QUIGLEY PUBLICATIONS □ NEW YORK

Foreword

Television continues to make steady progress in serving the entertainment needs of the public in the U.S.A. and most countries throughout the world, while at the same time it demonstrates remarkable effectiveness as an advertising medium. This happy state of affairs goes on year after year notwithstanding any criticisms leveled at either program or commercial standards. Millions of viewers and all kinds of advertisers are satisfied, which proves that a good job is done by tens of thousands who work in television. For 11 years the International Television Almanac has been serving the reference needs of all those interested in the personalities and companies laboring in the field of television. In such a rapidly changing and expanding industry tens of thousands of additions and corrections are made for each edition. With its companion volume, the International Motion Picture Almanac, the Television Almanac answers the Who, What and Where of screen entertainment for theatres and homes.

Proteus and All That

As every (Athenian) schoolboy knows, Proteus was the mythological chap who, in order to avoid the task of prophecy, assumed a variety of forms.

Like Proteus, the NBC TELEVISION NETWORK is known for its diversity, but we do make predictions on occasion.

We confidently predict that NBC will continue to lead the broadcasting field in diversified, quality programming. We further predict NBC will continue to dominate the increasingly important world of *color* broadcasting.

A glance at some of NBC's recent offerings reveals how safe these predictions really are:

Widely hailed specials like "THE LOUVRE" and "VIETNAM: IT'S A MAD WAR"; entertainment standouts like "BONANZA" and "WALT DISNEY"; news coverage unmatched by any other network; the World Series, and football's most important Bowl games; plus a first-rank assortment of musical, religious, educational and children's shows.

This, we submit, is a high-protean diet. And in the months ahead, television audiences will enjoy more of the same (meaning more of the *different*) on NBC.

NBC TELEVISION 

Look to NBC for the best combination of entertainment, news and sports.

Advertisers

NETWORK AND SPOT TV ADVERTISING—ESTIMATED EXPENDITURES BY PRODUCT CLASSIFICATION

Food & Grocery Products, television's biggest class of advertisers grew larger in 1964. Other top spending product classes in 1964 were: Cosmetics & Toiletries, Drug Products, Tobacco Products & Supplies, Automotive, Confections & Soft Drinks and Household Laundry Products. In the majority of these major product groupings there were particular areas of growth, such as home permanents & hair coloring, soft drinks, weight aids and fruits, vegetables & juices. Network expenditures are Net Time & Program Costs, compiled by Lending National Advertisers/Broadcast Advertisers Reports. Spot expenditures are estimated gross time costs from N.C. Rorabaugh Co. This report is from the Television Bureau of Advertising.

	Jan.-Dec. 1964	Jan.-June 1963	Jan.-June 1962

TELEVISION USAGE

During An Average Minute by Day Parts
1962-1964

The number of homes using television during an average minute in 1964 showed increases over 1963 in all three day parts. The morning segment recorder an increase of a half million homes. The afternoon and evening portions showed increases of 1.2 million and 1.1 million homes respectively. The average minute audience for the total day increased one million homes. The percent of total TV homes viewing during the average-minute also recorded increases in each of the three day parts, with the afternoon segment showing the largest increase, up almost two percentage points.

	1964		1963		1962	
	% TV Homes	Homes (000)	% TV Homes	Homes (000)	% TV Homes	Homes (000)
Morning (7 A.M.-12 N)	13.5	6,984	12.7	6,440	12.3	6,046

AVERAGE HOURS OF TV USAGE
per TV Home—per Day
1960-1964

Average daily television usage in four of the five Nielsen territories recorded all-time highs in 1964 and all five showed increases in 1964 over 1963. The four new records were set in the North East (5:49), the East Central (5:35), the South (5:17), & the Pacific (5:08). The West Central recorded an 18 minute increase from the 5:05 level of 1963 but did not top the all time high of 5:27 set in 1957.

by Day Parts

1960-1964

Record Audience levels to network programs were reported for the year 1964 in all three day part classifications. The average weekday daytime program showed the largest gain reaching an estimated 3,667,000 homes during 1964 an increase of 431,000 homes over 1963. The average rating advanced from a 6.4 in 1963 to 7.1 in 1964. The average nighttime network program reached 8,421,000 homes during 1964, an increase of a quarter of a million homes over the 1963 figure. The average weekend daytime show added 100,000 homes during 1964 to bring it to the 3,590,000 level.

	Avg. Nighttime Program		Avg. Weekday Daytime Program		Daytime Program Avg. Week-end	
	Homes (000)	Rating	Homes (000)	Rating	Homes (000)	Rating
1964	8,421	16.3	3,667	7.1	3,590	6.9
1963	8,173	16.2	3,236	6.4	3,490	6.9
1962	7,663	15.6	2,897	5.9	3,547	7.2
1961	7,645	16.3	2,820	6.0	3,149	6.7
1960	7,368	16.3	2,776	6.1	3,142	7.0

TELEVISION EXPENDITURES

Network and Spot Gross Time Charges Only

1960-1964

	Expenditures Network	Spot* Expenditures
1964	\$916,520,000	\$1,016,009,000
1963	832,737,000	871,063,000
1962	798,808,000	721,211,000
1961	748,373	617,398,000
1960	682,371,000	603,294,000

*Spot TV figures have been adjusted prior to the Second Quarter of 1960 to compensate for changes in the reporting procedure.

COST PER 1000 COMMERCIAL MINUTES DELIVERED

Network Programs—by Day Parts

1960-1964

The average cost-per-thousand minutes delivered for nighttime network programs during 1964 was \$4.44, a 20 cent decline from the \$4.64 average reported for 1963. Daytime network cost-per-thousand for the last three years has been incomplete and what has been available has not been comparable to prior years.*

	Network Cost per 1000 Evenings	Daytime
1964	\$4.44	*
1963	4.64	*
1962	4.36	*
1961	4.00	1.87
1960	4.04	1.88

ASCAP

The Music of America

The American Society
of Composers, Authors and Publishers
has a membership of more than 10,000
men and women who create and publish
the music of our nation.

Our members are active
in every field of musical literature:
Broadway shows, motion pictures,
television, radio, religious, symphonic
and concert, country and folk music —
all these are included
in the ASCAP repertory.

The music which
ASCAP offers, through its
system of licensing, provides the one essential
vital to the entertainment and pleasure
of the public. In brief — ASCAP music
is the music of America.

Joseph P. and Mildred V. Ernst, owners.

TV Channel Allocations

On April 13, 1952, the Federal Communications Commission announced lifting of the "freeze" on new television station construction which had been in effect since September 30, 1948. In so doing, it also made public the allocation of the new ultra-high frequency channels and some changes in the existing very-high frequency bands. Theoretically, allocation of the ultra-high frequency channels makes possible 2,053 new stations in 1,291 communities. This included 242 exclusive educational outlets and was in addition to the 108 TV stations then on the air. As of June 30, 1962, there were 612 TV stations on the air. Of these 508 were VHF and 104 were UHF. Of the VHF channels, 464 were commercial and 44 were non-commercial. Of the UHF channels, 84 were commercial and 29 non-commercial. Following is the complete list of cities and the channels assigned to each. The population of each community is given in parentheses. The (*) preceding a channel number indicates a frequency reserved for educational use.

DAMAGED FILM HOSPITAL

"THE FILM DOCTORS"
WILL OPERATE ON
8-16-35mm • Color • Black & White
DAMAGED MOTION
PICTURE FILM

OUTSTANDING RESULTS USING RAPIDWELD & RAPIDTREAT

1. All scratches (black lines) were re-
moved from both emulsion and base.
2. All other physical damages—tears,
brittleness, dirt, abrasions were elimi-
nated.
3. Our Safe-Gard Coat was applied to ab-
sorb all future damages—giving the
emulsion permanent protection.

BRITISH YEAR IN REVIEW

by WILLIAM PAY

London, October, 1965

Expansion continues to be the keynote of the British television industry. In all fields—audiences, advertising revenue, programming and overseas sales—there is no sign yet of the peak having been reached. The TV screen, after nearly thirty years of transmissions from the British Broadcasting Corporation (on November 2, 1936, the BBC started the world's first regular television service) and ten years from the Independent Television Authority, remains the main evening attraction in the average British home.

By mid-1965, the number of TV licences throughout Great Britain and Northern Ireland had soared to 13,400,000 providing a potential audience of over 47 million in 15,131,000 homes, the majority of which were equipped to receive both the BBC and ITA networks. The BBC continues to be government-sustained by the now £5 licence fee while the ITA's 14 programme contractors depend on advertising revenue.

Procrastination, however, by the Government over the decision on which of the three rival colour systems the U.K. should adopt has to some extent put a brake on the manufacturing side of the business. Commenting on this situation in his annual report, Lord Renwick, chairman of ATV, the London weekend and Midland weekday programme company, said: "Britain was the world pioneer of television. The first regular transmissions began as far back as 1936. Then they were in black-and-white. In 1965, they are still only in black-and-white but in the United States colour TV is already flourishing. It is nothing less than deplorable that with two perfectly workable colour systems from which to choose, this country should have been allowed to fall so far behind".

At the same time, this Government decision is tied in with the choice of whether or not to continue to restrict colour, when it comes, to 625-line UHF (BBC-2), or to extend it to cover the 405-line system (BBC-1 and ITA). In view of the certainty that 405-line TV will be with us for many years to come, there appears a strong case for putting out any eventual U.K. colour TV also on this system. Furthermore, if colour is restricted to 625-lines it becomes the sole prerogative of the BBC until such time as ITA gets a second channel on 625-lines. Earliest date for the introduction of colour TV is now likely to be late 1967 which means that the bulk of the country may not get it until around 1970.

In the meantime, commercial television also awaits a Government decision on whether or

not it is to be given another channel, ITA-2, to compete with BBC-2 (UHF/625-lines) which has been in service since April 1964. With this double competition at the present time, commercial television is undoubtedly at a disadvantage.

"It was because of the possibility of a fourth channel allocated to ITA that the length of the present programme contracts were limited to three years to expire July 1967. Given ITA-2 it is quite clear that the pattern of both areas and days would need to be changed. Probably we should then find two independent companies each operating over the full week in the areas of denser population," says Lord Hill, chairman of the ITA. "Moreover," he also declares, "there is now no case for restricting commercial television—or the BBC for that matter—to a specified number of hours of broadcasting."

Despite all the prejudices and competition from the two BBC channels, the ITA companies continue to command the lion's share of viewers—63 per cent, compared to the BBC's 37 per cent. These figures relate to nationally networked programmes. In most cases, such programmes—i.e. Granada's "Coronation Street" and Rediffusion's "Riviera Police" (attracting between 7-8 million homes)—are of British origin and dominate the ratings. Consequently, few American programmes, usually shown on a regional basis, break into TAM's Top Twenty.

Nevertheless, American programmes persistently attract top audiences. "The Man from Uncle" on BBC; "The Fugitive," "Bonanza," "The Beverly Hillbillies," "Peyton Place," "Ben Casey," "Burke's Law," "The Lucy Show," "87th Precinct" and "The Reporter" on ITA, are typical examples of the shows currently drawing wherever they are shown.

Indeed, an indication of the popularity of such programmes was Lord Hill's decision during the summer of 1965 to call for a cut in the amount of American material shown at peak hours. He told programme contractors that they must give viewers more variety and break away from the diet of crime, Westerns and American series. Although the contractors were not exceeding their permitted 13 per cent of American material, it was felt that there was an undue bunching of American and crime material between 8 and 9 p.m. Under the Television Act, the ITA has the right to make companies change programmes in order to give a proper balance. This is the first time the ITA has used these powers and it is

stressed that the action does not mean that the ITA is anti-American.

On the other hand, overseas sales of British-produced programmes and series steadily and, in some cases, dramatically, improves. At the end of the June, 1965, quarter, BBC Television Enterprises reported overseas business up 81.7 per cent, compared to 1964. Among the more popular BBC drama series sold overseas were the classic serials, "Oliver Twist," "Lorna Doone," "The Count of Monte Cristo" and "Melissa." Comedy series sold overseas included "Hugh and I," "The Benny Hill Show" and "The Black and White Minstrel" series.

The year 1965 was also a historic one for ATV. The company broke into the American networks. Its "Danger Man" series—renamed "Secret Agent" in the United States—was sold to CBS and promptly reached first place in the national ratings for programmes in that period. CBS placed an order for a further series and U.S. contracts from this series alone are worth more than \$3,000,000. ATV also reports that its "Stingray" puppet series has earned the highest prices ever paid in syndication. Revenue from this series will, it is estimated, exceed \$1,500,000 in the U.S. alone. During the year 1964/5, over-all ATV exports to some 100 countries resulted in a sales revenue of nearly \$5,600,000.

Despite the swinging television levy—it rises at the top end of the scale to no less than 45 per cent of advertising receipts—all the commercial TV programme contractors still show healthy profits. Total amount of money spent on TV advertising in 1964 was £80 million. The year 1965 might see it approach the £100 million mark. However, 1965 also saw—as a result of the Government's ban—the end of cigarette advertising on commercial television and this means a fall-off of some seven per cent in revenue.

This, together with the dearth of new products using TV advertising, has resulted in the formation of the British Bureau of Television Advertising to promote television as an advertising medium. A non-trading and non-profit organisation, the Bureau is financed by all the fourteen programme contractors.

Since the winding-up of the Film Industry Defense Organisation (set up to keep cinema films off TV) and the relaxation of the exhibitors' ruling (no boycott action is now considered unless a cinema film is less than five

years old when it is televised) a flood of old features has reached the British TV screens. The majority of British and American film companies have sold at least some of their backlogs. Twentieth Century-Fox is one of the exceptions, declining because of the "deflated prices which are offered by the British networks."

On the radio front, the so-called "pirate" radio stations—operating from ships off the English coast—remain in business, proving there is public acceptance of commercial radio as opposed to the non-advertising service operated, as a monopoly, by the BBC. To date, the Government has refused to recognize this fact and sanction a form of commercial or local radio service beyond the present BBC set up.

The government-sponsored three-year pay-TV experiment almost fizzled out. Out of six groups, only one remains involved in the trials, Pay-TV, Ltd. This group is owned by British Home Entertainments, Associated British Picture Corporation and British Relay Wireless. Its experimental service is expected to start operation in the Southwark and Westminster areas of London by the end of 1965.

Producer interest in this lone experiment remains high despite the set backs. Sir Michael Balcon, chairman of British Lion Films, comments in his annual report: "If British production is to survive in anything like its present form, and if the television public is to get the best in film entertainment, a way will have to be found of providing a more reasonable financial return from the showing of current feature films on TV. Pay-TV, showing films in conjunction with cinemas as part of the normal distribution pattern may well be the answer, and every effort should be made by the Government to establish conditions under which proper trials can be carried out."

