Your car, madame . . .

But where is the car? Here we are floating . . .

Magic, you say? Yes! Camera and film magic!

# FILM does the unusual!

A writer is in deep thought . . .

"M-m-m—magic ride. How can we do that? A flying carpet? M-m-m—could be? Bullcar? We do better?"

The writer drops back into deep thought. Suddenly . . .

"We got it. Magic ride! Young couple—riding through the country. No car—just floating. Magic! That's what we want!"

Grand idea. But how to do it?

\* \* \*

Film was the answer—film with all its versatility—its adaptability. Film with a special prism camera—no time, patience, skill.

Result: a TV commercial to rave about—unusual in every way—beauty—impact—memory value.

But that's fine for you! Film does the unusual—gives you the commercials you want—and when!

What's more, film, and film alone, gives you the convenience, coverage and penetration of multiple markets that today's total selling requires.

QUIGLEY PUBLICATIONS ✧ NEW YORK

# Foreword

WITH THIS Seventh Edition, TELEVISION ALMANAC reaches an age which, in an industry so young, bears notice as a mark of proved utility. TELEVISION ALMANAC is the product of experience going far beyond such a term of years—experience specific for its particular needs. Distinct in technique and function, the home screen and theatre screen nevertheless share resources of talent and business direction, and TELEVISION ALMANAC is a companion volume of Motion Picture Almanac, which became one of the Quigley Publications devoted to motion pictures 34 years ago. In thorough annual revision, TELEVISION ALMANAC presents the facts of the television industry—its companies, organizations, services and people—together with pertinent facts of the motion picture industry. Thus TELEVISION ALMANAC is able uniquely to serve the television industry as an indispensable source of timely data and information.

—MARTIN QUIGLEY

there is nothing harder to stop than a trend.

## Well, what kind of a

It's been, first, a trend to first place.\* To the largest share of the viewing audience where it counts most.

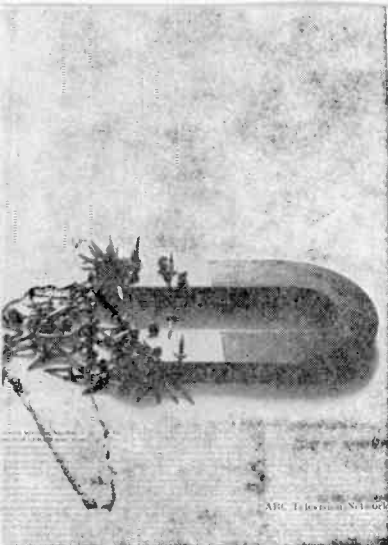

From October to June, in the markets where they can watch all 3 networks, they watched ABC-TV most.\*

It's been a trend to new successes in new programming. *My Three Sons* and *The Flintstones*, for example, have continually hit the top ten. And such established trends as *The Untouchables*, *77 Sunset Strip*, *The*

*Real McCoys*, have kept trending right along.

It's been a trend to a new trend in public service series. Witness the acclaim for *Sir Winston Churchill: The Valiant Years*, *Close-Up!*, *Expedition*. And a new trend in news reporting: *ABC-TV News Final*.

It's been a trend to sports leadership... with *Fight of the Week*, *NCAA* and *American League Football*, *College Basketball*, *All Star Golf*, *ABC's Wide World of Sports*.

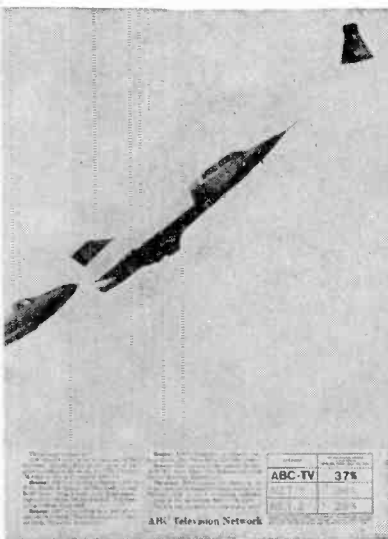

ABC Television Network

ABC TELEVISION

# trend has it been?

It's been a trend to the most tangible kind of sponsor enthusiasm—a 20% jump in billings for the first quarter of '61, a figure far in excess of the industry pattern.

It's been a trend to new affiliate successes.† In Portland, Ore., Seattle-Tacoma, Salt Lake City, Boston, Milwaukee, following affiliate switches to ABC-TV, average evening audience shares soared as much as 52%.

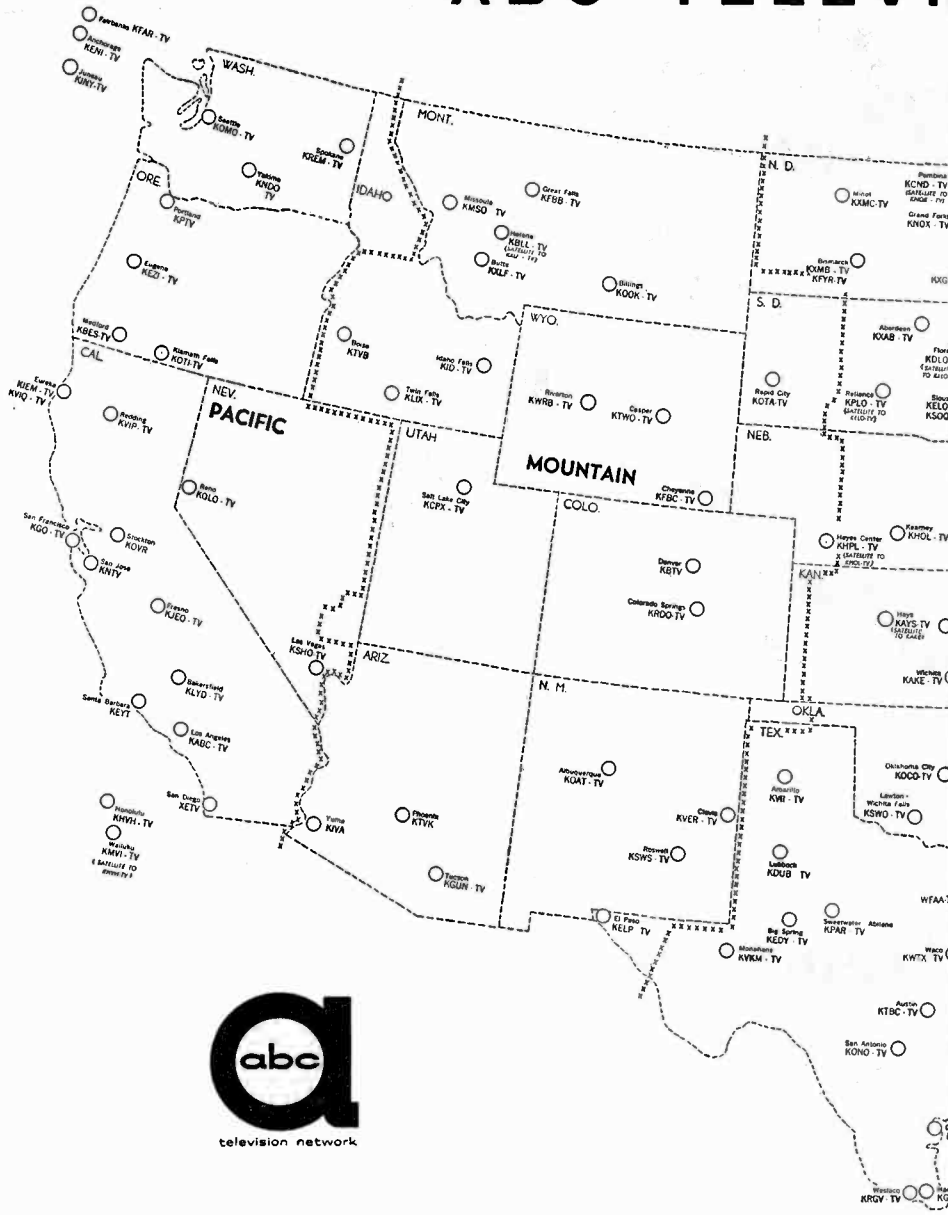

It's been, in summary, that happiest of

trends—an *uptrend*. A direction in which, it should be noted, we have every programming intention (*Top Cat*, *The New Breed*, *Target: The Corruptors*, *Calvin and the Colonel*) of continuing.

## Enters Syndication For The First Time

---

CBS Films announces that "December Bride," the ideal wedding of "crisp dialogue" and "smartly constructed situations" (*Variety*), has become available to regional and local advertisers.

An alumna of Desilu Productions, the bride enjoyed a triumphant engagement on the CBS Television Network, where she was a consistent favorite (a fast 32.2 average prime-time Nielsen *rating*). Her sponsors included General Foods, Lever Brothers, Shulton Inc.

Escorting the bride in 157 hilarious half-hours are Verna Felton, Dean Miller, Frances Rafferty and Harry Morgan. Guests include Rory Cal-

## Advertisers

### NETWORK ADVERTISING—ESTIMATED EXPENDITURES BY PRODUCT CLASSIFICATION

Food and food products led all other product classifications in network television advertising for the period January-August, 1961, according to a special report by the Television Bureau of Advertising. Total for this classification was \$90,300,500.

Toiletries and toilet goods, first last year, was next with \$82,356,158.

Detailed information on the above presented on the following pages.

## TELEVISION USAGE

During An Average Minute by Day Parts  
January-June 1959-1961

The percentage and number of homes using television during the first half of the year has been increasing gradually. One million homes have been added to average audience in the past two years alone.

	1961		1960		1959	
	% TV Homes	Homes (000)	% TV Homes	Homes (000)	% TV Homes	Homes (000)
Morning (7 A.M.-12 N)	13.9	6,519	13.2	5,966	13.1	5,764

**AVERAGE HOURS OF TV USAGE**  
per Home—per Day  
January-June 1957-1961

The average hours of TV usage per home, per day, during the first six months of 1961 has equaled the all time high for that period of five hours and 22 minutes set in 1958.

The TV homes in the East Central Territory led the others in time spent with TV during the first six months averaging five hours and 52 minutes per day. The East Central and Pacific Territories have been trending upward during the last five years. Only the West Central has fallen off.

## AVERAGE MINUTE AUDIENCES FOR NETWORK SHOWS

by Day Parts  
January-June 1957-1961

The trend in nighttime network programs has been moving in an upward direction for the past five years except for a slight decline in 1960.

Daytime audiences are growing (page 3), although with three networks dividing the audience since 1958, the average has been lower.

First 6 Months	Avg. Nighttime Program		Avg. Weekday Daytime Program		Avg. Week-end Daytime Program	
	Homes (000)	Rating	Homes (000)	Rating	Homes (000)	Rating
1961.....	8,261	17.6	2,985	6.4	3,382	7.2
1960.....	7,863	17.4	2,998	6.6	3,532	7.8
1959.....	8,201	18.6	2,741	6.2	3,643	8.3
1958.....	8,140	19.2	3,242	7.6	3,382	8.0
1957.....	7,437	18.9	2,870	7.3	3,404	8.7

## TELEVISION EXPENDITURES

Network and Spot Gross Time Charges Only  
January-June 1957-1961

First 6 Months	Network Expenditures	% Change	Spot* Expenditures	% Change
1961.....	\$363,869,000	+ 8.2	\$311,927,000	- 1.0
1960.....	336,294,000	+ 9.0	315,191,000	+ 10.4
1959.....	308,651,000	+ 9.0	285,493,000	+ 24.4
1958.....	283,071,000	+ 12.9	229,462,000	+ 5.8
1957.....	250,663,000	+ 6.9	216,941,000	+ 14.6

\* Figures have been adjusted prior to the Second Quarter of 1960 to compensate for changes in the reporting procedure.

## COST PER 1000 COMMERCIAL MINUTES DELIVERED

Network Programs—by Day Parts  
January-June 1957-1961

The cost-per-thousand for all network programs during the first six months of 1961 was slightly higher than 1960, though lower than the average of \$2.75 for the past five years.

Daytime network cost-per-thousand, after a high of \$2.24 and \$2.30 in 1958 and 1959 respectively, has fallen off considerably to \$1.90 in 1960 and \$2.01 in 1961.

First 6 Months	Network Cost per 1000		
	All Programs	Evening	Daytime
1961	\$2.73	\$3.98	\$2.01
1960	2.65	3.94	1.90
1959	2.72	3.60	2.30
1958	2.85	3.71	2.24
1957	2.79	3.72	2.14

Note: All the above data is reported on a program basis.

## Walt Disney hails COLOR TV as "One of the greatest of all innovations in entertainment!"

"It seems like yesterday (but it was a good forty years ago) that I first stepped into the entertainment world. Who ever dreamed then of the miracle of Color Television?"

"In those days, we didn't even have color cartoons—just giving life to a static comic strip character was magic enough. And as for sound—well, we had the theater organist. Sometimes he even played the right tune at the right time.

"Now, we have high-fidelity sound and high-fidelity *color*, too. Combined on our home TV screens, Color TV adds

up to one of the greatest of all innovations in entertainment.

"Color adds a fascinating new dimension to our home television programs. Color can stress the tension and suspense of an adventure story. Color adds so much to the enjoyment of famous classics. And color is, of course, a 'must' in stories where the songs and dances of people from other lands take a prominent role.

"Color, in other words, adds so much to so many fine programs that I'm happy we're part of it with our NBC-TV series, 'The Wonderful World of Color.'"

WALT DISNEY

The Most Trusted Name in Color Television  
RADIO CORPORATION OF AMERICA

# QUIGLEY PUBLICATIONS

*In the World-Wide Service of the  
American Motion Picture Industry*

## **Motion Picture Herald**

Foremost weekly of the American motion picture industry. Founded 1915. Includes as a monthly section BETTER THEATRES, devoted to theatre equipment, design and physical operation, and to refreshment service in the THEATRE VENDING department.

# ASCAP

ASCAP are the initials of the American Society of Composers, Authors and Publishers, America's performing rights society.

■ An unincorporated, non-profit membership association of the men and women who write this nation's songs, the Society represents the catalogs of more than 7000 American authors, composers and publishers, and more than 50,000 of other countries. ■ The Society, which was organized in 1914, has always been dedicated to the protection of the rights of musically creative talent. The Society's catalog today covers every phase of musical literature: the popular songs of today, the standards of yesterday, the Broadway and motion picture hits, as well as the leading symphonic and concert works, religious, folk and country music.

