You'll agree it's hard to tell one pea from the other two ... but imagine one in green.

**THERE IS A DIFFERENCE.** Give your television commercials the PLUS OF COLOR and see the difference! Straightaway your product stands out. Customers see it as you see it—a colorful reality ... identify it the instant they see it on dealers' shelves, in friends' homes.

Whatever you do—be sure to film your commercials in color. Your black-and-white prints will be much, much better. Shades and subtleties will stand out, as never before.

For more information on this subject, write or phone: Motion Picture Film Department, **EASTMAN KODAK COMPANY, Rochester 4, N.Y.** Or—for the purchase of film: **W. J. German, Inc.**, Agents for the sale and distribution of EASTMAN Professional Film for Motion Pictures and Television, Fort Lee, N.J., Chicago, Ill., Hollywood, Calif.

QUIGLEY PUBLICATIONS ✦ NEW YORK

# Foreword

STILL youthful and expanding, the Television Industry has much to look forward to, and the International Television Almanac, offered here in its Ninth Annual edition, is keeping pace. With its companion publication, the International Motion Picture Almanac, it presents in full measure those kinds of data which pertain to both these closely-allied areas of endeavor, as well as those which are more peculiarly exclusive to the Television Industry. Much of the personnel is common to both, and so the invaluable "Who's Who" section reflects that community of interest. The tradition of years of service to the entertainment industry continues to dominate the preparation of the volume.

—MARTIN QUIGLEY

## Advertisers

NETWORK AND SPOT TV ADVERTISING—ESTIMATED EXPENDITURES  
BY PRODUCT CLASSIFICATION

Cosmetics and toiletries, drug products and confections and soft drinks paced over-all network and spot television billings in percentage of gain in the first half of 1963. Gross time billings, network and spot TV, for cosmetic and toiletries advertisers were \$107,264,900 in the first half of 1963, against \$88,882,590 in 1962. For drug products it was \$90,853,500 against \$73,405,670, while for confections and soft drinks the figures were \$47,543,000 and \$42,453,245. The largest single classification by far was food and grocery products with first half 1963 billings of \$178,821,700. This report is from the Television Bureau of Advertisment.

1958 .....	566,590,000	+ 9.8	473,861,000	+14.0

<sup>o</sup> Figures have been adjusted prior to the Second Quarter of 1960 to compensate for changes in the reporting procedure.

**COST PER 1000 COMMERCIAL MINUTES DELIVERED**  
Network Programs—by Day Parts  
1958-1962

The cost-per-thousand for all network programs during 1962 was \$2.66, a decrease of six cents from 1961, and the fourth year in a row that a decrease has been recorded. The cost-per thousand for evening network programs increased 9% from \$4.00 in 1961 to \$4.36 in 1962. Weekday-daytime network cost-per-thousand continued its trend downward dropping nine cents from \$1.87 in 1961 to \$1.78 in 1962.

	Network Cost per 1000		
	All Programs	Evenings	Daytime
1962	\$2.66	\$4.36	\$1.78
1961	2.72	4.00	1.87
1960	2.73	4.04	1.88
1959	2.82	3.88	2.19
1958	2.96	3.78	2.35

Note: All the above data is reported on a program basis.

# What's Missing . . . ?

Your call letters . . . that's all. Toshiba's Color Image Orthicon has everything else for optimum color TV-casting. 8-inch viewfinder produces large, bright images; transistorized circuitry makes for compactness and low weight. R.G.B. signals conform to 525-line 30-frame standards. (Toshiba Model IK-32)

For this and other dependable TV broadcasting equipment—Master Control System, 50kw television transmitter, Video recorder system, transmitting tubes, Microwave transmitting tubes and Image pickup tubes:

Tokyo Shibaura Electric Co., Ltd. Tokyo, Japan

*Toshiba* Quality Since 1875

# PULL UP A CHAIR

MAKE YOURSELF COMFORTABLE WITH JUST THE RIGHT PROPERTY FROM ABC FILMS. Some stations need a laugh — like Dickens & Fenster... maybe yours needs adventure, (Expedition!), or a top flight western, (Wyatt Earp, The Rebel). Or the gentle touch of Casper, the Ghost. Whatever... from

evening escape (One Step Beyond), to a jolt of daytime reality, (like Girl Talk), ABC Films has just the show; and each a top-rated one at that, with proven big audience pull. Each of these great shows... and more, are now available for local stations. Powerful programming is as easy as ABC.

## CREATE THE RIGHT MOOD EVERY TIME

*with the*

# MAJOR MOOD MUSIC LIBRARY

*Major* offers you a full forty-five hours of mood music for titles, bridges, background — for scoring, editing, recording and dubbing music for your feature productions, documentaries, TV films, slide films, animation, sales presentations, industrial films and commercials.

*Major* specializes in sound — you get exceptional technical know-how and beautifully-recorded original music.

IMPORTANT: *Major* owns its own copyrights on *all* mood music in its library; world rights available to you on a completely sound legal basis. Records available on a "per selection" or "unlimited use" arrangement.

## DAMAGED FILM HOSPITAL

"THE FILM DOCTORS"

WILL OPERATE ON

8-16-35mm • Color • Black & White

DAMAGED MOTION PICTURE FILM

OUTSTANDING RESULTS USING RAPIDWELD & RAPIDTREAT

1. All scratches (black lines) were removed from both emulsion and base.
2. All other physical damages—tears, brittleness, dirt, abrasions were eliminated.
3. Our Safe-Gard Coat was applied to absorb all future damages—giving the emulsion permanent protection.

## What do you have to lose?

Her Majesty Marie Antoinette. A lady who had everything to lose—and did. In the early days of kinescope, producers also had quite a bit to lose, due to poor quality process and transfer work of their productions. Today, the trick is not to lose everything, but to keep loss of original quality to a minimum. At Acme Film Laboratories, it is possible to obtain "live" film quality due to Acme's revolutionary techniques and technological advances. For complete information and prices, write: Acme Film Laboratories, 1161 No. Highland Ave., Hollywood 38, Calif.

# ASCAP

ASCAP – the American Society of Composers, Authors and Publishers – an unincorporated, non-profit membership association of the 9200 outstanding men and women who write and publish our nation's songs, the Society also represents the music of more than 50,000 writers of other countries ■

The Society, which was organized in 1914, has always served the public by encouraging musically creative talent. Its members represent every phase of musical literature: the popular songs of today, the standards of yesterday, the Broadway and motion picture hits, as well as the leading symphonic and concert works, religious, folk and country music.

Joseph P. and Mildred V. Ernst, owners.

# TV Channel Allocations

ON April 13, 1952, the Federal Communications Commission announced lifting of the "freeze" on new television station construction which had been in effect since September 30, 1948. In so doing, it also made public the allocation of the new ultra-high frequency channels and some changes in the existing very-high frequency bands. Theoretically, allocation of the ultra-high frequency channels makes possible 2,053 new stations in 1,291 communities. This included 242 exclusive educational outlets and was in addition to the 108 TV stations then on the air. As of June 30, 1962, there were 612 TV stations on the air. Of these 508 were VHF and 104 were UHF. Of the VHF channels, 464 were commercial and 44 were non-commercial. Of the UHF channels, 84 were commercial and 29 non-commercial. Following is the complete list of cities and the channels assigned to each. The population of each community is given in parentheses. The (\*) preceding a channel number indicates a frequency reserved for educational use.

## Town and population

### ALABAMA

Town and population	Channel No.
Andalusia (9,162)	*2, *29

# MOTION PICTURE DAILY

WITH *Televisión Today*

*National Newspaper of the  
Entertainment Industry*

NEWS concisely written, conveniently presented for the busy executive.

NEWS—not rumors, not mere reports, but *news*—verified for fact and for authentic interpretation of fact.

NEWS gathered by experienced industrial journalists—from correspondents throughout the U. S. and around the world—edited with knowledge of the business necessary to appreciate the significance to it of event and opinion.

That is why MOTION PICTURE DAILY is read—and *believed*—by the people who direct the business of the screen.

A QUIGLEY PUBLICATION

# BRITISH YEAR IN REVIEW

by PETER BURNUP

London, September 1963

GR<sup>EAT</sup> Britain continues to have by far the greatest concentration of Television in the whole of the Continent of Europe; with approximately 23 per cent of her population holding TV reception licences. That compares with the 17.6 per cent prevailing in her nearest rival, Sweden. (Surprisingly, France continues to lag way behind with a showing of five per cent only.) But behind that facade of sedate success a plague of embittered sabre-rattling has tormented the industry throughout the whole of the just concluded year.

The acerbated fury arose directly in the necessity with which the Conservative Government of the country found itself faced to prepare new legislation regulating the whole of TV's future here. As previously recorded in this place, in 1954 the then Prime Minister—Sir Winston Churchill—created a dichotomy in the television field by bringing into being a rival to the British Broadcasting Corporation to be known as the Independent Television Authority. In a characteristic whimsical aside Sir Winston then told the House of Commons that his purpose was to give the BBC the spur of competition.

Assuredly that purpose was achieved; for under the Churchillian spur the BBC in the succeeding years has lost much of its original primness. The corporation remains unsurpassed in its treatment of great state occasions but its lighter programmes have an occasional astringent gaiety which its rival, the ITA, finds it difficult to match. All that despite, the acrimony which has bedevilled the relations between the twin arms of Sir Winston's dichotomy arises primarily in their respective methods of financing.

The BBC is financed out of state funds arising in the receipts from reception licences. ITA, on the other hand, is sustained by the advertising revenues accruing to its programme contractors. (Advertising in any form is not permitted to the BBC.) And those revenues grew in wholly unanticipated and in near-astronomical fashion so that qualified observers declared it to be a commercial bonanza probably unequalled since the discovery of oil. With the founding charter of ITA coming to the end of its time it fell to the Conservative Government of the day to devise an entirely new pattern of legislation. That necessity evolved an unexampled febrile and near-frenetic agitation among the so-called Big Four who control telecasts in the country's most densely populated areas. A powerful and highly-skilled "lobby" came into being. Lamentably, also,

the chief of one of those Big Four came out with an ill-tempered irascible threat that his organisation would be driven to close down were the Government's proposals implemented.

The Government has now written into the statute book an Act of Parliament which provides, *inter alia*, that as from July 1, 1964, a commercial television levy shall be imposed on the net advertising receipts of ITA's programme contractors on the following scale:

On the first £1½ million . . . .	nil
On the next £6 million . . . .	25 per cent
On the remainder . . . . .	45 per cent

The Government attaches great importance to the freedom from the levy of that first £1½ million which will benefit the smaller and so-called "fringe" regional programme contractors. The Cabinet believes that too many programmes are produced in London and designed primarily to appeal to London and Home Counties audiences.

On the basis of the 1962-63 figures for the four major programme contractors it appears that the newly imposed scale means levy payments by them of £12.75 million. But that impost, Government apologists claim, will still leave the Big Four around £57 to £58 million to meet programme costs and a comfortable dividend to their stockholders. But the Government's new regulating act also strengthens the powers of the controlling ITA in regard to undue violence or other undesirable elements in programmes; moreover, to provide many more rules of conduct on television advertisements. Plainly, Whitehall has not been deterred by the active lobbying of those commercial interests.

The BBC has been vouchsafed a second TV channel which will start operating in April, 1964. Says the programme director of the new service: "BBC 2 will not be minority television. It won't be full of educational programmes and it certainly will not be a sort of cultural ghetto where highbrows can make television programmes for highbrows." The second programme will not be in competition with BBC 1 but will be a planned alternative. Advocates of commercial TV have been pressing for a second ITA service. The only comfort they have been vouchsafed hitherto is a vague Governmental assurance that, subject to a number of controlling factors, the necessary licence may be issued during 1965 "dependent on financial and other questions." That means that ITA 2 may possibly be on the air by 1966.

Pay TV's future in this country continues as one of the imponderables with independent

motion-picture exhibitors wholeheartedly opposed to such a project. One Pay TV company, known as Choiceview and jointly financed by the Rank Organisation and Rediffusion, Ltd., has issued an announcement in which it expresses a hope of mounting a field test of its own version of Pay TV in the autumn of 1964. The Government maintains a discreet silence on the proposal.

How soon will colour TV be vouchsafed to British enthusiasts must also remain one of the imponderables. The BBC has been engaged in a series of intensive field tests of an adaptation of the American NTSC system and indeed had planned to inaugurate a public service in April, 1964. In deference not only to the European Broadcasting Union but to the broadcasting union of Eastern European countries including Russia, Britain's Government consented to withhold the necessary authority until such time as agreement is reached on the Continent's side use of a single system. A conference of delegates from all the countries concerned opened in London in July, 1963. Its deliberations are anticipated to last until the end of the year and it is likely to be 1966 before the recommendations will finally be discussed by the International Telecommunications Union in Geneva. Britain's public telecasts in colour must be suspended until that time.

The three systems discussed at the international conference are:

(1) The American NTSC (National Television Systems Committee); (2) The French SECAM (System "en couleur avec memoire."); (3) The German PAL System (phased alternate lines).

Admittedly, the Conference must consider many facets. The problem has to be looked at from the points of view of broadcasters, at those concerned with getting things to the transmitter, of the manufacturers and tube research people, and—no least—of people wanting colour television in their homes as soon as possible.

Does Britain—where TV was first invented—have to slacken pace to Europe's? ask impatient Chauvinistic citizens. On the other hand, realist observers appreciate that the decision will not be easy to take.

Each of the systems under review can produce an excellent colour picture under perfect conditions. But actual broadcasting conditions are far from perfect and American experience, based largely on short-wave broadcasts for big-city audiences, may not always apply to Europe where broadcasting distances are longer and where there may be greater use of relays or of recordings.

A distinguished authority whose counsels are customarily heeded by the Government lately went on record with the following salutary advice:

"At this stage in the development of colour television, delay in making a start ought to be the least of the considerations. The lesson to be learned from the United States is to go

slow and get it right. When colour broadcasts began here, the uncertain quality of the picture was a great disappointment and colour television was slow to catch on. Even now after nearly 10 years there is only about one colour receiver for every 50 black-and-white in America; and this is not solely due to the cost of the colour set—about three times the cost of a black-and-white receiver. The quality of American colour reception has now greatly improved, and it may be that practical experience has made NTSC the best of available choices. But if the further delay of a year or so would yield something better it would be worth waiting. Once the decision has been made the capital expenditure involved will be on such a scale that there would be no going back."

Members of the international conference will assuredly not be lacking for counsel and advice. The BBC is holding a series of demonstrations for the delegates. These cover every aspect of the latest techniques in British colour TV, including a new type camera.