Whether the experiment is likely to prove anything one way or another remains to be seen. What is a fact is that Britain's vast TV audience sooner or later is going to tire of the "routine" shows. Can pay-TV provide something special? The audience is undoubtedly there, for according to BBC Audience Research, half the total population of Britain watched the funeral of Sir Winston Churchill on either BBC or commercial television. Ten per cent of that audience would put pay-TV into business for good.

INDEPENDENT TELEVISION AUTHORITY
70 Brompton Road, London, S.W.3. Tele-
phone: Knightsbridge 7011.

(Parliament created the Authority in August 1954
for ten years, and then extended its life for an-
other twelve years to 1976. Its function, as de-
fined by the 1964 Act, is to operate television
services as a public service for disseminating
information, education and entertainment.

The members of the Authority are appointed
by the Postmaster-General and consist of a
chairman and deputy chairman and eleven other
members, of which three make the interests of
Scotland, Wales and Northern Ireland, respec-
tively, their special care.

The Authority's powers include power to
provide and work the requisite television sta-
tions under license from the Postmaster-Gen-
eral.)

Lord Hill of Luton (Chairman). Sir Sidney

TELEVISION IN CANADA

Toronto, October, 1965

MORE than a year after the appointment of a Committee on Broadcasting, a report was handed the Government in September, 1965. It set out a new blueprint for television broadcasting in the country which brought commendation and condemnation. As yet there has been no comment by the Government whether it will adapt or adopt any part of the report. The Government instead went to the people for a vote of confidence on its own policies, without mention of the broadcasting report.

The Committee, headed by Robert M. Fowler, who chaired the Royal Commission on Broadcasting, 1955-57, also included Mare Lalonde, a Montreal lawyer, and G. Ernest Steele, a civil servant.

Much of what the troika suggested to the Government seemed to stem from the system already in operation in Great Britain.

Meantime the private body of television, as represented by the Canadian Association of Broadcasters, has suggested that the Government allow color telecasting to begin in the Fall of 1966. There has been an indication that color telecasting in this country will start in 1967. But there is a desire and a feeling by those in the industry that a much needed shot in the arm would come with the introduction of color. This in the face of the fact that color TV sets are not even manufactured in Canada.

Even as the Fowler report has been brought down, Dr. Andrew Stewart, chairman of the Board of Broadcast Governors, seems to have been asked to stay in his position. This will give the Government time to decide just how it will deal, if at all, with the Fowler recommendations which are sweeping to the extent that it would wipe out the BBG.

The following is a summary of the committee's principal recommendations as they affect TV in this country:

A return to the system that existed between 1936 and 1958, namely the one board system, which would in effect be the board of directors of the Canadian Broadcasting Corporation, and also exercise the powers of the BBG;

It would have a full time chairman and fourteen part-time members, with the Department of Transport still responsible for the technical factors in licensing. This new board would be known as the Canadian Broadcasting Authority, with a complicated system of hearing license applications by a panel system, and an extensive staff;

Regulations would be changed as to the size of various stations;

Steeper fines for offences against regulations, with more frequent license suspension and power in the hands of the Board to suspend or cancel a license for a breach of the Act, or general regulations, or of a condition of the individual license;

Prohibition of television broadcasting in Canada before noon except for school broadcasting, religious broadcasting or designated special events of national importance;

Recommended a rigid adherence to the 55 per cent Canadian content rule in TV with no exceptions;

Recommended that the CBC be headed by two men, one of these to be a chief executive officer with the title of director general; the other a chief operating officer with the title of general manager responsible to the director general;

Recommended the appointment of a general sales manager in the CBC, and retention of CBC's commercial revenue 25 per cent for television, and indicated that it might even be raised without upsetting an improved program balance;

Removal of the CBC head office from Ottawa to Montreal;

Also recommended that the financial requirements of the CBC, both capital and operating, should be provided by a statutory annual grant of \$25 for each TV household in Canada as reported by the Dominion Bureau of Statistics;

That color TV be limited in the period to March 31, 1970, to the necessary network adaptation, the provision of one adapted studio in Montreal and one in Toronto, the installation of facilities at Expo '67, and the acquisition of a reasonable amount of mobile equipment.

The Committee made important comments on the state of TV in this country which have provided the basis of editorials and have increased the thinking by the public on TV's status in this country. The thinking by the Committee, while very disagreeable to some, certainly has provoked serious thinking on its status by those in this country who care about its state, the viewers.

The Committee expressed concern about "the large and growing exposure of American television programs in Canada" and is further concerned "that so many of them are light entertainment of mediocre quality and little permanent value."

The Committee criticized the private broadcasters for failing to do more both individually and collectively toward the development "of a truly Canadian consciousness."

The Committee says "we think there is a need in Canada for a private national television network," but comments that it shouldn't fall into the hands of the private stations.

There is no doubt that while action on the report will not be immediate, the battle lines and development lines of TV in Canada will be dependent on the provoking comments and recommendations of the Fowler Committee.

The long-range development of TV in Canada will be set up by the guide lines thus provided. The Fowler Report has given all sides of broadcasting, ideas, suggestions and criticisms essential to the development of the medium in this country.

Harry J. Allen, Jr.

Board of Broadcast Governors

The Broadcasting Act (1936) was superseded in 1958 by a new Act which created Board of Broadcast Governors whose duties included the recommending of grants of licenses for radio and television stations, and the regulation of broadcasting.

The Board has a chairman, vice-chairman and one full-time member, all appointed for a seven-year term. The other 12 members, part-time, serve for five years.

Chairman, Dr. Andrew Stewart; Vice-Chairman, Carlyle Allison; Permanent member, Bernard Goulet. Part-time members: Joseph F. Erown, Vancouver; Mrs. Alan Sweatman, Winnipeg; F. G. Holmes, Riverside, Ont.; Prof. William J. Woodfine, Artigonish, N.S.; Rev. T. J. Watson, Fredericton, N.B.; Jean Paul Lefebvre, Montreal, P.Q.; R. Louis Burge, St. Peters Bay, PEI; Leslie M. Marshall, St. John's, Nfld.; John B. Lewis, Montreal; Claude B. Gagnon, Quebec, P.Q.; John M. Coyne, Ottawa; Joseph W. Grittani, Toronto.

The World Market

ARGENTINA

Another year has elapsed and the much awaited Argentine TV expansion is still at a standstill. 14 new channels have been authorized by the authorities, but with the exception of Channel 8, of San Juan, which has been incorporated over a year already, bringing the grand total to 12, the amount of existing channels is still the same.

But the ever increasing number of television receivers shows definitely of the great interest of the population for this media. It is actually estimated that there exist 1,600,000 sets, being calculated that we are still far away from the saturation point, which is expected to be reached within three years, when the amount of receivers is estimated will be around 3,000,000 sets.

The percentage of population living in areas with good TV reception is estimated in 45% of which 7% regularly watches TV programmes. So far, these are in black and white, but Channel 7 of Buenos Aires, which is government owned, has announced that in July or August next, it will start regular transmissions in color two hours each week.

The programs actually are formed by approximately 38% of live shows and 62% of films and serials. Competition actually is very acute among all TV channels, and important personalities are constantly presented in an effort to obtain greater audiences, and in this line, during the last year such international personalities as Sylvie Vartan, Frank Sinatra (Jr.), Nico Fedenco, Vittorio Gassman, Rita Pavone, Gene Kruppa, George Maharis, etc., have been seen in the different Argentine channels.

—NATALIO BRUSKI

AUSTRALIA

With a number of 1,921,407 TV licenses held (as per 31 March 1965) television is rapidly progressing on the Australian horizon. Moreover, the Postmaster General's department issued another 100,000 licenses on hired TV sets. With over 2 million licenses there is now one set on every six head of population.

The Australian Broadcasting Commission (Government owned) has a wide-spread network of stations. One in each of the 7 capital cities and they relay their programmes by co-airial cable or air link to 11 regional stations. These have no production facilities. Further more regional stations are being built.

Commercial stations may apply for a license in these areas as well, but to get a commercial license local independent companies have to show that they are not associated with metropolitan stations and that they can provide a service comparable to that available to city viewers.

The cultural and educational level of the ABC programmes is high and no "commercials" are permitted.

The commercial stations however enjoy much more popularity with the general public.

Despite agitation by Actors Equity, the bulk of material on TV—certainly the most popular programmes—is American filmed shows. It is not likely that there will be any change of policy on the part of TV station managers to grant more time to local talent at the expense of imported material.

—MARTIN VAN WILLIGEN

AUSTRIA

The Austrian government-owned and-operated television is still in a situation of expansion and improvement and is steadily gaining ground throughout Austria.

Austrian TV, which has the highest tax in Europe (\$2 per month per set) should now be able to considerably improve its programming as well as

its inadequate operating facilities since tax revenues are increasing steadily and rapidly. However, Austrian government-owned TV is part and parcel of Austrian government-owned broadcasting. Since the latter has recently found itself in grave financial difficulties, these—though behind the scenes to be sure—also reach deeply into the television administration.

Spots for commercials at \$28 per second have caught on and can now be purchased for the time between 7:30 to 8:30 P.M. Occasionally they even fill intermission time during stage plays. In the first quarter of the year a total advertising time of 45 minutes was sold and transmitted, whereas this figure has increased sharply. The quality of programs has improved somewhat. Live TV plays have reached an excellent level and live transmissions from the legitimate stage are shown more frequently.

The program breakdown is as follows: 23.2% news and sports, 15.2% movies, 13.4% educational, 12% musical and quiz shows, 2.7% serious music, 6.8% TV plays and 26.7% are participation programs in Eurovision or programs taken over directly from neighbouring Germany. Transmission time is from 7:30 to 10:30 P.M. nightly with transmissions from Germany at times lasting until 11:00 P.M.

BRAZIL

There are now 34 television stations operational in Brazil. It is estimated, based on requests for channels from the Government licensing board, that by the end of 1964 between 45 to 50 stations will be on the air in Brazil.

Although there are actually only 1,500,000 receivers in the country, local manufacturers are hard pressed to keep up with the demand, the existing stations can reach 80 percent of Brazil's 70 million population, and national hookups can, and have already, linked Rio Grande in the south with Belem in the north, along over 4.5 thousand miles of coastline, going inland to include the cities of Brazilia, Goiania and Belo Horizonte.

Brazilian law requires that all owners of radio or TV stations be of Brazilian nationality. A further law stipulates that all foreign films shown on TV be dubbed, and that no station may transmit more than 22 half-hours of foreign films for each 72 hours of weekly transmission time. Stations which transmit less than 12 hours per day have a corresponding lower quota.

Seven sound studios, four in Rio de Janeiro and three in São Paulo take care of the dubbing of all the American and some Italian, Argentine and Mexican films that come into the country. An attempt has been made to produce TV serials in Brazil, but up to now it has been cheaper to import and dub them. This may change in the near future, owing to the instability of the Brazilian currency and the restrictions on profit remissions. Another aspect which may restrict the importation of film serials is a rising nationalism and a move to return to a law passed by ex-President Janio Quadros, which severely restricts the exhibition of foreign film serials on TV. This law was modified when the President took office, but how long this modification is going to stand up under the strain, no one can tell. It is, however, generally considered that the first American producers who bring their know-how of TV serial productions to Brazil will make a fortune.

Professional Association of Radio and TV Station Owners: Sindicato dos Proprietarios de Empresas de Radio Difusão e Televisão, Avenida Presidente Churchill 97 Sala 606, Rio de Janeiro.

—REX ENDLSEIGH

CHINA (Communist)

The Broadcasting Administration, Peking, operates 26 TV stations and 6 relay stations but more are planned to serve this huge nation. Some of

the stations serve only a few sets but these are located in communal gathering places and none are owned privately except in the case of high Communist officials.

Though TV broadcasting began in 1958, sets now total only some 30,000 located mostly in certain key cities such as Peking, Tientsin, Shanghai, Canton, Changchun, Harbin and Shenyang. It is estimated that a 9-inch set would cost a skilled worker the equivalent of seven months wages. Most stations are on the air only three hours a day and those which are classed as experimental stations even less.

No Western imports are shown and trade between American citizens and Communist China is forbidden by American law.

CHINA (Taiwan)

Since 1962 Taiwan TV Enterprise Company has been broadcasting to an audience now estimated at about 40,000 sets. Annual license fee is \$1.50. In addition, National Education Television, Channel 3, 2 hours daily, is operated by the government.

CAMBODIA

Since a fire destroyed the experimental station run by Radio Cambodge-Television in 1962 there have been no TV broadcasts but plans are under way for a new station.

DENMARK

Total number of receivers in Denmark: 700,000 (June 1, 1963).

Total number of commercial TV stations: None.

Total number of Government stations: 1.

Total coverage: 100% of population.

With the opening in the middle of June, 1960, of a transmitter covering the island of Bornholm, the Government station now has seven transmitters covering 100% of the population.

Television has increased rapidly, with a remarkable effect on the film trade. Four years ago 4,000 receivers were going.

A new television house, based upon an architect competition now finished, is about to be built during the next years. The work started last Autumn, and the first part it is estimated to be finished in two years. The whole house, with seven studios, is expected to be finished within 10 years. The sending hours, now about 19 per week, will gradually be increased. The Government station is at present operating with two studios, two reporting vans, two films vans and two video tape machines. The station has 12 news correspondents in Denmark, and the film department has 11 photographers producing about 600 bigger and smaller films for TV per year. In order to compete with German television, a complete film group has been stationed in the south of Jutland.

It is still prohibited for organized distributors to sell films to television which, however, hitherto have succeeded in obtaining feature films from other sources. Only extracts of up to 300 meters may be sold by distributors to TV.

Taxation on television receivers is 15 per cent of the wholesale price, plus a tax of kr.3.15 per tube in each receiver. The license to the state is d.kr.75.—per year as against d.kr.22.—for radio sets.

Television and Danish sports unions have reached an agreement according to which each sports union is free to negotiate with television, which always offers to pay an estimated loss for showing the special event on TV. Until now comparatively few sports events have been shown on TV.

Television is controlled by the state, and there is no advertising in the programmes.

FINLAND

During April, 1957, tests began for the new Finnish TV. Ordinary TV programs began in the autumn of 1957—officially, Southern Finland can see programs from Soviet-Estonia; the Southwest Finland from Stockholm; and the east of Finland from Leningrad, USSR. A television set owner in Helsinki can now see TV programs every day in the week,—without paying any licenses. The Finnish radio plans to build a TV-network. Then shall the whole of Southern Finland—with the half of the population of the country—2,000,000—see the Finnish TV. Part of the programs shall be sponsored, the Finnish Radio Network will sell some of the TV-time to interested companies.