# THE MANY WORLDS OF MUSIC

From the composers of today flows the music that reflects our life and our time. Many of the composers who make significant contributions to the music of our time license their performing rights through BMI. In many different ways, BMI fosters and supports the many worlds of contemporary music.

Since 1940 the publishers, composers and authors affiliated with BMI have built a large and diversified repertoire...music of every kind to fill every need. They continue to provide a flow of music that serves the challenging needs of the film and television industry.

# TV Channel Allocations

ON April 13, 1952, the Federal Communications Commission announced lifting of the "freeze" on new television station construction which had been in effect since September 30, 1948. In so doing, it also made public the allocation of the new ultra-high frequency channels and some changes in the existing very-high frequency bands. Theoretically, allocation of the ultra-high frequency channels makes possible 2,053 new stations in 1,291 communities. This included 242 exclusive educational outlets and was in addition to the 108 TV stations then on the air. As of July 29, 1961, there were 589 TV stations on the air. Of these 497 were VHF and 92 were UHF. Of the VHF channels, 456 were commercial and 41 were non-commercial. Of the UHF channels, 76 were commercial and 16 non-commercial. Following is the complete list of cities and the channels assigned to each. The population of each community is given in parentheses. The (\*) preceding a channel number indicates a frequency reserved for educational use.

## CREATE THE RIGHT MOOD EVERY TIME

with the

## MAJOR MOOD MUSIC LIBRARY

*Major* offers you a full thirty-five hours of mood music for titles, bridges, background — for scoring, editing, recording and dubbing music for your feature productions, documentaries, TV films, slide films, animation, sales presentations, industrial films and commercials.

*Major* specializes in sound — you get exceptional technical know-how and beautifully-recorded original music.

**IMPORTANT:** *Major* owns its own copyrights on *all* mood music in its library; world rights available to you on a completely sound legal basis. Records available on a "per selection" or "unlimited use" arrangement.

# MOTION PICTURE DAILY

WITH *Televisión Today*

*National Newspaper of the  
Entertainment Industry*

NEWS concisely written, conveniently presented for the busy executive.

NEWS—not rumors, not mere reports, but *news*—verified for fact and for authentic interpretation of fact.

NEWS gathered by experienced industrial journalists—from correspondents throughout the U. S. and around the world—edited with knowledge of the business necessary to appreciate the significance to it of event and opinion.

That is why MOTION PICTURE DAILY is read—and *believed*—by the people who direct the business of the screen.

# THE BRITISH YEAR IN REVIEW

by PETER BURNUP

TELEVISION'S appeal continues to increase here; albeit with none of its original and dramatic impact. At the end of June last 11,440,884 domestic reception licenses were found to be in operation compared with the figure of 10.6 million obtaining in the previous year and representing—so it is computed—89 per cent of the over-all population of these islands.

A more precise index to the medium's appeal is to be found in the volume of sales of reception sets. The year 1959 was the harvest time for set-makers in this land. The populace acquired in those twelve months no fewer than 2.5 million sets for cash, on credit or by rental. In 1960, sales fell to around 2.1 million. Due primarily to the savage economic sanctions recently imposed by the Government on personal expenditure but partly due also to other internecine circumstances the volume of sales will inevitably fall this year well below the 2 million datum level. Realists in the industry agree that the medium has lost to a considerable and growing degree its so-called "captive audience." The majority of viewers, so those same realists assert, are growing increasingly selective in their choice of programmes.

That problem of programming is seen now as the television industry's greatest single bugbear. There is simply not a sufficiency of top-flight talent world-wide—so the best informed maintain—to sustain day-long programmes week in and week out. So—there's a dismaying and debilitating sense of mediocrity in many TV programmes now on offer here. Another far more disturbing circumstance arises, in the view of earnest sociologists and other authorities, in the growing importation from the United States, mainly by the commercial network here, of programmes concerned with crimes of violence. Britain lately has been plagued with an immense increase in such crimes and the allegation is freely made attributing that lamentable circumstance primarily to the influence of commercial TV.

A highly respected organ of public opinion recently came out with the following blunt declaration. "England's first ITV station began transmitting late in 1955. Crimes of violence against the person began to increase alarmingly the following year. As ITV spread throughout England and Wales violent crime grew more rapidly even than it did during the War. Commercial Television

*London, September, 1961*  
came to Scotland in mid-1957. Sure enough it was in 1957—not 1956 as in England—that violent crime went up noticeable. The increase has gone on ever since."

The Independent Television Authority is criticized for not enforcing a code of permissible violence as does the British Broadcasting Corporation. ITV claims that to propound a written code would be to invite quibbles over interpretation and set off trains of thought about ways of getting round it. In the nature of things an adaptation of the admirable pattern of censorship prevailing in the exhibition of motion pictures, with its X certificate which forbids the admission of children to films unsuitable to them, is impossible in TV broadcasts. None moreover wants a busy-body interference in the medium's operation. Nevertheless, the mounting and embittered criticism of those unrestrained and dubious exhibitions of violence on TV screens is likely to lead to a system of so-to-say self-denying ordinance of the controlling authority.

Profits accruing to the pioneer operators of the commercial system have mounted to the region of near-fantasy; so that distinctly vocal demands have been made in Parliament and elsewhere for a legislative syphoning-off of a proportion of those El Dorado increments to public purposes. Included among that band of happy adventurers were motion picture organisations like Associated British Picture Corporation and Sidney Louis Bernstein's Granada Theatres. The Rank Organisation was a comparatively late entrant in the field but sooth-saying commentators are now heard declaring that motion pictures' future turns on an integration with television. Assuredly that prophesy would seem to be borne out in the high good fortune attending both imaginative Mr. Bernstein's venture in the field and ABPC. Stockholders in the latter were paid this year a record dividend of 60 per cent.

Like good fortune has attended the original and venturesome subscribers to another programme contractor known as Associated Television. This now flourishing concern was promoted primarily by two (as many opined at the time) unduly intrepid men named respectively as Val Parnell and Lew Grade, both of whom had had considerable experience in the light entertainment field and by so much presumably were equipped with the know-how.

In spite of the continuing public outcry

nothing legislatively will be done about the curbing of those profits until the new charters relating to both the commercial system and the BBC come into operation in 1964. Nevertheless, top-level lobbying is already in progress in the eclectic circles known here as The Establishment and which is generally understood to have the ultimate say-so in all Governmental affairs. Significantly, Mr. Parnell's and Mr. Grade's Associated Television—with its sights plainly set on that critical year 1964—lately issued a pronouncement to regulating its future policy.

The statement was bland enough but it had startling implications. It recorded that a six-months' survey of the Company's operations had revealed an undue preoccupation with light entertainment; adding that ATV could not be considered seriously as a contractor capable of providing good quality programmes other than vaudeville and the like. The disturbing disclosures in the survey, prepaid by a leading public relations concern, is understood to have led a drastic re-orientation in ATV's policy and organisation. It is thought 1964 notoriously will be a year of destiny for TV's operators. But as Mr. Parnell would doubtless remark and echoing that antique Platonic dictum: The Subsequential is not necessarily the Consequential.

Foremost consideration in Government decisions in that regard is the future of the BBC, the quite remarkable officially created institutions which took charge of an immature sound broadcasting system and spread its wings—again with Governmental blessing—into the then hazardous adventure of television.

There has always been an allegedly prim air about the corporation's output in sound and later, in television. It is also within the privy knowledge of Quigley Publications' London Bureau that only in a sudden and characteristic quirk of decision Britain's Prime Minister of the day—Sir Winston Churchill—ordained that the corporation should have a commercial competitor in the field of television.

In spite of that allegation of primness and in spite of an extreme limitation in its finances the BBC's TV reportage on national occasions leaves the commercial network standing. Those occasions, such as the State Opening of Parliament or a Royal Wedding, have the commercial organisations down the fida. On one such occasion recently, the monitoring system recorded that the BBC programme picked up no less than 82.5 per cent of viewing audiences.

It requires to be reported also that a special spice of audacity characterises a number of its TV programmes as—for example—its Face-to-Face half-hours when some public character is virtually arraigned before the corporation's inquisitors with the latter, as

lawyers gleefully say, putting themselves in danger of contempt of court.

But the corporation currently finds itself in financial difficulty. Its revenue derives exclusively from a proportion of the annual take of domestic reception licenses. That revenue is estimated this year to amount to just under £38 million compared with the colossal amount of around £90 million accruing to the commercial service out of advertising revenue. Moreover out of its revenue the corporation must sustain its sound radio service.

At present the Exchequer takes £1 of the £4 radio-TV license. The Post Office—the collecting authority—deducted annual operating expenses more than £2 million this year. The BBC's share of the remaining £3 has been increased to 95 per cent this year and will be 100 per cent next year. The increase will mean about £750,000 to the corporation this year and another £2,250,000 next year.

All those and other varied circumstances have already been submitted to the body known as the Pilkington Committee—named for its chairman, Sir Henry Pilkington, one of this country's most distinguished industrialists—appointed to advise the Government on TV's future here.

He must advise the Government, for example, on urgent public questions such as to how soon the 625-line transmission standard—it already prevails through the most of the Continent of Europe—and a colour system may be introduced in this country. Both systems were on view to eager enthusiasts at the recent autumn Annual Radio Show in London. Sir Harry is called upon also to consider and advise upon the mass of memoranda he has received not only from established TV operators but a mass of hucksters.

Two things immediately emerge: (1) the sedate BBC will have its current financial disequilibrium restored; (2) a curb will be placed on those fabulous profits accruing to commercial TV operators.

One other consideration to which not only Sir Harry but the aforementioned establishment will undoubtedly give urgent consideration is the question of pay-TV.

The powerful Rank Organisation is known to be concerned with such a development and another company known as British Home Entertainment is in the field. The latter has an imposing directorate with Field Marshal Lord Slim (one of Britain's wartime heroes) as its chairman and other people like actor Laurence Olivier and ballerina Margo Fonteyn on its board.

Pay-TV is obviously destined for inauguration here and its franchise eagerly sought after. The likelihood is that that valuable franchise will be awarded to a quasi-public organisation.

# GOVERNMENT UNITS AND PROGRAM CONTRACTORS

## POSTMASTER GENERAL

General Post Office, St. Martin's-le-Grand, London, E.C.1. Telephone: Headquarters 1234.

## POSTMASTER GENERAL

THE RT. HON. REGINALD BEVINS, M.P.  
*Director General (in Charge of Broadcasting & Television):* SIR RONALD GERMAN, C.M.G.

# THE Heron CAMERA CRANE

The Heron is an entirely new concept in mechanically operated television camera mountings. It possesses many novel and unusual features which combine to make it the most up-to-date and versatile camera crane ever to take the floor.

- \* Improved acceleration
- \* Quieter operation
- \* Hydraulic traction
- \* Crab steering
- \* Increased height range
- \* Greater maneuverability

## ***Behind the Screens***

When the BBC's first television signals left the Alexandra Palace and nosed their way through the ether Strand Electric had been lighting theatre stages for 25 years. They had already developed the first Light Console by which one man could control the whole of the lighting of the largest theatre.

Thus it was that Strand Electric were requested to supply the Television lighting control system for the first high definition broadcasts from Alexandra Palace in 1936. Strand have continued to meet the BBC's exacting requirements ever since with developments such as the memory preset and more channels in even more compact consoles.

It followed naturally that this proved success of Strand lighting control systems would lead to their adoption by the independent companies who came to share the networks in 1955.

Now the new BBC TV centre, every independent programme company in Britain and a score or more studios abroad are using Strand remote control systems exclusively.

*President:* HRH The Prince Philip, Duke of Edinburgh, K.G., K.T.  
*Chairman:* Peter de Sarigny.  
*Secretary:* J. H. Lawrie.  
*Deputy Secretary:* Mrs. P. J. Steele.

**SONGWRITERS GUILD (OF GREAT BRITAIN)**  
32 Shaftesbury Avenue, London, W.1. Telephone: Gerrard 1554.  
*President:* Sir Compton Mackenzie.  
*Chairman:* Paddy Roberts.  
*Vice-Chairman:* Hubert W. David.  
*General Secretary:* Victor Knight.  
*Asst. General Secretary:* Judith Henry.  
(Official organisation representing British writers of popular songs and light music.)

**MECHANICAL COPYRIGHT PROTECTION SOCIETY LTD. SOUND FILM MUSIC DIVISION**  
Elgar House, 380 Streatham High Road, London, S.W.16. Telephone: Streatham 3181-8. Telegraphic Address: Sofimus, London, S.W.16.  
*Manager:* Anne Bolton.  
*Secretary:* Anne Bolton.  
(Objects: Membership of the Society covers the majority of English music publishers and other owners of copyright music. The function of the Bureau is to act on behalf of its members in respect of the use of their copyright music in sound films. Applications for permission to make such use of music under its control should be made in writing to the Bureau.)

**TELECOMMUNICATION ENGINEERING AND MANUFACTURING ASSOCIATION**  
Stafford House, Norfolk Street, Strand, London, W.C.2. Telephone: Temple Bar 6824.  
*Director:* H. Faulkner, C.M.G.

**TELEVISION AND SCREEN WRITERS GUILD**  
7 Harley Street, London, W.1. Telephone: Langham 1895/6.  
(In 1959 the British Screen and Television Writers Association and the Radio and Television Writers Association were amalgamated to form this Guild. Its object to further and protect the interests of its members and to obtain for British television and screen writers terms comparable to those long accepted in other fields.)  
*General Secretary:* S. E. Honess.  
*Chairman:* Ted Willis.  
*Vice-Chairmen:* Leigh Vance, Sid Colin.  
*Hon. Treasurer:* Bryan Forbes.

**TELEVISION SOCIETY**  
166 Shaftesbury Avenue, London, W.C.2. Telephone: Temple Bar 3330.

*President:* Sir Harold Bishop, C.B.E., M.I.E.E.  
*Secretary:* G. Parr, M.I.E.E.  
(Objects: The Television Society at the present time has a membership of over 1,200, the majority being engaged in television professionally. It accepts applications from all interested in television, whether as viewers, engineers, students, or retailers. Although certain aspects of programmes and production are of interest to its members it is not a Viewers Society, and does not cater primarily for non-technical interests.)

It is not the policy of the Society to act as a qualifying body, as this function is already performed by the professional institutions. It is recognised, nevertheless, that the membership of the Society carries with it a degree of proficiency in the theory and practice of television and a responsibility towards those who look to the professional man for disinterested advice and help.)

