Foreword

Once again the big news in the television industry in 1982 was cable TV; its expansion is nothing short of phenomenal. Its annual revenues are expected to almost triple during the next ten years to reach \$11.9 billion! By 1992 it is expected that half of all U.S. TV sets will be connected to a cable system. An expanded section on Cable TV is featured in this 28th edition of the INTERNATIONAL TELEVISION ALMANAC, along with the usual sections that have been extensively updated.

Minerva

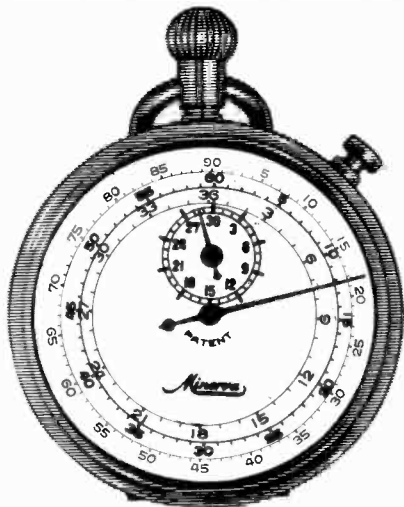

The "watchword for reliable service

RADIO • TELEVISION • FILMS

Model 107N

Full minute span with more definition on the minutes. Single dial reference for both minutes and seconds retains the mechanics familiar to Radio and TV but this Minerva timer is much easier to read and use. For spot timing, timing program segments. 1/5 second, Start-Stop-Start from crown - Fly Back to zero from button on side of case. 7 jewel lever movement, nickel chrome case and solid bridge construction for years of dependable service.

Model 106F

The Filmmeter. This specifically designed timer has regular 1/5 second scale plus 90 and 36 ft. per min. scales to register footage for 35mm and 16mm film. Long hand completes one revolution in 60 seconds, small hand registers up to 30 minutes. "Time out" feature. Start-Stop-Start by depressing crown. Perfect Fly-Back to zero by depressing side pin. Non-magnetic, 7 jewel lever movement. Nickel chrome case.

OVER 100 MODELS AVAILABLE

Write for catalog: Dept. RAY

OVER 100 YEARS OF PRECISION TIMING SERVICE

Exclusive, Non-breakable, "Coil Spring" mechanism for Economy, Durability and Accuracy. The result of 20 years of research, Minerva "coil" construction assures endless timing precision with less wear or friction under continuous usage.

**HEADQUARTERS
FOR
STOP WATCH
REPAIRS &
SERVICING**

Lifetime Guarantee. The coils in Minerva mechanisms are guaranteed against breakage and wear for the life-span of the timer. If any timer fails to give satisfaction within one year due to material or workmanship it will be repaired or replaced without charge.

STATISTICS

Network and Station Operations

There were 779 commercial stations operating in the United States as of January, 1982 located in over 400 markets and serving some 81,500,000 families

TOTAL REVENUE OF TELEVISION NETWORKS AND STATIONS

1959	1,335,400,000	1970	2,809,000,000
1960	1,456,200,000	1971	2,750,000,000
1961	1,514,300,000	1972	3,180,000,000
1962	1,704,700,000	1973	3,460,000,000
1963	1,836,400,000	1974	3,800,000,000
1964	2,067,800,000	1975	4,094,100,000
1965	2,265,900,000	1976	5,200,000,000
1966	2,557,600,000	1977	5,889,000,000
1967	2,634,400,000	1978	6,913,000,000
1968	2,916,100,000	1979	7,875,000,000
1969	3,235,500,000	1980	8,808,000,000

BROADCAST REVENUES, EXPENSES, AND INCOME OF TELEVISION NETWORK AND STATIONS

(Millions dollars)

	1980	1979	1978	1977	1976
Revenues	8,808.0	7,875.0	6,913.0	5,889.0	5,198.5
Expenses	7,154.0	6,185.0	5,265.9	4,488.0	3,948.3
Income (before Federal tax)	1,654.0	1,690.0	1,647.1	1,401.0	1,250.2

In 1980 the American television industry showed an 11.8 per cent gain in net revenue but profits declined 2.2 per cent. Data is contained in the annual report on the industry made by the Federal Communications Commission.

The FCC analysis covers the three major commercial networks—ABC, CBS and NBC; the 15 TV stations owned directly by those networks and all the other TV stations operating around the country.

Advertisers spent a record \$10.28 billion on TV in 1980, up 11.9 per cent over the \$9.2 billion spent in 1979. After deducting \$1.67 billion in advertising commissions, the industry was left with net revenue of \$8.8 billion in 1980, an 11.8 per cent increase over 1979 that pushed the total above the \$8 billion mark for the first time ever.

While revenues were up, however, broadcast expenses jumped almost 16 per cent in 1980 to \$7.15 billion, compared with \$6.18 billion in 1979. This left total pretax income of \$1.65 billion, down 2.2 per cent from the 1.69 billion in 1979.

According to the FCC breakdown of the industry, expenses climbed 25.9 per cent for UHF stations as a group, compared with 14.8 per cent for the three networks and 14.7 per cent for all VHF stations. Thus, while network profits dropped 12 per cent to \$325.6 million and the profits of VHF stations together rose a modest 3 per cent to 1.29 billion, the pretax profits of all UHF stations together dropped a surprising 42.6 per cent to \$39.7 million in 1980.

Of the 748 TV stations in operation in 1980, 516 were VHF and 232 UHF.

THE PRODUCER'S MASTERGUIDE™ 1983

The International Production Manual for Motion Pictures, Television, Commercial, Cable & Videotape Industries in the United States and Canada (formerly **New York Production Manual**)

In the new edition:

- Wider geographic and industry coverage!
- Unions' and Guilds' most recent contracts, wage scales and working conditions!
- 25,000 current names/numbers/addresses of industry professionals and services divided into 150 product/service categories including prop suppliers cameramen, talent agencies, producers, etc.

In your office or on location, **The Producer's MasterGuide 1983** is the best single tool for buying or renting equipment, hiring a crew, dealing with unions, planning a shooting schedule, and computing payrolls. Everything you need to know to get your project on its feet is here:

- Production logistics—the legal who, what, when, where, and how of filming in New York City, Florida, Canada, and the entire eastern U.S.
- Expanded Canadian industry coverage and data.
 - Special sections devoted to commercials, videotape and music productions: AICP, AICE, VPA and SAMPAC.
 - All rules and regulations for the Oscar, Golden Palm, Emmy, and Clio Awards.
- New coverage of Florida film production centers, Canadian unions, and the cable and satellite broadcasting industries.

Endorsed by top city, state and government officials, the unions, the trade press, and leaders of the motion picture industry in the U.S. and Canada.

Pick up a copy of **The Producer's MasterGuide 1983** in your local bookstore or call our TOLL-FREE number to place your order!

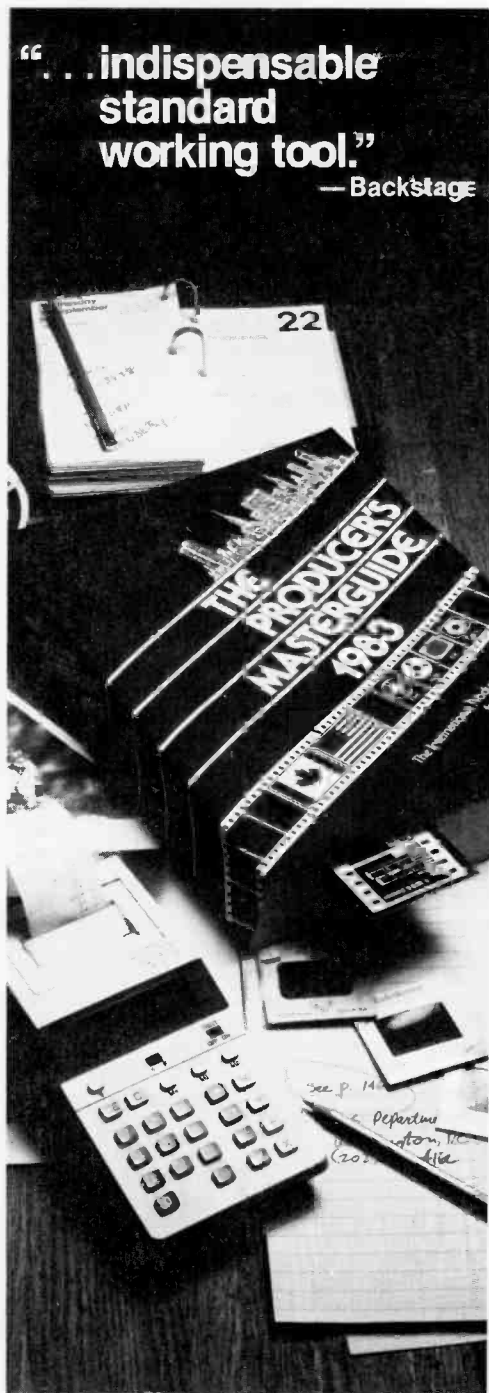

Published by New York Production Manual, Inc. and distributed worldwide by R.R. Bowker Company. ISBN: 0-935744-02-9. ISSN: 0732-6653. LC79-644582. October 1982. over 600 pp. \$58.00 paper.

Prices are applicable in the U.S. and Canada; 10% higher in other Western Hemisphere countries. All invoices are payable in U.S. dollars. Applicable sales tax must be included. Shipping and handling will be added.

Government Film Bureaus

DEPARTMENT OF AGRICULTURE:

Motion Picture Division, Room 1614 South Bldg., 14th & Independence Ave., S.W., Washington DC 20250; 447-6072; V. Buddy Renfro, Chief, Motion Picture Division.

This office produces motion pictures designed to aid in dissemination of information on the needs for agricultural products, their production, distribution, utilization and research concerning them. The films demonstrate improved methods in agriculture, stress the need for conservation of soil and other resources, explain the farm credit system, forestry, marketing, and similar subjects.

DEPARTMENT OF COMMERCE:

Bureau of Domestic Commerce, Consumer Goods and Services Division, 14th and E. Streets, N.W., Washington, DC 20230; 967-3793. MALCOM BALDRIGE, secretary.

This division studies and reports statistics of the industry at home and abroad. The material gathered is published in department reports and is used with information from other industries to help fulfill the function of "representing business to the government and the Government to business."

DEPARTMENT OF DEFENSE

The Pentagon Building, Washington, DC 20301.

Assistant Secretary for Public Affairs, Henry Catto, Jr.
Audiovisual Division, Chief, Norman T. Hatch, 2E773, OX7-4162.

This Division is responsible for dissemination to the public through radio, television, still photos, motion pictures, and magazines and books information regarding the activities, aims and accomplished purposes of the Department of Defense (includes Army, Navy, Marine Corps, and Air Force). It also is the primary point of contact in the Department of defense for approval of assistance to the aforementioned media on Department of Defense activities.

Audio-Visual Documentary Branch, Chief, Russell Wagner, 2E773, OX5-0168. Acts on all requests for Department of Defense assistance from any segment of the motion picture and television industry concerned with documentary productions. Also includes television commercials and participation of armed forces personnel, bands and musical groups on TV variety programs.

Audio-Visual Production Branch, Chief, Donald E. Baruch, 2E773, OX7-4596. Act on all requests for Department of Defense assistance from any segment of the motion picture and television industry concerned with dramatic productions.

