# Minerva

The watchword for reliable service

**RADIO • TELEVISION • FILMS**

#### Model 107N

Full minute span with more definition on the minutes. Single dial reference for both minutes and seconds retains the mechanics familiar to Radio and TV but this Minerva timer is much easier to read and use. For spot timing, timing program segments. 1/5 second, Start-Stop-Start from crown - Fly Back to zero from button on side of case. 7 jewel lever movement, nickel chrome case and solid bridge construction for years of dependable service. Price \$99.00

#### Model 106F

The Filmmeter. This specifically designed timer has regular 1/5 second scale plus 90 and 36 ft. per min. scales to register footage for 35mm and 16mm film. Long hand completes one revolution in 60 seconds, small hand registers up to 30 minutes. "Time out" feature. Start-Stop-Start by depressing crown. Perfect Fly-Back to zero by depressing side pin. Non-magnetic, 7 jewel lever movement. Nickel chrome case. Price \$86.00

OVER 100 MODELS AVAILABLE

Write for catalog: Dept. RAY

## OVER 100 YEARS OF PRECISION TIMING SERVICE

Exclusive, Non-breakable, "Coil Spring" mechanism for Economy, Durability and Accuracy. The result of 20 years of research, Minerva "coil" construction assures endless timing precision with less wear or friction under continuous usage.

**HEADQUARTERS  
FOR  
STOP WATCH  
REPAIRS &  
SERVICING**

Lifetime Guarantee. The coils in Minerva mechanisms are guaranteed against breakage and wear for the life-span of the timer. If any timer fails to give satisfaction within one year due to material or workmanship it will be repaired or replaced without charge.

## Foreword

With this edition the INTERNATIONAL TELEVISION ALMANAC marks its 31st year, and that comes at a time when the industry is growing faster than ever and in all sorts of directions. The number of TV homes in the U.S. is now 84.9 million; daily household viewing is at 88 per cent for all TV households in an average day and 94 per cent in an average week; cable TV now reaches 43.7% of TV homes. More than ever, then, the service that the Almanac supplies is needed—the who, what, when and where of the industry.

—RICHARD GERTNER

# The Year in Review

**M**ore and more U.S. households are subscribing to cable-TV systems which bring them an ever wider and more varied choice of home entertainment from pay-TV services, independent stations, and public broadcasting channels. At the same time the video cassette market is booming, with projections for 1985 that as many as 12 million new VCRs would be purchased.

In spite of such formidable competition, however, it is network television that continues the major force in the American TV field.

The facts are assembled by the A.C. Nielsen Company. In 1984 TV was watched by 222 million Americans, which is 98 percent of the nation. Each home has its set on for an average of 7 hours and 8 minutes a day, and 77 percent of those have been devoted to programming supplied by ABC, CBS and NBC. Their profits were estimated at over \$1 billion for the year.

Nielsen also reports on the competition between the three networks, and the winner for the 30-week 1984–85 prime time season was CBS for the sixth straight year. NBC was a strong second, but ABC came in a poor third, registering its worst showing in a decade. The figures: CBS, 16.9 rating; NBC, 16.2; ABC, 15.4. This compares with the 1983–84 season: CBS, 18.0; ABC, 17.2; NBC, 14.9.

Overall network viewing for the 1984–85 season was down 2.8%, with the three networks capturing less than half the prime-time potential audience: 48.5%.

In the 30-week period CBS had six of the top weekly series: "Dallas," "60 Minutes," "Simon & Simon," "Murder, She Wrote," "Knots Landing," and "Falcon Crest." NBC had three: "The Cosby Show," "Family Ties," and "The A Team." ABC had only one—

"Dynasty"—but it was the most popular series of the Top Ten.

Highest rated of the new programs for 1984–85 was NBC's "The Cosby Show," a comedy about a black upper-middle-class family which is also the network's highest-rated new series since "Chico and the Man" in 1974 and the highest-rated new TV series on any network since "Mork and Mindy" in 1978.

This spectacular success will be reflected in the new programming for 1985–86 when more shows than ever will prominently feature characters who are black. NBC has scheduled 11; ABC, 8; and CBS, 7.

Other trends in 1985–86 programming include an emphasis on anthology series—a genre not much in fashion in recent years. NBC has scheduled two: "Amazing Stories" (produced by Steven Spielberg) and "Alfred Hitchcock." CBS will have "George Burns' Comedy Week" and "The Twilight Zone" (a revival of the classic Rod Serling series).

The success in 1984–85 of NBC's cop series, "Miami Vice," has spawned two new ABC shows emphasizing action with a rock soundtrack: "The Insiders" and "Hollywood Beat," the first dealing with investigative reporters and the second with undercover policemen.

In recent years theatrical movies have dropped out of favor with network programming executives. Ratings have been low since the films have already been available on video cassettes and on pay-TV channels like HBO and Showtime.

In 1984–85, however, a showing on NBC of "First Blood" with Sylvester Stallone outranked two brand new made-for-TV movies available simultaneously on ABC and CBS. This success has prompted re-consideration of the policy, and viewers will be offered such films as

“Tootsie,” “Octopussy,” “Superman III,” and “The Right Stuff” in the new season.

Overall, however, new movies made especially for TV will predominate. These network-produced films will be packed with major stars such as George C. Scott (playing Gen. George S. Patton on CBS and Mussolini on NBC), Liza Minnelli, Vanessa Redgrave, Ava Gardner, Jackie Gleason, Kirk Douglas, Faye Dunaway, Lucille Ball, Candice Bergen, Shirley MacLaine, Colleen Dewhurst, Lee Remick, Ann-Margret, Elizabeth Taylor and others.

Elsewhere the big news in the TV industry for 1984–85 concerned network takeovers—one successful endeavor and one aborted. The latter was the assault on CBS by Ted Turner, the cable broadcasting mogul from Atlanta; network management was successful in thwarting his efforts to oust them.

On the other hand ABC’s owners welcomed the bid of Capital Cities Communications, Inc. to acquire that network

at a cost of \$3.5 billion. When the deal is completed the company name will be changed to Capital Cities/ABC Inc. Hopes are that the new management will improve the third-rated network’s standing in the industry.

In other management changes Rupert Murdoch, the Australian entrepreneur who also in 1985 purchased 20th Century Fox, made a deal with Metromedia, Inc. to buy six major TV stations in New York, Los Angeles, Chicago, Dallas/Fort Worth, Washington and Houston. These stations reach nearly 20 percent of the nation’s homes and serve six of the ten largest markets in the country. The price: \$1.6 billion.

Finally, Warner Communications sold to Viacom International a bundle of media properties, including WCI’s 31 percent of Showtime/The Movie Channel, Warner Amex’s 19 percent of Showtime/TMC, and Warner Amex’s two-thirds interest in MTV Networks.

***“...Nosotros Los Queremos Mucho  
Y Les Damos Las Gracias  
Con Todo El Corazon.”\****

***\*\*“Dear Variety Clubs International,” they wrote,  
“we love you very much and we thank you with all our hearts.”***

All 16 happy, healthy hearts! These 16 Colombian children, brought together for a reunion in San Gil, are well again and leading normal lives. All of them, over the past three years, received life-saving open heart surgery at the North Shore University Hospital on Long Island, New York, through the Variety Children's Lifeline Program. Lifeline provided transportation for the patient and a parent. The hospital and dedicated doctors

contributed the surgery and medical care. The program, initiated in 1980, is aiding needy youngsters from all over the world and has expanded to include hospitals and physicians throughout the United States, Canada and Great Britain. To reduce the long waiting list of desperate children who will die prematurely without help, Variety Children's Lifeline is seeking additional funds. You can play an important role in this vital project.

**Send your contributions to Variety Children's Lifeline,  
c/o Variety Clubs International, Suite 23C, 58 West 58th St., New York, NY 10019

# Government Film Bureaus

## DEPARTMENT OF AGRICULTURE:

*U.S. Department of Agriculture Video & Film Division*, Washington, D.C. 20250. Larry A. Quinn, acting chief, Video & Film Division.

USDA films are available through the cooperating extension libraries of the Land Grant Universities and are included in their respective catalogs. (USDA no longer issues a film catalogue.) Prints of the USDA films or replacement footage can be purchased from the National Audiovisual Center (NAC), General Services Administration, Washington, D.C. 20409. Contact NAC Sales Branch for prices and ordering procedures at (301) 763-1891. NAC rents 16mm films for a nominal fee and offers preview prints of selected titles. The Reference Section will direct inquirers to the closest free loan source, either commercial service or regional Federal agency loan library. NAC will also provide specialized research, using master data files of all available AV materials produced by the U.S. Government. Printed information lists, brochures, and catalogs listing titles by subject, media, or Federal agencies, are available. Call (301) 763-1896.

## DEPARTMENT OF COMMERCE:

*International Trade Administration, Office of Service Industries*, 14th and E Streets, N.W., Washington, DC 20230; (202) 377-4581. Theodore A. Nelson.

This division studies and reports statistics of the industry at home and abroad. The material gathered is published in department reports and is used with information from other industries to help fulfill the function of "representing business to the government and the Government to business."

## DEPARTMENT OF DEFENSE

*The Pentagon Building*, Washington, DC 20301-1400. Assistant Secretary of Defense (Public Affairs) Michael I. Burch.

*Special Assistant (Audiovisual)*: M. Donald E. Baruch, Room 2E789, 685-2936. Acts on all requests for Department of Defense assistance from any segment of the motion picture and television industry concerned with dramatic productions and documentaries not dealing with news.

*Radio-Television Branch*: LCOL Daniel Braun, Rm 2E765, 695-0168. Responds to request for DOD assistance from major television/radio networks and other news documentary film/video productions. Arranges technical aspects of news conferences and media coverage at the Pentagon.

*Media Support*: M. Ed Michaelski, Rm 2E773, 697-1252. Obtains and releases Department of Defense still and motion picture/video to news and other media outlets.

## DEPARTMENT OF THE ARMY

*Office Chief of Public Affairs*, Los Angeles Branch, Chief, COL Rolf G. Schmitz, 11000 Wilshire Blvd., Suite 10104, Los Angeles, CA 90024-3688; (213) 209-7621).

*Marine Corps Public Affairs Office, Los Angeles, California*: MAJ Fred C. Peck, 11000 Wilshire Blvd., Suite 10113, Los Angeles, CA 90024-3688; (213) 209-7272.

*Department of the Navy, Navy Office of Information, West*: LCDR Connie Haney, Director, 11000 Wilshire Blvd., Suite 11100, Los Angeles, CA 90024-3688; (213) 209-7481.

*Department of the Air Force, Western Region Office of Public Affairs*: COL Leo M. Terrill, Chief, 11000 Wilshire Blvd., Suite 10114, Los Angeles, CA 90024-3688; (213) 209-7511.

## DEPARTMENT OF TRANSPORTATION

*Coast Guard Public Affairs Liaison Office, Los Angeles*: CAPT Donald J. Aites, 11000 Wilshire Blvd., Suite 10125, Los Angeles, CA 90024-3688; (213) 209-7817.

## DEPARTMENT OF HEALTH EDUCATION AND WELFARE:

330 Independence Avenue, S.W., Washington, DC 20201. (202) 245-6296.

*Information Office*: 963-4568. Sanford H. Winston, director; York Onnen, asst. director; Harry Bell, dir., (Audio Visual Services), 963-5319.

*Health Services & Mental Health Administration*: Dr. Vernon E. Wilson, administrator; Edward J. McVeigh, Director of Information; 443-2086.

HS and MHA produces and distributes film, audio and video tape, and multi-media materials on problems of mental and physical health by a combination of contract and in-house facilities.

*National Institute of Health*: Dr. Robert S. Stone, Director; Storm Whaley, Associate Director for Communications, 496-4461.

NIH's Audio Visual facilities are responsible for the production and distribution of motion pictures, slides and other materials depicting

biomedical research and its implications.