# TELEVISION IN CANADA

Toronto, August, 1961

TELEVISION has become an exciting media in this country with the development of competition between two networks, the state-owned Canadian Broadcasting Corp. and the privately-owned CTV Network Ltd. Up to now the Canadian Broadcasting Corp. has had a monopoly in the field, but the competition is creating a new interest.

Telemeter, pay-TV, making its first real debut with an experiment in Etobicoke, a suburb of Toronto, continues to provide a constant threat to commercial TV. The system started with 4,500 subscribers, and the total has risen to 6,000, and expansion allows for a maximum of 14,000. Program fare includes second run feature films, hockey games, news, live shows from Broadway and special entertainment without commercial advertising.

Capital investment in the experiment is estimated at more than \$2,000,000. It is being conducted by the country's largest theatre circuit, Famous Players Canadian Corp. Ltd., a subsidiary of Paramount Pictures, Inc. The company also has interests in four commercial TV stations, Kitchener, Quebec City, and Vancouver. In Quebec, there is an English and a French station.

Its success is a moot point. Little official results have been provided. But there are promises that the system will begin an expansion program in the Fall. Franchises for other parts of the country are under discussion. Subscribers pay \$5 installation charge. They are expected to make a minimum monthly investment, otherwise the coinbox is withdrawn. Peculiarly enough, the coinbox has taken on status symbol qualities.

The state-owned Canadian Broadcasting Corp. had a virtual monopoly in eight of the country's major TV markets, but this was broken when the Board of Broadcast Governors recommended to the Government that second-station licenses be given. The licenses were given in Vancouver, Calgary, Winnipeg, Toronto, Montreal, Ottawa, Halifax and Edmonton.

The Government entered the broadcasting business in 1928 to provide the country with a national identity in the field and create national unity. It created first the Canadian Radio Broadcasting Commission, and made it responsible for regulating all broadcasting, creation of a publicly-owned coast-to-coast network, and for the production of sustaining programs. By 1936, the Commission owned three stations, leased four others, and relied mainly on private broadcasters to carry its national programs. The Canadian Broadcast-

ing Corp. succeeded the Commission, and in 1958, the Board of Broadcast Governors took over the regulatory functions of the broadcasting industry.

The BBG is composed of three full-time members appointed for a period of seven years, and 12 part-time members, appointed for a period of five years. In 1960, the BBG recommended the development of competition of second TV stations, and then gave the green light to Spence Caldwell for the creation of a second TV network.

But the BBG has put strictures on Canadian TV: a station's programming must be 45 per cent Canadian content, as of April 1 of this year, to be increased to 55 per cent a year later. Material from the United Kingdom counts 50 per cent toward the Canadian content rule.

The Canadian Broadcasting Corp. has a full-time staff of 7,500 operates broadcasting services in English and French, maintains TV production facilities in nine communities, and its main French language production center in Montreal, is the largest center in the world for live TV French production. Its budget is nearly \$100,000,000 a year, supplied from the treasury coffers filled by Canadian taxpayers.

The Corporation's two national TV networks are made up of 40 privately-owned stations and 15 CBC stations. However, two of the English-language stations seek to disaffiliate; one to join the new CTV Network, Ltd.

A Parliamentary committee has brought down recommendations for changes in the CBC. These include removing the president and vice-president from the board of directors. Others are described as moves to clip the wings of the CBC.

The private network will offer "live" programming in mid-August when games of the Big Four Football were to be telecast. The net was developed under the promotional skill of Mr. Caldwell, a Toronto radio-station owner, TV film distributor, equipment supplier and film producer. When he first proposed his idea, half of Toronto's private station management opposed him publicly. Yet he gained his strongest impetus when the other half of the station management found the need for a network to broadcast the Big Four football which it had signed up for two years.

The Big Three TV stations in the east—Toronto, Montreal and Ottawa—will constitute the entire live network into Montreal and Ontario for the first few months. It will take several million dollars and at least 18

months to build a microwave relay network across the country. In the meantime, delayed broadcasts, by means of tape, will be used.

Mr. Caldwell claims his basic eight-station network will reach 75 per cent of the Canadian market at about one-third of the cost to advertisers that the CBC would charge. By mid-September, the net will carry 10 hours of programming a week, making use of the \$25,000,000 worth of studios and equipment of the affiliates. It hopes to eventually offer 28 hours a week. Network stock is allocated on the size of the various cities serviced.

A number of the new private stations installed equipment to provide for color telecasting, but it is still some time off because the CBC can't afford to convert its equipment.

Film production is confined to TV commercials. There hasn't been a TV series since production of the RCMP series by Crawley, with others promised and mooted. The National Film Board produces a quantity of material for use by the CBC.

Producers received a stimulus in the recent budget when the Government decreed commercials or material for TV commercials made in the U.S.A. on film or video tape are now subject to a 20 per cent duty on the cost of production. Commercials and material from the U.K. for Canada are taxable at 15 per cent. It's estimated that Canadian sponsors spent \$4,000,000 on TV commercials last year and more than \$2,000,000 of this went across the border.

License fees for TV stations is based on gross revenues, with payment of one per cent on \$200,000 gross and one and a half per cent on all gross revenue in addition to that.

A statistical summary indicates that Canada has a population of 18,000,000, with households totaling 4,459,100. There are 3,793,400 TV homes, or a percentage of 85.

There are 262 community antenna TV systems in the country, all of which now escape the authority of the BBG. There is some talk that they will be brought under the regulations of the Department of Transport.

—Harry Allen, Jr.

#### Board of Broadcast Governors

The Broadcasting Act (1936) was superseded in 1958 by a new Act which created Board of Broadcast Governors whose duties included the recommending of grants of licenses for radio and television stations, and the regulation of broadcasting.

The Board has a chairman, vice-chairman and one full-time member, all appointed for a seven-year term. The other 12 members, part-time, serve for five years.

Chairman, Dr. Andrew Stewart; Vice-Chairman, Carlyle Allison; Permanent member, Bernard Gaudet; Part-time members, Joseph F. Brown, Vancouver; R. Louis Burge, St. Peter's Bay, PEI; Dr. Mable G. Connell, Prince Albert, Sask.; Guy Hudson, Quebec City; Yvan Sabourin, Montreal; John B. Lewis, Montreal; Colin B. MacKay, Fredericton; Leslie M. Marshall, St. John, Newfoundland; Roy D. Duchemin, Sydney, N. S.; Rev. Emlin Davies, Toronto; Dr. Eugene Forsey, Ottawa; Edward A. Dunlop, Toronto.

## ARGENTINA

Actually four channels are in operation in Buenos Aires, though one of them—Channel 11—is still in an experimental stage, and is only on the air to fulfill the requirements which the concession demands. Apart from these four channels operating in Buenos Aires, there actually exist channels in Mendoza, Cordoba and Mar del Plata. Furthering this development, the Government has recently announced plans to open bids for about 100 new channels in the interior, 19 of which have already been granted.

The programs consist mainly of American TV serials and strong reaction has already resulted from this circumstance. In the first place, the Actors Association intends to apply to the authorities demanding legislation which would only permit 25 per cent of the playing time as maximum for the showing of films, claiming that the actual liberality is detrimental to their very existence. A strong movement intends also that the serials shown, which are mostly dubbed into Spanish in Mexican and Puerto Rican studios, thus differing the accent of the players from the local ones, should be made here, with the aim that local artists and technicians should thus increase their working possibilities. A bill with this intention has already been approved in the lower chamber in Congress, but it is rather doubtful if it will win full approval because such an action would surely bring equivalent measures in other countries. Anyway, Laboroites Alex has already announced enlargement of their studios in order to prepare themselves for dubbing.

Enthusiasm among the audience for this rather new medium of entertainment is great, and the number of sets sold, which is nearing the 600,000 mark, speaks highly of the interest created, especially when it's understood the high cost of a set in this country, which averages about Pesos \$30.00 (\$360) or the equivalent of about five months of an unskilled laborer's salary. A great proportion of these sets are sold on a long term installment basis. All other types of entertainment, such as cinema and the legitimate theatre, of course, already have felt the consequences of this and there has been a decline at the box office.

NATALIO BRUSKI

## AUSTRALIA

In the past 12 months television has grown larger and larger on the Australian horizon. In Sydney and Melbourne the two commercial stations and one national station in each state continue to flourish, with the commercial stations, outstripping by far the national station in general appeal. There are now close to a million TV set licenses issued in Australia and this number was greatly augmented when television opened in Adelaide, Perth, Brisbane and Hobart at the end of 1959 and early 1960.

TV also will go to 13 rural areas in Australia in the next couple of years as a result of moves by the Postmaster General's department to call for applications for licences in specified country centres. The A.B.C. will operate one station in each of the 13 areas and more than one commercial station may operate in each area also, a maximum total of 26 licences in these areas is quite possible.

To get a commercial licence local independent companies have to show that they are not associated with metropolitan stations and that they can provide a service comparable to that available to city viewers.

TV is having its first setback with insurance premiums on TV sets being increased drastically because of thefts of sets and racketeering by certain repair servicemen.

Despite agitation by Actors Equity, the bulk of

material on TV—certainly the most popular programmes—is American filmed shows. It is not likely that there will be any change of policy on the part of TV station managers to grant more time to local talent at the expense of imported material.

—FRANK O'CONNELL

## AUSTRIA

The Austrian government-owned-and-operated television, having closed the year 1960 with a total of 300,000 registered sets against 127,402 in 1959, is still in a situation of expansion and improvement and is steadily gaining ground throughout Austria.

Statistics show that with 200,000 registered sets about one-tenth of the 2,200,000 households are in possession of TV sets and 100,000 sets are in operation in the city of Vienna alone.

Austrian TV, which has the highest tax in Europe (\$2 per month and set) should now be able to considerably improve its programming as well as its inadequate operating facilities since tax revenues are increasing steadily and rapidly. However, Austrian government-owned TV is part and parcel of Austrian government-owned broadcasting. Since the latter has recently found itself in grave financial difficulties, these—though behind the scenes to be sure—also reach deeply into the television administration. Rumors persist that heads will roll at the very top in connection with a drastic overhaul.

The budget of Austrian TV for 1960 was \$6,100,000. The breakdown is as follows: programming, \$1,800,500; salaries, \$1,200,000; administration, \$136,000. The rest of this amount is for technical expenditure. The receipts of 1960 were: a \$2,500,000 bank credit guaranteed by the Federal government, \$2,300,000 in monthly fees and about \$400,000 from commercials.

Spots for commercials at \$28 per second have caught on and can now be purchased for the time between 7:30 to 8:30 P.M. Occasionally they even fill intermission time during stage plays. In the first quarter of the year a total advertising time of 45 minutes was sold and transmitted, whereas in the second quarter of 1960 this time was doubled to the total of 90 minutes sold commercials for a three-month period.

The quality of programs in 1960 has improved somewhat. Live TV plays have reached an excellent level and live transmissions from the legitimate stage are shown more frequently. Unfortunately even though Vienna is called the city of music and its opera house shelters the most modern TV transmitting studio in Europe, so far only one opera has been transmitted since 1958. Why this source of programs with technical and artistic perfection remains untapped is one of the mysteries of TV in Austria.

Total broadcasting time in 1960 amounted to 1,428 hours, an increase of 147 hours against 1959. Program breakdown: 23.2% news and sports, 15.2% movies, 13.4% educational, 12% musical and quiz shows, 2.7% serious music, 6.8% TV plays and 26.7% are participation programs in Eurovision or programs taken over directly from neighbouring Germany. Transmission time is from 7:30 to 10:30 P.M. nightly with transmissions from Germany at times lasting until 11:00 P.M.

—GEORGE J. WINNER

## BRAZIL

During the last few years, television in Brazil has progressed tremendously. The country leads the South American market, both in number of TV stations, which are presently 13 and several more

being installed (against three in 1957), and in quantity of receivers, which are figured at around 2,000,000 as compared to about 480,000 in 1957.

Transmissions comprise all kinds of programs, musicals, humor, sports, interviews, live theatre, etc., including lately also filmed serials, which had been thought of as impossible due to their being mostly in English language with Portuguese subtitles. Most of these programs have very good audience ratings, especially of course sports, and among these soccer, but also boxing and catch-as-catch-can etc. Musical, quiz and fun shows have a very good audience too, as well as news reports.

During the inauguration of Brazil's new capital, Brasilia, Emissoras Associadas (Associated Broadcasting Stations), Brazil's largest chain of radio and TV stations, put into operation their "video-tape" equipment, connecting Rio de Janeiro, Brasilia, Sao Paulo, Belo Horizonte, Ribeirao Preto in what is said to have been the largest private TV chain in the world.

There are two laboratories in Sao Paulo, specialized in the dubbing of filmed serials, working around the clock to satisfy their customers so as to introduce Portuguese-spoken serials; on the other hand the production of locally made serials is also under consideration.

—R. EKERMAN

## CHINA (Communist)

Communist China in the past year has increased the number of TV broadcasting stations from five to 23 and installed six relay centers. Broadcasting stations in Peking, Shanghai, Harbin, Tientsin, Shenyang, Changchun and Canton are on the air regularly for a limited number of hours while the other stations are still on an experimental basis. Programs include news, televised reports, popular

science, culture and art, sports and children's items—rather poor fare on the whole—and these are received on communal sets since no receivers are allowed to individual buyers unless they are high Communist Party officials. A TV University has been initiated in Peking to train announcers and technicians. No programs from Western countries are shown on TV and trade with Communist China by Americans is barred by the U. S. Government.

## CHINA (Taiwan)

The government of Nationalist China has asked a Japanese electronics company to submit bids for the erection of Taiwan Television Enterprise Co. Ltd. using the American-line system.

## DENMARK

Total number of receivers in Denmark: 600,000 (June 1, 1961).

Total number of commercial TV stations: None.

Total number of Government stations: 1.

Total coverage: 100% of population.

With the opening in the middle of June, 1960, of a transmitter covering the island of Bornholm, the Government station now has seven transmitters covering 100% of the population.

Television has increased rapidly, with a remarkable effect on the film trade. Four years ago 4,000 receivers were going. In 1961, 600,000 receivers are going.

A new television house, based upon an architect competition now finished, is about to be built during the next years. The work starts this Autumn,

**NEW YORK! HOLLYWOOD!

Cable "BARINTFOR" N. Y.

AIRPORT OFFICE: AIR CARGO SERVICE BLDG. NO. 80 • N. Y. Int'l Airport, Jamaica 30, N. Y.