A demonstration of the British contribution to the French system was given by ABC Television, the only commercial TV company to hold a demonstration. ABC has been working on SECAM for the past two years and has made some magnificent advances. A new technique for mixing, for fading, one for special effects based on an invention by ABC engineers, has been shown to the delegates. This has given SECAM advantages in control facility claimed as an American monopoly.

Although the American and French systems have been the most strongly favoured so far, technicians working on the German system have produced a characteristic compromise. They claim that it combines the separate advantages of the other two. Clearly a rich and rare accolade awaits whoever is awarded the European franchise.

Current now in Great Britain and Northern Ireland are 12,569,919 TV domestic reception licences, comparing with the figure of 12,039,643 obtaining a year previously. The prevailing licence fee is £4 per annum, an amount likely to be continued in spite of the circumstances that licenceholders will have access not only to the second channel now vouchsafed to the BBC but to the benefits ultimately of telecasts on a 625-line standard.

Radio astronomers claim bitterly that they are being crowded out of the sky by encroaching TV vendors. The Mullard Radio-astronomy Laboratory at Cambridge, for example, has been engaged since 1958 on a great Survey of the Northern Sky; using in that enterprise Channel 6. The Cambridge experimenters have now been warned that they must surrender their squatter-rights in Channel 6 by 1967. Cambridge scholars, as all Oxford men are aware, are a peculiarly stubborn race; certainly not lacking for friends in that so-called "Establishment", which notoriously rules Britain. A bonnie fight is in the offing.

# GOVERNMENT UNITS AND PROGRAM CONTRACTORS

## POSTMASTER GENERAL

General Post Office, St. Martin's-le-Grand, London, E.C.1. Telephone: Headquarters 1234.

## POSTMASTER GENERAL

THE RT. HON. REGINALD BEVINS, M.P.  
*Director General (in Charge of Broadcasting & Television)*: SIR RONALD GERMAN, C.M.G.  
*Deputy Director General (in Charge of Telecommunications)*: Sir Robert Harvey, K.B.E., C.B.

## ASSISTANT POSTMASTER GENERAL

MR. RAY MAWBY, M.P.  
(Pursuant to the Wireless Telegraphy Act, 1949, the Postmaster General is the authority empowered to license persons or corporate bodies to operate broadcasting stations. The B.B.C. operates under a Royal Charter running to July 29, 1964. The Independent Television Authority set up under the Television Act, 1954, operates under a licence issued by the Postmaster General on April 6, 1955, for a period up to July 29, 1964.)

## BRITISH BROADCASTING CORPORATION TELEVISION SERVICE

Television Centre, Wood Lane, London, W. 12. Telephone: Shepherds Bush 8000.

### ADMINISTRATION

*Director-General*: Hugh Carleton Greene, O.B.E.  
*Director of Television*: Kenneth Adam, C.B.E.  
*Contoller Programmes*: Stuart Hood, M.B.E.  
*Contoller, Programme Services*: Ian Atkins  
*Contoller Administration*: S. G. Williams, O.B.E.  
*Chief of Programmes (BBC 1)*: D. Baverstock  
*Chief of Programmes (BBC 2)*: M. Peacock  
*Assistant to Contoller Programmes*: Cecil Madden, M.B.E.  
*Assistant Contoller (Planning)*: Mrs. J. R. Spicer, O.B.E.

*General Manager, Television Enterprises*: Dennis Scuse

## INDEPENDENT TELEVISION AUTHORITY 70 Brompton Road, London, S.W.3. Telephone: Knightsbridge 7011.

(Set up under the Television Act, 1954 which provided for setting up an Independent Television Authority to provide for ten years, or longer if Parliament so determines hereafter, television broadcasting services additional to those of the British Broadcasting Corporation.)

The members of the Authority are appointed by the Postmaster-General and consist of a chairman and deputy chairman and eight other members, of which three make the interests of Scotland, Wales and Monmouthshire and Northern Ireland, respectively, their special care.

The Authority's powers include power to provide and work the requisite television stations under license from the Postmaster-General.)

Lord Hill of Luton (Chairman), J. Alban Davies, W. B. Beard, O.B.E., Prof. D. Talbot Rice, M.B.E., Sir John Carmichael, K.B.E. (Deputy Chairman), Sir Sidney Caine, K.C.M.G., Mrs. Isabel Graham-Bryce, A. C. Cropper, Sir Lucius O'Brien, Lord Williamson, C.B.E., Dame Anne Bryans, O.B.E.

*Director General*: Sir Robert Fraser, O.B.E.  
*Deputy Director Generals*: B. C. Sendall, C.B.E., A. W. Pragnell, O.B.E., D.F.C.  
*Accountant*: A. S. Curbishley, A.A.C.C.A., O.B.E.  
*Chief Engineer*: P. A. T. Bevan, C.B.E., B.Sc., M.I.E.E. Sen., M.I.R.E.

*Secretary*: E. A. O. G. Wedell.  
*Chief Finance & Establishment Officer*: Leonard Waight, C.M.G.  
*Information Officer*: M. Hallett.

## INDEPENDENT TELEVISION AUTHORITY ADVISORY COMMITTEE ON ADVERTISING

(The Committee, under the terms of the Television Act, must be representative of organisations, authorities and persons concerned with standards of conduct of advertising—including, in particular, the advertising of medical or surgical goods or services).  
*Chairman*: Glanvill Benn.

## INDEPENDENT TELEVISION AUTHORITY CHILDREN'S ADVISORY COMMITTEE

(Set up, under the Television Act, to give advice in connection with the broadcasting of children's programmes, it is composed of persons who have experience and special interest in the welfare and education of children and young persons).  
*Chairman*: Sir John Wolfenden, C.B.E.

**INDEPENDENT TELEVISION AUTHORITY  
RELIGIOUS ADVISORY COMMITTEE**

(The Authority draws advice from the Central Religious Advisory Committee of the BBC on broad issues, but in order that it should have regular access to advice on day-to-day matters it has appointed a panel of six consultants): The Reverend E. W. Heaton (Church of England); The Reverend Dr. John Marsh (Principal of Mansfield College, Oxford); The Very Reverend Monsignor G. A. Tomlinson (Roman Catholic Chaplain to the University of London); The Rev. D. R. Thomas (Presbyterian Church of Wales); Rev. J. H. Withers (Minister of Fisherwick Presbyterian Church Ulster); The Reverend Dr. W. A. Smellie (Church of Scotland).

**INDEPENDENT TELEVISION AUTHORITY  
SCOTTISH COMMITTEE**

*Chairman:* Prof. D. Talbot Rice, M.B.E.,

**INDEPENDENT TELEVISION AUTHORITY  
WELSH COMMITTEE**

*Chairman:* Jenkins Alban Davies, J. P.

**INDEPENDENT TELEVISION AUTHORITY  
ULSTER COMMITTEE**

*Chairman:* Sir Lucius O'Brien, Rev. Dr. C. B. Daly, John G. Calhoun, G. B. Newe, O.B.E., Mrs. G. Seth, Rev. J. H. Withers.

**INDEPENDENT TELEVISION NEWS LTD.  
Television House, Kingsway, London, W.C.  
2. Telephone: Holborn 7690**

*Directors:* P. Adorian M.I.E.E., M.Brit. I.R.E.; Capt. T. M. Brownrigg, C.B.E., D.S.O., R.N. (Retd.); Edward J. Roth, W.S.A., Norman Collins, V. A. Peers, Howard Thomas, James M. Collart, Geoffrey Cox, C.B.E. (Editor), Bernard Floud, Alfred Francis, Sir Philip Warter.

# VAROTAL 'V'

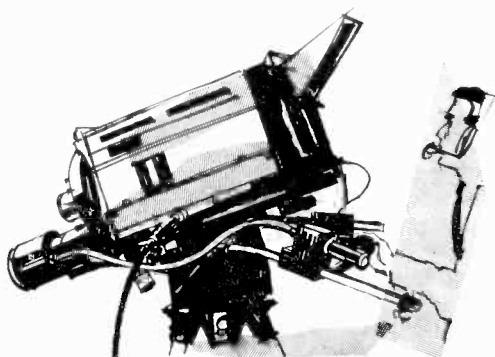

This lens is the latest addition to the range of zoom lenses for Television cameras.

Varotal V is mechanically compensated and the mechanical construction is both simple and robust and there are twenty-two air to glass surfaces.

New and extreme types of glass having small absorption losses together with new RTH multi layer coating techniques result in Varotal V having a transmission of 81% with balanced spectral transmission.

The lens can be supplied with manual or servo controlled systems, both developed and manufactured by RTH.

Varotal V is designed for both 3" and 4 1/2" Image Orthicon formats and the basic unit of Varotal V is suitable for conversion to Varotal VII - Vidicon Format - and Varotal VIII for the Plumbicon format.

#### Brief Specification

	Varotal V	Varotal VII	Varotal VIII
Focal Range	1 6"-16"	16-160mm	20-200mm
Relative aperture	f/4.0 (T/4.5)	f/1.6 (T/1.8)	f/2 (T/2.3)

#### ORTAL

Premium quality fixed focus lenses with optical and mechanical specifications suited to the latest Image Orthicon cameras (B.B.C. specification TV 88).

#### VIDITAL

Fixed focus lenses giving optimum definition on broadcast Vidicon cameras.

*Sec. Radio:* A. Munro-Kerr.

#### SOCIETY OF FILM AND TELEVISION ARTS LTD.

**80 Great Portland Street, London, W.1. Telephone: Museum 2357.**

(On January 1, 1959, this Society was founded to amalgamate into a single organisation and to continue the combined work of the British Film Academy and the Guild of Television Producers and Directors.)

*President:* HRH The Prince Philip, Duke of Edinburgh, K.G., K.T.  
*Chairman:* Anthony Havelock-Allan.  
*Secretary:* Mrs. P. J. Steele.

#### SONGWRITERS GUILD (OF GREAT BRITAIN)

**32 Shaftesbury Avenue, London, W.1. Telephone: Gerrard 1554.**

*President:* Sir Compton Mackenzie.  
*Chairman:* Paddy Roberts.  
*Vice-Chairman:* Hubert W. David.  
*General Secretary:* Victor Knight.  
*Asst. General Secretary:* Judith Henry.  
(Official organisation representing British writers of popular songs and light music.)

#### MECHANICAL COPYRIGHT PROTECTION SOCIETY LTD. SOUND FILM MUSIC DIVISION

**Elgar House, 380 Streatham High Road, London, S.W.16. Telephone: Streatham 3181-8. Telegraphic Address: Sofimus, London, S.W.16.**

*Manager:* Anne Bolton.

*Secretary:* Anne Bolton.

(Objects: Membership of the Society covers the majority of English music publishers and other owners of copyright music. The function of the Bureau is to act on behalf of its members in respect of the use of their copyright music in sound films. Applications for permission to make such use of music under its control should be made in writing to the Bureau.)

#### TELECOMMUNICATION ENGINEERING AND MANUFACTURING ASSOCIATION

**Stafford House, Norfolk Street, Strand, London, W.C.2. Telephone: Temple Bar 5824.**

*Director:* H. Faulkner, C.M.G.

#### TELEVISION AND SCREEN WRITERS GUILD

**7 Harley Street, London, W.1. Telephone: Langham 1895/6.**

(In 1959 the British Screen and Television Writers Association and the Radio and Television Writers Association were amalgamated to form this Guild. Its object to further and protect the interests of its members and to obtain for British television and screen writers terms comparable to those long accepted in other fields.)

*General Secretary:* J. G. Johnson.

*Chairman:* Ted Willis.

*Vice-Chairmen:* Leigh Vance, Sid Colin.

*Hon. Treasurer:* Bryan Forbes.

#### TELEVISION SOCIETY

**166 Shaftesbury Avenue, London, W.C.2. Telephone: Temple Bar 3330.**

*President:* Sir Robert Frazer, O.B.E.

*Secretary:* G. A. Marshall, B.S., A.M.I.E.E.

(Objects: The Television Society at the present time has a membership of over 1,400, the majority being engaged in television professionally. It accepts applications from all interested in television, whether as viewers, engineers, students, or retailers. Although certain aspects of programmes and production are of interest to its members it is not a Viewers Society, and does not cater primarily for non-technical interests.)

It is not the policy of the Society to act as a qualifying body, as this function is already performed by the professional institutions. It is recognised, nevertheless, that the membership of the Society carries with it a degree of proficiency in the theory and practice of television and a responsibility towards those who look to the professional man for disinterested advice and help.)

# TELEVISION IN CANADA

Toronto, October, 1963

THE television broadcasting industry is stopping to take a good hard look at itself this year. Stations in the major markets have reduced their loss position and are champing at the bit for relief from regulations and outside competition.

The Government regulatory body, the Board of Broadcast Governors, after a series of hearings, decided that "the time had not yet arrived when the board could recommend that color TV begin in Canada." The board didn't fix a target date for setting color standards or when licensees might broadcast in color.

The hearings were initiated at the request of set manufacturers. The board found only an estimated 4,500 color sets in use in Canada today. The cheapest price is \$750 per set. The board left the door open to color, when it said it looked forward to the day when it would come to this country.

The board also looked into the matter of community antenna television. The hearings last month heard strong representations from the free TV stations, as well as other segments of the industry. There has been a 50 per cent jump in the number of wired TV systems in Canada in the past two years. There are now more than 320 licensed cable systems operated by some 250 companies across the country. These systems pay a \$25 a year fee to the Department of Transport where TV stations pay license fees ranging from about \$3,000 to as much as \$50,000 a year.

There are several systems operating in Montreal, with about 40,000 homes connected to cable systems. There are two CATV systems in London, Ontario, one of them controlled by Famous Players Canadian Corp., which in turn is controlled more than 51 per cent by Paramount Pictures. It is estimated that more than 200,000 Canadian homes are tied in with cable systems which deliver programs originated by various Canadian and United States stations and networks.

Telemeter has set up its first experimental pay TV system in the Toronto suburb of Etobicoke. In addition to a fixed annual minimum fee, Telemeter collects cash on the spot for such programs as are selected for viewing by the subscribers, with service received on three channels of the home TV set. Most of the programming are early-run feature motion pictures. The operation has yet to show a profit.

While the board was not asked to regulate the Telemeter operation, fear was expressed by private broadcasters that Telemeter might seek to extend its operation by jumping the programming it feeds from a central source to other areas using the airwaves as a delivery

link with the various CATV systems in which it has an interest or other CATV operators across the country.