Audio-Visual Acquisitions Branch, Chief, Maj. Peter Friend, 2E773, OX7-6161. Obtains and releases Department of Defense still and motion picture film to news and other media outlets. Arranges technical aspects of news conferences and media coverage at Pentagon.

ARMY AND AIR FORCE EXCHANGE SERVICE MOTION PICTURE DIVISION

(Under Board of Directors, Army & Air Force Exchange Service)
Main Office: HQ Army & Air Force Exchange Service, 3911 S. Walton Walker Blvd. (mail address: Dallas, TX 75222 (214) 330-2622. R. L. Herdeman, director; W. R. Wood, Film Production Branch.

DEPARTMENT OF HEALTH EDUCATION AND WELFARE:

330 Independence Avenue, S.W., Washington, DC 20201, (202) 245-6296.

Information Office: 963-4568. Sanford H. Winston, director; York Onnen, asst. director; Harry Bell, dir., (Audio Visual Services), 963-5319.

Health Services & Mental Health Administration; Dr. Vernon E. Wilson, administrator; Edward J. McVeigh, Director of Information; 443-2086.

HS and MHA produces and distributes film, audio and video tape, and multi-media materials on problems of mental and physical health by a combination of contract and in-house facilities.

National Institute of Health: Dr. Robert S. Stone, Director; Storm Whaley, Associate Director for Communications, 496-4461.

NIH's Audio Visual facilities are responsible for the production and distribution of motion pictures, slides and other materials depicting biomedical research and its implications.

Environmental Protection Agency: William D. Ruckelshaus, administrator, 755-2700; Thomas Hart, dir. of public affairs, 755-2700; Luke C. Hestor, films, 443-4804.

EPA produces films on the environment and information lists for the public.

SOCIAL SECURITY ADMINISTRATION:

John A. Svahn, Commissioner; Russell R. Jalbert, asst. commr., Public Affairs (301) 594-1990; Robert Fenwick, Audio Visual Staff Chief, 944-5587.

SSA produces and distributes films for use throughout the country describing social security and its benefits.

SOCIAL AND REHABILITATION SERVICE:

James S. Dwight, Administrator; Robert A. Wilson, Director of Public Affairs, 962-4655.

SRS produces and distributes films on a wide variety of subjects, such as social welfare services, Medicaid, rehabilitation, juvenile delinquency and related topics.

OFFICE OF EDUCATION:

Terrel H. Bell, commissioner; Anne Graham, chief, office of public affairs, 254-5800.

Audio-Visual division: The Office of Public Affairs is responsible for clearance and monitoring of all motion picture and other audiovisual materials generated by OE contracts with, or grants to companies or non-profit organizations and Institutions. Distribution of these materials is made through the National Audio-Visual Center (located at the National Archives and Records Services) or by special arrangements with producers. Public use of OE audiovisual materials is approved by the HEW Office of Public Affairs.

Caption films division: Malcom Norwood, asst. chief, 963-5230. This division purchase already produced films and captions them for use by the deaf.

DEPARTMENT OF THE INTERIOR

Bureau of Mines, Motion Picture Booking Section, 4800 Forbes Ave. Pittsburgh, Pa. 15213; Tel.: 412-621-4500. This is the main distributing center; however copies of some films are deposited at cooperating educational film distribution centers throughout the country.

The Bureau maintains a library of motion pictures depicting mining and metallurgical operations and related manufacturing processes. They are loaned free of charge, except for return postage (book rate) to educational institutions, industries, training workers, engineering, and scientific societies, civic and business associations, and other responsible organizations. The cost of production is paid by co-operating industrial concerns but the pictures do not carry trademarks, trade names or other direct advertising materials. Dr. A. Nicholas Vardac (202-634-1003), officer in charge Bureau of Mines Audio-Visual Programs, Washington, is in charge of production.

DEPARTMENT OF JUSTICE:

Constitution Avenue and 10th Street, N.W., Washington D.C. 20530. William French Smith, Attorney General; Terence B. Adamson, Director of Public Information; 739-2014.

SMITHSONIAN INSTITUTION:

Washington, DC 20560, 628-4422.
S. Dillon Ripley, secretary; Nazaret Cherkezian, Telecommunications coordinator, 381-2414.
Coordinates production on all motion picture and TV filming.

DEPARTMENT OF STATE:

21st Street and Virginia Avenue, Washington, D.C. 20503. George Schultz, Secretary of State.

OFFICE OF MEDIA SERVICES

Paul E. Auerswald, director, 632-2083. Provides State Department assistance on film and TV production. Produces an average of one film a year on foreign policy subjects and distributes them for public service TV and classroom use.

OFFICE OF INTERNATIONAL TRADE:

Dept. of State: 632-2543.
(Concerned with commercial aspects of film industry, trade treaties, quotas, restrictions, etc.)

EXECUTIVE AGENCIES

FEDERAL COMMUNICATIONS COMMISSION:

1919 M St., N.W., Washington, D.C. 20554—Mark Fowler, Chairman; Samuel M. Sharkey Jr., Public Information Officer.
(202) 632-7260.

Charged with regulating interstate and foreign communications including radio, television, satellite, cable and wire services. Licenses all standard, FM, and television broadcasting stations and services.

FEDERAL TRADE COMMISSION:

Sixth Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580—David A. Clanton, chairman; Theodore O. Cron, director of information, 523-3625.
Administrators statutes designed to promote fair competition; insti-

tutes proceeding to prevent unfair or deceptive practices, combinations in restraint of trade, false advertising, and illegal price discrimination. Supervises associations of exporters under the Export Trade Act.

SECURITIES AND EXCHANGE COMMISSION:

500 N. Capital St., Washington, D.C. 20549; Harold M. Williams, chairman; George A. Fitzsimmons, Secretary (information), 755-1160.

Registers security offerings and supervises exchange trading in securities.

U.S. INFORMATION AGENCY:

1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547—John E. Reinhardt, director. (202) 724-9042.

Motion Picture and Television Service: 376-7806. McKinney Russell, assistant director; Stanley Moss, deputy assistant director. Certifies exemption of import duties if film is educational in nature.

USIA produces and acquires about 200 film and television documentaries annually for information and cultural programs in 117 countries. In addition, close to 350 targeted, and 150 worldwide new clips are made for use on foreign television. These are seen abroad in commercial theatres, in television, in schools and community centers, and by clubs, universities, and other audiences.

LIBRARY OF CONGRESS

10 First Street, S.E., Washington, D.C. 20540. 202-426-5000. Daniel J. Boxstein, Librarian of Congress; Mrs. Mary C. Lethbridge, Information Officer, 202-426-5108.

This agency serves as the national library and includes the U.S. Copyright Office as one of its departments. In addition to registering films for copyright and publishing a record of copyright registrations,

the Library catalogs motion pictures and filmstrips, publishes printed catalog cards, book catalogs and machine-readable tapes for such materials, collects current film selectively, maintains an extensive archive of motion pictures from 1894 to date, and provides related bibliographic services.

Copyright Office—Barbara Ringer, Register of Copyrights.

Robert D. Stevens, Chief of the Copyright Cataloging Division, 703-557-8715, supervises the preparation of the semi-annual *Catalog of Copyright Entries: Motion Pictures and Filmstrips*, which is distributed by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. This publication contains descriptive data for all theatrical and nontheatrical pictures registered for copyright during each 6-month period and includes renewal registrations.

Processing Department—Joseph H. Howard, Director.

Vivian L. Schrader, Head of the Audiovisual Section of the Descriptive Cataloging Division, 202-426-5238, supervises the cataloging of approximately 5,000 motion pictures, filmstrips, and sets of slides and transparencies a year, largely on the basis of information supplied by producers and media libraries.

Research Department—Alan Fern, Director.

Motion Picture Section in the Prints and Photographs Division, 202-426-5840, which has custody of the Library's collection of over 60,000 motion pictures. The collection is primarily an archive. It contains educational, scientific, religious, industrial, and documentary films, as well as newsreels and features. Chiefly American, it includes German, Italian, and Japanese films, and in it are historically important films preserved by the Library from the early days of the motion-picture industry. Since 1942, about 1,500 representative titles a year have been retained.

Distributors of 16mm Feature Films

Following is a listing of distributors having substantial selections of 16mm films for lease or rental. Additionally, some of the companies may have prints available for outright purchase. Inquiries for catalogs listing complete product should be made to the addresses given below.

Cable Television

STATISTICS

HISTORICAL DATES

FIRST OVER-THE-AIR TOLL-TV EXPERIMENTS: 1950, Skiatron system tested over WOR-TV in New York City. 1951, Telemeter system tested over KTLA-TV, Los Angeles; Zenith tested its system over its own experimental station in Chicago.

FEBRUARY 10, 1955: Federal Communications Commission started proceedings to determine whether it should authorize TV stations to transmit programs paid for on a subscription basis. Study involved 92 docket volumes reflecting the views of over 25,000 persons on legal, technical and policy questions.

MAY 23, 1957: FCC concluded it had authority to authorize use of TV broadcast frequencies for subscription operations if it found it were in the public interest to do so. Did not define whether this service should be classified as "broadcasting" or some other.

OCTOBER 17, 1957: FCC adopted its first report on the proceedings and declared it would consider applications to conduct trial pay-TV operations over TV stations provided certain conditions were met.

MARCH 24, 1959: FCC issued third report saying it was ready to consider any pay-TV application by a commercial TV station conforming with requirements, among which were limitation of three-year trial authorizations to markets where there were at least four commercial TV stations (including the pay-TV one), and one trial system allowed per market.

JUNE 22, 1960: Hartford Phonevision Co. (later RKO General Phonevision Co.), a licensee of WHCT (Channel 18), Hartford, CT, applied for authority to conduct a three-year trial subscription-TV operation. Application granted February 23, 1961. Operations began June 29, 1962, and concluded in January, 1969.

JULY 3, 1967: FCC's subscription TV committee submitted a fourth report proposing an over-the-air subscription TV service. Rules were designed to integrate subscription TV into the total TV system so good programming would continue to be available over regular TV stations.

DECEMBER 12, 1968: FCC formally established over-the-air subscription TV as a regular broadcast service.

Statistics for 1980 (supplied by FCC)

Operating revenues totaled over \$2.2 billion, a 23% increase over 1979 revenues. Total operating expenses were \$1.4 billion, leaving an operating income of \$799 million or a 35.7% operating margin before expenses of depreciation/amortization, interest and taxes.

Net income before taxes was approximately \$168 million and the cable industry's total assets had a book value of \$4.44 billion (up 38% from 1979).

Pay cable services yielded revenues of \$575 million or 25.7% of total revenues. The percentage of total revenues attributable to pay cable operations increased by 6.1% in 1980.

The national average monthly subscriber rate for basic service was \$7.69 in 1980, ranging from an average low of \$6.37 in Vermont to a high of \$24.76 in Alaska. The national average cable television installation fee was \$17.66, ranging from \$10.00 in Rhode Island to \$40.00 in the Virgin Islands. That national average monthly rate for pay cable TV was \$9.13, ranging from \$6.00 in the Virgin Islands to \$13.36 in Alaska.

In 1980, pay cable services were offered by 1,824 financial entities comprising 6,649 communities in nearly every state. California, New York and Florida were the leading states in terms of pay cable revenues.

Office for Film and Broadcasting (OFB)

Suite 1300, 1011 First Avenue, New York, NY 10022. (212) 644-1880.

DIRECTOR

Rev. Patrick J. Sullivan S.J.