—GOSTA ERKELL

FRANCE

The number of TV sets in France rose from 4,600,000 in 1963 to 5,414,267 in 1964 including 16,444 in cafes and public places.

The Second Chain is now functioning smoothly and the French are looking forward to colour TV.

Naturally the French are satisfied that their own SECAM system is superior and some disappointment was felt when a final decision was not made. Nevertheless there is a widespread feeling that several countries in Europe will, finally, opt for the French system.

Another difficult problem which will have to be solved is whether advertising should be permitted.

It is generally agreed here that it is bound to come sooner or later and it is expected, probably, within a year.

The French still prefer to make their own TV films but over the past year a few co-productions with Pathe and Franco-London Film have been completed.

Finally through its holding company SOFIRAD

the French are trying to obtain control of Radio Luxembourg the only station on the French border largely angled on France but not controlled by France.

In order to avoid France getting control it is possible that the station may be nationalised.
OFFICE DE RADIO ET DE TELEVISION 116
Avenue President-Kennedy Paris 16.

—HENRY KAHN

GERMANY

Television has made progress in Germany in the past year.

The number of registered receivers, which passed the million mark in November 1957, was up to 10,536,922 as of April, 1965, including West Berlin. Thus Germany is holding its second place in Europe, after Great Britain.

Under the auspices of the ARD (Arbeitsgemeinschaft der Rundfunkanstalten Deutschlands), a public corporation for sound and television broadcasting, a combined television programme is presented daily in the Federal Republic of Germany. In conjunction with the undermentioned Länder or State Broadcasting Corporations this programme is televised simultaneously by all television stations in the Federal Republic including West Berlin: Bavarian Radio/BK, Munich 2, Rundfunkplatz 1, Hessian Radio/HR, Frankfurt a.Main, Bertastrasse 8, North German Radio/NDR, Hamburg 13, Rothenbaumchaussee 132/34, Radio Bremen/RB, Bremen, Heinrich Hertz-Strasse 13, Saarland Radio/SR, Saarbrücken, Schloss Halberg, Free Berlin Radio/SFB, Berlin 19, Masurenallee 8-14, South German Radio/SDR, Stuttgart, Neckarstrasse 145, South West Radio/SWF, Baden Baden-Hans Bredow-Strasse 16, West German Radio/WDR, Cologne, Wallrafplatz 5.

Programmes are compiled monthly at joined programme conferences which are attended by representatives of the abovementioned broadcasting corporations. The official Programme Compiler of

Establishment

light and noiseless

the ARD acts as Chairman at these conferences. According to a fixed percentage each of the said corporations contributed its share towards the programme and is responsible for its own production, programme contributions and for the contents of such contributions as well as for the transmission thereof. The whole structure of these combined programmes is subject to a programme scheme.

Programme contributions received, are compiled by the Coordination Section of the ARD with the co-operation of the representatives of the State Broadcasting Corporations in accordance with this scheme. On the other hand the said broadcasting establishments have to review these programme contributions, see to the supply of programmes and the employment of staff. The Programme Compiler is also in charge of programmes which are kept in reserve in case of emergency.

Apart from these combined programmes, the State Broadcasting Corporation also telecasts regional programmes on week-days between 6.15 p.m. and 8.00 p.m. for the areas within their television range. In the same areas private companies cater for commercial television. It consists of advertisement slogans phrased by advertising agencies and may not exceed 20 minutes per day in terms of a ruling by the Minister-Presidents of the said states and have to be telecasts before 8.00 p.m. No transmissions are made in respect of sponsored programmes over either commercial television, combined programmes or regional programmes by the ARD.

All the State Broadcasting Corporations are represented by the ARD in regard to mutual matters concerning foreign countries.

The ARD is a member of the European Broadcasting Union where it represents German television in matters concerning departmental boards and committees. The International exchange of programmes, especially the Eurovision and commitments towards foreign countries outside the sphere of regional programmes, all form part of the programme-coordination of German Television.

The Second Programme of German Television, abbreviated ZDF for *Zweites Deutsches Fernsehen*, which was started during 1961/62 in terms of a State-Agreement by all the German States, is also a public corporation with its headquarters in Mainz, Grosse Bleiche. The ZDF is centrally administered, acts independently from the ARD and since the 1st April, 1963 it transmits programmes on Band IV/V. The "Intendant" (general manager) of this ZDF is Professor Dr. Karl Holzamer. The name of the new program director is not known yet.

There is an Agreement of Co-ordination between the ARD and the ZDF to eliminate the overlapping of programmes.

In the fall of 1964, some stations started a third program, which are telecasted on a regional basis. Other stations will follow.

In the Soviet Zone of Germany there are today 1,600,000 television receivers, an increase of roughly 350,000 in the past year. Some 15 different types of television sets are offered by the four television equipment producers in the Soviet Zone.

—FRED RITZER

GREECE

The negotiations which started in 1963 for the development of the first TV network in this country have not made any progress except that the responsibility of this project has been invested to the National Electric Enterprise instead of the National Broadcasting Organization.

Many foreign TV Companies are submitting offers but none has been accepted as yet. Optimists still insist, however, that the first TV network will be launched in 1966 as originally planned. The second stage which will cover the country nationwide will be ready in 1971 with 14 stations but only one channel. The reason for the TV lag is mainly the geographical layout of the country which would make a nationwide service extremely expensive.

Greeks had their first TV experience, however, on the wedding of their King Constantine with Danish

Princess Anna Maria, last September (1964). Danish and Italian TV Companies had made temporary installations for this occasion and relayed the event. By some sets placed here and there in Athens, the Greeks had the chance for the first time in their lives to know the privileges of TV.

—RENA VELISSARIOU

GUAM (U.S. Possession)

Knam Television operates one station on this remote Pacific Island and serves an estimated 45,000 sets in the hands of Americans and natives.

HOLLAND

On a total population of more than 12 million people the approximate number of more than 2,000,000 sets (end of 1963 about 1,575,000 sets, end of 1964 about 1,837,000 sets) is very high compared with the situation in other European countries. The competition is very strong to motion picture theatres: their attendance decreased again in 1964 with more than 10%.

There are two channels now; not yet any commercial TV, though it will be permitted in a limited way within a very short time.

TV in Holland is organized by the *Nederlandse Televisie Stichting* (NTS), under governmental control, with five sub-divisions: a Roman-Catholic section, a Protestant section, a political (social democratic) division, another Christian section and a neutral section. The broadcasting companies K.R.O., N.C.R.V., V.A.R.A., V.P.R.O. and A.V.R.O., represented by these divisions, want to keep their influence on TV.

The approximate cost of a TV set, antennae included, is from 750—guilders to 2,000 guilders. (\$1 is fl. 3.60). A yearly contribution of fl. 36.— is due by the owners of a set, to be paid to the government.

Feature films are programmed once a week, one on every channel. On the first channel on Monday night, on the second channel on Tuesday or Wednesday night. The industry organization (*Nederlandse Bioscoop-Bond*) has an agreement with the TV authorities in which it is stipulated that pictures can only be shown on TV 40 months or more after the first release date in film theatres; exceptions are possible.

The countries of origin of pictures on TV differ every week; French and Italian films, but also American, English etc.

Quality of programs is good, also many American shows. Competition to motion pictures is tremendous. The purchase of TV sets by installment buying has decreased. By the higher standard of living more people are able to buy a TV set by cash.

The Dutch TV station is in Bussum. Philips is a big manufacturer of TV sets.

—PHILIP DE SCHAAP

HONG KONG

Since 1957 Rediffusion (HK) Ltd. has operated closed circuit TV for a limited number of subscribers in English. This service has now been augmented by a Chinese language service. Regular TV service is planned in the future by the British Government authorities. Sets estimated at 25,000.

INDIA

Television has still not made any commercial progress, and is confined entirely to the Delhi region, where about 300 sets are used almost exclusively for educational purposes in the schools. Philips of Holland appears to have a lead as far as TV in this country is concerned. Prospects of development of TV in other parts of the country are dim, at least in the foreseeable near future, and at any rate, until the emergency created by the Chinese threat on the northern border is resolved.

—V. DORISWAMY

INDONESIA

One station, RRI-TV, Jakarta, is on the air an average of two hours daily. Sets are estimated at 12,000. No American programs are purchased or shown.

IRELAND

Telefís Eireann is the official name of the television service in Ireland.

Television, like sound broadcasting, is run as an independent State Statutory body and responsibility for both services is vested in Radio Eireann, the Broadcasting Authority. This Authority, appointed by the Government, consists of nine members serving on a part-time basis under a chairman selected by the Government. The original and present chairman is Eamonn Andrews, who has had wide experience in British television and radio.

The Minister for Posts and Telegraphs, who is responsible for the autonomously operated Authority, reserves to himself the duties of fixing and collecting license fees from domestic viewers, licenses transmitting stations, and has a veto on the appointment and conditions of the Authority's top executive. The Director-General, Kevin McCourt, is employed full-time and his appointment under the jurisdiction of the Minister.

Telefís Eireann started in 1962. It has five transmitters and four satellite "transposers" sending the one national programme. The transmitters are situated in Dublin, Sligo, Co. Clare, Co. Cork, and Co. Carlow. The four satellite "transposers" are part of a network of twelve which, when complete, will give national coverage. The transmitters at Dublin and Sligo transmit on 625 and 405 lines. The rest use 625 line standard.

The Authority, which has the responsibility to provide programmes of suitable cultural and national content, transmits about 45 hours weekly, exclusive of educational programmes for schools. Last year, 47% of the programmes were of home origin, the balance being imported from mainly Gt. Britain and the U.S.A.

There are now 340,000 receiving sets in operation of which about 200,000 of these are able to receive programmes from Britain's BBC-TV and Independent TV stations as well as Telefís Eireann. The national license fee is five pounds of which three pounds fifteen shillings is allocated to the Authority and the balance to sound broadcasting department. Telefís Eireann also earns substantial revenue from the sale of spot advertising time to commercial interests and last year had an operating surplus which is expected to be higher on the next balance sheet.

—T. J. M. SHEEHY

ISRAEL

At the end of this year (1965) the television system in Israel will start with educational films, and the general impression is that it will not take long to introduce commercial television.

—ALBERT de MATALONT

ITALY

Italian television is entering its twelfth year. It is operated by RAI (The Italian Radio Broadcasting System), which is now known as RAI-TV. There are main offices in Rome, Turin and Milan, but all contracts for programs, films, live talent, etc., are finalized in the Rome Office.

The number of sets at the end of 1962 numbered 3,500,000. There are two channels, but only 1,500,000 sets are equipped for both channels. The regular shows run from 3 P.M. to 12, but on certain mornings there are children's shows and adult education programs. The sets are more thickly distributed through North and Central Italy, while there are fewer in Southern Italy and the Islands Sicily and Sardinia). Despite the predominantly mountainous nature of the Italian Peninsula, reception is excellent in all areas due to a system of 400 relays.

The Italian TV programs are basically similar in variety to the American programs: films, drama, quizzes, news, sports events and broadcasts of special events. Advertising takes up about 20 per cent of the time. There is a 12,000 lira (about \$20) yearly tax for subscribers.

Both the Radio and TV systems are considered among the best in Europe from a technical viewpoint. Eurovision and Telstar connections are perfect. From a survey conducted by RAI-TV, there are 15,000,000 TV spectators between 9 P.M. and 10 P.M. (This includes spectators in public places). The TV vs. movie problem has been to some extent eased in Italy with the recent ANICA-RAI-TV (1963) accord whereby not more than two full length features on each of the two channels may be shown weekly. Furthermore, films may not be broadcast on Thursdays, Saturdays, Sundays and legal holidays.

With radio and TV subscriptions, plus advertising, RAI-TV's revenue is very high.

During election campaigns, all political parties are allowed the same amount of time on all stations.

—ED d'AMICO

JAPAN

Starting with one government-run station in 1953, Japan has come a long way to the present when two government networks run 83 stations and 377 relays and 46 commercial broadcasting companies form 4 networks comprising 167 stations and 34 relays.

All set owners are required to pay 92¢ a month fees to the quasi-governmental Nippon Hoso Kyokai (NHK networks) which lists over 17 million sets registered throughout the nation. Considering that some set-owners have escaped paying such fees, the actual number of sets in use is considerably above this number and topped only by the United States.

The two NHK networks, one for a general audience and the other educational, plus the commercial networks which accept advertising (despite the fact that some are listed as educational foundations) reaches over 90% of the population of Japan, some 96 million people. A relay is also operated to the Ryuku Islands (Okinawa) a Japanese possession now occupied by the U.S.

With over 81% of Japanese homes equipped with TV, the home market for sets is becoming saturated but Japan is finding a good export market abroad, especially for its new transistor sets, and is also engaged in selling and installing TV broadcasting systems abroad in Asia and the Near East.

Along with a business recession in Japan has come a certain slump in TV sponsors which has caused the commercial stations to let down the bars in order to keep up revenues. This means that the sponsors are overlapping the 10% time maximum allowed for commercials. In one flagrant breach one station was clocked at 1 hour and 54 minutes of commercials during its 1 1/2 hour broadcasting day. The Japanese Fair Trade Commission has also had to take a hand to tone down exaggerated and untrue TV commercials.

Imported TV series, almost all American, are used 10.3% of the time (identical with time devoted to such Japanese shows) while 3% of the time is devoted to imported TV movies (mixed old and mediocre American films plus later ones from Europe). Only 1.1% of TV time is devoted to Japanese movies since the cinema studios are very conscious of TV competition (a poll shows that 80% of the people prefer TV for their spare time) and keep sales for TV to a minimum. Commercial stations' programs are 50% film and 50% taped or live; on NHK 50% are taped, 50% live and 10% filmed.

While costs of live and taped shows made in Japan are comparatively cheap, it is still hard to keep the price down to what a superior American show might cost. Although price restrictions on imports have been abolished, the Japanese still want to get things at rock-bottom prices which accounts for the mediocre fare of imported cinema features. Top prices for an American hour-long program have edged up to as much as \$4,000 down to \$2,000 with 30-minutes series going for half that. Old movies fetch \$3,000 to \$5,000 and in many cases are shown nation-wide more than once. Practically all imported shows are dubbed into Japanese language.

The Japanese audience has become so addicted to some American series that in many cases its star has been brought to Japan for a successful nation-wide personal appearance tour. Color sets are still few in number, though manufactured in Japan, and color broadcasts are limited to a few hours each day.

Cost to sponsors for time on one or more stations, or a nation-wide broadcast vary with the location of the stations but come well under American costs. Spot announcements run about \$28 a second on a popular Tokyo station with some reduction for lengthy ones. It is estimated that since TV advertising is topped only by newspaper advertising in Japan, the commercial stations take in about \$250 million a year in gross time sales. This can be compared with the approximately \$188 million a year taken in by the non-commercial networks from set owners out of which collectors and added accounting charges must be paid.