6364 SANTA MONICA BOULEVARD, LOS ANGELES 38, CAL. • HOLLYWOOD 4-8221

and the first part it is estimated to be finished in two years. The whole house, with seven studios, is expected to be finished within 10 years. The sending hours, now about 19 per week, will gradually be increased. The Government station is at present operating with two studios, two reporting vans, two films vans and two video tape machines. The station has 12 news correspondents in Denmark, and the film department has 11 photographers producing about 600 bigger and smaller films for TV per year. In order to compete with German television, a complete film group has been stationed in the south of Jutland.

It is still prohibited for organized distributors to sell films to television which, however, hitherto have succeeded in obtaining feature films from other sources. Only extracts of up to 300 meters may be sold by distributors to TV.

Taxation on television receivers is 15 per cent of the wholesale price, plus a tax of kr.3.15 per tube in each receiver. The license to the state is d.kr.75.—per year as against d.kr.22.—for radio sets.

Television and Danish sports unions have reached an agreement according to which each sports union is free to negotiate with television, which always offers to pay an estimated loss for showing the special event in TV. Until now comparatively few sports events have been shown in TV.

Television is controlled by the state, and there is no advertising in the programmes.

—BORGE SLOT

## FINLAND

During April, 1957, tests began for the new Finnish TV. Ordinary TV programs began in the autumn of 1957—officially, Southern Finland can see programs from Soviet-Estonia; the Southwest Finland from Stockholm; and the east of Finland from Leningrad, USSR. A television set owner in Helsinki can now see TV programs every day in the week,—without paying any licenses. The Finnish radio plans to build a TV-network. Then shall the whole of Southern Finland—with the half of the population of the country—2,000,000—see the Finnish TV. Part of the programs shall be sponsored, the Finnish Radio Network will sell some of the TV-time to interested companies.

—GOSTA ERKELL

## FRANCE

There has been an important increase in the number of TV sets and by the 31st of March, 1961, the figure given by the authorities was over 2,000,000.

The increase in the number of TV sets continues and is now over two millions.

The great TV problem at the moment is a second network. This is due to start sometime next year and powerful forces are at work to turn it into an advertising network.

Equally powerful forces are opposed and at the time of writing nothing has as yet been decided.

But means will have to be found to pay for the new network and this is proving the great problem. There is a great deal of talk about paid TV and various companies have been set up in readiness to buy time in which to sell their programmes over this system. Naturally if advertising is permitted then they would be ready for that too.

The interests are split with a majority in favour of advertising although in the long run this majority may not turn out to be the most influential.

—HENRY KAHN

## GERMANY

Television has made progress in Germany in the past year.

The number of registered receivers, which passed the million mark in November 1957, was up to 5,000,000 on May 1, 1961, including West Berlin. This means that there is one set to every 15 inhabitants. Thus Germany is holding its second place in Europe, after Great Britain.

In Germany television is in the hands of the nine existing broadcasting companies, which are licensed regionally but are otherwise independent and politically neutral. There is so far only one program of about four hours daily and six on Sundays. Eight of these companies contribute to it. In addition each station daily carries an hour or two of programming of regional interest. A second general program is envisioned, but whether it is to have the same sponsors as the first one (as the broadcasting stations, the churches and some political parties wish), or private sponsors (as industry wishes), or whether it will be a national station (as the government wishes), is at present still the subject of a lively public controversy. While for a long time nothing was done about this from any side, at the present time both the broadcasting companies and the federal Post Minister are getting busy setting up the facilities for such a second program. The question whether the one or the other are constitutionally competent for this may have to be tested in court.

The present program, which was initiated in 1954, has no doubt improved in recent years, but is still not satisfactory and could well stand competition. According to opinion polls, nearly half of the audience are not satisfied with the program while more than half say they are. There is no colour television yet in Germany.

Motion picture theatres are feeling the competition of the new medium in Germany.

In Munich, for instance, the closing down of some larger theatres and their conversion into supermarkets is envisioned. While film revivals may be shown in television, presentation of current features is still, by agreement, limited to six-minute runs.

In the Soviet Zone of Germany there are today about 503,000 television receivers, an increase of roughly 100,000 in the past year. Some 15 different types of television sets are offered by the four television equipment producers in the Soviet Zone.

—MARIE WOLKENSTEIN

## HOLLAND

The influence of television in Holland is sharply increasing. The number of sets at this moment is already more than 980,000, which figure in comparison to other countries, is thought to be quite significant. (Holland has a total population of about 11 million people). There is not yet any commercial TV.

TV in Holland is organized by the Nederlandse Televisie Stichting (NTS), under governmental control, with five sub-divisions: a Roman-Catholic section, a Protestant section, a political (social democratic) section, another Christian division and a neutral section. The broadcasting companies, K.R.O., N.C.R.V., V.A.R.A., V.P.R.O. and A.V.R.O., represented by these divisions, want to keep their influence on TV.

The approximate cost of a TV set, antennae included, is from fl. 650.—to fl. 1,800.—(\$1 is fl. 3.62). A yearly contribution of fl. 36.—is due by the owners of a set, to be paid to the government.

Feature films are programmed once a week, on Tuesday night. These pictures are old ones (non-American), though of post war vintage. A considerable number of Rank pictures and some 20th-Fox films are among them, also Italian films, pictures of four to seven years ago. The Dutch trade organization does not permit new pictures to be televised.

Quality of programs is improving. Competition to motion pictures is obviously increasing, though the Dutch trade organization is following the development closely.

In order to compete with TV, the purchase of scooters, cars, more travelling abroad, etc., the trade organization has a special advertising campaign in the newspapers under the motto: "Go More to the Movies."

The purchase of TV sets by installment buying is still popular, otherwise the increase of the number of sets could not have been effected. The Dutch TV station is in Bussum. The most important directors are Max Douwes, Ger Lugtenburg, Fred Bredschneider, Ben Steggerda, Peter Koen, Gijs Stapperhoef, Ton Lensink and Wim Bary.

Philips is a big manufacturer of TV sets.

—PHILIP DE SCHAAP

## IRELAND

The sole responsibility for radio and television broadcasting is now vested by the state in The Broadcasting Authority. The Authority, appointed by the Government, consists of not less than seven or more than nine members serving on a part-time basis. It works under a chairman appointed by the Government. The present chairman is Eamonn Andrews, well known on British television and on sound radio in Ireland and Britain.

The Minister for Posts and Telegraphs who is responsible for the Authority, reserves to himself the duties of fixing and collecting license fees from domestic viewers, licenses the transmitting stations, and has a veto on the appointment and conditions of employment of the head executive, the director general, who is employed on a full time basis. An American, Ed Roth, who has experience with NBC, has been appointed director general.

The Authority's television service hoped to go into operation in November, 1961. The first transmitter will service the north east of Eric, covering an area with a population of approximately 1,250,000 people. Later four other transmitters will go into operation to give a nationwide coverage. The Authority is expected to be self supporting with revenue from domestic licenses and from that earned by spot advertising.

It is estimated that the new Irish TV Service will provide in the beginning about two hours of programmes per night and material from an outside broadcasting unit, and that the rest of the time will be filled with imported material.

The Authority has the responsibility to provide programmes of suitable cultural and national content and will be closer to the BBC type programme than to that of the usual commercial TV service. "Uplift" will be as important as entertainment.

Already domestic viewing is well established in N.E. Eric, programmes being received from Britain's BBC and commercial television stations. The impact of this viewing has already had a marked detrimental effect on cinema attendances and this is expected to increase.

—TOM SHEEHY

## ISRAEL

There is still no television service in this country, nor is one contemplated in the immediate future. This year, however, negotiations were reported to have been held with various foreign organizations with a view to the eventual establishment of a service. No details of the negotiations were announced.

—ALBERT de MATALON

## ITALY

Italian television is little more than six years old. Its impact and influence can be gauged by the way each political party monitored the news broadcasts during the 1958 election campaign to see that the seconds of air time were evenly distributed. (The Prime Minister had earlier decided that there would be no actual campaigning permitted on TV.)

Ninety-nine percent of the peninsula and Sicily receive the programs of RAI-TV, the government network. Such good coverage in a mountainous country is made possible by nearly 310 transmitters. Wealthy private groups are at present suing the government in an effort to break the TV monopoly. But since the government can not be sued without its permission, it seems unlikely that the present monopoly will be threatened for some time. It is patterned on the RAI radio monopoly which, however, was never absolute because of the existence of Radio Vatican and the Italian-language broadcasts from other European countries.

At present RAI-TV operates on two channels. Programs ordinarily begin at 5 P.M. and terminate usually around midnight. On Sundays programs begin earlier to include a sports event. Italy frequently joins Eurovision for a special events hookup with other countries.

Commercials are permitted for 12 minutes twice a day and all are confined to one short musical program. In spite of this cramming, there is a waiting list of would-be sponsors.

The number of sets in Italy has already passed the million mark. Each set owner is required to pay (as in radio) an annual subscription of about \$22. If one assumes that there is some bootlegging of sets, the actual number may have passed the million mark months ago.

The number of viewers for each receiver is higher here than in the U.S. because the cost of the cheapest 17-inch, Italian-made set (\$180) forces most people to watch their favorite programs in bars and cafes. The most popular shows are also shown in the neighborhood movie theatres.

In quality, Italian TV is usually conceded to be the best on the Continent. One explanation for this is that the government has given it its full support from the beginning. Another explanation is that its best programs are still unblushingly modeled on American shows. For three years the leader here, now it has been supplanted by "Twenty-One" and "Name That Tune." Some American kinescopes have been shown here (either dubbed or with a superimposed spoken commentary) to great success. Full-length operas (complete with 20-minute intermissions of silence) are often given.

In the early days Turin, Milan and Rome equally contributed to the programs. Today signs indicate that Rome will soon dominate.

Censorship became a major issue in 1958 and it is more severe than for films, with the Vatican frequently scolding the network.

—CORRADO BUNI

## JAPAN

Television in Japan has become big business with an estimated 7,000,000 black-and-white receiving sets serviced by 108 stations. Of these stations, 41 are commercial broadcasting stations supported by advertising and in most instances connected with the four major networks: Tokyo Television (KRT), Nihon TV (NTV), Fuji TV (FTV), and Nippon Educational TV (NET) which hardly lives up to its name of educational.

The remainder of the 67 stations belong to the Government-sponsored NHK Corporation, which exists on dues of 83 cents a month from every set owner whether or not he tunes in on NHK stations. NHK broadcasts on two networks, but finds that the one dedicated to culture and education has small pulling power.

Japanese stations average 10 hours a day broadcast time but log some 17 hours on weekends and holidays with sumo (Japanese-style wrestling) and baseball their biggest attractions. In fact, it is not surprising to find the same sumo contest or baseball game on five out of six available channels. Programming runs from 85 to 90 per cent domestic and the rest imported TV fare, mostly American, with some 60 American TV series shown, almost all with dubbed Japanese dialogue.

Japanese movie-makers, fearful of a continuing fall in attendance figures due to the inroads of TV, have, with almost complete success, been able to keep even their old films off the TV screens. What few full length pictures are shown on TV are usually old American films with a smattering of European (including some from the Communist countries).

Importers of TV series are controlled by the Government as to the number imported and the price paid (a \$450 limit on a 30-minute film or tape and some \$900 on an hour show) and must pay a duty of 9 cents a meter. Despite the low wages paid to technicians and actors, it is still cheaper to use an imported TV show at these prices than to make up a domestic show.

TV time is much cheaper than in the United States; in Japan 30 minutes may be purchased for as little as \$850 in a fairly large city and \$500 in a smaller one, with rates somewhat higher for prime time. Trend indexes and ratings of various shows among the Japanese of some 94 million are

now being serviced by an American company, which established itself in Tokyo in 1960.

Color TV is in its infancy with only some 4,500 sets in operation though an additional 10 stations received permits to broadcast in color during 1960. Color sets—priced from \$1,000—up are still much too expensive for the average Japanese. Black-and-white sets—practically all in the 14-inch and 17-inch sizes—are still priced higher than American 21-inch sets but the gap is steadily narrowing.

Japanese TV uses the American 525-line scanning system so American sets can be used after being adapted to differences in current but the American product is kept out by Government rules in addition to high import duties. American televising equipment is still in use in Japanese studios but the Japanese are making big steps in building their own equipment as well as their own video tape devices.

Tokyo Tower, a 1,060-foot TV tower in the middle of Tokyo, contains as modern a studio as will be found anywhere in the world, together with sight-seeing elevators, shops and restaurants.

American TV programs are very popular and, since they reach a segment of the population who do not see American movies, are important factors in influencing some Japanese as regards the American way of life. Thus they serve to "sell" America to the Japanese on the whole, though some programs may tend to do quite the contrary. Four American Westerns and "Lassie" occupy places in the Top 10 Shows in Japan from fourth place on.

Commercial TV advertising in 1960 jumped 20 per cent to some \$116,000,000 and taxes on sales of TV sets brought the government more than \$65,000,000.

Trade organizations include the National Association of Commercial TV Broadcasters, Kosoku-doro Building, 8, 7-chome, Nishi Ginza, Tokyo, and Broadcasting Corporation of Japan (NHK), 2 Uchisaiwai-cho, Chiyoda-ku, Tokyo, which is in charge of government non-commercial stations (without advertising).

—A. C. PINDER

## KOREA (South)

At the present the U.S. Army operates AFKN-TV on an assigned channel. There are plans to rebuild the fire-ravaged HLKZ-TV (Korcad) studios which operated on a quasi-commercial basis as well as to establish more civilian stations, beginning in Seoul.

## LEBANON

A television broadcasting service was launched in Lebanon in May, 1959. Programs are scheduled for three to four hours daily. In addition, Lebanese viewers are able to pick up broadcasts from Cyprus and some European stations. Lebanese National Television, the new company, is owned by shareholders and directed by technicians who studied in the U.S. and Europe.

In 1960 a second station started operations. This is government-owned and operated. There are no government controls on the formation of TV broadcasting companies.

TV receivers are expensive, the average price being \$300 a set. Sets now on the market come from U.S., England and Germany. By mid-1961 more than half the population owned sets.

—IBRAHIM H. ZEIN

## MEXICO

A Television set has become in Mexico an article of prime necessity. The urge of every Mexican home to get a TV set is so great that numerous poor families, living in houses not much better than huts pride themselves on a television set that is being painfully paid on the installment plan, peso by peso.