Office for Film and Broadcasting (OFB): A unit of the Department of Communication of the National Conference of Catholic Bishops and the United States Catholic Conference, was formed in January, 1972, through a reorganization of the former National Catholic Office for Motion Pictures and the National Catholic Office for Radio and Television.

OFB provides a national service of information, for diocesan communications offices throughout the country.

For the motion picture medium, OFB publishes the twice-monthly *Film & Broadcasting Review* which reviews all current nationally released 35mm films and provides information about resources for film utilization and education (16mm films, books, magazines, festivals). The critical reviews are addressed to the moral as well as artistic di-

mensions of motion pictures and are the result of a consensus based on the reactions of OFB's professional staff and board of consultants. All films reviewed are also classified according to the OFB rating system. Film classifications appear every month as part of the *Review*. In addition, the publication carries information and evaluative studies on trends and issues pertinent to television, with an emphasis on educational material.

The division maintains a 16mm film library of Catholic program material and a consultation service for educational and religious film program directors.

For the broadcast media, OFB is responsible for cooperating with the three major networks (ABC, CBS and NBC) in the production of all regularly scheduled network radio and television programs involving Catholic participation. (See Radio and Television).

For the Catholic press, OFB publishes a weekly film/broadcast service consisting of reviews, information, articles and photos. Special projects are undertaken with individual publications, religious and general.

OFB also plays a liaison role for the NCCB/USCC with the film and broadcasting industries, national media, and religious agencies and organizations. It is a member of OCIC and UNDA, the international Catholic organizations for film and broadcasting, respectively. Consultations and information services are also provided for the Pontifical Commission for Social Communications and the communications offices of national episcopal conferences throughout the world.

British Year in Review

Expansion was the trend for the British television industry through 1982. Following the re-allocation, by the IBA (Independent Television Authority) of franchises for the commercial programme contractors, the majority of companies continued to report healthy profits.

But there is concern that the introduction of Cable Television with at least 30 channels by 1984 will influence this lucrative business of "free" television. The BBC (British Broadcasting Corporation) warned on the need to ensure that programme standards did not fall:

"The U.K. has unparalleled experience in regulating broadcasting without stifling it and of encouraging self-discipline among programme-makers without wielding a tyranny over them. We argue that this regulatory skill and experience must now be applied to the new cable system. We gladly recognise the potential benefits of cable in increasing the number of channels available for the viewer in offering scope for minority, local or specialist access and in laying the infra-structure of computer-related information service but it has taken a 60-year investment in skill and dedication to create the present system of public service broadcasting which is universally acknowledged to be a national asset.

"It would take a much shorter time to erode the value of that national asset if the new cable services were permitted an operating philosophy made up of quick-kill methods of financial control, a cynical view of public taste, and no concern for social side-effects."

In addition, 1982 saw the establishment of a new nationwide Fourth Channel television service and a breakfast-time service. Effectively, the whole popu-

lation is covered by the IBA's transmissions and 98 per cent of all homes, 20 million in total, have at least one television set and 62 per cent can receive programmes in colour. Virtually all homes with television can receive all three channels, IBA, BBC1 and BBC2.

The average commercial evening audience during the peak viewing hours of 7:30 and 10:30 p.m. for the year as a whole is 10 million people in 5.8 million homes. During the year 49 per cent of total time spent watching television was spent watching commercial television; 39 per cent watching BBC1 and 12 per cent watching BBC2. Each person, on average, spent a total of 3.4 hours each day watching TV.

Such statistics are an indication that even more prosperous times are ahead for commercial television in the U.K. while the BBC continues to face financial difficulties. The BBC does not transmit advertising and is financed by government grants related to the broadcast receiving licence fees paid by members of the public.

Nevertheless, the BBC maintains a high standard of programme and holds its own in the viewing stakes. An indication of its possible audience was the Corporation's screening of "Gone With The Wind" which it had purchased for a £4.4 million package with rights for 15 years. It had an audience of 16 million on its first showing.

Also, BBC Enterprises—the Corporation's overseas selling organization—has found new world markets and reports record sales.

Sales of American programmes to British television are governed, to some extent, by the limitation, by government decree, of foreign material. There is also the British cinema exhibition industry's em-

bargo restricting the televising of any theatrical films to three-year-old productions.

American films and series are among the biggest draws with British viewers. A growing number of theatrical films are transmitted with prices being paid by commercial contractors and the BBC rising steadily.

As the following tables show, it is estimated that transactions by film and television companies contributed a net surplus of £46 million to the country's "invisible" account of the balance of payments in 1981 compared with £73 million the previous year.

INDEPENDENT BROADCASTING AUTHORITY

70 Brompton Road, London, SW3 1EY. Tel.: 01-584 7011.

The Authority was created by Parliament in 1954 as the Independent Television Authority, to provide a comprehensive television service additional to that of the BBC. Under the terms of the Sound Broadcasting Act, 1972, the Authority was renamed the Independent Broadcasting Authority and its functions were extended to cover the provision of Independent Local Radio.

The Broadcasting Act 1980 provided for the setting up of the Channel Four Television Company as a subsidiary of the IBA; it is due to start broadcasting in England, Scotland and Northern Ireland in November, 1982. A separate Welsh Fourth Channel Authority has also been established by this Act, this will start broadcasting at the same time. The Broadcasting Act 1981 has consolidated a number of Acts relating to the IBA.

The Authority selects and appoints the ITV & ILR programme companies; supervises the programmes provided by the contractors—and the Channel Four Television Company—and their scheduling; controls advertising, and builds, owns and operates transmitting stations. Fifteen ITV programme companies provide programmes in 14 regions of the United Kingdom (two companies operate in London). As a part of its review of the ITV system, the Authority, in December 1980, offered a contract to broadcast a new national breakfast-time television service, to start in early 1983, to TV-AM. In addition, changes were made to some ITV companies.

By June, 1982, 34 Independent Local Radio stations were providing a programme service in 33 areas of the United Kingdom (two companies operating in London). A further 35 areas will be covered by Independent Local Radio during the 1980s.

Both ITV and ILR are financed mainly by the sale of advertising time.

The Members of the Authority are appointed by the Home Secretary and consist of a Chairman and Deputy Chairman and ten other members, of whom three make the interests of Scotland, Wales and Northern Ireland, respectively, their special care.

Chairman: Lord Thomson of Monifieth

Director General: J. Whitney

Deputy Director General: A. W. Pragnell, O.B.E., D.F.C.

THE WORLD MARKET

ALBANIA

Radiodiffusion TV Albanaise, Tirana, government-owned experimental station, broadcasts sixteen hours weekly to some 55,000 sets, many of them located in public places so that segments of the populace not owning sets can view the programs.

ARGENTINA

The Argentine Government has finally issued the already approved law that covers reforms in TV and radio, which determines private ownership of the TV and radiodiffusion stations. In accordance with this law, the authorities have already issued the decree which auctions the stations which are actually controlled by the State, and which had been delayed due to the economic situation and the Malvinas conflict. The auction of the TV stations was to take place during the actual year (1982). In August 1982, the first of the channels was granted (channel 11) and at the end of the year channel 13 followed. It has not yet been determined when the third and last of the four existing channels will be auctioned, that is channel 9. As for channel ATC 7, it will be the leader of the SOR (Official Service of Radiodiffusion) and will not be auctioned, remaining as head of the governmental system which will be integrated by one channel and one radio station in each one of the Argentine provinces and which will constitute the State Chain.

It is estimated that by the middle of 1983, channel 11 should be the first to be exploited under a private enterprise, followed towards the end of the year by channel 13. Actually, in a restricted area of the suburbs of the city of Buenos Aires there is functioning a Pay-TV channel (N°5) named Cable Vision. Its zone of influence is to be amplified, reaching the city itself. Two other licenses were granted to other enterprises for installing Pay-TV in the city of Buenos Aires, which would thus totalize three Pay-TV channels. These three channels are identified under the following names: Cable Vision, Video Cable Comunicación, S.A. and Dr. Diego Joaquin Ibarbia, S.A.

Due to the difficult economic situation, aggravated by the Malvinas conflict, the transference of the payments for film royalties has been stopped temporarily. These debts can only be canceled by foreign bonds in dollars, issued by the Argentine Republic and nominated Bonex. The companies who have to remit funds have thus to obtain previously the authorization of the Home Office to accept them. These bonds will be redeemed by the Argentine Government in 8 equal quotas, equivalent to 12.5% of the capital involved.

It is estimated that at the beginning of 1982, there were 7,500,000 TV sets of which 2,300,000 were in color and the rest in black and white. The cost of a TV color set varies between 150 and 400 U.S. dollars, but these prices oscillate daily according to exchange fluctuations.

—NAT BRUSKI

BAHRAIN

Bahrain TV, P.O. Box 1075, Manama, Bahrain, operates 1 channel and 1 relay for some 90,000 color sets.

BANGLADESH

Pilot station established in 1964 by government. Now includes originating station at Dacca with relay stations at Chittagong, Natore, Khulna, Sylhet, and Rangpur plus two under construction. Address Bangladesh TV, Television Bhaban, Rampura P.O. Box 456, Dacca.

BRAZIL

Brazil now has some 15,000,000 sets using PAL. The audience is estimated at about 75,000,000.

Brazilian law requires that all owners of radio or TV stations be of Brazilian nationality. A further law stipulates that all foreign films shown on TV be dubbed, and that no station may transmit more than 22 half hours of foreign films for each 72 hours of weekly transmission time. Stations which transmit less than 12 hours per day have a corresponding lower quota. Seven sound studios, four in Rio de Janeiro and three in Sao Paulo take care of the dubbing of all American and some Italian, Argentine and Mexican films that come into the country.

Professional Association of Radio and TV Station Owners: Sindicato dos Proprietarios de Impresas de Radio Difusao a Televisao, Avenida Presidente Churchill 97 Sala 606, Rio de Janeiro.

BRUNEI

Established 1975 by governmental Radio TV Brunei, Bander Seri Begawan, Brunei. Two channels.

CAMBODIA

Radio Cambodia Television, 28 Ave Preah Mohaksatryany Kossonak, Phnom Penh City, broadcasts daily on Channel 8 with relay to Bokor. Sets are estimated at 35,000.

CHINA (Communist)

Peking TV, opened in 1969, consists of three stations, one purely local and the other two broadcasting by micro-wave to the rest of the country. Color broadcasts began in 1973. Shanghai, China's largest city, has two channels on the air for about 9 hours daily with some 50% of the programs listed as entertainment, 20% movies, news or documentaries, and 20% sports or children's programs, in addition to educational and foreign language-instruction programs.

China now manufactures some 4.3 million sets annually and it is estimated that the number of sets will soon reach 11 million, including sets open to the public audience. Total number of nation-wide stations (including micro-wave relay stations) is over 40. Black-and-white sets sell for the equivalent of \$370 and color sets for about \$1,335 and there is a waiting list for the former. Domestic and imported films are broadcast from time to time, including American feature films occasionally.

Central Broadcasting Administration, Hsin Men, Peking, now offers nation-wide TV commercials at rates ranging from about \$625 for a 15-second spot to a full minute for \$1,800.