*Environmental Protection Agency*: William D. Ruckelshaus, administrator, 755-2700; Thomas Hart, dir. of public affairs, 755-2700; Luke C. Hestor, films, 443-4804.

EPA produces films on the environment and information lists for the public.

## SOCIAL SECURITY ADMINISTRATION:

John A. Svahn, Commissioner; Russell R. Jalbert, asst. commr., Public Affairs (301) 594-1990; Robert Fenwick, Audio Visual Staff Chief, 944-5587.

SSA produces and distributes films for use throughout the country describing social security and its benefits.

## SOCIAL AND REHABILITATION SERVICE:

James S. Dwight, Administrator; Robert A. Wilson, Director of Public Affairs, 962-4655.

SRS produces and distributes films on a wide variety of subjects, such as social welfare services, Medicaid, rehabilitation, juvenile delinquency and related topics.

## OFFICE OF EDUCATION:

Terrel H. Bell, commissioner; Anne Graham, chief, office of public affairs, 254-5800.

*Audio-Visual division*: The Office of Public Affairs is responsible for clearance and monitoring of all motion picture and other audiovisual materials generated by OE contracts with, or grants to companies or non-profit organizations and Institutions. Distribution of these materials is made through the National Audio Visual Center (located at the National Archives and Records Services) or by special arrangements with producers. Public use of OE audiovisual materials is approved by the HEW Office of Public Affairs.

*Caption films division*: Malcolm Norwood, asst. chief, 963-5230. This division purchase already produced films and captions them for use by the deaf.

## DEPARTMENT OF THE INTERIOR

*Bureau of Mines, Motion Picture Booking Section*, 4800 Forbes Ave. Pittsburgh, Pa. 15213. Tel.: 412-621-4500. This is the main distributing center; however copies of some films are deposited at cooperating educational film distribution centers throughout the country.

The Bureau maintains a library of motion pictures depicting mining and metallurgical operations and related manufacturing processes. They are loaned free of charge, except for return postage (book rate) to educational institutions, industries, training workers, engineering, and scientific societies, civic and business associations, and other responsible organizations. The cost of production is paid by co-operating industrial concerns but the pictures do not carry trademarks, trade names or other direct advertising materials. William Gage, (202) 634-1335, officer in charge Bureau of Mines Audio-Visual Programs, Washington, is in charge of production.

## DEPARTMENT OF JUSTICE:

Constitution Avenue and 10th Street, N.W., Washington D.C. 20530.

William French Smith, Attorney General; Terence B. Adamson, Director of Public Information; 739-2014.

## SMITHSONIAN INSTITUTION:

Washington, DC 20560, 628-4422

S. Dillon Ripley, secretary; Nazaret Cherkezian, Telecommunications coordinator, 381-2414.

Coordinates production on all motion picture and TV filming.

## DEPARTMENT OF STATE:

21st Street and Virginia Avenue, Washington, D.C. 20503. George Schultz, Secretary of State.

## OFFICE OF MEDIA SERVICES

Paul E. Auerswald, director, 632-2083. Provides State Department assistance on film and TV production. Produces an average of one film a year on foreign policy subjects and distributes them for public service TV and classroom use.

## OFFICE OF INTERNATIONAL TRADE:

Dept. of State; 632-2543.

(Concerned with commercial aspects of film industry, trade treaties, quotas, restrictions, etc.)

## EXECUTIVE AGENCIES

### FEDERAL COMMUNICATIONS COMMISSION:

1919 M St., N.W., Washington, D.C. 20054—Mark Fowler, Chairman; William A. Russell, Jr., Public Information Officer. (202) 632-7260.

Charged with regulating interstate and foreign communications including radio, television, satellite, cable and wire services. Licenses all standard, FM, and television broadcasting stations and services.

### FEDERAL TRADE COMMISSION:

Sixth Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580—David A. Clanton, chairman; Theodore O. Cron, director of information. 523-3625.

Administrators statutes designed to promote fair competition; institutes proceeding to prevent unfair or deceptive practices, combinations in restraint of trade, false advertising, and illegal price discrimination. Supervises associations of exporters under the Export Trade Act.

### SECURITIES AND EXCHANGE COMMISSION:

500 N. Capital St., Washington, D.C. 20549; Harold M. Williams, chairman; George A. Fitzsimmons, Secretary (information). 755-1160.

Registers security offerings and supervises exchange trading in securities.

### U.S. INFORMATION AGENCY:

1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547—John E. Reinhardt, director. (202) 724-9042.

*Motion Picture and Television Service:* 376-7806. McKinney Russell, assistant director. Stanley Moss, deputy assistant director. Certifies exemption of import duties if film is educational in nature.

USIA produces and acquires about 200 film and television documentaries annually for information and cultural programs in 117 countries. In addition, close to 350 targeted, and 150 worldwide new clips are made for use on foreign television. These are seen abroad in commercial theatres, in television, in schools and community centers, and by clubs, universities, and other audiences.

## LIBRARY OF CONGRESS

10 First Street, S.E., Washington, D.C. 20540. 202-426-5000. Daniel J. Boorstin, Librarian of Congress; Mrs. Mary C. Lethbridge, Information Officer. 202-426-5108.

This agency serves as the national library and includes the U.S. Copyright Office as one of its departments. In addition to registering films for copyright and publishing a record of copyright registrations, the Library catalogs motion pictures and filmstrips, publishes printed catalog cards, book catalogs and machine-readable tapes for such materials, collects current film selectively, maintains an extensive archive of motion pictures from 1894 to date, and provides related bibliographic services.

*Copyright Office*—Barbara Ringer, Register of Copyrights.

Robert D. Stevens, Chief of the Copyright Cataloging Division, 703-557-8715, supervises the preparation of the semi-annual *Catalog of Copyright Entries: Motion Pictures and Filmstrips*, which is distributed by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. This publication contains descriptive data for all theatrical and nontheatrical pictures registered for copyright during each 6-month period and includes renewal registrations.

*Processing Department*—Joseph H. Howard, Director.

Vivian L. Schrader, Head of the Audiovisual Section of the Descriptive Cataloging Division, 202-426-5238, supervises the cataloging of approximately 5,000 motion pictures, filmstrips, and sets of slides and transparencies a year, largely on the basis of information supplied by producers and media libraries.

*Research Department*—Alan Fern, Director.

Motion Picture Section in the Prints and Photographs Division, 202-426-5840, which has custody of the Library's collection of over 60,000 motion pictures. The collection is primarily an archive. It contains educational, scientific, religious, industrial, and documentary films, as well as newsreels and features. Chiefly American, it includes German, Italian, and Japanese films, and in it are historically important films preserved by the Library from the early days of the motion-picture industry. Since 1942, about 1,500 representative titles a year have been retained.

# Distributors of 16mm Feature Films

---

## STATISTICS

### HISTORICAL DATES

**FIRST OVER-THE-AIR TOLL-TV EXPERIMENTS:** 1950, Skiatron system tested over WOR-TV in New York City. 1951, Telemeter system tested over KTLA-TV, Los Angeles; Zenith tested its system over its own experimental station in Chicago.

**FEBRUARY 10, 1955:** Federal Communications Commission started proceedings to determine whether it should authorize TV stations to transmit programs paid for on a subscription basis. Study involved 92 docket volumes reflecting the views of over 25,000 persons on legal, technical and policy questions.

**MAY 23, 1957:** FCC concluded it had authority to authorize use of TV broadcast frequencies for subscription operations if it found it were in the public interest to do so. Did not define whether this service should be classified as "broadcasting" or some other.

**OCTOBER 17, 1957:** FCC adopted its first report on the proceedings and declared it would consider applications to conduct trial pay-TV operations over TV stations provided certain conditions were met.

**MARCH 24, 1959:** FCC issued third report saying it was ready to consider any pay-TV application by a commercial TV station conforming with requirements, among which were limitation of three-year trial authorizations to markets where there were at least four commercial TV stations (including the pay-TV one), and one trial system allowed per market.

**JUNE 22, 1960:** Hartford Phonevision Co. (later RKO General Phonevision Co.), a licensee of WHCT (Channel 18), Hartford, CT, applied for authority to conduct a three-year trial subscription-TV operation. Application granted February 23, 1961. Operations began June 29, 1962, and concluded in January, 1969.

**JULY 3, 1967:** FCC's subscription TV committee submitted a fourth report proposing an over-the-air subscription TV service. Rules were designed to integrate subscription TV into the total TV system so good programming would continue to be available over regular TV stations.

**DECEMBER 12, 1968:** FCC formally established over-the-air subscription TV as a regular broadcast service.

### Statistics for 1981 (supplied by FCC)\*

Operating revenues totaled over \$3.5 billion, a 60 per cent increase over 1980 revenues. Total operating expenses were \$2.4 billion, leaving an operating income of \$1.2 billion or a 33.4 per cent operating margin before expenses of depreciation/amortization, interest and taxes.

Net income before taxes was approximately \$40 million and the cable industry's total assets had a book value of \$7.91 billion (up 78 per cent from 1980).

Pay cable services yielded revenues of \$1.17 billion or 32.6% of total revenues. The percentage of total revenues attributable to pay cable operations increased by 6.9 per cent in 1981.

The national average monthly subscriber rate for basic service was \$7.94 in 1981, ranging from an average low of \$6.50 in Vermont to a high of \$20.01 in Alaska. The national average cable television installation fee was \$18.32, ranging from \$11.45 in Rhode Island to \$40.00 in the Virgin Islands. That national average monthly rate for pay cable TV was \$9.56, ranging from \$6.00 in the Virgin Islands to \$12.93 in Alaska.

In 1981, pay cable services were offered by 2,406 financial entities comprising 9,264 communities in nearly every state. California, New York and Pennsylvania were the leading states in terms of pay cable revenues.

Approximately 12,000 communities with over 23 million subscribers (households) were served by cable television in 1981. These 12,000 communities were consolidated into 3,600 financial entities for reporting purposes. A financial entity is defined as one or more cable TV community systems which report to the Commission as one business entity—upon meeting certain ownership and technological requirements.

### Recent Statistics

In 1985 cable television added 4.5 million new homes, bringing the total to 60.4 million, or 71% of U.S. TV households. Pay-TV subscribers grew to 30 million, representing some 42% of U.S. TV homes. Revenues of cable systems had jumped to \$8 billion by the end of 1984 and pre-tax profits were estimated at \$800 million.

\* The FCC ceased compiling financial data on the cable TV industry after 1981.

## Catholic Conference (U.S.), Department of Communication

Suite #1300, 1011 First Ave., New York, NY 10022; (212) 644-1898.

SECRETARY OF COMMUNICATION

Richard H. Hirsch

The Department of Communication of the U.S. Catholic Conference (the public policy agency of the Catholic Bishops of America) addresses the Church's apostolate in and through the print and electronic media. It provides advice and technical assistance on more than 100 radio and 50 network television programs a year.

The Department also publishes a weekly guide to current films and television programs that appear in 100 plus papers of the Catholic Press in the United States. In this activity the Department reviews all current nationally-released 35mm films, and provides information about resources for film utilization and education (16mm films, books, magazines, festivals). The critical reviews are addressed to the moral, as well as the aesthetic, dimensions of motion pictures, and are the result of a consensus based on the reactions of the Department's professional staff and Board of Consultants. All films reviewed are also classified according to the Department's rating system. In addition, this weekly service carries information and evaluative studies on trends and issues pertinent to television, with an emphasis on educational material.

The Department also plays a liaison role for the USCC with the film and broadcasting industries, national media, and religious agencies and organizations. It is a member of OCIC and UNDA, the international Catholic organizations for film and broadcasting, respectively. Consultation and information services are also provided for the Pontifical Commission for Social Communications and the communication offices of national episcopal offices throughout the world.

The Department includes the National Catholic News Service. For more than 60 years this agency has been the primary source of news about the Church worldwide for the American Catholic and secular press. NC News also produces a weekly television newscast and "Origins," the well-known documentary service with subscribers throughout the United States and the world.

