informed of public events, and to provide coverage consonant with the ends of an informed and enlightened citizenry.

2. Because of the nature of events open to the public, the treatment of such events by a television broadcaster should be effected in a manner to provide for adequate and informed coverage as well as good taste in presentation.

#### **Controversial Public Issues**

1. Television provides a valuable forum for the expression of responsible views on public issues of a controversial nature. In keeping therewith the television broadcaster should seek out and develop with accountable individuals, groups and organizations, programs relating to controversial public issues of import to its fellow citizens; and to give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. The provision of time for this purpose should be guided by the following principles:

a) Requests by individuals, groups or organizations for time to discuss their views on controversial public issues, should be considered on the basis of their individual merits, and in the light of the contribution which the use requested would make to the public interest, and to a well-balanced program structure.

b) Programs devoted to the discussion of controversial public issues should be identified as such, and should not be presented in a manner which would mislead listeners or viewers to believe that the program is purely of an entertainment, news or other character.

#### **Political Telecasts**

Political telecasts should be clearly identified as such, and should not be presented by a television broadcaster in a manner which would mislead listeners or viewers to believe that the program is of any other character.

#### **Religious Programs**

1. It is the responsibility of a television broadcaster to make available to the community as part of a well-balanced program schedule adequate opportunity for religious presentations.

2. The following principles should be followed in the treatment of such programs:

a) Telecasting which reaches men of all creeds simultaneously should avoid attacks upon religion.

b) Religious programs should be presented respectfully and accurately and without prejudice or ridicule.

c) Religious programs should be presented by responsible individuals, groups, and organizations.

d) Religious programs should place emphasis on broad religious truths, excluding the presentation of controversial or partisan views not directly or necessarily related to religion or morality.

3. In the allocation of time for telecasts of religious programs it is recommended that the television station use its best efforts to apportion such time fairly among the representative faith groups of its community.

#### **Presentation of Advertising**

1. Ever mindful of the role of television as a guest in the home, a television broadcaster should exercise unceasing care to supervise the form in which advertising material is presented over his facilities. Since television is a developing medium, involving methods and techniques distinct from those of radio, it may be desirable from time to time to review and revise the presently suggested practices:

- a) Advertising messages should be presented with courtesy and good taste; disturbing or annoying material should be avoided; every effort should be made to keep the advertising message in harmony with the content and general tone of the program in which it appears.
- b) A sponsor's advertising messages should be confined within the framework of the sponsor's program structure. A television broadcaster should avoid the use of commercial announcements which are divorced from the program either by preceding the introduction of the program (as in the case of so-called "cow-catcher" announcements) or by following the apparent sign-off of the program (as in the case of so-called "trailer" announcements). To this end, the program itself should be announced and clearly identified, both audio and video, before the sponsor's advertising material is first used, and should be signed off, both audio and video, after the sponsor's advertising material is last used.
- c) Advertising copy should contain no claims intended to disparage competitors, competing products, or other industries, professions or institutions.
- d) Since advertising by television is a dynamic technique, a television broadcaster should keep under surveillance new advertising devices so that the spirit and purpose of these standards are fulfilled.
- e) Television broadcasters should exercise the utmost care and discrimination with regard to advertising material, including content, placement and presentation, near or adjacent to programs designed for children. No considerations of expediency should be permitted to impinge upon the vital responsibility towards children and adolescents, which is inherent in television, and which must be recognized and accepted by all advertisers employing television.
- f) Television advertisers should be encouraged to devote portions of their allotted advertising messages and program time to the support of worthy causes in the public interest in keeping with the highest ideals of the free competitive system.
- g) A charge for television time to churches and religious bodies is not recommended.