CHINA (Taiwan)

Television began in 1962 by the Educational Television Station which later became the private China Television Service in 1971. There are now three networks: Taiwan Television Enterprise (1962), China Television Company (1969) and China Television Service. All three act as private corporations deriving revenues from commercials. These three stations have 24 transmitters with total broadcasts of about 265 hours weekly for some 4.8 million set owners who pay about \$1.50 annually for a license. About 80% of the programs are domestic, with most of the imports from the U.S.A. Over one-third of the sets are color. Taiwan has two communication satellite stations. A new rule states that commercials must not exceed 15% total broadcast time. Movie theatre owners complain that the three imported feature films shown weekly on television hurt their box office.

New rules call for no commercials during programs of less than 30 minutes and all commercials to secure government approval. In the future, 80% of all programs must originate in Taiwan with entertainment programs taking up no more than 55% of broadcast time and 45% or more devoted to educational, cultural or news types.

With relay stations it is estimated that 100% of the island's population of 18 million receives TV reception. About 20% of programs are imports, mostly from America, and these are broadcast in the original English with Chinese captions, which has served to develop knowledge of the English language among the populace.

TV showings of full-length Chinese-language, feature films imported from Hong Kong were stopped following retaliatory action by local cinema interests but the government may step in later and permit such showings, except on Sundays and holidays when the theatres reap their largest harvest. Inquiries should be addressed: Ministry of Communications, Taipei, Taiwan, Republic of China, or to: China Radio/TV Assoc. 6-144 Hsin Shen (South) Rd., Section 1, Taipei, Taiwan, Republic of China.

EGYPT

The television of Egypt is attached to the Ministry of Information, which is headed by Dr. Mansour Hassan. The Chairman of the Board of the TV is Mrs. Hemat Moustafa.

The Central station in Cairo transmits about 150 hours a week through two channels covering most of the Egypt areas including Asswan and Luxor.

Egyptian TV follows the European technical transmission with an image of 825 scanlines.

The TV receivers in use number around 7 million. The Arabic Department shoots a movie news review weekly and it is sent to 35 stations all over the world with which Arab TV exchange cultural and documentary materials.

FINLAND

Finland has a two-channel television system that differs considerably from the other countries. There is at present in Finland one radio and television operation licence which has been granted to the Finnish Broadcasting Company, Oy Yleisradio Ab. The existence of MTV, Oy Mainou-TV-Reklam Ab, which is a private commercial TV company, is acknowledged in the same licence.

The basis for official relations between the companies were laid down in more detail in the basic agreement concluded in 1976. Television broadcasting in Finland is under parliamentary control. The Administrative Council of the Finnish Broadcasting Company appointed by Parliament is the highest organ exercising programme policy. It has two functions. The Administrative Council exercises programme policy control over both companies. In addition, as its name implies, it is the highest administrative organ in the Finnish Broadcasting Company.

MTV has its own corresponding administrative council. As a bilingual country Finland also has programmes in Swedish on both tv-channels.

Some 19 hours per week—out of the total of 75—are sold by Oy Yleisradio Ab to MTV. At the end of 1981 a one-year price agreement was signed, according to which MTV's levy to the Finnish Broadcasting Company is at least 191.2 million marks in 1982. MTV produces nearly 43% of its programmes.

Numbers of color sets is today about 0.9 million (57% of all sets). The Finnish Broadcasting Company: Head Office, Kesäkatu 2, 00260 Helsinki 26 (Telephone 441141) Broadcasting Center, Yleisradiokeskus, Pasila 00240 Helsinki 24 (Telephone 418811) TV 2 Television Center, Töölöpö, 33270 Tampere 27 (Telephone 445455), MTV, Oy Mainos-TV-Reklam AB, Pasilankatu 44, 00240 Helsinki 24 (Telephone 15001).

GREECE

TV is nationwide and the most popular and cheap entertainment of the Greek public, harnessing all other kinds of recreation, movies mostly, especially whenever it transmits via satellite international events, like soccer games, etc.

There are two TV Stations in Athens, the first operated by the National Radio and Television Organization (ERT) and the other by the Information Service of the Army Forces, called "Ypiressia Enimerosios Enopton Dynameon Hellados" (Y.E.N.E.D.). There is a decision for this last channel to be merged with the first one and become Channel Number 2 of the E.R.T., but it had not materialized at the time of writing.

Both stations are operating in color. TV, like sound broadcasting, is controlled by the State and responsibility for both services is invested in both the above State Units.

The E.R.T. Station operates seven channels with 25 relay stations and some more towers and translators. The Y.E.N.E.D. Station operates six channels and has an equal number of relay stations and towers as the E.R.T.

Each station puts on the air ten hours of programs on weekdays and twelve or so on Sundays and holidays, which are mostly videotaped. Some 60% of this programming is covered by news, educational subjects, discussion panels, local movies and serials and the rest is covered by foreign films and serials.

The E.R.T. Channel is a full member of the E.B.W. and transmits all important events of international interests.

It is estimated that 450,000 color TV sets were sold in this country at the time of writing and the number of B/W sets had reached at two million (2,000,000) in a population of 9,000,000 people.

THE E.R.T. CHANNEL: Head Office and Studio Messouion Avenue, Agia Paraskevi, Attikis, Town Office 16, Mourouzi Str. Athens. Director General: George Romicos. Assistant Director General: Vassilis Vassilikos. Director of television: Nicos Alevas. Director of TV Programme: Michel Delopoulos. Director of Radio Broadcasting: M. Campanellis.

The Y.E.N.E.D. Station: 136, Messouion Avenue, Athens. Director General: Costas Triantafyllis. Director of TV program: Ninos Feneck Mickellides.

TV Commercials: A great number of spots are sold daily by each of the above stations to several advertising agents at a price per minute which varies according to the time and the interest of the program.

Agencies: There are several agencies acting on behalf of various foreign TV companies: Hellas Television International, 96 Academias Str. Athens, Representing MGM, Screen Gems, Warner Bros, Rai-Sacis, Paranonut TV, EMI, Rank, Titonus, Egyptian TV, Spanish TV, World Vision, Romulus, Thames TV, World Fair Communication, TV and Film Marketing Servicing etc.

Apollo TV International, 46, King Constantine Avenue Athens, representing United Artists and Beta Film.

Yannis Triantafyllis, 8, Klissovis Str. Athens, agent of I.T.C. TV films. Dennis Petropoulos agent of the N.T.A., Triboukis agent of the German TV, etc.

Local TV Production: Local TV production is meant for local consumption mostly. TV Producers: Television Enterprises S.A. Head office 28 Kapodistriou Str. Athens, operating its own studio and offering facilities for all types of color and B/W films local or foreign. General Manager, Christos Elmatzoglou. Hellas Television, 96 Academias Str. Athens. Production Manager G. Lappas. TVEM 52, Skoufa Str. Athens, Manager Eleni Mavili-Photopoulou. Basil Maros 26 Democritou Str. Athens. Dennis Petropoulos II, Lycavitou Str. Athens. Aris Tsopanellis 5-7 Kythadineou Str. Athens, DYAS TV Productions, etc.

TV Studios: TVE Studios, Head office Kapodistriou 28, Athens, making mostly color telefilms for Arabian producers. Manager Christos Elmatzoglou.

Ata Ltd Studios, Head office 8, Omerou Str. Athens, Manager George Rallis.

Fin Films Studios located in Spata Attikis.

Studio ATA, Athens, Sklavis Studio 31-33 Peoniou Str. Rousopoulos Bros. etc.

GUAM (U.S. Possession)

Guam Television operates one station with two channels for 17 hours daily, servicing an estimated 147,000 sets in the hands of Americans and natives. Owner is Pacific Broadcasting Corp., Agana. Some color is broadcast. The Department of Education, Agana, operates Channel 12, some 14 hours daily.

HONG KONG

Established 1957 by Rediffusion (HK) as closed circuit, converted to conventional TV in 1974. Rediffusion Television Ltd, Kowloon Central P.O. Box 1414, Kowloon, Hong Kong. Additional outlets: Television Broadcast (HK-TVB), 77 Broadcast Drive, P.O. Box 100, Kowloon, Hong Kong; and, Radio TV Hong Kong, Kowloon Central P.O. Box 200, Hong Kong (governmental unit acting as producer for above).

INDIA

There are eight full-fledged TV stations located at Delhi, Bombay, Madras, Calcutta, Lucknow, Srinagar, Jullundur and Amritsar.

Apart from these, there are seven relay stations which were set up for the SITE (Satellite Instructional Television Experiment) programme which ran for one year, from August 1975. They are Jaipur, Hyderabad, Gulbarga, Muzaffarpur, Sambhalpur, Raipur and Pij situated near Ahmedabad. At present, programmes for Hyderabad and Gulbarga in Telugu and Kannada are recorded at Hyderabad. Cuttack records programmes in Oriya and feeds Sambhalpur. Jaipur Muzaffarpur and Raipur are supplied with pre-recorded tapes in Hindi by Delhi. At Pij recording is done at the SAC (Space Application Centre) studios and telecast for one hour daily. Altogether, these terrestrial stations are covering forty per cent of the viewers formerly covered by the SITE programme.

During the sixth plan full-fledged centres will be coming up at Trivandrum, Ahmedabad, Bangalore and Gauhati. Relay transmitters will be set up at Asansol, Cuttack, Panaji, Kodaikanal, Kasauli, Murshidabad, Vijayawada and Varanasi. Other TV network extension projects include programme production centres at Gulbarga, Raipur and Muzaffarpur, permanent studios at Hyderabad, and shifting of the Base Production Centre at Delhi to Jaipur.

At present, an area of 200,000 sq.kms is covered by TV. The number of viewers is estimated at 83.21 million

B. D. GARGA

INDONESIA

The government-owned RRI-TV has been on the air since 1962 and now operates 6 stations in Jakarta, Jogakarta, Bandung, Semarang and Tjiribon, with 95 relays which will be expanded to 125. Broadcasting hours for each average some 40 hours weekly. Programs are 50% entertainment, 25% educational and 25% public service (60% live and 40% canned). Some broadcasts in color. Commercials have been banned since 1981 by government order. Sets are estimated at 1,400,000. Inquiries to TV Republik Indonesia (TVRI), Yayasan Televisi, Senayan, Jakarta, Indonesia.

IRELAND

Telefis Eireann is the official name of the television service in Ireland.

Television, like sound broadcasting, is run as an independent State Statutory body and responsibility for both services is vested in Radio Eireann, the Broadcasting Authority. This Authority, appointed by the Government, consists of nine members serving on a part-time basis under a chairman selected by the Government. The present chairman is T. Andrews.

The Minister for Posts and Telegraphs, who is responsible for the autonomously operated Authority, reserves to himself the duties of fixing and collecting license fees from domestic viewers, licenses transmitting stations, and has a veto on the appointment and conditions of the Authority's top executive. The Director-General, Kevin McCourt, is employed full-time.

The television service began in 1962. It has five main high power transmitters and thirteen satellite "transposers," serving areas outside the range of the main transmitters. Its national coverage is estimated at 98 per cent of the population. The national technical standard is a 625 line one, but programs are also broadcast on a 405 line in the Eastern and Northwestern parts of the country.

The Authority, which has the responsibility of providing programs of suitable cultural and national content, transmits 44 hours per week, with occasional additional programs. In addition, educational programs for schools, two and a half hours per week, are broadcast for 33 weeks of the year on behalf of the Department of Education.

Of the 44 hours of weekly programs, 22 are of home origin. The balance are imported mainly from Great Britain and America.

There are about 350,000 receiving sets in operation, of which about

200,000 are able to receive programs from Great Britain's BBC-TV and Independent TV stations as well as Radio Televis Eireann.