With staff assistance, the episcopal members of the Communication Committee administer funds raised through the Catholic Communication Campaign, an annual collection. These funds are used to support a variety of media programs, projects, and studies in this country and the Third World.

# BRITISH YEAR IN REVIEW

IT has been a year of consolidation and debate for the British television industry. The consolidation has been on the programme side with the commercial television companies (IBA) maintaining a range of quality services despite difficult trading conditions. The debate has been government-inspired to consider whether the BBC (British Broadcasting Corporation) which is funded by an annual tax on owners of TV sets, should accept advertisements to supplement its income. Opposing advertising on the BBC, the IBA (Independent Broadcasting Authority) gave evidence as follows:

"The principle of separation of funds has worked well in terms of the range of quality of broadcasting services available to the public. We believe that it should continue to do so, and that the IBA should continue to be responsible for all advertising-financed public service broadcasting channels. Within commercial television, Channel 4 would be one of the parts of the service most likely to be affected if the BBC took advertising. Even if the initial financial impact was small, opposition to the BBC taking advertising would remain."

There are currently 18,600,000 domestic TV license holders producing an income for the BBC of some £763,000,000.

During the year ended March 1985, the IBA companies net advertising revenue (excluding TV-am) was £903,344 million. Of that amount, £75,193 million (8%) was derived from Channel 4 sales, and £1,703 million from S4C.

In its first year of existence TV-am, IBA's breakfast-time service, just touched £9 million in advertising sales in the year ended January 1986 has received nearly £15 million revenue, of which 2% came from the food market. The company anticipates that during 1985 advertising revenue should reach in excess of £26 million.

For the third successive year there was a substantial increase in the overall overseas net earnings of film and television companies from the production and distribution of film and television material. In 1984 the total overseas net earnings for the industry were £125 compared with £101 million in 1983 and only £41 million in 1981 (see table 1). But virtually

the whole of these overseas net earnings were accounted for by the film industry.

Net overseas earnings of television companies fell to £1 million in 1984 from £8 million in the previous year. This continued a generally downward trend which followed record net earnings in the late seventies. Receipts rose by almost 20 percent to £91 million while expenditure rose by 30 percent to £90 million. The resulting decrease in net earnings was attributable to an unfavourable balance of receipts less expenditure with North America, partially offset by increases in balances elsewhere. The net earnings from North America have been declining since 1980.

However, by 1985 the commercial arm of the BBC—BBC Enterprises—was still reporting record profits from overseas sales. At the same time, the 15 IBA companies—commercial programme contractors—also had buoyant revenues. The trend of showing feature films on television continues apace with much buying for the commercial companies being carried out centrally.

On the production front, there are signs that the gap between film and television is being closed. The BBC has entered co-production companies, though the bulk of its production continues to be in-house. IBA programme companies have produced material, sometimes in co-operation with the independent production sector which in terms of content is indistinguishable from feature films.

Sales of American programme to British television is governed, to some extent by the limitation, by government decree, of foreign material. There is also the British cinema exhibition industry's embargo restricting the television of any theatrical films to three-year-old productions. Even so, American films and series are still among the biggest draws with viewers.

The British remain a nation of TV addicts. 92 percent of them put watching it as their favourite leisure activity. Their viewing ranges from 22 hours per week in the winter to 17 hours in the summer.

With any change in the British climatic conditions unlikely in the foreseeable future—this captive audience is there for some time to come.

## INDEPENDENT BROADCASTING AUTHORITY

70 Brompton Road, London, SW3 1EY. Tel: 01-584 7011.

The Authority was created by Parliament in 1954 as the Independent Television Authority, to provide a comprehensive television service additional to that of the BBC. Under the terms of the Sound Broadcasting Act, 1972, the Authority was renamed the Independent Broadcasting Authority and its functions were extended to cover the provision of Independent Local Radio.

The Broadcasting Act 1980 provided for the setting up of the Channel Four Television Company as a subsidiary of the IBA; it started broadcasting in England, Scotland and Northern Ireland on November 2, 1982. A separate Welsh Fourth Channel Authority was also established by this Act; broadcasting on November 1, 1982. The Broadcasting Act 1981 has consolidated a number of Acts relating to the IBA.

The Authority selects and appoints the ITV & ILR programme companies; supervises the programmes provided by the contractors—and the Channel Four Television Company—and their scheduling; controls advertising, and builds, owns and operates transmitting stations. Fifteen ITV programme companies provide programmes in 14 regions of the United Kingdom (two companies operate in London). As a part of its review of the ITV system, the Authority, in December 1980, offered a contract to broadcast a new national breakfast-time television service, which started in February 1983, to TV-AM. In addition, changes were made to some ITV companies.

By July 1985, 48 Independent Local Radio stations were providing a programme service in areas of the United Kingdom (two companies operating in London).

Both ITV and ILR are financed mainly by the sale of advertising time.

The Members of the Authority are appointed by the Home Secretary and consist of a Chairman and Deputy Chairman and ten other members, of whom three make the interests of Scotland, Wales and Northern Ireland, respectively, their special care.

**Chairman:** The Rt. Hon. the Lord Thomson of Monifieth

**Director General:** J. Whitney

**Director of Administration:** Lady Uttler

**Director of Television:** David Glencross

**Director of Engineering:** T. S. Robson, O.B.E.

**Director of Radio:** John Thompson, C.B.E.

**Director of Finance:** P. Rogers

**Head of Information:** Miss B. Hosking, O.B.E.

**Head of Advertising Control:** H. Theobalds

**Dep. Director of Television:** Miss C. Mulholland

**Head of Research:** Dr. R. Towler

## INDEPENDENT BROADCASTING AUTHORITY GENERAL ADVISORY COUNCIL

Drawn from various walks of life, the Council is appointed to give the IBA impartial advice on the general pattern and content of ITV programmes.

**Chairman:** Mrs. D. D. Jackson, A.C.I.S.

## INDEPENDENT BROADCASTING AUTHORITY ADVERTISING ADVISORY COMMITTEE

The Committee, under the terms of the Broadcasting Act 1981, must be representative of organizations, authorities and persons concerned with standards of conduct of advertising including, in particular, the advertising of medical or surgical goods or services, and the public as consumers.

*Chairman:* Prof. A. L. Diamond

# THE WORLD MARKET

## AFGHANISTAN

People's Radio & Television Afghanistan, Post Office Box 544, Kabul; 8 stations, 12,150 sets.

## ALBANIA

Radiodiffusion TV Albanais, Tirana, government-owned experimental station, broadcasts sixteen hours weekly to some 200,000 sets, many of them located in public places so that segments of the populace not owning sets can view the programs.

## ANGOLA

Television Popular de Angola. C.P. 2604, Luanda; 23,000 sets.

## ARGENTINA

**General Situation:** At this writing, the country is in the midst of a period of economic reforms with an anti-inflation program announced by the President, Raul Alfonsin. With this program, the government has undertaken not to emit currency to finance the public expense. If this is attained, the TV channels administered by the government will be obliged to finance privately themselves, which is almost impossible due to the great debts the channels actually have for film programs that were contracted for, acquisition of color TV equipment, etc. This will be the greatest challenge that the new authorities of the Buenos Aires channels will have to cope with, because the reduction of expenses must be obtained without appealing to a reduction in employment, which is an imposition of the government. Therefore there is much doubt as to how the situation of each channel will be solved. With regards to the transfer of the channels to private enterprises, no progress has been made in this direction in spite of the fact that this is a matter of priority in the government program.

**Censorship:** There has been an important modification: it has been permitted to see in TV programs themes that before were strictly forbidden (adultery, infidelity, drug addiction, homosexuality and the like). The so-called hours for the protection of minors is still in force, which covers the time from the beginning of the programs until 10 p.m.

**Programming:** With the new constitutional government the TV programs of the city of Buenos Aires have increased the Argentine product shown to 70% of all programs. It is also noticeable that there has been a big increase in the sales of VCRs in Argentine homes, which can be estimated at about 90,000 units.

**Channels:** The country has 42 channels (4 in Buenos Aires) (Free TV); and approximately 40 closed circuits (Cable TV). Of the latter, in Buenos Aires there are two which have between them about 40,000 subscribers.

**Economic Situation:** The transfer of currencies to foreign countries is still handicapped, but to a certain extent this has been obviated with Foreign Bonds of the Argentine Republic, nominated Bonex, payable in dollars when due.

**Trade Organizations:** Asociación Argentina de Circuitos Cerrados Comunitarios de Televisión, Avenida de Mayo 749 (Piso 2º, Of. 10); Buenos Aires. Asociación de TeleRadiodifusoras Argentinas, Avenida Cordoba 323 (6º Piso) Buenos Aires; Asociación Radiodifusoras Privadas Argentina, Cangallo 1561 (8º Piso), Buenos Aires; Camara Argentina de Video y Afines, Maipu 725 (Piso 1º Of. 12) Buenos Aires; Comité Federal de Radiodifusión, Paseo Colon 315 (Piso 3º) Buenos Aires; Sociedad Argentina de Locutores, Billinghurst 901, Buenos Aires.

NAT BRUSKI

## AUSTRALIA

**Industry Make-Up:** Australia has three commercial networks: The Seven Network (owned by the Fairfax Group); The Nine Network (Consolidated Press Holdings); and Network 10 (News Ltd. and others). Government-owned networks: Australian Broadcasting Corp., and Special Broadcasting Service. Total number of commercial stations is 50: ABC has 274 stations including regional transmitters and translators; Special Broadcasting covers nine territories.

**Viewing Patterns:** Total TV households: 4,757,000; families viewing (aggregate): 4,650,000; families viewing (percentage): 97.8%. Average viewing time per week of all age groups is 19 hours, 4 minutes.

## BAHRAIN

Bahrain TV, P.O. Box 1075, Manama, Bahrain, operates 1 channel and 1 relay for some 120,000 color sets.

## BANGLADESH

Pilot station established in 1964 by government. Now includes originating station at Dacca with relay stations at Chittagong, Natore, Khulna, Sylhet, and Rangpur plus two under construction. Address Bangladesh TV, Television Bhaban, Rampura P.O. Box 456, Dacca. 250,000 sets.

## BRAZIL

Brazil now has some 20,000,000 sets using PAL. The audience is estimated at about 80,000,000, which makes this country the highest selling and fastest growing market in Latin America.

Brazilian law requires that all owners of radio or TV stations be of Brazilian nationality. A further law stipulates that all foreign films shown on TV be dubbed, and that no station may transmit more than 22 half hours of foreign films for each 72 hours of weekly transmission time. Stations which transmit less than 12 hours per day have a corresponding lower quota. Seven sound studios, four in Rio de Janeiro and three in Sao Paulo take care of the dubbing of all American and some Italian, Argentine and Mexican films that come into the country.

Professional Association of Radio and TV Station Owners: Sindicato dos Proprietarios de Empresas de Radio Difusao a Televisao, Avenida Presidente Churchill 97 Sala 606, Rio de Janeiro.

## BRUNEI

Established 1975 by governmental Radio TV Brunei, Bander Seri Begawan, Brunei. Two channels; 50,000 sets.

## BURMA

Burma Broadcasting Service, Promote Road, Kamayut Post Office, Rangoon. One station. 50,000 sets

## CAMBODIA (Kampuchea)

Radio Kampuchea Television, 28 Ave Preah Mohaksatryany Kosonak, Phnom Penh City, broadcasts daily on Channel 8 with relay to Bokor. Sets are estimated at 40,000.

## CANADA

**Number of TV Sets:** Of an estimated 8,857,000 private households, 88.4% in 1984 had at least one color TV set and 17.8% two or more. The latter figure was up from 15.6% in March of 1983.

**Number of TV Stations:** 211, including 30 Canadian Broadcasting Corp. outlets (owned and operated); 25 independent CTV member stations; and six French-tract TVA outlets based in Quebec.