Famous Players, which has the Telemeter franchise in this country, has purchased interests in a number of CATV operations, as well as interests in free TV stations in Quebec City, Kitchener and Vancouver. Telemeter uses the Eidophor theatre projection system with its large screen to close-circuit into Toronto and district theatres hockey games, football games and prize fights as part of its operations.

While the private broadcasters in this country are reluctant to recommend added regulations for CATV systems, they do resent the unfair advantages gained by the CATV broadcasters over those of regulated TV broadcasters.

Canadian TV stations are required to carry 55 per cent Canadian content—45 per cent during the Summer—while the competition, the wired community systems, can carry U.S. TV programs at the same time without regulation.

TV competition in this country has stiffened over the last couple of years. Where once the Canadian Broadcasting Corporation, the Government-owned broadcasting system, had a monopoly on TV in the major markets, it now faces competition from second stations, all privately-owned. There has also developed the formation of a second network, CTV Television Network, Ltd.

The most recent report of the board indicates that for 33 TV stations that started operation prior to 1959, there has been an increase in broadcast revenue of 10 per cent over the two-year period from 1960 to 1962. The operating profit, for these established stations, increased 14 per cent for 1962 over 1961. But over the two-year period, from 1960 to 1962, profit was off 28 per cent. An upward trend in 1962 is indicated.

The nine stations in the major markets show broadcast revenue up 57 per cent in 1962, and operating loss reduced from \$4.8 million in 1961 to slightly over \$1 million in 1962.

The Dominion Bureau of Statistics in its report of June, 1963, on the broadcasting industry, shows the 1961 television station revenue as \$59.1 million or 53.4 per cent of the total broadcast revenue. The previous year, revenue was \$52.9 million for TV or 50.5 per cent of the total.

There were 9,384 employees in television broadcasting who received \$46.4 million in salaries and wages in 1961, an increase of 20.7 per cent over 1960 in number of employees and 22.3 per cent in total wages and salaries.

The Canadian Broadcasting Corp. again

showed a decline in its revenues, according to its report for the year ending March 31, 1962. Its expenditures were \$108.3 million, up less than one per cent from the previous year. Normally, the public-owned corporation (which won't accept sponsorship for many of its programs and won't advertise some products at all), gets about one third of its revenues from advertising; the rest is covered by an annual grant from Parliament.

Advertising revenues for the CBC fell by \$4 million in 1961-62, the first full year of operation for the new private TV stations, and last year it fell by a further \$1.9 million. CBC president Alphonse Ouimet commented: "Virtually everything available for sale in prime time is sold and there are no large untapped sources of advertising revenue available to television."

He also commented on wired TV systems and the growth of TV rebroadcasting stations. He said the corporation was neither for or against wired systems at this time, but it felt Parliament should realize their existence and extension could "completely alter broadcasting as we know it."

The broadcast situation in this country may be clarified following a series of private meetings between Dr. Andrew Stewart, chairman of the board, Mr. Ouimet and Donald Jamieson, president of the Canadian Association of Broadcasters. They are getting together to prepare for the Government a statement on those subjects on which all three are agreed and those on which they disagreed.

Out of the meetings may come a guide for any subsequent Government inquiry. It is not expected there will be a public investigation. That means the most important person in broadcasting, the public, will probably be damned and ignored.

There is continued pressure in Canada for aid in production, both for theatrical production and TV production. Aid is wanted either in tax relief or concrete cash subsidy.

Production is active in Canada. One TV series, Mr. Piper, a children's series of 39 half-hours, was a breakthrough, with a bank financing the first film production in this country. Screen Gems has been active in producing a variety of series here, promising to deliver up to 10½ a week in this country. The United States-produced Jerry Lester Show is to be filmed in this country to qualify it under the Canadian content quota. There are numerous other pilots, including two on folk-singing, offered TV in this country and in the United States.

The CTV Network continues to grow. It now has 11 stations, although one or two other stations are expected to disaffiliate from the CBC network, thinning out the ranks of the 38 private TV stations affiliated with the CBC owned and operated.

A French TV network is also being set up to compete with the CBC's nine-station French network.

—Harry Allen, Jr.

#### Board of Broadcast Governors

The Broadcasting Act (1936) was superseded in 1958 by a new Act which created Board of Broadcast Governors whose duties included the recommending of grants of licenses for radio and television stations, and the regulation of broadcasting.

The Board has a chairman, vice-chairman and one full-time member, all appointed for a seven-year term. The other 12 members, part-time, serve for five years.

Chairman, Dr. Andrew Stewart; Vice-Chairman, Carlyle Allison; Permanent member, Bernard Goulet; Part-time members, Joseph F. Brown, Vancouver; R. Louis Burge, St. Peter's Bay, PEI; Dr. Mable G. Connell, Prince Albert, Sask.; Yvan Sabourin, Montreal; John B. Lewis, Montreal; Colin B. MacKay, Fredericton; Leslie M. Marshall, St. John, Newfoundland; Roy D. Duchemin, Sydney, N. S.; Rev. Emyln Davies, Toronto; Harry Campbell, Ottawa; Claude Gagnon, Quebec City; Edward A. Dunlop, Toronto.

## ARGENTINA

Possibly the most outstanding feature of 1963 in Argentina television is the consolidation of Channel 11, which has added to a careful selection of programs a caution in its financial aspects, in order to be thoroughly covered from the unfortunate circumstances in which the economic situation of this country is developing. By cutting down one hour in its running time (It actually plays from 17 to 24:30 on week days and 12:30 to 24:30 on Sundays) it has solved the problem of filling space with programs whose cost hasn't previously been sponsored. At this writing, the greatest segment of audience is disputed among channels 9 and 13. On the other hand, Channel 8, Government-owned and the first to start operation in this country, has still a great importance on account of its transmissions to long distance by coaxial cable, which enables her to reach up to the cities of Sante Fe and Parana, distant about 300 miles from Buenos Aires. As this Channel (7) has the exclusive use reached an agreement with her to show in duplicate some of their own big shows. The existing channels in the interior are the same as last year, though it is very possible that very shortly new channels will be inaugurated in the cities of San Juan, Salta and Santiago del Estero.

Channel 8, from Mar del Plata, has improved its equipment enabling it to reach such nearby towns as Balcarce, Miramar, Tandil and Necochea. With regard to the new tendencies of the programs, it is noticeable that this year the preference toward the great musical shows is declining, giving place to comic shows in the public's preference. It is also noticeable that there is an acute preference to live acts rather than films. All channels show daily one or two old feature films and those in Spanish or dubbed in this language are logically preferred.

It is estimated that there exist in the country in operation about one million TV sets.

—NATALIO BRUSKI

## AUSTRALIA

In the past 12 months television has grown larger and larger on the Australian horizon. In Sydney and Melbourne the two commercial stations and one national station in each state continue to flourish, with the commercial stations outstripping by far the national station in general appeal. There are now more than a million TV set licenses issued in Australia.

TV also will go to 13 rural areas in Australia in the next couple of years as a result of moves by the Postmaster General's department to call for applications for licences in specified country centres. The A.B.C. will operate one station in each of the 13 areas and more than one commercial station may operate in each area also, a maximum total of 26 licences in these areas is quite possible.

To get a commercial licence local independent companies have to show that they are not associated with metropolitan stations and that they can provide a service comparable to that available to city viewers.

TV is having its first setback with insurance premiums on TV sets being increased drastically because of thefts of sets and racketeering by certain repair servicemen.

Despite agitation by Actors Equity, the bulk of material on TV—certainly the most popular programmes—is American filmed shows. It is not likely that there will be any change of policy on the part of TV station managers to grant more time to local talent at the expense of imported material.

—FRANK O'CONNELL

## AUSTRIA

The Austrian government-owned-and-operated television is still in a situation of expansion and improvement and is steadily gaining ground throughout Austria.

Austrian TV, which has the highest tax in Europe (\$2 per month per set) should now be able to considerably improve its programming as well as its inadequate operating facilities since tax revenues are increasing steadily and rapidly. However, Austrian government-owned TV is part and parcel of Austrian government-owned broadcasting. Since the latter has recently found itself in grave financial difficulties, these—though behind the scenes to be sure—also reach deeply into the television administration.

Spots for commercials at \$28 per second have caught on and can now be purchased for the time between 7:30 to 8:30 P.M. Occasionally they even fill intermission time during stage plays. In the first quarter of the year a total advertising time of 45 minutes was sold and transmitted, whereas this figure has increased sharply. The quality of programs has improved somewhat. Live TV plays have reached an excellent level and live transmissions from the legitimate stage are shown more frequently.

The program breakdown is as follows: 23.2% news and sports, 15.2% movies, 13.4% educational, 12% musical and quiz shows, 2.7% serious music, 6.8% TV plays and 26.7% are participation programs in Eurovision or programs taken over directly from neighbouring Germany. Transmission time is from 7:30 to 10:30 P.M. nightly with transmissions from Germany at times lasting until 11:00 P.M.

—GEORGE J. WINNER

## BRAZIL

There are now 34 television stations operational in Brazil. It is estimated, based on requests for channels from the Government licensing board, that by the end of 1964 between 45 to 50 stations will be on the air in Brazil.

Although there are actually only 1,500,000 receivers in the country, local manufacturers are hard pressed to keep up with the demand, the existing stations can reach 80 percent of Brazil's 70 million population, and national hookups can, and have already, linked Rio Grande in the south with Belem in the north, along over 4.5 thousand miles of coastline, going inland to include the cities of Brazilia, Goiania and Belo Horizonte.

Brazilian law requires that all owners of radio or TV stations be of Brazilian nationality. A further law stipulates that all foreign films shown on TV be dubbed, and that no station may transmit more than 22 half-hours of foreign films for each 72 hours of weekly transmission time. Stations which transmit less than 12 hours per day have a corresponding lower quota.

Seven sound studios, four in Rio de Janeiro and three in São Paulo take care of the dubbing of all the American and some Italian, Argentine and Mexican films that come into the country. An attempt has been made to produce TV serials in Brazil, but up to now it has been cheaper to import and dub them. This may change in the near future, owing to the instability of the Brazilian currency and the restrictions on profit remissions. Another aspect which may restrict the importation of film serials is a rising nationalism and a move to return to a law passed by ex-President Janio Quadros, which severely restricts the exhibition of foreign film serials on TV. This law was modified when the President took office, but how long this modification is going to stand up under the strain, no one can tell. It is, however, generally considered that the first American producers who bring their know-how of TV serial productions to Brazil will make a fortune.

Professional Association of Radio and TV Station Owners: Sindicato dos Proprietarios de Impresas de Radio Difusão a Televisão, Avenida Presidente Churchill 97 Sala 606, Rio de Janeiro.

—REX ENDLSEIGH

## CHINA (Communist)

Twenty-three TV stations and six relay centers serve only a small proportion of the population of mainland China. Private sets are owned only by high Communist officials with communal sets in public for the ordinary TV viewer. No American programs are shown and trade with Red China is barred by American law.

China's first TV station was opened in 1958 but in view of the price of receivers (a 9-inch set costs the equivalent of seven months wages for an ordinary citizen) few are in private hands, and growth in the number of receivers has been slow. Most are public sets in communes, recreation rooms, meeting rooms, etc. though it is reported that some high Communist functionaries have sets of their own.

The weekly program consists of six broadcasts lasting three hours each plus a few programs of teaching and education TV and in rare instances a movie may be shown. Strangely enough, the Chinese-made movies which are shown are televised before being released in the movie theatres.

No programs from Western countries are shown on TV and trade with Communist China by Americans is barred by the U. S. Government.

## CHINA (Taiwan)

Taiwan Television Enterprise Company broadcasts daily to an audience comprising some 12,000 receivers. The American line system is used though studio equipment and receivers are almost invariably of Japanese manufacture.

## DENMARK

Total number of receivers in Denmark: 700,000 (June 1, 1963).

Total number of commercial TV stations: None.

Total number of Government stations: 1.

Total coverage: 100% of population.

With the opening in the middle of June, 1960, of a transmitter covering the island of Bornholm, the Government station now has seven transmitters covering 100% of the population.

Television has increased rapidly, with a remarkable effect on the film trade. Four years ago 4,000 receivers were going.

A new television house, based upon an architect competition now finished, is about to be built during the next years. The work started last Autumn, and the first part it is estimated to be finished in two years. The whole house, with seven studios, is expected to be finished within 10 years. The sending hours, now about 19 per week, will gradually be increased. The Government station is at present operating with two studios, two reporting vans, two films vans and two video tape machines. The station has 12 news correspondents in Denmark, and the film department has 11 photographers producing about 600 bigger and smaller films for TV per year. In order to compete with German television, a complete film group has been stationed in the south of Jutland.

It is still prohibited for organized distributors to sell films to television which, however, hitherto have succeeded in obtaining feature films from other sources. Only extracts of up to 300 meters may be sold by distributors to TV.

Taxation on television receivers is 15 per cent of the wholesale price, plus a tax of kr.3.15 per tube in each receiver. The license to the state is d.kr.75.— per year as against d.kr.22.—for radio sets.

Television and Danish sports unions have reached an agreement according to which each sports union is free to negotiate with television, which always offers to pay an estimated loss for showing the special event on TV. Until now comparatively few sports events have been shown on TV.

Television is controlled by the state, and there is no advertising in the programmes.

# Film Shippers To All The World!

The oldest — yet the most modern and experienced international shippers and custom brokers serving the motion picture and television industries THROUGHOUT THE WORLD!

## BARNETT INTERNATIONAL

### Forwarders Inc.

543 WEST 43rd ST., N. Y. 36, N. Y.

AREA 212 — BRyant 9-1616

CABLE: 'BARINTFOR' N. Y.

Airport Office: Air Cargo Service Bldg. No. 80, N. Y. International Airport, Jamaica 30, N.Y.  
6364 Santa Monica Blvd., Los Angeles 36, Cal. Area 213 — HO 4-8221

## EGYPT

A TV Arab department under the direction of the general manager, Hassan Helmi, is advisor of the General Egyptian Organization for Motion Pictures, Radio and TV, attached to the Ministry of Culture and National Guidance.

A Central station in Cairo of 140 hours transmission a week through three channels covering most of the UAR areas with the exception of Aswan and Luxor which is covered by a local independent transmission station of three hours transmission daily.

M.A.R. TV follows the European technical transmission system with an image of 825 scansions.