Most sales of imported TV shows are handled by middlemen but information regarding addresses and affiliations of commercial stations may be had by contacting National Association of Commercial Broadcasters in Japan, Daini Namiya Building, 2, 7-chome Nishi Ginza, Tokyo. Address of the government networks' headquarters is Nippon Hoso Kyokai, NHK Building, 2-3 Uchisaiwai-cho, Minato-ku, Tokyo. The address of commercial networks can be found in the World TV Broadcasters list in this almanac.

—A. C. PINDER

LEBANON

A television broadcasting service was launched in Lebanon in May, 1959. Programs are scheduled for three to four hours daily. In addition, Lebanese viewers are able to pick up broadcasts from Cyprus and some European stations. Lebanese National Television, the new company, is owned by shareholders and directed by technicians who studied in the U.S. and Europe.

In 1960 a second station started operations. This is government-owned and operated. There are no government controls on the formation of TV broadcasting companies.

TV receivers are expensive, the average price being \$300 a set. Sets now on the market come from U.S., England and Germany. By 1962 considerably more than half the population owned sets.

—IBRAHIM H. ZEIN

MALAYSIA

TV Singapura went on the air in Singapore in 1963 and sets in the city are estimated at over 100,000. TV Malaysia in Kuala Lumpur is also on the air now and there are plans for one additional station in both cities.

MEXICO

Private surveys indicate that Mexico has approximately two million television receivers in operation, with at least half of these located in and around Mexico City.

In the last few years, TV broadcasting has expanded to cover a large part of the country, with local stations programmed through videotape and many in network hookups with the Telesistema organization of Mexico City, which dominates the industry from their headquarters in Telecentro, the "TV City" of this country.

Television started in Mexico in 1950 and has grown by leaps and bounds, with 28 stations listed on government records, including one non-commercial station, an educational broadcaster operated on Channel 11 by the National Polytechnic Institute, a university-level government school in Mexico City.

In addition there are six other stations in Mexico City, including the re-broadcast stations that carry Channel two and channel four programs. Channels seven, nine and three are hooked up permanently in a network with Channel two.

Channel Five has announced its affiliation with Columbia Broadcasting System of the United States.

The announcement said this is the first CBS affiliation in Latin America. The contract was signed by Fernando Diez Barroso, vice president of Telesistema Mexicano on behalf of the new affiliate. Under the agreement the Mexican station in Mexico City as well as relay stations in the interior can hook up with CBS network programs when desired.

Applications are pending for additional stations, including one in the "Chamizal" area, formerly of El Paso, Texas, which has been ceded to Mexico in accordance with treaties with the United States; as well as for Channel Eight, which would be independent of the Telesistema group, and Channel 16 (XHTC-TV), designed to broadcast commercially exclusively in colors. At present, Channel Five broadcasts experimentally in color one hour a day.

At least twenty of Mexico's 29 states and two territories now enjoy television programs, served by the Channel Two and Four networks and by ten local stations affiliated with Telesistema. The local stations are in Torreón, Monterrey, (2), Guadaluajara, Hermosillo, Mexicali, Tijuana, Tampico, Nuevo Laredo and Merida.

The relay stations in the network are located at Paso de Cortez, Zamorano, Tepatitlan, and Guadaluajara, serving the states of Mexico, Morelos, Guerrero, Oaxaca, Hidalgo, Puebla, Veracruz, Tlaxcala, Queretaro, Guanajuato, Michoacan, San Luis Potosi, and Jalisco.

The TV network "umbrella" covers viewers in the following cities, in addition to those mentioned in the local stations:

Toluca, Ixtapan de la Sal, Ozumba, Atlacomulco, Chilapa, Ixtlahuaca, Acambay, Tlanepantla, Texcoco, Amecameca, Cuautla, Teloloapan, Acapulco, Huajuaplan de Leon, Pachuca, Actopan, Huichapan, Ixmiquilpan, Ozumbilla, Taxquillo, Puebla, Tehuacana, Tenango, Atlixco, Tlaxco, Teziutlan, Izucar, Tecamachalco, Amozoc, Tepeaca, Tlacoatepec, Veracruz, Tuxpan, Cordoba, Perote, Jalapa, Fortin, Tlaxcala, Apizaco, Huamantla, Tequisquiapan, San Juan del Rio, Queretaro, Cadereyta, Colon Celaya, Sa. Ixtierrra, Jaral, Cortazar, Victoria, Valle de Santiago, Salamanca, Irapuato, Silao, Leon, San Francisco del Rincon, San Luis de la Paz, Dolores Hidalgo, Abasco, Comonfort, Escobedo, Penjamo, San Miguel Allende, San Felipe, Puruandiro, Acambaro, Zamora, Zacapu, Morelia, Yurecuaro, San Luis Potosi, Rio Verde, Limon, Ciudad Valles, and La Piedad.

Following is the official list of television stations operating in Mexico, as recorded at the Ministry of the Interior: Mexico City—XEQTV, channel 9; XEWTV, Channel 2; XEBTV, Channel 3; XHTVTV, Channel 4; XHGCTV, Channel 5; XEXTV, Channel 7; XIPN, Channel 11.

Other cities: Ciudad Juarez—XEJTV, Channel 5; XEPMTV, Channel 2; Monterrey—XETTV, Channel 6 and XEFBTV, Channel 3; XHXTV, Channel 10; Tijuana—XETVTV, Channel 6; XEWTV, Channel 12; Guadaluajara—XEWOTV, Channel 2; XHGTV, Channel 4; XEHLTV, Channel 6; Tampico, XHGOTV, Channel 7; Nuevo Laredo, XEFETV, Channel 2; Hermosillo, Sonora, XEWH-TV, Channel 6; Merida, SHYTV, Channel 3; Mexicali, XHBCTV, Channel 3; Colima, XHCCTV, Channel 5; Nogales, XHFATV, Channel 2; Veracruz, XHFMTV, Channel 2, and Ensenada, XHSTV, Channel 23; Chihuahua, XERATV, Channel 11; Guanajuato, XHZTV, Channel 6; Culiacan, XHQTV, Channel 3.

At Telecentro, more than 1000 technicians work 24 hours a day to broadcast 300 hours of live programming to the 23 stations in the network, with ten videotape machines in Mexico City and 25 in other cities. More than 150 hours of videotape programs originate in Mexico City each week, and are sent also to provincial stations and abroad. Two kinescope machines prepare ten programs weekly for areas without videotape facilities.

A nationwide hook with microwave relay transmitters was completed in 1963 and has brought several special TV program to Mexican audiences, including full coverage of the assassination of President John F. Kennedy Nov. 22, 1963, Eventually big league baseball, top boxing matches and other world-interest sports events will be carried, it is expected.

Mexico is continuing to cultivate markets for packaged programs in Puerto Rico, the Dominican Republic, Venezuela, Central America, Peru, Colombia, Ecuador, Buenos Aires and Chile, but the biggest foreign outlet continues to be the United States, through Spanish International Broadcasting Company, which operates Channel 41 in San Antonio, Texas, and Channel 34 in Los Angeles, on UHF, with about 70 programs a week going to each station.

—VIRGINIA PLENN

NEW ZEALAND

TV sales for New Zealand now total 325,973 as at the end of April 1965, made up of Auckland 102,669; Wellington 45,039; Christchurch 43,689; Dunedin 19,957; Provincial Towns 114,619.

Saturation point has not yet been reached but in some areas, Auckland for instance, it is very close to being reached.

During the year the big films proved without any doubt whatsoever that they can take and do take big money. This applies particularly in the main centres and main provincial towns, and indicates that the patrons are prepared to use their own cars and drive long distances if need be to see the really good films. This of course has a side effect upon the smaller exhibitor who is being by-passed right, left and centre. The standard of living in this country is such that vast numbers of people now want the best and having their own transport they very naturally proceed to the bigger and more elaborate theatres and they purchase the higher priced seats. The smaller theatre just can't cope with the big first-run houses, particularly if he is called upon to pay film hires based upon the same terms and conditions as the first-run houses. If some of the smaller theatres in the suburban and provincial areas are to remain in operation then it is obvious that they need a great deal of co-operation from the distribution side of the business. In New Zealand just as elsewhere it is now obvious that certain theatres must close and be converted to other purposes, reducing the number of theatres in various situations, but it is becoming very apparent that there is still a very big public available for Motion Picture entertainment and very keen to buy the best seats for the best films. This of course leaves the bread and butter picture right out in the cold with little or no earning capacity for either exhibitor or distributor. Foreign language films have made a deal of progress mainly because of their appeal to "arty" types who would not have in the ordinary course been picturefans at all but who represent a new audience that can well be catered for in most situations.

New Zealand is gradually settling down to a more stable pattern which appears to indicate less theatres with a corresponding higher standard and higher admission charges for those that remain in business.

—R. A. USMAR

NORWAY

TV in Norway has been operating since the Fall of 1960, programmes having increased from six to eight hours per week to around 20 hours per week. Present number of TV licenses is around 400,000. As the TV is Government controlled and cinemas are municipal, it is the same interests prevailing in both media. If cinemas should be hurt by TV, the Finance Department and the municipalities would have to suffer. An agreement has therefore been established for the procedure and policy of TV in order to hurt the cinemas as little as possible. TV will use special TV-produced shorts, cultural and documentaries, comparatively few features and preferably so late in the evening that at least the two first shows per day in the cinema should not be too much affected. Both 16mm and 35mm films can now be shown.

—FINN NYMANN

OKINAWA (Ryukus)

Broadcasting began 1959 by Okinawa TV Sys-

tem and later joined by Ryuku Hoso Network. Two stations and a relay station serve the estimated 100,000 sets owned by Okinawans. The U. S. Government broadcasts programs in English for some 16,000 Americans who are set owners.

In 1964 Ryuku Hoso opened a relay with Japan so special programs from there, especially baseball, are aired in Okinawa.

PERU

Television is one of Peru's fastest growing industries. There are four channels in Lima (4, 7, 9, 13).

Channel 7 is non-commercial and is operated by the Ministry of Education. It operates only a few hours a week on an erratic schedule and has few viewers. Channel 4 (Radio America) is the oldest station, working since 1958. There is a fourth operating channel in the country, channel 2 in Arequipa; it is associated with Lima's channel 13 (Radio Panamericana).

Television has a strong appeal to people of all social classes. Even in the *barriadas* (slums) one finds TV antennas. It is the practice there for owners to charge one sole admission to watch nightly TV. There are said to be 65,000 sets in operation in the Lima area with an average viewing audience (according to McCann Erickson, the advertising firm) of 4.5 persons per set. This would give a potential total audience of about 300,000 persons. Others place the figure higher.

Programming depends greatly on Westerns and mystery (detective) shows from the United States that have been Spanish-dubbed in Mexico. There are also many motion pictures from the United States that are either dubbed or with titles. Film programs are preferred to live because of the cost factor. There are a number of live programs—amateur talent reviews, discussions, etc. Stations prepare their own news programs using live and film sections.

A minute spot at prime time (8-10 P.M.) costs about 700 soles (\$26). However, as many as 10 spots are grouped together, lessening impact. Nevertheless, prime time is sold out. A 15-minute spot costs 200 soles (\$7.41) and a half-hour show costs between 6,000 and 8,000 soles (\$200-\$300 approximately). The stations are working very close to the break-even point, and channel 9 failed.

PHILIPPINES

Broadcasts began 1953 by DZAQ-TV owned by Alto Broadcasting. At present 11 stations are on the air for commercial broadcasting and one government station; of these 7 are located in Manila. Number of sets estimated at 200,000. Alto Broadcasting merged with Chronicle Broadcasting to form ABS-CBN. Others are Associated Broadcasting, Chronicle Broadcasting, Metropolitan Broadcasting, Philippines Broadcasting, Radio Mindanao Network and Republic Broadcasting. More provincial outlets are planned.

PUERTO RICO

There are about 200,000 television sets in Puerto Rico, for a population of 2,300,000. Most of the public places such as restaurants, clubs, have television sets for their patrons and the medium is available in local hotels upon request.

Even though most Puerto Ricans know English, and the number of persons who will acquire a working knowledge of English will increase considerably through intensification of English instruction in public schools and the migration of Puerto Rican families to the United States, and workers who come back from the States with more knowledge of English, television programming is in English and Spanish. WKAQ-TV, owned and operated by the newspaper *El Mundo*, on channel 4, has 30 per cent programs in English of which 10 per cent have Spanish sub-titles.

Kinescope versions of top North American tele-

vision shows are represented on both stations.

American manufacturers of cigarettes, electric appliances, soaps, detergents, and other products which use television widely have increased their budgets for this type of advertising medium.

SCOTLAND

The need for new ideas is never more marked than now, with three channels vying for ratings and material. The BBC-2 channel has now reached this northern half of the United Kingdom, serving the main central belt, and with a second transmitter opening at the end of 1966 to cater for viewers in north-east Scotland. The BBC have further plans to take BBC-2 programs to the rest of Scotland. Early series have included a song program filmed on Highland locations, with Kenneth McKellar, a leading Scottish tenor.

Under the fresh inspiration of Francis Essex, a new Controller of Programming, the commercial television station for Central Scotland is forging ahead, utilizing local comedians and actors in plays and variety series, and initiating late-night viewing. Lunchtime programming, which had existed for seven-and-a-half years, was dropped in favor of better programming in evenings. Documentaries are also being made by this company, Scottish Television Ltd., some being beamed to other regions.

The BBC-tv planners have also shown some awareness of needs, producing several dramas as well as variety, musical revue, situation comedies and a series based on the sea-and-boats stories of the late Neil Munro, under general title of "Papa Handy." The national success of a doctor-in-small-town series like "Doctor Finlay's Casebook," made from the London, England, studios, has proved a moral to this regional end of British television and shown that good drama and comedy set in the Scottish Highlands or Lowlands may be right under their own noses.

The ITV stations still maintain their edge on viewers, notching up higher ratings for programs, but the quality in BBC-tv material is admired. The commercial stations, while slowly growing in their own quality, still score with dramatic series, in which American television producers ('Bonanzz', 'Burke's Law' and 'Hitchcock Hour' are high-raters) play a large part.

The regional commercial-television stations of Border-TV and Grampian-TV (at Carlisle, north-west England, and serving south Scotland as well as north-west England, and at Aberdeen, respectively) continue to exercise a strong, healthy local appeal, and devote useful attention to local news, personalities, folk-lore and customs. Both are now making a profit.