The national annual license fee is five pounds, of which three pounds fifteen shillings is allocated to the television service, and the balance to the sound radio service. Radio Televis Eireann also earns considerable revenue from the sale of spot advertising to commercial interests. Revenue from all sources in the past year was 2,868,000 pounds. Expenditure was 2,375,000 pounds.

ISRAEL

Israel television broadcasts daily in Arabic and Hebrew. Arabic programs start at 18:00 and continue till 20:00. Programs include documentaries, round-ups, news, films, variety shows, discussions, games, etc. These programs include, as well, weekly interviews with various individuals of the Arab Israeli population who can convey regards to their relatives in neighboring countries, such as Egypt, Syria, Lebanon, Jordan, through this media.

At 20:00 the Hebrew programs begin and include same variety of broadcast as the Arabic language. Hebrew broadcasts continue up to 23:30 or midnight. The majority of Hebrew programs are subtitled in Arabic; and foreign language broadcasts, including films, are subtitled in both Hebrew and Arabic. Similarly, most of the Arabic programs have Hebrew subtitles.

Besides the above mentioned programs, television broadcasts every morning (except Saturday) educational programs beginning at 8:00 and continuing up till 16:00. This is followed by children's programs which continue till 18:30 and include films, puzzles, games, cartoons, etc.

JAPAN

Non-commercial TV broadcasting began in Tokyo Feb. 1, 1953, by the quasi-governmental Nippon Hoso Kyuokai (NHK) followed seven months later by the first commercial TV broadcast of Nippon Television Network (NTV). Broadcast time for NHK, which began with only 866 set-owners paying a fee of Yen 200 monthly, was 4 hours a day compared to six hours by NTV, which was affiliated with the Yomiuri newspapers. By 1960 NHK possessed 60 stations and there were 47 commercial stations broadcasting, while the number of sets had increased to about 7 million, topping the 10 million mark two years later.

Although commercial networks as they are established in the U.S. are legally forbidden, there came about a nationwide grouping of commercial stations with the Tokyo stations acting as pivotal points and providing tieups and programs. Thus in 1959, 16 commercial stations formed Japan News Network which soon spread to other programming areas, with JOKR in Tokyo, followed by three other such groupings centering on NTV, Nippon Educational Television (re-named Asahi National Broadcasting in 1977), and the Fuji TV key stations in Tokyo. It was then apparent that several newspapers with national sales systems, through capital tieups, were virtually in control of the national commercial networks.

Educational broadcasts were begun by NHK in 1959, followed three weeks later by Nippon Educational Television, which later dropped the "educational" pretense and became a regular broadcaster, just as TV Tokyo (JOTX) did later, when it was found impossible to operate a private educational TV station in Japan for financial reasons.

Taking the Tokyo Metropolitan area, which comprises almost 30% of Japan's population of 116 million, we find it served by Channel 1 NHK general network station, Channel 3 NHK educational network station, Channels 4, 6, 8 and 10 operated by NTV, TBS, Fuji, TV Asahi commercial network stations respectively, plus semi-independent TV Tokyo (JOTX) and TVK (UHF) 42.

NHK's general programming lists 8 regional stations throughout the nation, 45 local stations and numerous relay stations in the VHF range to bring general programming to 3,352 outlets (2851 UHF outlets). NHK educational facilities comprise 8 regional stations, 37 local stations, 2,207 relay stations for a total of 3,278 outlets of which 2,778 are UHF, including use of mini-satellite relays. It must be emphasized that in most cases (but not all) the general and educational services make use of the same facilities.

There are 36 companies operating both radio and TV stations and 60 operating only TV stations. In the VHF sector some 48 companies operate 486 stations, in UHF 48 companies operate 4,613 stations, plus 9 SHF stations, a total of 5,105.

These four "networks" operate in the seven key areas of Japan—Tokyo, Osaka, Nagoya, Fukuoka, Sapporo, Hiroshima and Sendai—which are 4 commercial-station areas (plus NHK). Other stations located in less populous areas use a cross network arrangement by which programs from plural key stations are received. Each network virtually blankets Japan with the exception of ANB which covers about 80% of the country. In addition, the non-commercial NHK network covers the country.

Community TV in Japan is still in its infancy with some 20 stations listed while cable television is confined to few hotels or apartment houses in the largest cities.

While NHK collects monthly fees from over 30 million registered sets, the Home Ministry estimates the total number is 62,215,000 (including households with more than one) of which 9,423,000 are black & white and 52,792,000 color sets. Some 98% of registered households possess one or more color sets for which they are assessed a flat \$3.90 a month versus \$2.30 for black-and-white sets. It is estimated that over 92% of all households are equipped with TV. Thus, it is no surprise that NHK is by far the wealthiest broadcasting corporation in

the world with 16,560 employees and a 23-story broadcasting center in Tokyo. Revenues run about \$1 billion annually and latest figures show a deficit for the year.

Surveys show that the average Japanese spends 3 hours 17 minutes each weekday watching TV, 4 hours 5 minutes on Sundays—a decrease over previous surveys.

In the Tokyo area, which comprises about 30% of the nation's TV audience, a survey says average housewives spend an average of 5 hours 18 minutes daily, an increase from the average of 4.5 hours spent by wives in their 20s as those polled got older until an average of 7 hours daily was reached for those in their 70s. Their favorites were not so much the so-called soap operas as they were the afternoon exceed shows meant for women audiences. Sports features, especially baseball and sumo (traditional Japanese wrestling), were the male choices with golf tournaments and American football taking the place of the once-popular bowling.

Japan imports a number of American TV shows but none has made the Japanese Top Ten listing.

While "Shogun" was a hit with TV viewers, "Dallas," even with extensive advertising campaigns, failed to attract sufficient viewers and was dropped before the series was completed. "Sesame Street" was cancelled after many years and this brought many protests. Long-lived imports include "Get Smart," "Joe Forrester," "B. J. and the Bear," "Little House on the Prairie" and "This Is Your World."

Looking at business results for the past year the commercial TV broadcasters appear to be doing not too well on the whole. Tokyo Broadcasting reported a 6.3% increase in revenues, Nippon TV 5.9% increase, TV Asahi plus 5.8% and Fuji TV down .7% from the year before. In recurring profits Tokyo Broadcasting showed a decrease of 11%, Nippon TV an increase of 23%, TV Asahi a decrease of 31% and Fuji TV a decrease of 48%. However, previous profits have been so great that the situation is not serious, and all are in the black.

In terms of billions of Yen (Yen 240 to \$1), receipts were as follows (profits in brackets): Nippon TV 99.521 (4.1); Tokyo Broadcasting 111.812 (4.4); Fuji TV 93 (2.05); and Fuji TV 84.925 (1.57).

The NHK general network broadcasting hours average 17.28 hours daily with 32.7% of programs news or commentaries, 16.4% educational, 25.6% cultural and 25.3% entertainment. NHK educational network averages 18 hours daily with 15 news, 30% educational and 19% cultural subjects.

Average daily broadcast time for commercial stations averaged 16 hr, 21 min, since late-night broadcasting is not encouraged to conserve energy. Of this broadcasting average over 14 hours consisted of sponsored programs and 2 hr. of sustaining programs. Although broadcasters claimed that advertising commercials (including a daily average of 241 spot announcements) took only 10% of total broadcasting time of each station on the average, anyone with a stop watch knows that this is not true and over 60% of Japanese polled indicated an opinion that there were far too many commercials, while 50% objected to the ads shown in conjunction with kiddies' programs and thought such programs should carry no ads.

Advertisers on TV are headed by food and beverage makers (24.9%), followed by cosmetics and detergents (14.3%), pharmaceuticals (9.2%), household articles and equipment 8.1%), and electrical appliances (6.5%). In the past year some \$3.3 billion was thus spent, an increase of some \$432.4 million or almost 15%. Presently there is little room left for more commercials since air time has decreased to save energy so rates are going up. Thus, in the past year, program commercials increased by 2.1% while spot commercials decreased 1.1%.

Commercial stations claimed that 46% of daily broadcasting time was devoted to entertainment, 24% to cultural subjects, 12.9% to news and 3.1% to sports. Sponsors of a 30-minute prime time show pay about \$6,500 on a Tokyo station with other spots going for \$2,700 per sponsor. Commercial stations took 34.6% of all ad expenditures compared to 31.1% for newspapers.

Japanese movie producers, while curtailing sales of feature films to TV because of possible effect on their own box office admissions, are themselves active in producing TV features for domestic use. Not only are they able to produce them more cheaply (principally because of different union wage scales) but they can do better jobs and make better use of their studio facilities.

Production cost for a one-hour program is only \$60,000, about one-fifth of the cost in the U.S. Payments for authoring a 30-minute script is \$200 at NHK and as low as \$100 at commercial stations. However, writers with a national reputation get much more.

A study of 107 commercial TV stations reveals that although the UHF outlets located in the periphery of the large cities are doing only moderately well as regards operating profits, the older-established VHF stations, particularly those affiliated with networks and in Tokyo or Osaka, enjoyed a fair year.

Japan exports very few TV programs of its own but it is the world's largest exporter of TV sets and in addition sells TV equipment, complete broadcasting studios and nationwide setups abroad.

Satellite broadcasts from abroad are used in Japan for momentous new happenings, and normally for sports events such as the Olympic Games or championship boxing matches in which one participant is Japanese. However, overseas heavyweight championship bouts are aired without charge on regular broadcasts.

While a critic would rate Japanese TV in general as somewhat below the not very high American standard, and take umbrage at the great percentage of time taken by commercials on all stations except those of NHK, the average Japanese is satisfied with it. Lately, the government has taken steps to prevent further intensification by stations of audio volume for commercials and limited them to 18% of total program time. In the past year 497 Japanese feature films and 822 imported features have been televised.

The Japanese import a large number of foreign full-length feature films in addition to American TV programs, since Japanese feature films have only limited TV use due to the film industry's desire to protect the theatres. However, the foreign imports are not as popular with TV audiences as their Japanese counterparts (though at theatres last year foreign imports outdrew Japanese films). Thus, except for rare events, full length feature films usually have the highest average viewing rate (14.2%), followed by a growing number of quiz games (13.6%), sports programs 14.5%, samurai dramas 13%, specials 13%, action dramas 12.8%, children's shows 12.8%, cartoons 12.1%, variety shows 11.9%, musical shows 11%, news 10.6%, imported TV shows 8.9%, educational shows 8.8%, in the Tokyo area. Also in the Tokyo area of over 20 million people surveys indicate that 40% of all sets are in use between 6 am and 9 am, 25.9% from 9-12, 47.4% from noon to 1 pm, 36.9% from 1-6 pm, 63.2% from 6 to midnight, 9.6% from midnight to 1 am. The average for the broadcasting day is 44.9%, with prime times of 7-10 pm 77.8% and 7-11 pm at 73.1%.

In 1979 both commercial and non-commercial television stations in the main cities of Japan began audio-multiplex broadcasting of a limited number of daily programs. Thus with appliances costing from \$70 upward for a set built for multiple reception a listener may enjoy stereophonic sound and/or original dialogue of some imported movies or TV features (such imports are almost invariably dubbed into Japanese language), thus bringing in an era of bilingual broadcasting in a limited way. This is done by fuller utilization of a station's assigned wave length, for example NTV channel 4 in Tokyo is in the frequency band ranging from 170-176 MHz, using 171.25 MHz for video and 175.75 MHz for audio, with multiplex audio making use of the gap between.