Sometimes neighbors contribute to meet the monthly payments, as they gladly pay an entrance fee of

25 or 30 centavos (2 or 2.5 cents) to watch their favorite program. Those homes may lack good water services, a heater, a good gas range or a washing machine but those matter less than a TV set. And so, 1959 registered an even greater sale of TV sets in Mexico than the record year 1958. Distributing houses have been established in every corner of town and their sales reached an estimated high of 200,000 sets in 1960. Large screens are favorite among Mexican fans, and only a reduced number of portable or small sets were sold.

More and more restaurants and bars, commercial lunch-counters and even some department stores, have succumbed to the idea of installing TV sets. It is a common sight in Mexico City, after dusk, to see crowds in front of shop windows of some important commercial houses on the main streets, watching a program. The interest of the Government is resulting in better and cleaner programs.

A plan is under study by the country's educational authorities to use electronic screens in the classrooms of Mexican schools. There is a strong movement among teachers backing the idea of teaching certain subjects through TV screens. At the end of 1958, the first TV station to operate exclusively with educational programs was installed with an investment of more than 30 million pesos. It is transmitting from Channel 11; but nothing really worthwhile was done in this regard during 1960.

In Guadalajara, the second largest and most important city in the Republic, a very important and powerful plant, similar to that of Telecentro in Mexico City and Monterrey, was recently installed and is now operating with modern equipment, and very attractive programs. It fills an urgent need for TV shows in Western Mexico.

Figures obtained at the Department of Statistics, estimate an average monthly number of TV viewers at 4,100,000. Sets operating during 1960 in the country became this year more than 1,000,000. Live programs have increased in an 80 per cent over films shown in the electronic screens. Famous movie players who had previously snubbed TV, are now accepting contracts to appear personally in television programs and there is insistent talk of higher wages in playing for TV. Even some of the best paid movie stars can now be admired by the Mexican fan sitting at home.

—LUIS BECERRA CELIS

## NEW ZEALAND

At long last a start has been made with TV. Auckland, the most thickly populated area of N.Z., now has regular telecasts over one station, while Wellington and Christchurch are about ready to start. So far public interest, as summed up in a survey of television sets sold, is very luke warm. This is attributed to the high cost of receivers, which retail here at \$550 and up.

The generally poor quality of entertainment provided also has cooled off the initial animosity. So far it would be reasonable to say that little or no impact has been experienced by picture theatres. Whereas TV manufacturers were screaming out at the Government's limiting the importation of tubes to 16,000 in the first year, only 4,000 TV sets were sold!

However, sets are bound to come down in price and programmes should improve considerably, so most folk in the film industry are treating the present phase as temporary but nevertheless welcome. It would appear, though, that nothing like the tragic experiences of other countries is likely to be experienced here. There will be many closures—certainly—but mostly theatres that were nearing redundancy anyway.

The blanketing of the country, at the moment, with the really big films has certainly dwarfed TV. Commercial TV is expected within six months—but with fairly severe restrictions on the amount of advertising time allowed to sponsors. New Zealanders generally will not tolerate blatant advertisements *ad nauseum*—even on the radio, and the Government has already indicated that it will not allow TV programmes to be spoiled by too much advertising.

—R. A. USMAR

## NORWAY

TV in Norway has been operating since the Fall of 1960, with programmes eight hours per week. Number of sets in the meantime increased from 15,000 to 50,000. As the TV is Government controlled and cinemas are municipal it is the same interests prevailing in both media. If cinemas should be hurt by TV, the Finance Department and the municipalities would have to pay. An agreement has therefore been established for the procedure and policy of TV, in order to hurt cinemas as little as possible. TV will use special TV-produced shorts, cultural and documentaries, comparatively few features and preferably so late in the evening that at least the two first shows per day in the cinema should not be affected.

—FINN NYMANN

## OKINAWA

Civilian stations Okinawa-TV and Ryuku Hoso broadcast daily programs to some 165,000 sets owned by the natives while the Armed Forces TV Service broadcasts to about 10,000 American-owned sets.

Okinawa is Japanese territory under control of the United States so the American broadcasting system is used with all receiving sets U.S.-made thus far because of their cheaper price compared to the Japanese product.

## PERU

Television is one of Peru's fastest growing industries. There are three channels in Lima (4, 7, 13) with a fourth about to resume operations (9) and a fifth in preparation (2). It is doubtful if the Lima market can support this number of stations, since in buying potential Lima would equal a city of 200,000 in the United States. One channel (7) is a non-commercial station set up by UNESCO and operated by the Ministry of Education. It operates only a few hours a week on an erratic schedule and has few viewers. Channel 4 (Radio America) is the oldest station, working since 1958. There is a fourth operating channel in the country, channel 2 in Arequipa; it is associated with Lima's channel 13 (Radio Panamericana).

Television has a strong appeal to people of all social classes. Even in the *barriadas* (slums) one finds TV antennas. It is the practice there for owners to charge one sole admission to watch nightly TV. There are said to be 65,000 sets in operation in the Lima area with an average viewing audience (according to McCann Erickson, the advertising firm) of 4.5 persons per set. This would give a potential total audience of about 300,000 persons. Others place the figure higher.

Programming depends greatly on Westerns and mystery (detective) shows from the United States that have been Spanish-dubbed in Mexico. There are also many motion pictures from the United States that are either dubbed or with titles. Film programs are preferred to live because of the cost factor. There are a number of live programs—amateur talent reviews, discussions, etc. Stations prepare their own news programs using live and film sections.

A minute spot at prime time (8-10 P.M.) costs about 700 soles (\$26). However, as many as 10 spots are grouped together, lessening impact. Nevertheless, prime time is sold out. A 15-minute spot costs 200 soles (\$7.41) and a half-hour show costs between 6,000 and 8,000 soles (\$200-\$300 approximately). The stations are working very close to the break-even point, and channel 9 failed.

## PHILIPPINES

Five stations are now on the air including DZAQ-TV (Alto Broadcasting System) on the air since 1953 and DZBB-TV (Chronicle Broadcasting Network). Receivers are estimated at about 200,000.

## PUERTO RICO

There are about 100,000 television sets in Puerto Rico, for a population of 2,300,000. Most of the public places such as restaurants, clubs, have television sets for their patrons and the medium is available in local hotels upon request.

Even though most Puerto Ricans know English, and the number of persons who will acquire a working knowledge of English will increase considerably through intensification of English instruction in public schools and the migration of Puerto Rican families to the United States, and workers who come back from the States with more knowledge of English, television programming is in English and Spanish. WKAQ-TV, owned and operated by the newspaper *El Mundo*, on channel 4, has 30 per cent programs in English of which 10 per cent have Spanish sub-titles.

Kinescope versions of top North American television shows such as *I Love Lucy*, *Schlitz Playhouse of Stars*, *Public Defender*, *The Unexpected*, *Life is Worth Living*, *Public Prosecutor*, etc., are represented on both stations. Most popular are the 64 Dollar Question and *Truth or Consequences*, and their counterparts in Puerto Rico.

American manufacturers of cigarettes, electric appliances, soaps, detergents, and other products which use television widely have increased their budgets for this type of advertising medium. Consequently the newspapers and magazines have lost advertising revenue.

The reason for this is that the two leading newspapers operating in Puerto Rico have a circulation each not reaching over 100,000, while there are now over 100,000 television sets in operation and the number is increasing considerably.

—E. SANCHEZ ORTIZ

## SCOTLAND

Popular enthusiasm for television continues to grow throughout Scotland, and outlying areas in remote corners, such as the Western Highlands and the extreme northern part of the country, are now benefiting from home entertainment. Live theatres and cinemas suffer, with most of the smaller operations either having closed or facing closure. Television is especially welcome in the northern Orkney Islands, where so far only BBC programs reach.

The commercial network claims the greater number of viewers. Scottish Television, Ltd., controlled by Roy Thomson, Canadian newspaper owner and now a U.K. press magnate, estimates that more than 2,750,000 people in Scotland—i.e. 67 per cent of the population in the central belt—are now watching independent-channel programs. Their own potential audience, it is claimed, has increased over fourfold since the station opened August 31, 1957.

The BBC continue to serve network programs and a small quota of home-based shows. In contrast, the STV (Scottish Television) station reached some 22 per cent of quota, and are lively in news, sports and lunch time features. New commercial stations due to open in 1961 are at Aberdeen, where northeast Scotland (or Highland) Television are readying operations under chairman Sir Alexander B. King, cinema magnate, and at Carlisle, northwest England, where the station of Border Television will also serve southern Scotland as well as the northwest agricultural and lake area of England. Increasing networking from Glasgow, and interchange of program material between Glasgow, Aberdeen, Carlisle and Newcastle, is likely.

—GORDON IRVING

## SOUTH AFRICA

The Union of South Africa is still without television service and likely to remain without it for many years in the future. The director general of the South African Broadcasting Corporation has nothing to report on the matter, while the Government says simply that "progressive research and experimentation in the television field has been

and still is being carried out, but purely as research and experimentation." The reasons for the TV lag here are many, including the geographical layout of the country, which would make nation-wide service extremely expensive, and the fact that the South African Broadcasting Corporation has been in financial difficulties with just its radio services.

—S. M. KIRSCH

## SWEDEN

The Swedish TV began in the autumn of 1956. One station was organized in Stockholm and one in Gothenburg. An ordinary TV week in Stockholm sees about 14 hours of "live" programmes and six hours of film. Swedish, French, American (USA), British and Soviet pictures have been shown on TV, and serials like "The Perry Como Show", "20th Century", "Perry Mason", "Hitchcock Presents", "Gunsmoke", "Disneyland", "Robin Hood" (British) and "Colonel Flack".

The future for the Swedish TV seems very promising. As of January 1, 1961, Sweden had 800,000 TV sets and about 30 transmitters.

—GOESTA ERKELL

## SWITZERLAND

As of April 1, 1961, there were 150,000 TV sets in operation in Switzerland. Eight transmitters and 12 boosters are on the air, 11 in the German-speaking part of Switzerland, six in the French-speaking part and three in the Italian-speaking Tessin.

The French and German language stations schedule about 22 hours of programming a week each; the Italian language transmitters about 17 hours weekly, of which four hours are produced by Tessin's own O.B.yan whereas the rest consists of programmes relayed from the German and French speaking parts of Switzerland, with commentary in Italian, as well as from Italy.

All telecasting in Switzerland is government-controlled. There are no commercial operations. The PTT administration is responsible for the transmitters and technical equipment, while the Swiss Broadcasting and Television Corporation handles all programming. Annual licences cost 84 francs for private sets and 168 for public sets.

—ARTHUR GOEPFERT

## THAILAND (Siam)

Two stations—the Thai TV System and Thai Army Station—are on the air daily in Bangkok though transmission hours are limited. Receivers are estimated at 150,000.

## TURKEY

The first TV network in Turkey will start operating very shortly, according to the latest information received. The Press Ministry, which is responsible for the TV and radio broadcasting stations operating in the country, recently has received two very interesting propositions on this subject.

Federal Germany announced her willingness to establish TV networks in the southern cities of Diyarbekir and Adana. Apart from this RCA of Italy has made propositions to erect a TV station in Istanbul, Ankara, Izmir and Adaya. It is generally believed that this will become the most important TV network in the Middle and Near East.

Another proposition was received from an American which will undertake all the costs of the establishment and operation of the network. This firm will participate for a period of five years with a share of 49 per cent of the profits of the company operating the network.

Negotiations with this American firm will start very shortly.

—PHEDON NAZLOGLOU

## VENEZUELA

There are three commercial television stations in Venezuela:

1. Radio Caracas Television: managing director, Amable Espina. Channels 2, 8 and 10. RCA equipment. This is by far the best station, with very little unsold time. It is operating about 16 hours a day.

2. Vene-Vision. Channels 4, 9 & 11. Managing Director Franklin Whaitte. Marconi Equipment. This station is the previous Televisa and was completely reorganized and revamped at the beginning of 1961. It has a strong A.B.C. interest. Operating six hours daily.

3. Ondas del Lago Television. This is the only channel in Maracaibo. Managing Director—Nicolas Vale Quintero. Operating an average of five hours daily.

There is also one Government-owned station, *Televisora Nacional*, channel 5, operating about four hours every evening and admitting no advertising. The programs are mostly cultural, news and documentary.

All television equipment used in Venezuela is imported, mostly from the U.S.A.. No statistics are made concerning the number of sets sold or used in the country. The number of sets is privately estimated at 200,000.

The legislation ruling television permits certain percentage of total time to be used for imported filmed programs. No difficulties have arisen in selling any imported programs because of the legislation. Market situation in 1960 is slightly off from 1959.

ALEXANDER L. STEIN

## YUGOSLAVIA

The Yugoslav television network is soon to start operation; with three studios in operation—in Belgrade, Zagreb and Ljubljana—two new studios—in Skopje, Macedonia, and Sarajevo, Bosnia. With these two additional studios, television in Yugoslavia will cover nearly 80 per cent of the territory. Last estimates indicate Yugoslavia has over 50,000 television sets. The exact number is hard to estimate because no television fee is paid although it is fixed for the first year of regular operation to one thousand dinars per month (\$1.33). Programs have very much improved. It has been improved in the first place with sports, local and foreign. The improvement on this sport field is tremendously appreciated by the Yugoslavs.

The situation in the production of sets has also improved in comparison with last year. The cost of sets locally produced dropped considerably—it can be bought for 1,360,000 dinars, and at the installment payments. The imported sets, whose number is limited, still disappear from the market the very moment they appear.

The television studio space and up-to-date equipment for coming important events on the spot are still limited, but the five-year plan, ending in 1965, earmarked eight billion dinars (over \$10,000,000) for a 14-story radio-television headquarters in "New Belgrade," a town building project of about 250,000 inhabitants, on the left bank of Sava River.

The Yugoslav television executives hope that by the end of the five-year plan the network will cover about 80 per cent of the country.

Television in Yugoslavia gained ground in popularity in a relatively very short time. With the beginning of 1962, Yugoslav television will enter the field of regular operation in Europe. The advertisement service has also been much extended, which is carried jointly by all three television centers in operation at certain hours of the day. Still the commercial advertisement hours are not yet organized on a purely commercial basis, but is on the way to become so.

The monthly 1,000 dinars fee for television, which is considered too low, is expected to be increased.

—STOJAN BRALOVIC

# *The Television Code*

# The Television Code

**A** NEW CODE of standards and practices for the television industry went into effect March 1, 1952 following a series of developments almost a year in the making.