The TV receivers in use number 200,000. The Arabic TV department shoots a movie news review weekly and it is sent to 25 TV stations all over the world with which Arab TV exchanges cultural and documentary materials. TV in UAR arranges for an annual TV festival to be held in every year. The second international festival was held in September, 1963, at Alexandria, with many countries participating.

—MARY PASCAL

## FINLAND

During April, 1957, tests began for the new Finnish TV. Ordinary TV programs began in the autumn of 1957—officially, Southern Finland can see programs from Soviet-Estonia; the Southwest Finland from Stockholm; and the east of Finland from Leningrad, USSR. A television set owner in Helsinki can now see TV programs every day in the week,—without paying any licenses. The Finnish radio plans to build a TV-network. Then shall the whole of Southern Finland—with the half of the population of the country—2,000,000—see the Finnish TV. Part of the programs shall be sponsored, the Finnish Radio Network will sell some of the TV-time to interested companies.

—GOSTA ERKELL

## FRANCE

The number of TV sets in France rose from 2,554,821 in 1961 to 3,512,935 in 1962. The most important development is the Second Chain which will start putting out programmes in the Paris and Lille areas in April, 1964. The Second Chain, as it was at first suggested, will not be "high brow" but will include a wide variety of programmes.

It is estimated that here are a least 100,000 clandestine TV sets in France which do not pay tax. The Second Chain will use two studios for direct broadcasts, and one for films. The existing chain has eight studios for direct broadcasts and seven for films. During the year experiments were carried out in colour.

As TV is state-owned in France there is only one programme buyer, the state. This year a new radio and TV building was inaugurated under the name Maison de la Radio et de la Television, Quoi de Passy, Paris.

French TV prefers to produce its own films but over the past year it has entered several co-production agreements with Tele-Hachette and Pathé.

—HENRY KAHN

## GERMANY

Television has made progress in Germany in the past year.

The number of registered receivers, which passed the million mark in November 1957 was up to 7,000,000 in 1963, including West Berlin. Thus Germany is holding its second place in Europe, after Great Britain.

In Germany television is in the hands of the nine existing broadcasting companies, which are licensed regionally but are otherwise independent and politically neutral. There is so far only one program of about four hours daily and six on Sundays. Eight of these companies contribute to it. In addition each station daily carries an hour or two of programming of regional interest.

Furthermore, these stations are telecasting a second program of about three hours daily. However, in Spring of 1963 they no longer are going to telecast this second program since after long negotiations the different states of the Federal Republic of Germany have formed a new organisation called "Zweites Deutsches Fernsehen". The "Intendant" (general manager) of this organisation is Professor Dr. Karl Holzamer and their program director Ulrich Grählmann.

Beginning with this date it is supposed that there also will exist a third program which is going to be telecast by various stations on a regional basis.

The present program, which was initiated in 1954, has no doubt improved in recent years, but is still not satisfactory and could well stand competition. According to opinion polls, nearly half of the audience are not satisfied with the program while more than half say they are. There is no colour television yet in Germany.

Motion picture theatres are feeling the competition of the new medium in Germany.

In the Soviet Zone of Germany there are today 1,600,000 television receivers, an increase of roughly 350,000 in the past year. Some 15 different types of television sets are offered by the four television equipment producers in the Soviet Zone.

## GREECE

There is no television service as yet in this country. It has been announced, however, this year by the Government that negotiations have started for the development of the first TV network which will be launched in 1966. The second stage which will cover the country nationwide will be ready for operation in 1971 with 14 stations but only one channel.

The estimated budget for the whole project is about \$7,000,000. It is understood that this TV network will be a state monopoly like the sound broadcasting and the responsibility of this service also will be vested in the National Broadcasting Organisation.

The reason for the TV lag until now was mainly the geographical layout of this country which would make nationwide service extremely expensive.

## HOLLAND

On a total population of more than 11 million people the approximate number of 1,600,000 sets is very high compared with the situation in other countries, and still the influence of TV is sharply increasing. It means a very strong competition to motion picture theatres. There is not yet any commercial TV.

TV in Holland is organized by the Nederlandse Televisie Stichting (NTS), under governmental control, with five sub-divisions: a Roman-Catholic section, a Protestant section, a political (social democratic) section, another Christian division and a neutral section. The broadcasting companies, K.R.O., N.C.R.V., V.A.R.A., V.P.R.O. and A.V.R.O., represented by these divisions, want to keep their influence on TV.

The approximate cost of a TV set, antennae included, is from fl. 650.—to fl. 1,800.—(\$1 is fl. 3.60). A yearly contribution of fl. 36.—is due by the owners of a set, to be paid to the government.

Feature films are programmed once a week, on Monday night. These pictures are old ones though of post war vintage. A number of Rank pictures and some 20th-Fox and French films are among them, also Italian films, pictures of four to seven years ago. The Dutch trade organization does not permit new pictures to be televised.

Quality of programs is improving. Competition to motion pictures is obviously increasing, though the Dutch trade organization is following the development closely.

In order to compete with TV, the purchase of scooters, cars, more travelling abroad, the trade organization still has a special advertising campaign in the newspapers under the motto: "Go More to the Movies."

The purchase of TV sets by installment buying is still popular, otherwise the increase of the number of sets could not have been effected. The Dutch TV station is in Bussum.

Philips is a big manufacturer of TV sets.

—PHILIP DE SCHAAP

## HONG KONG

Reditusion (HK) Ltd., provides TV service to subscribers but there are plans for a regular commercial TV station. Sets total only 18,000.

## INDIA

Television has still not made any commercial progress, and is confined entirely to the Delhi region, where about 300 sets are used almost exclusively for educational purposes in the schools. Philips of Holland appears to have a lead as far as TV in this country is concerned. Prospects of development of TV in other parts of the country are dim, at least in the foreseeable near future, and at any rate, until the emergency created by the Chinese threat on the northern border is resolved.

—V. DORISWAMY

## IRELAND

Telefis Eireann is the official name of the television service in Ireland.

Television, like sound broadcasting, is a state monopoly, and responsibility for both services is vested in Radio Eireann, the Broadcasting Authority. This Authority, appointed by the Government, consists of between seven and nine members serving on a part-time basis under a chairman selected by the Government. The present chairman is Eamon Andrews, an Irishman who has had wide experience in British television and radio.

The Minister for Posts and Telegraphs, who is responsible for the autonomously operated Authority, reserves to himself the duties of fixing and collecting license fees from domestic viewers, licenses transmitting stations, and has a veto on the appointment and conditions of the Authority's top executive, the director general, who is employed full time. Kevin McCourt, is currently director general.

Telefis Eireann opened in January, 1962, with one transmitter in the Dublin area serving an estimated population of 1,200,000 people. It now has five transmitters sending out the national programme. The transmitters are situated at Dublin, Sligo, Co. Clare, Co. Cork and Co. Carlow. The first two both transmit on 625 and 405 lines, the rest use 625 line standard.

The Authority, which has the responsibility to provide programmes of suitable cultural and national content, beginning with 45 hours a week now transmits for 42 hours, of that 12 to 15 hours are home originated programmes, the rest imported from Britain and the United States.

There are over 170,000 receiving sets in operation and about 100,000 of these are able to receive programmes from Britain's BBC-TV and Independent TV stations as well as Telefis Eireann.

Because of the impact of television on cinema attendances the Government abolished cinema admission taxes in October 1962.

—TOM SHEEHY

## ISRAEL

There is still no television service in this country, nor is any contemplated in the immediate future. This year, however, negotiations were reported to have been held with various foreign organizations with a view to the eventual establishment of a service. No details of the negotiations were announced. Instructional TV may be established first.

—ALBERT de MATALON

## ITALY

Italian television is entering its eleventh year. It is operated by RAI (The Italian Radio Broadcasting System), which is now known as RAI-TV. There are main offices in Rome, Turin and Milan, but all contracts for programs, films, live talent, etc., are finalized in the Rome Office.

The number of sets at the end of 1962 num-

bered 3,500,000. There are two channels, but only 1,500,000 sets are equipped for both channels. The regular shows run from 3 P.M. to 12, but on certain mornings there are children's shows and adult education programs. The sets are more thickly distributed through North and Central Italy, while there are fewer in Southern Italy and the Islands Sicily and Sardinia). Despite the predominantly mountainous nature of the Italian Peninsula, reception is excellent in all areas due to a system of 400 relays.

The Italian TV programs are basically similar in variety to the American programs: films, drama, quizzes, news, sports events and broadcasts of special events. Advertising takes up about 20 per cent of the time. There is a 12,000 lira (about \$20) yearly tax for subscribers.

Both the Radio and TV systems are considered among the best in Europe from a technical viewpoint. Eurovision and Telstar connections are perfect. From a survey conducted by RAI-TV, there are 15,000,000 TV spectators between 9 P.M. and 10 P.M. (This includes spectators in public places). The TV vs. movie problem has been to some extent eased in Italy with the recent ANICA-RAI-TV (1963) accord whereby not more than two full length features on each of the two channels may be shown weekly. Furthermore, films may not be broadcast on Thursdays, Saturdays, Sundays and legal holidays.

With radio and TV subscriptions, plus advertising, RAI-TV's revenue is very high.

During election campaigns, all political parties are allowed the same amount of time on all stations.

—ED D'AMICO

## JAPAN

With more than 14.5 million television sets, Japan is second only to the United States, a fact that is remarkable when it is recalled that unlike American owners, Japanese set-owners must pay 92 cents monthly to the quasi-governmental NHK Corporation whether or not they tune in on the network's 107 stations broadcasting, without advertising, general programs, or the 78 so-called educational stations.

With an income of over \$13 million a month, expected to rise to close to \$16 million, the Government-sponsored network takes in almost as much as the nation's 44 commercial TV stations do in advertising revenues.

Major commercial operators include Nippon Television Network (NTV), Tokyo Broadcasting System (TBS), Nippon Educational Television (NET), Fuji Broadcasting Company (FTC), Asahi Broadcasting Corporation (ABC), Yomiuri Television Broadcasting Corporation (YTB), Kansai Broadcasting Corporation (KTC), and Mainichi Broadcasting System (MBS).

Commercial broadcasts average about 85 per cent domestic shows and 15 per cent imported shows, which are dubbed in Japanese. In the larger cities stations average about 18 hours a day on the air with additional time on weekends and holidays.

Foreign currency allocations in fiscal 1962 for purchase of TV programs from abroad was kept to about \$3 million with weekly expenditure for an individual network not to exceed \$8,000 excluding tax. Some concessions were made for color programs (33 per cent extra allowed on prescribed purchase price) and "special" programs. In those days 30-minute programs averaged only about \$800 each with prices for longer episodes rising to \$1,000 to \$2,000.

Actually these prices were exceedingly low by world standards, taking into consideration the huge Japanese audience, but American producers especially were sympathetic to Japanese buyers because of the monetary restrictions and price control. This feeling was not taken into account by Japanese buyers in 1963, when the easing of government controls began to bring rises in the prices at which overseas productions were offered.

Japanese stations professed to be shocked when they found 30-minute programs listed at \$2,000 and hour-long programs at \$4,000 and more. They

pointed out that in addition to the original cost they were liable for air freight, import duty (6.94 cents per meter), customs handling, dubbing and other incidentals which pushed the costs even higher. In some cases they threatened to cut down on imports and devote more effort to develop more domestic-made shows.

Actually, there are a large number of Japanese-made programs on the air already, some of them excellent and very popular, but even with the low cost of Japanese production most of these shows have a hard time competing with imported shows to which the Japanese public has become accustomed.

Very few feature motion pictures are shown on Japanese TV and those few which are shown are almost invariably imported from abroad as Japanese movie-makers, even though some have investments in the TV industry, have a virtual ban on selling feature films to TV. Some studios do, however, produce some TV shows on contract.

Trade organizations include the National Association of Commercial TV Broadcasters, Kosoku-doro Building, 8, 7-chome, Nishi Ginza, Tokyo, and Broadcasting Corporation of Japan (NHK), 2 Uchisaiwai-cho, Chiyoda-ku, Tokyo, which is in charge of government non-commercial stations (without advertising).

—A. C. PINDER

## KOREA (South)

Television was introduced into South Korea in 1956 by the commercial station HLKZ-TV operated by Daehan Broadcasting Co. but a fire wiped out the venture in 1959. Meanwhile in 1957 the United Nations Command, United States Forces Korea, established AFKN-TV to provide entertainment for the armed forces.

In 1961 the Government-owned Korean Broadcasting System's KBS-TV went into operation, creating a tremendous demand for receivers among the civilian population. Plans to develop relay stations to serve points not covered by the Seoul station are under way.

## LEBANON

A television broadcasting service was launched in Lebanon in May, 1959. Programs are scheduled for three to four hours daily. In addition, Lebanese viewers are able to pick up broadcasts from Cyprus and some European stations. Lebanese National Television, the new company, is owned by shareholders and directed by technicians who studied in the U.S. and Europe.

In 1960 a second station started operations. This is government-owned and operated. There are no government controls on the formation of TV broadcasting companies.

TV receivers are expensive, the average price being \$300 a set. Sets now on the market come from U.S., England and Germany. By 1962 considerably more than half the population owned sets.

—IBRAHIM H. ZEIN

## MEXICO

A Television set has become in Mexico an article of prime necessity. The urge of every Mexican home to get a TV set is so great that numerous poor families, living in houses not much better than huts pride themselves on a television set that is being painfully paid on the installment plan, peso by peso. There are about 2,000,000 sets in use in the country today.

Sometimes neighbors contribute to meet the monthly payments, as they gladly pay an entrance fee of 25 or 30 centavos (2 or 2.5 cents) to watch their favorite program. Those homes may lack good washing services, a heater, a good gas range or a washing machine but those matter less than a TV set. Large screens are favorite among Mexican fans, and only a comparatively few portable or small sets were sold.

More and more restaurants and bars, commercial lunch-counters and even some department stores, have succumbed to the idea of installing TV sets. It is a common sight in Mexico City, after dusk, to see crowds in front of shop windows of some important commercial houses on the main streets, watching a program. The interest of the Government is resulting in better and cleaner programs.

A plan is under study by the country's educational authorities to use electronic screens in the classrooms of Mexican schools. There is a strong movement among teachers backing the idea of teaching certain subjects through TV screens.

In Guadalajara, the second largest and most important city in the Republic, a very important and powerful plant, similar to that of Televisio in Mexico City and Monterrey, was recently installed and is now operating with modern equipment, and very attractive programs. It fills an urgent need for TV shows in Western Mexico.