**Cable:** 60% of all households, or 5,000,000, subscribe to basic cable TV services. Of those, 31.4% have cable converters rented in 1984 from cable operators or purchased outright. Compared to 1983 the former figure is constant; however, the latter is an increase of 26.3% over the previous year. Cable operators presently take in some \$352,200,000 (Canadian) annually.

**TV Corporations:** Canadian Broadcasting Corporation, Box 500, Station A (416) 925-3311; (English and French networks) Radio-Canada CBC Enterprises/Les Entreprises, 1400 Dorchester Blvd., E., Montreal Quebec, Canada H2L 2M2; CTV-TV Network, Ltd., 42 Charles St. E., Toronto, Ontario, Canada M4Y 1T5 (416) 928-6000; Global Communications, Ltd., 81 Barber Green Road, Don Mills, Ontario, Canada M3C 2A2 (416) 446-5311; TV Ontario (educational network), 2180 Yonge St., Box 200, Station Q, Toronto, Ontario, Canada M4T 2T1 (416) 484-2600; Tele-Metropole (Quebec Network), 1600 de Maisonneuve, Montreal, Quebec, Canada H2L 4P6 (514) 526-9251.

**Pay TV Corporations:** First Choice Canadian Communications Corp., (covers eastern half of Canada from Ontario to Newfoundland), 1 Dundas St. W., Suite 1700, Toronto, Ontario, Canada M5G 1Z3 (416) 977-5485; Superchannel - Alarcum Pay TV Ltd., (covers Western half of Canada from Manitoba to British Columbia), 5324 Calgary Trail, Suite 200, Edmonton, Alberta T6H 4J8 (403) 437-7744; Super Ecran (French-language service in Quebec), 666 Sherbrook W., 15th Floor, Montreal, Quebec, Canada H3E 1E7 (514) 288-2188; MuchMusic (national), 99 Queen St. E., Toronto, Ontario, Canada M5C 2M1; The Sports Network (national), 1155 Leslie St., Don Mills, Ontario, Canada M3C 2J6 (416) 449-2244.

**Government Organizations:** The National Film Board of Canada, 150 Kent St., Ottawa, Ontario K1A 0M9 (613) 922-3615; Telefilm Canada, Banque Nationale Tower, 600 de la Gauchetiere St. W., Montreal, Quebec, H3B 4L2; National Film, Television and Sound

Archives, 344 Wellington St., Ottawa, Ontario, K1A 0N3 (613) 995-1311.

**Industry Organizations:** The Federation of Canadian Guilds and Unions in Film and Television, 2239 Yonge St., Toronto, Ontario M4S 2B5 (416) 489-1311; Canadian Cable Television Association, 85 Albert St., Ontario, KIP 6A4 (613) 232-2631.

## CHINA (Communist)

Peking TV, opened in 1969, consists of three networks, one purely local and the other two broadcasting by micro-wave to the rest of the country. Color broadcasts began in 1973. Shanghai, China's largest city, has two channels on the air for about 9 hours daily with some 50% of the programs listed as entertainment, 20% movies, news or documentaries, and 20% sports or children's programs, in addition to educational and foreign language-instruction programs. Chinese officials blame the Cultural Revolution for the slow growth of TV and say that after the Gang of Four was ousted in the following decade TV stations were opened in all 29 of China's provinces and private set ownership rose to 52 million tuned to 70 stations and 130 rays. With some 7 million sets being added annually, China is producing 800 TV dramas a year and received a package of 64 hours of CBS programs in a special deal which called for a 50-50 split on commercial fees from American advertisers. CBS sold for \$300,000 32 minutes of commercials to such firms as IBM, Boeing, Eastman Kodak, and Proctor & Gamble. While the impact of the ads is hard to determine, it did result in numbers of airline passengers insisting on being booked on Boeing planes, instead of the Russian and British aircraft.

A poll indicates 92% of Peking's residents watch TV regularly while in a nearby suburban area with only 6.7 sets per 100 households, 87% of residents watch TV. CBS sold Central TV 64 hours of sports and news which were broadcast on 2 channels to one-third the population at total estimated at 264 million viewers. CTV broadcasts 30 hours weekly, programming news, instruction, cartoons, variety and drama. Audience estimated at 800 million.

China now manufactures some 7.1 million sets annually and it is estimated that the number of sets will soon reach 60 million, including sets open to the public audience. Total number of nation-wide stations (including micro-wave relay stations) is over 40. Black-and-white sets sell for the equivalent of \$370 and color sets for about \$1,335 and there is a waiting list for the former. Domestic and imported films are broadcast from time to time, including American feature films occasionally.

Central Broadcasting Administration, Hsin Men, Peking, now offers nation-wide TV commercials at rates ranging from about \$625 for a 15-second spot to a full minute for \$1,800.

However, this rate does not always apply as evinced by the "trading" by the Columbia Broadcasting System of 64 hours of features, sports and TV movies in return for half of the receipts from commercial advertising which CBS estimates at \$3 million from 10 foreign sponsors, including makers of soft drinks and running shoes. Features include Dr. Seuss, Quarterback Princess, Muggable Mary—Street Cop, and football games.

## CHINA (Taiwan)

Television began in 1962 by the Educational Television Station which later became the private China Television Service in 1971. There are now three networks: Taiwan Television Enterprise (1962), China Television Company (1969) and China Television Service. All three act as private corporations deriving revenues from commercials. These three stations have 24 transmitters with total broadcasts of about 265 hours weekly for some 5.3 million set owners who pay about \$1.50 annually for a license. About 80% of the programs are domestic, with most of the imports from the U.S.A. Over one-third of the sets are color. Taiwan has two communication satellite stations. A new rule states that commercials must not exceed 15% total broadcast time. Movie theatre owners complain that the three imported feature films shown weekly on television hurt their box office.

All three networks broadcast in color, TTV and CTV 6 hours 25 minutes weekdays and 12 hours weekends and holidays while CTS broadcasts 10.15 hours weekdays, 15 hours on Saturday and 17 hours Sunday or holidays. News takes an average of 21%, public service over 10%, culture and education 20%, entertainment 48%. TTV has 10 transmitters. CTV 6, and CTS 8, plus an equal number of relay stations.

New rules call for no commercials during programs of less than 30 minutes and all commercials to secure government approval. In the future, 80% of all programs must originate in Taiwan with entertainment programs taking up no more than 55% of broadcast time and 45% or more devoted to educational, cultural or news types.

With relay stations it is estimated that 100% of the island's population of 18 million receives TV reception. About 12% of programs are imports, mostly from America, and these are broadcast in the original English with Chinese captions, which has served to develop knowledge of the English language among the populace.

TV showings of full-length Chinese-language, feature films imported from Hong Kong were stopped following retaliatory action by local cinema interests but the government may step in later and permit such showings, except on Sundays and holidays when the theatres reap their largest harvest. Inquiries should be addressed: Ministry of Communications, Taipei, Taiwan, Republic of China, or to: China

Radio/TV Assoc. 6-144 Hsin Shen (South) Rd., Section 1, Taipei, Taiwan, Republic of China.

## CONGO

Radio-TV de Congo, B.P. 2241, Brazzaville. One station; 4,000 sets.

## EGYPT

Television in Egypt is attached to the Ministry of Information. The Chairman of the Board of TV is Mrs. Samia Sadek.

The Central station in Cairo transmits about 150 hours a week through two channels covering most of the Egyptian areas including Asswan and Luxor, Sinai, and Saudi Arabia. A third channel was expected to start in 1985.

Egyptian TV follows the European technical transmission with an image of 825 scansions.

The TV receivers in use number over 12 million. The Arabic Department shoots a movie news review weekly and it is sent to 35 stations all over the world with which Arab TV exchange cultural and documentary materials.

## ETHIOPIA

Ethiopia Television, Post Office Box 544, Addis Ababa. Two stations, 45,000 sets.

## FINLAND

Finland has a two-channel television system that differs considerably from the other countries. There is at present in Finland one radio and television operation licence which has been granted to the Finnish Broadcasting Company, Oy Yleisradio Ab. The existence of MTV, Oy Mainos-TV-Reklam Ab, which is a private commercial TV company, is acknowledged in the same licence.

The basis for official relations between the companies were laid down in more detail in the basic agreement concluded in 1976. Television broadcasting in Finland is under parliamentary control. The Administrative Council of the Finnish Broadcasting Company appointed by Parliament is the highest organ exercising programme policy. It has two functions. The Administrative Council exercises programme policy control over both companies. In addition, as its name implies, it is the highest administrative organ in the Finnish Broadcasting Company.

MTV has its own corresponding administrative council.

As a bilingual country Finland also has programmes in Swedish on both TV-channels.

Some 19 hours per week—out of the total of 75—are sold by Oy Yleisradio Ab to MTV. At the end of 1981 a one-year price agreement was signed, according to which MTV's levy to the Finnish Broadcasting Company is at least 191.2 million marks in 1982. MTV of its produces nearly 43% of its programmes.

Numbers of color sets is today about 0.9 million (57% of all sets). The Finnish Broadcasting Company, Head Office, Kesäkatu 2, 00260 Helsinki 26 (Telephone 441141) Broadcasting Center, Yleisradiokeskus, Pasila 00240 Helsinki 24 (Telephone 418811) TV 2 Television Center, Tohloppi, 33270 Tampere 27 (Telephone 445455), MTV, Oy Mainos-TV-Reklam AB, Pasilankatu 44, 00240 Helsinki 24 (Telephone 15001).

## FRANCE

**Networks:** France has three television networks, all state-operated, drawing funds from an annual tax on TV set owners and advertising. (Revenues from spot ads are limited to about 25% of the budget.)

The networks are TF-1, which was created first and led the field in audience numbers until the second channel, Antenne-2, overtook it in 1983. The third regional network is FR-3.

Networks are under the jurisdiction of the High Authority (HA) composed of nine members which has named their presents since 1982, before which the president of the republic made such selections.

Canal Plus has a concession to run for 12 years initially. Its largest investor (40%) is the government-controlled conglomerate Havas. Most of the rest of the shares are held by state companies.

**Production Companies:** Societe Française de Production is the largest production facility in Europe. It is state-owned and has 2,500 employees. It receives no funds from the TV set fee, deriving 80% of its revenues from work for the state networks.

## GHANA

Ghana Broadcasting Corporation, Broadcast House, Post Office Broad Box 1633, Accra. Five stations, 140,000 sets.

## GREECE

TV is nation-wide and the most popular entertainment of the Greek public, harming all other kinds of recreation, and particularly film theatres.

There are two TV Channels in Athens operated by the Radio-Television Organization: the ERT I and the ERT II. Both channels operate in color. TV, like sound broadcasting, is controlled by the state and responsibility for both services is invested in both the above state units. The ERT I has a TV relay station in Thessaloniki, telecasting the news from Northern Greece and another one in Patras covering the news bulletins from Southern Greece. Both channels have many relay stations and towers all over the country.

Each channel puts on the air seven to ten hours of programs on weekdays and 12 on Sundays and holidays, which are mostly videotaped. About 60% of this program is covered by news, educational subjects, discussion panels, local movies and serials and the rest is covered by foreign films and serials. The most popular imported serials telecast during the last year were "Dynasty," "A.D.," "The Master of the Game," "Return to Eden," etc.

The ERT I is a full member of the E.B.U. and transmits all important international events via satellite. It is estimated that more than a million color TV sets were sold in this country and the number of b/w sets exceeds the 1,000,000 figure in a population of 10,000,000 people.

The ERT I office and studio is located at Mesogion Str. Agnia Paraskevi Attikis. Town office address is, 16 Mourouzi Str. Athens. President Yannis Mataxas, Director General Vassos Mathiopoulos. The ERT II Channel is located at Messogion Avenue No. 136, Director General G. Ysouyopoulos.