#### Acceptability of Advertisers and Products—General

1. A commercial television broadcaster makes his facilities available for the advertising of products and services and accepts commercial presentations for such advertising. However, a television broadcaster should, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements. Moreover, in consideration of the laws and customs of the communities served, each television broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. The foregoing principles should be applied with judgment and flexibility, taking into consideration the characteristics of the medium and the form and content of the particular presentation. In general, because television broadcast is designed for the home and the family, including children, the following principles should govern the business classifications listed below:

- a) The advertising of hard liquor should not be accepted.
- b) The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable subject to Federal and local laws.
- c) Advertising by institutions or enterprises which in their offers of instruction imply promises of employment or make exaggerated claims for the opportunities awaiting those who enroll for courses is generally unacceptable.
- d) The advertising of firearms and fireworks is acceptable only subject to Federal and local laws.
- e) The advertising of fortune-telling, occultism, spiritualism, astrology, phrenology, palm-reading, numerology, mind-reading or character-reading is not acceptable.

f) Because all products of a personal nature create special problems, such products, when accepted, should be treated with especial emphasis on ethics and the canons of good taste; however, the advertising of intimately personal products which are generally regarded as unsuitable conversational topics in mixed social groups is not acceptable.

g) The advertising of tip sheets, race track publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is unacceptable.

2. Diligence should be exercised to the end that advertising copy accepted for telecasting complies with pertinent Federal, state and local laws.

3. An advertiser who markets more than one product should not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

#### Advertising of Medical Products

1. The advertising of medical products presents considerations of intimate and far-reaching importance to the consumer, and the following principles and procedures should apply in the advertising thereof:

a) A television broadcaster should not accept advertising material which in his opinion, offensively describes or dramatizes distress or morbid situations involving ailments, by spoken word, sound or visual effects.

b) Because of the personal nature of the advertising of medical products, claims that a product will effect a cure and the indiscriminate use of such words as "safe", "without risk", "harmless", or terms of similar meaning should not be accepted in the advertising of medical products on television stations.

#### Contests

1. Contests should offer the opportunity to all contestants to win on the basis of ability and skill, rather than chance.

2. All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced and/or shown, or easily accessible to the viewing public, and the winners' names should be released and prizes awarded as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of product, reasonable facsimiles thereof should be made acceptable.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided. (see *Time Standards for Advertising Copy*.)

#### Premiums and Offers

1. Full details of proposed offers should be required by the television broadcaster for investigation and approval before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. Before accepting for telecast offers involving a monetary consideration, a television broadcaster should satisfy himself as to the integrity of the advertiser and the advertiser's willingness to honor complaints indicating dissatisfaction with the premium by returning the monetary consideration.

4. There should be no misleading descriptions or visual representations of any premiums or gifts which would distort or enlarge their value in the minds of the listeners.

5. Assurances should be obtained from the advertiser that premiums offered are not harmful to person or property.

6. Premiums should not be approved which appeal to superstition on the basis of "luck-bearing" powers or otherwise.

#### Time Standards for Advertising Copy

1. In accordance with good telecast advertising practices, the time standards for advertising copy are as follows:

Length of Advertising Message  
(Minutes and Seconds)

Length of Program	Length of Advertising Message	
	Program News Programs	All Other Programs
	<i>Day</i>	<i>All</i>
(Minutes)	and Night	Other Hrs.
5	1:00	1:15
10	1:45	2:10
15	2:15	3:00
25		4:00
30		4:15
45		5:45
60		7:00

2. Reasonable and limited identification of prize and statement of the donor's name within formats wherein the presentation of contest awards or prizes is a necessary and integral part of program content shall not be included as commercial time within the meaning of paragraph 1. above; however, any oral or visual presentation concerning the product or its donor, over and beyond such identification and statement, shall be included as commercial time within the meaning of paragraph 1. above.

3. The time standards set forth above do not affect the established practice of reserving for station use the last 30 seconds of each program for station break and spot announcements.

4. Announcement programs are designed to accommodate a designated number of individual live or recorded announcements, generally one minute in length, which are carried within the body of the program and are available for sale to individual advertisers. Normally not more than 3 one-minute announcements (which should not exceed approximately 125 words if presented live) should be scheduled within a 15-minute period and not more than six such announcements should be scheduled within a 30-minute period in local announcement programs; however, fewer announcements of greater individual length may be scheduled, provided that the aggregate length of the announcements approximates three minutes in a 15-minute program or six minutes in a 30-minute program. In announcement programs other than 15 minutes or 30 minutes in length, the proportion of one minute of announcement within every five minutes of programming is normally applied. The announcements must be presented within the framework of the program period designated for their use and kept in harmony with the content of the program in which they are placed.

5. Programs presenting women's services, features, shopping guides, market information and similar material, provide a special service to the listening and viewing public in which advertising material is an informative and integral part of the program content. Because of these special characteristics the time standards set forth above may be waived to a reasonable extent.