## NEW ZEALAND

Television is pushed hard by its manufacturing and retailing interests, but it still has made little real impact on the entertainment field. Reasonable sets are offered at £175 to £220 (\$486 to \$610). reception is fairly good—programmes are not of a very high standard. Some items, particularly locally-produced interest programmes, are excellent but a lot of the overseas material used in the early days of television elsewhere, is poor.

Nevertheless, television interests the very old and the very young—those that are confined to the four walls of their homes, and they are indebted to it for providing them with entertainment to fill in their leisure hours. No feature films are used on television here—the policy of the new Government-appointed corporation set up to control both radio and television being to leave that type of entertainment to the theatres.

The prospects for our industry here are still good. A big majority of New Zealanders prefer to seek their entertainment elsewhere than in their homes. Concerts, stage shows, ballet, vaudeville, boxing, wrestling, all attract large crowds. Rugby football, horse racing, athletics and all types of outdoor sports and recreations also draw thousands of patrons.

—R. A. USMAR

## NORWAY

TV in Norway has been operating since the Fall of 1960, programmes having increased from six to eight hours per week to around 16. Present number of TV licences is around 250,000. As the TV is Government controlled and cinemas are municipal, it is the same interests prevailing in both media. If cinemas should be hurt by TV, the Finance Department and the municipalities would have to pay. An agreement has therefore been established for the procedure and policy of TV in order to hurt the cinemas as little as possible. TV will use special TV-produced shorts, cultural and documentaries, comparatively few features and preferably so late in the evening that at least the two first shows per day in the cinema should not be too much affected. So far only 16mm films can be sent.

—FINN NYMANN

## OKINAWA (Ryukus)

Okinawa TV System and Ryuku Hosoo Network broadcast to some 300,000 sets owned by the local population with the Armed Forces TV Service serving Americans (some 15,000 sets) stationed on the islands.

## PERU

Television is one of Peru's fastest growing industries. There are four channels in Lima (4, 7, 9, 13).

Channel 7 is non-commercial and is operated by the Ministry of Education. It operates only a few hours a week on an erratic schedule and has few viewers. Channel 4 (Radio America) is the oldest station, working since 1958. There is a fourth operating channel in the country, channel 2 in Arequipa; it is associated with Lima's channel 13 (Radio Panamericana).

Television has a strong appeal to people of all social classes. Even in the *barriadas* (slums) one finds TV antennas. It is the practice there for owners to charge one sole admission to watch nightly TV. There are said to be 65,000 sets in operation in the Lima area with an average viewing audience (according to McCann Erickson, the advertising firm) of 4.5 persons per set. This would give a potential total audience of about 300,000 persons. Others place the figure higher.

Programming depends greatly on Westerns and mystery (detective) shows from the United States that have been Spanish-dubbed in Mexico. There are also many motion pictures from the United States that are either dubbed or with titles. Film programs are preferred to live because of the cost factor. There are a number of live programs—amateur talent reviews, discussions, etc. Stations prepare their own news programs using live and film sections.

A minute spot at prime time (8-10 P.M.) costs about 700 soles (\$26). However, as many as 10 spots are grouped together, lessening impact. Nevertheless, prime time is sold out. A 15-minute spot costs 200 soles (\$7.41) and a half-hour show costs between 6,000 and 8,000 soles (\$200-\$300 approximately). The stations are working very close to the break-even point, and channel 9 failed.

---

## PHILIPPINES

With seven TV stations in Manila and four provincial stations in Cebu, Davao and Bacolod City indications are that there are too many stations on the air for the number of receivers (estimated at only 160,000) so an amalgamation move is under way. Alto Broadcasting, the Chronicle Broadcasting Network and Inter-Island Broadcasting Corporation are considered the leaders.

---

## PUERTO RICO

There are about 200,000 television sets in Puerto Rico, for a population of 2,300,000. Most of the public places such as restaurants, clubs, have television sets for their patrons and the medium is available in local hotels upon request.

Even though most Puerto Ricans know English, and the number of persons who will acquire a working knowledge of English will increase considerably through intensification of English instruction in public schools and the migration of Puerto Rican families to the United States, and workers who come back from the States with more knowledge of English, television programming is in English and Spanish. WKAQ-TV, owned and operated by the newspaper *El Mundo*, on channel 4, has 30 per cent programs in English of which 10 per cent have Spanish sub-titles.

Kinescope versions of top North American television shows are represented on both stations.

American manufacturers of cigarettes, electric appliances, soaps, detergents, and other products which use television widely have increased their budgets for this type of advertising medium.

---

## SCOTLAND

A busy time is dawning for television interests in Scotland. In addition to definite plans by the ITV companies (Scottish Television Ltd., Gram-

pian Television, and Border-TV), Central Scotland can expect now to receive the British Broadcasting Corporation's second television program by the end of 1965. Approval has been granted for the building of a new high-power ultra-high-frequency BBC television station for 625-line transmission to Central Scotland, to be sited at Black Hill, Lanarkshire, and due to be in operation by the end of 1965.

This station is among the first eight of 17 new UHF stations in the U.K. which have been approved. A station for northeast Scotland is among those which the BBC hope to open in 1966 or soon afterward.

The BBC also plan to erect an additional 405-line station in Band 111 to serve southwest Scotland, while the British Independent Television Authority propose to build stations to serve Dundee, and Caithness and Orkney. The additional station to serve southwest Scotland will enable this area to receive the programs transmitted in Scotland while continuing to receive those available on the BBC English network. The new ITA stations for Dundee, and Caithness and Orkney, will be among six new stations which will bring ITV to nearly a million new viewers in the U.K. and improve reception for 600,000 others.

Meantime, a new BBC television and VHF sound broadcasting station is functioning at Oban, West Scotland, completing a chain of low-power relay stations aimed at extending reception in the Scottish Highlands.

The main production companies are centered at Glasgow, Aberdeen, and (serving southwest and southeast Scotland) Carlisle, northwest England. The Scottish Television company, controlled by Canadian newspaper magnate Roy Thomson, maintains a busy output from its Theatre Royal studios, and new BBC television studios in Queen Margaret Drive, Glasgow, will meet the demands of the two BBC channels about to operate. There is a great need for new local talent and program material, and employment is likely for more Scots, both artistes and technicians. The BBC television section in Scotland is likely to contribute more to the national networks. Grampian Television and Border Television, respectively, keep up a healthy local output.

—GORDON IRVING

---

## SOUTH AFRICA

Despite the now more frequent rumours, Minister of Posts and Telegraphs Dr. Albert Hertzog maintains his persistent denial that South Africa is planning TV.

However, during the year one of the South African Broadcasting Corporation's top men, senior director Norman Filmer, made a trip to Australia and New Zealand to study "administrative, financial and technical aspects of radio" there. The trip was reported at the time to have been made for a study of TV.

Enigmatically, VHF towers are beginning to mushroom all over the country, and sound radio is streamlined to FM reception standards, a welcome improvement. The towers, despite top-level denials, are nurturing the "advent of TV" rumours, and a report emanating from Geneva earlier this year from the International Communications Union, after a conference had taken place on African radio and television, stated that "South Africa was planning to use 8 megacycle spacing as its band width, with a 625-line scanning system." This came at a time too, when Mr. Filmer was engaged on a European trip.

In June of 1962, Dr. Hertzog, in a reply to a question in the House of Assembly, stated that South Africa would not have television for at least 18 months—if at all ever.

But a significant development has taken place in the fact that the SABC is to be represented on the new National Film Board, and the only conclusion reached here is the fact that preparations are indeed being laid for television.

—S. M. KIRSCH

## SOUTH KOREA

Korea TV Broadcasting system, owned by the government, plans a relay system to eventually cover the nation. Some of the seven hours of daily broadcasts are commercially sponsored but receivers total only about 5,000 because they are not being locally-produced and imports are restricted. United States Forces, Korea, operates its own stations to entertain the troops.

## SWEDEN

The Swedish TV began in the autumn of 1956. One station was organized in Stockholm and one in Gothenburg. An ordinary TV week in Stockholm sees about 14 hours of "live" programmes and six hours of film. Swedish, French, American (USA), British and Soviet pictures have been shown on TV and series like "The Perry Como Show", "20th Century", "Perry Mason", "Hitchcock Presents", "Gunsmoke", "Disneyland", "Robin Hood" (British) and "Colonel Blakie".

The future for the Swedish TV seems very promising. As of January 1, 1963, Sweden had about 1,200,000 TV sets and about 30 transmitters.

—GOESTA ERKELL

## SWITZERLAND

As of May 1, 1963 there were 314,018 TV sets in operation in Switzerland, 40 transmitters and 77 boosters on the air, 27 in the German-speaking part of Switzerland, eight in the French-speaking part and eight in the Italian-speaking Tessin.

The French and German language stations schedule about 26 hours of programming a week each; the Italian language transmitters about 20 hours weekly, of which six hours are produced by Tessin's own O.B. van whereas the rest consists of programmes relayed from the German and French speaking parts of Switzerland, with commentary in Italian, as well as from Italy.

All telecasting in Switzerland is government-controlled. There are no commercial operations. The PTT administration is responsible for the transmitters and technical equipment, while the Swiss Broadcasting and Television Corporation handles all programming. Annual licences cost 84 francs for private sets and 168 for public sets.

—ARTHUR GOEFFERT

## THAILAND (Siam)

Two TV Stations—Army Television and Thai Television Company—are operating, with four relay stations scheduled to come on the air. Estimated number of receivers is over 160,000. Imported programs are dubbed in the Thai language with a local radio station simultaneously broadcasting the English dialogue for listeners who prefer that language.

## TURKEY

Television transmitting stations are not operating yet in Turkey. Recently Simon Bahr, Leo Weiss, Joseph Brower and Richard Dumont of the International Television and Engineering Corporation arrived in Ankara and negotiated the subject of establishing TV stations with the officials of the Press Ministry.

The American company offers the establishment of four stations in Istanbul, Ankara, Izmir and Erzerum. Relay stations will secure broadcasting the programs to all sections of Turkey.

The same company offers the construction of a factory manufacturing TV sets. The selling price of the sets will not be higher than 1,500 liras (\$150). Some 500 million liras (\$50 millions) should be invested for this plan. One of the stations will start operating in one year and the other three with the relay stations will need a period of three years.

Offers were also received from German TV organisations. The manager of this organisation came to Ankara and held negotiations with Turkish officials. The Germans propose stations in the three main cities and Adana.

—PHEDON NAZLOGLOU

## VENEZUELA

There are three commercial television stations in Venezuela:

1. Radio Caracas Television: managing director, Amable Espina. Channels 2, 3, 7 and 10. RCA equipment. This is by far the best station, with very little unsold time. It is operating about 16 hours a day.

2. Vene-Vision. Channels 4 and 9. Managing Director Valeriano Humpierrez, Marconi Equipment. This station is the previous Televisa and was completely reorganized and revamped at the beginning of 1961. It has a strong A.B.C. interest. Operating seven hours daily.

3. Ondas del Lago Television. This is the only channel in Maracaibo. Managing Director—Nicolas Vale Quintero. Operating an average of five hours daily.

There is also one Government-owned station, *Televisora Nacional*, channel 5, operating about four hours every evening and admitting no advertising. The programs are mostly cultural, news and documentary.

All television equipment used in Venezuela is imported, mostly from the U.S.A.. No statistics are made concerning the number of sets sold or used in the country. The number of sets is privately estimated at 350,000.

The legislation ruling television permits certain percentage of total time to be used for imported filmed programs. No difficulties have arisen in selling any imported programs because of the legislation. Two new channels have been authorized. Channel 8 owned by Juan Lorenzo Mendoza (Cedeasa) and Channel 11 Radio Valencia TV of which Diego Cianeros is one of the shareholders.

## YUGOSLAVIA

The Yugoslav television network entered its fifth year of experimental programs. The regular operation of Yugoslav television, which claims to have about 150,000 receivers, has been postponed for another year.

A series of relay towers has been completed, but the main ones are still in construction: on Vlasica Mountain in Bosnia—said to be 80 metres high, which will enable most of the republic of Bosnia to receive the Yugoslav programs and from Zagreb studio the programs of the Eurovision. The Avala hill tower, near Belgrade, when completed will be 211 metres high with a restaurant on its top. Another two towers in Macedonia are nearing completion.

After the relays in construction are completed, the experts claim that about 85 per cent of the territory will be covered with the programs of three major Yugoslav TV studios—in Belgrade, Zagreb and Ljubljana.

The number of the sets has much increased, and it is estimated now to have reached 150,000. There are no more imports of foreign sets simply because the customs duty on them is very high. On the other hand two factories are producing enough to nearly satisfy the local market. The domestically produced sets, under foreign licence, are still 200,000 dinars (nearly \$300), and may be bought on the installment plan.

The advertisement service is becoming more and more organized with daily more time devoted on all three Yugoslav stations.

All federal republics, except Montenegro to which no Yugoslav TV program has so far reached, pay 1,000 dinars monthly fee, and that will remain until Yugoslav television begins regular operations.

—STOJAN BRALOVIC

# *World TV Broadcasters*

# WORLD TV BROADCASTERS

Following is a listing, by continents and countries, of the major television broadcasting organizations of the world, providing a reference list of the principal program buyers world-wide. For the United States, Canada and Great Britain, see the appropriate sections.

## Europe

### ALBANIA

RADIODIFFUSION ALBANAISE  
Rue Conference de Peza, 3, Tirana.

### AUSTRIA

OSTERREICHISCHER RUNDFUNK  
Television Dept., Schellinggasse 4, Wien 1.

### BELGIUM

RADIODIFFUSION-TELEVISION BELGE (RTB)  
(FLEMISH)

BELGISCHE RADIO EN TELEVISIE (BRT)  
(FRENCH)

RTB or BRT  
Place Eugene Flagey 18, Brussels 5.

### BULGARIA

BULGARIAN TELEVISION  
G. Genov St. 7, Sofia.

CZECHOSLOVAKIA  
CESKOSLOVENSKA TELEVIZIE  
M. Gorkeho 29, Praha 1.

### DENMARK

RADIO DENMARK  
Television Service, Radio Denmark, Radiohuset,  
Rosenornsalle, Copenhagen.

### FINLAND

SUOMEN TELEVISIO  
Pasila, Iimala, Helsinki.

### FRANCE

RADIODIFFUSION-TELEVISION FRANCAISE  
15 Rue Cognac-Jay, Paris 7eme.

### GERMANY

#### GERMAN FEDERAL REPUBLIC

BAYISCHER RUNDFUNK  
Fernsehdirektion des Bayerischen Rundfunks,  
Rundfunkplatz 1, Funkhaus, Munchen.