The breakthrough of stations and producers in Scotland into the national network has still to be made, though there is evidence that the "big boys" of the London area are showing some interest at last. The smaller companies of Scotland, in collaboration with their regional colleagues in England, are banding together to interchange programs and to aim at selling them to the whole country. It might well be that a series from one of these companies, if first sold to the U.S.A. or Canada might establish the prestige necessary to gain it access into the London and national network in the U.K., paradoxical though this might seem.

—GORDON IRVING

SOUTH AFRICA

South African Minister of Posts and Telegraphs Dr. Albert Hertzog persisting in his adamant stand against the introduction of television into this country.

The South African Broadcasting Corp. held contracts with Agence France Presse and other organizations for the supply of news films for showing overseas, and, in fact, its small film unit has already supplied Agence France Presse and United Press International with newsclips for foreign TV.

One of the SABC's senior directors, Mr. Norman Filmer, the man who toured Australia and New Zealand on TV research, and later made a European visit on SABC business, said that these news-

clips were available to any agency that wanted to avail itself of the opportunity.

Minister for Education, Senator Jan de Klerk, who has done much for film exhibitors in overruling Censor Board decisions in certain instances where appeals had been made by the distributors concerned, said that the recently formed National Film Board had no plans for making television films.

And yet, the South African Information Department, as well as the South African Tourist Corporation, both official Government bodies, each with its own film division, had been producing documentaries and other films for overseas television release before their film divisions were absorbed as part of the now unified National Film Board. And, despite denials, the NFR have been allegedly advertising for qualified TV staff in Rhodesia.

Every official move made points to TV preparation one way or another.

On February 6th, 1964 the Copyright Bill was introduced into Parliament. This Bill provides, among other things, for a fifty year copyright on any television broadcasts made by the SABC.

Closed circuit television had been banned, today, permission has been granted to 54 Government, Provincial, Commercial, Industrial, Mining and other authorities for its use.

Two senior officials had been sent overseas on a probe as a result of which, according to the Administrator of the Transvaal, Mr. F. H. Odendaal, on May 21st. last, closed circuit television may be introduced into Transvaal schools.

And, referring back to the French telefilm contracts, Parliamentary Opposition Party member and its chief protagonist for TV, Etienne Malan is quoted as reporting that the Agreement disclosed that the SABC would retain the rights on the films for two years from the date on which television was introduced in South Africa, and that the "First Showing" would be when the films were telecast over the whole television network of S. A.

The Agreement also provided, for some of the films having only one showing "over the telecasts" of S. A. and that there could be a first showing at no charge during the trial period when S. A. television was being started. Full payment would be made when the TV networks of the SABC come into normal operation.

The fog of repetitive and strong arguments for and against television in this country is still there, it is bound to be—keep any commodity in short supply and see what forms uppermost discussion, but it is lifting. It appears from current events that even those who oppose it, are beginning to admit and realise, though reluctantly, its advent.

Whether by change of policy or for any other reason, it is a fairly safe bet to proclaim that S.A.T.V. will see its first transmission before the end of 1968.

—S. M. KIRSCH

SOUTH KOREA

Korea Broadcasting System (KBS), government-owned, has been broadcasting through its Seoul station since 1961 and plans a network to cover the whole nation. Though monthly fees of 80¢ are collected from set-owners, commercials are also accepted. An earlier commercial station was burnt out and did not resume broadcasting, but Tongyang TV Company (DTV) took its place December 7, 1964. Receivers estimated at 65,000, mostly Japanese-made. The United Nations military command also operates a number of TV stations to entertain the troops.

SWEDEN

The Swedish TV began in the autumn of 1956. One station was organized in Stockholm and one in Gothenburg. An ordinary TV week in Stockholm sees about 14 hours of "live" programmes and six hours of film. Swedish, French, American (USA), British and Soviet pictures have been shown on TV and series like "The Perry Como Show", "20th Century", "Perry Mason", "Hitchcock Pre-

sents", "Gunsmoke", "Disneyland", "Robin Hood" (British) and "Colonel Flack".

The future for the Swedish TV seems very promising. As of January 1, 1963, Sweden had about 1,200,000 TV sets and about 30 transmitters.

—GOESTA ERKELL

SWITZERLAND

As of May 1, 1965 there were 551,332 TV sets in operation in Switzerland. 55 transmitters and boosters on the air, 31 in the German-speaking part of Switzerland, 13 in the French-speaking part and 11 in the Italian-speaking Tessin.

The French and German language stations schedule about 35 hours of programming a week each; the Italian language transmitters about 30 hours weekly.

All telecasting in Switzerland is government-controlled. On February 1, 1965 commercial TV was introduced on a limited basis: 12 minutes on weekdays at the utmost, at 6000 frs/minute. The PTT administration is responsible for the transmitters and technical equipment, while the Swiss Broadcasting and Television Corporation handles all programming. Annual licences cost 84 francs for private sets and 168 for public sets.

—ARTHUR GOEPFERT

THAILAND (Siam)

Thai Television Co., Ltd. began broadcasting 1955, now has five stations supervised by public relations department of Thai Government. Thai Army TV also operates one station. No licensing fees for sets which are estimated at about 200,000. Programs dubbed in Thai language but English-speaking viewers may get English dialogue separately from special arrangement with local radio station in Bangkok.

TURKEY

The T.V. transmitter of the Technical University of Istanbul is on the air every Thursday from 17 to 19 hours. The programme includes English lessons according to official announcements and music. Philips will start running shortly their own T.V. station located at their factory at Levent. German, British and American firms are interested for the construction of T.V. stations in various cities of Turkey as Ankara, Izmir and Istanbul.

In the meantime operators of various T.V. stations are visiting Turkey and interviewing the people of various subjects.

—PHEDON NAZLOGLOU

UNITED ARAB REPUBLIC

A TV Arab department under the direction of the general manager, Hassan Helmi, is advisor of The General Egyptian Organization for Motion Picture, Radio and TV, attached to the Ministry of Culture and National Guidance.

A central station in Cairo of about 160 hours transmission a week through three channels covering most of the U.A.R. areas with the exception of Asswan and Luxor which are covered by a local independent transmission station of three hours transmission daily.

U. A. R. TV follows the European technical transmission with an image of 825 scansions.

The TV receivers in use number 350,000. The Arabic TV department shoots a movie news review weekly and it is sent to 35 TV stations all over the world with which Arab TV exchanges cultural and documentary materials. TV in U.A.R. arranges for an annual TV festival to be held every year. The fourth international festival will be held in Alexandria from 1st to 10th September 1965.

—MARY PASCAL

VENEZUELA

There are three commercial television stations in Venezuela:

1. Radio Caracas Television: managing director, Amable Espina. Channels 2, 3, 7 and 10. RCA equipment. This is by far the best station, with very little unsold time. It is operating about 16 hours a day.

2. Vene-Vision, Channels 4 and 9. Managing Director Valeriano Humpierrez, Marconi Equipment. This station is the previous Televisa and was completely reorganized and revamped at the beginning of 1961. It has a strong A.B.C. interest. Operating seven hours daily.

3. Ondas del Lago Television. This is the only channel in Maracaibo. Managing Director—Nicolas Vale Quintero. Operating an average of five hours daily.

There is also one Government-owned station, *Televisora Nacional*, channel 5, operating about four hours every evening and admitting no advertising. The programs are mostly cultural, news and documentary.

All television equipment used in Venezuela is imported, mostly from the U.S.A. No statistics are made concerning the number of sets sold or used in the country. The number of sets is privately estimated at 350,000.

The legislation ruling television permits certain percentage of total time to be used for imported filmed programs. No difficulties have arisen in selling any imported programs because of the legislation. Two new channels have been authorized. Channel 8 owned by Juan Lorenzo Mendoza (Cedesa) and Channel 11 Radio Valencia TV of which Diego Cianeros is one of the shareholders.

YUGOSLAVIA

The Yugoslav television network entered with 1965 its seventh year of so-called experimental program. The regular operation of Yugoslav television, which claims to have about 350,000 receiving sets, has been postponed for another year.

The television has already completed several relay towers which helped the programs from Belgrade, Zagreb and Ljubljana, the three complete T.V. studios, reach considerable parts of Yugoslavia, especially in Macedonia, Bosnia and Dalmatia. The three big towers completed on the Bosnian and Macedonian mountains added another two to three million people being able receive the national programs, from any of the three television studios.

After several relay towers, including on the hill of Avala, near Belgrade, when completed soon will be 211 metres high, with a nice restaurant on its top. This one and two important in Macedonia will be completed in the course of this year.

The Yugoslav Government lifted the protection customs on imported television sets because the domestic production (under licences) cannot possibly meet the local demands. Two Yugoslav factories producing the television sets increased the production from about two hundred thousand last year to nearly four hundred thousands this year, but the high price remained the same—about two thousand dinars (300 dollars), which still can be bought on installment plan.

The advertisement services on Yugoslav television have increased greatly and have been modernized, with much more time devoted daily to advertisements, from Belgrade, Zagreb, Ljubljana and all other big towns and industrial towns.

All federal republics, except Montenegro, to which no Yugoslav television program has so far reached, pay 1,500 dinars monthly (two dollars) fee, and that will remain until Yugoslav television begins regular program operations.

With the improvement of relations between Yugoslavia and the Soviet Union, Yugoslavia normalized the relations with other members of the Russian block—the Eastern Europe—and by now the Yugoslav television concluded exchange arrangements of television films thus considerably improved the quality of the programs which last at an average 4 hours daily.

FOR 1966

The Industry's Audit of Personalities

FAME will again provide, as it has for 34 years, the only full-dress recognition of the people who create the leading productions of theatre screen and telecasting.

*Your Track Record Is A Must
In FAME For Industry Recognition!*

The Television Code

The Television Code

A NEW CODE of standards and practices for the television industry went into effect March 1, 1952 following a series of developments almost a year in the making.

The code is an aftermath of a meeting held in Washington in June, 1951 at which NBC made public a code of its own. Set up as a standard of operations in television, this code bore an essential resemblance to the instrument earlier adopted by the same network for radio broadcasting. Both NBC codes, a Code of Standards adopted for radio by the National Association of Broadcasters—predecessor organization of the National Association of Radio and Television Broadcasters—in Atlantic City in 1947 and now the industry-wide TV code, drew upon the Motion Picture Production Code for their pattern.

Four subcommittees were active in preparation of the television code throughout the summer of 1951. Their tentative draft was approved by the NARTB board in September and a final polishing job undertaken in Washington shortly before the text was ratified in Chicago, October 19, 1951.

The TV code provides for a review board consisting of five members of the NAB. This board is empowered to enforce the rules governing programming and advertising. There will be issued a Seal of Approval, available to subscribing members whether affiliated with NARTB or not. While the power to hold in check unfair and unscrupulous acts will be vested in the Review Board, the common impression in television is that this will be largely an unwritten power. The Review Board was increased to seven members in June, 1959, effective January 1, 1960.

In those phases that deal with programming and its approaches, the code bears striking similarity to the Motion Picture Production Code, conceived and formulated in 1929 by Martin Quigley, and ratified by the Motion Picture Producers and Distributors Association of America, Inc. which became the Motion Picture Association of America, Inc. late in 1945 when Eric Johnston was named president.

Meeting in Bandera, Tex. in February, TV board members of NAB approved a review board of five and adopted a plan for financing administration of the code as well as an operating budget of \$40,000 for the first year of operations.

There have been various revisions of the code over the years. This most recent edition, the tenth, is dated August, 1965.

Under the financing plan, each subscribing TV station pays an annual fee based on the highest hourly rate quoted on its rate card, up to a maximum of \$1,500. If it is an NAB member, \$250 of this is credited

against NAB dues, leaving the balance for defraying code.

The Code is copyrighted by the National Association of Broadcasters. The Code Authority maintains offices in Washington, New York and Hollywood. Howard H. Bell is director, with offices in Washington.

Text of the revised code follows:

Preamble

Television is seen and heard in every type of American home. These homes include children and adults of all ages, embrace all races and all varieties of religious faith, and reach those of every educational background. It is the responsibility of television to bear constantly in mind that the audience is primarily a home audience, and consequently that television's relationship to the viewers is that between guest and host.

The revenues from advertising support the free, competitive American system of telecasting, and make available to the eyes and ears of the American people the finest programs of information, education, culture and entertainment. By law the television broadcaster is responsible for the programming of his station. He, however, is obligated to bring his positive responsibility for excellence and good taste in programming to bear upon all who have a hand in the production of programs, including networks, sponsors, producers of film and of live programs, advertising agencies, and talent agencies.

The American businesses which utilize television for conveying their advertising messages to the home by pictures with sound, seen free-of-charge on the home screen, are reminded that their responsibilities are not limited to the sale of goods and the creation of a favorable attitude toward the sponsor by the presentation of entertainment. They include, as well, responsibility for utilizing television to bring the best programs, regardless of kind, into American homes.

Television, and all who participate in it are jointly accountable to the American public for respect for the special needs of children, for community responsibility, for the advancement of education and culture, for the acceptability of the program materials chosen, for decency and decorum in production, and for propriety in advertising. This responsibility cannot be discharged by any given group of programs, but can be discharged only through the highest standards of respect for the American home, applied to every moment of every program presented by television.

In order that television programming may best serve the public interest, viewers should be encouraged to make their criticisms and positive suggestions known to the television broadcasters. Parents in particular should be urged to see to it that out of the richness of television fare, the best programs are brought to the attention of their children.

I. Advancement of Education and Culture

1. Commercial television provides a valuable means of augmenting the educational and cultural influences of schools, institutions of higher learning, the home, the church, museums, foundations, and other institutions devoted to education and culture.

2. It is the responsibility of a television broadcaster to call upon such institutions for counsel and cooperation and to work with them on the best methods of presenting educational and cultural materials by television. It is further the responsibility of stations, networks, advertising agencies and sponsors consciously to seek opportunities for introducing into telecasts factual materials which will aid in the enlightenment of the American public.

3. Education via television may be taken to mean that process by which the individual is brought toward informed adjustment to his society. Television is also responsible for the presentation of

overtly instructional and cultural programs, scheduled so as to reach the viewers who are naturally drawn to such programs, and produced so as to attract the largest possible audience.

4. The television broadcaster should be thoroughly conversant with the educational and cultural needs and desires of the community served.

5. He should affirmatively seek out responsible and accountable educational and cultural institutions of the community with a view toward providing opportunities for the instruction and enlightenment of the viewers.

6. He should provide for reasonable experimentation in the development of programs specifically directed to the advancement of the community's culture and education.