6. Even though the commercial limitations of the Code do not specifically prohibit back-to-back announcements, such a practice is not recommended for more than two announcements, either at station break or within the framework of a single program.

7. Any casual reference by talent in a program to another's product or service under any trade name or language sufficiently descriptive to identify it should, except for normal guest identifications, be condemned and discouraged.

8. Stationary backdrops or properties in television presentations showing the sponsor's name or product, the name of his product, his trade mark or slogan may be used only incidentally. They should not obtrude on program interest or entertainment. "On Camera" shots of such materials should be fleeting, not too frequent, and mindful of the need of maintaining a proper program balance.

**Dramatized Appeals and Advertising**

Appeals to help fictitious characters in television programs by purchasing the advertiser's product or service or sending for a premium should not be permitted, and such fictitious characters should not be introduced into the advertising message for such purposes. When dramatized advertising material involves statements by doctors, dentists, nurses or other professional people, the material should be presented by members of such profession reciting

actual experience or it should be made apparent from the presentation itself that the portrayal is dramatized.

**Sponsor Identification**

Identification of sponsorship must be made in all sponsored programs in accordance with the requirements of the Communications Act of 1934, as amended, and the Rules and Regulations of the Federal Communications Commission.

**REGULATIONS AND PROCEDURES**

The following regulations and procedures shall obtain as an integral part of the Television Code of the National Association of Broadcasters:

I

**Name**

The name of this Code shall be "The Television Code of the National Association of Broadcasters."

II

**Purpose of the Code**

The purpose of this Code is cooperatively to maintain a level of television programming which gives full consideration to the educational, informational, cultural, economic, moral and entertainment needs of the American public to the end that more and more people will be better served.

III

**Subscribers**

*Section 1. ELIGIBILITY*

Any individual, firm or corporation which is engaged in the operation of a television broadcast station or network, or which holds a construction permit for a television broadcast station within the United States or its dependencies, shall, subject to the approval of the Television Board of Directors as hereinafter provided, be eligible to subscribe to the Television Code of the NARTB to the extent of one subscription for each such station and/or network which it operates or for which it holds a construction permit; provided, that a non television member of NARTB shall not become eligible via code subscription to receive any of the member services or to exercise any of the voting privileges of a member.

*Section 2. CERTIFICATION OF SUBSCRIPTION*

Upon subscribing to the Code, subject to the approval of the Television Board of Directors, there shall be granted forthwith to each such subscribing station authority to use the "NARTB Television Seal of Good Practice," a copyrighted and registered seal to be provided in the form of a certificate, a slide and/or a film, signifying that the recipient thereof is a subscriber in good standing to the Television Code of the NARTB. The seal and its significance shall be appropriately publicized by the NARTB.

*Section 3. DURATION OF SUBSCRIPTION*

Subscription shall continue in full force and effect until thirty days after the first of the month following receipt of notice of written resignation. Subscription to the Code shall be effective from the date of application subject to the approval of the Television Board of Directors; provided, that the subscription of a television station going on the air for the first time shall, for the first six months of such subscription, be probationary, during which time its subscription can be summarily revoked by an affirmative two-thirds vote of the Television Board of Directors without the usual processes specified below.

*Section 4. SUSPENSION OF SUBSCRIPTION*

Any subscription, and/or the authority to utilize and show the above-noted seal, may be voided,

\* "Television Board. The Television Board is hereby authorized:—(4) to enact, amend and promulgate standards of practice or codes for its Television members, and to establish such methods to secure observance thereof as it may deem advisable.—" By-Laws of the National Association of Broadcasters. Article VI, section 8,C. (4).

revoked or temporarily suspended for television programming, including commercial copy, which, by theme, treatment or incident, in the judgment of the Television Board constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by an affirmative two-thirds vote of the Television Board of Directors at a regular or special meeting; provided, however, that the following conditions and procedures shall apply:

**A. Preferring of Charges—Conditions Precedent:**

Prior to the preferring of charges to the Television Board of Directors concerning violation of the Code by a subscriber, the Television Code Review Board (hereinafter provided for) (1) Shall have appropriately, and in good time, informed and advised such subscriber of any and all complaints and information coming to the attention of the Television Code Review Board and relating to the programming of said subscriber, (2) Shall have reported to, and advised, said subscriber by analysis, interpretation, recommendation or otherwise, of the possibility of a violation or breach of the Television Code by the subscriber, and (3) Shall have served upon the subscriber by Registered Mail a Notice of Intent to prefer charges, at least twenty days prior to the filing of any such charges with the Television Board of Directors. During this period the Television Code Review Board, may within its sole discretion, reconsider its proposed action based upon such written reply as the subscriber may care to make, or upon such action as the subscriber may care to take program-wise, in conformance with the analysis, interpretation, or recommendation of the Television Code Review Board.