DEGETO G.m.b.H.  
Kaiserstrasse 12, Frankfurt am Main.

*The Television  
Code*

# The Television Code

**A** NEW CODE of standards and practices for the television industry went into effect March 1, 1952 following a series of developments almost a year in the making.

The code is an aftermath of a meeting held in Washington in June, 1951 at which NBC made public a code of its own. Set up as a standard of operations in television, this code bore an essential resemblance to the instrument earlier adopted by the same network for radio broadcasting. Both NBC codes, a Code of Standards adopted for radio by the National Association of Broadcasters—predecessor organization of the National Association of Radio and Television Broadcasters—in Atlantic City in 1947 and now the industry-wide TV code, drew upon the Motion Picture Production Code for their pattern.

Four subcommittees were active in preparation of the television code throughout the summer of 1951. Their tentative draft was approved by the NARTB board in September and a final polishing job undertaken in Washington shortly before the text was ratified in Chicago, October 19, 1951.

The TV code provides for a review board consisting of five members of the NAB. This board is empowered to enforce the rules governing programming and advertising. There will be issued a Seal of Approval, available to subscribing members whether affiliated with NARTB or not. While the power to hold in check unfair and unscrupulous acts will be vested in the Review Board, the common impression in television is that this will be largely an unwritten power. The Review Board was increased to seven members in June, 1959, effective January 1, 1960.

In those phases that deal with programming and its approaches, the code bears striking similarity to the Motion Picture Production Code, conceived and formulated in 1929 by Martin Quigley, and ratified by the Motion Picture Producers and Distributors Association of America, Inc. which became the Motion Picture Association of America, Inc. late in 1945 when Eric Johnston was named president.

Meeting in Bandera, Tex. in February, TV board members of NAB approved a review board of five and adopted a plan for financing administration of the code as well as an operating budget of \$40,000 for the first year of operations.

There have been various revisions of the code over the years. This most recent edition, the seventh, is dated May, 1962.

Under the financing plan, each subscribing TV station pays \$405 a year. If it is an NAB member, \$250 of this is credited against NAB dues, leaving \$155 for defraying code

administration costs.

The Code is copyrighted by the National Association of Broadcasters. The Code Authority maintains offices in Washington, New York and Hollywood. Robert D. Swezey is director, with offices in Washington.

Text of the revised code follows:

## Preamble

Television is seen and heard in every type of American home. These homes include children and adults of all ages, embrace all races and all varieties of religious faith, and reach those of every educational background. It is the responsibility of television to bear constantly in mind that the audience is primarily a home audience, and consequently that television's relationship to the viewers is that between guest and host.

The revenues from advertising support the free, competitive American system of telecasting, and make available to the eyes and ears of the American people the finest programs of information, education, culture and entertainment. By law the television broadcaster is responsible for the programming of his station. He, however, is obligated to bring his positive responsibility for excellence and good taste in programming to bear upon all who have a hand in the production of programs, including networks, sponsors, producers of film and of live programs, advertising agencies, and talent agencies.

The American businesses which utilize television for conveying their advertising messages to the home by pictures with sound, seen free-of-charge on the home screen, are reminded that their responsibilities are not limited to the sale of goods and the creation of a favorable attitude toward the sponsor by the presentation of entertainment. They include, as well, responsibility for utilizing television to bring the best programs, regardless of kind, into American homes.

Television, and all who participate in it are jointly accountable to the American public for respect for the special needs of children, for community responsibility, for the advancement of education and culture, for the acceptability of the program materials chosen for decency and decorum in production, and for propriety in advertising. This responsibility cannot be discharged by any given group of programs, but can be discharged only through the highest standards of respect for the American home, applied to every moment of every program presented by television.

In order that television programming may best serve the public interest, viewers should be encouraged to make their criticisms and positive suggestions known to the television broadcasters. Parents in particular should be urged to see to it that out of the richness of television fare, the best programs are brought to the attention of their children.

## Advancement of Education and Culture

1. Commercial television provides a valuable means of augmenting the educational and cultural influences of schools, institutions of higher learning, the home, the church, museums, foundations, and other institutions devoted to education and culture.

2. It is the responsibility of a television broadcaster to call upon such institutions for counsel and cooperation and to work with them on the best methods of presenting educational and cultural materials by television. It is further the responsibility of stations, networks, advertising agencies and sponsors consciously to seek opportunities for introducing into telecasts factual materials which will aid in the enlightenment of the American public.

3. Education via television may be taken to mean that process by which the individual is brought

toward informed adjustment to his society. Television is also responsible for the presentation of overtly instructional and cultural programs, scheduled so as to reach the viewers who are naturally drawn to such programs, and produced so as to attract the largest possible audience.

4. The television broadcaster should be thoroughly conversant with the educational and cultural needs and desires of the community served.

5. He should affirmatively seek out responsible and accountable educational and cultural institutions of the community with a view toward providing opportunities for the instruction and enlightenment of the viewers.

6. He should provide for reasonable experimentation in the development of programs specifically directed to the advancement of the community's culture and education.

7. It is in the interest of television as a vital medium to encourage and promote the broadcast of programs presenting genuine artistic or literary material, valid moral and social issues, significant controversial and challenging concepts and other subject matter involving adult themes. Accordingly, none of the provisions of this code, including those relating to the responsibility toward children, should be construed to prevent or impede their broadcast. All such programs, however, should be broadcast with due regard to the composition of the audience. The highest degree of care should be exercised to preserve the integrity of such programs and to ensure that the selection of themes, their treatment and presentation are made in good faith upon the basis of true instructional and entertainment values, and not for the purposes of sensationalism, to shock or exploit the audience or to appeal to prurient interests or morbid curiosity.

#### Responsibility Toward Children

1. The education of children involves giving them a sense of the world at large. It is not enough that only those programs which are intended for viewing by children shall be suitable to the young and immature. In addition, those programs which might be reasonably expected to hold the attention of children and which are broadcast during times of the day when children may be normally expected to constitute a substantial part of the audience should be presented with due regard for their effect on children.

2. Such subjects as violence and sex shall be presented without undue emphasis and only as required by plot development or character delineation. Crime should not be presented as attractive or as a solution to human problems, and the inevitable retribution should be made clear.

3. The broadcaster should afford opportunities for cultural growth as well as for wholesome entertainment.

4. He should develop programs to foster and promote the commonly accepted moral, social and ethical ideals characteristic of American life.

5. Programs should reflect respect for parents, for honorable behavior, and for the constituted authorities of the American community.

6. Exceptional care should be exercised with reference to kidnapping or threats of kidnapping of children in order to avoid terrorizing them.

7. Material which is excessively violent or would create morbid suspense, or other undesirable reactions in children, should be avoided.

8. Particular restraint and care in crime or mystery episodes involving children or minors, should be exercised.

#### Community Responsibility

1. A television broadcaster and his staff occupy a position of responsibility in the community and should conscientiously endeavor to be acquainted fully with its needs and characteristics in order better to serve the welfare of its citizens.

2. Requests for time for the placement of public service announcements or programs should be carefully reviewed with respect to the character and reputation of the group, campaign or organization involved, the public interest content of the message, and the manner of its presentation.

#### General Program Standards

1. Program materials should enlarge the horizons of the viewer, provide him with wholesome entertainment, afford helpful stimulation, and remind him of the responsibilities which the citizen has towards his society. The intimacy and confidence placed in Television demand of the broadcaster, the network and other program sources that they be vigilant in protecting the audience from deceptive program practices.

2. Profanity, obscenity, smut and vulgarity are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

3. Words (especially slang) derivative of any race, color, creed, nationality or national derivation, except wherein such usage would be for the specific purpose of effective dramatization such as combating prejudice, are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

4. Racial or nationality types shall not be shown on television in such a manner as to ridicule the race or nationality.

5. Attacks on religion and religious faiths are not allowed. Reverence is to mark any mention of the name of God, His attributes and powers. When religious rites are included in other than religious programs the rites shall be accurately presented. The office of minister, priest or rabbi shall not be presented in such a manner as to ridicule or impair its dignity.

6. Respect is maintained for the sanctity of marriage and the value of the home. Divorce is not treated casually as a solution for marital problems.

7. In reference to physical or mental afflictions and deformities, special precautions must be taken to avoid ridiculing sufferers from similar ailments and offending them or members of their families.

8. Excessive or unfair exploitation of others or of their physical or mental afflictions shall not be presented as praiseworthy. The presentation of cruelty, greed and selfishness as worthy motivations is to be avoided.

9. Law enforcement shall be upheld and, except where essential to the program plot, officers of the law portrayed with respect and dignity.

10. Legal, medical and other professional advice, diagnosis and treatment will be permitted only in conformity with law and recognized ethical and professional standards.

11. The use of animals both in the production of television programs and as part of television program content, shall at all times, be in conformity with accepted standards of humane treatment.

12. Criminality shall be presented as undesirable and unsympathetic. The condoning of crime and the treatment of the commission of crime in a frivolous, cynical or callous manner is unacceptable. The presentation of techniques of crime in such detail as to invite imitation shall be avoided.

13. The presentation of murder or revenge as a motive for murder shall not be presented as justifiable.

14. Suicide as an acceptable solution for human problems is prohibited.

15. Illicit sex relations are not treated as commendable. Sex crimes and abnormalities are generally unacceptable as program material. The use of locations closely associated with sexual life or with sexual sin must be governed by good taste and delicacy.

16. Drunkenness should never be presented as desirable or prevalent. The use of liquor in program content shall be de-emphasized. The consumption of liquor in American life, when not required by the plot or for proper characterization, shall not be shown.

17. Narcotic addiction shall not be presented except as a vicious habit. The administration of illegal drugs will not be displayed.

18. The use of gambling devices or scenes necessary to the development of plot or as appropriate background is acceptable only when presented with discretion and in moderation, and in a manner which would not excite interest in, or foster, betting nor be instructional in nature.

19. Telecasts of actual sport programs at which on-the-scene betting is permitted by law should be presented in a manner in keeping with Federal, state and local laws, and should concentrate on the subject as a public sporting event.

20. Exhibitions of fortune-telling, occultism, astrology, phrenology, palm-reading and numerology are acceptable only when required by plot or the theme of a program, and then the presentation should be developed in a manner designed not to foster superstition or excite interest or belief in these subjects.

21. Quiz and similar programs that are presented as contests of knowledge, information, skill or luck must, in fact, be genuine contests and the results must not be controlled by collusion with or between contestants, or any other action which will favor one contestant against any other.

22. No program shall be presented in a manner which through artifice or simulation would mislead the audience as to any material fact. Each broadcaster must exercise reasonable judgment to determine whether a particular method of presentation would constitute a material deception, or would be accepted by the audience as normal theatrical illusion.

23. The appearances or dramatization of persons featured in actual crime news will be permitted only in such light as to aid law enforcement or to report the news event.

24. The use of horror for its own sake will be eliminated; the use of visual or aural effects which would shock or alarm the viewer, and the detailed presentation of brutality or physical agony by sight or by sound are not permissible.

25. Contests may not constitute a lottery.

26. Any telecasting designed to "buy" the television audience by requiring it to listen and/or view in hope of reward rather than for the quality of the program, should be avoided.

27. The costuming of all performers shall be within the bounds of propriety and shall avoid such exposure or such emphasis on anatomical detail as would embarrass or offend home viewers.

28. The movements of dancers, actors, or other performers shall be kept within the bounds of decency, and lewdness and impropriety shall not be suggested in the positions assumed by performers.

29. Camera angles shall avoid such views of performers as to emphasize anatomical details indecently.

30. The use of the television medium to transmit information of any kind by the use of the process called "subliminal perception," or by the use of any similar technique whereby an attempt is made to convey information to the viewer by transmitting messages below the threshold of normal awareness, is not permitted.

31. The broadcaster shall be constantly alert to prevent activities that may lead to such practices as the use of scenic properties, the choice and identification of prizes, the selection of music and other creative program elements and inclusion of any identification of commercial products or services, their trade names or advertising slogans, within a program dictated by factors other than the requirements of the program itself. The acceptance of cash payments or other considerations in return for including any of the above within the program is prohibited except in accordance with Sections 317 and 508 of the Communications Act.

32. A television broadcaster should not present fictional events or other non-news material as authentic news telecasts or announcements, nor should he permit dramatizations in any program which would give the false impression that the dramatized material constitutes news. Expletives (presented aurally or pictorially) such as "flash" or "bulletin" and statements such as "we interrupt this program to bring you . . ." should be reserved specifically for news room use. However, a television broadcaster may properly exercise discretion in the use in non-news programs of words or phrases which do not necessarily imply that the material following is a news release.

#### Treatment of News and Public Events

##### News

1. A television station's news schedule should be adequate and well-balanced.

2. News reporting should be factual, fair and without bias.

3. A television broadcaster should exercise particular discrimination in the acceptance, placement and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.

4. At all times, pictorial and verbal material for both news and comment should conform to other sections of these standards, wherever such sections are reasonably applicable.

5. Good taste should prevail in the selection and handling of news:

Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided.

News should be telecast in such a manner as to avoid panic and unnecessary alarm.

6. Commentary and analysis should be clearly identified as such.

7. Pictorial material should be chosen with care and not presented in a misleading manner.

8. All news interview programs should be governed by accepted standards of ethical journalism, under which the interviewer selects the questions to be asked. Where there is advance agreement materially restricting an important or newsworthy area of questioning, the interviewer will state on the program that such limitation has been agreed upon. Such disclosure should be made if the person being interviewed requires that questions be submitted in advance or if he participates in editing a recording of the interview prior to its use on the air.

9. A television broadcaster should exercise due care in his supervision of content, format, and presentation of newscasts originated by his station, and in his selection of newscasters, commentators, and analysts.

#### PUBLIC EVENTS

1. A television broadcaster has an affirmative responsibility at all times to be informed of public events, and to provide coverage consonant with the ends of an informed and enlightened citizenry.

2. The treatment of such events by a television broadcaster should provide adequate and informed coverage.

#### Controversial Public Issues

1. Television provides a valuable forum for the expression of responsible views on public issues of a controversial nature. The television broadcaster should seek out and develop with accountable individuals, groups and organizations, programs relating to controversial public issues of import to his fellow citizens; and to give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. Requests by individuals, groups or organizations for time to discuss their views on controversial public issues, should be considered on the basis of their individual merits, and in the light of the contribution which the use requested would make to the public interest, and to a well-balanced program structure.

3. Programs devoted to the discussion of controversial public issues should be identified as such. They should not be presented in a manner which would mislead listeners or viewers to believe that the program is purely of an entertainment, news, or other character.