Addresses of the commercial networks can be found in the World TV Broadcasters list in this volume and additional information can be obtained from National Association of Commercial Broadcasters in Japan, Bungei Shunjusha Building, 3 Kioi-cho, Chiyoda-ku, Tokyo, or from Advertising Association of Broadcasters in Japan, 8-10 Nishi Ginza, Tokyo. For non-commercial TV information one should address Nippon Hoso Kyokai (NHK), 2-2-1 Jinnan, Shibuya-ku, Tokyo 150.

—A. C. PINDER

MADAGASCAR

Television Madagascar, P.O. Box 442, Tanarive, Madagascar, operates a single station and three relays.

MALAYSIA— SINGAPORE

TV Malaysia was established in 1963 and now serves an estimated 882,000 sets on an average of 6 hours daily, half of broadcasts are in color. Originating station is at Kuala Lumpur, serving two networks on the main peninsula. One network extends to Sabah, where there is also a secondary station at Kota Kinabalu, which operates a small network of its own, extending to Sarawak. Inquiries to TV Malaysia (RIM), Broadcasting Dept., Kuala Lumpur 22-10. Sets: 775,000.

TV Singapore went on the air in 1963 and now serves an estimated 575,000 sets on two channels in four different languages. One channel broadcasts 66 hours weekly the other 40 hours; of this total about 82 hours weekly is in color. Inquiries to Radio-TV Singapore, P.O. Box 1902, Singapore 11.

MEXICO

Commercial television was inaugurated in Mexico in 1950 with the creation of Channel 4. Not long after this, Channels 2 and 5 were launched. For five years there was intense competition for viewers and advertising revenue. Finally, in 1955, recognizing the limiting parameters of the market, the three rival channels united to form *TELEVISION MEXICANA, S.A.* (TSM).

In 1959, Channel 11, with its cultural mission clearly delineated in its charter, initiated a regular broadcasting schedule under State management. However, financial resources supplied by the Ministry of Public Education severely curbed the stations' effectiveness.

Involvement in the XIX Olympic Games in 1968 had far-reaching effects on Mexico's television industry. A high capacity microwave network was constructed linking Mexico City and the northern border; a satellite ground station was built. These preparations made possible near blanket coverage of the Republic and the successful on-going transmission of color.

The emergence of channels 13 and 8 toward the end of the decade plunged TSM back into a competitive situation.

In 1972 when the State assumed control of Channel 13, a new concept of "commercial" television had to be adopted.

Striving to attract advertisers by producing the most convincing "numbers," TSM and TELEVISION INDEPENDIENTE DE MEXICO (Channel 8) left themselves open to severe criticism for the "debasement" of public tastes in entertainment. TSM and TIM realized that they could not survive as antagonists. Early in 1973 they joined forces to become a "joint venture" called *TELEvisa, S.A.* The new organization pooled the facilities and managerial talents of Channels 2, 4, 5 and 8 but, within strictly defined limits, maintained autonomy of operation.

In 1976, *TELEvisa's* annual programming for the four channels totalled 21,423 hours produced for a potential public of more than 25,000,000 viewers distributed among 5,000,000 TV homes.

To effectively transmit *Televisa's* signal to an estimated 70% of the Republic's territory, 79 repeater stations operate throughout the country. Channel 2 is a national network, Channel 4 reaches two states while Channel 5 covers 18 of the 32 states in the country and Channel 8 serves the large urban metropolitan zone of Valley of Mexico.

Televisa recently opened a market in the United States for the Spanish-speaking population. It currently broadcasts 19 hours per week transmitted directly from Mexico City, and distributed to 11 U.S. cities by Spanish International network.

Beginning in 1972, as a quasi-state enterprise, Channel 13 received a government subsidy. It is now, however, making attempts to free itself from dependence on state financing. Functioning as a national network composed of 26 repeater stations, it produced 4,152 hours during 1976. These programs reach 3,500,000 TV homes.

TELEVISION RURAL DE MEXICO is a sponsored project which extends a broad spectrum of television programming in order to reach isolated rural populations. TRM claims 13,000,000 viewers.

Considerable investment in time and resources is being made by the Federal Government in collaboration with commercial television to conduct a massive educational programme coordinating audio-visual techniques with in class instruction.

With the creation of the microwave network, in 1968, *CABLEVISION* (a CATV System) was established to provide North American programming, from NBC, CBS and ABC, on Channels 7 and 10 for its Mexico City subscribers.

A recent innovation was *TELSTAR*, a consumer or viewer service channel supplying continuous information on time, weather conditions, community services and short updated news summaries. Operated by *CABLEVISION*, *TELSTAR* broadcasts on Channel 12.

Any description of television programming must take into consideration the Presidential Decree of 1969 which stipulated that all broadcasting channels must cede 12.5 per cent of their daily transmission time to the government in view of a 25 per cent tax on their gross advertising revenues. In order to make full use of this time, the government in 1977, created the *DIRECCION DE RADIO, TELEVISION Y CINEMATOGRAFIA* in charge of producing programmes for these broadcasts.

The chief statutory instrument regulating Mexican television is the 1960 *LEY FEDERAL DE RADIO Y TELEVISION*. This law defines the government's relation to programme content, franchises and permits and all technical matters pertaining to broadcast operation.

MICRONESIA

This Trust Territory administered by the U.S. has MICRONESIA Broadcasting Corp., Taga Hotel, Saipan, Mariana Islands, comprising 2 stations broadcasting 16 hours daily, on a commercial basis.

MONGOLIA

This small member of the Communist bloc established Radio-TV Mongolia in 1970 consisting of a single station with satellite connection with Soviet Russia. Address: Mongolian Radio-TV center, Ulan Bator. Sets number 5,250.

NEW CALEDONIA

Radiodiffusion Television Francaise, Noumea, broadcasts about 30 hours weekly on three channels to some 38,000 set owners.

NEW ZEALAND

The NZ Broadcasting Service established in 1962 was in 1975 replaced by 2 independently-operated networks which in 1977 were brought under the Broadcasting Corporation of NZ. South Pacific TV, Anzhus House, Box 3819, Auckland; and, Avalon TV Center, P.O. Box 30945, Lower Hutt, N.Z. Sets are estimated as over 1 million.

NORTH KOREA

Experimental telecasting, using Russian equipment since 1960s, followed by establishment of a national network of 20 stations with regional stations and relays. Korean Central Broadcasting Committee, Television Section, Pyongyang, Democratic Peoples Republic of (North) Korea.

OMAN

Oman Color TV, Ministry of Information & Culture, P.O. Box 600, Muscat, Oman. Three stations and 1 relay for 95,500 sets.

PAKISTAN

Television came to Pakistan in November, 1964, when the first sta-

tion at Lahore went on the air. There were hardly 500 sets then. In May 1967, Pakistan Television Corporation Ltd., a public limited company was formed with an authorised capital of Rs.5 crore and a paid-up capital of Rs.3.19 crore. The entire shares of the Corporation are held by the Government of Pakistan. It is now running all five TV centres in the country. These stations are at Karachi, Lahore, Rawalpindi/Islamabad, Peshawar and Quetta and transmit four to seven hours programmes, including canned foreign films. All these stations and 14 boosters/rebroadcast stations are equipped with modern technical facilities, including video tape recording, background projection and arrangement for showing both 16 and 35mm films at the stations. PTV derives its income mainly from two sources: the commercial service and the licence fee charges on television receivers.

A major breakthrough in the field of TV communication was provided with the opportunity to link Pakistan with the outside world through satellite in the mid-1970s. On July 24, 1981, PTV, for the first time, introduced a new technique of showing an interview of the Pakistani ambassador to Britain (in London) which was taken live programme from Karachi via satellite. Now all the Pakistani viewers can see live programmes from abroad, as all the TV stations have been linked with the National Microwave Network. Most of the international events, such as Islamic foreign Ministers' conference, cricket matches, visits of the President of Pakistan's foreign visits, Mehfil-e-Qirat, Haj, important speeches at the United Nations, reports from the War fronts of Lebanon, Iran, Iraq, Afghanistan, U.K., Argentine, etc. are being telecast with the cooperation of ABC, CBS, NBC, etc. direct (live) through satellite. Some of the Middle Eastern countries' television programmes, including Oman, Dubai, Saudi Arabia and Abu Dhabi, etc. are clearly visible in various parts of Karachi with the help of boosters or high antenna. Indian (Amritsar) TV is clearly seen in Lahore and surrounding even without the help of a booster.

One of the major goals of PTV has been to extend its service deeper inside the rural areas. PTV has been successful in achieving this to a high degree by setting up 14 powerful boosters/transmitters which act as rebroadcasting stations and are linked to the five main TV Transmission Centres. Meanwhile, over 100 cities, towns and thousands of villages of the country are covered by telecast. As already mentioned, the total population now covered is about 80% or about 70 million, out of which nearly 62 million are in electrified areas. Programmes of special interest to rural folk such as water logging, fertilizer usages, improving seed methods, co-operative measures etc. are regularly telecast. Maximum playing time 22.72% was consumed by foreign films, while the minimum time was allotted to educational programme 0.81% during 1979/80.

Survey has shown that colour TV has reached most of the well-to-do houses throughout Pakistan and black and white TVs are installed in almost every average house. PTC is being run as a commercial service. Advertisements can be shown in breaks or between the programmes. An average 9 to 12 minutes in an hour is consumed by commercials on Karachi TV. The pressure on other stations is much lower. The 25% increase in the rate of commercials in 1982, along with censorship of TV programmes and commercials under Islamic laws have affected the business. As predicted on this page last year, no appearances of women in commercials, other than domestic ones, has also hit hard the business of PTV. News readers and announcers (women) have to wear full-sleeve shirts and cover their heads with Dopatta.

The approximate number of receiving sets in the whole of Pakistan is 1,500,000, more than 80% of which are licensed sets. The licence fee has remained the same—Rs.200 per year during the year under review. Of these between 12 to 15% sets are colour. Nine viewers, approximately, watch one TV. Pakistan manufactured 102,745 TV sets during the year 1981. At present PTV extends technical cooperation to Uganda, Libya, United Arab Emirates and International Telecommunications (ITC).

For the first time colour programmes were introduced on PTV on December 20, 1976. Today there are four full-fledged colour centres at Karachi, Lahore, Rawalpindi/Islamabad and Peshawar. Quetta centre, which partly telecast colour programme is likely to be added in the list of the colour stations by the end of the current year. The Centre, when completed, will be the biggest centre (area wise) in Pakistan. It will also have a technical institute with the building. Ten new boosters/rebroadcasting centres are scheduled to be installed within the next five years. These boosters will not only take the TV signals in the less developed regions of the country but will also meet the needs of the remote areas of the NWFP, Baluchistan, Aazad Kashmir, an. Northern Areas. Most of the canned and domestic programmes are telecast in colour daily from all the stations/centres. The number of colour sets is estimated to be between 150,000 to 300,000 throughout the country. Government charges 75% duty on colour TV sets brought into the country as personal baggage. However, there isn't any duty on the locally manufactured B/W and colour sets.

A number of PTV programmes have won International Awards, including at 9th Hollywood Festival of World TV (1974), Golden Prague Festival (1976), Asian Broadcasting Union Japan (1972), Prix Futura Berlin (1974), Festival of Folk Art TV Programmes, Moscow (1979).