**(i) Notice of Intent**

The Notice of Intent shall include a statement of the grounds and reasons for the proposed charges, including appropriate references to the Television Code.

**(ii) Time**

In the event that the nature of the program in question is such that time is of the essence, the Television Code Review Board may prefer charges within less than the twenty days above specified, provided that a time certain in which reply may be made is included in its Notice of Intent, and provided that its reasons therefor must be specified in its statement of charges preferred.

**B. The Charges:**

The subscriber shall be advised in writing by Registered Mail of the charges preferred. The charges preferred by the Television Code Review Board to the Television Board of Directors shall include the grounds and reasons therefor, together with specific references to the Television Code. The charges shall contain a statement that the conditions precedent, hereinbefore described have been met.

**C. Hearing:**

The subscriber shall have the right to a hearing and may exercise same by filing an answer within 10 days of the date of such notification.

**D. Waiver:**

Failure to request a hearing shall be deemed a waiver of the subscriber's right thereto.

**E. Designation:**

If hearing is requested by the subscriber, it shall be designated as promptly as possible and at such time and place as the Television Board may specify.

**F. Confidential Status:**

Hearings shall be closed; and all correspondence between a subscriber and the Television Code Review Board and/or the Television Board of Directors concerning specific programming shall be confidential; provided, however, that the confidential status of these procedures may be waived by a subscriber.

**G. Presentation; Representation:**

A subscriber against whom charges have been

preferred, and who has exercised his right to a hearing, shall be entitled to effect presentation of his case personally, by agent, by attorney, or by deposition and interrogatory.

**H. Intervention:**

Upon request by the subscriber-respondent or the Television Code Review Board, the Television Board of Directors, in its discretion, may permit the intervention of one or more other subscribers as parties-in-interest.

**I. Transcript:**

A stenographic transcript record shall be taken and shall be certified by the Chairman of the Television Board of Directors to the office of the Secretary of the National Association of Broadcasters, where it shall be maintained. The transcript shall not be open to inspection unless otherwise provided by the party respondent in the proceeding.

**J. Television Code Review Board; Counsel:**

The Television Code Review Board may, at its discretion, utilize the services of an attorney from the staff of the NAB for the purpose of effecting its presentation in a hearing matter.

**K. Order of Procedure:**

At hearings, the Television Code Review Board shall open and close.

**L. Cross-Examination:**

The right of cross-examination shall specifically obtain. Where procedure has been by deposition or interrogatory, the use of cross-interrogatories shall satisfy this right.

**M. Presentation:**

Oral and written evidence may be introduced by the subscriber and by the Television Code Review Board. Oral argument may be had at the hearing and written memoranda or briefs may be submitted by the subscriber and by the Television Code Review Board. The Television Board of Directors may admit such evidence as it deems relevant, material and competent, and may determine the nature and length of the oral argument and the written argument or briefs.

**N. Authority of Presiding Officer; of Television Board of Directors:**

The Presiding Officer shall rule upon all interlocutory matters, such as, but not limited to, the admissibility of evidence, the qualifications of witnesses, etc. On all other matters, authority to act shall be vested in a majority of the Television Board unless otherwise provided.

**O. Films, Transcriptions, etc.:**

Films, kinescopes, records, transcriptions, or other mechanical reproductions of television programs, properly identified, shall be accepted into evidence when relevant.

**P. Continuances and Extensions:**

Continuance and extension of any proceeding or for the time of filing or performing any act required or allowed to be done within a specific time may be granted upon request, for a good cause shown. The Board or the Presiding Officer may recess or adjourn a hearing for such time as may be deemed necessary, and may change the place thereof.