#### Political Telecasts

1. Political telecasts should be clearly identified as such. They should not be presented by a television broadcaster in a manner which would mislead listeners or viewers to believe that the program is of any other character.

(Ref.: Communications Act of 1934, as amended, Secs. 315 and 317, and FCC Rules and Regulations, Secs. 3.654, 3.657, 3.663, as discussed in NAB's "A Political Catechism.")

#### Religious Programs

1. It is the responsibility of a television broadcaster to make available to the community appropriate opportunity for religious presentations.

2. Telecasting which reaches men of all creeds simultaneously should avoid attacks upon religion.

3. Religious programs should be presented respectfully and accurately and without prejudice or ridicule.

4. Religious programs should be presented by responsible individuals, groups and organizations.

5. Religious programs should place emphasis on broad religious truths, excluding the presentation of controversial or partisan views not directly or necessarily related to religion or morality.

6. In the allocation of time for telecasts of religious programs the television station should use its best efforts to apportion such time fairly among the representative faith groups of its community.

#### General Advertising Standards

1. This Code establishes basic standards for all television broadcasting. The principles of acceptability and good taste within the Program Standards section govern the presentation of advertising where applicable. In addition, the Code establishes in this section special standards which apply to television advertising.

2. A commercial television broadcaster makes his facilities available for the advertising of products and services and accepts commercial presentations for such advertising. However, a television broadcaster should, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements.

3. Identification of sponsorship must be made in all sponsored programs in accordance with the requirements of the Communications Act of 1934, as amended, and the Rules and Regulations of the Federal Communications Commission.

4. In consideration of the customs and attitudes of the communities served, each television broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. These standards should be applied with judgment and flexibility, taking into consideration the characteristics of the medium, its home and family audience, and the form and content of the particular presentation.

5. The advertising of hard liquor (distilled spirits) is not acceptable.

6. The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable only subject to Federal and local laws.

7. Advertising by institutions or enterprises which in their offers of instruction imply promises of employment or make exaggerated claims for the opportunities awaiting those who enroll for courses is generally unacceptable.

8. The advertising of firearms and fireworks is acceptable only subject to Federal and local laws.

9. The advertising of fortune-telling, occultism, astrology, phrenology, palm-reading, numerology, mind-reading, character reading or subjects of a like nature is not permitted.

10. Because all products of a personal nature create special problems, such products, when accepted, should be treated with especial emphasis on ethics and the canons of good taste. Such advertising of personal products as is accepted must be presented in a restrained and obviously inoffensive manner. The advertising of particularly intimate products which ordinarily are not freely mentioned or discussed is not acceptable. (See *Television Code Interpretation No. 4*)

11. The advertising of tip sheets, race track publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is unacceptable.

12. An advertiser who markets more than one product should not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

13. "Bait-switch" advertising, whereby goods or services which the advertiser has no intention of selling are offered merely to lure the customer into

purchasing higher-priced substitutes, is not acceptable.

#### Presentation of Advertising

1. Advertising messages should be presented with courtesy and good taste; disturbing or annoying material should be avoided; every effort should be made to keep the advertising message in harmony with the content and general tone of the program in which it appears.

2. The role and capability of television to market sponsors' products are well recognized. In turn, this fact dictates that great care be exercised by the broadcaster to prevent the presentation of false, misleading or deceptive advertising. While it is entirely appropriate to present a product in a favorable light and atmosphere, the presentation must not, by copy or demonstration, involve a material deception as to the characteristics, performance or appearance of the product.

3. The broadcaster and the advertiser should exercise special caution with the content and presentation of television commercials placed in or near programs designed for children. Exploitation of children should be avoided. Commercials directed to children should in no way mislead as to the product's performance and usefulness. Appeals involving matters of health which should be determined by physicians should not be directed primarily to children.

4. Appeals to help fictitious characters in television programs by purchasing the advertiser's product or service or sending for a premium should not be permitted, and such fictitious characters should not be introduced into the advertising message for such purposes.

5. Dramatized advertising involving statements or purported statements by physicians, dentists, or nurses must be presented by accredited members of such professions. (See *Television Code Interpretation, No. 5*.)

6. Advertising copy should contain no claims dealing unfairly with competitors, competing products, or other industries, professions or institutions.

7. A sponsor's advertising messages should be confined within the framework of the sponsor's program structure. A television broadcaster should avoid the use of commercial announcements which are divorced from the program either by preceding the introduction of the program (as in the case of so-called "cow-catcher" announcements) or by following the apparent sign-off of the program (as in the case of so-called trailer or "hitch-hike" announcements). To this end, the program itself should be announced and clearly identified, both audio and video, before the sponsor's advertising material is first used, and should be signed off, both audio and video, after the sponsor's advertising material is last used.

8. Since advertising by television is a dynamic technique, a television broadcaster should keep under surveillance new advertising devices so that the spirit and purpose of these standards are fulfilled.

9. A charge for television time to churches and religious bodies is not recommended.

#### Advertising of Medical Products

1. The advertising of medical products presents considerations of intimate and far-reaching importance to the consumer because of the direct bearing on his health.

2. Because of the personal nature of the advertising of medical products, claims that a product will effect a cure and the indiscriminate use of such words as "safe", "without risk", "harmless", or terms of similar meaning should not be accepted in the advertising of medical products on television stations.

3. A television broadcaster should not accept advertising material which in his opinion offensively describes or dramatizes distress or morbid situations involving ailments, by spoken word, sound or visual effects.

#### Contests

1. Contests shall be conducted with fairness to all entrants, and shall comply with all pertinent laws and regulations. Care should be taken to avoid the concurrent use of the three elements which together constitute a lottery—prize, chance and consideration.

2. All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced and/or shown, or easily accessible to the viewing public, and the winners' names should be released and prizes awarded as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of products, reasonable facsimiles thereof should be made acceptable unless the award is based upon skill and not upon chance.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided. (See *Time Standards for Advertising Copy*.)

#### Premiums and Offers

1. Full details of proposed offers should be required by the television broadcaster for investigation and approved before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. Before accepting for telecast offers involving a monetary consideration, a television broadcaster should satisfy himself as to the integrity of the advertiser and the advertiser's willingness to honor complaints indicating dissatisfaction with the premium by returning the monetary consideration.

4. There should be no misleading descriptions or visual representations of any premiums or gifts which would distort or enlarge their value in the minds of the viewers.

5. Assurances should be obtained from the advertiser that premiums offered are not harmful to person or property.

6. Premiums should not be approved which appeal to superstition on the basis of "luck-bearing" powers or otherwise.

#### Time Standards for Advertising

In accordance with good telecast advertising practice, the time standards for commercial material are as follows:

##### 1. Prime Time

Definition: A continuous period of not less than three hours of each broadcast day within the station's highest rate time periods. Commercial material for both individually sponsored and participation programs within any 30-minute period of prime time may not exceed 4 minutes plus total station break time in the aggregate of 70 seconds. Commercial material in prime time includes billboards, public service announcements, promotional announcements for other programs as well as commercial copy.

##### 2. Non-Prime Time

Definition: All time other than prime time. Commercial material for both individually sponsored and participation programs within any 30-minute time period in non-prime time may not exceed 6 minutes plus station break time. Commercial material for all other periods of time shall not exceed this ratio, except that individual programs of 5-minute duration may include commercial material not in excess of 1 minute 15 seconds and individual programs of 10-minute duration may include commercial material not in excess of 2 minutes 10 seconds. Not more than three announcements shall be scheduled consecutively. Commercial material in non-prime time does not include public service announcements, promotional announcements for other programs, and opening and closing "billboards" which give program or sponsor identification.

##### 3. Station Breaks

In prime time, a station break shall consist of not more than two announcements plus non-commercial copy such as station identification or public service announcements. Total station break time in any 30-minute period may not exceed one minute and ten seconds. In other than prime time station breaks shall consist of not more than two announcements plus the conventional sponsored 10-second ID. Station break announcements shall not adversely affect a preceding or following program.

##### 4. Prize Identification

Reasonable and limited identification of prize and

statement of the donor's name within formats where in the presentation of contest awards or prizes is a necessary and integral part of program content shall not be included as commercial time within the meaning of paragraphs 1 and 2, above; however, any aural or visual presentation concerning the product or its donor, over and beyond such identification and statement, shall be included as commercial time within the meaning of paragraph 1, above. (See *Television Code Interpretation No. 6*.)

5. Care should be exercised in the selection, placement and integration of non-program material in order to avoid adversely affecting the program content or diminishing audience interest.

6. Programs presenting women's services, features, shopping guides, market information, and similar material, provide a special service to the listening and viewing public in which advertising material is an informative and integral part of the program content. Because of these special characteristics the time standards set forth above may be waived to a reasonable extent.

7. Any casual reference by talent in a program to another's product or service under any trade name or language sufficiently descriptive to identify it should, except for normal guest identifications, be condemned and discouraged.

8. Stationary backdrops or properties in television presentations showing the sponsor's name or product, the name of his product, his trade-mark or slogan may be used only incidentally. They should not intrude on program interest or entertainment. "On Camera" shots of such materials should be fleeting, not too frequent, and mindful of the need of maintaining a proper program balance.

9. Each opening and closing "billboard" regardless of the number of sponsors shall not exceed 20 seconds in programs longer than one half-hour or 10 seconds in programs of one half-hour or less.

## REGULATIONS AND PROCEDURES

The following regulations and procedures shall obtain as an integral part of the Television Code of the National Association of Broadcasters:

### I

#### Name

The name of this Code shall be The Television Code of the National Association of Broadcasters.\*

### II

#### Purpose of the Code

The purpose of this Code is cooperatively to maintain a level of television programming which gives full consideration to the educational, informational, cultural economic, moral and entertainment needs of the American public to the end that more and more people will be better served.

\* "Television Board. The Television Board is hereby authorized:—(4) to enact, amend and promulgate standards of practice or codes for its Television members, and to establish such methods to secure observance thereof as it may deem advisable:—"  
By-Laws of the National Association of Broadcasters. Article VI, section 8.C. (4).

### III

#### Subscribers

##### Section 1. ELIGIBILITY

Any individual, firm or corporation which is engaged in the operation of a television broadcast station or network, or which holds a construction permit for a television broadcast station within the United States or its dependencies, shall, subject to the approval of the Television Board of Directors as hereinafter provided, be eligible to subscribe to the Television Code of the NAB to the extent of one subscription for each such station and/or network which it operates or for which it holds a construction permit; provided, that a non television member of NAB shall not become eligible via code subscription to receive any of the member services or to exercise any of the voting privileges of a member.

##### Section 2. CERTIFICATION OF SUBSCRIPTION

Upon subscribing to the Code, subject to the approval of the Television Board of Directors,

there shall be granted forthwith to each such subscribing station authority to use the "NAB Television Seal of Good Practice," a copyrighted and registered seal to be provided in the form of a certificate, a slide and/or a film, signifying that the recipient thereof is a subscriber in good standing to the Television Code of the NAB. The seal and its significance shall be appropriately publicized by the NAB.

### Section 3. DURATION OF SUBSCRIPTION

Subscription shall continue in full force and effect until thirty days after the first of the month following receipt of notice of written resignation. Subscription to the Code shall be effective from the date of application subject to the approval of the Television Board of Directors; provided, that the subscription of a television station going on the air for the first time shall, for the first six months of such subscription, be probationary, during which time its subscription can be summarily revoked by an affirmative two-thirds vote of the Television Board of Directors without the usual processes specified below.

### Section 4. SUSPENSION OF SUBSCRIPTION

Any subscription, and/or the authority to utilize and show the above-noted seal, may be voided, revoked or temporarily suspended for television programming, including commercial copy, which, by theme, treatment or incident, in the judgment of the Television Board constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by an affirmative two-thirds vote of the Television Board of Directors at a regular or special meeting; provided, however, that the following conditions and procedures shall apply:

#### A. Preferring of Charges—Conditions Precedent:

Prior to the preferring of charges to the Television Board of Directors concerning violation of the Code by a subscriber, the Television Code Review Board (hereinafter provided for) (1) Shall have appropriately, and in good time, informed and advised such subscriber of any and all complaints and information coming to the attention of the Television Code Review Board and relating to the programming of said subscriber, (2) Shall have reported to, and advised, said subscriber by analysis, interpretation, recommendation or otherwise, of the possibility of a violation or breach of the Television Code by the subscriber, and (3) Shall have served upon the subscriber by Registered Mail a Notice of Intent to prefer charges, at least twenty days prior to the filing of any such charges with the Television Board of Directors. During this period the Television Code Review Board, may within its sole discretion, reconsider its proposed action based upon such written reply as the subscriber may care to make, or upon such action as the subscriber may care to take program-wise, in conformance with the analysis, interpretation, or recommendation of the Television Code Review Board.

#### (i) Notice of Intent

The Notice of Intent shall include a statement of the grounds and reasons for the proposed charges, including appropriate references to the Television Code.

#### (ii) Time

In the event that the nature of the program in question is such that time is of the essence, the Television Code Review Board may prefer charges within less than the twenty days above specified, provided that a time certain in which reply may be made is included in its Notice of Intent, and provided that its reasons therefor must be specified in its statement of charges preferred.

#### B. The Charges:

The subscriber shall be advised in writing by Registered Mail of the charges preferred. The charges preferred by the Television Code Review Board to the Television Board of Directors shall include the grounds and reasons therefor, together

with specific references to the Television Code. The charges shall contain a statement that the conditions precedent, hereinbefore described have been met.

#### C. Hearing:

The subscriber shall have the right to a hearing and may exercise same by filing an answer within 10 days of the date of such notification.

#### D. Waiver:

Failure to request a hearing shall be deemed a waiver of the subscriber's right thereto.

#### E. Designation:

If hearing is requested by the subscriber, it shall be designated as promptly as possible and at such time and place as the Television Board may specify.

#### F. Confidential Status:

Hearings shall be closed; and all correspondence between a subscriber and the Television Code Review Board and/or the Television Board of Directors concerning specific programming shall be confidential; provided, however, that the confidential status of these procedures may be waived by a subscriber.

#### G. Presentation; Representation:

A subscriber against whom charges have been preferred, and who has exercised his right to a hearing, shall be entitled to effect presentation of his case personally, by agent, by attorney, or by deposition and interrogatory.

#### H. Intervention:

Upon request by the subscriber-respondent or the Television Code Review Board, the Television Board of Directors, in its discretion, may permit the intervention of one or more other subscribers as parties-in-interest.