A lot of changes are expected to be effected, however, in both channels by Deputy Minister of Presidency, Mr. Costas Laliotis, who is responsible for TV. Nothing was announced, however, at the time of writing.

**TV Commercials:** A great number of spots are sold daily by each of the above channels to several advertising agents at a price per minute which varies according to time and the popularity of the program.

**Agencies:** There are several agencies acting on behalf of various foreign TV companies: Hellas Television International, 96 Academias Str. Athens, representing MGM, Screen Gems, Warner Bros., Rai, Sacis, Paramount TV, EMI, Rank, Titonus, Egyptian TV, Australian TV, Spanish TV, Brazilian TV, World Vision, Romulus, Thames TV, World Far Communications, Film Marketing Servicing, etc. Apollo TV International, 46 King Constantine Avenue, Athens, representing United Artists, Beta Film, etc. Yannis Triantafyllis, 8, Klissovis Str. Athens, agent of ITC TV. Dennis Petropoulos, agent of the N.T.A. Triboukis, agent of the German TV, etc.

**Local TV Production:** The ERT I Channel is producing several teleplays and serials in collaboration with various producers which export to foreign TV stations. Also, in order to support local film production it subsidizes some Greek films to be produced as serials also. Ten pictures will be subsidized this year by ERT I to be shot as serials.

Other local TV producers are: Hellas Television Productions, 96 Academias Str., Athens. Manager: Andreas Lappas; TVEM, 52 Skoufa Str., Athens. Manager: Heleni Mavili Photopoulou; Dennis Petropoulos, Licavittou Str., Athens; Aris Tsoapanellis, 6-7 Kapodistriou Str., Athens. DYAS FILM, ASTYR FILM, etc.

**TV Studios:** Television Enterprises S.A. offering facilities for all types of color and B/W films making films and serials mostly for Arabian producers. Head office: 28 Kapodistriou Str., Athens. General Manager: Christos Elmatzoglou.

ATA Ltd Studios. Head office: 8 Omerou Str., Athens. General Manager: George Rallis. FIN Films Studios located in Spata Attikis: SKLAVIS Studio, 31-33 Peoniou Str., Athens. Rossopoulos Bros. Studio, etc.

RENA VELISSARIOU

## GUAM (U.S. Possession)

Guam Television operates one station with two channels for 17 hours daily, servicing an estimated 152,000 sets in the hands of Americans and natives. Owner is Pacific Broadcasting Corp., Agana. Some color is broadcast. The Department of Education, Agana, operates Channel 12, some 14 hours daily.

## GUINEA

Radio-Diffusion Guinienne, B.P. 391. Conraky. 7,500 sets.

## HOLLAND

The number of TV sets as per Jan. 1, 1985, definitely and re-estimated is 4,515,739 now. The market is practically saturated. The total Dutch population is almost 14,300,000. Practically every Dutch family has a TV set now; two sets per family is no longer an exception.

Competition of TV with motion picture theatres is strong, and the situation in the film business is getting worse every year. In general TV competition is strongest in winter. Younger people usually don't stay home on Friday and Saturday nights.

German and Belgian TV can be received well, the German one especially. The central antennae system is growing steadily in importance. The market for black and white sets is practically saturated. A color TV set of 66 cm still costs about fl. 2,500 (one dollar is fl. 3.30 now). Various shops sell at lower prices than the "official" ones.

There are two channels, with commercials under the name of Ster-Televisie. Commercials are shown every night on both channels, Sundays excepted. A program is never interrupted by a commercial. Sky Channel is a tremendous success in Holland, right from the start.

The Nederlandse Omroep Stichting (N.O.S.) is the central governmental radio and TV organization, but there are eight main subdivisionary stations: a Roman-Catholic one (K.R.O.), two political ones (left: V.A.R.A. and V.P.R.O.; two Protestant sections, N.C.R.V. and E.O., and three neutral sections: A.V.R.O., T.R.O.S. and V.O.O. (with a big number of popular youth programs, pop and country music in particular). A.V.R.O. has the biggest number of members, closely followed by T.R.O.S. The V.O.O. station is growing continuously in importance. There are also some minor TV organizations.

Although N.O.S. has an important part of the playing time, the eight stations are completely independent, as far as their activities are concerned. They are, with N.O.S., the most important buyers on the international market. Of the educational and religious stations TELEAC (series of popular subjects, mathematics courses, etc.) and I.K.O.N. (religious) are the biggest.

A yearly contribution of fl. 158 is due by the owner of a set, to be paid to the government. This is the fee for a radio set included.

As an average feature films are programmed two nights a week, and, in summer, now and then, also on afternoons (all ages films). On Wednesday nights only if there is no football game. The film industry organization (Nederlandse Bioscoopbond) has an agreement with the TV authorities that pictures can be shown only on TV 40 months or more after the first release date in motion picture theatres; exceptions are possible. Although showings of motion pictures on TV on weekends are not included in that agreement, the attitude of the Bioscoopbond has become more flexible; there is a regular contact between the federation and TV authorities. The countries of origin of pictures on TV differ, but American and English films are shown mainly, also TV series from these countries (Dynasty, the A-Team, Mike Hammer, Hill Street Blues etc. are very popular, also German thrillers). Quality of programs is good; also many comments on the political news.

Radio and TV fall under the Ministry of Welfare, Social Health and Culture (W.V.C.), formerly C.R.M. A big conflict grew between this ministry and the TC companies. They were accused of hidden propaganda for subjects belonging to Ster-Televisie, according to the Minister. High fines were asked for. The judge has to decide.

Due to the high standard of living many people can afford to buy a TV set cash. Buying by installment after the war has never been popular, though that system makes more clients gradually, mainly due to the economic situation and costs of life. The Dutch stations are in Hilversum, as broadcasting is. Philips is the most important manufacturer of TV sets. Big import from Germany and Japan. The address of the Nederlandse Omroep Stichting (N.O.S.): 53, Emmastraat, P.O. Box 10, 1200 JB Hilversum, Holland.

The members of the organization of TV cable companies have to pay duties to the Bioscoopbond and to, between others, the main American companies: author rights of a producer, of a motion picture shown on cable TV.

The big problem: piracy of motion pictures is still very actual. —PHILIP DE SCHAAP

## HONG KONG

Established 1957 by Rediffusion (HK) as closed circuit, converted to conventional TV in 1974. Asia Television (ATV) Central P.O. Box 1414, Kowloon, Hong Kong. Additional outlets: Television Broadcast (HK-TVB), 77 Broadcast Drive, P.O. Box 100, Kowloon, Hong Kong; and, Radio TV Hong Kong, Kowloon Central P.O. Box 200, Hong Kong (governmental unit acting as producer for above).

## INDIA

At present, there are eight full fledged TV stations located at Delhi, Bombay, Madras, Calcutta, Lucknow, Srinagar, Jullundur, Amritsar in addition to several relay stations all over the country.

Apart from these, there are seven relay stations which were set up for the SITE (Satellite Instructional Television Experiment) programme which ran for one year, from August 1975. They are Jaipur, Hyderabad, Gulbarga, Muzaffarpur, Sambalpur, Raipur and Pij situated near Ahmedabad. At present, programmes for Hyderabad and Gulbarga in Telugu and Kannada are recorded at Hyderabad. Cutoff records programmes in Oriya and feeds Sambalpur, Jaipur, Muzaffarpur and Raipur are supplied with pre-recorded tapes in Hindi by Delhi. At Pij recording is done at the SAC (Space Application Centre) studios and telecast for one hour daily. Altogether, these terrestrial stations are covering forty percent of the viewers formerly covered by the SITE programme.

The launching of the Indian National Satellite System (INSAT-1B) last year has completely changed the electronic media scene, opening up new possibilities in mass communication. Already Doodardhan puts its programmes over 132 low power and 47 high power transmitters covering 70 per cent of the population. In terms of numbers, the new expansion programme covers a population of 480 million

(260 million rural and 220 million urban). Probably nowhere else in the world has a government undertaken TV expansion on such a vast scale in so short a time.

New installations will cover all towns with a population of 100,000 or above. INSAT-IB has facilitated the national linkage with HPTs and LPTs relaying national programs from the Centre (Delhi), and serves the states with educational and area specific programs.

There are an estimated five million TV sets in the country. With a captive nightly audience of nearly 50 million, in comparison to 13 million viewers that go to the cinema daily. About half the TV sets are concentrated in metro towns but with low power transmitters (LPTs) now beaming out to cover over half the country's population, the growth rate of TV sets is expected to be a staggering three million annually in the next two years.

—B.D. GARGA

## INDONESIA

The government-owned RRI-TV, on the air since 1962, in 1981 banned commercials, and in 1984 banned the showing of foreign-made TV series from 1985 on the grounds that the people preferred domestic-made fare. Up to the time of the ban a single American-made TV show daily had averaged an estimated 24 million viewers, a fact that tends to contradict the governmental view.

At present stations are operated on 2 channels in Jakarta, Bandung, Jogakarta, Semarang and Tjirjorn, with some 100 relays (to be extended to 125). Broadcasting hours average above 40 hours weekly with some programs in color to sets estimated to number over 2 million. Programs are 50% entertainment, 25% educational, 25% public service, live 60% of the time, and 40% video-taped. With the departure of imported shows, the government will increase educational shows based on national culture. Inquiries to TV Republic Indonesia (TVRI), Yayasan Televisi, Senayan Jakarta. 10 stations; 1,920,000 sets.

## IRAN

Islamic Republic of Iran Broadcasting, Post Office Box 98-200, Teheran. Sixteen stations. 2.1 million sets.

## IRAQ

Iraq Broadcasting & Television, Broadcasting House, Salihiya, Baghdad. Six stations, 725,000 sets.

## IRELAND

Telefis Eireann is the official name of the television service in Ireland.

Television, like sound broadcasting, is run as an independent State Statuary body and responsibility for both services is vested in Radio Eireann, the Broadcasting Authority. This Authority, appointed by the Government, consists of nine members serving on a part-time basis under a chairman selected by the Government. The present chairman is T. Andrews.

The Minister for Posts and Telegraphs, who is responsible for the autonomously operated Authority, reserves to himself the duties of fixing and collecting license fees from domestic viewers, licenses transmitting stations, and has a veto on the appointment and conditions of the Authority's top executive. The Director-General, Kevin McCourt, is employed full-time.

The Television service began in 1962. It has five main high power transmitters and thirteen satellite "transposers," serving areas outside the range of the main transmitters. Its national coverage is estimated at 98 per cent of the population. The national technical standard is a 625 line one, but programs are also broadcast on a 405 line in the Eastern and Northwestern parts of the country.

The Authority, which has the responsibility of providing programs of suitable cultural and national content, transmits 44 hours per week, with occasional additional programs. In addition, educational programs for schools, two and a half hours per week, are broadcast for 33 weeks of the year on behalf of the Department of Education.

Of the 44 hours of weekly programs, 22 are of home origin. The balance are imported mainly from Great Britain and America.

There are about 350,000 receiving sets in operation, of which about 200,000 are able to receive programs from Great Britain's BBC-TV and Independent TV stations as well as Radio Telefis Eireann.

## ISRAEL

Israel Television broadcasts daily in Arabic and Hebrew. Arabic programs start at 18:00 and continue till 20:00. Programs include documentaries, round-ups, news, films, variety shows, discussions, games, etc. These programs include, as well, weekly interviews with various individuals of the Arab Israeli population who can convey regards to their relatives in neighboring countries, such as Egypt, Syria, Lebanon, Jordan, through this media.

At 20:00 the Hebrew programs begin and include same variety of broadcast as the Arabic language. Hebrew broadcasts continue up to 23:30 or midnight. The majority of Hebrew programs are subtitled in

Arabic, and foreign language broadcasts, including films, are subtitled in both Hebrew and Arabic. Similarly, most of the Arabic programs have Hebrew subtitles.

Besides the above mentioned programs, television broadcasts every morning (except Saturday) educational programs beginning at 8:00 and continuing up till 16:00. This is followed by children's programs which continue till 18:30 and include films, puzzles, games, cartoons, etc.