**Q. Findings and Conclusions:**

The Television Board of Directors shall decide the case as expeditiously as possible and shall notify the subscriber and the Television Code Review Board, in writing, of the decision. The decision of the Television Board of Directors shall contain findings of fact with conclusions, as well as the reasons or bases therefor. Findings of fact shall set out in detail and with particularity all basic evidentiary facts developed on the record (with appropriate citations to the transcript of record or exhibit relied on for each evidentiary fact) supporting the conclusion reached.

**R. Reconsideration or Rehearing:**

A request for reconsideration or rehearing may

be filed by parties to the hearing. Requests for reconsideration or rehearing shall state with particularity in what respect the decision or any matter determined therein is claimed to be unjust, unwarranted, or erroneous, and with respect to any finding of fact shall specify the pages of record relied on. If the existence of any newly-discovered evidence is claimed, the request shall be accompanied by a verified statement of the facts together with the facts relied on to show that the party, with due diligence, could not have known or discovered such facts at the time of the hearing. The request for rehearing may seek:

- a. Reconsideration
- b. Additional oral argument
- c. Amendment of any findings, or
- d. Other relief.

#### S. Time for Filing:

Requests for reconsideration or rehearing shall be filed within ten (10) days after receipt by the respondent of the decision. Opposition thereto may be filed within five (5) days after the filing of the request.

#### T. Penalty, Suspension of:

At the discretion of the Television Board, application of any penalty provided for in the decision may be suspended until the Board makes final disposition of the request for reconsideration or rehearing.

#### U. Disqualification:

Any member of the Television Board may disqualify himself, or upon good cause shown by any interested party, may be disqualified by a majority vote of the Television Board.

### Section 5. ADDITIONAL PROCEDURES

When necessary to the proper administration of the Code, additional rules of procedure will be established from time to time as authorized by the By-Laws of the NAB; in keeping therewith, special consideration shall be given to the procedures for receipt and processing of complaints and to necessary rules to be adopted from time to time, taking into account the source and nature of such complaints; such rules to include precautionary measures such as the posting of bonds to cover costs and expenses of processing same; and further provided that special consideration will be given to procedures insuring the confidential status of proceedings relating to Code observance.

### Section 6. AMENDMENT AND REVIEW

Because of the new and dynamic aspects inherent in television broadcast, the Television Code, as a living, flexible and continuing document, may be amended from time to time by the Television Board of Directors; provided that said Board is specifically charged with review and reconsideration of the entire Code, its appendices and procedures, at least once each year.

### Section 7. TERMINATION OF CONTRACTS

All subscribers on the air at the time of subscription to the Code shall be permitted that period prior to and including the earliest legal cancellation date to terminate any contracts, then outstanding, calling for program presentations which would not be in conformity with the Television Code, provided, however, that in no event shall such period be longer than fifty-two weeks.

## IV

### Affiliate Subscribers

#### Section 1. ELIGIBILITY

Any individual, firm or corporation, which is engaged in the production or distribution, lease, or sale of recorded programs for television presentation, subject to the approval of the Television Code Review Board as hereinafter provided, shall be eligible to become an affiliate subscriber to the Television Code of the NAB.

#### Section 2. CERTIFICATION OF SUBSCRIPTION

Upon becoming an affiliate subscriber to the Code,

subject to the approval of the Television Code Review Board, there shall be granted forthwith to each such affiliate subscriber authority to use a copyrighted and registered seal and declaration, in a manner approved by the Television Code Review Board, identifying the individual firm or corporation as an affiliate subscriber to the Television Code of the NAB. Such authority shall not constitute formal clearance or approval by the Television Code Review Board of specific film programs or other recorded material.

#### Section 3. DURATION OF AFFILIATE SUBSCRIPTION

The affiliate subscription shall continue in full force and effect until thirty days after the first of the month following receipt of a written notice of resignation. The affiliate subscription to the Code shall be effective from the date of application subject to the approval of the Television Code Review Board.

#### Section 4. SUSPENSION OF AFFILIATE SUBSCRIPTION

Any affiliate subscription and the authority to utilize and show the above-noted seal may be voided, revoked, or temporarily suspended for the sale or distribution for television presentation of any film or other recorded material which by theme, treatment, or incident, in the judgment of the Television Code Review Board, constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by a vote of three members of the Television Code Review Board at any regular or special meeting. The conditions and procedures applicable to subscribers shall not apply to affiliate subscribers.