The PTC has important plans to increase the coverage even further with special emphasis on the remote and less developed areas and also to establish a second channel for educational television. Highlights of the plans expected to be completed during the next few years are as follows:

1. To extend the range of TV signals to cover 85% of the total population. (Area-wise the coverage would come to 55%)
2. To establish a second channel exclusively for the educational television service, initially from Karachi, Lahore and Islamabad.

Currently about 1,600 creative technicians, including producers, cameramen, designers, editors, engineers and other technical staff are engaged with the PTC. Artists and performers are not on the permanent staff of the PTV; they are paid daily wages according to their work in the programmes. The highest remuneration paid to a performer is Rs. 19/- per minute and the lowest (minor role) gets Rs. 3/- per minute. About 2,500 outside talents, including composers, singers, actors, announcers, instrumentalists, writers, etc. participate in the PTV programmes. A training institute for the artists and technicians is likely to be opened in the near future at Karachi, Islamabad and Quetta.

Recently the Government of Pakistan has approved a project of Rs.100 million Ground Receiving Stations to receive satellite pictures directly. Accepting the space-age concept of viewing TV programs directly from satellites, official clearance has been given to the plan for manufacturing special sets for the purpose. Initially only institutions and organizations involved in scientific academic work or the media will be allotted this facility. The set, called Direct Broadcasting Satellite Receivers (DBSR), has been tested by SUPARCO, Pakistan's space agency. With the introduction of the DBSR, Pakistan will be the first country in the world to introduce this latest technology on an official level.

—A. R. SLOTE

PHILIPPINES

Broadcasts began in 1953 by DZAO-TV then owned by Alto Broadcasting. At present 40 stations are on the air for commercial broadcasting and one government station; most are located in Manila. Number of sets is estimated at over 3,600,000. ABS-CBN was replaced by KBS. Others are Associated Broadcasting, Inter-Island Broadcasting, Metropolitan Broadcasting, Philippines Broadcasting, Radio Mindanao Network, Republic Broadcasting and Southern Broadcasting. More provincial outlets are planned.

PUERTO RICO

Television started in 1954, and there are about 660,000 sets in Puerto Rico. Most of the public places such as restaurants, clubs, have television sets for their patrons and the medium is available in local hotels upon request.

Even though most Puerto Ricans know English, and the number of persons who will acquire a working knowledge of English will increase considerably through intensification of English instruction in public schools and the migration of Puerto Rican families to the United States, and workers who come back from the States with more knowledge of English, television programming is in English and Spanish. WKAQ-TV, owned and operated by the newspaper El Mundo, on channel 4, has 30 per cent programs in English with 10 per cent have Spanish sub-titles. There are 10 private stations in all.

Kinescope versions of top North American television shows are represented on both stations.

QATAR

Qatar TV Service (governmental), Ministry of Information, P.O. Box 1836 Doha, Qatar. Color since 1973. One station and relay.

SAMOA (AMERICAN)

Three TV stations serve some 36,000 sets on the American part of this Pacific island as well as a number of sets on the part administered by New Zealand. The station is also used daily for educational instructions to local schools. Address: Television of Samoa, Pago Pago. There are six channels.

SAUDI ARABIA

Established 1957, now 7 government stations and 1 private station. General Directorate of TV, Ministry of Information, P.O. Box 570, Riyadh, Saudi Arabia; ARAMCO-TV, Box 96, Dhahran, Saudi Arabia.

SOUTH KOREA

Commercial TV broadcasting began in 1956, but the station burned three years later and it was not until 1961 when the government established the Korea Broadcasting Service (KBS-TV) network. The commercial network of Tongyang Broadcasting Co. (TBC) began in 1964 and was followed by the commercial Munhwa Broadcasting Co. (MBC) in 1969. The American Forces Korea Network (AFKN-TV) was also established to serve American troops, and now comprises 6 stations.

Korean broadcasts are limited to 6.5 hours of evening time and 4 hours mornings on weekdays, 11 hours on Saturday and 17 on Sunday. Monthly fees of about \$1.00 are collected and advertisements accepted. KBS had 2 key stations and 51 relays, MBC 8 stations and TBC 2 stations. TV sets were estimated at some 9 million.

In 1981 the Republic of Korea "consolidated" all news media and took over the private stations, so daily listings read: KBS-1 TV (7 cities), KBS-2 TV (2), KBS-3 TV-UHF (6), MBC-TV (6). Korean Broadcasting Advertisement Corporation handles all TV and radio advertising.

—A. C. PINDER

SCOTLAND

The situation is lively and becoming more competitive, with ITV stations and BBC competing for viewership. Local programming is improving in quality although truly bright ideas seem lacking, and innovations are still needed. The rapid growth of video is turning many away from normal switch-on to on-air stations.

The people of Scotland, TV-conscious, are served by four television stations and a growing quota of local radio stations. BBC-TV Scotland is spread over studios in Glasgow, Edinburgh and Aberdeen, plus a small studio at Dundee on eastern seaboard. The operation, an offshoot of the national BBC at London, England, makes a continuing stab at being a national station for Scotland, and scores with drama. Morale is improving, but financing coin is still scarce.

The Scotland-orientated Radio Scotland service uses much local listener participation and a large number of broadcasters. Local output is in community vein, and comes from sub-stations at Aberdeen (Radio Aberdeen), Lerwick (Radio Shetland), Kirkwall in the Orkney Islands (Radio Orkney), Inverness (Radio Highland) and Stornoway (Radio Western Isles). The community-station programming is largely composed of early-morning and evening magazines with a news slant. Future community operations are planned for Oban on west coast, Dumfries in south-west, and Galashiels in the south-east.

The Gaelic-speaking listenership in Highlands and North-West is aimed at by Radio Western Isles from Stornoway, a successful operation.

In the commercial field the liveliest station remains Radio Clyde at Glasgow. Radio Forth thrives at Edinburgh, Radio Tay from Dundee, Radio North-sound from Aberdeen, and Radio West-sound from Ayr, in the southwest. More commercial stations are planned.

Television with commercials comes from Scottish Television Limited serving West-Central Scotland at Glasgow, with a sub-station at Edinburgh; from Grampian Television at Aberdeen (serving the north and north-east, also far north-west on Isle of Lewis); and from Border Television at Carlisle, over the Scotland-England border, dividing its output and service between southern Scotland and north-west England plus the Isle of Man. All commercial stations, their contracts renewed for the 1980s, are offering a healthy output. Scottish Television produced drama series "The House on the Hill," a soap-opera "Take the High Road," and is getting stronger on drama. It maintains a steady Scotland-aimed output, especially in a five-evenings-a-week news-magazine "Scotland Today." Its output is often criticised by some Scots, mainly in editorial columns of Letters to the Editor, but generally the programming is satisfying if not overall in the "brilliant" category. Executives include managing-director William Brown and program controller David Johnstone.

Grampian television (who have an unrivalled reputation for courtesy to guests and performers) offers a regional service of news and magazine productions plus a number of light-entertainment series, including "The Entertainers". It is not ashamed to serve up Scottish song-and-dance in the often-criticised "baggis-and-heather" vein. Border Television has a nightly "Lookaround" news-magazine and networks a TV quiz gameshow "Mr and Mrs," using husband-wife participants.

Critic-wise, Scotland is fairly well served, with some critics and TV program commentators being more highly rated than others. Comments about programs are regularly published in weekly readers' columns; one sheet. The Sunday Mail of Glasgow, with a circulation of 840,000, annoys and pleases by sending an actual can of raspberries weekly, and a bouquet of roses, to the program or program personality voted by readers as worst and best of the week; late Friday and Saturday programs tend to come too late for inclusion in this doubtful honor.

—GORDON IRVING

SPAIN

The first time Television Espanola—(now Radio-Television Espanola, RTVE)—transmitted on a regular basis was October 29, 1956, on a scan system of 625 lines at 25 frames per second. That program lasted three hours with a range of 70 kilometres, broadcasting for about 400 sets. The First Channel (VHF) was followed by a Second Channel (UHF) in 1967, complementary at first, but then sort of competitive and with a clearer trend towards "culture." Channel 1 covers now all of Spain, including the Balearic and Canary Islands. Channel 2 is reaching 80 per cent of national territory. According to the Director of Television, Channel 2 has a ceiling of 85 per cent of territory, since the investment costs double when the 70 per cent level of covering is reached.

RTVE is now an autonomous agency under the Ministry of Culture, Paseo de la Castellana 109, Madrid 16. All programs are controlled by a Censorship Board. Drama, films and episodes of series are classified according to ratings: "general" (no sign on the screen), "older than 14" (a small lozenge), "older than 18" (two small lozenges).

The total number of sets was 9,710,000 at the beginning of 1982. The production of programs is entirely financed by advertising and tie-in merchandising. Both channels carry ad spots. Due to nocturnal

habits of Spaniards, the costliest time comes around 10.30 p.m. In 1982 the audience peak was 12,542,000 for Channel 1, and 1,985,000 for Channel 2. TVE advertising rules out tobacco and welcomes wines and liquors at any time. Very often the screen shows smiling, drinking señoritas. Color sets over 1,580,000 (German PAL system).

TVE built in Madrid a 210 meter high tower ("Torrespaña") to broadcast the World Soccer Championship, which took place during 29 days of June and July of 1982 in 17 Spanish stadiums. The broadcasts reached 87 per cent of the national population, and about 69 per cent of the Spaniards watched the inaugural and final matches. A task force of 1,200 TVE personnel struggled successfully during the Championship, producing 104 hours of programming for an average estimate of 1,800 million viewers all over the world. According to the efficient "Gabinete de Investigación de Audiencia", the final match (Italy 3, Germany 1) got an audience of almost 2,000 million world fans.

Staff and Studios: From July 1982 top RTVE executive is Eugenio Nasarre, Director General of the Autonomous Agency (officially called "Ente", Italian style). In November 1981 Fernando Castedo was ousted, for his/the ruling party, rightist Union of Democratic Center, found him too lenient for left-wing ideologists. His successor, Carlos Robles Piquer, steered wisely RTVE during the Soccer Championship, but the left-wing parties lobbied tirelessly for his dismissal, preferring instead a more pliable man at the RTVE top during the following general election. Robles Piquer, an able career diplomat, at last resigned.

TVE is ruled by a multi-partisan Council which applies the 1981 Statute of Television. Home rule in the Basque provinces at the North opened the door to the first regional independent TV (Euskal Telebista). The Andalusian government asked also for a Third Channel covering the South of Spain.

TVE has ten news broadcasting stations in provinces. The Canary Islands set up their own programming. National Headquarters are at Prado del Rey, Madrid 24, with general offices and nine studios with total area of 3,000 square meters. Additional studios are in Barcelona.

Fixed, salaried personnel is about 2,300, with another estimated 5,000 contributing freelancers. An important group of steady contributors got permanent status by sentence of the Supreme Labor Court.

Programming Schedule and Contents: Channel 1 broadcasts 69 h 30' weekly, with accent on week-ends. Same happens with Channel 2, which broadcasts 27 h 45' weekly. Total of weekly broadcasting time: 97 h 15'. Special programs such as prize boxing bouts, sports championships, bullfights, royal and political messages, etc., move or remove normal programming.

About 50 per cent of programming consists in filmed foreign production: French dramas, British series, Japanese cartoons for kids, and popular American productions from J. R.'s *Dallas* to Carl Sagan's *Cosmos*. The percentage of national produce is rising steadily in quantity and quality. TVE is even coproducing foreign series, as the Australian children adventure series *Secret Valley*.