## ITALY

From its inception the Italian television industry was dominated by a public network agency—RAI—but toward the end of the 1970's its dominance was finally challenged by private broadcasting. Prime networks are Canale-5, Italia-1 and Rete 4. The first two are part of the Silvio Berlusconi conglomerate while the third is owned by the Mondadori publishing group.

Overseeing RAI is a parliamentary commission which elects 10 of its 16 directors. The others are elected by IRI (Institute for Reconstruction of Industry) which owns 99.55% of RAI, the rest being held by a publishing association. RAI gets its operating authority from the Ministry of Post & Telecommunications and its finances are reviewed by the Ministry of Finance. RAI is funded by license fees and advertising. (Ads are limited to 5% of airtime.)

RAI operates three TV networks: RAI-1, its main outlet and most successful, RAI-2, an alternate network, and RAI-3, whose viewers are few although it is the only one which does not carry advertising.

RAI has transmitters all over Italy and uses 21 regional offices. It has five production centers and provides the majority of its own programming, including that for a worldwide news service it operates.

Private TV companies are not subject to the same rule as RAI. For instance they carry up to 14–18% advertising in airtime.

Trends: TV in Italy has made tremendous advances in acquiring programming the last several years. It's reported public and private broadcasters have invested close to \$500,000,000 in foreign films and TV programs in order to attract TV viewers.

## IVORY COAST

TV Ivorienne, Television House, Latrielle, BP 8883, Abidjan. Operates 11 stations. Sets estimated at 310,000.

## JAPAN

Non-commercial TV broadcasting began in Tokyo Feb. 1, 1953, by the quasi-governmental Nippon Hoso Kyuokai (NHK) followed seven months later by the first commercial TV broadcast of Nippon Television Network (NTV). Broadcast time for NHK, which began with only 866 set-owners paying a fee of Yen 200 monthly, was 4 hours a day compared to six hours by NTV, which was affiliated with the Yomiuri newspapers. By 1960 NHK possessed 60 stations and there were 47 commercial stations broadcasting, while the number of sets had increased to about 7 million, topping the 10 million mark two years later.

Although commercial networks as they are established in the U.S. are legally forbidden, there came about a nationwide grouping of commercial stations with the Tokyo stations acting as pivotal points and providing tieups and programs. Thus in 1959, 16 commercial stations formed Japan News Network which soon spread to other programming areas, with JOKR in Tokyo, followed by three other such groupings: centering on NTV, Nippon Educational Television (re-named Asahi National Broadcasting in 1977), and the Fuji TV key stations in Tokyo. It was then apparent that several newspapers with national sales systems, through capital tieups, were virtually in control of the national commercial networks.

Educational broadcasts were begun by NHK in 1959, followed three weeks later by Nippon Educational Television, which later dropped the "educational" pretense and became a regular broadcaster. Just as TV Tokyo (JOTX) did later, when it was found impossible to operate a private educational TV station in Japan for financial reasons.

Taking the Tokyo Metropolitan area, which comprises almost 30% of Japan's population of 122.4 million, we find it served by Channel 1 NHK general network station, Channel 5 NHK educational network station, Channels 4, 6, 8 and 10 operated by NTV, TBS, Fuji, TV Asahi commercial network stations respectively, plus semi-independent TV Tokyo (JOTX) on channel 12 and TVK (UHF) 42 in Yokohama.

NHK's general programming lists 8 regional stations throughout the nation, 45 local stations and numerous relay stations in the VHF range to bring general programming to 3,437 outlets (2851 UHF outlets). NHK educational facilities comprise 8 regional stations, 37 local stations, 2,207 relay stations for a total of 3,360 outlets of which 2,778 are UHF, including use of mini-satellite relays. It must be emphasized that in most cases (but not all) the general and educational services make use of the same facilities.

There are 42 companies operating both radio and TV stations and 63 operating only TV stations. In the VHF sector some 48 companies operate 486 stations, in UHF 54 companies operate 5,574 stations, plus 9 SHF stations, a total of 6,069.

These four "networks" operate in the 8 key areas of Japan—Tokyo, Osaka, Nagoya, Fukuoka, Sapporo, Hiroshima, Sendai and Hokkaido—which are 4 commercial-station areas (plus NHK). Other

stations located in less populous areas use a cross network arrangement by which programs from plural key stations are received. There is Asahi National Broadcasting with 18 stations, Fuji Telecasting with 27, Tokyo Broadcasting System with 25, and Nippon Television with 29 stations. In addition several independent stations have ties and non-commercial NHK covers 30 million of Japan's 37 million households.

In 1984 NHK launched its direct broadcasting satellite which beams two TV channels to people living in mountainous areas and remote islands who until then had had trouble receiving TV programs, bringing protests that an organization in the red would spend so huge an expenditure for some 420,000 TV sets.

While NHK collects monthly fees from 31,000,000 registered sets, the Home Ministry estimates the total number is 62,495,000 (including households with more than one) of which 9,423,000 are black & white and 53,072,000 color sets. Some 98.5% of registered households possess one or more color sets for which they are assessed a flat \$4.40 a month versus \$3.10 for black-and-white sets. Thus, it is no surprise that NHK is by far the wealthiest broadcasting corporation in the world with 16,000 employees they have promised to reduce 15,000, and a 23-story headquarters in Tokyo. With revenues of over \$1 billion they predict deficits which began in 1983 and by 1987 will total \$600 million at the present rate.

Monetarily speaking with 35.4% of the national advertising budget, TV is the leading advertising medium with designated prime time from 7:00 to 11:00 PM and ad spot buying rates determined on the gross rating point through, with a seller's market, card rates are often disregarded. Top rate for a 60-second network spot is \$35,000 and a 54-minute program for a month about \$1 million; generally contracts are for 6 months but recently 3-month contracts became available, there being waiting lists for sponsors. Sporting events, especially baseball, in non-prime time bring top prices due to good results. Though rules call for not more than 18% of broadcast time be devoted to commercials, this rule is only loosely followed. In addition some stations persist in intensifying audio volume for favored commercials. TV ad expenditures increased 10% to \$4,330,000,000. Advertising for household appliances and supplies, automobiles, department stores, cosmetics and detergents gained while pharmaceuticals, and entertainment industries waned, but the largest TV advertiser was the food-beverage industry which is allowed to advertise high alcohol beverages including whiskey, took 28.7% of TV ads compared to 10.8% for drugs and detergents.

Although an agreement was once reached to restrict broadcasting hours to 16.5 daily to conserve energy, many commercial station are broadcasting past the midnight deadline although NHK signs off by midnight. While TV is undoubtedly the most influential medium for both young and old, various polls disagree when attempts are made to determine the average daily time a Japanese watches the tube. NHK says the average Japanese devotes 23 hours 19 minutes a week watching TV. Nielson gives the Tokyo viewing time as 8 hours 12 minutes daily, taking into consideration the viewing by each household member. Their favorite shows have veered from soap operas to various kinds of emceed shows, especially quiz shows. The menfolk prefer sports shows, including baseball, sumo wrestling, golf, and, recently, American-style football, though old-type samurai dramas are still popular with both sexes. The younger audience spends much time watching cartoons before graduating to teen-age singing shows, contests or quizzes. In the past year some 800 full length feature films and some 300 Japanese-made films were broadcast, almost all from America and the rest from Italy, Britain, France, Germany, Hong Kong and other nations. These imports, especially those from the U.S., tend to be grade B films or films made in America especially for TV. These are almost always dubbed into the Japanese language but a few are available in the original dialogue on a different wavelength for the benefit of TV sets equipped with multiplex receivers. Each network averages about 5 movies weekly and imports average around the 15 million mark, occasionally the 20 million mark to break into the top 30 weekly programs.

A glance at current American TV shows, none shown in prime time, includes "Kojak," "Quincy," "Fame," "T.J. Hooker," "Cagney & Lacey," "Hart to Hart," "Barnaby Jones," "Starsky & Hutch," "Hawaii 5-0," "Untouchables," "Bewitched," and other oldies in which the Japanese audience has only mild interest, at best.

Instead of a technology revolution and major as it is in America, pay or cable TV in Japan is small in scope and limited to those who have poor reception, or located in de luxe apartments and hotels. Japan's first private satellite broadcasting company at writing is less than a year old and will not have a satellite for nation-wide broadcasting until 1989, says Japan Satellite Broadcasting Corp. So far 32 CATV urban systems have been approved to serve an estimated closed to 4 million subscribers including those in areas with poor TV reception. From 1985 NHK and the commercial networks contracted with Intelsat and a European satellite on a 24-hour basis, from which they use bits of international importance or those that add something to domestic news.

The Japanese prefer their own TV fare to imported shows which rarely are shown, except for foreign movies, on prime time slots.

A survey indicates imported feature films shown on TV cost more than domestic movies but are shown more often so tend to dominate the medium, so it must be assumed their frequency on TV reflects a response to demand, even taking into consideration the reluctance of Japanese movie studios to contribute to the prosperity of what they consider a dangerous competitor to their own industry.

The NHK general network broadcasting hours average 18.3 hours daily with 32.7% of programs news or commentaries, 16.4% educational, 25.6% cultural and 25.3% entertainment. NHK educational

network averages 18 hours daily with 15% news, 30% educational and 19% cultural subjects.

Average daily broadcast time for commercial stations averaged 20 hr. 21 min. since late-night broadcasting is not encouraged to conserve energy. Of this broadcasting average over 17 hours consisted of sponsored programs and 3 hr. of sustaining programs. Although broadcasters claimed that advertising commercials (including a daily average of 241 spot announcements) took only 10% of total broadcasting time of each station on the average, anyone with a stop watch knows that this is not true and over 60% of Japanese polled indicated an opinion that there were far too many commercials, while 50% objected to the ads shown in conjunction with kiddies' programs and thought such programs should carry no ads.

Commercial stations claimed that 46% of daily broadcasting time was devoted to entertainment, 24% to cultural subjects, 15% to news and 15% to sports. Sponsors of a 30-minute prime time show pay about \$6,500 on a Tokyo station with other spots going for \$2,700 per sponsor.

Production cost for a one-hour program is only \$60,000, about one-fifth of the cost in the U.S. Payments for authoring a 30-minute script is \$200 at NHK and as low as \$100 at commercial stations. However, writers with a national reputation get much more.

A study of 107 commercial TV stations reveals that although the UHF outlets located in the periphery of the large cities are doing only moderately well as regards operating profits, the older-established VHF stations, particularly those affiliated with networks and in Tokyo or Osaka, enjoyed a good year.

Japan exports very few TV programs of its own but it is the world's largest exporter of TV sets and in addition sells TV equipment, complete broadcasting studios and nationwide setups abroad.

While a critic would rate Japanese TV in general as somewhat below the not very high American standard, and take umbrage at the great percentage of time taken by commercials on all stations except those of NHK, the average Japanese is satisfied with it. Lately, the government tried steps to prevent further intensification by stations of audio volume for commercials and limited them to 18% of total program time.

Quiz games usually have the highest average viewing rate (14.2%), followed by feature films 14%, sports programs 14.5%, samurai dramas 13%, specials 13%, action dramas 12.8%, children's shows 12.8%, cartoons 12.1%, variety shows 11.4%, musical shows 11%, news 10.6%, imported TV shows 8.9%, educational shows 8.8%, in the Tokyo area.

Addresses of the commercial networks can be found in the World TV Broadcasters list in this volume and additional information can be obtained from National Association of Commercial Broadcasters in Japan, Bungei Shunjusha Building, 3 Kioi-cho, Chiyoda-ku, Tokyo, All Japan TV Production Companies Assoc., Akasaka White House, 4-1-6 Akasaka, Minato-ku, Tokyo 107, or from Advertising Association of Broadcasters in Japan, 8-10 Nishi Ginza, Tokyo. For non-commercial TV information one should address Nippon Hoso Kyokai (NHK), 2-2-1 Jinnan, Shibuya-ku, Tokyo 150.