The code is an aftermath of a meeting held in Washington in June, 1951 at which NBC made public a code of its own. Set up as a standard of operations in television, this code bore an essential resemblance to the instrument earlier adopted by the same network for radio broadcasting. Both NBC codes, a Code of Standards adopted for radio by the National Association of Broadcasters—predecessor organization of the National Association of Radio and Television Broadcasters—in Atlantic City in 1947 and now the industry-wide TV code, drew upon the Motion Picture Production Code for their pattern.

Four subcommittees were active in preparation of the television code throughout the summer of 1951. Their tentative draft was approved by the NARTB board in September and a final polishing job undertaken in Washington shortly before the text was ratified in Chicago, October 19, 1951.

The TV code provides for a review board consisting of five members of NARTB. This board is empowered to enforce the rules governing programming and advertising. There will be issued a Seal of Approval, available to subscribing members whether affiliated with NARTB or not. While the power to hold in check unfair and unscrupulous acts will be vested in the Review Board, the common impression in television is that this will be largely an unwritten power. The Review Board was increased to seven members in June, 1959, effective January 1, 1960.

Intensive promotion on behalf of the seal is contemplated. Subscribing stations will be permitted to televise it so long as they adhere to the code itself. The Review Board will be charged with the policing task and report violations to the board of directors of NARTB who will be empowered to revoke the seal by a two-thirds' vote from which there will be no appeal.

In those phases that deal with programming and its approaches, the code bears striking similarity to the Motion Picture Production Code, conceived and formulated in 1929 by Martin Quigley, and ratified by the Motion Picture Producers and Distributors Association of America, Inc. which became the Motion Picture Association of America, Inc. late in 1945 when Eric Johnston was named president.

Meeting in Bandera, Tex. in February, TV board members of NAB approved a review board of five and adopted a plan for financing administration of the code as well as an op-

erating budget of \$40,000 for the first year of operations.

The review board, designed to be a preliminary hearing group in considering complaints that specific TV programs and advertising practices violate the code, included the following:

John E. Fetzer, owner of TV station WKZO-TV at Kalamazoo, as the chairman; J. Leonard Reinsich, vice-president, WSB, Atlanta; Mrs. Scott Bullitt, owner of KING-TV, Seattle; William B. Quarton, vice-president and general manager, WMT-TV, Cedar Rapids and G. Richard Shafto, president of WIS-TV, Columbia, S. C.

Under the financing plan, each subscribing TV station pays \$405 a year. If it is an NAB member, \$250 of this is credited against NAB dues, leaving \$155 for defraying code administration costs.

The Code is copyrighted by the National Association of Broadcasters. It is reprinted with the permission of the Television Code Review Board.

Text of the revised code follows:

## Preamble

Television is seen and heard in every type of American home. These homes include children and adults of all ages, embrace all races and all varieties of religious faith, and reach those of every educational background. It is the responsibility of television to bear constantly in mind that the audience is primarily a home audience, and consequently that television's relationship to the viewers is that between guest and host.

The revenues from advertising support the free, competitive American system of telecasting, and make available to the eyes and ears of the American people the finest programs of information, education, culture and entertainment. By law the television broadcaster is responsible for the programming of his station. He, however, is obligated to bring his positive responsibility for excellence and good taste in programming to bear upon all who have a hand in the production of programs, including networks, sponsors, producers of film and of live programs, advertising agencies, and talent agencies.

The American businesses which utilize television for conveying their advertising messages to the home by pictures with sound, seen free-of-charge on the home screen, are reminded that their responsibilities are not limited to the sale of goods and the creation of a favorable attitude toward the sponsor by the presentation of entertainment. They include, as well, responsibility for utilizing television to bring the best programs, regardless of kind, into American homes.

Television, and all who participate in it are jointly accountable to the American public for respect for the special needs of children, for community responsibility, for the advancement of education and culture, for the acceptability of the program materials chosen, for decency and decorum in production, and for propriety in advertising. This responsibility cannot be discharged by any given group of programs, but can be discharged only through the highest standards of respect for the American home, applied at every moment of every program presented by television.

In order that television programming may best serve the public interest, viewers should be encouraged to make their criticisms and positive

suggestions known to the television broadcasters. Parents in particular should be urged to see to it that out of the richness of television fare, the best programs are brought to the attention of their children.

#### Advancement of Education and Culture

1. Commercial television provides a valuable means of augmenting the educational and cultural influences of schools, institutions of higher learning, the home, the church, museums, foundations, and other institutions devoted to education and culture.

2. It is the responsibility of a television broadcaster to call upon such institutions for counsel and cooperation and to work with them on the best methods of presenting educational and cultural materials by television. It is further the responsibility of stations, networks, advertising agencies and sponsors consciously to seek opportunities for introducing into telecasts factual materials which will aid in the enlightenment of the American public.

3. Education via television may be taken to mean that process by which the individual is brought toward informed adjustment to his society. Television is also responsible for the presentation of overtly instructional and cultural programs, scheduled so as to reach the viewers who are naturally drawn to such programs, and produced so as to attract the largest possible audience.

4. In furthering this realization, the television broadcaster:

- a) Should be thoroughly conversant with the educational and cultural needs and desires of the community served.
- b) Should affirmatively seek out responsible and accountable educational and cultural institutions of the community with a view toward providing opportunities for the instruction and enlightenment of the viewers.
- c) Should provide for reasonable experimentation in the development of programs specifically directed to the advancement of the community's culture and education.

#### Acceptability of Program Material

Program materials should enlarge the horizons of the viewer, provide him with wholesome entertainment, afford helpful stimulation, and remind him of the responsibilities which the citizen has toward his society. Furthermore:

- a) (i) Profanity, obscenity, smut and vulgarity are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.  
(ii) Words (especially slang) derivative of any race, color, creed, nationality or national derivation, except wherein such usage would be for the specific purpose of effective dramatization such as combating prejudice, are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.
- b) (i) Attacks on religion and religious faiths are not allowed.  
(ii) Reverence is to mark any mention of the name of God. His attributes and powers.  
(iii) When religious rites are included in other than religious programs, the rites are accurately presented, and the ministers, priests and rabbis portrayed in their callings are vested with the dignity of their office and under no circumstances are to be held up to ridicule.
- c) (i) Contests may not constitute a lottery.  
(ii) Any telecasting designed to "buy" the television audience by requiring it to listen and/or view in hope of reward, rather than for the quality of the program, should be avoided. (*see Contests.*)
- d) Respect is maintained for the sanctity of marriage and the value of the home. Divorce is not treated casually nor justified as a solution for marital problems.
- e) Illicit sex relations are not treated as commendable.

- f) Sex crimes and abnormalities are generally unacceptable as program material.
- g) Drunkenness and narcotic addiction are never presented as desirable or prevalent.
- h) The administration of illegal drugs will not be displayed.
- i) The use of liquor in program content shall be de-emphasized. The consumption of liquor in American life, when not required by the plot or for proper characterization, shall not be shown.
- j) The use of gambling devices or scenes necessary to the development of plot or as appropriate background is acceptable only when presented with discretion and in moderation, and in a manner which would not excite interest in, or foster, betting nor be instructional in nature. Telecasts of actual sport programs at which on-the-scene betting is permitted by law should be presented in a manner in keeping with Federal, state and local laws, and should concentrate on the subject as a public sporting event.
- k) In reference to physical or mental afflictions and deformities, special precautions must be taken to avoid ridiculing sufferers from similar ailments and offending them or members of their families.
- l) Exhibitions of fortune-telling, astrology, phrenology, palm-reading, and numerology are acceptable only when required by a plot or the theme of a program, and then the presentation should be developed in a manner designed not to foster superstition or excite interest or belief in these subjects.
- m) Televised drama shall not simulate news or special events in such a way as to mislead or alarm. (*see News.*)
- n) Legal, medical and other professional advice, diagnosis and treatment will be permitted only in conformity with law and recognized ethical and professional standards.
- o) The presentation of cruelty, greed and selfishness as worthy motivations is to be avoided.
- p) Excessive or unfair exploitation of others or of their physical or mental afflictions shall not be presented as praiseworthy.
- q) Criminality shall be presented as undesirable and unsympathetic. The condoning of crime in the treatment of the commission of crime in a frivolous, cynical or callous manner is unacceptable.
- r) The presentation of techniques of crime in such detail as to invite imitation shall be avoided.
- s) The use of horror for its own sake will be eliminated; the use of visual or aural effects which would shock or alarm the viewer, and the detailed presentation of brutality or physical agony by sight or by sound are not permissible.
- t) Law enforcement shall be upheld and, except where essential to the program plot, the officers of the law are to be portrayed with respect and dignity.
- u) The presentation of murder or revenge as a motive for murder shall not be presented as justifiable.
- v) Suicide as an acceptable solution for human problems is prohibited.
- w) The exposition of sex crimes will be avoided.
- x) The appearances or dramatization of persons featured in actual crime news will be permitted only in such light as to aid law enforcement or to report the news event.
- y) Treatment of Animals. The use of animals, both a part of television program content, shall, at all in the production of television programs and as times, be in conformity with accepted standards of humane treatment.
- z) Quiz and similar programs that are presented as contests of knowledge, information, skill or luck must, in fact, be genuine contests and the results must not be controlled by collusion with or between contestants, or any other action which will favor one contestant against any other.
- aa) No program shall be presented in a manner which through artifice or simulation would mislead the audience as to any material fact. Each broadcaster must exercise reasonable judgment to determine whether a particular method of presentation would constitute a material deception, or would be accepted by the audience as normal theatrical illusion.

### Responsibility Toward Children

1. The education of children involves giving them a sense of the world at large. However, such subjects as violence and sex shall be presented without undue emphasis and only as required by plot development or character delineation. Crime should not be presented as attractive or as a solution to human problems, and the inevitable retribution should be made clear.

2. It is not enough that only those programs which are intended for viewing by children shall be suitable to the young and immature. (*Attention is called to the general items listed under Acceptability of Program Materials.*) Television is responsible for insuring that programs of all sorts which occur during the times of day when children may normally be expected to have the opportunity of viewing television shall exercise care in the following regards:

- a) In affording opportunities for cultural growth as well as for wholesome entertainment.
- b) In developing programs to foster and promote the commonly accepted moral, social and ethical ideals characteristic of American life.
- c) In reflecting respect for parents, for honorable behavior, and for the constituted authorities of the American community.
- d) In eliminating reference to kidnaping of children or threats of kidnaping.
- e) In avoiding material which is excessively violent or would create morbid suspense, or other undesirable reactions in children.
- f) In exercising particular restraint and care in crime or mystery episodes involving children or minors.

### Decency and Decorum in Production

1. The costuming of all performers shall be within the bounds of propriety, and shall avoid such exposure or such emphasis on anatomical detail as would embarrass or offend home viewers.

2. The movements of dancers, actors, or other performers shall be kept within the bounds of decency, and lewdness and impropriety shall not be suggested in the positions assumed by performers.

3. Camera angles shall avoid such views of performers as to emphasize anatomical details indecently.

4. Racial or nationality types shall not be shown on television in such a manner as to ridicule the race or nationality.

5. The use of locations closely associated with sexual life or with sexual sin must be governed by good taste and delicacy.

### Community Responsibility

A television broadcaster and his staff occupy a position of responsibility in the community and should conscientiously endeavor to be acquainted fully with its needs and characteristics in order better to serve the welfare of its citizens.

### Treatment of News and Public Events

#### News

1. A television station's news schedule should be adequate and well-balanced.

2. News reporting should be factual, fair and without bias.

3. Commentary and analysis should be clearly identified as such.

4. Good taste should prevail in the selection and handling of news:

Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided. News should be telecast in such a manner as to avoid panic and unnecessary alarm.

5. At all times, pictorial and verbal material for both news and comment should conform to other sections of these standards, wherever such sections are reasonably applicable.

6. Pictorial material should be chosen with care and not presented in a misleading manner.

7. A television broadcaster should exercise due care in his supervision of content, format, and presentation of newscasts originated by his station, and in his selection of newscasters, commentators, and analysts.

8. A television broadcaster should exercise particular discrimination in the acceptance, placement

and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.

9. A television broadcaster should not present fictional events or other non-news material as authentic news telecasts or announcements nor should he permit dramatizations in any program which would give the false impression that the dramatized material constitutes news. Expletives, presented aurally or pictorially such as "flash" or "bulletin" and statements such as "we interrupt this program to bring you . . ." should be reserved specifically for news room use. However, a television broadcaster may properly exercise discretion in the use in non-news programs of words or phrases which do not necessarily imply that the material following is a news release.

10. All news interview programs should be governed by accepted standards of ethical journalism, under which the interviewer selects the questions to be asked. Where there is advance agreement materially restricting an important or newsworthy area of questioning, the interviewer will state on the program that such limitation has been agreed upon. Such disclosure should be made if the person being interviewed requires that questions be submitted in advance or if he participates in editing a recording of the interview prior to its use on the air.

### PUBLIC EVENTS

1. A television broadcaster has an affirmative responsibility at all times to be informed of public events, and to provide coverage consonant with the ends of an informed and enlightened citizenry.

2. Because of the nature of events open to the public, the treatment of such events by a television broadcaster should be effected in a manner to provide for adequate and informed coverage as well as good taste in presentation.

### Controversial Public Issues

1. Television provides a valuable forum for the expression of responsible views on public issues of a controversial nature. In keeping therewith the television broadcaster should seek out and develop with accountable individuals, groups and organizations, programs relating to controversial public issues of import to its fellow citizens; and to give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. The provision of time for this purpose should be guided by the following principles:

a) Requests by individuals, groups or organizations for time to discuss their views on controversial public issues, should be considered on the basis of their individual merits, and in the light of the contribution which the use requested would make to the public interest, and to a well-balanced program structure.

b) Programs devoted to the discussion of controversial public issues should be identified as such, and should not be presented in a manner which would mislead listeners or viewers to believe that the program is purely of an entertainment, news or other character.

### Political Telecasts

Political telecasts should be clearly identified as such, and should not be presented by a television broadcaster in a manner which would mislead listeners or viewers to believe that the program is of any other character.

### Religious Programs

1. It is the responsibility of a television broadcaster to make available to the community as part of a well-balanced program schedule adequate opportunity for religious presentations.

2. The following principles should be followed in the treatment of such programs:

a) Telecasting which reaches men of all creeds simultaneously should avoid attacks upon religion.

b) Religious programs should be presented respectfully and accurately and without prejudice or ridicule.

- c) Religious programs should be presented by responsible individuals, groups, and organizations.
  - d) Religious programs should place emphasis on broad religious truths, excluding the presentation of controversial or partisan views not directly or necessarily related to religion or morality.
3. In the allocation of time for telecasts of religious programs it is recommended that the television station use its best efforts to apportion such time fairly among the representative faith groups of its community.