Price range for half hour of screening time is \$1,400-\$1,900. One-hour series generally brings twice the half-hour price. Price range for feature films is \$6,000-\$15,000, dubbed into Spanish at Madrid studios. Only "Film Society" screenings (Channel 2) accept foreign prints with Spanish subtitles.

Foreign Markets: TVE foreign sales in 1981 grossed about \$2,000,000. That means Latin American markets and other main clients: Italy, France, Australia, England and Iran. Recent new markets are Canada and Korea, along with some unexpected countries as Albania and China.

The national video market kept on growing during 1982, with about 120,000 units sold. The Soccer Championship was indubitably a big booster. Cable TV is not yet heard of, but no less than four companies have applied for licenses to set up private TV networks in the near future. It seems that the monopoly of TVE is beginning to end.

—MARIANO DEL POZZO

SRI LANKA (Ceylon)

The Sri Lanka Government inaugurated nationwide television on the 15th of February, 1982, under the name of "RUPAVAHINI" (Television) run by a new Corporation called Sri Lanka Rupavahini Corporation which is under the Ministry of State. In the short space of four years, Sri Lanka's Ministry of State planned, built and organized the medium of television in Sri Lanka on an island wide basis. This is an outright gift from the people of Japan as a gesture of good will towards Sri Lanka. A sum of 3.5 billion yen (Rs. 280,000,000 or US \$14,000,000) was allocated by the Japanese Government to provide nationwide television. The main transmitting station was established at the highest point in the central hills known as "Pidurutalagala mountains" (8,291 feet high) and the second in the North of Sri Lanka known as "Kokuvil", with a low powered transmitter station in Kandy to cover the valley. The major problem posed by the constructors of the Premier Transmitting Station at Pidurutalagala was the transportation of the standby generator and transmitter equipment to the summit of the Pidurutalagala mountain, as they were very heavy for the rope-way to carry. On a request made by the Sri Lanka government of the United States Embassy in Sri Lanka to provide assistance to air lift the cargo to the summit, a United States helicopter crew air-lifted the crates containing generator and transmitter, weighing 4 tons, in one and a half hours on the 5th of May 1981, which was a historic event in Sri Lanka-United States relations.

The programmes selected for transmission are relayed to Pidurutalagala mountain via a microwave link of 5 W through a 4 meter parabolic antenna of 45 db gain. It is transmitted on Channel 5 after modulation/modulation as the case may be. The studio centre consists of two recording studios, a dubbing studio, outside broadcast van and an electronic new gathering ENG van. It is proposed to broadcast 40 percent locally produced programmes in the initial stage until more programmes are produced.

Rupavahini will increase the local material in its programmes by about 50 percent in six months time and by 1983 it is expected to go up to 60 per cent. More local programmes are not being shown as they are much more difficult to produce. It is also difficult to obtain Sinhala films from the local producers as they are worried that if their films are shown on TV the intrinsic worth of the films would drop.

Rupavahini expects to make many local programmes with new modern equipment. The drama unit has made considerable headway during the short period of six months from its inception and a number of productions have already been completed. A number of programmes from abroad on educational and entertainment themes are also expected shortly. At present 45 per cent of the entire programmes are produced locally.

Sri Lanka Television is being lauded for its ban on cigarette advertisements.

The Governments of Sri Lanka and Canada signed a pact to develop a permanent TV Production Training Centre in Sri Lanka. The Canadian International Development Agency will provide television training facilities and equipment to a value of Rs.10,700,000 (\$535,000). Under the terms of the new agreement, a fully equipped television production studio and research library will be developed at the National Television Planning Centre on Kirillapone Avenue in Colombo for use by future production classes.

There are more than 150,000 television sets in Sri Lanka and more than 50,000 are not yet licensed. There are 3,000,000 radio sets in Sri Lanka and 60 per cent of the sets are unlicensed. Radio broadcasts 270 hours a day on 7 channels from 5 am to 11:15 pm. Its programmes are broadcast to Asia, South East Asia, and the Middle East. There are 8 transmitting stations employing more than 2,500 people.

An agreement has been reached by the Sri Lanka Government and the United States Government's Voice of America (VOA) to establish the most powerful new transmitting station in a 1,000 acre vast stretch of land known as Muthurajawela in the Western Province, Colombo District. There will be five very advanced transmitters installed and they will be of three categories. Two transmitters of 250 KW and 3 of 500 KW each. All programmes are to be transmitted directly from VOA transmitting station in Washington to Sri Lanka through a special satellite and retransmitted from here to Africa, Middle East, India, Soviet Union, Burma, Bangladesh, China and South Asia.

Rupavahini and Independent Television Network is directly under the Minister of State, *Minister of State: Ananda Tissa de Alwis; Secretary-Ministry of State: Douglas Lijayage. Address of Ministry: Ministry of State, G.C.E.C. Building, Sir Baron Jayatileke Mawatha, Colombo 1, Sri Lanka.*

Rupavahini Corporation and Independent Television Network, Torrington Square, Colombo. Rupavahini Corporation: Chairman, M. J. Perera; Director Programmes: H. M. Gunasekera. Director Engineering: Rukman Wijemanne.

Competent Authority on Independent Television Network: M. D. T. L. Guruge. Address: C/O S.L.B.C., Torrington Square, Colombo 7. Sri Lanka Broadcasting Corporation: Chairman: Eamon Kariyarakarawana; Director General of Broadcasting: D. T. L. Guruge; Director News: Carlton Seneviratne. Address: Sri Lanka Broadcasting Corporation, Torrington Square, Colombo 7.

Liaisoning & Promotion of Production of Television Films. Programme. Production and Sales of TV Films for Sri Lanka exhibition, in the ITN and Rupavahini TV services. Chandra S. Perera, TV film producer, Cinematographer. Representing National Broadcasting Co Inc., NBC NEWS of New York, and U.P.I.T.N. (London and New York). Address: 437 Pethiyagoda, Kelaniya, SRI LANKA. Cables: "TELE-CINEX" Colombo. Phone: 521885 Colombo.

—CHANDRA S. PERERA

SWITZERLAND

The Swiss Broadcasting Corporation (SBC) holds a State concession for sound and television broadcasting. The SBC handles all programme matters, while the PTT enterprises are responsible for the transmitters and relay facilities.

As of April 30, 1982, there were 2,031,822 TV sets in operation in Switzerland and 1167 transmitters and booster on the air. The French and German language-stations schedule about 65 hours weekly, each. The Italian language transmitters have about 60 hours of programming

each week (without Eurovision—European TV Programme exchanges.)

February 1, 1965 commercial TV was introduced on a limited basis. From January 1, 1974, 20 minutes on weekdays at the utmost, 117,400 francs per minute from 1/1/80. Annual licenses cost 174 francs from 1/10/82 for private sets.

About 76 per cent of all households have colour TV sets.

—GERDA GOEPFERT-KLIMISCH

TAHITI

Office of Radiodiff-Télévision Française, Papeete, operates four channels 34 hours weekly to serve the estimated 17,500 sets of this French possession. It is owned by the government and buys its canned programs in Paris.

THAILAND

Thai Television Company (government-owned) opened its first station in 1953 and now operates four stations (two using color) and 8 relays on a commercial basis. Stations are also operated under names of Bangkok Broadcasting & TV, Bangkok Entertainment Co. and Thai Army, all located in Bangkok. Sets are estimated at 2.3 million, some color.

In 1980 a ban on broadcasts from 6:30 to 8:00 PM, as a power-saving measure, allegedly improved "family relationships" so at present broadcasts are limited to 8 hours on weekdays, and 16 hours on weekends and holidays.

UNITED ARAB EMIRATES

Established 1969 by Thompson TV International and Abu Dhabi TV Service. In 1971 United Arab Emirates TV Service, P.O. Box 637 Abu Dhabi established separate facilities which now consist of three stations and three relays. Dubai Radio and Color TV, P.O. Box 1695, Dubai, now broadcasts on two channels from 1 station and 1 relay in Arabic, French and English.

VIETNAM

Since 1968 the Government Information Department of the Democratic Republic of Vietnam has operated one non-commercial station in Hanoi. Number of sets is about 510,000.

A second station was added in Saigon (now known as Ho Chi-Min City) when South Vietnam was "liberated" and the divided country became one.

WEST GERMANY

Latest statistics on television in Germany:

TV Households: Out of approximately 24,000,000 German households, 23,000,000 have at least one television set. Of these, about 16,000,000 have at least one color set. Some 23,000,000 households have at least one radio. Total TV set sales per year: about \$2.2-billion.

Transmission: Only over-the-air TV transmission operates in Germany. Cable and satellite transmission is being planned, but neither form is likely to appear in significant commercial terms until after 1985. After five years of discussion, pilot cable projects are underway in Ludwigshafen, Düsseldorf and Berlin. First German TV satellite won't be launched until 1984, with serious technical consideration of the form getting underway in earnest by about 1986.

TV Networks: Germany has no networks similar to webs in the U.S. In fact, there are no privately-owned commercial TV stations; all telecommunication is state-owned. Basically, the two national TV outlets are: ARD, the national hookup of nine regional stations; and ZDF or second channel, a single nationally-beamed station based in Mainz near Frankfurt. ARD's nine stations each contribute to one joint national broadcasting operation, five regional channels and several radio channels. ARD has a budget of about \$1,640-billion; ZDF, \$556,000,000. Commercials are aired on both stations in sharply limited timeslots. Stations are supported largely by \$6.50 monthly license fees paid by TV set owners.

TELEVISION CODE SUSPENDED

As of March 10, 1982, the Television Code, copyrighted by the National Association of Broadcasters and adopted by the industry in 1951, was suspended. This followed an anti-trust action by the Department of Justice against NAB. Copies of the Code and its revisions over the years will be found in previous editions of the TELEVISION ALMANAC.

The annual subscription for 25 issues of **Motion Picture Product Digest** is only \$25 in the United States, and \$35 overseas.

QUIGLEY PUBLISHING COMPANY, INC.
159 West 53rd Street, New York, N.Y. 10019

FOR EVERYONE

Our philosophy is simple. At the Will Rogers Institute, our number one concern is health. Celebrities like Lucie Arnaz, Jack Klugman, Rita Moreno, Christopher Reeve, Brooke Shields and more have volunteered to bring health information to the public through television and radio messages produced by Will Rogers.

Even though the costs of medical treatment get higher every day, many people still don't think about preventing illness. Now, the public can turn to us for information that can help them make

good choices about their health.

Have questions about alcoholism, drug abuse, stress, accident prevention, stroke, high blood pressure or nutrition? Write the Will Rogers Institute, White Plains, New York 10605 for free booklets that'll help keep you healthy!

The Will Rogers Institute is affiliated with: the Burke Rehabilitation Center, White Plains, New York; the New York Hospital-Cornell Medical Center, New York City; the University of California, Los Angeles Medical Center.

Rita Moreno:
"Remember, what you drink, your baby drinks."

Auto safety:
"Use your seatbelt, and don't tailgate."

Lucie Arnaz:
"Help is available for women alcoholics."

General Safety:
"The accident could have been prevented."

Brooke Shields:
"Learn the facts about drinking."

The **Will Rogers** Institute

To call us in New York: (212) 931-1211 or (914) 761-5550 in Los Angeles: (213) 206-6191