#### Section 5. REPRESENTATION OF AFFILIATE SUBSCRIBERS

Any affiliate subscriber or group of affiliate subscribers may authorize an individual or association to act for them in connection with their relations with the Television Code Review Board by filing a written notice of such representation with the Board. Such representation, however, in no way will limit the right of the Television Code Review Board to suspend individual affiliate subscribers in accordance with the provisions of Section 4."

## V

### Rates

Each subscriber and affiliate subscriber shall pay 'administrative' rates in accordance with such schedule, at such time, and under such conditions as may be determined from time to time by the Television Board (see Article VI, section 8. C. Television Board (3) and (4), By-Laws of the NAB); provided, that appropriate credit shall be afforded to a television member of the NAB against the regular dues which he or it pays to NAB.

## VI

### The Television Code Review Board

#### Section 1. COMPOSITION

There shall be a continuing committee entitled the Television Code Review Board. The Review Board shall be composed of seven members, all of whom shall be from the Television membership of NAB. Members of the Television Board of Directors shall not be eligible to serve on the above specified Review Board. Members of the Review Board shall be appointed by the President of the NAB, subject to confirmation by the Television Board of Directors. Due consideration shall be given, in making such appointments, to factors of diversification of geographical location, company representation and network affiliation.

During the year 1960, four members shall be appointed to serve until immediately following the annual NAB convention of 1962.

Starting in 1961, and every odd-numbered year thereafter, three members shall be appointed for two-year terms; and then in every even-numbered year thereafter, four two-year members shall be appointed.

All appointments take effect immediately following the annual NAB convention.

**A. Limitation of Service:**

A person shall not serve consecutively as a member of the Review Board for more than two year terms or for more than four years consecutively after April 30, 1953.

A majority of the membership of the Television Code Review Board shall constitute a quorum for all purposes unless herein otherwise provided.

**Section 3. AUTHORITY AND RESPONSIBILITIES**

The Television Code Review Board is authorized and directed:

(1) To maintain a continuing review of all television programming especially that of subscribers to the Television Code of the NAB; (2) to receive, screen and clear complaints concerning television programming; (3) to define and interpret words and phrases in the Television Code; (4) to develop and maintain appropriate liaison with governmental agencies and with responsible and accountable organizations and institutions; (5) to inform, expeditiously and properly, a subscriber to the Television Code of complaints or commendations, as well as to advise all subscribers concerning the attitude and desires program-wise of accountable organizations and institutions, and of the American pub-

lic in general; (6) to review and monitor, if necessary, any certain series of programs, daily programming, or any other program presentations of a subscriber, as well as to request recordings, aural or kinescope, or script and copy, with regard to any certain program presented by a subscriber; (7) to reach conclusions, and to make recommendations or prefer charges to the Television Board of Directors concerning violations and breaches of the Television Code by a subscriber; (8) to recommend to the Television Board of Directors, amendments to the Television Code.

**A. Delegation of Powers and Responsibilities:**

The Television Code Review Board may delegate, from time to time, such of its above-specified responsibilities, as it may deem necessary and desirable, to a Staff Group of the NAB.

**B. Meetings:**

The Television Code Review Board shall meet regularly once each quarter of the calendar year on a date to be determined by the Chairman. The Chairman of the Review Board may, at any time, on at least five days' written notice, call a special meeting of the Board.

# **QUIGLEY PUBLICATIONS**

*In the World-Wide Service of the  
American Motion Picture Industry*

## **Motion Picture Herald**

Foremost weekly of the American motion picture industry. Founded 1915. Includes as monthly sections: BETTER THEATRES, devoted to theatre equipment, design and physical operation . . . BETTER REFRESHMENT MERCHANDISING, devoted to theatre vending.

**COVERING THE BUSINESS OF  
THE SCREEN DAY BY DAY...**

**MOTION PICTURE  
DAILY**

**WITH *Televisión Today***

**NEWS** concisely written, conveniently presented for the busy executive.

**NEWS**—not rumors, not mere reports, but *news*—verified for fact and for authentic interpretation of fact.

**NEWS** gathered by experienced industrial journalists—**from correspondents throughout the U. S. and around the world**—edited with knowledge of the business necessary to appreciate the significance to it of event and opinion.

That is why **MOTION PICTURE DAILY** is read—*and believed*—by the people who direct the business of the screen.