— A. C. PINDER

## JORDAN

Jordan Television Corporation, Post office Box 1041, Amman. 300,000 sets; 12 stations.

## KENYA

Voice of Kenya TV, Broadcasting House, P.O. Box 30456, Nairobi. One channel, 6,700 sets.

## LIBERIA

Liberia Broadcasting Corporation, Post Office Box 594, Monrovia. One station, 35,000 sets.

## MADAGASCAR

Television Madagascar, P.O. Box 442, Tanarive, Madagascar, operates a single station and three relays. 75,000 sets.

## MALAYSIA

TV Malaysia was established in 1963 and now serves an estimated 882,000 sets on an average of 6 hours daily, half of broadcasts are in color. Originating station is at Kuala Lumpur, serving three networks on the main peninsula. One network extends to Sabah, where there is also a secondary station at Kota Kinabalu, which operates a small network of its own, extending to Sarawak. Inquiries to TV Malaysia (RIM), Broadcasting Dept., Kuala Lumpur 22-10.

## MEXICO

Television began in 1950. It is estimated there are now 6,500,000 sets. In Mexico City there are six over-the-air channels, of which four

are run by the privately-held Televisia under government concession on the other two by the government. There are five cable channels in Mexico City, all under control of Televisia. In addition there are 29 independent stations around the country.

## MICRONESIA

Micronesia Broadcasting Corp., Taga Hotel, Saipan, Mariana Islands, comprises two stations broadcasting 16 hours daily on a commercial basis.

## MONGOLIA

This Communist bloc nation established Radio-TV Mongolia in 1970 and now consists of two stations with satellite connection with Soviet Russia. Located in Ulan Bator, broadcasting to 19,000 sets.

## NEW CALEDONIA

Societe Nationale de Radio-TV, P.O. Box G3 Cedex, Noumea, broadcasts on 4 channels in color to an estimated 40,000 sets.

## NEW ZEALAND

The state-owned and operated Broadcasting Corp. of N.Z. television service operates two national networks in color—the TV1 network which originates programs from the Avalon television complex in Lower Hutt (near Wellington), and the TV2 network which originates programs from the Auckland studios. TV1 transmits some 88 hours of programs a week, and TV2 about 71 hours. Five days are commercial. Sundays are non-commercial on each network. Fridays are non-commercial on TV1, and Saturdays non-commercial on TV2.

Locally made programs are estimated at about 3,000 hours annually, which includes drama, news and current affairs, light entertainment, religion, service programs and sport. The balance of program output is purchased from overseas, mainly from Britain, the U.S. and Australia. Use of satellite links permits same-day presentation of world news items and live telecasts, particularly of sports.

## NIGERIA

Western Nigeria TV Service, Television House, Bompai Road, Kano. Ten stations, 2 million sets.

## NORTH KOREA

Experimental telecasting, using Russian equipment since 1960s. followed by establishment of a national network of 20 stations with regional stations and relays. Korean Central Broadcasting Committee, Television Section, Pyongyang, Democratic Peoples Republic of (North) Korea.

## OMAN

Oman Color TV, Ministry of Information & Culture, P.O. Box 600, Muscat, Oman. Three stations and 1 relay for 105,000 sets.

## PAKISTAN

Television came to Pakistan in November 1964, when the first station at Lahore went on the air. There were hardly 500 sets then. In May 1967, Pakistan Television Corporation Ltd., a public limited company was formed with an authorized capital of Rs. 5 crores and a paid-up capital of Rs. 3.19 crores. The entire shares of the Corporation are held by the Government of Pakistan. It is now running all five TV centers in the country. These stations are at Karachi, Lahore, Rawalpindi/Islamabad, Peshawar and Quetta and transmit five to eight hours programmes, including canned foreign films. All these stations and 19 boosters/rebroadcast stations are equipped with modern technical facilities, including video tape recording, background projection and arrangements for showing both 16 and 35 mm films at the station. PTV derives its income mainly from two sources: commercial service and the license fee-charges of Rs. 200 per year on television receivers.

A major breakthrough in the field of TV communication was provided with the opportunity to link Pakistan with the outside world through satellites in the mid 1970s. On July 24, 1981, PTV, for the first time, introduced a new technique of showing an interview of the Pakistani ambassador to Britain (in London) which was taken live from Karachi via satellite. Now all the Pakistani viewers can see live programmes (if PTV wishes) from abroad, as all the TV stations have been linked with the National Microwave Network. Most of the international events, such as Islamic foreign ministers' conference, cricket matches, tennis, boxing, the President of Pakistan's foreign visits, Mehfil-e-Qirat, Haj, important speeches at the United Nations, reports from the war fronts of Lebanon, Iran, Iraq, Afghanistan, etc.

are being telecast with the cooperation of ABC, CBS, NBC, etc. direct (live) through satellite. Some of the Middle Eastern countries, television programmes, including India, Oman, Dubai, Saudi Arabia, and Abu Dhabi, etc. are clearly visible in various parts of Pakistan with the help of boosters or high antenna. Indian (Amritsar) TV is clearly seen in Lahore and surrounding areas even without the help of boosters.

Surveys have shown that colour TV has reached most of the well-to-do houses throughout Pakistan and black and white TVs are installed in almost every average house. PTV is being run as a commercial service. Advertisements can be shown in breaks or between the programmes. An average 3.05% is consumed by commercials on PTV. The 15% increase in the rate of commercials in 1984, along with cessation of TV programmes and commercials under Islamic laws have affected the business.

News readers and announcers (women) have to wear full sleeve shirt and cover head with Dupatta and start the bulletin with the name of Almighty Allah and "Assalam-o-Alaikum" (Hello). The approximate number of receiving sets in the whole of Pakistan is 1,800,000 more than 65% of which are licensed sets. The license fee has remained the same—Rs. 200 per year during the year under review. Of these between 30 to 35% sets are colour. Ten viewers approximately watch one TV. Pakistan manufactured 121,005 TV sets during the year 1984. At present PTV extends technical cooperation to Uganda, Libya, United Arab Emirates and International Telecommunications (ITC).

To encourage educational programmes, the Government has reduced the import duty from 125% to 85% on the import of VCRs and to make their run legal a license fee of Rs. 200 per year has also been imposed on domestic and Rs. 400 on commercial use. Four manufacturers, Philips, Sony, National and Hitachi have already been granted official permission for assembly/manufacture of VCRs. The combined capacity, proposed in the above units, is to the extent of 105,000 VCRs per annum. As against this, the official estimates have placed the present demand for VCRs at 40,000 sets which is projected to increase to around 60,000 units by 1988. The Industrial Investment of Rs. 24.00 million for the establishment of new industrial plants for the assembly and manufacture of VCRs. At present there are approximately over 800,000 VCRs in the country.

A. R. SLOTE

## PHILIPPINES

Broadcasts began in 1953 by DZAQ-TV then owned by Alto Broadcasting. At present 40 stations are on the air for commercial broadcasting and one government station; most are located in Manila. Number of sets is estimated at over 3,800,000. ABS-CBN was replaced by KBS. Others are Associated Broadcasting, Inter-Island Broadcasting, Metropolitan Broadcasting, Philippines Broadcasting, Radio Mindanao Network, Republic Broadcasting and Southern Broadcasting. More provincial outlets are planned.

## PUERTO RICO

Television started in 1954, and there are about 750,000 sets in Puerto Rico. Most of the public places such as restaurants, clubs, have television sets for their patrons and the medium is available in local hotels upon request.

Even though most Puerto Ricans know English, and the number of persons who will acquire a working knowledge of English will increase considerably through intensification of English instruction in public schools and the migration of Puerto Rican families to the United States, and workers who come back from the States with more knowledge of English, television programming is in English and Spanish. WKAQ-TV, owned and operated by the newspaper El Mundo, on channel 4, has 30 per cent programs in English of which 10 per cent have Spanish sub-titles. There are 10 private stations in all.

Kinescope versions of top North American television shows are represented on both stations.

Cable television is on the rise here. The largest operator is Cable TV of Puerto Rico. It is owned by Harris Cable of Los Angeles, which bought the San Juan franchise in 1976, starting with some 8,000 customers.

Cable programming is also being expanded. At first the cable company offered only HBO and Virgin Islands stations. Receiving stations were built to bring in programs by satellite and by 1980 programs were being funneled from the states. Puerto Ricans now have a choice of 21 cable channels.

Cable TV charges its subscribers \$11 a month for a basic package of 12 channels. HBO and Galavisoon cost \$9.95 each additionally. Cable currently reaches greater San Juan, Bayamon, Carolina, Trujillo Alto and Guaynabo, which have an estimated 300,000 homes.

## QATAR

Qatar TV Service (governmental), Ministry of Information, P.O. Box 1836 Doha, Qatar. Color since 1973. One station and relay; 120,000 sets.

## SAMOA (AMERICAN)

Three TV stations serve some 42,000 sets on the American part of this Pacific island as well as a number of sets on the part administered by New Zealand. The station is also used daily for educational instructions to local schools. Address: Television of Samoa, Pago Pago. There are six channels.

## SAUDI ARABIA

Established 1957, now 5 stations and 2 networks. General Directorate of TV, Ministry of Information, P.O. Box 570, Riyadh, Saudi Arabia. ARAMCO-TV, Box 96, Dhahran, Saudi Arabia. 1,100,000 sets.

## SOUTH KOREA

Commercial TV broadcasting began in 1956, but the station burned three years later and it was not until 1961 when the government established the Korea Broadcasting Service (KBS-TV) network. The commercial network of Tongyang Broadcasting Co. (TBC) began in 1964 and was followed by the commercial Munwha Broadcasting Co. (MBC) in 1969. The American Forces Korea Network (AFKN-TV) was also established to serve American troops, and now comprises 6 stations.

KBS-TV has its key station in Seoul and 21 local stations and there are other local stations, making a total of 33 TV stations, including those operated by MBC and the former TBC. Color broadcasting started in 1980. Almost 10 million sets are in operation, covering almost every household. If armed forces of USA are counted, the total stations number 33.

Korean broadcasts are limited to 6.5 hours of evening time and 4 hours mornings on weekdays, 11 hours on Saturday and 17 on Sunday. Monthly fees of about \$1.00 are collected and advertisements accepted.

On Saturdays and Sundays between 8 and 9 P.M. it is estimated 60 per cent or more of the population gather before their sets to view commercial station MBC's soap opera "Love and Truth" which has broken all records far beyond the average 30 per cent viewing for such shows and above the 50 per cent for previous "smash hits." The government-operated KBS finds itself with lesser hits such as "Independence Gate" about life under Japanese rule and "Pyongyang Today," fictionalized intrigue in North Korea.

In 1981 the Republic of Korea "consolidated" all news media and took over the private stations, so daily listings read: KBS-1 TV (7 cities), KBS-2 TV (2), KBS-3 TV-UHF (6), MBC-TV (6). Korean Broadcasting Advertisement Corporation handles all TV and radio advertising.

## SIERRA LEONE

Sierra Leone TV Service, New England, Private Mail Bag, Freetown. One station, 29,000 sets.

## SINGAPORE

TV Singapore went on the air in 1963 and now serves an estimated 750,000 sets on four channels in four different languages. One channel broadcasts 66 hours weekly the others 40 hours; of this total about 146 hours weekly are in color. Inquiries to Radio-TV Singapore, P.O. Box 1902, Singapore 11.

## SOUTH AFRICA

South African Broadcasting Corp., P.O. Box 8606, Johannesburg 2000, started broadcasts in 1976 and now has over 80 stations with four services broadcasting 7 languages over 3 channels to over 2.2 million sets. From 1978 advertising was accepted.

Associated South West African Broadcasting, P.O. Box 321, Windhoek, Namibia, South West Africa, an autonomous statutory body, broadcasts 6 hours daily from Windhoek.