7. It is in the interest of television as a vital medium to encourage and promote the broadcast of programs presenting genuine artistic or literary material, valid moral and social issues, significant controversial and challenging concepts and other subject matter involving adult themes. Accordingly, none of the provisions of this code, including those relating to the responsibility toward children, should be construed to prevent or impede their broadcast. All such programs, however, should be broadcast with due regard to the composition of the audience. The highest degree of care should be exercised to preserve the integrity of such programs and to ensure that the selection of themes, their treatment and presentation are made in good faith upon the basis of true instructional and entertainment values, and not for the purposes of sensationalism, to shock or exploit the audience or to appeal to prurient interests or morbid curiosity.

II. Responsibility Toward Children

1. The education of children involves giving them a sense of the world at large. It is not enough that only those programs which are intended for viewing by children shall be suitable to the young and immature. In addition, those programs which might be reasonably expected to hold the attention of children and which are broadcast during times of the day when children may be normally expected to constitute a substantial part of the audience should be presented with due regard for their effect on children.

2. Such subjects as violence and sex shall be presented without undue emphasis and only as required by plot development or character delineation. Crime should not be presented as attractive or as a solution to human problems, and the inevitable retribution should be made clear.

3. The broadcaster should afford opportunities for cultural growth as well as for wholesome entertainment.

4. He should develop programs to foster and promote the commonly accepted moral, social and ethical ideals characteristic of American life.

5. Programs should reflect respect for parents, for honorable behavior, and for the constituted authorities of the American community.

6. Exceptional care should be exercised with reference to kidnapping or threats of kidnapping of children in order to avoid terrorizing them.

7. Material which is excessively violent or would create morbid suspense, or other undesirable reactions in children, should be avoided.

8. Particular restraint and care in crime or mystery episodes involving children or minors, should be exercised.

III. Community Responsibility

1. A television broadcaster and his staff occupy a position of responsibility in the community and should conscientiously endeavor to be acquainted fully with its needs and characteristics in order better to serve the welfare of its citizens.

2. Requests for time for the placement of public service announcements or programs should be carefully reviewed with respect to the character and reputation of the group, campaign or organization involved, the public interest content of the message, and the manner of its presentation.

IV. General Program Standards

1. Program materials should enlarge the horizons of the viewer, provide him with wholesome entertainment, afford helpful stimulation, and remind him of the responsibilities which the citizen has toward his society. The intimacy and confidence placed in Television demand of the broadcaster, the network and other program sources that they be vigilant in protecting the audience from deceptive program practices.

2. Profanity, obscenity, smut and vulgarity are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

3. Words (especially slang) derisive of any race, color, creed, nationality or national derivation, except wherein such usage would be for the specific purpose of effective dramatization such as combating prejudice, are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

4. Racial or nationality types shall not be shown on television in such a manner as to ridicule the race or nationality.

5. Attacks on religion and religious faiths are not allowed. Reverence is to mark any mention of the name of God. His attributes and powers. When religious rites are included in other than religious programs the rites shall be accurately presented. The office of minister, priest or rabbi shall not be presented in such a manner as to ridicule or impair its dignity.

6. Respect is maintained for the sanctity of marriage and the value of the home. Divorce is not treated casually as a solution for marital problems.

7. In reference to physical or mental afflictions and deformities, special precautions must be taken to avoid ridiculing sufferers from similar ailments and offending them or members of their families.

8. Excessive or unfair exploitation of others or of their physical or mental afflictions shall not be presented as praiseworthy. The presentation of cruelty, greed and selfishness as worthy motivations is to be avoided.

9. Law enforcement shall be upheld and, except where essential to the program plot, officers of the law portrayed with respect and dignity.

10. Legal, medical and other professional advice, diagnosis and treatment will be permitted only in conformity with law and recognized ethical and professional standards.

11. The use of animals both in the production of television programs and as part of television program content, shall at all times, be in conformity with accepted standards of humane treatment.

12. Care should be exercised so that cigarette smoking will not be depicted in a manner to impress the youth of our country as a desirable habit worthy of imitation.

13. Criminality shall be presented as undesirable and unsympathetic. The condoning of crime and the treatment of the commission of crime in a frivolous, cynical or callous manner is unacceptable. The presentation of techniques of crime in such detail as to invite imitation shall be avoided.

14. The presentation of murder or revenge as a motive for murder shall not be presented as justifiable.

15. Suicide as an acceptable solution for human problems is prohibited.

16. Illicit sex relations are not treated as commendable. Sex crimes and abnormalities are generally unacceptable as program material. The use of locations closely associated with sexual life or with sexual sin must be governed by good taste and delicacy.

17. Drunkenness should never be presented as desirable or prevalent. The use of liquor in program content shall be de-emphasized. The consumption of liquor in American life, when not required by the plot or for proper characterization, shall not be shown.

18. Narcotic addiction shall not be presented except as a vicious habit. The administration of illegal drugs will not be displayed.

19. The use of gambling devices or scenes necessary to the development of plot or as appropriate

background is acceptable only when presented with discretion and in moderation, and in a manner which would not excite interest in, or foster, betting nor be instructional in nature.

20. Telecasts of actual sport programs at which on-the-scene betting is permitted by law should be presented in a manner in keeping with Federal, state and local laws, and should concentrate on the subject as a public sporting event.

21. Program material pertaining to fortune-telling, occultism, astrology, phrenology, palm-reading, numerology, mind reading, or character-reading, is unacceptable when presented for the purpose of fostering belief in these subjects.

22. Quiz and similar programs that are presented as contests of knowledge, information, skill or luck must, in fact, be genuine contests and the results must not be controlled by collusion with or between contestants, or any other action which will favor one contestant against any other.

23. No program shall be presented in a manner which through artifice or simulation would mislead the audience as to any material fact. Each broadcaster must exercise reasonable judgment to determine whether a particular method of presentation would constitute a material deception, or would be accepted by the audience as normal theatrical illusion.

24. The appearances or dramatization of persons featured in actual crime news will be permitted only in such light as to aid law enforcement or to report the news event.

25. The use of horror for its own sake will be eliminated; the use of visual or aural effects which would shock or alarm the viewer, and the detailed presentation of brutality or physical agony by sight or by sound are not permissible.

26. Contests may not constitute a lottery.

27. Any telecasting designed to "buy" the television audience by requiring it to listen and/or view in hope of reward rather than for the quality of the program, should be avoided.

28. The costuming of all performers shall be within the bounds of propriety and shall avoid such exposure or such emphasis on anatomical detail as would embarrass or offend home viewers.

29. The movements of dancers, actors, or other performers shall be kept within the bounds of decency, and lewdness and impropriety shall not be suggested in the positions assumed by performers.

30. Camera angles shall avoid such views of performers as to emphasize anatomical details indecently.

31. The use of the television medium to transmit information of any kind by the use of the process called "subliminal perception," or by the use of any similar technique whereby an attempt is made to convey information to the viewer by transmitting messages below the threshold of normal awareness, is not permitted.

32. The broadcaster shall be constantly alert to prevent activities that may lead to such practices as the use of scenic properties, the choice and identification of prizes, the selection of music and other creative program elements and inclusion of any identification of commercial products or services, their trade names or advertising slogans, within a program dictated by factors other than the requirements of the program itself. The acceptance of cash payments or other considerations in return for including any of the above within the program is prohibited except in accordance with Sections 317 and 508 of the Communications Act.

33. A television broadcaster should not present fictional events or other non-news material as authentic news telecasts or announcements, nor should he permit dramatizations in any program which would give the false impression that the dramatized material constitutes news. Expletives (presented aurally or pictorially) such as "flash" or "bulletin" and statements such as "we interrupt this program to bring you . . ." should be reserved specifically for news room use. However, a television broadcaster may properly exercise discretion in the use in non-news programs of words or phrases which do not necessarily imply that the material following is a news release.

34. Program content should be confined to those

elements which entertain or inform the viewer and to the extent that titles, teasers and credits do not meet these criteria, they should be restricted or eliminated.

35. Hypnosis, either as fiction or in fact should be presented with proper precautions to avoid adverse effects on the viewing audience.

V. Treatment of News and Public Events

News

1. A television station's news schedule should be adequate and well-balanced.

2. News reporting should be factual, fair and without bias.

3. A television broadcaster should exercise particular discrimination in the acceptance, placement and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.

4. At all times, pictorial and verbal material for both news and comment should conform to other sections of these standards, wherever such sections are reasonably applicable.

5. Good taste should prevail in the selection and handling of news:

Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided.

News should be telecast in such a manner as to avoid panic and unnecessary alarm.

6. Commentary and analysis should be clearly identified as such.

7. Pictorial material should be chosen with care and not presented in a misleading manner.

8. All news interview programs should be governed by accepted standards of ethical journalism, under which the interviewer selects the questions to be asked. Where there is advance agreement materially restricting an important or newsworthy area of questioning, the interviewer will state on the program that such limitation has been agreed upon. Such disclosure should be made if the person being interviewed requires that questions be submitted in advance or if he participates in editing a recording of the interview prior to its use on the air.

9. A television broadcaster should exercise due care in his supervision of content, format, and presentation of newscasts originated by his station, and in his selection of newscasters, commentators, and analysts.

PUBLIC EVENTS

1. A television broadcaster has an affirmative responsibility at all times to be informed of public events, and to provide coverage consonant with the ends of an informed and enlightened citizenry.

2. The treatment of such events by a television broadcaster should provide adequate and informed coverage.

VI. Controversial Public Issues

1. Television provides a valuable forum for the expression of responsible views on public issues of a controversial nature. The television broadcaster should seek out and develop with accountable individuals, groups and organizations, programs relating to controversial public issues of import to his fellow citizens; and to give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. Requests by individuals, groups or organizations for time to discuss their views on controversial public issues, should be considered on the basis of their individual merits, and in the light of the contribution which the use requested would make to the public interest, and to a well-balanced program structure.

3. Programs devoted to the discussion of controversial public issues should be identified as such. They should not be presented in a manner which would mislead listeners or viewers to believe that the program is purely of an entertainment, news, or other character.

4. Broadcasts in which stations express their own opinions about issues of general public interest should be clearly identified as editorial. They should be unmistakably identified as statements of station opinion and should be appropriately distinguished from news and other program material.

VII. Political Telecasts

1. Political telecasts should be clearly identified as such. They should not be presented by a television broadcaster in a manner which would mislead listeners or viewers to believe that the program is of any other character.

(Ref.: Communications Act of 1934, as amended, Secs. 315 and 317, and FCC Rules and Regulations, Secs. 3.654, 3.657, 3.663, as discussed in NAB's "A Political Catechism.")

VIII. Religious Programs

1. It is the responsibility of a television broadcaster to make available to the community appropriate opportunity for religious presentations.

2. Telecasting which reaches men of all creeds simultaneously should avoid attacks upon religion.

3. Religious programs should be presented respectfully and accurately and without prejudice or ridicule.

4. Religious programs should be presented by responsible individuals, groups and organizations.

5. Religious programs should place emphasis on broad religious truths, excluding the presentation of controversial or partisan views not directly or necessarily related to religion or morality.

6. In the allocation of time for telecasts of religious programs the television station should use its best efforts to apportion such time fairly among the representative faith groups of its community.

IX. General Advertising Standards

1. This Code establishes basic standards for all television broadcasting. The principles of acceptability and good taste within the Program Standards section govern the presentation of advertising where applicable. In addition, the Code establishes in this section special standards which apply to television advertising.

2. A commercial television broadcaster makes his facilities available for the advertising of products and services and accepts commercial presentations for such advertising. However, a television broadcaster should, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements.

3. Identification of sponsorship must be made in all sponsored programs in accordance with the requirements of the Communications Act of 1934, as amended, and the Rules and Regulations of the Federal Communications Commission.

4. In consideration of the customs and attitudes of the communities served, each television broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. These standards should be applied with judgment and flexibility, taking into consideration the characteristics of the medium, its home and family audience, and the form and content of the particular presentation.

5. The advertising of hard liquor (distilled spirits) is not acceptable.

6. The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable only subject to Federal and local laws.

7. The advertising of cigarettes should not be presented in a manner to convey the impression that cigarette smoking promotes health or is important to personal development of the youth of our country.

8. Advertising by institutions or enterprises which in their offers of instruction imply promises of employment or make exaggerated claims for the opportunities awaiting those who enroll for courses is generally unacceptable.

9. The advertising of firearms and fireworks is acceptable only subject to Federal and local laws.

10. The advertising of fortune-telling, occultism, astrology, phrenology, palm-reading, numerology, mind-reading, character reading or subjects of a like nature is not permitted.

11. Because all products of a personal nature create special problems, such products, when accepted, should be treated with especial emphasis on ethics and the canons of good taste. Such advertising of personal products as is accepted must be presented in a restrained and obviously inoffensive manner. The advertising of particularly intimate products which ordinarily are not freely mentioned or discussed is not acceptable. (See *Television Code Interpretation No. 3*)

12. The advertising of tip sheets, race track publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is unacceptable.

13. An advertiser who markets more than one product should not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

14. "Bait-switch" advertising, whereby goods or services which the advertiser has no intention of selling are offered merely to lure the customer into purchasing higher-priced substitutes, is not acceptable.

15. Personal endorsements (testimonials) shall be genuine and reflect personal experience. They shall contain no statement that cannot be supported if presented in the advertiser's own words.

X. Presentation of Advertising

1. Advertising messages should be presented with courtesy and good taste; disturbing or annoying material should be avoided; every effort should be made to keep the advertising message in harmony with the content and general tone of the program in which it appears.

2. The role and capability of television to market sponsors' products are well recognized. In turn, this fact dictates that great care be exercised by the broadcaster to prevent the presentation of false, misleading or deceptive advertising. While it is entirely appropriate to present a product in a favorable light and atmosphere, the presentation must not, by copy or demonstration, involve a material deception as to the characteristics, performance or appearance of the product.

3. The broadcaster and the advertiser should exercise special caution with the content and presentation of television commercials placed in or near programs designed for children. Exploitation of children should be avoided. Commercials directed to children should in no way mislead as to the product's performance and usefulness. Appeals involving matters of health which should be determined by physicians should not be directed primarily to children.

4. Appeals to help fictitious characters in television programs by purchasing the advertiser's product or service or sending for a premium should not be permitted, and such fictitious characters should not be introduced into the advertising message for such purposes.

5. Commercials for services or over-the-counter products involving health considerations are of intimate and far-reaching importance to the consumer. The following principles should apply to such advertising:

a. Physicians, dentists or nurses, or actors representing physicians, dentists or nurses shall not be employed directly or by implication. These restrictions also apply to persons professionally engaged in medical services (e.g., physical therapists, pharmacists, dental assistants, nurses' aides).

b. Visual representations of laboratory settings may be employed, provided they bear a direct relationship to bona fide research which has been conducted for the product or service. (See Code, N. 10.) In such cases, laboratory technicians shall be identified as such and shall not be employed as spokesmen or in any other way speak on behalf of the product.

c. Institutional announcements not intended to sell a specific product or service to the consumer and public service announcements by non-profit organizations may be presented by accredited physicians, dentists or nurses, subject to approval by the broadcaster. An accredited professional is one who has met required qualifications and has been licensed in his resident state.