#### Subliminal Perception

The use of the television medium to transmit information of any kind by the use of the process called "subliminal perception," or by the use of any similar technique whereby an attempt is made to convey information to the viewer by transmitting messages below the threshold of normal awareness, is not permitted.

#### Production Practices

The broadcaster shall be constantly alert to prevent activities that may lead to such practices as the use of scenic properties, the choice and identification of prizes, the selection of music and other creative program elements and inclusion of any identification of commercial products or services, their trade names or advertising slogans, within a program dictated by factors other than the requirements of the program itself. This expressly forbids the acceptance by producer, talent or any other personnel of cash payments or other considerations in return for including any of the above within the program.

#### Presentation of Advertising

1. Ever mindful of the role of television as a guest in the home, a television broadcaster should exercise unceasing care to supervise the form in which advertising material is presented over his facilities. Since television is a developing medium, involving methods and techniques distinct from those of radio, it may be desirable from time to time to review and revise the presently suggested practices:

- a) Advertising messages should be presented with courtesy and good taste; disturbing or annoying material should be avoided; every effort should be made to keep the advertising message in harmony with the content and general tone of the program in which it appears.
- b) A sponsor's advertising messages should be confined within the framework of the sponsor's program structure. A television broadcaster should avoid the use of commercial announcements which are divorced from the program either by preceding the introduction of the program (as in the case of so-called "cow-catcher" announcements) or by following the apparent sign-off of the program (as in the case of so-called "trailer" announcements). To this end, the program itself should be announced and clearly identified, both audio and video, before the sponsor's advertising material is first used, and should be signed off, both audio and video, after the sponsor's advertising material is last used.
- c) Advertising copy should contain no claims intended to disparage competitors, competing products, or other industries, professions or institutions.
- d) Since advertising by television is a dynamic technique, a television broadcaster should keep under surveillance new advertising devices so that the spirit and purpose of these standards are fulfilled.
- e) Television broadcasters should exercise the utmost care and discrimination with regard to advertising material, including content, placement and presentation, near or adjacent to programs designed for children. No considerations of expediency should be permitted to impinge upon the vital responsibility towards children and adolescents, which is inherent in television, and which must be recognized and accepted by all advertisers employing television.
- f) Television advertisers should be encouraged to devote portions of their allotted advertising messages and program time to the support of worthy causes in the public interest in keeping with the highest ideals of the free competitive system.

- g) A charge for television time to churches and religious bodies is not recommended.
- h) The role and capability of television to market sponsors' products are well recognized. In turn, this fact dictates that great care be exercised by the broadcaster to prevent the presentation of false, misleading or deceptive advertising. While it is entirely appropriate to present a product in a favorable light and atmosphere, and techniques may be used to depict the characteristics of the product as they appear in actuality, the presentation must not, by copy or demonstration involve a material deception as to the characteristics, performance or appearance of the product.

#### Acceptability of Advertisers and Products—General

1. A commercial television broadcaster makes his facilities available for the advertising of products and services and accepts commercial presentations for such advertising. However, a television broadcaster should, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements. Moreover, in consideration of the laws and customs of the communities served, each television broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. The foregoing principles should be applied with judgment and flexibility, taking into consideration the characteristics of the medium and the form and content of the particular presentation. In general, because television broadcast is designed for the home and the family, including children, the following principles should govern the business classifications listed below:

- a) The advertising of hard liquor should not be accepted.
  - b) The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable only subject to Federal and local laws.
  - c) Advertising by institutions or enterprises which in their offers of instruction imply promises of employment or make exaggerated claims for the opportunities awaiting those who enroll for courses is generally unacceptable.
  - d) The advertising of firearms and fireworks is acceptable only subject to Federal and local laws.
  - e) The advertising of fortune-telling, occultism, spiritualism, astrology, phrenology, palm-reading, numerology, mind-reading, character reading or subject of a like nature is not permitted.
  - f) Because all products of a personal nature create special problems, such products, when accepted, should be treated with especial emphasis on ethics and the canons of good taste. Such advertising of personal products as is accepted must be presented in a restrained and obviously inoffensive manner.  
The advertising of intimately personal products which are generally regarded as unsuitable conversational topics in mixed social groups is not acceptable.
  - g) The advertising of tip sheets, race track publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is unacceptable.
2. Diligence should be exercised to the end that advertising copy accepted for telecasting complies with pertinent Federal, state and local laws.
3. An advertiser who markets more than one product should not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.
4. "Bait-switch" advertising, whereby goods or services which the advertiser has no intention of selling are offered merely to lure the customer into purchasing higher-priced substitutes, is not acceptable.

**Advertising of Medical Products**

1. The advertising of medical products presents considerations of intimate and far-reaching importance to the consumer, and the following principles and procedures should apply in the advertising thereof:

- a) A television broadcaster should not accept advertising material which in his opinion, offensively describes or dramatizes distress or morbid situations involving ailments, by spoken word, sound or visual effects.
- b) Because of the personal nature of the advertising of medical products, claims that a product will effect a cure and the indiscriminate use of such words as "safe", "without risk", "harmless", or terms of similar meaning should not be accepted in the advertising of medical products on television stations.

**Contests**

1. In addition to complying with all pertinent Federal, state and local laws and regulations, all contests should offer the opportunity to all contestants to win on the basis of ability and skill, rather than chance.

2. All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced and/or shown, or easily accessible to the viewing public, and the winners' names should be released and prizes awarded as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of product, reasonable facsimiles thereof should be made acceptable.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided. (See *Time Standards for Advertising Copy*.)

**Premiums and Offers**

1. Full details of proposed offers should be required by the television broadcaster for investigation and approval before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. Before accepting for telecast offers involving a monetary consideration, a television broadcaster should satisfy himself as to the integrity of the advertiser and the advertiser's willingness to honor complaints indicating dissatisfaction with the premium by returning the monetary consideration.

4. There should be no misleading descriptions or visual representations of any premiums or gifts which would distort or enlarge their value in the minds of the listeners.

5. Assurances should be obtained from the advertiser that premiums offered are not harmful to person or property.

6. Premiums should not be approved which appeal to superstition on the basis of "luck-bearing" powers or otherwise.

**Time Standards for Advertising Copy**

1. In accordance with good telecast advertising practices, the time standards for advertising copy are as follows:

Length of Pgm. (in Mins.)	"AA" & "A" Time	All Other Time	Length of Pgm. (in Mins.)	"AA" & "A" Time	All Other Time
5:00	1:00	1:15	65:00	6:30	7:35
10:00	2:00	2:10	70:00	7:00	8:10
15:00	2:30	3:00	75:00	7:30	8:45
20:00	2:40	3:30	80:00	8:00	9:20
25:00	2:50	4:00	85:00	8:30	9:55
30:00	3:00	4:15	90:00	9:00	10:30
35:00	3:30	4:45	95:00	9:30	11:05
40:00	4:00	5:15	100:00	10:00	11:40
45:00	4:30	5:45	105:00	10:30	12:15
50:00	5:00	6:10	110:00	11:00	12:50
55:00	5:30	6:35	115:00	11:30	13:25
60:00	6:00	7:00	120:00	12:00	14:00

Above time standards are for sponsored programs. "Participation" programs, carrying announcements for different individual advertisers, may not exceed one minute of advertising per five minutes of programming. (See paragraph 4.)

**Effective October 29, 1961:**

1. In accordance with good telecast advertising practice, the time standards for advertising are as follows:

**PRIME TIME**

(Definition: A continuous period of not less than three hours of each broadcast day within the station's highest rate time periods.)

Commercial content of any 30-minute program in prime time may not exceed four minutes. This restriction includes "billboards," public service announcements and promotional announcements for other programs.

**NON-PRIME TIME**

**Individual Sponsorship**—The Time Standards for advertising for individual sponsors in non-prime time are as follows:

Lgh. of Pgm. (in Mins.)	5:00	10:00	15:00	30:00	45:00	60:00
Lgh. of Advertising	1:15	2:10	3:00	4:15	5:45	7:00

(See Paragraph 4 for "participation" program time allowances in other than prime time.)

2. Reasonable and limited identification of prize and statement of the donor's name within formats wherein the presentation of contest awards or prizes is a necessary and integral part of program content shall not be included as commercial time within the meaning of paragraph 1. above; however, any oral or visual presentation concerning the product or its honor, over and beyond such identification and statement, shall be included as commercial time within the meaning of paragraph 1. above.

3. Station breaks (spot announcements scheduled between programs) shall consist of not more than two announcements plus the conventional sponsored 10 second station ID. However, the aggregate total of the announcements shall not exceed 70 seconds within the station's highest rate period for announcements.

Station break announcements shall not adversely affect a preceding or following program.

**Effective October 29, 1961:**

3. Station breaks are spot announcements scheduled between programs.

In prime time (see definition above) they shall consist of not more than two announcements plus non-commercial copy (station identification and/or public service announcements, etc.). The aggregate total of all announcements including non-commercial copy shall not exceed 70 seconds.

In non-prime time, station breaks shall consist of not more than two announcements plus the conventional sponsored 10 second station ID.

Station break announcements shall not adversely affect a preceding or following program.

4. Announcement programs are designed to accommodate a number of announcements, which are carried within the body of the program and are available for sale to individual advertisers. Commercial announcements may not consume more than six minutes for any 30 minute program and no program shall have commercial content in excess of this ratio. Not more than three announcements shall be scheduled consecutively. Where the program exceeds 30 minutes in length, the required ID, not exceeding 10 seconds, may be in addition to these commercial time allowances.

**Effective October 29, 1961:**

4. "Participation" programs (those designed to accommodate a number of announcements within the body of the program and available for sale to individual advertisers) in non-prime time may not contain more than six minutes of commercial for any 30-minute program. No program shall have commercial content in excess of this ratio. Not more than three announcements shall be scheduled consecutively. Where the program exceeds 30

minutes in length, the customary ID, not exceeding 10 seconds, may be in addition to these commercial time allowances.

5. Programs presenting women's services, features, shopping guides, market information, and similar material, provide a special service to the listening and viewing public in which advertising material is an informative and integral part of the program content. Because of these special characteristics the time standards set forth above may be waived to a reasonable extent.

6. Any casual reference by talent in a program to another's product or service under any trade name or language sufficiently descriptive to identify it should, except for normal guest identifications, be condemned and discouraged.

7. Stationary backdrops or properties in television presentations showing the sponsor's name or product, the name of his product, his trade mark or slogan may be used only incidentally. They should not obtrude on program interest or entertainment. "On Camera" shots of such materials should be fleeting, not too frequent, and mindful of the need of maintaining a proper program balance.

8. The above commercial time standards do not include opening and closing "billboard" announcements which give program or announcement sponsor identification. Each opening and closing "billboard" regardless of the number of sponsors shall not exceed 20 seconds in programs longer than one half-hour or 10 seconds in programs of one half-hour or less.

#### Effective October 29, 1961:

8. In non-prime time the above commercial time standards do not include opening and closing "billboard" announcements which give program or announcement sponsor identification. Each opening and closing "billboard" regardless of the number of sponsors shall not exceed 20 seconds in programs longer than one-half hour or 10 seconds in programs of one half-hour or less.

#### Dramatized Appeals and Advertising

1. Appeals to help fictitious characters in television programs by purchasing the advertiser's product or service or sending for a premium should not be permitted, and such fictitious characters should not be introduced into the advertising message for such purposes.

2. Dramatized advertising involving statements or purported statements by physicians, dentists, or nurses must be presented by accredited members of such professions.

#### Sponsor Identification

Identification of sponsorship must be made in all sponsored programs in accordance with the requirements of the Communications Act of 1934, as amended, and the Rules and Regulations of the Federal Communications Commission.

## REGULATIONS AND PROCEDURES

The following regulations and procedures shall obtain as an integral part of the Television Code of the National Association of Broadcasters:

### I

#### Name

The name of this Code shall be The Television Code of the National Association of Broadcasters.\*

### II

#### Purpose of the Code

The purpose of this Code is cooperatively to maintain a level of television programming which gives full consideration to the educational, informational, cultural economic, moral and entertainment needs of the American public to the end that more and more people will be better served.

\* "Television Board. The Television Board is hereby authorized:—(4) to enact, amend and promulgate standards of practice or codes for its Television members, and to establish such methods to secure observance thereof as it may deem advisable:—". By-Laws of the National Association of Broadcasters. Article VI, section 8,C. (4).

## Subscribers

### Section 1. ELIGIBILITY

Any individual, firm or corporation which is engaged in the operation of a television broadcast station or network, or which holds a construction permit for a television broadcast station within the United States or its dependencies, shall, subject to the approval of the Television Board of Directors as hereinafter provided, be eligible to subscribe to the Television Code of the NARTB to the extent of one subscription for each such station and/or network which it operates or for which it holds a construction permit; provided, that a non television member of NARTB shall not become eligible via code subscription to receive any of the member services or to exercise any of the voting privileges of a member.

### Section 2. CERTIFICATION OF SUBSCRIPTION

Upon subscribing to the Code, subject to the approval of the Television Board of Directors, there shall be granted forthwith to each such subscribing station authority to use the "NARTB Television Seal of Good Practice," a copyrighted and registered seal to be provided in the form of a certificate, a slide and/or a film, signifying that the recipient thereof is a subscriber in good standing to the Television Code of the NARTB. The seal and its significance shall be appropriately publicized by the NARTB.

### Section 3. DURATION OF SUBSCRIPTION

Subscription shall continue in full force and effect until thirty days after the first of the month following receipt of notice of written resignation. Subscription to the Code shall be effective from the date of application subject to the approval of the Television Board of Directors; provided, that the subscription of a television station going on the air for the first time shall, for the first six months of such subscription, be probationary, during which time its subscription can be summarily revoked by an affirmative two-thirds vote of the Television Board of Directors without the usual processes specified below.