## SPAIN

The first time Televisión Española—(now Radio-Televisión Española, RTVE)—transmitted on a regular basis was October 29, 1956, on a scan system of 625 lines at 25 frames per second. That program lasted three hours with a range of 70 kilometres, broadcasting for about 400 sets. The First Channel (VHF) was followed by a Second Channel (UHF) in 1967, complementary at first, but then sort of competitive and with a clearer trend towards "culture." Channel 1 covers now all of Spain, including the Balearic and Canary Islands. Channel 2 is reaching 80 per cent of national territory. According to the Director of Television, Channel 2 has a ceiling of 85 per cent of territory, since the investment costs double when the 70 per cent level of covering is reached.

RTVE is now an autonomous agency under the Ministry of Culture, Paseo de la Castellana 109, Madrid 16. All programs are controlled

by a Censorship Board. Drama, films and episodes of series are classified according to ratings: "general" (no sign on the screen), "older than 14" (a small lozenge), "older than 18" (two small lozenges).

The official number of sets was 10,960,000 at the beginning of 1984. There are no official figures for color sets (German PAL system). They are gradually substituting old black-and-white ones which no factories produce now, except for small, portable battery sets.

In 1984 the production of programs will be entirely financed by advertising and tie-in merchandising, since the government withdrew the annual subsidy. Both channels carry ad spots. Due to nocturnal habits of Spaniards, the costliest time comes around 10:30 p.m. The ad spots appear on the screen at regular half-hour or one hour intervals, till 7 p.m. Later the spots rhythm accelerates, mainly during feature films in spite of audience and film directors protests.

*Staff and Studios:* Director General is the Autonomous Agency RTVE (officially called "Ente," Italian style) is José María Calviñino, target of constant attacks from the rightwing opposition party. Director of TVE is Antonio López.

The ruling Socialist Party controls the TVE Council, a multi-partisan body which applies the 1981 Statute of Television. Home rule in Catalonia and the Basque provinces opened the door to regional independent TV centers. Even the Andalusian parliament asked for a Third Channel covering the South of Spain.

RTVE built in Madrid a 210 meter high tower ("Torrespaña") for news and live broadcasts. This "Towerspain" is now one of the landmarks of the capital of Spain.

TVE has ten news broadcasting stations in provinces. The Canary Islands set up their own programming. National Headquarters are at Prado del Rey, Madrid 24, with general offices and nine studios with total area of 3,000 square meters. Additional studios are in Barcelona.

Fixed, salaried personnel is about 2,300, with other estimated 5,000 contributing freelancers. An important group of steady contributors got permanent status by sentence of the Supreme Labor Court.

*Programming Schedule and Contents:* Channel 1 broadcasts 7 h 45' weekly, with accent on week-ends. Same happens with Channel 2, which broadcasts 46 h 45' weekly. Total of weekly broadcasting time: 123 h 30'. Special programs such as prize boxing bouts, sports championships, bullfights, royal and political messages, etc., move or remove normal programming.

Many broadcasting hours consist in theater movies (about seven features weekly) and filmed foreign production, including American series as "Flamingo Road", "Winds of War", "Masada", "The Martian Chronicles", etc. TVE broadcasts too many debate and panel shows, too many heavy music meetings, but they lack comedy fare. From 1982 the Ente has invested in prestige Spanish features, which first are being shown in theaters and then will be adapted to television as miniseries. Many of them got awards at international Film Festivals.

Price range for half hour of screening time is \$1,500-\$2,000. One-hour series generally brings twice the half-hour price. Price range for feature films is \$7,800-\$17,000, dubbed into Spanish at Madrid studios. Only "Film Society" screenings (Channel 2) accept foreign prints with Spanish subtitles.

*Foreign Markets:* The estimate of TVE foreign sales for 1985 surpasses \$5 million, the estimate for 1984 is \$3,860,000. The whole TVE sales team goes in force to world markets like MIP-TV. But the main problem in Spain is the proliferation of video-recorders and the underground market of bootleg cassettes, in spite of frequent raids by police and Justice officers. Cable TV is not even mentioned here, and for the time being the Socialist government has ruled out private TV networks.

## SRI LANKA

Sri Lanka during 1985 was hitting the headlines of newspapers locally and abroad as one of the TV video-pirating centres in the East. Almost any film released in the world is available within a few days on video cassette in Sri Lanka. Recent surveys by the Government and Police Anti-Vice Squad revealed that many versions of local and foreign "blue" films are available freely on cassettes in Colombo and other big cities in Sri Lanka.

*Project for expansion of television broadcasting of the Sri Lanka Rupavahini Corporation—the National TV Network:* After successful negotiations with the Japanese Government commencing in late 1982, an exchange of notes was signed on the 25th of May 1984 between the two Governments, the signatories being the Secretary to the Treasury on behalf of the Sri Lankan Government and the Ambassador for Japan on behalf of the Government of Japan. The Government of Japan will grant to the government of Sri Lanka one billion four hundred and thirty million yen (¥ 1,430,000,000) for the purpose of contributing to execution of the project for the expansion of television broadcasting by the Government of Sri Lanka.

The amount of Rs. 7 million (\$259,260) needed for construction of buildings at the two transmitting stations and the provision of infrastructure services at the Colombo building site will be met by the Sri Lanka Rupavahini Corporation from its own funds.

*I T N (Independent Television Network):* The Competent Authority of the I T N D.T.L. Guruge, sunning up nearly five years of work, said that ITN had been able to offer a good fare to its viewing public, thereby gaining the confidence of the majority even though they may not have satisfied all.

The ITN initially had only 3.7 million (\$137,038) worth of rather malfunctioning equipment after its take over from the original private

owners. Thereafter every thing had to be purchased, since no organization local or foreign donated anything to the ITN. Today ITN is not only "Independent" by name, but independent in fact, being entirely self-sufficient and generating its own funds to run the network.

**TV and Violence:** TV experts recently adjudged that there was no tangible evidence as yet to establish that television has promoted violence in Sri Lanka. According to police authority, statistics compiled on crime showed that figures for homicides, house-breaking, and thefts involved sums exceeding Rs. 5,000 stood at 2,574 in 1977 and at 3,077 in 1983. Therefore, it would be unsafe to attribute that slight increase to TV only.

Rupavahini Corporation and I T N (Independent Television Network) is directly under the Minister of State, Minister of State: Dr. Ananda Tissa de Alwis, Secretary Ministry of State: B.I. Gunatunge, Additional Secretaries; G.P.S.U. de Silva, Tom Pathmanathan, Address: Transworks House, Colombo 1, Sri Lanka. Tel: 31747, 31748, 31749.

Rupavahini Corporation, Chairman: M.J. Perera, Director General: Dr. Anura Gunasekera, Deputy General Manager: Henry Jayasena, Address: Torrington Square, Colombo 7. Tele: Chairman 580131. Tele: Office 580123, 580136.

Independent Television Network: Competent Authority: M.D.T.L. Guruge. Address: ITN Studios, Wickramasinghepura, Kotte, Sri Lanka, Sri Lanka Broadcasting Corporation: Chairman: Livy Wijemanna Address: Torrington Square, Colombo 7. Telephone: (Chairman) 596439 Office: 597491, 597500.

Liasoning & Promotion of Production of Television Films, Programmes Production and Sales of Television films for Sri Lanka and Republic of Maldives: Chandra S. Perera, TV film producer, cinematographer director, journalist. Representing National Broadcasting Co. Inc. N.B.C. News of New York, W.T.N. (Formerly UPITN) London-New York. Address: 437 Pethiyagoda, Kelaniya, Sri Lanka Cables "Telecinex". Colombo, Phone 521885.

CHANDRA S. PERERA

## SWITZERLAND

The Swiss Broadcasting Corporation (SBC) holds a State concession for sound and television broadcasting. The SBC handles all programme matters, while the PTT enterprises are responsible for the transmitters and relay facilities.

As of April 30, 1985, there were 2,156,743 TV sets in operation in Switzerland and 1276 transmitters and booster on the air. The French and German language-stations schedule about 65 hours weekly, each. The Italian language transmitters have about 60 hours of programming each week (without Eurovision—European TV Programme exchanges.)

February 1, 1965 commercial TV was introduced on a limited basis. From January 1, 1974, 20 minutes on weekdays at the utmost, at 18,700 francs per minute from 1/1/85. Annual licenses cost 174 francs from 1/10/82 for private sets.

About 89 per cent of all households have colour TV sets.

—GERDA GOEPPFERT-KLIMISCH

## TAHITI

Office of Radiodiff-Télévision Française, Papeete, operates four channels 34 hours weekly to serve the estimated 24,000 sets of this French possession. It is owned by the government and buys its canned programs in Paris.

## THAILAND

Thai Television Company (government-owned) opened its first station in 1955 and there are four stations (two using color) and 8 relays on a commercial basis. Stations are also operated under names of Bangkok Broadcasting & TV, Bangkok Entertainment Co. and Mass Communication Organization of Thailand, all located in Bangkok. Sets are estimated at 2.6 million, some color.

In 1980 a ban on broadcasts from 6:30 to 8:00 PM, as a power-saving measure, allegedly improved "family relationships" so at present broadcasts are limited to 8 hours on weekdays, and 16 hours on weekends and holidays.

## TURKEY

Turkish Radio Television Corp., P.O. Box 98, Kizilay-Ankara serves 3.7 million TV sets via 37 stations.

## UNITED ARAB EMIRATES

Established 1969 by Thompson TV International and Abu Dhabi TV Service. In 1971 United Arab Emirates TV Service, P.O. Box 637 Abu Dhabi established separate facilities which now consist of three stations and three relays. Dubai Radio and Color TV, P.O. Box 1695, Kuba, now broadcasts on two channels from 1 station and 1 relay in Arabic, French and English. 100,000 sets.

## VIETNAM

Since 1968 the Government Information Department of the Democratic Republic of Vietnam has operated one non-commercial station in Hanoi. Number of sets is about 513,000.

A second station was added in Saigon (now known as Ho Chi-Minh City) when South Vietnam was "liberated" and the divided country became one.

## WEST GERMANY

Latest statistics on television in Germany:

**TV Households:** Out of approximately 24,000,000 German households, 23,000,000 have at least one television set. Of these, about 16,000,000 have at least one color set. Some 23,000,000 households have at least one radio. Total TV set sales per year: about \$2.2-billion.

**Transmission:** Only over-the-air TV transmission operates in Germany. Cable and satellite transmission is being planned, but neither form is likely to appear in significant commercial terms until after 1985. After five years of discussion, pilot cable projects are underway in Ludwigshafen, Dusseldorf and Berlin. First German TV satellite won't be launched until 1984, with serious technical consideration of the form getting underway in earnest by about 1986.

**TV Networks:** Germany has no networks similar to webs in the U.S. In fact, there are no privately-owned commercial TV stations; all telecommunication is state-owned. Basically, the two national TV outlets are: ARD, the national hookup of nine regional stations; and ZDF or second channel, a single nationally-beamed station based in Mainz near Frankfurt. ARD's nine stations each contribute to one joint national broadcasting operation, five regional channels and several radio channels. ARD has a budget of about \$1,640-billion; ZDF, \$556,000,000. Commercials are aired on both stations in sharply limited timeslots. Stations are supported largely by \$6.50 monthly license fees paid by TV set owners.

## YEMEN (Arab Republic)

San'a Television, Ministry of Information, San'a, established in 1977, currently broadcasts on 3 channels to some 120,000 sets.

## YEMEN (People's Republic)

Established in 1964, People's Democratic Republic of Yemen, P.O. Box 1264, Aden, broadcasts on 3 channels to an estimated 50,000 sets.

## ZIMBABWE

Established in 1960 as Rhodesia TV, and now named Zimbabwe Broadcasting Corp., P.O. Box H.G. 200, Highlands, Harare, its 6 stations serve some 500,000 sets.