6. Advertising copy should contain no claims dealing unfairly with competitors, competing products, or other industries, professions or institutions.

7. A sponsor's advertising messages should be confined within the framework of the sponsor's program structure. A television broadcaster should avoid the use of commercial announcements which are divorced from the program either by preceding the introduction of the program (as in the case of so-called "cow-catcher" announcements) or by following the apparent sign-off of the program (as in the case of so-called trailer or "hitch-hike" announcements). To this end, the program itself should be announced and clearly identified, both audio and video, before the sponsor's advertising material is first used, and should be signed off, both audio and video, after the sponsor's advertising material is last used.

8. Since advertising by television is a dynamic technique, a television broadcaster should keep under surveillance new advertising devices so that the spirit and purpose of these standards are fulfilled.

9. A charge for television time to churches and religious bodies is not recommended.

10. Reference to the results of bona fide research, surveys or tests relating to the product to be advertised shall not be presented in a manner so as to create an impression of fact beyond that established by the work that has been conducted.

XI. Advertising of Medical Products

1. The advertising of medical products presents considerations of intimate and far-reaching importance to the consumer because of the direct bearing on his health.

2. Because of the personal nature of the advertising of medical products, claims that a product will effect a cure and the indiscriminate use of such words as "safe", "without risk", "harmless", or terms of similar meaning should not be accepted in the advertising of medical products on television stations.

3. A television broadcaster should not accept advertising material which in his opinion offensively describes or dramatizes distress or morbid situations involving ailments, by spoken word, sound or visual effects.

XII. Contests

1. Contests shall be conducted with fairness to all entrants, and shall comply with all pertinent laws and regulations. Care should be taken to avoid the concurrent use of the three elements which together constitute a lottery—prize, chance and consideration.

2. All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced and/or shown, or easily accessible to the viewing public, and the winners' names should be released and prizes awarded as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of products, reasonable facsimiles thereof should be made acceptable unless the award is based upon skill and not upon chance.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided. (See *Television Code, XIV*)

XIII. Premiums and Offers

1. Full details of proposed offers should be required by the television broadcaster for investigation and approved before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. Before accepting for telecast offers involving a monetary consideration, a television broadcaster should satisfy himself as to the integrity of the advertiser and the advertiser's willingness to honor complaints indicating dissatisfaction with the premium by returning the monetary consideration.

4. There should be no misleading descriptions or visual representations of any premiums or gifts

which would distort or enlarge their value in the minds of the viewers.

5. Assurances should be obtained from the advertiser that premiums offered are not harmful to person or property.

6. Premiums should not be approved which appeal to superstition on the basis of "luck-bearing" powers or otherwise.

XIV. Time Standards for Advertising

In accordance with good telecast advertising practice; the time standards for commercial material are as follows:

1. Prime Time [Programs]

Definition: A continuous period of not less than three evening hours per broadcast day as designated by the station. Commercial material, including total station break time, in prime time shall not exceed 17.2% (10 minutes and 20 seconds) in any 60-minute period. Not more than three announcements shall be scheduled consecutively. Commercial material in prime time includes billboards, public service announcements, promotional announcements (except for those for the same program) and "below the line" credits as well as commercial copy. (See *Television Code Interpretation No. 5*)

2. All Other Time [Programs]

Definition: All time other than prime time. Commercial material, including total station break time, within any 60-minute period may not exceed 27.2% (16 minutes and 20 seconds). Individual programs of 5 minutes duration may include commercial material not in excess of 1 minute and 15 seconds and individual programs of 10 minutes duration may include commercial material not in excess of 2 minutes and 10 seconds. Not more than three announcements shall be scheduled consecutively. Commercial material in *all other times* does not include public service announcements, promotional announcements and opening and closing billboards which give sponsor identification.

3. Station Breaks

Definition: Station breaks are those periods of time between programs, or within a program as designated by the program originator, which are set aside for local station identification and spot announcements. In prime time a station break shall consist of not more than two commercial announcements plus non-commercial copy such as station identification, public service or promotional announcements. Total station break time in any 30-minute period may not exceed 1 minute and 10 seconds. In other than prime time individual station breaks shall consist of not more than two commercial announcements plus the conventional sponsored 10-second ID and shall not exceed 2 minutes and 10 seconds. Station break announcements shall not adversely affect a preceding or following program.

4. Multiple Product Announcements

A multiple product announcement is one in which two or more products or services are presented within the framework of a single announcement. (1) Only those multiple product announcements which meet the following criteria shall be counted under the Code (Section XIV, 1, 2, 3) as a single announcement: (a) The products or services are related in character, purpose or use; and (b) The products or services are so treated in audio and video throughout the announcement as to appear to the viewer as a single announcement; and (c) The announcement is so constructed that it cannot be divided into two or more separate announcements. (2) Multiple product announcements not meeting the criteria of 4(1) above (commonly referred to as "piggybacks") shall be counted as two or more announcements under this section of the Code. (3) Multiple product announcements of retail or service establishments are exempted from the provisions of (1)(a) above.

5. Prize Identification

Reasonable and limited identification of prize and statement of the donor's name within formats where in the presentation of contest awards or prizes is a necessary and integral part of program content shall not be included as commercial time within the meaning of paragraphs 1 and 2. above; however, any aural or visual presentation concerning the product or its donor, over and beyond such identification

and statement, shall be included as commercial time within the meaning of paragraph 1, above. (See *Television Code Interpretation No. 4*)

6. Care should be exercised in the selection, placement and integration of non-program material in order to avoid adversely affecting the program content or diminishing audience interest.

7. Programs presenting women's services, features, shopping guides, fashion shows, demonstrations and similar material with genuine audience interest provide a special service to the viewing public in which what ordinarily might be considered advertising material is an informative and necessary part of the program content. Because of this, the Time Standards may be waived to a reasonable extent and limited frequency. The Code Authority will evaluate each such program on its own merits.

8. Except for normal guest identifications, any casual reference by talent in a program to another's product or service under any trade name or language sufficient to identify it should be condemned and discouraged.

9. Stationary backdrops or properties in television presentations showing the sponsor's name or product, the name of his product, his trade-mark or slogan may be used only incidentally. They should not obtrude on program interest or entertainment. "On Camera" shots of such materials should be fleeting, not too frequent, and mindful of the need of maintaining a proper program balance.

10. Each opening and closing billboard, regardless of the number of sponsors, shall not exceed 10 seconds in program periods of one half-hour or less, or in the ratio of 10 seconds of opening and closing billboard per 30 minutes of program time in periods exceeding 30 minutes, provided that a billboard for any one sponsor at no time shall exceed 20 seconds in programs exceeding 30 minutes.

11. Billboard language may not include a commercial message and should be confined to the sponsor's name, product and established claim or slogan. Billboards should not mention contests, premiums, offers or special sales.

REGULATIONS AND PROCEDURES

The following regulations and procedures shall obtain as an integral part of the Television Code of the National Association of Broadcasters:

I

Name
The name of this Code shall be *The Television Code of the National Association of Broadcasters.*"

II

Purpose of the Code

The purpose of this Code is cooperatively to maintain a level of television programming which gives full consideration to the educational, informational, cultural, economic, moral and entertainment needs of the American public to the end that more and more people will be better served.

III

Subscribers

Section 1. ELIGIBILITY

Any individual, firm or corporation which is engaged in the operation of a television broadcast station or network, or which holds a construction permit for a television broadcast station within the United States or its dependencies, shall, subject to the approval of the Television Board of Directors as hereinafter provided, be eligible to subscribe to the Television Code of the NAB to the extent of one subscription for each such station and/or network which it operates or for which it holds a construction permit; provided, that a non television member of NAB shall not become eligible via

**By-Laws of the National Association of Broadcasters. Article VI, section 8.C. "Television Board. The Television Board is hereby authorized:—(4) to enact, amend and promulgate standards of practice or codes for its Television members, and to establish such methods to secure observance thereof as it may deem advisable.—"*

code subscription to receive any of the member services or to exercise any of the voting privileges of a member.

Section 2. CERTIFICATION OF SUBSCRIPTION

Upon subscribing to the Code, subject to the approval of the Television Board of Directors, there shall be granted forthwith to each such subscribing station authority to use the "NAB Television Seal of Good Practice," a copyrighted and registered seal to be provided in the form of a certificate, a slide and/or a film, signifying that the recipient thereof is a subscriber in good standing to the Television Code of the NAB. The seal and its significance shall be appropriately publicized by the NAB.

Section 3. DURATION OF SUBSCRIPTION

Subscription shall continue in full force and effect until thirty days after the first of the month following receipt of notice of written resignation. Subscription to the Code shall be effective from the date of application subject to the approval of the Television Board of Directors; provided, that the subscription of a television station going on the air for the first time shall, for the first six months of such subscription, be probationary, during which time its subscription can be summarily revoked by an affirmative two-thirds vote of the Television Board of Directors without the usual processes specified below.

Section 4. SUSPENSION OF SUBSCRIPTION

Any subscription, and/or the authority to utilize and show the above-noted seal, may be voided, revoked or temporarily suspended for television programming, including commercial copy, which, by theme, treatment or incident, in the judgment of the Television Board constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by an affirmative two-thirds vote of the Television Board of Directors at a regular or special meeting; provided, however, that the following conditions and procedures shall apply:

A. Preferring of Charges—Conditions Precedent:

Prior to the preferring of charges to the Television Board of Directors concerning violation of the Code by a subscriber, the Television Code Review Board (hereinafter provided for) (1) Shall have appropriately, and in good time, informed and advised such subscriber of any and all complaints and information coming to the attention of the Television Code Review Board and relating to the programming of said subscriber, (2) Shall have reported to, and advised, said subscriber by analysis, interpretation, recommendation or otherwise, of the possibility of a violation or breach of the Television Code by the subscriber, and (3) Shall have served upon the subscriber by Registered Mail a Notice of Intent to prefer charges, at least twenty days prior to the filing of any such charges with the Television Board of Directors. During this period the Television Code Review Board, may within its sole discretion, reconsider its proposed action based upon such written reply as the subscriber may care to make, or upon such action as the subscriber may care to take program-wise, in conformance with the analysis, interpretation, or recommendation of the Television Code Review Board.

(i) Notice of Intent

The Notice of Intent shall include a statement of the grounds and reasons for the proposed charges, including appropriate references to the Television Code.

(ii) Time

In the event that the nature of the program in question is such that time is of the essence, the Television Code Review Board may prefer charges within less than the twenty days above specified, provided that a time certain in which reply may be made is included in its Notice of Intent, and provided that its reasons therefor must be specified in its statement of charges preferred.

B. The Charges:

The subscriber shall be advised in writing by

Registered Mail of the charges preferred. The charges preferred by the Television Code Review Board to the Television Board of Directors shall include the grounds and reasons therefor, together with specific references to the Television Code. The charges shall contain a statement that the conditions precedent, hereinbefore described, have been met.

C. Hearing:

The subscriber shall have the right to a hearing and may exercise same by filing an answer within 10 days of the date of such notification.

D. Waiver:

Failure to request a hearing shall be deemed a waiver of the subscriber's right thereto.

E. Designation:

If hearing is requested by the subscriber, it shall be designated as promptly as possible and at such time and place as the Television Board may specify.

F. Confidential Status:

Hearings shall be closed; and all correspondence between a subscriber and the Television Code Review Board and/or the Television Board of Directors concerning specific programming shall be confidential; provided, however, that the confidential status of these procedures may be waived by a subscriber.

G. Presentation; Representation:

A subscriber against whom charges have been preferred, and who has exercised his right to a hearing, shall be entitled to effect presentation of his case personally, by agent, by attorney, or by deposition and interrogatory.

H. Intervention:

Upon request by the subscriber-respondent or the Television Code Review Board, the Television Board of Directors, in its discretion, may permit the intervention of one or more other subscribers as parties-in-interest.

I. Transcript:

A stenographic transcript record shall be taken and shall be certified by the Chairman of the Television Board of Directors to the office of the Secretary of the National Association of Broadcasters, where it shall be maintained. The transcript shall not be open to inspection unless otherwise provided by the party respondent in the proceeding.

J. Television Code Review Board; Counsel:

The Television Code Review Board may, at its discretion, utilize the services of an attorney from the staff of the NAB for the purpose of effecting its presentation in a hearing matter.

K. Order of Procedure:

At hearings, the Television Code Review Board shall open and close.

L. Cross-Examination:

The right of cross-examination shall specifically obtain. Where procedure has been by deposition or interrogatory, the use of cross-interrogatories shall satisfy this right.

M. Presentation:

Oral and written evidence may be introduced by the subscriber and by the Television Code Review Board. Oral argument may be had at the hearing and written memoranda or briefs may be submitted by the subscriber and by the Television Code Review Board. The Television Board of Directors may admit such evidence as it deems relevant, material and competent, and may determine the nature and length of the oral argument and the written argument or briefs.

N. Authority of Presiding Officer; of Television Board of Directors:

The Presiding Officer shall rule upon all inter-

locutory matters, such as, but not limited to, the admissibility of evidence, the qualifications of witnesses, etc. On all other matters, authority to act shall be vested in a majority of the Television Board unless otherwise provided.

O. Films, Transcriptions, etc.:

Films, kinescopes, records, transcriptions, or other mechanical reproductions of television programs, properly identified, shall be accepted into evidence when relevant.

P. Continuances and Extensions:

Continuance and extension of any proceeding or for the time of filing or performing any act required or allowed to be done within a specific time may be granted upon request, for a good cause shown. The Board or the Presiding Officer may recess or adjourn a hearing for such time as may be deemed necessary, and may change the place thereof.

Q. Findings and Conclusions:

The Television Board of Directors shall decide the case as expeditiously as possible and shall notify the subscriber and the Television Code Review Board, in writing, of the decision. The decision of the Television Board of Directors shall contain findings of fact with conclusions, as well as the reasons or bases therefor. Findings of fact shall set out in detail and with particularity all basic evidentiary facts developed on the record (with appropriate citations to the transcript of record or exhibit relied on for each evidentiary fact) supporting the conclusion reached.

R. Reconsideration or Rehearing:

A request for reconsideration or rehearing may be filed by parties to the hearing. Requests for reconsideration or rehearing shall state with particularity in what respect the decision or any matter determined therein is claimed to be unjust, unwarranted, or erroneous, and with respect to any finding of fact shall specify the pages of record relied on. If the existence of any newly-discovered evidence is claimed, the request shall be accompanied by a verified statement of the facts together with the facts relied on to show that the party, with due diligence, could not have known or discovered such facts at the time of the hearing. The request for rehearing may seek:

- a. Reconsideration
- b. Additional oral argument
- c. Reopening of the proceedings
- d. Amendment of any findings, or
- e. Other relief.