#### I. Transcript:

A stenographic transcript record shall be taken and shall be certified by the Chairman of the Television Board of Directors to the office of the Secretary of the National Association of Broadcasters, where it shall be maintained. The transcript shall not be open to inspection unless otherwise provided by the party respondent in the proceeding.

#### J. Television Code Review Board; Counsel:

The Television Code Review Board may, at its discretion, utilize the services of an attorney from the staff of the NAB for the purpose of effecting its presentation in a hearing matter.

#### K. Order of Procedure:

At hearings, the Television Code Review Board shall open and close.

#### L. Cross-Examination:

The right of cross-examination shall specifically obtain. Where procedure has been by deposition or interrogatory, the use of cross-interrogatories shall satisfy this right.

#### M. Presentation:

Oral and written evidence may be introduced by the subscriber and by the Television Code Review Board. Oral argument may be had at the hearing and written memoranda or briefs may be submitted by the subscriber and by the Television Code Review Board. The Television Board of Directors may admit such evidence as it deems relevant, material and competent, and may determine the nature and length of the oral argument and the written argument or briefs.

#### N. Authority of Presiding Officer; of Television Board of Directors:

The Presiding Officer shall rule upon all interlocutory matters, such as, but not limited to, the admissibility of evidence, the qualifications of witnesses, etc. On all other matters, authority to act shall be vested in a majority of the Television Board unless otherwise provided.

*O. Films, Transcriptions, etc.:*

Films, kinescopes, records, transcriptions, or other mechanical reproductions of television programs, properly identified, shall be accepted into evidence when relevant.

*P. Continuances and Extensions:*

Continuance and extension of any proceeding or for the time of filing or performing any act required or allowed to be done within a specific time may be granted upon request, for a good cause shown. The Board or the Presiding Officer may recess or adjourn a hearing for such time as may be deemed necessary, and may change the place thereof.

*Q. Findings and Conclusions:*

The Television Board of Directors shall decide the case as expeditiously as possible and shall notify the subscriber and the Television Code Review Board, in writing, of the decision. The decision of the Television Board of Directors shall contain findings of fact with conclusions, as well as the reasons or bases therefor. Findings of fact shall set out in detail and with particularity all basic evidentiary facts developed on the record (with appropriate citations to the transcript of record or exhibit relied on for each evidentiary fact) supporting the conclusion reached.

*R. Reconsideration or Rehearing:*

A request for reconsideration or rehearing may be filed by parties to the hearing. Requests for reconsideration or rehearing shall state with particularity in what respect the decision or any matter determined therein is claimed to be unjust, unwarranted, or erroneous, and with respect to any finding of fact shall specify the pages of record relied on. If the existence of any newly-discovered evidence is claimed, the request shall be accompanied by a verified statement of the facts together with the facts relied on to show that the party, with due diligence, could not have known or discovered such facts at the time of the hearing. The request for rehearing may seek:

- a. Reconsideration
- b. Additional oral argument
- c. Reopening of the proceedings
- d. Amendment of any findings, or
- e. Other relief.

*S. Time for Filing:*

Requests for reconsideration or rehearing shall be filed within ten (10) days after receipt by the respondent of the decision. Opposition thereto may be filed within five (5) days after the filing of the request.

*T. Penalty, Suspension of:*

At the discretion of the Television Board, application of any penalty provided for in the decision may be suspended until the Board makes final disposition of the request for reconsideration or rehearing.

*U. Disqualification:*

Any member of the Television Board may disqualify himself, or upon good cause shown by any interested party, may be disqualified by a majority vote of the Television Board.

**Section 5. ADDITIONAL PROCEDURES**

When necessary to the proper administration of the Code, additional rules of procedure will be established from time to time as authorized by the By-Laws of the NAB; in keeping therewith, special consideration shall be given to the procedures for receipt and processing of complaints and to necessary rules to be adopted from time to time, taking into account the source and nature of such complaints; such rules to include precautionary measures such as the posting of bonds to cover costs and expenses of processing same; and further provided that special consideration will be given to procedures insuring the confidential status of proceedings relating to Code observance.

**Section 6. AMENDMENT AND REVIEW**

Because of the new and dynamic aspects inherent in television broadcast, the Television Code, as a living, flexible and continuing document, may be amended from time to time by the Television Board of Directors; provided that said Board is specifically charged with review and reconsideration of the entire Code, its appendices and procedures, at least once each year.

**Section 7. TERMINATION OF CONTRACTS**

All subscribers on the air at the time of subscription to the Code shall be permitted that period prior to and including the earliest legal cancellation date to terminate any contracts, then outstanding, calling for program presentations which would not be in conformity with the Television Code, provided, however, that in no event shall such period be longer than fifty-two weeks.

**IV**

**Affiliate Subscribers**

**Section 1. ELIGIBILITY**

Any individual, firm or corporation, which is engaged in the production or distribution, lease, or sale of recorded programs for television presentation, subject to the approval of the Television Code Review Board as hereinafter provided, shall be eligible to become an affiliate subscriber to the Television Code of the NAB.

**Section 2. CERTIFICATION OF SUBSCRIPTION**

Upon becoming an affiliate subscriber to the Code, subject to the approval of the Television Code Review Board, there shall be granted forthwith to each such affiliate subscriber authority to use a copyrighted and registered seal and declaration, in a manner approved by the Television Code Review Board, identifying the individual firm or corporation as an affiliate subscriber to the Television Code of the NAB. Such authority shall not constitute formal clearance or approval by the Television Code Review Board of specific film programs or other recorded material.

**Section 3. DURATION OF AFFILIATE SUBSCRIPTION**

The affiliate subscription shall continue in full force and effect until thirty days after the first of the month following receipt of a written notice of resignation. The affiliate subscription to the Code shall be effective from the date of application subject to the approval of the Television Code Review Board.

**Section 4. SUSPENSION OF AFFILIATE SUBSCRIPTION**

Any affiliate subscription and the authority to utilize and show the above-noted seal may be voided, revoked, or temporarily suspended for the sale or distribution for television presentation of any film or other recorded material which by theme, treatment, or incident, in the judgment of the Television Code Review Board, constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by a vote of three members of the Television Code Review Board at any regular or special meeting. The conditions and procedures applicable to subscribers shall not apply to affiliate subscribers.

**Section 5. REPRESENTATION OF AFFILIATE SUBSCRIBERS**

Any affiliate subscriber or group of affiliate subscribers may authorize an individual or association to act for them in connection with their relations with the Television Code Review Board by filing a written notice of such representation with the Board. Such representation, however, in no way will limit the right of the Television Code Review Board to suspend individual affiliate subscribers in accordance with the provisions of Section 4.

**V**

**Rates**

Each subscriber and affiliate subscriber shall pay 'administrative' rates in accordance with such

schedule, at such time, and under such conditions as may be determined from time to time by the Television Board (see Article VI, section 8, C. Television Board (3) and (4), By-Laws of the NAB); provided, that appropriate credit shall be afforded to a television member of the NAB against the regular dues which he or it pays to NAB.

(a) the products or services are related in character or purpose, or  
(b) if the products or services offered are those of the same sponsor.

(2) *The Piggy-Back Announcement* is one advertising two or more products or services, WHICH IS SO EXECUTED IN AUDIO AND VIDEO PRESENTATION THAT IT ACTUALLY IS properly, a subscriber to the Television Code of complaints or commendations, as well as to advise all subscribers concerning the attitudes and desires

The Code Authority Director shall appoint such executive staff as is needed, consistent with resources, to carry out the above described functions, and may delegate to this staff such responsibilities as he may deem necessary.

### INTERPRETATIONS OF THE TELEVISION CODE

be counted as two or more announcements under breaches of the Television Code by a subscriber; Code Review Board concerning violations and recommendations or prefer charges to the Television Code.

(8) to recommend to the Code Review Board amend the commercial limitations of the Code.

subscriber; (7) to reach conclusions and make

*A. Delegation of Powers and Responsibilities:*

MENTS. Such a piggy-back announcement will with regard to any certain program presented by a TWO OR MORE SEPARATE ANNOUNCE-

stitutions, and of the American public in general; (6) to review and monitor, if necessary, any certain to request recorded material, or script and copy, program presentations of a subscriber, as well as series of programs, daily programming, or any other

As We Are program-wise of accountable organizations and in-

#### Interpretation No. 1

June 7, 1956, Revised March 3, 1960, March 15, 1962

Integrated and Piggy-Back Announcements

There are two types of announcements advertising multiple products or services:

(1) The Integrated Announcement and

(2) The Piggy-Back Announcement.

The basic difference between the two is the audio and video treatment.

(1) *The Integrated Announcement* is one advertising two or more products or services, WHICH IS SO EXECUTED IN AUDIO AND VIDEO PRESENTATION THAT IT ACTUALLY IS A SINGLE ANNOUNCEMENT. Such an announcement will be counted as a single announcement under the commercial limitations of the Code, provided that:

and institutions; (5) to inform, expeditiously and

#### Interpretation No. 2

June 7, 1956, Revised June 9, 1958

"Pitch" Programs

The "pitchman" technique of advertising on television is inconsistent with good broadcast practice and generally damages the reputation of the industry and the advertising profession.

Sponsored program-length segments consisting substantially of continuous demonstrations or sales presentation, violate not only the time standards established in the Code but the broad philosophy of improvement implicit in the voluntary Code operation and are not acceptable.

#### Interpretation No. 3

June 7, 1956

Hollywood Film Promotion

The presentation of commentary or film excerpts from current theatrical releases in some instances may constitute commercial material under the Time Standards for Advertising. Specifically, for example, when such presentation, directly or by inference, urges viewers to attend, it shall be counted

against the commercial allowance for the program of which it is a part.

### Interpretation No. 4

June 7, 1956

Non-Acceptability of Particularly Intimate Products

VI\*

### The Television Code Review Board

#### Section 1. COMPOSITION

There shall be a continuing committee entitled the Television Code Review Board to be composed of not more than nine members, all of whom shall be from subscribers to the Television Code. They shall be appointed by the President of the NAB, subject to confirmation by the Television Board, and may include one member from each of the subscribing nationwide television networks. Members of the Television Board shall not be eligible to serve on the Review Board. Due consideration shall be given, in making the appointments, to factors of diversification of geographical location, market size, company representation and network affiliation.

No person shall continue as a member of the Television Code Review Board if the station or entity he represents ceases to subscribe to the Television Code. In such case a vacancy occurs in the office immediately, and a successor may be appointed to serve out the unexpired term.

All terms shall be for two years, commencing at the close of the annual meeting of the membership following appointment.

#### A. Limitation of Service:

No person shall serve for more than two terms of two years each, consecutively, as a member of the Television Code Review Board; provided, however, this limitation shall not apply to network representatives.

Serving out the unexpired term of a former member shall not constitute a term within the meaning of this section.

#### B. Meetings:

The Television Code Review Board shall meet at least twice in each calendar year on a date to be determined by the Chairman. The Chairman, or the Code Authority Director, may, at any time, on at least five days written notice, call a special meeting of the Board.

#### C. Quorum:

For all purposes, a majority of the members of the Television Code Review Board shall constitute a quorum.

### Section 2. AUTHORITY AND RESPONSIBILITIES

The Television Code Review Board is authorized and directed:

(1) To recommend to the Television Board of Directors amendments to the Television Code; (2) to consider, in its discretion, any appeal from any decision made by the Code Authority Director with respect to any matter which has arisen under the Code, and to suspend, reverse, or modify any such decision; (3) to prefer formal charges, looking toward the suspension or revocation of the authority to show the Code Seal, to the Television Board of Directors concerning violations and breaches of the Television Code by a subscriber; (4) to be available to the Code Authority Director for consultation on any and all matters affecting the Television Code.

VII\*

### Code Authority Director

#### Section 1. DIRECTOR

There shall be a position designated as the Code Authority Director. This position shall be filled by appointment of the President of NAB, subject to the approval of the Board of Directors.

#### Section 2. AUTHORITY AND RESPONSIBILITIES

The Code Authority Director is authorized and directed: (1) To maintain a continuing review of all programming and advertising material presented over television, especially that of subscribers to the Television Code of NAB; (2) to receive, screen and clear complaints concerning television programming; (3) to define and interpret words and phrases

in the Television Code; (4) to develop and maintain appropriate liaison with governmental agencies and with responsible and accountable organizations

\*As amended by the NAB Television Board of Directors, February 2, 1962.

Paragraph 10 of the Advertising Standards reads in part, "The advertising of particularly intimate products which ordinarily are not freely mentioned or discussed is not acceptable."

Products for the treatment of hemorrhoids and for use in connection with feminine hygiene are not acceptable under the above stated language.

#### Interpretation No. 5

July 17, 1958, October 2, 1958  
Dramatized Advertising (Presentation of Advertising, Paragraph 5)

1. The term "statement" shall include the portrayal in any manner of a physician, dentist or nurse. Thus, the simulation of such professional people may not be undertaken even by visual means only.

2. There are instances of advertising depicting persons obviously of some professional standing. By the nature of the props and setting, such portrayals *could* be that of medical, dental or nursing profession members, even though direct reference so indicating is not made. Such presentations, unless made by accredited members of these professions, are not acceptable.

3. This restriction does not preclude reference to comprehensive scientific research, studies or surveys,

providing, however, that such claims can be fully supported.

4. The term "accredited" defined. In this context the use of the word "accredited" is synonymous with "having legal sanction." Thus, an "accredited" member of the medical profession is one who has completed the required education in a recognized institution of learning, who has passed all necessary state examinations, and who has been granted leave by his resident state to practice a particular branch of medicine.

#### Interpretation No. 6

January 23, 1959  
Prize Identification

Aural and/or visual prize identification of up to ten seconds duration may be deemed "reasonable and limited" under the language of Paragraph 4 of the Time Standards for Advertising. Where such identification is longer than ten seconds, the entire announcement or visual presentation will be charged against the total commercial time for the program period.

#### Interpretation No. 7

October 4, 1960  
Non-Acceptability of "Hard" Liquor (General Advertising Standards, Paragraph 5)

This restraint applies to the advertising of products and/or services in themselves not hard liquors, but which in their presentation, induce the use of hard liquor.

## TELEVISION

# THE GAMUT

A basic fact of television is its continuing need for product—as programming for networks and stations and as commercials for advertisers using this most effective of all media. *MGM Television* covers the gamut—the full range of programming—from network series, to features, to syndication, and now, the leading videotape operations of *MGM Telestudios*. In all of television you get the picture of quality from...