### Section 4. SUSPENSION OF SUBSCRIPTION

Any subscription, and/or the authority to utilize and show the above-noted seal, may be voided, revoked or temporarily suspended for television programming, including commercial copy, which, by theme, treatment or incident, in the judgment of the Television Board constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by an affirmative two-thirds vote of the Television Board of Directors at a regular or special meeting; provided, however, that the following conditions and procedures shall apply:

#### A. Preferring of Charges—Conditions Precedent:

Prior to the preferring of charges to the Television Board of Directors concerning violation of the Code by a subscriber, the Television Code Review Board (hereinafter provided for) (1) Shall have appropriately, and in good time, informed and advised such subscriber of any and all complaints and information coming to the attention of the Television Code Review Board and relating to the programming of said subscriber, (2) Shall have reported to, and advised, said subscriber by analysis, interpretation, recommendation or otherwise, of the possibility of a violation or breach of the Television Code by the subscriber, and (3) Shall have served upon the subscriber by Registered Mail a Notice of Intent to prefer charges, at least twenty days prior to the filing of any such charges with the Television Board of Directors. During this period the Television Code Review Board, may within its sole discretion, reconsider its proposed action based upon such written reply as the subscriber may care to make, or upon such action as the subscriber may care to take program-wise, in conformance with the analysis, interpretation, or recommendation of the Television Code Review Board.

(i) **Notice of Intent**

The Notice of Intent shall include a statement of the grounds and reasons for the proposed charges, including appropriate references to the Television Code.

(ii) **Time**

In the event that the nature of the program in question is such that time is of the essence, the Television Code Review Board may prefer charges within less than the twenty days above specified, provided that a time certain in which reply may be made is included in its Notice of Intent, and provided that its reasons therefor must be specified in its statement of charges preferred.

**B. The Charges:**

The subscriber shall be advised in writing by Registered Mail of the charges preferred. The charges preferred by the Television Code Review Board to the Television Board of Directors shall include the grounds and reasons therefor, together with specific references to the Television Code. The charges shall contain a statement that the conditions precedent, hereinbefore described have been met.

**C. Hearing:**

The subscriber shall have the right to a hearing and may exercise same by filing an answer within 10 days of the date of such notification.

**D. Waiver:**

Failure to request a hearing shall be deemed a waiver of the subscriber's right thereto.

**E. Designation:**

If hearing is requested by the subscriber, it shall be designated as promptly as possible and at such time and place as the Television Board may specify.

**F. Confidential Status:**

Hearings shall be closed; and all correspondence between a subscriber and the Television Code Review Board and/or the Television Board of Directors concerning specific programming shall be confidential; provided, however, that the confidential status of these procedures may be waived by a subscriber.

**G. Presentation; Representation:**

A subscriber against whom charges have been preferred, and who has exercised his right to a hearing, shall be entitled to effect presentation of his case personally, by agent, by attorney, or by deposition and interrogatory.

**H. Intervention:**

Upon request by the subscriber-respondent or the Television Code Review Board, the Television Board of Directors, in its discretion, may permit the intervention of one or more other subscribers as parties-in-interest.

**I. Transcript:**

A stenographic transcript record shall be taken and shall be certified by the Chairman of the Television Board of Directors to the office of the Secretary of the National Association of Broadcasters, where it shall be maintained. The transcript shall not be open to inspection unless otherwise provided by the party respondent in the proceeding.

**J. Television Code Review Board; Counsel:**

The Television Code Review Board may, at its discretion, utilize the services of an attorney from the staff of the NAB for the purpose of effecting its presentation in a hearing matter.

**K. Order of Procedure:**

At hearings, the Television Code Review Board shall open and close.

**L. Cross-Examination:**

The right of cross-examination shall specifically obtain. Where procedure has been by deposition or interrogatory, the use of cross-interrogatories shall satisfy this right.

**M. Presentation:**

Oral and written evidence may be introduced by the subscriber and by the Television Code Review Board. Oral argument may be had at the hearing and written memoranda or briefs may be submitted by the subscriber and by the Television Code Review Board. The Television Board of Directors may admit such evidence as it deems relevant, material and competent, and may determine the nature and length of the oral argument and the written argument or briefs.

**N. Authority of Presiding Officer; of Television Board of Directors:**

The Presiding Officer shall rule upon all interlocutory matters, such as, but not limited to, the admissibility of evidence, the qualifications of witnesses, etc. On all other matters, authority to act shall be vested in a majority of the Television Board unless otherwise provided.

**O. Films, Transcriptions, etc.:**

Films, kinescopes, records, transcriptions, or other mechanical reproductions of television programs, properly identified, shall be accepted into evidence when relevant.

**P. Continuances and Extensions:**

Continuance and extension of any proceeding or for the time of filing or performing any act required or allowed to be done within a specific time may be granted upon request, for a good cause shown. The Board or the Presiding Officer may recess or adjourn a hearing for such time as may be deemed necessary, and may change the place thereof.

**Q. Findings and Conclusions:**

The Television Board of Directors shall decide the case as expeditiously as possible and shall notify the subscriber and the Television Code Review Board, in writing, of the decision. The decision of the Television Board of Directors shall contain findings of fact with conclusions, as well as the reasons or bases therefor. Findings of fact shall set out in detail and with particularity all basic evidentiary facts developed on the record (with appropriate citations to the transcript of record or exhibit relied on for each evidentiary fact) supporting the conclusion reached.

**R. Reconsideration or Rehearing:**

A request for reconsideration or rehearing may be filed by parties to the hearing. Requests for reconsideration or rehearing shall state with particularity in what respect the decision or any matter determined therein is claimed to be unjust, unwarranted, or erroneous, and with respect to any finding of fact shall specify the pages of record relied on. If the existence of any newly-discovered evidence is claimed, the request shall be accompanied by a verified statement of the facts together with the facts relied on to show that the party, with due diligence, could not have known or discovered such facts at the time of the hearing. The request for rehearing may seek:

- a. Reconsideration
- b. Additional oral argument
- c. Reopening of the proceedings
- d. Amendment of any findings, or
- e. Other relief.

**S. Time for Filing:**

Requests for reconsideration or rehearing shall be filed within ten (10) days after receipt by the respondent of the decision. Opposition thereto may be filed within five (5) days after the filing of the request.

**T. Penalty, Suspension of:**

At the discretion of the Television Board, application of any penalty provided for in the decision may be suspended until the Board makes final disposition of the request for reconsideration or rehearing.

#### **U. Disqualification:**

Any member of the Television Board may disqualify himself, or upon good cause shown by any interested party, may be disqualified by a majority vote of the Television Board.

#### **Section 5. ADDITIONAL PROCEDURES**

When necessary to the proper administration of the Code, additional rules of procedure will be established from time to time as authorized by the By-Laws of the NAB; in keeping therewith, special consideration shall be given to the procedures for receipt and processing of complaints and to necessary rules to be adopted from time to time, taking into account the source and nature of such complaints; such rules to include precautionary measures such as the posting of bonds to cover costs and expenses of processing same; and further provided that special consideration will be given to procedures insuring the confidential status of proceedings relating to Code observance.

#### **Section 6. AMENDMENT AND REVIEW**

Because of the new and dynamic aspects inherent in television broadcast, the Television Code, as a living, flexible and continuing document, may be amended from time to time by the Television Board of Directors; provided that said Board is specifically charged with review and reconsideration of the entire Code, its appendices and procedures, at least once each year.

#### **Section 7. TERMINATION OF CONTRACTS**

All subscribers on the air at the time of subscription to the Code shall be permitted that period prior to and including the earliest legal cancellation date to terminate any contracts, then outstanding, calling for program presentations which would not be in conformity with the Television Code, provided, however, that in no event shall such period be longer than fifty-two weeks.

### **IV**

#### **Affiliate Subscribers**

##### **Section 1. ELIGIBILITY**

Any individual, firm or corporation, which is engaged in the production or distribution, lease, or sale of recorded programs for television presentation, subject to the approval of the Television Code Review Board as hereinafter provided, shall be eligible to become an affiliate subscriber to the Television Code of the NAB.

##### **Section 2. CERTIFICATION OF SUBSCRIPTION**

Upon becoming an affiliate subscriber to the Code, subject to the approval of the Television Code Review Board, there shall be granted forthwith to each such affiliate subscriber authority to use a copyrighted and registered seal and declaration, in a manner approved by the Television Code Review Board, identifying the individual firm or corporation as an affiliate subscriber to the Television Code of the NAB. Such authority shall not constitute formal clearance or approval by the Television Code Review Board of specific film programs or other recorded material.

##### **Section 3. DURATION OF AFFILIATE SUBSCRIPTION**

The affiliate subscription shall continue in full force and effect until thirty days after the first of the month following receipt of a written notice of resignation. The affiliate subscription to the Code shall be effective from the date of application subject to the approval of the Television Code Review Board.

##### **Section 4. SUSPENSION OF AFFILIATE SUBSCRIPTION**

Any affiliate subscription and the authority to utilize and show the above-noted seal may be voided, revoked, or temporarily suspended for the sale or distribution for television presentation of any film or other recorded material which by theme, treatment, or incident, in the judgment of the Television Code Review Board, constitutes a continuing, willful or gross violation of any of the provisions of the

Television Code, by a vote of three members of the Television Code Review Board at any regular or special meeting. The conditions and procedures applicable to subscribers shall not apply to affiliate subscribers.

#### **Section 5. REPRESENTATION OF AFFILIATE SUBSCRIBERS**

Any affiliate subscriber or group of affiliate subscribers may authorize an individual or association to act for them in connection with their relations with the Television Code Review Board by filing a written notice of such representation with the Board. Such representation, however, in no way will limit the right of the Television Code Review Board to suspend individual affiliate subscribers in accordance with the provisions of Section 4.

### **V**

#### **Rates**

Each subscriber and affiliate subscriber shall pay 'administrative' rates in accordance with such schedule, at such time, and under such conditions as may be determined from time to time by the Television Board (see Article VI, section 8, C. Television Board (3) and (4), By-Laws of the NAB); provided, that appropriate credit shall be afforded to a television member of the NAB against the regular dues which he or it pays to NAB.

### **VI**

#### **The Television Code Review Board**

##### **Section 1. COMPOSITION**

There shall be a continuing committee entitled the Television Code Review Board. The Review Board shall be composed of seven members, all of whom shall be from the Television membership of NAB. Members of the Television Board of Directors shall not be eligible to serve on the above specified Review Board. Members of the Review Board shall be appointed by the President of the NAB, subject to confirmation by the Television Board of Directors. Due consideration shall be given, in making such appointments, to factors of diversification of geographical location, company representation and network affiliation.

During the year 1960, four members shall be appointed to serve until immediately following the annual NAB convention of 1962.

Starting in 1961, and every odd-numbered year thereafter, three members shall be appointed for two-year terms; and then in every even-numbered year thereafter, four two-year members shall be appointed.

##### **A. Limitation of Service:**

A person shall not serve consecutively as a member of the Review Board for more than two two-year terms or for more than four years consecutively after April 30, 1953.

A majority of the membership of the Television Code Review Board shall constitute a quorum for all purposes unless herein otherwise provided.

##### **Section 3. AUTHORITY AND RESPONSIBILITIES**

The Television Code Review Board is authorized and directed:

(1) To maintain a continuing review of all television programming especially that of subscribers to the Television Code of the NAB; (2) to receive, screen and clear complaints concerning television programming; (3) to define and interpret words and phrases in the Television Code; (4) to develop and maintain appropriate liaison with governmental agencies and with responsible and accountable organizations and institutions; (5) to inform, expeditiously and properly, a subscriber to the Television Code of complaints or commendations, as well as to advise all subscribers concerning the attitude and desires program-wise of accountable organizations and institutions, and of the American public in general; (6) to review and monitor, if necessary, any certain series of programs, daily programming, or any other program presentations of a subscriber, as well as to request recordings, aural

or kinescope, or script and copy, with regard to any certain program presented by a subscriber; (7) to reach conclusions, and to make recommendations or prefer charges to the Television Board of Directors concerning violations and breaches of the Television Code by a subscriber; (8) to recommend to the Television Board of Directors, amendments to the Television Code.

*A. Delegation of Powers and Responsibilities:*

The Television Code Review Board may dele-

gate, from time to time, such of its above-specified responsibilities, as it may deem necessary and desirable, to a Staff Group of the NAB.

*B. Meetings:*

The Television Code Review Board shall meet regularly once each quarter of the calendar year on a date to be determined by the Chairman. The Chairman of the Review Board may, at any time, on at least five days' written notice, call a special meeting of the Board.

# MAGIC SHADOWS

By **MARTIN QUIGLEY, JR.**

"... a book that should be read by everyone who believes in the future of the cinema. . . You will discover that our twentieth century cinema is another step in the satisfying of mankind's craving for the ability to create realism."—ABC NEWS

- Written in a popular easy-to-read style, the book traces the development of motion pictures "from Adam to Edison" . . . Readers will enjoy the little anecdotes sprinkled throughout the book.—*Journal of the Society of Motion Picture and Television Engineers.*

- I want you to know that I have read the book and found it tremendously interesting and most illuminating. I would endorse the fact that "Magic Shadows" should be required reading for every person engaged in the motion picture industry.—*Joseph E. Levine, Embassy Pictures Corporation.*

- "Magic Shadows" is a valuable volume to have around, both for interesting reading and as a reference work. . . Numerous illustrations add to the book's interest.—*Hollywood Reporter.*

- From rather inauspicious beginnings, film has developed into a major medium of communication, in a success story that its creators did not remotely foresee. This eventful tale is related in lively and factual style by a well known personage in the present-day film industry, who brings together and evaluates with commendable objectivity, the many contradictory versions of the birth of the movies.—*Film News.*

**. . . acclaimed, recommended for significant  
history, for fascinating reading  
by reviewers in the motion picture  
industry and many other fields**

**\$4.50** POSTPAID . . . Handsomely bound  
in Hunter's Green Sturtetan

---

• The origin and development of the motion picture is one of the most remarkable success stories of this century. Born under rather unauspicious conditions, its rise to a prime medium of international communication between the peoples of the world is an exciting tale to which Mr. Quigley brings his intimate knowledge of the film industry, his extensive investigation in a field where fact mingles freely with a variety of myths, and his unaffected style of writing. The book is lively in its presentation of historic events.—Film and A-V World.

• The whole amazing story, which commences with Kircher's magic lantern in 1645, is told with technical and historical accuracy in a very readable manner.—The Book Exchange.

**MAGIC SHADOWS contains 191 pages (9 x 6 inches) plus illustration inserts. It is indexed, and two appendices supply a Chronology and a Bibliography.**

**QUIGLEY BOOKSHOP, 1270 Sixth Ave., New York 20, N. Y.**

## TELEVISION

# THE GAMUT

A basic fact of television is its continuing need for product—as programming for networks and stations and as commercials for advertisers using this most effective of all media. *MGM Television* covers the gamut—the full range of programming—from network series, to features, to syndication, and now, the leading videotape operations of *MGM Telestudios*. In all of television you get the picture of quality from...