S. Time for Filing:

Requests for reconsideration or rehearing shall be filed within ten (10) days after receipt by the respondent of the decision. Opposition thereto may be filed within five (5) days after the filing of the request.

T. Penalty, Suspension of:

At the discretion of the Television Board, application of any penalty provided for in the decision may be suspended until the Board makes final disposition of the request for reconsideration or rehearing.

U. Disqualification:

Any member of the Television Board may disqualify himself, or upon good cause shown by any interested party, may be disqualified by a majority vote of the Television Board.

Section 5. ADDITIONAL PROCEDURES

When necessary to the proper administration of the Code, additional rules of procedure will be established from time to time as authorized by the By-Laws of the NAB; in keeping therewith, special consideration shall be given to the procedures for receipt and processing of complaints and to necessary rules to be adopted from time to time, taking into account the source and nature of such

complaints; such rules to include precautionary measures such as the posting of bonds to cover costs and expenses of processing same; and further provided that special consideration will be given to procedures insuring the confidential status of proceedings relating to Code observance.

Section 6. AMENDMENT AND REVIEW

Because of the new and dynamic aspects inherent in television broadcast, the Television Code, as a living, flexible and continuing document, may be amended from time to time by the Television Board of Directors; provided that said Board is specifically charged with review and reconsideration of the entire Code, its appendices and procedures, at least once each year.

Section 7. TERMINATION OF CONTRACTS

All subscribers on the air at the time of subscription to the Code shall be permitted that period prior to and including the earliest legal cancellation date to terminate any contracts, then outstanding, calling for program presentations which would not be in conformity with the Television Code, provided, however, that in no event shall such period be longer than fifty-two weeks.

IV

Affiliate Subscribers

Section 1. ELIGIBILITY

Any individual, firm or corporation, which is engaged in the production or distribution, lease, or sale of recorded programs for television presentation, subject to the approval of the Television Code Review Board as hereinafter provided, shall be eligible to become an affiliate subscriber to the Television Code of the NAB.

Section 2. CERTIFICATION OF SUBSCRIPTION

Upon becoming an affiliate subscriber to the Code, subject to the approval of the Television Code Review Board, there shall be granted forthwith to each such affiliate subscriber authority to use a copyrighted and registered seal and declaration, in a manner approved by the Television Code Review Board, identifying the individual firm or corporation as an affiliate subscriber to the Television Code of the NAB. Such authority shall not constitute formal clearance or approval by the Television Code Review Board of specific film programs or other recorded material.

Section 3. DURATION OF AFFILIATE SUBSCRIPTION

The affiliate subscription shall continue in full force and effect until thirty days after the first of the month following receipt of a written notice of resignation. The affiliate subscription to the Code shall be effective from the date of application subject to the approval of the Television Code Review Board.

Section 4. SUSPENSION OF AFFILIATE SUBSCRIPTION

Any affiliate subscription and the authority to utilize and show the above-noted seal may be voided, revoked, or temporarily suspended for the sale or distribution for television presentation of any film or other recorded material which by theme, treatment, or incident, in the judgment of the Television Code Review Board, constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by a majority vote of the Television Code Review Board at any regular or special meeting. The conditions and procedures applicable to subscribers shall not apply to affiliate subscribers.

Section 5. REPRESENTATION OF AFFILIATE SUBSCRIBERS

Any affiliate subscriber or group of affiliate subscribers may authorize an individual or association to act for them in connection with their relations with the Television Code Review Board by filing a written notice of such representation with the Board. Such representation, however, in no way will limit the right of the Television Code Review Board to suspend individual affiliate subscribers in accordance with the provisions of Section 4.

V

Rates

Each subscriber and affiliate subscriber shall pay 'administrative' rates in accordance with such schedule, at such time, and under such conditions as may be determined from time to time by the Television Board (see Article VI, section 8, C. Television Board (3) and (4), By-Laws of the NAB); provided, that appropriate credit shall be afforded to a television member of the NAB against the regular dues which he or it pays to NAB.

VI*

The Television Code Review Board

Section 1. COMPOSITION

There shall be a continuing committee entitled the Television Code Review Board to be composed of not more than nine members, all of whom shall be from subscribers to the Television Code. They shall be appointed by the President of the NAB, subject to confirmation by the Television Board, and may include one member from each of the subscribing nationwide television networks. Members of the Television Board shall not be eligible to serve on the Review Board. Due consideration shall be given, in making the appointments, to factors of diversification of geographical location, market size, company representation and network affiliation.

No person shall continue as a member of the Television Code Review Board if the station or entity he represents ceases to subscribe to the Television Code. In such case a vacancy occurs in the office immediately, and a successor may be appointed to serve out the unexpired term.

All terms shall be for two years, commencing at the close of the annual meeting of the membership following appointment.

A. Limitation of Service:

No person shall serve for more than two terms of two years each, consecutively, as a member of the Television Code Review Board; provided, however, this limitation shall not apply to network representatives.

Serving out the unexpired term of a former member shall not constitute a term within the meaning of this section.

B. Meetings:

The Television Code Review Board shall meet at least twice in each calendar year on a date to be determined by the Chairman. The Chairman, or the Code Authority Director, may, at any time, on at least five days written notice, call a special meeting of the Board.

C. Quorum:

For all purposes, a majority of the members of the Television Code Review Board shall constitute a quorum.

Section 2. AUTHORITY AND RESPONSIBILITIES

The Television Code Review Board is authorized and directed:

(1) To recommend to the Television Board of Directors amendments to the Television Code; (2) to consider, in its discretion, any appeal from any decision made by the Code Authority Director with respect to any matter which has arisen under the Code, and to suspend, reverse, or modify any such decision; (3) to prefer formal charges, looking toward the suspension or revocation of the authority to show the Code Seal, to the Television Board of Directors concerning violations and breaches of the Television Code by a subscriber; (4) to be available to the Code Authority Director for consultation on any and all matters affecting the Television Code.

VII*

Code Authority Director

Section 1. DIRECTOR

There shall be a position designated as the Code Authority Director. This position shall be filled by appointment of the President of NAB, subject to the approval of the Board of Directors.

*As amended by the NAB Television Board of Directors, February 2, 1962.

Section 2. AUTHORITY AND RESPONSIBILITIES

The Code Authority Director is authorized and directed: (1) To maintain a continuing review of all programming and advertising material presented over television, especially that of subscribers to the Television Code of NAB; (2) to receive, screen and clear complaints concerning television programming; (3) to define and interpret words and phrases in the Television Code; (4) to develop and maintain appropriate liaison with governmental agencies and with responsible and accountable organizations and institutions; (5) to inform, expeditiously and properly, a subscriber to the Television Code of complaints or commendations, as well as to advise all subscribers concerning the attitudes and desires program-wise of accountable organizations and institutions, and of the American public in general; (6) to review and monitor, if necessary, any certain series of programs, daily programming, or any other program presentations of a subscriber, as well as to request recorded material, or script and copy, with regard to any certain program presented by a subscriber; (7) to reach conclusions and make recommendations or prefer charges to the Television Code Review Board concerning violations and breaches of the Television Code by a subscriber; (8) to recommend to the Code Review Board amendments to the Television Code.

A. Delegation of Powers and Responsibilities:

The Code Authority Director shall appoint such executive staff as is needed, consistent with resources, to carry out the above described functions, and may delegate to this staff such responsibilities as he may deem necessary.

INTERPRETATIONS OF THE TELEVISION CODE

Interpretation No. 1

June 7, 1956, Revised June 9, 1958
"Pitch" Programs

The "pitchman" technique of advertising on television is inconsistent with good broadcast practice and generally damages the reputation of the industry and the advertising profession.

Sponsored program-length segments consisting substantially of continuous demonstrations or sales presentation, violate not only the time standards established in the Code but the broad philosophy of improvement implicit in the voluntary Code operation and are not acceptable.

Interpretation No. 2

June 7, 1956
Hollywood Film Promotion

The presentation of commentary or film excerpts from current theatrical releases in some instances may constitute commercial material under the Time

Standards for Advertising. Specifically, for example, when such presentation, directly or by inference, urges viewers to attend, it shall be counted against the commercial allowance for the program of which it is a part.

Interpretation No. 3

June 7, 1956
Non-Acceptability of Particularly Intimate Products

Paragraph 11 of the General Advertising Standards reads in part, "The advertising of particularly intimate products which ordinarily are not freely mentioned or discussed is not acceptable."

Products for the treatment of hemorrhoids and for use in connection with feminine hygiene are not acceptable under the above stated language.

Interpretation No. 4

January 23, 1959
Prize Identification

Aural and/or visual prize identification of up to ten seconds duration may be deemed "reasonable and limited" under the language of Paragraph 5 of the Time Standards for Advertising. Where such identification is longer than ten seconds, the entire announcement or visual presentation will be charged against the total commercial time for the program period.

Interpretation No. 5

February 25, 1965
Below-the-Line Credits

"Below-the-line credits" are deemed to mean those for technical and physical services and facilities as distinct from generally recognized artistic and creative services such as those performed by cast, writers, directors, producers and the like.

Interpretation No. 6

March 4, 1965
Drinking on Camera

Paragraph 6, Section IX, General Advertising Standards, states that the "advertising of beer and wine is acceptable only when presented in the best of good taste and discretion." This requires that commercials involving beer and wine avoid any representation of on-camera drinking.

Note: From time to time the Code Authority issues advertising guidelines expanding on provisions of the Code. Subjects now covered are alcoholic beverages, arthritis and rheumatism remedies, weight reducing products and toys. Other guidelines will be issued in future. Copies may be obtained from the Washington Code Authority Office.

Award and Poll Winners

◆ EMMY AWARDS

◆ PATSY AWARDS

◆ QUIGLEY PUBLICATION AWARDS

TELEVISION CHAMPIONS

Poll and Award Winners

QUIGLEY PUBLICATION AWARDS TV CHAMPIONS

Winners of the 15th annual pool conducted by Motion Picture Daily and Fame among Television critics of the United States in 1963 were:

Best Network Television Program ("Champion of Champions")—(1) Profiles in Courage, (2) The Defenders, (3) The Danny Kaye Show.

Best Television Performer ("Champion of Champions")—(1) Danny Kaye, (2) Dick Van Dyke, (3) E. G. Marshall.

Most Promising New Male Star—(1) Jim Nabors, (2) Sammy Jackson, (3) Ryan O'Neal.

Most Promising New Female Star—(1) Elizabeth Montgomery, (2) Mia Farrow, (3) Debbie Watson.

TV Show Making Most Effective Use of Color—(1) Walt Disney's Wonderful World of Color, (2) Bonanza, (3) The Bell Telephone Hour.

Best Comedian—(1) Dick Van Dyke, (2) Jonathan Winters, (3) Red Skelton.

Best Comedienne—(1) Lucille Ball, (2) Carol Burnett, (3) Elizabeth Montgomery.

Best Comedy Team—(1) Dick Van Dyke-Mary Tyler Moore, (2) Lucille Ball-Vivian Vance, (3) Marty Allen & Steve Rossi.

Best Comedy Show—(1) The Dick Van Dyke Show, (2) Bewitched, (3) The Andy Griffith Show.

Best Dramatic Program (1 Hour or More)—(1) The Defenders, (2) The Fugitive, (3) Slattery's People.

MGM

TELEVISION

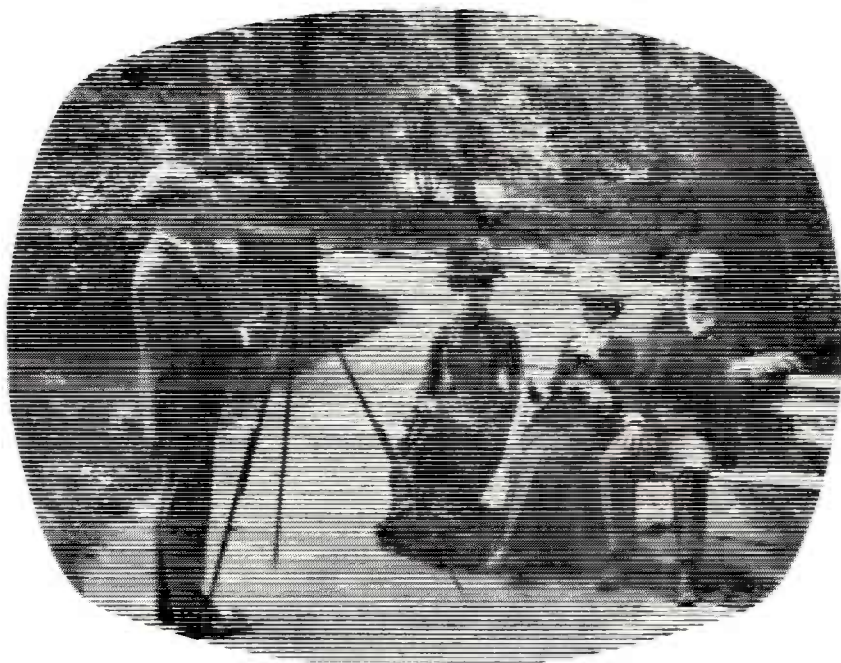

THE GAMUT

A basic fact of television is its continuing need for product—as programming for networks and stations and as commercials for advertisers using this most effective of all media. *MGM Television* covers the gamut—the full range of programming—from network series, to features, to syndication, and now, the leading videotape operations of *MGM Telestudios*. In all of television you get the picture of quality from...

METRO-GOLDWYN-MAYER

New York—Chicago—Culver City
Atlanta—Toronto

You're living in the past if you haven't switched to Gevaert's special positive TV films.

Remember when you had to sacrifice video quality to the shortcomings of standard cine print film? That's ancient history now. Because Gevaert has created two positive films to specifically meet the demands of TV broadcasting, in monochrome or living color.

Type 5.64 (Gevaert b&w) offers finer grain, minimizes ground noise during transmission, improves image and sound quality, and has contrast ideally balanced for electronic transmission. Processing is simple — develop it in normal positive baths, at usual developing times. Perforated to stringent standards for optimum

image stability. High speed emulsions with 175 lines/mm resolution. In full range of sizes.

Type 9.53 (Gevacolor positive) is a high speed multi-layer color positive film. It provides highly saturated color and excellent definition in release copies printed directly or via duplicating stock from color negatives. Sound track can be redeveloped to gain higher density for infrared light. In full range of sizes.

Shouldn't you be using *today's* film? For detailed information and lab samples, write:
